[The Poems of Wing Lei, Alex Grant](#) , 2012, 193613845X, 9781936138456. Poet and fabulist, Alex Grant, writes about the 9th century poet Wing Lei, a creation of the heart and mind.

[Toothpicks and Logos: Design in Everyday Life, John Heskett](#) , 2002, 0192804448, 9780192804440. Design touches virtually every aspect of our lives, imbuing the most humdrum of objects with meaning. In *Toothpicks and Logos*, John Heskett illuminates a subject as vast and complex as human life itself, ranging from the earliest found implements in our history--the stick, the shell, the cupped hand--to modern advertising logos, software interfaces, and even the lowly toothpick. Here is a truly groundbreaking book, one that will transform the way we think about design, revealing how integral it is to our daily lives, from the spoon we use to eat our breakfast cereal, to the car we drive to work in, to the medical equipment used to save lives. Design, Heskett writes, is one of the most basic expressions of what it is to be human--the reshaping of the environment to meet our needs and answer our desires, capturing both utility and aesthetics. Going beyond issues of style and taste, he describes how different cultures and individuals personalize objects--even simple objects, such as a toothpick, can have their design modified to suit the specific cultural behavior in different countries. Heskett examines architecture, multimedia, computers, software, and even the role of government in influencing design trends and he offers fascinating insights into how major companies such as Nokia, Ford, and Sony approach design. Finally, we are shown an exciting vision of what design can offer us in the future and especially its role in humanizing new technology. Learned, thoughtful, and filled with lively examples, *Toothpicks and Logos* offers an entirely new slant on design, bringing clarity and insight to a sprawling and staggeringly complicated subject.

[Grandmother Witch: Springtime.](#) , 2004, 0975540351, 9780975540350. As more and more people turn to Wicca and Paganism as their faith of choice, young Pagan families are growing in number and searching for appropriate literature for their young children. There has, sadly, been a lack of suitable stories aimed at entertaining the Pagan child and teaching them gently on their own level. Now author and illustrator, Autumn Domsolai, has filled that gap with *Grandmother Witch*, the first in a series of beautifully illustrated children's books. Join Poppet in her adventures with her beloved Grandmother Witch, as she learns all about what it means to be a Witch. These are stories the whole family will enjoy.

[Gut Check: The Glory Days of Joe Gibbs' Washington Redskins 1981-1992, Rich Tandler](#) , 2004, 0972384510, 9780972384513. It was a bolt out of the blue. The Redskins were looking for a coach to replace the disappointing Steve Spurrier. It appeared that the choice was going to come down to one of three coaches, all of whom had been fired at

least once. Then, late in the evening on Tuesday, January 6, reports started to circulate that there was a new name in the mix, a magical name: Joe Gibbs. Internet boards buzzed and phones rang late into the very early hours of the next morning. There was utter disbelief at first-Gibbs turned down countless attempts to lure him back into coaching. Besides that, it's just way too good to be true. Then there was a scramble for more information. What's ESPN saying? Does the Post have anything new? After sunrise, as many bleary-eyed fans made their way to work, the various news services started confirming the story. As much as everyone wanted to believe it, there were still doubts, still fears that the deal would collapse at the last minute. Then, early in the afternoon, came a statement from Gibbs saying that he was returning to coach the Washington Redskins. Yes, Virginia-and DC, and Maryland and everywhere else on the planet where Redskins fans reside-there is a Santa Claus. There wasn't a buzz about the developments around town, there was a roar. The local media went to an all Joe Gibbs, all the time mode. People were walking the area just smiling for no apparent reason. At his introductory press conference he was treated like royalty. It was Hail to the Redskins, Hail to Joe Gibbs. In the days that followed, Gibbs continued to be the topic of conversation. One thing that many wanted to know was, "What were things like the first time around?" In the 11 years that had passed since he suddenly resigned as the Redskins coach, many new fans had begun to follow the team. Others had only dim memories of the glory days from 1981 through 1992, having lived in other areas of the country at the time-there was no Internet to allow them to follow the day to day developments, no satellite dishes to watch more than a handful of games a season. Still others were too young during all or part of Gibbs Era I to remember much of it. There are many fine books out there in which one could find out a lot about those Redskins teams. One is my book, the Redskins From A to Z, Volume 1: The Games, which has accounts of every game the team played from 1937 through 2001 including, of course, the Gibbs years. But, like most Redskins history books, there is a lot of information about the team before 1981 and more than a decade's worth of games and events since recounted. There was nothing on the market that was one-stop shopping for everything you wanted to know about the Joe Gibbs Redskins, no easy way to either get up to speed on, or refresh your memory about, the golden era of Redskins football. Instead of looking around for a resource for those starved for Gibbs information, I decided to create one. So was born Gut Check: The Complete History of Coach Joe Gibbs' Washington Redskins. Starting with the game accounts, annual statistical leader tables and annual player rosters that I had created for The Redskins From A to Z, I went about adding elements that would give the reader a solid notion of what those Redskins teams were about, what kind of character those layers had and what made Joe Gibbs tick. I had already been working on compiling information on every player in Redskins history for my second book (which will now end up being my third). Here, you get the profiles of every player who appeared in at least one game for the Redskins under Joe Gibbs. The basic information was obtained from Total Football, a giant reference book that's packed with excellent data. Details in the player profiles came from a variety of sources, including some of the excellent Redskins history books mentioned above.

[Adolescents, Media, and the Law: What Developmental Science Reveals and Free Speech Requires, Roger J. R. Levesque](#) , 2007, 0195320441, 9780195320442. There is much controversy about the dangers of a free media when it comes to children and adolescents. Many believe that this constitutional right should be amended, altered, or revoked entirely to prevent the young from being negatively influenced. Graphic violence, sexual content, and the depiction of cigarette smoking have all come under fire as being unacceptable in media that is geared toward adolescents, from television and movies to magazines and advertising. Yet not much has been written about the developmental science behind these ideas, and what effects a free media really has on adolescents. This book presents a synthesis of all current knowledge about the developmental effects of a free media on adolescents. Levesque first presents a full analysis of research studies into the media's effects on adolescents in four key areas: sexuality, violence, smoking, and body image. All findings are assessed within the context of normal adolescent development. Levesque then discusses how this knowledge can be used to inform current standards for the regulation of free speech with regard to adolescents. Both legal restrictions and less formal regulatory bodies (schools, parent groups, etc.) are reviewed to present a full picture of the ways in which a free media is constrained to protect adolescent's development.

[The Essays of Virginia Woolf: 1925 - 1928, Volume 4; Volumes 1925-1928, , Virginia Woolf](#) , 2008, 0156035227, 9780156035224. This fourth volume of the first complete edition of Virginia Woolf's essays and reviews celebrates her maturing vitality and wonderfully reveals her prodigious reading, wit and original intelligence. Written while she worked on *TO THE LIGHTHOUSE* and *ORLANDO*, these pieces explore subjects ranging from the world's greatest books to obscure English lives. *THE COMMON READER*, First Series, in which she influentially revives women's place in history, comprises a quarter of the volume. Contributions to American journals for the first time in her career outnumber those to the *Times Literary Supplement*, and so her pieces in the *Nation & Athenaeum*, under Leonard Woolf's literary editorship. The volume also includes her moving introduction to the Modern Library Edition of *MRS. DALLOWAY*, not previously published. In his superb notes, McNeillie this time adds variations in her essays as they appeared in different versions: for example, the lines later omitted from her essay on Joseph Addison: "our range of delights. persuade us that the whole business of life is better worth while." Virginia Woolf's creativity and industry in these three years bespeak astonishing gifts, remarkable robustness, and a passion for "the whole business of life" that inspires.

[Eloquent witnesses: bookbindings and their history : a volume of essays dedicated to the memory of Dr. Phiroze Randeria, Mirjam Foot, Bibliographical Society \(Great Britain\)](#) , 2004, . This work is a collection of well-written essays

that demonstrates the change in direction that the study of bookbinding has taken. Much of the work is based on observation of bookbinding techniques and materials, as well as a close study of decorative tools and the ways in which these were used to reflect the styles and fashions of the day. The place of the binder in the whole network of the book trade is also discussed against the wider cultural and political background in which books, as vehicles that carried ideas forward, are the visible, creditable and eloquent witnesses. This volume of essays is dedicated to the memory of Dr. Phiroze Randeria. Co-published with The Bibliographical Society and The British Library.

[None Left Behind: The 10th Mountain Division and the Triangle of Death, Charles W. Sasser](#) , 2010, 0312610939, 9780312610937. A devastating ambush in Iraq, kidnapped soldiers, and the men who would not leave their comrades behind. The 10th Mountain Division is known as the most deployed unit in the U.S. Army. Today, the War on Terror has drawn it to Afghanistan and Iraq. To Lieutenant Colonel Mike Infantis unit fell the pacification of a hellish hotbed of terrorism south of Baghdad dubbed The Triangle of Death. Of the more than three thousand Americans killed since the start of the war, more than one thousand were in this region. Colonel Infanti assigned Delta Company to the most dangerous sector of the Triangle. Delta knew they were virtually assured of getting hit on a daily basis. Each day and night became something to be dreaded and feared. In the predawn of May 12, 2007, two humvees occupied by seven soldiers and an Iraqi translator were ambushed by insurgents. When the smoke cleared, four soldiers and the translator were dead and three were missing, presumably seized by the enemy. For more than a year, Delta searched for their missing comrades, never giving up hope. Their creed of battle: None Left Behind.

A lively who's who and what's what of popular culture.

[We Are Poor but So Many: The Story of Self-Employed Women in India: The Story of Self-Employed Women in India, Ela R. Bhatt](#) , 2005, 0195169840, 9780195169843. Ela Bhatt is widely recognized as one of the world's most remarkable pioneers and entrepreneurial forces in grassroots development. Known as the "gentle revolutionary," she has dedicated her life to improving the lives of India's poorest and most oppressed citizens. In India, where 93 percent of the labor

force are self-employed, 94 percent of this sector are women. Yet self-employed women have historically enjoyed few legal protections or worker's rights. In fact, most are illiterate and subject to exploitation and harassment by moneylenders, employers, and officials. Witnessing the terrible conditions faced by women working as weavers, stitchers, cigarette rollers, and waste collectors, Ela Bhatt began helping these women to organize themselves. In 1972, Ela Bhatt founded the Self-Employed Women's Association (SEWA) to bring poor women together and give them ways to fight for their rights and earn better livings. Three years after SEWA was founded, it had 7,000 members. Today it has a total membership of 700,000 women, making it the largest single primary trade union in India. Bhatt lead SEWA to form a cooperative bank in 1974 - with a share capital of \$30,000 - that offered microcredit loans to help women save and become financially independent. Today the SEWA Cooperative Bank has \$1.5 million in working capital and more than 30,000 depositors with a loan return rate of 94 percent. Through years of organization and strategic action, Ela Bhatt developed SEWA from a small, often ignored group into a powerful trade union and bank with allies around the world. During the last three decades, SEWA's efforts to increase the bargaining power, economic opportunities, health security, legal representation, and organizational abilities of Indian women have brought dramatic improvements to hundreds of thousands of lives and influenced similar initiatives around the globe. *We Are Poor but So Many* is a first-hand account of the vision, rise, and success of SEWA, in India as well as internationally. The book begins with a history of the early days of SEWA and an exploration of the Gandhian philosophy that helped shape SEWA's formation and vision. It follows with an account of the struggles and challenges that SEWA faced in its journey and describes how these were addressed and overcome. It then explores the freedom that SEWA has facilitated for women working in the informal economy by presenting several inspirational stories of individual SEWA members. The final chapter describes the international extension of SEWA's work, the challenges that women face in the informal economy worldwide, and how SEWA can be effectively replicated in other parts of the world. This volume is unique in that it will elaborate the specific experience and knowledge of Ela Bhatt in her and SEWA's journey and provide insights and knowledge that no outside researcher would ever be in a position to replicate.

