[Letters to Henry, Les Moore](#) , 1995, 0964711109, 9780964711105. In the year 1882 Henry James took a trip in France & wrote an account of the trip in "A Little Tour in France." In the year 1992, the author, Les Moore took the same trip.

LETTERS TO HENRY is an account of that trip. Each day is a letter to Henry James, telling him what France is like today. Henry wrote about the effects of the "recent" Franco-Prussian War & the neglect of some of the great historical monuments of France. The writer tells James about the present condition of the monuments & the effects of two wars: World Wars I & II. Both tours started in the city of Tours, visiting the famous Chateaux of the Loire Valley. The tour then continues to Le Mans, Angers, Nantes, Poitiers & La Rochelle. The tour continues in the Southern part of France, Provence, then turns north through the Rhone Valley to the last city of the trip-- Dijon. The book details French history from the days of Roman Gaul to modern times, letting Henry know that the great past is well-preserved in France. There are forty-six pictures & four maps to guide the reader.

[In the Garden of Our Minds and Other Buddhist Stories,](#) , 2013, 098379846X, 9780983798460. This illustrated book of children's stories presents the wisdom of Mahayana Buddhism through the accessible and entertaining lens of a modern Buddhist family with two rambunctious elementary school-aged children. Five of the chapters retell traditional stories of the life of the Buddha in a way that makes their lessons relevant to modern life. One contains a simple guided meditation practice based on the teachings of Venerable Thich Nhat Hanh for use with children and one describes the family's visit to hear a Tibetan Buddhist Rinpoche give a Dharma teaching about bodhicitta. At the end of the book, a Conversations with Children section and Glossary of Terms provide additional context to foster family or Dharma group discussions. Introductions are by His Eminence Garchen Rinpoche and Venerable Bardor Tulku Rinpoche.

Mass extinctions of animals and plants in the geological past are a topic of continuing interest and debate. This volume reviews some of the major changes that are seen in important groups of organisms in the fossil record. Our present understanding of the nature and causes of these changes is examined, together with the problems of defining such changes. The available data on a variety of fossil plants and animals are considered in relation to major extinction events that have been recognized in the geological record for Phanerozoic time (i.e. approximately the past 600 million years). The question of whether there is a regular periodicity in extinction events

is considered, as are the problems posed by the incompleteness of the paleontological and stratigraphical evidence.

[The Odyssey, , Homer](#) , 1992, 1853260258, 9781853260254. Homer's great epic describes the many adventures of Odysseus, Greek warrior, as he strives over many years to return to his home island of Ithaca after the Trojan War. His colourful adventures, his endurance, his love for his wife and son have the same power to move and inspire readers today as they did in Archaic Greece, 2800 years ago. This poem has been translated many times over the years, but Chapman's sinewy, gorgeous rendering (1616) stands in a class of its own. Chapman believed himself inspired by the spirit of Homer himself, and matches the breadth and power of the original with a complex and stunning idiom of his own. John Keats expressed his admiration for the resulting work in the famous sonnet, 'On first looking into Chapman's Homer': 'Much have I travelled in the realms of gold...'

[The Account of Mary Rowlandson and Other Indian Captivity Narratives, Mary Rowlandson](#) , 2005, 0486445208, 9780486445205. The wife of a minister in a small frontier town west of Boston, Mary Rowlandson was forced to leave her house in the late winter of 1676 after marauding Indians set the building on fire. "I had often before this said," she later wrote, "that if the Indians should come, I should chuse rather to be killed by them than taken alive but when it came to the tryal my mind changed; their glittering weapons so daunted my spirit, that I chose rather to go along . . . than to end my days."Thus began Mary Rowlandson's account of her arduous journey as a servant to her captors, the Narragansett Indians. The most celebrated such document in American history, her record of the three months she spent in captivity tells of hardship and suffering, but also includes invaluable observations on Native American life and customs. The text is notable, as well, for conveying an understanding of her captors as individuals who not only suffered and faced difficult decisions but were also, at times, sympathetic humans (one of her abductors gave her a Bible taken during an earlier raid).An immediate bestseller when first published in 1682, Rowlandson's narrative is widely regarded today as a classic--the first in a series of "captivity narratives" in which women, seized by Indians, survived against overwhelming odds. Of special interest to historians and students of Native American culture, Rowlandson's astounding account--accompanied by three other famous narratives of captivity--will also thrill the most avid of adventure enthusiasts.

[Population Dynamics: A New Economic Approach, C. Y. Cyrus Chu](#) , 1998, 0195121589, 9780195121582. Population Dynamics fills the gap between the classical supply-side population theory of Malthus and the modern demand-side theory of economic demography. In doing so, author Cyrus Chu investigates specifically the dynamic macro implications of various static micro family economic decisions. Holding the characteristic composition of the macro population to always be an aggregate result of some corresponding individual micro decision, Chu extends his research on the fertility-related decisions of families to an analysis of other economic determinations. Within this framework, Chu studies the income distribution, attitude composition, job structure, and aggregate savings and pensions of the population. While in some cases a micro-macro connection is easily established under regular behavioral assumptions, in several chapters Chu enlists the mathematical tool of branching processes to determine the connection. Offering a wealth of detail, this book provides a balanced discussion of background motivation, theoretical characterization, and empirical evidence in an effort to bring about a renewal in the economic approach to population dynamics. This welcome addition to the research and theory of economic demography will interest professional economists as well as professors and graduate students of economics.

