[Asset Protection - A Lawyer's Guide to Asset Protection Planning in California, Esq LL M. Jacob Stein](#) , 2011, 098397800X, 9780983978008. A Lawyer's Guide to Asset Protection Planning in California is the first and only treatise on asset protection planning specific to California. A desktop reference guide that every attorney in California should have. In-depth coverage of the underlying substantive law and legal doctrines, with a review of applicable statutes and cases. Analysis of the most commonly used structures and planning obstacles. The book focuses largely on California law and planning for California clients, but where appropriate, covers the laws of other leading asset protection jurisdictions like Delaware, Nevada, Cook Islands, etc. In addition to the substantive discussion, this book also takes a revealing look at the practical aspects of asset protection. Is it ever too late to plan? Is it safe to place assets offshore? How to pick the right structure for your client? What really works and what does not. Learn how to protect your clients' assets from plaintiffs and creditors. Coverage includes planning with community property, domestic and foreign business entities, domestic and foreign trusts and retirement plans. Specific emphasis will be placed on protecting assets in a troubled economy, including protection from lenders and landlords holding personal guarantees. You'll learn various ways, from the very simple to the very sophisticated, to protect specific assets common to all clients: houses, bank and brokerage accounts, rental real estate, businesses and professional practices and retirement plans.

[Entangled Voices : Genre and the Religious Construction of the Self: Genre and the Religious Construction of the Self, Frederick J. Ruf Associate Professor of Theology Georgetown University](#) , 1996, 0195356195, 9780195356199. In this book, Ruf tries to understand how the concepts of "voice" and "genre" function in texts, especially religious texts. To this end, he joins literary theorists in the discussion about "narrative." Ruf rejects the idea of genre as a fixed historical form that serves as a template for readers and writers; instead, he suggests that we imagine different genres, whether narrative, lyric, or dramatic, as the expression of different voices. Each voice, he asserts, possesses different key qualities: embodiment, sociality, contextuality, and opacity in the dramatic voice; intimacy, limitation, urgency in lyric; and a "magisterial" quality of comprehensiveness and cohesiveness in narrative. These voices are models for our selves, composing an unruly and unstable multiplicity of selves. Ruf applies his theory of "voice" and "genre" to five texts: Dineson's Out of Africa, Donne's Holy Sonnets, Primo Levi's The Periodic Table, Robert Wilson's Einstein on the Beach,

and Coleridge's *Biographia Literaria*. Through these literary works, he discerns the detailed ways in which a text constructs a voice and, in the process, a self. More importantly, Ruf demonstrates that this process is a religious one, fulfilling the function that religions traditionally assume: that of defining the self and its world.

[An Introduction to Formal Logic, Peter Smith](#) , 2003, 0521008042, 9780521008044. Formal logic provides us with a powerful set of techniques for criticizing some arguments and showing others to be valid. These techniques are relevant to all of us with an interest in being skilful and accurate reasoners. In this highly accessible book, Peter Smith presents a guide to the fundamental aims and basic elements of formal logic. He introduces the reader to the languages of propositional and predicate logic, and then develops formal systems for evaluating arguments translated into these languages, concentrating on the easily comprehensible 'tree' method. His discussion is richly illustrated with worked examples and exercises. A distinctive feature is that, alongside the formal work, there is illuminating philosophical commentary. This book will make an ideal text for a first logic course, and will provide a firm basis for further work in formal and philosophical logic.

[The Emerald Modem: A User's Guide to Earth's Interactive Energy Body, Richard Leviton](#) , 2004, 1612832997, 9781612832999. Twenty years ago, in England, author Richard Leviton "discovered the planet." Following quite specific guidance, he began a long process that amounted to an apprenticeship. "My mentors dispatched me to various specific locations in the Somerset landscape, and at all hours of the night and day. I sat on hills and valleys and rocks under sunlight, moonlight, rain, snow, and fog, and had visions. I started to see another landscape behind the apparent landscape. It was an apparitional landscape with stars, planets, galaxies, angels, spirits of Nature, mythic deities, divinity." As time went on, he found himself talking with angels, visiting celestial cities, and following gnomes. He came to understand that at one level we are the planet, and that both we and it have an intimate relationship with our galaxy."I found myself living inside the myths of the world as if they were expert scripts for real-life inner adventures. I never once thought I was crazy. Why should I? Quite the opposite. I believed I was finally getting grounded in something

real. But it would take me twenty years to make sense of it. That sense is embodied in The Emerald Modem."The Emerald Modem includes:direct correspondences between human chakras and the Earth's energy features--and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths, which provide clues to this unsuspected visionary world around usThis is the first book to synthesize all the fragments of geomantic perception (sacred sites, energy points, vertexes, etc.) into a global interactive model that ties human consciousness directly to it. Leviton describes 85 subtle features in the planetary landscape, places you can go for mystical experiences. They are features of the Earth's energy body, almost all invisible to conventional sight. But psychic cognition can be trained, and you can usefully interact with any of these types of sites today without seeing what you're doing. Your intent to interact for the benefit of yourself and the planet is all that's required.Just as modems dial us into the Internet, so the features of the Earth's energy body described in The Emerald Modem help us get online with the galaxy. You can learn to visit Grail Castles, experience a Mount Olympus, or walk through the stars in a landscape zodiac--and you can learn enough to become confident that you're not traveling alone.

[Handwriting Psychology: Personality Reflected in Handwriting, Helmut Ploog](#) , 2013, 1475970234, 9781475970234. If you find yourself called on to judge people on a regular basis, you need all the tools at your disposal to do your job right. Handwriting psychology offers one practical method for helping you learn what you need to learn about your subject quickly. Whether you are a teacher, psychologist or manager, you can benefit from the guidance of Dr. Helmut Ploog, a handwriting expert. Learn what the size and width of handwriting can reveal about a person, as well as what more muted features-such as slant, spacing, and direction of lines-can make clear. Written in plain English, this guidebook presents pithy explanations of handwriting movements, which may be angular or round, long or short, heavy or light, high or deep below the base line. It also offers analyses of the handwriting of many well-known people, including Charles Darwin, Anne Frank, Paul Getty, Allen Ginsberg, Ernest Hemingway, Frida Kahlo, Somerset Maugham, Pablo Picasso, Pope Benedict, Vladimir Putin, Maurice Ravel, Carl Rogers, and Susan Sontag. "Handwriting Psychology" should never be used by itself to judge someone, but it can serve as an essential tool to make and confirm observations that could change your life, your career, and your approach to life.

[Now You See Her, Linda Howard](#) , 2012, 1471105296, 9781471105296. Paris Sweeney is a moderately successful artist whose popularity is surging. Sweeney loves her work and is content with life, until she begins to notice odd changes. The changes are unnoticeable at first, but she can't ignore her dreams - lush, vivid and drenched in vibrant hues - which are influencing her artwork. And she can't deny her growing restlessness... Suddenly, impulsively, Sweeney finds herself unable to resist a night of intense passion with millionaire Richard Worth, estranged husband of her gallery-owner. But the true dangers of her all-consuming urges are about to be revealed where Sweeney least expects it: in her paintings. After a creative frenzy she discovers she has painted a graphic murder scene. And then a shattering, real-life murder mirrors her creation and puts her at the top of the list of suspects.

[Kiln-Formed Glass: Over 25 Projects for Fused and Slumped Designs, Gillian Hulse](#) , 2010, 031259299X, 9780312592998.

This enticing new book brings the magical qualities of luminous, color-rich glass to a wider audience. In step-by-step detail, Gillian Hulse demonstrates how to layer and combine clear, dichroic, and textured fusing glass with inclusions such as bubble powder to create gorgeous flat and three-dimensional pieces. Designs such as a dragonfly panel and passionflower coasters take their inspiration from the natural world, while a love of art and textiles is the foundation of other creations---both flat and slumped---such as the Klimt-inspired Vienna bowl. A comprehensive techniques section, detailed photographs and instructions, and clear templates ensure that glass enthusiasts of all levels---including hobbyists with access to a kiln---can create spectacular results across a range of decorative items for the home, as well as exquisite jewelry items.

[The Western World: 1600s to the present, , ISBN 0134956230, 9780134956237, , Anthony Esler](#) , 1997, 013495615X, 9780134956152. A text that students actually enjoy reading, this comprehensive yet streamlined narrative history of the Western world brings the stories of ordinary people as well as famous leaders and events to life. Authoritative and up-to-date, it offers exceptionally broad social and geographical coverage highlighting the global setting of Western history and emphasizing the effects of the West's repeated encounters with the non-Western world.

[A and P, John Updike, Wadsworth](#) , 1996, 0155039202, 9780155039209. Portrays a young grocery store clerk, Sammy, who quits his job after witnessing his manager berate three girls for wearing only their bathing suits in the store. His noble act goes unnoticed by the girls, but is a defining moment in his transition from adolescence to adulthood. Includes an interview with John Updike conducted by Donald M. Murray.

