[Dear Grandchildren, Alta Brean](#) , 2003, 0972636005, 9780972636001. "Dear Grandchildren, some of you have asked, 'What was it like when you were little?' I will try to write some of the things I remember and some of the things I have been told."Alta F. Brean brilliantly recounts her life as a child among the Brown and Collier families on the frontier in the early 1900s. With vividness and unusual clarity, she brings her readers back to a much simpler time nearly a century ago: a time when children drove horse-drawn wagons to school; a time when families lived in tents or in "Homestead houses."From the Indian Territory that would become the state of Oklahoma, to the newly admitted states of New Mexico and Arizona, Alta's family pursued their dream of living in a land "where a man could raise cattle and make a good living without the hard work associated with farming." But they discovered that ranching wasn't so easy either.From snap dragons in spring to sad irons in winter, this is the true account--told in rich detail--of farm life in Oklahoma and pioneer life out West in the early Twentieth Century.

[Explosion-Resistant Buildings: Design, Analysis, and Case Studies, M. Y. H. Bangash, T. Bangash](#) , 2006, 3540206183, 9783540206187. Many nations have become victims of terrorism. Bombs have exploded in and around buildings and other structures. Such events have generated considerable concern over the ability of countries and governments to protect installations and their occupants against a potential threat of terrorism. Many countries have established defence agencies and research councils who are currently examining the structural integrity of existing buildings and other vital installations. In some countries coded methods have been developed together with the design methodologies and construction techniques to try to protect old installations against vehicle bomb effects in particular. The purpose of this book is to give an exhaustive study of buildings structures resisting explosion with and without external/internal impact and ?recaused by such effects. A number of case studies with damage scenarios are included. The book is divided into various chapters. Chapter 1 gives a review of bomb-affected buildings. Case studies including Alfred P. Murrah Federal Building in Oklahoma and World Trade Center (WTC) Twin Towers in New York have been given a wide coverage. Notable explosions in the world with relevant data are tabulated. After the sethedral age scenario of the Pentagon building is fully

described. This chapter now resorts to the availability of data on major explosive elements, their ingredients and material properties.

Minette Walters writes a poignant letter from a despairing wife. Julian Fellowes has created a biography of a resourceful woman whose husband was executed during Henry VIII's reign. Sarah Singleton relates the adventures of a spice merchant and amateur musician struggling to make his way in the world, despite his illegitimate status. Joanna Trollope tells a touching tale about the offer of a marriage proposal in the form of a letter from the sitter's intended bride. By contrast, the fantasy writer Terry Pratchett has written an amusing tale about an explorer who presented Elizabeth I with a skunk. And John Banville has seen, in the features of a man on his deathbed, the face of an admired officer serving with Cromwell's New Model Army. [Roger Williams and the Creation of the American Soul: Church, State, and the Birth of Liberty, John M. Barry](#) , 2012,

1101554266, 9781101554265. A revelatory look at the separation of church and state in America from the New York Times bestselling author of *The Great Influenza*. For four hundred years, Americans have fought over the proper relationships between church and state and between a free individual and the state. This is the story of the first battle in that war of ideas, a battle that led to the writing of the First Amendment and that continues to define the issue of the separation of church and state today. It began with religious persecution and ended in revolution, and along the way it defined the nature of America and of individual liberty. Acclaimed historian John M. Barry explores the development of these fundamental ideas through the story of Roger Williams, who was the first to link religious freedom to individual liberty, and who created in America the first government and society on earth informed by those beliefs. This book is essential to understanding the continuing debate over the role of religion and political power in modern life.

[Changing Conversations in Organizations: A Complexity Approach to Change, Dr Patricia Shaw](#) , 2004, 0203402715, 9780203402719. Drawing on the theoretical foundations laid out in earlier volumes of this series, this book describes an approach to organizational change and development that is informed by a complexity perspective. It clarifies the experience of being in the midst of change. Unlike many books that presume clarity of foresight or hindsight, the author focuses on the essential uncertainty of participating in evolving events as they happen and considers the creative possibilities of such participation. Most methodologies for organizational change are firmly rooted in systems thinking, as are many approaches to process consultation and facilitation. This book questions the suggestion that we can choose and design new futures for our organizations in the way we often hope. Avoiding the widely favoured use of two by two matrices, idealized schemas and simplified typologies that characterize much of the management literature on change, this book encourages the reader to live in the immediate paradoxes and complexities of organizational life, where we must act with intention into the unknowable. The author uses detailed reflective narrative to evoke and elaborate on the experience of participating in the conversational processes of human organizing. It asserts that possibilities are perpetually sustained and changed by the conversational life of organizations. This book will be valuable to consultants, managers and leaders, indeed all those who are dissatisfied with idealized models of change and are searching for ways to develop an effective change practice.

[The Multitasking Mind, Dario D. Salvucci, Niels A. Taatgen](#) , 2010, 0199780390, 9780199780396. Multitasking is all around us: the office worker interrupted by a phone call, the teenager texting while driving, the salesperson chatting while entering an order. When multitasking, the mind juggles all the many tasks we're doing this second, this hour, this week, and tries to perform them together-sometimes with great ease, sometimes with great difficulty. We don't often stop to think about how exactly we accomplish these feats of multitasking great and small. How do we switch from one task to another? What types of multitasking are disruptive, and when are they most disruptive? And ultimately, how can we take advantage of the benefits of multitasking while alleviating its negative effects in our daily lives? This book presents the theory of threaded cognition, a theory that aims to explain the multitasking mind. The theory states that multitasking behavior can be expressed as cognitive threads-independent streams of thought that weave through the mind's processing resources to produce multitasking behavior, and sometimes experience conflicts to produce multitasking interference. Grounded in the ACT-R cognitive architecture, threaded cognition incorporates computational representations and mechanisms used to simulate and predict multitasking behavior and performance. The book describes the implications of threaded cognition theory across three traditionally disparate domains: concurrent multitasking (doing multiple tasks at once), sequential multitasking (interrupting and resuming tasks), and multitask skill acquisition (learning and practicing multiple tasks). The work stresses the importance of unifying basic and applied research by alternating between in-depth descriptions of basic research phenomena and broader treatments of phenomena in applied domains, such as driver distraction and human-computer interaction. The book also includes practical guidelines for designers of interactive systems intended for multitasking contexts.