[Anything But Straight: Unmasking the Scandals and Lies Behind the Ex-gay Myth, Wayne R. Besen , 2003, 1560234466, 9781560234463.](#) The real story behind ex-gay ministries and reparative therapy! Nationally known activist Wayne Besen spent four years examining the phenomenon of ex-gay ministries and reparative therapiesinterviewing leaders, attending conferences, and visiting ministries undercover as he accumulated hundreds of hours of research. The result is Anything but Straight: Unmasking the Scandals and Lies Behind the Ex-Gay Myth, a groundbreaking expos of the controversial movement that's revered by independent religious groups and reviled by gay and lesbian organizations. The book presents a historical perspective on the dispute, examining ex-gay groups such as Love In Action, Exodus International, Homosexuals Anonymous, and profiling a cast of characters that includes Pat Robertson, the Rev. Jerry Falwell, ex-gay poster boy John Paulk, National Association of Research and Therapy of Homosexuality activist Richard Cohen, and psychiatrist Dr. Robert Spitzer. An in-depth, well-researched, and historically significant account, Anything but Straight is full of startling facts and alarming surprises. The original content and novel material in the book includes: a first-ever comprehensive history of the ex-gay ministries and reparative therapy the inside story of the night the author photographed ex-gay poster boy John Paulk inside a gay bar the author's discovery that Anne Paulk lied about being a lesbian and has admitted to having a strong attraction to men BEFORE she became ex-gay previously undisclosed bizarre techniques used by the ex-gay ministries and reparative therapists the author's exclusive in-depth interviews with leading ex-gay leadersthey disclose their deepest secrets, hidden desires, and true motivations an extraordinary new study that shows that most ex-gay leaders have suffered from substance abuse or severe emotional problemswhile many ex-gay leaders claim they were unhappy being gay, this report helps prove that their dissatisfactions came not from their homosexuality, but from poor life choices and irresponsible behavior new revelations that one of the nation's leading reparative therapists hailed from a secretive cult that was scandalized for practicing nude therapy From the author: Through my extensive experience, I have learned that the extraordinary claims made by the ex-gay groups are without merit and the efficacy of their programs is dubious at best and harmful at worst . . . One frequent question I get is, Why can't gay activists simply leave 'ex-gay' groups alone and let them go about their business? This is exactly what happened for nearly three decades while ex-gay groups labored in near anonymity. But all this recently changed when the ex-gay groups intricately aligned themselves with the anti-gay political agenda of the Religious Right. With ex-gays added to their arsenal, the Right could disingenuously claim to love gay people and offer them hope for change, while

simultaneously fighting for punitive legislation. Their insidious message: Since gays and lesbians can change, there is no need for laws that protect them against arbitrary prejudice. Anything but Straight: Unmasking the Scandals and Lies Behind the Ex-Gay Myth is an essential read for activists on both sides of the ex-gay fence, family members of gays and lesbians, Gay, Bisexual, Lesbian, and Transgender church members, psychiatric and social science professionals, and anyone who has dealt with coming out issues. An appendix of resources and a helpful bibliography make it easy to find additional information on this fascinating topic.

[Wasted?, Paul Smith](#) , 2007, 1905449453, 9781905449453. Cricketer Paul Smith's life fell apart after he received a drugs ban in 1996, which effectively ended his career. He was made a scapegoat and still believes he was singled-out while several other, favored players were allowed to continue their careers. Paul lost his house, his marriage, his children and, of course, his job. How does a man come back from that? In this extraordinary autobiography, Paul Smith tells the story of the rock star lifestyle of a top cricketer, who produced Man of the Match performances at Lord's to help Warwickshire to an unprecedented domestic treble of trophies, which set him on the slippery slope to oblivion. He then describes the torment of being an outcast, losing everything and facing the stark choice of how to go on. This is a modern morality tale with no holds barred and no quarters given as Paul reveals the incredible sexual attraction that goes with being a sports star, his descent into drug taking, the hero-worship that fans gave him after his match-winning performances made Warwickshire the "Manchester United of Cricket," and how he struggled to cope with this heady and potent mix of adulation and demands on his time, body, and emotional energy. And how, eventually, his life fell apart. But Paul found redemption by using his own incredible experiences to inspire inner city kids in both the UK and the USA to reject modern temptations such as drugs, violence, and guns. His work is testament to how he has turned his own remarkable life around. He now works for the Prince's Trust in Britain and with downtown youths in LA in tough, violent districts, where he is the only non-black allowed. And his methods of speaking to the kids about how he nearly ruined his life are working. Nearly 50% fewer of those he spends time with in LA carry guns. This book affirms that it is possible for a bad apple to turn good again with mental strength, positivity, and a hell of a lot of honesty.

The subject of computational plasticity encapsulates the numerical methods used for the finite element simulation of the behaviour of a wide range of engineering materials considered to be plastic i.e. those that undergo a permanent change of shape in response to an applied force. Computational Methods for Plasticity: Theory and Applications describes the theory of the associated numerical methods for the simulation of a wide range of plastic engineering materials; from the simplest infinitesimal plasticity theory to more complex damage mechanics and finite strain crystal plasticity models. It is split into three parts - basic concepts, small strains and large strains. Beginning with elementary theory and progressing to advanced, complex theory and computer implementation, it is suitable for use at both introductory and advanced levels. The book: Offers a self-contained text that allows the reader to learn computational plasticity theory and its implementation from one volume. Includes many numerical examples that illustrate the application of the methodologies described. Provides introductory material on related disciplines and procedures such as tensor analysis, continuum mechanics and finite elements for non-linear solid mechanics. [Electoral Systems and Party Systems: A Study of Twenty-seven Democracies, 1945-1990, Arend Lijphart, Don Aitkin](#) ,

1994, 0198280548, 9780198280545. An electoral system is the most fundamental element of representative democracy, translating citizen's votes into representatives' seats. It is also the most potent practical instrument available to democratic reformers. This systematic and comprehensive study describes and classifies the 70 electoral systems used by 27 democracies - including those of Western Europe, Australia, Canada, the USA, Costa Rica, India, Israel, Japan, and New Zealand - for 384 national legislative and European Parliament elections between 1945 and 1990. Using comparative and statistical analyses of these systems, Arend Lijphart demonstrates the effect of the electoral formula used, the number of representatives elected per district, electoral thresholds, and of five other key features of electoral systems on the proportionality of the election outcome, the degree of multipartism, and the creation of majority parties. In the process he reveals that electoral systems are neither as diverse nor as complex as is often assumed. *Electoral Systems and Party Systems* represents the most definitive treatment of the subject since Rae's classic study in 1967, based as it is on more accurate and comprehensive data (covering more countries and over a longer time span), and using stronger hypotheses and better analytical methods. The unique information and analysis it offers will make it essential reading for everyone working in the field.