[Your Private Sky: Discourse, Richard Buckminster Fuller](#) , 2001, 3907044940, 9783907044940. "In this companion volume to the "visual reader" Your Private Sky: R. Buckminster Fuller; The Art of Design Science Fuller is heard primarily through his own writings, in which he expounded his world view and his ideas about design. Essays by other authors supplement and augment the selection of Fuller texts. The book collects important unpublished works and key texts that

CAREER SUCCESS, 4/e brings together complete coverage of these and other crucial soft skills: work ethic, character, relationships, teamwork, communication and etiquette, honesty, cultural competence, personal image, personal health and wellness, and more. Revised and improved throughout, this edition gives students a clearer understanding of where they fit in the changing healthcare system, why patient satisfaction is more important than ever, how to behave with the professionalism that both employers and patients demand, and how to move forward in their own careers more rapidly. This edition also contains many new pedagogical features, including an extensive new website.

[Necromancing the Stone, Lish McBride](#) , 2013, 1250034159, 9781250034151. With the defeat of the evil Douglas behind him, Sam LaCroix is getting used to his new life. Okay, so he hadn't exactly planned on being a powerful necromancer with a seat on the local magical council and a capricious werewolf sort-of-girlfriend, but things are going fine, right? Well . . . not really. He's pretty tired of getting beat up by everyone and their mother, for one thing, and he can't help but feel that his new house hates him. His best friend is a werebear, someone is threatening his sister, and while Sam realizes that he himself has a lot of power at his fingertips, he's not exactly sure how to use it. Which, he has to admit, is a bit disconcerting. But when everything starts falling apart, he decides it's time to step up and take control. His attempts to do so just bring up more questions, though, the most important of which is more than a little alarming: Is Douglas really dead? *Necromancing the Stone* is Lish McBride's sequel to *Hold Me Closer, Necromancer*.

[Ultimate Music Theory: Basic Rudiments, Glory St. Germain](#) , 2009, 0980955602, 9780980955606.

[Qualitative Data Analysis: Explorations with NVivo, Graham Gibbs](#) , 2002, 0335200850, 9780335200856. An introduction to key approaches in qualitative analysis, demonstrating in each case how to carry them out using NVivo. NVivo is a powerful computer package from QSR, the developers of NUD.IST. It provides the researcher with an extensive range of tools and the book shows clearly how each can be used to support standard qualitative analysis techniques such as coding, theory building, theory testing, cross-sectional analysis, modelling and writing. The book demonstrates how different styles of analysis, such as grounded theory and narrative, rhetorical and structured approaches, can be undertaken using NVivo. In most cases, the analysis is illustrated using documents from a single data set. There are many figures, tables, guides and hints for good practice. The result is a valuable text for undergraduates, postgraduates and researchers needing to learn both qualitative analysis techniques and the use of software such as NVivo.

[Sociology and Access Premium Companion Website with Diagnostic Tests and EBook Package, Fifth Canadian Edition, John J. Macionis, Linda M. Gerber](#) , 2006, .

[The Banality of Good and Evil: Moral Lessons from the Shoah and Jewish Tradition, David R. Blumenthal](#) , 1999, 1589014251, 9781589014251. People who helped exterminate Jews during the shoah (Hebrew for "holocaust") often claimed that they only did what was expected of them. Intrigued by hearing the same response from individuals who rescued Jews, David R. Blumenthal proposes that the notion of ordinariness used to characterize Nazi evil is equally

applicable to goodness. In this provocative book, Blumenthal develops a new theory of human behavior that identifies the social and psychological factors that foster both good and evil behavior. Drawing on lessons primarily from the shoah but also from well-known obedience and altruism experiments, My Lai, and the civil rights movement, Blumenthal deftly interweaves insights from psychology, history, and social theory to create a new way of looking at human behavior. Blumenthal identifies the factors -- social hierarchy, education, and childhood discipline--that shape both good and evil attitudes and actions. Considering how our religious and educational institutions might do a better job of encouraging goodness and discouraging evil, he then makes specific recommendations for cultivating goodness in people, stressing the importance of the social context of education. He reinforces his ideas through stories, teachings, and case histories from the Jewish tradition that convey important lessons in resistance and goodness. Appendices include the ethical code of the Israel Defense Forces, material on non-violence from the Martin Luther King, Jr., Center, a suggested syllabus for a Jewish elementary school, and a list of prosocial sources on the Web, as well as a complete bibliography. If people can commit acts of evil without thinking, why can't even more commit acts of kindness? Writing with power and insight, Blumenthal shows readers of all faiths how we might replace patterns of evil with empathy, justice, and caring, and through a renewed attention to moral education, perhaps prevent future shoahs.

[The Thirst for Annihilation: Georges Bataille and Virulent Nihilism : an Essay in Atheistic Religion, Nick Land](#) , 1992, 041505608X, 9780415056083. An important literary and philosophical figure, Georges Bataille has had a significant influence on other French writers, such as Foucault, Derrida and Baudrillard. The Thirst for Annihilation is the first book in English to respond to Bataille's writings. In no way, though, is Nick Land's book an attempt to appropriate Bataille's writings to a secular intelligibility or to compromise with the aridity of academic discourse - rather, it is written as a communion . Theoretical issues in philosophy, sociology, psychodynamics, politics and poetry are discussed, but only as stepping stones into the deep water of textual sacrifice where words pass over into the broken voice of death. Cultural modernity is diagnosed down to its Kantian bedrock with its transcendental philosophy of the object, but Bataille's writings cut violently across this tightly disciplined reading to reveal the strong underlying currents that bear us towards chaos and dissolution - the violent impulse to escape, the thirst for annihilation.

[The Creeper, Mary Roberts](#) , 1994, 0170080676, 9780170080675. Despite her neighbors' objections, an elderly woman finds a new world of memory and fantasy as her house grows over with vines.

[Attachments: Why You Love, Feel, and Act the Way You Do, Tim Clinton](#) , 2002, 1418568694, 9781418568696. The

answer to why people feel and act they ways the do lies in the profound effect of a child's bonding process with his or her parents. How successfully we form and maintain relationships throughout life is related to those early issues of "attachment." The author have cited four primary bonding styles that explain why people love, feel, and act they way they do. This book is for anyone who desires closeness, especially in the most intimate relationships: marriage, parenting, close friends, and ultimately with God.

[Forensic Art Essentials: A Manual for Law Enforcement Artists, Lois Gibson](#) , 2008, 0123708982, 9780123708984. The demand for forensic art usage in investigations is rapidly expanding due to media attention. Despite this fact, to date no book thoroughly explains how to sketch a suspect's face from a witness' memory. Forensic Art Essentials teaches artists to extract information from a witness or victim about a face they have seen, and produce an image good enough to lead detectives to the criminal being described. After reading this book, anyone with adequate drawing skills will be able to learn the tools necessary to develop his or her skills as a forensic artist. Instruction focuses on an explanation of techniques for various scenarios and includes the use of case studies of special situations and how they should be handled. Additionally, Forensic Art Essentials covers skull reconstructions of unidentified murder victims and age progressions to aid in the apprehension of known fugitives. The book also provides step-by-step illustrations of how to reconstruct a face from a skull, and offers solutions to a multitude of common problems that occur in the field. With 500 full-color illustrations, this book is an essential tool for any forensic artist. \* Provides insight as to the best way to responsibly interview and extract information from eye-witnesses and victims to develop accurate composite sketches\* 500 illustrations, many full color, show examples of various challenges in developing sketches and reconstructing from skulls\* Serves as a guide for forensic art professionals as well as a call to law enforcement agencies to expand the use of this valuable forensic tool

[The Dream of Scipio, Iain Pears](#) , 2003, 0099284588, 9780099284581. THE DREAM OF SCIPIO, Iain Pears' first mainstream novel since AN INSTANCE OF THE FINGERPOST, is a work of astonishing ambition that appeals equally to the head and heart. It is set in Provence at three different critical moments of Western Civilisation - the collapse of the Roman Empire in the fifth century, the Black Death in the fourteenth, and the Second World War in the twentieth - and follows the fortunes of three men. The story of each man is woven through the narrative, linked by the classical text that

gives the book its title, and by each man's love for an extraordinary woman. The narratives intertwine seamlessly, but what joins them thematically is an ancient text - 'The Dream of Scipio' - a work of neo-Platonism that poses timeless philosophical questions. Expertly imagined and perfectly realised, THE DREAM OF SCIPIO is a bonafide novel of ideas, a dazzling feat of storytelling, a fiction for our times. Dense, dark, erudite and yet utterly compelling.

