

HACKERSPACE DEMO NIGHT

Sharing projects with each other

Tuesday September 20, 2017 at 7:30 PM | facebook: Gainesville-Hackerspace

Sun Center Basement (Wise Guys Sign)
101 SE 2nd Pl #100, Gainesville, FL 32601

THIS MONTH'S DEMOS

CHRIS HOFFMAN

Chris spend a few days testing and playing with the new laser cutter. He will present his findings, tips & tricks for use and show of his results.

KEN MCGRUN

Ken is running for Congress. He will share his experience and answer questions.

JOE DIPIETRO

Joe will present a continuation of his ESP8266 project form last month's demo. This time there is new PCB board and new configurations.

FUTURE CLASS: KICAD

KiCAD

is a free software suit for electronic design automation.

It facilitates the design of schematics for electronic circuits and their conversion to PCB designs.

Presentation

Eddie and Joe will give a powerpoint presentation about KiCAD and future class they want to teach. Come see it to learn more.

Would you like to join Joe's and Eddie's class? Head to facebook's group and tell us yes on KiCAD poll.
