[Mark Only, T. F. Powys](#) , 2011, 0571276385, 9780571276387. 'Heavy clouds darkened the Dodderdown Church one Sunday in December. There was a baptism in progress that afternoon.' A little later on, 'What name?' he asked crossly. 'Mark' replied Mr Andrews, and then added a little louder, 'Mark only.' . . . 'Mark Only, I baptize thee in the name of the Holy Ghost.' A mistake, of course, but this accident of nomenclature sets the principal character on a life of misfortune. Faber Finds are reissuing six works by T. F. Powys: "Mr Tasker's Gods," "Mark Only," "Mockery Gap," "Innocent Birds," "Fables" and "God's Eyes A-Twinkle."

[Gene-Environment Interactions: Fundamentals of Ecogenetics](#), Lucio G. Costa, David L. Eaton , 2005, 0471758035, 9780471758037. Understanding the play between heredity and environment, and relating it to disease causation, is the task of ecogenetics. Gene-Environment Interactions: Fundamentals of Ecogenetics presents the first comprehensive survey of this discipline, reflecting its relationship with toxicology, epidemiology, pharmacology, public health, and other medical and biological fields. Divided into four sections, the text elucidates key basic and advanced topics: \* Section 1 covers fundamentals, including the history of the discipline, a discussion of the molecular laboratory tools currently available to assess genotypes, using such measurements in molecular epidemiology studies, and the statistical issues involved in their analysis. \* Section 2 focuses on a number of key genetic polymorphisms relevant for ecogenetics, including enzymes of phase I and phase II metabolism, enzymes involved in DNA repair, as well as receptors and ion channels. This highlights characteristics of selected, widely studied genotypic/phenotypic differences, and allows discussion of how given genetic variations can influence responses to exogenous chemicals. \* Section 3 examines gene-environment interactions through a disease-based approach, addressing how genetic polymorphisms can influence susceptibility to various diseases. Chapters cover important disease conditions such as various types of cancer, neurodegenerative diseases, cardiovascular disease, chronic pulmonary diseases, infectious diseases, diabetes, and obesity. \* The final section discusses the ethical, legal, and social issues that arise when investigating and evaluating genetic polymorphisms in human populations, as well as the impact of ecogenetics on risk assessment, regulatory policies, and medicine and public health. Packed with clear examples illustrating concepts, as well as numerous tables and figures, Gene-Environment Interactions: Fundamentals of Ecogenetics is a unique resource for a wide range of physicians, students, and other specialists.

[The 12 Amazing Secrets of Millionaire Inventors: Smart, Simple Steps for Turning Your Brilliant Product Idea Into a](#)

[Money-Making Machine, Harvey Reese](#) , 2007, 0470135492, 9780470135495. Be the world's next millionaire inventor! Watch out to avoid all the mistakes, bloopers, errors, and mess-ups that might prevent you from achieving all the rewards that you're entitled to. Cash in on the C.R.A.S.H. Course in successful product licensing to license your idea for the most money possible. Be the boss: explore the ins and outs of marketing your idea yourself; whether you're ready, how to do it, what you need, and where to start. Be safe: foolproof steps for protecting your inventions and innovations through patents, trademarks, and copyrights. Start your own company: explore your options with proprietorships, partnerships, and other corporate structures. Raise money for your business: find financing from angel investors, bankers, lenders, and friends and family. Introduce your product: create a powerful presentation that will knock the socks off investors, manufacturers, and other interested parties. Get your foot in the door: what to do and say to convince manufacturers, licensees, investors, salespeople, and anyone else that you have what they've been waiting for. Follow the leaders: meet successful inventors, hear their stories, and absorb the twelve vital tips they learned along the way.

[Stotan!, Chris Crutcher](#) , 2009, 006196851X, 9780061968518. Stotan: A cross between a Stoic and a Spartan. It's the last swimming season for Walker, Nortie, Lion, and Jeff, and their coach is building their self-discipline in a grueling four-hour-a-day test of stamina designed to bring them to the outer edge of their capabilities. As it turns out, Stotan Week is also the week in which secrets are revealed, and the four friends must draw upon their new strengths for an endurance they never knew they'd need.

[Mindfulness & Professional Responsibility: A Guidebook for Integrating Mindfulness Into the Law School Curriculum, Scott L. Rogers](#) , 2012, 0977345548, 9780977345540. In *Mindfulness & Professional Responsibility-A Guidebook for Integrating Mindfulness into the Law School Curriculum*, Scott Rogers and Jan Jacobowitz share with readers their methodology for weaving together mindfulness and professional responsibility in the classroom. Readers are offered a glimpse into their popular University of Miami School of Law course, *Mindful Ethics: Professional Responsibility for Lawyers in the Digital Age*, and its creative curriculum that draws upon the application of traditional professional responsibility issues in the context of social media. Intended to introduce teachers to mindfulness practices and offer a method of integrating it into their classrooms, the book's largest section contains numerous mindfulness demonstrations, exercises, and insights. These exercises, derived from the Jurisight(r) program created by Scott Rogers to teach mindfulness to law students and lawyers, are easy to follow and specifically adapted to the professional responsibility context. To illuminate the context in which these teachings are shared, readers are offered an overview of the practice of

mindfulness, a look at the neuroscience research exploring its benefits, and an historical look at mindfulness in legal education. The book is a terrific read for anyone interested in innovative education. Due to the breath of the book's mindfulness content, readers will find its to serve not only as a vehicle for enhancing the educational process, but also as a critical component in decision making and as an important life skill.

[Next Day Job Interview: Prepare Tonight and Get the Job Tomorrow, J. Michael Farr, Dick Gaither, Richard Gaither](#) , 2009, 1593576048, 9781593576042. In this busy world, people don't always have the time to prepare for job interviews far in advance. For those who wait until the last minute and need to get up to speed fast, there is Next-Day Job Interview. This book distills JIST's revolutionary and proven interview advice into seven quick chapters covering self-assessment, company research, key questions, a system for answering any question that might come up, unusual situations, following up after the interview, salary negotiation, and more. New for this edition are the "Are You Ready for an Interview?" assessment, an evolution of the "JIST Card" format, and substantial updates and additions throughout.

[All I See, Netreia Carroll](#) , 2007, 0977834875, 9780977834877. For the longest time I wanted to share my life experiences, hurts, pains, and joys that shaped my being. This is a true statement of change. I am an artist exploring the world and when I am not acting, singing, creating, or sharing the Love of Jesus with others, I am refashioning my spiritual DNA to in order to become better. Better with my words, thoughts, interpretation of life...a better me. As hamlet once said: there is much music in this little organ and I must play it though I am no pipe. After living a life of hearty laughs hidden behind gapped teeth, and disappointments I have come to grips that people like myself are meant for extraordinary things and I must understand that I will never fit into the concept of normality. It is okay to break society and culturally set rules and be diverse. That is my statuette, unique. I wonder how much easier life would be if ordinary was enough and fitting in was an option. Understanding the reason why I exist I have learned it s more than occupying space. I have a space that is designed only for me to fit in. With this thought in mind, we should remind ourselves daily that being who we are is everything to our purpose. The amazing feeling of being one in a million, of knowing no one out there is quite like me, can do it like I do or see what I see give me all the reasons to celebrate the essence of my true womanhood. Breaking the rules is hard. Hearing the criticism is difficult. Look around, we are all essentially equivalent: we all want to be loved. The residency of love can only resides comfortably if it derives from the true love source, Jesus. The Power of His love defines us all, even me. Today I rediscover myself. Tomorrow and each day after, I will revisit the thought of me again. I expose some of myself to you. Every word written removes another layer of dead skin and concealed esteems. Low esteem of others causes them to offend me. Let us get over together. We are one Body is Christ. When others hurt, so do my body parts. Assurance of identity can be mistaken for bragging or as appearing to be

all that, when truthfully I am all nothing that makes me something. Jesus said, The first shall be last and the last shall be first. I write to share with the world, thin-skinned moments. In every word, my soul listens and my heart speaks. The Truths in my writings has given unknown colors to my life. Colors created by God that others must see. The intensity of the color rays has corrected the vision of me. Today I live free. Today, I honor every trial and tribulation. Yes, they hurt. These birth pains are the beginning of another life that gives worth to me, you, and all. The Corner Stone of these pains fulfill the cracks that lie dormant in the in between places. The motivations behind my writings are to challenge you and your thinking, your efforts, your desires to become a better you. Seek and find you and once you have unearthed your reason for existing, share it with the world. Your existence plays a great part in my destiny a little more inspiration and a little more uniqueness. Just Dare to be you or should I ask, Who are You? I know as Christians we are victorious, however, we weren t promised a perfect life without it s troubles. In fact Jesus said we should EXPECT them. ....for in this world you shall endure trials & tribulations, but count it all joy for I have overcome the world John 16:33 Trials and tribulations come with both a purpose and a reward. Consider it all joy, my brethren, when you encounter various trials, knowing that the testing of your faith produces endurance. And let endurance have its perfect result, that you may be perfect and complete, lacking in nothing. Blessed is the man who perseveres under trial; for once he has been approved, he will receive the crown of life, which the Lord has promised to those who love Him James 1:2-4, 12

[What Is a Healthy Church?, Mark Dever](#) , 2007, 1581349378, 9781581349375. What is an ideal church, and how can you tell? How does it look different from other churches? More importantly, how does it act differently, especially in society? Many of us aren't sure how to answer those questions, even though we probably have some preconceived idea. But with this book, you don't have to wonder any more. Author Mark Dever seeks to help believers recognize the key characteristics of a healthy church: expositional preaching, biblical theology, and a right understanding of the gospel. Dever then calls us to develop those characteristics in our own churches. By following the example of New Testament authors and addressing church members from pastors to pew sitters, Dever challenges all believers to do their part in maintaining the local church. What Is a Healthy Church? offers timeless truths and practical principles to help each of us fulfill our God-given roles in the body of Christ.