[Turnstile Justice: Issues in American Corrections](#), Rosemary L. Gido, Ted Alleman , 2002, 0130409529, 9780130409522. Focused on the major issues facing corrections today, this collection of readings analyzes the social context within which current American punishment philosophy and practice take place. Each chapter deals with a major topic, policy, or strategy that is currently generating debate in the correctional field, and varying points of view reflect the diversity of thought on each critical issue. The author of each chapter provides factual information and data on an issue or topic and then invites readers to step back and critically examine the impact of the correctional problem on the system or society. American Corrections in the New Millennium. Societal Change and Its Impact on Corrections. Correctional Philosophies. Prison Violence. The Inmate Subculture in Juvenile Correctional Settings. Health Care for Women Offenders. Jailed Fathers. Correctional Boot Camps. Detention in I.N.S. Jails. Postsecondary Correctional Education. For anyone involved in criminal justice/corrections.

[From Conditioning to Conscious Recollection : Memory Systems of the Brain: Memory Systems of the Brain](#), Howard Eichenbaum Professor of Psychology Boston University, Neal J. Cohen Professor of Psychology University of Illinois , 2001, 0198024703, 9780198024705. This cutting-edge book offers a theoretical account of the evolution of multiple memory systems of the brain. The authors conceptualize these memory systems from both behavioral and neurobiological perspectives, guided by three related principles. First, that our understanding of a wide range of memory phenomena can be advanced by breaking down memory into multiple forms with different operating characteristics. Second, that different forms of memory representation are supported by distinct brain pathways with circuitry and neural coding properties. Third, that the contributions of different brain systems can be compared and contrasted by distinguishing between dedicated (or specific) and elaborate (or general) memory systems. A primary goal of this work is to relate the neurobiological properties of dedicated and elaborate systems to their neuropsychological counterparts, and in so doing, account for the phenomenology of memory, from conditioning to conscious recollection.

[The Secret of Flynn's Island, Wendy Macklin](#) , 2012, 0987334786, 9780987334787. When 12-year-old Kim Redford and her two brothers Tony, 14 and Joe, 9, set out on a fun adventure to Flynn's Island, little do they realise the danger that awaits them. The locals say that a treasure was buried there during the goldrush days by Flynn the prospector who lived on the island with his family; and Kim has a plan to find it. But they are not alone in their quest. Also on the island are

two escaped convicts who will stop at nothing to grab the gold and leave no trace behind. Luckily they bring Whisky, the family border collie, because very soon they find themselves in a life-and-death battle where only their quick thinking can save them. In a rousing, nail-biting narrative, Wendy Macklin shows herself a superb successor to the finest children's story authors of yesteryear; *The Secret of Flynn's Island* will delight a new generation of young readers, keep the reluctant reader turning the pages...and thrill Teachers who love to read a riveting story to their class.

It provides an authentic framework for developing an understanding of key areas of contemporary business.

[Practical Procedures in Anaesthesia and Critical Care, Guy Jackson, Neil Soni, Christopher J. Whiten](#) , 2010, 0199573026, 9780199573028. The ability to perform a wide variety of practical procedures safely and competently is essential for any doctor involved in the practice of anaesthesia and intensive care. Junior doctors especially are now called upon to gain competence in many invasive practical procedures in an increasingly short space of time, whilst also understanding the theory behind them. This highly practical book is the only guide needed to the procedures and techniques commonly used in anaesthesia and critical care medicine. Step-by-step, it clearly explains each technique and procedure, enabling the reader to fully understand how and why they are performed. Full colour photographs illustrate each technique, and every chapter covers the same essential information: definition, indications, contraindications, complications, equipment, sites, and technique, for ease of use. This book will be used by all junior trainees in anaesthesia, along with junior doctors from other specialities working in intensive care units. It will also be useful to any senior anaesthetist who wishes to update or refresh their knowledge, as well as anyone working in the emergency ward who performs any of these procedures.

[Fire from the Sky, Ron Greer and Mike Wicks](#) , 2013, 1475997132, 9781475997132. This is the story of the last few months of WWII in the Pacific, seen through the eyes of one man, a radio operator aboard a B29 Superfortress who kept a diary of 28 missions over Japan. The diary tells of the horrors of war. It was written in darkness, and often fear, with a pen-light during lonely hours confined for up to 18 hours at a time. Herb Greer our main author, 23 years old, frightened and sitting on up to 20,000 pounds of jellied gasoline (napalm), while blindly flying through constant flak bursts and fighter opposition. The plane is blacked out save the dull red glow of the instrument panels as they pass through the target area. Suddenly the most intense bright light floods the aircraft, blinding us - the tension in the aircraft shot up, hearts started beating a whole lot faster as we instantly realized that we were being singled out of the sky by a searchlight and were now firmly in the sights of air and ground fire, we were the main act, and center stage. From that

moment everything went into slow motion as we pass through the target - seconds felt like minutes and minutes, hours. BOOM, an explosion, the plane rocks, bucks, flak is searing its way through the fragile fabric of the fuselage, loose items are flying around, I'm scared - they say you can taste fear - well they're absolutely right. This personal view gives us two perspectives, the first is the story of Herb Greer speaking to us aboard a B29 through the written entries of his diary and then the second recounted from his armchair 60 years later. Written with an immediacy that can only be shared by those who were there, while capturing for posterity their bravery and dignity of sacrifice.

[A Quiet Life, Kenzaburo Oe](#) , 1996, 0802135463, 9780802135469. Kenzaburo Oe is one of the most original and important writers of your time, and nowhere is his genius more evident than in A Quiet Life -- an uncanny blend of the real with the imagined, of memoir with fiction. A Quiet Life is narrated by Ma-chan, a young woman who at the age of twenty gets caught up in an unusual family situation. Her father is a famous and fascinating novelist; her older brother, though severely brain-damaged, possesses an almost magical gift for musical composition; and her mother's life is devoted to the care of them both. Ma-chan and her younger brother find themselves emotionally on the outside of this oddly constructed nuclear family. But when her father accepts a visiting professorship from an American university, Ma-chan finds herself suddenly the head of the household and at the center of family relationships that she must begin to

redefine.

[Othello, , William Shakespeare](#) , 2002, 0764120581, 9780764120589. Here are the books that help teach Shakespeare plays without the teacher constantly needing to explain and define Elizabethan terms, slang, and other ways of expression that are different from our own. Each play is presented with Shakespeare's original lines on each left-hand page, and a modern, easy-to-understand "translation" on the facing right-hand page. All dramas are complete, with every original Shakespearian line, and a full-length modern rendition of the text. These invaluable teaching-study guides also include: 1. Helpful background information that puts each play in its historical perspective. 2. Discussion questions that teachers can use to spark student class participation, and which students can use as springboards for their own themes and term papers. 3. Fact quizzes, sample examinations, and other features that improve student comprehension of what each play is about.

[Jihad: The Siege of Vienna, Blake Lewis](#) , 2005, 0978518209, 9780978518202. Before there was Osama bin Laden, there was Kara Mustafa. In 1683 the grand vizier of the Ottoman Empire launched a holy war against Europe. His goal was the destruction of Vienna and the expansion of the global caliphate of Islam. In the same year, a young man was thrown out of France for treason against Louis XIV. In his fight to avenge his family's honor, Eugene of Savoy found himself in the battle that became the Vatican's last crusade. Based on the true stories of Eugene of Savoy, the Ottoman Grand Vizier Kara Mustafa and the battle to save Vienna, Jihad weaves an intricate tale of glory and honor, duty and holy war that carries eerie echoes for the world today.

[Harvest of the Cold Months: The Social History of Ice and Ices, Elizabeth David](#) , 2011, 0571275311, 9780571275311. 'A splendid tale of human ingenuity in the service of taste, sedulously researched and told with great flair.' Loyd Grossman Sunday Times Author of such cookery classics as *Italian Food* and *French Provincial Cooking*, Elizabeth David (1913-1992) found that the literature of cookery, as well as the practical side, was of absorbing interest, and she studied it throughout her life. *Spices, Salt and Aromatics in the English Kitchen* was published in 1970, followed by *English Bread and Yeast Cookery*, for which she won the Glenfiddich Writer of the Year award, in 1977. At the time of her death in 1992 she was

working on this equally epic study of the use of ice, the ice-trade and the early days of refrigeration, which was published posthumously in 1994 as *Harvest of the Cold Months*. 'An awe-inspiring feat of detective scholarship, the literally marvellous story of how human beings came to ingest lumps of flavoured frozen matter for pleasure ... There is much, much more - about the making and breaking of reputations, the founding of Parisian caf culture, the great and rivalrous confectioners of eighteenth- and nineteenth-century London, about Russian ice-cream (surprisingly superior) and Persian sherbets ... sumptuous.' *Independent on Sunday* 'This survey of the use of ice in cookery takes us on a fascinating journey from 1581, where in Florence they put snow in the wine glasses, to that modern phenomenon, the growth of the ice-cream business. A scholarly social history, which makes a fitting finale to the work of the greatest of our writers on foods and its contexts.' Harpers & Queen

[Human Caring Science, Jean Watson](#) , 2011, 1449628109, 9781449628109. *Human Caring Science: A Theory of Nursing*, Second Edition by renowned nurse theorist Jean Watson discusses the balance between science and caring that forms the basis of the nursing profession. Watson's Theory of Human Care draws from Western and Eastern philosophers, approaching the human care relationship as a moral concept. Further, it seeks to elucidate the human care process in nursing, preserve humanity and the inner life of patients, and reintroduce true caring and healing into educational and clinical practices. Thoroughly revised and updated, each chapter provides fresh insights and contemporary thinking making it accessible to undergraduates as well as graduates and practicing nurses. This Second Edition also includes a new research chapter with the latest empirical work on assessing and measuring caring, examples of practice models, and multi-site research.

