[A Professional Study and Resource Guide for the CRNA, Scot Douglas Foster, Margaret Faut-Callahan](#) , 2011, 0970027982, 9780970027986. The comprehensive resource for practicing and student nurse anesthetists covers all aspects of a career in nurse anesthesia.

[Exploring: Microsoft Office 2013, Brief, Mary Anne Poatsy, Keith Mulbery, Cynthia Krebs, Lynn Hogan, Amy Rutledge, Robert Grauer](#) , 2013, 013341213X, 9780133412130. Ideal for students and individuals seeking an introduction to Microsoft Office 2013. The Exploring series charts readers beyond the point and click, helping them understand WHY they use Microsoft Office skills along with HOW they perform them. The latest edition provides an easy-to-follow map through each chapter to help readers learn, study, and review efficiently and be successful in this class and beyond. The entire approach allows students to map their way quickly and easily through the book, focusing on the key objectives, and using their own efficient study habits as a model for success. Teaching and Learning Experience This program will provide a better teaching and learning experience for you and your students. Here's how: Personalize Learning: MyITLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Move Beyond the Point and Click: Students can move beyond the basics of the software at a faster pace, without sacrificing coverage of fundamental skills. Extend Learning Beyond the Classroom: A lot of learning takes place outside of the classroom, and the Exploring series provides learning tools that students can access anytime, anywhere.

[The Amish, Donald B. Kraybill, Karen M. Johnson-Weiner, Steven M. Nolt](#) , 2013, 1421409151, 9781421409153. The Amish have always struggled with the modern world. Known for their simple clothing, plain lifestyle, and horse-and- buggy mode of transportation, Amish communities continually face outside pressures to modify their cultural patterns, social organization, and religious world view. An intimate portrait of Amish life, The Amish explores not only the emerging diversity and evolving identities within this distinctive American ethnic community, but also its transformation and geographic expansion. Donald B. Kraybill, Karen M. Johnson-Weiner, and Steven M. Nolt spent twenty-five years researching Amish history, religion, and culture. Drawing on archival material, direct observations, and oral history, the authors provide an authoritative and sensitive understanding of Amish society. Amish people do not evangelize, yet their numbers in North America have grown from a small community of some 6,000 people in the early 1900s to a thriving population of more than 275,000 today. The largest populations are found in Ohio, Pennsylvania, and Indiana, with additional communities in twenty-seven other states and Ontario. The authors argue that the intensely private and insular Amish have devised creative ways to negotiate with modernity that have enabled them to thrive in America. The

transformation of the Amish in the American imagination from "backward bumpkins" to media icons poses provocative questions. What does the Amish story reveal about the American character, popular culture, and mainstream values? Richly illustrated, *The Amish* is the definitive portrayal of the Amish in America in the twenty-first century. -- Joel Gehman

[Reynolds Family Association Centennial Collection: 100 Years of Historical and Genealogical Material Collected by the Reynolds Family Association.](#) , 2004, 0944619711, 9780944619711. Indexed with color coat of arms included inside.

[The Texas Bluebonnet, Jean Andrews](#) , 1993, 029270447X, 9780292704473. "...this small beautifully bound book tells all you need to know and more about our State flower." Lone Star Gardener Already a classic among lovers of Texas wildflowers, *The Texas Bluebonnet* has been expanded to include even more information on how to grow bluebonnets in your home garden. A useful bibliography of other wildflower publications has also been added for true wildflower enthusiasts. Of course, *The Texas Bluebonnet* still contains all the elements that have made it so popular both for owning and for gift-giving: lore and legend about bluebonnets and their place in Texas history and culture, driving tours to the best display areas, botanical information, gorgeous full-color photographs, and much more. In short, this is a book that every Texan or visitor to the state will want to own and consult.

[Flowers for Algernon, Daniel Keyes](#) , 1994, 0156030306, 9780156030304. With more than five million copies sold, *Flowers for Algernon* is the beloved, classic story of a mentally disabled man whose experimental quest for intelligence mirrors that of Algernon, an extraordinary lab mouse. In poignant diary entries, Charlie tells how a brain operation increases his IQ and changes his life. As the experimental procedure takes effect, Charlie's intelligence expands until it surpasses that of the doctors who engineered his metamorphosis. The experiment seems to be a scientific breakthrough of paramount importance--until Algernon begins his sudden, unexpected deterioration. Will the same happen to Charlie? An American classic that inspired the award-winning movie *Charly*.

[Avoided Deforestation: Prospects for Mitigating Climate Change, Charles Palmer, Stefanie Engel](#) , 2010, 0415619807,

9780415619806. Avoided deforestation can be characterized as the use of financial incentives to reduce rates of deforestation and forest degradation, with much of the focus on forests in tropical countries. While avoided deforestation, as a policy issue, is not new, the current debate in academic and policy circles on including it in future climate change mitigation strategies such as the Clean Development Mechanism is gathering pace and this debate is only likely to intensify as negotiations continue over what should be included in the successor agreement to the Kyoto Protocol, which is set to expire in 2012. Up until now, however, the debate in terms of the scientific and economic implications of avoided deforestation has not been brought together. This book aims to bring together important research findings in the area along with their policy implications, whilst linking avoided deforestation to political economy as well as to the latest developments in environmental and natural resource economics.

[Sony vs Samsung: The Inside Story of the Electronics Giants' Battle For Global Supremacy, Sea-Jin Chang](#) , 2011,

0470830441, 9780470830444. "Sony vs. Samsung is business history at its best! It explores the divergent fortunes of these two electronics giants in the last decade and identifies the true reasons behind Sony's decline and Samsung's rise. Contrary to popular belief, Chang shows that success (or failure) does not simply arise from different strategies. Rather, it emerges from major decisions that are deeply rooted in the companies' organizational processes and their executives' political behavior. This book is a must-read for any senior executive."Constantinos Markides, Robert P. Bauman Professor of Strategic Leadership and Chairman, Strategy Department, London Business School"Sea-Jin Chang has produced that rarity in a business book--one that is as valuable to practicing managers as it is insightful to academic researchers. In this fascinating comparison of two modern global giants, he applies his high resolution research microscope to their changing

fortunes by dissecting their contrasting strategies, and providing interesting insights into their divergent organizational processes and management practices. This is a very valuable contribution to the international business literature. It will end up in as many corporate boardrooms as faculty seminars."Christopher A. Bartlett, Thomas D. Casserly Professor Emeritus, Harvard Business School"Sea-Jin Chang has written a fascinating comparison of Sony and Samsung that will be valuable to anyone interested in strategy, organizations or international business. The interwoven and very detailed case studies of two very different companies in overlapping industries illuminate problems such as adaptation to technological change (analog to digital), organizational flexibility and globalization. His attempt to analyze both strategic development and implementation is successful and very useful. Both academics and practitioners will learn a lot from this book."Stephen J. Kobrin, William Wurster Professor of Multinational Management, The Wharton School, University of Pennsylvania"Refreshingly original and entertaining, this book analyzes major strategic decisions of Samsung and Sony and highlights organizational processes and top management leadership that have shaped their performances. This is a must-read for all executives who want to understand the strengths and weaknesses of Asian competitors. It also provides penetrating insights to other Asian companies with global ambitions."Myoung Woo Lee, President and CEO, Iriver

[Out of the Shadows, Susan Lewis](#) , 2009, 0099519895, 9780099519898. Since Susannah Cates's husband was sent to prison three years ago, life has been a constant struggle to provide for herself and their teenage daughter. Nothing ever seems to go right and the most she hopes for now is that nothing more will go wrong. Worried by her mother's unhappiness, thirteen-year-old Neve decides to take matters into her own hands. And when Susannah's closest friend Patsy discovers what Neve is up to, she immediately lends her support. As their plans start to unfold they have no way of knowing what kind of fates they are stirring, all they can see is Susannah's excitement, because at last a way seems to be opening up for her to escape her bad luck. However, the spectre of horror is all the time pacing behind the scenes and never, in all Susannah's worst nightmares, could she have imagined her happiness causing so much pain to someone she loves...

[How to Sharpen Pencils: A Practical and Theoretical Treatise on the Artisanal Craft of Pencil Sharpening for Writers, Artists, Contractors, Flange Turners, Anglesmiths, and Civil Servants, David Rees](#) , 2013, 1612193269, 9781612193267.

A hilarious guide to the lost art of artisanal pencil sharpening "...I am so thrilled David Rees is picking up the reins of the forgotten art of manual graphite-encased-in-wood point-crafting. I love my pencil!" --AMY SEDARIS "You may think that sharpening a pencil is easy, but David Rees makes it look hard, and that makes all the difference." --JOHN HODGMAN "Truly, my life before I was presented with correctly sharpened pencils by an artisan was a dull and ill-sharpened void. Learn from my mistakes." --NEIL GAIMAN Have you got the right kind of point on your pencil? Do you know how to achieve the perfect point for the kind of work you need out of that pencil? Deep in New York's Hudson River Valley, craftsman David Rees--the world's number one #2 pencil sharpener--still practices the age-old art of manual pencil sharpening. In 2010, he began offering his artisanal service to the world, to the jubilation of artists, writers, draftsmen, and standardized test takers. Now, Rees presents a book that is both a manifesto and a fully-illustrated walk-through of the many, many, many ways to sharpen a pencil. Including chapters on equipment, current practice, and modern technologies, it also points at new trends in sharpening, including "Celebrity Impression Pencil Sharpening (CIPS)," a warning about the "Psychological Risks Associated with Pencil Sharpening," and a survey of "Wines that tastes like pencils." As Rees implores: "Sharpening pencils should be an activity that enriches the senses." And if you think it's a

joke, why don't you poke yourself with your newly sharpened pencil? Or better yet, don't--because it'll really hurt.

