[Cats of Africa: Behavior, Ecology, and Conservation, Luke Hunter](#) , 2006, 0801884829, 9780801884825. Africa's wild cats have long been a focus of fascination and intrigue among travelers and wildlife lovers. Alongside the big threelion, leopard, and cheetahAfrica is home to another seven species of cats: the caracal, serval, African wildcat, black-footed cat, African golden cat, jungle cat, and sand cat.With photographer Gerald Hinde's stunning, crisp, graphic images, Luke Hunter presents a comprehensive overview of the entire cat family in Africathe only place on Earth where sightings of wild cats are a regular occurrence. He discusses in detail feline anatomy, predation and hunting strategies, social systems, competition and conflict, and conservation and threats, offering the reader the most current research and findings. From the famous and popular African parks with their celebrated, safari-friendly felines, to the few remaining places on the continent uninhabited by humans, Cats of Africa offers superb and exciting images of the animals from a variety of locations, depicting rare and interesting behavior, some of which has never before been recorded.

[The Rainbow Web, Cheryl Block, Jeffrey Reynolds, Lisa Strong-Aufhauser](#) , 2005, 0976162504, 9780976162506. The Rainbow Web is a book and CD-ROM set that teaches science through literature. The book is a fantasy about a spider that spins a rainbow web. The software offers narrated, interactive lessons on spider and insect anatomy, types of spiders and webs, and rainbows and colors. The CD includes reproducible activity sheets in reading, math, and science.

[Rewired, Glen Patrick](#) , 2012, 0987193414, 9780987193414. Meet Jeremy Gordon, starring in Glen Patrick's debut thriller: Rewired. An inoperable brain tumour denies Jeremy Gordon the simplest wish of a normal life. Blacking out each night between the hours of 11:00pm-6:00am, he finds himself collecting enough weapons and cash to fuel a small war. With no memory of his night-time activity, he lives in a constant fear that one night will be his last. "Who is Jeremy Gordon?" That's what he'd like to know...

[How to Write Book Reports: A One-year Workbook Format Course for Use by Students in Grades 4-12, Kimberley Nash](#) , 2006, 097109506X, 9780971095069. HOW TO WRITE BOOK REPORTS: Do you have a student who likes to read? Is he/she ready to start learning how to write a composition? Whether your student likes to read or not, this curriculum is a must. Learning the pattern for a book report is a precursor to learning how to write essays and research reports.This curriculum is so fun and easy-to-use that your student will slip into writing with ease! Moreover, with the preprinted

forms for collecting data and writing the final book report, your student will be organized, and you will have a keepsake record of the writing successes your student will achieve with this curriculum. Publisher's Synopsis: HOW TO WRITE BOOK REPORTS uses a step-by-step format that makes any reading adventure become a successful writing adventure. This hands-on workbook contains five units of three chapters each. Each unit begins with a chapter of Ethics Skills teaching your student how to choose a scripturally honoring book to read. After scriptural values are studied, they are recorded on worksheets and in a quick reference table for your student to refer to when choosing the books he/she will read. Next, each unit contains a Writing Skills chapter with easy-to-follow instructions that teach how to write a book report from the opening to the closing paragraph. These chapters gradually introduce new concepts that facilitate the growth and maturation of writing skills. The third chapter in each unit is full of Grammar Skills and PRACTICE exercises. Your student is taught each grammar rule which he/she then practices and is instructed to apply the skill to current and future writing. Next, convenient preprinted forms for collecting data and writing a final book report are included. These helpful study pages aid in organization and provide a keepsake record of each writing success. Additionally, the final book report forms contain border frames that are a delight for every student to color, making each report a masterpiece!

Writing Skills\* Topic sentences \* Logical-sequence paragraphs\* Summary sentences \* Topical paragraphs\* Transition sentences \* Topical paragraphs\* Opening, detail, and closing paragraphs\* Character development \* Book analysis

Grammar Skills\* Capital letters\* Sentence structure\* Punctuation \* Paragraph structure\* Word usage \* Dictionary usage\* Transitions \* Thesaurus usage

Bonus Features!\* Teacher and student instructions\* Book report forms\* Book report correcting \* Daily lesson plans\* Book report grading \* Charts for editing\* PRACTICE exercises/answers\* Charts for grading\* Book report worksheets \* Unit tests/answers

HOW TO WRITE BOOK REPORTS is acclaimed by educators for its Scriptural purity, clarity, and excellent writing results. This workbook contains 176 pages plus five (5) multiple choice tests. Includes Writing Skills, Grammar Skills and Practice exercises. Designed for students in grades 4 - 12.

[Pain management psychotherapy: a practical guide, Bruce N. Eimer, Arthur M. Freeman](#) , 1998, 0471157082, 9780471157083. Chronic and persistent pain syndromes are as much behavioral and psychological problems as physical

or medical problems. Mental health professionals involved in pain management must have a thorough knowledge of the latest pain management techniques in order to select the best methods and strategies for helping each patient cope with pain. *Pain Management Psychotherapy* is the most up-to-date comprehensive guide available for the psychological treatment of chronic pain. It addresses the behavioral, emotional, sensory-physiological, cognitive, and interpersonal aspects of pain problems and provides accessible technical knowledge that enables practitioners to alleviate unnecessary pain and suffering. Based on sound research and theory and written by two leading practitioners, this book introduces a short-term therapy model for treating chronic pain that integrates clinical techniques drawn from cognitive therapy, hypnotherapy, behavior therapy, and desensitization therapies. This remarkably thorough volume: Supplies step-by-step treatment methods from initial consultation through termination of pain treatment Describes brief, solution-oriented pain treatment strategies that work in a managed care environment Features assessment and outcome measurement instruments, checklists, worksheets, and clinical scripts Demonstrates the latest therapeutic techniques, including eye movement desensitization and reprocessing, therapeutic imagery, relaxation training, and self-hypnosis Includes pain inventories, questionnaires, and other assessment tools This book is an indispensable guide for psychologists, psychiatrists, social workers, and other mental health professionals who need fast, reliable methods for promoting pain relief. It is also an excellent text for undergraduate and graduate students in these and other disciplines, and a valuable reference for insurers, physicians, and managed care providers. BRUCE N. EIMER, PhD, ABPP, a leading pain management therapist, clinical psychologist, and neuropsychologist, is in private practice in Philadelphia. Dr. Eimer is a Diplomate in Behavioral Psychology of the American Board of Professional Psychology, and a Diplomate of the American Academy of Pain Management. He is a member of the American Psychological Association, American Pain Society, International Association for the Study of Pain, and a Certified and Approved Consultant in Clinical Hypnosis of the American Society of Clinical Hypnosis. Dr. Eimer lectures frequently and gives seminars and workshops on pain management and other psychological topics. "This is a practical and informative text that will be of great use to psychologists and psychiatrists who treat people with chronic pain. It is one of the most, specific, helpful, and user friendly volumes on pain management." Dennis C. Turk, PhD John & Emma Bonica Professor of Anesthesiology and Pain Research University of Washington "A remarkable, comprehensive, and practical guide for pain management therapy. Everything you wanted to know about the cognitive-behavioral treatment of people with severe pain problems is exceptionally well presented in this book." Albert Ellis, PhD, President Albert Ellis Institute for Rational Emotive Behavior Therapy Author, *A Guide to Rational Living* "Pain Management Psychotherapy makes a strong contribution to the clinical literature. It provides a clear overview of the management of persistent pain and offers insight into the psychological and interpersonal nightmare experienced by pain patients. This important work will help therapists better understand and treat chronic debilitating pain." Richard S. Weiner, PhD, Executive Director American On Academy of Pain Management "An

exceptional handbook. Clinicians will emerge knowing how to mitigate the suffering of people in pain." Arnold A. Lazarus, PhD, ABPP Distinguished Professor of Psychology Emeritus Rutgers University Author, *Brief But Comprehensive Psychotherapy* "A definitive and comprehensive text for assessing and treating patients suffering acute, subacute, or chronic pain. I heartily endorse and recommend this text to students and practitioners alike." C. David Tollison, PhD Editor, *The Handbook of Pain Management* "Pain Management Psychotherapy has the best psychological techniques for the care of the chronic pain patient, which includes cognitive-behavioral, EMDR, and hypnosis therapy. This book should be in the library of every clinician who treats chronic pain." Dabney M. Ewin, MD, FACS. Diplomate, American Board of Surgery Diplomate, American Board of Medical Hypnosis

[The Terrible Teens: What Every Parent Needs to Know, Kate Figs](#) , 2004, 0140280332, 9780140280333. Living with teenagers can be more demanding, stressful and emotional than anything parents have previously experienced. While there are dozens of books on development in young children, books on adolescents' development and how to cope are almost non-existent. Kate Figs redresses the balance. Understanding adolescence is the key to managing it. In the *Terrible Teens*, chapters on mood swings, how teenagers think, reducing conflict, family living, The importance of friendships, life at school, sex, drink and drugs provide parents with the answers to their problems and teenagers with the reassurance that they are not alone in feeling misunderstood. Based on the advice of experts and interviews with parents and their children, this informed and practical analysis of the difficulties young people face growing up today is essential reading for any parent.