[Evolution, Stephen Stearns, Rolf Hoekstra](#) , 2005, 0199255636, 9780199255634. Since Charles Darwin's masterpiece 'The origin of Species by natural selection' was published in 1859, evolution has become an established science that illuminates and informs our understanding of many central biological issues from animal development to animal behaviour. *Evolution 2/e* stands alone amongst the major textbooks by focusing on key principles to offer a truly accessible, unintimidating treatment of this fascinating subject Part One introduces the basic mechanisms of microevolution: selection, inheritance, and development. Part Two considers how natural selection has designed organisms for reproductive success. Part Three explores macroevolutionary processes such as speciation and extinction and the techniques which are used to study these. Part Four examines key events in evolution throughout the geological record. Finally, Part Five discusses two subjects, coevolution and evolutionary medicine, which integrate and contrast micro- and macroevolution. The book closes with a chapter that recapitulates major issues, discusses unsolved problems,

and looks ahead to future developments in this dynamic field. Recent advances in molecular biology and genetics have fuelled a renewed interest in evolutionary biology, and have given us new tools with which to explore the field, revolutionising our understanding of how evolutionary processes impact upon many aspects of biology. A rigorous yet engaging text, *Evolution 2/e* is perfect for any student wishing to gain a sound understanding of the subject. Online Resource Centre: - Figures available to download, to facilitate lecture preparation, - Self test questions linked to each chapters in the textbook - Key glossary terms in an interactive crossword format

[Operational Organic Chemistry: A Laboratory Course, John W. Lehman](#) , 1988, 0205112552, 9780205112555.

[The Logic of Legal Requirements: Essays on Defeasibility, Jordi Ferrer Beltrn, Giovanni Battista Ratti](#) , 2012, 0191637688, 9780191637681. When a legal rule requires us to drive on the right, notarize our wills, or refrain from selling bootleg liquor, how are we to describe and understand that requirement? In particular, how does the logical form of such a requirement relate to the logical form of other requirements, such as moral requirements, or the requirements of logic itself? When a general legal rule is applied or distinguished in a particular case, how can we describe that process in logical form? Such questions have come to preoccupy modern legal philosophy as its methodology, drawing on the philosophy of logic, becomes ever more sophisticated. This collection gathers together some of the most prominent legal philosophers in the Anglo-American and civil law traditions to analyse the logical structure of legal norms. They focus on the issue of defeasibility, which has become a central concern for both logicians and legal philosophers in recent years. The book is divided into four parts. The first section is devoted to unravelling the basic concepts related to legal defeasibility and the logical structure of legal norms, focusing on the idea that law, or its components, are liable to implicit exceptions, which cannot be specified before the law's application to particular cases. Part two aims to disentangle the main relations between the issue of legal defeasibility and the issue of legal interpretation, exploring the topic of defeasibility as a product of certain argumentative techniques in the law. Section 3 of the volume is dedicated to one of the most problematic issues in the history of jurisprudence: the connections between law and morality. Finally, section 4 of the volume is devoted to analysing the relationships between defeasibility and legal adjudication.

[Sociological Justice, Donald Black](#) , 1989, 0195085582, 9780195085587. That discrimination exists in courts of law is beyond dispute. In American murder cases, for instance, studies show that blacks who kill a white are much more likely to receive the death penalty than if they kill a black. Indeed, in Georgia, they are 30 times more likely to be condemned, and in Texas a staggering 90 times more likely. Conversely, in Texas, of 143 whites convicted of killing a black, only one was sentenced to die. But how extensive is discrimination in the courtroom? Is it strictly a matter of racial prejudice, or does it respond to a wide range of social factors? In *Sociological Justice*, eminent legal sociologist Donald Black challenges the conventional notion that law is primarily an affair of rules and that discrimination is an aberration. Law, he contends, is a social process in which bias is inherent. Indeed, Black goes well beyond the documented instances of racial

discrimination to show how social status (regardless of race), the degree of intimacy (are they family members, friends, or complete strangers?), speech, organization, and numerous other factors all greatly influence whether a complaint will be filed in court, who will win, and what the punishment or other remedy will be. Moreover, he extends his analysis to include not only the litigants, but also the lawyers, the jurors, and the judge, describing how their social characteristics can also influence a case. Sociological Justice introduces a new field of legal scholarship that will have important consequences for the future of law: the sociology of the case. Black discusses how lawyers can use the sociology of the case to improve their practice and, for those interested in reform, he suggests ways to minimize bias in the courtroom. Beyond this, Black demonstrates that modern jurisprudence, with its assumption that like cases will be treated in like fashion, is out of touch with reality. He urges the adoption of a new sociological jurisprudence, with a new morality of law, that explicitly addresses the social relativity of justice. A major contribution to legal scholarship, this thought-provoking volume is essential reading for anyone interested in law and justice in modern society.

[The 60's Dream: Chasing Success, Ralph Weaver](#) , 2012, . The 60s Dream Chasing Success Chasing Success has a different meaning for each generation. In the 1960s it was a ranch home with a one car garage. In todays world success means a home with at least a two car garage. What does each generation do when its meaning of success becomes outdated? What is the real standard for success, a success that never changes? The author uses his own life story to show how success is more than an accumulation of material goods.

[C++ Without Fear: A Beginner's Guide that Makes You Feel Smart, Brian Overland](#) , 2011, 0132673266, 9780132673266.

If you've always wanted to learn how to program a computer, or to learn the widely used C++ programming language in particular, C++ Without Fear, Second Edition, offers an ideal way to get you started. Written with the same approach that earned the first edition rave reviews, the author first emphasizes short, simple examples that are easy to enter; then, within a couple of chapters, he has you creating useful utilities, playing games, and using the computer to solve interesting puzzles. His approach is a welcome departure from many programming texts, which quickly get bogged down

in complex and sometimes meaningless examples. You'll find here, patiently explained and clearly illustrated, everything you need to learn programming quickly, and to have fun doing it! Yes, programming can be a complex task, and C++ is a language often used by professionals. In fact, many of the coolest games, graphics, and Internet applications are created with C++, and it's even been used on the Mars rovers. But the language, like the monster pictured on the cover, need not be all that fearsome. Broken down to its essentials, and enhanced by simple examples, practical exercises, and the whys and tricks behind each language feature, you'll be amazed at the rapid progress you can make. With C++ Without Fear, Second Edition, you will Learn the basics of C++ programming Get started writing your own programs See how and why each piece of a program does what it does Create useful and reusable program code Understand object-oriented programming-for once explained in simple, down-to-earth terms NEW AND IMPROVED While compatible with nearly every version of the C++ language, this second edition has been updated to cover important features of the newest and greatest C++ standard (C++0x). In addition, it now includes Even more figures, examples, and exercises Even more puzzles and games An expanded 75-page language reference Instructions for downloading free C++ software Whether you wish to learn C++ programming for pleasure, or you're considering a career in programming, this book is an outstanding choice.

[Literary Culture in Taiwan: Martial Law to Market Law, Sung-sheng Chang](#) , 2004, 0231132344, 9780231132343. With monumental changes in the last two decades, Taiwan is making itself anew. The process requires remapping not only the country's recent political past, but also its literary past. Taiwanese literature is now compelled to negotiate a path between residual high culture aspirations and the emergent reality of market domination in a relatively autonomous, increasingly professionalized field. This book argues that the concept of a field of cultural production is essential to accounting for the ways in which writers and editors respond to political and economic forces. It traces the formation of dominant concepts of literature, competing literary trends, and how these ideas have met political and market challenges. Contemporary Taiwanese literature has often been neglected and misrepresented by literary historians both inside and outside of Taiwan. Chang provides a comprehensive and fluent history of late twentieth-century Taiwanese literature by placing this vibrant tradition within the contexts of a modernizing local economy, a globalizing world economy, and a postcolonial and post-Cold War world order.

