[Mystical Delights, Hilary Huttner](#) , 1996, 0964705796, 9780964705791. MYSTICAL DELIGHTS presents the mystical experiences of famous poets from around the world. The book combines an explanation of mystical experiences, intriguing biography, gem-like poems & inspiring quotations. The chapters progress through common themes, including meditative experiences, spiritual awakening & unity, building a consistent, mystical worldview that spans centuries of civilizations. Included in the 50 poets of the book are Yeats, Whitman, Wordsworth, D.H. Lawrence, Edna St. Vincent Millay, Allen Ginsberg, Pope John Paul II, Jimenez, Tagore, classic Chinese & Japanese poets, ancient Egyptian, & many more great poets. "It is a delightful collection with insightful commentaries & notes. I am sure it will prove to be an important contribution to mysticism & to literature."--Professor John Moyne, Rumi's translator. [The End of Discovery: Are we approaching the boundaries of the knowable?, Russell Stannard](#) , 2012, 019964571X, 9780199645718. It is generally thought that science, by its very nature, must always progress. But this is not so. One day, fundamental science will come to an end. Not when we have discovered everything, but when we have discovered whatever is open to us to understand - which is not the same thing. Limitations as to what the human brain can comprehend, together with practical considerations to do with the need for ever more elaborate and expensive equipment, are likely to ensure that our knowledge will remain for ever incomplete. A further indication that the world will ultimately retain some of its mystery is suggested by evidence that in certain directions, scientific enquiry might already have come up against the boundaries of the knowable. Author and broadcaster Russell Stannard, himself a high-energy physicist and former Head of the Department of Physics and Astronomy at the Open University, introduces the general reader to the deepest questions facing us today - questions to do with consciousness, free will, the nature of space, time, and matter, the existence of extraterrestrial life, and why there should be a world at all. In doing so, he speculates as to whether some of these questions will never be answered.

[The letters of Lady Arbella Stuart, Lady Arabella Stuart, Sara Jayne Steen](#) , 1994, 0195080572, 9780195080575. Lady Arbella Stuart, claimant to the English throne, traditionally has been portrayed as either a hero or fool for marrying against King James's edict and attempting to flee from France. This is Stuart's story as she tells it in more than one hundred letters written to relatives, her husband, the royal family, public officials, and friends. Based largely on original manuscripts, this volume reveals a powerful personal and public drama, as Stuart's royal birth and demand for independence place her in conflict with Queen Elizabeth and King James. Verbally gifted, Stuart creates a fictional lover, maneuvers within the patronage network, and, after her marriage, applies her considerable rhetorical skills to solicit favor and freedom. Her own revisions, which are included, offer the reader unusual access to the thinking of a talented Renaissance writer as she shapes her prose. Steen has transcribed, ordered, dated, annotated, and critically analyzed the letters and drafts.

[The Intimate World of Abraham Lincoln, C.A. Tripp](#) , 2005, 1439104042, 9781439104040. The late C. A. Tripp, a highly regarded sex researcher and colleague of Alfred Kinsey, and author of the runaway bestseller *The Homosexual Matrix*, devoted the last ten years of his life to an exhaustive study of Abraham Lincoln's writings and of scholarship about Lincoln, in search of hidden keys to his character. In *The Intimate World of Abraham Lincoln*, completed just weeks before he died, Tripp offers a full examination of Lincoln's inner life and relationships that, as Dr. Jean Baker argues in the Introduction, "will define the issue for years to come." Throughout this riveting work, new details are revealed about Lincoln's relations with a number of men. Long-standing myths are debunked convincingly -- in particular, the myth that Lincoln's one true love was Ann Rutledge, who died tragically young. Ultimately, Tripp argues that Lincoln's unorthodox loves and friendships were tied to his maverick beliefs about religion, slavery, and even ethics and morals. As Tripp argues, Lincoln was an "invert": a man who consistently turned convention on its head, who drew his values not from the dominant conventions of society, but from within. For years, a whisper campaign has mounted about Abraham Lincoln, focusing on his intimate relationships. He was famously awkward around single women. He was engaged once before Mary Todd, but his fiance called off the marriage on the grounds that he was "lacking in smaller attentions." His marriage to Mary was troubled. Meanwhile, throughout his adult life, he enjoyed close relationships with a number of men. He shared a bed with Joshua Speed for four years as a young man, and -- as Tripp details here -- he shared a bed with an army captain while serving in the White House, when Mrs. Lincoln was away. As one Washington socialite commented in her diary, "What stuff!" This study reaches far beyond a brief about Lincoln's sexuality: it is an attempt to make sense of the whole man, as never before. It includes an Introduction by Jean Baker, biographer of Mary Todd Lincoln, and an

Afterword containing reactions by two Lincoln scholars and one clinical psychologist and longtime acquaintance of C.A. Tripp. As Michael Chesson explains in one of the Afterword essays, "Lincoln was different from other men, and he knew it. More telling, virtually every man who knew him at all well, long before he rose to prominence, recognized it. In fact, the men who claimed to know him best, if honest, usually admitted that they did not understand him." Perhaps only now, when conventions of intimacy are so different, so open, and so much less rigid than in Lincoln's day, can Lincoln be fully understood.

[Living Strictly fore! Pleasure, Trevor Pearson](#) , 2006, 1412212820, 9781412212823. LIQUID GOLD It accomplishes what theorists, from Aristotle to Marx to Galbraith, have failed to produce: a Utopian State - state of mind that is. Because, while attentively listening to its ramblings (or while under its influence if you prefer), the world -for a momentary glimpse of time- is perfect. Your friends are funny, your girlfriend is pretty - the rigors of work a distant fuzzy memory. There exist no obstacles: you possess the pugilistic prowess of Mohammed Ali, Don Juan's charisma, and the financial resources backing Bill Gates. Both regret and fear dwell elsewhere. But, like all good things -as Adam, Eve, the Romans and M.C. Hammer can quantitatively testify- every good time consists of both a beginning and a conclusion. After which, chaos usually reigns: exile to the hinterland, barbarian raiders, creditors with grudges, beer stained jeans, vomit stained jeans, piss stained jeans, beer and vomit and piss stained jeans, nasty headaches, exorbitant Visa and Master-card bills, black-eyes, groveling to your girlfriend, letters of apology to the city, and even an occasional night spent on the hard bench in the local hoosegow! The twin nomads fear and regret have found a new home. Until, that is, they are banished once again, the following weekend (Happy hour at Spud's Pool Party bar & tavern 4 till 7 except Sundays, when it lasts all day) or night if you're lucky-with that first sip of Liquid Gold.

[The Battle of Ole Miss: Civil Rights v. States' Rights, Frank Lambert](#) , 2009, 0199758581, 9780199758586. James Meredith broke the color barrier in 1962 as the first African American student at Ole Miss. The violent riot that followed would be one of the most deadly clashes of the civil rights era, seriously wounding scores of U.S. Marshals and killing two civilians, and forcing the federal government to send thousands of soldiers to restore the peace. In *The Battle of Ole Miss: Civil Rights v. States' Rights*, Frank Lambert--who was a student at Ole Miss at the time and witnessed many of these events--provides an engaging narrative of the tumultuous period surrounding Meredith's arrival at the University of Mississippi. Written from the unique perspective of a student, Lambert explores the riot and its aftermath, examining why James Meredith deemed it important enough to risk his life in order to enter Ole Miss and why scores of white students resisted Meredith's enrollment. Lambert captures the complex and confused reactions of the students--most of whom had never given race a second thought--and many of whom were not averse to Meredith attending Ole Miss. In examining this single incident, Lambert illuminates the broader themes of social and cultural fault lines, Mississippi race relations, the fight for racial justice, and the political realignment that transformed the south. Part of the *Critical Historical Encounters* series, *The Battle of Ole Miss: Civil Rights v. States' Rights* is an ideal supplement for undergraduate U.S.

Survey courses and courses in African American History, Civil Rights, the U.S. Since 1945, and the 1960s.

[Teachers as Researchers: Qualitative Inquiry as a Path to Empowerment,](#) , Joe L. Kincheloe , 2003, 0415276454, 9780415276450. This book urges teachers - as both producers and consumers of knowledge - to engage in the debate about educational research by undertaking meaningful research themselves. Teachers are now being encouraged to carry out research in order to improve their effectiveness in the classroom, but this book suggests that they also reflect on and challenge the reductionist and technicist methods that promote a 'top down' system of education. The author, a leading proponent of qualitative research, argues that only by engaging in complex, critical research will teachers rediscover their professional status, empower their practice in the classroom and improve the quality of education for their pupils. Postgraduate students of education and experienced teachers will find much to inspire and encourage them in this book. Updated and revised for this new edition, it retains both its clarity and insistence on sound research practice. Joe L. Kincheloe is Professor of Education at the City University of New York Graduate Center and Brooklyn College. He is the author and editor of many books on critical pedagogy and qualitative research in education. Series Editor: Ivor F. Goodson.

[Grammar and Writing, Rebecca Stott, Peter Chapman](#) , 2001, 0582382416, 9780582382411. Grammar and Writing is the by the Speak-Write project at Anglia Polytechnic University. They are skills books designed to enable all students, whatever their level of writing ability in their first year of college, to become more articulate, accurate and expressive in their writing by the end of their first year. Each of the four books will be able to be used independently from each other although they can also be used coherently as a series. This book aims to improve and develop basic writing skills, focusing on features of grammar such as clause and sentence structure, punctuation and word classes. Introduces students to the components of language, syntax, clause & phrase structure, and punctuation, to teach the link between grammar and writing. It also includes work-related writing and analysis activities in each chapter. Contains a series of structured exercises to test the information and skills learned. For those students wishing to increase their grammar and writing skills.

[The Core Balance Diet: 4 Weeks to Boost Your Metabolism and Lose Weight for Good, Marcelle Pick](#) , 2009, 1401925170, 9781401925178. From the co-founder of Women to Women, one of the first clinics in the country devoted to providing health care for women by women, comes a whole new way to look at weight loss: The Core Balance Diet. Marcelle Pick

draws upon decades of patient and personal experience to solve the mystery of stubborn, frustrating weight gain in women, whether you've just gained it or have been struggling with it for years. This breakthrough program, which has benefited many of the thousands of women who visit the clinic each year, is rooted in cutting-edge nutritional science that explores the weblike relationship between women's hormones, metabolism, and weight gain. In clear terms, Pick connects the dots between self-knowledge, self-care, and the ability to lose weight, extending the concept of body-mind-spirit to demonstrate why and how a woman's biography becomes her biology. At its most basic level, The Core Balance Diet shows you how to self-diagnose one of six major biochemical imbalances that may be preventing you from losing weight. These include digestive, hormonal, adrenal, neurotransmitter, inflammatory, and detoxification imbalances. From there, Pick guides you through easy lifestyle and diet changes customized to heal your specific imbalance. Throughout, you will learn how to begin living in a manner that encourages optimal health without a lot of deprivation and stringent dieting rules by achieving core balance from the inside out, and, of course, weight loss for life."

