[Hooray for Yiddish!: A Book about English, Leo Calvin Rosten](#) , 1998, 1578660262, 9781578660261. The English dictionary contains many Yiddish words that have won acceptance in our everyday language. We shlep our bags to the car, admire the chutzpa of an ambitious businesswoman, and laugh at the shtick of our favorite comedian. In this book, author Leo Rosten explores the aspects of Yiddish that make it a uniquely expressive, funny, and catchy language. In addition to vocabulary, other elements of Yiddish have affected English, such as word order: smart, he isn't; beautiful, she's not; lucky, they are. A delight for everyone who loves words, this guide is a celebration of a language that continues to bring richness and vitality to everyday speech.

[Honor: Uriah P. Levy Center and Jewish Chapel, Sandow Media Corporation](#) , 2007, 0976471396, 9780976471394. Honor is both a photographic documentation and the story of one of the nation's most architecturally important religious

institutions. The Uriah P. Levy Center and Jewish Chapel, designed by architect Joseph A. Boggs, is located at the United States Naval Academy. This classic building of modern Beaux-Arts beauty and order is an ethereal construct of space and natural light. Named after Uriah P. Levy, a naval officer who was a powerful example for Jewish people during the War of 1812 and a passionate fighter against anti-Semitism, the Center and Chapel are a crowning achievement that enhance religious and cultural tolerance. With beautiful photos and insightful text, Honor is a treat for architecture buffs, as well as those interested in important houses of worship.

[Democracy and Tradition, Jeffrey Stout](#) , 2009, 1400825865, 9781400825868. Do religious arguments have a public role in the post-9/11 world? Can we hold democracy together despite fractures over moral issues? Are there moral limits on the struggle against terror? Asking how the citizens of modern democracy can reason with one another, this book carves out a controversial position between those who view religious voices as an anathema to democracy and those who believe democratic society is a moral wasteland because such voices are not heard. Drawing inspiration from Whitman, Dewey, and Ellison, Jeffrey Stout sketches the proper role of religious discourse in a democracy. He discusses the fate of virtue, the legacy of racism, the moral issues implicated in the war on terrorism, and the objectivity of ethical norms. Against those who see no place for religious reasoning in the democratic arena, Stout champions a space for religious voices. But against increasingly vocal antiliberal thinkers, he argues that modern democracy can provide a moral vision and has made possible such moral achievements as civil rights precisely because it allows a multitude of claims to be heard. Stout's distinctive pragmatism reconfigures the disputed area where religious thought, political theory, and philosophy meet. Charting a path beyond the current impasse between secular liberalism and the new traditionalism, Democracy and Tradition asks whether we have the moral strength to continue as a democratic people as it invigorates us to retrieve our democratic virtues from very real threats to their practice.

[Accessibility PocketBook: 2009 IBC: ICC/ANSI A117.1-2003, International Code Council](#) , 2009, 1580018645, 9781580018647. All the vital accessibility information you need is now contained in a single handy pocket resource! Accessibility Pocketbook was created as a tool that would offer assistance in the design, plan review, construction, and inspection stages of accessible facilities and accessibility features. It contains selected provisions from the 2009 International Building Code (IBC) and the entire text of ICC/ANSI A117.1-2003: Accessible and Usable Buildings and Facilities. By combining the accessibility provisions of the IBC with the technical requirements of the A117.1 standard, this valuable reference guide offers the ideal tool offers a full range of quick and easy information - whenever and wherever you need it. Check out our app, DEWALT Mobile Pro(tm). This free app is a construction calculator with integrated reference materials and access to hundreds of additional calculations as add-ons. [People's Republic, , Robert Muchamore](#) , 2012, 0340999209, 9780340999202. Action packed, exciting and entertaining, and full of mystery and suspense, Muchamore's first title in the new Cherub series introduces a character with many obstacles to overcome during what should have been a routine job. Twelve-year-old Ryan is CHERUB's newest recruit. He's got his first mission: infiltrating the billion-dollar Aramov criminal empire. But he's got no idea that this run-of-the-mill mission will lead him into an extraordinary and explosive adventure involving drug smugglers, illegal immigrants, and human trafficking, or that his first mission will turn into one of the biggest in CHERUB's history.

