[Encyclopedia of International Development, Tim Forsyth](#) , 2011, 041567400X, 9780415674003. International development is now a major global activity and the focus of the rapidly growing academic discipline of development studies. The Encyclopedia of International Development provides definitions and discussions of the key concepts, controversies and actors associated with international development for a readership of development workers, teachers and students. With 600 entries, ranging in length from shorter factual studies to more in-depth essays, a comprehensive system of cross references and a full index, it is the most definitive guide to international development yet published. Development is more than a simple increase in a country's wealth and living conditions. It also implies increasing people's choices and freedoms; it is change that is inclusive and empowering. Development theory and practice has important applications to questions of economic growth, trade, governance, education, healthcare, gender rights and environmental protection, and it involves issues such as international aid, peacekeeping, famine relief and strategies against HIV/AIDS. The Encyclopedia treats these topics and many more, and provides critical analyses of important actors within development such as the United Nations and World Bank, non-governmental organizations and corporations. Contributors to this volume reflect the multidisciplinary and international nature of the subject. They come from social science disciplines such as economics, international studies, political science and anthropology, and from specialities such as medicine. This Encyclopedia provides crucial information for universities, students and professional organizations involved with international development, and those interested in related topics such as international studies or other studies of social and economic change today.

[The Divorce Remedy: The Proven 7-step Program for Saving Your Marriage, Michele Weiner-Davis](#) , 2001, 0684873540, 9780684873541. In the United States, half of all marriages end in divorce and millions of other couples have resigned themselves to living in loveless marriages. If you are on the verge of becoming one of these statistics but refuse to accept a marital death sentence, you've picked up the right book. With her bestselling book *Divorce Busting*, and through her private practice and professional seminars, therapist and relationship expert Michele Weiner Davis has helped thousands of couples come back from the brink of divorce. Now she offers you the skills you need to bring your marriage back to life and create a stronger, more loving relationship with your partner. In *The Divorce Remedy*, Weiner Davis has created a seven-step program anyone can follow to revitalize even the most damaged marriage. Weiner Davis will be your relationship coach, offering down-to-earth, psychobabble-free guidance and encouragement every step of the way. She teaches you how to identify specific marriage-saving goals, move beyond ineffective, hurtful ways of interacting, and become an expert on "doing what works." Inspirational anecdotes and in-depth case studies show how couples have used these techniques to save their marriages, and how you can use these same techniques to rescue yours. Weiner Davis also offers solution-oriented strategies for readers to cope with infidelity, Internet obsessions, depression, sexual problems, and midlife crises. And if you think your partner already has a foot out the door, this proven program is a recipe for change, even if only you participate. Practical and empowering, *The Divorce Remedy* is the road map you need to get your marriage back on track -- and keep it there. [The American planning tradition: culture and policy, , Robert Fishman](#) , 2000, 0943875951, 9780943875958. The past half-century's radical transformation of American cities and regions has paradoxically stimulated our interest in older forms of cities and renewed our respect for the planning tradition that created them. Today, with everything urban and public perpetually in crisis, we turn attentively toward the figures who shaped our cities and left a magnificent legacy of public spaces, public transit, public parks, public libraries, public schools, public health, and public safety. *The American Planning Tradition* reevaluates those planners and their times in a series of essays by some of today's preeminent urbanists. These contributors view such antecedents as Albert Gallatin, Frederick Law Olmsted, Daniel Burnham, Edward Bennett, and Lewis Mumford not merely as precursors who prepared the way for the revelations of modern planning theory, but as contemporaries and even prophets who struggled with many of the same problems that afflict us, and responded with more vision, confidence, and hope than we seem to have today. Their chapters discuss principles proposed for American urban planning, cover a series of national efforts at planning for transportation, resources, and the environment, and describe recent experiences in New Orleans, Portland, Chicago, and Boston. The contributors are Robert Fishman, John Thomas, Michael J. Lacey, James Westcoat, Jr., Alan Brinkley, Margaret Weir, Arnold R. Hirsch, Carl Abbott, Judith A. Martin and Sam Bass Warner, Jr, and Anne Whiston Spirn.

End-of-chapter questions and exercises make this unique and fun look at the different ways men and women regard life a terrific tool for not only marriage, but also for a reader's relationships at work, at home, at church, and with friends. Rerelease with new cover

[Democracies in Flux: The Evolution of Social Capital in Contemporary Society, Robert D. Putnam](#) , 2002, 0195171608, 9780195171600. In his national bestseller Bowling Alone, Robert Putnam illuminated the decline of social capital in the US. Now, in Democracies in Flux, Putnam brings together a group of leading scholars who broaden his findings as they examine the state of social capital in eight advanced democracies around the world. The book is packed with many intriguing revelations. The contributors note, for instance, that waning participation in unions, churches, and political parties seems to be virtually universal, a troubling discovery as these forms of social capital are especially important for empowering less educated, less affluent portions of the population. Indeed, in general, the researchers found more social grouping among the affluent than among the working classes and they find evidence of a younger generation that is singularly uninterested in politics, distrustful both of politicians and of others, cynical about public affairs, and less inclined to participate in enduring social organizations. Yet social capital appears as strong as ever in Sweden, where 40% of the adult population participate in "study circles"--small groups who meet weekly for educational discussions. Social capital--good will, fellowship, sympathy, and social intercourse--is vitally important both for the health of our communities and for our own physical and psychological well being. Offering a panoramic look at social capital around the world, this book makes an important contribution to our understanding of these phenomena and why they are important in today's world.

[Dancing Revelations : Alvin Ailey's Embodiment of African American Culture: Alvin Ailey's Embodiment of African American Culture, Thomas F. DeFrantz Associate Professor of Theater Arts MIT](#) , 2004, 0195348354, 9780195348354. In the early 1960s, the Alvin Ailey American Dance Theater was a small, multi-racial company of dancers that performed the works of its founding choreographer and other emerging artists. By the late 1960s, the company had become a well-

known African American artistic group closely tied to the Civil Rights struggle. In *Dancing Revelations*, Thomas DeFrantz chronicles the troupe's journey from a small modern dance company to one of the premier institutions of African American culture. He not only charts this rise to national and international renown, but also contextualizes this progress within the civil rights, women's rights, and gay rights struggles of the late 20th century. DeFrantz examines the most celebrated Ailey dances, including *Revelations*, drawing on video recordings of Ailey's dances, published interviews, oral histories, and his own interviews with former Ailey company dancers. Through vivid descriptions and beautiful illustrations, DeFrantz reveals the relationship between Ailey's works and African American culture as a whole. He illuminates the dual achievement of Ailey as an artist and as an arts activist committed to developing an African American presence in dance. He also addresses concerns about how dance performance is documented, including issues around spectatorship and the display of sexuality, the relationship of Ailey's dances to civil rights activism, and the establishment and maintenance of a successful, large-scale Black Arts institution. Throughout *Dancing Revelations*, DeFrantz illustrates how Ailey combined elements of African dance with motifs adapted from blues, jazz, and Broadway to choreograph his dances. By re-interpreting these tropes of black culture in his original and well-received dances, DeFrantz argues that Ailey played a significant role in defining the African American cultural canon in the twentieth century. As the first book to examine the cultural sources and cultural impact of Ailey's work, *Dancing Revelations* is an important contribution to modern dance history and criticism as well as African-American studies.

[The Boy on the Wooden Box: How the Impossible Became Possible . . . on Schindler's List, Leon Leyson](#) , 2013, 1442497815, 9781442497818. In the #1 New York Times bestseller, Leon Leyson (born Leib Lezjon) was only ten years old when the Nazis invaded Poland and his family was forced to relocate to the Krakow ghetto. Leon Leyson (born Leib Lezjon) was only ten years old when the Nazis invaded Poland and his family was forced to relocate to the Krakow ghetto. With incredible luck, perseverance, and grit, Leyson was able to survive the sadism of the Nazis, including that of the demonic Amon Goeth, commandant of Plaszow, the concentration camp outside Krakow. Ultimately, it was the generosity and cunning of one man, a man named Oskar Schindler, who saved Leon Leyson's life, and the lives of his mother, his father, and two of his four siblings, by adding their names to his list of workers in his factory a list that became world renowned: Schindler's List. This, the only memoir published by a former Schindler's List child, perfectly captures the innocence of a small boy who goes through the unthinkable. Most notable is the lack of rancor, the lack of

venom, and the abundance of dignity in Mr. Leysons telling. The Boy on the Wooden Box is a legacy of hope, a memoir unlike anything youve ever read.

[Voices from the Net, Clay Shirky](#) , 1995, 1562763032, 9781562763039. Hosting philosophers and rebels, historymakers and historians, the net has more friction and fewer rules than the Annual Meeting of Anarchists. Still, on the Internet stage, people from everywhere continue to rapidly develop a unique and fascinating culture of their own, complete with all the benefits, and problems, of a real-life society. In *Voices from the Net*, author Clay Shirky takes you on a tour of the communities of the net - a tour that shows you where and how they form, and how they have made the Internet the most dynamic, far-reaching online phenomenon to date. It is only in the cyberspace communities on the net that webs of words become more vital than their counterparts in the "real" world. Drawing from many arenas and many voices, the author weaves together the threads of individuality and community that gather the net into one fabric where groups of people create their own online universe. Although many of the voices in *Voices from the Net* aren't in tune, you'll find that they form a fascinating choir that is as full as the net itself.

[Shorter Oxford Textbook of Psychiatry, Philip Cowen, Paul Harrison, Tom Burns](#) , 2012, 0191626759, 9780191626753.