Once you get over the shock you see just how clever this book is in its description of men who commit domestic violence. This is a story that must be told, it could save women from suffering at the hands of an abuser. RECOMMENDATIONS A story of domestic violence, portrayed through a series of letters from the victim to her abuser, and the abuser to his brother. Neves has done an incredible job of describing the pathology of a victim staying with her abuser, and an incredible job of describing how the abuser justifies his actions. The

main characters are believable and read as if Neves is very aware of the psychology of domestic violence.

In 2001, Dr. Shirley Press was your typical, hard-working pediatric emergency room doctor...until she won 56 million dollars (17.5 million take home) in the Florida Lottery with a ticket bought in the hospital's gift shop. This stroke of luck brought with it numerous challenges as well as self-discovery. In her memoir, *Pressing My Luck*, Dr. Press takes readers on a tour of her life and candidly looks back on how the lottery windfall affected it. She recalls her childhood in Camden, New Jersey growing up with parents who were Holocaust survivors, her determination to become successful, the wild 1970 summer adventure at Paul McCartney's house and the years dedicated to practicing medicine. And despite her lottery fortune, she reveals how money didn't shield her family from life's adversities, such as her husband's near fatal illness and her son's drug addiction. With insight and candor, Dr. Press recounts her decisions, daily struggles as well as post-lottery observations on family, friends and life in general. In the end, Dr. Press can hardly believe that most of her confidence and personal growth that she thought was due to winning the Lotto could have been achieved without all the money.

[The China Challenge: Standing Strong Against the Military, Economic, and Political Threats that Imperil America, Dana R. Dillon](#) , 2007, 0742551334, 9780742551336. The phrase "rise of China" is used so often that it has become a cliché; nevertheless, China has been and will continue to be a problem well into the future. The People's Republic of China is a hegemonic power in Asia and the rest of the world, and its newfound wealth propels the ambitions of China's leaders. Managing the relationship will occupy a considerable amount of American diplomatic and security resources. Equally problematic is the fact that China's neighbors in Southeast Asia recognize the threat posed by China, but they do not want to see their region become a cockpit of a superpower struggle, and neither do they want to choose between neighboring China and the United States. The United States must craft a strategy of regional resilience for Southeast Asia that encourages economic growth, military reform, and democratic transformation that will enable the countries of Southeast Asia to resist Chinese pressures. The purpose of *The China Challenge* is to take a new look at America's foreign policy in Asia and to provide policymakers with an insight and solutions to the myriad and densely interwoven issues that will confront the United States in the twenty-first century."

[Specialty Competencies in Organizational and Business Consulting Psychology, Jay C. Thomas](#) , 2010, 0199745579, 9780199745579. Originally termed "Industrial-Organizational Psychology (I/O)," practitioners of this specialty emanate from varying backgrounds in business-psychology related fields. Although it was one of the "original four" specialties of the American Board of Professional Psychology established in 1947, the domain of contemporary I/O professional practice can best be thought of as a "hybrid" across multiple traditions. For this volume in the series, Jay Thomas describes this

particular hybrid model. The original board reflecting the specialty of I/O psychology (i.e., the American Board of Industrial and Organizational Psychology) within the greater organization of the American Board of Professional Psychology (which at the time of this writing encompasses 13 differing specialty boards in professional psychology), reconstituted itself in 2005 to be the "American Board of Organizational and Business Consulting (OBC) Psychology." This name change was made in order to best capture the notion that specialists in this area can be educated and trained (and practice) in related, but somewhat differing traditions. Readers interested in this specialty area within psychology will find this text invaluable as the most current description of the competencies thought important to help define the OBC psychologist. Series in Specialty Competencies in Professional Psychology Series Editors Arthur M. Nezu and Christine Maguth Nezu As the field of psychology continues to grow and new specialty areas emerge and achieve recognition, it has become increasingly important to define the standards of professional specialty practice. Developed and conceived in response to this need for practical guidelines, this series presents methods, strategies, and techniques for conducting day-to-day practice in any given psychology specialty. The topical volumes address best practices across the functional and foundational competencies that characterize the various psychology specialties, including clinical psychology, cognitive and behavioral psychology, school psychology, geropsychology, forensic psychology, clinical neuropsychology, couples and family psychology, and more. Functional competencies include common practice activities like assessment and intervention, while foundational competencies represent core knowledge areas such as ethical and legal issues, cultural diversity, and professional identification. In addition to describing these competencies, each volume provides a definition, description, and development timeline of a particular specialty, including its essential and characteristic pattern of activities, as well as its distinctive and unique features. Written by recognized experts in their respective fields, volumes are comprehensive, up-to-date, and accessible. These volumes offer invaluable guidance to not only practicing mental health professionals, but those training for specialty practice as well.

Poppin' Johnny: New American Poems by George Wallace (Three Rooms Press, 2009) is a stunning collection by a poet whose work recalls the conversational diction of the Beatniks, but with an absolutely contemporary flavor. Known worldwide due to his broad-based internet following (for years, Wallace has posted his poems online almost daily), Wallace has selected more than 70 poems for this collection, presenting a panorama of modern-day Americana, a kind of post-modern poetic On the Road that feels like music and offers a surreal trip into what's left of the American heartland. His honesty is as refreshing as his incredible fresh and wholly-original technique. As original Beatnik musician David Amram notes, Jack Kerouac would have loved him.

[Nufarm and AH Marks: a report on the completed acquisition by Nufarm Crop Products UK Limited of AH Marks Holdings Limited.](#) , 2009, 011706727X, 9780117067271. The Competition Commission (CC) will allow the completed acquisition by Nufarm Crop Products UK Limited (Nufarm) of AH Marks Holdings Limited (AH Marks) subject to Nufarm adopting a package of measures to protect the interests of their customers. The Commission concludes that the merger would lead to a substantial lessening of competition in the UK markets for the supply of herbicide products based on two chemicals sold under brand names such as Agritox and Optica. The chemicals are phenoxy acids, technically known as MCPA and MCPP-p, and are used as a relatively low-cost method of broadleaf weed control in grasslands and cereals. In order to address the potential damage to competition and protect customers' interests, Nufarm will be required to adopt a package of remedies aimed at facilitating the entry of certain companies into the markets for MCPA and MCPP-p. In the event that Nufarm is unable to fulfil the requirements of this package of remedies to the CC's satisfaction within a time frame acceptable to the CC, Nufarm may be required to sell the AH Marks business.

