### **BANKING**

To encourage use of electronic payments and minimise use of cheques, an RBI discussion paper has recommended that the number of free cheque books given per year to individuals may be kept to a minimum. The charges levied by banks beyond this minimum number may range from moderate to steep (slab rate), depending upon the usage history of the customer. A quick look at the charges being levied by banks shows that generally they provide 20-50 cheque leaves to savings bank customers for free, either on a quarterly or annual basis. Few banks do not provide any free cheque books, while a few others provide free-of-cost cheques every quarter. Beyond this, the charges levied range from Rs 2 to 3 a cheque leaf. In most banks, current account holding customers are not given any free cheques, though the charges are very nominal ranging between Rs 3 and 4 a leaf.

State Bank of India has pared its minimum lending rate from 9.75 per cent to 9.70 per cent. This move comes a day after the Reserve Bank of India cut its key policy rate and the cash reserve ratio by 25 basis points each. However, India's largest lender left deposit rates unchanged. This can be attributed to the challenge the banking system is facing in garnering deposits as savers are buying gold and investing in mutual funds. SBI's new minimum lending rate, also known as base rate, will be effective from February 4.

To wean investors away from buying gold, Reserve Bank of India has decided to introduce inflation-indexed bonds (IIBs) in a new avatar. Gold imports have been a cause of concern for both the Reserve Bank of India as well as the Finance Ministry. Last week, in a bid to restrict gold imports, the Government hiked the import duty on gold to six per cent from four per cent. The central bank had introduced IIBs some years ago but it did not take off due to some design flaws. RBI has tried to re-design it. The most important change is that both principal as well as the coupon rate on the bond will be indexed to inflation.

Central Bank of India's board of directors approved raising of up to Rs 2,406 crore through preferential issue of shares in favour of the Government of India. The bank has called for an EGM of shareholders on March 18 to approve the proposal.
