## MARKET OUTLOOK

**NIFTY (5188.40, DOWN 50.75)**

After opening on a shaky note, benchmark Nifty traded in the negative territory throughout yesterday's trading session. At the end of day it closed at 5188.40. It had a net loss of 50.75 points or 0.97% over the previous day's close. On the sectoral front, selling pressure was witnessed on Auto, Metal, Banking, PSU and Realty stocks. However, Information technology stocks traded marginally higher.

The daily chart of Nifty is showing that it has been moving in the narrow range of 5350 and 5150 since last one month. Now, Nifty is expected to get a strong support in the band of 5150 and 5100. If Nifty breaches 5100, it may further go down and take support near 5050 and then 4940. However, a breach of 5350 would open the gate for 5500 in the extreme short term. Traders are advised to maintain a stop loss at 5100 of the long positions.

On an intra-day basis Nifty has a support at 5150 and is likely to face a stiff resistance near 5240. If Nifty breaks 5150, it may further go down to 5130 and then 5100. However, if it is able to sustain above 5240, the level of 5280 – 5350 would become the next target.