[The Village in the Jungle, Leonard Woolf](#) , 2004, 0773461787, 9780773461789. Sidelined by Leonard Woolf's involvement in politics after he left the Civil Service, overshadowed by Virginia Woolf's continuous and brilliant achievement as a novelist, *The Village in the Jungle* (1913) fell from notice in Britain until, by the time its author died in 1969, it was almost forgotten. In Sri Lanka and southeast Asia, however, scholars recognize this classic novel as part of a distinguished literary line extending from Kipling through Conrad and Forster, to Paul Scott and Ruth Jhabvala. The value to scholarship of Professor Yasmine Gooneratne's edition is enhanced by perceptive comparisons, now made for the first time, of the novel's various editions with Woolf's original manuscript. Highlighting substantial amendments made by the author prior to publication, she shows in detailed notes how they reflect his passion for accuracy, his wish to maintain objectivity while writing of another culture, and his humane sympathy for the people among whom he had worked for seven years as a civil servant in Sri Lanka. Errors and misprints in the first edition are corrected, local customs explained, Sinhala words glossed, the novel's themes related to the politics of colonialism, and the entire work brought within the ambit of the 21st century.

There is an island sanctuary at Stewart island, or dripping gold-miners' tunnels in the Coromandel. For something a little different, try out the street-smart stroll that explores Wellington's downtown, or in the deep south a beach walk explores a lonely Catlins coast, troubled by the ruins of a gold dredge and the strange wobble of quicksand. There are all types of walks for all types of people: from those that suit families, to those that are a real leg-stretcher, walking times range from 1-2 hours to 5-6 hours, but all longer walks have a shorter 1-2 hour turn-around option. Every walk has notes on track conditions, walking time and distance and access and facilities, along with a topographical map for each walk.

The Risk Society and Beyond charts the progress of Beck's ideas and traces their evolution. It demonstrates why the issues raised by Beck reverberate widely throughout social theory and covers the new risks that Beck did not foresee, associated with the emergence of new technologies, genetic and cybernetic. [I'd Hate Myself in the Morning: A Memoir, Ring Lardner](#) , 2001, 156025338X, 9781560253389. Ring Lardner, Jr.'s memoir is a pilgrimage through the American century. The son of an immensely popular and influential writer, Lardner grew up swaddled in material and cultural privilege. After a memorable visit to Moscow in 1934, he worked as a reporter in New York before leaving for Hollywood where he served a bizarre apprenticeship with David O. Selznick, and won, at the age of 28, an Academy Award for Woman of the Year, the first on-screen pairing of Spencer Tracy and Katherine Hepburn. In "irresistibly readable" pages (*New Yorker*), peopled by a cast including Carole Lombard, Louis B. Mayer, Dalton Trumbo, Marlene Dietrich, Otto Preminger, Darryl F. Zanuck, Bertolt Brecht, Bert Lahr, Robert Altman, and Muhammad Ali, Lardner recalls the strange existence of a contract screenwriter in the vanished age of the studio system—an existence made stranger by membership in the Hollywood branch of the American Communist Party. Lardner retraces the path that led him to a memorable confrontation with the House Un-American Activities Committee and thence to Federal prison and life on the Hollywood blacklist. One of the lucky few who were able to resume their careers, Lardner won his second Oscar for the screenplay to *M.A.S.H.* in 1970.

[The Oxford Desk Thesaurus: American Edition, Laurence Urdang](#) , 1995, 0195099605, 9780195099607. When The Oxford Thesaurus: American Edition appeared in 1992, it was hailed as a milestone in the evolution of the thesaurus. It rapidly established itself as the most authoritative, precise, up-to-date, and helpful synonym guide available. Now this superb volume has been condensed, producing an ideal reference for those who need a more portable and affordable thesaurus, one that is quick and handy to use--The Oxford Desk Thesaurus. As in the parent volume, the main entries are selected for their frequency in the language and are arranged alphabetically so that you can instantly turn to the word you have in mind. If an entry has more than one sense, the ODT shows the synonyms by group. For instance, under the headword order, those synonyms meaning "arrangement" are in one group, those meaning "command" are in another; within a group, synonyms are listed according to frequency of use (e.g., command, directive, edict, behest, ukase, fiat, etc.). Each sense group in an entry is illustrated with a sample sentence, so you can be sure you are making your selection from the right list of alternatives. A unique cross-referencing system clearly shows which synonyms in a list are themselves main entries. Labels identify those words that are used in special ways--not only colloquial, taboo, archaic, technical, or slang expressions, but also American and British usage--so that writers can avoid errors of diction (such as using colloquial words in formal writing). Finally, for those desiring a richer vocabulary, Urdang supplements the standard synonyms with unusual words and phrases. Concise and easy to use, up to date and authoritative, The Oxford Desk Thesaurus is ideal for home or office, for busy executives on the go, and for students, too. It is an essential tool for

anyone who wants to write with more variety, color, and precision.

[SECRETS OF LIFE, Aida Getachew](#) , 2012, 1466969970, 9781466969971. Beryl, in her mind, is a normal teenage girl who goes through the normal everyday perils every normal girl goes through. That is until her teacher, of all people, gives her potentially-life-changing news that she is a psychic and a mind reader. Her ancestors were part of a race of people who had special gifts, and the ability to have these gifts was passed down through the generations. A war resulted in them being nearly wiped out from earth, and there was only one survivor Aya, Beryl's great-great-great-grandmother. Because she was the last of her kind, the special abilities got rarer as Aya's descendants had human blood. Beryl and her teacher is one of Aya's few descendants to have a gift, and in her case, she can read the future and minds. When the war resulted in Aya losing her family and her home, she got depressed, so she did what she did best she used magic. She created the Scroll of Elysium, which contains all the love and hope in the world. She distributed happiness fairly and justly, but word got out of what she had done. Aya decided that it was no longer safe for the Scroll of Elysium to be used, so she hid it away. The Scroll of Elysium can be used by anyone; whether they use it for good or for bad does not

matter. It was stolen long after she died by a man she once loved, so once she got it back, she hid it away in a safer place. That same man is back again, and now he wants the Scroll of Elysium for good. However, Aya has set enchantments on the Scroll of Elysium, which means that it cannot be handled by anyone who is not her descendant, and that is where Beryl comes in. She has to try and stop him before he finds a gifted descendant and uses the Scroll of Elysium for evil again. And he will do anything to get the Scroll of Elysium again.

