[Canela y I aguacero de abril, Amy Crane Johnson](#) , 2003, 0972019227, 9780972019224. It's spring! The forest is full of newborn animals and plants. An April shower frightens Cinnamon, her new cub, and their woodland friends. Solomon Raven explains the importance of rain for animals and forest survival.

[Jetta: The Calling Series, Book 2, Deana Zhollis](#) , 2012, 0982121512, 9780982121511. Jetta is a thief who left behind higher education because she could no longer stand the malevolent eyes of her fellow classmates. Half-breed. Hybrid. Mongrel. Abomination. That's what they called her because she is only half of what they are: Wendh. And being half Wendh has its disadvantages--it makes her susceptible to its sexual, uncontrollable needs. Forcing her to go this way, the overpowering urge jeopardizes what should have been a simple gig, one she didn't want to take on in the first place! Reluctantly, she ends up at the front door of the most powerful Minions controlled by the leader of all organized crime--the Ja'pah. Somehow her "simple" cate has something to do with the Ja'pah and his plans, and the Minions want her to tell them what she knows. But what information can she provide when she doesn't know what they want? Deciding to keep her close, the Minions force Jetta to work their own dangerous jobs. In the meantime, Jetta's hunger is growing, and her lifeline is on the clock. One of the Minions has the answer to stop it, but which one? The Minions aren't talking. And each deadly cate brings her closer to the truth -- a truth which can kill her or save galaxies.

A bright April day of 1902. A group of friends, who came to see Zinaida Krutitsky and her mother off to the Crimea, stand on the platform by the sleeping-car. Among them Ivan Osokin, a young man about twenty-six. Osokin is visibly agitated although he tries not to show it. Zinaida is talking to her brother, Michail, Osokin's friend, a young officer in the uniform of one of the Moscow Grenadier regiments and two girls. Then she turns to Osokin and walks aside with him.

[60 Years Later: Coming Through the Rye, John David California](#) , 2009, 9185869546, 9789185869541. A 76-year-old man wakes up in a nursing home in upstate New York. This seemingly normal day brings with it an unnerving compulsion to flee his present situation and embark on a curious journey through the streets of New York City. Powerless to resist these strange new urges, Holden Caulfield, like a decrepit marionette, finds himself in the midst of bizarre and occasionally depraved escapades. Is senility finally closing in or is some higher power controlling the chaos? 60 years after his debut as the great American anti-hero, Holden Caulfield is yanked back onto the page without a goddamn clue why. Our favorite character Holden Caulfield return for more New York adventures.

[A Field Guide to the Tiger Beetles of the United States and Canada : Identification, Natural History, and Distribution of the Cicindelidae: Identification, Natural History, and Distribution of the Cicindelidae, David L. Pearson Research Professor of Biology Arizona State University, C. Barry Knisley Professor of Biology Randolph-Macon College, Charles J. Kazilek Technical Director W. M. Keck Bioimaging Laboratory](#) , 2005, 0198040091, 9780198040095. This color illustrated field and natural history guide treats all 107 known tiger beetle species found in North America above the Mexican border. Tiger beetles are among the most widely found and popular families of insects worldwide. Enabling amateur naturalists and professionals to use two identification methods--comparison of colored pictures to live or mounted specimens, and use of illustrated dichotomous keys--full biological accounts emphasize points for identification, behaviors, and habitats. Distribution maps show where various species and subspecies can be found. The authors promote a new and exciting activity of insect watching as an alternative or supplement to collecting (the general feeling among "butterfliers" and dragonfly and damselfly enthusiasts). Communicating primarily through the un-refereed journal Cincindela, (Tiger Beetle) specialists themselves prefer the term, "cicindelophiles." They represent an ardent subset of the growing number of serious amateur naturalists who invest in outdoor activities seeking and identifying birds, butterflies, dragonflies, flowering plants, and various other forms of life.

[Faust: The First Part of the Tragedy,](#) , [Johann Wolfgang von Goethe](#) , 2005, 0140449019, 9780140449013. Goethes Faust reworks the late-medieval myth of Dr Faust, a brilliant scholar so disillusioned he resolves to make a contract or wager with the devil, Mephistopheles. The devil will do all he asks on Earth and seek to grant him a moment in life so glorious that he will wish it to last for ever. But if Faust does bid the moment stay, he falls to Mephisto and must serve him after death. In this first part of Goethes great work the embittered thinker and Mephistopheles enter into their agreement, and soon Faust is living a life beyond his study and in rejuvenated form winning the love of the charming and beautiful Gretchen. But in this compelling tragedy of arrogance, unfulfilled desire and self-delusion, Faust, served by the devil, heads inexorably towards destruction.

[Modelling Long-term Scenarios for Low Carbon Societies, ISSN 1469-3062, Neil Strachan, Tim Foxon, Junitso Fujino](#) , 2008, 1849770980, 9781849770989. With the ever-increasing impacts of climate change, it is now clear that global society will have to restructure its energy systems in order to decrease carbon emissions. The scenarios under which this transition to low-carbon societies (LCS) could occur would have complex economic, technological, behavioural and policy implications. This volume, a supplement to the Climate Policy journal, considers these implications by examining different low-carbon scenarios for different countries, modelled at different scales and typologies. Two overview chapters, co-

written by international experts, set the context of scenario development and quantification of LCS, and summarize the findings on the economic implications, societal responses, technological developments and required policy measures to enable LCS across a range of countries. Further chapters detail the modelling of various scenarios and outline the model methodology, detail the economic and technological consequences of transitions to LCS, and comment on the strengths and weaknesses of specific policies.

[Asian-American Scientists, Lisa Yount](#) , 1998, 0816037566, 9780816037568. Each volume in the American Profiles series provides middle and high school students with concise information on eight to thirteen important and influential figures in a particular field of endeavor. Profiles are organized around a movement, event, or profession that has had a significant, lasting impact on American history and contemporary life. Essential biographical information is included for each figure, but the heart of each profile describes the critical achievements and contributions of the individual under consideration and assesses the subject's significance, not only in the context of the person's own lifetime, but in the broader sweep of American history. Placing each figure's achievements and contributions in a historical context makes each profile the ideal source for preparing reports. Students can use this framework as a basis for comparisons and contrasts, which will give them a better understanding of how individuals shape, and are shaped by, the times in which they live. Profiles include: Flossie Wong-Staal; Chien-shiung Wu, Tsung Dao Lee, and Chen Ning Yang; Constance Tom Noguchi; David Da-i Ho; Paul Ching-wu Chu; Samuel Chao Chung Ting; Har Gobind Khorana; Subrahmanyam Chandrasekhar; Susumu Tonegawa; and Tsutomu Shimomura.

[Selections from the Carmina Burana: a verse translation, David Sidney Parlett, Carl Orff](#) , 1986, 0140444408, 9780140444407. This is a selection from the 13th century collection of secular Latin poems. Some are serious (eg Crusade poems) but the majority are light, including many love poems. A number of items from the Carmina are well known as text for Carl Orff's 'Scenic Cantata'. gt;

[The Dark Side of the Purpose Driven Church, Noah Hutchings](#) , 2011, 0984630082, 9780984630080. The author of this book, President of Southwest Radio Church Ministries, was the member of a church that went from a mission in 1975 to the number two Baptist Church in Oklahoma in 2004. In 2004 his church adopted, through a new pastor, the Purpose Driven Church format. What happened at Pastor Hutchings church has also happened to thousands of churches across the nation in changing from a traditional and fundamental doctrinal position to a contemporary and informal style of Purpose Driven Church service. Dr. Rick Warren works on the principle to attract the non-churched and non-Christians by a worship setting in which they would feel comfortable. This would mean removing Christian traditional emblems like the cross, contemporary music, and informing the old pillars they could go if they did not approve. Dr. Warren has stated

that he has trained or retrained 600,000 pastors in how to establish Purpose Driven Churches, which in many cases means to take over already established churches. As documented in this book, Dr. Warren has said that the five basic fundamentals of the Christian faith are too narrow, that fundamentalists are the biggest enemies we have, and we need to bring the Protestants, Catholics, Muslims, and all religions together to stop wars, heal the sick, and feed the hungry. Dr. Warren has ignored the advice of men like Charles Spurgeon who warned, The devils biggest lie is that we can win souls with entertainment. One of the problems facing churches that have gone Purpose Driven is that when the old pillars left, the remaining younger attendance provides little or no financial support and the church ministry suffers or ends. A tract based on chapter 12 of this book, *Is Your Church Going Purpose Driven, How Can You Tell*, has been disseminated worldwide. Every church member, and especially pastors, should read about the other side of the Purpose Driven Church controversy presented in this book. Brother Hutchings says that the most frequent question they get from their nationwide listenership is, *Where can I find a good church*.

[Handbook of Inter-Rater Reliability \(3rd Edition\): The Definitive Guide to Measuring the Extent of Agreement Among Multiple Raters., Kilem Li Gwet](#) , 2012, 0970806272, 9780970806277. By writing the third edition of the *Handbook of Inter-Rater Reliability*, my primary goal was to allow researchers and students in all fields of research to be able to access in one place, detailed, well-organized, and readable materials on inter-rater reliability assessment. Chance-corrected agreement coefficients are covered in part I of the book, while part II is devoted to agreement coefficients in the family of intraclass correlations. Part III covers several rank-based measures of association, in addition to discussing agreement within the framework of item analysis. The methods and techniques developed in this edition of the handbook of inter-rater reliability can handle missing ratings, which are common in most experiments. This is an improvement over the second edition, which describes the methods for complete data sets only. Part II and Part III contain new chapters aimed at providing researchers with a broader coverage of inter-rater reliability techniques. Even chance-corrected agreement coefficients, already covered in the second edition, are presented in the current edition with more depth and more clarity. I wanted to ensure that the content of this book is accessible to readers with no background in statistics. Based on feedback I received about earlier editions of this book, this goal appears to have been achieved to a large extent. I expect the *Handbook of Inter-Rater Reliability* to be an essential reference on inter-rater reliability assessment to all researchers, students, and practitioners in all fields of research.

