[Charlie Ford Meets Secret Agent Man, J. D. Tynan](#) , 2008, 0980155592, 9780980155594. Like a breathe of fresh air, J. D. Tynan's latest hero and the nations sexiest nanny, Charlie Ford bursts forth on the reading public. An action story like no other, with a heroine that has feet of clay, Charlie Ford Meets Secret Agent Man is exciting, filled with action, danger, thrills and just enough sex to make reading a pleasure. Who is chasing whom? In the midst of terrorists and perils, could Charlie have just found the one man for her? Or, is it just one of those things? You will be amused, bemused entertained, thrilled, and you won't want to put this one down. Then, you won't be able to wait until the next in J.D.'s series featuring the most appealing nanny of all.

[The Look: Does God Really Care What I Wear?, Nancy Leigh DeMoss](#) , 2003, 0940110431, 9780940110434. You're wandering through your favorite store looking for a great new outfit. How do you decide what to wear? Does God have anything to do with it? Does it even matter to Him? Has the Master Designer given us a pattern? Beyond style, what about issues of appropriateness and modesty? Nancy Leigh DeMoss challenges Christians to ask themselves tough questions. Who decides what I will wear, and why? What message does my clothing communicate? And how can I reflect the glory of God in my wardrobe?

Finding himself left with only memories, Robert Kincaid takes to the road again on a long, winding run back to Roseman Bridge. Available only in Paperback Bestsellers 4.

[Making the Most of Your Deer, Dennis Walrod](#) , 2004, 0811731626, 9780811731621. All-purpose guide to utilizing your

deer after the kill Detailed instructions on field dressing and butchering Varied recipes for venison plus tips on do-it-yourself taxidermy You've braved the elements, spent hours lying in wait, and had your share of near misses, but you've finally bagged that prize whitetail or mule deer. Now what? In this wide-ranging guide, Dennis Walrod tells you everything you need to know to maximize the use of your deer. In addition to essential instruction on field dressing and transport, the author goes on to cover salting and tanning hides, aging venison, leathercrafting, soapmaking, trophy mounting, and creating home furnishings and decorations. Also included is a selection of mouthwatering venison recipes, making this an indispensable resource for any hunter looking to extend the hunting experience beyond the moment of the kill.

[Secure and Resilient Software: Requirements, Test Cases, and Testing Methods, Mark S. Merkow, Lakshmikanth Raghavan](#) , 2011, 143986621X, 9781439866214. Secure and Resilient Software: Requirements, Test Cases, and Testing Methods provides a comprehensive set of requirements for secure and resilient software development and operation. It supplies documented test cases for those requirements as well as best practices for testing nonfunctional requirements for improved information assurance. This resource-rich book includes: Pre-developed nonfunctional requirements that can be reused for any software development project Documented test cases that go along with the requirements and can be used to develop a Test Plan for the software Testing methods that can be applied to the test cases provided A CD with all security requirements and test cases as well as MS Word versions of the checklists, requirements, and test cases covered in the book Offering ground-level, already-developed software nonfunctional requirements and corresponding test cases and methods, this book will help to ensure that your software meets its nonfunctional requirements for security and resilience. The accompanying CD filled with helpful checklists and reusable documentation provides you with the tools needed to integrate security into the requirements analysis, design, and testing phases of your software development lifecycle. Some Praise for the Book: This book pulls together the state of the art in thinking about this important issue in a holistic way with several examples. It takes you through the entire lifecycle from conception to implementationDoug Cavit, Chief Security Strategist, Microsoft Corporation ...provides the reader with the tools necessary to jump-start and mature security within the software development lifecycle (SDLC). Jeff Weekes, Sr. Security Architect at Terra Verde Services...full of useful insights and practical advice from two authors who have lived this process. What you get is a tactical application security roadmap that cuts through the noise and is immediately applicable to your projects. Jeff Williams, Aspect Security CEO and Volunteer Chair of the OWASP Foundation

[Rampart Street, , David Fulmer](#) , 2006, 0151010242, 9780151010240. As the third Storyville mystery begins, Creole detective Valentin St. Cyr has just returned to New Orleans. Having only recently solved the case of the jass murders, he is drawn reluctantly into the investigation of a new murder- that of a well-to-do gentleman on seedy Rampart Street. Then another wealthy society man turns up dead, and the detective learns that the two victims were acquainted years

on the American Board of Internal Medicines Subspecialty Examination in Gastroenterology. A high proportion new review questions - more than 75% based on patient presentations - mirror the content of the actual board examination, providing a realistic simulation of the exam's challenges.

[Dead Time Story, Richard Sanders](#) , 2012, 1475235607, 9781475235609. Who killed JFK? Did Hitler really commit suicide? Was Kurt Cobain murdered? Hell, as long as we're asking, did Jesus actually live and if so how did he die? I didn't think we'd ever answer those questions, until I met a savant physicist who could unlock memories coded in DNA. The results were world shaking, to say the least. Too bad the secrets in his own past were just as mysterious, just as deadly.

[Have Courage My Love: A Brave Encounter With a Bully, Lisa Hewitt-Savelli](#) , 2001, 0968530516, 9780968530511. Have Courage My Love - A Brave Encounter with a Bully is a story about feelings, personal strength, and having courage to believe in yourself. Have Courage My Love helps young children communicate their thoughts and feelings about peer pressure, bullying and friendship. The story reminds us of the need to be encouraged and included, defines the role of bully, victim and bystander, and helps children to understand the idea of a healthy relationship. The book has sold over 25,000 copies in Canada and is used by parents and teachers as a fun and entertaining way to engage children on these issues.

This textbook for A-level helps to develop skills in students to write more effectively about sociology. The introductory chapter outlines general principles that have to be applied when writing sociology essays. The 11 further chapters cover the main syllabus topics. Each one contains - a brief introduction to the theoretical background, three or four specimen answers to examination-type questions and a commentary on each essay.

[Fight to Survive!: Hardcore Self Defense Against Armed and Unarmed Attack, Randy Proto, Mike Kanarek](#) , 2003, .
Simple, effective self defense techniques for adults adapted from Israeli Special Forces tactics. Easy to learn, easy to apply. All techniques thoroughly explained with words and drawings.

[Robert Doisneau: From Craft to Art,](#) , 2010, 3869300256, 9783869300252. Nowhere is the breezy and urbane romance of Paris conjured as memorably as in the photography of Robert Doisneau (1912-1994). A gentle minstrel of visual anecdote, Doisneau interpreted the city's charms in an iconography that both natives and Francophiles instantly recognize: the young hip couple stealing a spontaneous kiss at a busy intersection, the gendarme chatting with a mother while her kid tiptoes along a riverbank bench, the sweetly melancholic abandoned merry-go-round in the rain and the entire pageant of Parisian life mingling at cafes, bus shelters and on the banks of the Seine. Doisneau was possessed of both lightness of touch and spontaneity, as a result of which he has been sometimes championed as a photographer of the "pure" moment. But his ocular touch is even lighter than that suggests-his images are not so much "seized" as "netted." Accompanying the Fondation Cartier-Bresson's exhibition of around 100 prints from the Doisneau estate, *From Craft to Art* presents these treasures alongside a new version of Jean-Francois Chevrier's classic 1983 essay on the photographer, which describes Doisneau's knack for capturing "the shining melancholy that separates an individual from the crowd." Robert Doisneau was one of France's most popular and prolific reportage photographers. As a member of the Resistance (both as a soldier and as a photographer), he used his engraving skills to forge passports and identification papers, and photographed both the occupation and liberation of Paris. After the war he worked freelance for *Life* and *Paris Vogue*, and also made superb portraits of artists including Giacometti, Cocteau, Leger, Braque and Picasso. Doisneau was awarded the Prix Niepce in 1956; a short film, *Le Paris de Robert Doisneau*, was made in 1973.

[The Magazine from Cover to Cover, Sammie Johnson, Patricia Prijatel](#) , 2007, 0195304179, 9780195304176. For more than three centuries, the magazine in America has been the medium for thoughtful analysis, perspective, context, information, creativity, and fun. Providing a unique and comprehensive overview of this vibrant and continually evolving industry, *Magazine Publishing and The Magazine from Cover to Cover* have now been thoroughly revised and updated in a new single edition: *The Magazine from Cover to Cover, Second Edition*. For anyone wanting to learn about magazine

publishing--whether you are a professional currently working within the industry, or a student who wants to design, edit, and manage magazines in the future--this book is a valuable and timely resource. It provides a fascinating perspective on the rich history of magazines in America, an overview of present publication practices, discussion of groundbreaking research, and a look forward to the challenges and opportunities in store for the industry. Combining extensive research with an engaging and attractive presentation, this wide-ranging study encompasses consumer titles, the business press, organization and association publications, public relations magazines, and imprint and custom publishing. Case histories of selected magazines are included, as are insights from publishers and editors. Comments from top magazine professionals on specific industry issues, ranging from ad-free magazines to celebrity journalism, are included. This second edition has been updated to include coverage of:

- * Circulation and advertising trends and data
- * The effects of evolving media and new technology on magazines and their staffs, including the evolution of job titles and responsibilities
- * The expansion and influence of custom publishing
- * The growth of international publishing
- * The continuing merger of advertising and editorial, resulting in magalogs, magazines with a single advertising sponsor, and an overall increase in advertising pressure on editorial
- * Details on demographic changes, represented in increased titles for:
 - * ethnic groups including Latinos, Blacks, and Asians
 - * age groups including children ages 2-4 years, teens, and young men
 - * The challenges of responding to shareholders as well as to readers

[Red Planet, Roderick Hunt](#) , 2000, 0199194262, 9780199194261. One of six of the original Owls stories from the Oxford Reading Tree series republished in larger format, with questions at the end, and Magic Key branding, to coincide with the launch of the TV series.

[The Dinosaur Tamer and Other Stories for Children with Diabetes, Marcia L. Mazur](#) , 1995, 0945448597, 9780945448594.

[Pentecostals after a century: global perspectives on a movement in transition, Allan Anderson](#) , 1999, 1841270067, 9781841270067. This book emerges from a consultation in June 1996 with Walter J. Hollenweger, acknowledged doyen of Pentecostal studies, held at Selly Oak Colleges, Birmingham. Different perspectives are offered from scholars from five continents, emphasizing the increasingly non-Western nature of this rapidly growing Christian movement and the significance of its roots. Central challenges facing Pentecostalism after a century of existence include the central doctrine of Spirit baptism and its relationship to the 'supernatural', the political relevance of the movement in different parts of the world, the indigenization and contextualization of the movement, and case studies from four continents.