9780534495015. An increasing number of computer scientists from diverse areas are using discrete mathematical structures to explain concepts and problems. Based on their teaching experiences, the authors offer an accessible text that emphasizes the fundamentals of discrete mathematics and its advanced topics. This text shows how to express precise ideas in clear mathematical language. Students discover the importance of discrete mathematics in describing computer science structures and problem solving. They also learn how mastering discrete mathematics will help them develop important reasoning skills that will continue to be useful throughout their careers.

[Dalaina, Sara Samarasinghe](#) , 2006, 1425965016, 9781425965013. Wealthy Lola Selina has just been released into the world for the first time ever after being ensconced in a mansion for thirteen years. She is sent off to a boarding school called Dalaina, and here she has to face the cliques, enemies, and troubles of friendships. From the moment Lola embarks upon the airplane journeying to her new school, Lola knows that leaving home is a bad idea. She worries about making friends, and being freshly exposed to the real world's terrors. She instantly makes a best friend, Monique Surls, and a fresh foe, Tiffany Remina, who soon become a great element of her life. Lola is easily contented with her new lifestyle, but soon an incident turns things around, and Tiffany and Monique's somewhat shady pasts are revealed. Once Lola came along, the bond linking Tiffany and Monique was broken, but they become closer again, and Lola is left painfully alone, with tension reaching its pinnacle. However, Lola will learn how to live with the problems in life, and how she can improve their conditions. Things may change again for the worse, but can she adapt once again? Lola has yet to find out through a whirlwind of hidden wonders.

[Plant Cells: XD-US. ..., J.-J. Zhong](#) , 2001, 3540418490, 9783540418498. Plants produce more than 30,000 types of chemicals, including pharmaceuticals, pigments and other fine chemicals, which is four times more than those obtained from microbes. Plant cell culture has been receiving great attention as an alternative for the production of valuable plant derived secondary metabolites, since it has many advantages over whole plant cultivation. However, much more research is required to enhance the culture productivity and reduce the processing costs, which is the key to the commercialization of plant cell culture processes. The recent achievements in related biochemical engineering studies are reviewed in Chapter 1. The effect of gaseous compounds on plant cell behavior has been little studied, and Chapter 2 focuses on these gas concentration effects (including oxygen, carbon dioxide, ethylene and others, such as volatile hormones like methyl jasmonate) on secondary metabolite production by plant cell cultures. Two metabolites of current interest, i. e. , the antimalarial artemisinin (known as "qing hao su" in China) that is produced by *Artemisia annua* (sweet wormwood) and taxanes used for anticancer therapy that are produced by species of *Taxus*, are taken as examples. Bioprocess integration is another hot topic in plant cell culture technology. Because most of the plant secondary metabolites are toxic to the cells at high concentrations during the culture, removal of the product in situ during the culture can lead to the enhanced productivity. Various integrated bioprocessing techniques are discussed in Chapter 3.

[The Four Corners of the World, A. E. W. Mason](#) , 2013, 1484940261, 9781484940266. Mr. Twiss was a great walker, and it was his habit, after his day's work was done, to walk from his pleasant office in the Adelphi to his home at Hampstead. On an afternoon he was detained to a later hour than usual by one of his clients, a Captain Brayton, over some matter of a mortgage. Mr. Twiss looked at his office clock. "You are going west, I suppose?" he said. "I wonder if you would walk with me as far as Piccadilly? It will not be very much out of your way, and I have a reason for wishing your company." "By all means," replied Captain Brayton, and the two men set forth. Mr. Twiss, however, seemed in a difficulty as to how he should broach his subject, and for a while the pair walked in silence. They, indeed, reached Pall Mall, and were walking down that broad thoroughfare, before a word of any importance was uttered. And even then it was chance which furnished the occasion. A young man of Captain Brayton's age came down from the steps of a club and walked towards them. As he passed beneath a street lamp, Mr. Twiss noticed his face, and ever so slightly started with surprise. At almost the same moment, the young man swerved across the road at a run, as though suddenly he remembered a very pressing appointment. The two men walked on again for a few paces, and then Captain Brayton observed: "There is a screw loose there, I am afraid." Mr. Twiss shook his head. "I am sorry to hear you say so," he replied. "It was, indeed, about Archie Cranfield that I was anxious to speak to you. I promised his father that I would be something more than Archie's mere man of affairs, if I were allowed, and I confess that I am troubled by him. You know him well?" Captain Brayton nodded his head. "Perhaps I should say that I did know him well," he returned. "We were at the same school, we passed through Chatham together, but since he has relinquished actual service we have seen very little of one another." Here he hesitated, but eventually made up his mind to continue in a guarded fashion. "Also, I am bound to admit that there has been cause for disagreement. We quarrelled." Mr. Twiss was disappointed. "Then you can tell me nothing of

him recently?" he asked, and Captain Brayton shrugged his shoulders.

[Your Spacious Self: Clear the Clutter and Discover Who You Are, Stephanie Bennett Vogt](#) , 2012, 1938289056, 9781938289057. ITS A JUNGLE . . . IN HERE! Behind our stress, clutter, and confusion is an infinitely spacious place one might call stillness or joy. This is our natural state of being, but we usually don't experience it, because we are caught in a web of material possessions, desires, and fears. Our clutter often becomes another member of the family that we feed, house, and lug around. In *Your Spacious Self*, author and professional space clearing expert Stephanie Bennett Vogt shows us that it's not our stuff but the holding on to it that creates a force field of stuck-ness that clouds our perceptions and paralyzes our lives. Clutter is not just the junk spilling out of the closet. It is anything or thought that prevents us from experiencing who we truly are. With daily tips, meditations, and a decluttering checklist, *Your Spacious Self* will show you how to: CLEAR THE CLUTTER in your home and in your life REVEL IN YOUR OWN SPACIOUSNESS, a place of stillness and joy LET GO OF THE PEOPLE, PLACES, AND THINGS that no longer serve the joyous being that you are Radical in its message and elegant in its simplicity, *Your Spacious Self* offers a new model that combines the ancient wisdom of space clearing with the modern practicality of clutter clearing. It teaches us that clearing is not just something we do but is also a powerful way to be one small step, drawer, or moment at a time.

[What Can a Body Do?, Amanda Cachia](#) , 2012, .

[King of the Shore, Eryn Adams](#) , 1993, 0971045011, 9780971045019. Skocia's ruthless government has extended its grasp to the shores of Charen, the distant and mysterious planet colonized one thousand years before by 500 Skocian pilgrims. Charen's declared independent colonists follow their fabled King of Creation. But the Skocians are not concerned with this myth. Their purpose for such an expensive invasion is plunder of the rare gem Jasinth which has recently been discovered to be crucial to experimental dimension transport. In the midst of this interplanetary struggle, a war is also raging from the Skocian senatorial seat of Rhegma. Rhegma's outcast heir, Marcus Bass, launches his own quest for Jasinth. He knows that wealth from Jasinth is the key to unlock the door to his restoration, his transport to his legitimacy and to his bride. In the mountainous regions of Charen, the city of Spira remains the last stronghold for the Charen resistance. It is there that Didak, Charen's greatest molecular engineer, runs the race to implement dimension transport before the dreaded Solar Orbitus arrives from Skocia. This planetary grade weapon is capable of destroying the shields of Spira that are now empowered by Jasinth. The Charen port city of Topus is totally inhabited by the Skocian legions and Skocian sympathizers. Topus has been infiltrated by a brilliant network of Charian spies. One of the most important of these is Dr. Vinia Pais. Vinia and her friend Nobel, one of the last members of the lost Basian race, operate a dangerous underground charade within the Skocian Patrician ranks. When her fiance, Dan-Exander, leader of the Charian warriors, is captured by Skocia's Pro Consul Vallis, a renegade Skocian stranger rescues him. The stranger nearly dies from the effort. When he finally stirs from a coma, he has no memory of his past. All that is known of him is a love letter

addressing him as "Marcus". The astute Vallis executed a counter espionage plan and Vinia's true allegiance is discovered. Piecing together only shadows of memory, Marcus realizes the danger and he and Vinia make a breath taking escape into the targeted war zones. In this journey through the ancient caves of what was once Basia, Marcus and Vinia discover an unexpected love. Determined to keep her vows to Dan-Exander, Vinia returns to the sanctuary of Spira. Marcus remains with Mathias, the inter-agent who lives in the mountains. It is there that Marcus meets the King. On the eve of Stellar Orbitus's arrival, Marcus remembers his past and his mission as a spy for Skocia's Pro Consul Vallis. He has all the knowledge within his grasp to harvest a great wealth of Jasinth to himself. He has the total trust of Charen's most important leaders. At long last, he can recover his rightful place and have his revenge. But what is the cost? Was his encounter with the King a reality? Once the Charians know of his first motives, will they yet accept him? The line is drawn. He stands on the shores of eternity. The price of loyalty will cost him everything.