[BRC/IoP global standard: consumer products \[Chinese edition\], British Retail Consortium, Institute of Packaging, BRC](#) , 2004, 011702757X, 9780117027572. Dated August 2003. No public library discount on this item. IoP = Institute of Packaging

[Basic Concepts in Immunology: A Student's Survival Guide, John Clancy](#) , 1998, 0070113718, 9780070113718. This student friendly guide takes a unique approach to understanding the fundamental concepts of immunology. Direct and concise text and illustrations emphasize the learning framework so that information can be assimilated and sorted easily. The book begins by defining general aspects of immune response and builds through increased levels of hypersensitivity to immunodeficiency. A glossary of common terms and information about standard essays are included.

[Logic and Discrete Mathematics: A Computer Science Perspective, Winfried K. Grassmann, Jean-Paul Tremblay](#) , 1996, 0135012066, 9780135012062. This book covers all the traditional topics of discrete mathematics logic, sets, relations, functions, and graphs and reflects recent trends in computer science. Shows how to use discrete mathematics and logic for specifying new computer applications, and how to reason about programs in a systematic way. Describes Prolog, a programming language based on logic, and a section on Miranda, language based on functions. Features numerous examples which relate the mathematical concepts to problems in computer science.

[Cannibal: The Most Sickening Consumer Guide Ever!, John Martin](#) , 2006, 0953326179, 9780953326174. Explosive guide to the cannibal movie phenomenon of the 1970s, '80s and early '90s, with particular emphasis on the Italian video nasties that spawned over-banned classics Cannibal Holocaust and Zombie Flesh Eaters. Martin leads the reader chronologically through a glossy gore-fest containing hundreds of stills from the movies under discussion: his text is informative, intelligent and humorous, discussing the films and the environment in which they were made. Includes in-depth interviews with directors and an introduction by Quentin Tarantino.

[A View from the Bridge, Shay Daly](#) , 2011, 1408270013, 9781408270011. Written by examiners and teachers to give you an expert understanding of the text you're studying, 'York Notes for GCSE' has the most in-depth coverage and analysis of everything from themes and contexts to characters, plots and language.

[How Deaf Children Learn: What Parents and Teachers Need to Know, Marc Marschark, Peter C. Hauser](#) , 2011, 0195389751, 9780195389753. How can parents and teachers most effectively support the language development and academic success of deaf and hard-of-hearing children? Will using sign language interfere with learning spoken language? Should deaf children be placed in classrooms with hearing children? Are traditional methods of teaching

subjects such as reading and math to hearing children appropriate for deaf learners? As many parents and teachers will attest, questions like these have no easy answers, and it can be difficult for caring adults to separate science from politics and fact from opinion in order to make informed decisions about how to help deaf children learn. In this invaluable guide, renowned authorities Marc Marschark and Peter Hauser highlight important new advances in scientific and educational research that can help parents and teachers of students with significant hearing loss. The authors stress that deaf children have strengths and needs that are sometimes very different from those who can hear. Consequently, if deaf students are to have full academic access and optimal educational outcomes, it is essential that parents and teachers learn to recognize these differences and adjust their teaching methods to them. Marschark and Hauser explain how the fruits of research conducted over the last several years can markedly improve educational practices at home and in the classroom, and they offer innovative strategies that parents and teachers can use to promote learning in their children. The result is a lively, accessible volume that sheds light on what it means to be a deaf learner and that provides a wealth of advice on how we can best support their language development, social skills, and academic success.

[Confirm Your Faith, William Edward Weston](#) , 1981, 0959235701, 9780959235708.

[Memories from Cherry Harvest, Amy Wachspress](#) , 2012, 1593764898, 9781593764890. When I remember Russia, I ache with longing for the village of my birth, where the beloved grandparents magically produced candy in a handshake and told stories of long ago when God spoke to humans and enchantments filled the world. So begins Amy Wachspress historical novel, spanning 70 years and five continents, *Memories from Cherry Harvest*. Two Jewish sisters, born in Russia shortly before the Communist Revolution, are forced to flee the pogroms and persecution and travel with their parents to British-occupied Palestine. The girls parents befriend a widower with two children and join forces, creating a blended family. When the girls are teenagers, World War II tears the family apart, sending the girls separately to France and America. Their lives unfold in tandem: babies are born, friendships forged, and cherry pies baked, despite the brutal backdrop of the Holocaust. The family grows into the next generation, with one of the daughters, an artist drawn to a bohemian lifestyle, who surrounds herself with a multicultural, colorful circle of friends the likes of which her ancestors could not have imagined. Subsequently, the artists daughter is even more evolved and attuned to the worlds unfair oppressions. She turns her passion to providing aid to Salvadoran refugees fleeing the torture and death squads in their homeland, just as her own grandmother once fled the pogroms of Russia. As she follows her vocation of reversing the damage that torturers inflict on their victims, she must overcome a past-life trauma that haunts her very core. *Memories from Cherry Harvest* explores the physics of memory, and shows how the tenacity of good can ultimately withstand and overcome the memory of tragedy.

[The Friendship Factor: Helping Our Children Navigate Their Social World and Why It Matters for Their Success and Happiness, Kenneth H. Rubin](#) , 2003, 0142001899, 9780142001899. Based on twenty-five years of research on

friendship, Dr. Kenneth H. Rubin reveals the importance of children's social development to their emotional and intellectual growth and future success. In *The Friendship Factor* he uses vivid case studies to differentiate normal development from potential problems and real distress, exploring how to: Distinguish between a solitary child and a lonely child Encourage the development of "popularity-as-likability," not "dominance" Help an easily angered child be less aggressive Increase a child's social ability with specific skills and strategies

[Curious George Goes to a Costume Party, H. A. Rey](#) , 2001, 0618065695, 9780618065691. George and the man with the yellow hat arrive at a Halloween party but they aren't wearing costumes. No matter there are plenty in an old trunk upstairs, and soon George is trying on all kinds of outfits. But when he wants to look in the mirror, George finds he has to jump on the bed. Downstairs, the partygoers begin to hear noises. Then the lights go out and they hear a crash! Uh-oh. Did someone say the word ghost?

[Apartment 16, Adam Nevill](#) , 2010, 0330525700, 9780330525701. Some doors are better left closed . . . In Barrington House, an upmarket block in London, there is an empty apartment. No one goes in, no one comes out. And it has been that way for fifty years. Until the night watchman hears a disturbance after midnight and investigates. What he experiences is enough to change his life forever. A young American woman, April, arrives at Barrington House. She's been left an apartment by her mysterious Great Aunt Lillian who died in strange circumstances. Rumours claim Lillian was mad. But her diary suggests she was implicated in a horrific and inexplicable event decades ago. Determined to learn something of this eccentric woman, April begins to unravel the hidden story of Barrington House. She discovers that a transforming, evil force still inhabits the building. And the doorway to Apartment 16 is a gateway to something altogether more terrifying . . .

[Once Upon A Time In Oz: Griffith REVIEW 42, Julianne Schultz](#) , 2013, 098731355X, 9780987313553. Once upon a time - and the story begins. Wherever people go they carry their personal and cultural stories with them. Storytelling is a mechanism for reflecting on what it is to be human in time and space; a fairy tale compass to navigate the world. Whether relayed around campfires or told in multi-million-dollar extravaganzas on the big screen, the impulse to tell stories that help make sense of the world, engage with others, validate our existence, and guide us through life lessons, is something essentially human. Fairy tales endure because their messages still speak as strongly and clearly to people today as they ever did - hidden within the metaphoric codes of princes, witches, curses and towers, insurmountable tasks, elaborate tests and exaggerated trials. We all have the same dragons in our psyche, as Ursula K Le Guin once said. Fairy tales tell us it is possible to face these dragons, these ogres of our darkest imaginings, and triumph over them. Australia is a story as well as a place. The Aboriginal place was telling itself for at least those sixty-thousand years, while outside Australia existed only in the imaginations of people in the northern hemisphere, a Great South Land below the equator. The shocking, defining moment in 1788 when the First Fleet landed fractured the backbone of the story, and set off a whole galaxy of further plots and subplots that continue to play out. A country's living, dreaming imagination is a concept about which Australia's First Peoples know so much and speak so eloquently. We have inherited the stories of Europe, the tales of the brothers Grimm and the Bible that came in the memories and books of settlers over the past two hundred years, and we are increasingly integrating the stories of other cultures and civilisations in this region. In Once

Upon a Time in Oz, Griffith REVIEW holds up an enchanted mirror to explore the role of fairy and folk tales across cultures in this country, and creates new ones. For many, coming to Australia meant leaving centuries of fairy tales, myths and legends behind and falling painfully onto the hard and naked ground. How did immigrants re-weave a cushion of stories encompassing the new narratives of place: the unforgiving harsh landscape; the lost or stolen child; the gods and goddesses of sport; the heroes of war; outlaws and larrikins and mateship; bushrangers and magic puddings? What are the tales that preoccupy, entertain and guide the culture today in the land of Oz? How did they make their way here? What has happened to them over time? Once Upon a Time in Oz presents new stories by renowned writers including Cate Kennedy, Arnold Zable, Ali Alizadeh, Tony Birch, Marion Halligan, Margo Lanagan and Bruce Pascoe. Other writers including Kate Forsyth, Michelle Law, Jane Sullivan, Lucy Sussex and John Bryson examine through essay and memoir some of the mysteries of storytelling. And David Rowe takes us 'Down the Abbott Hole' in a cartoon essay. Once Upon a Time in Oz features Carmel Bird as contributing editor. Julianne Schultz AM FAHA is the founding editor of Griffith REVIEW, Australia's most awarded and extracted quarterly, produced by Griffith University and Text Publishing. She is a professor in the Griffith Centre for Cultural Research, a member of the boards of the ABC and the Grattan Institute, and chair of the Australian Film Television and Radio School. Julianne is an acclaimed author, and in 2009 became a Member of the Order of Australia for services to journalism and the community.

