In the Faculty of Biology of the University of Würzburg at the
Theodor Boveri Institute of the Biocenter a
University Professorship (m/f/d)
(grade W3)
for Neurobiology and Genetics
in the civil service for life
is to be filled as soon as possible.

The professorship represents the subject "Neurobiology and Genetics" in research and teaching and applicants shall strengthen the research focus "Würzburg Insect Research". The Chair of Neurobiology and Genetics is part of the Biocenter of the University of Würzburg. The duties of the future position holder include the representation of the subject Neurobiology and Genetics in teaching. In research, applicants are expected to address fundamental questions of neurobiology and genetics in insects in line with this focus area within the Biocenter. State-of-the-art neurogenetic, physiological, microscopic, and behavioral methods should be used. The research focus should be on molecular and cellular mechanisms of action in neuronal networks of the nervous system underlying the adaptation of behavior and physiology to a changing environment.

Experience in obtaining external funding is required. We expect the willingness for interdisciplinary cooperation, especially within the focus area "Würzburg Insect Research" and within the Biocenter as well as an active participation in one or more of the other focus areas of the Faculty of Biology. Cooperation with neuroscience-oriented research groups of the Faculties of Medicine, Psychology and Informatics/CAIDAS is also desired.

Requirements for employment are a relevant university degree, pedagogical aptitude, a special aptitude for scientific work, which is usually demonstrated by the quality of a doctorate, as well as the habilitation or proof of equivalent scientific achievements in a relevant scientific field, which also may have been achieved in the context of a junior professorship or outside the university sector. According to Art. 10 Para. 3 BayHSchPG, an appointment to civil service can only be made up to the age of 52. Exceptions are possible in urgent cases. The University of Würzburg attaches great importance to the intensive supervision of students and doctoral candidates and expects corresponding commitment from the teaching staff. The University of Würzburg aims to increase the proportion of women in research and teaching and therefore expressly invites applications from suitably qualified female academics. Severely disabled applicants will be given preference in the case of otherwise essentially equal suitability.

Applications with the usual documents (curriculum vitae, references, certificates, list of publications, list of courses, teaching concept) should be sent as a single PDF document

until **January 06, 2023**

to the following address

Dean of the Faculty of Biology, Biocenter, Am Hubland, 97074 Würzburg, Germany:

w3_ng@biozentrum.uni-wuerzburg.de

Please refer to the information on our website (<https://go.uni-wue.de/w3ng>). The application includes the applicants' consent to the electronic recording of the application documents, the creation of copies, the storage and possible forwarding of the application documents to the reviewers as well as the non-return of the application documents after the conclusion of the procedure.