Widely recognised as the standard text for trainee psychiatrists, the *Shorter Oxford Textbook of Psychiatry* stands head and shoulders above the competition. The text has been honed over five editions and displays a fluency, authority and insight which is not only rarely found but makes the process of assimilating information as smooth and enjoyable as possible. The book provides an introduction to all the clinical topics required by the trainee psychiatrist, including all the sub-specialties and major psychiatric conditions. Throughout, the authors emphasize the basic clinical skills required for the full assessment and understanding of the patient. Discussion of treatment includes not only scientific evidence, but also practical problems in the management of patients their family and social context. The text emphasizes an evidence-based approach to practice and gives full attention to ethical and legal issues. Introductory chapters focus on recognition of signs and symptoms, classification and diagnosis, psychiatric assessment, and aetiology. Further chapters deal with all the the major psychiatric syndromes as well as providing detailed coverage of pharmacological and psychological treatments. The book gives equal prominence to ICD and DSM classification - often with direct comparisons - giving the book a universal appeal. The *Shorter Oxford Textbook of Psychiatry* remains the most up-to-date secondary level textbook of psychiatry available, with the new edition boasting a new modern design and greater use of summary boxes, tables, and lists than ever before. The extensive bibliography has been brought up-to-date and there are targeted reading lists for each chapter. The *Shorter Oxford Textbook of Psychiatry* fulfils all the study and revision needs of psychiatric trainees, but will also prove useful to medical students, GPs, qualified psychiatrists, and those in related fields who need to be kept informed with current psychiatric practice.

[Bazaar Bizarre: Not Your Granny's Crafts, Greg Der Ananian](#) , 2005, 0142005061, 9780142005064. The desire to stand out with quirky, handmade, one-of-a-kind fashion has created a huge new crowd of hip young crafters hungry for ideas. In Bazaar Bizarre, Greg Der Ananian, founder of the bicoastal craft fair of the same name, combines a variety of how-to projects from radical crafters on his bazaar circuit. Speaking to everyone from alternateens to hipster thirtysomethings with an irreverent retro-chic attitude, this book is for those looking to put an edge on the things that grandma used to make. Bazaar Bizarre offers smart, subversive inspiration unavailable from traditional crafting books and patterns, appealing not only to the nostalgia for folk expression of previous generations, but also to the popular DIY attitude of the young and stylish. From silk painting to quilting and bookbinding, projects such as Anarchy Soap and Vinyl Record Cuffs teach basic skills of popular crafts and offer tips on how to creatively customize with thrift store purchases. Readers will love Der Ananians sardonic commentary, Craftoids, about the history of crafting, punk- rock crosswords, funky finger-food recipes, and musical play lists.

[50 Studies Every Doctor Should Know: The Key Studies that Form the Foundation of Evidence Based Medicine, Michael E. Hochman](#) , 2013, 0199343586, 9780199343584.

50 Studies Every Doctor Should Know presents key studies that have shaped the practice of medicine. Selected using a rigorous methodology, the studies cover topics ranging from dieting to cardiovascular disease, insomnia to obstetrics. For each study, a concise summary is presented with an emphasis on the results and limitations of the study, and its implications for practice. Brief information on other relevant studies is provided, and an illustrative clinical case concludes each review. A section of review questions and answers is included at the back of the book to ensure that readers take away the key messages from each study. This book is a must-read for health care professionals and anyone who wants to learn more about the data behind clinical practice.

2002, 027365604X, 9780273656043. "The term "bible" is now highly over-used in reference to tech books but if it weren't, that's how I would categorize Content Critical." Rowan Wilson, Knowledge Management Review" This book is highly recommended. It belongs in every design library. It should be on the reading list of every course in Web design. Any Web designer who plans to be in business five years from now should read this book." Design Research News, J an 2002 In the age of information overload and content glut, how do you get people to read whats on your website? The modern world runs on content. And the Web is fast becoming the medium of choice for content delivery. Increasingly business is about getting the right content to the right person at the right time and making a profit out of it. Content is critical. Content Critical will change the way you think about the Web. If part of your job involves writing original content to be placed on the Web product support material, a marketing pitch, or internal communication youre part of a

publishing process. Think of your website as a publication and it all begins to make a lot of sense. Think of the person who visits your website as a reader and your objectives become clearer. Content Critical explains the theory and practice of producing reader-focused, compelling content. It includes highly detailed, practical advice about what it takes to build a professional, content-oriented website, including classification, navigation, search and content layout. It shows you how to organize a publishing team and how to create a web publishing strategy. Discover what high-quality content really is, and learn how to create it. Content Critical will help you: discover the key skills required to write compelling content for the Web understand the rules of publishing content online know how to appeal to your online readers develop an effective Internet communications strategy build publishing skills within your organization.

[Contemporary Class Piano, Elyse Mach](#) , 2010, 0195389077, 9780195389074. Known for its richly diversified styles of repertoire and ensemble pieces and its abundance of creative materials, Contemporary Class Piano, Seventh Edition, includes the widest-ranging repertoire of solo and ensemble pieces available in any beginning piano text. Elyse Mach presents an abundant solo and ensemble repertoire--which includes classical pieces and folk, jazz, rock, pop, and blues tunes--providing ample opportunities for students to improvise, transpose, harmonize, and compose accompaniments. FEATURES OF THE NEW EDITION \* Reorganized from six to ten units, the material is now more accessible for classroom use. \* Twenty diverse new reading, repertoire, and ensemble pieces introduce students to music of various styles and levels of difficulty. \* Unit 9 provides additional practice opportunities in interpreting chord symbols and harmonizing. \* More score reading examples in three- and four-part settings provide reinforcement of chorale style reading. \* Alto and tenor clef reading examples are introduced. \* Two new appendices offer more help: Appendix B features vocal and instrumental accompaniments to help students further develop skills, and Appendix E offers a timeline and historical overview of the style and characteristics of music from the Baroque period through the 21st century. \* Appendix A presents new material on transposing instruments. \* New CD and MIDI disk icons in the text indicate track numbers for ease of reference. \* "Practice Strategies" boxes give beginners helpful hints. \* A "Classic Miniatures" section of excerpts contains original keyboard pieces written by master composers. \* Worksheets appearing at the end of most chapters provide further practice opportunities. SUPPORT PACKAGE \* A new in-text audio CD for students, which includes orchestrations by renowned composers Phillip Keveren and Jason Nyberg, presents selected pieces at both practice tempo and performance tempo. \* A set of four MIDI disks--containing approximately 240 orchestration accompaniments prepared by composers Phillip Keveren and Jason Nyberg--motivates students to practice and complete their assignments more readily. This set is available free to adopters. \* The Instructor's Companion Website ([www.oup.com/us/classpiano](http://www.oup.com/us/classpiano)) will offer suggested lesson plans, teaching tips, and full track listings for the in-text CD and Instructor MIDI disks.

[Advanced Modelling in Finance using Excel and VBA, Mary Jackson, Mike Staunton](#) , 2006, 0470061669, 9780470061664. This new and unique book demonstrates that Excel and VBA can play an important role in the explanation and

implementation of numerical methods across finance. *Advanced Modelling in Finance* provides a comprehensive look at equities, options on equities and options on bonds from the early 1950s to the late 1990s. The book adopts a step-by-step approach to understanding the more sophisticated aspects of Excel macros and VBA programming, showing how these programming techniques can be used to model and manipulate financial data, as applied to equities, bonds and options. The book is essential for financial practitioners who need to develop their financial modelling skill sets as there is an increase in the need to analyse and develop ever more complex 'what if' scenarios. Specifically applies Excel and VBA to the financial markets. Packaged with a CD containing the software from the examples throughout the book. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

[Brendan Malone: The Last Fenian, Marina J. Neary](#) , 2011, 0984629742, 9780984629749. Based on true historical events, "Brendan Malone: The Last Fenian" is a folkloric satire examining the dark, destructive side of paternal love. Roscommon, Ireland-1910. A string of crop failures and botched rebellions had left the country a pitiful wasteland. Brendan Malone, a struggling Gaelic landlord and member of the secret Irish Republican Brotherhood, succumbs to a midlife flare-up of nationalism, while his two sons climb the academic Olympus at University College Dublin. Dylan, primitive and compliant, clings to his overbearing father, while Hugh, anglicized beyond recognition, harbors his own ambitions that do not include liberating his native land. "M.J. Neary has added a well-crafted and finely researched novel to the genre." --Kenneth Weene, author of "Memoirs From The Asylum" "gripping read from beginning to end" --Gary Inbinder, author of "Confessions of the Creature The author has brought a difficult period of Irish history to life through a combination of historical and fictional characters. --Jim Dougherty, President of "The Wild Goose

[Hey, Look at Me!: Wee Friends, Merry Fleming Thomasson](#) , 1992, 0961540788, 9780961540784. An amusing concept book allows the children to star in their own book, playing with a host of animal babies, including a puppy, a kitten, a rabbit, and a duckling.