[Carnton Plantation Ghost Stories: True Tales of the Unexplained from Tennessee's Most Haunted Civil War House!](#),

[Lochlainn Seabrook](#) , 2009, 0982189966, 9780982189962. With its 100-year history of infant mortality, violence, murder, war, surgical amputations, political intrigue, thousands of ghastly deaths, and a long streak of truly bad luck, it's little wonder that Carnton Plantation is haunted, or that thousands travel each year to visit its hallowed grounds in the hopes of spotting a ghost themselves. What is perhaps more amazing is that no one has thought to chronicle the accounts of Carnton's many ghost stories, and put them in a book for readers of all ages. Lochlainn Seabrook, a former Carnton tour guide and the author of dozens of popular Civil War books, has rectified this situation by providing us with the first nonfiction book ever written about the goblins of Tennessee's most haunted Civil War house. Carnton Plantation Ghost Stories is loaded with both fun and serious facts touching on numerous topics, from the Civil War, plantation life, and Victorian culture, to 19th-Century medicine, genealogy, and slavery. And all is written from the South's point of view, a refreshing perspective that enriches an already fascinating subject: a Southern plantation full of Civil War ghosts!

Included is a complete list of the dead Rebel soldiers buried at the McGavock Confederate Cemetery, over 100 photos and illustrations of paranormal energies, Carnton Mansion, and the grounds, maps of the property, a wonderful and useful "Ghostly Glossary," a history of both Carnton and the Battle of Franklin II, and discussions on Lincoln's War.

Additionally, Seabrook, who is related to the founders and owners of Carnton, has thoughtfully included a family tree for the plantation clan. Entertaining yet educational, diverting yet gripping, this is a book that everyone from ghost-hunters to Civil War buffs will want on their shelf. The foreword is by Austin Cook, team leader of SyFy Channel's hit TV series Killer Contact. Seabrook, a former Carnton tour guide and a relative of the McGavock and Winder families, is a recipient of the prestigious Jefferson Davis Historical Gold Medal. Known as the American Robert Graves after his celebrated English cousin, Seabrook is the sixth great-grandson of the Earl of Oxford, and the author of over thirty popular adult, teen, and children's books, including: The McGavocks of Carnton Plantation: A Southern History; Encyclopedia of the Battle of Franklin; Everything You Were Taught About the Civil is Wrong, Ask a Southerner!; Give This Book to a Yankee! A Southern Guide to the Civil War For Northerners; Honest Jeff and Dishonest Abe: A Southern Children's Guide to the Civil War; A Rebel Born: A Defense of Nathan Bedford Forrest; Abraham Lincoln: The Southern View; The Quotable Stonewall Jackson; The Old Rebel: Robert E. Lee As He Was Seen By His Contemporaries; The Alexander H. Create sensational, full-flavored dishes through this exploration of modern and traditional Italian cooking. Drawing from the best of Italy's cuisine, Nuovo Mondo is a fusion of new- and classic-style Italian cooking. It is the story of an older Italian man a fixture in the food scene for many years and his young apprentice, coming together to explore the Italian food scene, both past and present. Showcasing recipes beyond the well-worn standards, Nuovo Mondo covers the breadth of the Italian culinary landscape. In 120 recipes, de Pieri and McDougall explore dishes of depth and texture where poaching, steaming, and smoking (among more standard techniques) are part of the Italian gastronomic lexicon. They ensure every recipe is straightforward, but not over simplified, and alternatives are offered for ingredients that may be expensive or difficult to find. Both cooks display an innovative approach to food but never stray from the importance of flavor, texture, and presentation.

[Black and White Masculinity in the American South, 1800-2000, Lydia Plath, Sergio Lussana](#) , 2009, 1443805963,

9781443805964. This book consists of a range of essays written by historians and literary critics which examine the historical construction of Southern masculinities, rich and poor, white and black, in a variety of contexts, from slavery in the antebellum period, through the struggle for Civil Rights, right up to the recent South. Building on the rich historiography of gender and culture in the South undertaken in recent years, this volume aims to highlight the important role Southern conceptions of masculinity have played in the lives of Southern men, and to reflect on how masculinity has intersected with class, race and power to structure the social relationships between blacks and whites throughout the history of the South. The volume highlights the multifaceted nature of Southern masculinities, demonstrating the changing ways black and white masculinities have been both imagined and practised over the years, while also emphasizing that conceptions of black and white masculinity in the American South rarely seem to be divorced from wider questions of class, race and power.

[The Telecommunications Revolution in Korea, James F. Larson](#) , 1995, 0195867858, 9780195867855. The dynamism of the Republic of Korea's export-led economy and the recent exceptional growth of the Korean electronics industry are renowned worldwide. The communications revolution is even more remarkable: in the 1980s, Korea's basic telecommunications infrastructure grew faster than that of any other country in the world. The Korean people and industry have embraced the information age with extraordinary speed and adaptability. In this first, comprehensive study, James F. Larson analyses the economic, technological, political, and socio-cultural dimensions of the Korean communications phenomenon. He examines the reforms which have fostered greater network access and efficiency, and the role of education in the promotion of new technologies. The author discusses the 1988 Olympic Games in Seoul as a catalyst to progress, and the role of new technologies in Korean reunification. James F. Larson offers original documentary data to the case of Korea, and supports his analysis with interviews with Korean leaders from government, industry, research institutes, and academia.

Five women meet for their first reading group, little realising this social gathering over books and glasses of wine might see them share more than literary debate ... and will, in fact, take each of them to places they'd never imagined. Harriet and Nicole are the ringleaders, best friends who can't quite admit - to themselves or one other - they might be trapped in loveless marriages. While Polly, a determined single mum, finds herself tipped off course by an unexpected proposal. Susan, usually so carefree and happy, is forced to face a shattering reality and Clare, quiet and mysterious, plainly has more on her mind than next week's book choice. Over the coming year their worlds will intertwine in delightful, unexpected and surprising ways. Stories will be re-written as dreams are made and broken, but through it all they'll have the Reading Group, with friendship, tears and laughter featuring in every chapter of their lives.

