[Machine Learning and Knowledge Discovery in Databases: European Conference, ECML PKDD 2010, Athens, Greece, September 5-9, 2011, Proceedings, ISSN 0302-9743, , , Dimitrios Gunopulos, Thomas Hofmann, Donato Malerba,](#)

[Michalis Vazirgiannis](#) , 2011, 3642237797, 9783642237799. This three-volume set LNAI 6911, LNAI 6912, and LNAI 6913 constitutes the refereed proceedings of the European conference on Machine Learning and Knowledge Discovery in Databases: ECML PKDD 2011, held in Athens, Greece, in September 2011. The 121 revised full papers presented together with 10 invited talks and 11 demos in the three volumes, were carefully reviewed and selected from about 600 paper submissions. The papers address all areas related to machine learning and knowledge discovery in databases as well as other innovative application domains such as supervised and unsupervised learning with some innovative contributions in fundamental issues; dimensionality reduction, distance and similarity learning, model learning and matrix/tensor analysis; graph mining, graphical models, hidden markov models, kernel methods, active and ensemble learning, semi-supervised and transductive learning, mining sparse representations, model learning, inductive logic programming, and statistical learning. a significant part of the papers covers novel and timely applications of data mining and machine learning in industrial domains.

[The Duchess of Love, Sally MacKenzie](#) , 2012, 1420123203, 9781420123203. A DUKE IN DISGUISE The day was as hot as the pond was inviting. It s not as if anyone in Little Huffington was going to happen upon a secluded vale on the Duke of Greycliffe s lands. And Venus Collingswood didn t want to get her shift all wet. It was the perfect setting in which to plan her lovely bookworm of a sister s betrothal to the mysterious new duke arriving seven days hence. If only she had a suitable accomplice Andrew Valentine, Duke of Greycliffe, never thought arriving at his own household a week early would cause so much trouble. The housekeeper thinks he s his own cousin. Actually, the chance to not be the duke for a while is a pleasant opportunity indeed. It might even help him interrogate the delectable little nymph he s discovered swimming in his pond if he can manage to get a word in edgewise Praise for the Novels of Sally MacKenzie Naked, noble and irresistible! Eloisa James The romance equivalent of chocolate cake...every page is an irresistible delight! Lisa Kleypas A perfect night s read. Romantic Times31,000 Words

[Global Public Health: A New Era, Ruth Bonita](#) , 2009, 0199236623, 9780199236626. Global Public Health: a new era is a comprehensive updated account of the international state of public health, including an agenda for improving the practice of the discipline across the world. It addresses three major issues:- the changing global context for public health- the state of public health theory and practice in developed and developing countries; and- strategies for strengthening the practice of public healthSection one surveys the complex old and new challenges facing public health practitioners, and then summarises the state of health globally using new data based on measures of the Global Burden of Disease developed by the World Health Organization, and other groups, to better describe population health states and

trends. Section two presents the first detailed review of the global state of public health. It analyses the public health situation in all regions of the world. Six chapters cover Europe, Latin America, and Australia and New Zealand. Three chapters cover China, India, and Sub-Saharan Africa. The lessons from these chapters are surprisingly similar: the challenges are great; the public health workforce and infrastructure have long been neglected; and much needs to be done to reinvigorate the practice of public health. The third section covers several cross-cutting themes, including the developing field of international public health ethics and the central and neglected role of the public in strengthening the practice of public health and the opportunities for building the capacity of the public health workforce to respond to the major global health needs.

[An Introduction to Chemistry - Atoms First](#), 2009, 0977810593, 9780977810598. An Introduction to Chemistry is intended for use in beginning chemistry courses that have no chemistry prerequisite. The text was written for students who want to prepare themselves for general college chemistry, for students seeking to satisfy a science requirement for graduation, and for students in health-related or other programs that require a one-semester introduction to general chemistry.

[Guide My Pen: The Poems of Phillis Wheatley, Greg Roza](#), 2003, 082394381X, 9780823943814. Phillis Wheatley rose from the limitations of slavery to become a published poet whose work is still studied today. At age 14, she published her first poem. Even President George Washington was among the many fans of her work. Readers of this book will be inspired by the tale of this remarkable American.

[A Secret Love, Stephanie Laurens](#), 2010, 1407459481, 9781407459486. Althea Morwellan needs Gabriel Cynster's help to save her family's fortune from an unscrupulous con artist, but the beauty is determined to keep her family's precarious financial state a secret. Althea and Gabriel played together as children and she knows him very well. Aware that he can't resist a challenge, she conceals her identity behind a black veil, pretending to be a mysterious, widowed countess. Intrigued, Gabriel agrees to help her, both because of her plea for help and because the beautiful mystery woman represents a personal challenge that he finds irresistible.

[Classmate: The Local Schools Guide for Parents, Amanda Stott](#), 2003, 0954108000, 9780954108007.

[Hockney, Volume 1, Christopher Simon Sykes](#), 2012, 0099543478, 9780099543473. In this astounding first volume, Christopher Sykes explores the fascinating world of the most popular living artist in the world today. David Hockney's career has spanned and epitomised the art movements of the last five decades. His story is one of precocious

achievement at Bradford Art College, the Swinging 60s in London where he befriended many of the iconic cultural figures of the generation, to California and the cool of the swimming pool series of paintings, through the acclaimed set designs for countless operas around the world and major retrospective exhibitions. With unprecedented access to interviews, family and friends and Hockney's own notebooks and paintings, this volume will deliver an open and honest account of the man who many believe to be Britain's greatest living artist.

[Rockne of Notre Dame : The Making of a Football Legend: The Making of a Football Legend, Ray Robinson](#) , 1999, 0195355644, 9780195355642. To say that Knute Rockne was the best coach who ever lived is to understate his importance to football. True, in a mere twelve years, his "Fighting Irish" won 105 games, including five astonishing undefeated seasons. But Rockne was more than the sum of his victories--he was an icon, a legend on a par with Babe Ruth, a sports giant who, more than anyone, made football an American obsession. In *Rockne of Notre Dame*, Ray Robinson delivers a memorable portrait of one of the great American sports figures. The book gives us colorful descriptions of such Rockne teams as the undefeated 1924 eleven led by the illustrious Four Horsemen, and the 1930 squad, Rockne's last and greatest. Here too are vivid accounts of some of the great games in Notre Dame history, including epic battles with arch rivals Army, Nebraska, Carnegie Tech, and USC. But the heart of the book is Rockne himself. A renowned motivator whose "Win one for the Gipper" is the most famous locker-room speech ever, Rockne was also football's most brilliant innovator, a pioneer of the forward pass, a master of the psychological ploy, and an early advocate of conditioning. Though Robinson doesn't pull punches, Rockne emerges as an exemplary and complex figure, a fierce competitor who was generous in victory and defeat, an inspiring father figure to his players, and a man so revered nationwide that when he died in a plane crash in 1931, at the height of his career, he was mourned by the entire country. A feast for all Notre Dame grads and for subway alumni everywhere, this engaging biography is the finest portrait we have of the man who changed football in America.

[Karachi During the British Era: Two Histories of a Modern City, Sohrab K. H. Katrak](#) , 2007, 0195474503, 9780195474503. This volume combines two books; Karachi 1839-1947: A Short History of the Foundation and Growth of Karachi by Behram Sohrab H. J. Rustomji, and Karachi: That Was the Capital of Sindh by Sohrab K. H. Katrak, that provide an interesting and informative picture of Karachi as it once was. Both the authors wrote their respective histories of the city in the early years of Independence. Both authors trace the story of this fishing village-cum-trading post from the time of its occupation by the British, with a population of a few tens of thousands, up to the year of the emergence of Pakistan, with the city of 400,000 as its capital. Aside from nostalgia, this book provides an insight into the 'love for Karachi' that motivated many of its early residents to contribute selflessly to its growth and development. This account will be of great interest to residents, administrators and planners of today's population of over 15 million who live together in a 'melting pot' that contains virtually 10 per cent of the population of Pakistan.

Flat, stable, easy to work with, plywood is a boon to the home woodworker. Many people think of plywood as rough construction material, but it is also made with beautiful hardwood veneers that allow such projects as the trestle table and the mahogany picnic table. Other projects include storage units, patio furniture, a woodworking bench, and a rocking moose for children. Nearly 450 photographs and illustrations.

