[Only You, Deborah Grace Staley](#) , 2004, 1935661396, 9781935661399. A charming romance about the lives and loves of people in a small Tennessee town. In the tradition of Debbie Macomber. "Hey, ya'll. Dixie Ferguson here. I run Ferguson's Diner in Angel Ridge, Tennessee. Population three hundred forty-five. It's a picturesque town in the valley of the Little Tennessee River, established in 1785. In the early days, its first families--the McKays, the Wallaces, the Houstons, the Joneses, and, of course, the Craigs--staked their claims on hundreds of acres of the richest bottom land anyone had ever seen. After all the years I've spent behind the counter at Ferguson's, I could probably tell ya'll a story about near everyone in town. But we only have so much time, so I'll narrow it down to just two for now. This is a story about coming home. It's also a story about acceptin' folks for who they are. You could say it's a story about Josie Allen, a librarian, and Cole Craig, a handyman, but I say it's a story about finding love where you'd least expect to."

[Canadian Cities/Making Sense of Cities, Oxford University Press](#) , 2002, .

[Desserts to Die for, Marcel Desaulniers](#) , 1995, 0684811391, 9780684811390. This is a book full of chocolate, mocha and pecans, gourmand sundaes and gourmet sorbets. The recipes range from the deliciously complex and ornate, like the Chocolate Voodoo Cake, to triumphantly reinvented, no-longer-ordinary old favorites such as fruit cake, jelly rolls, and sticky buns. With his foolproof instructions, Desaulniers takes the home cook by the hand and, in step-by-step detail, shows how even the most extravagant of these desserts can easily be made at home.

[Partial Evaluation and Automatic Program Generation, Neil D. Jones, Carsten K. Gomard, Peter Sestoft](#) , 1993,

0130202495, 9780130202499. Partial evaluation reconciles generality with efficiency by providing automatic specialization and optimization of programs. Proceeding from a gentle introduction for reaching state-of-the-art techniques, this book covers the entire field of partial evaluation. It provides simple and complete algorithms and demonstrates, via examples, that specialization can increase efficiency considerably.

[L' Isola Delle Lacrime, Giulia Poli Disanto](#) , 2012, 0982537352, 9780982537350. Il cuore sincero del poeta ha abbracciato questo momento critico della storia moderna e l'ha fatto suo. Il suo amore per la "Big Apple" e tutto ci che rappresenta questa magica citt, che risorta dalle ceneri come la mitica Fenice, reale, quasi tangibile... Questa raccolta di versi

costituisce, quindi, un'ode profonda e appassionata che far conoscere Giulia Poli Disanto al pubblico americano...

----- The true heart of the poet has embraced this critical and historical moment and made it her own. Her love for the Big Apple and everything it stands for, this magic city that resurrected from the ashes as the mythic Phoenix, is real, almost tangible... This collection of poems is therefore a sound and profound work that introduces Giulia Poli Disanto to the American public...

[The Differences of the Imams, Muammad Zakariyy](#) , 2004, 0972835822, 9780972835824. Translated by Mawlana Muhammad Kadwa If the Imams of the four schools [madhahib] established all of their rulings from the Quran and the Sunna, why have they differed on so many points? How can two authentic narrations from the Messenger of Allah appear to contradict one another? When is it acceptable for Muslims to differ over religious matters? What did the Messenger mean when he said, The differences of my Umma are a source of mercy? Using examples from the Messenger of Allah , his Companions, and their Followers, The Differences of the Imams answers these puzzling questions in a thorough and concise manner. In a clear and lucid style, the author illustrates the various ways in which different narrations seem to contradict one another and how the Companions and the Imams of jurisprudence have reconciled these apparent differences. This work is an excellent resource for anyone seeking to better understand some of the deeper issues of hadith and jurisprudence: how these two disciplines come together to form the basis of Islamic law [Shari'a], why it is

necessary to follow a school of Islamic law, and what the basic principles of hadith scholarship are. Praise of the Author from Distinguished Scholars Shaykh and honorable Imam; jurist and noble scholar of hadith; fragrant flower of India and Arabia; master of spiritual realities [haqiqa] and allusions [majaz]; our leader and our blessing (from Allah). Shaykh 'Abd al-Fattah Abu Ghudda, Halab, Syria It is evident to one who takes a look at his works that he had a brilliancy, both in knowledge and with the pen, like that of Ibn al-Jawzi and Imam Ghazali. Of the scholars of his era, I know of no one comparable to him in this regard, except Imam 'Abd al-Hayy al-Farangi Mahalli (of Lucknow). Sa'id Ahmad Akbarabadi, Aligarh, India Morally outstanding, hadith scholar, remnant of the predecessors and splendor of the successors, blessed Imam, caller to Allah, my master and my teacher: Shaykh Muhammad Zakariyya. [Saplings, Noel Streatfeild](#) , 2009, 1906462089, 9781906462086. Noel Streatfeild is best known as a writer for children, but had not thought of writing for them until persuaded to re-work her first novel as Ballet Shoes; this had sold ten million copies by the time of her death. Saplings (1945), her tenth book for adults, is also about children: a family with four of them, to whom we are first introduced in all their secure Englishness in the summer of 1939. 'Her purpose is to take a happy, successful, middle-class pre-war family - and then track in miserable detail the disintegration and devastation which war brought to tens of thousands of such families,' writes the psychiatrist Dr Jeremy Holmes in his

Afterword. Her 'supreme gift was her ability to see the world from a child's perspective' and 'she shows that children can remain serene in the midst of terrible events as long as they are handled with love and openness.' She understood that 'the psychological consequences of separating children from their parents was glossed over in the rush to ensure their physical survival... It is fascinating to watch Streatfeild casually and intuitively anticipate many of the findings of developmental psychology over the past fifty years.' 'A study of the disintegration of a middle-class family during the turmoil of the Second World War, and quite shocking' wrote Sarah Waters in the Guardian.

[Teaching Students Who Are Exceptional Myeducationlab With Pearson Etext Standalone Access Card, Sharon R. Vaughn, Candace S. Bos, Jeanne Shay S. Schumm](#) , 2010, 0132477157, 9780132477154. MyEducationLab with Pearson eText Student Access Code Card for Teaching Students Who Are Exceptional, 5/e by Vaughan/Bos/Schumm Based on the belief that even small accommodations make a difference in the success of students with disabilities, this text provides classroom teachers with the knowledge, tools, and practical strategies that will empower them to spark learning in every student. From students with disabilities, culturally diverse students and students with limited English proficiency to economically disadvantaged students, the authors provide teachers with the tools they need in their diverse classrooms. Revised to reflect recent changes in the law and current terminology, the strength of the book continues to be its

numerous learning activities and sample lessons addressing both elementary and secondary classrooms. This edition continues its very popular multi- chapter unit on curriculum adaptations with specific strategies and activities for teaching reading, writing, mathematics, content areas, and study skills. The strong emphasis on teaching secondary learners, professional planning and collaboration make this an excellent resource for all teachers.

[The World of Blandings: \(Blandings Castle\), P.G. Wodehouse](#) , 2012, 1448164761, 9781448164769. Blandings is now a major BBC One show starring Jennifer Saunders and Timothy Spall. In this wonderfully fat omnibus, which seems to span the dimensions of the Empress of Blandings herself (the fattest pig in Shropshire and surely all England), the whole world of Blandings Castle is spread out for our delectation: the engagingly dotty Lord Emsworth and his enterprising brother Galahad, his terrifying sister Lady Constance, Beach the butler (his voice 'like tawny port made audible'), James Wellbeloved, the gifted but not always sober pigman, and Lord Emsworth's secretary the Efficient Baxter, with gleaming spectacles, whose attempts to bring order to the Castle always end in disarray. Lurking in the wings is Sir Gregory Parsloe-Parsloe of Matchingam Hall, the neighbour with designs on the Prize which must surely belong to the Empress. As Evelyn Waugh wrote, 'The gardens of Blandings Castle are that original garden from which we are all exiled.' This omnibus contains Something Fresh, Summer Lightning and three short stories.