[The Colors of Jews: Racial Politics and Radical Diasporism, Melanie Kaye/Kantrowitz](#) , 2007, 0253219272,

9780253219275. Melanie Kaye/Kantrowitz exposes and challenges the common assumptions about whom and what Jews are, by presenting in their own voices, Jews of color from the Iberian Peninsula, Asia, Africa, and India. Drawing from her earlier work on Jews and whiteness, Kaye/Kantrowitz delves into the largely uncharted territory of Jews of color and argues that Jews are an increasingly multiracial people a fact that, if acknowledged and embraced, could foster cross-race solidarity to help combat racism. This engaging and eye-opening book examines the historical and contemporary views on Jews and whiteness as well as the complexities of African/Jewish relations, the racial mix and disparate voices of the Jewish community, contemporary Jewish anti-racist and multicultural models, and the diasporic state of Jewish life in the United States.

[Big Fat Lies Women Tell Themselves: Ditch Your Inner Critic and Wake Up Your Inner Superstar, Amy Ahlers](#) , 2011,

1608680290, 9781608680290. Most women have a nonstop chorus of criticism in their heads voices not unlike those of the mean girls lurking in the hallways and locker rooms of junior high schools everywhere. The grown-up versions of those teenage taunts such as But taking care of myself is self?sh and The world is against me zap motivation, sabotage happiness, and keep women in a stressed, never enough mind-set. Here, like a best buddy and street-wise big sister, coach Amy Ahlers helps women talk back. Her witty, wise, and cut-to-the-chase format arms women with the Take that! insights they wish they had handy when someone puts them down even if that someone is the person in the mirror. Ahlers doesn't offer long-winded self-therapy or simplistic happy talk; she serves up straight talk that helps women know, feel, and tell themselves the truths that can transform their deepest inner thoughts and their lives.

'mobilized the English language and sent it into battle'. President John F. Kennedy conferring Honorary US Citizenship, April 1963 Winston Churchill was the most eloquent and expressive statesman of his age. When Britain stood alone and all but defenceless, with his resolute and pugnacious tone and puckish sense of humour he inspired his fellow-countrymen to resist, to fight and to conquer. While the definitive collection of Churchill's speeches fills eight volumes, here, his grandson, Winston S. Churchill, has put together a personal selection of his favourite speeches in a single volume. He has chosen from his grandfather's entire output covering the whole of Churchill's life, from his maiden speech

to his last days. It includes Churchill's best-known speeches as well as some that have never been published in popular form.

[The Least Worst Place: Guantanamo's First 100 Days, Karen Greenberg](#) , 2009, 0199707413, 9780199707416. Named one of the Washington Post Book World's Best Books of 2009, The Least Worst Place offers a gripping narrative account of the first one hundred days of Guantanamo. Greenberg, one of America's leading experts on the Bush Administration's policies on terrorism, tells the story through a group of career officers who tried--and ultimately failed--to stymie the Pentagon's desire to implement harsh new policies in Guantanamo and bypass the Geneva Conventions. Peopled with genuine heroes and villains, this narrative of the earliest days of the post-9/11 era centers on the conflicts between Gitmo-based Marine officers intent on upholding the Geneva Accords and an intelligence unit set up under the Pentagon's aegis. The latter ultimately won out, replacing transparency with secrecy, military protocol with violations of basic operation procedures, and humane and legal detainee treatment with harsh interrogation methods and torture. Greenberg's riveting account puts a human face on this little-known story, revealing how America first lost its moral bearings in the wake of 9/11.

Much of leadership resides in the heart—those character traits that help you serve and equip others. But there are also elements of leadership that can be sharpened through practice and observation. By highlighting the seven most necessary skills a group leader can possess, Seven Tools for Building Effective Groups will equip you to make a lasting and positive difference in the lives of those you lead. The Pilgrimage Series. The life of following Christ was never meant to be solitary. The early Christians pursued it in groups not much larger than your small group, meeting in homes for the first two hundred years of the movement. So whether you've joined a group to know a few people well, to learn in a more concentrated setting, or to focus your collective gifts toward a specific end, you are following a time-tested format for spiritual growth. THE PILGRIMAGE SERIES is designed to foster spiritual growth in a group setting. By incorporating relationship-building material into each session, PILGRIMAGE guides will help your group translate learning into practice.

[Child and Adolescent Psychotherapy, Peter Blake](#) , 2008, 0980458625, 9780980458626. In this book, Peter Blake follows the therapeutic process, from assessment (referral and initial interview, individual assessment, developmental considerations, assessment for therapy, working with parents) to therapy (physical and mental settings, interpretation, the role and challenges of play, transference and countertransference, termination). Drawing on the Winnicottian tradition, in which fun and humor have a place in child and adolescent work, Blake demonstrates how a therapist can be playful and less directly interpretative. How psychodynamic thinking can be applied in an effective yet time-limited manner is also demonstrated. The text is enlivened by many case studies and clinical anecdotes. For therapists who are new to child and adolescent psychotherapy, and who wish to take a psychodynamic approach, the book will provide a valuable introduction. For professionals who refer to or work with child and adolescent therapists, the book will provide insight into the field, dissipating much of the mystique and misunderstanding that surrounds this work. Experienced child and adolescent therapists will find of interest how Blake integrates a Kleinian, Object-Relations approach with more Interpersonal (now, Relational) thinking.

Tracks today's sophisticated design, construction and packaging techniques brought about by the adoption of new electronic device packages for high-density assemblies in conjunction with more functionally complicated printed circuit board technologies. The authors incorporates new material on safety throughout the book, including the latest mailing and Internet addresses of government agencies and private companies involved in safety. Features new material on ergonomics related to using computers. Includes material on multilayer printed circuit board design, layer-to-layer coding, layer representation, antipad and thermal relief pad configurations, and a simple four layer MLB design. Expands coverage of PCB Soldering to include new data acquisition equipment to accurately measure the thermal profile of a soldering iron, as well as new material on cleaning solvents so that informed selections can be made to better protect the atmosphere. Increases coverage of Surface Mount Technology to include new equipment for prototype work as well as small-to-medium volume production.