[The Melbourne Design Guide, Viviane Stappmanns, Ewan McEoin](#) , 2006, 0980291402, 9780980291407.

[Principles and Practices of Teaching Reading and Education on the Internet Package, Arthur W. Heilman, Timothy R. Blair, William H. Rupley](#) , 1996, .

[A Trip to the Stars, Nicholas Christopher](#) , 2013, 081298479X, 9780812984798. A large, lavishly inventive novel . . . an American descendant of *The Arabian Nights* . . . erudite and artful entertainment. The New York Times Book Review At a Manhattan planetarium in 1965, ten-year-old Enzo is whisked away from his young adoptive aunt, Mala. His abductor turns out to be a blood relative: his great-uncle Junius Samax, a wealthy former gambler who lives in a converted Las Vegas hotel surrounded by a priceless art collection and a host of fascinating, idiosyncratic guests. In Samax's magical world, Enzo receives a unique education and pieces together the mystery of his mother's life and the complicated history of his adoption. Back in New York, Mala only knows that Enzo has disappeared. After a yearlong search proves fruitless, she enlists in the Navy Nursing Corps and on a hospital ship off Vietnam falls in love with a wounded B-52 navigator, who

disappears on his next mission. Devastated again, Mala embarks on a restless, adventurous journey around the world, hoping to overcome the losses that have transformed her life. Fusing imagination, scholarship, and suspense with remarkable narrative skill, Nicholas Christopher builds a story of tremendous scope, an epic tale of love and destiny, as he traces the intricate latticework of Mala's and Enzo's lives. Each remains separate from each other but tied in ways they cannot imagine until the final miraculous chapter of this extraordinary novel. A writer of remarkable gifts. The Washington Post Book World This labyrinthine novel . . . is animated by an encompassing lust for beauty. The New Yorker [Nicholas] Christopher is North America's Garcia Marquez; Borges with emotional weight. . . . This is one of those rare books that, by connecting the stars, catches you in its web. The Globe and Mail Includes an excerpt of Nicholas Christopher's Tiger Rag

[The Future Was Here: The Commodore Amiga, Jimmy Maher](#) , 2012, 0262300745, 9780262300742. Long ago, in 1985, personal computers came in two general categories: the friendly, childish game machine used for fun (exemplified by Atari and Commodore products); and the boring, beige adult box used for business (exemplified by products from IBM). The game machines became fascinating technical and artistic platforms that were of limited real-world utility. The IBM products were all utility, with little emphasis on aesthetics and no emphasis on fun. Into this bifurcated computing environment came the Commodore Amiga 1000. This personal computer featured a palette of 4,096 colors, unprecedented animation capabilities, four-channel stereo sound, the capacity to run multiple applications simultaneously, a graphical user interface, and powerful processing potential. It was, Jimmy Maher writes in *The Future Was Here*, the world's first true multimedia personal computer. Maher argues that the Amiga's capacity to store and display color photographs, manipulate video (giving amateurs access to professional tools), and use recordings of real-world sound were the seeds of the digital media future: digital cameras, Photoshop, MP3 players, and even YouTube, Flickr, and the blogosphere. He examines different facets of the platform--from Deluxe Paint to AmigaOS to Cinemaware--in each chapter, creating a portrait of the platform and the communities of practice that surrounded it. Of course, Maher acknowledges, the Amiga was not perfect: the DOS component of the operating systems was clunky and ill-matched, for example, and crashes often accompanied multitasking attempts. And Commodore went bankrupt in 1994. But for a few years, the Amiga's technical qualities were harnessed by engineers, programmers, artists, and others to push back boundaries and transform the culture of computing.

[Medalon, Jennifer Fallon](#) , 2010, 0730401227, 9780730401223. The small country of Medalon lies between the vast nation of Karien in the north and the nations of Fardohnya and Hythria in the south. For centuries the Medalonians co-existed peacefully with the Harshini, a magical race that abhors killing. But now they are gone and in their place the Sisters of the Blade rule Medalon from the Citadel. An elite army of Defenders enforces the Sisterhood's oppressive rule. The Harshini and their demons are believed to be extinct and Medalon has an uneasy peace with its northern and southern neighbours. R'shiel Tenrigan, daughter of the First Sister, and her half-brother Tarja find themselves caught up in the political infighting amongst the Sisters of the Blade. When their mother's scheming becomes too much to bear, R'shiel and Tarja are determined to follow their own path and they flee the Citadel. Their lives take a turn neither could ever have imagined and the Defenders of Medalon hunt them as traitors. Meanwhile, far south in Hythria, Brak, a Harshini outcast, is called to find the demon child, the half-human child of the dead Harshini King, Lorandranek. But what can this mean to R'shiel.

[Mentoring and Supervision in Healthcare, Neil Gopee](#) , 2011, 1446259684, 9781446259689. This practical and accessible book examines the knowledge base, skills and attitudes required for mentoring in the context of healthcare. Revised and

updated to take account of the latest developments in healthcare, the text explores theories and research on mentoring by analysing their strengths and weaknesses. To complement his analytical style, Neil Gopee has introduced more interactive features to emphasise the application of theories and principles to various clinical settings. He also draws on the most recent standards and competencies for mentors and supervisors, and examines how they can be applied in day-to-day mentoring and clinical practice activities. Key features include: - Comprehensive content - examines learning styles; different learning environments; evidence-based care; principles of assessment; the mentor's leadership; evaluation of teaching. - Practice-oriented - case studies offer links to 'real-life' and the chapters provide effective frameworks for mentoring in practice. - Interactive - activities and think points encourage the reader to explore and apply concepts to their practice and roles. - Up-to-date - firmly based on current knowledge in the field. Mentoring and Supervision in Healthcare is a core text for mentor preparation courses in nursing, midwifery and across the healthcare sector. It supports learning and ongoing professional development for all healthcare professionals.

[Hormones, Brain and Behavior Online, Donald W. Pfaff](#), 2009, 0123743826, 9780123743824. Hormones, Brain, and Behavior Second Edition is a comprehensive work discussing the effect of hormones on the brain and, subsequently, behavior. This major reference work has 109 chapters covering a broad range of topics with an extensive discussion of the effects of hormones on insects, fish, amphibians, birds, rodents, and humans. To truly understand all aspects of our behavior, we must take every influence (including the hormonal influences) into consideration. Donald Pfaff and a number of well-qualified editors examine and discuss how we are influenced by hormonal factors, offering insight, and information on the lives of a variety of species. Hormones, Brain, and Behavior offers the reader comprehensive coverage of growing field of research, with a state-of-the-art overview of hormonally-mediated behaviors. This reference provides unique treatment of all major vertebrate and invertebrate model systems with excellent opportunities for relating behavior to molecular genetics. The topics cover an unusual breadth (from molecules to ecophysiology), ranging from basic science to clinical research, making this reference of interest to a broad range of scientists in a variety of fields. Available online exclusively via ScienceDirect. A limited edition print version is also available. \* Comprehensive coverage of a growing field of research \* Unique treatment of all major vertebrate and invertebrate model systems with excellent opportunities for relating behavior to molecular genetics \* Covers an unusual breadth ranging from molecules to

ecophysiology, and from basic science to clinical research

[The Impact of Buddhism on Chinese Material Culture, John Kieschnick](#) , 2003, 0691096767, 9780691096766. From the first century, when Buddhism entered China, the foreign religion shaped Chinese philosophy, beliefs, and ritual. At the same time, Buddhism had a profound effect on the material world of the Chinese. This wide-ranging study shows that Buddhism brought with it a vast array of objects big and small--relics treasured as parts of the body of the Buddha, prayer beads, and monastic clothing--as well as new ideas about what objects could do and how they should be treated. Kieschnick argues that even some everyday objects not ordinarily associated with Buddhism--bridges, tea, and the chair--on closer inspection turn out to have been intimately tied to Buddhist ideas and practices. Long after Buddhism ceased to be a major force in India, it continued to influence the development of material culture in China, as it does to the present day. At first glance, this seems surprising. Many Buddhist scriptures and thinkers rejected the material world or even denied its existence with great enthusiasm and sophistication. Others, however, from Buddhist philosophers to ordinary devotees, embraced objects as a means of expressing religious sentiments and doctrines. What was a sad sign of compromise and decline for some was seen as strength and versatility by others. Yielding rich insights through its innovative analysis of particular types of objects, this briskly written book is the first to systematically examine the ambivalent relationship, in the Chinese context, between Buddhism and material culture.

