

PUBLIC SEMINAR ANNOUNCEMENT

FREQUENCY PLANNING 101

GUEST SPEAKER: ARTHUR FELLER (W4ART)

WEDNESDAY, OCTOBER 16TH, 2013 @ 4:30PM

LOCATION: POST 723 (UH MANOA, 1680 EAST-WEST RD.)

Are you interested in developing wireless systems such as sensor networks, UAV/UAS, or even spacecraft? Join us for a glimpse into how our U.S. radio frequencies are allocated, the problems we face today, and how you can start planning for your own slice of the frequency pie!

Speaker Biography:

Arthur has been a licensed amateur since 1963. ARRL and AMSAT count him as a Life Member. He holds life membership in the IEEE and is a Fellow of the Radio Club of America. Professionally, he worked as an electronics engineer with the FCC for 27 years, was Chief of Frequency Planning and Equipment Regulation for the Israel Ministry of Communications, and served as the first Communications Officer for the Office of United States Foreign Disaster Assistance in USAID at the Department of State: Perpetual Field Day!

If you plan on attending, please send your RSVP by
Tuesday October 15th to jeremy@hsfl.hawaii.edu