Su amor, dedicacion y habilidades artisticas son insuperables. Hoy veo como su legado es parte de quienes somos y esto me enorgullece. Pipo fue un hombre carinoso, considerado, brillante, divertido y simpatico. Fue un hijo y hermano ejemplar, fue buen amigo. Pipo fue un alma amoroso y tierna que nunca olvido que la risa es la mejor medicina. El dedico su vida a amarlo todo; incluso, los malos momentos aunque por dentro, su corazon estuviese en pedazos. Sin embargo, lo que mas admiro de este inolvidable hombre es el profundo amor que tuvo por su esposa, mi madre. Mi deseo es que al ustedes leer esta obra, puedan sentir la energia de amor que en ella vibra y que a medida que su pasion despierta, lleguen a comprender la magnitud de esta poderosa energia, la cual lleva a cada uno de sus descendientes a sonar, a crear y amar la vida.

From her characterization of women as virtual economic, social, and sexual slaves, dependent on men for everything from food to friendship to protection, to her call for women to free themselves from these shackles, Women and Economics electrified Victorian readers. It remains a foundational work of feminist theory, essential reading for anyone wishing to understand women's struggle for full and self-determined personhood.

[Watery Grave, Bruce Alexander](#) , 1996, 0399141553, 9780399141553. John Fielding was famous not only as cofounder of London's first police force, the Bow Street Runners, but also as a magistrate of keen intellect, fairness and uncommon detective ability. When a crime was committed, he often took it upon himself to solve it. What made this all the more remarkable was that he was blind. In *Watery Grave*, accompanied by his "eyes" (and the series' narrator), young Jeremy Proctor, Fielding encounters a case that hits close to home, as a stepson returns from the high seas with tales of typhoons and a captain overboard. Was it an accident, or was it murder? Fielding is asked to investigate, but discovers considerably more than he'd bargained for - including some secrets that might better have been left at the bottom of a watery grave.

On the morning of December 16, 1944, eighteen men of the Intelligence and Reconnaissance platoon attached to the 99th Infantry Division found themselves directly in the path of the main thrust of Hitler's massive Ardennes offensive. Despite being vastly outnumbered, they were told to hold their position "at all costs." Throughout the day, the platoon repulsed three large German assaults in a fierce day-long battle, killing hundreds of German soldiers. Only when they had run out of ammunition did they surrender to the enemy. But their long winter was just beginning. As POWs, the platoon experienced an ordeal far worse than combat-surviving in wretched German POW camps. Yet miraculously the men of the platoon survived-all of them-and returned home after the war. More than thirty years later, when President Carter recognized the platoon's "extraordinary heroism" and the U.S. Army approved combat

medals for all eighteen men, they became America's most decorated platoon of World War II. With the same vivid and dramatic prose that made *The Bedford Boys* a national bestseller, Alex Kershaw brings to life the story of these little-known heroes—an epic tale of courage, duty, and survival in World War II and one of the most inspiring episodes in American history. *The Longest Winter* is an intensely human story about young men who find themselves in frightening wartime situations, who fight back instinctively, survive stoically, and live heroically.

[Don't Touch Me! Say No to Sexual Harassment, Orvie B Baker Jr](#) , 2012, 0985703733, 9780985703738. Sexual Harassment is very similar to Bullying; both are constantly reported in the news and have been blamed in high profile murder and suicide reports. There are many books and web sites that explain the dangers of sexual harassment; education is essential in combating sexual harassment, but defining it is not enough. Ten years of teaching Sexual Harassment and Assault Prevention Programs has taught me two things: 1. Most offenders target people who present the least resistance 2. Many people who have been sexually harassed and/or assaulted feel they are to blame The four things I want you to take away from this book are: 1. There are NO excuses for sexual harassment. 2. It is your right to live free of sexual harassment and/or assault. 3. The victim of sexual harassment and/or assault is NEVER at fault for what happened to him or her. 4. You have the right to say, "DON'T TOUCH ME!" In this book, you will find how important a Verbal Warning is when used to thwart sexual harassment. Equally important is Informing Someone to help stop sexual harassment. When all else doesn't have the desired effect, Self Defense is explained as a last ditch effort to combat sexual harassment. The practical applications of useful self-defense techniques are covered toward the end of the book.

[Troubleshooting Switching Power Converters: A Hands-on Guide, Sanjaya Maniktala](#) , 2011, 0080551254,

9780080551258. Power Supply design is all about detail. And a large part of that detail lies in the practical domain,

largely because of the typically small number of microseconds of switching periods involved, and the even smaller tens of

nanoseconds of switch transition times --- all these, in effect accentuating various "second-order" effects, that eventually

end up playing prime havoc with "normal" expectations of how the circuit should behave. So not unsurprisingly, even

after reading several books, most readers still find themselves no closer to the ultimate goal of designing an actual power

supply. Sooner or later, all engineers start realizing the hard fact that designing a switching power supply isn't the trivial

task it once seemed to be. But even after years of successfully mastering the underlying theory, the ultimate goal of

creating a cost-effective, reliable and commercially viable power supply may still remain a distant dream, since success

ultimately hinges on experience. That is, in fact, what clearly differentiates a senior and seasoned power supply engineer

from the others --- the ability to navigate and surmount a veritable minefield of tricky issues that can only be learned the

hard way, by actual hands-on experience on the job. This book presents practical knowledge the author acquired rather

painfully, while working "in the trenches" for several years in major engineering companies scattered across several

continents. This is intended to be the mythical senior engineer's "bag of tricks," finally made available in the form of an

easy-to-read book on your shelf. This book will make life for the ambitious power supply engineer much simpler --- besides reducing significantly, the rigorous requirement of having to be a senior engineer's protégé for years on end, just to gain a small measure of real success in this field.* A practical presentation that answers the important question: why is my switching converter behaving so differently than what I was expecting on the basis of my paper design? And how do I bridge that huge gap?* For the first time, a systematic and thorough discussion of troubleshooting switching power supplies.* Coverage of AC/DC and DC/DC power supplies. * Bench Evaluation of semiconductor ICs used in power conversion --- describing standard and unusual techniques mastered by the author, while testing similar chips at National Semiconductor. * Detailed coverage of vital topics that haven't been covered by available sources --- grounding systems, the subtleties of component datasheets, and using instruments and probes effectively.* Systematic investigation (type of failure mechanism, topology, etc.) and solutions for 5 years of reported power supply issues on a prominent, public web forum. This approach will ensure that engineers will not repeat the same mistakes. * A unique, readable style: personal and direct; no mystification--- just the plain truth, easily and logically explained, with plenty of pictures, graphs and plots.

