

We are prepared to pursue this issue. We are prepared to fund the battle which includes a battle regarding experts. If there are projects that we might undertake, we will undertake them. We do not think Grassy Narrows First Nation is viable. It may be that other areas or other wrongdoing by companies is viable.

If you know of any identifiable defined groups of individuals then you should write to me about them or send me an email about them and we will consider whether something could be done on their behalf.

I view class action work to be a part of accomplishing for people and part of that task is to effect societal change. We are interested in trying to assist in this area if you have areas of identifiable wrong with which we can grapple in the Courts.

Yours truly,

MERCHANT LAW GROUP LLP
