

Leibniz
Universität
Hannover

The Institute of Horticultural Production Systems, Vegetable Systems Modelling Section, invites applications for a position as a

Post-Doctoral Researcher in Crop Modelling (Salary Scale 13 TV-L)

to be appointed December 1, 2018. The position is limited to 30.11.2019.

Responsibilities and duties

Responsibilities and duties include eco-physiological and modelling research in canopy structure and processes of wheat within the collaborative research project BRIWECS.

Employment conditions

To qualify for the position, applicants must hold a University degree in agriculture, mathematics of natural sciences, and preferably a PhD degree. In addition, a solid knowledge in crop physiology and crop modelling is desirable.

Part-time employment is possible.

As an equal opportunities employer, Leibniz Universität Hannover intends to promote women and men in the context of statutory requirements. For this reason suitably qualified women are specifically invited to apply. Equally qualified applicants with disabilities will be given preferential treatment.

For further information, please contact Prof. Dr. H. Stützel, Phone: +49 511 762 2635, email: stuetzel@gem.uni-hannover.de, who will be pleased to assist.

Please send your application with the usual documents and papers by 19. October 2018 to