[Knowing Their Place: Domestic Service in Twentieth-Century Britain, Lucy Delap](#) , 2011, 0199572941, 9780199572946.

Historians have traditionally seen domestic service as an obsolete or redundant sector from the middle of the twentieth century. *Knowing Their Place* challenges this by linking the early twentieth century employment of maids and cooks to later practices of employing au pairs, mothers' helps, and cleaners. Lucy Delap tells the story of lives and labour within twentieth century British homes, from great houses to suburbs and slums, and charts the interactions of servants and employers along with the intense controversies and emotions they inspired. *Knowing Their Place* examines the employment of men and migrant workers, as well as the role of laughter and erotic desire in shaping domestic service. The memory of domestic service and the role of the past in shaping and mediating the present is examined through heritage and televisual sources, from *Upstairs, Downstairs* to *The 1900 House*. Drawing from advice manuals, magazines, novels, cinema, memoirs, feminist tracts, and photographs, this fascinating book will be of particular interest to scholars and students of Modern history, English literature, anthropology, cultural studies, social geography, gender studies, and women's studies. It points to new directions in cultural history through its engagement in innovative areas such as the history of emotions and cultural memory. Through its attention to the contemporary rise in the employment of domestic workers, *Knowing Their Place* sets 'modern' Britain in a new and compelling historical context.

This is the tale of Evil UnLtd: on a mission of indefinite duration, to seek out new evil schemes and boldly go to depths and extremes where no super-villain has gone before. Sinister supreme genius and super-villain, Dexter Snide, has floated Evil on the stock market and has gathered together a band of fellow villains, whose key challenge now is to ensure that Evil shows a consistent profit. But Evil has its (some would say unfair) share of enemies: Heroes in all sorts of nauseating shapes and sizes, up to and including muscle-headed action man, Rolph Stengun; and, because Evil is a highly competitive field, rivals, such as the mysterious figure who has his Visigoyle minions shadowing their every move. What begins as a heist to steal the greatest prize in the galaxy, draws Evil UnLtd into a devious plot to crash their enterprise before it's reached a fraction of its warped potential.

[Calculus for the forgetful: how to understand more and memorize less, Wojciech K. Kosek](#) , 2007, 097951990X, 9780979519901. Calculus for the Forgetful: How to understand more and memorize less, by Wojciech K Kosek, is one of the shortest calculus books available: it can be read in a couple of days if needed. Yet it provides a concise treatment of single variable calculus, along with many exercises and more than 130 examples. Informal, intuitive language is used to present the theory in a nutshell. This book is small enough to be carried around to other classes in which calculus is used, which is ideal for those who plan to take classes in physics, chemistry, economics, engineering, or more advanced mathematics courses. Those who are preparing for standardized tests will also benefit from the book. Also, an great complement to any of the comprehensive texts for students currently taking calculus. Students who major in areas such as mathematics or mathematics education, economics, engineering, physics or chemistry, will be especially glad to purchase Calculus for the Forgetful.

[The Grannyman.](#) , 1999, 0525461221, 9780525461227. Simon is a very old cat who's just about ready to give up after a long and fulfilling life. But his family has a creative solution to get rid of Simon's doldrums: a new kitten! The unexpected companion lifts Simon's spirits and gives him lots to do and lots to look forward to. Simon's caring ways with the kitten earn him a nickname--and a place in the hearts of readers of all ages. Judith Byron Schachner's inimitable charcoal-and-watercolor pictures capture to expressive perfection the quirks that make cats such delightful, lovable pets and very special family members. A priceless cat's-eye perspective on aging and intergenerational friendship, The Grannyman proves that there is just no limit to the power of love given and received. This is the book for anyone who has ever lived with and loved a cat. Ms. Schachner has written and illustrated two other books for children, Mr. Emerson's Cook and

Willy and May, and she illustrated I Know an Old Lady Who Swallowed a Pie, by Alison Jackson.

[You Send Me: Getting It Right When You Write Online, Patricia T. O'Conner](#) , 2003, 0613671341, 9780613671347.

Patricia T. O'Conner, the bestselling language maven who charmed legions of readers into civilizing their grammar ("Woe Is I") and their writing ("Words Fail Me"), now drags proper English kicking and screaming into the Age of E-Mail. Do the old truths still apply? Yes, insist O'Conner and co-author Stewart Kellerman, her journalist husband. In fact, good English and good manners are even more important online. Thanks to the computer, we're writing again, but we'll have to upgrade our lousy language and social skills or suffer the cyber-consequences. With chapters on etiquette (To E or Not to E), beefier writing (The E-Mail Eunuch), deconstructing a message (All's Well That Sends Well), and civilized English (Grammar a la Modem), "You Send Me" delivers everything you need to connect with real people in the virtual world.

[Theory and Practice, Ian Shapiro, Judith Wagner Decew](#) , 1996, 0814780555, 9780814780558. With 16 original essays all published here for the first time, Theory and Practice focuses on the relationship between philosophical tradition and everyday life in the Western tradition. In this comprehensive volume, Ian Shapiro and Judith Wagner DeCew have gathered contributions from some of the most influential thinkers of our generation including Cass Sunstein, Jean Bethke Elshtain, Martha Nussbaum, Jeremy Waldron, and Kent Greenwalt. What are the relations between philosophical theories and everyday life? This question, as old as it is profound, is the central focus of Theory and Practice. The contributors include some of the most influential thinkers of our generation, among them Cass Sunstein, Jean Bethke Elshtain, Martha Nessbaum, Jeremy Waldron, and Kent Greenwalt. In sixteen chapters--all published here for the first timethe authors examine major attempts to reconcile theory with practice in the Western tradition from Herodotus, Plato, and Aristotle to Kant and Heidegger. Considerable attention is devoted to the role of theory in judicial decision-making, debates between defenders of the value of pure theory and those who argue for the priority of practice, the political implications of theory, practical problems such as global warming, and the theoretical commitments of practitioners from Karl Marx to Vaclav Havel. One of the most expansive volumes in the NOMOS series to date, Theory and Practice will be of interest to philosophers, lawyers, and social scientists from a wide range of disciplines.