[The Time Regulation Institute, Ahmet Hamdi Tanpinar](#) , 2014, 0143106732, 9780143106739. A literary discovery: an uproarious tragicomedy of modernization, in its first-ever English translation. Perhaps the greatest Turkish novel of the twentieth century, being discovered around the world only now, more than fifty years after its first publication, *The Time Regulation Institute* is an antic, freewheeling send-up of the modern bureaucratic state. At its center is Hayri Irdal, an infectiously charming antihero who becomes entangled with an eccentric cast of characters: a television mystic, a pharmacist who dabbles in alchemy, a dignitary from the lost Ottoman Empire, a clock whisperer at the Time Regulation Institute, a vast organization that employs a hilariously intricate system of fines for the purpose of changing all the clocks in Turkey to Western time. Recounted in sessions with his psychoanalyst, the story of Hayri Irdal's absurdist misadventures plays out as a brilliant allegory of the collision of tradition and modernity, of East and West, infused with a poignant blend of hope for the promise of the future and nostalgia for a simpler time.

A selection of readings covering international economics, managerial economics, and the impact of globalisation.

[The Horned Dinosaurs: A Natural History, Peter Dodson](#) , 1998, 0691059004, 9780691059006. The horned dinosaurs, a group of rhinoceros-like creatures that lived 100 to 65 million years ago, included one of the greatest and most popular dinosaurs studied today: Triceratops. Noted for his flamboyant appearance--marked by a striking array of horns over the nose and eyes, a long bony frill at the back of the head, and an assortment of lumps and bumps for attracting females--this herbivore displayed remarkable strength in its ability to fight off *Tyrannosaurus rex*. It was also among the last dinosaurs to walk the earth. In telling us about Triceratops and its relatives, the Ceratopsia, Peter Dodson here recreates the sense of adventure enjoyed by so many scientists who have studied them since their discovery in the mid-nineteenth century. From the badlands of the Red Deer River in Alberta to the Gobi Desert, Dodson pieces together fossil evidence to describe the ceratopsians themselves--their anatomy, biology, and geography--and he evokes the human dimension of their discovery and interpretation. An authoritative survey filled with many original illustrations, this book is

the first comprehensive presentation of horned dinosaurs for the general reader. Dodson explains first the fascinating ways in which the ceratopsians dealt with their dangerous environment. There follows a lesson on ceratopsian bone structure, which enables the reader quickly to grasp the questions that still puzzle scientists, concerning features such as posture, gait, footprints, and diet. Dodson evenhandedly discusses controversies that continue, for example, over sexual dimorphism and the causes of the dinosaurs' disappearance. Throughout his narrative, we are reminded that dinosaur study is a human enterprise. We meet the scientists who charmed New York high society into financing expeditions to Mongolia, home of Triceratops' predecessors, as well as those who used their poker winnings to sustain paleontology expeditions. Rich in fossil lore and in tales of adventure, the world of the Ceratopsia is presented here for specialists and general readers alike.

[Mint on Carson Street, Rusty Goe](#) , 2004, 0974616915, 9780974616919. This book pays tribute to the popular Nevada branch mint and the many wonderful coins produced there. True-life stories are told of the Comstock miners near the Carson City Mint who procured the gold and silver used to make the coins. Brief biographical profiles are presented of the men and women connected with the Carson City Mint. This book recently received the Double Crown of numismatic literature and was awarded Book of the Year honors by the Numismatic Literary Guild and the Professional Numismatics Guild.

