[Mobile As 7th of the Mass Media: Cellphone, Cameraphone, Iphone, Smartphone, Tomi Ahonen](#) , 2008, 0955606942, 9780955606946. With the subtitle of Cellphone, Cameraphone, iPhone, Smartphone, Tomi's latest book takes readers to a journey of the most advanced content and media services deployed on mobile phones in the most advanced mobile telecoms countries such as Japan, South Korea, HongKong, Finland etc. He goes through the taxonomy of the seven mass media, with an emphasis of what lessons can be learned when newer media were introduced. These lessons he applies now to the 7th media, mobile, with compelling arguments for why just copying television, newspaper or internet content to mobile is not enough. The book starts by setting the stage by examining the overall industry and the consumers of mobile content in four chapters. Next Tomi devotes two chapters into explaining how to build compelling content to mobile, and exploding the myths of the limitations of supposedly too small keypad and tiny screen. In the book he then devotes a chapter each to the most promising early media content types: music, gaming, TV, internet, advertising and social networking. Tomi explains what works and what doesn't when deploying content to the mobile. He also includes a chapter on SMS text messaging. In the book Tomi expands his 5 M's mobile service theory to 6 M's. He discusses the seven unique benefits of mobile as a mass media channel, and he discusses how mobile phones have evolved through the 8 C's. He concludes the book with essays on related matters such as disruptive factors now creating new opportunities, and a chapter on discussing why the American industry lags the rest of the world in mobile telecoms. Like Tomi's previous books with us (Communities Dominate Brands, co-authored with Alan Moore and Digital Korea, co-authored with Jim O'Reilly) Mobile as 7th of the Mass Media is also a hardcover book, which runs 322 pages and is packed with 16 case studies, up-to-the-minute statistics, end-user analysis, and real world examples. The book is in production and will be available in bookstores soon. We are currently taking pre-orders for the book. [The Long Tomorrow: How Advances in Evolutionary Biology Can Help Us Postpone Aging: How Advances in Evolutionary Biology Can Help Us Postpone Aging, Michael R. Rose](#) , 2005, 0195179390, 9780195179392. The conquest of aging is now within our grasp. It hasn't arrived yet, writes Michael R. Rose, but a scientific juggernaut has started rolling and is picking up speed. A long tomorrow is coming. In The Long Tomorrow, Rose offers us a delightfully written account of the modern science of aging, spiced with intriguing stories of his own career and leavened with the author's engaging sense

of humor and rare ability to make contemporary research understandable to nonscientists. The book ranges from Rose's first experiments while a graduate student--counting a million fruit fly eggs, which took 3,000 hours over the course of a year--to some of his key scientific discoveries. We see how some of his earliest experiments helped demonstrate that "the force of natural selection" was key to understanding the aging process--a major breakthrough. Rose describes how he created the well-known Methuselah Flies, fruit flies that live far longer than average. Equally important, Rose surveys the entire field, offering colorful portraits of many leading scientists and shedding light on research findings from around the world. We learn that rodents given fifteen to forty percent fewer calories live about that much longer, and that volunteers in Biosphere II, who lived on reduced caloric intake for two years, all had improved vital signs. Perhaps most interesting, we discover that aging hits a plateau and stops. Popular accounts of Rose's work have appeared in The New Yorker, Time magazine, and Scientific American, but *The Long Tomorrow* is the first full account of this exciting new science written for the general reader. "Among his peers, Rose is considered a brilliantly innovative scientist, who has almost single-handedly brought the evolutionary theory of aging from an abstract notion to one of the most exciting topics in science."--Malcolm Gladwell, *The New Yorker*

[For the Love of Venice, Donna Jo Napoli](#) , 2000, 0606179984, 9780606179980. Romance and political action set against the mystery and beauty of modern-day Venice, Italy. Percy is reluctant to accompany his family to Venice for the summer until he meets Graziella, a beautiful and passionate girl who leads him into another Venice, one that tourists never see. Venice was once a great power. Today, much of it belongs to foreigners. Through Graziella, Percy is drawn into a world where young Venetians make desperate, dangerous plans to save their city from being taken over by foreigners and tourists-- outsiders, like Percy.

Mary-Jane D'Arbanville, exiled herself from her native New York to London. She landed in London in 1991 and lived with her new found friend Paul. The story comes out of Jane's very own diary called "Map of the Universe", read in the future over a candle-lit dinner. Jane and Paul painted the diary, as the story unfolds, on the walls of London during the nineties. Whilst the story is taking place on earth, in Hell and in the Heavens above and at the same time, the two main characters are played by two different actors. The Writing on the Wall is a series of graffiti on a wall. Once upon a time Mary-Jane D'Arbanville exiled herself from New York believing that she has killed her boyfriend. She landed in London in 1991 and lived with her new found friend Paul X. Together they will try to re-write the world. The story comes out of Jane's very own diary called "Map of the Universe" read in the future over a candle-lit dinner. Jane and Paul painted the diary, as the story unfolded, on the walls of London during the nineties. Writing on the Wall is a dark comedy and a documentary. Whilst in London Jane and Paul X are trying to make sense out of a big expensive city where time doesn't seem to move very fast London in the Nineties was one of the trendiest and expensive places in the world.

[Chloe Finds a Lucky Secret,](#) , 2010, 0982771819, 9780982771815. Tuttle Town's delightful townfolk have special talents, some hidden deep inside, and with practice, not wishes, their talents grow and shine making them look so very lucky. Bond with your child as you share the joys of words, imagery, rhyme, new lands and personal best achievements through Tuttle Town Tales characters, adventures and illustrations. Chloe Finds a Lucky Secret promotes good self-esteem in children by showing that they have control over being their best through practice and patience instead of wishes. A child's talents may not be obvious creating feelings of inadequacy, especially if compared to others. But with a mentor, coach or training something special the child never knew they possessed is discovered and wonderful changes happen. Tuttle Town Tale characters offer diversity as they come from different lands with names native to their culture and deal with feeling different from everyone else. Opening children's horizons and exposure to new places and ideas presents opportunity for discussion as you read these stories together with your child. The vocabulary, imagery and rhyme rings out the magic of words to the young ear. Expressive illustrations depict emotions that stir up understanding about feelings in themselves, and others, for insightful social skill development.

[Faberge's Eggs: One Man's Masterpieces and the End of an Empire](#), Toby Faber , 2009, 0330440241, 9780330440240.