[Criminal Processes and Investigative Procedures: Victoria and Commonwealth, Kenneth J. Arenson, Mirko Bagaric, Luke Neal](#) , 2010, 0409326844, 9780409326840. This book is designed to be a useful and practical tool for both students and legal practitioners alike. In addition to focusing on the recently enacted Criminal Procedure Act 2009 (Vic), this text also highlights other key aspects of the criminal processes and investigative procedures that are now extant in the Victorian and Commonwealth jurisdictions in particular: the hierarchy of courts in Victoria, commencement of criminal proceedings, bail, search and seizure, forensic procedures, police questioning, the parameters of double jeopardy, and the jury system among other important areas. This is achieved through a combination of case and statutory extracts which, when appropriate, are preceded and/or followed by commentaries that are precisely crafted to assist the readers' understanding.

[TALES FROM THE INDIAN JUNGLE, Kenneth Anderson](#) , 2001, 8171674666, 9788171674664. Ace hunter and wildlife chronicler Kenneth Anderson recalls real-life jungle tales, some macabre and some incredible, of adventures in pursuit of man-eating tigers and leopards. He brings the animal and human characters alive against the background of the jungle and the excitement and danger their co-existence generates.

[How to Become a Famous Writer Before You're Dead: Your Words in Print and Your Name in Lights, Ariel Gore](#) , 2007, 030734648X, 9780307346483. This may come as a shock, but brilliant writing and clever wordplay do not a published author make. True, you'll actually have to write if you want to be a writer, but ultimately literary success is about much more than putting pen to paper (or fingers to keys). Before you snap your pencil in half with frustration, please consider the advice writer, teacher, and self-made lit star Ariel Gore offers in this useful guide to realizing your literary dreams. If you find yourself writing when you should be sleeping and scribbling notes on odd pieces of paper at every stoplight, you

might as well enjoy the fruits of your labor. *How to Become a Famous Writer Before You're Dead* is an irreverent yet practical guide that combines solid writing advice with guerrilla marketing and promotion techniques guaranteed to launch you into print and into the limelight. You'll learn how to: Reimagine yourself as a buzz-worthy artist and entrepreneur. Get your work and your name out in the world where other people can read it. Be an anthology slut and a brazen self-promoter. Apply real-world advice and experience from lit stars like Dave Barry, Susie Bright, and Dave Eggers to your own career. Cheaper than an M.F.A. but just as informative, *How to Become a Famous Writer Before You're Dead* is your catapult to lit stardom. Just don't forget to thank Ariel Gore for her inspiring, hands-on plan in the acknowledgments page of your first novel!

[The Romanian: Story of an Obsession, Bruce Benderson](#) , 2006, 1585424781, 9781585424788. Winner of the 2004 Prix de Flore one of France's most distinguished literary prizes a wildly romantic, true-life love story. History follows a trail of sputtering desire, often calling upon the delusions of lovers to generate the sparks. If it weren't for us, the world would suffer from a dismal lack of stories," writes Bruce Benderson in this brutally candid memoir. What astonishes and intrigues is Benderson's way of recounting, in the sweetest possible voice, things that are considered shocking, wrote *Le Monde*. What's so shocking? It's not just Benderson's job translating Cline Dion's saccharine autobiography, which he admits is driving him mad; but his unrequited love for an impoverished Romanian in cheap club-kid platforms with dollar signs in his squinting eyes, whom he meets while on a journalism assignment in Eastern Europe. Rather than retreat, Benderson absorbs everything he can about Romanian culture and discovers an uncanny similarity between his own obsession for the Romanian (named Romulus) and the disastrous love affair of King Carol II, the last king of Romania (1893-1953). Throughout, Benderson is absolutely free of bitterness, nastiness, or any desire to protect himself, wrote *Le Monde* is sustained by little white codeine pills, a poetic self-awareness, a sense of humor, and an unwavering belief in the perfect romance, even as wild dogs chase him down Romanian streets.

[Kazik's Polish Navy, Kazimierz J. Kasperek, Pat McDonough](#) , 2008, 0965346722, 9780965346726. "Kazik's Polish Navy is a rare and precious account of Poland's World War II Navy in action, told by one of the men who lived it. Kazik's memoir provides an important window into this forgotten chapter of history, while the recollections of Kazik and Irene take one on an engaging trip through the ups and downs of surviving war and the bittersweet post-war period." - Henry Sokolowski, Polish Combatants Association Canada "A fascinating read from beginning to end, *Kazik's Polish Navy* is the personal memoir of Kazimierz Kasperek and a vivid account of the Polish Navy during World War II. Written with the assistance of Pat McDonough, *Kazik's Polish Navy* is a candid account of Kasperek's service in the Polish Navy from February 1936 to May 8, 1945. This is also the story of Kasperek's desperate escape from a German POW camp during a

brutal winter, his eye-witness account of major sea battles and Allied special operations, as well as his post-war experiences. Kaziks Polish Navy is a valued and unique addition to the growing library of World War II military studies." - Jim Cox, The Military Shelf "A fine first-hand account of the Polish Navy in World War II a branch of the Allied armed forces not well-chronicled in English." - John B. Davenport, Ph.D. "This story, Kaziks Polish Navy, had to be published. Not only did the exploits of the Polish Navy need to be told, but moreover because of the heroism and enduring optimism of Kazik Kasperek. In spite of war, imprisonment, and injustice, he never loses his personal grace." - Joyce Henderson, Author "Kaziks Polish Navy is an important addition to World War II history. A patriotic, heroic Love Story love of country, of family, and of survival against all odds. Truly inspiring!" - Dennis Hamilton, "I was inspired by Kaziks attitude and valor. I didnt want to stop reading. It was a great honor to read about such an inspiring man." - R. Bradley Witenhafer, "Reading Kaziks Polish Navy made WWII history come alive." - Mirinda Hartselle

[Portrait of the Psychiatrist as a Young Man: The Early Writing and Work of R.D. Laing, 1927-1960., Allan Beveridge](#) , 2011, 0191625485, 9780191625480. RD Laing remains one of the most famous psychiatrists of the last 50 years. In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy. He championed the rights of the patient, and challenged the often inhumane methods of treating the mentally ill. Based on a wealth of previously unexamined archives relating to his private papers and clinical notes, Portrait of the Psychiatrist as a Young Man sheds new light on RD Laing, and in particular his early formative years - a crucial but largely overlooked period in his life. The first half of the book considers Laing's intellectual journey through the world of ideas and his development as a psychiatric theorist. An analysis of his notebooks and personal library reveals Laing's engagement not only with psychiatric theory, but also with a wide range of other disciplines, such as philosophy, literature, and religion. This part of the book considers how this shaped Laing's writing about madness and his evolution as a clinician. The second half draws on a rich and completely unexplored collection of Laing's clinical notes, which detail his encounters with patients in his early years as a psychiatrist, firstly in the British Army, subsequently in the psychiatric hospitals of Glasgow, and finally in the Tavistock Clinic in London. These notes reveal what Laing was actually doing in clinical practice, and how theory interacted with therapy. The majority of patients who were to appear in Laing's first two books, The Divided Self and The Self and Others have been identified from these records, and this volume provides a fascinating account of how the published case histories compare to the original notes. There is a considerable mythology surrounding Laing, partly created by himself and partly by subsequent commentators. By a careful examination of primary sources, Allan Beveridge, both a psychiatrist and an historian, examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker, who addressed questions about the nature of madness which are still being asked today. This book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry.

[Tell Your Staff to Go Home!, Jason Gregg](#) , 2003, 0975011200, 9780975011201. It's time to send our employees home, to reinvent the way we look at business. Call it 'telecommuting', 'teleworking', remote working or 'e-working', it is a way of the smart business, large or small, to not only survive in this new world economy, but to also insure as much as is possible against disasters of the kind we witnessed in New York in September 2001. This is a primer for all those forward-looking managers and business owners who have realized that by doing business the same old way is not a guarantee that you're doing business the best way. Jason Gregg's Tell Your Staff to Go Home! is written for the non-technoid, the owner or manager who is, for better or worse, the one responsible for the very survival of the business. Jason Gregg is the former Editor of Computing Australia and PC Week and the past Publisher of Australian PC World. He lived in the US for 20 years where he hosted Computer Solutions, a TV show about computers in small business.

[What Is Literature?: And Other Essays, Jean-Paul Sartre](#) , 2012, 1453228837, 9781453228838. French existentialist philosopher Sartre explores the phenomenology of literature, focusing on the role of the artist as moral actor. In Jean-Paul Sartre's What Is Literature?, the renowned French philosopher explains his concept of the committed writer, linking authorship with moral responsibility. In the aftermath of World War II, Sartre argues that writing prose is a conscious act of freedom that addresses other independent humans who might be in situations of unfreedom. Sartre goes on to analyze the relationship between the writer and the reader, as well as the writer and the public. In Sartre's view, art (literature included) is the purest way in which we practice freedom. In addition to a discussion of twentieth-century French literature, Sartre critiques surrealism and communism, while above all calling for writers to care about their art. Providing remarkable insight into the world of existential thought, reading, and writing, What Is Literature? is a vital text for any writer, philosopher, or thinker.

[Fairbairn-Sykes Commando Dagger, Leroy Thompson](#) , 2012, 1849088349, 9781849088343. The Fairbairn-Sykes

Commando dagger has become iconic as the most widely recognized fighting knife in the world. The origins of the dagger can be traced to Shanghai in the 1930s where W. E. Fairbairn and US Marine officers including Sam Yeaton carried out experiments to develop what they considered the perfect knife for close combat. When Fairbairn and Sykes became instructors for the Commandos, they refined the design which would evolve into the classic Fairbairn-Sykes dagger. The dagger was first used during early Commando raids into occupied Europe but saw action in every theatre of World War II. US Rangers and Marines who had trained with the Commandos took their Fairbairn-Sykes daggers home, and this also influenced the development of American Special Forces daggers. The Fairbairn-Sykes remained in use with many units after the war. It has become a symbol of Commando and special forces units throughout the world.

[New Testament Greek: A Whole Language Approach, R. D. Kunjummen](#) , 2009, 0981786502, 9780981786506. This book is designed to teach Koine Greek language and grammar by active engagement with original text selections from the Greek New Testament and systematic explanation of grammar. Its "whole language approach" presents morphology, syntax, and semantics synthetically, and covers the typical content of introductory and intermediate level grammar at colleges and universities. Introductory sections to the lessons (39 in all) introduce grammatical terminology and concepts from English. Each lessons consists of guided reading through text selections that introduce new vocabulary and grammar and build on what is previously learned. This is followed by a grammar section that presents the new information in organized form. There are exercises and drills along with additional reading selections that follow. This book is ideal for learning the language and grammar to read the Koine of the New Testament, recovering lost or forgotten knowledge of the subject through self-study, preparing for graduate examinations in the field, and teaching oneself the language of the New Testament. There are appendices of cumulative vocabulary, summary charts of forms and reference to where they are discussed in the text as well as a cumulative index.