[When Wishes Collide \(Wish Series #3\), Barbara Freethy](#) , 2012, 0985199792, 9780985199791. In a moment of desperation, two strangers make a wish, only to discover that sometimes a wish can take you down an unexpected path ... straight toward a life-changing love. WHEN WISHES COLLIDE, Book #3 in the WISH Series, is an emotionally compelling and suspenseful contemporary romance by #1 NY Times Bestselling Author Barbara Freethy. Adrianna Cavello's life changed in an instant when a break-in at her restaurant took the life of her boyfriend and left her too traumatized to return to work. Months later, with everything she's ever wanted on the line, Adrianna makes a wish by tossing a coin into a fountain known for making miracles. Wyatt Randall is also in need of a miracle. Two years earlier, his ex-wife kidnapped their daughter, and Wyatt is desperate to find his little girl. A new lead raises his hopes, but quickly fizzles out. When his coin clashes with another, he sees what little hope he has flying away. Adrianna and Wyatt soon learn that they have more in common than two coins that collided. In fighting for the lives they lost, they must learn how to trust again. Only then will they discover that meeting each other and falling in love might not be what they wished for, but exactly what they need. Also Available in the WISH SERIES: A SECRET WISH (#1) JUST A WISH AWAY (#2) (Each book in the WISH Series is a standalone story, but shares the common theme of wishes.)

[Emerging Growth Pole: The Asia-Pacific Economy, Dilip K. Das](#) , 1996, 0135258413, 9780135258415. Understand the Asia-Pacific economic revolution -- and its extraordinary implications. This book analyzes why the Asia-Pacific region has rapidly emerged as the world's third major trading area, and shows how this region is coming together as a cohesive "growth pole." Understand the role of intra-regional trade and foreign direct investment; learn how the Asia-Pacific economies view world trade. Understand APEC, ASEAN, and the long-term implications of Asia-Pacific interdependence. Learn about Japan's role in leading the Asia-Pacific economic bloc. Finally, take a close look at five of these powerhouse economies: Japan, China, Taiwan, Korea and Thailand. This book is for any professional or student interested in the Asia-Pacific economies --and the world economy in the 21st century.

[The Sketchbook: 80 Unique Designs by the World's Finest Tattoo Artists, Nancy Heimbürger, Marco Bratt](#) , 2003, 9074822622, 9789074822626. "The idea of creating a book that would shed new light on the world of tattoo artists was first conceived about two years ago. Marco Bratt a tattoo-artist from The Netherlands, and his girlfriend Nancy Heimbürger, a lifestyle photographer, did their utmost to contact eminent tattoo artists from all over the world with the request that they create a sketch for inclusion in this unique book. The authors' enthusiasm inspired a wide range of artists, who were able to express themselves in deeply personal ways, unrestrained by commercial demands. These artists are all well known for dedicating their lives to their profession, but the extent of their artistic versatility is frequently overlooked. This sketchbook of 80 exclusive designs has been produced with this in mind. Works by several of these artists have never been published in book form before." "The book is divided into two sections, the first comprises an introduction detailing how this collection was brought together along with a brief overview of the various styles and historical aspects of tattooing. Also included are photographs made by the authors during their extensive travels, reproduced here for the first time. The second section is devoted to the artists themselves, each sketch being accompanied by their individual biographies and favourite quote."--BOOK JACKET.

[The Research Process: A Complete Guide and Reference for Writers, Martin Maner](#) , 1999, 0767411390, 9780767411394. The Research Process explains, models, and analyzes the recursive process of conducting research and writing research papers. The text - along with the dedicated website and free student CD-ROM - provides exceptional guidance on writing substantive research papers using print and electronic sources and emphasizes the enjoyment and rewards that research writing offers.

[Garden and Grove: The Italian Renaissance Garden in the English Imagination, 1600-1750, John Dixon Hunt](#) , 1996, 0812216040, 9780812216042. Garden and Grove is a pioneering study of the English fascination with Italian Renaissance gardens. John Dixon Hunt studies reactions of English visitors in their journals and travel books to the exciting world of Italian gardens: its links with classical villas, with Virgil and farming, with Ovid and metamorphosis, its association with theater, its variety, its staged debates between art and nature. Then he looks at what English visitors made of these Italian garden experiences upon their return home and at how they created Italianate gardens on their estates, on their stages, and in their poems. With a wealth of literary and visual materials previously untapped, Hunt provides a new history of an intriguing and vital phase of English garden history. Not only does he suggest the centrality of the garden as a focus for many social, aesthetic, political, and philosophical ideas but he argues that the so-called English landscape garden before "Capability" Brown, in the late eighteenth century, owed much to a long and continuing emulation of Italian Renaissance models.

[The Age of Ananda: Conscious Evolution to the Life Divine, Kumar S. Sharma](#) , 2011, 0984010505, 9780984010509. On the Day of the Winter Solstice of 2010, select viewers from around the world mysteriously started receiving transmissions of the Voice of Ananda Channel from the legendary city of SiddhaPuri in the remote, unmapped Himalayas. The TV broadcasts revealed that ananda the innate, abiding bliss of pure being is the source and goal of human evolution. They explained the nature of the individual Self and its relationship to the Universal Consciousness, and declared that the human race has to now evolve consciously towards a gloriously joyous future, or else face civilizational collapse. And after just one week of astonishing teachings, the channel went off the air, with a promise to return later when needed again. In their broadcasts, the Rishi of Ananda, his star students Gargi and Yajnavalkya, the Maharaja of SiddhaPuri, and Sofia, a French ubermodel turned Tantric adept, unfolded the deepest secrets of mind and matter, Self and God, and Goddess and Cosmos. The universe was revealed as a seven-tiered, double-helix theater for both spiritual and physical evolution. The SiddhaPurians invited all viewers, and especially the youth of the world, to seize this epoch-shifting opportunity to live joyously and evolve consciously so as to make the Age of Ananda a reality on earth within their lifetime.

[The Dred Scott Case: Its Significance in American Law and Politics, Don Edward Fehrenbacher](#) , 1978, 0195024036, 9780195024036. On March 6, 1857, Chief Justice Roger B. Taney delivered the Supreme Court's decision against Dred Scott. Scott, a slave, maintained he had been emancipated as a result of having lived with his master in federal territory where slavery was forbidden by the Missouri Compromise. The decision did much more than resolve the fate of an elderly black man and his family, however: Dred Scott v. Sanford was the first instance in which the Supreme Court invalidated a major piece of federal legislation. The decision declared that Congress had no power to prohibit slavery in the federal territories, thereby striking a severe blow at the legitimacy of the emerging Republican party and intensifying the sectional conflict over slavery. "The Dred Scott Case" presents a skillful review of the issues before America on the eve of the Civil War, discussing the legal bases of slavery, the debate over the Constitution, and the dispute over slavery and continental expansion. In the final analysis, however, this book reaches beyond mere historical account, offering in the end careful consideration of the immediate and long-ranging consequences of this landmark judicial act.

[Shorn, , Larissa N. Niec](#) , 2008, 0981665403, 9780981665405. A riveting tale of oppression and resilience, the consequences of vengeance, and the malleable nature of truth, Shorn marks the debut of an exciting new voice in fantasy. I will make final reparation for the crimes of my ancestors. I will be the one to pay the debt. So the young soldier, Jhared Denaban, swore on the night of his Becoming: he would be the one to balance the bloody debt earned by his ancestors, the faithless Avelune. Stripped of his birthright and shackled under the oppressive laws that protect Avelos from those who bear the Avelune curse, Jhared enters his country's service desperate to prove himself free of an evil legacy. But the memory of betrayal hasn't faded. His countrymen despise him and his own kind distrust him. Even those who raised him cannot hide their fear. Bound into servitude, Jhared is sent to the border, assigned to protect Avelos from foreign enemies and devastating magical forces. But the assignments that matter most are the ones for which he has no training. As he searches for the source of increasing political unrest, he must struggle against the instincts that drive him toward self-destruction and the people who believe his death is the only way the debt can be paid. Caught in the plots of the powerful, Jhared finds the truths of his past and the history of his kind growing more uncertain. He must resolve conflicting notions of duty and justice, loyalty and freedom, reparation and love. If he and his beloved country are to survive, he must confront what it truly means to be Shorn.