This is the story of Fabergé's Imperial Easter eggs of their maker, of the tsars who commissioned them, of the middlemen who sold them and of the collectors who fell in love with them. It's a story of meticulous craftsmanship and unimaginable wealth, of lucky escapes and mysterious disappearances, and ultimately of greed, tragedy and devotion. Moreover, it is a story that mirrors the history of twentieth-century Russia a satisfying arc that sees eggs made for the tsars, sold by Stalin, bought by Americans and now, finally, returned to post-communist Russia. There is also an intriguing element of mystery surrounding the masterpieces. Of the fifty 'Tsar Imperial' eggs known to have been made, eight are currently unaccounted for, providing endless scope for speculation and forgeries. This is the first book to tell the complete history of the eggs, encompassing the love and opulence in which they were conceived, the war and revolution that scattered them, and the collectors who preserved them.

[Free Will and Luck](#), Alfred R. Mele , 2006, 0198041519, 9780198041511. Mele's ultimate purpose in this book is to help readers think more clearly about free will. He identifies and makes vivid the most important conceptual obstacles to justified belief in the existence of free will and meets them head on. Mele clarifies the central issues in the philosophical debate about free will and moral responsibility, criticizes various influential contemporary theories about free will, and develops two overlapping conceptions of free will--one for readers who are convinced that free will is incompatible with determinism (incompatibilists), and the other for readers who are convinced of the opposite (compatibilists). Luck poses problems for all believers in free will, and Mele offers novel solutions to those problems--one for incompatibilist believers in free will and the other for compatibilists. An early chapter of this empirically well-informed book clearly explains influential neuroscientific studies of free will and debunks some extravagant interpretations of the data. Other featured topics include abilities and alternative possibilities, control and decision-making, the bearing of manipulation on free will, and the development of human infants into free agents. Mele's theory offers an original perspective on an important problem and will garner the attention of anyone interested in the debate on free will.

[Working People, Fifth Edition: An Illustrated History of the Canadian Labour Movement, Desmond Morton](#) , 1999, 0773575545, 9780773575547. Desmond Morton highlights the great events of labour history -- the 1902 meeting that enabled international unions to dominate Canadian unionism for seventy years, the Winnipeg General Strike of 1919, and an obscure 1944 order-in-council that became the charter of labour's rights and freedoms. He looks at the "new model" unions that used their members' dues and savings to fight powerful employers and describes the romantic idealism of the Knights of Labor in the 1880s, one of the most dramatic and visionary movements ever to seize the Canadian imagination. He recounts the desperate struggles of miners, loggers, and fishers to protect themselves from both employers and the dangers of their work. Working People explores the clash between idealists, who fought for such impossible dreams as an eight-hour day, socialism, holidays with pay, industrial democracy, and equality for women and men, and the realists who wrestled with the human realities of self-interest, prejudice, and fear. Morton tells us about Canadians who deserve to be better known, such as Phillips Thompson, Helena Gutteridge, Lynn Williams, Huguette Plamondon, Mabel Marlowe, Madeleine Parent, and a hundred others whose struggle to reconcile idealism and reality shaped Canada more than they would ever know. This new edition brings the book up to date with discussions of globalization and its challenge to nationally based workers' organizations.

Yet each was remarkably beautiful. Designed by William Morris, printed on hand-presses, ornamented with initials and borders by Morris, and illustrated often by Edward Burne-Jones, these few Kelmscott Press books are famous everywhere today. Why they have so profoundly affected twentieth-century theories of book design and what cultural significance the founding of the Kelmscott Press played are some of the questions the author considers.

[Finding Poland, Matthew Kelly](#) , 2012, 1446499227, 9781446499221. Following the partitioning of Poland by Germany and the Soviet Union in 1939, Matthew Kelly's great grandmother and her two daughters were deported to the East. Thus began an extraordinary ordeal that took them, and many thousands like them, on a journey stretching from Siberia to Pakistan, and beyond. Their male relatives endured a parallel journey; arrested, exiled, and held as prisoners of war. Countless numbers were summarily executed by the Red Army. They saw the steppe, they were put to work in labour camps, they built sections of the trans-Siberian railway, they cleared forests, they toiled on collective farms. They knew hunger, exhaustion, disease and death. Persecuted by the Soviet Union, Poland was to become its unexpected ally following the German invasion in 1941. A new Polish army, 'The Anders Army' was assembled in Palestine. For a brief moment, in Kazakhstan, families were reunited, before being evacuated; to India, to Britain, to Mexico and East Africa; and from there, across the world. The experiences of these Poles had consequences far reaching and enduring, both to Poland, to Polish identity, and to the families that survived; reverberating through generations. These incredible stories remain largely untold. In Finding Poland Matthew Kelly embarks on a journey through his ancestor's footsteps, travelling through places they lived, and landscapes they survived, to provide an account of these extraordinary people and their unique history. Part memoir, history and travel book, it is also a profound meditation on the experience of displacement

and exile, of the impact of such seismic disruption, and the deep legacies such trauma bequeaths.

[Gods Without Men, Hari Kunzru](#) , 2011, 024114311X, 9780241143117. 2008. The California desert. A four-year-old autistic boy, Raj Matharu, disappears in the wilderness, plunging his wealthy New York parents into the surreal public hell of a media witch-hunt. But the desert is inexplicable and miraculous, and the Matharus' fate is bound up with that of others: a debauched British rock star, on the run from a failed relationship and the sordid excesses of his life; a former member of an extraterrestrial-worshipping cult, now middle-aged but still haunted by transcendent callings; and a teenage Iraqi refugee, who befriends a young black Marine while playing the role of 'Iraqi villager' in a military simulation exercise. Their lives converge in an odd, remote town, near a rock formation called The Pinnacles -- and among the tangled echoes and stories of all those who have travelled before them through this brutally powerful landscape. A branching and multilayered novel by one of our most acclaimed writers, and a compulsively readable journey into the twists and turns of a handful of human lives, Gods Without Men is a heartfelt exploration of our search for pattern and meaning in a random and chaotic universe.

[The Emperor of Lies, Steve Sem-Sandberg](#) , 2011, 0571275869, 9780571275861. In February 1940, the Nazis established what would become the second largest Jewish ghetto in the Polish city of Ldz. Its chosen leader: Mordechai

Chaim Rumkowski, a sixty-three-year-old Jewish businessman and orphanage director, and the elusive, authoritarian power sustaining the ghetto's very existence. From one of Scandinavia's most critically acclaimed and bestselling authors, *The Emperor of Lies* chronicles the tale of Rumkowski's monarchical rule over a quarter of a million Jews. Driven by a titanic ambition, he sought to transform the ghetto into a productive industrial complex and strove to make it - and himself - indispensable to the Nazi regime. Drawing on the chronicles of life in the Łódź ghetto, Steve Sem-Sandberg captures the full panorama of human resilience, and questions the nature of evil. He asks the most difficult questions: Was Rumkowski a ruthless opportunist, an accessory to the Nazi regime driven by a lust for power? Or was he a pragmatic strategist who managed to save Jewish lives through his collaboration policies?