[All Hallows Eve: The Story of the Halloween Fairy, Lisa Sferlazza Johnson](#) , 2006, 0977309614, 9780977309610. Ages 3 to 5 years. A pinch of modern fairy dust is sprinkled on Halloween traditions in this playful, ghoul- and goblin-free introduction to the holiday. Eve, a young fairy from the All Hallows pumpkin patch, loves candy but is unable to make it -- she can only create toys with her magic. Eve determinedly practices her spells, hoping she'll be able to magic up candy on her birthday, October 31st. During her dress-up birthday party, Eve's finest attempts yield only candy-shaped toys -- such as candy bar blocks, candy cane whistles, and squeaky toy cakes. As her frustration grows, her party guests save the day by visiting all the pumpkins in the patch and collecting candy to fulfill Eve's wish. Overjoyed by their kindness, Eve gratefully offers the toys she created to her friends. A tale of friendship, cooperation, and self-acceptance, this story also provides health-conscious families and those with specific dietary concerns an alternative way to enjoy the holiday activities.

[Why mosquitoes buzz in people's ears: a West African tale, Verna Aardema](#) , 1975, 0140549056, 9780140549058. In this astonishingly beautiful and imaginatively illustrated picture book, Mosquito tells Iguana a tall tale that sets off a chain reaction that ends in jungle disaster. Iguana is so upset at being told such nonsense that he plugs his ears. So, of course, when Python says good morning, Iguana doesn't hear and ignores him altogether. Python suspects Iguana is plotting mischief against him, so he hides in a rabbit hole - which terrifies Rabbit. And so this amusing African legend goes, until finally the chain of mishaps reaches Mother Owl, who reacts by refusing to hoot and wake in the sun.

[The End of History and the Last Man, Francis Fukuyama](#) , 1992, 0140134557, 9780140134551. In 1989, Francis Fukuyama began an explosive debate about the future of the world in the post-Cold War era with an article entitled The End of History and the Last Man . This seminal book expands on his original work to address the fundamental and far-reaching themes of the new millennium. The result is nothing short of an historical and philosophical primer for the onslaught of the 21st century. In the mastery and scope of its case, The End of History and the Last Man may be seen as the first book of the post-Marxist millennium the first work fully to fathom the depth and range of the changes now sweeping through the world George Gilder, the Washington Post.

[The Longest Fight: In the Ring with Joe Gans, Boxing's First African American Champion, William Gildea](#) , 2012, 0374280975, 9780374280970. Many people came to Goldfield, Nevada, Americas last gold-rush town, to seek their fortune. However, on a searing summer day in September 1906, they came not to strike it rich but to watch what would become the longest boxing match of the twentieth centurybetween Joe Gans, the first African American boxing champion, and Battling Nelson, a vicious and dirty brawler. It was a match billed as the battle of the races. In The Longest Fight, the longtime Washington Post sports correspondent William Gildea tells the story of this epic match, which would stretch to forty-two rounds and last two hours and forty-eight minutes. A new rail line brought spectators from around the country, dozens of reporters came to file blow-by-blow accounts, and an entrepreneurial crews film of the fight, shown in theaters shortly afterward, endures to this day. The Longest Fight also recounts something much greaterthe longer battle that Gans fought against prejudice as the premier black athlete of his time. It is a portrait of life in black America at the turn of the twentieth century, of what it was like to be the first black athlete to successfully cross

the nations gaping racial divide. Gans was smart, witty, trim, and handsome with one-punch knockout power and groundbreaking defensive skills and his courage despite discrimination prefigured the strife faced by many of America's finest athletes, including Jesse Owens, Jackie Robinson, and Muhammad Ali. Inside the ring and out, Gans took the first steps for the African American athletes who would follow, and yet his role in history was largely forgotten until now. The Longest Fight is a reminder of the damage caused by the bigotry that long outlived Gans, and the strength, courage, and will of those who fought to rise above.

[Managing Explosive Corporate Growth, Steven M. Bragg](#) , 1998, 0471296899, 9780471296898. As paradoxical as it sounds, one of the toughest problems facing many of today's most successful companies is success itself. Like living organisms, companies are complex networks of interdependent systems-and unless managers recognize and swiftly implement the changes to those systems required by a sudden surge in demand, a booming business can easily go bust under the strain. Recent history abounds with examples of companies whose overnight success led to morning-after failure because their managers, like most managers, lacked the training or experience needed to manage explosive growth. Yet, surprisingly, until recently there have been few expert guides devoted exclusively to this crucial change management issue. Managing Explosive Corporate Growth is a practical guide to piloting your company through periods of explosive growth with minimum damage and maximum sustainable profits. Author Steven Bragg explores the reasons why companies succeed or fail to adapt to explosive growth. He identifies the warning signs of impending explosions or declines in sales volume and zeroes in on the key growth issues specific to each functional area of the company-including accounting, auditing, IT, customer service, distribution, engineering, finance, HR, manufacturing, and sales and marketing. He also presents clear-cut guidelines on how to balance the demands of all organizational areas while guaranteeing customer satisfaction. In addition to proven strategies for planning, financing, and managing explosive growth, he provides you with valuable explosive growth management tools, including checklists of key explosive growth indicators; metrics and reporting systems for controlling cash flow; multi-option budgeting systems that address all growth levels; and reporting systems that help you monitor and control rapid expansion. Managing Explosive Corporate Growth is an indispensable working resource for corporate managers, internal auditors, and entrepreneurs. It will also be of considerable interest to institutional investors who would like to learn the latest techniques for tracking the performance of current or potential investments.

[Sea Queens: Women Pirates Around the World, Jane Yolen](#) , 2010, 1580891322, 9781580891325. In 1963 Jane Yolen

released a book called *PIRATES IN PETTICOATS*, because the idea of women as pirates fascinated her--but there wasn't much information about these women who made their livelihoods plundering on the high seas. Scholars have dug up a bounty of new information since then, and Jane, still fascinated, revisits the ladies who loot. Discover such great pirates as Artemisia, the Admiral Queen of Persia who sailed the seas from 500 to 480 BC. At one point there was a 10,000 drachma prize for anyone who could capture her. There was Rachel Wall, who ran away from her strict upbringing and became a murderous pirate terrorizing the waters of the Atlantic coastline of America. She was hanged for her deeds. Possibly the most famous woman pirate of all was Grania O'Malley, daughter of an Irish chieftain. She plagued the English and was arrested several times, always gaining her freedom to pirate some more. Meet ten other female pirates on their ships, in battle, and in disguise in this intriguing look at the wayward women of the waves. Christine Joy Pratt's pen-and-ink illustrations are alive with action and excitement. Here be a true and accurate account of the most low-down, scurviest--but the prettiest--black-hearted pirates you'll ever love to read about.

[Brief But Comprehensive Psychotherapy: The Multimodal Way, Arnold A. Lazarus](#) , 2006, 0826196845, 9780826196842.

The current healthcare environment has created a need for short-term, time-limited, cost-effective and brief forms of psychotherapy, emphasizing efficiency and efficacy. The central message is "don't waste time." But how can one be brief and also comprehensive?In his latest addition to the psychotherapy literature, the renowned Arnold Lazarus modernizes

his eclectic and goal-oriented approach to psychotherapy. Dr. Lazarus employs and transcends customary methods of diagnosis and treatment by providing several distinctive assessment procedures and therapeutic recommendations. Using his traditional acronym--BASIC ID--he stresses the assessment of seven dimensions of a client's personality:

Behavior Affect Sensation Imagery Cognition Interpersonal relationships (the need for) Drugs This volume contains many ideas that will augment and enhance the skills and clinical repertoires of every therapist.

[Transitions: A Treatise on Death and Dying](#), [Vivian Gaines Tanner Paxton](#), , 1998, 0966575504, 9780966575507. The author's life chronicles an unusual spiritual evolution that began long before she was aware of it. Transitions - A Treatise On Death & Dying documents some of her experiences that occurred during her evolution toward enlightenment. In particular, they are limited to the witnessing of others making the transition from life to the other world. Vivian, unlike others, never attempts to communicate with any of the deceased. Rather, they choose to present themselves to her. This book offers comfort to those who see death as something to be feared because it describes the transition as an easy passage with available assistance from the other world for all who need it. The reader will find consolation, understanding & enjoyment. The book is reader-friendly with respect to both language & length. The second part of the book is filled with inspired poetry. Inspired because it comes to her from a Divine source, sometimes using words that are foreign to her vocabulary.

[Christ Alone: An Evangelical Response to Rob Bell's Love Wins](#), Michael Wittmer , 2011, 0982706332, 9780982706336.