[Sacred Spark, Lisa K. Sykes, David A Geier](#) , 2009, 0971780641, 9780971780644. Sacred Spark is the compelling true story of a child affected by mercury-poisoning and his minister-mother's decade-long battle to restore the light in his eyes. It is also the inspiring story of Reverend Sykes' work with the United Methodist Church to pass the first global resolution advocating the elimination of mercury from medicine, a nascent social justice movement on par with historical faith-based campaigns against child labor and slavery. With pragmatism and compassion, Sacred Spark calls for putting the well-being of children first. Through Sacred Spark's unflinchingly honest, first-person account, parents and physicians demanding safer vaccines will find clarity to support their informed choices as well as inspiration and guidance to become

advocates for children. Woven seamlessly into the book's engrossing narrative are Rev. Sykes' victories in appropriate and landmark biomedical treatments for her son, the success of empowered parents to enact state bans on mercury and to approach Attorney Generals across the country, attempts to find precious allies against a corrupt and protected industry, and her family's lawsuit defeat against a pharmaceutical company. As a Princeton Theological Seminary graduate and minister of 19 years, Rev. Sykes inspires the reader to go beyond compromised scientific studies and profit-driven political debates, and examine the mercury/autism issue through the first-hand experience of a mother and the faith and conviction of a minister. *Sacred Spark* ultimately teaches us that it is ordinary people who ignite the fire of reform.

[Africa: An Artist's Safari](#), [Fred Krakowiak](#) , 2007, 0978708407, 9780978708405. Part memoir, part meditation, this intimate portfolio is a collection of vivid stories and evocative images that honor this immense and wild land. Through breathtaking illustrations and a well-informed narration, the collection captures an Africa full of color and texture, energy and motion, passion and hope. In addition to sketches drawn while trekking, the book features reproductions of final pieces painted on a variety of materials -- bronze, copper, rice paper, silk -- and expressed through the ancient art of sumi. Accompanying sidebars reveal facts about the various African animals -- lions, leopards, elephants, rhinos, water buffalo, and the like -- such as their markings, size, behavior, gestation, life span, predators, defense, and conservation measures being taken to save them.

[The Biology of Disturbed Habitats](#), [Lawrence R. Walker](#) , 2012, 0199575290, 9780199575299. This book provides the first global synthesis of the biology of disturbed habitats and offers readers both the conceptual underpinnings and practical advice required to comprehend and address the unprecedented environmental challenges facing humans. Every habitat on earth has been impacted by natural disturbances such as volcanoes, earthquakes, landslides, fires, floods, and droughts. Humans have contributed many additional disturbances such as mining, urbanization, forestry, agriculture, fishing, and recreation. These anthropogenic disturbances modify and often exacerbate the effects of the natural disturbances. Together, they result in the abrupt loss of biomass or ecosystem structure and function to create denuded surfaces where novel mixtures of native and non-native microbes, plants, and animals establish, grow, and die. *The Biology of Disturbed Habitats* examines both natural and anthropogenic disturbances in aquatic and terrestrial habitats. It explores how nutrients and productivity are altered in the disturbed habitats, the effects of disturbance on biodiversity, and the spatial and temporal dynamics of organisms that colonize disturbed habitats. This book also addresses how to

manage disturbances through appropriate conservation and restoration measures, and discusses how climate change and overpopulation now represent the most challenging disturbances at a global scale.

[Baby Hearts: A Guide to Giving Your Child an Emotional Head Start, Susan Goodwyn, Ph.D., Linda Acredolo, Ph.D.](#) , 2007, 0307417883, 9780307417886. Who says your baby can't talk about his or her feelings? In fact, babies' actions often speak louder than words! Understanding those actions and responding appropriately to them is the key to giving your child a head start to a healthy and happy future. Now the authors of the bestselling *Baby Minds* and *Baby Signs* translate the latest research on the rich inner life of babies into practical, fun activities that will foster your child's emotional skills during the most critical period between birth and age three. This comprehensive guide will help you help your child express emotions effectively, develop empathy, form healthy friendships, and cope with specific challenges. Learn how to: Talk with your child about emotions in order to help him recognize and control his own Use face-to-face interaction, tone of voice, song, and touch to make your infant feel safe and secure Start a gratitude journal to help your child appreciate the good things in life Nurture self-esteem with try, try again activities and simple chores Create a What are they feeling deck of cards to help your child understand and practice emotions Use games and songs to help your child practice self-control Overcome temper tantrums, aggression, shyness, separation anxiety, and other challenges Whether your child is as easy to raise as a sunflower, as difficult as the prickly holly bush, requires the patience of the delicate orchid, or is as active as the exuberant dandelion, *Baby Hearts* helps you provide the emotional support that may be the most important gift a parent can give. From the Trade Paperback edition.

[The Lady with the Little Dog and Other Stories, 1896-1904, Anton Chekhov](#) , 2002, 0141906855, 9780141906850. In the final years of his life, Chekhov had reached the height of his powers as a dramatist, and also produced some of the stories that rank among his masterpieces. The poignant 'The Lady with the Little Dog' and 'About Love' examine the nature of love outside of marriage - its romantic idealism and the fear of disillusionment. And in stories such as 'Peasants', 'The House with the Mezzanine' and 'My Life' Chekhov paints a vivid picture of the conditions of the poor and of their powerlessness in the face of exploitation and hardship. With the works collected here, Chekhov moved away from the realism of his earlier tales - developing a broader range of characters and subject matter, while forging the spare minimalist style that would inspire such modern short-story writers as Hemingway and Faulkner.

[The Dancing Healers: A Doctor's Journey of Healing with Native Americans, Carl A. Hammerschlag](#) , 1988, 0062503944, 9780062503947. This fascinating account of a Yale-trained psychiatrist's twenty-year experience with Native American healing interweaves autobiography with stories of the Native Americans who challenged his medical school assumptions about their methods. While working as a family physician in a Native American hospital in the Southwest, Carl

Hammerschlag was introduced to a patient named Santiago, a Pueblo priest and clan chief, who asked him where he had learned how to heal. Hammerschlag responded almost by rote, rattling off his medical education, internship, and certification. The old man replied, "Do you know how to dance?" To humor Santiago, Hammerschlag shuffled his feet at the priest's bedside. Despite his condition, Santiago got up and demonstrated the proper steps. "You must be able to dance if you are to heal people," he admonished the young doctor. "I can teach you my steps, but you will have to hear your own music." Hammerschlag synthesizes his Jewish heritage with his experience with Native Americans to produce a practice open to all methods of healing. He discovers the wisdom of the Pueblo priest's question to his Western doctor, "Do you know how to dance?"

[The Hope of the Early Church: A Handbook of Patristic Eschatology, Brian Daley](#) , 1991, 0521352584, 9780521352581.

This book is an outline of the development of eschatological thought in the first seven centuries of Christianity. It is the first attempt, in any language, to give a comprehensive description of the origins of Christian eschatology, as it expanded from its Jewish roots and Jesus' preaching, and as it drew upon the philosophical and folkloric notions of death and its aftermath held by the peoples of the Mediterranean. Based on a study of the original texts, the book considers not only the eschatology of the Greek and Latin fathers, but also what can be known from the early Syriac, Coptic, and Armenian Christian literature. Brief and clearly-focused in its range of subjects, the book provides an accessible historical survey of a centrally important aspect of early Christian doctrine. This book is an outline of the development of eschatological thought in the first seven centuries of Christianity. [Wrapped in Blue: A Journey of Discovery, Donna Rose](#) , 2003, 0972955305, 9780972955300. Wrapped In Blue is Donna Rose's deeply personal memoir of self-discovery. The emotional story of her courageous and difficult journey across the gender line challenges the reader to consider life, love and gender in a new and insightful way. In the process, it provides a unique, intriguing, and sometimes humorous perspective on the differences between men and women.

[The Language of Things, Deyan Sudjic](#) , 2008, 0141900105, 9780141900100. We live in a world drowning in objects. But what do they tell us about ourselves? In The Language of Things, Deyan Sudjic charts our relationship - both innocent and knowing - with all things designed. From the opulent excesses of the catwalk, or the technical brilliance of a laptop computer, to the subtle refinement of a desk lamp, he shows how we can be manipulated and seduced by our possessions. Sudjic delivers an exhilarating insiders history of design as he introduces us to the world's most original innovators and reveals the hidden meanings in their work. How did the design of a pistol influence a car? Why did a chair make a cafe the most fashionable place in Paris? What can we learn from a banknote, a police uniform or a typeface? And why can't any of us decide what size to wear our trousers? In an age when the word designer has become synonymous with the cynical and manipulative, Sudjic examines the qualities behind successful design and explores the conflicting tensions between high art and mass production. Brilliant and courageous, The Language of Things defines the visual vocabulary of our time and gives us a powerful new way of seeing the world.

[Finding a Way: Encouraging Underrepresented Groups in Geography : an Annotated Bibliography, Michal LeVasseur](#) ,

1993, 0962737968, 9780962737961. This bibliography is intended to begin the process of awareness necessary to encourage young women and racial and ethnic minorities in geography classes across the nation. Women and minority racial and ethnic groups have long been seriously underrepresented in the discipline of geography both in the applied and professional world and in academic institutions. This project is the first national effort to address the issue of equity in achievement and retention in geography classes. The objective of this document is to encourage research and action on these issues by providing brief background information and a bibliography of sources related to the following categories: (1) the status and participation of women and racial and ethnic groups in geography; (2) gender/ethnic-related differences in achievement; (3) possible causes of gender/ethnic-related differences in participation and/or achievement; (4) intervention strategies; (5) available resource materials; and (6) questions for future research. The bibliography includes published research papers, articles, and books. Since concern with the issue of women and minorities in geography began to appear in the literature during the 1970s, the bibliography is generally limited to publications from 1970 to 1992. (EH)

[Invocations to the Light, Wistancia Stone](#) , 2000, 1577330110, 9781577330110. Invocations to the Light is a loving guide to re-awaken our connection to our True Selves. Like prayer and meditation, invocations teach, inspire, and add to the Light we carry into the world. By consciously invoking the help and guidance of Higher Beings, we acknowledge their

presence, reach up to where the help resides, and bring it down to where the help is needed. Invocations are personal tools for uniting with spiritual masters and asking for the blessings we need in life. In contacting our inner Source, we learn to use our power, our voice, and our heart to call upon the Love and Light of Spirit to work with us, especially in these times of personal and planetary expansion.

