[A Clenched Fist: The Making of a Golden Gloves Champion, Peter Weston Wood](#) , 2007, 0978968301, 9780978968304.

GRABBING A GOLDEN DREAM WITH GOLDEN GLOVES Does boxing teach anything besides how to club someone into submission? Can it transcend its sordid reputation and instill love, compassion and honor in Americas most troubled kids? In this raw yet uplifting memoir about amateur boxing, author Peter Wood tells of his begrudging return to a world he thought hed left behind. He steps back into the mud of boxing, coaching two troubled teens who dreamas he once didof becoming Golden Gloves champions.His compelling story moves far beyond the grunt and sweat of the local gym. It explores the classrooms of a suburban high school and digs through the remains of unhappy childhoods. Its a story about how boxing is a way out, and how it cleanses the soul.This book brings the subculture of amateur boxing up close and weaves a powerful story of redemption, beating demons and battling for glory.

[Edible Seashore: River Cottage Handbook, John Wright](#) , 2009, 0747595313, 9780747595311. For the forager, the seashore holds surprising culinary potential. In this authoritative, witty book John Wright takes us on a trip to the seaside. But before introducing us to the various species to be harvested, he touches on such practicalities as conservation and the ethics of foraging; safety from tides, rocks and food poisoning; the law and access to the shore, our right to fish, landing sizes and seasons; and equipment such as nets, pots and hooks. Next comes the nitty-gritty: all the main British seashore species that one might be tempted to eat. The conservation status, taste and texture, availability, seasonality, habitat, collecting technique and biology of each species is covered; there are also quite a few gratuitous but fascinating diversions. The species covered include crustacea (brown shrimp, common crab, lobster, prawn, shore crab,

spider crab, squat lobster, velvet swimming crab); molluscs (clams, cockle, dog whelk, limpet, mussel, oyster, razor clam, winkle); mushrooms; plants (alexanders, babbingtons orache, fennel, frosted orache, marsh samphire, perennial wall rocket, rock samphire, sea beet, sea buckthorn, sea holly, sea kale, sea purslane, sea rocket, spear-leaved orache, wild cabbage, wild thyme); and seaweed (carragheen, dulse, gut weed, laver, pepper dulse, sea lettuce, sugar kelp, kelp). Finally, there are thirty brilliant recipes. Introduced by Hugh Fearnley-Whittingstall, *Edible Seashore* is destined to join the other handbooks in the series as an indispensable household reference.

"Who Said Peaches Were Perfect?" is a novel based upon the lives of two young women; Torie, a sexy, confident, and independent massage therapist, and Lisa, a college student unaware of her beauty and all she has to offer. Both women are entangled in a struggle to figure out what life and love are truly about. Emotions suppressed from their childhoods, formative habits that have left asking emotional scars, and heavy baggage make it difficult for both women to know when to let go, and when to hold on to relationships. As you travel along their journey in the tantalizing read, you share the moments when each woman must find untapped strength from within, in order to move forward and put the past in its place.

[The Structured Self in Hellenistic and Roman Thought, Christopher Gill](#) , 2006, 019815268X, 9780198152682.

Christopher Gill offers a new analysis of what is innovative in Hellenistic - especially Stoic and Epicurean - philosophical thinking about selfhood and personality. His wide-ranging discussion of Stoic and Epicurean ideas is illustrated by a more detailed examination of the Stoic theory of the passions and a new account of the history of this theory. His study also tackles issues about the historical study of selfhood and the relationship between philosophy and literature, especially the presentation of the collapse of character in Plutarch's Lives, Senecan tragedy, and Virgil's Aeneid. As all Greek and Latin is translated, this book presents original ideas about ancient concepts of personality to a wide range of readers.

[Neither Black nor White: the saga of an American family, Joseph E. Holloway](#) , 2003, . Neither Black nor White: The Saga of An American Family is a historical novel, which traces the history of the Hadnot family from Gloucester, England in 1585 to New Orleans with the birth of Lucille Catherine (Celia) Hughes Hadnot the matriarch of six families. It is the true story of a Black family, who were never enslaved, but owners of slaves; a tale of a people who regarded themselves as "neither black nor white." It is a story of family -- one black and the other white, both related by a common ancestor named John Hadnot. This novel by Joseph E. Holloway is compelling reading, which explores black culture, history, Jim Crow as well as issues of colorism. Book jacket.

[Literatures of Latin America: From Antiquity to the Present, Willis Barnstone](#) , 1999, 0130613606, 9780130613608. This extraordinary anthology gathers together a broad selection of representative, authoritative writings spanning antiquity to the present from the non-Western civilizations of Latin America. It combines extensive introductions, headnotes, and bibliographies with excellent literary translations of the best contemporary and classical writers. The selections reflect literary, religious, and philosophical traditions and reveal despite cultural differences the universality of life experiences. Primary literary genres (poetry, fiction and drama) as well as key religious, philosophical, historical, aesthetic, biographical and political texts are covered. For readers of Latin American, World, and Non-Western Literature.

[Disorderly Discourse: Narrative, Conflict, & Inequality, Charles L. Briggs](#) , 1996, 0195087771, 9780195087772. Conflict plays a crucial role in social interactions, and representations of conflict are an important aspect of language. Stories and narratives involving everything from war to playground disputes generate, sustain, mediate, and represent conflict at all levels of social organization. Still, despite the vast amount of research on conflict and narrative in a number of disciplines, no one has yet examined how these play off of each other; in fact, most studies treat narrative merely as a source of information about conflict rather than as a part of conflict's process. The contributors to this collection argue that language consists of socially and politically situated practices that are differentially distributed on the basis of gender, class, race, ethnicity, and other categories. Each of them, writing from the perspective of their own disciplines, challenges previous assumptions about narrative and social conflict as they interpret a range of disputes that emerge in a variety of settings. Taken in total, these essays substantially further our theoretical and methodological understanding of narrative and conflict and how they intersect.

[Star Wars Stand Alone 7 Series, Issue 5, Troy Denning](#) , 2014, 0099542935, 9780099542933. The stunning follow-up to Fate of the Jedi! Han Solo, Luke Skywalker, and Princess Leia have spent a lifetime fighting wars, bringing the Jedi back from extinction, raising families, and saving the galaxy more times than they can count. They've earned the right to rest on their laurels and let the younger generation shoulder the burden--but fate has another adventure in store for our heroes, a quest only they can tackle and hope to survive...

[Unimaginable Atrocities: Justice, Politics, and Rights at the War Crimes Tribunals, William Schabas](#) , 2012, 0191612227, 9780191612220. As international criminal courts and tribunals have proliferated and international criminal law is increasingly seen as a key tool for bringing the world's worst perpetrators to account, the controversies surrounding the international trials of war criminals have grown. War crimes tribunals have to deal with accusations of victor's justice, bad prosecutorial policy and case management, and of jeopardizing fragile peace in post-conflict situations. In this exceptional book, one of the leading writers in the field of international criminal law explores these controversial issues in a manner that is accessible both to lawyers and to general readers. Professor William Schabas begins by considering the discipline of international criminal law, outlining the differing approaches to the description of international crimes and examining the frequent claims relating to the retroactive application of these crimes. The book then discusses the relationship between genocide and crimes against humanity, studying the fascination with what Schabas calls the 'genocide mystique'. International criminal tribunals have often been stigmatized as an exercise in victor's justice. This book traces how this critique developed and the difficulty it poses to the identification of situations for prosecution by the International Criminal Court. The claim that amnesty for international crimes is prohibited by international law is challenged, with a more nuanced approach to the relationship between justice and peace being proposed. Throughout the book there is a strong historical perspective, with constant reference to the early experiments in international justice

at Nuremberg and Tokyo. The work also analyses the growing pains of the International Criminal Court as it enters its second decade.

[Hunting Ground, Patricia Briggs](#) , 2009, 1101133481, 9781101133484. Anne Latham didn't know how complicated life could be until she became a werewolf. And until she was mated to Charles Cornick, the son--and enforcer--of Bran, the leader of the North American werewolves, she didn't know how dangerous it could be either... Anna and Charles have just been enlisted to attend a summit to present Bran's controversial proposition: that the wolves should finally reveal themselves to humans. But the most feared Alpha in Europe is dead set against the plan--and it seems like someone else might be, too. When Anna is attacked by vampires using pack magic, the kind of power only werewolves should be able to draw on, Charles and Anna must combine their talents to hunt down whoever is behind it all--or risk losing everything...