[The New Hunger, Isaac Marion](#) , 2013, 0099587726, 9780099587729. The Guardian called Warm Bodies 'the zombie

novel with a heart'; Audrey Niffenegger said 'Warm Bodies is an unexpected treat', and Stephenie Meyer eagerly looked forward to the next book. Here it is: the prequel to Warm Bodies, released to coincide with the major film adaptation from the producers of Twilight, starring Teresa Palmer and Nicholas Hoult. Julie Grigio drives with her parents through the crumbling wastelands of America - a nightmarish family road trip in search of a new home. A few hundred miles away, Nora Greene finds herself the reluctant, terrified guardian of her younger brother when her parents abandon them in the not-quite-empty ruins of Seattle. In the darkness of a forest, a dead man in a red tie opens his eyes. With no memory of who or what he is, he must unravel the grim mystery of his existence - right after he learns how to think, how to walk, and how to satisfy the monster howling in his belly... Two warped families and a lonely monster. Unknown to any of them, their paths are set to cross in a startling encounter that will change the course of their lives - or deaths - forever.

[Quick Study: A Murder 101 Mystery, Maggie Barbieri](#) , 2009, 0312376766, 9780312376765. She thought that dating a good-looking cop would be exciting and involve lots of riding around in cruisers and putting away sleazy crooks. So why hasn't NYPD officer Bobby Crawford ever invited English professor Alison on any high-speed car chases or stakeouts? Life on the sleepy college campus just north of Manhattan may not have changed all that much with Alison's new romance. But things are about to heat up when a man named Hernan Escalante asks Alison for a favor: Can she help locate his nephew, an illegal Ecuadorian immigrant named Jose, who has mysteriously gone missing? Always up for a challenge, Alison agrees to help Hernan and begins her investigation by asking Bobby for some expert advice. Turns out Bobby already knows about what happened to Jose, since he's the one who pulled his corpse out of the Hudson River a few days earlier. With this case, it seems Alison still has a lot to learn.

[La historia del cantante, Hector Lavoe: 1946-1993 : una biografia, Jose A. Perez, Antonio I. Mejias](#) , 1999, 0966155726, 9780966155723. La historia de Hector Lavoe es una historia muy trágica de la vida del cantante favorito de salsa de América Latina conocido como "El Cantante de Los Cantantes." El cuento da un resumen del ascenso y descenso de un cantante sensacional el cual incluye su cultura, romances, accidentes trágicos, Santería, abuso de drogas y la aflicción de Sida que sufrió. Hoy día, una gran mayoría de los famosos cantantes de la industria musical han reconocido a Hector como "El cantante de los cantantes," por el cariñoso afecto con que identificaba su música a su pueblo. Hector fue un artista carismático con talentos naturales. A pesar de que la industria musical tiene muchos artistas famosos, ellos están de acuerdo de que Hector fue uno de los mejores cantantes latinos. En el teatro él poseía una personalidad que millones de entusiastas adoraban. Dentro del relato, el lector encontrará once dibujos originales, fotografías personales y una

pintura mural. Esta biografía le hará reír, llorar y le hará preguntar, "¿Cómo es posible que una persona que ha podido lograr tanta fama y fortuna, repentinamente pueda perderlo todo?" To order: Infante Publications, Inc., P.O. Box 1475 FDR Station, NY, NY 10022. Tel: 212-752-2885, Fax: 212-688-2183, E-mail: LAVOEINS@aol.com. [The Great Unknown of the Rio Grande, Louis F. Aulbach](#) , 2007, .

[Parliamentary Versus Presidential Government, Arend Lijphart](#) , 1992, 0198780435, 9780198780434. Parliamentary and presidential governments--exemplified by most European countries for the former and the United States and Latin America for the latter--are the two principal forms of democracy in the modern world. Their respective advantages and disadvantages have been long debated, at first mainly by British and American political observers but with increasing frequency in other parts of the world, not only in the Soviet Union and Eastern Europe, but in Latin America and Asia as well. The recent world-wide wave of democratization has intensified both the debate and its significance. This volume brings together the most important statement on the subject by advocates and analysts--from Montesquieu and Madison to Lipset and Linz. It also treats the merits of less frequently used democratic types, such as French-style semi-presidentialism, that may be regarded as intermediate forms between parliamentarism and presidentialism.

[The Key to the Kingdom: Unlocking Walt Disney's Magic Kingdom, Jeff Dixon](#) , 2010, 1935265245, 9781935265245.

Grayson Hawkes learns how imaginative and elaborate Walt Disney World is when he accepts an invitation one sunny day from a trusted friend landing him in a world he never knew existed. Innocently driven by curiosity he finds himself immersed in a heroic adventure. Barely escaping a late night encounter, he finds himself desperately trying to solve a mysterious disappearance while trying to stay ahead of those who are chasing him. Hawkes quickly realizes that unraveling the clues is essential if he is to discover the truth. He navigates through the kingdom where knowledge of seemingly unimportant Disney facts and some divine help are the only way he can discover the lock that can be opened by an ancient key. His world becomes even more complicated when he is captivated by a mysterious woman, causing him to make a series of choices that takes his faith to the brink. Each step is fueled with heart pounding intensity carrying him deeper into a thrill ride of secrecy. Within the walls of Walt Disney World is more mystery than one imagination can contain. Here Disney Trivia is not a game; and the ancient key is the only way out! Jeff Dixon was raised in Florida and has always been fascinated with the man Walt Disney and the theme park he created. Dixon feels that any guest who would take the time to look would discover a story that will never be completed. It is against this canvas that Dixon paints this mystery, adventure, and thriller. The epic drama carries the reader across the state of Florida to discover details that most people have missed. Each discovery and revelation will have the reader wondering if they are reading fact or fiction. In a quickening pace, the characters find themselves on a collision course with an unthinkable outcome! Fans of Walt Disney will love the history and tourists will find a travel guide that takes them on a trip most guests never get to take.

[Safety at Street Works and Road Works: A Code of Practice Issued by the Secretary of State for Transport, Local Government and the Regions, the Scottish Executive and the National Assembly for Wales Under Sections 65 and 124 of the New Roads and Street Works Act 1991, and by the Department for ...](#) , 2001, 0115519580, 9780115519581. This title sets out the statutory requirements for signing, lighting and guarding excavations and other street works on all roads except motorways and dual carriageways with hard shoulders. Although the code is directed primarily at the operative, supervisors and managers have an important responsibility to ensure that all street and road works and operatives are safe. This is a reference manual for utility companies, local authorities, street work contractors and others whose day-to-day business involves street work.

[Releasing the Ability of God Through Prayer, Charles Capps](#) , 2009, 0982032021, 9780982032022. God's Word is alive and powerful. It is living substance. It is law in the world of the spirit. Prayer is governed by spiritual laws and is

designed to work for you. It is more powerful than the laws of nature that rule the universe today. Many times our prayers have bound God. When you learn to pray faith-filled words, you release God's ability and bring Him on the scene in your behalf. Under the New Covenant contract sealed by the Lord Jesus Christ in His own blood you have a legal right to enter the throne room of God. You can stand in God's presence without fear and be completely free from a sense of guilt. You can ask God to intervene supernaturally in your behalf. God gave you His Word to put you over. He designed it to work in every area of life. His Word works, and it isn't limited by time or distance. Effective prayer will destroy the kingdom of darkness and release the ability of God in the earth. Learn how you can pray God's Word to obtain victory over obstacles and difficulties in life.

[The Powers of Genre: Interpreting Haya Oral Literature, Peter Seitel](#) , 1999, 019511700X, 9780195117004. The Powers of Genre describes a method for interpreting oral literature that depends upon and facilitates dialogue between insiders and outsiders to a tradition. Seitel illustrates this method with lively examples from Haya proverbs, folktales, and heroic verse. He then focuses on a single epic ballad to demonstrate, among other things, why stanzas need not rhyme, and how significance needs time in oral poetry and narrative. Making a controversial claim that an heroic age, similar to that of Ancient Greece, existed in Sub-Saharan Africa, this work will intrigue anyone who works in oral literature and narrative.

[Transforming the Law: Essays on Technology, Justice, and the Legal Marketplace, Richard E. Susskind](#) , 2000, 0198299222, 9780198299226. In 1996, in his award-winning book "The Future of Law", Richard Susskind claimed that the law would be transformed by IT. The book generated enormous interest and influenced public policy-makers and strategic planners in law firms around the world. Many of its predictions have already come to pass. In this new collection, Susskind presents his latest ideas and also lays out the main themes of his work over the past 20 years. Part I

focuses on the way in which the Internet is transforming the delivery of legal services. Weaving together his thinking on electronic commerce and on knowledge management, Susskind introduces two innovative models - The Grid and the Client Service Chain - to help lawyers and clients plan for the future. In Part II, Susskind revisits "The Future of Law", summarizing its central arguments, updating the main themes, clarifying the impact of his ideas on lawyers, and replying to key objections by critics. In response to the current upsurge of interest in commercially exploiting expert systems in law, Part II re-presents Susskind's original research and development work in this area. In the final part of the book, Susskind looks beyond legal practice to the justice system more generally, concentrating on the impact of IT on judges, the courts, and society.