[Speaking of Jane Roberts: Remembering the Author of the Seth Material, Susan M. Watkins](#) , 2001, 1609255410, 9781609255411. Poet, novelist, author of the Seth Material, Jane Roberts's books have sold over 7.5 million copies. She was one of the most important psychics of the twentieth century. Now, Speaking of Jane Roberts reveals a woman as fascinating as the material she produced. Susan Watkins and Jane Roberts were friends for sixteen years. Early on, Seth, the entity who spoke through Roberts, told the two women that they were counterparts, connected in this particular lifetime to work out some shared personal issues. In addition to being a compassionate and sometimes painfully honest look at Roberts's life--her difficult childhood, her constant questioning of psychic abilities and sources of creativity, her resistance to Seth's advice, her dramatic struggles with her health. Speaking of Jane Roberts is also a beautiful and applicable illustration of the counterpart relationship. The connection that Watkins and Roberts shared reveals something important about the power and mystery of the connections we all share with the people closest to us.\* Watkins also offers original insights into the phenomenon of channeling.

[Introduction to Biotechnology, Ray Herren](#) , 2012, 1435498372, 9781435498372. INTRODUCTION TO BIOTECHNOLOGY:

AN AGRICULTURAL REVOLUTION offers a thorough introduction to biotechnology and the ways it has revolutionized modern agriculture. This newly updated text provides a solid grounding in core biotechnology concepts, as well as information on cutting-edge science and technology and their applications in real-world agriculture, medicine, and health care. The text's in-depth coverage includes essential topics such as cell functions, genetics, biotechnology applications, and biotech careers, as well as a thoughtful and balanced examination of controversial issues such as genetic engineering, genetically modified organisms, cloning, and potential dangers to humans and the environment. Building on the text's proven strengths, the Second Edition features a stronger emphasis on the science and math of biotechnology, updated content to reflect the latest trends and technology, and new lab exercises to reinforce key concepts and help students master the tools and techniques they will need to succeed in biotech careers. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Carbon Nanotube-polymer Composites, ISSN 1757-7136, Dimitrios Tasis](#) , 2013, 1849735689, 9781849735681.

Chemically-modified carbon nanotubes (CNTs) exhibit a wide range of physical and chemical properties which makes them an attractive starting material for the preparation of super-strong and highly-conductive fibres and films. Much information is available across the primary literature, making it difficult to obtain an overall picture of the state-of-the-art. This volume brings together some of the leading researchers in the field from across the globe to present the potential these materials have, not only in developing and characterising novel materials but also the devices which can be fabricated from them. Topics featured in the book include Raman characterisation, industrial polymer materials, actuators and sensors and polymer reinforcement, with chapters prepared by highly-cited authors from across the globe. A valuable handbook for any academic or industrial laboratory, this book will appeal to newcomers to the field and established researchers alike.

[Reich of the Black Sun: Nazi Secret Weapons & the Cold War Allied Legend, Joseph P. Farrell](#) , 2004, 1931882398, 9781931882392. Why were the Allies worried about an atom bomb attack by the Germans in 1944? Why did the Soviets threaten to use poison gas against the Germans? Why did Hitler in 1945 insist that holding Prague could win the war for the Third Reich? Why did US General George Patton's Third Army race for the Skoda works at Pilsen in Czechoslovakia instead of Berlin? Why did the US Army not test the uranium atom bomb it dropped on Hiroshima? Why did the Luftwaffe fly a non-stop round trip mission to within twenty miles of New York City in 1944? This book takes the reader on a scientific-historical journey in order to answer these questions. Arguing that Nazi Germany actually won the race for the atom bomb in late 1944, the book then goes on to explore the even more secretive research the Nazis were conducting into the occult, alternative physics and new energy sources. The book concludes with a fresh look at the Nazi Legend of the UFO mystery by examining the Roswell Majestic-12 documents and the Kecksburg crash in the light of parallels with

some of the super-secret black projects being run by the SS. This book is must-reading for the researcher interested in alternative history, science, or UFOs.

[Intermediate Mechanics of Materials, , Madhukar Vable](#) , 2008, 0195188551, 9780195188554. Intermediate Mechanics of Materials provides an engaging treatment of three-dimensional stress and strain transformation, composites, non-linear and inelastic structural analysis, thin-walled structural members, energy methods, and the finite element method. Concise and accessible, the text logically links complex ideas together while building on students' prior knowledge. It explains different concepts through the repetitive use of a symbolic model, which relates displacements, strains, stresses, and internal/external forces and moments to each other. Intermediate Mechanics of Materials is designed for the second undergraduate course in mechanics of materials. Students should be already familiar with the basic concepts of stress, strain, axial rods, torsion of circular shafts, and symmetric bending of beams.

[London: a life in maps, Dr. Peter Whitfield](#) , 2006, 0712349189, 9780712349185. A city long shrouded in literary and historical mists--not to mention real ones--London seduces tourists and natives alike. From Big Ben to the grimy Victorian streets of Dickens novels on up to the sleek high-rises that dot the skyline of the twenty-first-century metropolis, the urban landscape of London is steeped in history, while forever responsive to the changing dictates of progress, industry, and culture. In *London: A Life in Maps*, acclaimed historian Peter Whitfield reveals a wealth of surprising truths and forgotten facts hidden in the city's historic maps. Whitfield examines nearly 200 maps spanning the last 500 years, all of which vividly demonstrate the vast changes wrought on London's streets, open spaces, and buildings. In a rich array of colorful cartographic illustrations, the maps chronicle London's tumultuous history, from the devastation of the Great Fire to the indelible marks left by World Wars I and II to the emergence of the West End as a fashion mecca. Whitfield reads historic sketches and detailed plans as biographical keys to this complex, sprawling urban center, and his in-depth examination unearths fascinating insights into the city of black cabs and red double-deckers. With engaging prose and astute analysis he also expertly coaxes out the subtle complexities of social history, urban planning, and design within the rich documentation of London's immense and constantly changing cityscape. *London: A Life in Maps* lets readers wander through the past and present of London's celebrated streets from Abbey Road to Savile Row and along the way reveals the city's captivating history, vibrant culture, and potential future.

[Visual Grammar, Christian Leborg](#) , 2006, 1568985819, 9781568985817. Life in the image world has made us all voracious, if not always deliberate, consumers of visual messages. Easy access to computer graphic tools has turned many of us into either amateur or professional image producers. But without a basic understanding of visual language, a productive dialogue between producers and consumers of visual communication is impossible. *Visual Grammar* can help you speak and write about visual objects and their creative potential, and better understand the graphics that bombard you 24/7. It is both a primer on visual language and a visual dictionary of the fundamental aspects of graphic design. Dealing with every imaginable visual concept from abstractions such as dimension, format, and volume; to concrete objects such as form, size, color, and saturation; to activities such as repetition, mirroring, movement, and displacement; to relations such as symmetry, balance, diffusion, direction, and variation this book is an indispensable reference for beginners and seasoned visual thinkers alike. Whether you simply want to familiarize yourself with visual concepts or whether you're an experienced designer looking for new ways to convey your ideas to a client, *Visual Grammar* is the clear and concise manual that you've been looking for.

Jon infuses this engaging story with keen insights as he provides a powerful roadmap to overcome adversity and bring out the best in yourself and your team. When you get on The Energy Bus you'll enjoy the ride of your life!

[Handbook of Geometric Computing: Applications in Pattern Recognition, Computer Vision, Neuralcomputing, and Robotics, Eduardo Bayro Corrochano](#) , 2005, 3540282475, 9783540282471. Many computer scientists, engineers, applied mathematicians, and physicists use geometry theory and geometric computing methods in the design of perception-action systems, intelligent autonomous systems, and man-machine interfaces. This handbook brings together the most recent advances in the application of geometric computing for building such systems, with contributions from leading experts in the important fields of neuroscience, neural networks, image processing, pattern recognition, computer vision, uncertainty in geometric computations, conformal computational geometry, computer graphics and visualization, medical

imagery, geometry and robotics, and reaching and motion planning. For the first time, the various methods are presented in a comprehensive, unified manner. This handbook is highly recommended for postgraduate students and researchers working on applications such as automated learning; geometric and fuzzy reasoning; human-like artificial vision; tele-operation; space maneuvering; haptics; rescue robots; man-machine interfaces; tele-immersion; computer- and robotics-aided neurosurgery or orthopedics; the assembly and design of humanoids; and systems for metalevel reasoning.

[The Sovietization of Eastern Europe: New Perspectives on the Postwar Period, Balzs Apor, Pter Apor, E. A. Rees](#) , 2008, 0980081467, 9780980081466. This collection of essays offers a captivating reading on how East-Central Europe was

transformed into the 'Other' Europe. It is the first attempt to systematically explore the sovietization process in Central and Eastern Europe after the Second World War. Sovietization is generally understood in the book as a process with a dual dimension: it was in part an imperial project whereby the Soviet system was exported to the region, but it was also an attempt by the governments of the "people's democracies" to adopt a Soviet way of life (self-sovietization).

