[The Hidden Passion: A Novel of the Gnostic Christ Based on the Nag Hammadi Texts, L. Caruana](#) , 2007, 0978263707, 9780978263706. This is the tale of the Gnostic Christ, based on the ancient sources. In a compelling narrative, L. Caruana seamlessly weaves over 1500 sayings from the Nag Hammadi texts to recount The Hidden Passion of the Gnostic savior. Wandering round Galilee, increasingly hailed as the Messiah of the Five Seals, the Gnostic savior preaches divine awakening through compassion. But he must still contend with Judas, his dark twin, and Magdalene, his promised bride. At once earthly and spiritual, the Nazarene's love for these two is finally transfigured into a higher, hidden passion. Each page of this novel rings with the authentic message of the lost gospels. By combining numerous narrative fragments from the Nag Hammadi texts, The Hidden Passion makes the Gnostic Gospels come alive. Complete with a map, diagram and glossary, this novel elucidates the Gnostic worldview in an eloquent, engaging narrative.

[Merchant to Romania: Business as Missions in Post-Communist Eastern Europe, Jeri Little](#) , 2009, 1846251710, 9781846251719. The year 1989 saw the fall of Communism in Eastern Europe. In Romania, a bloody revolution toppled dictator Nicolae Ceausescu, ending with his execution. Following these dramatic events, Jeri Little, a young entrepreneur from the white-collar business world of Orange County, California, felt the Lord was calling him to move to Romania to use his business skills in missions. He and his family arrived in Iasi in 1993 to begin the adventure of a lifetime. This is Jeri's amazing account of how the Lord has used Church Resource Ministries to birth a variety of business enterprises in Romania. This revealing narrative is laced with cultural and historical insights as Jeri describes each small step of faith in his journey towards establishing 'businesses as missions' in the former Communist bloc: earning money locally to fund ministries and plant churches in Romania and in neighboring Moldova.

[Trial and Error : The American Controversy Over Creation and Evolution: The American Controversy Over Creation and Evolution, Edward J. Larson Richard B. Russell Professor of History and Talmadge Professor of Law University of Georgia](#)

, 2002, 0198035233, 9780198035237. Trial and Error traces the coverage or lack thereof, of evolution in textbooks used in American public schools from the mid-1800s to the present. While the teaching of Darwinian evolution was common and not controversial in the late 19th century and into the early 20th century, the debates between evolutionists and creationists, those who argue that the Biblical theory of origins deserves equal treatment, have flared throughout the twentieth century--first in the 1920s, most famously in the Scopes trial; again in the 1960s, when the regional legislation banning the teaching of evolution was overturned, notably in Arkansas and Louisiana; and throughout the 1980s with various controversies over science textbooks, including California. Larson proposes to bring the subject up to the present through a discussion of recent trends, including the "intelligent design" movement, led by Phillip Johnson, a revised form of anti-evolutionism that gained popularity on college campuses; the impact of Michael Behe's versions of evolution; and

debates over what counts as evidence for and against evolution--all of which have influenced debates over science standards, particularly at state and local levels. This new chapter will chronicle anti-evolution actions in Kansas and elsewhere and counter-actions by the National Academy of Science and other anti-creationist groups. This updated classic work presents a balanced historical interpretation of legal and educational debates over evolutionism, and will appeal to those interested in the fields of history, religion, science, and law.

[Frontiers of Justice: Disability, Nationality, Species Membership, ISSN 0275-7656, Martha Craven Nussbaum](#) , 2006, 0674019172, 9780674019171. Theories of social justice are necessarily abstract, reaching beyond the particular and the immediate to the general and the timeless. Yet such theories, addressing the world and its problems, must respond to the real and changing dilemmas of the day. A brilliant work of practical philosophy, *Frontiers of Justice* is dedicated to this proposition. Taking up three urgent problems of social justice neglected by current theories and thus harder to tackle in practical terms and everyday life, Martha Nussbaum seeks a theory of social justice that can guide us to a richer, more responsive approach to social cooperation. The idea of the social contract--especially as developed in the work of John Rawls--is one of the most powerful approaches to social justice in the Western tradition. But as Nussbaum demonstrates, even Rawls's theory, suggesting a contract for mutual advantage among approximate equals, cannot address questions of social justice posed by unequal parties. How, for instance, can we extend the equal rights of citizenship--education, health care, political rights and liberties--to those with physical and mental disabilities? How can we extend justice and dignified life conditions to all citizens of the world? And how, finally, can we bring our treatment of nonhuman animals into our notions of social justice? Exploring the limitations of the social contract in these three areas, Nussbaum devises an alternative theory based on the idea of "capabilities." She helps us to think more clearly about the purposes of political cooperation and the nature of political principles--and to look to a future of greater justice for all.