[Art Models 7: Dynamic Figures for the Visual Arts, Maureen Johnson, Douglas Johnson](#) , 2012, 1936801191, 9781936801190. Artists in search of figures in intense action flying through the air, punching, kicking, and crouching will find more than 100 poses of male and female models in 28 categories of dynamic movement in this DVD-ROM that is the latest addition to the Art Models series. With over 2,000 high-resolution images on the disc, artists have the ability to

study these motions at length, opening up a world of high-intensity movement that can be incorporated into their artwork without taking up space on their computer hard drives or working with the cost and time constraints of hiring models. The ability for multiple-angle viewing and drawing at the artist's pace becomes as easy as putting in the disc which is both Mac and PC compatible and doesn't require any special programs and opening any photo. Poses have been carefully chosen to illustrate important effects, such as foreshortening and perspective changes. For artists who work in fine detail, close-ups and dramatic perspectives have been added for many positions and can be found in resolutions up to 20 megapixels. A section of photos depicting frozen actions, including jumping, falling, or swinging a sword, offers artists a series of expertly photographed views that would be very challenging to achieve with a studio model. Art Models 7 also presents a number of the series' trademark stationary poses photographed in 24-point rotation and shot in the round.

[The Southern Night Sky: An Introduction to Prominent Stars and Constellations, James Kavanagh](#) , 2001, 1583551689, 9781583551684. The Southern Night Sky is the perfect, folding GLOW-IN-THE-DARK pocket reference to the night sky in the Southern Hemisphere. Guide highlights prominent constellations and stars that are visible with the naked eye from cities south of the equator. Simply shine a flashlight on the guide to illuminate the constellations and their names during summer or winter. Laminated for durability, this handy guide is a great source of portable information and ideal for field use by novices and experts alike.

[The Queen's 80 Glorious Years](#) , 2006, 0955094321, 9780955094323.

[Introductory Technical Mathematics, John Peterson, Robert Smith](#) , 2006, 1418015431, 9781418015435. Introductory Technical Mathematics, 5th Edition provides current and practical vocational and technical math applications for today's sophisticated trade and technical work environments. Each unit delivers practical math concepts alongside step-by-step examples and problems drawn from various occupations. The plentiful examples and problem sets emphasize on-the-job applications of math. Enhancements to the fifth edition include improved algebra coverage, a new section on basic statistics, new material on conversions from metric to customary systems of measure, and a section that supplements the basics of working with spreadsheets for graphing. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Health and Safety Enforcement: Law and Practice, Richard Matthews, James Ageros](#) , 2007, 0199212864, 9780199212866. The first edition of Health and Safety Enforcement Law and Practice became the standard text for practitioners in this growing area of the law, providing a portable and authoritative guide to the key issues in health and safety enforcement in a practical and comprehensive manner. The new edition builds on the strengths of the first. It deals comprehensively with health and safety inspectors' enforcement powers; the service and appeal of improvement and prohibition notices; the law relating to health and safety offences; work-related death investigation; the Coroner's

procedure; and criminal procedure and sentencing in respect of health and safety offences. The second part of the book reproduces the relevant extracts from the key statutes, the Enforcement Policy Statement, and the most important Health and Safety Regulations. The new edition has been comprehensively updated and the authors have substantially expanded their coverage of judicial review and abuse of process; "reasonable practicability"; disclosure; case management; funding; and the forthcoming Corporate Manslaughter Act. They have also written a new chapter on defending enforcement actions. The text has been scrupulously updated in respect of recent case law, with informed discussion of the implications of decisions made.

[Education in cities, David G. Scanlon](#) , 1970, 0155985663, 9780155985667.

[The Leadership Test: Will You Pass?, Timothy R. Clark](#) , 2009, 057804210X, 9780578042107. The author has done a masterful job turning the complex, seemingly genetic leadership characteristic into an understandable, reachable goal for anyone to strive for. A powerful approach for all leaders to examine their performance.

[Perfect Love, Elizabeth Buchan](#) , 2003, 0312324642, 9780312324643. How far would she go for the Perfect Love? Many things can disrupt a long-time marriage. Prue Valour, 41, has spent her adulthood keeping house, making meals for her older husband, Max, and being a mother to their preadolescent daughter. Despite the comforts of life in their small English village, a vague discontent nags at Prue. But change is set in motion with the return of Max's petulant, icily beautiful daughter Violet. Moving in with her new baby and husband, Violet is as hateful to her step-mother Prue as she had been as a child. Worse, Violet resents her fretful baby. But Violet's husband Jamie is unexpectedly helpful, likeable, and caring. Drawn to each other, he and Prue are soon skirting a boundary between innocence and passion. But will Prue take that irrevocable step across?

[Entering Tenebrea, Daniel Graham, Roxann Dawson](#) , 2001, 0743417445, 9780743417440. One piercing energy beam is enough to shatter the calm of a seaport on a sunny day. Just one shot turns an idle dreamer into a hardened avenger. Enraged by the brutal terrorist attack that kills her entire family, Andrea Flores leaves behind a world she loves. Abandoning Earth forever to even the score, Andrea finds herself an outcast on the harsh planet Jod, where she fights to join an elite unit, the powerful and mysterious Tenebrea. With the universe on the brink of destruction, Andrea must

survive against all odds until the day she can face her family's killers and taste the revenge for which she lives.

[Introductory Indigenous Studies in Education: Reflection and the Importance of Knowing, Jean Phillips, Jo Lampert](#) , 2012, 1442563729, 9781442563728. Introductory Indigenous Studies in Education: Reflection and the importance of knowing is an update of the 2005 edition that was written specifically for university students in critical Indigenous studies programs. This 2nd edition takes into account relevant recent developments and includes revised versions of some of the previous chapters and some new chapters. This book intends to add to conversations about the place of Indigenous peoples in Australian society as a means of exploring Australian society itself. The issues considered about the representations of Indigenous peoples, our knowledge and the multi-dimensionality of our intersected history are relevant to a much broader societal context. The text does more than provide 'information'. Rather, it seeks to explore the conflict, compromise and negotiation that can emerge when previously disconnected ways of knowing ourselves are re-fashioned within a space where the 'stories' of Indigenous peoples are given authority where previously they were absent. As such, this book is concerned with persuading pre-service teachers to develop their own ideas of what Indigenous studies means to their work, and to consider their role as teachers in this context.

[The Hunter's Journal, Mark Culver, Paul T Brown](#) , 2000, .

[Warped Intentions, S. B. Redd](#) , 2011, 0983115265, 9780983115267. Television reporter Garner Davis of WCAE, a network affiliate in Columbia, South Carolina, is a survivor. He is passionate and skillful. He impresses his viewers with his tough questions and breaking news. Somehow, he doesn't ask the same questions when it comes to his choice of friends, acquaintances, and women . . . Vernise Aikens, a federal law enforcement officer, is a fan of Garner's and she lets him know about it. Intrigued, Garner meets her on a lunch date and she wows him with her wit, beauty, and sensuality . . . There is an inner voice that speaks to us if someone we meet has good intentions, let alone our best interests at heart. The question is whether we will listen and, if not, what are the consequences? Warped Intentions is national selling author S.B. Redd's latest thought provoking and scintillating novel, and first with MavLit Publishing.

[How Can I Pray When I'm Sick?, Douglas Connelly](#) , 1999, 0877840601, 9780877840602. What should you do when serious illness strikes? What steps can you take to pursue healing? How can you approach God in prayer when you are sick? Douglas Connelly has gleaned from the biblical record five steps that every Christian should take during illness. These steps of obedience and faith acknowledge both God's sovereign power over us and his ability to meet our deepest needs: pray for God's healing seek medical help confess any known sin in your life ask to be anointed rest fully in God's care This booklet will comfort you when you are ill and encourage you to confess "But as for me, it is good to be near God. I have made the Sovereign Lord my refuge" (Psalm 73:28).

[Astrobiology: A Very Short Introduction, David C. Catling](#) , 2013, 0199586454, 9780199586455. Astrobiology is the study of the origin and development of life on this and other planets. What fascinates people about astrobiology is that it seeks answers to long-standing unsolved questions: How quickly did life evolve on Earth and why did life persist here? Is there life elsewhere in the Solar System or beyond? The research of astrobiology has become more crucial than ever in recent decades, as biologists have discovered microbes that live in ever more extreme settings, such as bubbling hot springs, in acid, or deep within rocks. Rooted in strong and rigorous research, astrobiology incorporates the work of microbiologists, geologists, and astronomers. In this Very Short Introduction, David C. Catling introduces the origins of astrobiology and demonstrates its impact on current astronomical research and potential future discoveries. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[How the Homosexuals Saved Civilization: The True and Heroic Story of how Gay Men Shaped the Modern World, C. E. Crimmins](#) , 2004, 1585423149, 9781585423149. A shrewd and irreverent cultural history of the customs, fashions, and figures of gay life in the twentieth and the early twenty-first centuries-and how they have changed all of us for the better. The "global queering" of America has been gradually shaping the way straight people talk, think, dress, and eat. Over the past fifty years, the line between what is "straight" and what is "gay" has blurred to the point that most heterosexuals are unaware of the vast contributions gay men have made to American culture. How the Homosexuals

Saved Civilization presents a broad yet incisive look at how an unusual "immigrant" group, homosexual men, have become so influential on mainstream American culture. The general public's tastes and consumer choices in food, fashion, humor, literature, and body image are becoming decidedly more gay. And America has shown a real interest in TV shows with gay content and themes, such as Queer Eye for the Straight Guy; Will & Grace; and Six Feet Under. Overall, it's hip to be gay, even if you're straight. How the Homosexuals Saved Civilization tells us something about ourselves as a society. It celebrates the unique perspective of gay men and explains how essential their vitality has been to our civilization.

[Smart Drugs II: The Next Generation : New Drugs and Nutrients to Improve Your Memory and Increase Your Intelligence, Ward Dean, Steven Wm Fowkes](#) , 1993, 0962741876, 9780962741876. The book that fueled the smart-drug movement--now updated with all the latest information on where to get smart drugs and how to use them for self-improvement. Nearly every page includes quotes from scientists, doctors, and media people, along with testimonials from smart-drug users. 12 line drawings. Charts.

[Law and Justice in Australia: Foundations of the Legal System, Prue Vines](#) , 2013, 019557656X, 9780195576566. Law and Justice in Australia takes a historical, critical and contextual approach to law and justice and offers students a mix of stories, cases, article extracts and explanatory commentary. This together with the author's narrative writing style encourages students to develop an in-depth understanding of the legal system and creates a solid basis for further studies in law.