[e-Study Guide for: Textbook on International Law by Martin Dixon, ISBN 9780199208180, Cram101 Textbook Reviews](#) , 2012, 1467248347, 9781467248341. Never Highlight a Book Again! Just the FACTS101 study guides give the student the textbook outlines, highlights, practice quizzes and optional access to the full practice tests for their textbook.

[East Harlem, Christopher Bell](#) , 2003, 0738513393, 9780738513393. Overshadowed by the fame of Harlem and the wealth of the Upper East Side, East Harlem is rarely noted as a historical enclave. However, from the early 1800s through today, East Harlem has welcomed wave after wave of immigrants struggling for a place in the nation's most famous city. African Americans, Irish, Germans, European Jews, Italians, Scandinavians, Puerto Ricans, and Latinos are among the ethnic groups who have shaped this neighborhood, bringing with them their religious, social, and culinary traditions. East

Harlem is the first volume to tell this neighborhood's history through images. Photographs of the iron, stone, and rubber factories, the tenements, the 100th Street community, famous politicians such as Fiorella LaGuardia, the Second and Third Avenue elevated subways, St. Cecilia's, and many other subjects capture East Harlem's past in one memorable collection.

[Stars & Planets, Janet Borg](#) , 2006, 157990923X, 9781579909239. With this gorgeously illustrated book and activity set, kids can fly into outer space and take a guided tour of the sparkling night sky. It features so many appealing elements that make the astronomical journey special: a poster of the solar system, reusable planet stickers to place on the poster, a map of the constellations, and more than 100 glow-in-the-dark star stickers. And its all nicely packaged in an envelope bound into the books front cover. The trip begins with the sun, and then its on to the moon and an exploration of its cycles. Move farther out to gaze upon the stars and map out the constellations. Finally, children return to Earth to gain an understanding of our own special place in the solar system.

[The Pencil Case, Lorraine Cobcroft](#) , 2013, 0980571413, 9780980571417. Wrongful incarceration, childhood abuse and deprivation couldn't break Paul Wilson's indomitable spirit, but survival means an endless battle against the system that torments him. Paul Wilson was a fifth generation, native-born white Australian, and a stolen child. Bureaucrats stole him twice. So-called 'women of God' and a misguided carer stole his identity, his heritage, and his self-respect. Highlighting the terrible consequences of flawed Government policies, misguided decisions by 'pencil-pushers', and cruelty and child abuse, "The Pencil Case" is a story you will read between tears and fits of rage. Journey into the home and lives of a battling Aussie bush family and weep over cruel injustice that breaks a mother's heart and kills a father's soul. Witness child abuse and deprivation in an almost Dickensian world. Meet foster parents whose dedication and caring gives orphans and waifs hope for a future. Then follow Paul Wilson's struggle through adult life, sharing his and his family's pains and joys. Celebrate his triumphs; mourn his foolishness; admire his strength and courage as he fights continuing injustice, haunted by demons from his past and nursing an insatiable thirst for revenge. Confronting, heart wrenching, yet heart-warming, this is a story that illustrates the beauty and strength of the human spirit. It's a story about inspiration and triumph. Ultimately, it's a story about the power of family love.

[The Oxford Handbook of Strategic Sales and Sales Management, David W. Cravens, Kenneth Le Meunier-FitzHugh, Nigel F. Piercy](#) , 2011, 0191641758, 9780191641756. The Oxford Handbook of Strategic Sales and Sales Management is an

unrivalled overview by leading academics in the field of sales and marketing management. Sales theory is experiencing a renaissance driven by a number of factors, including building profitable relationships, creating/delivering brand value, strategic customer management, sales and marketing relationships, global selling, and the change from transactional to customer relationship marketing. Escalating sales and selling costs require organizations to be more focused on results and highlight the shifting of resources from marketing to sales. Further the growth in customer power now requires a strategic sales response, and not just a tactical one. The positioning of sales within the organization, the sales function, and sales management are all discussed. The Handbook fills a gap in the existing literature through consolidating the current academic research in the sales area. The Handbook is structured around four key topics. The first section explores the strategic positioning of the sales function within the modern organization. The second considers sales management and recent developments. The third section examines the sales relationship with the customer and highlights how sales is responding to the modern environment. Finally, the fourth section reviews the internal composition of sales within the organization. The Handbook will provide a comprehensive introduction to the latest research in sales management, and is suitable for academics, professionals, and those taking professional qualifications in sales and marketing.

[A Kitchen in Corfu, James Chatto, W. L. Martin](#) , 1988, 0941533174, 9780941533171. In the heart of Corfu, away from the tourist beaches, old traditions of living and eating still flourish. Over the centuries culinary influences from all over the Mediterranean have been absorbed into the classical Greek cuisine and adapted to suit the extraordinary variety of produce that comes from this beautiful and very fertile island. The result is a style of cooking unique in the world. For many years James Chatto and his wife, Wendy Martin, made their home in the remote village of Loutsis, an olive-farming community in the north-east of Corfu. During their first winter, when the tourists had left and the shops and restaurants of the coastal resorts closed, they learned that there was more to Corfiot cooking than they ever imagined. The Lousiotis take a keen interest in food and were willing teachers. Cooking from memory, measuring the ingredients by eye and correcting the seasoning by frequent tasting, they have preserved their recipes without ever writing them down. The island provides abundant produce: olives, vegetables, fruit, meat, cheese and wine, a wide variety of fish and shellfish from the sea, and from the hills, herbs, horta or wild greens, game, nuts and wild fruits. The pace of life is unchanging, the rhythm of work and daily fare determined by the seasonal cycle. Many of the dishes prepared are linked with the festivals of the Christian calendar, such as Lenten pilaf, Easter biscuits, Paschal lamb and the vasilopitta of New Year. A sociable people, the Corfiots love to enjoy food and wine in good company at home or at the taverna. In this delightful book James Chatto and W.L. Martin set down the recipes they have collected, describe the growing, gathering

and preparation of food, record the daily round of their friends and neighbors and enjoy the life of a rural village in Corfu.

[Practical Distiller: An Introduction to Making Whiskey, Gin, Brandy, Spirits, C. and C, Samuel M'Harry](#) , 2004,

0971807345, 9780971807341. Published in 1809, Samuel M'Harry's Practical Distiller book was only the second American book on distilling! It documents the early days of the development of American Whiskey. It was published only 15 years after the Whiskey Rebellion had forced a number of distillers to move down river to Kentucky. American Whiskey was mostly Rye Whiskey. All distilling was batch distillation done in pot stills, as continuous distillation had yet to be invented! The most interesting aspects of M'Harry's book are the sections dedicated to the production of early American whiskey! M'Harry discusses the production of whiskey from all rye, two-thirds/rye one-third corn, half rye/half corn, one-third rye/two-thirds corn, and all corn! The use of corn documents the early beginnings of bourbon! (Though the term "Bourbon" had yet to be used as a general style term for this type of whiskey.) More early evidence of the coming of bourbon is that he advocates burning straw in the hogshead to "sweeten" the hogshead. This could possibly be the precursor to modern day barrel charring! The book also discusses the basis for Tennessee Whiskey! At that time, the style of Tennessee Whiskey had not been defined, but it discusses the use of maple charcoal filtering in the production of whiskey. (Maple charcoal filtering is a requirement for the Tennessee Whiskey style.) He advocates the use of maple charcoal to clarify whiskey and to aid in giving it an "aged flavor." If whiskey is your fancy, there is probably not a better early American distilling book for you to read. Samuel M'Harry's Practical Distiller is one of the books currently being used by the archaeology team which is excavating the distillery site so that George Washington's Distillery can be rebuilt! The team required good period information about distilling and distillery setup, and M'Harry's book is one of the few good references from this period. This book is a beautiful hardcover reproduction of M'Harry's book. Featured on the cover is a gold foil stamped image of an early 1800's pot still.

[Public Expenditure on the Social Services: Reply by the Government to the Fourth Report from the Select Committee on Social Services, Session 1983-84, Great Britain. Department of Health and Social Security, Great Britain. Parliament. House of Commons. Social Services Committee. 1983-84](#) , 1984, 0101941404, 9780101941402.

[Marilyn Monroe: Private and Undisclosed, Michelle Morgan](#) , 2007, 1845295242, 9781845295240. This valuable new biography, by the President of the UK fan club, contains the fullest ever collection of primary source material on Marilyn Monroe, covering all stages of her life. It includes over 70 fine-reproduction rare and unpublished photographs. The photographs show Marilyn's real world, the world away from the fans, the studio heads and general public. They reveal a different side of Marilyn from the celluloid invention - relaxing at home, living her everyday life. They include locations from the various stages of her life - the schools she attended as Norma Jeane, the ballroom where she danced with first husband Jim Dougherty; the street where Marilyn claimed she was attacked by an intruder; and candid shots of her on the sets of films. Michelle Morgan has also interviewed every single person accessible who knew or was related to Marilyn in any way, including the main players in her life - family and friends, as well as work colleagues, and more casual acquaintances. More than 50 interviewees are featured, many never put on the record before, including a large number from her orphaned childhood and early years - details of which until now have remained mysterious and patchy. Documentary sources range from the private testimony of her gynaecologist, to the previously undisclosed Laurence Olivier papers relating to Marilyn's time in England. Following a series of sensationalist biographies of the Marilyn Monroe in recent years, this comprehensive, meticulously researched volume brings an important fresh perspective to the many controversies in her life, and will serve as an essential sourcebook of documentary and photographic evidence.