[Urban Water Cycle Processes and Interactions: Urban Water Series - UNESCO-IHP, , ISSN 1749-0790, Jiri Marsalek, Blanca Jimenez Cisneros, Mohammad Karamouz, Per-Arne Malmquist, Joel Avruch Goldenfum, Bernard Chocat](#) , 2007, 041545347X, 9780415453479. Effective management of urban water should be based on a scientific understanding of

the impact of human activity on both the urban hydrological cycle including its processes and interactions and the environment itself. Such anthropogenic impacts, which vary broadly in time and space, need to be quantified with respect to local climate, urban development, cultural, environmental and religious practices, and other socio-economic factors. Urban Water Cycle Processes and Interactions represents the fruit of a project by UNESCO's International Hydrological Programme on this topic. The volume begins by introducing the urban water cycle concept and the need for integrated or total management. It then explores in detail the manifold hydrological components of the cycle, the diverse elements of urban infrastructure and water services, and the various effects of urbanization on the environment from the atmosphere and surface waters to wetlands, soils and groundwater, as well as biodiversity. A concluding series of recommendations for effective urban water management summarize the important findings set forth here. Urban Water Series - UNESCO-IHP Volumes Following from the Sixth Phase of UNESCO's International Hydrological Programme (2002/2007), the Urban Water Series UNESCO-IHP addresses fundamental issues related to the role of water in cities and the effects of urbanization on the hydrological cycle and water resources. Focusing on the development of integrated approaches to sustainable urban water management, the Series should inform the work of urban water management practitioners, policy-makers and educators throughout the world.

[Dictionary of Human Neuroanatomy, Martin C. Hirsch](#) , 1999, 3540665234, 9783540665236. Whether it was during my studies or, now, when preparing lectures, during scientific work or discussions of how the brain functions - over and over again I have reached a point where I need concise and precise information on a certain structure. In the standard reference books most terms are missing, and accessing information in textbooks and other scientific works or in original papers is quite tedious. In short: a dictionary of terms in neuroanatomy and neurofunction was needed. In the course of many years of work the Dictionary of Human Neuroanatomy was compiled. Our purpose in preparing the dictionary was not to collect the latest scientific discussions and results but rather to present sound and comprehensive basic information which will help demonstrate the structures in their context quickly and efficiently. It should be a help to all those who need quick information on the structures of the human brain. We would like to express our sincere gratitude to all those individuals who took part in producing the dictionary: to Dr. Lange for initiating the project and for the smooth cooperation; to Ms. Wilbertz for her efficiency in supporting production; to Dr. Harder for proofreading and valuable groundwork; to my family for their loving patience - and last but not least, to iAS GmbH (www.brainmedia.de) for the illustration on the cover page.

[Name Withheld: A J.P. Beaumont Mystery, J. A. Jance](#) , 2009, 0061760900, 9780061760907. An explosive novel of betrayal and blood vengeance from the New York Times bestselling author of Long Time Gone. There are those who don't deserve to live -- and the corpse floating in Elliot Bay may have been one of those people. Not surprisingly, many individuals -- too many, in fact -- are eager to take responsibility for the brutal slaying of the hated biotech executive whose alleged crimes ranged from the illegal trading of industrial secrets to rape. For Seattle Detective J.P. Beaumont -- who's drowning in his own life-shattering problems -- a case of seemingly justifiable homicide has sinister undertones, drawing the haunted policeman into a corporate nightmare of double deals, savage jealousies, and real blood spilled far too easily, as it leads him closer to a killer he's not sure he wants to find.

[Oxford Storyland Readers: Level 7 Mrs Mott, , Rosemary Border](#) , 2004, 0195969723, 9780195969726. These imaginative graded stories and factual writing relate to young learners own experiences and provide a delightful introduction to reading.

[Workforce Crisis: How to Beat the Coming Shortage of Skills And Talent, Ken Dychtwald, Tamara J. Erickson, Robert Morison](#) , 2013, 1422146553, 9781422146552. Unprecedented shifts in the age distribution and diversity of the global labor pool are underway. Within the decade, as the massive boomer generation begins to retire and fewer skilled workers

are available to replace them, companies in industrialized markets will face a labor shortage and brain drain of dramatic proportions. Ken Dychtwald, Tamara Erickson, and Robert Morison argue that companies ignore these shifts at great peril. Survival will depend on redefining retirement and transforming management and human resource practices to attract, accommodate, and retain workers of all ages and backgrounds. Based on decades of groundbreaking research and study, the authors present innovative and actionable management techniques for leveraging the knowledge of mature workers, reengaging disillusioned midcareer workers, and attracting and retaining talented younger workers. This timely book will help organizations sustain their competitive edge in tomorrow's inevitably tighter labor markets.

[The Road to Wigan Pier, George Orwell](#) , 1958, 0156767503, 9780156767507. In the 1930s George Orwell was sent by a socialist book club to investigate the appalling mass unemployment in the industrial north of England. He went beyond his assignment to investigate the employed as well. Not one to observe from the sidelines, Orwell shared the experiences of the coal miners, living in foul lodgings, subsisting on a meager diet, and going down into the hellish, back-breaking mines. What he saw and recorded helped clarify his feelings about socialism. In this book he pointedly tells why socialism, the only remedy to the shocking conditions he had witnessed, repelled "so many normal decent people." His rebuke was so stinging that it brought a rebuttal from one of his sponsors, published as a foreword to the original edition of "The Road to Wigan Pier" and also included here.

[Adventures in Food and Nutrition!, Carol Byrd-Bredbenner](#) , 2011, 160525763X, 9781605257631. Adventures in Food and Nutrition! is a great resource for helping your students begin an exciting study of nutrition, food management, and preparation. The appealing, youthful writing style and colorful photographs draw students' attention, and the lower reading level makes this text an excellent choice for younger students and introductory classes. Interesting features appear throughout the text to encourage students to use math and science concepts as they consider the link between nutrition and health. These features also introduce students to food technology innovations, increase their appreciation of diverse cultures, and motivate them to explore careers. In addition, problem-solving scenarios empower students to develop critical-thinking skills as they apply learning. This edition of Adventures in Food and Nutrition! includes: \* An introduction to the MyPlate food guidance system. \* Discussions of current nutrition topics.

[The History of Broadcasting in the United Kingdom: Volume I: The Birth of Broadcasting, Asa Briggs](#) , 1995, 0192129260, 9780192129260. This is the first part of a five-volume history of broadcasting in the UK. Together the volumes give an authoritative account of the rise of broadcasting in this country. Though naturally largely concerned with the BBC it does give a general history of broadcasting, not simply an institutional history of the BBC. The Birth of Broadcasting covers early amateur experiments in wireless telephony in America and in England, the pioneer days at Writtle in Essex and elsewhere, and the coming of organized broadcasting and its rapid growth during the first four years of the BBC's existence as a private Company before it became a public Corporation in January 1927. Briggs describes how and why the Company was formed, the scope of its activities and the reasons which led to its conversion from a business enterprise into a national institution. The issues raised between 1923 and 1927 remain pertinent today. The hard bargaining between the Post Office, private wireless interests, and the emergent British Broadcasting Company is discussed in illuminating details, together with the remarkable opposition with which the Company had to contend in its early days. Many sections of the opposition, including a powerful section of the press, seemed able to conceive of broadcasting only as competing with their own interests, never as complementing or enlarging them. One of the main themes of this volume is that of the gradual forging of the instruments of public control, and particular attention is paid to the Crawford Report (1926) from which the Corporation arose. During this period all the characteristics of the Corporation first appeared - particularly its reputation for public service and impartiality. Briggs also examines the background of wireless as an invention and considers its impact on society. He has much to say about personalities and programmes as well as policies.

[Living Longer Than Hate, C. S. Ragsdale](#) , 1997, 0965978109, 9780965978101. LIVING LONGER THAN HATE: A STORY OF SURVIVAL & SUCCESS, by historian C. S. Ragsdale, is the story of a young boy thrown into the chasm of hate, murder, escape, & finally liberation. Yossela finds himself in America where he is told dreams can come true. Penniless & alone he embarks on a journey that takes him from the east coast to mid-America to Texas seeking that dream. Struggling with the language, poverty, loneliness & unbridled guilt & pain, he vows to keep the promises made to his father. The young immigrant, determined to succeed, follows the lessons of his father, listens to his intuition & works relentlessly. He finds mentors in unexpected places & he battles the doubt that continues to surface - how could a poor, uneducated, foreign man find his place among others in a land of wealth & freedom? LIVING LONGER THAN HATE enlightens us in the lessons of faith, family support systems, belief in the American Dream, perseverance, tolerance, forgiveness, charity, & it gives us hope of survival & success, no matter the odds. "It is more than one man's life - it is what every man should be, or; we hope, could be, if we tried."