[Of Song and Water, Joseph Coulson](#) , 2010, 0981987389, 9780981987385. "Joseph Coulson's writing makes a reader hear jazz." 'Los Angeles Times' Forced to abandon his musical career, Coleman Moore finds himself at midlife in the company of ghosts: his grandfather, a rumrunner and Great Lakes pirate; his jazz mentor, a black man in a white town; and his first love. Like a melody or a swift stream, 'Of Song and Water' pulls us into a world of hidden truth, crushed dreams, and possible redemption. Joseph Coulson, novelist, poet, and playwright, was born in Detroit in 1957. His first novel, 'The Vanishing Moon' (2004) was selected for the Barnes & Noble Great New Writers series and won the Book of the Year Award, Gold Medal in Literary Fiction, from 'ForeWord Magazine'. Coulson is the author of three volumes of poetry: 'The Letting Go, A Measured Silence, and Graph.' His first play, 'A Saloon at the Edge of the World' (co-authored with William Relling, Jr.), a noir drama showcased by Theater Artists of Marin, won both popular and critical acclaim in the San Francisco Bay area. Coulson has been the recipient of a Gray Writing Fellowship (selected by Robert Creeley) and a Ph.D. in American literature from the State University of New York at Buffalo. A teacher for many years, he recently served as Editorial Director for the Great Books Foundation in Chicago. He now lives in Cambridge, Massachusetts.

[Securing the Smart Grid: Next Generation Power Grid Security, Tony Flick, Justin Morehouse](#) , 2010, 1597495719, 9781597495714. "The first step in securing the Smart Grid is to fully understand the threat landscape. This book provides both a timely and relevant overview of the subject a must-read for anyone responsible for securing the grid as well as

consumers looking to implement the technology!"-- Dr. Patrick Engebretson, Assistant Professor of Computer Security, Dakota State University. "Easy to read and full of valuable information, this book provides a wide-eyed view of our future and the security challenges we will be facing in our day-to-day lives. Exploring everything from home systems to large-scale power plants, this is a must-read for everyone in our technological society."-- Thomas Wilhelm, ISSMP, CISSP, SCSECA, SCNA, SCSA, IEM, IAM Smart Grids are the future of energy. By creating networks from power plant to home, utility companies will be able to regulate power consumption making sure that consumers are receiving the amount that is needed, no more or less. While this new use of networking technology and unique applications such as smart meters will help to conserve energy it also opens up a pipeline, that was regulated manually, into the computer world of interconnected networks. The infrastructure that is being built will need to have robust security as an attack on this network could create chaos to tens of thousands of power consumers, stop a utility company in its tracks, or be used in a cyberwar. Securing the Smart Grid takes a look at grid security today, how it is developing and being deployed into now over 10 million households in the US alone. Direct attacks to smart meters as well as attacks via the networks will be detailed along with suggestions for defense against them. A framework for how security should be implemented throughout this growing system will be included directing security consultants, and system and network architects on how to keep the grid strong against attackers big and small. Details how old and new hacking techniques can be used against the grid and how to defend against them. Discusses current security initiatives and how they fall short of what is needed. Find out how hackers can use the new infrastructure against itself

[Cathexis](#), 1997, 1561631744, 9781561631742. A BIG collection of Manning's ground-breaking early short strips and illustrations. Highlights include the classic "Circe's House" in which an enchanting dominatrix reshapes a beautiful boy into her feminine plaything and its sequel "Vague Terrain" which features a sizzling bisexual m/?/nage-a-trois, orgiastic gods and demons in "Audio Frequency Book of the Dead," and the much-praised "Brahma" with its taboo-shattering encounter between a young woman and the well-hung dog left in her care. Hot fetishistic comix with a punk attitude and sci-fi/fantasy twist!

[Control of Color Imaging Systems: Analysis and Design, Lalit K. Mestha, Sohail A. Dianat](#) , 2009, 0849337461, 9780849337468. A Complete One-Stop Resource While digital color is now the technology of choice for printers, the knowledge required to address the quality and productivity issues of these devices is scattered across several technologies, as is its supporting literature. Bringing together information from diverse fields, Control of Color Imaging Systems: Analysis and Design is the first book to provide comprehensive coverage of the fundamentals and algorithms of the numerous disciplines associated with digital color printing in a single resource. The authors review the history of digital printing systems, explore its current status, and explain fundamental concepts, including: digital image formation, sampling, quantization, image coding, spot color calibration, and one- and multi-dimensional tone control of color management systems including process physics and controls. A Complete Self-Tutorial With Over 150 Design Examples and 120 Exercise Problems Based on the authors three decades of hands-on technical and teaching experience, the text provides engineers and technicians with an end-to-end understanding of the color printing process, and helps them build a foundation drawn from the diverse disciplines needed to manage and control digital production printers. The control theory and methods presented in this book are state-of-the art for color printing systems; however, coverage of theoretical concepts and mathematics are kept to the basics, as the book is designed to teach hands on skills that will allow practitioners to gain an immediate understanding of quality and productivity concerns. The understanding provided will help practitioners build the technical skills needed to help pioneer the next generation of ideas, algorithms, and methods that will further expand the frontier of this rapidly evolving technology.

A classic in the area of organic synthesis, Strategies and Tactics in Organic Synthesis provides a forum for investigators to discuss their approach to the science and art of organic synthesis. Rather than a simple presentation of data or a second-hand analysis, this book vividly demonstrates through first hand accounts how synthesis is really done and how by discovering new reactions, creating new designs and building molecules with atom and step economies, the advancement of the science of organic synthesis is providing solutions through function to create a better world.Presents state-of-the-art developments in organic synthesisProvides insight and offers new perspective to problem-solvingWritten by leading experts in the field

[The Chalk Circle Man, Fred Vargas](#) , 2010, 0099488973, 9780099488972. Jean-Baptiste Adamsberg is not like other policemen. His methods appear unorthodox in the extreme: he doesn't search for clues; he ignores obvious suspects and arrests people with iron-clad alibis; he appears permanently distracted. The Chalk Circle Man is the first book featuring Jean-Baptiste Adamsberg, one of the most engaging characters in contemporary detective fiction. When strange, blue chalk circles start appearing overnight on the pavements of Paris, the press take up the story with amusement and psychiatrists trot out their theories. Adamsberg is alone in thinking this is not a game and far from amusing. He insists on being kept informed of new circles and the increasingly bizarre objects which they contain: empty beer cans, four trombones, a pigeon's foot, four cigarette lighters, a badge proclaiming "I Love Elvis," a hat, a doll's head. Adamsberg senses the cruelty that lies behind these seemingly random occurrences. Soon a circle with decidedly less banal contents is discovered: the body of a woman with her throat savagely cut. Adamsberg knows that other murders will follow. "From the Hardcover edition."

[Who Controls the Internet?: Illusions of a Borderless World, Jack L. Goldsmith, Tim Wu](#) , 2008, 0195340647, 9780195340648. Is the Internet erasing national borders? Who's really in control of what's happening on the Net--Internet engineers, rogue programmers, the United Nations, or powerful countries? In this provocative new book,

Jack Goldsmith and Tim Wu tell the fascinating story of the Internet's challenge to governmental rule in the 1990s, and the ensuing battles with governments around the world. It's a book about the fate of one idea--that the Internet might liberate us forever from government, borders, and even our physical selves. We learn of Google's struggles with the French government and Yahoo's capitulation to the Chinese regime; of how the European Union sets privacy standards on the Net for the entire world; and of eBay's struggles with fraud and how it slowly learned to trust the FBI. In a decade of events, the original vision was uprooted, as governments time and time again asserted their power to direct the future of the Internet. The destiny of the Internet over the next decades, argue Goldsmith and Wu, will reflect the interests of powerful nations and the conflicts within and between them. Well written and filled with fascinating examples, this is a work that is bound to stir heated debate in the cyberspace community. "A timely look at the ways that governments make themselves felt in cyberspace. Goldsmith and Wu cover a range of controversies, from domain-name disputes to online poker and porn to political censorship. Their judgments are well worth attending." --David Robinson, Wall Street Journal "In the 1990s the Internet was greeted as the New New Thing: It would erase national borders, give rise to communal societies that invented their own rules, undermine the power of governments. In this splendidly argued book, Jack Goldsmith and Tim Wu explain why these early assumptions were mostly wrong. By turns provocative and colorful...an essential read." --Sebastian Mallaby, Editorial Writer and Columnist, The Washington Post

[Complete Short Fiction, Oscar Wilde](#) , , . Oscar Wilde (1854-1900) was an Irish writer and poet who distinguished himself as a leader of London's school of Aesthetics in the late nineteenth century. He became famous for his long hair, flamboyant dress, green carnations and colorful, biting wit. His successful novels, social comedies, poetry and letters reflected his belief in the supremacy of art. This collection of Wilde's short fiction, written between 1888 and 1891, includes: "Lord Arthur Savile's Crime and Other Stories," a series of social parody stories; "The Portrait of Mr. W. H.," a conversational story that puts forth the theory that Shakespeare wrote his sonnets out of love for a boy actor named Willie Hughes; "Poems in Prose," a satirical collection of poems on complacency and religious orthodoxy of the bourgeoisie; "The Happy Prince and Other Tales," a collection of stories for children; and "A House of Pomegranates," Wilde's well-known fairy tales.