[Pinpoint, George Brown](#) , 2012, 0099579863, 9780099579861. France 1961. Operation Ponctuelle: the name given to top level assassinations of Gaullist Ministers. Two men lie in wait in a basement garage underneath the Boulevard St. Germain for the Minister of Special Affairs, their aim to kidnap their target and use him as a bargaining chip in the internecine strife that is tearing France apart. All goes to plan until one of the men reveals his true nature. First the four bodyguards die, then the Minister, then his girlfriend, whose tip off made the operation possible. The other man looks on in horror as a monster is born, a killer more ruthless than all the other players in the deadly war. Soon the fragmented security services are on the look out for the assassin, codenamed Diderot. But in the boiler room paranoia all are fair game, as the police, the army and top secret Maurice Bureau rip each other apart in the search for Diderot. Only an Englishman holds the threads which will unravel the enigma that is Diderot. But for Harry Metcalfe, differing motives of love, friendship and revenge mean that the job in hand is a difficult one, and the chances of his survival in the balancing act even slimmer.; Gripping espionage thriller from the man hailed as the next Frederick Forsyth.

[Portuguese Whitework: Bullion Embroidery from Guimares, Yvette Stanton](#) , 2012, 0975767755, 9780975767757. This is the latest stunning book from whitework specialist, Yvette Stanton, "Portugese Whitework" featuring an exquisite style of

needlework from Guimaraes in northern Portugal will inspire and delight you. Drawn thread work and bullion embroidery combine to create a strikingly beautiful style. You will learn all you need to know to create your own masterpieces and heirlooms with the in-depth step-by-step instructions. This title includes a range of projects, large and small, for beginners through to advanced stitchers.

[Te Marae: A Guide to Customs and Protocol, Pat Tauroa, Hiwi Tauroa](#) , 2009, 0143202421, 9780143202424. Hiwi and Pat Tauroa outline the sequence of events that begins when visitors arrive at the gates of a marae and ends with their departure. Appropriate behaviour is described at each stage; the spiritual background is explained; and a selection of waiata (songs), karakia (prayers) and mihi (greetings) are provided for the visitor who wishes to make correct responses. There is also a moving personal account of the marae that have played an important role in Hiwi Tauroa's life.

[Management Worldwide: Distinctive Styles Amid Globalization, David John Hickson, Derek Salman Pugh](#) , 2001, 014100603X, 9780141006031. Fully updated and expanded for this second edition, Management Worldwide is essential for managers, students of management and organizations who want to know how managers operate and business is conducted in different societies. David Hickson and Derek Pugh describe how things work in the countries of the seven major cultural and economic groups around the world: Anglo-Saxon, Latin, northern Europe, eastern Europe, Asian, Arab and the Developing World. There is new material on Hungary, Indonesia and South Korea, and each chapter has been revised to take account of fresh research and writing from authorities worldwide. Later chapters provide profiles of the internationally minded manager and practical guidance for expatriates returning to homebase. It concludes by looking at

convergence and the factors that may be slowly overcoming local differences and forging a common international management style.

[Old World Witchcraft: Ancient Ways for Modern Days, Raven Grimassi](#) , 2011, 1609256131, 9781609256135. In Old World Witchcraft, noted author Raven Grimassi covers totally new territory--in his work and in the world of popular witchcraft books published in the last few decades. This book is actually about an enchanted worldview, one that has not necessarily been inherited from the beliefs and practices of any particular region and one which is available to us today. The Old World in the title is actually about a magical view of the Plant Kingdom and the spirits attached to it. While Grimassis previous books discuss the cultural expressions and commonality of witchcraft beliefs and practices in general, this book penetrates much deeper. Old World Witchcraft reveals rarely discussed topics such as the concept of Shadow as the organic memory of the earth. Readers will learn rooted techniques that possess power because these ways have always been connected to it. They will learn methods of interfacing with the ancestral current and with the organic memory of the earth. Through these they can connect with the timeless arts and learn methods of empowerment directly from the ancient source. Totally new information about familiar tools is presented. For example, the mortar and pestle is a tool for spell casting, a device that creates interfacing with plant spirits and with shadow, and a focal point for veneration of the Plant Kingdom. Grimassi also presents the art of using plant ashes for magical sigil work. This book is for people who have had their fill of books that say the same things over and over, who want to take the next step, and who are eager for the more rooted ways that have remained largely hidden.

[The Arms of Hercules, , Fred Saberhagen](#) , 2002, 0812566807, 9780812566802. Volume III Book of the Gods A Splendid New Fantasy by the Author of Ariadnes Web One of the best writers in the business. Stephen R. Donaldson Fred Saberhagen, New York Times bestselling author of the Berzerker Series, continues to put his own twist on Greek mythology, continuing the series that kicked off with The Face of Apollo and Ariadnes Web with Book III, The Arms of

Hercules. Hercules is the son of the nearly omnipotent Zeus, King of the Gods, and of a human mother whose beauty sparked lust in the great god. The arms of Hercules look no more muscular than those of many other men but his father was the greatest god in the entire world. Hercules, the son of Zeus, has crushed monsters, giants and legendary warriors in combat. Until one challenge remains: The harrowing underworld, the one place where strength does not matter. Pitted against the greatest monsters that classical literature and Sabers' vivid imagination could create, Hercules' struggle comes to life in his fight to the death, against Death itself.

[Shared Use Routes for Pedestrians and Cyclists, Great Britain. Department for Transport, Great Britain: Department for Transport Staff, Stationery Office \(Great Britain\)](#) , 2012, 0115532439, 9780115532436. Shared use routes are designed to accommodate the movement of pedestrians and cyclists. This Local Transport Note (LTN) 1/12 focuses on routes within built-up areas where the predominant function of the route is for utility transport, and where use by pedestrians and cyclists is likely to be frequent. Shared use schemes require careful consideration. It provides advice on their planning, design and provision; suggests a scheme development process to help in deciding whether shared use is appropriate for any given situation; stresses the importance of high-quality inclusive design that addresses the needs of all users; places particular emphasis on involving users, residents and other stakeholders in the design process. This LTN 1/12 supersedes LTN 2/86 Shared Use by Cyclists and Pedestrians (ISBN 9780115507830). It should be read in conjunction with LTN 2/08 Cycle Infrastructure Design (DfT, 2008) and Inclusive Mobility - A Guide to Best Practice on Access to Pedestrian and Transport Infrastructure (DfT, 2002).

[Dog Boats at War: A History of the Operations of the Royal Navy D Class Fairmile Motor Torpedo Boats and Motor Gunboats, 1939-1945, Leonard C. Reynolds](#) , 1998, 0750918179, 9780750918176. Armed to the teeth with heavy weapons, the Royal Navy's D class MGBs and MTBs played havoc with enemy convoys during World War II, engaging and sinking dozens of vessels. This account of the Dog Boats in action draws upon official records and eye-witness testimony

to examine their contribution to the defence of the Normandy landings assault areas, and their clandestine, special duty missions to pick up agents and RAF pilots passed back along the escape routes of the French Resistance.

[The Godfather Doctrine: A Foreign Policy Parable, John C. Hulsman, A. Wess Mitchell](#) , 2009, 0691141479,

9780691141473. The Godfather Doctrine draws clear and essential lessons from perhaps the greatest Hollywood movie ever made to illustrate America's changing geopolitical place in the world and how our country can best meet the momentous strategic challenges it faces. In the movie The Godfather, Don Corleone, head of New York's most powerful organized-crime family, is shockingly gunned down in broad daylight, leaving his sons Sonny and Michael, along with his adopted son, consigliere Tom Hagen, to chart a new course for the family. In The Godfather Doctrine, John Hulsman and Wess Mitchell show how the aging and wounded don is emblematic of cold-war American power on the decline in a new world where our enemies play by unfamiliar rules, and how the don's heirs uncannily exemplify the three leading schools of American foreign policy today. Tom, the left-of-center liberal institutionalist, thinks the old rules still apply and that negotiation is the answer. Sonny is the Bush-era neocon who shoots first and asks questions later, proving an easy target for his enemies. Only Michael, the realist, has a sure feel for the changing scene, recognizing the need for flexible combinations of soft and hard power to keep the family strong and maintain its influence and security in a dangerous and rapidly changing world. Based on Hulsman and Mitchell's groundbreaking and widely debated article, "Pax Corleone," The

Godfather Doctrine explains for everyone why Francis Ford Coppola's epic story about a Mafia dynasty holds key insights for ensuring America's survival in the twenty-first century.

[New Revised Standard Version Bible: With Apocrypha](#) , 2001, 0191000043, 9780191000041. A new edition of the NRSV Cross Reference Bible, with the Apocryphal/Deuterocanonical books. The New Revised Standard Version is respected among academics, including evangelicals, and popular in theological colleges. This edition replaces NRSV 102, and the translation incorporates language usage which reflects the roles of both men and women.

[Hackers & Painters: Big Ideas from the Computer Age, Paul Graham](#) , 2004, 0596550669, 9780596550660. "The computer world is like an intellectual Wild West, in which you can shoot anyone you wish with your ideas, if you're willing to risk the consequences. " --from Hackers & Painters: Big Ideas from the Computer Age, by Paul Graham We are living in the computer age, in a world increasingly designed and engineered by computer programmers and software designers, by people who call themselves hackers. Who are these people, what motivates them, and why should you care? Consider these facts: Everything around us is turning into computers. Your typewriter is gone, replaced by a computer. Your phone has turned into a computer. So has your camera. Soon your TV will. Your car was not only designed on computers, but has more processing power in it than a room-sized mainframe did in 1970. Letters, encyclopedias, newspapers, and even your local store are being replaced by the Internet. Hackers & Painters: Big Ideas from the Computer Age, by Paul Graham, explains this world and the motivations of the people who occupy it. In clear, thoughtful prose that draws on illuminating historical examples, Graham takes readers on an unflinching exploration into what he calls "an intellectual Wild West." The ideas discussed in this book will have a powerful and lasting impact on how we think, how we work, how we develop technology, and how we live. Topics include the importance of beauty in software design, how to make wealth, heresy and free speech, the programming language renaissance, the open-source movement, digital design, internet startups, and more.