[Extreme Birder: One Woman's Big Year, Lynn E. Barber](#) , 2011, 1603442618, 9781603442619. One woman . . . one year . . . 723 species of birds. . .In 2008, Lynn Barber's passion for birding led her to drive, fly, sail, walk, stalk, and sit in search of birds in twenty-five states and three provinces. Traveling more than 175,000 miles, she set a twenty-first century record at the time, second to only one other person in history. Over 272 days, Barber observed 723 species of birds in North America north of Mexico, recording a remarkable 333 new species in January but, with the dwindling returns typical to Big Year birding, only eight in December, a month that found her crisscrossing the continent from Texas to Newfoundland, from Washington to Ontario. In the months between, she felt every extreme of climate, well-being, and emotion. But, whether finally spotting an elusive Blue Bunting or seeing three species of eiders in a single day, she was also challenged, inspired, and rewarded by nearly every experience. Barber's journal from her American Birding Association-sanctioned Big Year covers the highlights of her trek to forests, canyons, mountain ranges, deserts, oceans, lakes, and numerous spots in between. Written in the informal style of a diary, it captures the detail, humor, challenges, and fun of a good adventure travelogue and also conveys the remarkable diversity of North American birds and habitat. For actual or would-be travel birders, Lynn Barber's Extreme Birder provides a fascinating, binoculars-eye view of one of the best-loved pastimes of nature lovers everywhere. "Lynn Barber challenges a traditionally male-dominated pursuit--the birding big year--and is successful beyond her wildest dreams. She is an inspiration for all who love adventure, nature, and birds."--Lynn Hassler, author, Birds of the American Southwest

[The Divine Wisdom Of Oneness, Received And Transcribed By Rasha](#) , 2008, 8179927830, 9788179927830. In unprecedented divine revelations The Divine Wisdom of Oneness gifts humanity with an astounding new vision of who we really are and where we re heading. In February 1998, Rasha began a profound dialogue with the universal Presence, Oneness the Divinity we all share. As The Divine Wisdom of Oneness guided her step-by-step through the agonies and the exultation of an experiential voyage to God-realization, Rasha painstakingly documented the principles that lay the foundation for a new level of understanding of the phenomenon we call life. These pages hold belief-shattering insights into the changes that are silently shaking the fiber of our lives and our world. Here we learn how reality is manifested vibrationally, and how our emotional responses set the stage for drawing life experiences to us. We learn to recognize the signs and symptoms of the ascension process the shifting of our awareness to accelerating levels of reality and how to harness its potential.

[Rise of the Apostle, Robert James Luedke](#) , 2008, 0975892436, 9780975892435. World renowned forensic Archeologist, Dr. Terry Harper, has miraculously survived two assassination attempts within the span of 10 days. As Israeli police try to discover exactly who is behind these inexplicable attacks, Harper, aided by a mysterious ex-CIA operative, try to escape the Middle East and return to the safety of the United States, before another can be launched. Throughout the journey, Harper experiences blackout-induced visions, which transform him into an unwitting eyewitness to the birth of the Christian faith, as seen through the eyes of the Saul of Tarsus. In this third book of the award-winning Eye Witness graphic novel series, the transformation and missions of the super-apostle Paul, are examined like never before as the author delves into questions like: What happened to Paul between the time when his sight was taken on the road to Damascus to when he returned to that city, three years later? Rise of the Apostle, takes the reader through a full color,

fully illustrated roller-coaster ride which features the intertwining of a modern day action-thriller with an adaptation of the Book of Acts. The Eye Witness series is appropriate for readers from early teen and up. Winner in the category of Graphic Novels at the 2009 Best Book Awards, sponsored by USAbooknews.com

[Parties and People: England 1914-1951, Ross McKibbin](#), 2010, 0199584699, 9780199584697. The 'sequel' to his best-selling *Classes and Cultures*, Ross McKibbin's latest book is a powerful reinterpretation of British politics in the first decades of universal suffrage. What did it mean to be a 'democratic society'? To what extent did voters make up their own minds on politics or allow elites to do it for them? Exploring the political culture of these extraordinary years, *Parties and People* shows that class became one of the principal determinants of political behaviour, although its influence was often surprisingly weak. McKibbin argues that the kind of democracy that emerged in Britain was far from inevitable-as much historical accident as design-and was in many ways highly flawed.

This book is specially written to satisfy the needs of the modern dental course in relation to basic and applied pharmacology. It will be invaluable to all dental students, both undergraduate and postgraduate. The new edition is completely revised and updated, and includes a number of new topics.

[Communication and Swallowing Management of Tracheostomized and Ventilator-dependent Adults, Karen J. Dikeman, Marta S. Kazandjian](#), 2003, 0769302459, 9780769302454. This comprehensive manual provides a clinical, yet practical, approach to treating tracheostomized and ventilator-dependent patients, and is considered the reference among those who administer this care. It provides the learner with clinical and case research information and encourages him/her to apply that information to their patients needs on an individualized basis, rather than employing a cook book approach to treatment. Emphasis is also placed on individualizing treatment and assessment protocols. The organizational structure is conducive to learning, as information builds on itself progressively from chapter to chapter.

[English in Common 4A Split: Student Book with ActiveBook and Workbook, Volume 4, Part 1, Antonia Clare, Maria Victoria Saumell, J. J. Wilson, Sarah Louisa Birchley](#), 2011, 0132628880, 9780132628884. English in Common is a six-level American English integrated-skills course for adult and young adult learners based on CEFR standards and learner outcomes. Finding direction and purpose English in Common 4A Split Student Book motivates learners through Can Do objectives which give direction and purpose, ensuring students know what they are learning, why they are learning it, and how they will be able to use the language outside of the classroom. Engaging learners' interest English in Common 4A Split Student Book engages learners' interest by offering a new twist to familiar topics -topics that reflect students'

needs and interests. This ensures that students will always have something to say about the content of the lesson. Developing active learners English in Common 4A Split Student Book encourages active participation in learning by guiding students to use their own knowledge as they observe structures in context to figure out language use and form independently. English in Common 4 Student Books are divided into either ten or twelve units and have enough material for approximately 60 to 90 hours of instruction. Each Student Book has a bound-in ActiveBook, which contains a digital Student Book with the entire audio program, Extra Listening practice and activities, and a printable Language Portfolio to help students keep a record of their progress. This is a Split Edition, with combination Student Book and Workbook covering the first half of the level. This version is also available as a blended learning program with MyEnglishLab - an online learning tool for personalized practice, with automatic gradebook. Level 4 is for Intermediate students, and covers competencies in the B1-B2 bands of the CEF.

[Desolation Angels, Jack Kerouac](#) , 2012, 0141972041, 9780141972046. Desolation Angels is the wild and soulful story of the legendary road trip that Jack Kerouac took before the publication of On the Road, told through the persona of Jack Duluoz and accompanied by his thinly-disguised Beat cohorts Allen Ginsberg, Gregory Corso and William Burroughs. As they hitch, hop freight trains, walk and talk their way across the world, from California to Mexico, London to Paris and on to opium-ridden Tangiers, Kerouac chronicles their poetry, partying, mountain vigils and spiritual contemplation with unsurpassable energy and humanity.

[Around the Horn: A Trader's Guide to Consistently Scoring in the Markets, Adrian F. Manz](#) , 2003, 0974765309, 9780974765303. In this exciting new book, Dr. Adrian F. Manz uses the clever metaphor of the all-American sport of Baseball to describe his strategy in trading the markets. Readers are provided with an interesting spin on the challenge of learning to profit from chart patterns, as the author presents information in an easy to comprehend framework that includes patterns with names like Fast Ball, Infield Fly, Line Drive, 3-2 Pitch, Backdoor Slider, Switch Hitter and more. Around The Horn provides detailed entry and exit strategies based on daily and intraday charts.