[The Eagle River Valley, Shirley Welch](#) , 2008, 0738556351, 9780738556352. Starting as a trickle in the Rocky Mountains, the Eagle River emerges in a glacial valley, cuts through a spectacular gorge near Red Cliff, and then creates the broad flood plain of the Eagle River Valley. At Dotsero, the river joins the mighty Colorado River. As long as humans have settled along the river, they have depended on it for their livelihood, trapping beaver for hats, mining gold and silver, collecting water for locomotive engines and channeling it for crops and ranching, harvesting ice for food preservation, and, most recently, converting water into snow with modern machines. Today the Eagle River Valley is the backbone of two of the greatest ski areas in the world, Vail and Beaver Creek. Sparkling through the ancient riverbed, the Eagle River continues its course to this day, flowing through the same valley that drew pioneers here in the 19th century.

[Death before Birth: Fetal Health and Mortality in Historical Perspective, Robert Woods](#) , 2009, 0199542759, 9780199542758. Considering its importance, the history of fetal health and mortality remains a neglected area. Medical historians have tended to focus on maternal mortality and professional conflicts between midwives rather than on the

unborn, while among the social scientists demographers and epidemiologists have until recently devoted most of their attention to infants and children. *Death before Birth* redresses this imbalance, redirecting attention to the fetus. A study of fetal health from the seventeenth century to the present day, it is the first book to offer an historical perspective on the subject and to combine both medical history and epidemiological and demographic research, using long-term and comparative perspectives, including a strong international comparative element, across both Europe and North America. The book not only provides an account of how fetal health and the risks facing the unborn (miscarriages, abortions, stillbirths etc) have changed, it also offers an interpretation of the causes, one that focuses on the role of obstetrics and the epidemiology of maternal infections. Along the way, it pays detailed attention to a host of related themes, such as varying cultural practices in the recognition of stillbirths; the age pattern of mortality risk between conception and live birth; comparative trends in late-fetal mortality and their causes; fetal mortality and obstetric care during the eighteenth, nineteenth, and twentieth centuries; and the contrasting approaches of the pathologists and 'social epidemiologists' to the causes of fetal death. The book concludes with a study of the 'fetus as patient', focusing on issues surrounding the legalization of abortion in many Western countries and the public health challenges of persistently high mortality in less developed countries.

[Ecological Networks: Linking Structure to Dynamics in Food Webs, Mercedes Pascual, Jennifer A. Dunne](#) , 2006, 0195188160, 9780195188165. This book is based on proceedings from a February 2004 Santa Fe Institute workshop. Its contributing chapter authors treat the ecology of predator-prey interactions and food web theory, structure, and dynamics, joining researchers who also work on complex systems and on large nonlinear networks from the points of view of other sub-fields within ecology. Food webs play a central role in the debates on the role of complexity in stability, persistence, and resilience. Better empirical data and the exploding interest in the subject of networks across social, physical, and natural sciences prompted creation of this volume. The book explores the boundaries of what is known of the relationship between structure and dynamics in ecological networks and defines directions for future developments in this field.

[How to Attract the Person of Your Dreams and Keep Them!, Dr Dan Ardebili](#) , 2008, 0982056826, 9780982056820.

Never before have all these secrets been revealed in one book! Imagine having the time and finances to travel the globe and spend countless hours learning from Eastern Guru's to the worlds greatest Relationship Experts. Dr. Dan has lived such a life and has spent countless hours sifting through all of these resources and has compiled them into this book. Dr. Dan has not only been teaching these secrets for years, but has used this priceless knowledge to attract and keep the person of HIS dreams in his own life! This is not another book on how to heal your relationship, or how to pick up the opposite sex or trick them into being attracted to you. If you are ready to attract the person of your dreams into your

life, and you are ready to learn the secrets on how to keep them, then this book will not only teach you how, it will be a guide that you will reference to, for the rest of your life!

[Virtual Leadership: Great Tips on Managing People from Afar Using Today's Technology](#), Val Williams , 2002, 0971200785, 9780971200784.

[Elements of Mechanics](#), David Williams , 1997, 0198518803, 9780198518808. Mechanics is the first foundation for the study of physics. This book takes first-year undergraduates through an entertaining and instructive set of practical examples of the uses of mechanics. The author adopts a fresh approach which recognizes mechanics as an observational science, and uses worked examples that can be easily visualized and understood by the reader. By the end of the book students will have not only painlessly learned the principles of mechanics, but will have also obtained a good grasp of techniques needed for solving typical mechanics problems. They will also have covered all the essentials of a first-year university course in mechanics. The book can then be used as a reference of a quick aid to revision.

[Puppy Whisperer: A Compassionate, Non Violent Guide to Early Training and Care](#), Paul Owens, Terence Cranendonk, Terry Cranendonk , 2007, 1593375972, 9781593375973. "I've known Paul personally for many years and have faithfully followed his training advice with wonderful results. I can't recommend him highly enough." Jeff Probst, host of Survivor "This is basically a 'perfect book'...with this knowledge there should be many more well-adjusted canine companions and far fewer dogs being relinquished to shelters. This book is an admirable accomplishment." The APDT Chronicle of the Dog (The publication for professional dog trainers) Following the success of his book The Dog Whisperer, Paul Owens turns his attention to puppies. In this book, Owens and his protégé Terence Cranendonk offer a compassionate step-by-step guide to all things puppy, including how to: Evaluate temperament Choose the right pup personality for your family Monitor diet, play, and exercise Train and problem solve Provide early socialization and positive training Potty train, step-by-step Ensure safety and health care, including the latest on vaccinations Puppies can be a lot of work, but they can also be a furry bundle of joy. If you're thinking of bringing a puppy into your home, The Puppy Whisperer is your must-have guide.

[The Comprehensive Sourcebook of Bacterial Protein Toxins](#), Joseph E. Alouf, Michel R. Popoff , 2006, 0120884453, 9780120884452. Bacterial toxins play an important role in infectious diseases. Several are amongst the most potent

biological agents known to man. Cholera, pertussis, botulinum, clostridium and tetanus toxins are all produced by bacteria. In many cases, it is the toxin produced and not the infectious agent itself that causes pathology. Botulinum toxin has now of course found clinical application as botox, and anthrax, and other toxins, have potentially devastating effects if misused as an agent of biological terror. This book describes the major achievements and discoveries relevant to bacterial protein toxins since the turn of the new century, illustrated by the discovery of more than fifty novel toxins (many of them identified through genome screening). The establishment of the three-dimensional crystal structure of more than 20 toxins during the same period offers deeper knowledge of structure-activity relationships and provides a framework to understand how toxins recognize receptors, penetrate membranes and interact with and modify intracellular substrates.\* Edited by two of the most highly regarded experts in the field from the Institut Pasteur, France\* 14 brand new chapters dedicated to coverage of historical and general aspects of toxinology\* Includes the major toxins of both basic and clinical interest are described in depth \* Details applied aspects of toxins such as therapy, vaccinology, and toolkits in cell biology\* Evolutionary and functional aspects of bacterial toxins evaluated and summarized\* Toxin applications in cell biology presented\* Therapy (cancer therapy, dystonias) discussed\* Vaccines (native and genetically engineered vaccines) featured\* Toxins discussed as biological weapons, comprising chapters on anthrax, diphtheria, ricin etc.

[The Pretty Little Red Bird, Evelyn Ruth Pipkin](#) , 2004, 0975578901, 9780975578902. The Pretty Little Red Bird, is an

allegory. this little story will warm hearts and open doors for talks on Salvation, and Faith in Jesus Christ. This is a fresh idea of how God works in many ways, to encourage our children, and prepares them for a lifetime relationship with Jesus, not only when they are good but when they are not so good as well. Our prayer is that Jesus will open the hearts of children and adults alike, with a child like faith, and a burst of enthusiasm, and felling of Joy, and their hearts will be filled with His Love.

[Tumbling Through Time, Gwyn Cready](#) , 2008, 1416584978, 9781416584971. In her sparkling and hilarious debut, author Gwyn Cready introduces Persephone "Seph" Pyle, a total control freak who plans for everything -- until a pair of killer heels sends her back in time and into the arms of a ruggedly handsome sea captain straight from the pages of a romance novel. Wandering the Pittsburgh airport before a business trip, Seph decides to kill time with some preflight shopping -- anything to get her mind off Tom Fraser, her irresistible, dimple-chinned coworker turned travel buddy. So when a pair of to-die-for pink stilettos calls her name from a store window, she tries them on -- only to be swiftly transported back to the eighteenth century and flung aboard a turbulent ship sailing the Mediterranean! There, Seph is stunned to meet Phillip Drummond, an arrogant British pirate and the spitting image of Tom. Phillip has summoned her back in time to straighten out his complete mess of a life -- for he is the burly hero in the romance novel she someday hopes to write, and she is responsible for his destiny. But in the midst of turning things right so she can get back to reality, Seph starts to fall for the smolderingly sexy Phillip. And when Tom is thrown into the mix, she doesn't know what -- or who -- she wants. Seph soon realizes that spotting the perfect pair of shoes may be easy, but finding the perfect man can be a real trip.