[A City in Terror: Calvin Coolidge and the 1919 Boston Police Strike, Francis Russell](#) , 1975, 0807050334, 9780807050330. "The Boston Police Strike, long forgotten and too long ignored, is here described with great drama and verve by Francis Russell. It is an extraordinary moment in the history of Boston, as well as an important event in the nation's labor history." -Howard Zinn, author of *A People's History of the United States* On September 9, 1919, an American nightmare came true. The entire Boston police force deserted their posts, leaving the city virtually defenseless. Women were raped

on street corners, stores were looted, and pedestrians were beaten and robbed while crowds not only looked on but cheered. The police strike and the mayhem that followed made an inconspicuous governor, Calvin Coolidge, known throughout America, turning him into a national hero and, eventually, a president. It also created a monster: for two days, more than 700,000 residents of Boston's urban core were without police protection, and the mob ruled the streets. "Francis Russell is wonderfully aware of the subtle but important distinctions of class and neighborhood that have been so much a part of Boston's history. *A City in Terror* is well written, full of shrewd social analysis and cultural history, and provides an account that gives perspective to today's serious confrontations." -Robert Coles, *New York Review of Books* "Compelling and lively . . . *A City in Terror* has plenty of drama and heroes and villains. Russell is at home in the history of the era and in Massachusetts, and he tells his story well; *A City in Terror* makes stimulating reading." -David M. Reimers, *American Historical Review* "A fascinating study and social history of one of the strangest episodes in American labor history . . . as well as an unforgettable lesson in the machinations of big-city and state politics." -*The New Republic* Francis Russell was born in Boston, Massachusetts, in 1910. He attended Boston-area schools and during World War II was a captain in the Black Watch Royal Canadian Highlanders. He is the author of *Tragedy in Dedham: The Story of the Sacco and Vanzetti Case*, which won the Edgar Allan Poe Award from the Mystery Writers of America. Russell died in 1989.

[Quantum Gravity, ISSN 0950-5563, Claus Kiefer](#) , 2004, 0198506872, 9780198506874. The search for a quantum theory

of the gravitational field is one of the great open problems in theoretical physics. This book presents a self-contained discussion of the concepts, methods and applications that can be expected in such a theory. The two main approaches to its construction - the direct quantization of Einstein's general theory of relativity and string theory - are covered. Whereas the first attempts to construct a viable theory for the gravitational field alone, string theory assumes that a quantum theory of gravity will be achieved only through a unification of all the interactions. However, both employ the general method of quantization of constrained systems, which is described together with illustrative examples relevant for quantum gravity. There is a detailed presentation of the main approaches employed in quantum general relativity: path integral quantization, the background-field method and canonical quantum gravity in the metric, connection and loop formulations. The discussion of string theory centers around its quantum-gravitational aspects and the comparison with quantum general relativity. Physical applications discussed at length include the quantization of black holes, quantum cosmology, the indications of a discrete structure of spacetime, and the origin of irreversibility. This book will be of interest to researchers and students working in relativity and gravitation, cosmology, quantum field theory and related topics. It will also be of interest to mathematicians and philosophers of science.

[Poems of Ralph Waldo Emerson, Ralph Waldo Emerson](#) , 2004, 1420903977, 9781420903973. Ralph Waldo Emerson is best known as being a leader of the transcendentalist movement, a philosophy that emerged in the mid 19th century in New England. Transcendentalism was a general protest against established society and culture at the time that sought an ideal spiritual state that 'transcends' the physical and empirical and is only realized through the individual's intuition, rather than through the doctrines of established religions. In this collection, which includes such favorite poems as "The Rhodora," "Uriel," "The Humble-Bee," "Earth-Song," "Give All to Love," and "Concord Hymn", the reader will find Emerson's poetic expression of this philosophy. In total there are over 150 poems in this volume along with reproductions of the photogravures that accompanied the original edition.

Lessons from the latest studies in neuroscience on how to train your brain to be an effective leader and manager *
*Neuroscience discoveries that help executives lead and communicate more effectively, drive change more successfully, and supercharge their personal performance. *Leverage 'social intelligence' to guide colleagues toward more effective relationships. *Execute more crisply by clearing the pathways from thought to 'action orientation' to real action. What does neuroscience have to do with leadership? Everything. Recent advances in brain science and neuroimaging can dramatically improve the way leaders work with colleagues to drive successful change. As the brain is increasingly examined in the context of personal and organizational development, remarkable insights are being uncovered: insights that are leading to powerful new strategies for improving business execution. InYour Brain and Business, Harvard psychiatrist and executive coach Srinivasan S. Pillay illuminates the rapidly-emerging links between modern brain science and the corner office. Pillay reveals six powerful ways that brain science can be used by today's executives, and presents powerful new interventions for coaches who want to help their clients overcome common leadership problems. Discover how to use positive, 'strength-based' approaches to encourage the brain to learn... how the fascinating neuroscience of social intelligence can help leaders encourage more effective relationships... how to promote innovation and intuition, and overcome intangible vulnerabilities in leaders' brains... how to transform the 'idea' of change into crisp, timely execution... and much more. Leaders and coaches worldwide are already applying this knowledge to dramatically improve personal performance. Now, with Pillay's help, everyone can.

Probably because she says things Katie doesn't want to hear, and she only shows up when there's trouble. In 1861, Irish immigrant Hannah Donovan is unjustly accused of murdering her employer, Titus Foote. Hoping to leave memories of that awful time behind her, Hannah fled Connecticut and migrated south to Yorktown, Virginia. A century and a half later, a ghostly game of revenge ensues when Titus catches up to Hannah. He still believes she killed him and vows to annihilate her descendants. Cleve Farrington is the handsome new stranger in town, and it seems he has his eye set on Katie Hollister. But Katie has a secret, and it has nothing to do with the fact that she lives with the ghost of her great-great-great grandmother. Katie's secret is starting to unravel, and she finds that even her old friends Roland and Ella may not be able to help her in time. As revelations about Katie's obsession come to light, she is faced with enemies so powerful, they could destroy her - body and soul.