[Not Even Wrong: The Failure of String Theory and the Continuing Challenge to Unify the Laws of Physics, Peter Woit](#) , 2007, 0099488647, 9780099488644. NOT EVEN WRONG tells a fascinating and complex story about human beings and their attempts to come to grips with perhaps the most intellectually demanding puzzle there is: how does the world work at the most fundamental level and what is the role of mathematics in its description? The author's perspective on this story is unusual since he has worked in both leading physics and mathematics departments and holds very skeptical views about 'string theory', the subject that has dominated research in this field for the past twenty years. The book begins with an historical survey of the experimental and theoretical developments that led to the creation of the phenomenally successful so-called 'Standard Model' of particle physics around 1975. Despite its successes, the Standard Model does not answer all questions that one would expect it to address, and for the last thirty years physicists have been trying to come up with a better theory. What the remaining questions are is explained in detail, together with the history of attempts to answer them, including the spectacular new mathematics that has arisen from these efforts. Lacking guidance from new experimental results, physicists have followed the principle that one should be looking for

more 'beautiful' theories, and here, Peter Woit considers what the role of beauty may be in mathematics and physics. In recent years string theorists have found that the theory seems to lead to an unimaginably large number of possibilities and may be inherently unable to make predictions. The author explains what physicist's hopes have been, why they haven't worked out, and what may be more promising directions for investigation. NOT EVEN WRONG puts the reader in a position to follow this increasingly controversial story as it continues to develop in the years to come.

The woman who made prevention hot is now making it delicious! Crazy Sexy Kitchen , the follow-up to Kris Carr's New York Times bestseller Crazy Sexy Diet , is a Veggie Manifesto for plant-empowered gourmards and novices alike, and it's filled with inspiration, education, cooking tips, and over 150 nourishing, nosh-worthy recipes. Infused with her signature humor, style, and personal stories, Crazy Sexy Kitchen redefines the kitchen as headquarters for America's wellness revolution. The goodness born in the Crazy Sexy Kitchen will reach deep into the rest of your life?enriching your health, you.

[Collected Earlier Poems, Anthony Hecht](#) , 2012, 030780514X, 9780307805140. THE VENETIAN VESPERS (1979) In its clear-eyed mercy toward human weakness, Anthony Hecht's poetry goes from strength to strength. The Venetian Vespers is at once an intense corroboration and an ample extension of his subtle, supple talents. Nothing humane is alien to him There is a handful of short poems that are fostered alike by beauty and fear. But it is the four long poems that confirm

Hecht as a poet of the widest apprehensions and comprehension, and this without the gigantism that so haunts American poetic ambition. Christopher Ricks, The New York Times Book Review MILLIONS OF STRANGE SHADOWS (1977) The high artistry of Anthony Hecht has been to nurture his own gift, and to work at it with the deliberateness and steadiness that it deserved from him... Emotional intensity and formal power were combined in Hecht from his beginnings The thirty poems in Millions of Strange Shadows are all fully written, but several truly are the best he has published and are very likely to endure. The very best is Green: An Epistle, which is a lesson in profound, controlled subjectivity and self-revelation, an exact antithesis to the opaque squalors of confessional poets. Almost equally remarkable is Coming Home, in which the poet John Clare receives a deeper interpretation than any critic has afforded him Harold Bloom, The New Republic THE HARD HOURS (1968) Anthony Hecht's first volume of poems, A Summoning of Stones, established him as one of the most accomplished of his extremely accomplished generation. His work was remarkable enough for its classical poise and elegance, but it also had a weight which set it apart. Since then his poetry has come clear in a direction nobody could have predicted He did the most difficult thing of all: this most fastidious and elegant of poets shed every artifice and began to write with absolute raw simplicity and directness. Only a poet with an immense burden of something to say ever dreams of taking this course, and only an inspired artist can bring it off. The result here has been some of the most powerful and unforgettable poems at present being written in America, Ted Hughes

[Victorians on Vacation, Clare Williamson](#) , 2007, 0977506495, 9780977506491. "Catalogue to accompany the exhibition 'Victorians on Vacation', at the State Library of Victoria from 30 November 2007 to 2 March 2008, and then touring to regional galleries in Victoria in 2008 and 2009."--Provided by publisher.