[Doctors and the Law: Medical Jurisprudence in Nineteenth-Century America, James C. Mohr](#) , 1996, 0801853982,

9780801853982. After the American Revolution, the new republic's most prominent physicians envisioned a society in which doctors, lawyers, and the state would work together to ensure public well-being and a high standard of justice. By the 1830s, medical jurisprudence was being taught as an important subject in the nation's best medical schools, new medical ideas about insanity inspired major legal reforms, and legal issues stimulated medical advances. Medical malpractice suits were so rare as to be curiosities. But as James C. Mohr reveals in *Doctors and the Law*, by mid-century what had once appeared to be fertile ground for cooperative civic service had become a battlefield, and the relationship between doctors and the legal system became increasingly adversarial. Mohr provides a graceful and lucid narrative of this startling transition from civic republicanism to marketplace professionalism. He shows how, by 1900, everything had changed for the worse: doctors and lawyers were at each other's throats; medical jurisprudence had disappeared as a serious field of study for American physicians; the subject of insanity had become a legal nightmare; expert medical witnesses had become costly and often counterproductive; and an ever-increasing number of malpractice suits had intensified physicians' aversion to the courts. In short, the system we have taken largely for granted throughout the twentieth century was essentially in place, the product of a great nineteenth-century transition. Mohr uses a series of trials that captured the attention of the American people to illustrate key trends. In the Hendrickson trial of the 1850s, for example, what began as a trial to determine whether or not John Hendrickson had poisoned his wife Maria became a sensationalized debate - complete with a multitude of expert medical witnesses - challenging Dr. James Salisbury's ability to isolate the specific chemical used to poison Mrs. Hendrickson. And Mohr goes on to explore a variety of subjects: medical education, forensic toxicology, insanity, medical malpractice, the place of physicians in establishing American social policy, and the role of the AMA in medico-legal matters. For those who wonder about the relationship between the nation's physicians and its legal processes, here is a penetrating look at the origins of our inherited medico-legal system. Above all else, Mohr reminds us that our present system is not an inevitable product of universal forces but an outcome of specific historical circumstances in the United States and is likely to change.

[Practical Paleo: A Customized Approach to Health and a Whole-Foods Lifestyle, Diane Sanfilippo](#) , 2012, 1936608758, 9781936608751. Our great-grandmothers didn't need nutrition lessons then again, they weren't forced to wade through aisle after aisle of packaged foods touting outlandish health claims and confusing marketing jargon. Over the last few

decades, we've forgotten what "real food" is and we're left desperately seeking foods that will truly nourish our bodies. We're disillusioned with the "conventional wisdom" for good reason it's gotten us nowhere. Achieving optimal health without calorie-counting, diet foods, or feelings of deprivation has never been easier. Practical Paleo explains why avoiding both processed foods and foods marketed as "healthy" like grains, legumes, and pasteurized dairy will improve how you look and feel and lead to lasting weight loss. Even better you may reduce or completely eliminate symptoms associated with common health disorders! Practical Paleo is jam-packed with over 120 easy recipes, all with special notes about common food allergens including nightshades and FODMAPs. Meal plans are also included, and are designed specifically to support: immune health (autoimmune conditions) blood sugar regulation (diabetes 1 & 2, hypoglycemia) digestive health (leaky gut, IBS & IBD) multiple sclerosis, fibromyalgia, and chronic fatigue syndrome thyroid health (hypo and hyper - Hashimoto's, Graves) heart health (cholesterol & blood pressure) neurological health (Parkinson's & Alzheimer's) cancer recovery fat loss athletic performance a "squeaky-clean" Paleo approach Practical Paleo is the resource you'll reach for again and again, whether you're looking for information on healthy living, delicious recipes, or easy-to-understand answers to your questions about how a Paleo lifestyle can benefit you, your family, and your friends.

[The Women Behind the Roses: An Introduction to Alister Clark's Women Rose-Namesakes, 1915-1952, Tilley Govanstone, Andrew Govanstone](#) , 2010, 1877058939, 9781877058936. This book is a celebration of the sixty-five women to whom Australia's most prodigious rosarian, the late Alister Clark, chose to dedicate Glenara Seedling roses. Of the many, many people Alister met throughout his life, from a wide array of circles, he deliberately honoured a selection of them when he chose their name in particular for the new Roses that he had created from his seedling bed at Glenara', his picturesque pastoral property at Bulla, some 20 km north west of Melbourne. As the authors' knowledge and understanding of Alister's rose-namesakes has grown over time, so they have come to appreciate that his particular choices were, in the majority of cases, his way of acknowledging the efforts, across a range of endeavours, of the women themselves. In some instances, where the rose-namesake was still a child, he was acknowledging his relationship with her family, or the achievements of the girl's parents. As rose-growers of the 1920s and 1930s came to appreciate and promote the beauty, vigour and array of Glenara Seedlings, so their curiosities became aroused as to the identity of the rose's namesakes. After nearly 100 years of the registration and commercial release of Alister Clark's first female-named rose Jessie Clark' the curiosity has not abated. This book is also a celebration of the wonderful life and legacy of Alister Clark himself, Australia's acknowledged Man of Roses'. Very few people in the world have left a legacy as beautiful and endearing as that of Alister Clark. Without doubt he was, during the latter half of his long life, Australia's best known rosarian. During the first decade of the twentieth century Alister Clark spent his earliest years and then his adult years at the idyllic pastoral property Glenara', that had been established by his father Walter. When Alister purchased the Italianate style homestead from the family estate in 1887 he established an extensive garden of roses that was to become the backbone

of breeding stock for his long-lasting and successful rose breeding programme. Alister's main endeavour in breeding roses was to advance the development of the Rosa genus; to intervene in nature and establish new, improved, hardier varieties of roses that would flourish in the hotter, drier Australian climate, and grow better on Australian soils older and poorer than those of the Northern hemisphere. Further, he aimed to produce roses that would extend their flowering beyond a season; ideally, to bear blooms all year round.

[Black Ships, Jo Graham](#) , 2012, 140551535X, 9781405515351. The World is ending. One by one the mighty cities are falling: to earthquakes, to flood and to raiders - on both land and sea. In a time of war and doubt, Gull is an oracle, a mouthpiece of the gods. Daughter of a slave plundered from fallen Troy, she was chosen as a child to serve the Lady of the Dead, and it is her fate to counsel kings. When nine black ships appear as foretold in her dreams, captained by an exiled Trojan prince, Gull must make her choice. She must decide between her sacred calling and the most perilous adventure - joining her mother's people in their desperate flight from slavery. From the doomed bastions of the City of Pirates to the temples of Byblos, from the intrigues of the Egyptian court to the haunted caves beneath Mount Vesuvius, only Gull can guide Prince Aeneas on his quest. And only she can dare the gates of the Underworld itself to lead him to his destiny. In the last shadowed days of the Age of Bronze, one woman dreams of the world beginning anew. This is her story.

[Among the Janeites: A Journey Through the World of Jane Austen Fandom, Deborah Yaffe](#) , 2013, 0547757794, 9780547757797. For anyone who has ever loved a Jane Austen novel, a warm and witty look at the passionate, thriving world of Austen fandom. They walk among us in their bonnets and Empire-waist gowns, clutching their souvenir tote bags and battered paperbacks: the Janeites, Jane Austen's legion of devoted fans. Who are these obsessed admirers, whose passion has transformed Austen from classic novelist to pop-culture phenomenon? Deborah Yaffe, journalist and Janeite, sets out to answer this question, exploring the remarkable endurance of Austen's stories, the unusual zeal that their author inspires, and the striking cross-section of lives she has touched. Along the way, Yaffe meets a Florida lawyer with a byzantine theory about hidden subtexts in the novels, a writer of Austen fan fiction who found her own Mr. Darcy while reimagining *Pride and Prejudice*, and a lit professor whose roller-derby nom de skate is Stone Cold Jane Austen. Yaffe goes where Janeites gather, joining a pilgrimage to historic sites in Britain, chatting online with fellow fans, and attending the annual ball of the Jane Austen Society of North America in period costume. Part chronicle of a vibrant literary community, part memoir of a lifelong love, *Among the Janeites* is a funny, touching meditation on the nature of fandom.

[Grown Up Digital: How the Net Generation is Changing Your World, Don Tapscott](#) , 2008, 0071508635, 9780071508636.

SELECTED AS A 2008 BEST BUSINESS BOOK OF THE YEAR BY THE ECONOMIST The Net Generation Has Arrived. Are you ready for it? Chances are you know a person between the ages of 11 and 30. You've seen them doing five things at once: texting friends, downloading music, uploading videos, watching a movie on a two-inch screen, and doing who-knows-what on Facebook or MySpace. They're the first generation to have literally grown up digital--and they're part of a global cultural phenomenon that's here to stay. The bottom line is this: If you understand the Net Generation, you will understand the future. If you're a Baby Boomer or Gen-Xer: This is your field guide. A fascinating inside look at the Net Generation, Grown Up Digital is inspired by a \$4 million private research study. New York Times bestselling author Don Tapscott has surveyed more than 11,000 young people. Instead of a bunch of spoiled screenagers with short attention spans and zero social skills, he discovered a remarkably bright community which has developed revolutionary new ways of thinking, interacting, working, and socializing. Grown Up Digital reveals: How the brain of the Net Generation processes information Seven ways to attract and engage young talent in the workforce Seven guidelines for educators to tap the Net Gen potential Parenting 2.0: There's no place like the new home Citizen Net: How young people and the Internet are transforming democracy Today's young people are using technology in ways you could never imagine. Instead of passively watching television, the Net Geners are actively participating in the distribution of entertainment and information. For the first time in history, youth are the authorities on something really important. And they're changing every aspect of our society--from the workplace to the marketplace, from the classroom to the living room, from the voting booth to the Oval Office. The Digital Age is here. The Net Generation has arrived. Meet the future.