[Virtualization Essentials, Matthew Portnoy](#) , 2012, 1118226984, 9781118226988. A full-color beginner's guide to the core concepts and skills of virtualizationVirtualization is the IT world's hottest trend in recent years, and many colleges do not

yet have curricula in place to prepare students for this important area. This guide fills the need, with a learn-by-doing approach to mastering the core elements of virtualization. Each chapter clearly outlines what is covered, thoroughly discusses the concepts, and engages readers with hands-on tutorials. The book covers how virtualization software operates; hypervisor products; how to manage CPU, memory, storage, and networking; and much more. Fills the gap left by the many colleges and universities that are unprepared to educate IT students on virtualization, a megatrend in the IT world. Covers the fundamental concepts and skills, including how virtualization software operates within a computing environment. Explains the difference between Type 1 and Type 2 hypervisors and tells how to create a virtual machine from scratch or by migrating from physical to virtual. Tells how to manage the basics and how to configure supporting devices for a virtual machine. Virtualization Essentials gets IT students and practitioners up to speed on one of the most important aspects of today's IT environment.

[Wandlore: Power and Practice - A Complete Guide to the Wizard Wand, Wandmaker](#) , 2007, 0979863937, 9780979863936. The Wand is a wizard's single most important instrument, yet it is more than a mere tool. The Wand is an extension of the wizard, part of the wizard, one with the wizard. It is a weapon and a defense. It can conjure objects, cast spells, and transfigure. It can protect life and it can kill. In the hands of a wizard, a wand is pure power. For the first time ever, The Wandmaker will reveal closely guarded, ancient secrets of Wizard Wands, including history, wands around the world, wand elements, wand construction, and wand care. Richly detailed with numerous illustrations, Wandlore is a must for all wizards. Wandlore is the first title from the Principles of Wizardry - a series of textbooks covering all topics magical for wizards and humans who love wizardry. Visit us online at [www.arhbooks.com](http://www.arhbooks.com) and [www.leagueofwizardry.com](http://www.leagueofwizardry.com) .

[The Practice of International Health: A Case-Based Orientation, Daniel Perlman, Ananya Roy](#) , 2009, 0195310276, 9780195310276. Virtually every school of public health teaches a global health course, yet the major textbooks provide little on the actual practice of international health. This new book comprises a series of vivid first person accounts in which physicians, epidemiologists, health workers, and public health professionals from around the world present the critical dilemmas and challenges facing the field. Aimed primarily at medical and public health students and professionals, this book will be a much-needed addition to the existing literature. Related fields, such as development and urban studies, will find this book an engaging introduction to the core issues of international development. International health practitioners, national and local policymakers, foundations officers, and other related professionals will also find it an invaluable compendium. "The Practice of International Health is a beautifully conceived and beautifully written book. It offers an inspiring example of what may be accomplished when scholars with field experience break free of rigid disciplinary boundaries in order to examine key problems in international health. This case-based approach is precisely

the one that will allow us to build a new field based on broad understandings of these problems and on the solutions that might follow. The need for and vibrant potential of such a focus on practice that resonates in every page of this book signals its profound relevance to students and teachers of public health, and, one hopes, to policy makers and funders."

[Slammerkin, Emma Donoghue](#) , 2000, 0151006725, 9780151006724. Slammerkin: A loose gown; a loose woman. Born to rough cloth in Hogarth's London, but longing for silk, Mary Saunders's eye for a shiny red ribbon leads her to prostitution at a young age. A dangerous misstep sends her fleeing to Monmouth, and the position of household seamstress, the ordinary life of an ordinary girl with no expectations. But Mary has known freedom, and having never known love, it is freedom that motivates her. Mary asks herself if the prostitute who hires out her body is more or less free than the "honest woman" locked into marriage, or the servant who runs a household not her own? And is either as free as a man? Ultimately, Mary remains true only to the three rules she learned on the streets: Never give up your liberty. Clothes make the woman. Clothes are the greatest lie ever told.

[Byzantium: The Surprising Life of a Medieval Empire, Judith Herrin](#) , 2008, 0141031026, 9780141031026. For a thousand years an extraordinary empire made possible Europe's transition to the modern world: Byzantium. An audacious and resilient but now little known society, it combined orthodox Christianity with paganism, classical Greek learning with Roman power, to produce a great and creative civilization which for centuries held in check the armies of Islam. Judith Herrin's concise and compelling book replaces the standard chronological approach of most histories of Byzantium. Instead, each short chapter is focused on a theme, such as a building (the great church of Hagia Sophia), a clash over religion (iconoclasm), sex and power (the role of eunuchs), an outstanding Byzantine individual (the historian Anna Komnene), a symbol of civilization (the fork), a battle for territory (the crusades). In this way she makes accessible and understandable the grand sweeps of Byzantine history, from the founding of its magnificent capital Constantinople (modern Istanbul) in 330, to its fall to the Ottoman Turks in 1453.

[Negotiating with Backbone: Eight Sales Strategies to Defend Your Price and Value, Reed Holden](#) , 2012, 0133064794, 9780133064797. Sales professionals now confront the most serious threat to their success. Regardless of their size, industry, country, customer type, nature of the relationship or amount of value they provide, sales professionals are finding that purchasing decisions are increasingly being limited by procurement. The modern procurement function is purchasing on steroids. Where traditional purchasing managers negotiated, procurement officials attempt to dictate.

Procurement deploys a variety of tactics designed to do one thing: gain unprecedented discounts and concessions out of even the most sophisticated sales professionals. This book is a strategy guide for salespeople to help them level the procurement playing field by showing readers how to assess the game procurement plays, describing proven ways to resist discounting and protect margins, demonstrating ways to keep value at the forefront of negotiations, offering targeted tactics to protect hard-earned profits from mindless discounting, and detailing eight strategies effective in any type of pricing negotiation. This book will be an invaluable resource for B2B sales professionals, customer-facing professionals, and executives responsible for leading successful sales organizations.

[Mixanthropoi: Animal-human Hybrid Deities in Greek Religion, ISSN 0776-3824, Emma Aston](#) , 2011, 2960071786, 9782960071788. "Many of the beings in this book - Cheiron, Pan, Acheloos, the Sirens and others - will be familiar from the narratives of Greek mythology, in which fabulous anatomies abound. However, they have never previously been studied together from a religious perspective, as recipients of cult and as members of the ancient pantheon. This book is the first major treatment of the use of part-animal - mixanthropic - form in the representation and visual imagination of Greek gods and goddesses, and of its significance with regard to divine character and function. What did it mean to depict deities in a form so strongly associated in the ancient imagination with monstrous adversaries? How did iconography, myth and ritual interact in particular sites of worship? Drawing together literary and visual material, this study establishes the themes dominant in the worship of divine mixanthropes, and argues that, so far from being insignificant curiosities, they make possible a greater understanding of the fabric of ancient religious practice, in particular the tense and challenging relationship between divinity and visual representation."--Publisher's website.

[Review of the Electoral Commission: report, eleventh report of the Committee on Standards in Public Life, Committee on Standards in Public Life](#) , 2007, 0101700628, 9780101700627. This is the eleventh inquiry by the Committee on Standards in Public Life with this particular report reviewing the work of the Electoral Commission. The Commission itself was established as an independent statutory body on 30 November 2000, with a mandate to review or examine such matters as electoral administration, and the conduct of elections and standards of propriety in financing political parties. All these issues have been of recent public concern, and the Committee believes it is important to ask whether the Commission's current mandate, governance arrangements and accountability framework are appropriate for the purpose required of the Commission. The Committee has set out 41 recommendations, including: that the mandate of the Commission should be amended and refocused so that it has two principal statutory duties: (i) as regulator of political party funding and campaign expenditure in the UK; (ii) and as a regulator of electoral administration in Great Britain; further, that it should decentralize responsibility for monitoring and regulating campaign and constituency expenditure in Scotland, Wales and Northern Ireland to regional offices; it should report to Parliament annually on standards of electoral administration; it should have no involvement in electoral boundary matters or have a role in undertaking policy development in relation to electoral legislation; that the Commission should undertake detailed research into the scale of electoral fraud in the UK. The publication is divided into 5 chapters with appendices; Chapter 1: Introduction and context; Chapter 2: Mandate of the Electoral Commission; Chapter 3: Governance of the Electoral Commission; Chapter 4: Accountability of the Electoral Commission; Chapter 5: Integrity of the electoral process

9780132790215. The Definitive, Fully Updated Guide to Separation Process Engineering--Now with a Thorough Introduction to Mass Transfer Analysis Separation Process Engineering, Third Edition, is the most comprehensive, accessible guide available on modern separation processes and the fundamentals of mass transfer. Phillip C. Wankat teaches each key concept through detailed, realistic examples using real data--including up-to-date simulation practice and new spreadsheet-based exercises. Wankat thoroughly covers each of today's leading approaches, including flash, column, and batch distillation; exact calculations and shortcut methods for multicomponent distillation; staged and packed column design; absorption; stripping; and more. In this edition, he also presents the latest design methods for liquid-liquid extraction. This edition contains the most detailed coverage available of membrane separations and of sorption separations (adsorption, chromatography, and ion exchange). Updated with new techniques and references throughout, Separation Process Engineering, Third Edition, also contains more than 300 new homework problems, each tested in the author's Purdue University classes. Coverage includes \* Modular, up-to-date process simulation examples and homework problems, based on Aspen Plus and easily adaptable to any simulator \* Extensive new coverage of mass transfer and diffusion, including both Fickian and Maxwell-Stefan approaches \* Detailed discussions of liquid-liquid extraction, including McCabe-Thiele, triangle and computer simulation analyses; mixer-settler design; Karr columns; and related mass transfer analyses \* Thorough introductions to adsorption, chromatography, and ion exchange--designed to prepare students for advanced work in these areas \* Complete coverage of membrane separations, including gas permeation, reverse osmosis, ultrafiltration, pervaporation, and key applications \* A full chapter on economics and energy conservation in distillation \* Excel spreadsheets offering additional practice with problems in distillation, diffusion, mass transfer, and membrane separation

[Flying High, , Annie Dalton](#) , 2003, 0060088176, 9780060088170. British teen Mel Beeby is horrified to end up in posh Angel Academy-- why learn about halos when she' s always found shopping much more divine? Then she' s recruited into an elite group of time-traveling angels fighting the Opposition and finds out angel business is a lot more dangerous-- and a lot more fun-- than she ever could have suspected. Even angels need to relax! That' s why Mel' s been looking forward to her pal Lola' s surprise party for weeks. And she' s happy when she and her friends get sent off to medieval times at the last minute. Then she stumbles on a scam that runs from the Middle Ages to the future. This is seriously dangerous stuff. Can Mel change something that hasn' t happened yet?

[Heart of Lies: A Novel, M.L. Malcolm](#) , 2010, 006196218X, 9780061962189. Leo Hoffman was born with a gift for languages. When his dreams for the future are destroyed by World War I, the dashing young Hungarian attempts to use his rare talent to rebuild his life, only to find himself inadvertently embroiled in an international counterfeiting scheme. Suddenly Leo is wanted across the European continent for a host of crimes, including murder. Left with no options, he

must escape to Shanghai with his lover, carrying with him a stolen treasure that could be his salvation . . . or his death warrant. But the gangsters who control the decadent Asian city have no intention of letting him outrun his past. And when the Japanese invade, one wrong move could cost Leo Hoffman everything he holds dear. An epic tale of intrigue, passion, and adventure, *Heart of Lies* heralds the arrival of a remarkable writer.