The relationship established between man and bird is central to the ancient sport of falconry; to earn the trust of the bird, the falconer must show a great deal of patience, skill and intuition. This volume traces the history of falconry, providing a detailed guide as to how it is practised today. Emma Ford, a falconer since the age of six, describes the equipment required for the sport and, using photographs of the popular species, explains the characteristics that make them ideal hunting birds. With an emphasis on the contribution falconers make to the conservation of wild birds, this book is a complete guide to a sport that has remained largely unchanged for centuries.

[Electrifying America: Social Meanings of a New Technology, 1880-1940, David E. Nye](#) , 1992, 0262640309, 9780262640305. How did electricity enter everyday life in America? Using Muncie, Indiana - the Lynds' now iconic Middletown - as a touchstone, David Nye explores how electricity seeped into and redefined American culture. With an eye for telling details from archival sources and a broad understanding of cultural and social history, he creates a thought-provoking panorama of a technology fundamental to modern life. Emphasizing the experiences of ordinary men and women rather than the lives of inventors and entrepreneurs, Nye treats electrification as a set of technical possibilities that were selectively adopted to create the streetcar suburb, the amusement park, the "Great White Way," the assembly line, the electrified home, and the industrialized farm. He shows how electricity touched every part of American life, how it became an extension of political ideologies, how it virtually created the image of the modern city, and how it even pervaded colloquial speech, confirming the values of high energy and speed that have become hallmarks of the twentieth century. He also pursues the social meaning of electrification as expressed in utopian ideas and exhibits at world's fairs,

and explores the evocation of electrical landscapes in painting, literature, and photography. *Electrifying America* combines chronology and topicality to examine the major forms of light and power as they came into general use. It shows that in the city electrification promoted a more varied landscape and made possible new art forms and new consumption environments. In the factory, electricity permitted a complete redesign of the size and scale of operations, shifting power away from the shop floor to managers. Electrical appliances redefined domestic work and transformed the landscape of the home, while on the farm electricity laid the foundation for today's agribusiness. David E. Nye teaches American history at the University of Copenhagen. He has published books on Henry Ford and Thomas Edison, as well as *Image Worlds*, a study of photography and corporate identities at General Electric.

[The Operations Management Complete Toolbox \(Collection\), Randal Wilson, Arthur V. Hill](#) , 2013, 0133742695, 9780133742695. For operations managers, running a smooth and efficient organization is more crucial than ever -- and it's more difficult, too. Fortunately, there's a secret to success: a proven approach and toolset that can help operations managers free up resources, eliminate unnecessary meetings, and get more done faster. The approach is named "The Power of Completion," and the tools have been honed by expert project managers through decades of experience. In *The Operations Manager's Toolbox*, operations manager and PMP-certified project manager Randal Wilson shows how to apply the Project Management (PM) discipline to completing the crucial "smaller" tasks that can help the organization quickly drive substantial improvements in efficiency and performance. *The Encyclopedia of Operations Management* is the perfect "field manual" for every supply chain or operations management practitioner and student. The field's only single-volume reference, it's uniquely convenient and uniquely affordable. With nearly 1,500 well-organized definitions, it can help students quickly map all areas of operations and supply chain management, and prepare for case discussions, exams, and job interviews. For instructors, it serves as an invaluable desk reference and teaching aid that goes far beyond typical dictionaries. For working managers, it offers a shared language, with insights for improving any process and supporting any training program. It thoroughly covers: accounting, customer service, distribution, e-business, economics, finance, forecasting, human resources, industrial engineering, industrial relations, inventory management, healthcare management, Lean Sigma/Six Sigma, lean thinking, logistics, maintenance engineering, management information systems, marketing/sales, new product development, operations research, organizational behavior/management, personal time management, production planning and control, purchasing, reliability engineering, quality management, service management, simulation, statistics, strategic management, systems engineering, supply and supply chain management, theory of constraints, transportation, and warehousing. Multiple figures, graphs, equations, Excel formulas, VBA scripts, and references support both learning and application.

[Introduction to Light: The Physics of Light, Vision, and Color, Gary Waldman](#) , 2002, 048642118X, 9780486421186.

Designed as a text for a one-semester, nonmathematical optics course at the undergraduate level, this well-illustrated

text is addressed to art majors but is also suitable for students of fashion, theater, photography, and the liberal arts. Four parts constitute this introductory volume: Part I discusses the nature of light, including early ideas of light (a newly revised chapter for this edition), and classical and modern theories. Part II concerns the manipulation of light, including such topics as geometrical optics, polarization, lasers, and holography; Part III explores vision, including the eye and seeing; and Part IV examines color, in terms of light and color in nature and color science. Three appendices deal with lens and mirror equations, Snell's law, and scientific notation. Questions at the end of each chapter offer students a chance to test their grasp of the material. The presentation is almost completely nonmathematical in manner, making this book widely accessible to students of all backgrounds and to other readers curious about this ubiquitous but mysterious natural phenomenon.

This beautifully produced, cloth-bound, one-of-a-kind address book contains 24 step-indexed tab pages with vivid color photographs of spectacular wooden boats by marine photographer Benjamin Mendlowitz. Each image has been carefully selected from the Calendar of Wooden Boats archives, and is a master study in dramatic light, contrast, mood and attention to detail. As a special feature, the backs of the tab pages are imprinted with the international signal flags, and their meanings, for each letter of the alphabet. There is ample room for a combination of names, mail and e-mail addresses, and phone, cell and fax numbers. A concealed wire-o allows the book to lie flat at any page. The Calendar of Wooden Boats Address Book is a celebration of the beauty, romance and fine craftsmanship that are the hallmarks of a wooden boat. It is dedicated to the continued preservation of these craft.

[Clothed in Light](#), Paul Jaffe, 2000, 096721310X, 9780967213101. Elvis Lives! At least his spirit is still alive...and communicating most uncannily in a new historical novel by psychotherapist and 'spiritual profiler' Paul Jaffe. "Clothed in Light: Elvis' Soul Journey" is a first-person, 'autobiographical' account of Presley's early years in Tupelo, Mississippi and Memphis and chronicles the star's phenomenal rise to fame in 1956. The story begins with Elvis describing his death, August 16, 1977, and revealing his profound and pervasive sense of the spiritual. (Presley usually traveled with a trunk

full of spiritual and metaphysical books.) Returned in soul, the King reflects on his life and mythology, and on those who mattered to him most. What's most stunning, however, is not the story of the King's life (which is fascinating), but the tone and voice of the first-person narrative; it is Elvis Presley's! Using a process the author terms 'spiritual profiling', Jaffe employed meditation, prayer, and guidance to connect with Elvis' spirit and to bring to light the star's intimate and unknown personality in a portrait both haunting and vulnerable.