[Everyman, Philip Roth](#) , 2006, 0547344945, 9780547344942. Philip Roth's new novel is a candidly intimate yet universal story of loss, regret, and stoicism. The best-selling author of *The Plot Against America* now turns his attention from "one family's harrowing encounter with history" (New York Times) to one man's lifelong skirmish with mortality. The fate of Roth's everyman is traced from his first shocking confrontation with death on the idyllic beaches of his childhood summers, through the family trials and professional achievements of his vigorous adulthood, and into his old age, when he is redden by observing the deterioration of his contemporaries and stalked by his own physical woes. A successful commercial artist with a New York ad agency, he is the father of two sons from a first marriage who despise him and a daughter from a second marriage who adores him. He is the beloved brother of a good man whose physical well-being comes to arouse his bitter envy, and he is the lonely ex-husband of three very different women with whom he's made a mess of marriage. In the end he is a man who has become what he does not want to be. The terrain of this powerful novel -- Roth's twenty-seventh book and the fifth to be published in the twenty-first century -- is the human body. Its subject is the common experience that terrifies us all. *Everyman* takes its title from an anonymous fifteenth-century allegorical play, a classic of early English drama, whose theme is the summoning of the living to death.

[The Hours After: Letters of Love and Longing in War's Aftermath, Gerda Weissmann Klein, Kurt Klein](#) , 2001, 0312263384, 9780312263386. Over fifty years ago, Gerda Weissmann clung to life and the end of a 350-mile death march that took her from a slave labor camp in Germany to the Czech border. On May 7, 1945, the American military

stormed the area, and among the first soldiers to approach Gerda was Kurt Klein. A great love had begun. By September they were engaged. Forced to separated just weeks after liberation and hours after their engagement, Gerda and Kurt began a correspondence that lasted until their reunion and wedding in Paris a year later. Their poignant letters reflect upon the horrors of war and genocide, but above all, upon the rapture and salvation of true love.

Let author Carmen Torbus inspire you to new creative highs in this collection of hands-on techniques and heartfelt stories from 16 artists who have worked through their own artistic struggles and stalls to emerge triumphant, with looks uniquely their own. Whether art is new to you, or you have been at it awhile and are having trouble discovering your own style, this encouraging book will guide you to experiment with different mediums, techniques and possibilities to make a mark that is exclusively yours. Inside you'll find: 17 of the artists' favorite mixed-media techniques shown step by step, with suggestions for how to make them your own Beautiful finished art illustrating how individual artists use and combine these techniques in their own work Easy worksheets to help reveal your artistic skills, strengths and preferences A quick-start guide to various mediums, mark makers and creative paraphernalia Lots of tips and advice for putting yourself into your art Embrace who you are and find out what defines you as an artist. Make your art far from ordinary - become the artist UNIQUE!

[Amabal'engwe: ngobukhokeli neklasi, Ernest N. Baartman, Otto S. Mbangula, Vuyani Gladstone Nyobole, Methodist Church of Southern Africa. Christian Education and Youth Department](#) , 1988, 0947450041, 9780947450045.

[You'll Never Nanny in This Town Again: The True Adventures of a Hollywood Nanny, Suzanne Hansen](#) , 2006,

0307237680, 9780307237682. New and completely updated edition. Hilarious and addictive, this chronicle of a small-town girl's stint as a celebrity nanny reveals what really happens in the diaper trenches of Hollywood. When Oregon native Suzanne Hansen becomes a live-in nanny to the children of Hollywood agent Michael Ovitz, she thinks she's found the job of her dreams. But Hansen's behind-the-scenes access soon gets her much more than she bargained for: working twenty-four hours a day, juggling the shifting demands of the Hollywood elite, and struggling to comprehend wealth unimaginable to most Americans, not to mention dealing with the expected tantrums and the unexpected tense and intense atmosphere in the house where she lives with her employers. When the thankless drudgery takes its toll and Hansen finally quits, her boss threatens to blackball her from ever nannying in Hollywood again. Discouraged but determined, Hansen manages to land gigs with Debra Winger and then Danny DeVito and Rhea Perlman. Attentive, welcoming parents with a relaxed attitude toward celebrities look like Hansen's fallen into a real-life happy ending. But the round-the-clock workdays continue, rubbing some of the glitter off L.A. living, and Hansen is not sure how much longer she can pretend to be Mary Poppins. Even bosses who treat her like family can't help as she struggles to find meaning in her work while living in a town that seems to lack respect for nannies and everyone else who comes in the employees' entrance but without whom many showbiz households would grind to a halt. Peppering her own journey with true stories and high drama experienced by other nannies to the stars, Hansen offers an intriguing, entertaining mix of tales from the cribs of the rich and famous. *You'll Never Nanny in This Town Again* is a treat for everyone who is fascinated by the skewed priorities of Tinseltown, for anyone who has wondered how high-wattage supermoms do it all, and for readers who love peeking behind the curtains of celebrity, all of whom will devour this unparalleled and unabashedly true account of one girl's tour of duty as Hollywood's hired help. From the Hardcover edition.

Bomb threats, anthrax scares, and the fear of nuclear warfare. Gas masks, duct tape and big bottles of water fly off the shelves: today no one feels secure. And that doesn't even take into account "ordinary" emergencies. With this authoritative field guide on hand, you'll have all the information you need to survive a variety of disasters. Originally commissioned by the Department of the Army to train its special forces in all-weather, all-terrain survival tactics, the

manual describes situations and illustrates solutions that could mean the difference between life and death. Find out how to make polluted water potable, improvise containers for boiling food, build shelter, treat illness and injuries, find direction using the sun and stars, foretell the weather from the clouds, and more. Full-color photographs and detailed information help you identify poisonous snakes, as well as edible and non-edible plants. Special guidance is given on surviving in the desert, the tropics, the Arctic, and at sea. A must for campers, hikers, explorers, pilots, and anyone who wants to know how to survive in primitive conditions. Survival Kit Basics Specific survival kit items vary with environments, but all should contain in a durable water repellent case: First aid items Signaling items Water and/or means to obtain potable water Fire-starting items Food and/or items to help you obtain food Shelter items

[Culture and Global Change, Tim Allen, Tracey Skelton](#) , 2013, 1134771584, 9781134771585. Culture and Global Change presents a comprehensive introduction to the cultural aspects of third world development. It contains 25 chapters from leading writers in the field who each explore a particular aspect of 'culture' and the significance and meaning of cultural issues for different people in throughout the contemporary world. With chapters dealing with the importance of 'Third World' cultures but also with changes in Russia, Japan, the USA and the UK, this book considers the relationship between culture and development within a truly global context.

Who better to give it than thoes who know you best? Instead of listening to it, have them write it down. Remember...Advice at your leisure is a wonderful thing!

[The Beast of Boggy Creek: The True Story of the Fouke Monster, Lyle Blackburn](#) , 2012, 1933665572, 9781933665573. For more than a century, reports of a strange beast known as the Fouke Monster have circulated among the locals in southern Arkansas. Described as a large, hairy man-like creature, it's said to haunt the vast Sulphur River Bottoms as it travels the secluded waterway known as Boggy Creek. Over the years, the creature has been seen by numerous witnesses including respected citizens, experienced hunters, famous musicians, and even a police officer. The encounters were often so shocking, they served as inspiration for the classic horror film, "The Legend of Boggy Creek," by Charles B. Pierce. Tales of the creature have long existed in scattered pieces across news clippings, memoirs, police reports, and movies, but it is only now that the complete history of the Fouke Monster has been assembled in one place. This book collects all the facts, theories, and amazing sighting reports, and weaves them into a fascinating tale about this

undeniable southern mystery, one that lives on, as frightening encounters with the Beast of Boggy Creek are still being reported today! Growing up in Texas, Lyle Blackburn became fascinated with the legends, lore, and sighting reports of alleged real-life monsters. He is a frequent contributor and cryptozoology advisor to Rue Morgue magazine, one of the leading horror media publications in print today. He is also the founder and frontman for the rock band Ghoultown. Over the last decade, Ghoultown has released six albums, toured extensively in both the U.S. and Europe, and has appeared on several horror movie soundtracks. Lyle currently lives near Dallas, Texas, where he enjoys a day off now and then.

[Franklin Plays Hockey, Paulette Bourgeois, Brenda Clark](#) , 2002, 0439338808, 9780439338806. Franklin discovers there's more than one way to be a winner. Franklin invites neophyte player Skunk to join his side in a neighborhood hockey game, but he soon regrets it. Skunk can't skate fast, or pass the puck, or shoot on net. Because of Skunk, Franklin's team loses the game--an unacceptable result for Franklin, who is used to winning. He is about to let the dejected Skunk walk away from the team when he recalls that it was only through practice that he became a good player himself. The next day, Franklin gives Skunk another chance and learns that there is more than one way to feel like a winner.

