

Treasures in Archives

Call for the production of an audio-visual project

Are you interested in **creating an audio-visual project about the Construction of Europe**, using outstanding archival material?

Would you like to **participate in an international encounter with other European visual creators**?

If your answer to these questions is “Yes” and you are based in Norway, Malta, Hungary, Portugal or Spain, we cordially invite you to participate in our call “Treasures in Archives”.

The project

The call is launched within the framework of the EU-funded project “[European Digital Treasures: Management of Centennial Archives in the 21st century](#)”. As one of the major parts of this project, we aim to reach out to new audiences.

In this context, you are invited to participate in this call. The objective is the **production of short documentaries or animated documentaries based on archival documents from the Middle Ages onwards**. These documents have been selected for their value in helping to better understand, know and investigate our common European history.

The winners of the call will sign a contract with the National Archive responsible in each partner country for the production of the short film or short animated documentary and will be invited to an international encounter taking place in Cork, Ireland, organised by Munster Technological University (MTU) from April 20 to 22, 2022, together with the winners of the other participating countries.

How to participate

For more information on this call, please go to <https://www.treasuresinarchives.com/> where you find all about the project dates, the archival documents to choose from, the technical details for your submissions, and much more.

Application until October 31st, 2021!
