

## **Freelance part-time job opportunity for speakers of HUNGARIAN**

We are looking for native speakers of **Hungarian** to help us localise our product.

what3words is a global addressing company that has given every 3m x 3m square on the planet an address of 3 random words – for example, the main entrance of our London office is located at [///filled.count.soap](https://filled.count.soap). 3 word addresses are more accurate than street addresses or postcodes, but much easier to remember and communicate than 16 digit lat-long coordinates. Please read more here: [www.what3words.com/about](https://www.what3words.com/about), and do follow the links to have a look at our map too. You may also be interested in this example of a current project using our technology in South Africa: <https://vimeo.com/207430031>.

We are currently working to launch a **Hungarian** version of our map, so that every 3m x 3m of the globe will have its own unique 3 word address in your language. The job comprises two main phases:

- 1) making sure that the **best**, most **common** words in your language are used, and
- 2) making sure that no **unsuitable** words end up in the 3 word addresses.

No specific qualifications are required, although we are looking for people who are passionate about language – the sort of people who love their language and pride themselves on their spelling and vocabulary skills! An interest in technology is also very useful.

If you are interested in working with us, please apply online at <https://what3words.workable.com/jobs/814568>. Before expressing your interest in our project, please familiarise yourself with our website thoroughly and explore our map. We'd love to hear **what you think of what3words** as well as what your **English 3 word address at home** is (you can find this on our map at <https://map.what3words.com> – the search bar accepts usual street addresses as well as 3 word addresses). You'll also be asked to upload a copy of your CV.

**Work:** freelance from home (computer and internet access needed)

**Compensation and hours:** 4500 HUF per hour, typically around 5–10 hours/week but can be tailored to your particular circumstances

**Duration:** c. 4 months in total from commencement of project

The deadline for applying to the role is **Tuesday 16th October**.

I look forward to hearing from you!

**Jamie Brown**  
**Head of Languages**