[The game, Ken Dryden](#) , 1984, 0140074120, 9780140074123. The former hockey star and scholar focuses on ten days near the close of his last season and provides an in-depth look at the benefits and drawbacks of the sport

[Health Psychology Topics in Applied Psychology, Charles Abraham, Mark Conner, Fiona Jones, Darly O'Connor](#) , 2008, 0340928905, 9780340928905. Topics in Applied Psychology offers a range of accessible, integrated texts ideal for courses in applied psychology. The books are written by leading figures in their field and provide a comprehensive academic and professional insight into each topic. They incorporate a range of features to bring psychology to life including case histories, research methods, ethical debate and learner activities. Each chapter opens with learning objectives and concludes with a summary of the main points to consolidate learning. A reading list and sample essay questions at the end of each chapter enable further independent study. The series also offers an appreciation of multiple

perspectives, examines the relationship between psychology and other cognate disciplines and discusses recent developments in each field. Topics in Applied Psychology will provide you with the tools you need to engage with, enjoy and understand your applied psychology discipline, ultimately ensuring confidence and success in exams as well as a comprehensive grounding in the profession. Health Psychology guides the reader through core issues in health psychology research and practice. Each chapter builds on previous ones and the text constructs an overview of the field rather than presenting a compendium of topics. The book outlines mechanisms, models and methods and examines how biological, cognitive, affective and social processes impact on health and illness. It also explores how stress and coping mechanisms affect health behaviors, the psychological determinants of health behavior and the design and evaluation of health behavior change interventions. Two chapters focus on how psychological research can be used to change health-related attitudes and behaviors. Communication between the patient and practitioner is discussed and the final section focuses on the role of the health psychologist and the training route to this profession. The integrated and interactive approach, combined with the comprehensive coverage, make this book the ideal companion for courses in applied health psychology.

[The Importance of Being Earnest and Other Plays, Oscar Wilde](#) , 2012, 1101560150, 9781101560150. A universal favorite, The Importance of Being Earnest displays Oscar Wilde's theatrical genius at its brilliant best. Subtitled "A Trivial Comedy for Serious People", this hilarious attack on Victorian manners and morals turns a pompous world on its head, lets duplicity lead to happiness, and makes riposte the highest form of art. Also included in this special collection are Wilde's first comedy success, Lady Windermere's Fan, and his richly sensual melodrama, Salome.

[Textbook of Musculoskeletal Medicine, M. A. Hutson, Richard M. Ellis](#) , 2006, 0192630504, 9780192630506. The most authoritative contemporary textbook on the core components of the rapidly developing medical discipline known as Musculoskeletal Medicine - the "Bible" for clinicians, both medical practitioners and therapists, who wish to advance their knowledge of the evaluation and non-surgical management of back pain and a range of painful disorders of the locomotive system. This multi-author text with contributions from international experts is an authoritative account of the basis of Musculoskeletal Medicine in contemporary medical society and provides the reader with advanced knowledge of the conceptual basis, diagnostic challenge, and pragmatic management of dysfunctions of the neuromusculoskeletal

system. This multi-author text with contributions from international experts is an authoritative account of the basis of Musculoskeletal Medicine in contemporary medical society and provides the reader with advanced knowledge of the conceptual basis, diagnostic challenge, and pragmatic management of dysfunctions of the neuromusculoskeletal system. Musculoskeletal Medicine is now recognised as a distinct branch of medicine, incorporating the sub-specialty of manual medicine, orthopaedic medicine, and the neuromusculoskeletal component of osteopathic medicine. The co-editors have been active in promoting the discipline worldwide. The textbook has been eagerly awaited, not least by those doctors and therapists who wish to expand and improve their skill base, or to further their careers and academic accomplishments, to the benefit of the patient.

[Kotler On Marketing, Philip Kotler](#) , 2012, 1471109569, 9781471109560. Since 1969, Philip Kotler's marketing text books have been read as the marketing gospel, as he has provided incisive and valuable advice on how to create, win and dominate markets. In KOTLER ON MARKETING, he has combined the expertise of his bestselling textbooks and world renowned seminars into this practical all-in-one book, covering everything there is to know about marketing. In a clear, straightforward style, Kotler covers every area of marketing from assessing what customers want and need in order to build brand equity, to creating loyal long-term customers. For business executives everywhere, KOTLER ON MARKETING will become the outstanding work in the field. The secret of Kotler's success is in the readability, clarity, logic and precision of his prose, which derives from his vigorous scientific training in economics, mathematics and the behavioural sciences. Each point and chapter is plotted sequentially to build, block by block, on the strategic foundation and tactical superstructure of the book.

[Models of the Atomic Nucleus: Unification Through a Lattice of Nucleons, Norman D. Cook](#) , 2010, 3642147372, 9783642147371. This book supplies users with an interactive experience for nuclear visualization via a computer-graphical interface, similar in principle to the molecular visualizations already available in chemistry. Models of the Atomic Nucleus explains the nucleus in a way that makes nuclear physics as comprehensible as chemistry or cell biology. The book supplements virtually any of the current textbooks in nuclear physics by providing a means for 3D visual display of the diverse models of nuclear structure. After a review of the basics, the book explores and compares the competing models, and addresses how the lattice model best resolves remaining controversies. The appendix explains how to obtain the most from the software provided on extras.springer.com. This new edition has been updated completely and expanded to cover recent developments in low energy nuclear reactions (LENR), and to show how the fcc nucleon lattice explains both the asymmetric fragments produced by the fission of Uranium and the symmetric fragments produced by the fission of Palladium.

[Triple Word Score, Frank Cottrell Boyce](#) , 2014, 1905583435, 9781905583430. While visiting her doctor one day, a bored housewife is asked if she would like to sell a proportion of her time a fraction of her every waking hour to anonymous investors. The discovery of mysterious reels of film in a Hollywood basement allows viewers to watch classic films, starring decrepit, 100-year-old versions of their once-young stars. An avid player of the Sims computer game realizes too late that her boyfriend's family isn't quite as it appears. In this collection of short stories, award-winning author Frank Cottrell Boyce, in his first work of adult fiction, performs feat after feat of high-wire, narrative acrobats, with works that move effortlessly between surrealism, metaphysical drama, science fiction, and contemporary pop culture. Drawing on influences as disparate as Stanislaw Lem, Nikolai Gogol, and Roald Dahl, Boyce lures readers into a hall of mirrors, where each character is an illusion and every plot line is turned inside-out.

[Marbles: Mania, Depression, Michelangelo, & Me : a Graphic Memoir, Ellen Forney](#) , 2012, 1592407323, 9781592407323.

Cartoonist Ellen Forney explores the relationship between crazy and creative in this graphic memoir of her bipolar disorder, woven with stories of famous bipolar artists and writers. Shortly before her thirtieth birthday, Forney was diagnosed with bipolar disorder. Flagrantly manic and terrified that medications would cause her to lose creativity, she began a years-long struggle to find mental stability while retaining her passions and creativity. Searching to make sense of the popular concept of the crazy artist, she finds inspiration from the lives and work of other artists and writers who suffered from mood disorders, including Vincent van Gogh, Georgia O'Keeffe, William Styron, and Sylvia Plath. She also researches the clinical aspects of bipolar disorder, including the strengths and limitations of various treatments and medications, and what studies tell us about the conundrum of attempting to cure an otherwise brilliant mind. Darkly funny and intensely personal, Forneys memoir provides a visceral glimpse into the effects of a mood disorder on an artists work, as she shares her own story through bold black-and-white images and evocative prose.

[Parallel Programming: Techniques and Applications Using Networked Workstations and Parallel Computers, Barry Wilkinson, C. Michael Allen](#) , 1999, 0136717101, 9780136717102. Designed for an undergraduate computer science student or professional, this accessible text covers the techniques of parallel programming in a practical manner that enables students to write and evaluate their parallel programs. Supported by the National Science Foundation and exhaustively class-tested, it is the first text of its kind that does not require access to a special multiprocessor system, concentrating instead on parallel programs that can be executed on networked workstations using freely available parallel software tools. Key Features: Introduces parallel programming techniques as a natural extension to sequential programming, developing the basic techniques of message-passing parallel programming, and then studying problem-specific algorithms in both non-numeric and numeric domains. Requires no prerequisite in parallel programming; assumes only C programming knowledge. Uses MPI and PVM pseudocodes to describe algorithms and allows different

programming tools to be implemented. Provides students with thorough coverage of shared memory programming and Pthreads to assist them in shared memory programming assignments. Explores such applications as numerical algorithms, image processing, searching, and optimization.

[STEP Project Management: Guide for Science, Technology, and Engineering Projects, Adedeji B. Badiru](#) , 2009, 1420072366, 9781420072365. While the project management body of knowledge is embraced by disciplines ranging from manufacturing and business to social services and healthcare, the application of efficient project management is of particularly high value in science, technology, and engineering undertakings. STEP Project Management: Guide for Science, Technology, and Engineering Projects presents an integrated, step-by-step approach to managing projects in these complex areas, using the time-tested concepts, tools, and techniques of the Project Management Body of Knowledge (PMBOK). STEP is an acronym for Science, Technology, and Engineering Projects, and also serves as a mnemonic reference to the step-by-step approach of the book. This volume takes an approach that combines managerial, organizational, and quantitative techniques into a logical sequence of project implementation steps. The book begins by exploring the special methodology imperative for managing these types of sophisticated projects. It then delineates the major steps involved in project integration. The author discusses the management of scope, time, cost, quality, human resources, communications, risk, and procurement. Then, using a compelling case study that profiles the errors leading to the 1986 Challenger disaster, the book examines how flaws in decision-making, failure to consider all factors, lack of communication, and inappropriate priorities can lead to catastrophe. In today's fast-changing IT-based, competitive global market, success can be even more elusive and hard won. Effective project management in all facets of operations can give an enterprise the advantage it seeks. In this book, the author's direct writing style, designed to appeal to busy professionals, conveys the complex concepts of high-stakes project management in a simple, efficient manner. He provides a general framework that shows what needs to be done to manage complex projects, using steps that are flexible, expandable, and modifiable.

[Agnes Grey, Anne Bront](#) , 1991, 0192827111, 9780192827111. When her family becomes impoverished after a disastrous financial speculation, Agnes Grey determines to find work as a governess in order to contribute to their meagre income and assert her independence. But Agnes' enthusiasm is swiftly extinguished as she struggles first with

the unmanageable Bloomfield children and then with the painful disdain of the haughty Murray family; the only kindness she receives comes from Mr Weston, the sober young curate. Drawing on her own experience, Anne Bronte's first novel offers a compelling personal perspective on the desperate position of unmarried, educated women for whom becoming a governess was the only respectable career open in Victorian society.

[James Hunt: The Biography, Gerald Donaldson](#) , 2013, 0753546329, 9780753546321. James Hunt was a towering personality with a commanding presence, a hugely glamorous public figure who brought Formula One motor racing to the attention of a whole new audience. Triumphant against all odds to become World Drivers' Champion with McLaren in 1976, Hunt sank into a period of decadence and depression, only to be rejuvenated as he found true love for the first time. With that came personal contentment and a renewed zest for living, so that one of the most colourful and controversial figures in Grand Prix racing is best remembered by those close to him as a fun-loving, caring man who had a genuinely uplifting presence - qualities that shine through in Gerald Donaldson's compelling and moving account of his life.