[Architectural Models, Ansgar Oswald](#) , 2008, 9812454829, 9789812454829. This publication presents detailed portraits of around 20 model-making workshops in Germany, Austria and Switzerland, providing ready reference and giving architects easy access to information about modern methods of architectural model-making. The book speaks up for architectural model-making as an indispensable stage in the design process and an expressive means of decision-making.

[Written in Bone, Simon Beckett](#) , 2007, 0440337208, 9780440337201. I took the skull from its evidence bag and gently set it on the stainless steel table. Tell me who you are. . . . With this silent plea, forensic expert Dr. David Hunter ignites a harrowing murder investigation on a windswept Scottish island, and a tale of menace, sexuality, and revenge unravels along with the chilling message that a killer has Dr. David Hunter should be in London with the woman he loves and a past he can't quite shake off. Instead, as a favor to a beleaguered cop, Hunter travels to a remote island in the Outer Hebrides to inspect a baffling set of remains. A forensic anthropologist, he has seen bodies destroyed by all forms of violence, but even he is surprised at what he finds: human remains burned beyond recognition all within the confines of an otherwise undamaged, unoccupied cottage. Local police want to rule the death accidental. But Hunter's examination of the victim's charred skull tells him that this woman, no doubt a stranger to the close-knit island of Runa, was murdered by someone nearby. Within days, two more people are dead by fire. Hunter's job is to coax the dead into telling their stories but now that he's beginning to hear them, he is staggered by the truth. Working with only the barest of clues, he peels back the layers of mysteries past and present, exposing the tangle of secrets at the heart of this strange community from the deceptions of a wealthy couple to the bitterness of an ex-cop and the secrets of a lonely single mother as a tale of rage and perversion comes full circle then explodes in a series of violent acts and shocking twists. From the Hardcover edition.

[Sports Direct International Plc and Jjb Sports Plc: A Report on the Acquisition by Sports Direct International Plc of 31 Stores from Jjb Sports Plc, Great Britain. Competition Commission](#) , 2010, 011706856X, 9780117068568. The Competition Commission (CC) has formally cleared the acquisition by Sports Direct International plc (Sports Direct) of 31 stores from JJB Sports plc (JJB). In its final report, the CC has ruled that it does not expect the acquisitions to lead to a substantial lessening of competition (SLC) nor any adverse effects for customers. This ruling confirms the inquiry's provisional findings, which were published last month. The Office of Fair Trading (OFT) referred the case to the CC for investigation on 7 August 2009, having undertaken an initial study which found that the store transfers could raise competition concerns. The timescale for the CC's investigation was extended in its early stages because Sports Direct was unable to respond to the CC's information requests. Later in the inquiry, the timetable was extended further, resulting in

a deadline for the publication of the CC's final report of 21 April 2010.

[The Gift of Love, Lori Foster](#) , 2010, 0425234282, 9780425234280. Edited by New York Times bestselling author Lori Foster-a heartwarming anthology of all-new stories that celebrate family love. Families come in many configurations, and every one is unique, made up of the personalities of each member. But the love that connects families is universal. Whether it is the love of parents for their children, the love between a husband and wife, the love between siblings, a love that transcends generations, or even the love for a family member never met, the family ties that bind us are the strongest and deepest emotional connections we experience. Families influence a person's development, how they treat others, and how they view life. In The Gift of Love, eight exceptional writers offer a variety of unique perspectives on what family love means and how it impacts our lives in ways profound and often surprising. Includes 8Original Stories byNew York Times Bestselling Author Lori Fosterand Heidi Betts, Jules Bennett, Ann Christopher, Lisa Cooke, Paige

Cuccaro, Gia Dawn, and Helen Kay Dimon. The authors are donating all of their proceeds from The Gift of Love to The Conductive Learning Center of Greater Cincinnati, a charitable organization.

[Marietta's House: A Grandmother's Cottage, J. E. Bourgoyne](#) , 2008, 0961637757, 9780961637750. Welcome to a photo tour of Marietta's House, an historic cypress cottage in a Louisiana river town with furnishings from 1890s to 1940s. The author, who grew up in the house with his grandmother, lovingly describes each room and the porches and gardens, while the photos add a close-up visual experience of every detail. Appeals to anyone who waxes nostalgic for the way things used to be. "The walls of Marietta's house can't really talk, but with this book...still have plenty to say." (John Lawrence quote on cover). The house, in Plaquemine, LA, is available for group tours.

[The Paterek Manual for Bicycle Framebuilders 2004, Jens Gunelson](#) , 2004, 0976124505, 9780976124504. This is an instructional manual that covers the design and manufacture of custom bicycle frames. It covers all brazing, cutting, mitering, fitting, and finishing procedures. It takes the reader through all of the consecutive steps to build a bicycle frame. It also includes chapters on building custom stems, custom racks, tandems, and frame repair. An index, glossary, recommended references, and list of suppliers are also included at the back of the book.

[On the Trail of the Ice Age: A Guide to Wisconsin's Ice Age National Reserve and Trail for Hikers, Bikers, and Motorists, Henry S. Reuss](#) , 1990, 0962707902, 9780962707902. "On the Trail of the Ice Age" by retired Congressman, Henry S. Reuss has been revised. Subtitled "A Guide to Wisconsin's Ice Age National Reserve & Trail for Hikers, Bikers & Motorists," the book includes maps to the 1,000 miles of completed & proposed Ice Age National Scenic Trail & the nine National Scientific Reserves. The Trail's route traces the farthest advance of Wisconsin's glaciers, from Door County to the Milwaukee area, to the St. Croix River. This new edition provides a comprehensive overview of what Reuss calls "the planet's most notable collection of deposits left by the retreating glaciers. Reuss' book includes information on the glacial action which formed this unique terrain along with thumbnail biographies for some of the people who have lived along the glacier's route: John Muir, Aldo Leopold, Frank Lloyd Wright. The book includes 35 color illustrations, 40 black & white photos & 20 trail maps. There is a county by county description of the completed routes. Reuss has donated all proceeds to the Foundation. The 120-page book in hardcover is \$24.95, paperback \$19.95. Order from the Ice Age Park & Trail Foundation Inc., P.O. Box 422, Sheboygan, WI 53082-0422, include \$2.95 shipping.

[Lucid Interval: Subjective Writing and Madness in History, George MacLennan](#) , 1992, 0838635059, 9780838635056.

"Throughout history a number of writers have given utterance to their own extreme experiences of mental breakdown and madness. In a chronological study that ranges in time and place from medieval England and renaissance Italy to nineteenth-century France, George MacLennan examines the work of eight such writers, poets, or autobiographers, both well known and obscure: Thomas Hoccleve, Torquato Tasso, James Carkesse, John Bunyan, George Trosse, William Cowper, John Clare, and Gerard de Nerval." "Michael Foucault once asked the tantalizing (sic) question, "How can language apply a single and identical discourse to poetry and madness?" Lucid Interval concerns itself with this question, broaching it in its cultural and historical dimensions and broadening its terms of reference to include the relationship between subjective writing, literature, and madness. While it is primarily concerned with modes of literary writing, this study draws on a growing body of research into the history of madness and its treatment, addressing topics in the fields of psychoanalytic theory as well as religious, social, and medical history." "In recent years the topic of madness has received an increasing amount of attention from critics and historians. As one historian has complained, however, the experience of madness itself remains exiled to the margins of knowledge. No less importantly, no study yet seriously addressed the phenomenon to which Foucault drew attention in the early 1960s, namely the emergence in Western culture of a subjective literature of madness. This study seeks to comprehend the voices of those exponents of inner crisis and of madness who have expressed themselves in writing. It further considers the cultural conditions under which their discourses, in certain significant instances, acquire the status of "literature."" "MacLennan approaches the eight writers from a broadly sociohistorical viewpoint and takes into account relevant biographical and medical evidence, where available, examining their situations as revealed or mediated by their writings. Through a series of detailed analyses, he argues that these writings bear witness to a progressively increasing degree of psychological inwardness in Western culture. This is a process that affects both how madness is experienced by the individual and how it is expressed in subjective writing. By the late eighteenth century, madness becomes, for a significant number of writers and artists, an intimately interiorized condition, one which implicates their entire affective life. It is this subjectivized and "existential" madness that, in the Romantic period and subsequently, has been taken to express an "inner truth" in an increasingly secularized and alienating state of society." "In taking these developments into account, Lucid Interval is able to arrive at a fresh understanding of the appearance in the modern period of such figures as Clare and de Nerval--writers who suffer madness as an inner, subjective catastrophe but who, in the midst of that experience, are able to explore it creatively, so producing a "literature of madness," which is a new phenomenon in itself and which sets a troubling precedent for

modern culture."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

[The Silent Testing Timer for Lsat, Silent Technology Llc](#) , 2007, 0975350307, 9780975350300. The Silent Timer is the ONLY timer made with tests in mind and has several features to help you practice your time management. One feature allows you to enter your test time and the number of questions for your test. The timer then tells you how much time you may spend on each test question. As you move through your test, the timer updates time available per question in real-

time. The Silent TimerT serves as the ultimate time management tool for taking tests. You may use the timer as a simple countdown / count-up device, or utilize the advanced test management features. If your test does not allow multifunctional timers, The Silent TimerT also comes with a simpler Bonus Timer that is completely silent and counts up & down. This way you get the best of both worlds: The Silent Timer for practice and the Bonus Timer for test day.