[I Do: A Cultural History of Montana Weddings](#), [Martha Kohl](#) , 2011, 0980129214, 9780980129212. Through engaging stories of romance, insightful analysis, and historic intriguing photographs, I Do: A Cultural History of Montana Weddings

provides an intimate and surprising look at an important tradition. I Do journeys through the last 150 years of Montana history, from the 1860s gold rush to the internet age, to reveal the lives of ordinary people, from Finnish homesteaders, Chinese restaurateurs, and Mtis fiddlers to struggling miners, Blackfeet students, and Jewish merchants. Along the way, readers will encounter fascinating stories: the couple who courted by mail for five years before managing to overcome the vast distance that separated them; the bride and groom who won a contest whose prize was an expenses-paid ceremony in the main pavilion at the 1905 Flathead County Fair; the sixteen-year-old schoolgirl who shimmied out of her bedroom window to elope with a high school classmate; and the lavish nuptials of Helena millionaire Thomas Cruse and his bride Margaret Cartera party so public, long-lasting, and jubilant that, according to one historian, in response to its excesses, it reinvigorated the local temperance movement. Whether celebrated in a cathedral, a courthouse, or an isolated cabin, weddings offer a glimpse of a time when lives, families, and communities join together. In the end, readers will find themselves more knowledgeable, both about Montanas vibrant, multicultural past and about one of Americas most enduring traditions and important rites of passage.

A stunning debut reminiscent of the beloved novels of John Hart and Tom Franklin, A Land More Kind Than Home is a mesmerizing literary thriller about the bond between two brothers and the evil they face in a small western North Carolina townFor a curious boy like Jess Hall, growing up in Marshall means trouble when your mother catches you spying on grown-ups. Adventurous and precocious, Jess is enormously protective of his older brother, Christopher, a mute whom everyone calls Stump. Though their mother has warned them not to snoop, Stump can't help sneaking a look at something he's not supposed toan act that will have catastrophic repercussions, shattering both his world and Jess's. It's a wrenching event that thrusts Jess into an adulthood for which he's not prepared. While there is much about the world that still confuses him, he now knows that a new understanding can bring not only a growing danger and evilbut also the possibility of freedom and deliverance as well.Told by three resonant and evocative charactersJess; Adelaide Lyle, the town midwife and moral conscience; and Clem Barefield, a sheriff with his own painful pastA Land More Kind Than Home is a haunting tale of courage in the face of cruelty and the power of love to overcome the darkness that lives in us all. These are masterful portrayals, written with assurance and truth, and they show us the extraordinary promise of this remarkable first novel.

[Social and Cultural Foundations of Counseling and Human Services: Multiple Influences on Self-concept Development, John J. Schmidt](#) , 2006, 0205403336, 9780205403332. "Social and Cultural Foundations of Counseling and Human Services" addresses the fundamental social and cultural foundations upon which counselors and other helpers develop the knowledge and skill to work effectively with diverse populations. A basic premise of this new text is that such foundational knowledge includes learning about self-concept development within a cultural and sociological context and about the impact that both individual differences and collectivistic philosophies have on cultural and personal identity. It distinctively features a social psychology perspective of diversity, complemented by an understanding of self-concept theory and its interaction with other models of identity development. Highlights of the First Edition: Maintains a balanced perspective on the impact of individualistic and collectivistic philosophies on a person's development. Utilizes a thorough treatment of social status variables that influence self-concept development, including race, ethnicity, sex, gender, sexual orientation identity, family, aging, spirituality, physical ability and disability, and social class. Provides concrete examples through exercises and narratives to help students understand the impact of specific social and cultural influences on personal development (Chapters 5-9). Contains "Counseling Inferences" sections at the end of every chapter to help summarize chapter content in the context of what it means for practicing counselors and human service providers. Provides information on and access to numerous Web sites that contain social and cultural topics (Appendix A).

This practical, engaging book introduces prospective and practicing teachers to K-12 content reading instruction. The Fifth Edition of this popular book includes an expanded, up-to-date focus on standards-based teaching and learning. Unlike any other book in the market, the content progresses from general practices, cycles, and settings of instruction, to units of instruction and specific lesson planning. Well-respected authors Dave Moore, Pat Cunningham, Sharon Moore, and Jim Cunningham speak to educators new to the idea of content area literacy instruction and focus on instruction that is aligned with state standards and tests, yet promote literacy that goes beyond that which is tested. Chapters on comprehension, vocabulary, writing, and studying include end-of-chapter applications that show how the practices apply to specific content areas such as science and mathematics.

[A Species in Denial, Jeremy Griffith](#) , 2004, 1741290015, 9781741290011. A SPECIES IN DENIAL is the revolutionary bestseller by Australian biologist Jeremy Griffith. In it the author addresses the crux issue before us as a species of the human condition, our capacity for good and evil, describing how humans have coped with the dilemma of the human condition by living in denial of it. Griffith then explains the biological reason for the human condition, thus ending the need for the denial and maturing humanity to psychological freedom from its historic insecure human-condition-afflicted state. With a foreword by Templeton Prize winning biologist Charles Birch, this book provides a deeply insightful examination of science, religion, politics, men and women, psychiatry and mythology.

[Weakness of Will in Renaissance and Reformation Thought, Risto Saarinen](#) , 2011, 0199606811, 9780199606818.