[Understanding Colon Cancer, A. Richard Adrouny](#) , 2002, 1604730374, 9781604730371. For decades, while other cancers grabbed the headlines, colorectal cancer was quietly ignored. The lifetime risk of colorectal cancer in the general population is 2.5 to 5 percent. This means that twenty-five to fifty out of one thousand people will be stricken by this disease. Although data show that in America colorectal cancer incidence and mortality have been waning in recent decades, cancers of the colon and rectum still cause approximately 56,000 deaths annually. About 140,000 new cases are diagnosed each year. It is plainly evident that colon cancer constitutes a large portion of all new cancer cases, a little more than 10 percent. It is the fourth most frequent type. For the lay reader wishing to know more about this disease that has become more prominent in public attention, *Understanding Colon Cancer* gives concise information and explanation. It covers fundamental knowledge about occurrence, carcinogenesis, genetics, diagnosis, staging, prognosis, and treatment, as well as forecasting the kinds of diagnostic tests and treatments that may be developed. It reviews demographics, high-risk conditions, the sequence from bowel polyps to cancer, polyposis syndromes predisposing people to colorectal cancer, and the genetics of the disease. Discussed in full detail are the warning signs of the disease and the tests used for screening and diagnosis (fecal occult blood test, barium enema, sigmoidoscopy, and colonoscopy). The stages of the disease are examined, along with theories of how colon cancer spreads. Two chapters focus on treatments, including surgery and chemotherapy. An entire chapter devoted to early detection and prevention discusses standard approaches, as well as such new or emerging strategies as vitamins, drugs, and genetic screening. What lies in the future for diagnostic testing and therapy? *Understanding Colon Cancer* concludes with discussion that forecasts the potential of genetic screening and treatment, of virtual colonoscopy, and of new chemotherapeutic drugs, vaccines, and monoclonal antibodies. Richard Adrouny has a private practice in Los Gatos, California, and serves as the director of medical oncology at the Community Hospital of Los Gatos-Saratoga. He is a clinical assistant professor of medicine at Stanford University School of Medicine and has been published in such periodicals as the *New England Journal of Medicine*, *American Journal of Medicine*, and *Annals of Internal Medicine* .

[Spirituality Without Religion: A How-To Book, C. Riven Wood](#) , 2007, 0981518001, 9780981518008. Walks the reader through the process of getting guidance from her/his own ethics and connection to all living things. For beginning-to-advanced students of truth.

[Britain in the Twentieth Century, Charles More](#) , 2007, 0582784832, 9780582784833. In a century of rapid social change, the British people have experienced two world wars, the growth of the welfare state and the loss of Empire. Charles More looks at these and other issues in a comprehensive study of Britains political, economic and social

history throughout the twentieth century. This accessible new book also engages with topical questions such as the impact of the Labour party and the role of patriotism in British identity.

[Jesus Lied: He was Only Human : Debunking the New Testament, C. J. Werleman](#) , 2010, 0956427618, 9780956427618.

'Jesus Lied. He Was Only Human' is arguably the most comprehensive and exhaustive debunking of the Christian myth on bookshelves today. Like a forensic accountant, Werleman meticulously pulls apart the New Testament thread-by-thread until the greatest lie ever told is exposed for all to see. Werleman not only reveals the suffering Jesus caused his early followers, he cleverly demonstrates that the New Testament is brim full with contradictory views, conflicting accounts, historical flaws, and irreconcilable discrepancies. Comprehensive. Funny. Entertaining. Engaging. A must read for anyone who wants to silence their evangelical friend. "C.J. Werleman is a warrior for truth and a liberator against superstition. Jesus Lied is his slap across the face of biblical literalism." -Sean Hoade 'Darwin's Dreams' "This book is an all out undermining assault on an old cult that needs to exit stage left. Werleman lights a fire underneath a historically flawed religion. A must read." - Alex Wilhelm 'In Praise of Christopher Hitchens' "With this book, CJ has rightfully earned the title of atheism's preminent 'blue collar intellectual'. No one has successfully brought down a religious faith as comprehensively and meticulously as he." - Tim Hawken 'Hellbound'

[Abaculus 2007, Danielle Kaheaku](#) , 2007, 098003390X, 9780980033908. The Greeks coined the word "abaculus" for the small pieces of glass used to create complex mosaic murals. Peopled with mythical beasts and outsized heroes, a fantastic pantheon of gods, and the humans who dared challenge them, these ancient murals embody the essence of imagination, built piece by tiny piece. In its first anthology, Leucrota Press brings you short stories from an international cast of new and experienced authors who exemplify the best of contemporary science fiction, fantasy, horror, and

graphic writing. Self-contained gems of storytelling craft, each story also fits in to a larger picture of how the universe could, or might just, be. The first of many installments to come, *Abaculus 2007* will challenge the reader with its vision as it entertains through a vivid sense of possibility.

[Conjunctions: 40 X 40, Bradford Morrow](#) , 2003, 0941964566, 9780941964562. The finding of two dead babies within the space of a fortnight in County Kerry in 1984 is an extraordinary story that rocked Catholic Ireland. The Kerry Babies Case is still unresolved, with many unanswered questions. Did Joanne Hayes have twins? Did the Gardai - the Irish police - intimidate her family into confessing their involvement in the murder of one of the babies? The Tribunal which examined the case largely exonerated the Gardai and blamed the family, yet as a result of the case the Murder Squad was disbanded and a Garda Complaints Board established.

[Seasonal Patterns of Stress, Immune Function, and Disease, Randy J. Nelson, Gregory E. Demas, Sabra L. Klein, Lance J. Kriegsfeld](#) , 2002, 113943117X, 9781139431170. This book presents evidence that infection is cyclical with the seasons, and that this phenomenon is mirrored in cycles of immune function. The book identifies the mechanisms by which immune systems are bolstered to counteract seasonally-recurrent stressors, such as extreme temperature reductions and food shortages. Stress, infectious diseases, autoimmune diseases, and human cancers are examined, and the role of hormones such as melatonin and glucocorticoids is considered. The book begins with an overview of seasonality,

tragedies continue. Maurice Broaddus weaves a tale of intimate nightmare and dark discovery in a compelling exploration of humanity's relation not only to his own mind and soul, but also to the ghosts of the past—personal and ancient. When your past comes to claim you, who will it be? Nobody.

[Shut Up and Eat!: Mangia with Family Recipes and Stories from Your Favorite Italian-American Stars, Tony Lip, Steven Prigge](#) , 2006, 0425211770, 9780425211779. Now in paperback: Recipes you can't refuse from Chazz Palminteri ? James Gandolfini ? Robert Loggia ? Drea de Matteo ? and more! For the first time, Italian-American actors share their secret recipes and stories of growing up in families where a meal is an experience, with Tony Lip as the host making every Italian dish a big hit. These mouthwatering recipes are passed down through generations, from the shores of Italy to the old neighborhoods in New York City. Enjoy a whole range of dishes from Danny Aiello's mother's Lentil Soup to Joe Mantegna's Mussels Mantegna. Also included are recipes from The Copacabana, Patsy's, and Lombardi's, as well as the sets of "The Godfather" and "The Sopranos."

[Christian Moral Life, Ann Nunes](#) , 2012, 1599821400, 9781599821405. Christian morality is synonymous with life in Christ. We are to love God with our whole being and to love others as Jesus loves us, because God created all of us in his image and wants us to love one another as he loves us. The Christian moral life is defined by being in loving relationships and by living our lives in response to the teachings of Jesus. The collection of readings in Christian Moral Life A Primary Source Reader aims to help you learn the moral concepts and teachings that guide us to live our lives as disciples of Christ. Within this reader you will find writings from the following sources: Saint Threse of Lisieux Saint Basil the Great Blessed Teresa of Calcutta Saint Thomas More Saint Teresa of vila Richard M. Gula, SS Blessed John Paul II Saint John Vianney Saint Francis of Assisi Julian of Norwich Saint Patrick Cardinal Joseph Bernardin This text is the perfect complement to courses on morality, especially those that correspond to the U.S. bishops' Curriculum Framework course titled "Life in Jesus Christ."