[Lady Chatterley's Lover: Penguin Merchandise Books, D. H. Lawrence](#) , 2012, 0141389966, 9780141389967. "Lady Chatterley's Lover" is both one of the most beautiful and notorious love stories in modern fiction. The summation of D.H. Lawrence's artistic achievement, it sharply illustrates his belief that tenderness and passion were the only weapons that could save man from self-destruction.

[The Catch, Tom Bale](#) , 2013, 1848093268, 9781848093263. How far do you go for a friendship? That's the question Daniel Wade is forced to ask when a simple favour has fatal consequences. For the sake of his old schoolmate, Robbie - and more importantly for Robbie's sister, Cate - Dan agrees to go along with a lie. But soon he's sucked into a conspiracy

that threatens to consume them all. How hard do you fight for a fortune? For Gordon and Patricia Blake, the dead man held the key to a glorious future. Now that future has been ripped from their grasp, and the Blakes want to know why. Then they want revenge. How can you hope to survive? With a ruthless predator on their trail, Dan realises that evading justice is the least of their worries. All that matters now is staying alive.

[Managing Pension Plans: A Comprehensive Guide to Improving Plan Performance, Dennis E. Logue](#) , 1998, 0875847919, 9780875847917. Pension funds are big business. They are important to employers, employees, governments, and society at large. With the increasing concern over dwindling retirement benefits and the effect on public awareness of recent pension fund crises, managing pension plans has never been more critical--and the pressure on those who are responsible for them has only intensified. Destined to become the classic resource on pension plan management, *Managing Pension Plans* explains everything you need to know for successful management of any pension plan--from how pension plans help sponsors manage their workforces to the latest in investment and risk management. With concise and practical guidance on ways for achieving optimal finance performance, *Managing Pensions Plans* is an indispensable resource for pension fund trustees, boards of directors, managers, and administrators of both public and private pension plans as well as for the money management firms, consultants, actuaries, and accountants who serve the pension fund industry. Logue and Rader, two of the world's leading experts on the subject, explain all the financial, legal, economic, accounting, and managerial issues that those who make pension fund decisions must juggle--in language that non-financial managers can understand, yet with sufficient depth to be useful to financial managers as well. The authors synthesize the latest in capital market and financial economics research to help those involved in pension management improve their decision-making in all the critical areas, including: choosing the optimal form of pension plan, formulating and implementing the plan's investment strategy, selecting and monitoring pension plan managers, measuring the plan's performance, and managing financial risk. In addition, the book describes in detail the responsibilities of fiduciaries, revealing how to be both a prudent fiduciary and a capable decision maker. Additionally, *Managing Pension Plans* offers candid advice on how pension managers can improve fund performance by being more effective shareholders. As pension fund management and performance increasingly affect the success of organizations as a whole, this book will be indispensable to anyone--from fund analysts to board members--who influences pension fund decisions.

[Re-thinking Australian Politics: Engaging the Disenchanted : 13th Annual Hawke Lecture, Geoff Gallop](#) , 2010, 0980628121, 9780980628128. Rarely is there commentary these days without some reference to the disenchantment of the voting public, not just about the way politics is conducted but also about the outcomes from the process, particularly as they relate to long-term challenges. The lecture will examine the various interpretations of this disenchantment and the different solutions that have been proposed to address the issue, ranging from constitutional reform to public sector reform to parliamentary reform to electoral reform to party political reform. The question will be posed - is this an issue

requiring system change or is it one that goes to the heart of our political culture and the way it has developed in recent years?

[The Black Lights: Inside the World of Professional Boxing, Thomas Hauser](#) , 2000, 1557285977, 9781557285973.

Originally published in 1986 (McGraw-Hill), *The Black Lights* was the first book that fully explored the sport and business of professional boxing. Upon joining the training camp of superlightweight Billy Costello, Thomas Hauser was given unprecedented access to the fighter, his manager, and trainer as well as to the real heavyweights of the boxing world, promoter Don King, and World Boxing Council president Jose Sulaiman. The result, according to *Playboy* in their review of the original, is a book that "explains why fighters fight, what they go through to win, and how they feel when they lose. It is a great book." In this gracefully written, fast-paced narrative, the author slips quietly into the background and gives us a firsthand look at a business that is often cruel and exploitative and a sport that is at once violent and beautiful. As the *San Francisco Chronicle* points out, *The Black Lights* provides ammunition for both sides in the debate over boxing: "Hauser has written what is clearly the most complete and fairminded work on the subject to date." In an age when the controversy surrounding the evils and merits of boxing still rages, this classic account is more timely than ever.

[Minds and Gods: The Cognitive Foundations of Religion, Todd Tremlin](#) , 2010, 0198041551, 9780198041559. Around the world and throughout history, in cultures as diverse as ancient Mesopotamia and modern America, human beings have been compelled by belief in gods and developed complex religions around them. But why? What makes belief in supernatural beings so widespread? And why are the gods of so many different people so similar in nature? This provocative book explains the origins and persistence of religious ideas by looking through the lens of science at the common structures and functions of human thought. The first general introduction to the "cognitive science of religion," Minds and Gods presents the major themes, theories, and thinkers involved in this revolutionary new approach to human religiosity. Arguing that we cannot understand what we think until we first understand how we think, the book sets out to study the evolutionary forces that modeled the modern human mind and continue to shape our ideas and actions today. Todd Tremlin details many of the adapted features of the brain -- illustrating their operation with examples of everyday human behavior -- and shows how mental endowments inherited from our ancestral past lead many people to naturally entertain religious ideas. In short, belief in gods and the social formation of religion have their genesis in biology, in powerful cognitive processes that all humans share. In the course of illuminating the nature of religion, this book also sheds light on human nature: why we think we do the things we do and how the reasons for these things are so often hidden from view. This discussion ranges broadly across recent scientific findings in areas such as paleoanthropology,

primate studies, evolutionary psychology, early brain development, and cultural transmission. While these subjects are complex, the story is told here in a conversational style that is engaging, jargon free, and accessible to all readers. With *Minds and Gods*, Tremlin offers a roadmap to a fascinating and growing field of study, one that is sure to generate interest and debate and provide readers with a better understanding of themselves and their beliefs.

[Computer, Paul Atkinson](#) , 2010, 1861896646, 9781861896643. The pixelated rectangle we spend most of our day staring at in silence is not the television as many long feared, but the computer—the ubiquitous portal of work and personal lives. At this point, the computer is almost so common we don't notice it in our view. It's difficult to envision that not that long ago it was a gigantic, room-sized structure only to be accessed by a few inspiring as much awe and respect as fear and mystery. Now that the machine has decreased in size and increased in popular use, the computer has become a prosaic appliance, little more noted than a toaster. These dramatic changes, from the daunting to the ordinary, are captured in *Computer* by design historian Paul Atkinson. Here, Atkinson chronicles the changes in physical design of the computer and shows how these changes in design are related to changes in popular attitude. Atkinson is fascinated by how the computer has been represented and promoted in advertising. For example, in contrast to ads from the 1970s and 80s, today's PC is very PC—genderless, and largely status free. *Computer* also considers the role of the computer as a cultural touchstone, as evidenced by its regular appearance in popular culture, including the iconography of the space age, HAL from *2001: A Space Odyssey*, James Bond's gadgetry, and *Star Wars* and *Star Trek*. *Computer* covers many issues ignored by other histories of computing, which have focused on technology and the economics involved in their production, but rarely on the role of fashion in the physical design and promotion of computers and their general reception. The book will appeal to professionals and students of design and technology as well as those interested in the history of computers and how they have shaped and been shaped by our lives.

[Angel Capers 'Ella' Book Four, , Liza Jankowski](#) , 2012, 0987382330, 9780987382337. "Have you ever wondered if angels are real? Juliette did until the night an angel visited her... *Angel capers* is a series of books which sees angels and children working together. In book four of the series, Juliette and angel Ella team up to help a girl who is being teased at school."--Back cover.