Weakness of will, the phenomenon of acting contrary to one's own better judgment, has remained a prominent discussion topic of philosophy. The history of this discussion in ancient, medieval, and modern times has been outlined in many studies. *Weakness of Will in Renaissance and Reformation Thought* is, however, the first book to cover the fascinating source materials on weakness of will between 1350 and 1650. In addition to considering the work of a broad range of Renaissance authors (including Petrarch, Donato Acciaiuoli, John Mair, and Francesco Piccolomini), Risto Saarinen explores the theologically coloured debates of the Reformation period, such as those provided by Martin Luther, Philip Melancthon, John Calvin, and Lambert Daneau. He goes on to discuss the impact of these authors on prominent figures of early modernity, including Shakespeare, Descartes, Spinoza, and Leibniz. While most of the historical research on weakness of will has focused on the reception history of Aristotle's *Nicomachean Ethics*, Saarinen pays attention to the Platonic and Stoic discussions and their revival during the Renaissance and the Reformation. He also shows the ways in which Augustine's discussion of the divided will is intertwined with the Christian reception of ancient Greek ethics, and argues that the theological underpinnings of early modern authors do not rule out weakness of will, but transform the philosophical discussion and lead it towards new solutions.

[Louis Benech: Twelve French Gardens,](#) , 2013, 2353401554, 9782353401550. .In this elegant and accessible book, the photographer Eric Sander and the journalist Eric Jansen offer a portrait of Louis Benech's gardens in all their beauty and

subtlety This book presents twelve French gardens designed by Louis Benech, from the Jardin du Soleil et des Nuages at the Chateau de Villandry to Square Nicolas Forestier in inner-city Paris, via an estate in the Sologne, a Normandy manor house, a Breton flower garden, an exotic oasis in central Paris, a project in the footsteps of Russell Page in Burgundy, and the gardens of the Chateau de Pange, officially recognized by the French Ministry of Culture as a jardin remarquable . In their wide diversity, these twelve gardens reflect the many facets of a remarkable talent that has earned Louis Benech worldwide recognition; perhaps they also herald a second volume devoted to a further twelve designs by Benech, this time selected from his work outside France? Louis Benech came to gardening through his love of plants. After studying law, he went to work at the famous Hillier Nurseries in England. Captivated by what he learned there, he returned to France to work as gardener in a private garden in Normandy. In 1985, he began his career as a garden designer and landscape architect. Five years later he was commissioned, with Pascal Cribier and Francois Roubaud, to redesign the historic part of the Tuileries gardens. Since then, he has designed and carried out some 300 projects, both public and private, and stretching from Korea to Panama, via Canada and the United States, Greece and Morocco. While most of his work has been for private individuals, he has also received commissions from large multinational companies such as Axa, Hermes and Suez. He has also worked on many established historic gardens, such as those at the Elysee Palace, the Ministry of Foreign Affairs on the Quai d Orsay in Paris, the chateau at Chaumont on the Loire, and the Achilleion in Corfu. Recent commissions have included the gardens of the Archives Nationales in Paris, and the creation of a new garden in the Bosquet du Theatre d Eau at the Palace of Versailles. In all of his projects, Louis Benech sets out to create a genuinely harmonious relationship between his landscape design and the natural and architectural setting of each site. Ideally, he would like this interface to be so subtle that no one would even guess that he had worked there. Maintenance is one of his prime concerns, and he devotes particular attention to finding the most cost-effective ways of ensuring the continuity of his gardens."

The present and future of our society are shaped by an ever-increasing proportion of old and very old people. The Berlin Aging Study is one of the largest interdisciplinary efforts to explore old age and aging. Unique aspects of the Berlin Aging Study are the spectrum of scientific disciplines involved, the range of discipline-specific and interdisciplinary research topics, the focus on very old age (70 to over 100 years), and the empirical reference to a representative heterogeneous urban population. The study's first cross-sectional findings on intellectual abilities, self and personality, social relationships, physical health, functional capacity, medical treatment, mental disorders such as depression and dementia, socioeconomic conditions, activities, everyday competence, subjective well-being, and gender differences are reported in depth in this book. The study was carried out in the context of the Berlin-Brandenburg Academy of Sciences study group on 'Aging and Social Development'. The authors primarily conduct their research at the Berlin Max Planck Institute for Human Development, the Free University of Berlin, and the Humboldt University, Berlin.

In the seventeenth century the English were often depicted as a nation of barbarians, fanatics, and king-killers. Two hundred years later they were more likely to be seen as the triumphant possessors of a unique political stability, a vigorous industrial revolution, and a world-wide empire. These may have been British achievements; but the virtues which brought about this transformation were perceived as being specifically English. Ideas of what constituted Englishness changed from a stock notion of waywardness and unpredictability to one of discipline and dedication. The evolution of the so-called national character today once more the subject of scrutiny and debate is traced through the impressions and analyses of foreign observers, and related to English ambitions and anxieties during a period of intense change.

[Alpine High: Skiing, Hiking and Rock Climbing Verses, Stuart Kinkade](#) , 2002, 0967648513, 9780967648514. Ski powder, bumps, a double black, old skis, new skis, back country, a perfect day, shared with friends. Hike to summits, a ghost town, an abandoned mine, through aspens, in whiteouts, in circles, concerned with trail grub, bears, drinks, needs, and shovels. Rock climb a traverse, lead cruxes, fall, belay, approach, rappel, top rope, and find an old pin. Mountain play. If there's something better, Stuart Kinkade doesn't know about it. Alpine High poems are personal experiences dating from the early 1960s to the mellenium.