[Trustee from the Toolroom, Nevil Shute](#) , 2010, 0307474224, 9780307474223. Keith Stewart is a quiet and unassuming man called upon to undertake an extraordinary task. A skilled maker of miniature working models, he lives a modest life devoted to his hobby. But when his sister and her wealthy husband die in a shipwreck on a coral reef in the Pacific while trying to smuggle out of England their entire fortune in diamonds hidden in the keel of their yacht Keith becomes trustee for his orphaned niece. To save her from destitution he must travel halfway around the world and risk a long voyage in a small boat in inhospitable waters to recover her inheritance. In the course of his adventure-filled quest, a colorful and international cast of characters mobilize to help him, and this humble man discovers he has more friends and admirers than he could have dared to imagine.

Practical Programming offers a different approach to exercise programming. Based on a combined 70 years of academic expertise, elite-level coaching experience, and the observation of thousands of novice trainees, the authors present a chronological analysis of the response to exercise as it varies through the training history of the athlete, one that reflects the realities of human physiology, psychology, and common sense. Practical Programming explains the differences in response to exercise commonly observed between athletes at the novice, intermediate, and advanced levels, explains these differences in the context of the relevant science, and presents new training models that actually work for athletes at all levels of experience. Complete with new, innovative graphical representation of cutting edge concepts in exercise programming, Practical Programming has become a standard reference in the field of exercise and human performance.

[The Alaska State Constitution, Gerald A. McBeath](#) , 2011, 0199778299, 9780199778294. With only 54 years of existence, the Constitution of the State of Alaska is in its developmental infancy compared to the constitutional history of the rest of the United States. However, having had the benefit of over 300 years, the Alaskan Constitution is a pioneer and model in--among other things--simplicity, coherence, vision and accessibility. The Alaska State Constitution provides an outstanding constitutional and historical account of the state's governing charter. In addition to an overview of Alaska's constitutional history, it provides an in-depth, section-by-section analysis of the entire constitution, detailing the many significant changes that have been made since its initial drafting. This treatment, along with a table of cases, index, and bibliography provides an unsurpassed reference guide for students, scholars, and practitioners of Alaska's constitution. Previously published by Greenwood, this title has been brought back in to circulation by Oxford University Press with new verve. Re-printed with standardization of content organization in order to facilitate research across the series, this title, as with all titles in the series, is set to join the dynamic revision cycle of The Oxford Commentaries on the State Constitutions of the United States. The Oxford Commentaries on the State Constitutions of the United States is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current constitution, and a comprehensive guide to further research. Under the expert editorship of Professor G. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law. Books in the series can be purchased individually or as part of a complete set, giving readers unmatched access to these important political documents.

[By Example: Twelve Personal Missions That Will Maximize Your Human Potential, Travis Slone, Hugh Anstett](#) , 2013, 098374484X, 9780983744849. The great Seneca once warned, "If we do not know to which port we are sailing, no wind will be favorable to us." This wise quote speaks to the importance of developing purpose, direction, and motivation not from others, but from within. By Example is a pathway toward that goal. Whether in leadership, or in life, these twelve missions will empower you to influence widespread positive change, and to maximize your own unique human potential. As the title suggests, this program will challenge you to focus primarily on yourself, and to accept responsibility for your

own legacy. By completing each of our training exercises, you will learn to combat challenges with both insight, and healthy habits. To live and lead this way requires a lifelong process of learning and growth. Therefore, why wait another day? Begin where you are, open this thought-provoking guide, and strive to live life... By Example.

[Creatures of the Deep: In Search of the Sea's "monsters" and the World They Live in, Erich Hoyt](#) , 2001, 1552093409, 9781552093405. Award-winning nature and science writer Erich Hoyt tells the riveting story of the discovery of the deep ocean. Weaving together details from the latest scientific research about sharks, giant squid, dragonfish and the huge tube worms, clams and tiny microbes of the deep-sea vents, Hoyt embarks on a magical journey to the bottom of the sea, which is inhabited not by vicious monsters but by diverse species of pale starfish and mud-eating sea cucumbers. Roaming across the abyssal plains and descending deep-sea trenches, he presents as much about the character and charisma of these and other so-called monsters as about the extraordinary world in which they live. The deep sea is not one place but many, and the animals living in each of these marine habitats have developed fascinating and vital ecological relationships with one another. Hoyt unravels the complex predator-prey relationships, from "killer" copepods to battles among giant squid and sperm whales, presenting compelling portraits of animals that are superbly adapted denizens of a dark high-pressure world. There are life-forms, independent of sunlight and photosynthesis, that flourish around the hot, sulfurous deep-sea vents in the magnificent rift valley of the midocean ridge, the world's longest mountain range. Surviving in conditions that appear to be close to the very soup of primordial Earth, these microbes have become the basis for the latest research into the Earth's origins. Fully illustrated with fantastic underwater imagery, *Creatures of the Deep* will help you enjoy and appreciate the findings and the importance of deep-sea work in the coming decades. The 21st century may well be the era of deep-ocean discovery.

[Access to Justice, Deborah L. Rhode](#) , 2005, 0195306481, 9780195306484. "Equal Justice Under Law" is one of

America's most proudly proclaimed and widely violated legal principles. But it comes nowhere close to describing the legal system in practice. Millions of Americans lack any access to justice, let alone equal access. Worse, the increasing centrality of law in American life and its growing complexity has made access to legal assistance critical for all citizens. Yet according to most estimates about four-fifths of the legal needs of the poor, and two- to three-fifths of the needs of middle-income individuals remain unmet. This book reveals the inequities of legal assistance in America, from the lack of access to educational services and health benefits to gross injustices in the criminal defense system. It proposes a specific agenda for change, offering tangible reforms for coordinating comprehensive systems for the delivery of legal services, maximizing individual's opportunities to represent themselves, and making effective legal services more affordable for all Americans who need them.

Hes kept his distance from the Brotherhood as his dark secret could make things complicated on both sides - but now, as head of the vampire aristocracy, hes an ally that Wrath, the Blind King, desperately needs. Rehvs secret is about to get out, though, which will land him in the hands of his deadly enemies- and test the mettle of his female, turning her from a civilian into a vigilante...

[Francis of Assisi, Andre Vauchez](#) , 2012, 0300184921, 9780300184921. In this towering work, Andr Vauchez draws on the vast body of scholarship on Francis of Assisi, emphasizing in particular the important research of the last 30 years. He creates a complete and engaging portrait of the saint, then explores how the memory of Francis was shaped by contemporaries who recollected him in their writings. Vauchez completes the book by setting "Poverello" in the context of his time, bringing to light what was new, surprising, and even astonishing in the life and vision of this man. The first part of the book is a fascinating reconstruction of Francis's life and work. The second and third parts deal with the myriad textshagiographies, chronicles, sermons, personal testimonies, etc. of writers who recorded aspects of Francis's life and

movement as they remembered them, and used those remembrances to construct a portrait of Francis relevant to their concerns. In the final part of the book, Vauchez explores those aspects of Francis's life, personality, and spiritual vision that were unique to him, including his experience of God, his approach to nature, his understanding and use of Scripture, and his impact on culture as well as culture's impact on him.

[Soil microbiology and biochemistry, Eldor Alvin Paul, Francis Eugene Clark](#) , 1989, 0125468059, 9780125468053. Soil Microbiology and Biochemistry encompasses the broad spectrum of soil organisms and the dynamic processes carried on by them, including ecological relationships in the biota, the dynamics of the carbon and nitrogen cycles, and microbe-driven reactions involving sulfur, phosphorus, and metals. This reference source will prove invaluable to anyone involved in the study of agricultural and nonagricultural soils. This book provided a process-oriented approach on nutrient cycling and fundamental soil processes for students who are studying soil microbiology and biochemistry an up-to-date assessment of the diverse systems affected by soil organisms for researchers in the fields of agronomy, environmental quality, and natural sciences the application of molecular biology to soil organisms, mathematic modeling of soil processes, a supplementary reading list, and a glossary.

[No Immediate Danger: Prognosis for a Radioactive Earth, Rosalie Bertell](#) , 1985, 0913990256, 9780913990254. A radiation research scientist's documented rebuttal to the claim by pro-nuclear officials that there are no harmful effects from low-level radiation from nuclear facilities.