[Fire in the fireplace: contemporary charismatic renewal, Charles E. Hummel](#) , 1978, 0877847428, 9780877847427. The  
activity of the Holy Spirit (the fire) in the church (the fireplace) has been a source of controversy since Pentecost. In  
recent years, many changes have swirled around the charismatic renewal. Some branches have grown while others have  
declined. Some facets of the renewal have been accepted (and even adopted) by the broader church while others have  
grown more controversial. In addition, there has been the growing influence of the Vineyard Christian Fellowship, the  
Third Wave, the Kansas City prophets, and the prosperity teaching of the "health and wealth" movement. What do these  
groups stand for, and what questions do they raise? In this book, completely rewritten and updated for the nineties,  
Charles Hummel offers a unique historical perspective along with cogent analysis of the latest trends. Grounded in  
Scripture, he shows us where charismatic renewal has been, where it is now and where it is going. For anyone wanting  
an honest, full-orbed presentation of charismatic renewal today.

[The Net Result - Book 1, Lucille Orr](#) , 2012, 0987159836, 9780987159830. This first book in a series of four books; includes the success stories of business and professional women who won the title of "South Australian Executive Woman of the Year." These women are the founders of the prestigious, "Telstra Business Women's Awards." This series of books have been used in "Career Study Classes" in High Schools, Universities and Business Colleges since the nineties. Women wanting to start their own small businesses and those keen to climb corporate ladders or sit on company boards have all gained the valuable knowledge they needed from these pioneering women's stories. Be sure to collect the four volumes in this set of invaluable books that were originally published for the members of the Australian Executive Women's Network.

[The Jewish Kitchen: Recipes and Stories from Around the World, Clarissa Hyman](#) , 2005, 1566565502, 9781566565509.

Jewish cooking is the daily expression of not only religious beliefs, but a cultural and family history. The recipes passed from one generation to another tell their own story of a family's past. An historically peripatetic people. Jewish communities can be found in every corner of the globe. Obligated by religion to adhere to the dietary laws of kashrut. Jewish cooks have adapted local cuisines to reflect their culture. When recreating an old recipe in a new land, they have worked with the available ingredients to produce dishes that unite religion with necessity, and past with present. Delicious hybrids, these dishes tell their own tale of Jewish families, their history and their culture. The stories of nine Jewish families appear throughout the book. They tell of travel across continents; family celebrations; reunions and separations; war and peace. Each story is accompanied by a recipe and, among others, reveal the dishes cooked by Cuban Jews in Miami. Australians in Manchester, and Moroccans in Israel. A delicious, international fusion cuisine, food from the worldwide Jewish Kitchen is as diverse as its cultural heritage.

[Protecting consumers - the system for enforcing consumer law: Department for Business, Innovation and Skills, the Office of Fair Trading and local authority Trading Standards services, Great Britain: National Audit Office](#) , 2011, 0102969736, 9780102969733. Unfair treatment of consumers, ranging from pressure selling to systematic scams by criminals, is costing billions of pounds each year - but the system for enforcing consumer law is not delivering value for money. The overall scale of this so-called 'consumer detriment', particularly that caused by doorstep crime, is not being

properly evaluated, leading to the inefficient allocation of resources. Although much detriment occurs at the regional and national level, incentives are weighted against a coordinated approach which goes beyond local areas. While there are no reliable figures, NAO estimates the cost of detriment which cannot be tackled at local level is more than 4.8 billion each year. Central government provides annual funding of 34 million to tackle crime which crosses the borders between local authorities, but this is relatively low compared to the scale of the problem. The Department for Business, Innovation and Skills estimates that the annual funding for Trading Standards Services will reduce from 213 million to about 140 million-170 million by 2014, affecting action to address this problem. The framework for prioritizing and allocating cases, introduced by the Office of Fair Trading, is not being applied as intended. But formal structures for supporting the model are not in place in seven of the eleven regions, and there is still a lack of clarity over who should be taking cases forward. As a result, the OFT has been able to take enforcement action on only two of the 15 cases referred to it in the last two years.

[The Nature of Early Memory: An Adaptive Theory of the Genesis and Development of Memory, Mark L. Howe](#) , 2011, 0195381416, 9780195381412. In this useful text, Mark L. Howe presents the most complete book-length exegesis of the research and theory concerning the emergence and development of declarative, long-term memory from birth through early adolescence. The book also contains the first presentation of Howe's theory that memory is an adaptive mechanism that is used to guide the development and survival of the organism in an initially novel, yet changing environment. The book is divided into four parts: In the first part, Howe discusses why memory development is important; in the second, he discusses infantile amnesia and autobiographical memory; in the third part, Howe explores a series of key factors that have an impact on early memory development--distinctiveness, emotion, stress, and early memory; and finally, he gives

a detailed presentation of the theory of memory as an adaptation, and applies results to real-world problems. In addition to reviewing the basic-science research on both humans and nonhuman animals, Howe devotes a significant portion of the book to clinical and forensic topics, including the roles of stress and trauma in memory development, the development of false recollection, memory for traumatic experiences, the effects of depression, PTSD, and dissociation on early memory development, and nonhuman animal research on the nature of infantile amnesia. In bringing together this diverse-yet-influential body of literature, Howe presents a valuable resource for anyone interested in research on memory.

[The Apple Experience: Secrets to Building Insanely Great Customer Loyalty, Carmine Gallo](#) , 2012, 0071793208, 9780071793209. Praise for THE APPLE EXPERIENCE "There are three pillars of enchantment: likability, trustworthiness, and quality. The Apple experience is the best modern-day example of all three pillars. Carmine's book will help you understand and implement the same kind of world-class experience." --Guy Kawasaki, author of Enchantment and former chief evangelist of Apple "Carmine Gallo explains beautifully and simply just what makes the Apple retail experience so successful. No matter what kind of business you are in, there are insanely valuable lessons in this book!" --Garr Reynolds, author of Presentation Zen and The Naked Presenter "At its core, this book is not about Apple. It's about delivering the best experience possible." --Tony Hsieh, New York Times bestselling author of Delivering Happiness and CEO of Zappos.com, Inc. "An exciting resource for any business owner in any country who wants to reimagine the customer experience." --Loic Le Meur, CEO, LeWeb "Why can't other retail experiences be as great as an Apple store's? Not only does Carmine Gallo answer that question brilliantly, but he shows precisely how to make sure your customers never ask it

about your business." --Matthew E. May, author of *In Pursuit of Elegance and The Laws of Subtraction* "Carmine Gallo gets to the magic of Steve Jobs: Touching people's lives. This simple, yet delightful vision should be at the heart of every retail interaction in the world today." --Peter Steinlauf, Chairman, Edmunds.com "This magnificent collection of insights illuminates the way for anyone who wants to create a truly great experience, whether in retail, service, or software. "

--Dan Roam, author of *The Back of the Napkin and Blah Blah Blah Reinvent your business to deliver Apple-like customer satisfaction and profits* In *The Apple Experience*, internationally bestselling author Carmine Gallo details the principles and practices behind this total commitment to the customer and explains how your brand can achieve outstanding results by delivering this same high standard of service. Carmine Gallo interviewed professionals at all levels who have studied Apple, and he spent hundreds of hours observing the selling floor in Apples retail space and learning about Apples vision and philosophy. Using insights and data from these sources, he breaks down Apples customercentric model to provide an action plan with three distinct areas of focus: Inspire Your Internal Customer with training, support, and communications that create a feedback loop for improving performance at every level Serve Your External Customer with irresistible brand stories and dedicated salespeople who embody the APPLE five steps of service-- Approach, Probe, Present, Listen, End with a fond farewell Set the Stage by ensuring that no element is overlooked in creating an immersive retail environment where customers can see, touch, and learn about your products With *The Apple Experience*, you can improve the return on your investment in retail by adding real value to every customer interaction. Better still, any business that deals with people--employees or customers--can adopt the techniques to achieve Apple-like market dominance by enriching lives, building loyalty, and reimagining the customer experience. -

[Close Up and Personal: The Private Diaries of Catherine Deneuve, Catherine Deneuve](#) , 2007, 1933648368, 9781933648361. The startling portrayal of an icy, sexually adventurous housewife in Louis Buuel's *Belle du Jour* established Catherine Deneuve as one of the most remarkable and compelling actresses of her generation. Forty years later, Deneuve is still widely regarded as one of the grande dames of French cinema. Despite her international appeal, however, Deneuve has always chosen to avoid the ferocious glare of Hollywood and seldom allows the public into her private life. In these memoirs, Deneuve takes the reader behind the scenes of her life and career in this fascinating collection of seven previously unpublished diaries that she kept while filming abroad. In her own words, Deneuve charts the shooting of films such as *The April Fools*; *Tristana*, directed by Luis Buuel; *Indochine*; and *Dancer in the Dark*.

Including a never before published interview with famed director Pascal Bonitzer, this memoir is an intimate look into Deneuve's life both on and off screen, and is every bit as riveting as her movie persona.