[Biomimetic Neural Learning for Intelligent Robots: Intelligent Systems, Cognitive Robotics, and Neuroscience, , ISSN 0302-9743, ISSN 0302-9743, Stefan Wermter, Gntner Palm, Mark Elshaw](#) , 2005, 3540274405, 9783540274407. This book presents research performed as part of the EU project on biomimetic multimodal learning in a mirror neuron-based robot (MirrorBot) and contributions presented at the International AI-Workshop on NeuroBotics. The overall aim of the book is to present a broad spectrum of current research into biomimetic neural learning for intelligent autonomous robots. There is a need for a new type of robot which is inspired by nature and so performs in a more flexible learned manner than current robots. This new type of robot is driven by recent new theories and experiments in neuroscience indicating that a biological and neuroscience-oriented approach could lead to new life-like robotic systems. The book focuses on some of the research progress made in the MirrorBot project which uses concepts from mirror neurons as a basis for the integration of vision, language and action. In this book we show the development of new techniques using cell assemblies, associative neural networks, and Hebbian-type learning in order to associate vision, language and motor concepts. We have developed biomimetic multimodal learning and language instruction in a robot to investigate the task of searching for objects. As well as the research performed in this area for the MirrorBot project, the second part of this book incorporates significant contributions from other research in the field of biomimetic robotics. This second part of the book concentrates on the progress made in neuroscience inspired robotic learning approaches (in short: NeuroBotics).

[The 50-year Boom Bust Cycle: The Case for Kondratieff's Long Wave Theory, John Patrick Warren](#) , 1982, 0950040614, 9780950040615.

[The Guilty, Gabriel Boutros](#) , 2012, 1479277754, 9781479277759. Robert Bratt is a lawyer who has always done whatever it took to win his cases. After twenty years of defending the most hardened criminals, many of whom he knew to be guilty, the only thing he can no longer do is look at himself in the mirror. Loosely based on a multiple-murder that shocked Montreal in the 1990s, this riveting story pulls the reader into the inner workings of a murder trial, and reveals what one lawyer must do when he has to defend "The Guilty."

[Cybil Raven Beginnings, Antonio Timbol, Tony Timbol, Crystal Craven, Crystal Craven](#) , 2010, 0983133301, 9780983133308. Cybil Raven Beginnings is an original work. Please enjoy these three tales which briefly introduce Cybil Raven, the central character in the Cybil Raven Chronicles, a new action thriller series. Suspenseful stories that elude to Cybil Raven's military past and powerful connections. These three introductory stories are based on a series of events that occurred in Fallujah, Iraq, a steamy weekend in Savannah, GA and in the Ukraine. First we share Cybil Raven's experience in the desert which sets her on a collision course with a ruthless enemy. Second we get a peek at Cybil's life in Savannah, GA. Then a glimpse of the nature of Cybil's "part-time" work for US government agencies better left nameless. All good stories elicit visual responses from their readers and with this e-book edition we have added selective

hyperlinks (for wifi enabled e-readers) so you can see the real places, events, people and things referenced in the stories. This will be true for the entire Cybil Raven Chronicles. What is real and what is fiction? The author and Cybil's real-life alter-ego will never tell. The first full-length novel in the series, *Cybil Raven: Miracle at St. Rita*, is due for release in the first quarter 2011.

[The Naming Book of Rascally Rhymes, Jordan D. Troutt](#) , 2008, 0978491742, 9780978491741. The Naming Book of Rascally Rhymes is an alphabetically ordered list of common names with whimsical descriptions of each child. Each poem is clever, silly and a delight to read. Here you will find Abigail who has a face that's as sweet as an angel, but when she sings her song, it turns strangely bestial and Ian who ate worms and toads and rocks and snails a la mode. These playful and lively rhymes, illustrated in full-colour by Sarah Preston-Bloor, will appeal to children and adults alike.

[Her Guardian Angel, Felicity Heaton](#) , 2011, 1463788363, 9781463788360. A simple mission becomes a fight for survival in this fantastic instalment in the Her Angel series. A guardian angel dedicated to his duty, Marcus will do whatever Heaven asks of him, but even his loyalty has its limits. When his superior orders him to gain Amelia's trust through seduction, Marcus starts to question his mission and his feelings for the beautiful woman he has watched over since her

birth. Amelia has gone from one bad relationship to another, so when a gorgeous guy moves in next door looking like Mr Right, she hopes he doesn't turn out to be another black knight in disguise. But there's more to Marcus than meets the eye, and when he rescues her from three demonic men, Amelia is thrust into his nightmarish world—a world where God and the Devil exist, and only one angel can save her from death—Marcus, the angel she's falling in love with. On the run from demonic angels and the Devil himself, aided by Marcus's angel friends and their amazing women, fighting for survival against the odds, Marcus and Amelia discover a love that will last forever. A love so strong it will shake Heaven and Hell. Her Guardian Angel is book 4 in the Her Angel romance series. Books 1-3 are available as individual e-books or as the Her Angel paperback anthology. [When Condors Call: A Novel of Peru, Inge Bolin](#) , 2010, 0986629804, 9780986629808. The death of a loved one is painful. Yet, in the high Peruvian Andes ancient beliefs create a mindset within the survivor which mirrors the presence of loved ones and replaces their painful physical absence. This gives way to healing, empowerment and creative energy. This unique way of dealing with life and death is represented in Ayar, a young physician whose exceptional talents have led him to seek a cure for leishmaniasis, a disfiguring disease which ravages many young people who must work in Peru's hot jungles. His research leaps ahead after teaming up with Ica, an American graduate of botany who came to Peru to work with esteemed herbologist Don Rodrigues. Ayar and Ica become inseparable as they survive major cultural shockwaves in the 1980s and 90s when the Shining Path loomed over Peru. Things take a sharp turn as Ayar is suspected of terrorist activities. To avoid bloodshed among the villagers eager to defend him, he and Ica, disguised as ukukus joined the annual pilgrimage to the glaciers of Qoyllur Rit'i. From there Ayar escapes to the deep jungle. Caught between life and death they become ever more deeply enmeshed in ancient Andean ideology. The call of the condors no longer means death, but the beginning of a spiritual bond that is stronger than life.

[The Late Monsieur Gallet, , Georges Simenon](#) , 2014, 0141393378, 9780141393377. The second book in the new Penguin Maigret series: Georges Simenon's devastating tale of misfortune, betrayal and the weakness of family ties, in a new translation by Anthea Bell. Instead of the detail filling itself in and becoming clearer, it seemed to escape him. The

face of the man in the ill-fitting coat just misted up so that it hardly looked human. In theory this mental portrait was good enough, but now it was replaced by fleeting images which should have added up to one and the same man but which refused to get themselves into focus. The circumstances of Monsieur Gallet's death all seem fake: the name the deceased was travelling under and his presumed profession, and more worryingly, his family's grief. Their haughtiness seems to hide ambiguous feelings about the hapless man. In this haunting story, Maigret discovers the appalling truth and the real crime hidden behind the surface of lies. Penguin is publishing the entire series of Maigret novels in new translations. 'Compelling, remorseless, brilliant' John Gray 'One of the greatest writers of the twentieth century . . . Simenon was unequalled at making us look inside, though the ability was masked by his brilliance at absorbing us obsessively in his stories' Guardian 'A supreme writer . . . unforgettable vividness' Independent Georges Simenon was born in Lige, Belgium, in 1903. Best known in Britain as the author of the Maigret books, his prolific output of over 400 novels and short stories have made him a household name in continental Europe. He died in 1989 in Lausanne, Switzerland, where he had lived for the latter part of his life. Anthea Bell is the award-winning translator of numerous French and German works: from the Asterix comics to W. G. Sebald's literary masterpiece Austerlitz.

[Where the Girls Are: Growing Up Female With the Mass Media, Susan Jeanne Douglas](#) , 1994, 0812922069,

9780812922066. *Where the Girls Are* is a romp through the confusing and contradictory images of women in American pop culture, as media critic Susan J. Douglas looks back at the television programs, popular music, advertising, and nightly news reports of the past four decades to reveal the decidedly mixed messages conveyed to girls and women coming of age in America. In a humorous and provocative analysis of our postwar cultural heritage (never losing sight of the essential ludicrousness of flying nuns or identical cousins), Douglas deconstructs these ambiguous messages and fathoms their influence on her own life and the lives of her contemporaries. Douglas tells the story of young women growing up on a steady diet of images that implicitly acknowledged their concerns without directly saying so. It is no accident, she argues, that "girl groups" like the Shirelles emerged in the early 1960s, singing sexually charged songs like "Will You Love Me Tomorrow?"; or that cultural anxiety over female assertiveness showed up in sitcoms like *Bewitched* whose heroines had magical powers; or that the news coverage of the Equal Rights Amendment degenerated into a spat among women, absolving men of any responsibility - a pattern mirrored in shows like *Dallas* and *Dynasty*, where male amorality was overshadowed by the cat-fights between Joan Collins and Linda Evans. And yet for all the images that reinforced a traditional view of servile and dependent women, Douglas powerfully reveals how American mass culture also undermined these images by offering countless examples of girls and women who were actors in the wider world and who controlled their own destinies. In fact, it was the kitsch images of the 1950s and '60s that paradoxically helped to create a genuine feminist consciousness in the 1970s and '80s. The Ronettes, *Gidget*, and *Charlie's Angels* may seem unlikely feminist heroines, but Douglas reclaims them as cultural touchstones for contemporary women trying to make sense of their own lives. Her lively narrative is sure to provoke laughter and wonderment over why no one else had ever noticed these things about America's popular culture. "We must rewatch and relisten", writes Douglas, "but with a new mission: to go where the girls are. It's time to reclaim a past too frequently ignored, hooted at, and dismissed, because it is in these images of women that we find the roots of who we are now". With warmth, wit, and a keen eye for the absurd, *Where the Girls Are* supplies a crucial missing chapter in the cultural history of our time.