On January 25, 1904, a massive explosion ripped through a mine beneath the town of Harwick, Pennsylvania, killing all but one of the 180 men below ground. Andrew Carnegie, then retired and living in New York, was moved by the disaster, particularly the selfless acts of two men who died in failed rescue attempts. Within six weeks he was hard at work establishing the Carnegie Hero Fund Commission, which both redefined what it meant to be a hero and helped to establish modern philanthropy. In the past hundred years, the Carnegie Hero Fund Commission has awarded over 8,700 medals for heroism and distributed nearly USD27 million in awards, grants, tuition, and other assistance. heady days when a handpicked group of men set out to design a new organization under the intense glare of media attention to the present - and offers unique insights into how it investigates and authenticates the hundreds of acts of heroism reported each year. It is the heroes' stories themselves that form the heart of the book - profiles of more than one hundred ordinary men and women who risked their own lives to save those of others. In these pages you'll meet A. James Jimmie Dyess, the only person to be awarded both the Carnegie Medal and the Medal of Honor, and Louis A. Baumann, Jr., a seventeen-year-old boy who was awarded the very first Carnegie Medal. commission to have been twice named heroes: Henry Naumann of Hammond, Indiana, John James O'Neill, Sr., of Yonkers, New York, Rudell Stitch, of Louisville, Kentucky, and Daniel Elwood Stockwell of Phippsburg, Maine, and later of East Swansey, New Hampshire. Medals have been awarded fifteen times for rescues performed on the Niagara River, just above the falls. Between July 11, 1904, when Daniel Davis died attempting to save a fellow miner from suffocation in Sherodsville, Ohio, to September 23, 2001, when twelve men died trying to save a coworker in the wake of a methane explosion in a mine near Brookwood, Alabama, the commission has awarded more than 150 medals to brave and unselfish individuals who took part in mine rescues. participated in relief efforts following national and international disasters, such as the San Francisco earthquake of 1906, the sinking of the Titanic, the crash of Air Florida Flight 90 in the Potomac River, and the terrorist attacks of September 11, 2001. For the most part, however, the commission's work has focused on recognizing smaller acts of heroism which did not capture the attention of the country as a whole. Carnegie Heroes have saved - or attempted to rescue - people from burning buildings, rabid dogs, attempted murders, cave-ins, drownings, avalanches, and other perils. hundredth anniversary, A Century of Heroes is both an homage to the thousands of men and women who have demonstrated their willingness to sacrifice everything for other human beings, and a lavishly-illustrated celebration of the unexpected heroes who walk among us.

[Extradition: Law and Practice, Ivor Stanbrook, Clive Stanbrook](#) , 2000, 0198268173, 9780198268178. The second edition of this book is long overdue. The first edition was published before Mr Justice Goff's landmark judgment in re Nielson, the passing of the 1989 Extradition Act, the implementation of the European Convention on Extradition, and the UK's adoption of the European Convention on Human Rights. These developments reflect the strong political forces and emerging political structures of the last twenty years. This edition puts the development of the UK's extradition law into its political and evolutionary context. Drawing from the practice and law of many countries, the authors illustrate the growing convergence of international principles of extradition. In some areas this convergence responds directly to new political structures such as the European Union. In others to the increasing influence of norms of international law in the area of human rights. This area in particular will increasingly influence the development of extradition both in the UK and elsewhere. The UK's incorporation of the European Convention on Human Rights guarantees this trend and now requires practitioners in the UK to have regard to the growing international jurisprudence in this area. This book is the first in this

field to grasp this development and it devotes a full chapter to the new human rights dimension in extradition. Despite the impressive development of extradition since the first edition, the Authors do not believe that UK extradition law is well equipped to deal with the ever increasing volume of international crime. Conservatism, suspicion of foreigners, and a misplaced inherent distrust of civil law systems prevent the UK from having much influence on the international development of extradition. An international based system is essential and in any case inevitable. It would be infinitely preferable for the UK to be in the vanguard of the development rather than - as so often these days - a late arrival. The Authors, both barristers, bring an unusually broad insight to their work. Ivor Stanbrook, then an MP, was on the Common Committee that scrutinized the Extradition bill that subsequently became the 1989 Extradition Act. Clive Stanbrook practices primarily in Brussels specialising in European Union Law as well as Human Rights Law.

[New Vocal Repertory: An Introduction, Volume 1, , Jane Manning](#) , 1994, 0198164130, 9780198164135. This book is an excellent introduction to part of the contemporary solo vocal repertoire from one of the outstanding vocalists of our time. Jane Manning has chosen over seventy English-language songs, written by a wide range of composers, predominantly British and American, and draws on her considerable experience as performer and lecturer to introduce them to recitalists and young singers. For each she gives a brief description, capturing the essence of the performance, showing where potential problems lie and how best to approach them. Some 100 musical examples illustrate the text. Songs are carefully graded into six parts, moving from the straightforward to the complex, and all voice types are represented. Jane Manning also makes suggestions on how to program each piece in a recital and gives full details on obtaining scores. Her book is thus indispensable to singers of all levels of ability, who will find a repertoire they perhaps considered difficult illuminated by this enthusiastic and refreshingly clear guide.

Wendy Morton has probably done more to bring poetry and publicity together than any other living Canadian. Since 2001, she has relentlessly taken poetry out of bookstores and coffeeshops, out onto the street--"even into the air!"--bringing corporate sponsors, poets and audiences together in new and exciting ways. Including fourteen complete poems by Morton, the memoir outlines her journey from private eye to poet to WestJet's Poet of the Skies and DaimlerChrysler's Poet of the Road, along with other ways Morton has taken poetry public all across Canada. This accessible and exciting memoir is a journey into believing the impossible, and encourages dreamers of all sorts to make positive change based on flights of fancy.

[How to Build Treehouses, Huts & Forts,](#) , 2003, 1592281923, 9781592281923. A treehouse is a wonderful idea, but how in the name of creation do you actually build one? In this delightfully illustrated handbook, David Stiles, the unofficial world grandmaster of the treehouse, shows how. Not assuming anything about the treehouse builder, Stiles starts with the basics: how to nail, how to buy wood, what kind of screws and nails to use. Then it's on to an A-frame design so simple that it can be built in a weekend out of four sheets of plywood, followed by lean-tos, a tree hut, and a Tarzan-style jungle hideaway. There are also forts of every description, including a 21-foot-tall lookout tower modeled on one

George Washington built to keep an eye on the redcoats. Stiles also adds a design for a snowball catapult, an igloo and even a Nerf-loaded cannon. Written for children, with an adult peeking over their shoulder, Stiles's TREEHOUSES, HUTS, & FORTS is a dreamer's handbook, offering practical results.