[Integrated Advertising, Promotion, and Marketing Communications, Kenneth E. Clow, Donald Baack](#) , 2010, 0138157375, 9780138157371. For undergraduate Advertising and Integrated Marketing Communication courses. This title is a Pearson Global Edition. The Editorial team at Pearson has worked closely with educators around the world to include content which is especially relevant to students outside the United States. Clow and Baack examine advertising and promotions through the lens of integrated marketing communications. The carefully integrated approach of this text blends

advertising, promotions and marketing communications together, providing students with the information they need to understand the process and benefits of successful IMC campaigns. In addition to enhancing the over-all visual appeal, the fourth edition of this text has updated and revised the material to include the cutting-edge topics of the industry.

[Delia's Heart, V.C. Andrews](#) , 2008, 1416594086, 9781416594086. TORN BETWEEN TWO WORLDS... Atrapada entre dos mundos Delia Yebarra survived a treacherous desert crossing to protect her friend Ignacio from murder charges. Now, the time has come once again to leave her tiny Mexican hometown: Delia's cousin Edward convinces her to return to his world of wealth and privilege in Palm Springs, and soon Delia, a beautiful and popular senior at an exclusive private school, is living the American dream. But Delia will quickly discover that high society has a very dark underside. A STRANGER IN BOTH OF THEM... Extranjera en cualquiera de los dos Delia's malicious cousin Sophia is sparking horrific

rumors with Delia at their center. Racing to do damage control, Delia's mortified aunt Isabela introduces her troublesome niece to the handsome son of a wealthy Mexican American politician. An attraction sparks and a whirlwind romance begins...but Delia's heart won't let her forget her humble roots -- or Ignacio. And when tragedy tears her world apart, will it be too late to save the one she cares about the most?

[AM - PM, Amelia Gray](#) , 2009, 0977199274, 9780977199273. If anything's going to save the characters in Amelia Gray's debut from their troubled romances, their social improprieties, or their hands turning into claws, it's a John Mayer concert tee. In AM/PM, impish humor and cutting insight are on full display. Readers tour the lives of 23 characters across 120 stories full of lizard tails, Schrdinger boxes, and volcano love. June wakes up one morning covered in seeds; Leonard falls in love with a chaise lounge; Betty insists everything except flowers are a symbol of her love for her husband; Andrew talks to his house in times of crisis. Written every morning and night for two months, these brief vignettes (50 to 100 words) recall Donald Barthelme in their whimsy and subtle yet powerful emotions. An intermittent love story as seen through a darkly comic lens, AM/PM mixes poetry and prose, humor and hubris to create a truly original work of fiction.

[Re-writing Freud, Volume 4, Simon Morris, Christine Morris](#) , 2005, 0953676587, 9780953676583. Poetry. In this new work, RE-WRITING FREUD the artist Simon Morris has re-written Sigmund Freud's The Interpretation of Dreams. A computer program randomly selects words, one at a time from Freud's 223,704 word text and begins to reconstruct the entire book, word by word, making a new book with the same words. A virus or process of contagion has been at work, intervening in Freud's The Interpretation of Dreams, rupturing it and returning it to us in a new order. By subjecting Freud's words to a random re-distribution, meaning is turned into non-meaning and the spectator is put to work to make sense of the new poetic juxtapositions. With a scrupulous formalism, Morris' version of Freud's text follows the conventions of typographic layout found in the 1976 Penguin edition of Freud's work. The publication is edited by Craig

Dworkin, Associate Professor in the Department of English at the University of Utah.

[The Night Bookmobile, Audrey Niffenegger](#) , 2010, 0810996170, 9780810996175. Audrey Niffenegger, the New York Times bestselling author of *The Time Traveler's Wife* and *Her Fearful Symmetry*, has crafted her first graphic novel after the success of her two critically acclaimed novels-in-pictures. First serialized as a weekly column in the UK's Guardian newspaper, *The Night Bookmobile* tells the story of a wistful woman who one night encounters a mysterious disappearing library on wheels that contains every book she has ever read. Seeing her history and most intimate self in this library, she embarks on a search for the bookmobile. But her search turns into an obsession, as she longs to be reunited with her own collection and memories. *The Night Bookmobile* is a haunting tale of both transcendence and the passion for books, and features the evocative full-color pen-and-ink work of one of the world's most beloved storytellers.

[Sophie's Box, John Prater](#) , 1996, 052147616X, 9780521476164. Cambridge Reading is a reading scheme providing stimulating books and support materials for the teaching of reading throughout the primary years. Key features include: a coherent yet flexible structure for teaching and learning; a variety of attractive picture books; a balance of text types and genres, including stories, poems and information books; an integrated phonics programme; and comprehensive support materials. *Sophie's Box* is one of the books in the *Becoming a Reader* stage of Cambridge Reading. It forms part of a set of nine books in the Fantasy strand written and illustrated by John Prater. Each story features a child who finds a large box. When the box is opened a fantasy character emerges and the child and the character have an adventure together, always with an amusing twist.

[Oxford Reading Tree: KS1: New Robins: KS1: New Robins Workbook 3 Pack \(30 Books\), Roderick Hunt](#) , 2005, 0198456417, 9780198456414. [Learning Node, Shelley Powers](#) , 2012, 1449326153, 9781449326159. Take your web development skills from browser to server with Node and learn how to write fast, highly scalable network applications on this JavaScript-based platform. With this hands-on guide, you'll quickly master Node's core fundamentals, gain experience with several built-in and contributed modules, and learn the differences and parallels between client- and server-side programming. Get up to speed on Node's event-driven, asynchronous I/O model for developing data-intensive applications that are frequently accessed but computationally simple. If you're comfortable working with JavaScript, this book provides numerous programming and deployment examples to help you take advantage of server-side development with Node. Explore Node's unique approach to asynchronous development. Build sample Node applications with the Express framework and Connect middleware. Use

NoSQL solutions such as Redis and MongoDB and explore Node's relational database modules. Work with PDF files, serve HTML5 media, and create graphics with Canvas. Set up bidirectional communication between browser and server with WebSockets. Learn in-depth practices for debugging and testing your applications. Deploy Node applications in the cloud or on your own system. Learning Node will make it easy for someone from any programming background to get a grip on Node.js and build amazing projects." [Sister CEO: The Black Woman's Guide to Starting Your Own Business, Cheryl D. Broussard](#) , 1997, 0140253025, 9780140253023. In her bestselling book, The Black Woman's Guide to Financial Independence, Cheryl Broussard gave African American women a much-needed lesson in taking control of their own lives through controlling their money. Now she takes you one step further in this idea-packed, can-do introduction to entrepreneurship. Balancing practical instruction with dozens of real-life stories, Sister CEO shows you how to take control of your destiny by being in command of the work you do. Broussard's advice is tried and true, and, judging from her own success as a self-employed businesswoman, invaluable. She arms the would-be entrepreneur with everything she'll need to think about and plan for, and covers all the basics -- from finding the right niche and overcoming emotional barriers, to raising start-up funds, handling publicity, and learning salesmanship. Most of all she shows you how to use the talents and knowledge you

already possess to turn your business dream into a reality.

[Viscera: An Anthology of Bizarre Erotica, Cara Bruce](#) , 2000, 0967363802, 9780967363806. This shocking collection of erotica from new publisher Venus or Vixen focuses on pleasure mixed with pain plus a smattering of fear, grief and shame just for good measure. There are stories that are hot and horrid but often funny and others that are sometimes eerily beautiful and sometimes downright creepy. Carefully and cunningly compiled under the editorship of Cara Bruce, this anthology includes tales from Lydia Lunch, Cecilia Tan, Kevin Lano, Thomas S Roche, Simon Sheppard, M Christian, Blag Dahlia, Paul Bradshaw, and many more.