[The Silk Road: A New History, Valerie Hansen](#) , 2012, 0199939217, 9780199939213. The Silk Road is as iconic in world history as the Colossus of Rhodes or the Suez Canal. But what was it, exactly? It conjures up a hazy image of a caravan of camels laden with silk on a dusty desert track, reaching from China to Rome. The reality was different--and far more interesting--as revealed in this new history. In *The Silk Road*, Valerie Hansen describes the remarkable archeological finds that revolutionize our understanding of these trade routes. For centuries, key records remained hidden--sometimes deliberately buried by bureaucrats for safe keeping. But the sands of the Taklamakan Desert have revealed fascinating material, sometimes preserved by illiterate locals who recycled official documents to make insoles for shoes or garments for the dead. Hansen explores seven oases along the road, from Xi'an to Samarkand, where merchants, envoys, pilgrims, and travelers mixed in cosmopolitan communities, tolerant of religions from Buddhism to Zoroastrianism. There was no single, continuous road, but a chain of markets that traded between east and west. China and the Roman Empire had very little direct trade. China's main partners were the peoples of modern-day Iran, whose tombs in China reveal much about their Zoroastrian beliefs. Silk was not the most important good on the road; paper, invented in China before Julius Caesar was born, had a bigger impact in Europe, while metals, spices, and glass were just as important as silk. Perhaps most significant of all was the road's transmission of ideas, technologies, and artistic motifs. The Silk Road is a fascinating story of archeological discovery, cultural transmission, and the intricate chains across Central Asia and China.

[Yucatan, Bruce Conord, June Conord](#) , 2005, 1588435091, 9781588435095. Need information while you're on the go? Tired of guidebooks that don't fit in your pocket? We hear you. If you're visiting for just a week or two, perhaps you don't need the in-depth history section or geographical details that can make a book cumbersome. Check out this brand new series of portable travel guides designed to be used while you're on the move. Their handy, pocket-sized format means they'll slip into your pocket or fanny pack while you focus on what you came for - whether that's hiking in Belize's rainforest with binoculars in hand, exploring Maya ruins in the Yucatan or taking in historic town sights. Adventures covered are anything from town walking tours and beachcombing to white-water rafting and organized horseback riding excursions. These guides still contain all the practical travel information you need - places to stay and eat, tourist information resources, travel advice and more. The text is filled with interesting factoids, while town and regional maps make planning day-trips or city tours easy. Best of all, these books are affordable, at just pound]8.99 Maps, index

" Lady Selene Ware was nothing more than a harem slave when reformed assassin Kadar Ben Arnaud helped her escape to her native Scotland. But she still wasn't safe from the sheikh who claimed her as his property--and who now forces her and Kadar on a quest to find the most powerful religious relic of all time. "One perilous journey... "So begins a dangerous odyssey that leads Selene and Kadar to an encounter with the reclusive Tarik, who now possesses the treasure. The closer they come to discovering its secret, however, the closer they will come to losing each other--and their lives. "The stakes couldn't be higher.... "The truth is far more explosive than the treasure hunters could ever have realized. Even as Selene grasps the key to this age-old mystery, Kadar is forced to step over the line separating the dark path from the light to save her from an unthinkable fate.

[Letters of Transit: Essays on Travel, History, Politics and Family Life Abroad, Matthew Stevenson](#) , 2003, 0954352025, 9780954352028. There should be something for everyone in this engaging book of essays - a companion for a long flight, short vacation or a bedside table.

[The Cowboy Wally Show, Kyle Baker](#) , 2003, . This original graphic novel acts as a biography for a fictional entertainer named Cowboy Wally. Chronicling his career from his children's program to his movie work to his late night talk show, we witness the hilarious peaks and valleys of Cowboy Wally's life as he stumbles back and forth between success and failure. Whether using compromising pictures of a TV producer to get his own show or shooting a high-budget Hamlet remake in jail while incarcerated for drunken and disorderly conduct, Cowboy Wally always has a story to tell. SUGGESTED FOR MATURE READERS.

[Sprawl, Justice, and Citizenship : The Civic Costs of the American Way of Life: The Civic Costs of the American Way of Life, Thad Williamson](#) , 2010, 0199888035, 9780199888030. Must the strip mall and the eight-lane highway define 21st century American life? That is a central question posed by critics of suburban and exurban living in America. Yet despite the ubiquity of the critique, it never sticks--Americans by the scores of millions have willingly moved into sprawling developments over the past few decades. Americans find many of the more substantial criticisms of sprawl easy to ignore because they often come across as snobbish in tone. Yet as Thad Williamson explains, sprawl does create real, measurable social problems. Williamson's work is unique in two important ways. First, while he highlights the deleterious effects of sprawl on civic life in America, he is also evenhanded. He does not dismiss the pastoral, homeownership ideal that is at the root of sprawl, and is sympathetic to the vast numbers of Americans who very clearly prefer it. Secondly, his critique is neither aesthetic nor moralistic in tone, but based on social science. Utilizing a landmark 30,000-person survey,

he shows that sprawl fosters civic disengagement, accentuates inequality, and negatively impacts the environment.

*Sprawl, Justice, and Citizenship* will not only be the most comprehensive work in print on the subject, it will be the first to offer an empirically rigorous critique of the most popular form of living in America today.

[Hitler Needs You: A Novel, Jack Trevor Story](#) , 2009, 0956246206, 9780956246202. Horace Spurgeon Fenton has just turned 16. It will be an eventful year. He is about to discover jazz, sex and Hitler. Drawing on his own childhood, author Jack Trevor Story (1917-1991) has written a powerful, poignant, and funny memoir of the 1930s, seen through the eyes of Horace, apprentice toolmaker. Story's early work was snapped up by Alfred Hitchcock for 'The Trouble With Harry', and more tv and film work followed. But Story poured much of himself into 'Hitler Needs You' and it contains some of his finest writing. An older Horace pops up again in two other books: 'One Last Mad Embrace' and 'I Sit in Hanger Lane'. Horace Spurgeon Fenton garnered much critical acclaim for Story 'one of the funniest writers we have', said the Sunday Telegraph.

[A Disturbance of Fate, Mitchell J. Freedman](#) , 2002, 1931643229, 9781931643221. A Disturbance of Fate is a vibrant work of alternative history that answers these questions and more. In the novel, as in life, the time in which RFK survives beyond 1968 is not a perfect journey leading to utopia. While various events occur that are both expected and welcome in trying to create a just and caring world, there are also surprises, ironies and dangerous developments along the way. Plus, the novel's ending is guaranteed to leave you thinking about the fluidity of history and the dictum ..".for the want of a nail a kingdom was lost..."--though whose kingdom is lost and whose is gained is perhaps the most intriguing question. As Bobby Kennedy himself liked to say, "Some men see things as they are and ask 'Why?' I dream things that never were, and say, 'Why not?'" A Disturbance of Fate dares to dream about an alternative past...and provide inspiration for a more enlightened present and future.

[Principles of Macroeconomics, Karl E. Case, Ray C Fair, Sharon Oster](#) , 2013, 0133252213, 9780133252217. Intended primarily for Principles of Economics courses, this text also provides practical content to current and aspiring industry professionals. Reviewers tell us that Case/Fair/Oster is one of the all-time bestselling POE texts because they trust it to be clear, thorough and complete. Case/Fair/Oster readers also come away with a basic understanding of how market economies function, an appreciation for the things they do well, and a sense of things they do poorly. Readers begin to learn the art and science of economic thinking and begin to look at some policy and even personal decisions in a different way. Break through to improved results with MyEconLab MyEconLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams resulting in better performance in the course and provides educators a dynamic set of tools for gauging individual and class progress. And, MyEconLab comes from Pearson, your partner in providing the best digital learning experiences. Note: You are purchasing a standalone product; MyEconLab does not come packaged with this content. If you would like to purchase

both the physical text and MyEconLab search for ISBN-10: 0133450821 / ISBN-13: 9780133450828. [My People Are Destroyed for Lack of Knowledge: A Biblical Account in Chart Form, Jackie Fowler](#) , 1992, 0963372203, 9780963372208. MY PEOPLE ARE DESTROYED FOR LACK OF KNOWLEDGE. A Biblical Account in Chart Form is a unique both in concept & in message. "MY PEOPLE" combines Bible references with results of scientific studies & excerpts of articles from leading publications including National Geographic & Newsweek. The charts are designed to depict the Black man's heritage, from the Garden of Eden to Jesus Christ. It's easy enough for a child to understand, but the very adult message is for Blacks who are interested in tracing their biblical roots & rediscovering their Bible identity -- & in the process, personal worth & self-esteem. The statistics are staggering. The message will give Black men, women, & children their biblical identities back, & that when that happens, they will see how important they are to God's plan for mankind & that He has a plan for their lives today. The Authors purpose in writing this book is to give a race of people (Blacks) a knowledge & understanding of their culture & examples of Black biblical role models. "MY PEOPLE" will retail for \$7.95 per copy & will be available at local book outlets, & from writing the author at: Fowler Enterprises, P.O. Box 1327, Tulsa, OK 74101.

[Fun Projects for Hands on Character Building, Rick Boyer](#) , 1996, 0964539659, 9780964539655. As the parents of 12 children from toddler to adult, the Boyers have plenty of experience in parenting and character building. This book shows ideas, programs and projects that build character traits like obedience, self-acceptance, a forgiving spirit, meekness, a hunger for righteousness and a strong testimony.

[One False Note,, Gordon Korman](#) , 2008, 0545060427, 9780545060424. Super-selling author Gordon Korman sends Amy and Dan off on a wild chase in Book 2 of the highly-anticipated 39 Clues series. THIS JUST IN! Amy and Dan Cahill were spotted on a train, hot on the trail of one of 39 Clues hidden around the world. BUT WAIT! Police report a break-in at an elite hotel, and the suspects ALSO sound suspiciously like Amy and Dan. UPDATE! Amy and Dan have been seen in a car . . . no, in a speedboat chase . . . and HOLD EVERYTHING! They're being chased by an angry mob?!? When there's a Clue on the line, anything can happen. Think you've gone everywhere books can take you? Think again. Books are

going to a new place, but you have to follow the clues to get there. Join Amy and Dan as they continue the hunt for the 39 Clues in Book Two: One False Note. The high-octane adventures will continue for a total of ten exhilarating books written by well-known authors over two years. The 39 Clues also encompasses hundreds of game cards and an online world that allows you to play a part in the story and compete for 100s of prizes, totalling over 50,000.

[Against the Protestant Gnostics, Philip J. Lee](#) , , 0195359194, 9780195359190. In this penetrating and provocative assessment of the current state of religion and its effects on society at large, Philip J. Lee criticizes conservatives and liberals alike as he traces gnostic motifs to the very roots of American Protestantism. With references to an extraordinary spectrum of writings from sources as diverse as John Calvin, Martin Buber, Tom Wolfe, Margaret Atwood, and Emily Dickinson, he probes the effects of gnostic thinking on a wide range of issues. Calling for the restoration of a dialectical faith and practice, the book points to positive ways of restoring health to endangered Protestant churches.