[The Chip-Chip Gatherers, Shiva Naipaul](#) , 2012, 0141197226, 9780141197227. Shiva Naipaul was the brother of V. S. Naipaul and author of Fireflies and The Chip-Chip Gatherers. The Chip-Chip Gatherers, his second novel, was winner of

the Whitbread Literary Award in 1973 and is set in Naipaul's native Trinidad. It includes a new foreword by Amit Chaudhuri. The crowded, ramshackle community of the Settlement in Trinidad is at the mercy of a tyrant. Egbert Ramsaran, the proud owner of the Ramsaran Transport Company, who has become the richest man in town through sheer strength of will, is a capricious, eccentric despot who loves nobody and whom nobody can afford to ignore. There is his son Wilbert, bullied into passivity and failure; Vishnu the downtrodden grocer without grace or hope; the beautiful, unpredictable Sushila, who tries to wield her seductive powers over Ramsaran; and her daughter, Sita, intelligent enough to know that escape is possible. Their intricately woven lives are perfectly captured in all their pathos, comedy and humanity.

[The Last Train North, Clifton L. Taulbert](#) , 1992, 0140244786, 9780140244786. In the sequel to his universally loved *Once Upon a Time When We Were Colored*, Clifton L. Taulbert takes the reader on a journey out of the segregated South of his childhood and into the explosive era of the 1960s. This is the story of what happened when, at age 17, Taulbert boarded the Illinois Central train on one of its last runs out of Greenville, Mississippi, to St. Louis, the city of his dreams. The reality he found was not what he expected, but it held its own warmth and promise. It was the world of the Lively Stone Church of God and the people who gathered there to sing, worship, and encourage each other as they had down south. It was the world of Brazier's Confectionery, the little black-owned corner grocery store, of the people who lived above the store and worked hard to make their northern dreams come true. Here Taulbert encountered the frustration of second- and third- generation northern blacks who were still barred by color from meaningful jobs and full participation in society. *The Last Train North* is the story of one naive and hopeful 'colored boy' struggling to become the strong, successful black man his southern community had sent him north to be.

[Zwingli: An Introduction to His Thought, W. Peter Stephens](#) , 1992, 0198263295, 9780198263296. This book, by a leading Reformation scholar, is the only comprehensive introduction to Zwingli's thought for the student and general reader. In it Stephens discusses the main areas of debate in Zwingli studies and presents a variety of interpretations of his work. In the opening chapters, he places Zwingli in the context of Zurich and Switzerland in the sixteenth century, describes the various influences on Zwingli's development, and outlines his life and work as a reformer. The following two chapters introduce the main themes in Zwingli's thought, and these are related both to the life and work of the man himself as well as the views of other reformers. A final chapter considers Zwingli as a reformer and theologian, emphasizing, as Stephens does throughout the book, Zwingli's relevance today.

[Continuous Delivery: Reliable Software Releases through Build, Test, and Deployment Automation, Jez Humble, David](#)

[Farley](#) , 2010, 0321670221, 9780321670229. Winner of the 2011 Jolt Excellence Award! Getting software released to users is often a painful, risky, and time-consuming process. This groundbreaking new book sets out the principles and technical practices that enable rapid, incremental delivery of high quality, valuable new functionality to users. Through automation of the build, deployment, and testing process, and improved collaboration between developers, testers, and operations, delivery teams can get changes released in a matter of hours sometimes even minutes no matter what the size of a project or the complexity of its code base. Jez Humble and David Farley begin by presenting the foundations of a rapid, reliable, low-risk delivery process. Next, they introduce the deployment pipeline, an automated process for managing all changes, from check-in to release. Finally, they discuss the ecosystem needed to support continuous delivery, from infrastructure, data and configuration management to governance. The authors introduce state-of-the-art techniques, including automated infrastructure management and data migration, and the use of virtualization. For each, they review key issues, identify best practices, and demonstrate how to mitigate risks. Coverage includes Automating all facets of building, integrating, testing, and deploying software Implementing deployment pipelines at team and organizational levels Improving collaboration between developers, testers, and operations Developing features incrementally on large and distributed teams Implementing an effective configuration management strategy Automating acceptance testing, from analysis to implementation Testing capacity and other non-functional requirements Implementing continuous deployment and zero-downtime releases Managing infrastructure, data, components and dependencies Navigating risk management, compliance, and auditing Whether youre a developer, systems administrator, tester, or manager, this book will help your organization move from idea to release faster than ever so you can deliver value to your business rapidly and reliably.

[Fragmentation and Memory: Meditations on Christian Doctrine, Karmen MacKendrick](#) , 2008, 0823229505, 9780823229505. Philosophers have long and skeptically viewed religion as a source of overeasy answers, with a singular, totalizing "God" and the comfort of an immortal soul being the greatest among them. But religious thought has always been more interesting - indeed, a rich source of endlessly unfolding questions. With questions from the 1885 Baltimore Catechism of the Catholic Church as the starting point for each chapter, Karmen MacKendrick offers postmodern reflections on many of the central doctrines of the Church: the oneness of God, original sin, forgiveness, love and its connection to mortality, reverence for the relics of saints, and the doctrine of bodily resurrection. She maintains that we begin and end in questions and not in answers, in fragments and not in totalities - more precisely, in a fragmentation paradoxically integral to wholeness. Taking seriously Augustine's idea that we find the divine in memory, MacKendrick argues that memory does not lead us back in time to atidy answer but opens onto a complicated and fragmented time in which we find that the one and the many, before and after and now, even sacred and profane are complexly entangled. Time becomes something lived, corporeal, and sacred, with fragments of eternity interspersed among the stretches of its duration. Our sense of ourselves is correspondingly complex, because theological considerations lead us not to the security of an everlasting, indivisible soul dwelling comfortably in the presence of a paternal deity but to a more complicated, perpetually peculiar, and paradoxical life in the flesh. Written out of MacKendrick's extensive background in both recent and late-ancient philosophy, this moving and poetic book can also be an inspiration to anyone, scholar or lay reader, seeking to find contemporary significance in these ancient theological doctrines.