[A Book of Masques: In Honour of Allardyce Nicoll, T. J. Spencer, Stanley W. Wells](#) , 1980, 0521297583, 9780521297585. The English court masque was one of the most extravagant and spectacular forms of entertainment ever produced, the most important period being between 1600 and 1640 when the writers included some of the best-known poets and dramatists of the age. This volume, first published in 1967, was the first selection of masques to be published in England in the twentieth century. It consists of fourteen masques, each specially edited with an introduction and commentary by

a different scholar, including Ben Jonson, James Shirley, Samuel Daniel, Thomas Campion, Francis Beaumont, William Browne, Thomas Middleton, Thomas Nabbes and William Davenant. Professor Gerald Eades Bentley examines the masque as Jonson conceived it and the clash that took place between Jonson and his collaborator as designer, Inigo Jones. There is also a final essay on the influence of the masque on the drama of the period. A group of 48 plates has been prepared many of them reproducing designs by Inigo Jones.

[Shakespeare's Local: Six Centuries of History Seen Through One Extraordinary Pub, Pete Brown](#) , 2013, 1447236807, 9781447236801. Welcome to the George Inn near London Bridge; a cosy, wood-pannelled, galleried coaching house a few minutes' walk from the Thames. Grab yourself a pint, listen to the chatter of the locals and lean back, resting your head against the wall. And then consider this: who else has rested their head against that wall, over the last 600 years? Chaucer and his fellow pilgrims almost certainly drank in the George on their way out of London to Canterbury. It's fair to say that Shakespeare will have popped in from the nearby Globe for a pint, and we know that Dickens certainly did. Mail carriers changed their horses here, before heading to all four corners of Britain -- while sailors drank here before visiting all four corners of the world... The pub, as Pete Brown points out, is the 'primordial cell of British life' and in the George he has found the perfect case study. All life is here, from murderers, highwaymen and ladies of the night to gossiping pedlars and hard-working clerks. So sit back and watch as buildings rise and fall over the centuries, and 'the beer drinker's Bill Bryson' (TLS) takes us on an entertaining tour through six centuries of history, through the stories of everyone that ever drank in one pub.

9781401308841. Coming this fall: the tie-in to the Disney Pictures release starring Mark Wahlberg -- the true story of the NFL's oldest rookie. In 1976, Vince Papale was thirty, a former schoolteacher and part-time bartender, and a season ticket-holder for his beloved Philadelphia Eagles. When he heard that Coach Dick Vermeil was holding open tryouts, he decided to give it a shot. Shocking himself and the coaches, he ran an explosive 40-yard-dash in just 4.5 seconds -- a world-class time -- and was offered a contract on the spot. When he joined the team, Papale became the oldest non-kicking rookie in NFL history, a fan favorite who played for four years and was named a team captain. *Invincible* is Vince Papale's story, and a tie-in to the Disney Pictures film of the same name starring Mark Wahlberg as Papale and Greg Kinnear as Vermeil. But more than just a tie-in, it tells Papale's story in his own words, covering subjects not included in the film. Like *Rudy*, *Glory Road*, and *Rookie*, it is the true story of an ordinary man who achieves an extraordinary goal.

The compelling story and the machinations of the evil Aeneas Manston also raise the great questions underlying Hardy's major novels, and this edition shows for the first time that the sensation genre was always Hardy's natural medium. Based on first edition text, and includes later prefaces and the Wessex Poems 'dissolved' into prose. - ;'She was swayed into emotional opinions concerning the strange man before her;

new impulses of thought...entered into her with a gnawing thrill.' Hardy's first published work, *Desperate Remedies* moves the sensation novel into new territory. The anti-hero, Aeneas Manston, as physically alluring as he is evil, even fascinates the innocent Cytherea, though she is in love with another man. When he cannot seduce her, Manston resorts to deception, blackmail, bigamy, murder, and rape. Yet this compelling story also raises the great questions underlying Hardy's major novels, which relate to the injustice of the class system, the treatment of women, probability and causality. This edition shows for the first time that the sensation novel was always Hardy's natural medium. -

Have you ever befriended or worked with a black person? If you answered yes to any of these questions, this book is for you. Raised by a pro-black, Pan-African single mother during the crack years of 1980s Washington, DC, and educated at Sidwell Friends School and Harvard University, Baratunde Thurston has over thirty years' experience being black. Now, through stories of his politically inspired Nigerian name, the heroics of his hippie mother, the murder of his drug-abusing father, and other revelatory black details, he shares with readers of all colors his wisdom and expertise in how to be black. Beyond memoir, this guidebook offers practical advice on everything from "How to Be The Black Friend" to "How to Be The (Next) Black President" to "How to Celebrate Black History Month." To provide additional perspective, Baratunde assembled an award-winning Black Panel of three black women, three black men, and one white man (Christian Lander of *Stuff White People Like*) and asked them such revealing questions as: "When Did You First Realize You Were Black?" "How Black Are You?" "Can You Swim?" The result is a humorous, intelligent, and audacious guide that challenges and satirizes the so-called experts, purists, and racists who purport to speak for all black people. With honest storytelling and biting wit, Baratunde plots a path not just to blackness, but one open to anyone interested in simply "how to be."

Guest Pass: Access to Your Teen's World gives you a back-stage entry to "tour" your teen's world. It is co-written by a mother/psychologist and daughter/high school junior who discuss topics relevant to today's teenage culture from multiple perspectives. This book explores parent-teen issues related to the use of social network media, body art, emotional distress, substance use, and more. Although the specifics of parents, adolescents, and their relationships are unique, there are common challenges that arise during this developmental stage. Guest Pass: Access to Your Teen's World provides theoretical analysis and clinical research to facilitate your understanding of your teenagers. Each chapter also includes exercises for self-assessment, questions to explore with your adolescents, and practical suggestions on how to apply what you have learned. By increasing your knowledge, you will be better equipped to build healthier relationships with your teens.

It begins tens of thousands of years ago with some hunters and seagoers who head east in search of game and fish. The story continues through time and place, telling of others who sail west over a broad ocean to the same opulent land. Together these diverse peoples create a New World and make it their own. The books take us through the 20th century, recounting events that have defined our past and will shape our future.