In this highly readable and wonderfully engaging response to Rob Bell's "New York Times" best seller "Love Wins," Michael Wittmer examines Bell's claims about "heaven, hell, and the fate of every person who ever lived" in the light of the Bible and historic Christian doctrine. Wittmer writes in the introduction, "I respect Rob Bell. He wrote "Love Wins" to start a dialogue about the most important issues of our faith, and this book is my attempt as an evangelical to join that conversation." THE AUTHORS Michael E. Wittmer, Ph.D., teaches systematic and historical theology at Grand Rapids Theological Seminary. His previous books include "Heaven Is a Place on Earth: Why Everything You Do Matters to God," and "Don't Stop Believing: Why Living like Jesus Is Not Enough." He resides in Grand Rapids, Michigan, with his wife and children and speaks widely. Michael S. Horton, Ph.D., is the J. Gresham Machen Professor of Systematic Theology and Apologetics, Westminster Seminary California; president of the White Horse Inn; and editor-in-chief of "Modern Reformation" magazine. FROM THE PREFACE BY MICHAEL S. HORTON "[Rob Bell] gave us a wake-up call and Michael Wittmer has answered it.... Offering more light than heat, "Christ Alone" appreciates the attractiveness of Bell's questions and conclusions.... Avoiding caricature and personal attack, he carefully evaluates Bell's interpretations of Scripture. It's not a careless diatribe against a book, but filled with pastoral wisdom for perennial questions." ENDORSEMENTS "With clarity and a gracious spirit, Wittmer provides a resource that I can hand my parishioners who are seeking answers to the questions raised in Rob Bell's "Love Wins."" -- Pastor David Beelen, Madison Square Church, Grand Rapids, MI ""Christ Alone" is a gracious, respectful biblical and theological engagement with "Love Wins." Wittmer's astute questions help readers discern the strengths and weaknesses of Rob Bell's positions. -- Professor Darwin Glassford, Calvin Theological Seminary ""Christ Alone" provides a clear assessment of Rob Bell's "Love Wins." With skill and wit, Wittmer shows that in the end, God loves and wins only if he is truly and completely who he has revealed himself to be in both living and written Word." -- Pastor Jeffrey D. Halsted, Calvary Baptist Church, Grand Rapids, MI "Readers will appreciate the combination of respect, insight, and conviction. Wittmer helps us to see that the Bible's message is not embarrassing, but a compelling story that fits the reality of God's holiness and the darkness of the human heart." -- Pastor Nate Archer, Peace Church, Middleville, MI ""Christ Alone" deftly guides us in the art of listening to history and the text so that we might engage the conversation beyond the controversy. Not afraid to ask the questions, but ready to give an answer when there are answers to be given, Wittmer walks the line between mystery and revelation culminating in the cross and resurrection and the good news that love has already won." -- Christopher R. Brewer, Founder and Director of Gospel through Shared Experience and editor of "Art that Tells the Story, " "Wittmer's critique of "Love Wins" is fair, biblical, and loving. Readers learn or relearn biblical interpretations, biblical doctrines, teachings of historical church leaders, and an overall appreciation of who God is and what it means to live in the balance of God's grace and justice." -- Pastor Lew VanderMeer, New Community Church, Grand Rapids, MI STUDY GUIDES Free small-group, congregational, and individual study guides are available from the author and publisher for use with this book.

[The Black Seasons, Michal Glowinski](#) , 2005, 0810119595, 9780810119598. A mosaic of memories from a childhood in the Warsaw Ghetto and a life in hiding on the other side of the wall When six-year-old Michal Glowinski first heard the adults around him speak of the ghetto, he understood only that the word was connected with moving-and conjured up a fantastical image of a many-storied carriage pulled through the streets by some umpteen horses. He was soon to learn that the ghetto was something else entirely. A half-century later, Glowinski, now an eminent Polish literary scholar, leads us haltingly into Nazi-occupied Poland. Scrupulously attentive to the distance between a child's experience and an adult's reflection, Glowinski revisits the images and episodes of his childhood: the emaciated violinist playing a Mendelssohn concerto on the ghetto streets; his game of chess with a Polish blackmailer threatening to deliver him to the Gestapo;

and his eventual rescue by Catholic nuns in an impoverished, distant convent. In language at once spare and eloquent, Glowinski explores the horror of those years, the fragility of existence, and the fragmented nature of memory itself.

[Geosystems Canadian Edition, Robert Christopherson](#) , 2008, 0132366207, 9780132366205. Geosystems is written, organized, and illustrated to give introductory students an accessible, systematic, and visually appealing start in the study of physical geography. It is fully supported by superior cartography, illustrations, photographs, and remarkable remote-sensing imagery. This first Canadian edition has been carefully crafted to enhance appeal to Canadian students. A considerable amount of new Canadian material has been added while the best of the US and international examples have been retained. For introductory courses in Physical Geography and Earth Science at 2/4-year colleges and universities.

[Current Issues in Applied Memory Research, Graham M. Davies, Daniel B. Wright](#) , 2009, 0203869613, 9780203869611. Research on applied memory is one of the most active, interesting and vibrant areas in experimental psychology today. This book provides descriptions of cutting-edge research and applies them to three key areas of contemporary investigation: education, the law and neuroscience. In the area of education, findings from the study of memory are described which could have a major impact on testing practice, revision techniques for examinations and teaching basic literacy and numeracy. In applications to the law, recent findings shed new light on the dynamics of child abuse investigations, the status of traumatic memories recovered after long delays and a further challenge for the eyewitness:

change blindness. Finally, in neuroscience, contributions cover the frightening question of whether patients can remember incidents during surgical operations under anaesthetic, the unexpected impact of handedness and rapid eye movements on memory proficiency and the status of dj vu: mystical experience or memory error? These accounts of recent research on applied memory have been written by leading experts in the field from both Europe and America, with the non-specialist in mind. They will interest students who wish to extend their reading beyond core material in cognitive psychology, graduates on more specialised courses in education, forensics and neuropsychology, and all those who wish to enrich their knowledge of the contemporary frontiers of applied memory research.

[Cabinet Office Departmental Report 2006, Great Britain: Cabinet Office, Great Britain. Treasury](#) , 2006, 0101683324, 9780101683326. The theme of this year's annual report from the Cabinet Office is "making government work better". It aims to achieve this by concentrating on three core functions: supporting the Prime Minister, to define and deliver the

Government's objectives; supporting the Cabinet, to drive the coherence, quality and delivery of policy and operations across departments; strengthening the Civil Service, ensuring it is organised effectively and has the capability in terms of skills, values and leadership to deliver the objectives. The year's priorities included better regulation, e-Government, responding to emergencies and the UK's presidency of the European Union. In the Civil Service, the Office has introduced capability reviews for departments, and the new 10-point plan for diversity, and focused on leadership skills and governance arrangements. Progress against Public Service Agreement targets is presented, along with public expenditure data and efficiency targets.

[Animal Migration: A Synthesis, E.J. Milner-Gulland, John M. Fryxell, Anthony R.E. Sinclair](#) , 2011, 0199569002, 9780199569007. Despite the wealth of natural historical research conducted on migration over decades, there is still a dearth of hypothesis-driven studies that fully integrate theory and empirical analyses to understand the causes and consequences of migration, and a taxonomic bias towards birds in much migration research. This book takes a comparative, integrated view of animal migration, linking evolution with ecology and management, theory with empirical research, and embracing all the major migratory taxa (including human pastoralists). The scope extends beyond the target organism to consider the ecosystem-level dynamics of migration. The emphasis is on exciting new research avenues that are now opening up, whether due to advances in our understanding of migration as a biological phenomenon or through the availability of a range of new technologies. Broad themes that emerge include integrating migration into the broad spectrum of movement behaviour, the need for a comparative and cross-taxonomic approach that considers migration at a range of temporal and spatial scales, and examination of the key roles of resource uncertainty and spatial heterogeneity in driving migratory behaviour. The book identifies the potential for new tools to revolutionise the study of migration, including satellite-tracking technology, genomics, and modelling - all of which are linked to increasing computing power. We are now on the verge of a breakthrough in migration research, which is crucial given the multiple threats that face the conservation of migration as a phenomenon, including climate change.