[The Blizzard of '78, Michael Tougias](#) , 2003, 0971954755, 9780971954755. New England was knocked to its knees on February 6th and 7th, 1978, by the incredible snow and wind referred to locally as the worst storm of the century, and this history combines stunning photographs with riveting text to reawaken memories of the "Blizzard of '78." Chronicling the period before the storm, the book then follows it through its progression, as it caused commuter nightmares and

wreaked devastation. From Cape Cod to Connecticut, from Rhode island to Route 128, it explains how people survived the storm by spending more than 48 hours in their cars, and how coastal homes were torn from their foundations and smashed to smithereens by the vicious surf. The book records the brighter sides of the blizzard too, including neighborhood parties, cross-country skiing down abandoned highways, and the many ways that people pitched in to help total strangers. Intriguing analysis also compares the Blizzard of '78 with the Great Blizzard of 1888. This book will be cherished by anyone who survived the Blizzard of '78, as well as those spellbound by its legend.

[Why Marriage Matters: America, Equality, and Gay People's Right to Marry, Evan Wolfson](#) , 2007, 141658322X, 9781416583226. Why Marriage Matters offers a compelling and clear discussion of a question at the forefront of our national consciousness. It is the work of a brilliant civil rights litigator who has dedicated his life to the protection of individuals' rights and our Constitution's commitment to equal justice under the law. Above all, it is a thoughtful, straightforward book that brings into sharp focus the human significance of the right to marry in America -- not just for some couples, but for all. Whatever your personal beliefs, we all can agree that marriage equality provokes both passion and tension, and looms large in our nation's politics. Marriage means many things to many people -- emotionally, spiritually, intellectually -- but in these pages, Evan Wolfson demonstrates a truth that is undeniable: Marriage is the legal gateway to a vast array of tangible and intangible protections, responsibilities, and benefits, most of which cannot be replicated in any other way. Wolfson is a formidable legal thinker who has participated in landmark cases to end race discrimination in jury trials, to secure the rights of battered married women, and to challenge the abuse of power at the highest level in government. Now, with extraordinary clarity, fascinating stories, and legal and historical examples, he

addresses the questions we as Americans are asking ourselves as we consider how marriage equality will affect our lives. Why is the word marriage so important? What are the stakes for America in this civil rights movement? How can people of different faiths reconcile their beliefs with the idea of marriage for same-sex couples? How will allowing gay couples to marry affect children? Here you will find thorough, honest answers -- some that may surprise you, some that will persuade you, many that will move you. Wolfson recalls the history of past battles over marriage and movements for equality, and articulates the everyday acts of discrimination that frame this current movement -- acts of discrimination that, if faced by non-gay Americans, would provoke a resounding cry of injustice. Marriage matters because it is a foundation upon which most Americans build dreams. It is the cornerstone of commitment one individual makes to another -- a commitment we are taught is the highest expression of love, dedication, and responsibility. In this, the most powerful, authoritative, and fairly articulated book on the subject, Wolfson demonstrates why the right to marry is important -- indeed necessary -- for all couples and for America's promise of equality.

[Creating Leaderful Organizations: How to Bring Out Leadership in Everyone, Joseph A. Raelin](#) , 2003, 1609941934, 9781609941932. The times demand a new style of leadership. Employees today are highly trained and independent--they can offer much more to an enterprise than simply their obedience. And with the relationship between worker and organization constantly changing, no one person will likely be able to lead alone. Creating Leaderful Organizations presents a paradigm of leadership tailored to our times, one that is based on mutual--rather than heroic--leadership. It is not merely consultative, with leaders graciously allowing followers to participate in leadership, nor is it a stewardship approach in which the leader occasionally steps aside to allow others to take over temporarily. It is a revolutionary new approach that transforms leadership from an individual property to a collective responsibility. Raelin details how "leaderful" practice can accomplish the critical processes of leadership more effectively than any existing approach. And using actual examples from leading-edge organizations, he offers practical guidance for assessing your own and others' leaderful predisposition, preparing for leaderful practice, distributing leadership roles, and dealing with resistance to change.

A Real-Life Field Guide to Doing What Jesus DidThe things Jesus did are not just for Bible times. They are for today. For everyone. Chicagoland pastor Robby Dawkins sees this again and again in his ministry to hurting people and even to gang members. Everyday people are seeing God's power unleashed through

simple faith in God's Word; they are healing the sick, routing demons, and making a dynamic impact for the Kingdom of God. But many other believers are missing out, unaware that they have far more power and authority than they realize. Dawkins shares dynamic, real-life instruction and amazing stories from the front lines of ministry, showing that believers carry the authority of the Son of God and the power of the Holy Spirit wherever they are. [Lorine Niedecker: Collected Works, Lorine Niedecker](#) , 2002, 052093542X, 9780520935426. "The Bronts had their moors, I have my marshes," Lorine Niedecker wrote of flood-prone Black Hawk Island in Wisconsin, where she lived most of her life. Her life by water, as she called it, could not have been further removed from the avant-garde poetry scene where she also made a home. Niedecker is one of the most important poets of her generation and an essential member of the Objectivist circle. Her work attracted high praise from her peers--Marianne Moore, William Carlos Williams, Louis Zukofsky, Cid Corman, Clayton Eshleman--with whom she exchanged life-sustaining letters. Niedecker was also a major woman poet who interrogated issues of gender, domesticity, work, marriage, and sexual politics long before the modern feminist movement. Her marginal status, both geographically and as a woman, translates into a major poetry.

Niedecker's lyric voice is one of the most subtle and sensuous of the twentieth century. Her ear is constantly alive to sounds of nature, oddities of vernacular speech, textures of vowels and consonants. Often compared to Emily Dickinson,

Niedecker writes a poetry of wit and emotion, cosmopolitan experimentation and down-home American speech. This much-anticipated volume presents all of Niedecker's surviving poetry, plays, and creative prose in the sequence of their composition. It includes many poems previously unpublished in book form plus all of Niedecker's surviving 1930s surrealist work and her 1936-46 folk poetry, bringing to light the formative experimental phases of her early career. With an introduction that offers an account of the poet's life and notes that provide detailed textual information, this book will be the definitive reader's and scholar's edition of Niedecker's work.