[The Arab Revolution: Ten Lessons from the Democratic Uprising, Jean-Pierre Filiu](#) , 2011, 0199920842, 9780199920846. When Mohammad Bouazizi sets himself on fire on December 17, 2010, he started a series of extraordinary events that spread across the Middle East with stunning rapidity. In less than a month, President Ben Ali fled Tunisia, ending a twenty-three year regime. Shortly thereafter, on 11 February 2011, President Mubarak of Egypt stepped down after nearly thirty years in power. In The Arab Revolution, Jean-Pierre Filiu offers a concise but sweeping account of the earth-shattering revolts that began in Tunis and continue today throughout the Middle East. Stressing the deep historical roots of the events, Filiu organizes the book around ten lessons that illuminate both the uprisings in particular and the region in general. He shows, for instance, that these movements didn't erupt out of thin air--Arabs have been fighting for their rights for more than a generation. The author sheds light on the role of youth--whose anger is power, he notes, and who embrace the message "tomorrow is yours, if you fight for it"--as well as the important role that social networks played in Tunisia and Egypt. Filiu also argues that in the aftermath, jihadists are in a difficult position, because the essentially peaceful grassroots protests in Tunisia and Egypt have undercut their message of violence and indeed have called into question their relevance. The book also reveals that, despite being somewhat overshadowed by the Arab uprising, Palestine remains the central concern throughout the Middle East. By shining a light on these lessons rather than

providing a strictly chronological account, Filiu provides a far richer and deeper portrait of the revolutionary movements sweeping the region--as well as an insightful look at life in the Middle East today.

[Richard II in New York, Steven Berkoff](#) , 2008, 1845492153, 9781845492151. Steven Berkoff was asked to direct Shakespeare's Richard II in New York early 1994. It was a project he found fascinating: performing an Elizabethan play within the scrapers of Manhattan and the still rotting slums of the Lower East Side, between the steaming breath oozing out from the cracked pipes and the brutality of modern New York speak. New York became the backdrop and the energy centre which charged him each day and fed his inspiration. This book offers a wonderful insight into the many characters, challenges and places that were integral to the project and details how gradually the production took form. Served by a first-rate company that worked incredibly hard, the achievement was a critically acclaimed production and the fulfilment of a personal goal to direct the Bard. NEW YORK POST This morning I have joy to report - so let the trumpets sound and the canons roar! Last night at the Anspacher Auditorium of the Joseph Papp Public Theater, there opened a production of The Tragedy of Richard II which can hold its own with the world's best in Shakespearean stagings. NEW YORK SUNDAY TIMES The Tragedy of Richard II now being given an exceptionally stylish production by Steven Berkoff. Mr Berkoff's production, which, among many virtues, is so well and clearly spoken and so clean of dramatic line that it's accessible from start to finish... THE PHILADELPHIA INQUIRER NEW YORK - They'll be talking about this Richard II for years.

[Poker: The Real Deal, Phil Gordon, Jonathan Grotenstein](#) , 2004, 1416905774, 9781416905776. Like a secret society, poker has its own language and customs -- its own governing logic and rules of etiquette that the uninitiated may find intimidating. It's a game of skill, and playing well depends on more than just a good hand or the ability to hide emotion.

The first step toward developing a style of play worthy of the greats is learning to think like a poker player. In a game where there are no absolutes, mastering the basics is only the beginning -- being able to pull off the strategy and theatrics is the difference between legendary wins and epic failure.

[Principles of international investment law, Rudolf Dolzer, Christoph Schreuer](#) , 2008, 0199211760, 9780199211760. This book outlines the principles behind the international law of foreign investment. The main focus is on the law governed by bilateral and multilateral investment treaties. The book traces the purpose, context and evolution of the clauses and provisions characteristic of contemporary investment treaties, and analyzes the case law interpreting the issues raised by standard clauses. Particular consideration is given to broad treaty-rules whose understanding in practice has mainly been shaped by their interpretation and application by international tribunals. In addition, the book introduces the dispute settlement mechanisms for enforcing investment law, outlining the operation of State vs. State and Investor vs. State arbitration. Combining a systematic analytical study of the texts and principles underlying investment law with a jurisprudential analysis of the case law arising in international tribunals, this book offers an ideal introduction to the principles of international investment law and arbitration, for students or practitioners new to the field.

[Introducing the Universe, Felix Arnold E. Pirani, Christine Roche](#) , 2006, 1840467614, 9781840467611. From Aristotle to Newton, Einstein and quantum mechanics, Introducing the Universe recounts the revolutions in physics and astronomy that underlie the present-day scientific picture of the Universe. It describes the scale of things, from atoms to galactic superclusters, and sketches the cosmological theories, based on Einstein's general relativity, used to describe the Universe's expansion. The book also discusses the significance of the cosmic background satellite observations, and explains why current theories have nothing reliable to say about whether the Universe had a 'beginning'.

[The Christmas Star, Ace Collins](#) , 2012, 1426714688, 9781426714689. Robert Reed gave his life for his country in the early days of World War II. His sacrifice was honored when his widow and son were presented with the Congressional Medal of Honor. At Christmas, the final decoration Marge Reed hangs on the family's tree is that medal. Rather than being a symbol of honor for young Jimmy Reed that shining star represents loss, pain, and suffering. Yet a message delivered by one of Robert's fellow soldiers and a mystery letter found in a Bible put a father's sacrifice and faith into perspective and bring new meaning to not just the star hanging on the Christmas tree but the events of the very first Christmas. Then, when least expected, a Christmas miracle turns a final bit of holiday sadness into a joy that Jimmy has never known.

[Visual Thinking Strategies for Individuals with Autism Spectrum Disorders: The Language of Pictures, Elyn Lucas Arwood, Carole Kaulitz, Mabel Brown](#) , 2009, 193457550X, 9781934575505. Visuals of all kinds (photographs, checklists, line drawings, cartoons, flowcharts, stick figures, etc.) are commonly used as supports for individuals on the autism spectrum who tend to think and learn visually. However, not all visuals are created equal and, therefore, visuals don't all work equally well. This companion to Learning With a Visual Brain in an Auditory World helps the reader understand how to match the developmental levels of pictures and visuals to the developmental level of the person looking at the visual. In this way, appropriate visuals provide the language development for children with autism spectrum disorders. Drawing from their experience with children and youth for decades, the authors also show how effective communication can help reduce the confusion and anxiety that often lead to behavioral outbursts.

[Handbook for Liturgical Studies: The Eucharist, Volume 3, Anscar J. Chupungco](#) , 1999, 0814661637, 9780814661635. "Volume III: The Eucharist" contributes to the reflection on the meaning and purpose of the eucharistic celebration. It also offers to teachers and students of liturgy a handbook for studying this subject according to a system based on historical development, theology and doctrine, liturgical texts and traditions in both East and West, and pastoral considerations. Articles and their contributors are "A Eucharistic Lexicon," by Marcel Metzger; "The Eucharist in the First Four Centuries," by Enrico Mazza; "The Various Orders of Celebration," by Stefano Parenti; "The Oriental "Anaphorae,"" by Enzo Lodi; "The History of the Roman Eucharistic Liturgy in Rome," by Marcel Metzger; "The Sacramentary of Paul VI," by Michael Witczak; "The Roman Lectionary for Mass," by Adrien Nocent, OSB; "The Homily," by Domenico Sartore, CSJ; "Musical Elements in the "Ordo Missae" of Paul VI," by Jan Michael Joncas; "The Eucharistic Celebration in the Non-Roman West," by Gabriel Ramis; "Worship of the Eucharist Outside Mass," by Nathan Mitchell; "The Liturgy of the Presanctified Gifts," by Nicola Bux; "The Viaticum," by Philippe Rouillard, OSB; "Questions about Specific Points," by Adrien Nocent, OSB; "Theology of Eucharistic Celebration," by David N. Power, OMI "Anscar J. Chupungco, OSB, is the director of the Paul VI Institute of Liturgy in the Philippines and professor of liturgical inculturation at the Pontifical Liturgical Institute in Rome. He is the author of "Liturgies of the Future: The Process and Methods of Inculturation, " and "Liturgical Inculturation: Sacraments, Religiosity, and Catechesis," published by The Liturgical Press.""