There is a strong emphasis on observational cosmology, with introductory chapters on the visible universe, our galaxy and other galaxies and the empirical basis for cosmological theory. After an account of the big bang model, there are chapters on the early stages of the big bang and galaxy formation. Finally, there are chapters on cosmological tests and on alternative theories. A feature of the book is its updated epilogue of twenty controversies in cosmology today. Latest results from the WMAP mission have been added and a wealth of new material, including a stronger emphasis on the cosmological constant. The book has an extensive glossary and the exercises have been substantially expanded. A strongest emphasis on the physical basis for cosmology is included."--BOOK JACKET.

[The Asian Financial Crisis: Origins, Implications, and Solutions: Origins, Implications, and Solutions ; \[Papers Presented at a Conference Held on Oct. 8 - 10, 1998 \], William C. Hunter, George G. Kaufman, Thomas H. Krueger, Federal Reserve Bank of Chicago](#) , 1999, 0792384725, 9780792384724. In the late 1990s, Korea, Thailand, Indonesia and Malaysia experienced a series of major financial crises evinced by widespread bank insolvencies and currency depreciations, as well as sharp declines in gross domestic production. This sudden disruption of the Asian economic `miracle' astounded many observers around the world, raised questions about the stability of the international financial system and caused widespread fear that this financial crisis would spread to other countries. What has been called the Asian crisis followed a prolonged slump in Japan dating from the early 1980s and came after the Mexican currency crisis in the mid-1990s. Thus, the Asian crisis became a major policy concern at the International Monetary Fund as well as among developed countries whose cooperation in dealing with such financial crises is necessary to maintain the stability and efficiency of global financial markets. This book collects the papers and discussions delivered at an October 1998 Conference co-sponsored by the Federal Reserve Bank of Chicago and the International Monetary Fund to examine the causes, implications and possible solutions to the crises. The conference participants included a broad range of academic,

industry, and regulatory experts representing more than thirty countries. Topics discussed included the origin of the individual crises; early warning indicators; the role played by the global financial sector in this crisis; how, given an international safety net, potential risks of moral hazard might contribute to further crises; the lessons for the international financial system to be drawn from the Asian crisis; and what the role of the International Monetary Fund might be in future rescue operations. Because the discussions of these topics include a wide diversity of critical views and opinions, the book offers a particularly rich presentation of current and evolving thinking on the causes and preventions of international banking and monetary crises. The book promises to be one of the timeliest as well as one of the most complete treatments of the Asian financial crisis and its implications for future policymaking.

[Butterflies in My Stomach and Other School Hazards, Serge Bloch](#) , 2011, 1402785704, 9781402785702. You can't bet your bottom dollar" this funny story is "the cream of the crop"--"and the best thing since sliced bread"! Award-winning artist Serge Bloch will have kids laughing their heads off at this child's-eye look at idiomatic expressions like "ants in your pants," "homework is for the birds," and "cat got your tongue?" These commonly used sayings make sense in the adult world, but just imagine what a child pictures when she hears it's "raining cats and dogs!" With witty and wonderful images that mix whimsical line drawings with photographs of inanimate objects, Bloch gives us a unique and sympathetic perspective on a boy's first day of school where colorful butterflies flutter in our hero's stomach and a cloud rains on him when he's "under the weather." Even the "big cheese" Principal has a body cut out of a block of Swiss.

[For Solo Violin: A Jewish Childhood in Fascist Italy, Aldo Zargani](#) , 2002, 0967967538, 9780967967530. In an extraordinary literary debut, Aldo Zargani reconstructs the lost world of his Jewish childhood during the perilous years 1938-45 when he and his family fled from Fascists and Nazis in northern Italy. His haunting memoir acquires a cinematic intensity as he crosscuts from the blood-red stone spires of Basel, where his father failed to find refuge for his family in 1939, to fiery scenes of the Allied bombing of Turin in 1942, to the freezing winter of 1943-44, which Zargani and his brother spent hidden in a Catholic boarding school deep in the countryside. For Solo Violin is filled with colorful portraits of Italian aristocrats and peasants, priests and soldiers, teachers and students, informers and partisans. At its heart is Zargani's vivid depiction of his father, a concert violinist forced to give up his career when the Fascists came to power. In this time of persecution, the Zargani family survived through their own resourcefulness and through the efforts of the many Italians who came to their aid, from the young doctor who helped them escape from Turin to the shepherd who supplied them with milk during the last year of the war, when they lived among the partisans in a remote Piedmont valley. Looking back over a distance of fifty years, Zargani rediscovers the enchantment of childhood shining in "fable-like constellations" even amidst the inferno of war. Lullabies and school games, fairy tales and family jokes are interwoven with the events of terror and oppression. Lyrical, humorous, tender, and wise, For Solo Violin is a testament to resilience

and hope during the darkest period in human history. "An eloquent tribute to [and] a moving account of those who, despite the cruelty of so many around them, found ways to rejoice and trust in the kindness of a few. One is instantly reminded of *Life Is Beautiful*." Andr Aciman, author of *Out of Egypt*"For Solo Violin is a gracefully written, elegiac memoir of childhood." The Los Angeles Times Aldo Zargani was born in 1933 in Turin, Italy. For many years, he worked for RAI, the Italian broadcasting network. *Per Violino Solo* was first published in Italy in 1995 and won several literary awards, among them the Premio Acqui Storia and the Premio Ishia. Zargani now lives and writes in Rome.

[In Search of Civilization: Remaking a Tarnished Idea, John Armstrong](#) , 2011, 1555970273, 9781555970277. A self-effacing, humane and unparanoid call to change our wealthy yet often barbaric world for the better. * In this provocative cri de coeur, the philosopher John Armstrong rescues the idea of civilization from irrelevance and connects it to our search for individual happiness. Civilization once referred to a societys technological prowess, its political development, or its cultural achievement. In the modern era, however, the word became burdened by the legacy of colonialism and connotations of elitism. For it to have value once again, according to Armstrong, we must understand that a society balances material prosperity with spiritual prosperity if it is to merit the term civilizedand currently we are impoverished. *In Search of Civilization* is his corrective. As he roams from anecdote to aesthetic appreciationfrom the banality of an early job at an insurance company to the redemptive wonders of a seventeenth-century church spire visible out an office window, from Adam Smiths philosophy to the Japanese tea ceremonyArmstrong reminds us that culture lies within us and that its nourishment is essential to a flourishing society.