[Pale As the Moon, Donna Campbell Smith](#) , 2006, 0975994166, 9780975994160. About book: *Pale as the Moon* unfolds in the 16th century on one of the small, sandy Outer Banks islands off the North Carolina coast. This is the tale of the

enduring friendship between a young Indian girl, Gray Squirrel, and a wild Outer Banks pony. Told primarily from the viewpoint of this visionary young girl, the book examines the tenuous relationship between the native Indians and the English colonists who settled on Roanoke Island. Through both mystical and practical means, Gray Squirrel and her pony manage to prevent war from breaking out, and help the colonists to survive. The story of these achievements is powerful, filled with adventure and distinguished by bravery. Original and imaginative, *Pale as the Moon* offers an alternative understanding of what might have happened to the Lost Colony of the Outer Banks. This well-crafted historical fiction quickly engages the reader and transports not only into the past, but also, with vivid description, surrounds with sound, taste and a clear inviting view of coastal life. Though the story is based on a true historical mystery about an English Colony that disappeared, Campbell Smith's creative interpretation of "what might have happened" makes *Pale As The Moon*, not only a good read, but entices the reader to question what really did happen. Included is a concise bibliography and study questions for teachers who might want to include this book in their curriculum. Topics covered include Native American Life, Early American Colonists and Explorers and the history of the Wild Ponies of North Carolina.

[Sacred and Secular: Religion and Politics Worldwide, Pippa Norris, Ronald Inglehart](#), 2011, 1139499661, 9781139499668. This book develops a theory of existential security. It demonstrates that the publics of virtually all

advanced industrial societies have been moving toward more secular orientations during the past half century, but also that the world as a whole now has more people with traditional religious views than ever before. This second edition expands the theory and provides new and updated evidence from a broad perspective and in a wide range of countries. This confirms that religiosity persists most strongly among vulnerable populations, especially in poorer nations and in failed states. Conversely, a systematic erosion of religious practices, values and beliefs has occurred among the more prosperous strata in rich nations.

[Manifest Your Destiny: The Nine Spiritual Principles for Getting Everything You Want, Wayne W. Dyer](#) , 2013, 0007494971, 9780007494972. Dr. Wayne W. Dyer, affectionately called the "father of motivation" by his fans, is one of the most widely known and respected people in the field of self-empowerment. Manifest Your Destiny is a remarkable guidebook that show us how to obtain what we truly desire. Manifest Your Destiny is a stunning work that focuses on the ancient principle of manifesting through meditation. With characteristic insight and clarity, Dyer teaches the process of meditation as a way to streamline our thoughts, desires, and goals, and to bring what we most desire into our lives. Whether we realise it or not, we all struggle with built-in social barriers that obstruct our inner potential. When we fall into a dream state, we conceive of goals and desires that are more spectacular than those we entertain when 'awake', yet we always wake thinking, 'I can't do that.' It is this conditioned response that prevents us from achieving what we want, and it is this response that Dyer teaches us to overcome through the Nine Spiritual Principles of Manifesting, which clear away what constricts us and illuminate a new path to achieving our truest goals.

[Anti-Americanism: critiques at home and abroad, 1965-1990, Paul Hollander](#) , 1992, 019503824X, 9780195038248. Why is it that while millions of people all over the world dream about living in the United States, many American intellectuals believe that this is a uniquely deformed and unjust society? Why do college students today have greater pride in their country than many of their teachers? How did the radical beliefs of the '60s survive and become, for many Americans, the new conventional wisdom? How is it possible that while communist systems are collapsing and seek a market economy, critics in the United States remain convinced of the evils of capitalism? Why are there more Marxists on any handful of American campuses than all over Eastern Europe or the Soviet Union? How can we explain that for important opinion makers at home and abroad, the United States has become a symbol of waste, greed, corruption, social injustice, and arrogance? While anti-Americanism abroad has been often noted and sometimes lamented, until now it has not been closely examined nor compared to domestic social criticism. Paul Hollander's volume is the first systematic study of this phenomenon both in its domestic and foreign aspects. Making use of a vast amount of information (ranging from surveys, mass media, popular culture, novels, the literature of social criticism, and social scientific studies), Hollander separates the justified critiques of the United States from anti-Americanism, which he defines as a biased predisposition against American society, culture, or U.S. foreign policy, an attitude he compares to other hostile predispositions such as sexism, racism, or anti-Semitism. Domestic anti-Americanism is found mostly among academic and literary intellectuals, the left-leaning clergy, and people associated with the mass media--more generally among those who came of age in the 1960s. Despite more than a decade of Republican presidents, the author argues that many taken-for-granted beliefs of our times can be traced back to the adversarial spirit of the '60s. What once was daring social criticism has become the new orthodoxy, or what has come to be known as "politically correct behavior." The latter also finds expression in the increasingly widespread "multicultural" or "cultural diversity" studies, which combine hostility toward American society with aversion toward Western culture as a whole. Also symptomatic of these attitudes was the love affair of the American left with Marxist-Leninist Nicaragua reminiscent of the political pilgrimages of the past which the author has also written about in his widely praised Political Pilgrims. Born in Hungary and educated in Hungary, England, and the United States, the author has written extensively about the Soviet Union, Eastern Europe, and the United States. In this study he seeks to balance a critical analysis of anti-Americanism with the recognition that the modernity the U.S. spreads and symbolizes can sometimes be viewed with justified apprehension. Anti-Americanism is a lively and provocative volume which will elicit some impassioned responses, much discussion, and controversy.

[The Confidence Plan: How to Build a Stronger You, Tim Ursiny](#) , 2005, 1402233124, 9781402233128. Few other factors impact your life as much as your personal confidence. The Confidence Plan is a revolutionary guide that gives you a step-by-step process for building a more confident you. This smart and practical book addresses five essential paths to help you boost your self-confidence. Many people want to grow in confidence, but they try to do it without a plan. And while most confidence books may make you temporarily feel good, they fail to give you concrete ways to grow. The Confidence Plan changes that by offering a six-week practical program for taking your confidence to the next level. Using examples of unstoppable people whose mindsets have become even stronger than before, Dr. Tim Ursiny shows how you can do the same by following a step-by-step program focusing on:

- o Mental strategies for forming beliefs that lead to peak performance
- o Emotional approaches for feeling a deep confidence
- o Behavioral tactics for creating actions that lead to success
- o Relationship factors to develop a community that recharges you
- o Spiritual centeredness that creates unbreakable confidence by living your purpose and mission

Dr. Tim's unique, holistic approach guides you through the science and habit of optimism and success, including:

- o Research on what makes people happy and successful
- o Links to free guides and resources for trainers, coaches and individuals
- o Practical, immediate action steps for busy people.

No matter what your current level of confidence, The Confidence Plan can help you take it to the next level.

[Financial Wisdom: Personal Finance and Career Skills to Guide Teens and Young Adults on Their Journey to Success and Happiness, Volume 1, Joetta Forsyth](#) , 2011, 0983468605, 9780983468608. This Unique Textbook Trains High-Achieving Teens and Young Adults in Personal Finance and Career Skills at a Very Sophisticated Level. The author is Dr. Joetta Forsyth, a Harvard Ph.D. and Harvard Business School graduate. She is currently a professor of finance at Pepperdine University. This textbook provides high-achieving teens and young adults the tools to:

- o Have sophisticated conversations with financial advisors.
- o Understand most loans as well as any consumer loan officer.
- o Do detailed financial planning and forecasting in Excel.
- o Know how to build wealth for retirement.
- o Start their career off on the right foot when they graduate from college.
- o Become wise at an early age about spending.
- o Anticipate financial risk and avoid financial pressures, reducing the likelihood of divorce.

Homeschoolers will find this textbook to be ideal for fostering learning between parent and child. Parents will want to use this book as a powerful personal finance reference. The chapters on financing college, mortgages, and retirement are especially helpful. The textbook is customized for bright young adults, ideally in their last two years of high school or first two years of college. It starts with beginning basics, but quickly moves into advanced concepts. It has fun, fascinating, stories from life throughout, that will instill street smarts and help the student absorb the material. Colorful pictures and graphics enhance the learning process. The result is a highly educational, entertaining, and carefully crafted subject matter, designed to "tune up" young people in anticipation of adulthood. Most college-level

finance textbooks cost well over \$200. We are delighted to offer ours for only \$87.99.