[Migration, Citizenship, and the European Welfare State: A European Dilemma, Carl-Ulrik Schierup](#) , 2006, 0198280521, 9780198280521. This book provides a major new examination of the current dilemmas of liberal anti-racist policies in European societies, linking two discourses that are normally quite separate in social science: immigration and ethnic relations research on the one hand, and the political economy of the welfare state on the other. The authors rephrase Gunnar Myrdal's questions in *An American Dilemma* with reference to Europe's current dual crisis - that of the established welfare state facing a declining capacity to maintain equity, and that of the nation state unable to accommodate incremental ethnic diversity. They compare developments across the European Union with the contemporary US experience of poverty, race, and class. They highlight the major moral-political dilemma emerging across the EU out of the discord between declared ideals of citizenship and actual exclusion from civil, political, and social rights. Pursuing this overall European predicament, the authors provide a critical scrutiny of the EU's growing policy involvement in the fields of international migration, integration, discrimination, and racism. They relate current policy issues to overall processes of economic integration and efforts to develop a European 'social dimension'. Drawing on case-study analysis of migration, the changing welfare state, and labour markets in the UK, Germany, Italy, and Sweden, the book charts the immense variety of Europe's social and political landscape. Trends of divergence and convergence between single countries are related to the European Union's emerging policies for diversity and social inclusion. It is, among other things, the plurality of national histories and contemporary trajectories that makes the European Union's predicament of migration, welfare, and citizenship different from the American experience. These reasons also account in part for why it is exceedingly difficult to advance concerted and consistent approaches to one of the most pressing policy issues of our time. Very few of the existing sociological texts which compare different European societies on specific topics are accessible to a broad

range of scholars and students. The European Societies series will help to fill this gap in the literature, and attempt to answer questions such as: Is there really such a thing as a 'European model' of society? Do the economic and political integration processes of the European Union also imply convergence in more general aspects of social life, such a family or religious behaviour? What do the societies of Western Europe have in common with those further to the East? This series will cover the main social institutions, although not every author will cover the full range of European countries. As well as surveying existing knowledge in a manner useful to students, each book will also seek to contribute to our growing knowledge of what remains in many respects a sociologically unknown continent. The series editor is Colin Crouch.

[Sexy Hormones: Unlocking the Secrets to Vibrant Sexual Health, Lorna R. Vanderhaeghe, Alvin Pettle](#) , 2009, 1591202612, 9781591202615. [Lost White Tribes: The End of Privilege and the Last Colonials in Sri Lanka, Jamaica, Brazil, Haiti, Namibia, and Guadeloupe, Riccardo Orizio](#) , 2000, 0743211979, 9780743211970. Over 300 hundred years ago, the first European colonists landed in Africa, Asia and the Caribbean to found permanent outposts of the great empires. This epic migration continued until after World War II, when some of these tropical colonies became independent black nations and the white colonials were forced -- or chose -- to return to the mother country. Among the descendants of the colonizing powers, however, were some who had become outcasts in the poorest strata of society and, unable to afford the long journey home, were left behind, ignored by both the former oppressed indigenous population and the modern privileged white immigrants. At the dawn of the twenty-first century these lost white tribes still hold out, tucked away in remote valleys and hills or in the midst of burgeoning metropolises, living in poverty while tending the myths of their colonial ancestors. Forced to marry within their own group if they hope to retain their fair-skinned "purity," they are torn between the memory of past privilege and the extraordinary pressure to integrate. All are decreasing in number; some are on the verge of extinction and fighting to survive in countries that ostracize them because of the color of their skin and the

traditions they represent. Though resident for generations, these people are permanently out of place, an awkward and embarrassing reminder of things past in newly redefined countries that are eager to forget both them and their historical homelands. In the remote interior and in bustling Sao Paulo, the "Confederados" of Brazil linger on, the descendants of Confederate families that fled the American South to rebuild their society here rather than face victorious Yankees. Wrenchingly poor then and now, these would-be genteel planters cling to their romanticized memory of a proud antebellum past. In Sri Lanka, once Ceylon, the children of Dutch Burghers haunt their crumbling mansions, putting on airs and keeping up appearances. In the steaming jungle of Guadeloupe, the inbred and deformed Matignons Blancs scrape out an existence while claiming the blood of French kings in their veins. On the beaches of Jamaica, a young man with incongruously blond dreadlocks -- the destitute descendant of a shoemaker from the Duchy of Saxony who became an indentured servant to earn passage from Germany to the new world -- still gazes out at the Caribbean over a century and half later. The Poles of Haiti are descended from troops lured over by Napoleon to quell slave rebellions. His promise of independence for their homeland went unfulfilled; they persist in hidden valleys in the island's interior. In the desert expanses of Southwest Africa, the famously devout Basters, the green-eyed, mixed-race Afrikaners, still doggedly pursue vast territorial claims as the continent's new power brokers sweep them aside. These are the lost white tribes. More than an entree into a world we are unfamiliar with, this amazing chronicle opens up a world that we did not even know existed. In his masterful report, Riccardo Orizio has written the final chapter in the history of the postcolonial world, and in him these forgotten peoples have found their unique historian.

[I Can See You But You Can't See Me, Brian Hirst](#) , 2012, 0956836313, 9780956836311. In this second memoir Brian Hirst tells the story of his own inner and outer lives, from his first memories of the early-1950s to the September day in 1965 when he left his home town, Batley, to begin teacher-training. Brian pulls no punches in exploring his inner self at this time of his life. He takes us through the painful path he trod toward articulating his homosexuality at the age of 17 and describes, from inside, his growing awareness of his socio-economic class. He candidly shows us how his sexuality and class often became conflated, in his own mind, into a general sense of inner shame about himself and his family background, and how he escaped that deep sense of shame, first through fantasies, and then through calculated lies. Brian describes his outer life and self through a series of remembered days and events, and develops and deepens his portrait of life in a working class community in the former Heavy Woollen District of Yorkshire during the 1950s and 1960s. He explores some of the myths about the period of English history in which his book is set which are accepted as agreed facts now. And he looks at how we might learn more about ourselves and our society through looking clearly at our recent past. Brian hopes to complete his third and final memoir by 2013.

[Accounting Information Systems, James Hall](#) , 2010, 1439078572, 9781439078570. The seventh edition of ACCOUNTING

INFORMATION SYSTEMS provides thorough and up-to-date coverage of accounting information systems and related technologies. It features an early presentation of transaction cycles, as well as an emphasis on ethics, fraud, and the modern manufacturing environment. The book focuses on the needs and responsibilities of accountants as end users of systems, systems designers, and auditors. This edition provides complete integrated coverage of Sarbanes-Oxley as it affects internal controls and other relevant topics affected by this legislation, as well as reorganized discussion of transaction cycles that make the balance between manual- and computer-based systems more apparent. [Working with Children from Culturally Diverse Backgrounds, M. Diane Klein, Deborah Chen](#) , 2001, 0766824063, 9780766824065. This exciting book offers an overview of the ways in which cultural differences influence young children's behavior, communication, and learning styles. It is a practical guide for early childhood professionals working in such settings as group child care, preschools, and Head Start programs. The book considers the major developmental domains of language and communication, social skills, and school readiness and emergent literacy. In addition, it provides examples of curriculum and instructional adaptations that can be used to accommodate children from diverse backgrounds.

[An Ounce of Prevention: How to Know When Your Children Will Outg, Dr. Lawrence E. Shapiro, PhD](#) , 2010, 0062029541, 9780062029546. Most parents understand the importance of prevention when it comes to the physical health and safety of their children. But what many parents don't realize is that it is also possible to use preventive measures for emotional and behavioral problems. As child psychologist Dr. Lawrence E. Shapiro explains in this provocative new book, parents tend to start paying attention only after actual symptoms begin to develop. Yet many problems can be addressed long before symptoms appear-if parents know just what to look for. Preventing emotional problems is much easier than treating them after they have already become disruptive to a child's life. In An Ounce of Prevention, Dr. Shapiro presents a variety of imaginative, highly successful strategies for handling the pivotal moments in every child's emotional development, from the infant and toddler years through the grad school and teenage years. He helps you understand whether your child is at risk for specific problems and what you can do to reduce the risk. Dr. Shapiro offers advice for parents on such subjects as depression, underachievement, shyness, eating disorders, fallout from divorce, ADHD, and much more. Some of the suggestions will seem like common sense. Teaching your child good eating habits from a very young age will prevent eating disorders in adolescence. Helping a shy child make a phone call to a new friend will prevent social alienation in the teen years. But other recommendations may be surprising. Fearful babies should not be coddled if they outgrow their hypersensitivity. Toddlers should not be overly praised if you want them to as strive for success later in childhood. Parents should become more involved in their teenagers' education even when their teens are pulling away. Filled with wonderful examples and lots of concrete advice, this book presents all the skills you need to help your child become more resilient when confronted with many problems that face today's children and teens. Provide "an ounce of prevention" every day. It will make a difference in your child's happiness-and yours.

Based on the author's 40 years of research and field experience, the 4th edition covers the history, economy and regions of the country.

[Employees and the Community: How Successful Companies Meet Human Resource Needs Through Community Involvement, Michael Tuffrey, Prima Europe](#) , 1995, .