[Java I/O, Elliotte Rusty Harold](#) , 2006, 1449390889, 9781449390884. All of Java's Input/Output (I/O) facilities are based on streams, which provide simple ways to read and write data of different types. Java provides many different kinds of streams, each with its own application. The universe of streams is divided into four large categories: input streams and output streams, for reading and writing binary data; and readers and writers, for reading and writing textual (character) data. You're almost certainly familiar with the basic kinds of streams--but did you know that there's a CipherInputStream for reading encrypted data? And a ZipOutputStream for automatically compressing data? Do you know how to use buffered streams effectively to make your I/O operations more efficient? Java I/O, 2nd Edition has been updated for Java 5.0 APIs and tells you all you ever need to know about streams--and probably more. A discussion of I/O wouldn't be complete without treatment of character sets and formatting. Java supports the Unicode standard, which provides definitions for the character sets of most written languages. Consequently, Java is the first programming language that lets you do I/O in virtually any language. Java also provides a sophisticated model for formatting textual and numeric data. Java I/O, 2nd Edition shows you how to control number formatting, use characters aside from the standard (but outdated) ASCII character set, and get a head start on writing truly multilingual software. Java I/O, 2nd Edition includes: Coverage of all I/O classes and related classes In-depth coverage of Java's number formatting facilities and its support for international character sets

[The Spirituality Revolution: The Emergence of Contemporary Spirituality, David John Tacey](#) , 2004, 1583918744, 9781583918746. The spiritual life is no longer a specialist concern, restricted to those who belong to religious traditions. The spirituality revolution is a spontaneous movement in society, a significant new interest in the reality of spirituality and its healing effects on life, health, community and well being. The Spirituality Revolution: The Emergence of Contemporary Spirituality recognises that we have outgrown the ideals and values of previous times and reveals an image of the spiritual situation of our era. Recent discoveries in physics, biology, psychology and ecology have begun to restore status to previously discredited spiritual visions of reality and this book illustrates the ways in which we might uncover a universal spiritual wisdom that could transform our splintered world. Topics explored include the current state of the Western experience of spirit, our need for spiritual guidance when we cannot turn to organised religion in their traditional forms, and the creative potentials of spirit in education, personal experience, contemporary philosophy and popular feeling for the environment. The Spirituality Revolution addresses a major social issue which requires immediate attention if we are to creatively respond to spiralling outbreaks of depression, suicide, addiction and psychological suffering. It is a much-needed contribution to the field, of great interest to analytical psychologists, counsellors, educators and social

workers, and to all those interested in spirituality and the future of religion. David Tacey is Associate Professor in Psychoanalytic Studies and Reader in Arts and Critical Enquiry at La Trobe University, Melbourne, Australia. He is the author of six books on spirituality, psychology and culture, including Jung and the New Age and Remaking Men.

[Plutarch Against Colotes: A Lesson in History of Philosophy, Eleni Kechagia](#) , 2011, 0199597235, 9780199597239.

Plutarch of Chaeroneia's philosophical work remained largely in the shadow of his celebrated Lives, partly because it was often dubbed 'popular philosophy', and partly because it was thought to be lacking in originality. The tides are, fortunately, changing and current scholarship is showing a growing appreciation of Plutarch's philosophical work. This book contributes to the 'rehabilitation' of Plutarch as a philosopher by focusing on an important aspect of his philosophical self: his work as a teacher, interpreter, and, eventually, historian of philosophy. Eleni Kechagia offers a critical analysis of Plutarch's anti-Epicurean treatise Against Colotes - a unique text that is both rich in philosophical material and has been widely used as a source for ancient Greek philosophy, but which has yet to be studied in its own right. Combining a historical approach with structural analysis and close reading of selected sections of the text, this book demonstrates that Plutarch engaged with the philosophy of his past in a creative way. By refuting Colotes' Epicurean arguments against the main Greek philosophers up to the Hellenistic era, Plutarch gives an insightful critical assessment of the philosophy of his past and teaches his readers how to go about living and reading philosophy. The volume concludes that Plutarch emerges as a respected critic whose 'reviews' of the past philosophical theories are an essential companion when trying to piece together the puzzle of ancient Greek philosophy.

[Jacob's Run, Bob Zeller, John Beshears](#) , 2007, 097852652X, 9780978526528. With war clouds on the horizon, life in the port city of Wilmington, North Carolina is nothing if not exciting. Ace reporter Coleman Blue revels in the hustle and bustle of the booming river town even as, like most whites, he chooses to ignore the ugliness of the slave trade on which so much of the Lower Cape Fear's wealth is predicated. But when a Yankee insurance detective presses Blue into an investigation of suspicious deaths of slaves owned by a long-time rival, Coleman Blue gets more excitement than he bargained for. On the eve of the Civil War, Coleman Blue is suddenly asking himself hard questions. The answers he finds will leave him fighting for his life.

[European Social Security Law, Frans Pennings](#) , 2010, 9050957293, 9789050957298. The social security of the EU has become of vital significance for persons living or working in an EU Member State. The creation of the European Economic Area and near accession of the candidate Members (East European countries) has further increased the relevance of this law. This completely revised and updated fifth edition describes EU social security law, beginning with the rules relevant to migrant workers. Coverage includes Regulations 1408/71 and 574/72, and the case law of the Court of Justice of the EC. The book analyzes the contributions of these judgments to the developments of coordination law and to the realization of the objective of free movement of workers. In this respect, the relation of the Regulations and the EC Treaty, which is shown in, for instance the Kohll and Decker judgments, is analyzed. Special attention is paid to the Proposal for Simplification and Modernisation of Regulation 1408/71. A second main part of EU social security law is the law on equal treatment of men and women. The Court of Justice issued several main decisions, of which the Barber judgment is a well-known example. Since then, the case law has been further developed, and this book helps the reader to understand the present state of affairs. A separate chapter analyzes the combat against social exclusion of the EU and the instruments developed for this purpose.

[Jane Austen, Carol Shields](#) , 2005, 0143035169, 9780143035169. With the same sensitivity and artfulness that are the trademarks of her award-winning novels, Carol Shields explores the life of a writer whose own novels have engaged and delighted readers for the past two hundred years. In Jane Austen, Shields follows this superb and beloved novelist from her early family life in Steventown to her later years in Bath, her broken engagement, and her intense relationship with her sister Cassandra. She reveals both the very private woman and the acclaimed author behind the enduring classics Sense and Sensibility, Pride and Prejudice, and Emma. With its fascinating insights into the writing process from an awardwinning novelist, Carol Shields's magnificent biography of Jane Austen is also a compelling meditation on how great fiction is created.

[Real Food - Fast, Mary Berry](#) , 2007, 0755313097, 9780755313099. Mary Berry's recipes use shortcuts to help us spend less time in the kitchen. Why grind spices or make puff pastry when we can buy these things in the supermarket? Included are light snacks to eat with drinks, first courses, main courses, Italian dishes, vegetarian dishes, desserts, and

drinks. The recipes include Aga cooking times.

[African Development Report 2000, African Development Bank](#) , 2000, 0198297149, 9780198297147. The African Development Report is a comprehensive, yet concise, analysis of the state of the African economy, examining development policy issues, which affect the economic prospects of the continent. The Report's focus this year is on the role of regional integration in promoting economic growth and in reducing poverty. The African Development Report 2000 will be made up of two parts contains the following sections: Part 1 provides: \* The most authoritative annual survey of economic and social progress in Africa, and examines the factors behind the recent economic recovery. \* Also, a detailed assessment of regional economic and social developments in Central, East, North, Southern and West Africa. \* Being a millennium Report, Part I will examine the factors behind long-term economic recovery in Africa: - investigating the nature and content of Africa's recent economic performance; the forces contributing to change; the factors shaping the dynamics of African development in the post independence era, a period, which witnessed the largest increase in human material prosperity; and the extent to which Africa is prepared to meet the challenges of a market-driven global order of the 21st century. Part 2 of the Report addresses a range of key issues relating to regional integration in Africa including: \* The rationale for and significance of regional integration in Africa's economic development. \* A rigorous assessment of regional integration experiences in Africa, including achievements and the challenges that lie ahead. \* The imperatives of open regionalism in Africa given the developments in the international economic arena characterized by increased globalization and liberalization. \* Africa's efforts to heighten its prospects for closer integration in the post Uruguay Round and to safeguard its interests in future negotiations of the World Trade Organization. \* The Role of the African Development Bank Group in promoting regional integration. The African Development Bank is a multilateral development finance institution whose membership comprises all African countries and 25 from Asia, Europe, North and South America. As Africa's premier development finance institution, the Bank Group is uniquely placed to provide comprehensive analysis of economic developments and policy concerns in the region. As such, the Report is set to become a standard reference for economists and policy makers interested in African development for many years to come.
