

Guideline for the “Letter of Motivation” for the Application for Public Health Projects

- Why are you applying for this specific project? Explain your motivation. Do you have any personal relations to the target country / culture? If you do, describe your experiences.
- What do you expect to experience during the project and which chances and risks do you see in it?
- Describe your curriculum Studiorum? Are you a clinical or a pre-clinical student?
- In which kind of social activities have you been involved, are you involved?
- Describe your experiences in volunteer or professional work. Have you ever been involved in any development aid projects or similar activities?
- Have you worked in a team before? Are you working in a team at the moment?
- Did you work in IFMSA / GeMSA projects – In which fields? Have you organized something with GeMSA? What did you do?
- Explain in detail, how did you get this AF? Have you worked together/ are you going to work with someone who has already been in the project?
- How did you get to know about the project?
- How could you support the project after your participation?