[The India House, William Palmer](#) , 2006, 0099469618, 9780099469612. The locals call it 'The India House'. But they have little to do with the three women who live there: grandmother, mother and daughter. Upstairs, old Mrs Covington dreams of India and the days of the Raj. Her widowed daughter Evelyn watches obsessively over eighteen-year-old Julia. She has decided that the girl is to be kept in a state of 'innocence'. The tutor, Mr Henry, is allowed to teach only a bizarre mixture of mythology, history, the Romantic Poets, arithmetic, French, and the perils of socialism. His second duty is to fillet the news in the Times each day and report a sanitised version to the family. As little as possible of the modern world must intrude... But it is 1956. India has been lost for a decade; the rest of the Empire is just about holding together. Britain is about to face the great misadventure of Suez. Mrs Covington may try to avoid the modern world, but she cannot prevent the arrival of two men, her son Roland, and her eighteen-year-old grandson, James. The fragile paradise the women have constructed is about to be changed forever. In this blackly comic novel the past is richly evoked, but its message of colonial ambition and disaster and of love and corruption are both moving and timely.

[General Household Survey 1991: An Inter-departmental Survey Carried Out by OPCS Between April 1991 and March 1992, A. Bridgwood, D. Savage](#) , 1993, 0116915331, 9780116915337.

[The Boy I Love, Marion Husband](#) , 2012, 1908262729, 9781908262721. The story is set in the aftermath of World War One. Paul Harris, still frail after shellshock, returns to his fathers home and to the arms of his secret lover, Adam. He discovers that Margot, the fiance of his dead brother, is pregnant and marries her through a sense of loyalty. Though Adam he finds work as a schoolteacher; while setting up a home with Margot he continues to see Adam. Pat Morgan who was a sergeant in Pauls platoon, runs a butchers shop in town and cares for his twin brother, Mick who lost both legs in the war. Pat yearns for the closeness he experienced with Paul in the trenches. Set in a time when homosexuality was the love that dare not speak its name the story develops against the backdrop of the strict moral code of the period. Paul has to decide where his loyalty and his heart lies as all the characters search hungrily for the love and security denied them during the war. Superbly written with engaging characters that are simultaneously strong and weak, compassionate and flawed. The book is a controversial but compulsive read and readers will find their sympathies tugged in unusual directions as they engage with the lives of the characters. The Boy I Love is the first of a two book series in the second

book, based in World War 2 we following the life of Mick, now a war poet, his son and Robbie, son of Paul and Margot.

[History Writ Small: Exploring Its Nooks & Crannies by Barge, Boat, and Balloon, Priscilla L. Buckley](#) , 2009, 097589983X, 9780975899830. As Jay Nordlinger writes in his foreword to History Writ Small: Exploring Its Nooks and Crannies by Barge, Boat, and Balloon, "Priscilla Buckley writes who she is. That is, her writing is graceful, lovely, intelligent, learned, amusing, assured, civilized--you get the picture. " Here's just a taste of the kind of beautiful writing you will find in this charming new book: Michel calls to the crowd that has gathered. "Alors! We need your help!" And soon, a dozen or more people are pulling on the ropes. And they bring us to a halt three feet from the barbed wire fence that marks the end of the field. The four Atkinsons get out at Michel's order, but Jane and I remain aboard as ballast. A blast from the burner, and we lift a bit, away from the dangerous fence. Another two blasts, and we are safe. The balloon pulls the basket over--a layover, they call it--and Jane and I, flat on our backs for a moment, find slithering out on the whole easier than climbing out, if less dignified. Michel kisses the ladies on both cheeks, *comme ci*, right cheek, *comme a*, left cheek, and shakes Jack's and young Greg's hands. We've covered an estimated 25 kilometers in just over two hours--Sant! everyone. And so the flights go, each different. We might have Buddy playing games--brushing through the treetops, putting down on the still waters of a lake or pond--or Michel swooping low over a village and calling out to a family having its summer dinner in the garden: "Bon appetit!" or, "La belle brune!" in salute to the handsome mother of the family. Children in pyjamas, waving from attic windows: "Where are you going?" they call, and Jane calls back, "Wherever the wind takes us." "Come back," they plead, but come back we cannot. The wind says no. Priscilla Buckley is one of the most beloved writers to have graced the pages of National Review. Whether from the edge of a balloon wicker basket or the narrow deck of a canal boat, Priscilla Buckley amuses, entertains, and informs in this charming travel memoir.

[Real Alchemy: A Primer of Practical Alchemy, Robert Allen Bartlett](#) , 2009, 0892545542, 9780892545544. A groundbreaking modern manual on an ancient art, Real Alchemy draws on both modern scientific technology and ancient methods. A laboratory scientist and chemist, Robert Allen Bartlett provides an overview of the history of alchemy, as well as an exploration of the theories behind the practice. Clean, clear, simple, and easy to read, Real Alchemy provides excellent directions regarding the production of plant products and transitions the reader-student into the basics of mineral workwhat some consider the true domain of alchemy. New students to practical laboratory alchemy will enjoy reading Real Alchemy and hopefully find the encouragement needed to undertake their own alchemical journey. Bartlett also explains what the ancients really meant when they used the term Philosophers Stone and describes several very real and practical methods for its achievement. Is the fabled Philosophers Stone an elixir of long life or is it a method of transforming lead into gold? Judge for yourself.

each of the English Roses Nicole, Amy, Charlotte, Grace and Binahand learn all of their vital statistics. From each girls full name, to her favorite pet, to her worst habits, this question-and-answer book will introduce readers to Madonnas delightfully charming girls. The book has a section for each Rose, plus one for the reader to fill out, and features gorgeous highquality four-color art!

[Armed Forces Act 2001, Great Britain, Stationery Office, The](#) , 2001, 010541901X, 9780105419013. The Armed Forces Act is a five-year implementation of measures to bring military law in line with developments in civilian law. Service law is mainly contained in three separate Service Discipline Acts (SDAs) - the Navy Discipline Act 1957 and the Army and Air Force Acts 1955 - which are finite and must be renewed every five years through the Armed Forces Act. This Act is in four parts: the continuance of services Acts; powers of entry, search and seizure; trial and punishment of offences; miscellaneous and general.

[The Myths of Happiness: What Should Make You Happy, But Doesn't, What Shouldn't Make You Happy, But Does, Sonja Lyubomirsky](#) , 2013, 1594204373, 9781594204371. Happiness expert Sonja Lyubomirsky's research-based lessons in how to find opportunity in life's thorniest moments In The Myths of Happiness, Sonja Lyubomirsky isolates the major turning points of adult life, looking to both successes (marriage, children, wealth) and challenges (divorce, financial ruin, illness) to reveal that our misconceptions about the impact of such events is perhaps the greatest threat to our long-term well-being. Lyubomirsky argues that we have been given false promises?myths that assure us that lifelong happiness will be attained once we hit the culturally confirmed markers of adult success. This restricted view of happiness works to discourage us from recognizing the upside of any negative life turn and blocks us from recognizing our own growth potential. Our outsized expectations transform natural rites of passage into emotional land mines and steer us to make toxic decisions, as The Myths of Happiness reveals. Because we expect the best (or the worst) from life's turning points, we shortsightedly place too much weight on our initial emotional responses. The Myths of Happiness empowers readers to look beyond their first response, sharing scientific evidence that often it is our mindset?not our circumstances?that matters. Central to these findings is the notion of hedonic adaptation, the fact that people are far more adaptable than

they think. Even after a major life change?good or bad?we tend to return to our initial happiness level, forgetting what once made us elated or why we felt that life was so unbearable. The Myths of Happiness offers the perspective we need to make wiser choices, sharing how to slow the effects of this adaptation after a positive turn and find the way forward in a time of darkness. In The Myths of Happiness, Sonja Lyubomirsky turns an empirical eye to the biggest, messiest moments, providing readers with the clear-eyed vision they need to build the healthiest, most satisfying life. A corrective course on happiness and a call to regard life's twists and turns with a more open mind, The Myths of Happiness shares practical lessons with life-changing potential.

[Teaching Music Globally: Experiencing Music, Expressing Culture, Patricia Shehan Campbell](#) , 2004, 0195171438, 9780195171433. Developed in conjunction with Thinking Musically and the culture case studies in the Global Music Series, Teaching Music Globally provides teachers and students of music education with ideas and techniques for engaging their students in the study of the world's musical cultures. Offering a large selection of exercises and activities of varying difficulty, this text is a guide for teachers of elementary through university level students--in band, choir, general music, orchestra, and any other school music classes--who seek to establish a comprehensive musical understanding for students living in a global era. Teaching Music Globally is packaged with Thinking Musically, which provides the conceptual foundation for exploring music around the world. Thinking Musically discusses the importance of musical instruments, describing their significance in a culture's folklore, religion, and history, and examines how fundamental elements of music--including rhythm, pitch, and form--vary in different musical traditions. The 80-minute audio CD packaged with Thinking Musically is also referenced in Teaching Music Globally. Teaching Music Globally and the CD give readers the opportunity to experience steel drum music from Trinidad, Irish jigs and reels, an ensemble piece for Peruvian panpipes, excerpts of Mexican mariachi music, gamelan music from Bali and Java, and choral pieces from Bulgaria, South Africa, the Pacific Islands, and the African-American experience. The book and CD also include Navajo social songs, an Egyptian maqam for string ensemble, a medieval European ronda, Carmen's Habanera, and percussion pieces from Brazil, China, Ghana, Japan, Liberia, and Puerto Rico. The CD selections provide the audio component for the

numerous and varied experiences incorporated throughout the text. These "attentive," "engaged," and "enactive" listening, participatory, and performance activities are resources for shaping the musical education of students of all ages. Visit www.oup.com/us/globalmusic for a list of case studies in the Global Music Series. Extensive culture-specific suggestions for participatory activities, class and take-home projects, worksheets, and many additional resources have been developed by music education specialists to accompany each culture case study and are available at this website.