[UK Tax Policy and Applied General Equilibrium Analysis, John R. Piggott, John Whalley](#) , 1985, 0521301483, 9780521301480. At the time of this volume's publication in 1985, general equilibrium modelling had become a significant area of applied economic research. Its focus was to develop techniques to facilitate economy-wide quantitative assessment of allocative and distributional impacts on policy changes. UK Tax Policy and Applied General Equilibrium Analysis was the first book-length treatment of the development and application of an applied general equilibrium model of the Walrasian type, constructed to analyse UK taxation and subsidy policy. As a whole, UK Tax Policy and Applied General Equilibrium Analysis offers the reader two things. First, it gives a detailed account of the development of an

applied general equilibrium model of the UK. Second, it provides results of model experiments which have been designed to inform the policy debate, not only in the UK but also in other countries. It should thus be of interest to both researchers and students undertaking research in the applied general equilibrium area and to policy makers concerned with tax reform.

[God's Creative Power for Healing, Charles Capps](#) , 2009, 0982032005, 9780982032008. God's Word is life and healing to you. The Bible promises God's children perfect health, so you don't have to be sick another day of your life. As a Christian, you have all of God's authority to change your world with your words. And when you speak the Word of God, it is just as if God is speaking. God's Creative Power of Healing by Charles Capps is the perfect resource to equip you with teaching and healing scriptures in order to receive your promised healing. This pocket-sized book contains concise teaching on the principles of healing, as well as a thorough list of Bible promises regarding your health and healing. This book is an excellent gift, or perfect to keep in your car, wallet, or pocket. Let the scriptures in this book be the medicine you need to walk in complete health and wholeness.

[Exclusive: A Novel, Yasmin Shiraz](#) , 2004, 0971817413, 9780971817418. Inspired by her life as an entertainment journalist, Yasmin Shiraz delivers a steamy and riveting tale the story of two women focused on the same man, each desperately wanting to be the victor. As the story opens Tisha is on her way to interview Shout the hottest rapper in the country and has decided that she's gonna make him love her. But, with Shout's lust for groupie companionship and easy

sex, does he have other plans? Vindictive music executive Jordan Ellis can't keep her mind off Shout and is willing to hurt anyone who comes near him. *EXCLUSIVE* is a fast paced novel with vivid characters and shocking plot twists. Urban Network Magazine writes, *EXCLUSIVE* gives a unique glimpse inside the sometimes treacherous and cutthroat entertainment industry. *EXCLUSIVE* explores some of the many complex personalities of the music industry; as well as the sometimes unsavory practices that take place.

[Cider With Rosie, Laurie Lee](#) , 2011, 1407073362, 9781407073361. Cider with Rosie is a wonderfully vivid memoir of childhood in a remote Cotswold village, a village before electricity or cars, a timeless place on the verge of change. Growing up amongst the fields and woods and characters of the place, Laurie Lee depicts a world that is both immediate and real and belongs to a now-distant past.

[You're the One That I Don't Want, Alexandra Potter](#) , 2010, 184894599X, 9781848945999. How do you know he's The One? Are you getting butterflies just thinking about him? Have you dreamt of marrying him? Do you just know? When Lucy meets Nate in Venice, she knows instantly he's The One. And, caught up in the whirlwind of first love, they kiss under the Bridge of Sighs at sunset. Which -- according to legend -- will tie them together forever. But ten years later, they've completely lost contact. That is, until Lucy moves to New York and the legend brings them back together. Again. And again. And again. But what if Nate isn't The One? How is she going to get rid of him? Because forever could be a very long time...A funny, magical romantic comedy about how finding The One doesn't always have to mean happily ever after.

[Robust Design: A Repertoire of Biological, Ecological, and Engineering Case Studies, Erica Jen](#) , 2005, 0195165330, 9780195165333. Robust Design brings together 16 chapters by an eminent group of authors in a wide range of fields presenting aspects of robustness in biological, ecological, and computational systems. The volume is the first to address robustness in biological, ecological, and computational systems. It is an outgrowth of a new research program on robustness at the Sante Fe Institute founded by the David and Lucile Packard Foundation. For those interested in complexity or interdisciplinary science, robustness is seen as currently among the most intellectually active and promising research areas with important applications in all fields of science, business, and economics.

[Stock Market Knowledge for All Ages: Answering Questions about Stocks, Bonds, and Mutual Funds, Susie Vaccaro](#)

[Hardeman](#) , 2004, 1580086276, 9781580086271. When Susie Vaccaro Hardeman tried to open a brokerage account in a young neighbor's name as thanks for a favor, she was shocked that brokerages, bookstores, and libraries couldn't

deliver a single primer for young students or anyone of any age, for that matter, who is interested in learning stock market basics. And so she spent the next year researching, interviewing, and talking with hundreds of people, compiling the fundamentals needed in order to make a foray onto Wall Street. In this colorful and easy-to-use guide, you 'll find answers to questions such as What is liquidity? What determines the price of a stock? What is a day trader, and are there night traders? plus many, many more. With friendly illustrations lighting your way, you 'll soon be navigating the world of stocks, bonds, and mutual funds with confidence and ease. An insightful, easy-to-use stock market guide for young adults, professionals, educators - people of all ages! Includes a brief history of Wall Street (including how it got its name), a list of good research websites, and instructions on how to read a newspaper stock listing. Also features fascinating stock market trivia.

From Byzantium to Modern Greece: Hellenic Art in Adversity, 1453-1830, examines the evolution of Hellenic art and culture during four centuries of tumultuous change under Venetian and Ottoman occupation. More than 137 works from all sectors of artistic production- icons , painting, woodcarving, metalwork, embroidery, costumes, jewelry, and pottery-present a comprehensive visual history of Hellenic culture from the fall of Byzantium in 1453, with the fall of Constantinople, to the founding of the modern Greek State in 1830. The color-illustrated catalogue includes 9 informative essays that explore the historic and socio-economic context of the period, the spiritual and artistic legacy of the Orthodox Church, the importance of home and decorative arts, the adornment of women, the depictions of Greece by foreign travelers, and the Greek Enlightenment and founding of the modern Greek State. Contributors to the exhibition catalogue include, in addition to the editors, Dimitris Arvanitakis, Head of Historical Research Department, Benaki Museum, Athens; Spyros I. Asdrachas. Historian, Research Director Emeritus, National Hellenic Research Foundation, Athens; Anna Ballian, Curator of Islamic Collection, post-Byzantine Metalwork and Textiles, Benaki Museum. Athens; Anastasia Drandaki, Curator of Byzantine Collection, Benaki Museum, Athens; Paschalis M. Kitromilides, Professor of Political Science, University of Athens; Director, Institute of Neohellenic Research/National Hellenic Research Foundation, Athens; George Toliás, Research Director, Institute of Neohellenic Research /National Hellenic Research Foundation, Athens; and Fani-Maria Tsigakou, Curator of Paintings, Prints and Drawings, Benaki Museum. Athens.

[Culture of One, Alice Notley](#) , 2011, 1101502037, 9781101502037. A new collection that captures the austere serenity of the Southwest American desert. Award-winning, Paris-based poet Alice Notley's adventurous new book is inspired by the life of Marie, a woman who resided in the dump outside Notley's hometown in the Southwestern desert of America. In this poetical fantasy, Marie becomes the ultimate artist/poet, composing a codex-calligraphy, writings, paintings, collage-from materials left at the dump. She is a "culture of one." The story is told in long-lined, clear-edged poems deliberately stacked so the reader can keep plunging headlong into the events of the book. Culture of One offers further proof of how Notley "has freed herself from any single notion of what poetry should be so that she can go ahead and write what poetry can be" (The Boston Review).