[Terror, Security, and Money: Balancing the Risks, Benefits, and Costs of Homeland Security, John Mueller, Mark Stewart](#) , 2011, 0199795762, 9780199795765. In the years following 9/11, the United States spent billions and billions on powerful surveillance and security systems and created a massive new government agency, the Department of Homeland Security. John Mueller, one of America's most trenchant critics of America's drive for enhanced security at all costs, has argued that while these measures have largely been unnecessary, the public succumbed to an alarmist media and a shrewd governmental scare campaign and came to support these measures. The price, Mueller has contended, has been a massive misallocation of resources. In previous books, Mueller focused on why national security threats are 'overblown,' but in *Terrorism, Security, and Money*, he teams up with Mark Stewart, a civil engineering professor and recognized authority on risk assessment for the built infrastructure, to put forth a more rational and cost-effective approach to managing domestic security. Instead of offering a critical account of the situation we're in, Mueller and Stewart instead focus on providing solutions based on the risk assessment science. After cataloguing the mistakes that the US has made (and continues to make), like spending wildly on ill-considered plans to mitigate unlikely threats, they offer tools-based probabilistic risk assessment that have the potential to redirect our efforts toward a more productive--and far more cost-effective--course.

[So You Want to Be in Show Business?, Val Jellay](#) , 2007, 0980354781, 9780980354782. "Val Jellay's story is not only a personal history but also a unique record of entertainment in Australia and Europe. In this book, a splendidly visual and candidly written narrative, she shares her life's experiences from the very beginning to the present day. This story is not only a personal history but also a unique record of entertainment in Australia, covering vaudeville, comedy and drama, stage, radio, film and television. The professional dramas also reflect her own personal 'highs and lows'. Val Jellay has been a part of it all. It's also a great Australian love story - a document of then and now. The career that began with dance lessons in 1931 when she was four years old continues to this day, applauded by hundreds of fans in Europe, Britain, Scandinavia and, of course Australia, where she is still, at age 80, constantly accepting invitations to perform and entertain. Her popularity overseas is further propelled by her long running television appearances still filling the screens in

the northern hemisphere. She frequently meets young fans from these countries, who, through various fan clubs, celebrate her life and career. However, the respect she receives from fellow high-profile industry professionals is perhaps the greatest testament to her reputation as one of Australia's most versatile and loved performers. 'So you want to be in Showbusiness!' is also a handbook for hopeful showbiz students and their parents. Today performing arts are a part of every school's curriculum as children are encouraged to speak up, perform and grow with confidence. Thousands of young Australians study music and dance performance along with design, production and film, confident of their ability and proud of Australia's theatre tradition. Val Jellay shows the way - a way that is open to all who choose to follow"--Publisher.

[Medicolegal Essentials in Healthcare, Jason Payne-James, Ian Wall, Peter Dean](#) , 2009, 0521744075, 9780521744072. A basic knowledge of the legal framework in which healthcare is, and the role that law and the judiciary play in the working lives of all professionals has become an intrinsic part in the training of students of medicine, nursing, pharmacy and the allied professions. This is partly due to the increasing frequency and controversy of items of medicolegal significance in the media, and partly due to the wide and freely available range of specialist medical information available to the public against which to judge medical treatment. This book looks at those areas where law and medicine commonly meet. The chapters are written by a multidisciplinary group of practitioners with special interest or experience in their subjects. A vast number of subjects are covered; from controversial issues such as euthanasia to issues such as confidentiality, all of which will be interest to students of medicine and healthcare providers alike.

[God's Pursuit of Man, A. W. Tozer](#) , 2007, 160066184X, 9781600661846. Although written two years after the publication of The Pursuit of God, A.W. Tozer's God's Pursuit of Man sets forth the biblical truth that before man can pursue God, God must first pursue man. A "prequel" of sorts, God's Pursuit of Man speaks fervently of God's desire for man to be saved and the action He takes as He "invades" the human soul. Tozer then explains how it is through the power and promise of the Holy Spirit that we can truly understand the mystery of the Triune God.

[Women and Punishment, Pat Carlen](#) , 2013, 1134000987, 9781134000982. In the last decade there has been growing

international concern about the increasing numbers of women in prison, the effects that imprisonment has on their children, the realisation that gaoled women have different criminal profiles and rehabilitative needs to male prisoners, and the seeming intractability of the associated problems. In response there has been an overarching policy concern in many countries to fashion and co-ordinate gender-specific policies towards female offenders which aim both to slow down the rate of their offending and/or imprisonment, and also to engender flexible programmes which will reduce the time spent in custody and/or away from their young children. The major objective of this book is to describe and analyse contemporary opportunities for, and barriers to, both the reduction of female prison populations and the reduction of the pain of those women who continue to be imprisoned. It assesses the most important recent attempts to reduce both women's imprisonment and the damage it does, identifying and analyzing cross-jurisdiction and gender-specific lessons to be learned, and the unexpected consequences of some of the reform strategies. This book brings together leading scholars and practitioners in the field, providing a critique of the reform initiatives which have taken place, and a much-needed theorization of cross-national policy in this area. It will be essential reading for all with an interest in prisons and prison reform.

[Gay City: Volume 3: Re-Pulped!, Volume 3, Gay City Health Project \(Seattle, Wash.\)](#) , 2010, 1452874298, 9781452874296. Now in its third volume, Gay City Anthologies turns for inspiration to the "pulp" era of the 20th century. The early gay pulp novels were chewy, campy and often controversial, yet they signaled generations of gay and bi men that others like themselves existed; men who were dreaming of skimpy swimming suits, motorcycle jackets, cowboy hats and a world better than that they'd inherited. In Re-Pulped!, we include selections from nearly forgotten queer pioneers as well as works from today's most exciting new voices in fiction, photography, comic art and poetry. From romantic and wry to adventurous and edgy, this collection bursts through the boundaries of genre to redefine not only what gay was, but what it might yet be.

[The Organization Man, William H. Whyte](#) , 2013, 0812209265, 9780812209266. Regarded as one of the most important sociological and business commentaries of modern times, *The Organization Man* developed the first thorough description of the impact of mass organization on American society. During the height of the Eisenhower administration, corporations appeared to provide a blissful answer to postwar life with the marketing of new technologies—television, affordable cars, space travel, fast food and lifestyles, such as carefully planned suburban communities centered around the nuclear family. William H. Whyte found this phenomenon alarming. As an editor for *Fortune* magazine, Whyte was well placed to observe corporate America; it became clear to him that the American belief in the perfectibility of society was shifting from one of individual initiative to one that could be achieved at the expense of the individual. With its clear analysis of contemporary working and living arrangements, *The Organization Man* rapidly achieved bestseller status. Since the time of the book's original publication, the American workplace has undergone massive changes. In the 1990s, the rule of large corporations seemed less relevant as small entrepreneurs made fortunes from new technologies, in the process bucking old corporate trends. In fact this "new economy" appeared to have doomed Whyte's original analysis as an artifact from a bygone day. But the recent collapse of so many startup businesses, gigantic mergers of international conglomerates, and the reality of economic globalization make *The Organization Man* all the more essential as background for understanding today's global market. This edition contains a new foreword by noted journalist and author Joseph Nocera. In an afterword Jenny Bell Whyte describes how *The Organization Man* was written.

[Pr\[schwa\]-grafk, Ken Probst](#) , 1998, . Several years ago, photographer Ken Probst was hired to photograph pornographic film actors for publicity pictures and video boxes. Once on the sets of California's most notorious industry, he began to photograph behind the scenes, revealing the absurdities, pathos, and business of the pornographic film industry. These photographs, whether they portray an elaborate sexual situation or actors waiting between takes, are remarkable

documents that observe the banality of manufacturing desire.

[The Neanderthals Rediscovered: How Modern Science Is Rewriting Their Story, Dimitra Papagianni, Michael Ari Morse](#) , 2013, 0500051771, 9780500051771. In recent years, the common perception of the Neanderthal has been transformed thanks to new discoveries and paradigm-shattering scientific innovations. It turns out that the Neanderthals' behavior was surprisingly modern: they buried the dead, cared for the sick, hunted large animals in their prime, harvested seafood, and spoke. Meanwhile, advances in DNA technologies have forced a reassessment of the Neanderthals' place in our own past. For hundreds of thousands of years, Neanderthals evolved in Europe very much in parallel to the Homo sapiens line evolving in Africa, and, when both species made their first forays into Asia, the Neanderthals may even have had the upper hand. Here, Dimitra Papagianni and Michael A. Morse look at the Neanderthals through the full dramatic arc of their existence from their evolution in Europe to their expansion to Siberia, their subsequent extinction, and ultimately their revival in popular novels, cartoons, cult movies, and TV commercials.

[The Story of a Shipwrecked Sailor: Who Drifted on a Life Raft for Ten Days Without Food Or Water, was Proclaimed a National Hero, Kissed by Beauty Queens, Made Rich Through Publicity, and Then Spurned by the Government and Forgotten for All Time, Gabriel Garca Mrquez](#) , 2007, 0141032448, 9780141032443. Gabriel Garca Mrquez, winner of the 1982 Nobel Prize for Literature and author of *One Hundred Years of Solitude*, started his literary career with the publication of *The Story of a Shipwrecked Sailor* . . . 'On February 22 we were told that we would be returning to Columbia' In 1955 eight crew members of *Caldas*, a Colombian destroyer, were swept overboard. Velasco alone survived, drifting on a raft for ten days without food or water. Mrquez retells the survivor's amazing tale of endurance, from his loneliness and thirst to his determination to survive. *The Story of a Shipwrecked Sailor* was Mrquez's first major work, published in a Colombian newspaper, *El Espectador*, in 1955 and then in book form in 1970. 'The story of Velasco on his raft, his battle with sharks over a succulent fish, his hallucinations, his capture of a seagull which he was unable to eat, his subsequent droll rescue, has all the grip of archetypal myth. Reads like an epic' *Independent* 'A master storyteller' *Daily Mail* 'Garca Mrquez is a retailer of wonders' *Sunday Times* As one of the pioneers of magic realism and perhaps the most prominent voice of Latin American literature, Gabriel Garca Mrquez has received international recognition for his novels, works of non-fiction and collections of short stories. Those published in translation by Penguin include *Autumn of the Patriarch*, *Bon Voyage Mr. President*, *Collected Stories*, *Chronicle of a Death Foretold*, *The General in his Labyrinth*, *Innocent Erndira and Other Stories*, *In the Evil Hour*, *Leaf Storm*, *Living to Tell the Tale*, *Love in the Time of Cholera*, *Memories of My Melancholy Whores*, *News of a Kidnapping*, *No-one Writes to the Colonel*, *Of Love and Other Demons* and *Strange Pilgrims*.

[Changing Seasons: Conquering Life's Challenges, Billie Martin Dean Buckles](#) , 2013, 1625109725, 9781625109729. This book contains various real-life stories of Billie, a woman who did not dwell in a utopian life of golden spoons and signature clothes. She began to grasp maturity in the southern part of Oklahoma during the 1950s. With her parents, modest, responsible and hardworking, she was able to dwell with normalcy and still attain a prolific life. Her mother used to make eclectic quilts out of multi-colored fabrics and just as her mother's quilts, her life exemplifies both bright and dark colors, which still complement each other. Discover and join her as she recalls every bit of her childhood to adulthood and how she turned into a beautiful and successful woman. You'll break into a smile as you read her boldness in keeping her little secrets and how she has learned her lessons from it. Her pleasurable stories will make you mull over the events of your own life after you've put down the book.