[SQL Server 2012 with PowerShell V3 Cookbook, Donabel Santos](#) , 2012, 1849686475, 9781849686471. SQL Server 2012 with PowerShell V3 Cookbook" is an example-focused book that provides step-by-step instructions on how to accomplish specific SQL Server tasks using PowerShell. Each recipe is followed by an analysis of the steps or design decisions taken, and additional information about the task at hand. Working scripts are provided for all examples so that you can dive in right away. You can read this book sequentially by chapter, or you can pick and choose which topics you need right away. This book is written for the SQL Server database professional (DBA, developer, BI developer) who wants to use PowerShell to automate, integrate, and simplify database tasks. A little bit of scripting background is helpful, but not necessary.

[God and the Atlantic: America, Europe, and the Religious Divide, Thomas Albert Howard](#) , 2011, 0199565511, 9780199565511. Since the eighteenth-century Enlightenment, the United States and Western Europe's paths to modernity have diverged sharply with respect to religion. In short, Americans have maintained much friendlier ties with traditional forms of religion than their European counterparts. What explains this transatlantic religious divide? Accessing the topic through nineteenth and early twentieth-century European commentary on the United States, Thomas Albert Howard argues that an 'Atlantic gap' in religious matters has deep and complex historical roots, and enduringly informs some strands of European disapprobation of the United States. While exploring in the first chapters 'Old World' disquiet toward the young republic's religious dynamics, the book turns in the final chapters and focuses on more constructive European assessments of the United States. Acknowledging the importance of Alexis de Tocqueville for the topic, Howard argues that a widespread overreliance on Tocqueville as interpreter of America has had a tendency to overshadow other noteworthy European voices. Two underappreciated figures here receive due attention: the Protestant Swiss-German church historian, Philip Schaff, and the French Catholic philosopher, Jacques Maritain. While the transatlantic religious divide has received commentary from journalists and sociologists in recent decades, this is the first major work of cultural and intellectual history devoted to the subject.

[How I Made My Husband Gay: Myths about Straight Wives, Bonnie Kaye](#) , 2007, 097843885X, 9780978438852. How I Made My Husband Gay is a self-help book for women who learn or suspect that they may be married to a gay/bisexual man. Compiled, edited, and contributed to by Bonnie Kaye, M. Ed., the international expert in the field of straight/gay marriages, this book helps women by revealing the signs and patterns in their marriages that could be Red Flags. There are 35 stories from members of Kaye's international support group who talk about those signs they initially missed, as well as how they were blamed by their gay husbands for the failures in the marriages. Kaye also has her women discuss ways that they caught their husbands, as well as how they started over after ending the marriage which she refers to as a mis-marriage or a mistake of a marriage. About the Author: Kaye has counseled more than 30,000 straight women and 2,000 gay men since 1984 after the demise of her own marriage to a gay man. She hits home the message that gay men have no choice in their homosexuality - but they do have a choice in being honest about it. She works with women to help them rebuild their lives after the end of their marriages, and strongly advocates divorce in an amicable way whenever possible. Kaye consults for the major news media, and her website at www.Gayhusbands.com is used as a resource for shows including Oprah, Montel, and Tyra Banks. She has appeared on numerous national news shows including CNN and FOX News with her message that homosexuality does not belong in a marriage to a straight partner. Kaye is also a strong advocate for gay rights and publicly speaks about the need for society to accept gay people for who they are instead of fighting to change them into who they are not. This is Kaye's fourth book on this topic. Her other books include *Is He Straight? A Checklist for Women Who Wonder*, *Doomed Grooms: Gay Husbands of Straight Wives*, and *Straight Wives: Shattered Lives*.

[The Trouble with Eating Clouds, Edmund R. Schubert](#) , 2011, 097684690X, 9780976846901. Edmund R. Schubert's recipe for short stories is simple: Take regular people, put them in the middle of insanity, shake vigorously, and see what happens. What usually 'happens' is stories like the ones in this collection. His characters live in a world that's just a little bit off-kilter; or else reality is doing just fine, thank you, but their perspective on it doesn't quite line up with everyone else's. It's all so close to normal, yet nothing like it. Schubert is probably best known as the editor of Intergalactic Medicine Show, the online magazine founded by Orson Scott Card. But before he was an editor, he was a writer. And before he was a writer, he was a guy who played a lot of volleyball. Too much volleyball, really. And before that... well, who can remember that far back. Most of all, Schubert wants you to know that he had fun writing these stories, and he hopes you'll have fun reading them. Seriously. Have fun-or else. "Edmund Schubert gave me the best answers I've ever heard in five years of interviewing authors-answers so great, that I suspect he'll be receiving penguin-themed gifts until the end of time... (see the infamous "penguin interview" on pp.158) Even better-I have this lovely short story collection

of his to keep me company and remind me what a complete carnival freak he really is. It's true: Edmund and I will never be Cool. We'll just have to be Awesome instead. And we're okay with that." New York Times bestselling author, Alethea Kontis, from her introduction

[Improving Classroom Practice Through a Culturally-Centered Education Program, Maxine Newsome](#) , 2012, . Culturally-centered educational experiences form the core of classroom practice. Beginning and experienced teachers at all grade levels and instructional settings learn how to help all students achieve their full potentials through an education program which draws on information from multiple cultures and perspectives. Through day-to-day classroom practice in both the regular and hidden curriculum and by joining forces with parents and the community they learn to employ practices which broaden students understanding of the world and its peoples.

[Slide Interpretation in Oral Diseases and the Oral Manifestations of Systemic Diseases, Crispian Michael Scully, Jonathan Sheperd](#) , 1986, 0192614975, 9780192614971. Although few medical students receive extensive training in oral examination, patients usually turn to medical practitioners first when they have oral disease. Designed to provide students with background in oral disease, this heavily-illustrated volume features six papers, each accompanied by fifteen full-color clinical slides of oral disease. Every section presents a mixture of problems ranging from the common to the exotic and from simple dental lesions to oral lesions in systemic disease, poses related questions, and provides answers at the end, along with extra illustrations and further discussion.

[Domestic Violence Exposed: The Demonic Force Behind It, Donna M. Savage](#) , 2011, 0982585225, 9780982585221.

"Domestic Violence Exposed & The Demonic Force Behind It" is the sequel to "The Blood & Tears of Domestic Violence: A Survivor's Revelation," continuing the life story of Donna Savage, once a victim of domestic violence, now set free and delivered from the violent hands of her ex husband. Donna's life changes dramatically, as she discovers and learns herself, as she never knew before. The saga continues where the previous book left off, unfolding as Donna takes her first breath of freedom, after leaving the court house and follows her new life, which ultimately leads Donna to her mission and passion...advocating for domestic violence. The road to Donna's life since escaping her abuser has not been an easy one. She exposes the real battle behind domestic violence...demonic violence! Her testimony of the spiritual battle, principalities, powers and rulers of the darkness of this world that came against her, as she was being prepared to be used by God to save and deliver souls from the gates of hell is riveting and will leave readers on the edge of their seats. Donna says, "Exposing the truth of what happens behind closed doors, in the physical and spiritual realm, is crucial to free many souls. People may be afraid to say what they see, hear or experience when they are subjected to these evil

forces, but that keeps not only them in bondage, but others as well. Donna is now a victorious survivor, advocate, Evangelist, public speaker, screenwriter as well as other empowering roles helping those still entrapped in the vicious cycle of domestic violence. God is her strength and guide as she journeys into the world of advocacy...His way! I pray that this book is a liberating read for victims, abusers, survivors and all involved in the tragic lifestyle of domestic violence, giving hope, redemption and life to many, in the mighty name of Jesus!

[Fourth Day: A Charlie Fox Thriller, , Zoe Sharp](#) , 2012, 160598275X, 9781605982755. The cult calling itself Fourth Day is well funded and highly jealous of its privacy. Five years ago, Thomas Witney went in to try to get the evidence that the cult's charismatic leader was responsible for the death of Witney's son, Liam. Witney never came out. Now, Charlie Fox and her partner, Sean Meyer, have been assigned to get Witney out, willing or not. But planning and executing a clean, surgical snatch is only the beginning. Five years is a long time to be on the inside, and the man who comes out has changed beyond all recognition.

