Sir,

An example How DDA & MUD closes Public Grievance launched through PG Portal.  
The Complaint was launched on March 2015 and today 29 March 2015 the DDA closed stated this is redressed.  
You may send any one to verify this matter even today the entire stretch is digged up.

I never thought under Modi Govt and Naidu Minister as MUD, DDA staff will be behaving in this manner.

I am sorry to state that these DDA officials never given any value to public and now that they are doing the same to your Ministry and Ministers.

Regards

Rejimon CK

Dear Mr. Supriyo,

We have been hearing of various news on your initiative to correct.

I hope this email will be placed before you by your office staff. This is serious matter on 7th July 2014 a road near Sector 22 Metro Junction along Road No. 210 service road digged. Its been EIGHT Months passed the road still remain in same condition with HIGH DUST Pollution adding to Delhi Pollution. As you may aware 30% of Delhi pollution is Dust pollution.

Similarly the Horticulture depart of DDA who claim they maintain the CENTRAL Verge of each road leave a large amount of loose earth to road, which finally goes up in air as each vehicle tyre moves on that part. In terms of Horticulture department it may be due to lack of Awarness as it been given to contractors and Mali to supervise they are not much conversant with these Pollution issues. That s not the case of Civil Engineer Wings.

The Engineer Member DDA, Chief Engineer DDA an down all been informed. However there is no action.

I am sure you will give personal attention to it and give some GOOD words these officials who are promoting the Pollution in the city.

Appreciate your office acknowledge and ATR sought in the matter.

Regards