[The Devil's Causeway: The True Story of America's First Prisoners of War in the Philippines, and the Heroic Expedition Sen, Matthew Westfall](#) , 2012, 0762787465, 9780762787463. As the United States prosecuted a bloody campaign to pacify its newly won Philippines territory at the turn of the nineteenth century, a secret mission of mercy went terribly wrong. The result was a prisoner-of-war crisis, the likes of which our nation had never encountered before. The epic struggle for survival that followed was not only a test of the human will to live, but a crucible for heroes. And yet, what was touted as a heroic rescue operation extended a war by almost two years and cost the lives of thousands. In April 1899, Admiral George Dewey dispatched the USS Yorktown to liberate a detachment of Spanish soldiers under siege by Filipino rebels. To reconnoiter enemy defenses, one of the Yorktowns armed cutters manned by a crew of fifteen sailors was sent toward shore. And then it happened. Defying orders, Lieutenant James C. Gillmore Jr. recklessly pushed upriver into heavy jungle and headlong into an ambush that would kill four of his men. The survivors were dragged across mountains and through dense jungle from one pestilent prison to the next along what Gillmore called a veritable Devils Causeway. Their captivity and the torturous expedition sent to recover them, recalled today as one of the greatest marches in US Army history, features a tightly hewn cast of characters including a frail yet determined teenaged sailor and his hardened seafaring mates; battle-tested veterans of the Civil War and the Indian Wars; and a fiery revolutionary commander who gave orders to bury wounded Americans alive. A sweeping military epic drawing on international primary sources, *The Devil's Causeway* tells their extraordinary story in its entirety for the first time.

[The Earth, Our Natural Paradise: Book 2 - Poetry, Charles Blaise](#) , 2007, 0977420655, 9780977420650. *The Earth, Our Natural Paradise*, is Book Two in the continuing series by Charles Blaise, *Life Itself As A Modern Religion*. Book Two presents poetry inspired by the author's belief that, when we appreciate life as we have come to understand it, as a biological astonishment that invites our devoted care, we can find all the beliefs we need - for our finite needs and our

infinite longings - in life itself. Blaise became aware of the urgent need for a valid, life-sanctifying philosophy of religion during the Vietnam upheaval. Events since then, such as terrorism, the war in Iraq, and global warming have, he believes, confirmed the necessity for humanity to move life itself to the forefront of its religious beliefs. Developing the philosophy presented in this series has been the central devotion of his private intellectual life. His education encompasses the humanities and science, including theology, philosophy, healthcare and music. He holds a doctor's degree and enjoys playing the piano.

[Sense of History: The Place of the Past in American Life, David Glassberg](#) , 2001, 155849281X, 9781558492813. AS AMERICANS enter the new century, their interest in the past has never been greater. In record numbers they visit museums and historic sites, attend commemorative ceremonies and festivals, watch historically based films, and reconstruct family genealogies. The question is, why? What are Americans looking for when they engage with the past? And how is it different from what scholars call "history"? In this book, David Glassberg surveys the shifting boundaries between the personal, public, and professional uses of the past and explores their place in the broader cultural landscape. Each chapter investigates a specific encounter between Americans and their history: the building of a pacifist war memorial in a rural Massachusetts town; the politics behind the creation of a new historical festival in San Francisco; the letters Ken Burns received in response to his film series on the Civil War; the differing perceptions among black and white residents as to what makes an urban neighborhood historic; and the efforts to identify certain places in California as worthy of commemoration. Along the way, Glassberg reflects not only on how Americans understand and use the past, but also on the role of professional historians in that enterprise. Combining the latest research on American memory with insights gained from Glassberg's more than twenty years of personal experience in a variety of public history projects, Sense of History offers stimulating reading for all who care about the future of history in America.

[Soccer, Clive Gifford](#) , 2009, 0761444602, 9780761444602. From the sublime skills of Pele to a day in the life of a professional soccer player, this gloriously illustrated book explores every aspect of the game. Rules, skills, and tactics are clearly explained and presented with state-of-the-art digital diagrams and photographs. This newly revised edition of a worldwide bestseller offers both practical advice as well as an insider's view of the history of the game, profiles of legendary players, great clubs, and women's soccer. Now including a two-page guide to U.S. domestic leagues and competitions and with dazzling action photos of today's top stars, from Ecuador's Clever Chala to Norway's Margunn Haugenes, Soccer is a must-have for fans of the game.

[A New England Sampler - Eleanor Early, Eleanor Early](#) , 2007, 1406740659, 9781406740653. PREFACE. THE Author of

this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the care of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

[UNIX Shell Programming, Stephen G. Kochan, Patrick H. Wood](#) , 2003, 0672324903, 9780672324901. Unix Shell Programming is a tutorial aimed at helping Unix and Linux users get optimal performance out of their operating out of their operating system. It shows them how to take control of their systems and work efficiently by harnessing the power of the shell to solve common problems. The reader learns everything he or she needs to know to customize the way a Unix system responds. The vast majority of Unix users utilize the Korn shell or some variant of the Bourne shell, such as bash. Three are covered in the third edition of Unix Shell Programming. It begins with a generalized tutorial of Unix and tools and then moves into detailed coverage of shell programming. Topics covered include: regular expressions, the kernel and the utilities, command files, parameters, manipulating text filters, understanding and debugging shell scripts, creating and utilizing variables, tools, processes, and customizing the shell.

[Race and Place: Equity Issues in Urban America, John W. Frazier, Florence M. Margai, Eugene Tettey-Fio](#) , 2003, 0813340411, 9780813340418. Racism, racial equity, and the race-place connections related to racial inequalities in the U.S. are the major themes of this book. The long history of U.S. White racism toward Blacks, Hispanics, and Asians is deeply rooted in the political, socioeconomic, and intellectual frameworks of America, permitting racial inequities to become expressed as cultural landscapethe places where many racial minorities exist. The contemporary geographic patterns of segregation and isolation are different from those of earlier U.S. history, but are equally damning and present extremely difficult challenges for social action in a nation that will change its racial/ethnic composition dramatically during the current generation.As America changes over the next quarter century, the visible and invisible race-place inequalities that help define U.S. urban geography will continue in housing, education, employment, travel requirements, shopping choices, environmental hazards, and other living conditions. Minority groups, ever increasing in numbers, will find

inequalities unacceptable. How America deals with racial inequalities will likely have consequences for all its citizens.

[The Dutch Photobook: A Thematic Selection from 1945 Onwards, Frits Gierstberg, Rik Suermond](#) , 2012, 1597112003, 9781597112000. The Dutch photobook is internationally celebrated for its particularly close collaboration between photographer, printer and designer. The current photobook publishing boom in the Netherlands stems from a tradition of excellence that precedes World War II, but the postwar years inaugurated a period of particularly close collaboration between photographers and designers, producing such unique photography books as Ed van der Elsken's *Love on the Left Bank*(1956) and Koen Wessing's *Chili, September 1973*(1973). Innovations such as the photo novel and the company photobook blossomed in the 1950s and 60s; later, other genres emerged to characterize the publishing landscape in Holland, including conceptual and documentary photobooks, books on youth culture, urbanism photobooks and landscape photobooks and travelogues. Examining each of these genres across six themed chapters, *The Dutch Photobook* features selections from more than 100 historical, contemporary and self-published photobook projects. It includes landmark publications such as *Hollandse taferelen* by Hans Aarsman (1989), *The Table of Power* by Jacqueline Hassink (1996), *Why Mister Why* by Geert van Kesteren (2006) and *Empty Bottles* by Wassink Lundgren (2007). Dutch photo historians Frits Gierstberg and Rik Suermond contribute several essays on the history of the genre, the collaborative efforts between photographers and designers and their inspiration and influences, complementing the high-quality reproductions of photobooks throughout. Award-winning designer Joost Grootens contributes unique charts and diagrams that consolidate all of these elements, in a visually unique map of the Dutch photobook.

[Stories Done: Writings on the 1960s and Its Discontents, Mikal Gilmore](#) , 2008, 1416594531, 9781416594536. The 1960s and 1970s represent a rare moment in our cultural history -- music was exploring unprecedented territories, literature was undergoing a radical reinvention, politics polarized the nation, and youth culture was at the zenith of its influence. There has never been, nor is there likely to be, another generation that matches the contributions of the artists of that time period. In this poignant book, journalist Mikal Gilmore weaves a narrative of the '60s and '70s as he examines the lives of the era's most important cultural icons. Keeping the power of rock & roll at the forefront, Gilmore gathers together stories about major artists from every field -- George Harrison, Ken Kesey, Johnny Cash, Allen Ginsberg, to name just a few. Gilmore reveals the truth about this idealized period in history, never shying away from the ugly influences that brought many of rock's most exciting figures to their knees. He examines how Jim Morrison's alcoholism led to the star's death at the age of twenty-seven, how Jerry Garcia's drug problems brought him to the brink of death so many times that his bandmates did not believe the news of his actual demise, how Pink Floyd struggled with the guilt of kicking out founding member Syd Barrett because of his debilitating mental illness. As Gilmore examines the dark side of

these complicated figures, he paints a picture of the environment that bred them, taking readers from the rough streets of Liverpool (and its more comfortable suburbs) to the hippie haven of Haight-Ashbury that hosted the infamous Summer of Love. But what resulted from these lives and those times, Gilmore argues, was worth the risk -- in fact, it may be inseparable from those hard costs. The lives of these dynamic and diverse figures are intertwined with Gilmore's exploration of the social, political, and emotional characteristics that defined the era. His insights and examinations combine to create a eulogy for a formative period of American history.

[The Omega Files: Short Stories, Jennifer Bassett](#) , 2002, 0194229602, 9780194229609. In EDI (the European Department of Intelligence in Brussels) there are some very secret files - the Omega Files. There are strange, surprising, and sometimes horrible stories in these files, but not many people know about them. You never read about them in the newspapers. Hawker and Jude know all about the Omega Files, because they work for EDI. They think fast, they move fast, and they learn some very strange things. They go all over the world, asking difficult questions in dangerous places, but they don't always find the answers

[Eros & Thanatos,](#) , 1992, 0944092217, 9780944092217. In our fourth book of Duane Michals's work, the artist explores classic themes of love and death through photographs and words. The evocative images and poems collected in Eros & Thanatos conjure memories of love and loss, lust and longing, in what is perhaps the most revealing and overtly sensual of Michals's works to date. The full richness of Michals's imagery emerges from these exquisite, large-format sheet-fed gravures.

[Victory Conditions: Vatta's War: Book Five, Elizabeth Moon](#) , 2010, 0748126813, 9780748126811. A vast and hostile force is attacking prosperous trade centres, destroying their space fleets then moving on, leaving death and chaos in their wake. Admiral Ky Vattas family was decimated by one such attack and Turek, the pirate forces leader, will not escape her vengeance. Ky has a loyal taskforce, but the enemy have three times the ships and the firepower to match. She must offset these advantages with her knowledge of military strategy and her ace: superior ansible technology, facilitating fast and accurate in-space intelligence. The alternative to victory is unthinkable - devastation of interplanetary trading networks on a galaxy-wide scale - and the end of a way of life.