[The politics of transition: a hidden history of South Africa's negotiated settlement, Richard Spitz, Matthew Chaskalson](#) , 2000, 1868143449, 9781868143443. During the early 1990s, South Africans kept a close eye on the media coverage of South Africa's negotiated transition to democracy. Likened to a soap opera by some, the negotiations featured violent interlopers, dramatic walkouts, alliances and, somehow, a fortunate conclusion in the form of the Interim Constitution and Bill of Rights. The importance of the negotiating process and the Interim Constitution itself should not be

underestimated, however, in relation to their longer-term influence over the form of democracy currently enjoyed in South Africa. In this brave publication, Spitz and Chaskalson examine the politics behind the Kempton Park negotiations and the Interim Constitution, and the influence that these have had on the subsequent consolidation of a South African democracy.

[Three Plays, August Strindberg](#) , 1980, 0828314586, 9780828314589. The three plays in this volume focus on the tumultuous relationships between men and women, whether they are father and daughter, brother and sister or lovers. "Miss Julie" is a ruthlessly realistic depiction of an upper class woman's seduction of a servant, emphasizing the differences and the antagonism between them. In "The Father", a man is brought to madness and driven out of his home by the suspicion that his daughter is not his own child, while "Easter" centres on a family in need of redemption for its sins and suffering, finding forgiveness at a season of rebirth. Strindberg's acute psychological analysis and his dramatization of naked emotion within a naturalistic domestic setting make him one of the great innovators of the modern theatre.

[Fiddler on the Move: Exploring the Klezmer World, Volume 1, , Mark Slobin](#) , 2000, 019513124X, 9780195131246.

"Klezmer" is a Yiddish word for professional folk instrumentalist-the flutist, fiddler, and bass player that made brides weep and guests dance at weddings throughout Jewish eastern Europe before the culture was destroyed in the Holocaust, silenced under Stalin, and lost out to assimilation in America. Klezmer music is now experiencing a tremendous new spurt of interest worldwide with both Jews and non-Jews recreating this restless volatile, and vibrant musical culture. Firmly centered in the United States, klezmer has paradoxically moved back across the Atlantic as a distinctly "American" music, played throughout central and eastern Europe, as well as in many other parts of the world. Fiddler on the Move places klezmer music squarely within American music studies, cultural studies, and ethnomusicology. Neither a chronology nor a comprehensive survey, the book describes a variety of approaches and perspectives for coming to terms with the highly diverse array of activities found under the klezmer umbrella. Bringing to his subject the insights of an accomplished ethnomusicologist, Slobin addresses such questions as: How does klezmer overlap with, and differ from, the many other contemporary "heritage" musics based on an assumed connection with a group identity and links to a tradition? How do economics, artistic expression, and the evocation of the past interact in motivating klezmer performers and audiences? In what kinds of environment does klezmer flourish? How do stylistic features such as genre, form, and ornamentation help to define the technique, affect, and aesthetic of klezmer? Featuring a music CD with many of the archival and contemporary recordings discussed in the text, this fascinating study will interest scholars, students, musicians, and music lovers

[Courage the Monkey, Mark Jordan](#) , 2006, 0971701377, 9780971701373. Jonathan the spider monkey is afraid to climb tall trees, but when David, Jonathan's brother, is in need of rescue, Jonathan recovers the self-confidence he needs to rescue him.

[Since Daisy Creek, W. O. Mitchell](#) , 2001, 0771061137, 9780771061134. Colin Dobbs, a salty-tongued professor, is recovering in a hospital bed. In a review of his past, we learn about the grizzly hunt that went wrong and how his life has changed since the incident at Daisy Creek. But the really central issues of his life emerge as Dobbs is prodded back to health by his estranged daughter. Gradually, as he learns to face the world and his students again, we come to see the deep disappointments that led him on his strange quest up Daisy Creek, where Archie Nicotine saved his life. From the Trade Paperback edition.

[Laff-toons, the Best Medicine!, Rick Enright](#) , 1998, .

[Reconnective Therapy: A New Healing Paradigm, Herwig Schoen](#) , 2003, 0972322302, 9780972322300. Address the unity of body, mind and spirit by describing the structure of the energy body that is emerging as humankind moves into

higher frequencies as well as the various frequencies used in Reconnective Therapy and how these alter the systems of the body and mind, returning them to perfect function.

[The Holocaust, Never to be Forgotten: Reflections on the Holy See's Document We Remember, Avery Dulles, Avery Robert Dulles, Edward Idris Cassidy](#) , 2001, 0809139855, 9780809139859. Rabbi Leon Klenicki sums up a number of Jewish perspectives on the strengths and weaknesses of the statement, while noted theologian Avery Dulles, S.J., explores the various Catholic responses to the Holocaust in the past and how this document breaks new ground. Cardinal Cassidy's statement explains both the background to the document, emphasizing the central importance of repentance (teshuvah) to the document, and its unequivocal rejection of those who deny the Holocaust ever happened."--BOOK JACKET.

[Growth Theory: Solow and His Modern Exponents, Dipankar Dasgupta, Robert M. Solow](#) , 2005, 019567524X, 9780195675245. This presentation of some recent advances in growth theory is motivated by two considerations. First, the works addressed by the book have not received uniform treatment in standard references. It presents a self-contained development of the subject matter including an exposition of the basic mathematics needed to study the subject. At the same time the different concepts are presented with reference to a common platform. Since economics students are exposed to the tools of supply and demand starting from the most elementary of courses, it is expected that they will readily grasp the message of modern growth theory when presented in this familiar language. A second consideration is the emphasis the book accords to the role played by externalities as in the case of most public goods where technological changes generate non-internalisable externalities which constitute one of the primary reasons for the failure of the competitive market system. The failures lead to a natural quest for policies to sustain efficient solutions with minimal interventions by the government.

[On Husserl, Victor Velarde-Mayol](#) , 2000, 0534576109, 9780534576103. This brief text assists students in understanding Husserl's philosophy and thinking so that they can more fully engage in useful, intelligent class dialogue and improve their understanding of course content. Part of the "Wadsworth Philosophers Series," (which will eventually consist of approximately 100 titles, each focusing on a single "thinker" from ancient times to the present), ON HUSSERL is written by a philosopher deeply versed in the philosophy of this key thinker. Like other books in the series, this concise book offers sufficient insight into the thinking of a notable philosopher better enabling students to engage in the reading and to discuss the material in class and on paper.

[Will Rogers: An American Legend, Frank Keating](#) , 2002, 0152024050, 9780152024055. "A man only learns by two things," Will Rogers said. "One is reading, and the other is association with smarter people." Will Rogers loved people, and adventure, from the time he was a young boy. As a man, he traveled to the four corners of the globe--and never met a man he didn't like. Filled with Will Rogers's own timeless quotes, this picture book tells the story of a great maverick who lived the American dream. Governor Frank Keating of Oklahoma and award-winning illustrator Mike Wimmer bring to life a role model--and one of Oklahoma's favorite sons--who was quick on his trusty steed but even quicker with his wits.

[The Final Martyrs, Shsaku Endo](#) , 2009, 0811218112, 9780811218115. All the salient qualities that distinguish the superb work of Japanese writer Shusaku Endo are on full display in this new collection of eleven stories written over the course of almost thirty years. The themes are akin to those in the author's novels (Silence and The Sea and Poison, for example): the martyrdom of Roman Catholics in Japan; coming to terms with old age - a compound of infirmity, fear, and pangs of nostalgia; the incongruity of Japanese travelers in Europe; spiritual doubt and sexual yearning; and, clearly, elements of autobiography, particularly of Endo's lonely boyhood unhappiness over the strife between his parents that ended in divorce. There is no other contemporary Japanese writer who has achieved such a balanced blend of things Western with those inherently Japanese. As John Updike comments in The New Yorker, Endo's work is "sombre, delicate, startlingly emphatic." It is also uniquely moving in its compassionate exploration of the human condition.

[America's Revolution, Patrick Griffin](#) , 2012, 0199754802, 9780199754809. In America's Revolution, Patrick Griffin offers a new interpretation, narrative, and historical synthesis of America's most formative period. Exploring the American Revolution from global, Atlantic, and continental perspectives, Griffin focuses on how men and women in local contexts struggled to imagine new ideas of sovereignty as British authority collapsed. He examines the relationship between ideas and social tensions, the War of Independence, the roles of the founders, and the struggles and triumphs of those on the margins. Griffin illustrates how, between 1763 and 1800, Americans moved from one mythic conception of who they were to a very different one, a change that was evident in word and in image. America's Revolution captures these dynamics by exploring origins and outcomes--as well as the violent, uncertain, and liberating process of revolution--that bridged the two.

[Wealth Toolkit, Gus R. Nassif](#) , 2005, 0977467341, 9780977467341. Intelligently outlines and explains the financial tools used in building real estate equity, accumulating wealth, and protecting both!

[Double Taxation Conventions: A Manual on the OECD Model Tax Convention on Income and on Capital, Volume 1, , Philip Baker](#) , 2001, 0421673605, 9780421673601. This work presents the principles of double taxation agreements made between countries. Many of these treaties are based on the Model Tax Convention of the Organization for Economic Co-operation and Development (OECD) which, accompanied by the official commentary and the author's annotations, forms the framework for this work. The text takes into account the two major changes made to the model convention since the book's last edition in 1993, and includes nearly 100 new international cases.