[Israel's Messiah and the People of God: A Vision for Messianic Jewish Covenant Fidelity, Mark S. Kinzer](#) , 2011, 1606088831, 9781606088838. Israel's Messiah and the People of God presents a rich and diverse selection of essays by theologian Mark Kinzer, whose work constitutes a pioneering step in Messianic Jewish theology. Including several pieces never before published, this collection illuminates Kinzer's thought on topics such as Oral Torah, Jewish prayer, eschatology, soteriology, and Messianic Jewish-Catholic dialogue. This volume offers the reader numerous portals into the vision of Messianic Judaism offered in Kinzer's Postmissionary Messianic Judaism (2005). An introductory essay by editor Jennifer M. Rosner sets Kinzer's thought and writings in context.

[An Introduction to Political Philosophy, Colin Bird](#) , 2006, 1139459694, 9781139459693. Providing a comprehensive introduction to political philosophy, this 2006 book combines discussion of historical and contemporary figures, together with numerous real-life examples. It ranges over an unusually broad range of topics in the field, including the just distribution of wealth, both within countries and globally; the nature and justification of political authority; the meaning and significance of freedom; arguments for and against democratic rule; the problem of war; and the grounds for toleration in public life. It also offers an accessible, non-technical discussion of perfectionism, utilitarianism, theories of the social contract, and of recently popular forms of critical theory. Throughout, the book challenges readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science.

[Working Women in America: Split Dreams, , Sharlene Nagy Hesse-Biber, Gregg Lee Carter](#) , 2000, 0195110242,

9780195110241. Working Women in America studies the dramatic growth in women's labor force participation with an eye toward understanding what the actual experience of working women is today. The book offers a broad perspective on the diversity of women and their work and it raises the need to rethink ideas concerning work, family, and gender roles in order to help solve women's work and family life dilemmas. The central argument of the book is that in order to understand the position of women in the work world, one must analyze women's situation in the economy, the family, education, and the polity -- in short, within society at large -- because these various social institutions connect, reflect, and influence one another. The authors begin with an historical perspective on women at work which recognizes the importance of the economic and legal. dimensions of women's work lives. This book lays the groundwork for a further examination of the particular work situations of women and a recognition that the diversity of woman's work experiences are formed by racial, class, and other such inequalities. Working Women in America intersperses first-person accounts throughout, the book and provides a number of vignettes of women employed in a variety of occupations.

[Popular Culture in Ancient Rome, J. P. Toner](#) , 2009, 0745643108, 9780745643106. The mass of the Roman people constituted well over 90% of the population. Much ancient history, however, has focused on the lives, politics and culture of the minority elite. This book helps redress the balance by focusing on the non-elite in the Roman world. It builds a vivid account of the everyday lives of the masses, including their social and family life, health, leisure and religious beliefs, and the ways in which their popular culture resisted the domination of the ruling elite. The book highlights previously under-considered aspects of popular culture of the period to give a fuller picture. It is the first book to take

fully into account the level of mental health: given the physical and social environment that most people faced, their overall mental health mirrored their poor physical health. It also reveals fascinating details about the ways in which people solved problems, turning frequently to oracles for advice and guidance when confronted by difficulties. Our understanding of the non-elite world is further enriched through the depiction of sensory dimensions: Toner illustrates how attitudes to smell, touch, and noise all varied with social status and created conflict, and how the emperors tried to resolve these disputes as part of their regeneration of urban life. Popular Culture in Ancient Rome offers a rich and accessible introduction to the usefulness of the notion of popular culture in studying the ancient world and will be enjoyed by students and general readers alike.

[The Raw Food Diet Myth: What You Need to Know about the Raw and Living Food Lifestyle to Improve Your Health, Fitness, and Life, Ruthann Russo](#) , 2008, 0979906121, 9780979906121. Raw food is not just a diet. It is a revolutionary philosophy. The purpose of this book is to introduce you to the revolutionary philosophy of raw and living foods by pulling together all of the components, including, but not limited to, diet, into one place. The book provides you with information to make a conscious decision about whether you will, or perhaps already have, incorporated any of the raw and living food philosophy into your own philosophy of living.

Seventeen people in Dance Township, Ontario, lost their lives as did one man in International Falls, Minnesota. In addition to telling a story of disaster and near disaster, the authors examine what life was like for settlers on one of North America's last frontiers."--pub. desc.

[Legend, Mad Andy](#) , 2006, 0977994414, 9780977994410. This sweeping tale of loss, love and pride touches on forbidden boundaries while giving the reader a taste of what used to be, and tying it into what shall come. Legend is alternate universe band fiction at its best.

[As Ever Yours, C. B.: One Man's Struggle to Keep His Family Alive During World War I, Sharon Bruneel](#) , 2006, 0978615107, 9780978615109.

[The Last of Cheri, Colette](#) , 2001, 0099422778, 9780099422778. At the end of Cheri the young Cheri left his aging mistress La on the eve of his marriage. Having served in the army during the war Cheri returns to Paris haunted by memories of his carefree youth and the bounty of his benevolent mistress. In the post-war 1920's he finds it impossible to settle down to a new life with his efficient and entrepreneurial wife and friends. As his looks and his reputation begin to deteriorate Cheri's life is thrown into crisis as he attempts to recapture the contentment and companionship of his luxurious youth. As Cheri and La confront each other, and the changes a decade has wrought on their lives and their looks, Colette displays the incredible sensitivity and insight for which she is justly famous.

[Delusions and Other Irrational Beliefs, Lisa Bortolotti](#) , 2010, 0199206163, 9780199206162. Delusions are a common symptom of schizophrenia, dementia and other psychiatric disorders. Though delusion is commonly defined as a false

and irrational belief, there is currently a lively debate about whether delusions are really beliefs and indeed, whether they are even irrational. The book is an interdisciplinary exploration of the nature of delusions. It brings together the psychological literature on the aetiology and the behavioural manifestations of delusions, and the philosophical literature on belief ascription and rationality. The thesis of the book is that delusions are continuous with ordinary beliefs, a thesis that could have not only significant theoretical implications for debates in the philosophy of mind and psychology, but also practical implications for psychiatric classification and the clinical treatment of subjects with delusions. Based on recent work in philosophy of mind, cognitive psychology and psychiatry, the book offers a comprehensive review of the philosophical issues raised by the psychology of normal and abnormal cognition, defends the doxastic conception of delusions, and develops a theory about the role of judgements of rationality and self-knowledge in belief ascription.

[Culture and Group Processes, Masaki Yuki, Marilyn Brewer](#) , 2013, 0199985472, 9780199985470. Human beings are adapted for group living. Groups have a wide range of adaptive functions for individuals, including both material benefits of mutual aid and collective action, and subjective psychological benefits of affiliation and social identity. Recent development of cultural psychology, however, has uncovered that culture plays crucial roles in group processes: patterns of group behavior and underlying psychological processes are shaped within specific cultural contexts, and cultures emerge in group-based interactions. Culture and Group Processes, the inaugural volume of the Frontiers of Culture and Psychology series, is the first edited book on this rapidly emerging research topic. The eleven chapters included in this volume, all authored by distinguished scientists in the field, reveal the role of culture in group perceptions, social identity, group dynamics, identity negotiation, teamwork, intergroup relations, and intergroup communication, as well as the joint effect of cultural and group processes in interpersonal trust and creativity.

[Above Palm Canyon and Other Places in the Mind, Per K. Brask](#) , 2013, 1927663008, 9781927663004. Road trips from Manitoba, Canada, to Palm Springs, CA, inspire these poetic meditations by Danish-born, Canadian poet, playwright, essayist and dramaturge Per K. Brask. Composed in accessible plain speech, this collection of 37 poems is grouped thematically into three sections, offering a poetic travelogue of the journey and its destination ("On the Road" and "Palm Springs"), along with meditations on life at home in Winnipeg, Canada ("In Between"). Readers will enjoy the poets personal reflections on such offbeat locales as Fargo, ND, and Missoula, MT, as well as his meditations inspired by hikes with his wife on the trails in the Sonoran Desert around Palm Springs.

[Water on Mars, Michael H. Carr](#) , 1996, 0195099389, 9780195099386. Mars has always held a special interest because of the possibility that life may have existed there, and its water history is crucial to understanding its geology, climatology, and biology. Moreover, recent studies in molecular phylogeny suggest that volcanic hot springs, which may have been common in early Mars, are also the most likely point of origin for life on Earth. In this book, Dr. Carr explores the history of water on Mars, including evidence that liquid water was once abundant at the planet's surface; ways in which the climate might have changed to accommodate liquid water; and what an abundance of water implies for the formation of Mars and other planets, including Earth. The book's argument rests on interpretation of data acquired on Viking missions, and on information from meteorites, found on Earth, that almost certainly originated on Mars. Because liquid water is universally regarded as essential for life, the water story has particular biological significance, with important implications for the future exploration of the planet, and should be a valuable study for geologists and planetary scientists.