[Proxima, Stephen Baxter](#) , 2014, 0575116854, 9780575116856. The very far future: The Galaxy is a drifting wreck of black holes, neutron stars, chill white dwarfs. The age of star formation is long past. Yet there is life here, feeding off the energies of the stellar remnants, and there is mind, a tremendous Galaxy-spanning intelligence each of whose thoughts lasts a hundred thousand years. And this mind cradles memories of a long-gone age when a more compact universe was full of light...The 27th century: Proxima Centauri, an undistinguished red dwarf star, is the nearest star to our sun - and (in this fiction), the nearest to host a world, Proxima IV, habitable by humans. But Proxima IV is unlike Earth in many ways. Huddling close to the warmth, orbiting in weeks, it keeps one face to its parent star at all times. The 'substellar point', with the star forever overhead, is a blasted desert, and the 'antistellar point' on the far side is under an ice cap in perpetual darkness. How would it be to live on such a world? Needle ships fall from Proxima IV's sky. Yuri Jones, with 1000 others, is about to find out...PROXIMA tells the amazing tale of how we colonise a harsh new eden, and the secret we find there that will change our role in the Universe for ever.

[Working with Public Information Officers: A Supplement to Explaining Research, Dennis Meredith](#) , 2010, 0981884849, 9780981884844. Public Information Officers (PIOs) can be invaluable allies in your communication efforts. They can offer expert advice, as well as access to communications machinery for reaching the media and other important audiences. This guidea supplement to Explaining Research (Oxford University Press, 2010) will help you develop the most beneficial relationships with those PIOs, whether they are in your institution, at a journal, in a scientific society, or in your funding

agency. Working with Public Information Officers shows how your PIO can serve as - an editorial and media relations expert who can write and distribute news releases, pitch media on story ideas, develop media strategy, and manage communication crises - an institutional ambassador who conveys to administrators the significance of your research and your positions on important issues - an educator who teaches you how to develop clear research explanations and work with media - a hard questioner who confronts you with those tough questions that you must answer if you are to preserve your reputation and advance your work. For further information, visit [www.WorkingwithPIOs.com](http://www.WorkingwithPIOs.com)

Reviews

Scientists who want to communicate their work are plentiful; those who want to do it well or do it better are more rare. The former need Working with Public Information Officers; the latter will find it a joy. This is the take-along booklet with powerful take-it-to-heart messages, full of wit and wisdom. Joann Rodgers, Senior Advisor for Science, Executive & Crisis Communications, Johns Hopkins University School of Medicine This handy guide is filled with examples from universities, national laboratories, corporate facilities and other research settings. Some of the country's best public information officers explain how your research can get the attention it deserves, in ways that won't waste your time or make you uncomfortable. David Jarmul, Associate Vice President, News & Communications, Duke University Imagine squeezing four decades-worth of know-how and experience about communicating science from the minds of Dennis Meredith and dozens of his colleagues. That would be the only thing better than this little book. Culling from the mountains of expertise he gathered in writing Explaining Research, Dennis has provided both a roadmap for newbies in the field and a refresher course for us old-timers. Every science communications operation should have several copies close at hand. Earle Holland, Assistant Vice President for Research Communications, Ohio State University It's hard to think of a better resource for our craft--or a more experienced and savvy practitioner than author Dennis Meredith. This guide to our business is essential reading for anyone treading the academic science writing and media relations landscape. If you are in the business of wrangling scientists, working with science journalists, and putting discovery into societal context, this work belongs on your desk and in the hands of every scientist willing to take the time to absorb its many valuable lessons. Terry Devitt, Director of Research Communications, University of Wisconsin-Madison

[Morocco Overland: From the Atlas to the Sahara - 4wd, Motorcycle, Mountain Bike, Chris Scott, Franck Simonnet](#) , 2009, 1905864205, 9781905864201. For the independently-mobile traveller the mountains and deserts of southern Morocco are a year-round destination offering a thrilling variety of experiences. Covering over 9000km from the High Atlas to the Mauritanian border, Morocco Overland features detailed GPS off-road routes for 4WDs, motorcycles and mountain bikes as well as scenic byways suitable for any vehicle. The book also includes guidance on choosing and preparing vehicles, the best places and times to go, getting to Morocco as well as local fly-drive options and off-road driving and riding techniques. Upfront colour section on Moroccan off-road highlights Getting to Morocco: Cross country routes and Mediterranean ferries Guidelines on vehicle choice and preparation Fly-drive: local 4WD and bike rentals Over 40 GPS

routes covering 9000km, including the Atlantic Route to Mauritania Each route is reversible and graded for difficulty, scenery and best time of year 50 pages of maps covering each route Additional mapping and GPS downloads available at [www.morocco-overland.com](http://www.morocco-overland.com) With more than 40 easy-to-follow-routes ranging from High Atlas trails reaching 3000m to arid canyons winding past hidden Berber villages and from the Atlantic surf to former Dakar Rally pistes, this comprehensive route and planning guide will appeal to both the first timer looking to dip their toe in Africa and to the seasoned adventurer.

She unselfishly places the needs of her son, Matthew, above her own. Although she tries to convince everyone that she s happy with Jesus alone, Matthew handpicks the perfect present for her a husband. Everything about the man her son chooses is perfect, except for his past. Micah Stevenson is excited when he learns the son of the woman he has been praying about wants him to join their family permanently. Believing Pamela Roberts is his soul mate sent from God, Micah pursues her. Once he is certain of her love for him, Micah reveals his dark history, shaking the foundation of the once loving and stable relationship. Trust is broken as judgments and prejudices threaten to deny the couple s destiny. Will the man he used to be prevent Pamela from loving Micah for the man he is now?

[Swing and Day Trading: Evolution of a Trader, Thomas N. Bulkowski](#) , 2013, 1118516966, 9781118516966.

Comprehensive coverage of the four major trading styles Evolution of a Trader explores the four trading styles that people use when learning to trade or invest in the stock market. Often, beginners enter the stock market by: Buying and holding onto a stock (value investing). That works well until the trend ends or a bear market begins. Then they try Position trading. This is the same as buy-and-hold, except the technique sells positions before a significant trend change occurs. Swing trading follows when traders increase their frequency of trading, trying to catch the short-term up and down swings. Finally, people try Day trading by completing their trades in a single day. This series provides comprehensive coverage of the four trading styles by offering numerous tips, sharing discoveries, and discussing specific trading setups to help you become a successful trader or investor as you journey through each style. Trading Basics takes an in-depth look at money management, stops, support and resistance, and offers dozens of tips every trader should know. Fundamental Analysis and Position Trading discusses when to sell a buy-and-hold position, uncovers which fundamentals work best, and uses them to find stocks that become 10-baggers stocks that climb by 10 times their original value. Swing and Day Trading reveals methods to time the market swings, including specific trading setups, but it covers the basics as well, such as setting up a home trading office and how much money you can make day trading.

[High-rise Living, Andrew Weaving](#) , 2004, 1586854100, 9781586854102. High-rise architecture has provided some of the most technically innovative and aesthetically interesting buildings of recent years, despite its checkered-and often controversial-history. It has also become some of the most desirable property available in cities throughout the world. Andrew Weaving hands you the entrance keys to twenty-five different apartments-with-a-view in this rich collection of fabulous, spare photographs that capture unique views of these buildings and their highly livable interiors. High-rise Living features architecture and interior living spaces for high-rise condominiums and apartments in Europe, Asia, Canada, Australia, and the United States, divided in three categories: Classic, Now, and Future. An engaging introduction recounts the highlights of high-rise architecture from its genesis in "ideal socialist cities" to its contemporary ideal as a

solution to environmental and world population housing issues, and covers the work of such architectural greats as Louis Sullivan, Auguste Perret, Frank Lloyd Wright (yes, he did towers!), Le Corbusier, Richard Neutra, Walter Gropius, Mies van der Rohe, Erno Goldfinger, Bertrand Goldberg, I. M. Pei, the Archigram Group, Kisho Kurokawa, and others. High-rise Living is a fresh look at modern, architecturally designed spaces in which to live, right in the heart of the city. Andrew Weaving is a true high-rise aficionado who lives in one himself in London's Canary Wharf.

[Switching Power Supply Design & Optimization, Sanjaya Maniktala](#) , 2005, 0071434836, 9780071434836. This is a rigorous, carefully explained and motivated beginners bible to power supply design. Between dense, mathematical textbooks on power electronics and tiny power supply cookbooks there exists no practical tutorial on the hazards of contemporary power supply design. Our Pressman book, the 800 lb gorilla in the field, is both mathematically dense and 7 years old. This new book, detailing cutting edge thermal management techniques, grouping key design equations in a special reference section, and containing a concise Design FAQ, will serve both as an invaluable tutorial and quick reference.

[Hidden Prophecies in the Song of Moses, J. R. Church](#) , 2003, 094124105X, 9780941241052. The Song of Moses hangs like a brilliant chandelier above the prophetic banquet table.

[Father Does Know Best, Lauren Chapin, Andrew Collins](#) , 1990, 0425121011, 9780425121016. Lauren Chapin's child star success story had a dark side. At home the youngest star of "Father Knows Best", suffered emotional, physical and sexual abuse and by the age of 22 had succumbed to drug addiction and prostitution. Then, at the lowest point of her life, Chapin found strength, hope and the will to survive.

[The Lattice Boltzmann Equation: For Fluid Dynamics and Beyond, Sauro Succi](#) , 2013, 019967924X, 9780199679249. In recent years, stylized forms of the Boltzmann equation, now going by the name of "Lattice Boltzmann equation" (LBE), have emerged, which relinquish most mathematical complexities of the true Boltzmann equation without sacrificing physical fidelity in the description of many situations involving complex fluid motion. This book provides the first detailed survey of LBE theory and its major applications to date. Accessible to a broad audience of scientists dealing with complex system dynamics, the book also portrays future developments in allied areas of science (material science, biology etc.)

where fluid motion plays a distinguished role.

[Helen Clark: A Political Life, Denis Welch](#) , 2009, 0143202413, 9780143202417. Helen Clark led the Labour Party for 15 years, resurrecting it from the rifts of Rogernomics before becoming one of New Zealand's most successful leaders. Her term as Prime Minister lasted nine years. Clark's wider tenure in politics, however, stretches from the anti-war protests of 1968 through the rise of feminism, environmentalism and market forces, to the global financial crisis of 2008 - 40 years of extraordinary political change. Remarkably, no political biography of Helen Clark has been written before. Here, for the first time, is the full story of how Clark rose to power and held both the Labour Party and the New Zealand Government together, cementing her place in our country's political history. This is an unauthorised biography.