[German Europe, Ulrich Beck](#) , 2013, 0745678521, 9780745678528. The euro crisis is tearing Europe apart. But the heart of the matter is that, as the crisis unfolds, the basic rules of European democracy are being subverted or turned into their

opposite, bypassing parliaments, governments and EU institutions. Multilateralism is turning into unilateralism, equality into hegemony, sovereignty into the dependency and recognition into disrespect for the dignity of other nations. Even France, which long dominated European integration, must submit to Berlin's strictures now that it must fear for its international credit rating. How did this happen? The anticipation of the European catastrophe has already fundamentally changed the European landscape of power. It is giving birth to a political monster: a German Europe. Germany did not seek this leadership position - rather, it is a perfect illustration of the law of unintended consequences. The invention and implementation of the euro was the price demanded by France in order to pin Germany down to a European Monetary Union in the context of German unification. It was a quid pro quo for binding a united Germany into a more integrated Europe in which France would continue to play the leading role. But the precise opposite has happened. Economically the euro turned out to be very good for Germany, and with the euro crisis Chancellor Angela Merkel became the informal Queen of Europe. The new grammar of power reflects the difference between creditor and debtor countries; it is not a military but an economic logic. Its ideological foundation is German euro nationalism - that is, an extended European version of the Deutschmark nationalism that underpinned German identity after the Second World War. In this way the German model of stability is being surreptitiously elevated into the guiding idea for Europe. The Europe we have now will not be able to survive in the risk-laden storms of the globalized world. The EU has to be more than a grim marriage sustained by the fear of the chaos that would be caused by its breakdown. It has to be built on something more positive: a vision of rebuilding Europe bottom-up, creating a Europe of the citizen. There is no better way to reinvigorate Europe than through the coming together of ordinary Europeans acting on their own behalf.

[The Consigliere, MR Mario Gomez](#) , 2011, 0983654700, 9780983654704. The black hand of La Cosa Nostra meets the sinister underworld of an equally Machiavellian, Mexican drug cartel. Where Faustino, an up and coming Wall Street stockbroker, is living his dream of wealth, status and power. A man who long ago swore himself to a single end: to escape like a pursued criminal the poison barbed tentacles of the poverty from which he arose. His success, is perpetually shadowed by Paul Banelli, best known as don Banelli, who reigns as the capo di tutti capi-boss of all bosses-of the ever notorious La Cosa Nostra. His relationship with the Don turns precarious when Michelle Banelli-the precocious, pressing, and alluring only daughter of the mob boss-sets her sights on more than just fashion, high society, and, of course, being the apple of her father's eye. She decides that for long enough her and Faustino have toyed with the faux indifference and lie that nothing more than a platonic, sibling-like affection exists between them. Her carelessness leads Faustino into a quagmire of blackmail, kidnapping and murder, where to survive he must forfeit the life and position he has worked so hard to attain. He now flees, not only poverty, but a vendetta, that will stop at nothing to devour him. Faustino heads for

the border, hoping to lose himself among his native roots: Mexico. In doing so he turns his back on everything, that up until now, has defined him; all to submerge and disguise himself in the very poverty he vowed never to return to. Where he soon finds himself tangled and quartered in between a friendship more akin to a brotherhood; an unspoken but ever-present debt of gratitude and fealty for don Banelli; a Mexican drug lord, Enrico Mezon, who despite being a sociopath, possesses the keys to his aegis; and finally, the mesmerizing niece of Enrico, who will stop at nothing to possess his affection, control his mind, and own his heart—a heart that little does she know belongs to another. Calling to task years of the Don's tutelage, bringing to fruition a kind of iron-willed mental acuity of purpose and determination to overcome the jockeying oppositions threatening from every side. Learning first hand, that true greatness is never achieved outside of adversity. With one hand he dips into the truth of his past, discovering a secret that up until now the Don has guarded with unflinching resolve; with the other he seizes the tainted opportunity from the blackened hand of the Mezon cartel: taking it upon himself to bridge a chasm of distrust, greed, and mutual animosity between two crime families. An endeavor that will demand his acquired acumen and finesse in finance along side the wicked statesmanship of Machiavelli himself, so as to appease two masters with one life. Suddenly he's stuck in a tug-a-war between his own desires and a duty to a way of life not entirely his own. A way of life bound by Omerta, a code of silence and honor, where the only vindication from betrayal...is death.

[Politics in the Developing World, Peter Burnell, Vicky Randall, Lise Rakner](#) , 2011, 0199570833, 9780199570836. The third edition of this well respected textbook explores the changing nature of politics in the developing world in the twenty-first century. Beginning with an examination of theoretical approaches, leading scholars then go on to discuss the social and cultural context, state governance, as well as key policy issues including the environment and human rights. Finally, a section of in depth case studies allows students to compare the political situation in a wide range of developing countries, from Indonesia and Iraq to India and China. New chapters on the role of institutions, the transition of the state from conflict to post-conflict, and the impact of international aid ensure that Politics in the Developing World remains the most comprehensive introduction to the subject available. The third edition is fully up-to-date with recent development policies and also explores the impact of important global events, such as the 2008 financial crisis. The book is accompanied by Online Resource Centre with the following features: Case studies Flashcard glossary Study questions Web links

[Archyology: The Long Lost Tales of Archy and Mehitabel, Volume 1, , Don Marquis](#) , 1996, 0874517451, 9780874517453. "Archy and his racy pal Mehitabel are timeless," noted E. B. White in his essay on Don Marquis and his famous creations, and the undimmed enthusiasm of several generations of fans -- who every year buy thousands of copies of Marquis' earlier collections -- testifies to their appeal. A whimsical and sophisticated sage, archy the cockroach entertained readers with iconoclastic observations on pretensions, politics, and our place in the cosmos during Marquis'

career as a New York newspaper columnist in the 1920s and 30s. Allegedly tapping out stories at night by leaping from key to key on Marquis' typewriter, archy couldn't quite manage the shift key for capital letters. Although his tales appeared in lower case, his views achieved a level grand enough to solidify Marquis' reputation as an American humorist in the tradition of Mark Twain, Joel Chandler Harris, and Ring Lardner. archyology brings together selected "lost" tales that were literally rescued from oblivion by Jeff Adams, who found them among papers stored in a steamer trunk since Marquis' death. And so archy emerges from his long silence. Whether reporting on characters like emmet the ghost, sailing to Paris to visit the insects of Europe, being trapped for days in a New York subway train, or hanging out in a Long Island orchard enjoying fermented cherries, archy is always both provocative and inimitable. With illustrations by Ed Frascino, a New Yorker regular, this collection reintroduces a delightful cast of characters who reconfirm archy's view of the world: "the only way to live with it is to laugh at it."

[Oxford handbook of gastroenterology and hepatology, Stuart Bloom, George Webster](#) , 2006, 0198566522, 9780198566526. Gastroenterology and Hepatology is the essential quick reference guide for gastroenterologists. The first section covers approaches to clinical problems detailing 29 of the most common in GI medicine, including acute and chronic diarrhoea, and constipation. A key section of this handbook is a unique A-Z compendium which includes information on 100s of topics in gastroenterology from Abetalipoproteinaemia to Zieve's syndrome. Colour-coded links to related topics enable readers to find the right information quickly. Further sections include emergencies, and commonly used drugs, with emphasis on practice tips and common complications. This is a must-have handbook, which will serve as an invaluable tool for all those involved in the care of patients with gastrointestinal disease.

[The Western River Steamboat, Adam I. Kane](#) , 2004, 1585443433, 9781585443437. The first Western steamboat was built in 1811 in Pittsburgh, and thousands more were constructed in the years before the Civil War. These waterborne vehicles helped define the nineteenth-century trans-Appalachian West. Decades of incremental changes created a distinctive watercraft, and the steamboat became perfectly suited to the conditions of the Western rivers, transforming the West from a wilderness into a place of economic significance. In *The Western River Steamboat*, nautical archaeologist Adam I. Kane traces the development of this once commonplace vessel. Kane describes the importance and impact of the steamboat in American history and complements his historical analysis with clear, concise technical explanations of the

construction and evolution of Western river steamboats. Using photographs, drawings, and charts to help readers visualize the early steamboats and the study of their remains by archaeologists, Kane explains how the rivers dictated the design of the hull, why stern wheels replaced side wheels, how hogging chains kept hulls from buckling, and why safety valves were of little use when engineers regularly overloaded them. Anyone intrigued by the vessel that chan

[Modern Art Despite Modernism, Museum of Modern Art \(New York, N.Y.\)](#) , 2000, 0870700316, 9780870700316.

Throughout the twentieth century, the evolution of mainstream Modernism in the arts has been shadowed and made complex by alternative expressions of a seemingly retrograde type, art that appears to set back the clock or to redirect the stream of progress. Modern Art Despite Modernism explores the anti-Modernist impulse in painting and sculpture through socio-cultural conflicts of the 1920s, 30s and 40s. Texts by Robert Storr advocate the strengths of this impulse in paintings and drawings by Otto Dix, Lucian Freud, Francesco Clemente and even Pablo Picasso--and note the enduring popularity of such artists as Pavel Tchelitchew, whose "Hide and Seek," along with Andrew Wyeth's "Christina's World," remain among the public's favorite pictures. Storr also discusses taste and its implications, both past and present, for institutions like The Museum of Modern Art. This book was published as the second in a series of three titles, in conjunction with the millennial exhibitions schedule of MoMA2000 at The Museum of Modern Art, New York.

[Glue, Irvine Welsh](#) , 2008, 1407018078, 9781407018072. Glue is the story of four boys growing up in the Edinburgh schemes, and about the loyalties, the experiences and the secrets that hold them together into their thirties. As we follow their lives from the 70's into the new century - from punk to techno, from speed to Es - we can see each of them trying to struggle out from under the weight of the conditioning of class and culture, peer pressure and their parents' hopes that maybe their sons will do better than they did. What binds the four of them is the friendship formed by the scheme, their school, and their ambition to escape from both; their loyalty fused in street morality: back up your mates, don't hit women and, most importantly, never grass - on anyone.

[The Collected Works of Jeremy Bentham: Correspondence: Volume 10: July 1820 to December 1821, Volume 1, , Jeremy Bentham](#) , 1994, 0198226179, 9780198226178. This is the tenth volume of the Correspondence produced in the new edition of The Collected Works of Jeremy Bentham. The great majority of the letters have never before been published. They illustrate the composition, editing, publication, and reception of several of his works. The volume reveals Bentham's attempts to influence developments in France, the USA, Greece, Spain, Portugal, and South America. Despite Bentham's importance as jurist, philosopher, and social scientist, and leader of the Utilitarian reformers, the only previous edition of his works was a poorly edited and incomplete one brought out within a decade or so of his death. This new critical

edition of his works and correspondence is being prepared by the Bentham Committee of University College London.

