

The newly established Professorship Behavioral Aspects of Environmental Planning at the Institute of Environmental Planning invites applications for the position of a

## PhD Researcher (m/f/d) – Environmental Behavior, Policy and Planning (Salary Scale 13 TV-L, 65 %)

starting March 15, 2022. The post has a duration of three years.

### Description of responsibilities

- Research in the innovative field of "Behavioral Environmental Planning", which analyses human decision-making at the nexus of the social, natural and built environments
- Contribution to the teaching activities of the professorship
- Participation in, and support of, activities of the professorship particularly in the organisation of the *mobileLab*, with which students and researchers will analyse behaviour of relevant decision-makers in the field

### Required qualifications

- scientific university degree (M.Sc.) in Economics or Psychology
- Very good English language skills
- Experience with data analysis
- Interest in interdisciplinary cooperation
- Ability to work independently and as part of a team
- Interest in behavioural questions related to land use, spatial development and/or environmental policy and regulations

### Desirable qualifications

- Prior knowledge about or experience with economic or psychological experiments
- Experience with lab-in-the-field and field experiments
- Good German language skills
- Interest in transdisciplinary work and/or experience in working with diverse stakeholders

### We offer

- Work in a young and innovative team
- An excellent and vibrant scientific environment
- Opportunity for exchange in international and policy-relevant networks
- An inter- and transdisciplinary collaborative research community at the Institute of Environmental Planning working on timely and highly socially relevant questions
- The possibility to write a cumulative PhD thesis

Leibniz  
Universität  
Hannover

The university aims to promote equality between women and men. For this purpose, the university strives to reduce under-representation in areas where a certain gender is under-represented. Women are under-represented in the salary scale of the advertised position. Therefore, qualified women are encouraged to apply. Moreover, we welcome applications from qualified men. Preference will be given to equally-qualified applicants with disabilities.

For further information, please contact Prof. Dr. Ann-Kathrin Koessler  
(Email: [koessler@umwelt.uni-hannover.de](mailto:koessler@umwelt.uni-hannover.de)).

Please submit your application including a letter of motivation, CV, two letters of recommendations, and degree certificates of university studies by February 15, 2022 either in electronic form (as PDF documents) to