[Agrarian Change in Late Antiquity : Gold, Labour, and Aristocratic Dominance: Gold, Labour, and Aristocratic Dominance, Jairus Banaji](#) , 2002, 0191529575, 9780191529573. Agrarian Change in Late Antiquity, the first major study of its kind, presents a critique of Weber's influential ideas about late antiquity. Jairus Banaji collects together a vast range of

evidence to show that the fourth to seventh centuries were a period of major social and economic change, bound up with an expanding circulation of gold. The author traces the evolution of a new aristocracy in the eastern Mediterranean, and discusses the implications of its involvement in the monetary and business economy of the period. - ;The economy of the late antique Mediterranean is still largely seen through the prism of Weber's influential essay of 1896. Rejecting that orthodoxy, this book argues that the late empire saw substantial economic and social change, propelled by the powerful stimulus of a stable gold coinage that circulated widely. In successive chapters Dr Banaji adduces fresh evidence for the prosperity of the late Roman countryside, the expanding circulation of gold, the restructuring of agrarian elites, and the extensive use of paid labour, above all in the period spanning the fifth to seventh centuries. The papyrological evidence is scrutinised in detail to show that a key development entailed the rise of a new aristocracy whose estates were immune to the devastating fragmentation of partible inheritance, extensively irrigated, and responsive to market opportunities. The study offers a new perspective on the still largely contested issues of the use and control of labour, arguing that the East Mediterranean saw a considerable expansion of wage employment. A concluding chapter defines the more general issue raised by the aristocracy's involvement in the monetary and business economy of the period. Exploiting a wide range of sources, *Agrarian Change in Late Antiquity* weaves together different strands of historiography (Weber, Mickwitz, papyrology, agrarian history) into a fascinating interpretation that challenges the minimalist orthodoxies about late antiquity and the ancient economy. - ;The argument is complex, but well presented, and will be of keen interest to all scholars and graduate students engaged in the study of the economy in late antiquity. - Religious Studies Review; This thoughtful major study offers a revolutionary perspective on the economy in late antiquity. - Religious Studies Review; This work is indispensable. - Greece & Rome

[Breaking Bounds : Whitman and American Cultural Studies: Whitman and American Cultural Studies, Betsy Erkkila Chair of the Department of English Northwestern University, Jay Grossman Teaches American Poetry Amherst College](#) , 1995, 0199762287, 9780199762286. *Breaking Bounds* invigorates the study of Whitman and American culture by presenting essays that demonstrate Whitman's centrality to the widest range of social, political, literary, sexual, and cultural discourses of his time and ours. Bringing together a distinguished group of cultural critics working in the fields of literature, American studies, Latin American studies, European studies, art history, and gay/lesbian/queer studies, the volume persistently opens new vistas in the ways we see Whitman and provides a model for the newest and brightest intellectual efforts associated with "cultural studies." Central to the volume is a set of provocative essays in queer studies that break the bounds of decorum that have too long separated Whitman's sexuality from his politics, and his poetry from

both. The Whitman that emerges from these collected essays is renewed for a new generation of literary scholars working to define the places and the functions of his poetic words in the world. Taken as a whole, the volume points to the interdisciplinary future of American literary and cultural studies. *Breaking Bounds* is essential reading for anyone interested in Whitman both inside and outside the academy.

[White Sky, a Year in Saudi Arabia, Michael G. Trial](#) , 2010, 0984228853, 9780984228850. Mark Exner, a young American construction engineer looking for challenge and adventure, finds more than he expects in the barren deserts of Saudi Arabia. Assigned to a multi-million dollar project near the town of Tabuk, his professional skills are taxed to the limit. But it is the tensions of construction camp living and the dangers of this volatile region that provide even greater challenges. From the Saudi Arabian desert to the hot spots of Thailand and the mystical city of Kathmandu, Mark sees a side of life he never even imagined existed. About the author: Mike Trial was born in Missouri, grew up in Saudi Arabia, graduated from the University of Missouri, and worked for a U.S. federal agency for thirty years. He spent his career working in the Middle East and the United States, including Washington D.C. and Los Angeles.

[Chambers Slang Dictionary, Jonathon Green](#) , 2008, 0550104399, 9780550104397. Chambers Slang Dictionary is a brand-new edition of Jonathon Green's magisterial slang dictionary, first published in 1998. Covering the full range of slang over five centuries and from all parts of the English-speaking world, this collection has won universal acclaim for its authority, comprehensiveness and browsability. This new edition, the first to be published by Chambers, retains all the verve and precision of the earlier work. The text has been completely overhauled and restructured to make it as accessible as possible. Anyone interested in the seamier side of language will have hours of sheer joy exploring the vast wealth of information this book contains and plumbing the depths of centuries of slang.

[21 Days of Eating Mindfully: Your Guide to a Healthy Relationship With Yourself and Food, Lorrie Jones](#) , 2012, 1468112090, 9781468112092. Are you a prisoner of gaining and losing weight only to become heavier are your thoughts

preoccupied with food issues, guilt, wishing things were different have you lost hope in becoming healthy and staying healthy do you believe you will be happier at a lower weight or a smaller dress size? If you're like most women, you spend your days juggling many roles, conflicting commitments and the wants and needs of others. Often you come last, if there's time. The temptation to reach for food as comfort or distraction can be overwhelming, although the issue is rarely about true hunger. More times than not, the underlying force is emotion. Eating emotionally can become a way of life. Following two decades of research and practical experience, disordered eating expert Lorrie Jones developed the 21 Days of Eating Mindfully program, designed to encourage and support you in changing unwanted and unhealthy eating habits by transforming your relationship with yourself. This 21 day journey is not a diet or overnight cure. Rather, it's an opportunity to inquire more deeply within, providing the keys to establishing a healthy, loving relationship with yourself and enjoying a favorable weight shift and wise eating choices as a natural result and sustainable outcome. With mindful awareness it's possible to let go of the belief that eating or not eating will take away hurt, disappointment, loneliness, boredom, anger, emptiness. With mindful awareness you'll learn skills and tools necessary to use food for only nourishment and healthy enjoyment. If you're ready to give up believing there's something wrong with you something that will change when you have a different body then you're ready for Eating Mindfully and embracing the present moment, ending your dysfunctional relationship with food. For 21 days you will be provided with mindful eating guidelines to put into practice in your daily life. There are three days of food for thought, related mindfulness activities and points to ponder for each of the letters in HEALING: H: Hunger & Healing E: Empathy & Emotional Eating A: Awareness & Acceptance L: Love & Letting Be I: Inquiry & Intention N: Nurture & Nourishment G: Gratitude & Gracious Living You have the potential and opportunity to forever change the way you respond to life experiences and embrace your health and wellness. Why not start honoring yourself today by embracing true and lasting change that comes from self acceptance, compassion and purpose, not discipline or dieting!

[Developing Java enterprises applications, Stephen Asbury, Scott R. Weiner](#) , 2001, 0471405930, 9780471405931. The first hands-on guide to building Java enterprise applications, updated and expanded to cover all of J2EE's exciting new features Java has always been great when it came to creating Web applets, but, until now, it was hardly up to the task of building high-performance applications. Increased XML support, EJB 2.0, and a new APM, Java2 Enterprise Edition (J2EE), offer developers what they need to build powerful enterprise applications. This updated and expanded edition of the popular hands-on guide shows them how. It uses the examples of two large-scale enterprise applications--complete with source code--to show readers how to use J2EE's various APIs together as well as with other technologies, such as CORBA, COM, Servlets, and Agents. The book also features substantially expanded coverage of Enterprise JavaBeans and tells how to get the most out of EJB 2.0 tools and products. Topics of special interest to Java developers include: building a Servlet search engine; creating online stores with Java Server Pages; using transactions with EJBs and JDBC to create N-Tier applications; and selecting the best middleware for your needs.

'Mathematica for Physics', is tailored for advanced undergraduate and graduate physics students taking core courses in the physics curriculum. In this book, Robert L. Zimmerman and Fredrick Olness show students how to use Mathematica to solve standard problems in physics. Because they cover the canonical problems from the core courses, students can practice with the solutions they provide, then modify these solutions to solve additional problems. Students can focus on the physics and leave the algebraic complications to Mathematica. Zimmerman and Olness take the reader beyond the textbook solutions. They challenge students to cross-check their results using the wide variety of Mathematica's analytical, numerical, and graphical tools.