[Preferred orientation in deformed metals and rocks: an introduction to modern texture analysis, Hans-Rudolf Wenk](#) , 1985, 0127440208, 9780127440200. This volume provides an introduction to the texture analysis of deformed materials and explores methods of determining and interpreting the preferred orientation of crystals in deformed polycrystalline aggregates.**The book reviews: 1) the techniques, procedures, and theoretical basis for the accumulation and analysis of orientation data; 2)the processes by which polycrystals deform and the microstructural mechanisms responsible for the development of the preferred orientation; 3) the textures in specific systems and application of principles to the solution of specific problems.**With a combination of metallurgic and geologic applications, Preferred Orientation in Deformed Metals and Rocks: An Introduction to Modern Texture Analysis will be an important source book for students and researchers in materials science, solid state physics, structural geology, and geophysics.**FROM THE PREFACE: Determination and interpretation of the preferred orientation of crystals in deformed polycrystalline aggregates (in this volume also referred to as texture) has been of longstanding concern to both materials scientists and geologists. A similar theoretical background--such as the dislocation theory of crystal plasticity--has been the basis of understanding flow in metals and rocks; and similar determinative techniques--including microscopy and x-ray diffraction--have been used to study textures and microstructures. Whereas many of the fundamental principles have been established early this century by scientists such as Jeffery, Sachs, Sander, Schmid, Schmidt, and Taylor, only in recent years has knowledge reached a level that provides a quantitative framework which has replaced a largely phenomenological approach. This is expressed in the sudden new emphasis on textural studies, as documented by the large number of recent publications.**This volume contains material to serve as an introduction for those who wish to enter this field as well as reviews for those who are already engaged in advanced research....**The book is divided into three parts. The first (Chapters 2*b17) deals with techniques, procedures, and theoretical bases for the accumulation and analysis of orientation data. The second (Chapters 8*b112) introduces processes by which polycrystals deform and the microstructural mechanisms responsible for the development of the preferred orientation. All those chapters emphasize basic principles and apply to metals as well as to minerals. The third part (Chapters 13*b126) illustrates textures in specific systems and the application of the principles set out in the earlier chapters to the solution of specific problems. Readers of these chapters will quickly become aware that metals have been more exhaustively studied than minerals; but they will also realize that, because of

their structural symmetry, metals are in general much simpler than rocks and that the interpretation of metal textures is less involved. An extensive list of relevant references provides access to much of the original literature on textures....

[Life's Journey: A Clear Mind and A Clean Heart, Sherry Carroll](#) , 2004, .

[Hans Bethe and His Physics, Gerald Edward Brown, Chang-Hwan Lee](#) , 2006, 9812774505, 9789812774507. When Hans Bethe, at the age of 97, asked his long-term collaborator, Gerry Brown, to explain his scientific work to the world, the latter knew that this was a steep task. As the late John Bahcall famously remarked: "If you know his (Bethe's) work, you might be inclined to think he is really several people, all of whom are engaged in a conspiracy to sign their work with the same name." Almost eight decades of original research, hundreds of scientific papers, numerous books, countless reports spanning the key areas of 20th century physics are the impressive record of Hans Bethe's academic work. In answering Bethe's request, the editors enlisted the help of experts in the different research fields, collaborators and friends of this "last giant" of 20th century physics. "Hans Bethe and His Physics" is the result. It contains discussions of Hans Bethe's work in solid state physics, nuclear physics and astrophysics; it explains his contributions as a science advisor and his stance on energy and nuclear weapons; and it demonstrates his impact as a teacher and mentor to generations of young scientists. While the book's primary aim is to explain the science behind the man, the different articles also allow the reader to take a glimpse at the man behind the science.

prizewinning author of *Young Stalin*. Winter 1916: St. Petersburg, Russia, is on the brink of revolution. Outside the Smolny Institute for Noble Girls, an English governess is waiting for her young charge to be released from school. But so are the Tsar's secret police... Beautiful and headstrong, Sashenka Zeitlin is just sixteen. As her mother parties with Rasputin and their dissolute friends, Sashenka slips into the frozen night to play her part in a dangerous game of conspiracy and seduction. Twenty years on, Sashenka is married to a powerful, rising Red leader with whom she has two children. Around her people are disappearing, while in the secret world of the elite her own family is safe. But she's about to embark on a forbidden love affair that will have devastating consequences. Sashenka's story lies hidden for half a century, until a young historian goes deep into Stalin's private archives and uncovers a heartbreaking tale of betrayal and redemption, savage cruelty and unexpected heroism -- and one woman forced to make an unbearable choice.

[A Woman in Charge: The Life of Hillary Rodham Clinton, Carl Bernstein](#) , 2008, 0099519224, 9780099519225. *A Woman in Charge* reveals the true trajectory of Hillary's astonishing life and career. From a staunchly Republican household and apparently idyllic Midwestern girlhood - her disciplinarian father here revealed as harsher than she has acknowledged - we see the shaping of a brilliant girl whose curiosity was fuelled by the ferment of the 1960s and a desire to change the world. During her student years, she was already perceived as a spokeswoman for her generation. Then, at Yale Law School, she met and fell in love with Bill Clinton, cancelling her own dreams to tie her fortunes to his. Bernstein clarifies the often amazing dynamic of their marriage, charting both her political acumen and her blind spots, and untangling her relationship to the great controversies of Whitewater, Troopergate and Travelgate. And then, in the emotional and political chaos of the Lewinsky affair we see Hillary standing by her husband - evoking a rising wave of sympathy from a public previously cool to her and in effect, Bernstein argues, saving his presidency. It helps carry her into the Senate: her time has come. As she decides to run for President, this self-described 'mind-conservative and heart liberal' has one more chance to fulfill her long-deferred ambitions. Bernstein has interviewed some 200 of her colleagues, friends and enemies and was given unique access to the candid record of the 1992 presidential campaign kept by Hillary's best friend, Diane Blair. Marshalling all the skills and energy that propelled his history-making Pulitzer prize-winning coverage of Watergate, he gives us a detailed, sophisticated, comprehensive and revealing account of the complex human being and political meteor who has already helped define one presidency and may well become the woman in charge of another.

[The Theory of Ecology, Samuel M. Scheiner, Michael R. Willig](#) , 2011, 0226736865, 9780226736860. Despite claims to the contrary, the science of ecology has a long history of building theories. Many ecological theories are mathematical, computational, or statistical, though, and rarely have attempts been made to organize or extrapolate these models into broader theories. *The Theory of Ecology* brings together some of the most respected and creative theoretical ecologists of this era to advance a comprehensive, conceptual articulation of ecological theories. The contributors cover a wide

range of topics, from ecological niche theory to population dynamic theory to island biogeography theory. Collectively, the chapters ably demonstrate how theory in ecology accounts for observations about the natural world and how models provide predictive understandings. It organizes these models into constitutive domains that highlight the strengths and weaknesses of ecological understanding. This book is a milestone in ecological theory and is certain to motivate future empirical and theoretical work in one of the most exciting and active domains of the life sciences.

[Intelligent Design: The Bridge Between Science & Theology, William A. Dembski](#) , 2002, 083082314X, 9780830823147. Voted a 2000 Book of the Year by Christianity Today! The Intelligent Design movement is three things: a scientific research program for investigating intelligent causes an intellectual movement that challenges naturalistic evolutionary theories a way of understanding divine action Although the fast-growing movement has gained considerable grassroots support, many scientists and theologians remain skeptical about its merits. Scientists worry that it's bad science (merely creationism in disguise) and theologians worry that it's bad theology (misunderstanding divine action). In this book William Dembski addresses these concerns and brilliantly argues that intelligent design provides a crucial link between science and theology. Various chapters creatively and powerfully address intelligent discernment of divine action in

nature, why the significance of miracles should be reconsidered, and the demise and unanswered questions of British natural theology. Effectively challenging the hegemony of naturalism and reinstating design within science, Dembski shows how intelligent design can be unpacked as a theory of information. Intelligent Design is a pivotal, synthesizing work from a thinker whom Phillip Johnson calls "one of the most important of the design theorists who are sparking a scientific revolution by legitimating the concept of intelligent design in science."

[HTML & XHTML: The Definitive Guide: The Definitive Guide, Chuck Musciano, Bill Kennedy](#) , 2002, 1449390854, 9781449390853. HTML and its XML-based descendant, XHTML, are the fundamental languages for working on the web, and the new edition of our popular HTML guide offers web developers a better way to become fluent in these languages. HTML & XHTML: The Definitive Guide, 5th Edition is the most comprehensive, up-to-date book available on HTML and XHTML. It covers Netscape Navigator 6, Internet Explorer 6, HTML 4.01, XHTML 1.0, CSS2, and all of the features supported by the popular web browsers. Learning HTML and XHTML is like learning any new language. Most students first immerse themselves in examples. Studying others is a natural way to learn; however, it's as easy to learn bad habits through imitation as it is to acquire good ones. The better way to become HTML-fluent is through a comprehensive reference that covers the language syntax, semantics, and variations in detail and demonstrates the difference between good and bad usage. In HTML & XHTML: The Definitive Guide, the authors cover every element of HTML/XHTML in detail, explaining how each element works and how it interacts with other elements. Tips about HTML/XHTML style help you write documents ranging from simple online documentation to complex presentations. With hundreds of examples, the book gives you models for writing your own effective web pages and for mastering advanced features like style sheets and frames. HTML & XHTML: The Definitive Guide, 5th Edition, shows how to: Use style sheets to control a document's appearance Work with programmatically generated HTML Create tables, from simple to complex Use frames to coordinate sets of documents Design and build interactive forms and dynamic documents Insert images, sound files, video, Java applets, and JavaScript programs Create documents that look good on a variety of browsers Make the transition to XHTML The book comes with a handy quick-reference card listing HTML/XHTML tags.