[Radical Homemakers: Reclaiming Domesticity from a Consumer Culture, Shannon Hayes](#) , 2010, 0979439116,

9780979439117. Mother Nature has shown her hand. Faced with climate change, dwindling resources, and species extinctions, most Americans understand the fundamental steps necessary to solve our global crises—drive less, consume less, increase self-reliance, buy locally, eat locally, rebuild our local communities. In essence, the great work we face requires rekindling the home fires. *Radical Homemakers* is about men and women across the U.S. who focus on home and hearth as a political and ecological act, and who have centered their lives around family and community for personal fulfillment and cultural change. It explores what domesticity looks like in an era that has benefited from feminism, where domination and oppression are cast aside and where the choice to stay home is no longer equated with mind-numbing drudgery, economic insecurity, or relentless servitude. *Radical Homemakers* nationwide speak about empowerment, transformation, happiness, and casting aside the pressures of a consumer culture to live in a world where money loses its power to relationships, independent thought, and creativity. If you ever considered quitting a job to plant tomatoes, read to a child, pursue creative work, can green beans and heal the planet, this is your book.

[Shadow of Shaniko, , Calamity Jan](#) , 2002, 0972180028, 9780972180023. The ghost town of Shaniko, Oregon wasn't supposed to be dangerous, but the howling going on in the old Shaniko School night after night tells Meggie and Paige otherwise. A ghost? They are terrified when threatening messages begin appearing on the chalk board in the school, warning them to leave. In this fast-paced mystery, the Ghostowners find themselves being stalked by the shadow, trapped in Shaniko's huge wool barn—a warehouse once known as the biggest wool barn in the world. Teaming up with Gabe Stackpole, a Native American runaway from the Warm Springs Reservation, the truth begins to emerge from the shadows. Caught between the ghost, the Bushtn, and the feared Whipman, they realize they may have walked into a trap. The terrible howling returns as the truth creeps out of the *Shadow of Shaniko*. An important multicultural message about color and diversity weaves its way through this fast-paced mystery in a natural and heartwarming way. And there's also an important message for young people caught up in the conflict of a broken home.

[Programming in Martin-Lf's type theory: an introduction, Bengt Nordstrm, Kent Petersson, Jan M. Smith](#) , 1990, 0198538146, 9780198538141. In recent years, several formalisms for program construction have appeared. One such formalism is the type theory developed by Per Martin-Lof. Well suited as a theory for program construction, it makes possible the expression of both specifications and programs within the same formalism. Furthermore, the proof rules can be used to derive a correct program from a specification as well as to verify that a given program has a certain property. This book contains a thorough introduction to type theory, with information on polymorphic sets, subsets, monomorphic sets, and a full set of helpful examples.

[Health Law: Federal Regulation of Drugs, Biologics, Medical Devices, Foods, and Dietary Supplements, Roseann B. Termini](#) , 2004, 0972989153, 9780972989152. "ONE" Source Separately Bound Statutory Book: Entire FDCA and related law. The reader does not have to consult another source for "FDA law" because the entire Federal Food, Drug and

Cosmetic Act under Title 21, 21 U.S.C. 301 et seq., is included in the statutory supplement as well as relevant sections from related laws. The reader has the added advantage of consulting the separately bound supplement while reading the text. Statutory conversion chart included!

[From Russia with Love, Ian Fleming](#) , 2010, 0141399341, 9780141399348. Every major foreign government has a file on James Bond, British secret agent. Now, Russia's deadly SMERSH organization has targeted him for elimination they have the perfect bait in the irresistible Tatiana Romanova. Her mission is to lure Bond to Istanbul and seduce him while her superiors handle the rest. But when Bond walks willingly into the trap, a game of cross and double cross ensues . . .

[Clean Plates N.Y.C.: A Guide to the Healthiest Tastiest Restaurants in Manhattan for Vegetarians and Carnivores, Jared Koch](#) , 2010, 0982186215, 9780982186213. The only nutritionist and food critic-approved Manhattan restaurant guide.

Too often, healthy eating is linked with images of sacrifice: a pile of sprouts or a single pea resting on a plate. It can be difficult to find a restaurant serving mouthwatering, delicious food that is also good for you. Not anymore. Two New Yorkers OCo a nutritionist and a food critic OCo scoured the town together to select the 75 healthiest, tastiest restaurants in Manhattan (from fine dining to fast food). Just toss this guide in your bag and flip through it whenever you're craving an Italian trattoria, grass-fed steak, gourmet vegetarian dinner, organic burrito or juicy burger free of hormones and antibiotics. Carnivore? Locavore? Vegan? Clean Plates is for you: \*Includes 75 reviews and 200+listings of restaurants serving organic, local, sustainably raised plant and/or animal products \*Seven interviews with health conscious, eco-friendly chefs \* A user-friendly nutritional guide packed to the gills with tips for eating healthier with a focus on bio-individuality so you can design your own diet \* A must-have index of the best date spots, cheap eats, and critic's picks. Clean Plates NYC authors researched over 300 restaurants (ate at 125 of them), winnowing them down to the 75 healthiest, most delicious eateries in Manhattan. Easy-to-use quick reference icons make scanning for your desired cuisine and price point a breeze. Purchase grants access to an online database of Clean Plates-approved restaurants, including over 125 honorable mentions."

[The Deadly Joker, Nicholas Blake](#) , 2012, 1448210151, 9781448210152. When John Waterson and his young wife chose Netherplash Cantorum, Dorset, for their retirement years, they could not have predicted that this idyllic spot had one severe but unforeseeable drawback: among its inhabitants was a practical joker whose fertile mind ran to the most bizarre and grotesque designs. The Village was no place for a quiet retirement, or for a gentle recuperation from the nervous breakdown that had afflicted Waterson's wife. In Netherplash, the peace is continually disrupted with extraordinary events tripping over each other which, in the end, lead to a hideous and painful murder. With a cast of characters who are both bizarre and believable, this is an original tour-de-force of crime fiction placing Blake firmly in the genre."It really shouldn't be missed...this is a book with an extremely original approach and an extremely original idea." - The Sunday Times

[Slowing Down, George Melly](#) , 2006, 0141015764, 9780141015767. George Melly is 79 nudging 80. You'll probably think, That s not old these days . And it s true, George is still swinging and singing, fly-fishing, flirting, and for now just playing at senility. But it s not as if he were the Queen Mother. He walks very slowly nowadays. He s losing control over his bladder, and his bowels. He no longer, being quite deaf, enjoys noisy parties. He s been seriously ill once, and not quite well often. And he's constantly being probed and tinkered with at St Mary s Hospital: like an old car in and out of the garage. Sex has walked out on him, but Irish Whiskey, in only slightly diminished quantities, remains a good friend. This remarkably cheerful book is his diary of it all. An extraordinary, darkly funny, frank, and larger-than-life account about how feels to be growing old and irresistibly Slowing Down.

Through divine intervention, this family has set aside a special time of prayer in their homes to petition. God on behalf of the members of their family."

[The Earth Only Endures: On Reconnecting with Nature and Our Place in It, Jules N. Pretty](#) , 2007, 1849772967, 9781849772969. For most of human history, we have lived our daily lives in a close relationship with the land. Yet now, for the first time, more people are living in urban rather than rural areas, bringing about an estrangement. This book, by acclaimed author Jules Pretty, is fundamentally about our relationship with nature, animals and places. A series of interlinked essays leads readers on a voyage that weaves through the themes of connection and estrangement between humans and nature. The journey shows how our modern lifestyles and economies would need six or eight Earths if the entire world s population adopted our profligate ways. Pretty shows that we are rendering our own world inhospitable and so risk losing what it means to be human: unless we make substantial changes, Gaia threatens to become Grendel. Ultimately, however, the book offers glimpses of an optimistic future for humanity, in the very face of climate change and pending global environmental catastrophe.