[God without Religion: Can It Really Be This Simple?, Andrew Farley](#) , 2011, 1441232125, 9781441232120. Andrew Farley's experience as a Christian was first characterized by self-effort as he tried to please God at any cost. His ruthless religion resulted in spiritual burnout and disillusionment with church. Only then did he discover what relaxing in Jesus means and how enjoying God's intimate presence can transform everyday life. Using a unique story-driven format, God without Religion dismantles common religious misconceptions, revealing the true meaning of being filled with the Spirit. The facts about judgment, rewards, and God's discipline the simple truth behind predestination and the divisions it causes the problem with the popular challenge to "live radical." Pulling no punches, Farley shows how the truth about these controversial issues can liberate and unify believers as we discover how to rest in the unconditional love of God.

[The Aesthetics of Architecture, Roger Scruton](#) , 2013, 0691158339, 9780691158334. Architecture is distinguished from other art forms by its sense of function, its localized quality, its technique, its public and nonpersonal character, and its continuity with the decorative arts. In this important book, Roger Scruton calls for a return to first principles in contemporary architectural theory, contending that the aesthetic of architecture is, in its very essence, an aesthetic of everyday life. Aesthetic understanding is inseparable from a sense of detail and style, from which the appropriate, the expressive, the beautiful, and the proportionate take their meaning. Scruton provides incisive critiques of the romantic, functionalist, and rationalist theories of design, and of the Freudian, Marxist, and semiological approaches to aesthetic value. In a new introduction, Scruton discusses how his ideas have developed since the book's original publication thirty years ago, and he assesses the continuing relevance of his argument for the twenty-first century.

[Kara - The Human Goddess, Volume 1, F. Dichma](#) , 2011, 0982905319, 9780982905319. Who could conceive of such an imaginative way of writing books, other than hot new author, F. Dichma. His new 'KARA' series of books, beginning with Volume 1, ushers in a new era of Hollywood script style artistry, combined with the traditional approach to writing novels. He seamlessly combines the two in an easy to follow fashion - "ISYL Reviews" Kara Rivers is an unusually intelligent and comedic student with an even more unusual secret. Born without a mother and a father, she is adopted by two nurses. When she turns nine, she begins to have strange dreams. In her dreams, when night creatures are tucked nice and comfortably within their crypts, coffins, sewer ducts, or suburban mansions; she pursues -- then slaughters them. In KARA, Volume 1, a demonic presence makes the mistake of kidnapping a relative of Kara's, resulting in Kara needing to use her 'gifts' outside of the dream world. To do this, she is assisted by Bevis, a descendant from a long line of Seers, her mother Susan and aunt Mary Anne, who are retired Furies, Yulia, her beautiful best friend from the Dominican Republic, Grakon, a forever sexually aroused Being who straddles between good and evil, and Armin, the detached and cryptic stranger she has dreamed about ever since she was 9 years old.

[The Philosophy and Economics of Market Socialism: A Critical Study, N. Scott Arnold](#) , 1994, 0195088271, 9780195088274. In this closely reasoned examination of the case for market socialism, N. Scott Arnold argues that even the most defensible version of market socialism would be deeply flawed. Specifically, it would be responsible for systematic and widespread exploitation. The charge of exploitation, which is really a charge of injustice, has typically been made against capitalist systems by socialists. This book argues that it is actually market socialism - the only remaining viable form of socialism - that is systematically exploitative. Recent work on the economics of contracts and organizations is used to show that the characteristic organizations of a free enterprise system - the classical capitalist firm and the modern corporation - are structured in such a way that opportunities for exploitation among economic actors (e.g., managers, workers, providers of capital, customers) are minimized. By contrast, Arnold argues, in a market socialist regime of worker cooperatives, opportunities for exploitation abound. Arnold locates his comparative analysis of market socialism and the free enterprise system in the larger context of the capitalism/socialism debate. In his account of this debate - and in his contribution to it - he offers a distinctive and attractive vision of the relationship between economics and political philosophy. This vision clearly identifies the respective contributions that economics and political philosophy can make to the fundamental question of how social institutions are to be evaluated.

In John Mortimer's most famous and highly autobiographical play, a young man looks back on an unconventional childhood and youth overshadowed by his irascible and eccentric father. Sent away to boarding school to be 'prepared for life', he finds teachers deranged by shell shock after the First World War and boys who try to coat their ordinary home lives with romance. As the Second World War begins, the mild-mannered protagonist tries to become a writer, but is compelled to become a barrister like his father - a towering character depicted with affection and exasperation. Hugely popular since it was first performed, A Voyage Round My Father is a sublimely comic drama of warmth, nostalgia and wisdom.

[Letters to My Children: A Father Passes on His Values, Daniel Taylor](#) , 2005, 0970651120, 9780970651129. A collection of short letters, most centring on a powerful story from the author's life, that convey core values and attitudes from a father to his child. Topics addressed include death, right and wrong, thinking about God, cheating, failure, popularity,

studying, sex, self-esteem, prayer, family relationships, materialism, and marriage. One typical letter addresses the question of how to be a friend to unpopular kids at school and tells the moving story of the time the author was told he should ask the girl with polio to dance. Many of these letters are rooted in childhood and adolescence, others in youth and early marriage. They speak honestly and engagingly to both the young and to those who are trying, the best they can, to raise them. Read these stories with your children or by yourself and smile in recognition as you remember your own struggles to understand the world and your place in it. Then, as the afterward suggests, tell a few stories of your own.

This comprehensive survey of the interconnections of IT and health care is the only up-to-date book that teaches computer literacy AND introduces readers to the uses of information technology in health care and its delivery. Familiarizes readers with the basic vocabulary and concepts necessary to computer literacy including discussions of hardware and software, communications and networking, and ethical issues and privacy concerns introduced by the pervasiveness of computers in society. In addition, it discusses how IT is transforming every aspect of health care and its delivery from administrative applications (such as the electronic medical record), to clinical systems involved in direct patient care, to special- purpose applications (such as simulation software used in the education of health care professionals). Section I provides a general introduction to computer literacy and information technology at a level appropriate for health care students. Section II examines the impact of Information Technology on health care specifically in the fields of radiology, telemedicine, surgery, medical devices, pharmacy, and informational resources.