[Mastering Fashion Styling, Jo Dingemans](#) , 1999, 0333770927, 9780333770924. Fashion is a very popular subject among young people. Any course with fashion as a prefix attracts lots of students. Despite this, many prospective students and people have little idea what jobs in the fashion industry entail. Beskrivelse: Fashion Styling is one of the least well researched areas in fashion colleges. The emphasis is put on the end result, i.e. visual imagery, rather than the process of creating it. This 'how to' book provides an insight into the processes you have to follow to work in this area, be it editorial, commercial or show styling. It includes an eight-week introductory programme to the subject and projects whereby students can simulate professional practice and learn the techniques and skills necessary for a career in styling. At the end of the book there is a source directory, a glossary of terms, and a bibliography which provide reference points for further research and study

[Quick Foods: Gourmet Recipes in Just 30 Minutes, Jenny Fanshaw, Annette Forrest](#) , 2009, 0762109815, 9780762109814. Chock-full of brilliant ideas for gourmet food that can be prepared in less than 30 minutes; this cookbook will appeal to busy cooks who want to spend less time in the kitchen while still preparing quality food for friends and family. Each recipe was carefully selected from a broad range of cooking styles and traditions, with an emphasis on Italian, Mediterranean, and Asian, as well as a wonderful assortment of home-style, family dishes. All of the recipes have been kitchen-tested and each one is illustrated by a stylish photograph, helping even novice cooks prepare and present the dishes with ease and flair. This beautifully illustrated cookbook features more than 330 easy recipes for everything from snacks to desserts; recipes can prepared in less than 30 minutes; and every recipe is accompanied by a beautiful full-color photo. Quick Food will be a welcome addition to every food lover's library-and a much-thumbed classic on kitchen shelves.

[All the Right Places, Brad Newsham](#) , 2003, 0553816020, 9780553816020. 'I am in exactly the right place, thinking, doing and feeling exactly the right things. . .' This was the affirmation that Brad Newsham repeated daily as he cycled alone across the Japanese Alps to Mount Fuji in 1984, tree to wander wherever he chose. But back home in San

Francisco, life hadn't been so rosy: his wife of ten years had met someone else and wanted a divorce. He tried everything to change her mind, eventually leaving his job and buying a one-way ticket to Asia in the hope that she would miss him. It worked. . . and then he met someone else on a bus in Hong Kong. One of the first wave of Western backpackers to blaze a trail through China and Russia, Brad Newsham travelled from the neon-lit streets of Tokyo to the epic prairies of Mongolia in a journey that took him across Asia by bicycle, boat, bus and the Trans-Siberian railway. With its rich and fascinating cast of characters, ALL THE RIGHT PLACES is classic travel writing at its very best from the acclaimed author of TAKE ME WITH YOU, a finalist for the WHSmith Travel Book of the Year 2003.

[Arresting God in Kathmandu, Samrat Upadhyay](#) , 2001, 0618043713, 9780618043712. From the first Nepali author writing in English to be published in the West, Arresting God in Kathmandu brilliantly explores the nature of desire and spirituality in a changing society. With the assurance and unsentimental wisdom of a long-established writer, Upadhyay records the echoes of modernization throughout love and family. Here are husbands and wives bound together by arranged marriages but sometimes driven elsewhere by an intense desire for connection and transcendence. In a city where gods are omnipresent, where privacy is elusive and family defines identity, these men and women find themselves at the mercy of their desires but at the will of their society. Psychologically rich and astonishingly acute, Arresting God in Kathmandu introduces a potent new voice in contemporary fiction.

[Mastering the Rules of Competitive Strategy: A Resource Guide for Managers, Norton Paley](#) , 2007, 1420068105, 9781420068108. The stakes are high and real. Money is spent. Personnel are committed in a battle for the triumph or downfall of a company. Yet, given the same circumstances, some companies continue to thrive while others wash out and become also-rans. In the end, it is the dynamics of the competitive marketplace, the quality of the organizations business plan, and the ability to successfully implement strategies, that validate and ensure a company's existence. Mastering the Rules of Competitive Strategy: A Resource Guide for Managers blends selected historical lessons with modern business practice to provide a solid platform on which to understand, develop, and apply competitive business strategies. It identifies commonalities in culture and strategy among businesses that have successfully adapted to changing marketplaces and emerging competitors. The author defines nine distinct rules of strategy to implement in your own company to achieve the same level of success. Each rule or chapter is supported with real-company examples, quick-tip guidelines, and applications. Each includes a Strategy Diagnostic Tool to provide a reliable performance measure that supports you in building, evaluating, and monitoring your business strategies. The book emphasizes developing your

ability to think and act like a strategist. An outline of a Strategic Business Plan in the Appendix provides a starting place for developing your strategies, as well as a format for presenting your ideas to management. By deliberately and systematically following these nine enduring rules of competitive strategy you will overcome obstacles that have crushed other businesses. Integrating them into your business plans can increase your chances of triumphing over rivals who are looking to oust you from the marketplace.

[Bangkok: a cultural history, Maryvelma Smith O'Neil](#) , 2008, 0195342518, 9780195342512. In this vibrant cultural history, Maryvelma O'Neil takes us on an engaging tour of Bangkok, revealing the rich ancient heritage of this fascinating city. The capital of the Kingdom of Thailand, Bangkok stands out as a place of extraordinary allure. Beginning as a floating city in a lush tropical setting, known to foreigners as the "Venice of the East," its majestic Grand Palace and glittering Buddhist temples today compete with chimneystacks and a jungle of skyscrapers. O'Neil illuminates a city rich in art, history, royal ceremony, and tradition and she uncovers fascinating pockets of traditional indigenous life and places of intense beauty hidden in Bangkok's labyrinthine lanes and alleys.

[Orexin/Hypocretin System, Anantha Shekhar](#) , 2012, 0444594892, 9780444594891. "In The Orexin/Hypocretin System: Physiology and Pathophysiology, leading researchers and clinicians set the stage for further research on the loss of orexin/hypocretin neurons in humans, regulation of sleep and wakefulness by the orexin/hypocretin system, and the role of the orexin/hypocretin system in many other physiological processes, including feeding, autonomic regulation, and neuroendocrine regulation. Topics of interest include an assessment of the functions and the physiology of orexin/hypocretin, its pathophysiology in human narcolepsy-cataplexy, and possible pharmacological treatments. The authors also introduce several experimental methods for orexin/hypocretin research, and, using multidisciplinary approaches, explain their uses and limitations." "Authoritative and state-of-the-art, The Orexin/Hypocretin System: Physiology and Pathophysiology will aid scientists in the search for novel bioactive peptides and their receptors, as well as novel physiological insights and opportunities for the clinical treatment of not only narcolepsy, but also a broad range of diseases associated with endocrine, feeding and body weight regulation." --Rsum de l'diteur.

[Women's Health in India: Risk and Vulnerability, Monica Das Gupta, Lincoln C. Chen, T. N. Krishnan](#) , 1995, 0195636201, 9780195636208. This volume is structured to take a holistic view of the issue, looking at the health of women from childhood to old age. This helps identify those points of the life-cycle at which women are the most vulnerable; and the sources of their vulnerability. The papers in the first section study sex differentials in infant and child mortality rates, and their relation to sociocultural and economic factors. The resultant evidence suggests that rather than economic development, it is cultural factors and the status of women that play a significant role in the reduction of female child mortality. The second section contributed towards a systematic documentation of the extent and nature of health risks during the reproductive years. These include not only the risks associated with pregnancy and childbirth, but also sexually transmitted diseases and AIDS. Old age appears to be the least vulnerable period in a woman's life, which has

much to do with the fact that her status within the household rises substantially with age. The final section provides a disaggregated view of the situation of older women, bringing out the circumstances which can increase vulnerability, and analyses their sources. Moving to a more activist perspective, the last paper of the volume outlines a set of concerns and goals for policy-makers, stressing the need for wide-ranging policy imperatives.

[The Inessential Indexical: On the Philosophical Insignificance of Perspective and the First Person, Herman Cappelen, Josh Dever](#) , 2013, 0199686742, 9780199686742. When we represent the world in language, in thought, or in perception, we often represent it from a perspective. We say and think that the meeting is happening now, that it is hot here, that I am in danger and not you; that the tree looks larger from my perspective than from yours. The Inessential Indexical is an exploration and defense of the view that perspectivalism is a philosophically shallow aspect of the world. Cappelen and Dever oppose one of the most entrenched and dominant trends in contemporary philosophy: that perspective (and the perspective of the first person in particular) is philosophically deep and that a proper understanding of it is important not just in the philosophies of language and mind, but throughout philosophy. They argue that there are no such things as essential indexicality, irreducibly de se attitudes, or self-locating attitudes. Their goal is not to show that we need to rethink these phenomena, to explain them in different ways. Their goal is to show that the entire topic is an illusion there's nothing there. The Context and Content series is a forum for outstanding original research at the intersection of philosophy, linguistics, and cognitive science. The general editor is Francois Recanati (Institut Jean-Nicod, Paris).