[The Glass Palace, Amitav Ghosh](#) , 2001, 000651409X, 9780006514091. The Acclaimed Author Of The Calcutta Chromosome And The Shadow Lines Has Burst Out On To The Big Stage With A Major Saga On That Hidden Country, Burma. Rajkumar Is Only Another Boy, Helping On A Market Stall In The Dusty Square Outside The Royal Palace, When The British Force The Burmese King, Queen And All The Court Into Exile. He Is Rescued By The Far-Seeing Chinese Merchant, And With Him Builds Up A Logging Business In Upper Burma. But Haunted By His Vision Of The Royal Family, He Journeys To The Obscure Town In India Where They Have Been Exiled. The Picture Of The Tension Between The Burmese, The Indian And The British, Is Excellent. Among The Great Range Of Characters Are One Of The Court Ladies, Miss Dolly, Whom He Marries: And The Redoubtable Jonakin, Part Of The British-Educated Indian Colony, Who With Her Husband Has Been Put In Charge Of The Burmese Exiled Court. The Story Follows The Fortunes Rubber Estates In Malaya, Businesses In Singapore, Estates In Burma Which Rajkumar, With His Chinese, British And Burmese Relations, Friends And Associates, Builds Up From 1870 Through The Second World War To The Scattering Of The Extended Family To New York And Thailand, London And Hong Kong In The Post-War Years.

[The Iliad, Homer](#) , 1984, 0192815946, 9780192815941. Epic masterpiece chronicles last days of Trojan War - quarrel of Achilles and Agamemnon, siege of Troy, death of Hector, Trojan Horse, many other incidents and events. Celebrated Samuel Butler prose translation.

[Fire Baptized, Kenya Wright](#) , 2012, 0985023074, 9780985023072. Set in a caged habitat, where supernatural beings have been trapped by humans, the dark fantasy Habitat series follows Lanore as she solves mysteries while struggling for equality in the face of prejudice among supernaturals. Since the 1970s humans have forced supernaturals to live in caged cities. Silver brands embedded in their foreheads identify them by species: a full moon for Vampires, a crescent moon for Shifters, a pair of wings for Fairies each supernatural species has been tagged and categorized by humans. Lanore Vesta is marked with a silver X, the brand of Mixbreeds; shunned by society. She stays to herself, revealing her ability to create fire only during emergencies. All she wants to do is graduate college and stop having to steal to survive. But when she stumbles upon a murder in progress, she catches the attention of a supernatural killer. Now all she wants is to stop finding dead bodies in her apartment. Enlisting help from her Were-cheetah ex-boyfriend Meshack and a new mysterious friend named Zulu, she is steered through the habitats raunchy nightlife. But their presence sometimes proves to be more burden than help as they fight for her attention. While the corpses pile up, and the scent of blood fills the air, Lanore is left wondering: will she find the psycho or die trying?

[A World of Stories: Traditional Tales for Children, Raymond E. Jones, Jon C. Stott , 2005, 019541988X, 9780195419887.](#)

A World of Stories is a collection of myths, hero tales, folk tales, and fables adapted for children (along with modern stories that adapt conventions from these genres). The approximately 130 selections provide students with essential multicultural texts. The wide range of important selections are drawn from around the world, offering students in today's ethnically diverse classrooms a more balanced picture of children's literature than is offered by existing collections, which tend to focus solely on the Western tradition. FEATURES: Offers a multicultural perspective with stories from around the world Includes 130 stories, arranged topically to facilitate comparisons across different traditions Provides students with helpful background material through section introductions and headnotes for each story Editors have strived to achieve a balance of male and female central characters Provides a balance between the traditional tales and their literary adaptations that helps students to understand the tenacity of certain stories across different cultures and different historical periods Includes section introductions, headnotes for each selection, footnotes, and appendices that provide important background information without imposing specific critical or theoretical points of view

picture of Islamic science, not as a chapter in the history of Western science, but as an integral aspect of Islamic civilization and the Islamic intellectual tradition.

[Fannie + Freddie: The Sentimentality of Post-9/11 Pornography, Amy Sara Carroll](#) , 2013, 0823250911, 9780823250912.

Materialist, feminist, queer, hybrid--channeling the sensibilities of Gloria Anzalda, Rosario Castellanos, Mary Kelly, Teresa Hak Kyung Cha, Cecilia Vicua, Patssi Valdez, Bernadette Mayer--Carroll's second collection of prose poems and word-images contemplates the cost of living in an era of "cruel optimism." Procedurally formalizing self-editing and indecision, Carroll undocuments the quotidian's shades of gray/grey, the contingencies of post-Fordist relationality in the pre-Occupy window of time between September 11, 2001, and the 2008 recession. "Cognitive dissonance" meets "the rite to be a citizen." "What is the difference between neoliberalism and globalization?" tempers the counter-cultural question--"And, me?--" In Fannie + Freddie/The Sentimentality of Post-9/11 Pornography, Carroll muses, "Like Sammy and Rosie, Fannie and Freddie got laid." Off-grid, she mixes metaphors, criss-crossing the borders erected between the lyric and the conceptual "I." She crosses out the dividing lines elected to maintain performance art, visual culture, and poetry as discrete clairvoyant mediums of social engagement. She layers jokes, puns, riddles, platitudes, hackneyed phrases, adages, boilerplate, buzzwords, mottos, proverbs, rubber-stamp rhetoric, slogans, threadbare phrases, trite remarks, and truisms over each other to provide a portrait of the contemporary American landscape as experienced by working- and middle-class Americans. Carroll offers an elaborate palimpsest of text and images--text that is often shaded, crossed out, or printed over other text or images. Claudia Rankine, who chose the volume for Fordham University's 2011-2012 Poets Out Loud Prize, succinctly sings its praises: "The intelligence, compassion and dimensionality of this collection place it in a category all its own--it belongs and is crafted out of the psychic anxieties of the twenty-first century. I, for one, was both exhilarated and humbled by Fannie + Freddie/ The Sentimentality of Post-9/11 Pornography."

[Into the Arms of Danger, Lola S. Kohen](#) , 2012, 0988264307, 9780988264304. Follow the exciting life of a bold Israeli commander and a community of kibbutz families living under his protection in Israel's Negev Desert in 2045, three years before Israel's centennial, as an Islamic civil war explodes out of Egypt. When the war intensifies, Commander Ari Alexander and his community must risk their lives to stay in southern Israel and defend the kibbutz or escape with other Zionists moving to Israel's newly expanded northern border in defiance of a One World Government court order. Commander Ari, running on adrenalin and instincts, usually figures a way out of anything. But this time . . . This action adventure thriller, filled with historical references, brings the ancient past into the near future while uniquely offering both Israeli and American points of view to the challenges of living in a time of crisis. Content suitable for young adults to seniors.

[The Honey Jar, Rigoberta Mench](#) , 2006, 0888996705, 9780888996701. An Americas Award Commended Title In this book -- the companion volume to *The Girl From Chimel* -- Nobel Peace Prize winner and Maya activist Rigoberta Menchu Tum returns to the world of her childhood. *The Honey Jar* brings us the ancient stories her grandparents told her when she was a little girl, and we can imagine her listening to them by the fire at night. These Maya tales include creation myths, a classic story about the magic twins (which can also be found in the *Popol Vuh*), explanations of how and why certain natural phenomena came to exist, and animal tales. The underworld, the sky, the sun and moon, plants, people, animals, gods and demi-gods are all present in these stories, and through them we come to know more about the elements that shaped the Mayas' understanding of the world. Rich and vibrant illustrations by Domi perfectly complement these magical Maya tales.

[Dirr's Hardy Trees and Shrubs: An Illustrated Encyclopedia](#) , 1997, 0881924040, 9780881924046. "Visually beautiful, with over 1,600 color photographs of woody plants that bring the text to life, this volume is destined to become a standard reference source for gardening and botany. Entries are arranged alphabetically by scientific name and describe the habitat, foliage, flower, fruit, availability from commercial sources, and landscape use of U.S. northern trees and shrubs, suitable for zones 3 to 8. Readable, short essays reflect the experience and personality of the author, a professor at the University of Georgia. About the Carolina hemlock, Dirr says that "many gardeners rave about this species ... [but] my heart never missed a beat." Dirr took all the photographs during his 25 years as a horticulturist, and there is generally a shot of the full bush or tree and smaller close-ups of the fruit and the leaves of each. Thirty-four tables assist the landscaper in "Selecting Plants for Specific Characteristics or Purposes," such as flowering sequence, flower color, or shrub size."--"Outstanding Reference Sources : the 1999 Selection of New Titles", American Libraries, May 1999. Comp.

[Astrology: a history, Peter Whitfield](#) , 2001, 0810942356, 9780810942356. This scintillating history traces the key role astrology has played in the mainstream of Western intellectual life for more than two millennia. Peter Whitfield brings together research from ancient, classical, medieval, and modern times -- and then relates astrology to the religion, philosophy, and science of each period. The unique historical manuscripts and works of art that illustrate the text, many drawn from the superb collections of the British Library, show how Western astrology evolved among different cultures and reconciled itself with many different belief systems. This lucid, thoughtful, and stimulating work -- the first serious, comprehensive history of astrology -- gracefully illuminates a significant chapter in the history of ideas.

[Free and equal: a philosophical examination of political values, Richard J. Norman](#) , 1987, 0198275269, 9780198275268.