[Isabel Flick: The Many Lives Of An Extraordinary Aboriginal Woman, Isabel Flick, Heather Goodall](#) , 2004, 1741153018, 9781741153019. And I said that to this old fella to this old fella at the ticket box: I want you to come and fix this. Take these ropes off! What do you think we are? Our money is as good as anyone else's and we want to sit where we want to sit. I kept standing there in front of the ticket office, and by then my sister-in-law was there too. The two of us, making trouble! And my poor little heart, I don't know how it stayed in my chest 'Isabel Flick was always making trouble. This is her story, told in her own words and those of her family and friends, beginning on the riverbank camps of Collarenebri, where at an early age she was barred from formal education and threatened by the Protection Board with removal'. She then moves from the harsh controls of Toomelah Mission to the cotton fields of Wee Waa, from cooking for the upper classes in Rose Bay to marching in the street protests of Redfern and lobbying in the halls of Parliament House. She grew up to challenge the suffocating racism of rural Australia, demanding desegregation and justice in education, work, health and before the law. But Isabel's courageous fight was not only directed at the non-Aboriginal community. She was not afraid to speak openly about injustice among her own people. All who knew Isabel were moved by her. She was the hub of a wide network within the Aboriginal community, linking the many people with whom she had worked and campaigned. She was extraordinary too in developing a strong network among non-Aboriginal people. And eventually, returning to the riverbank of the Barwon, Isabel's enormous political experience and courage were acknowledged by the non-Aboriginal people of her town. It was Isabel who was chosen by Collarenebri whites and blacks as their spokesperson during a crisis which threatened them all. Reflecting on the meaning of community, country and tradition, this beautifully crafted story is truly an inspiration - one of love, humour and courage, and always a profound sense of justice and understanding. If I had to name five people who are true leaders, Isabel would be one of them.' Linda Burney, MP

At the completion of this book, your mind will be conditioned for spiritual warfare, and you will be able to "stand against the wiles of the devil" - and be triumphant! The putting on of your armor will become second nature to you, just like dressing for work or school before leaving home." This book holds good promise as a published work, and would receive acclaim among theological scholars, graduates and undergraduates of Seminaries and Universities where the expository can be very challenging and faith-reaffirming. Especially commendable is the language of the author, lucid and simple, and yet masterful a tribute to the author's powerful command of the English Language." Jacob Oguntomilade Ph.D., Th.D., Dean of Student Affairs and Professor of Theology National Bible College and Seminary About the Author: ELDER RICKEY E. MACKLIN, son of Reverend and Mrs. Arthur Macklin Sr. of Camden, S.C., is a graduate of South Carolina State University and Jericho Christian Training College, and has his Master's in Theology Studies from National Bible Seminary. Elder Macklin serves as leader of the Youth Ministry, Singles Ministry and The Mighty Men of Valor at Jericho City of Praise. He teaches Christian Apologetics and Christian Courtship at the Jericho Christian Training College. Elder Macklin has two other published works, "DADDY'S WAITING ON YOU" and "ANOINTED, BUT NOT READY."

[Q & A about Islam, Galal-Amin](#) , 2000, 9774245598, 9789774245596. Based on both academic research and the author's own personal experiences and impressions, this delightful and informative book examines the underlying causes of some of the more disturbing social, political, economic, and cultural phenomena that characterize Egyptian society in the 1990s. Egypt's crisis of culture and other woes are often attributed to the 'open door policy' (Infitah) initiated under President Sadat in the mid-1970s, and to the large-scale migration of Egyptian workers to the oil-rich states of the Gulf

that began around the same time. Galal Amin contends, however, that these factors alone are insufficient to explain the fundamental changes in behavior and attitudes that characterize modern Egyptian life. The 'missing link,' Amin argues, lies in the social mobility unleashed by the July Revolution of 1952, which was later accelerated by Infitah and workers' migration. The sudden upward mobility and attendant prestige, self-confidence, and purchasing power of a large segment of Egyptian society and the desire to display this new-found social position as conspicuously as possible have had an enormous effect on the attitudes and allegiances of these groups. Through a fascinating and often highly entertaining examination of issues ranging from the middle class, religious fanaticism, and attitudes to the West and Western culture, to the Egyptian institution of the summer holiday by the sea and the performing arts and entertainment, Amin posits that social mobility has changed the customs and habits, moral and material values, and patterns of consumption and investment of the aspiring classes, and has, furthermore, induced the Egyptian people to ignore national and ideological issues of grave importance. This insightful book will prove a thought-provoking read for those concerned with emerging economies, international development, and privatization, and will intrigue anyone with an interest in the social history of Egypt. The Arabic edition of this book was awarded the Cairo International Book Fair Prize for the best book in Social Studies in 1998. Comments on the Arabic edition: 'A rare example of combining social theory with concrete observation and intimate personal experience.... A very perceptive account of Egyptian social development with almost the impact of a dramatic creation.'" Abd al-Qader al-Qutt, al-Ahram, 2000. "A very valuable and highly important contribution to social thought and to Egypt's social history.... A highly original and enjoyable book." Faruq Shusha, al-Ahram, 1999.

[Attunement, the Sacred Landscape: Exploring the Soul Through Radiant Healing, Laurence Layne](#) , 1997, 0977119327, 9780977119325. Attunement, The Sacred Landscape is an introduction to Energy Healing, Vibrational Medicine, and wholistic spiritual balancing. Attunement is a sacred healing art and spiritual practice first used in the 1930s in North America. The primary technique of Attunement is non-touch healing with the hands.

[Five Rights Medication for Your Soul, Karen Deadwyler](#) , 2010, 098023901X, 9780980239010. This book is written to inform you of your rights. I call them the five rights and when done according to God's will and His ways, it will and shall become medication to your Soul. In writing this book the Lord lead me down the path of a natural and spiritual comparison of what I call the dispensing rules of medication. As a nurse when we talk about medication and learning how to administer it correctly we are taught the five rights.

[Jeff in Venice, Death in Varanasi, Geoff Dyer](#) , 2010, 1921799544, 9781921799549. Journalist Jeff Atman is in Venice to cover the opening of the Biennale. He's expecting to see a load of art, go to a lot of parties and drink too many bellinis. He's not expecting to meet the spell-binding Laura, who will completely transform his few days in the city. Another city, another assignment: this time on the banks of the Ganges in Varanasi. Amid the crowds, ghats and chaos of India's holiest Hindu city, a different kind of transformation lies in wait. A beautiful story of erotic love and spiritual yearning, Jeff in Venice, Death in Varanasi is playful, stylish, sensual, comic, ingenious and utterly captivating. It confirms Geoff Dyer as one of the most exciting authors writing in English today. 'There are few writers at work today whose humour and intelligence radiate so clearly from their texts.' Australian

[In a Forest, a Deer, Ambai](#) , 2006, 0195683145, 9780195683141. Ambai, one of the finest modern Tamil short-story writers, is much read, discussed and written about, and loved for the wit, innovative story-telling, and lyrical grace of her writing. Breaking traditional modes of expression in terms of language and content, In a Forest, a Deer recounts the saga of Tangam Athai, whose husband remarried because she could not bear him a child and Chinthiru's journey to the forest alongside the mythological tale of Sita's exile to underscore Chinthiru's unique search for self-identity. Winner of the Hutch Crossword Book Award 2006, this collection is an enduring testimony of the ideology and belief that Ambai's writings affirm-the need to know and be in touch with a stable or 'grounded' self that allows fluidity and change in modern times of travel, dislocation, and exile.

[Money to Burn, John Escott](#) , 1993, 0140813713, 9780140813715. This is one of a series of graded readers for elementary to intermediate level English, designed to lead into levels 4 and 5 of Simple Stories. Some robbers steal money and escape in a stolen car. When they stop at a farm, a young girl and her brother try to foil their escape. There are approximately three pages of pre- and post-reading exercises in this book.

[Benny and Penny in the Big No-No!](#) , 2014, 1935179357, 9781935179351. The Theodor Seuss Geisel Award Winner In this Theodor Seuss Geisel Award Winner Benny and his sister Penny know it's wrong to sneak into someone else's backyard but their mysterious new neighbor - or is it a monster? - may be a thief. They go snooping and discover a lot about themselves and...a new friend. Bestselling children's artist Geoffrey Hayes enchants early readers with his charming and subtle storytelling. In this lively caper, the artist's small-scale ice take on a large-scale issues with enormous comics mastery.