[Biography: A Very Short Introduction, Hermione Lee](#) , 2009, 0199533547, 9780199533541. Biography is one of the most popular, best-selling, and widely-read of literary genres. But why do certain people and historical events arouse so much interest? How can biographies be compared with history and works of fiction? Does a biography need to be true? Is it acceptable to omit or conceal things? Does the biographer need to personally know the subject? Must a biographer be subjective? In this Very Short Introduction Hermione Lee considers the cultural and historical background of different types of biographies, looking at the factors that affect biographers and whether there are different strategies, ethics, and principles required for writing about one person compared to another. She also considers contemporary biographical publications and considers what kind of 'lives' are the most popular and in demand. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis,

perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Prince of the Atlantic, Mark M. McMillin](#) , 2011, 098381791X, 9780983817918. Here is a true story based on the adventures of Captain Luke Ryan - Irish swashbuckler, American patriot, mariner extraordinaire and Benjamin Franklin's most dangerous privateer... It is an epic story about war, heroism, love, intrigue and betrayal spanning a period from the American Revolution, to the French Revolution, and through the rise of Napoleon. The year is 1779 and the American Colonies are losing their life and death struggle for independence from Great Britain. Their rag-tag armies are in retreat. Their small navy has been swept from the seas. The fate of a fragile nation, the fate of the Revolution, hangs by a thread. In walks Ryan with his fast ships and iron men eager to fight the British for their own reasons. Before they are finished Ryan and his men will capture or destroy over 100 British ships, take hundreds of prisoners and invade English and Scottish towns - tying down precious military resources, causing financial panic in London and inflicting more damage on British maritime interests than perhaps any other naval force during the war. The story is told in three books: Gather the Shadowmen (The Lords of the Ocean), Prince of the Atlantic and Napoleon's Gold (which can be read in or out of sequence).

[Ceawa's Burial Mound: A Celebration of East Challow, Hazel Brown, Clive Brown](#) , 2007, 0955497906, 9780955497902.

[Notes from Canada's Young Activists, Severn Cullis-Suzuki, Kris Frederickson, Ahmed Kayssi](#) , 2012, 1771004304, 9781771004305. Twenty-five young Canadian activists tell their stories of what motivated them to take action to change the world. How do members of the twenty-something generation see the world? What is their vision for the future? This book presents the stories of members of young Canadians who are working to create a more sustainable, compassionate, and conscientious global society. In this compilation of personal stories, young citizens describe the moment they were

inspired to pursue their passion to improve their world. Their methods and causes are diverse, and their stories highlight the innovative ways that they are identifying and addressing problems in society. Though optimistic, these individuals are not naive, and they have realized many impressive accomplishments. While in her teens, Miali-Elise Coley in Iqaluit organized a summer-camp program for less-privileged kids in her community to get them out on the land. Craig Kielburger founded Free The Children to raise awareness of the injustices of child labour. Tim Harvey biked and rowed around the globe to draw attention to climate change. At twenty-three, Lyndsay Poaps became the youngest elected official in Vancouver's history, serving as a city park board commissioner for three years. George Roter co-founded Engineers Without Borders, an organization of Canadian engineers that reaches across frontiers between Canada and Africa to help developing communities. Told with maturity but anchored in youthful idealism, these stories are a celebration of how these driven individuals are taking responsibility for their own and future generations, as well as how young people have faced the seemingly insurmountable challenges of guilt, burn-out, apathy, and isolation. Inspired by experiences abroad and at home, or driven to care by personal circumstance, the stories of this generation of leaders is asking and answering tough personal and societal questions. The editors of this compilation hope to inspire and challenge all generations to act, to think, and to better the world around them.

[The 7 Golden Rules of Milton Hershey, Greg Rothman](#) , 2007, 1933715456, 9781933715452. "When I left home as a boy to tackle the job of making a living my mother gave me some good advice. She said, 'Milton, you are now going out into the world to make a man of yourself. My best advice to you is -- when you tackle a job stick to it until you have mastered it.' I never have forgotten those words and now when I think of the chocolate business and the way it has grown I think it was my mother's advice that spurred me on and helped me to overcome my obstacles." "You can only make money by giving people what they want, and by making good use of your opportunities. When I started making chocolate I didn't follow the policies of those already in the business. If I had, I would never have made a go of it. Instead, I started out with the determination to make a better nickel chocolate bar than any of my competitors made, and I did so." --Milton Hershey

[LONGMAN CORNERSTONE. 1\(CD-ROM 1\), Volume 1,](#) , 2008, .

[The Robins of St Lawrence Church, Amy Dyas](#) , 2009, 0978656784, 9780978656782. Take off on this high-flying adventure with The Robins of St. Lawrence Church! You'll meet Merry, Flora, and Sunny, who are the fluffy fledglings of Peter and Mary, and their fantastic friends, Rupert the cat, Colonel the owl, Merlin the eagle, and many more. Follow Merry, Flora, and Sunny as they have fun exploring their new home while getting to know their new friends and avoiding the danger of being eaten by their mortal enemy, Trixie the fox. [The Nation Pays Again: The Demise of the Milwaukee Road, 1928-1986](#), , 1986, 0961378816, 9780961378813. THE NATION PAYS AGAIN (3rd Ed., 1991) is a sequel to Lowenthal's classic THE INVESTIGATOR PAYS (1933) in that it carries forward the history of the Chicago, Milwaukee, St. Paul & Pacific Railroad Company from the end of its first bankruptcy in 1928, Lowenthal's subject, to the end of its third & the annihilation in 1986. The author, formerly a staff attorney for the railroad, gives personal witness to events from the day he joins the firm in 1966 through twenty years of drama. He reports the momentous discoveries made in the headquarters of the railroad's bitter rival proving illegal conspiracy to "Kill MILW," & the government's failure to protect its investment in the Milwaukee Road's ability to compete. The story records the sad repetition of all Lowenthal inveighed against in wasteful bankruptcy practices as the system is broken up & sold off, huge profits going to the trustee & his friends. The Lexington Newsletter, a historian's guide, recommended "should be read by all seriously interested in the history of U.S. railroads since World War II."

[Crime and criminology: an introduction, Robert Douglas White, Fiona Haines](#) , 2000, 0195513401, 9780195513400. This book identifies basic approaches within criminology, including classical, biological and psychological positivist, labeling, Marxist, feminist, republican, left realist, new right, and critical. The book discusses the strengths and weaknesses of each perspective and its contribution to the field as a whole.

[Fin-de-sicle Vienna: Politics and Culture, Carl E. Schorske](#) , 1981, 052128516X, 9780521285162. A landmark book from one of the truly original scholars of our time: a magnificent revelation of turn-of-the-century Vienna where out of a crisis of political and social disintegration so much of modern art and thought was born. "Not only is it a splendid exploration of several aspects of early modernism in their political context; it is an indicator of how the discipline of intellectual history is currently practiced by its most able and ambitious craftsmen. It is also a moving vindication of historical study itself, in the face of modernism's defiant suggestion that history is obsolete." -- David A. Hollinger, History Book Club Review "Each of [the seven separate studies] can be read separately....Yet they are so artfully designed and integrated that one who reads them in order is impressed by the book's wholeness and the momentum of its argument." -- Gordon A. Craig, The New Republic "A profound work...on one of the most important chapters of modern intellectual history" -- H.R. Trevor-Roper, front page, The New York Times Book Review "Invaluable to the social and political historian...as well as to those more concerned with the arts" -- John Willett, The New York Review of Books "A work of original synthesis and scholarship. Engrossing." -- Newsweek

[Muscles, Myths and Movies: An Acquired Taste on Video Guide to the Cinematic Adventures of Hercules](#), , 1994, 0964164302, 9780964164307. The first book to take an exclusive, in-depth look at the beefcake "Hercules" genre of movies that started with Steve Reeves & ended with Arnold Schwarzenegger as he began his movie career. These films

have always had a major film cult following but nothing has been available to the fans up till now. Complete & detailed story synopsis's are given for most of the films, including the original "Hercules," "Samson," "Goliath & the Dragon," "Mole Men against the Son of Hercules," & many, many more. Detailed reviews are written with a fair criteria but by a fan who knows that others who enjoy the genre have been waiting for a positive appreciation of these films. Also included are credit & production notes, biographical info on the stars & unique "Hercules Legends" that lets fans instantly know the quality of the films' four most popular features: "Beefcake," "Monsters," "Love Interest," "Action." For ordering information write Stephen Weakley, c/o Rabbit's Garage, 202 Basswood, Elk Grove Village, IL 60007. (708) 439-4884.

[The Relentless Revolution: A History of Capitalism, Joyce Appleby](#) , 2011, 0393077233, 9780393077230. "Splendid: the global history of capitalism in all its creative and destructive glory. The New York Times Book Review With its deep roots and global scope, the capitalist system seems universal and timeless. The framework for our lives, it is a source of constant change, sometimes measured and predictable, sometimes drastic, out of control. Yet what is now ubiquitous was not always so. Capitalism was an unlikely development when it emerged from isolated changes in farming, trade, and manufacturing in early-modern England. Astute observers began to notice these changes and register their effects. Those in power began to harness these new practices to the state, enhancing both. A system generating wealth, power, and new ideas arose to reshape societies in a constant surge of change. Approaching capitalism as a culture, as a historical development that was by no means natural or inevitable, Joyce Appleby gives us a fascinating introduction to this most potent creation of mankind from its origins to its present global reach.

[Hibiscus on the Lake: Twentieth-century Telugu Poetry from India, Velcheru Narayana Rao, Vlcru Nryaarvu](#) , 2003, 0299177041, 9780299177041. English speakers may read for the first time a previously hidden literature of great beauty and importance, compiled and translated by one of the foremost scholars of the literature of twentieth-century India. Richly appealing, sensitively and masterfully translated, surprisingly accessible, and adeptly organized, these poems from the Telugu language of southern India will find in this groundbreaking anthology the wider international readership they deserve and a place in the worldwide emergence of India's vernacular literature. Velcheru Narayana Rao is an ideal guide for the English-language reader's timely introduction to this long and vigorous literary tradition and to the generously varied poets whose accomplished, exotic, enigmatic voices speak to us here at last in the boundless tradition of all great poetry.

[Skeletal Muscle Structure, Function, and Plasticity, Richard L. Lieber](#) , 2002, 0781730619, 9780781730617. In its Second Edition, this text addresses basic and applied physiological properties of skeletal muscle in the context of the physiological effects from clinical treatment. Many concepts are expanded and recent studies on human muscle have been added. This new edition also includes more clinically relevant cases and stories. A two-page full color insert of muscle sections is provided to ensure integral understanding of the concepts presented in the text. Anyone interested in human movement analysis and the understanding of generation and control from the musculoskeletal and neuromuscular systems in implementing movement will find this a valuable resource.

[Industrial Wastewater Treatment by Activated Sludge, Derin Orhon, Fatos Germirli Babuna, Ozlem Karahan](#) , 2009, 1843391449, 9781843391449. Industrial pollution is still a major concern and despite its significance, sound and systematic pollution control efforts are very poorly documented. The character and treatability of industrial wastewaters is highly variable and specific for each industrial activity. Biological treatment with activated sludge is the appropriate technology for industrial wastewaters from several major industrial sectors. Industrial Wastewater Treatment by Activated Sludge deals with the activated sludge treatment of industrial wastewaters by considering conceptual frameworks, methodologies and case studies, in a stepwise manner. The issues related to activated sludge treatment, such as biodegradability based characterization, modeling, assessment of stoichiometric and kinetic parameters and design, as well as the issues of industrial pollution control, e.g. in-plant control, effect of pretreatment, etc. are combined in a way to provide a comprehensive and information-rich view to the reader. By doing so, the book supplies an up-to-date reference for industrial wastewater experts and both graduate and undergraduate students. Industrial Wastewater Treatment by Activated Sludge provides a roadmap, describing the methodologies for the treatment of industrial wastewaters from several major sectors, based on a solid theoretical background. Up to now although valuable separate efforts both on activated sludge and industrial wastewater treatment have been presented, an integrated approach that

is crucial to practice has not been available. This gap is filled by this book.