[Handbook of Dialogical Self Theory, Hubert J. M. Hermans, Thorsten Gieser](#) , 2011, 1107006511, 9781107006515. In a boundary-crossing and globalizing world, the personal and social positions in self and identity become increasingly dense, heterogeneous and even conflicting. In this handbook scholars of different disciplines, nations and cultures (East and West) bring together their views and applications of dialogical self theory in such a way that deeper commonalities are brought to the surface. As a 'bridging theory', dialogical self theory reveals unexpected links between a broad variety of phenomena, such as self and identity problems in education and psychotherapy, multicultural identities, child-rearing practices, adult development, consumer behaviour, the use of the internet and the value of silence. Researchers and practitioners present different methods of investigation, both qualitative and quantitative, and also highlight applications of dialogical self theory.

[Wild Hares and Hummingbirds: The Natural History of an English Village, Stephen Moss](#) , 2012, 0099552469, 9780099552468. Naturalist and author Stephen Moss lives in one of the longest villages in England u Mark, on the Somerset Levels. This watery wonderland is steeped in history: it is the land of King Arthur, where King Alfred burnt the cakes and where the last battle was fought on English soil. This ancient country parish, dating from before the Domesday Book, has been reclaimed from the sea over many centuries . Today the landscape bears witness to its eventful past, and is criss-crossed with watery ditches and broad droves, down which livestock was once taken to market. These are now home to a rich selection of resident and visiting wildlife: rooks and roe deer; sparrows and snowdrops; buzzards, badgers and butterflies. Amongst these natural wonders are the 'wild hares and hummingbirds' of the book's title: one of our most iconic mammals, the brown hare; and a scarce and spectacular visitor, the hummingbird hawk-moth. As the year unfolds, Moss creates an intimate account of the natural history of his parish. He witnesses the landscape as it passes from deep snow to spring blossom, through the heat haze of summer to the chill winds of autumn; from the first hazel catkins to the swallows returning from Africa; the sounds of the dawn chorus to the nocturnal mysteries of moths. But this is not simply the story of one small corner of the West Country; it also serves as a microcosm of Britain's wider countryside. At a time of uncertainty u as our landscape and wildlife face some of the greatest changes in recorded history u it reveals the plants and animals that will adapt and thrive, and those that may struggle, and even disappear, from our lives. This is a very personal celebration of why the natural world matters to all of us, wherever we live. Wild Hares and Hummingbirds is nature writing at its finest, expressed through the natural history of one very special place.

[The Trombone, Trevor Herbert](#) , 2006, 0300100957, 9780300100952. This is the first comprehensive study of the trombone in English. It covers the instrument, its repertoire, the way it has been played, and the social, cultural, and aesthetic contexts within which it has developed. The book explores the origins of the instrument, its invention in the fifteenth century, and its story up to modern times, also revealing hidden aspects of the trombone in different eras and countries. The book looks not only at the trombone within classical music but also at its place in jazz, popular music, popular religion, and light music. Trevor Herbert examines each century of the trombones development and details the fundamental impact of jazz on the modern trombone. By the late twentieth century, he shows, jazz techniques had filtered into the performance idioms of almost all styles of music and transformed ideas about virtuosity and lyricism in trombone playing.

[Service Intelligence: Improving Your Bottom Line with the Power of IT Service Management, Sharon Taylor](#) , 2011, 0132692090, 9780132692090. Get the Right IT Services, on the Right terms, Without Hassles or Overpaying To gain the full benefits of technology and avoid the staggering costs of technology failure you must manage IT with vision, direction, and expertise. Only one set of methods is robust enough to do this: IT Service Management (ITSM). In Service Intelligence, ITSM pioneer Sharon Taylor shows business managers how to make the most of it. You'll learn how to ensure service quality, anticipate vulnerabilities, improve reliability, and link IT directly to business performance. Taylor explains ITSM from a true business point of view, cutting through jargon and helping you drive value without becoming overly technical. She gives you powerful tools for negotiating IT services more effectively, improving IT ROI, and escaping captivity to either internal or external IT providers. Coverage includes Recognizing what excellent IT service looks like and assessing what you're getting now Selecting the best IT service providers and services for your needs Spotting and rectifying trouble with internal or external supplier relationships Making sure you don't pay for services you don't need Negotiating services, requirements, levels, price, quality, and delivery Leveraging ITSM practices without losing focus on the business Creating business-focused service reports and scorecards that focus on what matters most

[International Logistics: Global Supply Chain Management, Douglas Long](#) , 2003, 1402074530, 9781402074530. Students of logistics, transportation, and supply chain management, as well as international managers will find International Logistics: Global Supply Chain Management an essential reference for understanding how cargo is moved around the world. A comprehensive guide that includes the theory and practice of global supply chain management, International Logistics: Global Supply Chain Management uses current, real-world issues to make the material as relevant as possible,

notwithstanding the fast-paced nature of this industry. Yet, the author also includes the theory and history of global supply chain management to provide a deeper understanding of the intricacies involved. Logistics and transportation are the key elements of business and international trade. Based upon his experience in over 120 countries, including private industry, the military, and the United Nations, the author challenges conventional wisdom by discussing the myth of supply chain management and offering penetrating questions on the role of information systems. *International Logistics: Global Supply Chain Management* is distinct in the following ways: A balanced approach between theoretical research and real-world practice, Cutting-edge, original graphics help explain concepts better than any current book, Instructor's Manual provided by the author upon request. Combined with pedagogical features and real-world case studies, *International Logistics: Global Supply Chain Management* is a must-have textbook for students of logistics, transportation, and supply chain management students, as well as a reference for international managers.

[Virtual Private Networking: A View from the Trenches, Bruce Perlmutter](#) , 2000, 0130203351, 9780130203359. VPNs are rapidly becoming the networking technology of choice for companies that want to link their locations, customers, and/or suppliers cost-effectively. This hands-on, "in-the-trenches" guidebook cuts through the VPN hype, helping any network professional build, secure, and manage a VPN successfully. The book covers both business and technical aspects of VPN consideration, planning, design, implementation, and ongoing management. Discover what VPNs are and how they work; make the business case for building a VPN; and determine whether to build it yourself or outsource it to an Internet service provider. Compare VPN deployment models; understand the L2TP tunneling protocol; learn your options for

providing consistent Quality of Service and service-level guarantees; and more. The book also contains six detailed case studies; a full chapter on service provider VPN offerings; and a preview of the future of VPNs.

[The Phonics Handbook: A Handbook for Teaching, Reading, Writing and Spelling in Print Letters, Sue Lloyd](#) , 2005, 1844140784, 9781844140787. The aim of this book is to teach children to read and write through an early systematic phonics programme. This means that the children are taught the main 42 sounds of English, not just the alphabet sounds. With this knowledge they are taken through stages of blending sounds to form words and then to reading. At the same time they are taught to write by identifying the sounds in words and relating the letters to those sounds.

[Wave Propagation in Fluids: Models and Numerical Techniques, Vincent Guinot](#) , 2012, 1118587561, 9781118587560.

This second edition with four additional chapters presents the physical principles and solution techniques for transient propagation in fluid mechanics and hydraulics. The application domains vary including contaminant transport with or without sorption, the motion of immiscible hydrocarbons in aquifers, pipe transients, open channel and shallow water flow, and compressible gas dynamics. The mathematical formulation is covered from the angle of conservation laws, with an emphasis on multidimensional problems and discontinuous flows, such as steep fronts and shock waves. Finite difference-, finite volume- and finite element-based numerical methods (including discontinuous Galerkin techniques) are covered and applied to various physical fields. Additional chapters include the treatment of geometric source terms, as well as direct and adjoint sensitivity modeling for hyperbolic conservation laws. A concluding chapter is devoted to practical recommendations to the modeler. Application exercises with on-line solutions are proposed at the end of the chapters.

[Holiday Pumpkins: A Collection of Inspired Recipes, Gifts, and Decorations, Georgeanne Brennan, Jennifer Barry](#) , 2003,

1580085350, 9781580085359. As late summer leaves turn rich fall colors, our thoughts turn to celebrating the bountiful harvests and holidays of autumn. HOLIDAY PUMPKINS is a wonderful guide to some of the most beloved tastes and traditions of fall. Filled with over 30 recipes, HOLIDAY PUMPKINS offers both the old favorites as well as new dishes that will quickly become standards in any household. Traditional recipes range from Old-Fashioned Pumpkin Pie to Pumpkin Soup, Honey-Grilled Pumpkin Slices to Pumpkin Bread. Creative twists on this new world vegetable result in creations such as Sauted Pumpkin, Red Peppers, and Greens and Polenta; Pumpkin Cheesecake in a Gingersnap-Walnut Crust. In addition to this delectable offering of recipes, HOLIDAY PUMPKINS presents over 30 decorating projects that use all sizes and colors of pumpkins. Here are directions not only for carving out a perfect jack-o'-lantern but also for creating lovely Pumpkin Candle Holders, a Pumpkin Wreath, and Papier-Mch Trick-or-Treat Baskets. Some of these projects are perfect to do with kids, and all of the projects and recipes will add to the enjoyments of the autumn holidays.

[Discoveries in the Judaean Desert - Qumran Cave 11: 11Q2-18 and 11Q20-31, Emanuel Tov](#) , 1998, 0198269595,

9780198269595. Cave 11 at Qumran contained a number of very important and well-preserved manuscripts such as the Temple Scroll and the Palaeo-Leviticus Scroll. The large size of those scrolls necessitated their publication as individual volumes. This volume contains complete editions of the remainder of the Cave 11 manuscripts which include biblical scrolls such as Ezekiel and Psalms, and a collection of important extra-biblical texts such as Jubilees (known previously from the Pseudepigrapha), Berakoth and Songs of the Sabbath Sacrifice (both of which were also preserved in copies from Cave 4), Melchizedek and Hymns. In addition the volume also includes a new edition of the Targum of Job.

[Civil Service Systems in Western Europe, A. J. G. M. Bekke, Frits M. Meer](#) , 2000, 1782541527, 9781782541523. "The authors focus initially on the structural dimensions of civil service systems, which are explored through themes such as internal labour markets and reform and diffusion. The interface between civil service systems and their political and social environment is studied by analysing issues such as representativeness, politicisation and public opinion, whilst the dynamic nature of civil service systems is emphasised by examining their historical development. The authors conclude by comparing the civil service systems discussed in the book, attempting to find parallels and variations between them and proposing possible explanations for the development of these similarities and differences."

