Radio Configuration
HARC-102

HARC recommends that you have the following frequencies programmed into your radio prior to being activated to support an emergency. Having some of these frequencies preprogrammed will save you time as we remain flexible to the fluid nature of emergencies. The list below comprises our simplex frequencies that we use along with some common local repeaters.

#	Frequency	Type	Purpose	CTCSS / DCS	Offset
1	146.46	Simplex	Primary		
2	449.250	Repeater	Primary Repeater	118.8	(-)
3	146.40	Simplex	Secondary		
4	147.56	Simplex	Misc. Backup		
5	146.52	Simplex	National Call		
6	147.40	Simplex	ARES Simplex		
7	146.62	Repeater	Farnsworth Peak / Infonet	none	(-)
8	145.45	Repeater	Butterfield Peak	100	(-)
9	TBD	Repeater	ARES Primary		
10	TBD	Repeater	ARES Secondary		
11	146.88	Repeater	A.R.E.C. Primary	88.5	(-)
12	146.700	Repeater	A.R.E.C. Secondary	100	(-)
13	446.500	Simplex	Misc		
14	447.800	Simplex	Misc		
15	438.150	Simplex	ARES Simplex		
16	438.175	Simplex	ARES Simplex		
17	447.900	Repeater	Curry Peak	114.8	(-)