[Electronic Access Control, G. Honey](#) , 2000, 0750644737, 9780750644730. Access into buildings, controlled access within buildings, perimeter access control and perimeter protection are all areas that have been expanding rapidly within the security industry. All of these areas are now dominated by electronic solutions. Gerard Honey's book is the first to focus on the design and installation of electronic access control systems. By providing the more practical information needed by system designers and installers, as well as essential guidelines for managers with responsibility for security, Electronic Access Control is vital reading for all those involved in the security business. This book provides the underpinning knowledge needed for level 3 NVQs and other SITO courses. The concise, accessible text makes it an ideal coursebook. This same accessibility also makes Electronic Access Control ideal for hard-pressed practitioners. Practical information needed by system designers and installers Essential knowledge required to gain SITO qualifications Concise and affordable

[Count with the Very Hungry Caterpillar,](#) , 2006, 0448444208, 9780448444208. Kids will love to eat through 16 different types of food with the very hungry caterpillar! With giant stickers that are perfect for little hands, this book is the perfect choice for kids just learning their numbers. Counting has never made you hungrier!

[Friction: How Radicalization Happens to Them and Us, , Clark McCauley, Sophia Moskalenko](#) , 2011, 0199747431,

9780199747436. This accessible book identifies twelve mechanisms of political radicalization that can move individuals, groups, and the masses to increased sympathy and support for political violence. Terrorism is an extreme form of radicalization, and the book describes pathways to terrorism to demonstrate the twelve mechanisms at work. Written by two psychologists who are acknowledged radicalization experts and consultants to the Department of Homeland Security, Friction draws heavily on case histories. The case material is wide-ranging - drawn from Russia in the late 1800s, the US in the 1970s, and the radical Islam encouraged by the fall of the Soviet Union in the 1990s. Taken together, the twelve mechanisms show how unexceptional people are moved to exceptional violence in the conflict between states and non-state challengers. Captivating, and with psychological overtones, this timely book covers one of the most pressing issues of our time.

[99 Things You Wish You Knew Before Going Into Sales, Victor Antonio](#) , 2010, 0986676713, 9780986676710. Let's face it, today's consumers has access to information and is often times just as well informed as you the seller. So what you need is an edge! You need something that's going to help you close more deals faster and hopefully bigger. 99 Things You Wish You Knew Before Going into Sales is a book designed specifically for salespeople on the run. Sales trainer Victor Antonio has compressed over 20 years worth of sales experience into bite-size sales techniques that you can apply immediately. Whether you're selling product or services, the techniques in this book will astound you and how effective, yet simple they are to use. Whether you're dealing with a small retail sale or a large account, it doesn't matter. This book covers the full sales spectrum from the simple to the complex deal. Here you'll find strategies and techniques that not only teach you how to sell, but more importantly exposes the thought process behind why people make buying decisions. The more you understand how buyers buy, the more effective you'll be in making your sales presentation and eventually closing more deal. And, for those of you who are veteran salespeople with years of experience, you're going to find the latest in sales and consumer research that will help you sharpen your sales saw by giving you that extra insight that your competitors don't have. You're busy! I'm busy! We're all busy! That's why we've designed '99 Things You Wish You Knew Before Going into Sales' was developed. What you need is a book a like this that delivers no fluff and gets straight to what you need to go out and SELL MORE NOW. In the book you'll find 99 tips and techniques that will either remind you of something you should've been doing or teach you something you should be doing to close more sales. Even the best-of-the-best never stop learning. Those top 5-10% of salespeople in any given company are the same salespeople who are always looking for that added advantage in selling. You can afford this book. You can afford a few minutes out of your day to improve. What you can't afford is not reading what's inside! Don't just buy a copy for yourself, buy a few extra for your salespeople or colleagues; they'll thank you for it!

[Domino Falls: A Novel, Steven Barnes, Tananarive Due](#) , 2013, 145161702X, 9781451617023. The date: A week after tomorrow. An infection has swept the world, bringing on an epidemic of mindless attacks that leave everyone changed. Society has broken down. Survivors call the infected Freaks. But the Freaks are more than simple, mindless zombies - they are actually the result of an alien life form slowly colonising Earth, and humanity is ultimately enmeshed in a struggle for control of the planet. Part Dawn of the Dead and part Road Warrior, Domino Falls is a horrifying, exciting and strangely romantic coming-of-age story set on the edge of Apocalypse.

The second book in the Alice and Megan series A holiday trip to visit your best friend in another city should be heaps of fun, right? Some movies, a bit of shopping and just hanging out? No if your best friend's Alice, and especially not if she's just found out her mum has a new boyfriend. Once again, you're drawn into Alice's crazy plans. You're stalking a man called Norman and hiding behind pot plants and lamp posts. It's so un-fun, it's enough to make you really mad - mad enough to think about finding a new best friend . . . Megan can't wait to see Alice again - or can she? Join these BFFs on a crazy holiday adventure that will put their friendship to the test. Look out for more books in the Alice and Megan series: Alice Next Door Don't Ask Alice Alice in the Middle

[The Way of the Champion: Lessons from Sun Tzu's the Art of War and Other Tao Wisdom for Sports & Life, Jerry Lynch, Al Chung-liang Huang](#) , 2006, 0804837147, 9780804837149. Martial artists, great warriors, coaches, generals, and successful corporate CEOs effectively use the strategies for winning found in Sun Tzu's Art of War. Authors Jerry Lynch and Chungliang Al Huang, using lessons from the The Art of War, as well as other ancient Taoist books such as the I Ching and Tao Te Ching, teach readers to develop the capacities and qualities that make a champion-such as high self-esteem, courage, fortitude, determination, perseverance, tenacity, self-awareness, integrity, the ability to take risks, and the ability to learn from failure. The emphasis on self-awareness, tactical positioning, and strategic advantage means that practitioners win through inner growth and self-improvement-giving them a universal competitive edge.

[Optimal and Robust Control: Advanced Topics with MATLAB, Luigi Fortuna, Mattia Frasca](#) , 2012, 146650191X, 9781466501911. While there are many books on advanced control for specialists, there are few that present these topics for nonspecialists. Assuming only a basic knowledge of automatic control and signals and systems, Optimal and Robust Control: Advanced Topics with MATLAB offers a straightforward, self-contained handbook of advanced topics and tools in automatic control. Techniques for Controlling System Performance in the Presence of Uncertainty The book deals with advanced automatic control techniques, paying particular attention to robustnessthe ability to guarantee stability in the presence of uncertainty. It explains advanced techniques for handling uncertainty and optimizing the control loop. It also details analytical strategies for obtaining reduced order models. The authors then propose using the Linear Matrix Inequalities (LMI) technique as a unifying tool to solve many types of advanced control problems. Topics covered include: LQR and H-infinity approaches Kalman and singular value decomposition Open-loop balancing and reduced order models Closed-loop balancing Passive systems and bounded-real systems Criteria for stability control This easy-to-read text presents the essential theoretical background and provides numerous examples and MATLAB exercises to help the reader efficiently acquire new skills. Written for electrical, electronic, computer science, space, and automation engineers interested in automatic control, this book can also be used for self-study or for a one-semester course in robust control.

[Disinherited: Indians in Brazil, Fiona Watson, Stephen Corry, Caroline Pearce](#) , 2000, 094659211X, 9780946592111.

[Cheating in School: What We Know and What We Can Do, Stephen F. Davis, Patrick F. Drinan, Tricia Bertram Gallant](#) , 2011, 1444356836, 9781444356830. Cheating in School is the first book to present the research on cheating in a clear and accessible way and provide practical advice and insights for educators, school administrators, and the average lay person. Defines the problems surrounding cheating in schools and proposes solutions that can be applied in all educational settings, from elementary schools to post-secondary institutions Addresses pressing questions such as Why shouldnt students cheat if it gets them good grades? and What are parents, teachers, businesses, and the government

doing to unintentionally persuade today's student to cheat their way through school? Describes short and long term deterrents that educators can use to foster academic integrity and make honesty more profitable than cheating. Outlines tactics and strategies for educators, administrators, school boards, and parents to advance a new movement of academic integrity instead of dishonesty.

[XML in Data Management: Understanding and Applying Them Together, Peter Aiken, M. David Allen](#) , 2004,

0080521444, 9780080521442. XML in Data Management is for IT managers and technical staff involved in the creation, administration, or maintenance of a data management infrastructure that includes XML. For most IT staff, XML is either just a buzzword that is ignored or a silver bullet to be used in every nook and cranny of their organization. The truth is in between the two. This book provides the guidance necessary for data managers to make measured decisions about XML within their organizations. Readers will understand the uses of XML, its component architecture, its strategic implications, and how these apply to data management. To view a sample chapter and read the Foreword by Thomas C. Redman, visit <http://books.elsevier.com/mk/?isbn=0120455994>* Takes a data-centric view of XML.* Explains how, when, and why to apply XML to data management systems.* Covers XML component architecture, data engineering, frameworks, metadata, legacy systems, and more.* Discusses the various strengths and weaknesses of XML technologies in the context of organizational data management and integration.