[Fasti, Anne Wiseman](#) , 2013, 0191641952, 9780191641954. 'Times and their reasons, arranged in order through the Latin year, and constellations sunk beneath the earth and risen, I shall sing.' Ovid's poetical calendar of the Roman year is both a day by day account of festivals and observances and their origins, and a delightful retelling of myths and legends associated with particular dates. Written in the late years of the emperor Augustus, and cut short when the emperor sent the poet into exile, the poem's tone ranges from tragedy to farce, and its subject matter from astronomy and obscure ritual to Roman history and Greek mythology. Among the stories Ovid tells at length are those of Arion and the dolphin, the rape of Lucretia, the shield that fell from heaven, the adventures of Dido's sister, the Great Mother's journey to Rome, the killing of Remus, the bloodsucking birds, and the murderous daughter of King Servius. The poem also relates a wealth of customs and beliefs, such as the unluckiness of marrying in May. This new prose translation is

lively and accurate, and is accompanied by a contextualizing introduction and helpful notes. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

[HarperCollins German College Dictionary 3rd Edition, HarperCollins Publishers](#) , 2003, 0060515325, 9780060515324. The HarperCollins German College Dictionary is a standout -- you're holding the best buy on the shelf in your hands right now. Here's why: Easiest to use: This fully revised and updated edition of the HarperCollins German College Dictionary offers in-depth treatment of all areas of language dealing with modern life with particular emphasis given to fields such as business, computing, and new technology, where language developments are most evident. The new edition shows German and English exactly as they are written and spoken today. Idiomatic expressions are highlighted, helping the user to find what he or she is looking for as quickly as possible. In addition, this new edition includes all the latest German spelling. Consistently updated: HarperCollins dictionaries are updated on a regular basis, giving you the edge in reading, writing, and understanding the language. "German in Action" supplement: Invaluable advice on how to express yourself in correct and idiomatic German, as well as special entries on Germany and the German-speaking world.

[Subsidiary Assessment: Distribution of Food Products to Deprived Persons, 23rd Report of Session 2010-12, House of](#)

[Lords Paper 217 Session 2010-12, Stationery Office \(Great Britain\)](#) , 2011, 0108473929, 9780108473920. Based on the reasons set out in the European Union Committee's 2nd report, session 2010-11, HL Paper 44 (ISBN 9780108472756) the House of Lords submitted a reasoned opinion on the EU proposal regarding distribution of food products to the most deprived persons in the Union. The Lords believed the proposal did not comply with the principle of subsidiarity. The EU has now put forward an amended proposal, but the Committee still finds incompatibility with the principle of subsidiarity. There appears to be no compelling argument to suggest that the Union is better placed than member states to ensure a food supply to its most deprived citizens.

[Environmental Change, Andrew Goudie](#) , 1983, 0198741324, 9780198741329. We are in the grip of global warming, we are told: sea-levels are rising, glaciers are melting, meteorological events are becoming more extreme. But are these differences really a deviation from the norm, or are they merely part of an ongoing cycle of change? How can they be put into perspective?

[The Birth of the Palestinian Refugee Problem, 1947-1949, Benny Morris](#) , 1989, 0521338891, 9780521338899. This book is the first full-length study of the birth of the Palestinian refugee problem. Based on recently declassified Israeli, British and American state and party political papers and on hitherto untapped private papers, it traces the stages of the 1947-9 exodus against the backdrop of the first Arab-Israeli war and analyses the varied causes of the flight. The Jewish and Arab decision-making involved, on national and local levels, military and political, is described and explained, as is the crystallisation of Israel's decision to bar a refugee repatriation. The subsequent fate of the abandoned Arab villages, lands and urban neighbourhoods is examined. The study looks at the international context of the war and the exodus, and describes the political battle over the refugees' fate, which effectively ended with the deadlock at Lausanne in summer 1949. Throughout the book attempts to describe what happened rather than what successive generations of Israeli and Arab propagandists have said happened, and to explain the motives of the protagonists.

[Kant and the Exact Sciences, Michael Friedman](#) , 1992, 0674500350, 9780674500358. Kant sought throughout his life to provide a philosophy adequate to the sciences of his time--especially Euclidean geometry and Newtonian physics. In this new book, Michael Friedman argues that Kant's continuing efforts to find a metaphysics that could provide a foundation

for the sciences is of the utmost importance in understanding the development of his philosophical thought from its earliest beginnings in the thesis of 1747, through the Critique of Pure Reason, to his last unpublished writings in the Opus postumum. Previous commentators on Kant have typically minimized these efforts because the sciences in question have since been outmoded. Friedman argues that, on the contrary, Kant's philosophy is shaped by extraordinarily deep insight into the foundations of the exact sciences as he found them, and that this represents one of the greatest strengths of his philosophy. Friedman examines Kant's engagement with geometry, arithmetic and algebra, the foundations of mechanics, and the law of gravitation in Part One. He then devotes Part Two to the Opus postumum, showing how Kant's need to come to terms with developments in the physics of heat and in chemistry formed a primary motive for his projected Transition from the Metaphysical Foundations of Natural Science to Physics. Kant and the Exact Sciences is a book of high scholarly achievement, argued with impressive power. It represents a great advance in our understanding of Kant's philosophy of science.

[Andrew Jackson and His Tennessee Lieutenants: A Study in Political Culture, ISSN 0084-9219, Lorman Ratner](#) , 1997, 0313299587, 9780313299582. Andrew Jackson and those Tennesseans who, along with him, were a major force in Tennessee and American political life can best be understood by examining the political culture they all shared. The ten men studied here were the children or grandchildren of immigrants from either the Scottish lowlands or the north of Ireland. All experienced the rise from the yeoman/artisan class to that of landed gentry, and all displayed in their adult lives the influence of that move from one socioeconomic class to another. This view of Jackson and his closest friends suggests a view of these men's motives; their values, attitudes, and beliefs were somewhat different than historians have pictured for us. These Jacksonians sought to preserve the world of their fathers while changing their place in the world. They looked back but moved ahead; they were self-interested but tempered always by a selfless ideal.

[The Space Between Us, Thrity Umrigar](#) , 2009, 0061752606, 9780061752605. Each morning, Bhima, a domestic servant in contemporary Bombay, leaves her own small shanty in the slums to tend to another woman's house. In Sera Dubash's home, Bhima scrubs the floors of a house in which she remains an outsider. She cleans furniture she is not permitted to sit on. She washes glasses from which she is not allowed to drink. Yet despite being separated from each other by blood and class, she and Sera find themselves bound by gender and shared life experiences. Sera is an upper-middle-class Parsi housewife whose opulent surroundings hide the shame and disappointment of her abusive marriage. A widow, she devotes herself to her family, spending much of her time caring for her pregnant daughter, Dinaz, a kindhearted, educated professional, and her charming and successful son-in-law, Viraf. Bhima, a stoic illiterate hardened by a life of despair and loss, has worked in the Dubash household for more than twenty years. Cursed by fate, she sacrifices all for her beautiful, headstrong granddaughter, Maya, a university student whose education -- paid for by Sera -- will enable them to escape the slums. But when an unwed Maya becomes pregnant by a man whose identity she refuses to reveal, Bhima's dreams of a better life for her granddaughter, as well as for herself, may be shattered forever. Poignant and compelling, evocative and unforgettable, *The Space Between Us* is an intimate portrait of a distant yet familiar world. Set in modern-day India and witnessed through two compelling and achingly real women, the novel shows how the lives of the rich and the poor are intrinsically connected yet vastly removed from each other, and vividly captures how the bonds of womanhood are pitted against the divisions of class and culture.

[Compensation Agency: Annual Report and Accounts, Compensation Agency](#) , 2003, 0102924600, 9780102924602. [Marked, Elisabeth Naughton](#) , 2012, 146808299X, 9781468082999. Theron Dark haired, duty bound and deceptively deadly. He's the leader of the Argonauts, an elite group of guardians that defends the immortal realm from threats of the Underworld. From the moment he walked into the club, Casey knew this guy was different. Men like that just didn't exist in real life. Silky shoulder-length hair, chest impossibly broad, and a predatory manner that just screamed dark and dangerous. He was looking for something. Her. She was the one. She had the mark. Casey had to die so his kind could live, and it was Theron's duty to bring her in. But even as a 200-year-old descendent of Hercules, he wasn't strong enough to resist the pull in her fathomless eyes, to tear himself away from the heat of her body. As war with the Underworld nears, someone will have to make the ultimate sacrifice.

[Math for Health Care Professionals Quick Review, Michael Kenamer](#) , 2004, 1401880053, 9781401880057. Math for Health Care Professionals Quick Review is perfect for the learner who needs a refresher on math concepts pertaining to health care. A quick review of concepts is included in each chapter and then there are numerous practice problems for the learner to solve and get reacquainted with the various math concepts. While the fundamentals of mathematics are foundational to this book, their application to health care is emphasized. Drug dosages, intake and output, weights and measures, temperatures, IV drip rates, and conversions are a focus. Illustrations of syringes, prescriptions, medication labels, IV bags, and I and O charts allow the reader to practice real-life health care skills requiring mathematics. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Back to School with Betsy,](#) , 2004, 0152051058, 9780152051051. Carolyn Haywood's stories about her irrepressible character Betsy have never been out of print, and now, thanks to dynamic new covers, the Betsy books will find their way onto the bookshelves of modern young readers--and into the hearts of a whole new generation. Third grade begins with disappointment--Betsy's beloved teacher, Miss Grey, won't be teaching anymore. But the new year is packed with fun and surprises, including one great piece of news that Betsy declares is about "the wonderfulest thing that ever happened."

[Tiger: A True Champion, Wayne Memmer](#) , 1992, 0944957323, 9780944957325. After his father's death Greg found it hard, but making the school basketball team made him feel on top of the world. When Greg missed a shot that would have won the game, he was consoled by his mother and his dog. Greg regained his confidence and proved on the basketball court that if one never quits, one can be a winner in the end.