[Polymer Pizzazz: 27 Great Polymer Clay Jewelry Projects, Kristin Schneider](#) , 2006, 0871162369, 9780871162366.

Polymer clay is probably the most versatile, most enjoyable craft medium of them all. It can be sculpted, carved, molded, stamped, textured, sanded, and then baked in a regular oven. How easy is that? Now Polymer Pizzazz makes working with polymer clay even more fun and rewarding--by introducing beginners to basic tools and techniques, then presenting 25 beautiful jewelry projects. With clear step-by-step instructions and helpful color photography, anyone can learn to make bold, bright beads, playful fish-shaped pendants, elegant faux stone necklaces, and much more!

[Energy Future of Liquid Fuel: Why Corn Ethanol Is a Fuel's Errand, The, Robert U. Ayres, Edward H. Ayres](#) , 2009, 0132466023, 9780132466028. This Element is an excerpt from Crossing the Energy Divide (ISBN: 9780137015443) by Robert U. Ayres and Edward H. Ayres. Available in print and digital formats. Why biofuels wont work--except for gigantic agribusinesses and their lobbyists. If the entire U.S. corn crop were converted to ethanol, the aggregate reduction in total fossil fuel (gasoline) energy consumption would be just 2.4%. Considering that we still want our corn flakes, pork chops (corn feeds hogs), and cooking oil, any realistic level of crop consumption for fuels would do virtually nothing to end U.S. dependence on foreign oil.

[Pick Up Stick City, Steven H. Semken](#) , 2005, 0972944516, 9780972944519. Steve Semken finds his Middle Earth hidden among the Midwestern dust and rubble of a forgotten ghost town lost in Iowa hill country. In this fable, redemption is from a nether world where masters of short term memory are inexplicably reelected, farming is done by phone, and

sarcasm reins. It's an antidote for the twenty-first century's linear, literal, myopia. It may be read also as an imagination user's guide—a how-to manual for deploying mythology for the restoration of compassion, civility, wonder and awe.

[The Birds of the Western Palearctic, D. W. Snow, C. M. Perrins](#) , 1997, 019854099X, 9780198540991. Here is the distilled essence of the definitive account of the birds of north-west Europe - BWP, as it is generally known to thousands of users. The abridgement has been made by members of the original editorial team under the general supervision of Professor C.M. Perrins of Oxford, who has acted as Consultant Editor. Dr. D.W. Snow has condensed the original text with masterly skill, retaining all the essential information in a fraction of the space. The Concise BWP also includes much significant new material. Accounts of more than eighty species has been added and the descriptions of field characters have been revised throughout. The population and distribution sections have been rewritten to take into account new information that has become available since BWP was published. The distribution maps have also been revised and brought up to date. They are now printed in full colour for maximum clarity, and hill shading has been added to indicate the relief. More than 230 magnificent new colour plates have been specially commissioned for this edition to illustrate newly added species or to replace earlier paintings used in BWP. Where the original paintings have been retained, they are now reproduced using the latest electronic scanning techniques. For greater convenience, all plates now appear in the text. Indexes in seven European languages are included in addition to the indexes of English and scientific names. The Concise BWP is an essential reference book for all who are interested in the birds of Europe, whether at the professional level or as amateurs.

[Economics today, the macro view, Roger LeRoy Miller](#) , 2008, 0321555503, 9780321555502. In this new edition, Miller has responded to the way students use their textbooks as a study tool by incorporating new pedagogy to help students study effectively and giving them more opportunities to practice.

[Why I Read: The Serious Pleasure of Books, Wendy Lesser](#) , 2014, 0374289204, 9780374289201. Wendy Lessers extraordinary alertness, intelligence, and curiosity have made her one of Americas most significant cultural critics, writes Stephen Greenblatt. In Why I Read, Lesser draws on a lifetime of pleasure reading and decades of editing one of the most distinguished literary magazines in the country, The Threepenny Review, to describe her love of literature. As Lesser writes in her prologue, Reading can result in boredom or transcendence, rage or enthusiasm, depression or hilarity, empathy or contempt, depending on who you are and what the book is and how your life is shaping up at the moment you encounter it. Here the reader will discover a definition of literature that is as broad as it is broad-minded. In addition to novels and stories, Lesser explores plays, poems, and essays along with mysteries, science fiction, and memoirs. As she examines these works from such perspectives as Character and Plot, Novelty, Grandeur and Intimacy,

and Authority, *Why I Read* sparks an overwhelming desire to put aside quotidian tasks in favor of reading. Lessers passion for this pursuit resonates on every page, whether she is discussing the book as a physical object or a particular works influence. Reading literature is a way of reaching back to something bigger and older and different, she writes. It can give you the feeling that you belong to the past as well as the present, and it can help you realize that your present will someday be someone elses past. This may be disheartening, but it can also be strangely consoling at times. A book in the spirit of E. M. Forsters *Aspects of the Novel* and Elizabeth Hardwicks *A View of My Own*, *Why I Read* is iconoclastic, conversational, and full of insight. It will delight those who are already avid readers as well as neophytes in search of sheer literary fun.

[Last Resort, Susan Lewis](#) , 2009, 0099534339, 9780099534334. When Penny Moon is banished from Fleet Street to ressurect an ex-pat magazine on the French Riviera, the worst news is yet to come. Her partner will be David Villers, the man she once tried - and humiliatingly failed - to seduce. But when she arrives at the Riviera, she is surprised to find that, instead of the usual headaches and frustrations of restarting a magazine, all that should be impossible is easy. Then, quite unexpectedly, she meets Christian Mureau, a mysterious and elusive man who is wanted by the FBI, and her curiosity is instantly clouded by passion. Swept along by the glamour and intrigue of Mureau's life and increasingly affected by David's charm and humour, Penny finds her loyalties as mixed as her feelings. Feelings which lead her deeper and deeper into a web of love and deceit towards the terrifying consequences of two men's crimes - and beyond...

[Venus and Her Lover - the Pillow Deck: A Tantric Oracle and Erotic Card Game, Rocco Iacopini](#) , 2003, 0974313807, 9780974313801. The Pillow Deck is a set, which includes: 32 full-color cards and an illustrated, 136-page book. The cards may be used as an oracle or as a card game for one or more players. The accompanying book explains spreads and games, and gives interpretations of the cards, based on their tantric, mythological, and archetypal associations. The oracle may give insights into sexual and relationship issues.

[Organizing identity: persons and organizations 'after theory', Paul Du Gay](#) , 2007, 1412900123, 9781412900126. This book makes a significant contribution to cultural economic approaches to organizational and economic life. Specifically it offers both a survey of the field, as well as a practical guide to doing 'cultural economy'. The text, which builds upon du Gay's earlier work, will engage with a range of debates from cultural studies, sociology, anthropology, geography, and management. It brings du Gay's style and originality to bear on the subject of culture and economy, and results in a book that will once more make a solid contribution to cultural studies.

[Renewing Architectural Typologies: Mosque, House, Library: Makram El Kadi, Hernan Diaz Alonso, and Aoc, Nina Rappaport, Leticia Wouk Almino De Souza, Leticia Wouk](#) , 2014, 098933175X, 9780989331753. This is the fifth book documenting the Louis I. Kahn Visiting Assistant Professorship featuring the work of young architect-practitioners teaching in the advanced studios at Yale. The studios each explore new typologies and include the themes, "Once Upon A House," taught by Hernan Diaz Alonzo of the L.A. based architectural practice Xefirotarch, which examined the relationship of types versus species, where type is viewed as "categories of standardization, then species are malleable entities in constant metamorphosis." The brief called for a house to occupy a site in three acts by employing a cellular spatial logic. In subverting the typology of the house, the studio presents radical possibilities of inhabitation. In the "Expanded Mosque," taught by Makram El Kadi and Ziad Jamaledine of the New York and Beirut-based architectural practice L.E.F.T. the students critiqued architecturally both an imported Modernism that is dissociated from contextual consideration and a reconstruction of the present in the image of an idealized past. The program of the mosque does not only serve a purely liturgical function, but is also an important community gathering place. The studio examined how the physical space of the mosque and social space of Islam can have a dialogue with other programs, religious or secular. The studio questioned the stagnating typology of the mosque in an attempt to project new possibilities for the future for a site of a World's Fair designed by Oscar Niemeyer in Tripoli. In the advanced studio, "Re-Storing Public Possessions," Geoff Shearcroft, Vincent Lacovara, Tom Coward, and Daisy Froud of the London-based architectural practice AOC investigated the increasing emphasis on material artifacts and demand for 'hard' storage in this digital world. The studio examined the established public repositories of London--the V&A Museum, the Tate Gallery, the British Museum, the British Library, and the Royal Armouries--and how they might evolve in response to the changing demands of the contemporary public to create a participative and productive architecture. The book features interviews with the professors."