[The Essential Edmund Leach: Anthropology and society, , , Edmund Ronald Leach](#) , 2000, 0300081243, 9780300081244.

The aim of these two volumes is to bring together a representative selection of the writings of Edmund Leach (1910-1989), a brilliant and prolific anthropologist known not only in his field but to the educated public at large. Leach perceived anthropology as a vital and broadly based study of the human condition, encompassing methods and ideas from the natural sciences, the social sciences, and the humanities. His writings reflect the conviction that anthropology is of direct and practical importance to social policy and political debate. These two volumes present more than fifty items -- many difficult to obtain and several never before published -- displaying the considerable range of Leach's anthropological interests, the debates he provoked, and the issues he championed. *Anthropology and Society* contains a selection of Leach's writings on "society", taken largely though not exclusively from the early part of his career. Here his writings on social structure, social relations and social practices were heavily informed by the functionalism of Malinowski and Firth, and by an old-style ethnographer's insistence on the importance of ethnographic detail. His discussions about political institutions and about kinship were generally part of theoretical debates on how to model social systems and describe human action, and Leach was a searching critic of some of the bedrock assumptions of mid-twentieth century functionalist social theory. The volume includes some of Leach's best-known and most influential professional writings: such essays as "Rethinking Anthropology" and extracts from *Political Systems of Highland Burma*, persuasive re-analyses of the work of earlier anthropologists, and major statements on kinship, ritual, classification, and taboo. "Once a Knight is Quite Enough", a hitherto unpublished piece, is a vivid and amusing comparison of the ceremony in which Leach was given a knighthood and a pig-sacrifice in Borneo.

[Physical Education Curriculum Activities Kit for Grades K-6, Keg Wheeler, Otto H. Spilker](#) , 1991, 0136470335, 9780136470335. More than 500 fitness, dance, & sports activities that develop K-6 children's health & motor skills, while fostering cooperation with others & a positive self-image.

[On Purpose Before Twenty, Adam Cox](#) , 2012, 0985987901, 9780985987909. For educators and general readers, this important, lively and readable book tells a different story of youth. Clinical psychologist Adam Cox - author of *Boys of Few Words* and *No Mind Left Behind* - draws upon clinical practice and groundbreaking global research to offer a compelling new narrative about childhood priorities, adolescent angst and the work of schools. He declares these topics to be worthy of serious consideration, and children as fascinating and complex as any other age group with respect to their attitudes and understanding of what a good and purposeful life implies. Current social and economic trends reflect a time of deep transition in our personal values, career trajectories, and social imperatives. Young people's lives are radically shifting in response to new technologies, politics, and changing environmental realities. Cox asserts it is critical to re-examine basic questions - What is living well? Why do we work? How do we find meaning and purpose in vocation? How do we raise and teach children to be effective citizens? What does best-selling literature tell us about how to raise kids? Clearheaded, provocative, and compassionate, *On Purpose Before Twenty* presents a series of readable, practical essays: *The Purpose of Work*, *Sovereign Minds*, *The Case for Boredom*, *On Monstrous Children*, *Being Harry Potter*, and *School as Wisdom Culture*. It offers a roadmap for primary and secondary schools seeking to provide an education relevant to the concerns and priorities of youth. The book asks what are schools for, and discusses whether ADHD is the new normal. Most important, the book addresses how the next generation is radically different in terms of motivation, communication, and vocational perspectives. Cox suggests that knowing one's purpose is as important as a good education and loving parents. His book echoes a fundamental belief that our serious regard for the potential of young people makes the world a more welcoming place for them. It is as much an essential form of stewardship as protecting forests, and creatures living on the brink of extinction.

[Missy B.J., Elm Battersby, D. Moore](#) , 1992, 0962875244, 9780962875243.

[New Zealand New Millennium: A Decade in Pictures, Penguin Books Staff](#) , 2011, 014356630X, 9780143566304. *New Zealand New Millennium* is a timely, comprehensive and ultimately moving portrait of our nation in images, 2000-2010: news, politics, natural disasters, sports, arts/culture, celebrity, lifestyle, as well as those that are simply quirky, poignant or striking. Over 300 photographs, each accompanied by extended captions, and an immediate, contemporary design results in an exhaustive picture of modern New Zealand, one that will be enjoyed for years to come. The perfect book for everyday New Zealanders with an interest in the world around them.

[Broken Appointments, Elaine Flowers](#) , 2011, 0984090487, 9780984090488. This is the sequel to the book *Black Beauty*. It continues with the lives of the hair stylist in the *Black Beauty* hair salon.

[Microeconomics, Michael Parkin](#) , 2011, 0132997037, 9780132997034. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book.

Parkins Microeconomics is a worldwide leader because it provides a serious, analytical approach to the discipline using the latest policy and data. Parkin trains students to think like economists by offering a clear introduction to theory and applying the concepts to today's events, news, and research. From our global food shortage to global warming, economic issues permeate our everyday lives. Parkin brings critical issues to the forefront. Each chapter begins with one of today's key issues, and additional issues appear throughout the chapter to show the real-world applications of the theory being discussed. When the chapter concludes, students read between the lines to think critically about a news article relating to the issue, demonstrating how thinking like an economist helps make informed decisions. 0132950995 / 9780132950992

[The Book of Ian Watson, Ian Watson](#) , 1985, 0961297042, 9780961297046. British Science Fiction award winner Ian Watson graces us here with a brilliant new collection of short stories and essays. Though he dazzles the reader with his footwork in the kaleidoscope intensity of his vision, each piece is plainly the work of a master craftsman. Whether he is dealing with a future culture where whales control us ("The Culling") or taking a hilarious poke at the matter of government funding ("The President's Not for Turning"), his concepts are clear and undeniably logical. True to the highest ideal of science fiction, Watson carries present tendencies of our society to possible conclusions in "Roof Gardens under Saturn," and points a warning finger at the consequences of alienation from the environment. In an innovative style which borders on the experimental, Watson explores in "The Pharaoh and the Mademoiselle" the horrors of fascism. Ian Watson's writing stays with us. He entertains and he makes us think. If in some future and better world politicians were to take advice from writers, Watson should be one of them.

[The Gatecrasher, Madeleine Wickham](#) , 2011, 1429986344, 9781429986342. The Secret Is Out! Madeleine Wickham is Sophie Kinsella, and The Gatecrasher is just as delicious as her internationally bestselling Shopaholic series. Everything's coming up roses for Fleur Daxeny, as she goes through more rich men than she does designer hats. Beautiful and utterly irresistible, her success at crashing funerals to find wealthy men is remarkable. Fleur wastes no time in seducing her latest conquest, the handsome and rich widower Richard Favour. His children are caught up in a whirlwind as their father's new girlfriend descends on the family estate. Fleur is not one to wear her heart on her Chanel sleeves, but she soon finds herself embracing Richard and his family. But just as Fleur contemplates jumping off the gold-digger train for good, a long-buried secret from her past threatens to destroy her new family. Take a wild and marvelous ride with The Gatecrasher, whose clever, chic, and sassy style will leave you desperately wanting more wonderful Wickham!

[Narrative: A Critical Linguistic Introduction, ISSN 0955-730X, Michael J. Toolan](#) , 2001, 0415231744, 9780415231749.

This classic text has been substantially rewritten. Narrative explores a range of written, spoken, literary and non-literary narratives. It shows what systematic attention to language can reveal about the narratives themselves, their tellers, and those to whom they are addressed. New material includes sections on gendered narrative, film narrative and a discussion of ways in which the internet and global television are changing conceptions of narrative.

[Republic of letters: the American intellectual community, 1776-1865, Gilman Marston Ostrander](#) , 1999, 094561263X,

9780945612636. By tracing the rise of a national intellectual elite to the conditions presented by the American Revolution, to the nature of eighteenth-century educational institutions, and the reading that was available in those institutions, Ostrander shows how and why literary elites were constituted, and what their relationship was to the power structures of that world. He also examines the attempts of these elites to form institutions patterned after European models at the same time forge new institutions characteristic of their new nation. Republic of Letters is a sweeping account of this literary class in the United States, the serious writers and readers from Independence to the Civil War.

[The Ecclesiastical Judges, Legal Officers and Others \(Fees\) Order 2011, Great Britain](#) , 2011, 0111513928,

[Many Colors of White, William E. Duke](#) , 2012, 0985794100, 9780985794101. Edward Devlin spent his life serving his country as the captain of a U.S. Revenue Service cutter in the freezing arctic waters of the Bering Sea. He triumphed against the elements and the scoundrels who poached seals and sold rotgut whiskey to the Eskimos in the 1890s. But the most challenging trial he faced was in a San Francisco courtroom, when he went up against the scoundrels with money, power, and influence in the nation's capital. Many Colors of White is the story of life in the 1890s, from the perils of the bone-chilling arctic wastes to the stunning revelations in a San Francisco maritime courtroom. It is best read by a roaring fire or under warm covers, because arctic winds blow cold whenever the book is opened.

[Department of Trade and Industry Annual Report and Accounts 2006-07: Including the Annual Departmental Report and the Consolidated Resource Accounts for the Year Ended 31 March 2007, Great Britain: Department of Trade and](#)

[Industry, Great Britain: H.M. Treasury](#) , 2007, 010295061X, 9780102950618. This is the DTI's last annual report as it ceased to operate in June 2007, when it was replaced by a new Department for Business, Enterprise and Regulatory Reform

[The Spiritual Dimension of the Enneagram: Nine Faces of the Soul, Sandra Maitri](#) , 2001, 1585420816, 9781585420810.

A groundbreaking exploration of the spiritual dimension of working with the enneagram by one of its earliest students and teachers in America. Here is one of the first books to explore in an authentic and comprehensive way the original spiritual dimension of the enneagram. Among the most knowledgeable teachers of the enneagram in America, Sandra Maitri shows how the enneagram not only reveals our personalities, but illuminates a basic essence within each of us. She shows how traversing the inner territory particular to our ennea-type can bring us profound fulfillment and meaning, as well as authentic spiritual development.

[Tearing Down the Thin Blue Line, Judy Sgarzi, Jack McDevitt](#) , 2007, 0130960888, 9780130960887.

[The Carved Box, Gillian Chan](#) , 2001, 1550748955, 9781550748956. Fifteen-year-old Callum Murdoch knows he's a fool. He's just arrived from Scotland, and he's already handed over his money to a total stranger. And for what? A filthy, half-starved dog and a carved box that he's been warned never to open. Now he'll have to explain his impulsive action to Uncle Rory, the only relative willing to give him a home. Callum is unprepared for the grinding physical labor of farm work. His only source of comfort is Dog. She seems to know all his secret wishes and fears. With Dog by his side, Callum gains the courage to face life in the New World. But when the mysterious carved box is accidentally broken open, Callum is faced with astonishing revelations -- and difficult decisions.