[The Baby Rules: The Insider's Guide to Raising Your Parents, Jamie Schaefer-Wilson, Jo Anne Germinario](#) , 2004, 0757301983, 9780757301988. With its lighthearted approach out of the mouths of babes (literally!), this book offers an alternative to the many parenting tomes that are impossible for sleep-deprived readers to get through. As new mothers, the authors read many parenting books and were dismayed at the amount of advice that was not only intimidating, but downright dangerous. It became their mission to compile a book of easily accessible tips for new parents and caregivers with baby's safety as a priority. Organized into categories not months (since no baby develops at the same rate, making nervous parents even more anxious!) topics include: the birth, diapering, breastfeeding, bottle-feeding and solids, burping, bath time, bedtime, walking, teething, taking care of parents, emotional development, general safety, kitchen safety, vaccines and playground safety.

The story ends with a lovely surprise. The story is presented in English with a Spanish translation by Marcela Araiza. "This book offers parents an important perspective on the needs of babies and young children: what the latter want and need the most is their mothers. This simple reality, however, is overlooked by increasing numbers of parents. [Architect's Handbook of Formulas, Tables, and Mathematical Calculations, David Kent Ballast](#) , 1988, 0130446866, 9780130446862. The Architect's Handbook of Formulas, Tables, and Mathematical Calculations compiles a vast range of practical, concise formulas, tables, and calculation methods useful to improve the design process. It is a problem-solving and decision-making tool for the practicing architect and interior designer. The material included in this book gives you the answer to the many types of problems you face every day - those dealing with overall site and space planning, sizes of building components, material selection, finishes, construction assemblies, and building systems. In addition, you will find useful "rules of thumb" and basic reference data. The organization of this Handbook is based on how architects actually work through a project and make decisions - from establishing early programming needs, to making preliminary design and building system choices, to evaluating specific material selections. The tables and calculation methods selected are practical, proven reference information helpful for all phases of a job. To make the tables and formulas even more useful, step-by-step procedures for using them and easy-to-follow examples are included where appropriate.

Respecting the Gospel to the letter, their rejection of oaths, falsehood, the death penalty, purgatory and the intercession of saints marginalized them in the society of the times. Their survival depended on their will to adapt. Organisation became necessary to withstand the pressures of time and space as their community extended across Europe (France, Italy, Switzerland, Germany, Bohemia, Poland). Preachers, called "barbes" in the diaspora's Romance wing, embodied the ideal lifestyle and unity of their community. This is the story and history of those preachers - celibate, arduous, pious men whose itinerant mission it was to maintain a clandestine but vehement faith.

[The Politics of CANDU Exports, Duane Bratt](#) , 2006, 0802090915, 9780802090911. In *The Politics of CANDU Exports*, Duane Bratt provides a comprehensive history of the export of the Canada Deuterium-Uranium (CANDU) reactor - a pressurized heavy water natural-uranium power reactor designed and marketed by Atomic Energy of Canada Limited. Bratt examines every CANDU sale, as well as some important unsuccessful sales attempts, from 1956 to the present. He also outlines the impact that changes in the international political climate such as the creation and strengthening of the international nuclear non-proliferation regime, and the increasing importance of human rights and environmental protection, have had on CANDU exports over the last fifty years. Bratt's study attempts to develop a framework for understanding the ebb and flow of the influences of different foreign policy objectives on Canada's decision-making process. There are litanies of economic and political interests that Canadian governments have hoped to serve by exporting CANDUs, interests such as economic gain, containing communism, and assisting the developing world. Yet, Canada has additional foreign policy objectives such as national security, the protection of human rights, and preservation of the environment, which constrain the desire to export CANDUs. Furthermore, the nature of the debate surrounding CANDU exports has changed over time. Bratt shows that while the traditional debate over CANDU exports was between Canada's commercial interests and its security concerns, since the early 1990s a new debate focused on two separate planes of argument has emerged. The economic benefits of exporting the CANDU reactors are now weighed against the economic cost of extensive government subsidies; while the environmental benefits of CANDU exports are measured against the environmental costs of building and promoting nuclear power.

As in earlier editions, basic principles of molecular, cellular, and integrative endocrinology are presented early, along with an updated guide to current research and methodologies. Following chapters contain discussions of each of the major endocrine systems, supplemented with the most important and interesting new information. Neuroendocrine and reproductive systems are the specialty of the new co-author of this edition, and corresponding chapters have been appropriately increased in coverage. Special features of this new edition include... 1. Expanded explanations of basic concepts 2. Updated information on research methodologies 3. Latest research findings added to chapters on each endocrine system 4. Additional diagrams and figures 5. Printed with second color scheme. 6. New "Think, Analyze, and Discuss" review questions For health professionals, veterinarians, pharmacologists, and anyone in a field where endocrinology is the focus.

Like the children in this story, adopted kids learn that their adoptive parents wanted them very much, and love them very dearly. As preschool and early-grades children read these illustrated What Do You Know About? Books, or have them read to them, they will be encouraged to explore their own feelings about problems that might be bothering them, or to find answers to a wide array of questions that puzzle them. The books have appealing color illustrations on every page, and each title features a short section of advice to parents. What Do You Know About? Books are available in both English and Spanish language editions.

[Modern Catholicism: Vatican II and after, Adrian Hastings](#) , 1991, 0195206576, 9780195206579. When Pope John XXIII convened the Second Vatican Council in 1963, he could not have predicted the dramatic transformation of modern Roman Catholicism that would result from its deliberations. Its influence has reached into every aspect of Catholic life and continues to be felt and hotly debated to the present day. In this sweeping new study, edited by the eminent British Catholic theologian Adrian Hastings, a distinguished team of international scholars provides a complete history of the Council and assesses its impact on the last quarter century of Catholic thought and practice. The contributors consider the reign of John XXIII and his immediate predecessors and successors, the history of the Council, and each of the sixteen documents it issued, which together represent perhaps the most authoritative church teaching of this century, embodying radical changes in the liturgy and greater participation in services by lay members. But Vatican II also left behind many unresolved controversies (such as celibacy of priests and birth control) and the contributors also examine these and other issues, including the role of women in the Church, homosexuality, divorce, and war and the nuclear predicament. In addition, the impact of the Council on different parts of the world is discussed, giving full weight to the emergence of liberation theology in Latin America and the Philippines, and the desire of African and Asian Catholics to assimilate aspects of their traditional culture into Church life. Modern Catholicism offers us a new map for understanding the challenges faced by the Church as we approach the end of the second millennium of Christianity. Commemorating the twenty-fifth anniversary of Vatican II, this book is destined to become the standard resource on the Council and its influence.