The concepts of freedom and equality lie at the heart of much contemporary political debate. But how, exactly, are these concepts to be understood? And do they really represent desirable political values? Norman begins from the premise that freedom and equality are rooted in human experience, and thus have a real and objective content. He then argues that the attempt to clarify these concepts is therefore not just a matter of idle philosophical speculation, but also a matter of practical politics, for the philosophical conclusions we reach also have important implications for the day-to-day world of political action. Touching on the work of such influential thinkers as John Stuart Mill, Berlin, Hayek, Nozick, Rawls, and Williams, this book serves as a valuable introduction to the central issues in political philosophy.

[Antarctica: The Blue Continent, David McGonigal, Lynn Woodworth](#) , 2003, 1552977064, 9781552977064. Illustrated guide to Antarctica's environment, geography, wildlife, and history. Antarctica: The Blue Continent is a superbly illustrated and easy-to-understand book that reveals this polar region's ruthless majesty and natural beauty. The environment is Earth's harshest, coldest, most inhospitable climate. A staggering 98% of the continent is covered with ice averaging 1.4 miles in depth; 90% of the world's ice is found in there. In spite of the cold and ice, Antarctica's shores and waters are home to an amazing variety of vegetation and indigenous wildlife-seals, sea lions, whales, penguins and sea birds-that have evolved in extraordinary ways to adapt to their unforgiving habitat. The book features natural phenomena such as a glacier made of jagged, Jurassic-era rock instead of ice, and entire mountain ranges filled to their peaks with snow. In the chapters on polar exploration, Antarctica profiles Captain Cook, Roald Amundsen, Shackleton, Scott, and others. Readers will experience why this continent has inspired so much effort and heroism in the quest to discover its secrets. This book is a concise version of the authors' 608-page Antarctica and the Arctic.

[Larry's Party, Carol Shields](#) , 1998, 0140266771, 9780140266771. The San Diego Tribune called The Stone Diaries a "universal study of what makes women tick." With Larry's Party Carol Shields has done the same for men. Larry Weller, born in 1950, is an ordinary guy made extraordinary by his creator's perception, irony, and tenderness. Larry's Party gives us, as it were, a CAT scan of his life, in episodes between 1977 and 1997, that seamlessly flash backward and forward. We follow this young floral designer through two marriages and divorces, and his interactions with his parents, friends, and a son. Throughout, we witness his deepening passion for garden mazes--so like life, with their teasing treachery and promise of reward. Among all the paradoxes and accidents of his existence, Larry moves through the spontaneity of the seventies, the blind enchantment of the eighties, and the lean, mean nineties, completing at last his quiet, stubborn search for self. Larry's odyssey mirrors the male condition at the end of our century with targeted wit, unerring poignancy, and faultless wisdom.

[This Isn't a Picture I'm Holding: Kuan Yin, Kathy J. Phillips](#) , 2004, 0824827570, 9780824827571. "The bodhisattva Kuan Yin remains one of the most popular figures in Buddhism, loved and worshiped throughout Asia for over a millennium. She arrived in Hawai'i with the first Chinese plantation workers, each of whom would have kept a ricepaper print of her over a small altar in his room. Since then, her presence has grown in the Islands. In Chinese, Japanese, and Korean temples in downtown Honolulu and Palolo Valley, she towers over worshipers and their gifts of oranges. Her image, reproduced by the dozen, crowds Thai and Vietnamese shops." "In this book, Kathy Phillips and Joseph Singer celebrate Kuan Yin's many incarnations in words and images that exhibit humor, poignancy, and the open-endedness of a koan. An introduction examines Kuan Yin and her place in religion, legend, art, changing social prescriptions for gender, and the everyday lives of Hawai'i's people for more than a century."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. [Alabama Moon, Watt Key](#) , 2006, 0374301840, 9780374301842. I could trap my own food and make my own clothes. I could find my way by the stars and make fire in the rain. Pap said he even figured I could whip somebody three times my size. He wasn't worried about me. For as long as ten-year-old Moon can remember, he has lived out in the forest in a shelter with his father. They keep to themselves, their only contact with other human beings an occasional trip to the nearest general store. When Moon's father dies, Moon follows his father's last instructions: to travel to Alaska to find others like themselves. But Moon is soon caught and entangled in a world he doesn't know or understand, apparent property of the government he has been avoiding all his life. As the spirited and resourceful Moon encounters constables, jails, institutions, lawyers, true friends, and true enemies, he adapts his wilderness survival skills and learns to survive in the outside world, and even, perhaps, make his home there. In this compelling, action-packed book, Watt Key gives us the thrilling coming-of-age story of the unique and extremely appealing Moon. Alabama Moon is a 2007 Bank Street - Best Children's Book of the Year.

[Images of Youth: Age, Class, and the Male Youth Problem, 1880-1920, Harry Hendrick](#) , 1990, 019821782X, 9780198217824. This is a study of the debate on male youth in the period 1880-1920. During these years, male working-class youth was regarded as posing a serious problem, not only economically, but also morally and socially. Harry Hendrick investigates the 'making' of this problem, examining attitudes towards youth and its behaviour, contemporary perceptions of 'boy labour', and the 'discovery' of the working-class adolescent. He goes on to consider the attempts to solve the problem and create adaptable and efficient citizens, by measures including philanthropy (the youth movement), collectivism (a juvenile labour exchange and vocational guide system), and further education (part-time day continuation schools). Images of Youth demonstrates the significance, long underestimated, of the male adolescent in British society in the late nineteenth and early twentieth century. Dr Hendrick's carefully researched and thorough study illuminates such major issues as poverty, unemployment, race, class conflict, industrial unrest, and the nature of democracy. Drawing in a further dimension, he charts the development of child and adolescent psychology and its contribution to the definition and perpetuation of the youth problem. He argues that the images of youth forged in this period had important and far-reaching consequences for age and class relations. Today the study of youth is of major importance; this book provides us with a comprehensive picture of its beginnings.

A todo lo anterior debe sumarse el hecho de que, el lector de estas pginas, podr estudiar los anlisis que se hacen antes, durante y despus de cada seccin, lo cual beneficia el entendimiento de esta cultura y la riqueza de su literatura ms significativa.

[Before the Wedding: Look Before You Leap, Michael E. Cavanagh](#) , 1994, 0664254403, 9780664254407. Couples often spend more time preparing for the one-day event of their wedding than they do for the actual marriage, which is a life-long event. Michael Cavanagh asserts that simply dating and courting, even living together, do not constitute preparation for marriage. Cavanagh points out important areas of study in preparing for marriage. He begins with the phrase "look before you leap," which he then analyzes, giving to each word an important, distinct meaning related to the partners, their relationship, and the institution of marriage. He bases his book on six assumptions: a fulfilling marriage requires both partners to understand themselves, each other, their relationship, and the nature of marriage; marriage requires the couple to have the skills to relate to each other; the goal of marriage is the psychological, social, and spiritual growth of the couple - happiness and sadness are by-products; preparing for marriage can be both fun and painful; a couple who takes marriage preparation seriously can accomplish much before marriage; and there is a correlation between being a fulfilled spouse and a fulfilling parent. Cavanagh provides real-life examples to illustrate each theoretical point. Discussion questions are also included at the end of each chapter. Cavanagh presents the reader with a way of building a solid foundation for a lifelong commitment.

[The Illustrated Handbook of Furniture Restoration, George Buchanan](#) , 1995, 071347887X, 9780713478877. This is a fully illustrated guide to furniture repair and restoration. All woodworking techniques likely to be needed are explained in detail and related to different styles of furniture. These techniques range from making varying types of joint, to glueing and fastening, carving, replacing veneer, woodturning and steaming wood to shape. There are also chapters on finishing, including preparation of wood and methods of applying the finishes.

[Mineral Commodity Summaries 2005,](#) , 2005, 0160732506, 9780160732508. Provides information on the domestic mining industry structure, government programs, tariffs, and 5-year salient statistics for over 90 individual minerals and materials

[The Human Situation, W. Macneile Dixon](#) , 2008, 1443772747, 9781443772747. Originally published in the late 1930's, 'The Human Situation'; was written by W. Macneile Dixon, a great philosopher in his time. The book comprises the Gifford Lectures delivered at the University of Glasgow between 1935 and 1937, and will prove a fascinating read for anyone with an interest in philosophy. Introduction: The most singular and deepest themes in the History of the Universe and Mankind, to which all the rest are subordinate, are those in which there is a conflict between Belief and Unbelief, and all epochs, wherein Belief prevails, under, what form it will, are splendid, heart-elevating and fruitful...

[High-Yield Bond Funds, Marvin Appel](#) , 2010, 0132101890, 9780132101899. This is the eBook version of the printed book. This Element is an excerpt from Higher Returns from Safe Investments: Using Bonds, Stocks, and Options to Generate Lifetime Income (9780137003358) by Marvin Appel. Available in print and digital formats. When it might make sense to invest in high-yield junk bonds and when you absolutely must stay away. Wouldn't it be great to get 8% per year or more in interest income from a bond mutual fund? This is not idle fantasy when the average investment-grade bond is paying just 4%. You can get very juicy yields if you are willing to bear the credit risk of high-yield junk bonds. In this chapter, you learn how to recognize propitious times to reach for their yield, and when to stay away.

[Columbia Common Sentence Structure Mistakes at Gmat, Richard Lee Ph. D.](#) , 2012, 0988019116, 9780988019119.

Columbia Common Sentence Structure Mistakes at GMAT is compiled to help you learn the absolutely essential grammar testing points and avoid the most common mistakes at GMAT to raise your score! It has twenty lessons with each one having the following outstanding features: 1. ERROR EXAMPLES: show you what kinds of mistakes most often made at GMAT and how to correct them; 2. GRAMMAR GUIDES: teach you the grammar rules absolutely essential to raise your GMAT score; 3. PRACTICE TESTS: Use sample Sentence Correction and Sentence Completion questions to test your grammar power and readiness for the real GMAT; 4. ANSWER KEYS: provide answers and explanations to help you avoid the mistakes forever to score higher on the GMAT! Columbia Common Sentence Structure Mistakes at GMAT is your grammar Bible! With the help of our fun and effective way to learn all the essential grammar testing points, you will be able to score higher on the GMAT guaranteed!