[My First Read and Learn Bible, American Bible Society](#) , 2006, 043965128X, 9780439651288. Timeless stories for children and parents to share. Baby's First Read and Learn Bible features eight timeless stories from the Old and New Testament including: the Creation, The Story of Noah, The Nativity, and Jesus and the Children. Illustrated in full color, this is a perfect introduction to the Bible for the youngest of children.

[Love, Life, and Kingdom, Julian Vaughan Hampton](#) , 2006, 0977116018, 9780977116010. Love, Life and Kingdom is a collection of poetry written by Julian Vaughan Hampton. They reflect who we were, acknowledge who we are, and celebrate who we are destined to become. Each of us has a place deep within our hearts that yearns to be understood. These poems address those needs, tapping into the physical, emotional, and spiritual position of the heart. Find the poems that draw you close to them, inspire you, or challenge your views of life. From joy to pain, success to failure, love lost and love gained, and finding love and life within the Kingdom.

[Own the Wind: A Chaos Novel, Kristen Ashley](#) , 2013, 1455599255, 9781455599257. Too hot to handle . . . Tabitha Allen grew up in the thick of Chaos-the Chaos Motorcycle Club, that is. Her father is Chaos' leader, and the club has always had her back. But one rider was different from the start. When Tabby was running wild, Shy Cage was there. When tragedy tore her life apart, he helped her piece it back together. And now, Tabby's thinking about much more than friendship . . . Tabby is everything Shy's ever wanted, but everything he thinks he can't have. She's beautiful, smart, and as his friend's daughter, untouchable. Shy never expected more than friendship, so when Tabby indicates she wants more-much more-he feels like the luckiest man alive. But even lucky men can crash and burn . . . 105,000 words

[What's in a Name?: The Stories Behind the Street Names of Gladstone, Queensland, Paulette Flint, Paulette Flint History Incorporated](#) , 2009, 098070930X, 9780980709308. "What's in a Name?" gives a glimpse into the stories behind the street names of the city of Gladstone. From the untimely death of the first Mayor and highly esteemed Postmaster, Richard Hetherington, who stumbled into the hold of the 'SS Queensland' when delivering the mail at night, to the downfall of William Edward Hilliar, the sub-collector of customs who collected more than his share of the profits and subsequently became a guest of Brisbane HM Gaol on Petrie Terrace, these stories give the reader a unique insight into the town of Gladstone in its early days.

[Reimagining Church: Pursuing the Dream of Organic Christianity, Frank Viola](#) , 2012, 1434766535, 9781434766533. Author Frank Viola gives readers language for all they knew was missing in their modern church experience. He believes that many of today's congregations have shifted from God's original intent for the church. As a prominent leader of the house church movement, Frank is at the forefront of a revolution sweeping through the body of Christ. A change that is challenging the spiritual status quo and redefining the very nature of church. A movement inspired by the divine design for authenticity community. A fresh concept rooted in ancient history and in God Himself. Join Frank as he shares God's original intent for the church, where the body of Christ is an organic, living, breathing organism. A church that is free of convention, formed by spiritual intimacy, and unbound by four walls.

[Houston Wedding Planner, Tiger Oak Publications](#) , 2000, 096635589X, 9780966355895. A practical guide intended for both bride and groom, covering every aspect of your day, from compiling the guest list and setting a budget to dressing the wedding party and packing for your honeymoon.

[Mine to Hold, , Shayla Black](#) , 2013, 0425268195, 9780425268193. Tyler Murphy was an LAPD detective, single and happy--until a near-fatal tragedy crippled his friend, fellow detective Eric Catalano. While Tyler supported Eric, he also became a shoulder for Eric's wife, Delaney, to lean on. But with one naughty suggestion from Eric, a drunken night with Delaney spilled into erotic abandon. Before it was over, Tyler saw his best friend's wife as a woman and yearned for more. When Eric struggled to deal with the aftermath, Delaney begged Tyler to leave. Crushed, he fled to Louisiana, hoping to escape his longing for the one woman he could never have again . . . and unaware of what he'd left behind. After two years of living with regret, Tyler finds Delaney on his doorstep, her husband having abandoned her long ago. She's protecting a shocking secret and desperately needs refuge from a stalker determined to see her dead. As they fight to stay alive and catch the killer, they struggle to resolve the guilt of their past pleasures. But they can't deny that what was once a spark is now a flame burning out of control. To possess Delaney--body and soul--Tyler must heal her pain and thwart the evil that's a mere breath behind her . . . 'Shayla Black creates emotional, searingly sexy stories that always leave me wanting more.' New York Times Bestselling Author Maya Banks

[Social Work Practice with Children, Third Edition, Nancy Boyd Webb](#) , 2011, 1609186451, 9781609186456. Widely

adopted, this bestselling work provides the knowledge that social workers need for effective, culturally competent practice with children, adolescents, and their caregivers. The author presents a framework for developmentally informed assessment and intervention and describes a variety of powerful helping methods, illustrated with vivid case examples. Demonstrated are research-based strategies for working with victims of abuse and trauma as well as children affected by poverty, divorce, parental substance abuse, and other adverse circumstances. Special features include instructive discussion questions and role-play exercises. Reproducible assessment forms can also be downloaded and printed in a convenient 8 1/2" x 11" size. New to This Edition *Updated to incorporate current research on child development, attachment, and trauma. *Chapter on bullying. *New discussions of autism, childhood obesity, and blended families. *School social work chapter has been extensively revised. *Expanded examples of group work, including groups for children with ADHD and crisis groups following disasters.

[The Oxford Handbook of the Economics of Food Consumption and Policy, Jayson L. Lusk, Jutta Roosen, Jason F. Shogren](#) , 2011, 0199569444, 9780199569441. Historically, the challenge for humans has been to secure a sufficient supply of food to stave off hunger and starvation. As a result, much of the research on food and agriculture in the past century has focused on issues related to production efficiency, food supply, and farm profitability. In recent years, however, farmers, agribusiness, policy makers, and academics have increasingly turned their attention away from the farm and toward the food consumer and to issues related to food consumption. This handbook provides an overview of the economics of food consumption and policy and is a useful reference for academics and graduate students interested in food economics and the consumer-end of the supply chain. It is also relevant to those employed in food and agricultural industries, policy makers, and activist groups. The first section covers the application of the core theoretical and methodological approaches of the economics of food consumption and policy. The second part concentrates on policy issues related to food consumption. Several chapters focus on the theoretical and conceptual issues relevant in food markets, such as product bans, labeling, food standards, political economy, and scientific uncertainty. Additional chapters discuss policy issues of particular interest to the consumer-end of the food supply chain, such as food safety, nutrition, food security, and development. The final section serves as an introduction to particular issues and current topics in food consumption and policy.

[The Search of Mavin Manyshaped, Sheri S. Tepper](#), , 2011, 0575116102, 9780575116108. For Mavin, coming of age as a shape-shifter is both exhilarating and terrifying. Recklessly headstrong, she is to become notorious in the lands of the True Game. With her brother, she leaves their home - a place of slavery and fear - only to have the boy's powers of beguilement lead them into danger. Rescued by the Wizard Himmagery, the shape-shift and man of magic make a vow. When twenty years have come and gone, they will meet again. But Himmagery has vanished, leaving only a letter of love behind for Mavin to find. If he were dead, she would know it: sorcerers could trace the scent of his trail, necromancers raise his bones from the dust. But he has disappeared - beyond the power of wizardry. And so the search of Mavin Manyshaped begins This is the final volume of Sheri S. Tepper's acclaimed The Chronicles of Mavin Manyshaped

[Hybrid Animation: Integrating 2d and 3d Assets, Tina O'Hailey](#) , 2012, 1136136452, 9781136136450. Artist imaginations continue to grow and stretch the boundaries of traditional animation. Successful animators adept and highly skilled in traditional animation mediums are branching out beyond traditional animation workflows and will often use multiple forms of animation in a single project. With the knowledge of 3D and 2D assets and the integration of multiple animation mediums into a single project, animators have a wealth of creative resources available for a project that is not limited to a specific animation medium, software package or workflow process. Enhance a poignant scene by choosing to animate the scenic background in 2D while the main character is brought to life with 3D techniques. Balance the budget demands of a project by choosing to integrate a 2D or 3D asset to save time and expense. Choose which medium Hybrid Animation, learn the systematic development of the 2D and 3D assets and the issues surrounding choices made during the creative process.

[Handbook of Functional Lipids, Casimir C. Akoh](#) , 2005, 084932162X, 9780849321627. Consumer demand is creating rapid growth in the functional foods market - a market soon to reach \$20 billion worldwide. As a result, the food industry has stepped up the development of functional lipids. These lipids impart health benefits when consumed and also impact

food product functionalities. While many books have touched on the correlation between dietary lipids and health, there has not been a single-source guide specifically devoted to functional lipids - until now. The Handbook of Functional Lipids is a comprehensive reference that illustrates the science and applications of lipids in foods. The editor has divided the text into four parts for easy reference regarding topics that: explore the isolation, production, and concentration of functional lipids; explain how lipids provide food functionality; determine how lipids are engaged in health and nutritional functionality; and examine the role of biotechnology in functional lipids and discern their market potential. These sections synthesize the collaborative efforts of international experts at the forefront of lipid science and technology. They provide in-depth treatment for each subject in a straightforward and easy to read manner, making the Handbook of Functional Lipids a must-have resource for those interested in this rapidly growing field.

Young Kelson Haldane, King of Gwynedd, heir to both royal and Deryni magical powers, was still no match for ex-Archbishop Loris and the Pretender Queen Caitrin who sought his death. Yet, he raised an army against them both, knowing that honor made defeat impossible....