[Of Mice and Moose Calls, Sonia Jones](#) , 2008, 0981047009, 9780981047003. This is a collection of articles from Sonia Jones's humor column called "Life Ever Laughing," originally published in "The Banner" magazine. The topics range from warbling church mice to operatic moose calls, and from chaos on the farm to wild roosters running amok in the Dutch

countryside. But life also has its darker side. There are some poignant stories about a grieving linguistics professor, a plucky Russian expatriate in Paris, and a dog that sniffs out his owner's cancer. There is also a longer piece at the end of the book about the author's own struggle to save her baby's life. What critics say about other books by the same author: "[She] has a born teacher's eye for the well-chosen example... Indeed, the best things in ["It All Began With Daisy"] are its author's good humor and genuine charity of spirit." -- Robert Coleman, New York Times "A colorful parade of well-drawn characters and comic-tragic events. -- Jennifer Henderson, Financial Post

[An Unnatural History of Emerging Infections, Ron Barrett, George Armelagos](#) , 2013, 0199608296, 9780199608294. This book traces the social and environmental determinants of human infectious diseases from the Neolithic to the present day. Despite recent high profile discoveries of new pathogens, the major determinants of these emerging infections are ancient and recurring. These include changing modes of subsistence, shifting populations, environmental disruptions, and social inequalities. The recent labeling of the term "re-emerging infections" reflects a re-emergence, not so much of the diseases themselves, but rather a re-emerging awareness in affluent societies of long-standing problems that were previously ignored. An Unnatural History of Emerging Infections illustrates these recurring problems and determinants through an examination of three major epidemiological transitions. The First Transition occurred with the Agricultural Revolution beginning 10,000 years ago, bringing a rise in acute infections as the main cause of human mortality. The Second Transition first began with the Industrial Revolution; it saw a decline in infectious disease mortality and an increase in chronic diseases among wealthier nations, but less so in poorer societies. These culminated in today's "worst of both worlds syndrome" in which globalization has combined with the challenges of the First and Second Transitions to produce a Third Transition, characterized by a confluence of acute and chronic disease patterns within a single global disease ecology. This accessible text is suitable for advanced undergraduate and graduate level students and researchers in the fields of epidemiology, disease ecology, anthropology, health sciences, and the history of medicine. It will also be of relevance and use to undergraduate students interested in the history and social dynamics of infectious diseases.

[Blowing the Whistle: The Organizational and Legal Implications for Companies and Employees, Marcia P. Miceli](#) , 1992, 0669195995, 9780669195996. Whistle-blowing occurs in all types of organizations and in response to many kinds of wrongdoing. Whistle-blowers can increase the safety and effectiveness of their organization, boost employee morale, prevent escalation of wrongdoing, and help their organization avoid litigation and legal regulation. On the other hand, they can undermine the legitimate management of their organization, subject the firm to public scandal and huge lawsuits, and even threaten its very survival. In providing an authoritative review of the theories and implications of

whistle-blowing, Marcia P. Miceli and Janet P. Near explain the many reasons some individuals decide to "turn in" their companies, why some organizations seem prone to whistle-blowing, and how to prevent the problems that lead to it. They identify the common traits of whistle-blowers and the organizations in which they are active, demonstrating that, contrary to popular ideas, whistle-blowers are generally not disgruntled underperformers or former employees. They are more often highly satisfied, well paid, high-performing workers, and are likely to be older, better educated, and to have worked for the organization for a long time. Miceli and Near assert that no organization should strive to be free of whistle-blowers. Since wrongdoing is inevitable in any organization, they argue, so is the need for whistle-blowers. As preventive measures, organizations should develop "living" codes of conduct, train employees to deter wrongdoing, and provide rewards for ethical behavior. The authors encourage speedy, impartial internal complaint procedures with designated complaint recipients, and swift corrective measures once wrongdoing is identified. Whistle-blowers should be kept informed of the investigation into their charges, and rewarded rather than punished for their actions. And to assure that whistle-blowers aren't being unjustly terminated, all firings should be reviewed by an impartial authority. *Blowing the Whistle*, with its extensive empirical research, will be an important volume for academics in management, human resources, and organizational psychology. Managers will find the material on the practical and legal implications of whistle-blowing helpful in responding to their employees' complaints and in curtailing wrongdoing. And for those employees who are contemplating sounding the alarm on their organizations, Miceli and Near offer guidelines on how whistle-blowers can enhance their effectiveness and avoid retaliation.

[Bugs in the Garden, Beatrice Alemagna](#) , 2011, 071486238X, 9780714862385. Beatrice Alemagna returns with a follow up to the charming *Bugs in a Blanket*. What happens when the bugs venture out into the big, wide garden to find some new friends? This sturdy board book introduces children to lovable bugs who learn how to accept creatures they are initially afraid of. Author Beatrice Alemagna invented a whole new technique of illustration for this book using a felted wool technique and an amalgam of applique, fabrics and stitching.

[Charles Burchfield 1920: The Architecture of Painting,](#) , 2009, 0981525059, 9780981525051. One of the great American Modernist artists, Charles Burchfield (1893-1967) is often associated with the romantic nature fantasies he produced in his later years, but his earliest engagements with Modernism are often overlooked. In "Charles Burchfield 1920: The Architecture of Painting," the importance of this phase is examined for the first time. Assembling a tight group of Burchfield's watercolors, it highlights works executed between 1918 and 1920, which depict the stark houses and industrial landscapes of Burchfield's Salem, Ohio. These watercolors employ certain hallmarks of Modernist pictorial strategy, such as flattened space, reductive simplicity and industrial themes, but without the crisp Precisionism of a

Demuth or a Sheeler--rather they convey Burchfield's simultaneous engagement with Folk Art and Expressionism. By positioning this period as integral to (rather than anomalous within) the trajectory of Burchfield's career, the insights of authors Michael Hall, Nannette Maciejunes and Karli Wurzelbacher here provide a richer understanding of Burchfield's art.

[Made by Hand: My Adventures in the World of Do-It-Yourself, Mark Frauenfelder](#) , 2011, 110156945X, 9781101569450.

"It's not merely good, it's foundation-shaking." -Seth Godin From his unique vantage point as editor-in-chief of Make magazine, the hub of the do-it-yourself movement, Mark Frauenfelder takes readers on an inspiring and surprising tour of the vibrant world of DIY. Frauenfelder spent a year trying a variety of offbeat projects such as keeping chickens and bees, tricking out his espresso machine, whittling wooden spoons, making guitars out of cigar boxes, and doing citizen science with his daughters in the garage. His whole family found that DIY helped them take control of their lives, offering deeply satisfying alternatives for spending time together. Working with their hands and minds helped them feel more engaged with the world around them. Frauenfelder also profiles fascinating "alpha makers" leading various DIY movements and grills them for their best tips and insights. He offers a unique perspective on how earning a few calluses can be far more rewarding than another trip to the mall.

[Co-Creating Change: Effective Dynamic Therapy Techniques, Jon Frederickson](#) , 2013, 0988378841, 9780988378841.

Written for therapists, Co-Creating Change shows what to do to help "stuck" patients (those who resist the therapy process) let go of their resistance and self-defeating behaviors and willingly co-create a relationship for change instead. Co-Creating Change includes clinical vignettes that illustrate hundreds of therapeutic impasses taken from actual sessions, showing how to understand patients and how to intervene effectively. The book provides clear, systematic steps for assessing patients' needs and intervening to develop an effective relationship for change. Co-Creating Change presents an integrative theory that uses elements of behavior therapy, cognitive therapy, emotion-focused therapy, psychoanalysis, and mindfulness. This empirically validated treatment is effective with a wide range of patients.

[Rethinking the Welfare State: The Prospects for Government by Voucher, Ronald Joel Daniels, M. J. Trebilcock](#) , 2005, 0415337763, 9780415337762. Rethinking the Welfare State offers a comprehensive and comparative analysis of social welfare policy in an international context, with a particular emphasis on the US and Canada. The authors investigate the claim that a decentralized delivery of government supported goods and services enables policy objectives to be achieved in a more innovative and efficient way, but at a lower cost. Secondly they examine the effectiveness of the voucher system as a solution to problematic welfare concerns. While this system has shown much promise in improving welfare, there have been problems for institutions unable to attract enough voucher-assisted consumers to ensure their survival. In this context, the authors examine major social programmes such as food stamps, primary and secondary education, post-secondary education, labour market training, childcare, healthcare, legal aid, low-income housing, long-term care and pensions.

[The Thirty Years War, Stephen J. Lee](#) , 2001, 0415268621, 9780415268622. The period 1618-1648 was one of the most complex in European history. Religion interacted with rebellion and dynastic rivalry in a series of conflicts in central Europe known collectively as the Thirty Years War. This book guides the reader through the period by surveying the narrative of events and establishing the essential chronological framework. In addition Stephen Lee looks at such key issues as the motives of the participants, their gains and losses, as well as at the religious, military, social and economic

aspects of the War. Each section in the book incorporates the most recent research.