[Autumn Sea, Toke Hoppenbrouwers](#) , 1996, 1885349041, 9781885349040. A passionate, intelligent novel about women loving women across cultural and racial differences. The main story line traces through flashbacks the relationship between the narrator - a white woman from the Netherlands living in the United States - and her African-American lover, Lesley. Woven around this the narrator explores her relationship with her parents during World War II in the Netherlands, as well as in later life, and her growing friendship with a former lover, Ene. Autumn Sea is shaped by the metaphor of a journey - the journey to the States, the lovers' journeys to the Near East, India and Europe and the interior journeys to forgiveness, power and wisdom.

She longs to be closer, and one day climbs up Dragon Hill - only to witness a sight that horrifies her. Keira resolves to take action, to make sure that Mother Dragon will not repeat the terrible deed that Keira saw her do. An yet, as she carries out her decisions, problems arise that Keira never anticipated"--Provided by publisher.

[Complete Book of Home Inspection 4/E, Norman Becker](#) , 2010, 0071702784, 9780071702782. INSPECT ANY HOME INSIDE AND OUT--WITH HELP FROM AN EXPERT! Find out the real value of a house or condo using the tested techniques in this step-by-step guide. Written by a professional home inspector and fully updated throughout, The Complete Book of Home Inspection, Fourth Edition, shows you how to determine exactly what's behind, beneath, above,

and around a house before you make an offer. If you're selling your home, you'll learn how to accurately evaluate its condition prior to setting a price. This comprehensive manual covers every aspect of exterior, interior, and electromechanical home inspection--and contains a new chapter on green home technology. Now with details on American Society of Home Inspectors (ASHI) requirements, this book serves as a valuable on-the-job tool as well as a basic layperson's guide. Plenty of useful photos, drawings, worksheets, and checklists are included in this practical resource. The Complete Book of Home Inspection, Fourth Edition, covers: Tools and procedures Roofs Roof-mounted structures and projections Paved areas around the structure Walls, windows, and doors Lot and landscaping Garage Wood-destroying insects and rot Attic Interior rooms Basement and crawl space Electrical system Plumbing Heating systems Domestic water heaters Air-conditioning Swimming pools Energy considerations Environmental concerns Green home technology

[International Business Strategy: Rethinking the Foundations of Global Corporate Success, Alain Verbeke](#) , 2009, 0521862582, 9780521862585. How can you best extend your knowledge of how multinational enterprises (MNEs) function? What does globalization mean for today's managers? How do students turn the message from academic literature into effective business strategies within an MNE? This practical textbook shows how the key concepts from business strategy literature can be applied to multinational enterprise. MBA and Masters students will gain the practical knowledge and skills needed to succeed as effective managers in multinational companies through a critical study of mainstream strategy models and the analysis of forty-five key journal articles. More than twenty 'half-length' case studies from leading firms including Honda, IKEA and Danone show globalization in practice at the firm level. The book also Identifies seven central themes from the literature for successful global strategies and unifies them into a clear framework that can be applied to real businesses worldwide.

[Principles and Practice of Psychiatric Nursing, Gail Wiscarz Stuart](#) , 2012, 0323091148, 9780323091145. Using the latest clinical research and diagnoses, Principles and Practice of Psychiatric Nursing, 10th Edition provides a holistic, biopsychosocial approach to psychiatric nursing care. It follows the popular Stuart stress-adaptation framework and includes comprehensive coverage to simplify important nursing and medical concepts, promote quality and safety in care, and address psychobiology and psychopharmacology topics integral to today's psychiatry. New to this edition is a chapter on psychiatric care of military personnel, plus the latest on health care reform, prescription abuse, and obesity issues.