From assembly line to call centre, this volume charts the immense transformation of work and pay across the 20th century and provides the first labour focused history of Britain. Written by leading British historians and economists, each chapter stands as a self-contained reading for those who need an overview of the topic, as well as an introduction to and analysis of the controversies among scholars for readers entering or refreshing deeper study. The 20th century was a period of unrivalled change in the British labour market. Technology, social movements, and political action all contributed to an increased standard of living, while also revolutionizing what workers do and how they do it. Covering a range of topics from lifetime work patterns and education to unemployment and the welfare state, this book provides a practical introduction to the evolution of work and pay in 20th century Britain.

[Selected Fragmentary Plays, Volume 2, , , , , Euripides](#) , 2004, 0856686212, 9780856686214. The fragmentary plays of Euripides are a body of texts still regularly increasing in number and extent. They are of very great interest in themselves, apart from the significant aid they give to the fuller appreciation of the surviving complete plays. This two-volume edition brings together for the first time for English readers the more substantial and important of the plays, about fifteen in all. Each play is introduced by a summary bibliography and an appreciative essay which analyses the mythic background and plot: reconstructs the play as far as the fragmentary text and secondary evidence allow; and discusses themes, characterisation, staging, date, reflections of the story in art and other dramatisations. For each play the fragmentary texts are presented as conveniently and succinctly as possible, together with a brief critical apparatus of sources and readings. An English translation stands on the facing page. The text and translation of each play are followed by a short, primarily interpretative commentary. This volume contains: Alexandros (together with Palamedes and Sisyphus), Oedipus, Andromeda, Antiope, Hypsipyle, Archelaus (415 to about 407 B.C.).

[English Syntax: From Word to Discourse, Lynn M. Berk](#) , 1999, 0195123522, 9780195123524. English Syntax: From Word to Discourse is a clear and highly accessible descriptive grammar of English with a strong semantic and discourse/functional focus. Designed for beginning graduate students and advanced undergraduates in linguistics, it is also suitable for use in TESOL/ESL programs and in English departments. The text explains the basics of English syntax while providing students with a comprehensive view of the richness and complexity of the system. Each structure is discussed in terms of its syntactic features, its meaning, and its uses in discourse, and each discussion is extensively illustrated by examples from written texts of all kinds and by excerpts of spoken language. While the presentation has been influenced by a number of theories, the book presumes no theoretical background on the part of the student and the approach is relatively informal. Syntactic structures are graphically illustrated by means of nesting boxes rather than tree diagrams. Historical information illuminates some particularly problematic constructions, and the book is punctuated

with intriguing facts about English syntax. All terminology is carefully explained and most terms are defined again in the extensive glossary. Berk anticipates areas where students are likely to have trouble, warns them of pitfalls, and shows them how to avoid common mistakes. *English Syntax: From Word to Discourse* provides a unique alternative to the formal, generative approach of other texts in the field.

[Mongo: Adventures in Trash, Ted Botha](#) , 2008, 1596919647, 9781596919648. A New York Public Library Book for the Teen Age Journalist Ted Botha became obsessed with mongo (defined as any discarded object that is retrieved) when he moved to New York. Decorating his apartment with the furniture and objects he found on Manhattan's streets, he soon realized he wasn't the only person finding things of value in the garbage, and he began meeting all kinds of collectors. Mongo is Botha's remarkable record of his travels among these varied and eccentric people an appropriately addictive tribute to this longtime, universal phenomenon. Ted Botha was born in New York and grew up in Japan, South Africa, and Washington, D.C. He has written for the New York Times, the Los Angeles Times, and the Wall Street Journal, among other publications. His first book, Apartheid in My Rucksack, was a personal account of discovering Africa as a white African. "We thought we knew something about this subject...but Botha's book offers a completely different perspective." Jane and Michael Stern, New York Times Book Review "[Botha] writes about his subject with such earnest reverence that it's difficult...not to share his enthusiasm. Megapolitans eager to learn about the seamy underbelly of Manhattan should certainly consult Mongo, a work of urban reportage packed with arcane trivia and entertaining revelations." New York Observer "If you thought eBay aficionados and savvy bargain hunters were unduly resourceful, Botha introduces us to a whole new class of scavengers on the streets of New York City." This is the third edition of a classic book first published in 1960, which has sold thousands of copies in two paperback edition and has been translated into several foreign languages. Popkin's work has generated innumerable citations, and remains

a valuable stimulus to current historical research. In this updated version, he has revised and expanded throughout, and has added three new chapters, one on Savonarola, one on Henry More and Ralph Cudworth, and one on Pascal. This authoritative treatment of the theme of scepticism and its historical impact will appeal to scholars and students of early modern history now as much as ever.

