2. ITC's 2QFY09 results were in line with our expectations. The company posted a PAT of Rs8b (v/s our estimate of Rs7.9b), up $4.1 \%$. Reported sales at Rs38b (v/s our estimate of Rs39b) were up $15 \%$ YoY. EBITDA was Rs11.1b; margins declined 180bp to $29.7 \%$ due to $36 \%$ increase in staff cost and $41 \%$ increase in other expenditure.
\& Cigarette volumes declined $2 \%$ ( $2.25 \%$ in 1HFY09) on $75-80 \%$ conversion in the plains segment. Cigarette sales grew $10.9 \%$; PBIT grew $16.6 \%$, as margins expand by 135 bp . Management expects margins to improve further due to full impact of price increase $(5-6 \%)$ in the coming quarters.
es New FMCG business sales grew $29.4 \%$ to Rs7.6b while PBIT losses increased $219 \%$ to Rs1.16b (Rs1.22b in 1QFY09); PBIT margins improved 230bp QoQ but declined 913bp YoY. Branded foods reported $24 \%$ increase in sales in a highly inflationary environment; customer acceptability is improving for the personal care segment. Management has guided new FMCG business losses of Rs4b in FY09 (Rs2.4b loss in 1HFY09).
\& Paper \& paperboards reported $22.6 \%$ increase in sales and $2.6 \%$ decline in PBIT, as margins declined by 420bp. Increase in depreciation on new writing paper unit and sharp increase in input prices impacted margins. Management has guided increase in profit margins due to stabilization of pulp facility (122,000 ton) and decline in coal prices.
\& Hotel business reported $9.7 \%$ increase in sales and $4.2 \%$ increase in PBIT, as margins declined by 158 bp . Management has guided for lower sales and profit growth due to global melt down.
${ }_{2}$ 2 ITC has been facing considerable headwinds in the cigarette business in the past couple of years. $75-80 \%$ filter cigarette conversion and expansion is positive. New FMCG is expected to remain in investment mode in the medium term. Hotels business is likely to witness pressure on sales and profits while paper business should bounce back in the coming quarters. The stock trades at $17.5 x$ FY09E EPS of Rs9 and 15.1x FY10E EPS of Rs10.5. We maintain Buy.

Cigarette volume declines 2\%; price increase to boost margins in 2HFY09
Cigarette volumes declined $2 \%$ ( $2.25 \%$ in 1HFY09), following the discontinuation of sale of non-filter cigarettes ( $19 \%$ of volumes). The micros segment has been completely lost to the unorganized sector while the plains segment has reported $75-80 \%$ conversion toFilter cigarettes.

Cigarette business gross sales grew $10.9 \%$, PBIT grew $16.6 \%$, as margins expanded 135bp. Profit margins would have been higher by $50-60 \mathrm{bp}$, but for continued investments in point-of-sale promotions. Management expects margins to improve further, as benefits of average 5-6\% price increase (Classic, Gold Flake Kings, Gold Flake and Berkeley) would be fully reflected in the coming quarters.

Recently, the government has enforced a ban on cigarette smoking in public places. We do not expect a meaningful impact on volumes due to this directive. Our estimates factor in $4 \%$ decline in cigarette volumes in FY09.

Source: Company/Motilal Oswal Securities

## Other FMCG: improving acceptability in personal care; entry into new segments likely in 4QFY09

New FMCG business sales grew $29.4 \%$ to Rs7.6b while PBIT losses increased 219\% to Rs1.16b (Rs1.22b in 1QFY09); PBIT margins improved 230bp QoQ but declined 913bp YoY. Management has guided new FMCG business losses of Rs4b in FY09 (Rs2.4b loss in 1HFY09).

Processed foods: Branded foods reported $24 \%$ increase in sales in a highly inflationary environment. The company maintained $11.5 \%$ market share in biscuits and $16 \%$ in potato chips. Continued rise in raw material prices has impacted profitability. The Bingo! product range got further enhanced with the recent launch of finger snack Hatke Jhatke in two flavors - funky masala and tomato twist. Sunfeast range of biscuits continues to post strong growth and Aashirvaad continues to maintain its leadership position.

Lifestyle retailing: Lifestyle retailing continued to enhance consumer franchise, with 53 Wills Lifestyle stores. Margins remained under pressure due to rising lease rentals. However, the company is trying to mitigate the impact by re-negotiating the rental cost, taking early positions in key malls, and is considering selective ownership of stores.

