Oracle Academy Member Benefits

Oracle Academy member benefits offer educators and students computer science education resources to advance knowledge, skills development, innovation and diversity in technology fields.

Create Oracle Account

The screenshot shows the Oracle website's sign-in and account creation interface. At the top, there is a red header with the Oracle logo. Below the header, the page is split into two columns. The left column is titled "Sign In" and contains two input fields: "Username" and "Password". The "Username" field has a placeholder text "Your username is usually your email address" and a "Forgot Username?" link below it. The "Password" field has a "Forgot Password?" link below it. A red "Sign In" button is positioned below the password field, with a "Need Help?" link underneath. The right column is titled "Don't have an Oracle Account?" and contains a paragraph of text: "A free Oracle Account gives you access to Oracle online applications and services, support, events, communities, and more." Below this text is a grey "Create Account" button. At the bottom of the page, there is a small disclaimer text, the Oracle slogan "Hardware and Software, Engineered to Work Together", and a row of social media icons (Facebook, LinkedIn, Twitter, YouTube, and a generic social icon).

Click "Create Account".

- Follow instructions for creating your Oracle account. This account will also become your Oracle Academy member account.
- Once your account is created, sign in.

If you already have an Oracle account, skip this step and sign into your existing account.