[Flaubert and Don Quijote: The Influence of Cervantes on Madame Bovary, Soledad Fox](#) , 2010, 1845193970, 9781845193973. This book tells the story of how Flauberts admiration for Cervantes Don Quijote unfolded, and how profoundly it shaped and influenced Flauberts ambition and his approach to all his major works, beginning with his breakthrough novel Madame Bovary. It thus fills a major gap in the history of the novel and explores, for the first time, just what Flaubert meant when he said, while writing Bovary: "Je retrouve toutes mes origins dans le livre que je savais par coeur avant de savoir lire, Don Quichotte" (I can trace all my origins back to the book I knew by heart...). Several cultural and personal factors converged to establish the prominent place of Don Quijote in Flauberts imagination, and these are dealt with in depth in the book. But it is the profound parallels between the two novels that clearly illustrate how Don Quijote permeates Madame Bovary in both subject and approach. One such parallel is Alonso Quijano and Emma Bovarys desire to imitate fiction, which reflects a kind of literary madness in which the attempt to impose the narrative conventions of romances on life only leads hero and heroine, respectively, to destruction, disappointment, and ultimately death. The borrowings and the transpositions are substantial and endless; and indeed the influence did not stop at Bovary, for Flauberts later grands romans, including the rewritten Education Sentimentale and Bouvard et Pcuchet, also display the quixotic hallmark. This study situates each author in his respective historical and aesthetic context, and provides key examples from Don Quijote and Madame Bovary, Flauberts Correspondence, as well as his earlier novels. Flauberts letters and novels show how the French author penetrated deeply into Cervantes novelistic approach and how his relationship to Don Quijote directly shaped his success at the crux of his career.

[Savage Girls and Wild Boys, Michael Newton](#) , 2011, 0571266088, 9780571266081. A compelling history of extraordinary children - brought up by animals, growing up alone in the wilderness, or locked for long years in solitary confinement. Wild or feral children have fascinated us down the centuries, and continue to do so today. Michael Newton deftly investigates such infamous cases as Peter the Wild Boy, who gripped the attention of Swift and Defoe; Memmie Le Blanc, the savage Girl of Champagne, a primitive outsider adrift on the streets of Enlightenment; Kaspar Hauser, a romantic orphan confined in a dungeon from infancy for sixteen years; Kamala and Amala, two girls brought up by wolves in the imperial India of the 1920s; and more recently, Genie, the girl locked up in a single room in Los Angeles throughout her whole childhood. He looks too at a boy bought up among monkeys in Uganda; and in Moscow, the boy found living with a pack of wild dogs. Savage Girls and Wild Boys looks at the lives of these children and of the adults who 'rescued' them, looked after them, educated or abused them. How can we explain the mixture of disgust and envy such children can provoke? And what can they teach us about our notions of education and civilisation?

[Capital: An Abridged Edition, Karl Marx](#) , 1995, 0192831224, 9780192831224. A classic of early modernism, Capital combines vivid historical detail with economic analysis to produce a bitter denunciation of mid-Victorian capitalist society. It has also proved to be the most influential work in social science in the twentieth century; Marx did for social science what Darwin had done for biology. Millions of readers this century have treated Capital as a sacred text, subjecting it to as many different interpretations as the Bible itself. No mere work of dry economics, Marx's great work depicts the unfolding of industrial capitalism as a tragic drama - with a message which has lost none of its relevance today. This is the only abridged edition to take account of the whole of Capital. It offers virtually all of Volume 1, which Marx himself published in 1867, excerpts from a new translation of 'The Result of the Immediate Process of Production', and a selection of key chapters from Volume 3, which Engels published in 1895.

[The book] is a debate-style reader designed to introduce students to controversies in psychology. The readings, which represent the arguments of leading psychologists and commentators, reflect a variety of viewpoints and have been selected for their liveliness and substance and because of their value in a debate framework. For each issue, the editor provides a concise introduction and challenge questions. The introduction sets the stage for the debate as it is argued in the "yes" and "no" readings, and the challenge questions provoke further examinations of the issue. By requiring students to analyze opposing viewpoints and reach considered judgement, [the book] develops students' critical thinking skills. -Pref.

[Clementine Hunter: Her Life and Art, Art Shiver, Tom Whitehead](#) , 2012, 0807148806, 9780807148808. Clementine Hunter (1887--1988) painted every day from the 1930s until several days before her death at age 101. As a cook and domestic servant at Louisiana's Melrose Plantation, she painted on hundreds of objects available around her -- glass snuff bottles, discarded roofing shingles, ironing boards -- as well as on canvas. She produced between five and ten thousand paintings, including her most ambitious work, the African House Murals. Scenes of cotton planting and harvesting, washdays, weddings, baptisms, funerals, Saturday night revelry, and zinnias depict experiences of everyday plantation life along the Cane River. More than a personal record of Hunter's life, her paintings also reflect the social, material, and cultural aspects of the area's larger African American community. Drawing on archival research, interviews, personal files, and a close relationship with the artist, Art Shiver and Tom Whitehead offer the first comprehensive biography of this self-taught painter, who attracted the attention of the world. Shiver and Whitehead trace Hunter's childhood, her encounters at Melrose with artists and writers, such as Alberta Kinsey and Lyle Saxon, and the role played by eccentric Francois Mignon, who encouraged and promoted her art. The authors include rare paintings and photographs to illustrate Hunter's creative process and discuss the evolution of her style. The book also highlights Hunter's impact on the modern art world and provides insight into a decades-long forgery operation that Tom Whitehead helped uncover. This recent attention reinforced the uniqueness of Hunter's art and confirmed her place in the international art community, which continues to be inspired by the life and work of Clementine Hunter.