[New Plants from Old: Simple, Natural, No-cost Plant Propagation, Jackie French](#) , 1991, 0947214186, 9780947214180.

Why buy your garden when you can grow it at no cost? Why limit your creativity to your nursery's range when there's much more to choose from all around you? Why spend on patented seeds and expensive seedlings when nature's bounty can be yours for free? NEW PLANTS FROM OLD will tell you the secret of: striking cuttings; layering; grafting; budding; dividing; cross-pollinating; hybridising; seed-collecting; and germinating.

[Bioseparations Science and Engineering, Roger G. Harrison](#) , 2003, 0195123409, 9780195123401. Designed for undergraduates, graduate students, and industry practitioners, Bioseparations Science and Engineering fills a critical need in the field. Current, comprehensive, and concise, it covers bioseparations unit operations in greater depth than other texts on this topic. In each of the chapters, the authors use a consistent method of explaining unit operations, starting with a qualitative description noting the significance and general application of the unit operation. They then illustrate the scientific application of the operation, develop the required mathematical theory, and finally, describe the applications of the theory in engineering practice, with an emphasis on design and scaleup. Unique to this text is a chapter dedicated to bioseparations process design and economics, in which a process simulator, SuperPro Designer, is used to analyze and evaluate the production of three important biological products. Other unique features include basic information about bioproducts and engineering analysis and a chapter with bioseparations laboratory exercises. Bioseparations Science and Engineering is ideal for students and professionals alike.* Incorporates numerous example problems within the chapters* Offers extensive sets of problems at the end of chapters* Includes basic information about bioproducts* Provides thorough coverage of analytical methods for bioproducts* Uses the simulation software SuperPro Designer to illustrate the analysis and evaluation of the production of citric acid, recombinant human insulin, and monoclonal antibodies* Includes laboratory exercises that support text material* Supplemented by a website with new problems and examples and links to useful databases and manufacturers of bioseparations equipment and supplies

Contents: All chapters (except Chapter 12) end with the following sections: Summary, Nomenclature, Problems, and References.

Preface

1. Introduction to Bioproducts and Bioseparations
2. Analytical Methods
3. Cell Lysis and Flocculation
4. Filtration
5. Sedimentation
6. Extraction
7. Liquid Chromatography and Adsorption
8. Precipitation
9. Crystallization
10. Drying
11. Bioprocess Design
12. Laboratory Exercises in Bioseparations

Appendix: Table of Units and Constants

[Finite Elements, Electromagnetics, and Design, S. Ratnajeevan H. Hoole](#) , 1995, 0444895639, 9780444895639. Advanced topics of research in field computation are explored in this publication. Contributions have been sourced from international experts, ensuring a comprehensive specialist perspective. A unity of style has been achieved by the editor, who has specifically inserted appropriate cross-references throughout the volume, plus a single collected set of references at the end. The book provides a multi-faceted overview of the power and effectiveness of computation

techniques in engineering electromagnetics. In addition to examining recent and current developments, it is hoped that it will stimulate further research in the field.

[Super: A Novel, Jim Lehrer](#) , 2011, 0812979451, 9780812979459. April 1956: Climbing aboard the Sante Fe railroads famous Super Chief is an amazing spectrum of passengers. Theres Darwin Rinehart, a once great Hollywood producer who now faces bankruptcy. In a dark recess of a train car hides a mysterious, disheveled man who has not paid for a ticket, smuggled inside by an unscrupulous porter. Millionaire Otto Wheeler arrives in a wheelchair; deathly ill, he knows that this will be his last trip on the great train. Clark Gable causes a stir when he steps aboard, and though hes ridden these rails for years, indulging in booze and women with equal fervor, those around him sense that this time, something is different. And finally theres former President Harry Truman, distinguished, congenial, and constantly accompanied by a railroad detective. As the Super Chief pulls out of Dearborn Station, the passengers famous and infamous, anonymous and enigmatic cant possibly imagine what lies ahead. For as the train gains speed, a series of deadly events unfolds.

[The European world, 400-1450, Barbara Hanawalt](#) , 2005, 0195178440, 9780195178449. As the Roman Empire began to crumble and lose its long-held dominance over Europe, new civilizations were emerging to fill the void. Germanic tribes like the Goths, the Franks, and the Vandals, as well as the Huns and Visigoths all fought for control of the land.

Christianity became a more acceptable religion throughout Europe, while the Islamic religion was born in the Middle East and quickly spread, eventually making its way into Europe. The blending and conflict of cultures and beliefs helped to create what we now call the Middle Ages. Fascinating new characters were also rising in Europe like the emperor and empress of the Byzantine Empire Justinian and Theodora ambitious leaders who made one final push to recapture the west and regain the past glory of the Roman Empire. Meanwhile in the west Charlemagne had come to power by crowning himself emperor. A popular leader he spent much of his time travelling through his land on horseback accompanied by an entourage that often included an elephant! Vikings from Scandinavia began raiding parts of Europe until eventually they were stopped by Alfred the king of Wessex in England. By 1066, however, the Scandinavians got

their revenge when William the Conqueror invaded England and took over. Filled with intrigue, conflict, power struggles, and colorful characters and based on primary source materials Barbara Hanawalt's *The European World* is an adventure at every turn. From Attila the Hun to Joan of Arc, from the fall of Rome to the Plague this pivotal moment in history comes alive.

[Osteogenesis Imperfecta: A Handbook for Medical Practitioners and Health Care Professionals 1992, David Owen Sillence, Kristine K. Barlow](#) , 1992, 0949735086, 9780949735089.

[Reaching Through the Veil to Heal: Death, Grief and Communicating with Loved Ones in Spirit, Linda Drake](#) , 2006, 0738709328, 9780738709321. Loss is an inescapable part of life. Recovering from the death of someone close to us is especially difficult. Linda Drake, an intuitive life path healer, uses her gift for channeling souls on the Other Side to help the bereaved find comfort and healing. In *Reaching Through the Veil to Heal*, she shares powerful, true stories that underscore vital lessons in accepting loss, coping with grief, understanding death, and reconnecting with life. From the deceased wife who helps her husband find new love to the baby who uses his life to impart medical knowledge . . . these enlightening tales touch the heart and remind us of the soul's endurance. Readers can also find inspiration here to heal from other losses, such as losing a job or ending a relationship.

[Drafting and Negotiating Commercial Contracts, Mark Anderson, Victor Warner](#) , 2012, 1847667449, 9781847667441.

Drafting and Negotiating Commercial Contracts, Third Edition is the 'onestop-shop' for practical contractual matters, making it essential reading for commercial lawyers, contract managers and anyone involved in negotiating and drafting commercial contracts. This book includes: A guide to the common legal issues in negotiating and drafting contracts; An

explanation of the structure and content of a commercial contract; Good and bad practice in drafting (and in using clear, modern English); The meaning of and use of commonly-used words, phrases and legal jargon; The formalities for creating and signing contracts; Commentary on the use of electronic drafting and electronic signatures; Guidance on the interpretation of contracts. The Third Edition has been fully updated to include expanded commentary and more practical information on contract drafting, such as the use of numbers, formulas, equations, tables and pronouns. There are new chapters on: How to check and what to check for in a contract to eliminate errors (including checklists of what to check for in different situations); Drafting and legal issues that businesses need to take into account when contracting with consumers; Advanced drafting techniques.

[Radical: My Journey out of Islamist Extremism, Maajid Nawaz](#) , 2013, 0762795514, 9780762795512. Maajid Nawaz spent his teenage years listening to American hip-hop and learning about the radical Islamist movement spreading throughout Europe and Asia in the 1980s and 90s. At 16, he was already a ranking member in Hizb ut-Tahrir, a London-based Islamist group. He quickly rose through the ranks to become a top recruiter, a charismatic spokesman for the cause of uniting Islamic political power across the world. Nawaz was setting up satellite groups in Pakistan, Denmark, and Egypt when he was rounded up in the aftermath of 9/11 along with many other radical Muslims. He was sent to an Egyptian prison where he was, fortuitously, jailed along with the assassins of Egyptian President Anwar Sadat. The 20 years in prison had changed the assassins' views on Islam and violence; Maajid went into prison preaching to them about the Islamist cause, but the lessons ended up going the other way. He came out of prison four years later completely changed, convinced that his entire belief system had been wrong, and determined to do something about it. He met with activists and heads of state, built a network, and started a foundation, Quilliam, funded by the British government, to combat the rising Islamist tide in Europe and elsewhere, using his intimate knowledge of recruitment tactics in order to reverse extremism and persuade Muslims that the narrative used to recruit them (that the West is evil and the cause of all of Muslim suffering), is false. *Radical*, first published in the UK, is a fascinating and important look into one man's journey out of extremism and into something else entirely. This U.S. edition contains a "Preface for US readers" and a new, updated epilogue.

[Every Child Matters: A Practical Guide for Teaching Assistants, Rita Cheminai](#) , 2008, 0203462742, 9780203462744.

This essential and ground-breaking resource for all practising and aspiring teaching assistants brings together all the crucial information necessary to support the full diversity of learners, from Early Years to Key Stage 4 in one comprehensive volume. Based on the revised National Occupational Standards for teaching assistants, this book effectively supports the personalised learning and Every Child Matters (ECM) well being of children and young people in schools. Coverage includes: an overview of the Every Child Matters change for children programme and how this informs the role of the teaching assistant working in multi-disciplinary school personalised learning and well being teams applying existing practical strategies to develop children and young peoples skills as confident, collaborative and independent learners who experience positive ECM outcomes monitoring and evaluating the impact of teaching assistant support in improving the ECM outcomes how teaching assistants can meet the requirements of the OFSTED inspection process. This accessible, user-friendly book provides a wealth of practical resources, including photocopiable materials, templates, and positive solution-focused advice to support busy teaching assistants. Every Child Matters: A Practical Guide for Teaching Assistants provides a clear description of what the ECM agenda means for TAs and how it will impact on their role. It is also a valuable resource for all those line managing and supporting the continuing professional development of teaching assistants, from local authorities, FE and HE organisations.

[Mari Membaca, Bahasa Indonesian: Graded Passages in Indonesian, I. S. Partoredjo](#) , 2000, 0195512812, 9780195512816. "Mari Membaca Bahasa Indonesia is a collection of graded reading passages for middle to senior students of Indonesian. The passages introduce students to family, school and community life in Indonesia today. The pieces are fun, motivating and relevant to Australian students, and have been tested in the classroom. Each passage is accompanied by graded exercises to encourage the development of the four macro skills of reading, writing, speaking and listening. A list of frequently used words accompanies each passage, and a comprehensive Indonesian-English glossary is included. A suggested approach outlined in the preface provides teachers with guidance in using this collection of reading and comprehension passages in order to meet learning objectives." - back cover.