First published in 1983, this book has been widely acknowledged as a pathbreaking work on the social and economic history of colonial India. It traces the evolution of north Indian towns and merchant communities from the decline of Mughal dominion to the consolidation of Britain's empire in India following the 1857 'mutiny'. The first section of the book looks at the response of the inhabitants of the Ganges Valley to the 'time of troubles' in the eighteenth century. The second section shows how the incoming British were themselves constrained to

build their new empire on this resilient network of towns, rural bazaars and merchant communities; and how in turn colonial trade and administration were moulded by indigenous forms of commerce and politics. The third section focuses on the social history of the towns under early colonial rule and includes an analysis of the culture and business methods of the Indian merchant family. It is based in part on the private records and histories of the business people themselves. This edition has been specially produced for Indian readers. It carries a new and substantial epilogue, not available in earlier printings, which examines the historiography on colonial India over the last ten years.

He explains that emotions such as shame, regret, fear, and disappointment can stand in the way of the intimate association God wants with His children. The good news is that when His people are struggling, God stays close. There are many ways to reestablish a dynamic connection with Him. Schuller calls these "Connection Corrections" and leads readers through identifying communication barriers and how to break them. Each chapter delves into the reasons readers fail to connect with God, how to begin repairing the broken wires, and the life-altering benefits of restoring a positive, power-filled relationship with Him. Readers who feel adrift from God will no find that no barrier is too big to keep them from a close, loving relationship with Him.

9780964263307. TRUE ESOTERIC TRADITIONS is a hard-bound book written, over more than 30 years, by a lawyer-historian that traces the source of Western cultural values back to Egypt. The Introduction is written by Dr. Albert Doss, an Egyptian psychiatrist, Freemason, & Rosicrucian. The book refutes academics who say that the Exodus by Moses out of Egypt is only a myth, & gives new time & place that it did happen. That Exodus also explains the mystery & location of King Solomon's gold mines as being in Northern Saudi Arabia. It also refutes that Jesus died on a cross in Israel in AD 33 & says that he lived to be an old man & died in India. A picture of his grave site in India is included. This book is very kind to Freemasons & Rosicrucians but is very tough on the Christian churches & accuses them of not following the teachings of Jesus. It could be controversial & is already being translated into other languages. This is one of the most compact books you will ever read. It has a thousand pages of information condensed into 350 pages & should be in every library. It sells for \$29.00 US.

[Concepts of Mass in Contemporary Physics and Philosophy, Max Jammer](#) , 2009, 1400823781, 9781400823789. The concept of mass is one of the most fundamental notions in physics, comparable in importance only to those of space and time. But in contrast to the latter, which are the subject of innumerable physical and philosophical studies, the concept of mass has been but rarely investigated. Here Max Jammer, a leading philosopher and historian of physics, provides a concise but comprehensive, coherent, and self-contained study of the concept of mass as it is defined, interpreted, and applied in contemporary physics and as it is critically examined in the modern philosophy of science. With its focus on theories proposed after the mid-1950s, the book is the first of its kind, covering the most recent experimental and theoretical investigations into the nature of mass and its role in modern physics, from the realm of elementary particles to the cosmology of galaxies. The book begins with an analysis of the persistent difficulties of defining inertial mass in a noncircular manner and discusses the related question of whether mass is an observational or a theoretical concept. It then studies the notion of mass in special relativity and the delicate problem of whether the relativistic rest mass is the only legitimate notion of mass and whether it is identical with the classical (Newtonian) mass. This is followed by a critical analysis of the different derivations of the famous mass-energy relationship  $E = mc^2$  and its conflicting interpretations. Jammer then devotes a chapter to the distinction between inertial and gravitational mass and to the various versions of the so-called equivalence principle with which Newton initiated his Principia but which also became the starting point of Einstein's general relativity, which supersedes Newtonian physics. The book concludes with a presentation of recently proposed global and local dynamical theories of the origin and nature of mass. Destined to become a much-consulted reference for philosophers and physicists, this book is also written for the nonprofessional general reader interested in the foundations of physics.

Her dear friend Bridget is brutally murdered next to her backyard swimming pool, and the sole witness is Brianna, her five-year-old daughter. The primary suspect is Bridget's husband, Kip--the volatile creative genius behind the couple's computer games company, Pandora. Bridget surprised everyone--especially Kip--when she left her majority stake in Pandora not to her husband, but to her daughter. And she named Iris as administrator of Brianna's trust. Suddenly, Iris must deal with conflicting emotions as the evidence mounts against Kip and she finds herself responsible for the financial future of a little girl--and maybe even the five-year-old's life. Richardson](#) , 2011, 0984216596, 9780984216598. There's a well-known quote that states that "prediction is hard, especially about the future." Well, it's equally as true, if considerably less clever, to state that complexity is hard, especially about the real world.It's somewhat ironic that a discipline that draws so much on real world phenomena, arguing against the oversimplification of models, has had limited impact on business/social modeling. While many of the more beguiling concepts have embedded themselves in everyday language, complexity thinking, as a formal discipline, is clearly much less widespread. There are islands of success, but the intellectual tectonic shifts required to make them continents have not been forthcoming. This collection is the start of an attempt to redress the balance. Each of the 19 chapters attempts to build a bridge from concepts to application. We'd be deluding ourselves, and misleading the reader, if we claimed that these pages contain off-the-shelf tools that can be applied by those with no background in complexity science. However, we hope that this collection provides inspiration to those who wish to take complexity to the masses.

The story of Desdemona from Shakespeare's Othello is re-imagined by Nobel Prize laureate Toni Morrison, Malian singer and songwriter Rokia Traor, and acclaimed stage director Peter Sellars. Morrison's response to Sellars 2009 production of Othello is an intimate dialogue of words and music between Desdemona and her African nurse Barbary. Morrison gives voice and depth to the female characters, letting them speak and sing in the fullness of their hearts. Desdemona is an extraordinary narrative of words, music and song about Shakespeares doomed heroine, who speaks from the grave about the traumas of race, class, gender, war and the transformative power of love. Toni Morrison transports one of the most iconic, central, and disturbing treatments of race in Western culture into the new realities and potential outcomes facing a rising generation of the 21st century.