[Business and Government: Methods and Practice, David Coen, Wyn Grant](#) , 2006, 386649033X, 9783866490338. This volume reviews current debates on the role of business in politics and it assesses emerging methodological approaches to its study. The book brings together leading scholars to assess various qualitative and quantitative methods, network analysis, historical context and positive rational choice modeling, and detailed research case studies in the study of Business-Government relations. Businesses have developed an increasingly sophisticated appreciation of the policy process, as well as an ability to develop complex strategies to influence it over the last 30 years. This volume reviews current debates on the role of business in politics and it assesses emerging methodological approaches to its study. The book brings together qualitative and quantitative methods, network analysis, historical context and positive rational choice modeling, and detailed research case studies. There is coverage of the environment in which business operates, including state, regional and international institutional frameworks. The internal organizational structure of business interests is considered along with the range of strategies used to influence the policy process. The book explores what policy-makers demand and what business supplies to the policy process. The key role of the firm as a political actor is emphasized, leading to a call for a theoretically informed political economy of the firm. The editors: Dr David Coen,

Senior Lecturer in Public Policy, Director of Msc in Public Policy, School of Public Policy, University College London  
Professor Wyn Grant, Professor of Politics, Department of Politics and International Studies, University of Warwick  
The contributors: Andreas Broscheid, University of North Carolina - Pembroke David Coen, University College London Wyn Grant, Warwick University Cathie Jo Martin, Boston University Volker Schneider, University of Konstanz, Germany Graham K. Wilson University of Wisconsin - Madison

[The Real Life Guide to Accounting Research: A Behind the Scenes View of Using Qualitative Research Methods,](#)

[Christopher Humphrey, Bill Lee](#) , 2007, 0080489923, 9780080489926. A book that goes behind the more official presentations and accounts of research methods to explore the lived experiences, joys and mistakes of a wide range of international researchers principally working in the fields of accounting and finance, but also in management, economics and other social sciences. The authors of the articles in this book address a wide range of issues and obstacles that they have confronted at various stages in their respective research careers. In reflecting on their personal experiences, they provide practical guidance on how to overcome the types of problems that typically confront researchers in their day-to-day work. \* Practical tips on how to undertake research and get findings published \* Research project management skills \* International and interdisciplinary perspectives

[Poo Log: A Record Keeper, Josh Richman, Anish Sheth](#) , 2008, 0811863395, 9780811863391. Finally, what every bathroom has been waiting for the Poo Log, a journal for recording and studying the wondrous uniqueness of each bowel movement. With an extensive glossary, handy reference checklists, interesting nuggets throughout, this journal makes every trip to the can an e-loo-cidating experience. Who knew one could learn so much from poo?

[Uncommon Thief, William Manchee](#) , 2011, 1929976747, 9781929976744. A college student is framed for a huge bank robbery and ends up on trial for murder when a bank official is found dead in the vault. UCLA student Fred Fuller is pleased with his new part time job as a messenger for Bank USA. The job pays well, the hours are perfect, and many of the bank tellers he works with are young and pretty. When one of the tellers takes a special interest in Fred he struggles to remain faithful to his college girlfriend, Maria. But this temptation is nothing compared to the dilemma he faces when he discovers a bag full of the bank's money in his company vehicle and realizes he's been set up to take the fall for a six million dollar bank heist. Fred has political ambitions and has worked as a congressional intern in the past. When he is charged with the murder of the bank's cashier he uses his political connections to obtain legal counsel. His attorney is top notch, an ex-DA who's gone into private practice, but he's expensive and Fred must rely on Maria's fund raising efforts to fund his defense. The case against Fred looks pretty hopeless when Fred's fingerprints are found inside the vault and a witness claims he heard Fred planning to flee the country. Fred's only hope is if his two best friends, Steve and Randy, can track down the real killer and get him to confess to the crime. Unfortunately, nobody knows where Sam Stewart has disappeared and the FBI has given up trying to find him.

[Arguments on evolution: a paleontologist's perspective, Antoni Hoffman](#) , 1989, 0195044436, 9780195044430. This book

surveys the current debates in evolutionary theory from a paleontological perspective, discussing such controversial topics as punctuated equilibrium, species selection, mass extinctions, and taxonomic diversification of the biosphere. These ideas are critically reviewed and presented in the context of a broad background: the neodarwinian paradigm of modern evolutionary biology, the potential and limitations of the fossil record as a source of data on organic evolution, and the methodology of evolutionary interpretation of paleontological data. The author argues that much current research leads us astray, and proposes that another interpretation of the history of the biosphere be adopted--one based on the assumption that there are no general laws, that large-scale historical biological patterns merely reflect a summation of smaller-scale phenomena, and that none of these components must be neglected in our attempts to explain the larger patterns. Clear and concise, this book will be invaluable to scientists and students and accessible to interested lay readers.

[Adapted to Adoption, Erin Altrama](#) , 2013, 0957520344, 9780957520349. Erin was adopted at the age of four months by a loving couple. This book presents realistic factual information on the topic. An account of her own search for roots and identity can be found in *Candle in the Mirror*. The facts speak for themselves and illustrate how the adopted person, adoptive families and biological connections all have to adapt to the changes adoption introduces to their life. How individuals cope with such adaptation can be assisted with fulsome knowledge on the potential for ramifications in each member of the adoption triad. There is a useful section for those people who may be connected to any member of the adoption triad as to how they can gain understanding and empathy. This is particularly relevant to partners and spouses of an adopted person who may feel at a loss as to how they can help. Search and reunion are scenes from our shared humanity not the blissfully happy outcomes fed to us by the media. Such scenarios can include rejection. A useful read for anyone not only those within the world of adoption.

[WorldView, Volume 2, , Simon Le Maistre](#) , 2004, 0131840010, 9780131840010. "WorldView," a four-level course for adults, covers a wide range of compelling topics from an international perspective. Two-page lessons ensure that students stay focused on clear and attainable language goals. With its flexible format and course components, "WorldView" responds to a variety of course needs. The "WorldView" approach follows a simple and proven M.A.P.: Motivate learning through stimulating content and achievable goals. Anchor production with strong language presentations. Personalize learning through engaging and communicative speaking activities.

[Percy Jackson and the Olympians, Book Two: Sea of Monsters, The, Rick Riordan](#) , 2009, 1423131967, 9781423131960. After a summer spent trying to prevent a catastrophic war among the Greek gods, Percy Jackson finds his seventh-grade school year unnervingly quiet. His biggest problem is dealing with his new friend, Tyson a six-foot-three, mentally challenged homeless kid who follows Percy everywhere, making it hard for Percy to have any "normal" friends. But things don't stay quiet for long...

[Rebel with a Pen: The Poetry of James Dean, James Dean](#) , 2008, 0981556906, 9780981556901. Presents the poetry and drawings of film legend James Dean. This book reveals his personal demons, his fear, his obsessions, and his sexual yearnings.

A magic spell whisks Philip away on his new kite to a far-off island where he meets the beavers - Mr Edgar and his grandson, Baby B. They tell him of the terrible danger that threatens them. The wicked witch Oyin has imprisoned most of the island's inhabitants in Beaver Towers, and when her powers are complete she will put them to death and rule the island. Philip has to get her spell book in order to save them.

[The Atmosphere: An Introduction to Meteorology, Frederick K. Lutgens, Edward J. Tarbuck](#) , 1986, 013049917X, 9780130499172. Using everyday, easy-to-grasp examples to reinforce basic concepts, this highly regarded handbook remains the standard introduction to meteorology and the atmosphere - components, problems, and applications. Includes the most up-to-date coverage of topics such as: ozone depletion; the ultraviolet index; temperature; dew point temperature and orographic effects; wildfires and weather; thunderstorms and lightning; the record-breaking Florida hurricane season; effects of air pollution, and more. Incorporates top-quality visuals, including new satellite images and illustrations by the award-winning Dennis Tasa, to demonstrate the highly visual nature of meteorology. Uses a largely non-technical writing style to help readers grasp important concepts. For those interested in learning more about meteorology.