[Dairy Processing: Improving Quality, , Gerrit Smit](#) , 2003, 1855736764, 9781855736764. The dairy sector continues to be at the forefront of innovation in food processing. With its distinguished editor and international team of contributors, Dairy processing: improving quality reviews key developments and their impact on product safety and quality. The first two chapters of part one provide a foundation for the rest of the book, summarising the latest research on the constituents of milk and reviewing how agricultural practice influences the quality of raw milk. This is followed by three chapters on key aspects of safety: good hygienic practice, improvements in pasteurisation and sterilisation, and the use of modelling to assess the effectiveness of pasteurisation. A final sequence of chapters in part one discuss aspects of

product quality, from flavour, texture, shelf-life and authenticity to the increasingly important area of functional dairy products. Part two reviews some of the major technological advances in the sector. The first two chapters discuss developments in on-line control of process efficiency and product quality. They are followed by chapters on new technologies to improve qualities such as shelf-life, including high pressure processing, drying and the production of powdered dairy products, and the use of dissolved carbon dioxide to extend the shelf-life of milk. Part three looks in more detail at key advances in cheese manufacture. Dairy processing: improving quality is a standard reference for the dairy industry in improving process efficiency and product quality. Reviews key developments in dairy food processing and their impact on product safety and quality Summarises the latest research on the constituents of milk and reviews how agricultural practice influences the quality of raw milk Outlines the key aspects of safety: good hygienic practice, improvements in pasteurisation and sterilisation, and the use of modelling to assess the effectiveness of pasteurisation

[Romantic Roses, Trevor Klein](#) , 1994, 0947338373, 9780947338374. First edition 1994. Revised edition 1994. Full-page colour photographs of 30 varieties of rose, each accompanied with a verse or quotation.

[Our Flight: A Coloring and Activity Book. Includes Games and Puzzles, Kathryn C. Moore](#) , 1991, 0963329502, 9780963329509. "This looks just like a real airplane!" "This is exactly what happens on an airplane trip, I know a lot of adults who need this book." "It's so easy to understand - & it's fun! These are just a few of the comments about OUR FLIGHT - a children's coloring activities book. OUR FLIGHT describes what goes on when you take an airplane trip from the time that you arrive at the airport until the time that you land. It is written in narrative rhyme & illustrated in coloring book style. The reader is acquainted with airline personnel, the airplane - its safety features & travel comforts & things that you can do to facilitate your own comfort (i.e. pressurization, etc.). In addition to the story there are travel related games, a flight log page, & a flight facts page. This activities book is the perfect travel companion for the unaccompanied minor. A number of parents & teachers have reviewed OUR FLIGHT. They have found it to be creative, comprehensive, educational & entertaining. Welcome aboard with OUR FLIGHT. Sit back enjoy the ride & have fun.

[The Gift & the Curse, Sarah Shivan](#) , 2009, 0956159044, 9780956159045. Ever wondered what it's really like to live in a place as exotic and notorious as Thailand? This factual recounting of her own experiences whilst living in the Land of Smile has been very skilfully compiled by the Author and centres around the lives of four very different characters whose lives intertwine in this richly colourful and pulsating part of Asia. The four main characters - comprised of a Thai prostitute; a sex tourist, a professional expatriate and hippie backpacker - are superbly and factually portrayed as they meet and journey together to what appears to be a doomed fate when their mini bus is hijacked by a notorious Russian gangster. Based on true stories and real people, it not only offers a huge insight into the culture and religion embedded in Thai society, but gives a glimpse into the deeper psychological effects it has on its inhabitants and visitors. Exciting, exhilarating, and with a predominant backdrop of beaches, sex tourism and steamy nightlife, even reading about it will

leave an indelible impression on those who have never had the unique privilege of experiencing Thailand for themselves. Extremely well written, with vividly described characters whose emotions are laid bare for the reader to embrace or reject, this highly informative and entertaining novel is not to be missed, and is guaranteed to keep one reading well into the night.

[The Spirit of the Sword: Iaido, Kendo, and Test Cutting with the Japanese Sword,](#) , 2013, 1583945423, 9781583945421. Nakamura Taisaburo's landmark book on the art of the sword includes technical information, thoughtful analysis, and fascinating recollections of his own training and teaching. One of the most famous Japanese swordsmen of the twentieth century, Nakamura is widely acknowledged as the preeminent reinvigorator of the practice of tameshigiri

(test cutting) as a test of technical and spiritual mastery. The Spirit of the Sword--first published in Japanese in 1980, now translated into English for the first time--is regarded by many as the most complete of Nakamura's writings on Japanese swordsmanship. Here Nakamura instructs the reader on the integration of iaido, kendo, and tameshigiri; the correct mental approach to sword practice; training methods; numerous kata or forms; a guide to sword maintenance; and historical notes on the use of the sword as a weapon. Illustrated with over 800 original photographs, this book is a must-have for any student of the Japanese sword and an excellent resource for sword enthusiasts in general.

Contents

Chapter 1: Kobudo and Shu ha ri

Chapter 2: The integration of iaido, kendo and tameshigiri

Chapter 3: The correct mental attitude towards the Japanese sword

Chapter 4: The Japanese sword as a weapon

Chapter 5: Essential knowledge concerning the Japanese sword

Chapter 6: Training methods using the tanrenbo

Chapter 7: The fundamentals and application of tameshigiri

Chapter 8: Toyama ryu iaido (gunto no soho)

Chapter 9: Toyama ryu kumitachi (kata)

Chapter 10: Nakamura ryu battojutsu (kata)

Chapter 11: Nakamura ryu kumitachi (kata)

Chapter 12: Handling and maintenance of the Japanese sword

Chapter 13: Examples of instructing tameshigiri and sword-related injuries

Chapter 14: A life of tameshigiri

[Overcoming Trauma Through Yoga: Reclaiming Your Body, David Emerson, Elizabeth Hopper](#) , 2011, 1556439695, 9781556439698. Survivors of trauma--whether abuse, accidents, or war--can end up profoundly wounded, betrayed by their bodies that failed to get them to safety and that are a source of pain. In order to fully heal from trauma, a connection must be made with oneself, including one's body. The trauma-sensitive yoga described in this book moves beyond traditional talk therapies that focus on the mind, by bringing the body actively into the healing process. This allows trauma survivors to cultivate a more positive relationship to their body through gentle breath, mindfulness, and movement practices. Overcoming Trauma through Yoga is a book for survivors, clinicians, and yoga instructors who are interested in mind/body healing. It introduces trauma-sensitive yoga, a modified approach to yoga developed in collaboration between yoga teachers and clinicians at the Trauma Center at Justice Resource Institute, led by yoga teacher David Emerson, along with medical doctor Bessel van der Kolk. The book begins with an in-depth description of

trauma and post-traumatic stress disorder (PTSD), including a description of how trauma is held in the body and the need for body-based treatment. It offers a brief history of yoga, describes various styles of yoga commonly found in Western practice, and identifies four key themes of trauma-sensitive yoga. Chair-based exercises are described that can be incorporated into individual or group therapy, targeting specific treatment goals, and modifications are offered for mat-based yoga classes. Each exercise includes trauma-sensitive language to introduce the practice, as well as photographs to illustrate the poses. The practices have been offered to a wide range of individuals and groups, including men and women, teens, returning veterans, and others. Rounded out by valuable quotes and case stories, the book presents mindfulness, breathing, and yoga exercises that can be used by home practitioners, yoga teachers, and therapists as a way to cultivate awareness, tolerance, and an increased acceptance of the self.

[The Compleat Angler, Izaak Walton, Charles Cotton](#) , 2000, 0192837869, 9780192837868. The greatest classic of angling literature and a unique celebration of the English countryside, Izaak Walton's *The Compleat Angler* was originally published in 1653 and first appeared with Charles Cotton's continuation in 1676. No book, apart from the Bible and the Book of Common Prayer, has been more often reprinted. As a treatise on the art of fishing it has never wholly been superseded. For its advice on the catching and cooking of fish, the rules for baits, and the making of artificial flies, it remains a valuable and engrossing guide. As a graceful and affectionate portrait of rural England its charm is irresistible

and in Walton and Cotton we could not wish for more congenial companions. This illustrated edition, with an Introduction by the novelist John Buchan, has been expanded and revised by John Buxton.