[Beyond Great Walls: Environment, Identity, and Development on the Chinese Grasslands of Inner Mongolia, Dee Mack Williams](#) , 2002, 0804742782, 9780804742788. This is an ethnographic study of a community of Mongolian herders who have been undergoing dramatic environmental and social transformations since 1980. It provides a rare window of observation into a fascinating and important, though remote and relatively understudied, region of modern China, and documents some of the unintended harmful consequences of decollectivization and economic development. Initially, the

book presents a case study of land degradation and shows how competing social and cultural forces at the local, national, and international level actively shape that process. More broadly, it focuses on local experiences of modernization and the ways that marginalized people creatively appropriate alien technologies to serve their own ethnic identity and cultural renewal. The book aims to deepen our understanding of environmental change as a social process by exploring significant tensions between such symbolic dichotomies as Chinese/Mongol, farmer/herder, private/collective, development/conservation, Western/Asian, and scientific/indigenous. It argues that the reconstruction of local landscape cannot be separated from the social context of economic insecurity and political fear, nor from the cultural context of group identity and environmental symbolism. Ideologically informed perceptions of the land prove to be highly relevant in both shaping and contesting international development agendas, national grassland policies, and the daily practices of local production. In presenting the full range of material and symbolic stakes now in play on the Chinese grasslands, the book demonstrates that human-land interactions involve social dimensions on a global scale of widely underestimated complexity. Throughout, the author draws from his extensive fieldwork to enrich his study with poignant (and sometimes humorous) anecdotes and biographical sketches.

When the ship that carried Jacob Brookover from the land of his birth sailed into Chesapeake Bay, he found himself alone in a strange land at the age of sixteen. LaVerne tells how succeeding generations spread out in all directions from the eastern seaboard to the Pacific Ocean, and goes on to write about her eighty-five years, living through a time of accelerated cultural changes. As LaVerne puts it, "Although the present is all we have because yesterday is gone and tomorrow is not yet, I can't help being interested in the past ? it helped shape me and the circumstances under which I live today. My DNA and the culture into which I was born came down to me from countless sources, each one contributing to the person I became." [The Human Odyssey: Four Million Years of Human Evolution, Ian Tattersall](#) , 1993, 0671850059, 9780671850050. Three and a half million years ago, two upright figures walked together across the Laetoli desert in Tanzania, their footsteps captured forever in volcanic ash. Were these remarkable footprints made by one of our earliest ancestors, and what can they tell us about the human evolutionary journey? This is just one of the puzzles of the compelling story of human evolution explored in this volume. Based on the new Hall of Human Biology and Evolution at the American Museum of Natural History, the most extensive exhibition of the subject ever designed, The Human Odyssey examines how both significant fossil finds and startling new theories have been used by scientists to trace the path of human evolution. Here are the stories behind such famous fossil discoveries as Gigantopithecus, the "Black Skull", "Java Man", and "Lucy", and the surprising clues they reveal about the date and place of human origins. Here too are the bold theories and controversies that have influenced the field of evolution, from the idea of natural selection put forth by Charles Darwin to the new role that DNA analysis plays in fossil research. Illustrated throughout with more than a hundred photographs, drawings, maps, and stunning artistic re-creations of early humans and their environment, The Human Odyssey is virtually a portable museum devoted to this fascinating subject. Drawing from the latest research in both the laboratory and the field, it clearly illuminates some of the most provocative questions scientists have ever asked: Where did we come from, and how did we become what we are today?

[White Bound: Nationalists, Antiracists, and the Shared Meanings of Race, Matthew Hughey](#) , 2012, 0804776954, 9780804776950. Discussions of race are inevitably fraught with tension, both in opinion and positioning. Too frequently, debates are framed as clear points of opposition versus them. And when considering white racial identity, a split between progressive movements and a neoconservative backlash is all too frequently assumed. Taken at face value, it would seem that whites are splintering into antagonistic groups, with differing worldviews, values, and ideological

stances. White Bound investigates these dividing lines, questioning the very notion of a fracturing whiteness, and in so doing offers a unique view of white racial identity. Matthew Hughey spent over a year attending the meetings, reading the literature, and interviewing members of two white organizationsa white nationalist group and a white antiracist group. Though he found immediate political differences, he observed surprising similarities. Both groups make meaning of whiteness through a reliance on similar racist and reactionary stories and worldviews.On the whole, this book puts abstract beliefs and theoretical projection about the supposed fracturing of whiteness into relief against the realities of two groups never before directly compared with this much breadth and depth. By examining the similarities and differences between seemingly antithetical white groups, we see not just the many ways of being white, but how these actors make meaning of whiteness in ways that collectively reproduce both white identity and, ultimately, white supremacy.

Until the lucky one, who is saved. The even more interesting question is: why did Mrs Bluebeard feel utterly unable to resist opening the door? Don't we all think, when it comes to these stories, that we'd have made it work? So much freedom, and one tiny forbidden thing. Not important, a token in fact. So easy to obey so small a prohibition. We think, if I had been Eve I wouldn't have picked the fruit of the tree of the knowledge of good and evil, I wouldn't have given a piece to Adam. I and my progeny down the millennia would still be multiplying fruitfully in the Garden of Eden.' Life in all its richness is reflected in this superb new collection from one of Australia's most acclaimed short story writers. Love and loss, sex and death, and the great pleasures of food, wine and reading all populate its pages. Shooting the Fox is brimming with surprising characters - the virgin and the pornographer, the adulterer, the translator, the defecting diplomat - and the inconveniences of modernity. In the end, though, it is a collection of stories about happiness, its circuitous routes, its surprising outcomes, and the consequences when we fail in its pursuit.

[Adventures in Reading Cormac McCarthy, Peter Josyph](#) , 2010, 0810877082, 9780810877085. Regarded by many as one of America's finest-living writers, Cormac McCarthy has produced some of the most compelling novels of the last 40 years. Through the increasing number of cinematic adaptations of his work, including the Oscar-winning No Country for Old Men, and the Pulitzer Prize for The Road, McCarthy is entering the mainstream of cultural consciousness, both in the United States and abroad. In Adventures in Reading Cormac McCarthy, Peter Josyph considers, at length, the author's two masterworks Blood Meridian and Suttree, as well as the novel and film of All the Pretty Horses, McCarthy's play The Stonemason, and his film The Gardener's Son. The book also includes extended conversations with critic Harold Bloom about Blood Meridian; novelist and poet Robert Morgan about The Gardener's Son; critic Rick Wallach about Blood Meridian; and Oscar-winning screenwriter Ted Tally about his film adaptation of All the Pretty Horses. Drawing on multiple resources of an unconventional nature, this book examines McCarthy's work from original and sometimes provocative perspectives. Proposing a new notion of criticism, Adventures in Reading Cormac McCarthy will become a useful tool for critics, students, and general readers about one of the great literary talents of the day.