[Reconstructing Faces: The Art and Wartime Surgery of Gillies, Pickerill, McIndoe and Mowlem, Murray C. Meikle](#) , 2013, 1877578398, 9781877578397. Both World War I and World War II played an influential role in the evolution of plastic and maxillofacial surgery in the first half of the 20th century. This book examines four of the key figures involved in this wartime surgery: Sir Harold Gillies, Sir Archibald McIndoe, Rainsford Mowlem, and Henry Pickerill. The book describes how these surgeons revolutionized plastic surgery and the treatment of facial trauma, working on soldiers, fighter pilots,

and civilians who were disfigured by bombs, shrapnel, and burns. Eventually, these four men were supported by a vast medical enterprise that included surgeons, dentists, anesthesiologists, artists, photographers, nurses, and orderlies. The book is fully illustrated with photos, drawings, and case notes by the surgeons and war artists from World War I military hospitals at Boulogne-sur-Mer, Aldershot, and Sidcup, as well as civilian hospitals at East Grinstead, Basingstoke, and Hill End during World War II. The book includes a DVD containing a series of four 16-mm cinematographic instructional films - 'Techniques in Plastic Surgery' - produced in 1945 and showing Rainsford Mowlem performing a variety of plastic surgery operations. *Reconstructing Faces* is a must for anyone interested in the history of medicine and the treatment of casualties in World Wars I and II.

[The Politics of Chaos in the Middle East, Olivier Roy](#) , 2009, 0231700334, 9780231700337. In this book, Olivier Roy, Europe's leading scholar of political Islam, argues that the consequences of the "war on terror" have artificially conflated conflicts in the Middle East in such a way that they appear to be the expression of a widespread "Muslim anger" against the West. But in reality, there are no us and them. Instead, the West faces an array of "reverse alliances" that operate according to their own logic and dynamics. The West supports General Musharraf in Pakistan, yet his military intelligence services are in league with the Taliban; in Iraq, the United States shores up a government that is closely linked to its archenemy, Iran; Iraqi Kurds, allies of the Americans, give sanctuary to the PKK, an adversary of a fellow NATO member, Turkey; while the Saudis support the Iraqi Sunnis who are, in turn, fighting Coalition forces. As if these issues were not complicated enough, the ever-worsening Shia-Sunni divide now threatens to disrupt any future strategic planning the West might attempt in the Middle East. Roy unravels the complexity of these conflicts in order to better understand the political discontent that sustains them. He also emphasizes that the war on terror should not be regarded merely as a geopolitical blunder committed by a fringe group of neoconservatives. It is instead a problematic outgrowth of our deeply rooted Western perceptions of the Middle East, including the belief that Islam, rather than politics, is the overarching factor in these conflicts, thus explaining the West's support for either would-be secular democrats or (more or less) benign dictators. Roy's conclusion argues that the West has no alternative but to engage in a dialogue with the political forces that truly matter, namely the Islamo-nationalists of Hamas and the Muslim Brotherhood.

[Pimps in the Pulpit, Herbert Elliott Brown](#) , 1999, 0963473832, 9780963473837. Pimps in the Pulpit...is a satirical essay that analyzes the role of the black church as an institution that pervades many aspects of the lives of the African American community.

[Invisible Men: Men's Inner Lives and the Consequences of Silence, Michael Addis](#) , 2011, 1429974060, 9781429974066.

Award-winning research psychologist Michael E. Addis identifies and provides answers surrounding the long-unspoken epidemic of silence and vulnerability in men. Drawing on scientific research, as well as his own personal and clinical experience, award-winning research psychologist Michael E. Addis describes in this book an epidemic of personal, relational, and societal problems that are caused by the widespread invisibility of men's vulnerabilities. From increasing rates of suicide among men, to alcohol abuse, to violence and school shootings, his research reveals the continued cost of staying silent when emotional, physical, or spiritual pain enters men's lives. In the spirit of such bestsellers as William Pollack's *Real Boys*, Addis identifies the specific problems that result from men's silence and invisibility, what causes them, and how they can be changed. Addis provides readers with compelling stories of the causes and consequences of silence and invisibility in real men's lives. *Invisible Men* shows both male and female readers how they can break through the gauntlets that appear to protect men, but in reality cause severe harm to men, women, and families.

[Deflationism and Paradox, J. C. Beall, Bradley Armour-Garb, Bradley P. Armour-Garb](#) , 2008, 0199544921,

9780199544929. Deflationist accounts of truth are widely held in contemporary philosophy: they seek to show that truth is a dispensable concept with no metaphysical depth. However, logical paradoxes present problems for deflationists, which their work has struggled to overcome. In this volume of fourteen original essays, a distinguished team of contributors explore the extent to which, if at all, deflationism can accommodate paradox. The volume will be of interest to philosophers of logic, philosophers of language, and anyone working on truth.

[Any Child Can Read Better : Developing Your Child's Reading Skills Outside the Classroom: Developing Your Child's](#)

[Reading Skills Outside the Classroom, Harvey S. Wiener Vice Provost for Academic Affairs Adelphi University](#) , 1996,

0198026234, 9780198026235. Reading, however fundamental the task may seem to everyday life, is a complex process that takes years to master. Yet, learning to read in the early stages is not an overwhelming problem for most children, especially when their classroom learning is coupled with a nurturing home environment in which reading is cherished, and pencil and paper are always available and fun to use. In fact, studies have shown that children score higher in reading if their parents support and encourage them at home. Unfortunately, though many parents want to involve themselves actively in their children's education, very few know just what to do. Now Dr. Harvey S. Wiener, author of the classic *Any Child Can Write*, provides an indispensable guide for parents who want to help their children enter the magic realm of words. In *Any Child Can Read Better*, Second Edition, Dr. Wiener offers practical advice on how to help children make their way through the maze of assignments and exercises related to classroom reading. In this essential book, parents learn how to be "reading helpers" without replacing or superseding the teacher--by supporting a child's reading habits and sharing the pleasures of fiction, poetry, and prose. Home learning parents also will find a wealth of information here. Through comfortable conversation and enjoyable exercises that tap children's native abilities, parents can help their child practice the critical thinking and reading skills that guarantee success in the classroom and beyond. For example, Dr. Wiener explains how exercises such as prereading warm-ups like creating word maps (a visual scheme that represents words and ideas as shapes and connects them) will allow youngsters to create a visual format and context before they begin reading. He shows how pictures from a birthday party can be used to create patterns of meaning by arranging them chronologically to allow the party's "story" to emerge, or how they might be arranged by order of importance--a picture of Beth standing at the door waiting for her friends to arrive could be displayed first, Beth

blowing out the birthday cake placed toward the middle of the arrangement, and the pictures of Beth opening her gifts, especially the skates she's been begging for all year, would surely go toward the end of the sequence. Dr. Wiener shows how these activities, and many others, such as writing games, categorizing toys or clothes or favorite foods, and reading journals, will help children draw meaning out of written material. This second edition includes a new chapter describing the benefits of encouraging children to keep a journal of their personal reactions to books, the value of writing in the books they own (underlining, writing in the margins, and making a personal index) and a variety of reading activities to help children interact with writers and their books. Dr. Wiener has also expanded and updated his fascinating discussion of recommended books for children of all ages, complete with plot summaries. Written in simple, accessible prose, *Any Child Can Read Better* offers sensible advice for busy parents concerned with their children's education.

[The Bending and Stretching of Plates, E. H. Mansfield](#) , 2005, 0521018161, 9780521018166. Written by one of the world's leading authorities on plate behavior, this study gives a clear physical insight into elastic plate behavior. Small-deflection theory is treated in Part 1 in chapters dealing with basic equations: including thermal effects and multi-layered anisotropic plates, rectangular plates, circular and other shaped plates, plates whose boundaries are amenable to conformal transformation, plates with variable thickness, and approximate methods. Large-deflection theory is treated in Part 2 in chapters dealing with basic equations and exact solutions; approximate methods, including post-buckling behavior; and asymptotic theories for very thin plates, including tension field theory and inextensional theory. The mathematical content is necessarily high, making the style of the book appropriate to engineers and applied mathematicians. E.H. Mansfield is a Fellow of the Royal Society, a founder member of the Fellowship of Engineering, and the author of over 100 publications.

From the author of CASTLE TERROR and THENDARA HOUSE.

[On the Trail of the Presidents: An Historical Guide to Burial Sites and Monuments, Jack B. Jones, Joy E. Jones](#) , 1994, 0964549905, 9780964549906. ON THE TRAIL OF THE PRESIDENTS is filled with information, little known facts & insights in the lives of our Presidents, & provides the reader with entertaining text in addition to a useful pictorial travel guide to the final resting places of our nation's Presidents, beginning with George Washington & ending with Richard M. Nixon. Vignettes of each President accompany specific biographical data. Color photographs of gravesites &/or monuments are attractively arranged to enhance the text. Featured in the text are state maps with flagged locations of the Presidential burial sites & written directions for finding the monuments. Tour maps are also included, which provide viable options of geographic regions for travelling to the various locations. An excellent resource book for students, teachers, parents & travelers, ON THE TRAIL OF THE PRESIDENTS provides a handy & informational reference guide to the resting places of the men who forged America's history. To order ON THE TRAIL OF PRESIDENTS, contact: Jones Pub., 2464 Flora, San Luis Obispo, CA, 93401. (805-544-1099).

[Concurring Opinion Writing on the U.S. Supreme Court, Pamela C. Corley](#) , 2010, 143843068X, 9781438430683. When justices write or join a concurring opinion, they demonstrate their preferences over substantive legal rules. Concurrences provide a way for justices to express their views about the law, to engage in a dialogue of law with each other, the legal community, the public, and Congress. This important study is the first systematic examination of the content of Supreme Court concurrences. While previous work on Supreme Court decision making focuses solely on the outcome of cases, Pamela C. Corley tackles the content of Supreme Court concurring opinions to show the reasoning behind each justices decision. Using both qualitative and quantitative methods of analysis, *Concurring Opinion Writing on the U.S. Supreme Court* offers a rich and detailed portrait of judicial decision making by studying the process of opinion writing and the formation of legal doctrine through the unique lens of concurrences.

[Exopeptidases: A Glossary and Bibliography, Alan J. Barrett](#) , 1986, 0120795027, 9780120795024. This volume on exopeptidases and its forerunner, Volume 1, on endopeptidases are designed to serve as the primary reference work in the field. They summarize the identifying properties, physico-chemical characteristics, and supporting publications for the proteases (proteinases and peptidases) that constitute the pathways of intracellular and extracellular protein breakdown in mammalian cells and tissues. The exopeptidases described here include a wide range of peptide hydrolases whose highly varied specificities make important contributions to the metabolism of peptides and proteins. Knowledge of the proteases has now gone far beyond the stage at which the individual scientists can expect to have read most of the relevant original papers, yet many reviews of the literature are inadequate to the needs of researchers. As a possible remedy, this book represents a computer-aided system for the codification of current data. It provides a concise, easily accessible, summary of properties for each enzyme, together with a comprehensive bibliography arranged chronologically and alphabetically.