[Gardening in the Caribbean, Iris Bannochie, Marilyn Light](#) , 1993, 0333565738, 9780333565735. The warm climate and generous rainfall of the Caribbean islands, together with rich soils, provide excellent conditions for growing a great variety of plant life. Columbus discovered that the indigenous peoples of the region were successfully growing an extensive range of plants and crops, and successive settlers of many cultures have introduced their familiar species. There are few places in the world with as great a diversity of plants as found in today`s Caribbean. This book tells the reader how to achieve the best results by learning more about the plants and how to grow them in particular situations. It covers all aspects of Caribbean and tropical gardening. It discusses climate, soils, drainage and irrigation, feeding, pruning and propagation. A chapter on landscape introduces the basics of garden design, and shows what to grow where. The section on plant competitors focuses on pest, disease and weed control in a tropical context. Iris Bannochie won the Gold Medal on three occasions at the Chelsea Flower Show in London, and was awarded the Gold Vietch Memorial Medal by the Royal Horticultural Society in 1977 for her contribution to tropical horticulture.

[The Power of the Word: In the Worshipping Church, John Breck](#) , 1987, 0881410438, 9780881410433. The importance of the "power of the Word" as the means by which saving events of the past become "actualized" in each present moment within the life and experience of the Church is the focus of The Power of the Word. In searching for a hermeneutic for exegesis and interpretation of the Scriptures in today's world, Breck turns to the patristic vision to recover the dynamic quality of the Word as the instrument of God's self-disclosure and self-communication. It is within the liturgical context particularly that Fr Breck sees the corrective to the purely "verbal" understanding of the Word, restoring to the Word its dynamic quality and its revelatory and saving power as an instrument of the divine will. It is only within the eucharistic community, as with the disciples at Emmaus, that one's eyes are opened to a true understanding and acceptance of the divine economy, to the perception of the full revelation of God through a personal and intimate communion in the divine gifts of Christ's Body and Blood. Only in the Sacrament is the Word transformed from a message about Jesus into a true participation in His divine life. Book jacket.

Over the course of his life (550-460 BC), the Greek poet Simonides produced poetic work of every kind then extant. Unfortunately, Simonides' corpus has survived only in fragments, though classical scholars have been studying his work for generations. The 1992 discovery of the Oxyrhynchus Papyri revolutionized the study of Simonides, casting particular light on the epic of Plataea. This edited volume gathers the best of the recent research on Simonides' newly expanded oeuvre into a single collection that will be an important reference for scholars of Greek poetry.

[City Wolves, Dorris Heffron](#) , 2010, 145971749X, 9781459717497. A moving historical tale and remarkable literary achievement, *City Wolves* is the story of Canada's first woman veterinarian, Meg Wilkinson. Born in 1870 on a farm near Halifax, Meg's childhood experience with wolves makes her determined to be a veterinarian. Supported by the seemingly eccentric Randolph Oliphant and inspired by the ancient Inuit who first turned wolves into sled dogs, Meg surpasses the horse doctors at vet college and becomes the notorious 'dog doctor of Halifax' in the 1890s. After her unusual marriage ends abruptly in Boston, Meg travels to Vancouver and up to the Yukon, seeking the legendary sled dogs. Arriving at the beginning of the Klondike gold rush, she makes her way amidst Mounties, dance hall girls, Klondike Kings, mushers, priests and swindlers...all the mangy and magnificent people, dogs and spirits that populated raucous Dawson City. Observed through the restless spirit of Inuit Ike, this is lively, insightful, historical fiction, subtly revealing the wolf-like nature of humans and the human nature of wolves. Both earthy and reflective, *City Wolves* is an important story told with compassion, humour and unflinching realism. In this her fifth novel, Dorris Heffron has created a wide range of unforgettable characters and achieved a breadth of vision exploring the deep conflicts and interconnection of social beings in a way that is uniquely Canadian and profoundly universal.

[When Heaven and Earth Changed Places: A Vietnamese Woman's Journey from War to Peace, Le Ly Hayslip](#) , 1990, 0452264170, 9780452264175. It is said that in war heaven and earth change places not once, but many times. When Heaven and Earth Changed Places is the haunting memoir of a girl on the verge of womanhood in a world turned upside down. The youngest of six children in a close-knit Buddhist family, Le Ly Hayslip was twelve years old when U.S. helicopters landed in Ky La, her tiny village in central Vietnam. As the government and Viet Cong troops fought in and around Ky La, both sides recruited children as spies and saboteurs. Le Ly was one of those children. Before the age of sixteen, Le Ly had suffered near-starvation, imprisonment, torture, rape, and the deaths of beloved family members-but miraculously held fast to her faith in humanity. And almost twenty years after her escape to America, she was drawn inexorably back to the devastated country and family she left behind. Scenes of this joyous reunion are interwoven with the brutal war years, offering a poignant picture of Vietnam, then and now, and of a courageous woman who experienced the true horror of the Vietnam War-and survived to tell her unforgettable story.

[The Viceroy's Daughters, Anne de Courcy](#) , 2012, 1780225741, 9781780225746. Irene (born 1896), Cynthia (b.1898) and Alexandria (b.1904) were the three daughters of Lord Curzon, Viceroy of India 1898-1905 and probably the grandest and most self-confident imperial servant Britain ever possessed. After the death of his fabulously rich American wife in 1906, Curzon's determination to control every aspect of his daughters' lives, including the money that was rightfully theirs, led them one by one into revolt against their father. The three sisters were at the very heart of the fast and glittering world of the Twenties and Thirties. Irene, intensely musical and a passionate foxhunter, had love affairs in the glamorous Melton Mowbray hunting set. Cynthia ('Cimmie') married Oswald Mosley, joining him first in the Labour Party, where she became a popular MP herself, before following him into fascism. Alexandra ('Baba'), the youngest and most beautiful, married the Prince of Wales's best friend Fruity Metcalfe. On Cimmie's early death in 1933 Baba flung herself into a long and passionate affair with Mosley and a liaison with Mussolini's ambassador to London, Count Dino Grandi, while enjoying the romantic devotion of the Foreign Secretary, Lord Halifax. The sisters see British fascism from behind the scenes, and the arrival of Wallis Simpson and the early married life of the Windsors. The war finds them based at 'the Dorch' (the Dorchester Hotel) doing good works. At the end of their extraordinary lives, Irene and Baba have become, rather improbably, pillars of the establishment, Irene being made one of the very first Life Peers in 1958 for her work with youth clubs.