[The Gospel Reloaded: Exploring Spirituality and Faith in The Matrix, Chris Seay, Greg Garrett](#) , 2003, 1576834786, 9781576834787. The world has changed. The Gospel Reloaded rushes headlong into The Matrix, exploring the trilogy's intricate details, religious undertones, and eclectic philosophies. These aren't movies you just "watch." They are postmodern epics, full of meaning and metaphor--deserving of serious inquiry and contemplation. Get inside the collective minds of the Wachowski brothers. See how even the minute details--from Neo's name to Thomas Anderson's room number--yield secrets to better understand the film. The movies call us to seek and find. Read how the themes of The Matrix call you to your own spiritual revelation. Ask of your own life: what's real and what's a mirage? Then you'll discover just how deep this rabbit hole really goes.

[On-Site Power Generation: A Reference Book, Gordon S. Johnson](#) , 1993, 0962594911, 9780962594915. This text reviews the fundamentals and then in step-by-step fashion categorizes operations and maintenance issues within alternators (including synchronous and induction generators), voltage regulation, circuit breakers, automatic transfer switches, generator switch gear, air- and liquid-cooled spark-ignited and diesel engines, gas turbines, fuel systems, cooling and exhaust systems, and batteries. A wide-ranging appendix includes conversion charts, baseline equations, and a fact-packed "rules of thumb" section to enhance the book's value on the job site.

[Basquiat: a quick killing in art, Phoebe Hoban](#) , 2004, 0143035126, 9780143035121. Painter Jean-Michel Basquiat was the Jimi Hendrix of the art world: in less than a decade he went from being a teenage graffiti writer to an international art star; he was dead of a drug overdose at age twenty-seven. Basquiat's brief career spanned the giddy '80s art boom and epitomized its outrageous excess, from its art dealers to its drug dealers, from its clubs to its galleries. A legend in

his own lifetime, Basquiat became a fixture in the downtown scene and got involved with many of the period's most celebrated personalities, including Keith Hating, Andy Warhol, and Madonna. Phoebe Hoban's *Basquiat*, the first biography of this charismatic figure, charts the trajectory from artist's troubled childhood to his volatile passage through the art world of white dealers and nouveau-riche collectors. As much the portrait of an era as the portrait of an artist, *Basquiat* is an incisive expose of the eighties art market that paints a vivid picture of the rise and fall of the graffiti movement, the East Village art scene, the avaricious dealers, and the out-of-control auction houses. Ten years after the artist's death, *Basquiat* resurrects both the painter and his time.

[Nantucket: Island Living, Leslie Linsley](#) , 2008, 1584797231, 9781584797234. Imagine a place of unspoiled beaches, windswept dunes, and dramatic natural beauty. A place free of traffic lights and blaring commercial come-ons. A place whose rich historical heritage is visible everywhere from the antiques-shop windows filled with handmade baskets and scrimshawed ivories to the spare, shingle-clad houses that coexist harmoniously with the surrounding land- and seascapes. Imagine a place designed, by man and nature, to relax and restore you. Nantucket Island is that place. Thirty miles off Cape Cod, Nantucket is both geographically isolated and an internationally regarded vacation resort culturally sophisticated. Nantucketers are rightly proud of a manner of living that couples the casual comforts of small-town life with an urbane sense of glamour, taste, and style. In this handsomely illustrated book, longtime Nantucket residents Leslie Linsley and Terry Pommert give you an insiders look at the on-island lifestyle: the restored historic homes of Nantucket town and Sconset village, the appealingly humble beachfront cottages that dot the island's shoreline, and the beautifully tended gardens formal and informal that grace Nantucket's private houses and public buildings. More than 200 color photos document the other attractions panoramic views, home-grown handicrafts, seasonal celebrations that make Nantucket such a rewarding place to spend a day, a summer, or a lifetime.

[Dairy-free Cookbook: Over 250 Recipes for People with Lactose Intolerance Or Milk Allergy, Jane Zukin](#) , 1998, 0761514678, 9780761514671. Delicious Milk-Free Recipes and Practical Information at Your Fingertips! "What can you eat if you are extremely sensitive to lactose and live in a society where milk is everywhere and in everything? Read Jane Zukin's book!" From the foreword by Joel V. Weinstock, M.D., Department of Internal Medicine Director, Division of Gastroenterology, University of Iowa Are you one of the millions of people who cannot drink milk or eat dairy products without pain and discomfort? If so, you are not alone. There are millions of people just like you. The problem is either milk intolerance or milk allergy. Either way, you and milk are not friends. What to do? To your rescue comes Jane Zukin, called by the Wall Street Journal "the country's best-known expert on lactose intolerance." Here, Jane shows you how you can eat to your stomach's content, offering 250 delicious dishes the whole family will love. She also explains all you

need to understand about milk intolerance and milk allergies. In addition, she explains how to deal with child-related issues and how to recognize the "hidden" milk products and by-products that lurk inside so many prepared foods. But make no mistake. At its heart, this is a cookbook, and what a cookbook! Inside you will learn how to prepare wonderful dairy-free versions of: Flaming Crepes with Fresh Fruit Filling Spinach Lasagne Tangy Watermelon Cooler Peanut Butter-Chocolate Bars And many more!

[The Science Fiction of Edgar Allan Poe, Edgar Allan Poe, Harold Beaver](#) , 2006, 0141922060, 9780141922065. One of the greatest of all horror writers, Edgar Allan Poe (1809-49) also composed pioneering tales that seized upon the scientific developments of an era marked by staggering change. In this collection of sixteen stories, he explores such wide-ranging contemporary themes as galvanism, time travel and resurrection of the dead. 'The Unparalleled Adventure of One Hans Pfall' relates a man's balloon journey to the moon with a combination of scientific precision and astonishing fantasy. Elsewhere, the boundaries between horror and science are elegantly blurred in stories such as 'The Facts in the Case of M. Valdemar', while the great essay 'Eureka' outlines Poe's own interpretation of the universe. Powerfully influential on later authors including Jules Verne, these works are essential reading for anyone wishing to trace the genealogy of science fiction, or to understand the complexity of Poe's own creative vision

[The Permanent Pain Cure, Ming Chew, Stephanie Golden](#) , 2008, 0071642528, 9780071642521. When I first met Ming Chew, I knew he would fix my bad back when no one else could. What I know now is that he is clearly the future of sports training and sports therapy in this country. --Mike Lupica, New York Daily News If you are living with chronic pain, relief has finally arrived in The Permanent Pain Cure--a simple, drug-free program that can be done in just 15 minutes a day. Using the unique method he's developed that treats a type of connective tissue called the fascia, physical therapist Ming Chew has healed injuries, aches, and pains that most medical professionals believe can only be fixed by medication and surgery. The Ming Method uses simple stretches and exercises, a supplementation and hydration plan, and an anti-inflammatory diet to release the fascia and banish pain forever--quickly, safely, and drug-free.

[Sanctus Enhanced Edition, Simon Toyne](#) , 2011, 0007436890, 9780007436897. With a bespoke soundtrack and unique custom gestures feature, this enhanced edition seamlessly accentuates Toyne's blisteringly original novel. REVELATION OR DEVASTATION? The certainties of the modern world are about to be blown apart by a three thousand year-old conspiracy nurtured by blood and lies ... A man throws himself to his death from the oldest inhabited place on the face of the earth, a mountainous citadel in the historic Turkish city of Ruin. This is no ordinary suicide but a symbolic act. And thanks to the media, it is witnessed by the entire world. But few understand it. For charity worker Kathryn Mann and a handful of others in the know, it is what they have been waiting for. The cowled and secretive fanatics that live in the Citadel suspect it could mean the end of everything they have built and they will kill, torture and break every law to stop that. For Liv Adamsen, New York crime reporter, it begins the next stage of a journey into the heart of her own identity. And at that journey's end lies a discovery that will change EVERYTHING ... SANCTUS is an apocalyptic conspiracy thriller like no other it re-sets the bar for excitement and fascination, and marks the debut of a major talent in Simon Toyne.

[The Education \(Student Support\) \(European Institutions\) \(Amendment\) \(No. 2\) Regulations 2001, Great Britain](#) , 2001, 0110299302, 9780110299303.

[Social and Personality Development, David Shaffer](#) , 2008, 0495600385, 9780495600381. The success of this best-selling text lies in the author's belief that a good text talks with, rather than at, its readers. Shaffer does an extraordinary job of

anticipating students' interests, questions, and concerns while treating them as active participants in the process of learning about social and personality development. The Sixth edition of SOCIAL AND PERSONALITY DEVELOPMENT features clearly written, current coverage of social and personality development that aids students in discovering the causes, processes, and complexities that underlie developmental change. Students learn why biological and environmental factors, contextual factors such as cross-cultural, familial, neighborhood, school, and peer-group influences cause change in children. Shaffer also explores the approaches that researchers use to test their theories and answer important questions about developing children and adolescents. This book's effective coverage of field research stands out from other texts not only for its accuracy and currency, but because Shaffer consistently juxtaposes classic research with the latest breakthroughs in a way that helps students appreciate how knowledge builds on earlier findings. This edition features a much stronger emphasis on cultural influences on development. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book is an extremely detailed and comprehensive examination of conditional sentences in English, using many examples from actual language-use. The syntax and semantics of conditionals (including tense and mood options) and the functions of conditionals in discourse are examined in depth, producing an all-round linguistic view of the subject which contains a wealth of original observations and analyses. Not only linguists specializing in grammar but also those interested in pragmatics and the philosophy of language will find this book a rewarding and illuminating source.

[An Introduction to Economics: Concepts for Students of Agriculture and the Rural Sector, Berkeley Hill](#) , 2006, 1845931289, 9781845931285. An Introduction to Economics, 3rd Edition provides a careful and clear explanation of universal economic principles that are illustrated primarily by examples drawn from agriculture, rural areas and the food industry. Since the first and second editions, agriculture has increasingly been viewed in a global context. International trade agreements have influenced domestic agriculture everywhere and many countries have seen growth in processing and the role of large-scale retailers. There is also evidence that the main rural land-users (farming and forestry) form only a part of the total economic activity going on in the countryside of developed countries. This third edition has been updated using examples that cover this wider range of circumstances. Other updates include the section on policy, which has been expanded to reflect that agriculture plays an increasing role in policies directed at the countryside in general,

especially those aimed at conserving the environment. A new section has also been added to reflect the important advances in production technology. The text is further enhanced by the inclusion of more exercises, a revised list of essay questions and updated suggested further reading.