[Why David Sometimes Wins: Leadership, Organization, and Strategy in the California Farm Worker Movement, Marshall Ganz](#) , 2010, 0199757852, 9780199757855. *Why David Sometimes Wins* tells the story of Cesar Chavez and the United Farm Workers' groundbreaking victory, drawing important lessons from this dramatic tale. Since the 1900s, large-scale agricultural enterprises relied on migrant labor--a cheap, unorganized, and powerless workforce. In 1965, when some 800 Filipino grape workers began to strike under the aegis of the AFL-CIO, the UFW soon joined the action with 2,000 Mexican workers and turned the strike into a civil rights struggle. They engaged in civil disobedience, mobilized support

from churches and students, boycotted growers, and transformed their struggle into La Causa, a farm workers' movement that eventually triumphed over the grape industry's Goliath. Why did they succeed? How can the powerless challenge the powerful successfully? Offering insight from a longtime movement organizer and scholar, Ganz illustrates how they had the ability and resourcefulness to devise good strategy and turn short-term advantages into long-term gains. Authoritative in scholarship and magisterial in scope, this book constitutes a seminal contribution to learning from the movement's struggles, set-backs, and successes. "A brilliant new book."-Peter Dreier, *The Nation* "Why David Sometimes Wins is an exceptional book that will be of widespread interest to scholars and activists alike."-Howard Kimeldorf, *American Journal of Sociology* "This book is a must read for organizers. The analysis of how a small and poor, but motivated, group of workers triggered a social movement provides invaluable lessons on what to do and not do as we struggle with the challenges of the 21st century."-Andy Stern, President, Service Employees International Union "How does David defeat Goliath and, equally important, avoid becoming Goliath? The answer is to develop strategic capacity, an ongoing interactive process of experimentation, learning, and adapting. This fascinating book shows how Cesar Chavez and the UFW created and then lost its strategic capacity-an important lesson on leadership and organization."-Joseph S. Nye, Jr., Harvard University "Through unforgettable and compelling stories, Marshall Ganz convincingly shows how we need not wait for the right time in history, but how we can all participate in making history together and how the resources to do so can be found in one another. Why David Sometimes Wins will enter the canon of readings on social change. Get this book. Read it. Use it!"-Gerald Torres, co-author of *The Miner's Canary*

If you really want to understand how the Internet and other computer networks operate, start with *Computer Networks and Internets*, Third Edition. Douglas E. Comer, who helped build the Internet, presents an up-to-the-minute tour of the Internet and internetworking, from low-level data transmission wiring all the way up to Web services and Internet application software. The new edition contains extensive coverage of network programming, plus authoritative introductions to many new Internet protocols and technologies, from CIDR addressing to Network Address Translation (NAT). Comer explains every networking layer, showing how facilities and services provided by one layer are used and extended in the next. Discover how networking hardware utilizes carrier signals, modulation and encoding; why internets use packet switching; how LANs, local loops, WANs, public and private networks work; and how protocols like TCP support internetworking. Understand the client/server model at the heart of most network applications, and master key Internet technologies such as CGI, DNS, E-mail, ADSL, and cable modems. This new edition includes a complete new chapter on static and automatic Internet routing, introducing key concepts such as Autonomous Systems and hop metrics; as well as detailed coverage of label switching and virtual circuits.

[An Imperfect Union: Slavery, Federalism, and Comity, Paul Finkelman](#) , 2013, 1584770929, 9781584770923. "In short, we have a first-rate study of an important constitutional symbol of disunion." --Donald Roper, *American Journal of Legal History* 26 (1982) 255. Finkelman describes the judicial turmoil that ensued when slaves were taken into free states and the resultant issues of comity, conflict of laws, interstate cooperation, Constitutional obligations, and the nationalization of slavery. "Other scholars have defined the antebellum constitutional crisis largely in terms of the extension of slavery to the territories and the return of fugitive slaves. Finkelman's study demonstrates that the comity problem was also an important dimension of intersectional tension. It is a worthy addition to the growing literature of slavery." -- James W. Ely, Jr., *California Law Review* 69 (1981) 1755. Paul Finkelman is the President William McKinley Distinguished Professor

of Law and Public Policy and Senior Fellow, Government Law Center, Albany Law School. He is the author of more than 200 scholarly articles and more than 35 books including *A March of Liberty: A Constitutional History of the United States*, with Melvin I. Urofsky (2011), *Slavery, Race and the American Legal System, 1700-1872* (editor) (1988) and *Slavery in the Courtroom* (1985).

[Can Literature Promote Justice?: Trauma Narrative and Social Action in Latin American Testimonio, Kimberly A. Nance](#) ,

2006, 0826592120, 9780826592125. As if in direct response to "The New Yorker"'s question of "The Power of the Pen: Does Literature Change Anything?" Kimberly Nance takes up the relationship between ethics and literature. With the 40th anniversary of the testimonio occurring in 2006, there has never been a better time to reconsider its role in achieving social justice. The advent of the testimonio--loosely, a political autobiography of a Latin American activist who hopes, through the telling of her life story, to bring about change--was met with a great deal of excitement by scholars who posited it as a radical new form of literature. Those accolades were almost immediately followed by a series of critical problems. In what sense were testimonios "true"? What right did privileged scholars in the U.S. have to engage accounts of suffering with traditional modes of criticism? Were questions of veracity or aesthetics more important? Were these texts autobiography or political screeds? It seemed critics didn't know quite what to make of the testimonio and so, after a brief bout of engagement, disregarded it. Nance, however, argues that any form as prolific as the testimonio is well worth examining and that these questions, rather than being insurmountable, are exactly the questions with which scholars ought to be wrestling. If, as critics claim, that the testimonio is one of the most pervasive contemporary Latin American cultural genres, then it is high time for a comprehensive study of the genre such as Nance's.

[The Beauty of These Present Things, Avtar Singh](#) , 2000, 0140298231, 9780140298239. Friendly means runny things here in Bombay...the laid back camaraderie of best buddies, the icky-sticky congress of fuck friends Katie Menezes, an editor in a publishing firm, unexpectedly has one free day to spend in Bombay, so she decides to track down Arjun, a promising young writer who has sent some short stories to her for assessment. In the process, she meets the characters who people his stories, and through them, gets to know this idealistic yet cynical man she has never met, and is increasingly drawn into his world. Meanwhile, Arjun, unaware that Katie is looking for him, pursues his daily routine, marking time and meeting people as a real-estate agent. This is the story of one day in their lives19 May 1999. Written with passion and zest, this is a witty celebration of life in Bombay, India's only real city, and of its peopleArjuns unlikely and unforgettable friends whose reflections on life, love and the pursuit of literature make Katie re-evaluate her own beliefs. The Beauty of These Present Things is a hilarious yet thought-provoking first novel from a stylish young writer, and a vivid depiction of life as a twenty-something in contemporary Bombay.

[Kidnapping: An Investigator's Guide to Profiling.](#) , 2008, 0123740312, 9780123740311. Kidnapping: An Investigator's Guide to Profiling is based on a three-part analysis of 100 randomly selected kidnapping cases prosecuted in the United States that have survived Supreme Court appeal. The results of the analysis are incorporated into each chapter as part of the exploration of the inductive profile of each kidnapping subtype, thereby offering a statistically based tool that can inform investigative strategies and the allocation of limited resources. The analysis includes standardized input from four levels of professional law enforcement including a forensic psychologist, a crime analyst, a detective, and a city

prosecutor. In addition to chapters pertaining to the kidnapping subtypes, an introductory chapter is dedicated to the evolution of U.S. kidnapping law and intervention strategies, including a review of relevant case law (Megan's Law, Amber Alert). Appendices include a concise summary of all the subtypes and Tabletop Drills that law enforcement can use to support potential kidnapping victims prepare and better respond to a kidnapping threat.* A statistically-based tool that can inform investigative strategies in kidnapping cases* An essential resource for any professional who regularly deals with the subject of kidnapping* Contains appendices that provide a concise summary of the statistical information presented in the text

[How to write a successful science thesis: the concise guide for students, William E. Russey, Hans Friedrich Ebel, Claus Bliefert](#) , 2006, 3527312986, 9783527312986. Every student can benefit from extra help with matters of organization and style in the writing of term papers, theses, and dissertations - as a precursor to better grades and greater respect. This handy guide from the best-selling author team of "The Art of Scientific Writing" shows how to achieve maximum benefit with relatively little effort. Based on a proven concept that assumes no special talent for writing, the book will be of great value to both native and non-native speakers of English. The treatment is rich in examples and challenging problems (with solutions provided in an appendix), applicable either in conjunction with a course or for self-study.

[Entre Amis: Text with Student Audio CD and Entre Amis Multimedia CD-ROM, Michael Oates](#) , 2004, 0618512926, 9780618512928. A proven, introductory-level French program, Entre amis takes a progressive approach in covering all four language skills. With a strong emphasis on oral communication, the text focuses on the importance of interaction, both in the classroom and in the Francophone world. The text also develops student awareness of Francophone culture. The Fifth Edition encourages students to interact with the languages and culture of France and the Francophone world through readings from many different French-speaking nations. To place learning in context, this edition uses shorter cultural sections called *Ralits culturelles*, which are written in English through Chapter Five and in easy-to-understand French throughout the rest of the text. New! *Ralits culturelles* short, manageable cultural sections offer a systematic tour of the Francophone world and encourage intelligent discussion of many contemporary social issues, including the Islamic scarf in French school, the EU, immigration, religious diversity, and the political climate in Haiti. Each chapter contains two to three *Ralits culturelles*. New! Information Gap Activities, previously found in the Instructor's Manual, are now included in each chapter of the student text as capstone activities. New! A new design makes the text more visually appealing and even easier to navigate. Updated! Almost half of the readings have been replaced or updated to include more relevant and current literary selections. Enhanced coverage of learning strategies and National Standards through

instructor's annotations help align specific activities with one or more goals of the five C's (Communication, Cultures, Connections, Comparisons, and Communities). New! The Integration section now includes a Debate and Reaction activity. This activity is the first step of the writing process that culminates with the Reaction in the corresponding chapter of the Workbook. In response to user feedback, the grammar sequence now includes earlier introduction of the verb *aller*, clearer explanations of the comparative and the superlative, and a streamlined presentation of the subjunctive. Four self-test activities have been added to each chapter two on the textbook's website and two in the Cahier d'activités to allow students to check their acquisition of vocabulary, grammar, and listening comprehension on their own. The Workbook/Lab Manual and *Entre amis* CD-ROM have been revised for better integration with the textbook. All video support has been removed from the text and consolidated in the Video Manual section of Cahier d'activités.