[Evolution Before Darwin, Pietro Corsi](#) , 2015, 0199565589, 9780199565580. In many people's minds, biology was mired in confusion and superstition until Darwin came, and then there was light. But evolutionary ideas have a long history, and moreover to this day, in France, Lamarck is revered as Darwin's great predecessor, not as 'the man who got it wrong'. Evolution was a topic of much debate in France, and also to a lesser extent in Germany and in Italy. Early in the 19th century, geology was all the rage, while arguments about time and the nature of species - were they created, did they change with time - was much discussed. So why did a Darwin appear in England? And moreover why at the end of the 1850s? And why was the response and public take-up of evolutionary ideas so rapid and positive? These are the questions Pietro Corsi considers in this book. He describes the debates in France, Germany, and Italy surrounding Lamarck's ideas about changing species, against the backdrop of changing political climates (the defeat of Napoleon and its aftermath). And while Continental Europe was convulsed by the 1848 revolutions, and Italy was in the throes of unification, in England perceptions of evolutionary ideas shifted from being associated with dangerous Continental radicalism and atheism, to part of reform and progress. Corsi shows how intellectual opinion shifted in England, driven by such figures as Baden Powell (grandfather of the founder of the boy scouts), and fierce debates on science and religion. The intention of this book is not to undermine Darwin, whose accomplishments as an individual require no justification, but to put him and his work in historical context, and more pertinently in the context of social, political, and intellectual

developments in Britain and the Continent. This is an extraordinarily rich and novel discussion involving the history of the development of perhaps the single greatest idea in the life sciences, written by one of the foremost scholars in the field.

[I Survived the Japanese Tsunami, 2011, , Lauren Tarshis](#) , 2013, 0545459370, 9780545459372. The disaster felt around the world . . .Visiting his dad's hometown in Japan four months after his father's death would be hard enough for Ben. But one morning the pain turns to fear: first, a massive earthquake rocks the quiet coastal village, nearly toppling his uncle's house. Then the ocean waters rise and Ben and his family are swept away-and pulled apart-by a terrible tsunami.Now Ben is alone, stranded in a strange country a million miles from home. Can he fight hard enough to survive one of the most epic disasters of all time?

[Introduction to Criminal Justice, Cliff Roberson](#) , 2000, 1928916155, 9781928916154. This introductory core text will lead your student to an understanding of the evolution of the criminal justice system through the modern-day workings of police agencies, the court process, and correctional institutions. All elements are thoroughly covered in a straightforward, reader-friendly format. Thought-provoking, practical discussion questions at the end of each chapter enhance comprehension.

[Pioneers of Psychology: A History, Raymond E. Fancher, Alexandra Rutherford](#) , 2012, 0393935302, 9780393935301.

Brings the history of psychology to life. Pioneers of Psychology tells the stories of the men and women who have shaped our understanding of what it means to be human over the past 400 years. Written by professional historians of psychology and drawing on the most up-to-date historical scholarship, Pioneers of Psychology illuminates the major themes and controversies in psychology's history through carefully crafted stories of real people, their personal journeys, and their intellectual insights.

[Criminal Justice and the Pursuit of Decency, Andrew Rutherford](#) , 1993, 0192852752, 9780192852755. A succession of miscarriages of justice have led many to doubt the view that British justice is the best in the world. Issues such as prison overcrowding and electronic tagging have also highlighted the way in which we treat offenders. In this pioneering study,

Andrew Rutherford examines the beliefs and sentiments of those working within the criminal justice process. Prompting his work was the conviction that it is the values held by practitioners that shape and determine policy. He interviewed senior professionals in the police, the courts, and the prosecution, probation, and prison services. Although the interviews show that there are professionals who hold liberal and humane values, the book makes disturbing reading and raises important questions about the operation of criminal justice in Britain.

[Miller Compilations & Reviews: Electronic Workpapers and Reference Guide, Larry P. Bailey](#) , 1996, .

[Advance with English, Volume 4, , Paul Mason, Fiona Sibbald](#) , 1994, 0194260232, 9780194260237. It reflects current trends in language teaching while retaining the well-tried and practised approaches which teachers know and trust. It provides students with a sound command of language structure and vocabulary through a purposeful and communicative approach. Its clearly organized multi-syllabus ensures that all the relevant language structures and language skills are integrated at the appropriate levels, under headings such as 'Language Practice', 'Comprehension', 'Pronunciation Practice', 'Guided Conversation', 'Using English', 'Reading for information', 'Spelling, Punctuation, and Dictation', 'Guided Composition', etc. Its simple layout and rubrics make it ideal for large classes, including ones with mixed-ability students, as students can use it on their own where necessary. Each level provides plenty of material for a full teaching year and the complete course offers a solid foundation for most school-leaving examinations. It places a strong emphasis on skills development with thorough coverage of all four skills and related sub-skills. Listening is treated as an optional element and is covered in the Workbook only, with exercises linked to the accompanying Cassette. All language practice is carefully graded to give students the confidence to communicate effectively in English. Topics and themes reflect a global and cross-curricular selection, chosen for their appeal to school learners who are becoming aware of the world around them.

[Stock Fitter's Bible, Rollin Oswald](#) , 2010, 1451570384, 9781451570380. Stock Fitter's Bible was written for one purpose - to help clay target shooters improve their scores. After an introduction explaining how the book was written and the syntax that is used, comes a very short history about the author. That is followed by a history of the stocks on personal guns to introduce the reader to stock (or gun) fitting - how personal guns evolved and eventually, how stock designs changed to fit the evolution of shooting forms and gun designs used over the years. Some principals of shooting forms have been retained and refined while others have been eliminated. Today, coaches and trainers teach specific gun

mounts, stances and body postures (shooting forms). To shoot up to your full potential, you must use a good form. To do that, your gun must have stock dimensions that allow someone of your individual size and shape to use the form. If your gun doesn't fit YOU, a correct form cannot be used. It is that simple. To help you shoot better, the book describes the elements of good shooting forms and continues with step by step instructions to make your gun fit you, one stock dimension at a time. When you are shooting a well fitting gun, the benefits will include (among others), smoother and more accurate swings, more consistent gun mounts and shooting from one day to the next and reduced felt recoil. The book also explains how to see targets better, how to visually prepare for targets before calling for them, ways to reduce stress and how to postpone fatigue. Since some readers may be unfamiliar with the terms used in stock fitting, a complete, alphabetical glossary will be found at the end of the book. (Don't guess what a term means, look it up.) Almost anyone can improve their shooting. Stock Fitter's Bible explains how to do it.

[Shroud Of The Gnome, James Tate](#) , 1997, 0880015616, 9780880015615. The speakers in Pulitzer Prize-winning James Tate's poems are unlike any we know. A man's meditation on gardening renders him witless. Another traps theories, then lets them loose in a city park. . . . SHROUD OF THE GNOME is a bravura performance in Tate's signature style. Here, once again, one of America's most masterful poets celebrates the inexplicable in his own strange tongue.

[The History of ACORN, Marilyn Richardson](#) , 2004, 0975008714, 9780975008713. The aim of this study is to record a descriptive and detailed account of the history of the Australian Confederation of Operating Room Nurses (ACORN).

[Heavy Duty Truck Systems, Sean Bennett](#) , 2010, 1435483820, 9781435483828. HEAVY DUTY TRUCK SYSTEMS, 5th EDITION is a best-selling introduction to servicing medium-and heavy-duty trucks, providing a strong foundation of content on Electricity and Electronics, Power Train, Steering and Suspension, Brakes, and Accessories Systems. The fifth edition has been updated throughout including an introduction to Eaton DM clutches and comprehensive coverage of Caterpillar's new highway vocational transmission, updates of electricity and electronics to cover new battery technology, and coverage of new FMVSS 121 (2009) stopping distance for semi-combinations. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[The Righteous Mind: Why Good People are Divided by Politics and Religion, Jonathan Haidt](#) , 2013, 0307455777, 9780307455772. Why can it sometimes feel as though half the population is living in a different moral universe from you? Why do ideas such as 'fairness' and 'freedom' mean such different things to different people? Why is it so easy to see the flaws in others' arguments, and less in our own? Jonathan Haidt, one of the world's most influential psychologists, reveals that the reason we find it so hard to get along is because our minds are designed to be moral. Not only that, we are

hardwired to be moralistic, judgemental and self-righteous too. Our intrinsic morality enabled us to form communities and create civilization, and it is the key to understanding political and religious divisions. It explains why some of us are liberal, others conservative. It is often the difference between war and peace. It is also why we are the only species that will kill for an ideal. Drawing on moral psychology, ancient philosophy, modern politics, advertising and the semantics of bumper stickers, Haidt's incredibly wise and enjoyable book examines how morality evolved ; why we are predisposed to believe certain things ; how our surroundings can affect our morality ; and how moral values are not just about justice and fairness - for some people authority, sanctity or loyalty are more important. Morality binds and blinds, but with new evidence from his own empirical research, Haidt shows that it is possible to liberate ourselves from the disputes that divide good people and cooperate with those whose morals differ from our own. After all, they might just have something to say.

[Selected Works of Jawaharlal Nehru, , Jawaharlal Nehru](#) , 2006, 0195684508, 9780195684506. Volume 37 in this continuing series covers a period of particular importance in the development of Indian democracy, the second general elections, and India's foreign policy.