[Pundits, Poets, and Wits: An Omnibus of American Newspaper Columns, Karl Ernest Meyer](#) , 1990, 0195060636, 9780195060638. Gilbert Seldes once called the newspaper column the most sophisticated of the popular American arts. It is that and more. It is a raft-ride through the white water of American opinion and thought. It is Mark Twain and Ring Lardner, Will Rogers and H.L. Mencken, Walter Lippmann and Joseph Alsop, Russell Baker and Calvin Trillin. It is nothing less than the American voice fortissimo--often blunt, occasionally eloquent, always opinionated, inspiring, infuriating, delightful. In this wonderfully diverse anthology, New York Times editorial writer Karl Meyer brings together 72 of America's finest columnists, the first such collection ever published. The range of voices is remarkable, stretching from Ben Franklin (who, as Silence Dogood, castigates the evils of demon rum) to Anna Quindlen (who writes on the travails of being pregnant in New York City). H.L. Mencken lambasts Truman's 1948 presidential campaign as "unhampered by anything resembling a coherent body of ideas." Mary McGrory describes sitting in Judge Sirica's courtroom as the Watergate tapes are played on the "little Sony": how Haldeman slumps in his chair, how Mitchell turns faintly pink. Milt Gross renders a demented comic version of Pocohantas and Keptain John Smeet in American Yiddish dialect ("Hends opp!--odder we'll cot you off de scallop wid a tommyhuck!"). Heywood Broun offers a tongue-in-cheek explanation of "How I Became a Red." And I. F. Stone assails our collective guilt in Kennedy's assassination ("We all favor murder, when it reaches our own hated opponents"). To read these columns is to walk through American history and savor the views of some of our finest commentators, declaiming on everything from freedom of the press to yesterday's double-header.

[Lawn Ranger Landscaping Practice Set With GI Software, Carl S. Warren, James M. Reeve, Jonathan Duchac](#) , 2013,

1285180992, 9781285180991. This practice set covers the complete accounting cycle for a small service business operated as a sole proprietorship. Students follow a narrative of transactions to make general journal entries. The estimated time to complete this practice set is 15-16 hours.

[European Agencies: Law and Practices of Accountability, Madalina Busuioc](#) , 2013, 0191650935, 9780191650932.

European agencies have been created at a rapid pace in recent years in a multitude of highly pertinent and sensitive fields ranging from pharmaceuticals and aviation safety to chemicals or financial supervision. This agency phenomenon

shows no signs of relenting, and the trend in recent years is towards the delegation of ever-broader powers. These bodies, meant to operate at arm's length from political control, have real power and their opinions and decisions can have a direct impact on individuals, regulators, and member states. Given the powers wielded by the agencies, who is responsible for holding these non-majoritarian actors to account? Is the growing concern surrounding agency accountability 'much ado about nothing' or are we faced with the threat of a powerful and unaccountable bureaucracy? These are precisely the questions that this book seeks to answer. It thus addresses one of the most relevant topics in current European governance: the accountability of European agencies. Scholars have increasingly called attention to the risk of placing too much power in the hands of such agencies, which operate at arm's length from traditional controls and cannot easily be held accountable for their actions. Although this is a major issue of concern, systematic empirical research into the topic is lacking. This book addresses empirically whether, and if so on what counts, agency accountability is problematic. It examines how the accountability system of European agencies operates at both the de jure as well as the de facto level, through an examination of legal provisions, relevant case law as well as policy documents and extensive interview material. Reflecting on these findings, the book also offers important theoretical insights for our understanding and study of accountability in a complex regulatory regime such as the EU context. The book follows a multi-disciplinary approach and is at the cutting edge of law and public administration.

[The Origins of the Modern World: A Global and Ecological Narrative from the Fifteenth to the Twenty-first Century,](#)

[Robert Marks](#) , 2007, 0742554198, 9780742554191. This clearly written and engrossing book presents a global narrative of the origins of the modern world from 1400 to the present. Unlike most studies, which assume that the "rise of the West" is the story of the coming of the modern world, this history, drawing upon new scholarship on Asia, Africa, and the New World, constructs a story in which those parts of the world play major roles. Robert B. Marks defines the modern world as one marked by industry, the nation state, interstate warfare, a large and growing gap between the wealthiest and poorest parts of the world, and an escape from "the biological old regime." He explains its origins by emphasizing contingencies (such as the conquest of the New World); the broad comparability of the most advanced regions in China, India, and Europe; the reasons why England was able to escape from common ecological constraints facing all of those regions by the 18th century; and a conjuncture of human and natural forces that solidified a gap between the

industrialized and non-industrialized parts of the world. Now in a new edition that brings the saga of the modern world to the present, the book considers how and why the United States emerged as a world power in the twentieth century and became the sole superpower by the twenty-first century. Once again arguing that the rise of the United States to global hegemon was contingent, not inevitable, Marks also points to the resurgence of Asia and the vastly changed relationship of humans to the environment that may, in the long run, overshadow any political and economic milestones of the past hundred years.

[Possible Fatal, Joanie Thurston, Wally Johnston](#) , 2004, 0961922036, 9780961922030. At the age of three, Joanie Thurston experienced a terrifying ordeal. With nobody to listen to her feelings, she buried them in her own private cemetery. For 49 years she did the same with many other traumas until 4:10 a.m. on May 13, 1997, when she fell asleep at the wheel, hit a light pole and died. Her body was crushed, her heart was torn and had to be sewn. Then it stopped for 20 minutes. She was told to return and tell others of her experiences, but she was blocked by her own fears. She had to dig up her lifetime of painful secrets. The process changed her completely.

[China, Xinjiang and Central Asia: History, Transition and Crossborder Interaction into the 21st Century, Colin Mackerras, Michael Clarke](#) , 2009, 0203881702, 9780203881705. Central Asia and Xinjiang the far north-western province of China are of increasing international importance. The United States, having established military bases in Central Asia after September 2001, has now become a force in what was previously predominantly a Russian sphere of influence; whilst China, Russia and Iran all continue to exert strong influence. These external, international influences have had a significant impact on local politics, with the overthrow of a long-standing regime in Kyrgyzstan, continued unrest and opposition to the current regime in Uzbekistan and the intensification of Chinese control in Xinjiang. This book explores the effect of global and local dynamics across the region: global influences include the War on Terror and international competition for energy resources; local dynamics include Islamic revival, Central Asian nationalism, drugs trafficking; economic development and integration. The authors argue that these multiple challenges, in fact, unite Xinjiang and Central Asia in a common struggle for identities and economic development. This book provides a comprehensive overview of the regions historical significance, the contemporary international forces which affect the region, and of current political, economic and cultural developments.

[Prealgebra and Introductory Algebra: An Applied Approach, Richard Aufmann, Joanne Lockwood](#) , 2010, 0840048084, 9780840048080. As in previous editions, the focus in PREALGEBRA & INTRODUCTORY ALGEBRA, remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. The role of active participant is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately work similar problems, helps them build their confidence and eventually master the concepts. To this point, simplicity plays a key factor in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully-constructed hierarchy of objectives. This objective-based approach not only serves the needs of students, in terms of helping them to clearly organize their thoughts around the content, but instructors as well, as they work to design syllabi, lesson plans, and other administrative documents. The Second Edition features a new design, enhancing the Aufmann Interactive Method and the organization of the text around objectives, making the pages easier for both students and instructors to follow. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Sleep Medicine, Michael S. Aldrich](#) , 1999, 0195129571, 9780195129571. This book offers a concise, methodological approach to the evaluation and treatment of patients with sleep disorders. The management of sleep disorders requires an understanding of sleep itself, thus the book initially discusses aspects of normal sleep. The remainder of the book provides a formula for critical assessment, in which the symptoms and signs and the psychological and medical background of the patient, in conjunction with an understanding of the neurobiological and psychological basis of sleep disorders, are considered. Polysomnographic studies and other laboratory tests supplement and redefine clinical information and assist physicians in their treatment options.

[Letters, Sounds, and Rhymes: Humpty Dumpty, Clive Webster](#) , 1999, 0199155828, 9780199155828. The Oxford Literacy Web is an exciting new literacy programme designed to guide schools successfully through the primary years. Fitting the requirements of the National Literacy Strategy, National Curriculum in England and Wales, English Language 5-14 in Scotland, and Common Curriculum in Northern Ireland, the Oxford Literacy Web guides pupils through the core skills associated with learning to read and write with a diverse range of literary styles within the genres of fiction, non-fiction, rhymes, language, and poetry. The "Letters, Sounds, and Rhymes" strand is a unique programme, developing phonological awareness and phonics knowledge throughout the infant years. The Nursery Rhyme Books are six little books with one modern or traditional nursery rhyme per book. The books focus on developing children's ability to hear the sounds in words, particularly initial sounds and rhymes.