[The Path: A Practical Approach to Sorcery, Esmeralda Arana](#) , 2004, 0974519804, 9780974519807. "The Path" is an entertaining guide to personal transformation offering fresh new insights into addiction, perception, and sorcery. Written with grace and punctuated with humor, Arana reveals fascinating parallels between Twelve-Step program philosophy,

Gurdjieff's concept of man's hypnotic sleep, Robert Monroe's out-of-body experiences and the path of the Toltec warrior as described by New Age phenomenon Carlos Castaeda. In a most unusual adaptation of A.A.'s fundamental concepts, Arana delineates how your modern-day person with a busy lifestyle can walk the Warrior's path and lead a life of balance and serenity. By giving an extensive account of her experiences with lucid dreaming, she also provides instruction on how to expand one's perceptual horizons and develop latent psychic abilities. Arana teaches us how to alter perception of the self in order to transform into a spiritually evolved person and overcome common problems such as addiction, depression and obesity. She also discusses an ancient secret about mankind known to Toltec sorcerers and its striking similarity to the concept of "The Matrix," She shows us how, through understanding the nature of perception, we can all control and mold our personal realities and free the mind from negative influences. Arana emphasizes that diet and physical exercise are important and often neglected components of a solid spiritual foundation and urges the reader to explore activities such as yoga and the internal forms of the martial arts. The first title from True Mind, a new imprint co-founded by Gary Baddeley (CEO/publisher of The Disinformation Company), "The Path" was a POD phenomenon when an earlier edition was self-published by Arana via iUniverse. This new edition will be promoted to retail and the media by New Age publicist Cate Cummings and will be heavily marketed by True Mind via Book Sense, Advance Access and White Box, Postcard campaigns and targeted online and email advertising and promotion.

[Force and statecraft: diplomatic problems of our time, Gordon Alexander Craig, Alexander L. George](#) , 1995, 0195092430, 9780195092431. In this classic text, an eminent historian of international affairs and a distinguished political scientist survey the evolution of the international system, from the emergence of the modern state in the 17th century to the present. Craig and George pay particular attention to the nineteenth century's "balance-of-power" system, the basic tenets of which still determine many applications of modern diplomacy. The authors also focus on the ways in which the 20th century diplomatic revolution--a complex of military, political, economic and ideological factors--has destroyed the homogeneity of the international community and confronted diplomats with new problems and the need to find new expedients to deal with them. The revised third edition brings these arguments up to date with expanded chapters, newly-added discussions and case studies, and entirely new material reflecting the altered political landscape of the 1990's, with chapters on the Gulf War, the collapse of communism in Eastern Europe, the reunification of Germany, and the break-up of the Soviet Union. Force and Statecraft remains the standard resource for students in the fields of international relations and diplomatic history.

[Er \(Employee Rentention\): Taking the Lead in Keeping the Best, Don A. Sanders](#) , 2010, 097084445X, 9780970844453.

Downsizing may be threatening to many employees across the country -- from large computer giants to the corner grocery. The threat of losing one's job is something most people consider their worst nightmare. However, there are others with equally huge fear -- but it's not about losing a job -- it's about losing employees. Today, many talented employees, those that work at their job with a passion and sincere interest, are voluntarily leaving for what they think are greener pastures. Keeping good employee is one of the biggest jobs facing companies of all sizes. No longer is a big pay raise sufficient to keep the good ones from beating a path to the door. No longer is a promotion sufficient to halt the rush of good employees to competitors. The wise manager, department head or CEO needs to know the subtle needs of his/her employees and better still, they must know how to communicate to those valued individuals. All it takes is one or two good employees to leave, and some companies would begin to feel the pinch immediately. The loss of a couple well-positioned members of your staff could mean the difference between success and failure. That is where this book comes in: here is a virtual roadmap for any concerned employer looking to keep his critical talent from walking. In a easy-to-read format, Don Sanders literally leads the reader through one important step after another, spelling out the do's and don'ts of employee retention.

[354th Fighter Group, William N Hess](#) , 2012, 1782008586, 9781782008583. I think the success of the 354th as the leading group in the European theatre for aerial victories is due to several things. First was the initial training of the squadrons before deployment to England. Colonel Ken Martin nurtured the group from its infancy, and all the excellence that later showed through could be placed at his doorstep. Despite his youth, he knew how to foster teamwork and demand perfection in flying. There was nothing more important than getting the group off on the right foot. Second, our pilots were taught to fly mutual support, and practised it faithfully. There were no "hot" pilots in the 354th, only "excellent" pilots. Third, men like Glenn Eagleston gave advice and warnings about combat tactics and guarding one's tail. This prepared our pilots for lurking dangers, something the other groups may not have done.' Brigadier General James Howard, Commanding Officer of the 354th Fighter Group

[Yahweh's Warrior, , , Terri L. Fivash](#) , 2009, 0828024650, 9780828024655. He was Israel's beloved champion. Not only had he saved the kingdom, but the lives of Hissar Jonathan and King Shaul as well. Even so, Shaul took away his freedom . . . and then gave him the general's mantle. A bittersweet reward indeed for Yahweh's chosen one. But he wasn't ready yet to lead the armies of Israel or to accept his true status as Messiah. He needed time and the Hissar's relentless training. Reeh Shamuels steady guidance calmed his fears: "If you are to fulfill Yahweh's task, you must accept the place He has for you and conduct yourself in such a manner as to bring honor to the One who gave it to you." And so, despite Abner's blatant contempt and Shaul's persistent censure, regardless of his own failure or triumph in battle, he chose unswerving loyalty to Yahweh. No one would ever fully understand the consequences of such devotion. No one but Jonathan.

[Jig-Saw, Barbara Cartland](#) , 2010, 1906950202, 9781906950200. Jig-Saw is where the Barbara Cartland story began - she wrote the novel in 1920 when only 19. Published in hardback by Duckworth in 1925 at the price of seven shillings and sixpence, it received great acclaim from the critics who described it as 'a first novel of considerable promise' and 'a novel which is such a powerful study of "West end life with the lid off," that I can hardly believe it's been written by a girl'. This year, to commemorate the 10th anniversary of her death, the Barbara Cartland.com estate will publish 5000 limited edition exact replicas of the original book. From the original book cover: A real novel from within. The first book by a young author is a vivid and moving story of the difficulties and temptations which confront a young girl on her first entry into the richest and gayest set of London society. The intoxication of her new freedom and her love of adventure lead her inevitably to exploit her wit and beauty to her own unhappiness, but by good luck and her own native goodness she finds peace and happiness at last. It is a dramatic conflict of emotions, written with a zest and freshness which will win the admiration of all readers.