[Deja Dead: A Novel, Kathy Reichs](#) , 1999, 0684839067, 9780684839066. The raves are in -- from Edgar-winning authors and internationally acclaimed forensic experts: Kathy Reichs and Dj Dead are something special. Rarely has a debut crime

novel inspired such widespread excitement. A born storyteller, Dr. Kathy Reichs walks in the steps of her heroine, Dr. Temperance Brennan. She spends her days in the autopsy suite, the courtroom, the crime lab, with cops, and at exhumation sites. Often her long days turn into harrowing nights. It's June in Montreal, and Tempe, who has left a shaky marriage back home in North Carolina to take on the challenging assignment of director of forensic anthropology for the province of Quebec, looks forward to a relaxing weekend. First, though, she must stop at a newly uncovered burial site in the heart of the city. One look at the decomposed and decapitated corpse, stored neatly in plastic bags, tells her she'll spend the weekend in the crime lab. This is homicide of the worst kind. To begin to find some answers, Tempe must first identify the victim. Who is this person with the reddish hair and a small bone structure?

[Linear Estimation, Thomas Kailath, Ali H. Sayed, Babak Hassibi](#) , 2000, 0130224642, 9780130224644. This original work offers the most comprehensive and up-to-date treatment of the important subject of optimal linear estimation, which is encountered in many areas of engineering such as communications, control, and signal processing, and also in several other fields, e.g., econometrics and statistics. The book not only highlights the most significant contributions to this field during the 20th century, including the works of Wiener and Kalman, but it does so in an original and novel manner that paves the way for further developments. This book contains a large collection of problems that complement it and are an important part of piece, in addition to numerous sections that offer interesting historical accounts and insights. The book also includes several results that appear in print for the first time. FEATURES/BENEFITSTakes a geometric point of view.Emphasis on the numerically favored array forms of many algorithms.Emphasis on equivalence and duality concepts for the solution of several related problems in adaptive filtering, estimation, and control.These features are generally absent in most prior treatments, ostensibly on the grounds that they are too abstract and complicated. It is the authors' hope that these misconceptions will be dispelled by the presentation herein, and that the fundamental simplicity and power of these ideas will be more widely recognized and exploited. Among other things, these features already yielded new insights and new results for linear and nonlinear problems in areas such as adaptive filtering, quadratic control, and estimation, including the recent "Ha theories."

[Logging and Lumbering in Maine, Donald A. Wilson](#) , 2001, 0738505218, 9780738505213. Known as the Pine Tree State, Maine once led the world in lumber production. It was the first great lumber-producing region, with Bangor at its center. Today, the state has nearly eighteen million acres of timberland, and forest products still make up a major industry. Logging and Lumbering in Maine examines the history from its earliest roots in 1630 to the present, providing a pictorial record of land use and activity in Maine. The state's lumber industry went through several historical periods, beginning with the vast pine and spruce harvests, the organization of major corporate interests, the change from sawlogs to pulpwood, and then to sustained yields, intensive management, and mechanized harvesting. At the beginning, much of the region was inaccessible except by water, so harvesting activities were concentrated on the coast and along the principal rivers. Gradually, as the railroads expanded and roads were constructed into the woods, operations expanded with them and the river systems became vitally important for the transportation of timber out of the woods to the markets downstate. Logging and Lumbering in Maine traces these developments in the industry, taking a close look at the people, places, forests, and machines that made them possible.

[The Old House, Pamela Duncan Edwards](#) , 2007, 0525477969, 9780525477969. The old house is lonely because it has been empty for so long. Its friends try to cheer it up, but the house seems to prefer self-pity. Its droopy shutters and sagging front porch discourage all buyers until the day a certain family comes to take a look. While the children see lots of potential for good times, the mother and father see a lot of work ahead. Will the house pull itself together in time to impress them, or will it be condemned to more unhappiness? This story about the deep connection between family and homestead will resonate with readers young and old.

John Laurence minister, modern mystic, and direct disciple of the great spiritual master and world teacher, Paramhansa Yogananda (author of the bestselling classic, *Autobiography of a Yogi*) presents, in this volume of talks, an outline of the inner path with practical spiritual teachings. Laurence's speaking style is refreshingly straightforward and lively as he highlights timeless truths via fascinating stories from the lives of saints from East and West. Laurence's message of how to grow spiritually is universal and non-denominational, and his compelling discussions of life after death are centered in the foundation of Laurence's own psychic abilities and high spiritual state.

Compellingly honest, entertaining and inspiring, Still a Minstrel is Suess's account of key events that led him to become a psychologist and music therapist, as well as a musician and songwriter. Suess explores the power of music to forge connections by reminiscing about the escapades of his traveling rock band, his years as a jazz pianist presiding over a lively piano bar, and using music therapy as a psychologist to connect with hard-to-reach clients. He insightfully illustrates how science, culture, technology, and religion affect our response to music. Equally appealing to music fans, musicians, and mental health professionals, Still a Minstrel is the joyous story of a musician and healer using his own gifts to help others find their paths in an often confusing world.

Every woman wants to be wined, dined, massaged, pampered, given hot baths, scalp massages, foot rubs, and even some toe-sucking every now and then...without her having to tell her man! Before women give a man sex, men are Mr. Right and Mr. Wonderful. They pull out all the stops to do everything they know how, to get women into bed. After women give a man sex, it stops. No more candles. No more cuddling. And thus, no more romance. No more waiting for your man to learn about romance on his own. Now, you're going to teach him! Teach him what? Simple. You're going to teach him exactly what you want. This book teaches, using very simple, proven concepts, what women need to do to teach their men, to be romantic. So, sit back, call your girlfriends, and the babysitter. Set a date for your book club meeting. Shut the door, close the curtains, put your phone on silent. This book is about to open your eyes, ...and his. More info at <http://romance101book.com>

[How the Garcia Girls Lost Their Accents, Julia Alvarez](#) , 2004, 0747572658, 9780747572657. Uprooted from their family home in the Dominican Republic, the four Garcia sisters - Carla, Sandra, Yolanda, and Sofia - arrive in New York City in 1960 to find a life far different from the genteel existence of maids, manicures, and extended family they left behind. What they have lost - and what they find - is revealed in the fifteen interconnected stories that make up this exquisite novel from one of the premier novelists of our time. Just as it is a feature of the immigrant experience to always look back, the novel begins with thirty-nine-year-old Yolanda's return to the island and moves magically backward in time to the final days before the exile that is to transform the sisters' lives. Along the way we witness their headlong plunge into the American mainstream. Although the girls try to distance themselves from their island life by ironing their hair, forgetting their Spanish, and meeting boys unchaperoned, they remain forever caught between the old world and the new. With bright humor and rare insight, Julia Alvarez vividly evokes the tensions and joys of belonging to two distinct cultures in a novel that is utterly authentic and full of irrepressible spirit.