[Poe: A Life Cut Short, Peter Ackroyd](#) , 2009, 0099287676, 9780099287674. Edgar Allan Poe served as a soldier and began his literary career composing verses modelled on Byron; soon he was trying out his 'prose-tales' - often horror melodramas such as The Fall of the House of Usher. As editor of the Literary Messenger he was influential among critics and writers of the American South. His versatile writings - including, for example, The Murders in the Rue Morgue and The Raven - continue to resonate down the centuries. Peter Ackroyd's biography of Poe opens with his end, his final days - no one knows what happened between the time when friends saw him off on the steam-boat to Baltimore and his discovery six days later dying in a tavern. This mystery sets the scene for a short life packed with drama and tragedy (drink and poverty) combined with extraordinary brilliance. Poe has been claimed as the forerunner of modern fantasy, and credited with the invention of psychological dramas (long before Freud), science fiction (before H.G. Wells and Jules Verne) and the detective story (before Arthur Conan Doyle). Tennyson described him as 'the most original genius that America has produced'. He influenced European romanticism and was the harbinger of both Symbolism and Surrealism. Peter Ackroyd, who places significance on Poe's childhood (his travelling actor parents were miserably poor, his mother had TB and he was orphaned), claims that Poe found his family among writers - writers not only of his time but of the future generations who were influenced by the power of his imagination.

[The Great American House: Tradition for the Way We Live Now, Gil Schafer](#) , 2012, 0847838722, 9780847838721.

Acclaimed architect Gil Schafer illustrates how he blends classical architecture, interior decoration, and landscape to create homes with a feeling of history. As a traditional architect, Gil Schafer specializes in building new "old" houses as well as renovating historic homes. His work takes the best of American historic and classical architecture its detailed moldings and harmonious proportions and updates it, retaining its character and detail while simultaneously reworking it to be more in tune with the way we live now comfortable, practical, family-oriented. In his first book, Schafer covers the three essential cornerstones of creating a great traditional house: architecture, landscape, and decoration. He discusses the important interplay between the interior architecture and the fabrics, furniture, and wall treatments. In-depth profiles build on these essays, including Schafers own new "old" house in the Hudson Valley; the renovation of a historic home in Nashville designed by Charles Platt in 1915; and the restoration of a magnificent 1843 Greek Revival mansion in Charleston. Filled with hundreds of interior and detail shots, The Great American House is an invaluable resource for anyone who loves old houses and traditional design.

[A7V Mephisto: A Queensland Museum Pocket Guide, Gregory Czechura, Jeffrey Ellis Hopkins-Weise](#) , 2008, 0980569206, 9780980569209. [Practical Approaches to Teaching Shakespeare, Peter Reynolds](#) , 1992, . This exclusive collection of the Bard's works has been designed specifically for readers new to Shakespeare's rich literary legacy. Each of the plays is presented unabridged and in large print, copiously annotated and preceded by a character summary and commentary. Brief scene

synopses clarify confusing plots, while incisive essays describe the historical context and Shakespeare's sources. The explanatory notes are written clearly and simply, illustrated, and positioned right next to the text -- no more flipping pages back and forth to squint over microscopic footnotes! Topics for further discussion, critical comments, related essays, and a chronology of Shakespeare's life and work are included among the appendices to each volume. The books boast fine black-and-white photographs of stagings of the plays at Shakespeare Festivals around the globe. From the wide margins and big print to the extent of explanatory notes -- the full text of each play is presented in the clearest and most accessible format available.

[International Cooperation at a Crossroads: Aid, Trade and Security in an Unequal World,](#) , 2005, 0195305116, 9780195305111. Five years after signing the Millennium Declaration, and at the start of the 10-year countdown to the 2015 target date for the Millennium Development Goals, the world's governments are at a crossroads. If they continue with business as usual, 2005 will be the year in which the pledge of the Millennium Declaration is broken. If they act now to deliver on their pledges to the world's poorest people, they can make 2005 the start of a decade for development, helping countries to get back on track for achieving the Millennium Development Goals by 2015 and forging a new, more equitable pattern of globalization. This year's Human Development Report takes stock of human development, including progress towards the MDGs. Looking beyond statistics, it highlights the human costs of missed targets and broken promises. Extreme inequality between countries and within countries is identified as one of the main barriers to human development--and as a powerful brake on accelerated progress towards the MDGs. New approaches to international cooperation are vital if the promise of the Millennium Declaration is to be realized. Practical action is needed to make the next 10 years a "decade for development". Focusing on aid, trade and security--three of the central pillars of international cooperation-- Human Development Report 2005 sets out a bold analysis of the problems and identifies solutions. It argues that rich countries need to move beyond encouraging words to align their policies with the commitments made in the Millennium Declaration.

[The 5-Factor World Diet, Harley Pasternak](#) , 2009, 0143176544, 9780143176541. Following on the heels of his hugely popular blockbuster, The 5-Factor Diet, celebrity trainer and nutritionist Harley Pasternak has searched the world to add a little variety and spice to your weight loss plan. The 5-Factor World Diet takes the 5-Factor principle five meals a day, five core ingredients, five-minute prep time and incorporates the best foods and nutritional habits from ten of the world's healthiest countries. While jetting to exotic locales with some of Hollywood's biggest stars as their personal health and fitness expert, Pasternak has sampled local cuisine from many corners of the world. Consequently he has made a fascinating discovery: the farther he journeyed from the United States, the easier it was to seek out foods that were both nourishing and slimming. Now he reveals the international diet secrets of the world's healthiest people, including the self-control technique used by the Japanese that prevents them from overeating, the trick to combating heart disease in France (it's not just the wine), the reason Swedes stay slim and trim year round and have among the highest average life expectancies (80.74 years), the key to Singapore's low obesity rate (less than 2%), an explanation why notorious food-loving Italians are among the healthiest people in the world. Pasternak also shares helpful advice about ordering in restaurants, as well as pantry-stocking and cooking tips. With suggested menus and more than 120 delicious recipes from Japanese Chicken Yakatori and French Ratatouille to Chapchae Korean Stirfry and Oven Baked Swedish Meatballs, The 5-Factor World Diet will keep you healthy, fit, and looking your absolute best.

[History of Madagascar, Mervyn Brown](#) , 2000, 0950628468, 9780950628462. Madagascar is the fourth largest island in the world. It is a unique blend of Asia and African culture. Although close to the East Coast of Africa, Madagascar came to be inhabited by sea-faring peoples from present day Indonesia. Although so close to the east coast of Africa where traces of human existence go back hundreds of thousands years, Madagascar was uninhabited until about two thousand years ago. How it came to be inhabited by sea-faring peoples from present day Indonesia is just one of the many fascinating aspects of this book. The History of Madagascar examines the origins of Malagasy, the early context with Europeans and the struggle for influence in the nineteenth century between the British and the French. It also covers the

Colonial period from 1896 to 1960, the recovery of independence and subsequent history up to the early 1990's. A highly readable, entertaining introduction to the history, politics and people of Madagascar.

[Business Objectives Pairwork, Volume 5, John Bradley, Simon Clarke](#) , 1997, 0194513963, 9780194513968. Business Objectives Pairwork is a lower-intermediate speaking activity book to accompany the New Edition of Business Objectives by Vicki Hollett. It can be used in the classroom, for one-to-one teaching, and for teaching by telephone. Business Objectives Pairwork follows the syllabus of the New Edition of Business Objectives. It is divided into fifteen units, each unit containing five or six speaking activities. The material is designed to enable further practice of spoken communication skills, through a varied range of activities that reinforce the topics and language taught in the main course. At the same time, Business Objectives Pairwork is versatile and can be used independently of Business Objectives to supplement other coursebooks and teaching materials at a pre-intermediate level. The book is easy to use and the contents page gives a brief description of the language and structures needed to complete each activity. As with the

Student's Book, crossreferenced Information Files at the back provide extra information where necessary. A Student's Book, an audio cassette, a Teacher's Book, a Workbook, the Meeting Objectives video, and this Pairwork Activity Book, complete the package of materials available for the New Edition of Business Objectives.
