- Support/Resistance Levels for Nifty-50

## Market Insight:

BSE Sensex and Nifty have exhibited a bearish candlestick. And they have moved below important support levels. This has bearish implications and it indicates that the current trend has a negative bias. Hence, caution is advised in the market for the time being.

On the resistance front; the Nifty faces resistance at 3820 and the Sensex at around 12825. Technically, as long as the Indices trade below these levels, the trend can be assumed to be weak.

On the support front, the Nifty finds support at around 3550 level and the Sensex at around 12,300 levels. Breach of these support levels may have bearish implications and would indicate much lower levels.