[British Pharmacopoeia 2014](#), 2013, 0113229356, 9780113229352. The British Pharmacopoeia (BP) 2014 is the authoritative, current collection of standards for UK medicinal substances and the official source of all UK pharmaceutical quality standards. It is an essential reference for anyone involved in pharmaceutical research, development, manufacture and testing, and plays a vital role in ensuring that all medicinal substances on the UK market meet standards of safety, quality and efficacy. The BP comprises monographs, which set out the mandatory standards for active substances, excipients and formulated preparations, together with supporting General Notices, Appendices (test methods, reagents, etc) and Reference Spectra. Detailed information and guidance on various aspects of current pharmacopoeial policy and practice are provided in the Supplementary Chapters of the BP. The BP is supplied in a variety of formats designed for ease of use and a wide range of applications. The hard copy edition package comprises a boxed six volume set containing BP in five volumes and the BP (Veterinary) volume, plus CD-ROM. Purchase of the edition includes access to BP Online via www.pharmacopoeia.co.uk, the dedicated BP website.

[Cooking for All Seasons, Jasleen Dhamija](#), 2003, 014302809X, 9780143028093. An exciting new cookbook from the best-selling author of *The Joy of Vegetarian Cooking In India*, especially in those parts of it that enjoy a clear distinction between summer and winter, spring and monsoon, cuisines rely equally upon the seasonal availability of ingredients and received wisdom about what constitutes a healthy diet at a particular time of the year. In this unusual cookbook, Jasleen organizes her menus around the weather and shows us how to make the most of each season by using what is plentiful (and cheap) and creating tasty, low-fat dishes that are easy to prepare and far from time consuming. There are cool sharbets and soups for summer, sizzling kababs and grills for those cold winter nights, snacks and light picnic menus for spring, and a delectable selection of all-season menus that include recipes from different parts of the world including Egypt, Iran, the Far East and Europe, sometimes improvised to suit the Indian palate and the Indian kitchen.

[The Naked Buddha Speaks, Adrienne Howley](#) , 2011, 1742747353, 9781742747354. The long-awaited companion to The Naked Buddha. The Naked Buddha, a timely, down-to-earth and highly accessible beginners' guide to Buddhism, struck a chord with Australian and international readers alike. In The Naked Buddha Speaks, feisty Buddhist nun Adrienne Howley continues her mission to demystify Buddhism by showing how anyone can integrate its practices into their everyday life. She also answers the questions many of her readers have raised, such as: How can Buddhism make me happy? How does a Buddhist cope with grief and loss? How do I practise generosity when I'm having a bad day? How can I move away from greed and hatred? How can I change my expectations? I want to meditate, but how do I start? In her warm and humorous style, Adrienne Howley unlocks the original basic tenets and practices of Buddhism, now the fastest-growing religion in Australia, and shows us how we can apply its principles in useful and meaningful ways to our lives.

[Oxford Bookworms Library: Stage 2: The Love of a King, Peter Dainty](#) , 2007, 019479086X, 9780194790864. All he wanted to do was to marry the woman he loved. But his country said 'No!' He was Edward VIII, King of Great Britain, King of India, King of Australia, and King of thirty-nine other countries. And he loved the wrong woman. She was beautiful and she loved him - but she was already married to another man. It was a love story that shook the world. The King had to choose: to be King, or to have love . . . and leave his country, never to return.

[People of the Wind River: The Eastern Shoshones, 1825-1900, Henry Edwin Stamm](#) , 1999, 0806131756, 9780806131757. People of the Wind River, the first book-length history of the Eastern Shoshones, tells the tribe's story through eight tumultuous decades -- from 1825, when they reached mutual accommodation with the first permanent white settlers in Wind River country, to 1900, when the death of Chief Washakie marked a final break with their traditional lives as nineteenth-century Plains Indians. Henry E. Stamm, IV, draws on extensive research in primary documents, including Indian agency records, letters, newspapers, church archives, and tax accounts, and on interviews with descendants of early Shoshone leaders. He describes the creation of the Eastern political division of the tribe and its migration from the Great Basin to the High Plains of present-day Wyoming, the gift of the Sun Dance and its place in Shoshone life, and the coming of the Arapahoes. Without losing the Shoshone perspective, Stamm also considers the development and implementation of the federal Peace Policy. Generally friendly to whites, the Shoshones accepted the arrival of Mormons, miners, trappers, traders, and settlers and tried for years to maintain a buffalo-hunting culture while living on the Wind River Reservation. Stamm shows how the tribe endured poor reservation management and describes whites' attempts to "civilize" them. After 1885, with the buffalo gone and cattle herds growing, the Eastern Shoshone struggled with starvation, disease, and governmental neglect, entering the twentieth century with only a shadow of the economic power they once possessed, but still secure in their spiritual traditions.

[Vaclav and Lena, Haley Tanner](#) , 2011, 0307399354, 9780307399359. Set in New York's Russian migr community, Vaclav & Lena is a timeless love story from a stunningly gifted young novelist. Vaclav and Lena, both the children of Russian migrs, are at the same time from radically different worlds. While Vaclav's burgeoning love of performing magic is indulged by hard-working parents pursuing the American dream, troubled orphan Lena is caught in a domestic situation no child should suffer through. Taken in as one of her own by Vaclav's big-hearted mother, Lena might finally be able to blossom; in the naive young magician's eyes, she is destined to be his "faithful assistant"...but after a horrific discovery, the two are ripped apart without even a goodbye. Years later, they meet again. But will their past once more conspire to keep them apart?

[Computer Confluence: Tomorrow's Technology and You, Michael Jay Quinn](#) , 2006, 013152531X, 9780131525313.

"Computer Confluence" is more than a book: it's the confluence of three media resources: an illustrated textbook, a state-of-the-art CD-ROM, and up-to-the-minute web site. "Computer Confluence" goes beyond computer concepts and explores the promise and problems of information technology, how it affects people and society, and the future. Since 1994, thousands of students have been introduced to computers through the authors' unique approach. After an illustrative introductory chapter on computer basics, the book covers such topics as: hardware and software basics, graphics, digital media, and software media, networking and telecommunication, security and risks, and the internet and world wide web; as well as business information systems, electronic commerce, and e-business. An excellent reference resource for anyone interested in computers and computer concepts.

[Papers for the Suppression of Reality, Matt Werner, Shaka Freeman](#) , 2011, 0982689802, 9780982689806. Argentinian author Jorge Luis Borges wrote fake book reviews of books that didn't exist. Matt Werner teamed up with the brilliant,

though embattled, yet-to-be-tenured Dr. Shaka Freeman to write one of the fake books from Borges's "Pierre Menard, Author of the Quixote." The Jorge Luis Borges Ultra-Secret Society is proud to present this title for the first time in English. Excoriated by Borges scholars for its pseudo-historicism, anachronisms, and substandard grammar, Vanity Fair calls Papers for the Suppression of Reality "The worst book ever written on Jorge Luis Borges." Get your copy today! Printed in California on 100% cotton archival paper and with a fold-out map of "Borges's Real and Imaginary Buenos Aires." Hand-bound by the authors.

[Life on Death Row, Robert W Murray](#) , 2009, 098425790X, 9780984257904. Whatever your views on Capital Punishment, this revised, second edition of "Life on Death Row," by Robert W. Murray, will bring you face-to-face with the reality-the inside story-of the death penalty experience. It includes a new Appendix of photographs of the prison. This exposition from the heart of death row is a unique journey into the ultimate sanction of death by the state. Thought-provoking and insightful, the author gives an uncommon view into the life of a death row prisoner. You will observe the real operation and management of one of America's super-max prisons; share in the strange and frightening experience of being prematurely served with a death warrant, a notice of your imminent murder; explore the reality of so-called "humane" execution; and follow the rise and fall of the infamous "death row chain gang," as conceived by Arizona's former governor, who was then embroiled in a scandal which ultimately led to his conviction and removal from office. Learn the true facts of how the chain gang ended in a hail of bullets when two people were killed in a misbegotten escape attempt. Drawn from the personal experience of an internationally published writer/prisoner, this book is a complete in-depth examination of real life on death row, with rare photographs of scenes inside the supermax prison. It is loaded with insightful revelations, delivers an unvarnished perspective on the reality of Capital Punishment, and challenges the conventional wisdom of Arizona's legalized murder in a dramatic and unflinching style.

[A New Mother's Journal: God Knits and Weaves, Deanna J. Lockett](#) , 2004, 0972958320, 9780972958325. Conception, pregnancy, birth, and breastfeeding are profound spiritual events that can draw us closer to God if we take the time to focus on them. This pregnancy and birth journal encourages women to look both inward to examine their hearts and upward to the Lord as they travel through their journey to motherhood. Drawing direction from the biblical accounts of these events and using the apt analogies of sewing, knitting, and weaving, the author gently provides a spiritual emphasis on the miracle passages of life. Issues such as parenting, sibling relationships, and the unique role of fathers and grandparents are addressed. Expectant mothers will treasure this journal for the opportunity it provides to express their hopes, fears, and dreams. New mothers will find this journal enables them to capture the intense, but all too quickly fleeting days of early motherhood. A New Mother's Journal provides a loving, tender, biblically sound journal new mothers will cherish forever.

[Jungle Crossing, Sydney Salter](#) , 2009, 0152064346, 9780152064341. Kat can think of dozens of good reasons not to go on a boring family vacation to hot, grungy Mexico. Number one: missing her friend Fiona's minicamp. If she's not there, she'll begin eighth grade as a social reject. Despite her reluctance, Kat ends up on a teen adventure tour where she meets Nando, a young Mayan guide (who happens to be quite a cutie). As they travel to different Mayan ruins each day, Nando tells Kathis original legend of Muluc, a girl who lived in the time of the Ancient Maya. The dangerous, dramatic world in which Muluc lives is as full of rivalry, betrayal, and sacrifice as Kat's world at school. And as she makes new friends and discovers treasures in Mexico, Kat begins to wonder: Is she willing to keep sacrificing her self in exchange for popularity?

[Knightley Burne](#) , 1985, 0948122056, 9780948122057.

[Feria Fondos Above Level Reader, 5pk, Grade 5: Harcourt School Publishers Spanish Math, Hsp](#) , 2007, 0153694939, 9780153694936.

[The Autograph Man, Zadie Smith](#) , 2003, 0141013281, 9780141013282. Following one Alex-Li Tandem - a twenty-something, Chinese-Jewish autograph dealer turned on by sex, drugs and organised religion. Exposing our misconceptions about our idols - about ourselves, this title delivers a tale about who we are and what we really want to be.