Sovietization was a process dictated by ideological imperatives, but it also reflected the distinctive aspect of socialist strategies of state and nation building. Sovietization is examined in the book not only in terms of the imposition of new forms of government, but also in terms of the socialist response to modernity, as reflected in approaches to new technology and management, consumption and leisure patterns, religious and educational policy, political rituals and attitudes to the past. The essays contained in the volume explore the diversity and the tensions within the sovietization process in the countries of the region. "This collection is a bold and timely attempt at shedding light on a rather

insufficiently researched topic. It offers a comprehensive view of the extent and consequences of the Sovietization process in the countries of East-Central Europe. Moreover, the diverse approaches-ranging from socio-cultural and economic history to psycho-history-offer to specialists and lay people alike a captivating reading on how East-Central Europe was transformed into the 'Other' Europe." - Dr. Dragos Petrescu, University of Bucharest. "This collection of essays remains attentive to the specificity of the ways in which Soviet socialist ideology and organizational structures, and Soviet-style practices, were embedded, naturalized, appropriated, transformed, subverted or repulsed in different national contexts in the nations of Central and Eastern Europe." - Dr. Susan E. Reid, Senior Lecturer, University of Sheffield. "After 1989, historical research on the Communist period usually remained within national borders. It is important to actively integrate the results of these endeavors and pursue a European history of Communism. This volume is an important step in this direction. Its comparative, transnational perspective makes it an outstanding contribution to the field." - Prof. Dr. Christoph Klessmann, Zentrum fur Zeithistorische, Potsdam

So where's Greg Heffley? Inside his house, playing video games with the shades drawn. Greg, a self-confessed 'indoor person, ' is living out his ultimate summer fantasy: no responsibilities and no rules. But Greg's mom has a different vision for an ideal summer . . . one packed with outdoor activities and 'family togetherness.' Whose vision will win out? Or will a new addition to the Heffley family change everything?

[Making Connections Intermediate Teacher's Manual: A Strategic Approach to Academic Reading and Vocabulary, Volume 2, Jo McEntire, Jessica Williams](#) , 2009, 0521730503, 9780521730501. The series helps students gain insight into how academic text is organized and how to read effectively. The Teacher's Manual contains teaching suggestions and an answer key for the Student's Book.

[The Turn of the Screw: And Other Stories, Henry James](#) , 2007, 0099511231, 9780099511236. A young governess is sent to a great country house to care for two orphaned children. At first Flora and Miles seem to be model pupils but gradually the governess begins to suspect that something is very wrong with them. As she sets out to uncover the corrupt secrets hidden in the house, she is increasingly convinced that something evil is watching her. Several other of Henry James's most gruesome horror stories are also included, among them The Jolly Corner, Owen Wingrave, The Private Life, The Real Right Thing, and Sir Edmund Orme.

[Amelia Jane Collection: 3 In 1, Enid Blyton](#) , 2013, 1405265442, 9781405265447. Three classic children's stories in one bumper book from the world's best-loved children's author, Enid Blyton. Amelia Jane is big, bad and the terror of the toy cupboard! Naughty Amelia Jane is back in this bind up of three classic storybooks by Enid Blyton: Naughty Amelia Jane, Amelia Jane is Naughty Again and Amelia Jane Gets Into Trouble. In these hilarious stories, the terror of the toy cupboard, the rag doll Amelia Jane, has all sorts of exciting adventures. One thing's for sure- not many of the other toys get the better of Amelia Jane! Three fantastic books all wrapped into one about the naughtiest of Blyton's characters. Enid Blyton is arguably the most famous children's author of all time, thanks to series such as The Wishing-Chair, The Faraway Tree, The Mysteries, The Famous Five and The Secret Seven. Her Amelia Jane stories have charmed generations of children they are as memorable and full of child appeal as any of her other characters. And they are as popular today as they have ever been.

But everyone loves her for being different. And she captures Leo's heart with just one smile. STARGIRL is a classic of our time that celebrates being true to ourselves and the thrill of

first love. A life-changing read that touches souls of all ages.

[Kodaly Today : A Cognitive Approach to Elementary Music Education: A Cognitive Approach to Elementary Music Education, Department of Music Millersville University Micheal Houlahan Professor of Music Theory and Chair, Department of Music Millersville University Philip Tacka Professor of Music Education](#) , 2008, 0198042868, 9780198042860. In Kodaly Today, Micheal Houlahan and Philip Tacka offer an expertly-researched, thorough, and - most importantly - practical approach to transforming curriculum goals into tangible, achievable musical objectives and effective lesson plans. Their model - grounded in the latest research in music perception and cognition - outlines the concrete practices behind constructing effective teaching portfolios, selecting engaging music repertoire for the classroom, and teaching musicianship skills successfully to elementary students of all degrees of proficiency. Addressing the most important questions in creating and teaching Kodaly-based programs, Houlahan and Tacka write through a practical lens, presenting a clear picture of how the teaching and learning processes go hand-in-hand. Their innovative approach was designed through a close, six-year collaboration between music instructors and researchers, and offers teachers an easily-followed, step-by-step roadmap for developing students' musical understanding and metacognition skills. A comprehensive resource in the realm of elementary music education, this book is a valuable reference for all in-service music educators, music supervisors, and students and instructors in music education.

[Recovery Zone, Volume 2: Achieving Balance in Your Life: the External Tasks, , Patrick Carnes](#) , 2009, 0983271321, 9780983271321. People in recovery can be lulled into accepting that they are doing well enough to get by, especially once the chaos and drama of active addiction is arrested. However, with advances in neuroscience, addiction experts now know how critical long-term efforts are in achieving sobriety. Recovery Zone, Volume 2, guides readers past the tasks addressed in Facing the Shadow and Recovery Zone, Volume I. Readers turn to the tasks that insure that they lead a balanced life. These issues include financial responsibility, meaningful work, lifestyle balance, and spirituality. Dr. Patrick Carnes' thirty-task treatment model is the gold standard for helping people understand how trauma, family genetics, and brain chemistry influence the development of addiction. This volume guides readers to long-term recovery. Patrick Carnes, PhD, is a nationally known speaker on addiction and recovery issues. He is author of Out of the Shadows: Understanding Sexual Addiction (1992), Contrary to Love: Helping the Sexual Addict (1989), The Betrayal Bond: Breaking Free of Exploitive Relationships (1997), Open Hearts (1999), Facing the Shadow (2001), In the Shadows of the Net (2001), and Clinical Management of Sex Addiction (2002).

Original.

[Aging, Society, and the Life Course, Leslie A. Morgan, Suzanne R. Kunkel](#) , 2006, 0826100988, 9780826100986. As our aging population grows ever larger, it is increasingly important to understand how adults age and what we can do to provide up-to-date care to ensure their well-being as an integral part of society. Leslie Morgan and Suzanne Kunkel understand that this phenomenon is about much more than just the physical or biological aspects of growing older and have put together a comprehensive text on the impact of society and sociology on the aging process. Use this text to explore the diversity of the aging population and dispel the major stereotypes surrounding the elderly. Learn about aging through all the layers of social context from family life to politics and economics. And through this approach, come to see how aging is more than just an individual process, it is a process that effects the direction of our society as a whole. For the Student: Web sites of interest and key terms defined at the end of each chapter Real life stories and essays on love, sex, music, medicine, and crime For the Professor: Assignment-ready reading in a One Chapter a Week format Questions for discussion and review at each chapter end Applying Theory sections place the lesson of each chapter in a clear, real-world setting Instructor's Guide Now Available! The Parliamentary and Health Service Ombudsman responsible for investigating complaints regarding whether governmental departments, agencies and some other public bodies in the United Kingdom, and the National Health Service (NHS) in England, have acted properly or fairly, or have provided poor service. This is the first report from the Parliamentary and Health Service Ombudsman of the new 2008-09 session, and sets out 20 cases that the Ombudsman believes illustrate good and poor practice in dealing with complaints from the public, and further demonstrate how things might have been handled differently if the public body concerned had in the mind the

Ombudsman's three sets of principles on: good administration; remedy; and complaint handling.

[Intervention Solutions Harcourt Mathematics: Teacher Resource Guide, Harcourt School Publishers Staff](#) , 2002, .

[The Medieval Siege: Theme and Image in Middle English Romance, Malcolm Hebron](#) , 1997, 0198186207,

9780198186205. Sieges were a popular subject in medieval romances. Tales of the Crusades featured champions of Christianity capturing towns in the Holy Land or mounting heroic defences. The fall of a great city such as Troy, Thebes, or Jerusalem provided opportunities for the recreation of ancient chivalry and for reflections on historical change. Images of the siege in romances also point to other forms, such as drama and love allegory, where it represents the trial of the soul or the pursuit of the beloved. This book is the first full-length study of an important theme in medieval literature. Close reading of selected Middle English shows how writers used descriptions of sieges to explore such subjects as military strategy, heroism, chivalry, and attitudes to the past. This study also draws on a wide range of writings in several languages, to set the romances in a broad context. When they are seen against a background of military manuals, patristic commentary, pageantry, and love poetry, the sieges of romance take on deeper resonances of meaning and reflect the vitality of the theme in medieval culture as a whole.