[Daniel, Henning Mankell](#) , 2011, 009948143X, 9780099481430. In 1875 Hans Bengler, a young entomologist, leaves Sweden for the expedition of a lifetime to the Kalahari Desert where he hopes to find a previously undiscovered insect to name after himself and advance his career. Instead, after his long and arduous journey through the sands, he finds a small boy, whose tribe has been decimated by European raiders. Accustomed to collecting specimens, Bengler decides to adopt the boy and names him Daniel. He takes the traumatised child home with him to Sweden and plans to 'civilise' him. But Daniel cannot slip into an alien culture, and a new life in the cold and snow, so easily. He yearns desperately for the desert and his real family, who visit him in his dreams. His only consolation comes from his friendship with a vulnerable young girl called Sanna, who is also an outsider in her community. But even this bond is destined to be violently broken, as Daniel's isolation and increasing desperation lead to a chilling tragedy. As well as an acute psychological depiction of the extraordinary life of a child thrown into extraordinary circumstances, in Daniel the acclaimed writer Henning Mankell also gives us a compelling and disturbing story of the dangerous gaps and misunderstandings that can exist between individuals and cultures.

[The Blue Jay's Dance: A Birth Year, Louise Erdrich](#) , 2010, 1442080582, 9781442080584.

[The Craft of Life Course Research, Glen H. Elder, Jr., Janet Z. Giele](#) , 2009, 1606233610, 9781606233610. This book brings together prominent investigators to provide a comprehensive guide to doing life course research, including an inside view of how they designed and carried out influential longitudinal studies. Using vivid examples, the contributors trace the connections between early and later experience and reveal how researchers and graduate students can discover these links in their own research. Well-organized chapters describe the best and newest ways to:
*Use surveys, life records, ethnography, and data archives to collect different types of data over years or even decades.
*Apply innovative statistical methods to measure dynamic processes that result in improvement, decline, or reversibility in economic fortune, stress, health, and criminality.
*Explore the micro- and macro-level explanatory factors that shape individual trajectories, including genetic and environmental interactions, personal life history, interpersonal ties, and sociocultural institutions.

[Moral Uncertainty and Its Consequences, Ted Lockhart](#) , 2000, 0195126106, 9780195126105. We are often uncertain how to behave morally in complex situations. In this controversial study, Ted Lockhart contends that moral philosophy has failed to address how we make such moral decisions. Adapting decision theory to the task of decision-making under moral uncertainty, he proposes that we should not always act how we feel we ought to act, and that sometimes we should act against what we feel to be morally right. Lockhart also discusses abortion extensively and proposes new ways to deal with the ethical and moral issues which surround it.

[The Word in the Desert: Scripture and the Quest for Holiness in Early Christian Monasticism, Douglas Burton-Christie](#) , 1993, 0195066146, 9780195066142. The growing scholarly attention in recent years to the religious world of late antiquity has focused new attention on the quest for holiness by the strange, compelling, often obscure early Christian monks known as the desert fathers. Yet until now, little attention has been given to one of the most vital dimensions of their spirituality: their astute, penetrating interpretation of Scripture. Rooted in solitude, cultivated in an atmosphere of silence, oriented toward the practical appropriation of the sacred texts, the desert fathers' hermeneutic profoundly shaped every aspect of their lives and became a significant part of their legacy. This book explores the setting within which the early monastic movement emerged, the interpretive process at the center of the desert fathers' quest for holiness, and the intricate patterns of meaning woven into their words and their lives.

[The Bible According to Grandpa, Jordan Bernstein](#) , 2011, 0974341436, 9780974341439. As children, we are taught by our parents and synagogues the meaning of the Jewish faith religion. Not always is this an easy task. For some children it can be confusing, leaving them to grow up without an understanding and possibly disregarding their heritage-religious background. This book was written for not only the author's grandchildren, but for all children. It benefits children, and can be used in a reform or conservative synagogue, as a textbook, gift from the grandparent to child, or simply pleasure reading. This book is one of five to be published in a series of stories taken from the Bible. Book One educates in non-technical language to the reader about the first three chapters of the Bible. Enlarged, color illustrations and clear explanations about the story of Adam and Eve, Cain and Able and Noah and the Arc help the reader to understand what happened back many decades ago. There are questions at the end of each chapter for the parent or teacher to ask the child that will help with a child's memory and to affirm their understanding.

[Wild Women in the Kitchen: 101 Rambunctious Recipes & 99 Tasty Tales, Wild Women Association](#) , 1996, 1573240303, 9781573240307. ELEMENTAL: The Power of Illuminated Love is the product of two individuals combined creative and spiritual visions. It features some 64 paintings by celebrated artist Luther E. Vann with more than approximately 50 accompanying poems and two essays by award-winning author Aberjhani. The art, spanning the early 1970s to 2007, expresses Vanns perception of spiritual principles active in the personal and public lives of people in New York and Savannah. Introductory essays comment on Vanns life and his art. The poems complement the art with themes that explore issues like war, homelessness, the nature of love, and expanded spiritual consciousness.

[How to Fix America: Restoring Sanity and Civility to Our Great Democracy in Three Simple Steps, Phillip A. Barlag](#) , 2012, 1479377538, 9781479377534. Dissatisfaction with the American government is at an all-time high. There are lots of good ideas on policy changes that could make a measurable impact. But these all overlook one crucial fact: America has lost the structural ability to consistently deliver effective policy because of the decay in the system itself. Bad government can't be counted on to pass good laws. For all the great ideas and debate on issues like health care, immigration, taxes, defense, foreign policy and climate change, it's the system itself that needs rehabilitation. In 'How to Fix America, ' Phillip A. Barlag proposes a simple and elegant solution to modify the system from within. It's innovation, not revolution, that's required to take the best of the American system of government and build on a foundation that was laid with the ratification of the Constitution 225 years ago. In this neutral and balanced book, Barlag offers a radical call to moderation and civility, and offers an innovative but pragmatic way to reconnect elected officials with the people they are supposed to serve. For anyone interested in politics, American history or current affairs, this fast-paced book is a can't-miss

[The Swami Deheftner, Robert Steven Goldstein](#) , 2013, 0988811618, 9780988811614. In this evocative novel, Solomon Deheftner achieves fame as a stage magician and escapologist in the tradition of the Great Houdini. But he abandons that career to search for something far more elusive: the profound magic inherent in mystical transcendence. Using his knowledge of conjuring and his Jewish upbringing as a foundation, Deheftner makes his way from New York to San Francisco, probing the secrets of Yoga, meditation, vegetarianism, animal intelligence, bondage, and sadomasochism in

his quest for spiritual enlightenment.

[Death Or Victory: The Battle of Quebec and the Birth of an Empire, Dan Snow](#) , 2010, 0143182854, 9780143182856.

Perched atop a tall promontory and surrounded on three sides by the treacherous St. Lawrence River, Quebec City forms an almost impregnable natural fortress. But in 1759, with the Seven Years War raging around the globe, the capital city of New France came under attack. With the irascible British general James Wolfe in command, a force of more than 100 ships carrying nearly 9,000 men navigated the river, scaled the cliffs, and laid siege to the town in an audacious attempt to expel the French from North America forever. It would be a brutal battle, with British soldiers confronting the troops commanded by the French general, the marquis de Montcalm. They were on unfamiliar terrain and facing extreme weather, a colonial militia, and experienced First Nations warriors. Using original research and multiple perspectives, Dan Snow grippingly describes the events that would reshape North America and, eventually, change the British Empire forever. Death or Victory is historymilitary, political and human historytold on an epic and thrilling scale.

[Wizard X-Men Masterpiece Edition, Volume 1, ,](#) , 2003, 0974325317, 9780974325316. Introduction by JIM LEE You asked for it and by a special arrangement with Marvel Comics, Wizard delivers you the Top 10 X-Men Comics of all time in one special hardcover volume. Return to the magic of these timeless tales starring the X-Men: The DARK PHOENIX SAGA and Special Edition is from Uncanny X-Men #135-#137. This is easily the most popular and controversial X-Men story ever told. As a special bonus, this hardcover also collects the original 5-page unedited ending that Marvel has never been reissued in a book. DAYS OF FUTURE PAST from Uncanny X-Men #141 and #142, the X-Men, in the future, must confront the mutant hunting Sentinels that have destroyed every super human in the Marvel Universe. The POWER OF PROTEUS from Uncanny X-Men #126-128 is another compelling tale that has never been part of any X-Men collection. DEMON from Uncanny X-Men #143 is artist John Byrne's final issue. Kitty Pryde comes face-to-face with a nightmarish creature obsessed...

[Nothing More than Murder, Jim Thompson](#) , 2011, 0316195847, 9780316195843. Joe Wilmot can't stand his wife

Elizabeth. But he sure loves her movie theater. It's a modest establishment in a beat-down town--but Joe has the run of the place, and inside its walls, he's king. Without the theater, he'd be sunk. Without his leadership, the theater would close in a heartbeat. If it isn't the life Joe imagined for himself, at the very least, it's livable. Everything changes when Joe falls for the housemaid Carol, and the two can't keep it a secret from Elizabeth. Elizabeth won't leave Joe the theater unless he provides for her...but he's put all his money into the show house. Carol and Joe's only hope is the life insurance policies they've taken out on each other. If one of them were to be presumed dead, they'd have more than enough money to solve all their problems...No one knows murder better than Jim Thompson and in this incisive foray into the dark dealings of the mid-20th century movie industry, he doesn't disappoint, in the riveting story of a love triangle gone horribly wrong, and just how far one man will go to hold on to a desperate dream.

[Wittgenstein's House: Language, Space, & Architecture, Nana Last](#) , 2008, 0823228800, 9780823228805. Wittgenstein's House reads Wittgenstein's his two main philosophical texts, Tractatus Logico-Philosophicus and Philosophical Investigations, in relation to an experience that intervened between them: his design and construction of the Stonborough-Wittgenstein house in Vienna. Arguing that the practice of architecture occupies not just a historical position between Wittgenstein's early and late philosophy, but a conceptual position as well, the book demonstrates that Wittgenstein's practice of architecture constitutes a fundamental component in the development of his philosophy of language from its early to late phases. The book advances the radical proposition that the field in which architecture and philosophy operate includes linguistic and spatial practices. It develops innovative forms of interdisciplinary analyses to demonstrate that the philosophical positions put forth by Wittgenstein's two main works are literally unthinkable outside of their respective conceptions of space: the view from above in the early work and the view from within constructed by the late work. To examine the manner in which Wittgenstein's practice of architecture insinuated itself into his philosophy, the author interweaves in-depth analyses of the spatial constructs underpinning the early and late philosophies with conceptual, formal and operative discussions of the design of the Stonborough-Wittgenstein house. Together these discussions reveal how Wittgenstein's practice of architecture engaged philosophical concepts, through which it influenced Wittgenstein's philosophy of language. At the heart of this approach is the finding that the philosophical concepts at the core of Wittgenstein's philosophy are indeed spatial ones, including his concerns with the limits of language, the boundary between showing and saying, the intricate textual numbering systems he devises, the relationship between the interiority of the subject and the publicness of language, and the formative principle of family resemblance.