[After the Rain - Motherwork: A Two-in-One Design with Two Separate Titles, Feather Touch Press, Joanie Melanie Virgil](#) , 2002, 0972391290, 9780972391290. AFTER THE RAIN acknowledges that life and death are joined at the hip - even as day follows night, and joy tastes sweeter after sorrow. No matter our station in life, or who or how we love, it's probably safe to say that we all want the same things: health, work that matters, spiritual connected, and love. The material in

this collection strikes every nerve; some pieces are light-footed, while others are heavy hearted, but all are designed to engage the reader and draw him in and out. MOTHERWORK takes a long look at the prism that defines parenthood - depending how the light hits - and where you're standing. Our child, no matter his age, has a knack for making us laugh from our toes up and bringing us to our knees - in turn, and all at once. Parenting demands all what we have, and all that we are, and when we're used up, and have it up to here, it asks for more. But always, mothering well is a worthy pursuit. It broadened and deepened us - and makes us better.

The result is a wonderfully comic work with serious psychological and literary insights which suggestsnothing less than a short story by the Great Master, James, himself.

In his first adventure, Gorilla City, Charlie wrestles a deadly river croc, rides a steam-powered rhino, and becomes tribal chief in a city of gorillas.

[The Rise of the To-Infinitive, Bettelou Los](#) , 2007, 0199208735, 9780199208739. This book describes the historical emergence and spread of the to-infinitive in English. It shows that to + infinitive emerged from a reanalysis of the preposition to plus a deverbal nominalization, which spread first to purpose clauses, then to other nonfinite environments. The book challenges the traditional reasoning that infinitives must have been nouns in Old English because they inflected for dative case and can follow prepositions. Dr Los shows that, even as early as Old English, the to-infinitive was established in most of the environments in which it is found today. She argues that its spread was largely due to competition with subjunctive that-clauses, which it gradually replaced. Later chapters consider Middle English developments. The author provides a measured evaluation of the evidence that to undergoes a period of degrammaticalization. She concludes that the extent to which to gains syntactic freedom in Middle English is due to the fact that speakers began to equate it with the modal verbs and therefore to treat it syntactically as a modal verb. The exposition is clear and does not assume an up-to-date knowledge of generative theory. The book will appeal to the wide spectrum of scholars interested in the transformation from Old to Middle English, as well as those studying the processes and causes of syntactic change more generally.

To the attentive user even the simplest map can reveal not only where things are but how people perceive and imagine the spaces they occupy. Mapping Boston is an exemplar of such creative attentiveness--bringing the history of one of America's oldest and most beautiful cities alive through the maps that have depicted it over the centuries. The book includes both historical maps of the city and maps showing the gradual emergence of the New England region from the imaginations of explorers to a form that we would recognize today. Each map is accompanied by a full description and by a short essay offering an insight into its context. The topics of these essays by Anne Mackin include people both familiar and unknown, landmarks, and events that were significant in shaping the landscape or life of the city. A highlight of the

book is a series of new maps detailing Boston's growth. The book also contains seven essays that explore the intertwining of maps and history. Urban historian Sam Bass Warner, Jr., starts with a capsule history of Boston. Barbara McCorkle, David Bosse, and David Cobb discuss the making and trading of maps from the sixteenth to the nineteenth century. Historian Nancy S. Seasholes reviews the city's remarkable topographic history as reflected in maps, and planner Alex Krieger explores the relation between maps and the physical reality of the city as experienced by residents and visitors. In an epilogue, novelist James Carroll ponders the place of Boston in contemporary culture and the interior maps we carry of a city.

In All Things Wild and Wonderful, Kobie Kruger brings us further stories of her life in the Kruger National Park, where her husband was a game ranger. After eleven years in the remote Mahlangeni region they are transferred, first to Crocodile Bridge and then to Pretorius Kop. Fully at peace in the wild and lonely landscapes of the north, Kobie fears she will never adapt to the relatively people-populated southern area. It takes time, but eventually she is able to acknowledge that the move has shown her 'other Edens' and has given her a store of new and precious memories. Foremost among her memories is the unique experience of raising Leo, an abandoned lion cub. It is a fascinating and emotional encounter with the king of the beasts, which brings her and her family equal measures of joy and sorrow. Written with her usual warmth and humour, and imbued with her love of the wilderness and all its inhabitants, this new book is truly a celebration of all things wild and wonderful.

[Martin Martin's on the Other Side, Mark Wernham](#) , 2009, 0099516020, 9780099516026. An episode of Porn Disco, the latest luxury Dermo Shower, a day's work at the Security Department and fistfuls of drugs: this is the daily life of Jensen Interceptor, "ace" government spy. Fresh out of Study Centre 16, Jensen is ambitious; he wants to pay off his student debts as soon as possible and blag his way to the top, helping the government instil its dream and mantra: Unity and Success. And there will be other rewards: a life of government-sanctioned vice is guaranteed, he'll get to live out his days in the floodlit safety of south London, never venturing into the wastelands of the north with its povos and tramps. His first assignment is a simple one: keep an eye on Reg Rankin, a low-level security threat and leader of the Martin Martinists, a small group who believe that Martin Martin, a phoney TV psychic consigned to the daytime schedules back in 2008, was the saviour and a prophet. He was about to reveal world-altering truths. Then the government murdered him. Now the Martin Martinists are plotting the Revelation, which will finally bring justice, truth, revenge. With the help of the Makeover Team, Jensen acquires a new identity and infiltrates this small cell. And this isn't without its benefits - there's a pretty girl called Claire. Then the floating starts. Jensen floats out of the window. Or he suddenly finds himself underwater but thousands of feet above the ground. Or he shuts his eyes and finds himself in the past, in the TV studio

with Martin Martin. The world is not what it seemed. It is turned upside down, sometimes literally.

[George Herms: Then and Now, Fifty Years of Assemblage, George Herms](#) , 2002, 0971928908, 9780971928909. One of the founding members of the California Assemblage movement in the 1950s (alongside Wallace Berman, Bruce Conner and Jess), George Herms uses the most weather-worn, battered, junked-up materials for his assemblages, forging a style that was to greatly influence Pop art in America and presage Nouveau Realisme in France. Herms pushes the limits of assemblage to exciting extremes, making gentle, sometimes funny statements. "Then and Now" surveys his earliest documented work alongside recent works, and is the most substantial publication on Herms.