[Gene Cloning and DNA Analysis: An Introduction, T. A. Brown](#) , 2013, 1118685288, 9781118685280. Known world-wide as the standard introductory text to this important and exciting area, the sixth edition of Gene Cloning and DNA Analysis addresses new and growing areas of research whilst retaining the philosophy of the previous editions. Assuming the reader has little prior knowledge of the subject, its importance, the principles of the techniques used and their applications are all carefully laid out, with over 250 clearly presented four-colour illustrations. In addition to a number of

informative changes to the text throughout the book, the final four chapters have been significantly updated and extended to reflect the striking advances made in recent years in the applications of gene cloning and DNA analysis in biotechnology. Gene Cloning and DNA Analysis remains an essential introductory text to a wide range of biological sciences students; including genetics and genomics, molecular biology, biochemistry, immunology and applied biology. It is also a perfect introductory text for any professional needing to learn the basics of the subject. All libraries in universities where medical, life and biological sciences are studied and taught should have copies available on their shelves." the book content is elegantly illustrated and well organized in clear-cut chapters and subsections there is a Further Reading section after each chapter that contains several key references What is extremely useful, almost every reference is furnished with the short but distinct author's remark."Journal of Heredity, 2007 (on the previous edition)

[Today's Public Relations: An Introduction, Robert L. Heath, W. Timothy Coombs](#) , 2006, 1412926351, 9781412926355.

Working to redefine the teaching of public relations by discussing its connection to mass communication, but also linking it to its rhetorical heritage, this text features coverage of ethics, research, strategy, planning, evaluation, media selection, promotion/publicity, crisis communication, risk communication, and collaborative decision making as ways to create, maintain, and repair relationships between organizations and the persons who can affect their success. The book also examines the challenges of creating a solid foundation in the field of public relations while working to become a professional in a global society. Key Features:- Chapter-opening vignettes illustrate key points to be covered in the chapter. - Web Watcher boxes highlight the importance of the Internet in PR today and encourage students to use the Web's resources. - Ethical Quandary boxes lead readers to think through difficult situations in order to better prepare them for the challenges of public relations. - Professional Reflections, written by practitioners, give a real-world perspective on the topics covered. - End-of-chapter questions and summary questions, exercises, and recommended reading lists help readers to better comprehend the chapter material and delve more deeply into the topic at hand.

[Integrated River Basin Management: The Latin American Experience, Asit K. Biswas, Cecilia Tortajada](#) , 2001, 019565532X, 9780195655322. River basin organizations are young institutions in Latin America, and current analyses indicate that further evolution is necessary before they can be effective in the planning and management of water resources, especially in terms of decentralization and capacity building. This book reviews the status of the implementation of the concept of integrated river basin management in several Latin American countries. It includes comparative studies from other parts of the world to present a broader perspective of the situation. The authors are leading experts from the region, and have the latest information on the status of water management techniques in the

various river basins of Latin America.

[2001 Miller Single Audits: Complete Audit Program and Workpapers Management System, Rhett D. Harrell](#) , 2000, 0156072513, 9780156072519. A reference guide that provides guidance through planning, fieldwork and reporting as well as examining single audit standards. The CD-ROM contains engagement forms, letters and checklists.

Underlying the graphical user interface of SPSS 7.5 is a command syntax which enables production-mode operation of the software and gives access to complex file definitions and and less commonly-used specifications on statistical procedures. Following an introduction to the universal features of the command language, this guide presents the syntax for all commands in SPSS in alphabetical order, with detailed descriptions of each specification and many examples.

[English in Common 5 with ActiveBook and MyEnglishLab, , ISBN 0132627256, 9780132627252, Maria Victoria Saumell, Sarah Louisa Birchley](#) , 2012, 013262897X, 9780132628976. English in Common is a six-level integrated-skills course for adult and young adult learners based on CEFR standards and learner outcomes. Finding direction and purpose English in Common motivates learners through Can Do objectives which give direction and purpose, ensuring students know what they are learning, why they are learning it, and how they will be able to use the language outside of the classroom. Engaging learners' interest English in Common engages learners' interest by offering a new twist to familiar topics -- topics that reflect students' needs and interests. This ensures that students will always have something to say about the content of the lesson. Developing active learners English in Common encourages active participation in learning by

guiding students to use their own knowledge as they observe structures in context to figure out language use and form independently. MyEnglishLab: English in Common An online learning tool for interactive practice, with automatic gradebook.

[Clinical Oral Science, Malcolm Harris, Michael Edgar, Sajeda Meghji](#) , 1998, 0723610592, 9780723610595. Postgraduate dental training has recently undergone a radical revision with the aim of providing a better career path for the general dental practitioner. New examinations have been established which will help bridge the gulf between undergraduate training and specialist examinations. Part of this revision has led to the integration of the basic sciences with clinical practice, which has created a need for new texts to cover the amended syllabus.

[Remembering the Kanji, Volume 1: A Complete Course on How Not to Forget the Meaning and Writing of Japanese Characters, , , , James W. Heisig](#) , 2007, 0824831659, 9780824831653. The aim of this book is to provide the student of Japanese with a simple method for correlating the writing and the meaning of Japanese characters in such a way as to make them both easy to remember. It is intended not only for the beginner, but also for the more advanced student looking for some relief from the constant frustration of how to write the kanji and some way to systematize what he or she already knows. The author begins with writing because--contrary to first impressions--it is in fact the simpler of the two. He abandons the traditional method of ordering the kanji according to their frequency of use and organizes them according to their component parts or "primitive elements." Assigning each of these parts a distinct meaning with its own distinct image, the student is led to harness the powers of "imaginative memory" to learn the various combinations that result. In addition, each kanji is given its own key word to represent the meaning, or one of the principal meanings, of that character. These key words provide the setting for a particular kanji's "story," whose protagonists are the primitive elements. In this way, students are able to complete in a few short months a task that would otherwise take years. Armed with the same skills as Chinese or Korean students, who know the meaning and writing of the kanji but not their pronunciation in Japanese, they are now in a much better position to learn to read (which is treated in a separate

volume). For further information and a sample of the contents, visit [http://www.nanzan-u.ac.jp/SHUBUNKEN/publications/miscPublications/Remembering\\_the\\_Kanji\\_I.htm](http://www.nanzan-u.ac.jp/SHUBUNKEN/publications/miscPublications/Remembering_the_Kanji_I.htm).

[Geochemical Reaction Modeling : Concepts and Applications: Concepts and Applications, Urbana Craig M. Bethke Professor of Geology University of Illinois](#) , 1996, 0198025505, 9780198025504. Geochemical reaction modeling plays an increasingly vital role in several areas of geoscience, from environmental geochemistry and petroleum geology to the study of geothermal and hydrothermal fluids. This book provides an up-to-date overview of the use of numerical methods to model reaction processes in the Earth's crust and on its surface. Early chapters develop the theoretical foundations of the field, derive a set of governing equations, and show how numerical methods can be used to solve these equations. Other chapters discuss the distribution of species in natural waters; methods for computing activity coefficients in dilute solutions and in brines; the complexation of ions into mineral surfaces; the kinetics of precipitation and dissolution reactions; and the fractionation of stable isotopes. Later chapters provide a large number of fully worked calculation examples and case studies demonstrating the modeling techniques that can be applied to scientific and practical problems. Students in a variety of specialties from low-temperature geochemistry to groundwater hydrology will benefit from the wealth of information and practical applications this book has to offer.

[Joint Committee on Human Rights 10th Report of Session 2004-05: Prevention of Terrorism Bill: House of Lords Paper 68 Session 2004-05, Great Britain: Parliament: Joint Committee on Human Rights](#) , 2005, 0104006315, 9780104006313.

The rapid progress of the Bill through Parliament has prevented the Committee from scrutinising the Bill comprehensively, so this report concentrates on the human rights compatibility of the three most significant Government amendments to the Bill tabled on 2 March 2005, comments on the absence of any provision about the use of information obtained by torture, and includes oral evidence from the Home Secretary. The Committee questions whether the degree of prior judicial involvement relating to derogating control orders provided for in the amendments is compatible with the Convention requirement that deprivations of liberty must be lawful, and whether there is sufficient safeguard against arbitrary detention. The Committee also regards prior judicial involvement as required in order for there to be an independent safeguard against arbitrary deprivations of liberty through the exercise of the power to make non-derogating control orders. The Committee remains concerned about the possible use of torture evidence by UK

authorities, and now has concerns that the Government has no system in place for ascertaining whether information it receives has been obtained by torture. It recommends that the Government give some formal effect to its expressed intention not to rely on or present in any proceedings evidence which it knows or believes to have been obtained by torture.