[Harvard Square: An Illustrated History Since 1950, Mo Lotman](#) , 2009, 1584797479, 9781584797470. What do Barack Obama, Samuel Beckett, Fidel Castro, Joan Baez, Conan O'Brien, Natalie Portman, and Dwight D. Eisenhower have in common? Their footsteps have all crossed paths in Harvard Square. This well-trod patch of Cambridge turf at the corner of the United States most renowned university has long been a crossroads where poetry, retailing, politics, design, performance, and every other cultural endeavor intersect. From the squares tweedy aspect in the 1950s through its many transformations in the 60s,70s, and beyond, author Mo Lotman gives a decade-by-decade account of Harvard Squares history, traditions, and lore. The bookstores, the billiard parlors, the barbershops, the booze and burger joints: they're all here. Based on interviews with more than a hundred of the squares denizens, illustrated with archival photographs, and graced with texts by John Updike, Bill McKibben, Governor Bill Weld, and others, Harvard Square brings the smartest urban space in America to vivid life.

[The Count of Monte Cristo, Alexandre Dumas](#) , 2009, 0194248194, 9780194248198. The activities in Dominoes keep students engaged in the stories and help to reinforce their understanding of the key language. They can be completed at home or in class. The project activities in Dominoes build on the themes from the story and encourage students to draw on their own experiences. Activities include note-taking and language tasks, leading to extended writing, poster-making, and class presentations. They are ideal for group work in class or individual assignments.

[Environmental Impacts of Hydraulic Fracturing, Frank R. Spellman](#) , 2012, 1466514671, 9781466514676. There is a strong need for innovation and the development of viable renewable energy sources. Recent technological advances now allow natural gas supplies previously believed inaccessible or nonexistent to be discovered, mined, and processed for both industrial and consumer use. The technology, a controversial process that is alternatively called hydraulic fracturing, fracking, fracing, or hydrofracking, has greatly expanded natural gas production in the United States. Presenting a balanced discussion, Environmental Impacts of Hydraulic Fracturing is a comprehensive guide to all aspects of hydraulic fracturing used to extract natural gas, along with gas exploration and production in various shale fields. As the use of hydraulic fracturing has grown, concerns about its environmental and public health impacts have also increased, one of the most significant concerns being the fluids that are injected into rock formations to cause the fracturing contain potentially hazardous chemical additives. The book covers all facets of the issue, including ongoing controversies about the environmental and operator safety issues arising from possible water pollution, drinking water contamination, on-the-job safety hazards, and harmful chemical exposure to workers and residents near well areas. The author discusses both the pros and cons of hydraulic fracturing, explaining the process in great detail. He describes the benefits of hydraulic

fracturing and its importance in making the United States energy independent by drilling for its own resources, as well as the potential impacts to the surrounding environment. The text also includes suggestions and recommendations on how to mitigate environmental damage. Arguably the first book of its kind, this is the go-to text on the use and impacts of hydraulic fracturing.

[Everyday Business English, , Ian Badger](#) , 2003, 0582539579, 9780582539570. "The book develops spoken language skills by presenting and practising vocabulary and expressions that are useful in everyday working life. It offers essential language in realistic contexts, useful notes to explain important points, a variety of exercise with answers and a glossary section with room for the student to put in translations in their own language. A separate audio CD contains recordings of useful phrases and dialogues." - publishers description.

[Being You, Changing the World, Dain Heer](#) , 2011, 0984508813, 9780984508815. Being You, Changing the World by Dr. Dain Heer This is a very different book. It is written for the dreamers of this world the people who KNOW that something different is possible but who have never had the tools before.... This is a Handbook for Generating Infinite Possibilities and Dynamic Change. For you. And the world. Ten years ago, Dr. Dain Heer started as a chiropractor in California, USA. Seemingly successful and happy, Dain Heer was on the verge of suicide when he came across Access Consciousness. With this modality, based on question and choice, Dr. Heer s life began to expand and grow with more ease and speed than even he could have imagined possible. This book is his way of paying it forward. 'Being You, Changing the World', provides you with a set of PRACTICAL tools and processes which can change everything and give you YOU, as you truly be. It provides you with a totally different perspective of BEING. What if being you isn t about doing something differently or being better? What if it is about BEING the energy you be, in totality? And what if that can change EVERYTHING? Your life, your relationships, your money situation . . . And the world! Access Consciousness is a system for opening the doors to anything that is possible in this world. By giving you access to your knowing. By dynamically increasing you awareness. By including everything and judging nothing. Today, Dr. Dain Heer travels all over the world inviting and inspiring people to more consciousness from total allowance, caring, humor and a phenomenal knowing. His unique points of view on of embodiment, earth, sexualness and healing transcend most things currently being taught. 'Being You, Changing the World' is his eighth book. From the back cover: 'I am not a guru. I have no answers for you. Just questions. Only you know what is true for you. What I am inviting you to, is exploring WITH me. My own path to consciousness is on going, as is yours. I use these tools every day and I keep discovering what else is possible, every day. If you re willing, this book can guide you to Being You. And Changing the World. Is now the time?' You can download an audio of the first chapter, read by Dain Heer, at: [www.beingyoubook.com](http://www.beingyoubook.com).

[Perceptual Development: Visual, Auditory, and Speech Perception in Infancy, ISSN 1368-2563, Alan Slater](#) , 1998, 0863778518, 9780863778513. To make sense of the world, infants have to perceive it, and research into the development of sensory and perceptual abilities is one of the most exciting and important areas of infancy research. This book aims both to reflect current knowledge of perceptual development and to point to some of many questions that remain unanswered. Each of the major sections is prefaced by introductory comments, making the book equally useful for advanced undergraduates, postgraduates, researchers, and professionals who are interested in early perceptual development and in infancy in general.

[Science Success: Copymasters, Terry Jennings](#) , 2000, 0199183422, 9780199183425. This series develops sequentially through the primary curriculum for science in line with QCA's Scheme of Work for Primary Science. Packed with clear text, questions and activities Science Success supports both the specialist and the non-specialist teacher. It offers a pupil book for each year from Year 2-6/P3-7 as well as a book of photocopy masters. The pupil books concentrate on content and comprehension questions while the copymasters offer classroom activities and homework.

[Scarecrow Season, Jack Verneski](#) , 2012, 0984577742, 9780984577743. When the Vietnam War began to escalate, the United States Air Force changed the name of Air Defense Command to Aerospace Defense Command and lost most of its experienced pilots and maintenance personnel to Tactical Air Command. After Russia's MIG-21 appeared in Southeast Asia, TAC needed an aircraft to match its capabilities, so the new F-4 Phantom Interceptor, originally scheduled for ADC and still in the design stage, was converted into an attack fighter and given to TAC. To breach the gap after losing the F-4, ADC's aging F-106 Delta Dart Interceptor underwent structural modifications to extend its active life to an astonishing 8000 flight hours, more than designers ever intend for a first line interceptor. Hoping for better days, the unsung heroes of the U.S. Air Force, maintenance flight line personnel, managed against all challenges and kept the all-weather F-106 operational and ready to defend America against an enemy attack.

[Innovation, Science, And Institutional Change, Jerald Hage](#) , 2006, 0199299196, 9780199299195. Innovation is central to the dynamics and success of organizations and society in the modern world, the process famously referred to by Schumpeter as 'gales of creative destruction'. This ambitious and wide ranging book makes the case for a new approach to the study of innovation. It is the editors' conviction that this approach must accomplish several objectives: it must recognise that innovation encompasses changes in organizations and society, as well as products and processes; it must be genuinely interdisciplinary and include contributions from economics, sociology, management and political science; It must be international, to reflect both different patterns or systems of innovation, and different research traditions; and it must reflect the fundamental changing place in science, research and knowledge creation at all levels. To this end

they have gathered together a distinguished group of economists, sociologists, political scientists, and organization, innovation and institutional theorists to both assess current research on innovation, and to set out a new research agenda. This has been achieved through careful planning and development of the project, and also through the ensuing structure of the book which looks in turn at Product and Process Innovation (perhaps the best established focus of existing research on innovation), Scientific Research (assessing the changing character of basic research and science policy); Knowledge Dynamics in Context (encompassing organizational learning in all its aspects); and Institutional Change (an analysis of the institutional context that can shape, enable and constrain innovation). This carefully integrated and wide ranging book will be an ideal reference point for academics and researchers across the Social Sciences interested in all dimensions of innovation - be they in the field of Management Studies, Economics, Organization Studies, Sociology, Political Science and Science and Technology Studies.

[All I Want for Christmas, Pamela Smith](#) , 2004, . This full-length royalty free play is written for all ages. It is about a poor family whose father became addicted to crack and left his family. The Christian mother of three young children is left trying to pick up the pieces. As Christmas approaches, the mother is faced with having to deal with the bitterness of her young daughter, who can't grasp why in her mind her father no longer cares about her; and the father is struggling to find his way back. Your church will be touched as it witnesses what many families experience on a daily basis, not just during Christmas. [Much Ado about Russian: The Fair Hero Series: Book One, Kerry Rockwood White](#) , 2011, 0983592306, 9780983592303.

""Oh God, I wanted to run. Please God, make my legs move. Then something happened that did make them move. Move faster than I could have imagined. The stranger outside my window snarled at me like a wild animal. And he had fangs.""

"Much Ado About Russian," book one in the Fair Hero Series, introduces us to Hero Fletcher, a single woman with her own graphic design business. On the eve of her thirtieth birthday, Hero meets a tall, dark and handsome stranger while celebrating at a Boston nightclub with her friends. Just what a single girl wants for her birthday! Kinley McIntyre is not

merely a hot guy who has a glamorous job dealing with antiques. Oh no. He just also happens to be a vampire. A vampire that gets his new flame tangled up in a mystery involving an antique Russian snuff box, and a cast of supernatural creatures Hero never knew existed. Soon her world is turned upside down and inside out. Hero is being stalked by a creepy guy with fangs and an irritating, but ruthless, blonde Amazon. She can't stay in her own home and needs protecting. But what to do when you find out the guy you're dating is just as scary as the people you're already running from? Before she knows what's hit her, Hero is involved not just with vampires, but with shape shifters and faeries. And as if she doesn't have enough troubles, she unwittingly comes under the scrutiny of the austere vampire Magistrate and makes an enemy of a brutal Hunter. What's a sassy, sharp-witted modern girl to do?