[Riptide, Debbi Mack](#) , 2012, 0982950853, 9780982950852. Lawyer Stephanie Ann "Sam" McRae's stay in Ocean City for

the annual Maryland bar association convention turns into a busman's holiday when her best friend Jamila is arrested for a murder she didn't commit. All signs point to a frame, but Jamila's local counsel must plea bargain, placing a permanent stain on the ambitious attorney's spotless record, unless Sam and the private investigator on the case find evidence to clear her. Sam has her work cut out for her, since the victim is the stepson of a local wealthy entrepreneur and poultry producer and no one will talk to her, including their own investigator. Even Jamila appears to be withholding information. Meanwhile, Sam's running from mysterious pursuers and comes under police scrutiny when another murder takes place. With the clock ticking down to the convention and preliminary hearing, Sam must uncover secrets, lies, and fraud to find the real killer. At what cost will that knowledge come for Sam?

[Tranquility, Attila Bartis](#) , 2008, 0980033004, 9780980033007. Tranquility is a living seismograph of the internal quakes and ruptures of a mother and son trapped within an Oedipal nightmare amidst the suffocating totalitarian embrace of Communist Hungary. Andor Wer, a thirty-six-year-old writer, lives in a cramped apartment with his shut-in mother, Rebeka, who was once among the most celebrated stage actresses in Budapest. Unable to withstand her maniacal tyranny but afraid to leave her alone, their bitter interdependence spirals into a Sartrean hell of hatred, lies, and appeasement. Then Andor meets the beautiful and nurturing Eszter, a woman who seems to have no past, and they fall wildly in love at first sight. With a fulfilling life seemingly within reach for the first time, Andor decides that he is ready to bring Eszter home to meet Mother. Though Bartiss characters are unrepentantly neurotic and dressed in the blackest humor, his empathy for them is profound. A political farce of the highest ironic order, concluding that "freedom is a condition unsuitable for humans," Tranquility is ultimately, at its splanchnic core, a complex psychodrama turned inside out, revealing with visceral splendor the grotesque notion that there's nothing funnier than unhappiness.

[The Big White Lie, Michael Levine](#) , 2012, 0985238623, 9780985238629. In *The Big White Lie*, Michael Levine, former DEA agent and bestselling author of *Deep Cover*, leads the reader through a decade of undercover work. Levine's prose is fast-moving, highly readable, and hard-hitting. He tells how the beautiful South American "Queen of Cocaine" seduced the CIA into protecting her from prosecution as she sold drugs to Americans; how CIA-sponsored paramilitary ousted, tortured, and killed members of a pro-DEA Bolivian ruling party; and how the CIA created La Corporacion, the "General Motors of cocaine," which led directly to the current cocaine/crack epidemic. As a 25-year veteran agent for the DEA, Michael Levine worked deep-cover cases from Bangkok to Buenos Aires, and witnessed firsthand scandalous violations of

9780979651359. Seventeen-year-old Chas Riley who is no taller than the average five year old seeks the love of Katrina Waters. Chas struggles with self-esteem issues, a heart condition, and the aftereffects of terrorism. Will Katrina view Chas as a real man? Or will she pursue tall, bronze-toned Bert Moro, an FBI mole who is never around when she needs him? However, the central issue is not how others view Chas, but how Chas views himself. This sequel to Spiderling is set in New Hampshire, Maine, and Massachusetts.

[Race and the Writing of History: Riddling the Sphinx, Maghan Keita](#) , 2000, 0195112741, 9780195112740. Despite increased interest in recent years in the role of race in Western culture, scholars have neglected much of the body of work produced in the nineteenth and twentieth centuries by black intellectuals. For example, while DuBois' thoughts about Africa may be familiar to contemporary academics, those of his important precursors and contemporaries are not widely known. Similarly, although contemporary figures such as Martin Bernal, Molefi Assante, and other "Afrocentrists"

are the subject of heated debate, such debates are rarely illuminated by an awareness of the traditions that preceded them. *Race and The Writing of History* redresses this imbalance, using Bernal's *Black Athena* and its critics as an introduction to the historical inquiries of African-American intellectuals and many of their African counterparts. Keita examines the controversial legacy of writing history in America and offers a new perspective on the challenge of building new historiographies and epistemologies. As a result, this book sheds new light on how ideas about race and racism have shaped the stories we tell about ourselves.

[Your Voice in My Head, Emma Forrest](#), 2012, 1408822067, 9781408822067. Emma Forrest, an English journalist, was twenty-two and living in America when she realised that her quirks had gone beyond eccentricity. Lonely, in a dangerous cycle of self-harm and damaging relationships, she found herself in the chair of a slim, balding and effortlessly optimistic psychiatrist - a man whose wisdom and humanity would wrench her from the vibrant and dangerous tide of herself, and who would help her to recover when she tried to end her life. Emma's loving and supportive family circled around her in panic. She was on the brink of drowning. But she was also still working, still exploring, still writing, and she had also fallen deeply in love. One day, when Emma called to make an appointment with her psychiatrist, she found no one there. He had died, shockingly, at the age of fifty-three, leaving behind a young family. Processing the premature death of a man who'd become her anchor after she'd turned up on his doorstep, she was adrift. And when her significant and all-consuming relationship also fell apart, she was forced to cling to the page for survival. A modern-day fairy tale of New York, *Your Voice in My Head* is a dazzling and devastating memoir, clear-eyed and shot through with wit. In a voice unlike any other, Emma Forrest explores breakdown and mania, but also the beauty of love - and the heartbreak of loss.

[The Egg and Other Stories, Sherwood Anderson](#), 1998, 014118079X, 9780141180793. Malcolm Cowley called Sherwood Anderson "the only storyteller of his generation who left a mark on the style and vision of the generation that followed....Hemingway, Faulkner, Wolfe, Steinbeck...each owes an unmistakable debt to Anderson". This collection of stories -- much praised upon its hardcover publication in 1992 -- offers the best of Anderson's mature work. Anderson

profoundly changed the American short story, transforming it from light, popular entertainment into literature of the highest quality. His art belonged as much to an oral as a written tradition, and, as this collection shows, the best of his stories echo the language and the pace of a man talking to his friends. They explore with penetrating compassion the isolation of the individual and capture the emotional undercurrents hidden beneath ordinary events.

[Johnstown, my uncle and the flood: a fresh and eyewitness narrative of a community as its destiny unfolds, Phil Walters](#)

, 1989, 0962213705, 9780962213700. An individual's growing up in Johnstown & his experience in the country's great flood tragedy of 1889. "More than just an eyewitness account of that disaster...folksy, nostalgic reading peppered with down-home humor"--PITTSBURGH PRESS. "...Brings us a unique eyewitness account, unpublished until now -1989- of a catastrophe which captured worldwide attention a century ago, just as the story of Gomer Walters (1860-1953) will capture yours."--THE FREE PRESS INDEPENDENT, Braddock, Pa. "If you like to read history books with stories intermittent within, you will love this book."--THE MORRISONS COVE HERALD. "Much of this story is told using the old man's (Gomer Walters) colorful & amusing phrases, which are themselves vestiges of the past."--PIKE COUNTY DISPATCH. "One of the more readable offerings...the author talked to his Uncle Gomer, who floated through town on the high waters...you get a solid feel for the later Victorian era...the bottom line is the flood. Its description is a valuable addition to the whole field of study...Good Job!"--THE MCKEESPORT DAILY NEWS. "Looking for a bit of reading that's not too long, but informative & timely? Phil Walters has come up with the perfect answer to such a quest."--THE KITTANNING LEADER TIMES. "...First-hand account of the feeling of hopelessness that immediately followed the disaster."--CARLISLE SENTINEL.

[Open Sesame, Carol Cellman](#) , 1986, 0194342638, 9780194342636. Open Sesame is a full-color series for children, featuring the world-famous Sesame Street characters. This resource level book can be used independently or in conjunction with other books in the series.

[I Survived the Holocaust: My Life in Poetry, Renate Kaufmann](#) , 2012, 098552412X, 9780985524128. Artist and poet, Renate Kaufmann, expresses what it was like living through the bombing and the hiding and then through all the sorrow and confusion in the war-torn aftermath. She also tells how, later in life, she came to know her Jewish Messiah in a deeper way. Renate did not learn English until she came to America as an adult, yet she writes beautiful poems in what is not her mother tongue—all for the glory of the Lord! Some of the titles of her poems are: "What Is Peace?" "Why Hate The Jews?" "What Is A Home?" "Mama, Is There Life After Death?" "My Hiding Place" "Who Am I?" "Why G-d Why?" "I Found The Truth" "Not An Alien Anymore" "Let's Be Women Of Influence" "Shalom To You." Renate, a child Holocaust survivor, lives in Rochester, New York, and is in the process of immigrating to Israel. She has been denied citizenship by the Israeli government because of her belief in Yeshua as Messiah. Her court case is currently being handled by the Jerusalem Institute for Justice. Funds from the sale of this book will go to help her cause. Winning her case will help set a precedent for other Jewish believers.