[Crime & Politics: Big Government's Erratic Campaign for Law and Order, Ted Gest](#) , 2001, 0195103432, 9780195103434.

Why has America experienced an explosion in crime rates since 1960? Why has the crime rate dropped in recent years? Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short-term political gain, these questions remain among the most important-and most difficult to answer-in America today. In Crime & Politics, award-winning journalist Ted Gest gives readers the inside story of how crime policy is formulated inside the Washington beltway and state capitols, why we've had cycle after cycle of ineffective federal legislation, and where promising reforms might lead us in the future. Gest examines how politicians first made crime a national rather than a local issue, beginning with Lyndon Johnson's crime commission and the landmark anti-crime law of 1968 and continuing right up to such present-day measures as "three strikes" laws, mandatory sentencing, and community policing. Gest exposes a lack of consistent leadership, backroom partisan politics, and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe. But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick-fix solutions. Drawing on extensive research and including interviews with Edwin Meese, Janet Reno, Joseph Biden, Ted Kennedy, and William Webster, Crime & Politics uncovers the real reasons

why America continues to struggle with the crime problem and shows how we do a better job in the future.

[Punitive Damage, Chester Oksner](#) , 1988, 0944276210, 9780944276211. After litigator MacDonald Oliver wins a three-billion-dollar settlement from TOPCO for an inventor who was cheated out of a lucrative patent, Radcliffe, the TOPCO corporation chief, sets out to destroy him, but Mac devises an ingenious retaliation.

[Arena One: Slaverunners \(Book #1 of the Survival Trilogy\), Morgan Rice](#) , 2012, 0984975314, 9780984975310. I will admit, before ARENA ONE, I had never read anything post-apocalyptic before. I never thought it would be something I would enjoy. Well, I was very pleasantly surprised at how addicting this book was. ARENA ONE was one of those books that you read late into the night until your eyes start to cross because you don't want to put it down. It is no secret that I love strong heroines in the books I read. Brooke was tough, strong, un-relentless, and while there is romance in the book, Brooke wasn't ruled by that....I would highly recommend ARENA ONE."--Dallas Examiner The #1 Bestselling series! ARENA ONE is the first book in a new trilogy of dystopian fiction. New York. 2120. American has been decimated, wiped out from the second Civil War. In this post-apocalyptic world, survivors are far and few between. And most of those who do survive are members of the violent gangs, predators who live in the big cities. They patrol the countryside looking for slaves, for fresh victims to bring back into the city for their favorite death sport: Arena One. The death stadium where opponents are made to fight to the death, in the most barbaric of ways. There is only one rule to the arena: no one survives. Ever. Deep in the wilderness, high up in the Catskill Mountains, 17 year old Brooke Moore manages to survive, hiding out with her younger sister, Bree. They are careful to avoid the gangs of slaverunners who patrol the countryside. But one day, Brooke is not as careful as she can be, and Bree is captured. The slaverunners take her away, heading to the city, and to what will be a certain death. Brooke, a Marine's daughter, was raised to be tough, to never back down from a fight. When her sister is taken, Brooke mobilizes, uses everything at her disposal to chase down the slaverunners and get her sister back. Along the way she runs into Ben, 17, another survivor like her, whose brother was taken. Together, they team up on their rescue mission. What follows is a post-apocalyptic, action-packed thriller, as the two of them pursue the slaverunners on the most dangerous ride of their lives, following them deep into the heart of New York. Along the way, if they are to survive, they will have to make some of the hardest choices and sacrifices of their lives,

encountering obstacles neither of them had expected including their unexpected feelings for each other. Will they rescue their siblings? Will they make it back? And will they, themselves, have to fight in the arena? ARENA ONE is Book #1 in the Survival Trilogy, and is 85,000 words. Book #2 in the series, ARENA TWO, is now also available! Grabbed my attention from the beginning and did not let go. This story is an amazing adventure that is fast paced and action packed from the very beginning. There is not a dull moment to be found. --Paranormal Romance Guild {regarding Turned} A great plot, and this especially was the kind of book you will have trouble putting down at night. The ending was a cliffhanger that was so spectacular that you will immediately want to buy the next book, just to see what happens. --The Dallas Examiner {regarding Loved} Morgan Rice proves herself again to be an extremely talented storyteller. This would appeal to a wide range of audiences, including younger fans of the vampire/fantasy genre. It ended with an unexpected cliffhanger that leaves you shocked. --The Romance Reviews {regarding Loved}

[Bruculinu, America: Remembrances of Sicilian-American Brooklyn, Told in Stories and Recipes, Vincent Schiavelli](#) , 1998, 0395913748, 9780395913741. "In the early 1950s, Bruculinu, as the Sicilian immigrants called their Brooklyn neighborhood, was a remarkable place. If the weather was fair, the streets would be teeming with life. Women would be haggling with pushcart vendors in Sicilian and broken English over pieces of fruits and vegetables. Other vendors in horse-drawn wagons would be chanting their wares amid the song of the ragman's bell and the iceman's bellow. Growing up in this place was like having one foot in mid-twentieth-century United States and the other in mid-eighteenth-century Sicily." So begins Vincent Schiavelli's captivating story of coming of age in the Italian section of Brooklyn. In a series of witty vignettes, Schiavelli describes the social customs and secret recipes he learned from his grandfather, a Sicilian master chef, as well as the tenements, gangs, dances, holiday celebrations, and funerals that defined the culture of the neighborhood.

[Guide to the National Electrical Code 2011 Edition, Thomas L. Harman](#) , 2011, 013212162X, 9780132121620. GUIDE TO THE NATIONAL ELECTRICAL CODE 2011 EDITION is the ideal comprehensive self-study or course guide for the entire 2011 NEC (National Electrical Code). Dr. Thomas Harman explains the code in detail, with references to the specific NEC

articles that apply to each discussion, example, or problem. All NEC rules are summarized in tables for easy reference, and Harman provides dozens of worked example calculations. For ease of use, the Guide divides the NEC rules into those for wiring design and for practical installations; the book also reviews general electrical theory. Each chapter contains quizzes and an examination with answers. Three realistic sample final examinations are also provided.

[Ministry of Defence: providing anti-air warfare capability : the type 45 destroyer : report, Great Britain. National Audit Office](#) , 2009, 0102954682, 9780102954685. The project to replace the UK's ageing Anti Air Warfare capability, which is currently provided by the Type 42 destroyer, has suffered significant delays of over two years and costs have escalated to some 6.5 billion, up by nearly 30 per cent from initial estimates of 5 billion. The problems arose because of over-optimism about what could be achieved, inappropriate commercial arrangements and, in the early stages, poor project management. The MOD has taken action to resolve these problems and in 2007 reviewed and renegotiated the ship contract with BAE Systems (now merged with VT to become BVT). Since then, there have been no further cost increases or delays to the project. The MOD has extended the service life of the older Type 42s because of the delay in bringing the Type 45 destroyers into use. The Type 45 destroyers will provide much more capability than the Type 42s. In addition to being able to engage multiple hostile aircraft or missiles simultaneously, they will have better accommodation for personnel, more fuel efficient engines and be able to operate the Lynx, Merlin and Chinook helicopters. The Type 45 destroyers will be equipped with the new Principal Anti Air Missile System (PAAMS). More recently, the project has progressed well, with key milestones, such as completion of sea trials, being met.

[Readings in Greek history: sources and interpretations, D. Brendan Nagle, Stanley Mayer Burstein](#) , 2007, 0195178254, 9780195178258. An ideal reader for courses in Greek history, Greek civilization, and Western civilization, this comprehensive collection of more than 180 historical source documents covers major aspects of Greek civilization from the Archaic Age through the end of the Hellenistic Period. Featuring a diverse and extensive array of selections from the works of major authors, *Readings in Greek History: Sources and Interpretations* offers balanced coverage of political, social, cultural, intellectual, economic, and technological developments in Greek life. It provides selections drawn from historical, philosophical, and oratorical Greek literary texts and from documentary sources, including inscriptions and papyri. Many of the readings have been newly translated especially for this volume. *Readings in Greek History: Sources and Interpretations* is organized chronologically but also addresses various themes throughout--including religion, war, and gender relations--motivating students to explore essential historical topics from a variety of perspectives. Substantial introductions to each chapter and selection offer useful background information, while more than thirty photographs, images, and maps further illustrate key components of Greek culture.

[All Those Yesterdays, Elspeth Biss](#) , 2009, 095829884X, 9780958298841. This is a story many New Zealand women -

particularly those who grew up in the country - will identify with. Elspeth Biss was brought up on Hawke's Bay farms in the 1940s; attended boarding school in the 1950s; trained as a nurse, married, and brought up a family in the 1960s and 70s on farms in the Wairarapa. As she writes: "The 1960s may well have been 'the Dawning of the Age of Aquarius', as the popular song had it, with the Beatles, Mary Quant and the mini-skirt, but for me and most of my friends it was a decade of child raising, washing nappies, Plunket and kindergartens." In her absorbing memoir, Elspeth Biss evokes the way things were during 'all those yesterdays'. She is fiercely proud of her Scottish heritage, going 'home' for the first time in 1946. Passionate about horses and hunting, she is also always looking for a new challenge - 'retirement' is an opportunity to sell cosmetics and learn to kayak at an age when most prefer sedentary pursuits. All Those Yesterdays celebrates a life well lived away from the headlines and the city lights.