[Checking In: 52 Favorite Places to Stay in New England, Janice Page, Ron Driscoll](#) , 2007, 0979013747, 9780979013744.

When most people think of places to stay in New England they think of homey inns and B&Bs where personal touches abound. They think of quaint lodgings with antique furnishings, comfortable porches, roaring fireplaces, and home cooked meals that are reason enough to return. New England is full of such places, of course, but there's more to this region, too. From luxurious country estates to humble farmhouses, from seaside retreats to chic boutique hotels, the Northeast has such an impressive range of sleepover options that the Boston Globe dedicates a weekly "Checking In" column to exploring every nook and cranny of it. Now, the bigger and better 2008 edition of Checking In compiles some of the Globe's best reviews in one handy paperback planner that lays out an entire year's worth of getaways. It goes beyond the basics of contact information and room rates to candidly tell you what Globe reviewers liked and didn't like, what surprised them, and what made each place distinctive-be it romance, gourmet meals, seasonal activities, or a family-friendly attitude. Each twopage review also leaves room for reader notes on "things to remember," and directs more inquisitive tourists to web pages where expanded reviews and destination guides can be found, along with links to book reservations. At just \$9.95, Checking In, 2008 is the perfect gift for anyone who wants to explore an incredible array of places to stay in New England. It should keep travelers plenty busy until the 2009 edition rolls around.

[The Illuminated Page: Ten Centuries of Manuscript Painting in the British Library, Janet Backhouse](#) , 1997, 0712345426, 9780712345422. The British Library houses the largest and most comprehensive collection of Western illuminated manuscripts in the world. This book offers an anthology in colour chosen from more than two hundred of them. So very comprehensive are the British Library collections that the majority of the most significant schools of illumination in medieval Europe can be represented. Furthermore, most of the manuscripts contain dozens, if not hundreds, of images, only visible to those who have the privilege of turning their delicate pages.

[The House of the Dead, Fyodor Dostoyevsky](#) , 2004, 0486434095, 9780486434094. Accused of political subversion as a young man, Dostoyevsky was sentenced to four years of hard labor at a Siberian prison camp a horrifying experience from which, years later, he developed this semi-autobiographical memoir of a man condemned to penal servitude for murdering his wife. Describing in relentless detail the physical and mental suffering of the convicts, this haunting and

remarkable work ranks among Dostoyevsky's greatest masterpieces.

[Shakespeare: an illustrated stage history, Jonathan Bate, Russell Jackson](#) , 1996, . Four hundred years ago, Hamlet urged his players, "Speak the speech, I pray you, as I pronounced it to you, trippingly on the tongue." But in expressing the passions of the play, he advised, "Let discretion be your guide." Ever since, the tensions between faithfulness to the text on one hand, and expressive freedom on the other, have kept Shakespeare productions in a state of constant flux. From the radical alterations and "improvements" of the late seventeenth century, to the startling dislocations in setting, dress, and political context of the twentieth, from the extravagant sets of the Victorians to the stark minimalism of London's 1970s fringe theatre, Shakespeare's plays have lent themselves to an astonishing variety of incarnations. Written by a team of distinguished scholars, under the editorship of Jonathan Bate and Russell Jackson, *Shakespeare: An Illustrated Stage History* offers an elegantly designed and compellingly readable account of four centuries of Shakespearean productions. The book is consistently illuminating. Of the theatre of Shakespeare's own day, for instance, we learn not only what the plays would have looked like but also how changing conditions affected their composition--how, in 1604, the Act to Restrain Abuses of Players, which forbid the utterance of Christian oaths on stage, drove Shakespeare to set his plays in antiquity for the next five years. Likewise, when the King's Men moved indoors from the Globe to the Blackfriars theatre for the winter season, Shakespeare was forced to compose his plays in five distinct acts, separated by musical intervals, because the candles lighting the stage would burn down and need to be replaced. We also learn of the vehement Puritan antipathy to the theatre, an antipathy so great that at the outset of the civil war, in 1642, Parliament passed the Stephens Act, outlawing all stage performances--to avoid the "high provocation of God's wrath"--and formally declaring players to be "rogues," subject to public whippings and even the death penalty. Though the theatre has never since been considered quite so dangerous, the contributors clearly show how politically powerful Shakespeare performances have remained, and how variable, with both the establishment and the opposition enlisting the Bard in their causes. The book is equally engaging on the great actors, from eighteenth-century giant David Garrick to modern figures such as Ralph Fiennes, John Gielgud, Lawrence Olivier, Ralph Richardson, Peggy Ashcroft, and Peter Brook (the book includes a fascinating piece by actress Judi Dench that provides a performer's view of Shakespeare). What emerges most significantly from the book is a vivid sense of the enormous malleability of Shakespeare's work, responsive not only to changing political, economic, and social conditions, but also to the widest range of imaginative impulses in staging, direction, and interpretation. An invaluable and delightful book for anyone interested in Shakespeare or the stage, this superb volume gives readers a much clearer knowledge of the forces that have shaped Shakespeare productions. Indeed, they will feel as if they've been given backstage passes to the best performances of the past four centuries.

[Shadows of the Mind: A Search for the Missing Science of Consciousness, Roger Penrose](#) , 1994, 0195106466,

9780195106466. A New York Times bestseller when it appeared in 1989, Roger Penrose's *The Emperor's New Mind* was universally hailed as a marvelous survey of modern physics as well as a brilliant reflection on the human mind, offering a new perspective on the scientific landscape and a visionary glimpse of the possible future of science. Now, in *Shadows of the Mind*, Penrose offers another exhilarating look at modern science as he mounts an even more powerful attack on artificial intelligence. But perhaps more important, in this volume he points the way to a new science, one that may eventually explain the physical basis of the human mind. Penrose contends that some aspects of the human mind lie beyond computation. This is not a religious argument (that the mind is something other than physical) nor is it based on the brain's vast complexity (the weather is immensely complex, says Penrose, but it is still a computable thing, at least in theory). Instead, he provides powerful arguments to support his conclusion that there is something in the conscious activity of the brain that transcends computation--and will find no explanation in terms of present-day science. To illuminate what he believes this "something" might be, and to suggest where a new physics must proceed so that we may understand it, Penrose cuts a wide swathe through modern science, providing penetrating looks at everything from Turing machines (computers programmed from artificial intelligence) to the implications of Godel's theorem maintaining that conscious thinking must indeed involve ingredients that cannot adequately be stimulated by mere computation. Of particular interest is Penrose's extensive examination of quantum mechanics, which introduces some new ideas that differ markedly from those advanced in *The Emperor's New Mind*, especially concerning the mysterious interface where classical and quantum physics meet. But perhaps the most interesting wrinkle in *Shadows of the Mind* is Penrose's excursion into microbiology, where he examines cytoskeletons and microtubules, minute substructures lying deep within the brain's neurons. (He argues that microtubules--not neurons--may indeed be the basic units of the brain, which, if nothing else, would dramatically increase the brain's computational power.) Furthermore, he contends that in consciousness some kind of global quantum state must take place across large areas of the brain, and that it within microtubules that these collective quantum effects are most likely to reside. For physics to accommodate something that is as foreign to our current physical picture as is the phenomenon of consciousness, we must expect a profound change--one that alters the very underpinnings of our philosophical viewpoint as to the nature of reality. *Shadows of the Mind* provides an illuminating look at where these profound changes may take place and what our future understanding of the world may be.

[The Quiet One: General Roscoe Robinson, Jr, Leon L. Haley](#) , 2010, 0977788474, 9780977788477. Since the early days of the American Republic, African Americans have been active participants in the military history of our nation. However, until the late 1940s, their experiences in the military, for the most part, occurred during the period of racial segregation, which often resulted in their being assigned to non-combat duties. Nevertheless, in spite of their status, they continued to exhibit loyalty to their country and served honorably. Students of American history are familiar with great military leaders whose heroic deeds during the military conflicts of the 19th and 20th centuries have become a part of our historical legacy. Much has been written about them as highly visible symbols of courage and leadership. Yet others, equally deserving remain unknown and have not received the same visibility in terms of public recognition. When I became aware of the life and career of General Roscoe Robinson, Jr., the first United States Army African American four-star general, I was surprised to learn so few people-even among my own generation of African Americans-had ever heard of him. Even in one of the most comprehensive history books about African Americans - From Slavery to Freedom, written by the well-known scholar, John Hope Franklin, Roscoe Robinson is not mentioned. In authoring this biography, I seek to fill this gap in our knowledge of this remarkable man who, from humble beginnings, rose to the pinnacle of military success through perseverance, discipline, and commitment to duty and country. Whenever I write something of an historical nature pertaining to the life and times of African Americans, I am always reminded of the admonition of one of America's most distinguished men of color - William E. B. Du Bois. It was he who-in a presentation in 1898 before the American Academy of Political and Social Science-advanced the notion that understanding black life in America required a systematic assessment of the influence of broad historical, cultural, social, economic, and political forces that shaped the times. There is no way of denying the subject of race in the military. It was an inescapable condition, which has riveted American social, cultural, and political systems before and during Robinson's time in the military. I have tried to convey that circumstance as accurately as possible. Indeed, in many respects, from his early childhood through his retirement years, Robinson lived through one of the most historic periods in race relations in this country - both within and outside