[Save the World on Your Own Time, Stanley Fish](#) , 2012, 0199892970, 9780199892976. What should be the role of our institutions of higher education? To promote good moral character? To bring an end to racism, sexism, economic oppression, and other social ills? To foster diversity and democracy and produce responsible citizens? In *Save the World On Your Own Time*, Stanley Fish argues that, however laudable these goals might be, there is but one proper role for the academe in society: to advance bodies of knowledge and to equip students for doing the same. When teachers offer themselves as moralists, political activists, or agents of social change rather than as credentialed experts in a particular subject and the methods used to analyze it, they abdicate their true purpose. And yet professors now routinely bring their political views into the classroom and seek to influence the political views of their students. Those who do this will often invoke academic freedom, but Fish suggests that academic freedom, correctly understood, is the freedom to do the academic job, not the freedom to do any job that the professor so chooses. Fish insists that a professor's only obligation is "to present the material in the syllabus and introduce students to state-of-the-art methods of analysis. Not to practice

politics, but to study it; not to proselytize for or against religious doctrines, but to describe them; not to affirm or condemn Intelligent Design, but to explain what it is and analyze its appeal." Given that hot-button issues such as Holocaust denial, free speech, and the Israeli-Palestinian conflict are regularly debated in classrooms across the nation, Save the World On Your Own Time is certain to spark fresh debate--and to incense both liberals and conservatives alike--about the true purpose of higher education in America. "A vigorous defense of that abstemious understanding of the teacher's task, laced with numerous examples of its egregious violation." --First Things "Exhilarating, the thought polished and white-hot, this book makes the reader think and often wince, especially teachers like me who have aged out of the intellectual into the easy and congenial. A close reading of Save the World should purge much nonsense from classrooms." --Sam Pickering, author of Letters to a Teacher

[The Alice Stories, Jesse Lee Kercheval](#) , 2007, 080321135X, 9780803211353. Wisconsin is not where Alice, a girl raised in Florida, meant to end up. But when she falls in love with Anders Dahl, a descendant of Norwegian farmers born for generations in the same stone farmhouse, she realizes that to love Anders is to settle into a life in Wisconsin in the small house they buy before their daughter, Maude, is born. Together, Alice and Anders move forward into a life of family, friends, and the occasional troubled student until they face their biggest challenge. Winner of the Prairie Schooner Book Prize in Fiction, Jesse Lee Kercheval's The Alice Stories tells the tale of a family: the pain of loss and the importance of the love of friends in the midst of turmoil. As timely as the news yet informed by rich humor and a deep understanding of human character, the interlinked Alice Stories form a luminous tale of family life.

[Information Transmission, Modulation, and Noise, Mischa Schwartz](#) , 1990, 0070559090, 9780070559097. The fourth edition of Information Transmission, Modulation, and Noise offers comprehensive coverage of communication systems and networks. While retaining the emphasis on point-to-point digital communications of the previous edition, this revision adds a basic presentation of data and circuit-switched (telephone) networks. The material uses local area networks (LANs) as the key example. The material is first presented in a qualitative fashion, with examples drawn from real networks and systems, to spur the reader's interest and show its relevance. A quantitative analysis then follows, in this case using queueing theory. Also included in the book is a discussion of modern lightwave (fiber optic) transmission systems. This section begins with a discussion of the DS3 (45 Mbits/s) transmission format, continues with a discussion of SONET, the new optical transmission format hierarchy, and is then followed by quantitative sections deriving performance limits for various types of coherent optical communication. The book also features material on convolutional coding, including a performance evaluation of Viterbi decoders, with an application example drawn from a recent space mission; trellis coding, Minimum Shift Keying (MSK); and QAM techniques applied to digital radio.

[Turfgrass Management: Student Value Edition, A. J. Turgeon](#) , 2011, 0137074409, 9780137074402. Highly regarded for its thorough coverage of turfgrass science and technology, Turfgrass Management, Ninth Edition, addresses the important features of turfgrass systems, interactions, and management. Rich with illustrations, this book unlocks the mysteries of turf and establishes the role of cultural interventions in achieving specific objectives. Among its many updates, this new edition features expanded coverage of history of turf, anatomy and morphology, climatic adaptation, and soil physics.

[Decoding China: A Handbook for Traveling, Studying, and Working in Today's China, Matthew B. Christensen](#) , 2013, 0804842671, 9780804842679. Don't just go to Chinaconnect with it!Going to China for the first time can be an intimidating experience, even for those who have studied the language. In fact, traveling to China for the second, third, or fourth time can also be a challenging experience, especially if you intend to be fully immersed in daily life, get off the beaten path, and experience the "real" China.This book is about how to get things done in China. Decoding China gives you down-to-earth information on how to deal with everyday situationslike eating at a restaurant or shopping at an outdoor marketthat present unique and unexpected challenges for foreign visitors. Why being polite when you board a bus is a big mistakeFinding a toilet (and what to bring along!)How to bargain for anything in a Chinese marketWhich train ticket to buyhard seat? Soft seat?How the Chinese view privacy, and why it may make you seem suspiciousWorking in a

Chinese office, and the politics of lunch. As the Academic Director at the Chinese Flagship Center of Brigham Young University, Dr. Matthew B. Christensen has seen countless foreigners arrive in China and fail to accomplish simple tasks like ordering food, boarding a bus, or making friends with a Chinese colleague. Why? Because they didn't understand China's basic cultural codes. This book will help you crack these codes. And with it, you'll soon be able to navigate your way in any situation.

[A Stone in My Hand, Cathryn Clinton](#) , 2002, 0763613886, 9780763613884. In Gaza City, 1988, a sensitive, observant girl finds her voice - and the strength to move beyond the violence that surrounds her. I am Malaak Abed Atieh, and this bird is Abdo. . . . I live in Abdo's eyes. . . . I fly high, high above Gaza City. . . . Nothing stops me - not the concrete and razor wire, not the guns, not the soldiers. I stare at them with my hard black Abdo eyes, and they do not shoot me. I am hidden. It has been a month since eleven-year-old Malaak's beloved father left Gaza City to look for work in Israel, only to disappear. Every day she climbs up to the roof and waits for him, imagining that she can fly to the prison cell where she is sure he waits. She speaks little to anyone, referring to commune with the loyal little bird she has tamed. Malaak's brother, Hamid, has his own way of coping. The volatile twelve-year-old feels only anger, stoked by militant extremists who preach violence as the only way to change their fate. Malaak's mother and sister beg the boy to stay away from harm, but now Malaak lives in fear: is she destined to lose her only brother as well?

[America Bewitched: The Story of Witchcraft After Salem, Owen Davies](#) , 2013, 0199578710, 9780199578719. America Bewitched is the first major history of witchcraft in America - from the Salem witch trials of 1692 to the present day. The infamous Salem trials are etched into the consciousness of modern America, the human toll a reminder of the dangers of intolerance and persecution. The refrain 'Remember Salem!' was invoked frequently over the ensuing centuries. As time passed, the trials became a milepost measuring the distance America had progressed from its colonial past, its victims now the righteous and their persecutors the shamed. Yet the story of witchcraft did not end as the American Enlightenment dawned - a new, long, and chilling chapter was about to begin. Witchcraft after Salem was not just a story of fire-side tales, legends, and superstitions: it continued to be a matter of life and death, souring the American dream for many. We know of more people killed as witches between 1692 and the 1950s than were executed before it. Witches were part of the story of the decimation of the Native Americans, the experience of slavery and emancipation, and the immigrant experience; they were embedded in the religious and social history of the country. Yet the history of American witchcraft between the eighteenth and the twentieth century also tells a less traumatic story, one that shows how different cultures interacted and shaped each other's languages and beliefs. This is therefore much more than the tale of one persecuted community: it opens a fascinating window on the fears, prejudices, hopes, and dreams of the American people as their country rose from colony to superpower.

[Fathers and Mothers: Dilemmas of the Work-Life Balance: A Comparative Study in Four European Countries, Jeanne Fagnani, Dino Giovannini, Lis Hjgaard, Hilary Clarke](#) , 2004, 1402018487, 9781402018480. This book presents a comparative analysis of the dilemmas faced by working parents with young children in four European countries - France, Italy, Ireland and Denmark - each of which represents a different "experience" of the evolving gender role process. It was the aim of the study to identify the key issues concerning the reconciliation of work and family roles, with particular emphasis on examining the barriers to men's greater involvement in domestic and family activities. A major purpose of the study was to develop new social indicators to measure issues of work life balance, which could be utilised in other national and cross-national studies. The book provides an overview of the latest research findings in the four countries, as well as a comparison and synthesis of the situations in these countries. It then presents the results of a survey carried out simultaneously in France, Italy, Denmark and Ireland and a comparative analysis of people's dilemmas and coping strategies in these countries. The research identifies which factors in the workplace, the home and society at large are associated with ease vs. difficulty in combining work and family life and with parental well-being. The comparative results contribute to a better understanding of the realities of life of young working parents and also highlight the critically important role played by public social and family policies in facilitating equal opportunities and quality of life for this

group of workers. Reconciling work and family is now on the social and political agenda. It is to be hoped that the EU, national governments and individual workplaces will continue to develop new and better policies to promote work-life balance for men as well as women, for - as the data in the study clearly show - people's well-being very much depends on it.