[The Night Gwen Stacy Died, Sarah Bruni](#) , 2013, 0547898169, 9780547898162. An offbeat love story about the adventures and mutual rescue of a young woman out of place in her hometown and a mysterious stranger who calls himself Peter Parker (and begins to cast her in the role of Spider-Man's first sweetheart), *The Night Gwen Stacy Died* is about first loss, first love, and finding our real identities. "A dreamy world where comic book characters and psychic visions are as real as teenage boredom and young love, Bruni's debut is a magical story, a white-knuckle thrill ride." Diana Spechler, author of *Who by Fire* "The perspective shifts, slippery identities, and lurking weirdness in this book recall the peak moments of Kurosawa, Hitchcock, and Lynch. But to describe it in cinematic terms would risk slighting that bighearted, sneakily exhilarating voice that can finally be only the work of a masterful writer." Sean Howe, author of *Marvel Comics: The Untold Story* "Bruni's fiercely smart and delectably unpredictable first novel delivers again and again that most sought-after shiver up the spine, the chill that comes when you realize the world you thought you knew and understood is newer and stranger than you ever dared imagine. A genuine page-turner." Kathryn Davis, author of *The Thin Place* "Mixed into this novel's blustery atmosphere are gusts of contemporary masters, like Joy Williams, Lorrie Moore, Kelly Link, and Michael Chabon. This gave me the sort of reading experience I always hope for but almost never find: a world that somehow both resembles the one in which I live and is also unlike any other I've ever seen or read." Stefan Merrill Block, author of *The Story of Forgetting* "A brave and bold new voice, Bruni takes us on an unexpected adventure of love and loss, of beginnings and ends, all the while showing us what it really means to be a hero." Alison Espach, author of *The Adults*

[The First Heroes: The Extraordinary Story of the Doolittle Raid--America's First World War II Victory, Craig Nelson](#) , 2003, 0142003417, 9780142003411. Immediately after Japan's attack on Pearl Harbor, President Franklin D. Roosevelt sought to restore the honor of the United States with a dramatic act of vengeance: a retaliatory bombing raid on Tokyo. On April 18, 1942, eighty brave young men, led by the famous daredevil Jimmy Doolittle, took off from a navy carrier in the mid-Pacific on what everyone regarded as a suicide mission but instead became a resounding American victory and helped turn the tide of the war. The First Heroes is the story of that mission. Meticulously researched and based on interviews with twenty of the surviving Tokyo Raiders, this is a true account that almost defies belief, a tremendous human drama of great personal courage, and a powerful reminder that ordinary people, when faced with extraordinary circumstances, can rise to the challenge of history.

[Virtual realism, Michael Heim](#) , 2000, 0198026420, 9780198026426. Exploring a wide range of virtual reality technologies, from a tour of a virtual art gallery to the head-up displays used by military pilots, Michael Heim suggests a harmony of technology with lifestyle.

[Three cheers for Becky, Lynn Offerman](#) , 1998, 0717288285, 9780717288281. When Skipper and her pals need a coach for their new cheerleading squad, Barbie's friend Becky is happy to lend a hand. But when one teammate loses her nerve before the first competition, Becky teaches the girls the true meaning of teamwork and trust.

[A Recent Martyr, Valerie Martin](#) , 2011, 1780222645, 9781780222646. Set in New Orleans, this is a novel about a love triangle. Married mother, Emma Miller, is bored with her husband, her job and her life so she begins a passionate, often violent, affair with Pascal Toussaint, a sadist with whom she becomes obsessed. Pascal, in the meantime, is fixated on a young novice called Claire D'anjou. Claire seems rather cold, is devout to an extreme, and is prone to visions. Pascal's father describes her as 'not satisfied with being only mortal'. Emma endures the same sort of self-effacement in her relationship with Paul as Claire does in her struggle towards religious purity. This is all set against the backdrop of a city overrun by rats and awash with a mysterious plague.

[Philosophy for Life: And other dangerous situations, Jules Evans](#) , 2012, 1846043220, 9781846043222. In his engaging book, Jules Evans explains how ancient philosophy saved his life, and how we can all use it to become happier, wiser and more resilient. Jules imagines a dream school, which includes 12 of the greatest and most colourful thinkers the world has ever known. Each of these ancient philosophers teaches a technique we can use to transform ourselves and live better lives. These practical techniques are illustrated by the extraordinary stories of real people who are using them today - from marines to magicians, from astronauts to anarchists and from CBT psychologists to soldiers. Jules also explores how ancient philosophy is inspiring modern communities - Socratic cafes, Stoic armies, Platonic sects, Sceptic

summer camps - and even whole nations in their quest for the good life.

[Prevention of Terrorism Act 2005: Chapter 2, Explanatory Notes, Great Britain, HM Government](#) , 2005, 0105602051, 9780105602057. The purpose of this Act is to enable 'control orders' to be imposed on individuals suspected of being involved with terrorist activities. These orders could be used to restrict a person's freedom movement, association or communication and are designed as a preventative measure. There are two types of orders: non-derogating (that do not involve derogating from the European Convention on Human Rights), and derogating. Non-derogating orders will be made by the Secretary of State, after seeking permission from the court (although in cases of emergency the Secretary of State can make an order first and then refer it to the court for confirmation). Derogating orders will be the subject to full hearings by the High Court or Court of Sessions, with a right to appeal.

[Historical Atlas of Empires,](#) , 2003, 190466802X, 9781904668022. The concept of 'empire' has existed since King Sargon of Akkad conquered Mesopotamia more than 4,000 years ago. Since his Akkadian dynasty many other empires have risen and fallen; Assyrian, Roman, Mongol, Aztec, Habsburg, British and Soviet -- all have held sway over far-flung territories and peoples, usually through force, and always seeking economic gain. The construction of an empire invariably meant suffering for the conquered peoples, but empires have also contributed to stability and wealth, and many have acted as catalysts for social, political and technological progress. But what drives one nation to expand and exert its influence to extend over others? With specially commissioned cartography, color illustrations and photographs, Historical Atlas of Empires explores and explains the ever-changing concept of empire from the ancient Middle East to the superpowers of the 20th century.

[Type Talk at Work \(Revised\): How the 16 Personality Types Determine Your Success on the Job, Otto Kroeger, Janet M. Thuesen, Hile Rutledge](#) , 2009, 0307574148, 9780307574145. What's Your Type at Work? Are you one of those organized people who always complete your projects before they are due? Or do you put off getting the job done until the very last possible moment? Is your boss someone who readily lets you know how you are doing? Or does she always leave you unsure of precisely where you stand? Do you find that a few people on your team are incredibly creative but can never seem to get to a meeting on time? Do others require a specific agenda at the meeting in order to focus on the job at hand? Bestselling authors Otto Kroeger and Janet Thuesen make it easy to recognize your own type and those of your co-workers in *Type Talk at Work*, a revolutionary guide to understanding your workplace and thriving in it. Fully revised and updated for its 10th anniversary, this popular classic now features a new chapter on leadership, showing you how to be more effective on the job. Get the most out of your employees and employers using the authors' renowned expertise on typology. With *Type Talk at Work*, you'll never look at the office the same way again! From the Trade Paperback edition.

[Mathematics Across the Curriculum: Problem-Solving, Reasoning and Numeracy in Primary Schools, Sue Fox, Liz Surtees](#) , 2010, 1441123563, 9781441123565. Mathematics is a core subject and using and applying mathematics in problem solving activities is crucial in enabling children to use their knowledge and skills in a range of situations. *Mathematics Across the Curriculum* shows how to teach mathematical concepts through different subjects and discussing the reasoning and research behind using problem solving and investigation teaching techniques. Best practice for planning and assessment, classroom organisation and practice, and use of resources are all discussed, with clear links to recent research and government standards and initiatives. Case studies from practicing teachers enable readers to easily relate the theoretical information to their classroom and teaching. *Mathematics Across the Curriculum* is essential reading for all trainee and newly qualified teachers seeking to teach engaging, inspiring and challenging mathematics lessons. It will also be a useful resource for established teachers embarking on their Masters in Teaching and Learning (MTL). >

[My Side of the Mountain,](#) , 1991, 0140348107, 9780140348101. Tired of big-city life, Sam Gibley runs away to the Catskill Mountains to forge a life of his own. A year later, his younger sister Alice joins him. Alone in the mountains, Sam and Alice face great danger - with only the land, their courage, and each other to rely on.

[Private Science: Biotechnology and the Rise of the Molecular Sciences, Arnold Thackray](#) , 1998, 0812234286, 9780812234282. The word "Biotechnology," used to describe technology based on biological raw materials, was coined

in Hungary in 1917 by Karl Ereky, who met the threat of wartime famine by intensive fattening of huge numbers of pigs. Today, 250 public companies and perhaps another thousand privately held corporations are represented by the Biotechnology Industry Organization--all of them in the business of altering the genetic make-up of living things--and their activities have become the subject of vigorous debate among scholars, policymakers, and numerous other groups. Private Science is a contribution to that debate, focusing particularly on the relationships among corporations, universities, and national governments involved in biotechnological research. Essays in this collection examine the political and economic operations of the biotechnology industry and place those operations in historical context, tracing the history of both the institutional frameworks within which they developed and the ideas, attitudes, and language which shaped, and continue to shape, their development. The twelve essays in the volume focus on the relationships among corporations, universities, and national governments involved in biotechnological research. They examine the political and economic operations of the industry and place those operations in historical context, tracing the history of the institutional frameworks within which they evolved as well as the ideas, attitudes, and language which shaped, and continue to shape their development.