This bestselling OB text covers all the key concepts needed to understand, predict, and respond to the behavior of people in real-world organizations. Cutting-edge topics are included throughout.

[From Individual Behaviour to Population Ecology, ISSN 1746-3130, William J. Sutherland](#) , 1996, 0198549113, 9780198549116. Population dynamics and animal behaviour are two subjects that have developed almost independently, despite widespread acceptance of the idea that they must be related. The major objective of this book is to demonstrate how aspects of the population ecology of vertebrates, such as population size, migration systems, and the response of populations to ecological change, can be directly and realistically related to behaviour. Building on the strong theoretical foundation that now underpins behavioural ecology, the author suggests how to extrapolate from behavioural interactions to population-level phenomena, and explains the reasoning behind his approaches. Each chapter presents a combination of theory and empirical examples, and a chapter on modelling techniques is included. This book will be stimulating and useful to students and researchers in behaviour, population ecology, and conservation biology.

[Calculus for Biology and Medicine, Claudia Neuhauser](#) , 2004, 0130455164, 9780130455161. This volume teaches calculus in the biology context without compromising the level of regular calculus. The material is organized in the standard way and explains how the different concepts are logically related. Each new concept is typically introduced with a biological example; the concept is then developed without the biological context and then the concept is tied into

additional biological examples. This allows readers to first see why a certain concept is important, then lets them focus on how to use the concepts without getting distracted by applications, and then, once readers feel more comfortable with the concepts, it revisits the biological applications to make sure that they can apply the concepts. The book features exceptionally detailed, step-by-step, worked-out examples and a variety of problems, including an unusually large number of word problems. The volume begins with a preview and review and moves into discrete time models, sequences, and difference equations, limits and continuity, differentiation, applications of differentiation, integration techniques and computational methods, differential equations, linear algebra and analytic geometry, multivariable calculus, systems of differential equations and probability and statistics. For faculty and postdocs in biology departments.

[French Provincial Cooking, Elizabeth David](#) , 1998, 0140273263, 9780140273267. French Provincial Cooking is Elizabeth David's classic work on French regional cuisine. Providing simple recipes like omelettes, souffls, soups and salads, it also offers more complex fare such as pates, cassoulets, roasts and puddings. First published in 1960, it is readable, inspiring and entertainingly informative. French Provincial Cooking by Elizabeth David is the perfect place to go for anyone wanting to bring a little France into their home. 'Not only did she transform the way we cooked but she is a delight to read' Express on Sunday 'Britain's most inspirational food writer' Independent 'When you read Elizabeth David, you get perfect pitch. There is an understanding and evocation of flavours, colours, scents and places that lights up the page' Guardian 'Not only did she transform the way we cooked but she is a delight to read' Express on Sunday Elizabeth David (1913-1992) is the woman who changed the face of British cooking. Having travelled widely during the Second World War, she introduced post-war Britain to the sun-drenched delights of the Mediterranean and her recipes brought new flavours and aromas into kitchens across Britain. After her classic first book Mediterranean Food followed more bestsellers, including French Country Cooking, Summer Cooking, French Provincial Cooking, Italian Food, Elizabeth David's Christmas and At Elizabeth David's Table.

[In Labor's Cause: Main Themes on the History of the American Worker, David Brody](#) , 1993, 0195067916, 9780195067910. These extended essays by one of the preeminent scholars in U.S. labor history discuss central questions in the field, from the colonial period to the present: What do the first demands for a fixed workday tell us about how early American workers experienced the beginnings of the industrial revolution? Why did American labor politics never manage to break the grip of the two-party system? What was the impact of ideology, career leadership, and ethnicity on the American labor movement? How did American trade unionism cope with the market-drive forces of American capitalism? Why did so great a national crisis as World War II have so modest an impact on labor-capital-state relations in America? And finally, how did the struggle for industrial unionism produce the highly formalized "adversarial" system of workplace representation that many observers today see as one of the prime obstacles to American competitiveness in the new global economy? The book's essay structure permits detailed exploration of significant issues, while its wide chronological range and emphasis on causation broaden its scope to embrace major themes and trends. Like Brody's *Workers in Industrial America* (Second Edition, Oxford, 1993), *In Labor's Cause* makes an important contribution toward a comprehensive interpretation of the history of workers in America, and will be a fundamental component of any U.S. survey course, as well as courses in American labor or economic history.

[In the Line of Fire : Trauma in the Emergency Services: Trauma in the Emergency Services, Cheryl Regehr Professor of Social Work and Director of the Center for Applied Social Research University of Toronto, Toronto Ted Bober Clinical](#)

[Coordinator of the Critical Incident Stress Management Team Pearson Airport](#) , 2004, 0198036930, 9780198036937. In the wake of disaster emergency responders are first on the scene and last to leave. They put concern for the lives of others over concern for their own lives, and work tirelessly to recover the bodies of the missing. Their heroic actions save lives, provide comfort to and care for the wounded and inspire onlookers, but at what cost to themselves? We now know that rescue workers who are exposed to mutilated bodies, mass destruction, multiple casualties, and life-threatening situations may become the hidden victims of disaster. The traumatic consequences of exposure can profoundly impact emergency responders, radiate to their families, and permeate the emergency organization. This much-needed new book, based on the authors' original research and clinical experience, describes the consequences of trauma exposure on police officers, fire fighters, and paramedics. Weaving data collected in large-scale quantitative studies with the personal stories of responders shared in qualitative interviews, this much-needed account explores the personal, organizational, and societal factors that can ameliorate or exacerbate traumatic response. Stress theory, organizational theory, crisis theory, and trauma theory provide a framework for understanding trauma responses and guiding intervention strategies. Using an ecological perspective, the authors explore interventions spanning prevention, disaster response, and follow-up, on individual, family, group, organizational, and community levels. They provide specific suggestions for planning intervention programs, developing trauma response teams, training emergency service responders and mental health professionals, and evaluating the effectiveness of services provided. Disaster, whether large-scale or small, underscores

our ongoing vulnerability and the crucial need for response plans that address the health and well being of those who confront disaster on a daily basis. In the Line of Fire speaks directly to these emergency response workers as well as to the mental health professionals who provide them with services, the administrators who support their efforts, and the family members who wonder if their loved one will return home safely from work tonight.

[The Innocent Master Harrison \(1692\), Barbara O'Sullivan](#) , 2008, 0955976103, 9780955976100. The Innocent Master Harrison is a historical tale based on fact, and is set in London in 1692. Doctor Clenche, who is a member of the Royal Society of Physicians, is unwittingly lured from his home in Brownlow Street, late one night by two men who ask him to visit a sick patient. The doctor sets out on a coach journey through London, but he never returns home. Master Harrison is accused of the murder of Doctor Clenche, but was he guilty or innocent? Harrison's Old Bailey trial is included at the back of the book to enable the reader to draw his own conclusions.

[Multiplication Is for White People: Raising Expectations for Other People's Children, Lisa Delpit](#) , 2013, 1595588981, 9781595588982. Lisa Delpit's *Other Peoples Children* which has sold more than a quarter-million copies to date is a paradigm-shifting, highly acclaimed exploration of the cultural slippage between white teachers and students of color. In her long-awaited and now bestselling second book, "Multiplication Is for White People," the award-winning educator reflects on the last fifteen years of reform efforts including No Child Left Behind, standardized testing, alternative teacher certification paths, and the charter school movement that have left a generation of poor children of color feeling that higher educational achievement is not for them. Hailed as "illuminating" (*Publishers Weekly*), "thought-provoking" (*Harvard Educational Review*), and a "much-needed review of the American educational system" (*Kirkus Reviews*), "Multiplication Is for White People" is a passionate reminder that there is no achievement gap at birth. Poor teaching, negative stereotypes, and a curriculum that does not adequately connect to poor children's lives conspire against the prospects of poor children of color. From K-12 classrooms through the college years, Delpit brings the topic of educating other people's children into the twenty-first century, outlining a blueprint for raising expectations based on a simple premise: that all aspects of advanced education are for everyone.

[Schenker's Argument and the Claims of Music Theory, Leslie David Blasius](#) , 1996, 0521550858, 9780521550857.

Heinrich Schenker's theoretical and analytical works claim to resubstantiate the unique artistic presence of the canonic work, and thus reject those musical disciplines such as psychoacoustics and systematic musicology which derive from the natural sciences. In this respect his writing reflects the counter-positivism endemic to the German academic discourse of the first decades of the twentieth century. The rhetoric of this stance, however, conceals a sophisticated programme wherein Schenker situates his project in relation to these sciences, arguing his reading of the musical text as a synthesis of a descriptive psychology and an explanatory historiography (which itself embeds both paleographic and philological assumptions). This book rereads Schenker's project as an attempt to reconstruct music theory as a discipline against the background of the empirical musical sciences of the later nineteenth century.

[The Teachers of Gurdjieff, Rafael Lefort](#) , 1998, 1883536162, 9781883536169. When The Teachers of Gurdjieff was first published some 25 years ago, it made a very considerable stir. George Gurdjieff was one of the most famous mystics before the war, a teaching master who had many fashionable and influential pupils. He had a striking appearance and manner of teaching, one that was to prove influential. The meaning of his teaching and the sources of it were a puzzle. How did he come by his knowledge? What was to become of it? These were questions that engaged many seekers. This book offers, among the adventures of the search and the souks of Baghdad and Aleppo, striking and timeless advice to those interested in finding spirituality. Its appeal is far beyond that of one seeker in one era, but offers us information, today, on how to evaluate different forms of teaching, how to study, and even some tantalizing information on the role of Jesus.

[What is Cinema?, Volume 1, , Andr Bazin](#) , 2005, 0520242270, 9780520242272. Andr Bazin's What Is Cinema? (volumes I and II) have been classics of film studies for as long as they've been available and are considered the gold standard in the field of film criticism. Although Bazin made no films, his name has been one of the most important in French cinema since World War II. He was co-founder of the influential Cahiers du Cinma, which under his leadership became one of the world's most distinguished publications. Championing the films of Jean Renoir (who contributed a short foreword to Volume I), Orson Welles, and Roberto Rossellini, he became the protg of Franois Truffaut, who honors him touchingly in his foreword to Volume II. This new edition includes graceful forewords to each volume by Bazin scholar and biographer Dudley Andrew, who reconsiders Bazin and his place in contemporary film study. The essays themselves are erudite but always accessible, intellectual, and stimulating. As Renoir puts it, the essays of Bazin "will survive even if the cinema does not."