[Good, Better, Best Wines, Carolyn Evans Hammond](#) , 2010, 1101222751, 9781101222751. Just tell me what's good! For those who have a taste for accessible, affordable wines and a distaste for comparative shopping. With tens of thousands of wines competing for attention, tough economic times, and time-pressed wine drinkers, there has never been a better time to buy popular wines. 'Good, Better, Best Wines', is the first book that focuses exclusively on "big brands", breaking them down to good, better and best, and by price. Each taste-tested wine is accompanied by a photo of the bottle, for ease of identification, as well as tasting notes, food matches, trade secrets, and more. Wine lovers will save the time they'd be comparing to have more time for tasting. Coverage includes: -White wines-blends, Chardonnay, Pinot Grigio / Gris, Fume / Sauvignon Blanc, Riesling, and others - Red wines-blends, cabernet Sauvignon, merlot, Syrah / Shiraz, Pinot Noir, Zinfandel, and others - Ross and sparkling wines - The basics on buying wines, from vintages to screwcaps, and storing, serving, and tasting wine

[Jules Et Jim, Henri-Pierre Roch](#) , 2011, 0141194634, 9780141194639. Based on a real-life love triangle, Henri-Pierre Roch's Jules et Jim is a paean to youth set in free-spirited Paris before the First World War. This Penguin Modern Classics edition is translated by Patrick Evans with an introduction by Agnès C. Poirier, author of Touch: A French woman's take on the English, and an afterword by François Truffaut, director of Jules et Jim, in Penguin Modern Classics. Jules and Jim live a carefree, bohemian existence: they write in cafes, travel when the mood takes them, and share the women they love without jealousy. Like Lucie, flawless, an abbess, and Odile, impulsive, mischievous, almost feral. But it is Kate - with a smile the two friends have determined to follow always, but capricious enough to jump in the Seine from spite - who steals their hearts most thoroughly. Henri-Pierre Roch was in his mid-seventies when he wrote this, his autobiographical debut novel. The inspiration for the legendary film directed by François Truffaut, it captures perfectly with excitement and great humour the tenderness of three people in love with each other and with life. Henri-Pierre Roch (1879-1959) was born in Paris. After studying art at the Académie Julian, he became a journalist and art dealer, mixing with the avant-garde artistic set; his friends and acquaintances included the artists Michel Duchamp and Francis Picabia, and in 1905 he introduced Gertrude Stein to Pablo Picasso. In 1916, following his discharge from the French army, Roch went to New York and set up a Dadaist magazine, The Blind Man, with Duchamp and the artist Beatrice Wood. It wasn't until his seventies that he wrote the semi-autobiographical Jules et Jim (1953); his second novel, Les deux anglaises et le continent, was published in 1956. If you enjoyed Jules et Jim, you might like Raymond Radiguet's The Devil in the Flesh, also available in Penguin Modern Classics. 'A perfect hymn to love and perhaps to life' François Truffaut, director of Jules et Jim and The 400 Blows

[Straight Talk: Families Speak to Families about Child and Youth Mental Health, Conni Wells](#) , 2010, 098302510X, 9780983025108. Straight Talk: Families Speak to Families about Child and Youth Mental Health is a comprehensive guide for families of children and youth with emotional, behavioral, and mental health disorders. Written through the words of other families and based upon their experiences and expertise, Straight Talk is designed to assist families navigating the system of care and building a balance between meeting the needs of their child or youth and those of their family.

[Roger Federer: The Greatest, Chris Bowers](#) , 2011, 1843585928, 9781843585923. This acclaimed sports biography, researched and written by the experienced and multilingual tennis writer Chris Bowers, considers who Federer is as a person and what place he will occupy in tennis and sporting history. Roger Federer is a legend not only in the world of tennis but also in the wider sporting arena. With a record-breaking tally of 16 Grand Slam titles to his name, he shows no sign of slowing down and in 2010 added another Australian Open win to his collection, as well as taking the trophy in the end-of-season ATP World Wide Tour Finals in London. This authoritative and affectionate biography traces the rise of

Federer, from his first tentative strokes with a tennis racket to how he dealt with being sent away to a training academy where he struggled to communicate in a French-speaking part of Switzerland; and how he handled the sudden death of his first real coach and mentor. It looks at his development as a sportsman and how he has matured into a family man with his marriage to Mirka Vavrinec and the birth of their twin girls. It also examines how Roger bounced back from arguably one of the most challenging periods of his career as, following a serious illness and a dip in form, his run of successive Wimbledon championship wins was ended and he was toppled from the number one spot by his long-time rival Rafael Nadal. In characteristic style, Federer silenced his critics by winning the French Open title for the first time, reclaiming his Wimbledon crown and ending 2009 at the number one position for the fifth time.

[How Democrats Can Take Back Congress, "Tom Paine"](#) , 2005, 0977775909, 9780977775903. Currently, the Republican Congress has some of the lowest approval ratings ever measured. Voters from Seattle to New Orleans are beginning to hope and to ask: Can Democrats successfully take advantage of this situation? Can the Democrats take back Congress this year? The answer is a resounding YES! According to the exciting new book *How Democrats Can Take Back Congress* the task would be easy, if they could only agree on a cohesive message AND speak with one voice. With an inclusive strategy for Democrats to win voters in both "red" and "blue" states, complete with fifteen persuasive policy ideas, this book is inspiring Congressional leaders and the voting public to set a new direction for America. To date every Democratic member of Congress has received a copy and, as one House member and Senate candidate put it, "All in all, a good book with provocative ideas and a thoughtful roadmap for Democratic candidates." *How Democrats Can Take Back Congress* was written under the pseudonym "Tom Paine" as an experiment conducted by a concerned citizen to see whether pamphleteering party leaders is still a viable option in a modern Democracy. Are those in the corridors of power still open to the voice of reason from the public? From policymakers to media analysts, the reaction has been unanimous: this book is a must-read for anyone interested in the future of the Democratic Party! "TOM PAINE" ON: TAKING BACK CONGRESS What would happen if some well-targeted policies were offered to working Americans in all states? What if these changes improved their lives so much that they wouldn't just grudgingly vote for whoever champions them, but enthusiastically donate to the cause as well? What if these ideas were so simple that anyone could understand them, even mainstream media talking heads? What if these ideas were so free of any ideology that a devout churchgoer in the Deep South would just as readily support them as some pinko tree-hugging atheist from San Francisco? The answer is the electoral map would change color overnight. No matter how the opposition would try to demonize these ideas as being anti-this or anti-that, the average guy or gal would weigh such rants against the common sense of: "This will make my life better." SOCIAL SECURITY My plan cuts payroll taxes both for businesses and for 94% of American workers and still "saves" Social Security. The remaining 6% would just be paying their fair share -- the same percentage everyone else pays. How can Republicans be against a tax cut for 94% of Americans? IDENTITY THEFT PREVENTION AND DATA

PRIVACY The GOP is on the wrong side of an issue that polls stratospherically high, as high as 90% in favor of privacy. If the Democrats can't effectively exploit this, they don't deserve to be called a political party. TALKING TO THE VOTERS Sell it all with a huge dose of optimism: "Here's what we're going to do when we take back Congress. We see a bright future for America, and here are our ideas on how to get there. We love this country so much that you, the voter, should elect us so we can make our dream a reality together. The Republicans have had their chance to make a better country, and mostly they've forgotten the people who have to live in it. We have different priorities, and have ideas to help average Americans live better lives. Republicans have controlled every branch of government for too long, and most people aren't better off as a result. Elect us, and we promise to make life better for you. Or continue to support the failed Republican right-wing agenda and the oil men and spin doctors running it and... oh, by the way... have fun paying five bucks a gallon for gasoline in the near future."

[#8 Treaty of Misenum - 39 BC \(The Octavian Chronicles\): Octavian: Rise to Power, Patrick Parrelli](#) , 2008, 0984694277, 9780984694273. Author and historian Patrick J. Parrelli creates a spellbinding, historically exacting work of creative nonfiction in the twelve Octavian Chronicles. An adventurous undertaking, this meticulously researched epic is cross referenced with the ancient writings of Appian, Suetonius, Plutarch, and Dio. After Caesar is assassinated in 44 BC and Octavian learns that Caesar adopted him as his son in his will, he sets out on a path of vengeance that does not end until he takes his place. With engaging subplots that chronicle key figures like Antony, Cleopatra, Cicero, Brutus, Cassius, Agrippa, and Herod the Great, these twelve chronicles detail with in depth insight the military battles of Mutina, Philippi, Perusia, Naulochus, and Actium, serving as possibly the most readable narrative to unravel the complex story of how Octavian came to be Caesar Augustus, Rome's first emperor. Also available in a single eBook, The Octavian Chronicles, that combines the twelve individual Chronicles.

[Henry James, Selected Letters, Henry James](#) , 1987, 0674387937, 9780674387935. "He was a supreme artist in the intimacies and connections that bind people together or tear them apart," says Leon Edel in his introduction to this collection of Henry James's best letters. Edel has chosen, from the four-volume epistolarium already published, those letters which especially illuminate James's writing, his life, his thoughts and fancies, his literary theories, and his most meaningful friendships. In addition, there are two dozen letters that have never before been printed. In its unity, its elegance, and its reflection of almost a century of Anglo-American life and letters, this correspondence can well be said to belong to literature as well as to biography. Besides epistles to James's friends and family--including his celebrated brother, William--there are letters to notables such as Flaubert and Daudet in France; Stevenson, Gosse, Wells, and Conrad in England; and Americans from William Dean Howells to Edith Wharton. The latter correspondence, in particular,

enlarges our understanding of James's complex involvements with Wharton and her circle; among the previously unpublished letters are several to Wharton's rakish lover, Morton Fullerton. This masterly selection allows us to observe the precocious adolescent, the twenty-six-year-old setting out for Europe, the perceptive traveler in Switzerland and Italy, and the man-about-London consorting with Leslie Stephen and William Morris, meeting Darwin and Rossetti, hearing Ruskin lecture, visiting George Eliot. The letters describe periods of stress as well as happiness, failure as well as success, loneliness as well as sociability. They portray in considerable psychological depth James's handling of his problems (particularly with his family), and they allow us to see him adjust his mask for each correspondent.