[The Selfish Crocodile, Faustin Charles](#) , 1999, 0747541930, 9780747541936. Every morning a very large and very snappy crocodile shouts this selfish message: `Stay away from my river! It's MY river! If you come in my river, I'll eat you all!' The animals in the forest don't know what to do. They are frightened of the crocodile. Even the fish, tadpoles, frogs, crabs and crayfish stay out of the water. Until one day the creatures are woken by a loud groaning sound which turns out to be the selfish crocodile in a lot of pain, and the smallest of them all, a little mouse, finds a way to solve their snappy dilemma! Astoundingly bright, bold illustrations bring to life all the wonderful creatures of the forest in a rainbow of colours. The Author: Faustin Charles is a renowned poet and story-teller. His collection of Afro-Caribbean rhymes was published to great success by Puffin. This is his first picture book text. Bloomsbury Children's Books are also publishing

his first poetry collection in October 1998, establishing Faustin as a Bloomsbury author across the board. Faustin spends much time in schools and libraries story-telling, and is also Library Buyer for Enfield. He lives in North London. The Illustrator: Mike Terry is most well-known for his wonderful cover illustrations for Dick King-Smith, including *The Hodgeheg* and *The Sheep-Pig* (the basis for the successful film *Babe*). This is his first picture book. Mike lives in Hythe, Kent.

[In Search of Wagner, Theodor W. Adorno](#) , 2005, 1844675009, 9781844675005. Richard Wagner's works are among the most controversial in the history of European music because of their powerful aesthetic qualities and, in wider political terms, because of their eventual assimilation into the official culture of the Third Reich. This concise synoptic account by the most brilliant exponent of Frankfurt School Marxism subtly interweaves these artistic and ideological qualities. It provides deft musicological analyses of Wagner's scores and of his compositional techniques, orchestration and staging methods, quoting copiously from the music dramas themselves. At the same time it offers incisive reflections on Wagner's social character and the ideological impulses of his artistic activity.

[An Evolutionary Theory of Economic Change, Richard R. Nelson, Sidney G Winter](#) , 2009, 0674041437, 9780674041431.

This book contains the most sustained and serious attack on mainstream, neoclassical economics in more than forty years. Nelson and Winter focus their critique on the basic question of how firms and industries change overtime. They marshal significant objections to the fundamental neoclassical assumptions of profit maximization and market equilibrium, which they find ineffective in the analysis of technological innovation and the dynamics of competition among firms. To replace these assumptions, they borrow from biology the concept of natural selection to construct a precise and detailed evolutionary theory of business behavior. They grant that firms are motivated by profit and engage in search for ways of improving profits, but they do not consider them to be profit maximizing. Likewise, they emphasize the tendency for the more profitable firms to drive the less profitable ones out of business, but they do not focus their analysis on hypothetical states of industry equilibrium. The results of their new paradigm and analytical framework are impressive. Not only have they been able to develop more coherent and powerful models of competitive firm dynamics under conditions of growth and technological change, but their approach is compatible with findings in psychology and other social sciences. Finally,

their work has important implications for welfare economics and for government policy toward industry.

[Different Shades of Gray, Sable Jordan](#) , 2011, 1609824652, 9781609824655. It started with a favor. Aspiring model Charlene Roberts is running late for an audition, so she begs her reliable sister to stand in for her at the casting for the wildly popular reality show Free Money. Of course Charlotte, a.k.a. Charlie, can't say no. She could never say no to Charlene, whose agent believes a television appearance will boost her modeling career. Free Money is much like all contemporary dating shows: twenty hot women living in a mansion doing everything they can to catch the eye of one filthy-rich bachelor. And that bachelor is the media's favorite bad boy, the insanely sexy Jake Logan. This thirty-something hotelier and nightclub tycoon only wants one thing to get his parents to stop meddling in his love life. What better way than to be trapped in a house with gorgeous women for two months, right? He's already done the relationship thing, and has no intentions of doing it again. That is, until he meets Charlie who he thinks is a model named Charlene. Knowing how important this opportunity is for her sister's career, Charlie finds herself trying to deny her feelings for Jake, since she knows at some point she'll have to walk away from what could possibly be the love of her life. Told in both first- and third-person points of view, *Different Shades of Gray* is a delightfully modern twist on the classic switcheroo with moments of light-hearted comedy, severe sarcasm, and intense passion. It examines the contemporary state of dating shows and asks the question, does anyone truly fall in love on reality-TV? Warnings: This title contains graphic language and descriptions of oral and vaginal intercourse.

9780199703364. In this groundbreaking book, William Kostlevy presents a fascinating study of the Metropolitan Church Association (MCA), a religious community founded in Chicago in the early 1890s. The MCA was one of the most controversial societies of the era. Its members were called "jumpers" because of their acrobatic worship style, and "Burning Bushers" after their caustic periodical, the Burning Bush. They objected to the concept of private property, rejected "elite" denominations, and professed an alternative, radical vision of Christianity, using modern music and folk art to spread their message. A product of the holiness revival of the late nineteenth century and a catalyst for Pentecostalism, the MCA played a vital role in the twentieth century growth of evangelical Christianity, yet it has long been ignored in studies of American radicalism, of communal societies, and even of holiness and Pentecostal Christianity. Kostlevy rectifies this omission, providing a valuable new context for understanding the origins of Pentecostalism. He investigates the internal struggles of the Holiness Movement, showing how radically divergent theological currents came to dominate a major segment of the American evangelical community. He also shows how deeply the MCA impacted the lives of twentieth century evangelists Bud Robinson and Seth C. Rees, self-designated first woman bishop Alma White, and Pentecostal evangelists A. G. Garr and Glenn Cook. As Holy Jumpers demonstrates, Holiness Christians, and the MCA in particular, played a profoundly formative role in the development of modern evangelical and Pentecostal Christianity.