Personal care: ITC continues to expand its presence in this category and plans to increase its offerings to gain footprint amongst the national branded players. Personal care has launched Superia range of anti-dandruff shampoo. All the key brands like Fiama Di Wills, Vivel Di Wills, Vivel and Superia continued to gain consumer franchise. The company has taken up extensive distribution and R\&D investments to keep robust pipelines of products and variants. Planned lauches include anti-dandruff shampoo variants of Vivel and Fiama Di Wills. New personal care launches are likely by 4QFY09.

SEQUENTIAL IMPROVEMENT IN MARGINS

## Agri business: spurt in leaf tobacco prices boost operating performance

Agri business reported $16.7 \%$ increase in sales and $668 \%$ increase in PBIT, as margins expanded to $8.8 \%$ ( $1.3 \%$ in 2QFY09). $80 \%$ spurt in the price of leaf tobacco crop from Andhra Pradesh on demand-supply mismatch boosted profitability. Leaf Tobacco export margins are near its peak. The country has harvested bumper soy crop of $10-11 \mathrm{~m}$ tons as against normal level of 7 m tons. This should boost soy export prospects in coming quarters. e-Choupal continues to improve farmer effectiveness through the establishment of IT enabled virtual network.

Source: Company/Motilal Oswal Securities

## Hotels: occupancy and room rents to take a hit

Hotels business reported $9.7 \%$ increase in sales and $4.2 \%$ increase in PBIT, as margins declined by 158 bp . The business maintained growth in ARR (average revenue per room) and occupancy levels. Segment is likely to remain under pressure in coming quarters, as the global financial meltdown would adversely impact both leisure and business travel. New properties in Bangalore and Chennai are expected to commence in FY10 and FY11, respectively.

## Paper \& paperboards: input costs impact margins; bounce back likely in 2HFY09

Paper \& paperboards reported $22.6 \%$ increase in sales and $2.6 \%$ decline in PBIT, as margins declined by 420bp. Increase in depreciation on new writing paper unit and sharp increase in input prices of coal, power and fuel impacted margins.

Input cost pressure was partly mitigated by increase in sales realization (increase of Rs1,000/ 2,000 per mt ). Management has guided increase in profit margins in coming quarters as stabilization of pulp facility ( 122,000 ton) and decline in coal prices would enable margins to expand. Stabilization of 100,000 tpa writing and printing paper facility with forward linkages to stationary business will boost prospects in the coming quarters.

## Valuation and view

ITC has been facing considerable headwinds in the cigarette business in the past couple of years. $75-80 \%$ filter cigarette conversion and expansion is positive. New FMCG is expected to remain in investment mode in the medium term. Hotels business is likely to witness pressure on sales and profits while paper business should bounce back in the coming quarters. The stock trades at 17.5x FY09E EPS of Rs9 and 15.1x FY10E EPS of Rs10.5. We maintain Buy.

## ITC: an investment profile

## Company description

ITC is an associate of BAT (British American Tobacco) controls more than $2 / 3^{\text {rd }}$ of the cigarette market in India. ITC has emerged as a diversified conglomerate with leading presence in Paperboards, Hotels and Processed foods. EChoupal, the agri rural initiative of the company has been widely appreciated for its foresight in harnessing the potential in the rural market.

## Key investment arguments

2s Strong pricing power due to dominant market share in the cigarettes
2s Hotels and Paperboard businesses have achieved self sustenance levels
2. Fastest growing company in the processed food sector

2s Excellent long term potential in its rural initiative of E Choupal and Choupal Sagar

## Key investment risks

2) A high indirect tax regime could dampen cigarette growth.

* Higher than expected losses in New FMCG business will impact profitability.

## Recent developments

e Launch of superia anti-dandruff shampoo.
\& Launch of Hatke Jhatke variants in Bingo.

## Valuation and view

2 We have EPS forecasts of Rs9 for FY09 and Rs10.5 for FY10.
es The stock trades at $17.5 \times$ FY09E and 15.1x FY10E. Maintain Buy with SOTP-based target price of Rs220.

## Sector view

\& We have a cautious view on the sector on the back of inflationary tendency in the economy, which might impact volumes as well as profit margins of companies.
2s Companies with low competitive pressures and broad product portfolios will be able to better withstand any slowdown in a particular segment.
\& Longer-term prospects are bright, given rising incomes and low penetration.