[Five Card Stud: A Jake Hines Mystery, Elizabeth Gunn](#) , 2000, 0802733433, 9780802733436. The body was lying the snow near the river, almost naked and definitely dead. As the wind creates drifts, sure to obliterate any tracks, and the cold grips Rutherford, Minnesota, Jake Hines looks up at the overpass and wonders ...It's not only the murder that has Jake concerned. His girlfriend, Trudy, the crime seem expert with the state Bureau of Criminal Apprehension, who ought to be at the scene, is stuck in a snowdrift somewhere. The BCA is understaffed -- the Rutherford PD is understaffed -- and the corpse is being covered by snow. But there's no snow inside the victim's when they find it, just a blood spatter pattern. With that and the thin gold chain and woman's wedding band found near the victim's body, Hines can begin connecting the dots. When a second body is discovered with a similar wound, a picture starts to emerge, an image etched in passion, betrayal and fear. With the publication of Triple Play, the first in the Jake Hines series, Elizabeth Gunn was recognized and praised for her handling of character, plot, and procedure. In Five Card Stud, she deals a perfect hand.

[Samuel Barber: The Composer and His Music, Barbara B. Heyman](#) , 1992, 0195090586, 9780195090581. Samuel Barber (1910-1981) was one of the most important and honored American composers of the twentieth century. Writing in a great variety of musical forms--symphonies, concertos, operas, vocal music, and chamber music--he infused his works with poetic lyricism and gave tonal language and forms new vitality. His rich legacy includes such famous compositions as the Adagio for Strings, the orchestral song Knoxville: Summer of 1915, three concertos, and his two operas, the Pulitzer Prize-winning Vanessa and Antony and Cleopatra, a commissioned work that opened the new Metropolitan Opera House at Lincoln Center. Generously documented by letters, sketchbooks, original musical manuscripts, and interviews with friends, colleagues and performers with whom he worked, this is the first book to cover Barber's entire career and all of his compositions. The biographical material on Barber is closely interspersed with a discussion of his music, displaying Barber's creative processes at work from his early student compositions to his mature masterpieces. Heyman also provides the social context in which this major composer grew: his education, how he built his career, the evolving musical tastes of American audiences, his relationship to musical giants like Serge Koussevitzky, and the role of radio in the promotion of his music. A testament to the significance of the new Romanticism, Samuel Barber stands as a model biography of an important American musical figure.

[Expo 2000, Tom Devlin](#) , 2000, 0967056675, 9780967056678. Expo 2000 is the companion anthology to SPX: The Expo, North America's premier forum for alternative cartoonists and small press publishers. The 2000 edition will contain articles and comics by the best alternative cartoonists working today, including Charles Burns (creator of the fantastically creepy comic Black Hole, veteran of Art Spiegelman's RAW Magazine, and cover artist for The New Yorker and Time, among others), Ivan Brunetti (Schizo), Shannon Wheeler (Too Much Coffee Man), Brian Ralph (Cave-In), and Craig Thompson (Good-Bye Chunky Rice). But these are just a few of the contributors to this packed anthology -- at 240 pages, Expo 2000 is a hefty read at a bargain price. In addition to the comics stories, there will be many articles about

alternative comics around the world, edited by Charles Brownstein. The combination of reporting and comics stories make Expo 2000 the Granta of comics! Proceeds from the sale of Expo 2000 benefit the Comic Book Legal Defense Fund (CBLDF), a non-profit organization protecting freedom of expression for the comics community. The CBLDF advises retailers on their First Amendment rights and pays the legal bills of those retailers accused of selling obscene and cutting edge comics.

[How to Quit Smoking Even If You Don't Want to, Barbara Miller](#) , 2000, 1552123448, 9781552123447. You can quit smoking! It is not impossible! I use to say, "I don't want to quit smoking" I asked myself, "What if this was the addiction?" I then thought, I want to, want to quit. What could make you want to quit? My biggest motivation came from not wanting to be controlled by this nicotine. I wanted to be in charge. This book is about how to transform one's thinking while simultaneously getting ready to quit. "This book gives you a step-by-step plan that will show you how to get ready to quit. Quitting smoking is like going into battle. With this plan in place you will be ready to win! You will learn how to develop your willpower and tap into an incredible source of "Self-Power." This plan shows you exactly what to do. How to Quit Smoking Even If You Don't Want To is in textbook format with ten brainstorming exercises you must do. People who smoke are often on "auto-pilot-thinking." This plan interrupts the "auto-pilot" and shows you how to re-write the script. It is true that you do not have to want to quit smoking but you do have to want to change something about how you make decisions. It is not complicated. As a matter of fact it is all very easy. By doing the exercises and following through with the plan you will "see" exactly what is holding you on to cigarettes. When you "see" what is keeping you addicted it becomes a whole lot easier to let go. This book will show you how to eliminate 75% of the nicotine fits, if not more. When you are all done the brainstorming exercises you will have made a one-of-a-kind, custom-made tool that will tell you what to think, when to think it, what to do and when, and how to act and how not to act. You will use this tool when you open your last pack. I often hear people say, "I have tried everything." My response is, "Have you looked in the mirror?" The answers lie inside you, not in the drugstore. This book is about transforming yourself from the inside. Some of the exercises can help you change other areas of your life that you are not completely satisfied with. My plan and method is about transforming your mind into one that can do what it could not do before. This is a serious subject with a twist of humor. I am sure you will enjoy it! Do not be afraid of trying to quit smoking. Be afraid of what will happen if you do not! Be free! Go for it! [The Holocaust: A German Historian Examines the Genocide, Wolfgang Benz](#) , 1999, 0231112157, 9780231112154. The history of the Holocaust keeps being written and rewritten in ever greater detail, but almost always by Jews. Wolfgang Benz's book makes an important contribution by bringing the German perspective to this horrific event. A masterpiece of compression, the book covers all the major topics and issues, from the Wannsee Conference of January 20, 1942, to stripping Jews of their civil rights, from the establishment of ghettos to the creation of killing centers and the development of an efficient system for extermination. The book also includes a chapter on "The Other Genocide: The Persecution of the Sinti and Roma," detailing the crusade against the Gypsies. From the Foreword by Arthur Hertzberg: Benz's account is the necessary 'first course' for anyone who wants to know about the Holocaust and to think further about its meaning for humanity. It is of particular importance that the historian who has written this book is a

German. This account is trustworthy because its author combines within himself the rare authority of someone who belongs to the past of his nation. He has both understood and transcended its history in this century. The subject of the book, the Holocaust, is somber beyond words, but this account in Benz's words is a cause for hope.

[Dream of Time, Nancy J. Price](#) , 2013, 0989390918, 9780989390910. Time travel. History. Love. Mystery... and a woman who wakes up in the middle of it all. Each night, when Robin drifts off to sleep, she finds herself dreaming about the life of a woman in the Victorian age. She soon realizes it's not a dream at all, but she is truly slipping into San Francisco's past. While living two lives - one as a mom in the modern day, the other as a proper young lady at the turn of the century - she discovers "how" she's being sent back to a bygone era is only the first mystery. A much more important question is "why" she's there. With the help of a rookie police officer, Robin takes off on a spellbinding adventure, sifting through a century's worth of clues to untangle the past - and to put love to the test. History, though, proves itself a worthy opponent, and she comes to experience firsthand how destiny can be kind and cruel in the same stroke. "See bonus features, deleted scenes, Robin's journal and more online at [DreamOfTime.com](#)"

[Ramadhan and Eid-ul-Fitr,](#) , 2008, 1879402238, 9781879402232. Twelve-year-old Azra Jessa wrote and illustrated this sweetly simple picture book when she was only eight years old, because she wanted to share her favorite holidays -- Ramadhan and Eid-ul-Fitr -- with her classmates. Children read about how the beginning and end of Ramadhan is based on the lunar calendar. They learn what it is like to fast for 30 days, along with the meaning behind and the motivation for the fast. Lastly, she explains what a typical Eid-ul-Fitr, the day after the month of Ramadhan, is like in her family. Charming computer illustrations complement this candid glimpse into a child's spiritual life.

[Dating and the Older Man, Jerome Albers](#) , 2003, 1412011353, 9781412011358. The book is based on my real life

experiences as an older man in the Dating game for over 15 years. After years in the dating game I experienced many events, situations, and types of women. I look at these experiences honestly and humorously. The statuses of women that an older man has available for dating are reviewed. Also what a single man needs to do to attract desirable women and where and how to go to meet desirable women are discussed, because we all know where to meet undesirable women. The pleasures and pitfalls of dating, romance, and sex are discussed. It does not show how to solve all dating problems, but most of the dating problems to avoid are discussed. It seems that both men and women hate dating and it is our own fault. I encourage men to take control of their life and their dating. The book describes the characteristics that men desire in women and the characteristics which men find not tolerable in women. It also describes the places to meet women and which are good and which are a waste of time and money. It is an honest, humorous and witty look at this confusing and illogical part of our social life.