the military. Today, men and women of all races make immense sacrifices to serve their country, defend our liberties, and protect our interests around the world; often without the gratitude and recognition, they deserve. It is my firm hope that this book will not only serve as an inspiration to all who read it, especially to the current generation of young African Americans (including my children and grandchildren) about whom General Robinson cared deeply, but that it will enable the readers to develop a greater appreciation for those who serve in the military. About the Author: Leon L. Haley, PhD, is a professor emeritus in the Graduate School of Public and International Affairs, University of Pittsburgh. Over twenty-five year tenure at the University, he served in a number of capacities, including an Associate Dean, Acting Dean, and a Vice Chancellor for Student and Public Affairs. With African American history as an avocation, in addition to *The Quiet One*, he is the author of *From the Staunton to the Allegheny: an African American Family Journey*. Specializing in strategic planning, he now serves as a consultant for nonprofit organizations.

[The Cambridge Introduction to the American Short Story, Martin Scofield](#) , 2006, 1139457659, 9781139457651. This wide-ranging introduction to the short story tradition in the United States of America traces the genre from its beginnings in the early nineteenth century with Irving, Hawthorne and Poe via Fitzgerald, Hemingway and Faulkner to O'Connor and Carver. The major writers in the genre are covered in depth with a general view of their work and detailed discussion of a number of examples of individual stories. The Cambridge Introduction to the American Short Story offers a comprehensive and accessible guide to this rich literary tradition. It will be invaluable to students and readers looking for critical approaches to the short story and wishing to deepen their understanding of how authors have approached and developed this fascinating and challenging genre. Further reading suggestions are included to explore the subject in more depth. This is an invaluable overview for all students and readers of American fiction.

[Hi, Ho, Come to the Fair: Tales of the New York World's Fair of 1964-1965, Bruce Nicholson](#) , 1989, 0962442607, 9780962442605. Relates the problems and frustrations encountered by the six men who were assigned the task of enticing foreign governments to participate in the New York World's Fair of 1964-65.

[Tales of Elijah the Prophet, Peninnah Schram](#) , 1997, 0765759918, 9780765759917. Elijah the Prophet is one of the most popular and beloved figures in all of Jewish literature. Both as a biblical prophet and a folklore hero, Elijah has fascinated Jews all over the world for centuries. He has served in many different roles, offering guidance on how to live Like a mensch, bringing hope, reconciling family members, rewarding goodness while punishing wickedness, rescuing

Jewish communities and worthy individuals, seeing that justice prevails, and signaling the coming of the Messiah. Tales of Elijah the Prophet is a brilliant collection of thirty-seven stories selected by the gifted storyteller, Peninnah Schram. In these intriguing tales, we see Elijah as the master of miracles. His chameleon-like disguises are marvelously clever and numerous, using such diverse poses as an old man, a traveler, a matchmaker, a magician, a slave, and even a handsome horseman. He uses these disguises to heighten suspense and fantasy, to test people's behavior, to restore faith, and to bring about a happy resolution to the problems in the story. The tales in this wonder-filled volume cover a range of themes and types of Elijah tales. All are miracle stories, but they vary greatly in mood, character, plot, locale, time, and theme. There are religious stories focusing on restoring faith in God and humorous tales that emphasize resourcefulness. Other stories involve Passover, love, and riddle themes. Peninnah Schram chose thirty-six of these stories, using the Jewish symbolic number of twice eighteen (chai), which is the Hebrew equivalent to "life." And since it is the Jewish custom to add one to a number, perhaps to ensure good luck, she included her favorite story, Elijah and the Three Wishes, in the Introduction. In addition to the stories in Tales of Elijah the Prophet, this volume includes an informative introduction to the character of Elijah the Prophet that explores his various roles in Jewish life and literature. There are also extensive notes to each story, indicating sources a

[Option Strategies for Earnings Announcements: A Comprehensive, Empirical Analysis, Ping Zhou, John Shon](#) , 2012, 0132947404, 9780132947404. By trading on corporate earnings, investors can reliably profit in both up and down markets, while avoiding market risk for nearly the entire quarter. In this book, two leading traders and portfolio managers present specific, actionable techniques anyone can use to capture these sizable profits. Ping Zhou and John Shon have performed an unprecedented empirical analysis of thousands of stocks, reviewing tens of millions of data

points associated with option prices, earnings announcement returns, and fundamentals. Their massive analysis has identified consistent opportunities associated with focusing on the magnitude of the markets reaction to earnings, not its direction. Option Trading Set-Ups for Corporate Earnings News offers concrete guidance for improving the likelihood of making correct forecasts, and managing the risks of incorrect forecasts. It introduces several ways to exploit option trading opportunities around earnings news, discuss crucial issues that most retail investors haven't considered, and explore aspects of earnings-related option trading that have never been empirically examined and documented before. For example, they identify hidden patterns and potential opportunities based on valuation, industry, volatility, analyst forecasts, seasonality, and trades that immediately follow earnings announcements. Simply put, trading on earnings reports offers immense profit opportunities, if you know how. This book provides incontrovertible facts and detailed strategies, not just theories and anecdotes!

[Vox Compact Spanish and English Dictionary, 3E \(Vinyl\), Vox](#) , 2008, 0071499512, 9780071499514. Get the Spanish reference millions have come to trust For the first time in 12 years, the most popular Spanish and English dictionary available in North America has been thoroughly revised and updated for today's high-school and college students, businesspeople, and armchair linguists. More than 15,000 entries and 140 pages have been added to the dictionary, which is available in three formats to fit anyone's needs. And the layout itself has gotten a polish; it has been completely reset for even better legibility!

[Think, Act and Be Someone: Teaching to Win by Choice Based on Napoleon Hill's Thirteen Proven Steps to Success, Orrin C. Hudson](#) , 2004, 0974613398, 9780974613390. Orrin C. Hudson's new book Think, Act and Be Someone! Teaching to Win by Choice based on Napoleon Hill's Thirteen Proven Steps to Success offers the shortest dependable philosophy of individual achievement ever presented for the benefit of anyone who is searching for a definite goal in life. When the great Nobel Prize winner Dr. Albert Schweitzer was asked what's wrong with people today, he answered, 'People simply don't think!' Although it has been more than fifty years since that statement was made, it still holds true today. Most people merely react to external stimuli. Think, Act and Be Someone offers a better way: "if you think rich, you will grow rich. What a magic formula!" "I teach people to think," Orrin says, "Stay where you are until you think your way through. Don't move until you see the right path. The answer is right before you. You just have to figure it out and solve your own

problem. No one is coming to the rescue." Orrin, who also just won the 2004 TBS Superstation Pathfinders awards for Education, the 2004 Beacon of Hope award, and the 2004 Martin Luther King award, has dedicated his life to helping others. He is a former 6-year Alabama state trooper, Air Force veteran, and now the founder of the youth organization called Be Someone, Inc. Be Someone, Inc.'s mission is to build character, hope, and inspiration among disadvantaged youth.

[The Toyota Product Development System: Integrating People, Process, and Technology, James Morgan, Jeffrey K. Liker](#) , 2006, 1563272822, 9781563272820. The ability to bring new and innovative products to market rapidly is the prime critical competence for any successful consumer-driven company. All industries, especially automotive, are slashing product development lead times in the current hyper-competitive marketplace. This book is the first to thoroughly examine and analyze the truly effective product development methodology that has made Toyota the most forward-thinking company in the automotive industry. Winner of the 2007 Shingo Prize For Excellence In Manufacturing Research! In *The Toyota Product Development System: Integrating People, Process, and Technology*, James Morgan and Jeffrey Liker compare and contrast the world-class product development process of Toyota with that of a U.S. competitor. They use extensive examples from Toyota and the U.S. competitor to demonstrate value stream mapping as an extraordinarily powerful tool for continuous improvement. Through examples and case studies, this book illustrates specific techniques and proven practices for dealing with challenges associated with product development, such as synchronizing multiple disciplines, multiple function workload leveling, compound process variation, effective technology integration, and knowledge management. Readers of this book can focus on optimizing the entire product development value stream rather than focus on a specific tool or technology for local improvements.

[The Ascent of Man, Jacob Bronowski](#) , 2002, 0141391189, 9780141391182. Traces our rise - both as a species and as moulders of our own environment and future. The book covers invention from the flint tool to geometry, from the arch to the Theory of Relativity. It also explores the social and historical background that gave rise to those inventions. Its grasp of both science and civilization shows man's ability to understand nature, to control it and not be controlled by it.