Written by psychiatric nursing expert Gail W. Stuart, this market-leading text makes it easy to apply classroom theory to clinical practice. An easy-to-follow writing style makes it easy to understand both simple and complex topics. A well-rounded, collaborative approach provides coverage of all major psychiatric disorders from nursing and medical perspectives. The Stuart Stress Adaptation Model of health and wellness provides a consistent nursing-oriented framework, with clear explanations of biological, psychological, sociocultural, environmental, and legal-ethical components. An evidence-based practice approach bridges the gap between clinical research and everyday practice. Learning from a Clinical Case boxes begin disorders chapters with thought-provoking questions and end chapters with answers and feedback. Summarizing the Evidence boxes in the disorders chapters examine the research and findings that support psychiatric nursing care. A family focus and discussions of outpatient care reflect current trends in psychiatric nursing. A Patient Speaks and A Family Speaks boxes present short vignettes with the patient's and family's perspectives of the caregiving process. Competent Caring: A Clinical Exemplar of a Psychiatric Nurse boxes feature the experiences and personal insights of practicing psychiatric nurses. Medical and Nursing Diagnoses boxes and Detailed Diagnoses tables emphasize the interdisciplinary approach to patient care by presenting NANDA diagnoses relevant to specific disorders and describing the essential features of the related DSM-IV-TR diagnoses. Nursing Treatment Plan Summary tables present care plans including patient goals with nursing interventions and rationales. Patient Education Plan and Family Education Plan tables include key information that you need to share with the patient and his or her family to facilitate shorter hospital stays and more outpatient care. Therapeutic Dialogue boxes offer examples of nurse-patient interactions. Clinical examples include selected nursing diagnoses. Focus Points provide a comprehensive, point-by-point review of the important information in each chapter. The Military and Their Families chapter addresses the issues and concerns surrounding the mental health needs of active, veteran, and National Guard personnel. Updated coverage includes the latest on health care reform, prevention and mental health promotion, recovery and self determination, prescription abuse, and obesity issues related to mental health care. Case studies in clinical chapters include scenarios related to chapter content and provide opportunities to develop clinical reasoning skills. Summary of Evidence boxes help you understand the latest clinical research and apply it to practice. Clinical Reasoning boxes provide opportunities to make a decision based on a particular clinical situation. Quality & Safety boxes discuss QSEN competencies or other quality and safety issues. Icons and references identify additional resources on the Evolve companion website and in the Pageburst digital version of the text.

[God at War: The Bible & Spiritual Conflict, Gregory A. Boyd](#) , 1997, 0830818855, 9780830818853. In this bold and compelling work, Gregory Boyd undertakes to reframe the central issues of Christian theodicy. By Boyd's estimate,

theologians still draw too heavily on Augustine's response to the problem of evil, attributing pain and suffering to the mysterious "good" purposes of God. Accordingly, modern Christians are inclined not to expect evil and so are baffled but resigned when it occurs. New Testament writers, on the other hand, were inclined to expect evil and fight against it. Modern Christians attempt to intellectually understand evil, whereas New Testament writers grappled with overcoming evil. Through a close and sophisticated reading of both Old and New Testaments, Boyd argues that Satan has been in an age-long (but not eternal) battle against God, and that this conflict "is a major dimension of the ultimate canvas against which everything within the biblical narrative, from creation to the eschaton, is to be painted and therefore understood." No less edifying than it is provocative, *God at War* will reward the careful attention of scholars, pastors, students and educated laypersons alike.

[Panic Snap: A Novel, Laura Reese](#) , 2010, 1429979674, 9781429979672. Her first novel, Topping from Below, was a cause celebre of erotic fiction. Now, in Panic Snap, Laura Reese once again crosses the boundary between pleasure and pain with a story of extreme sexual obsession and one family's terrible secret. The accused murderess in a sensational trial, Carly Tyler waits outside a California courtroom as a jury decides her fate: Is she the depraved Madame de Sade of the newspaper headlines or the innocent victim of one wealthy family's gothic past? Left for dead by the side of a road fifteen years earlier, she emerged from a coma with no memory and a face completely altered by the plastic surgery need to repair her injuries. Who is she and what happened to her? The trail leads her to a magnificent vineyard and its mysterious owner, James McGuane, a man of wealth and immense sexual charisma who holds the key to her past. But to unlock it, she must risk her life on a terrifying erotic journey that tears apart a dynasty and reveals the truth about an appalling murder.

[Vienna: A Cultural History, Nicholas Parsons](#) , 2009, 0195376064, 9780195376067. From border garrison of the Roman Empire to magnificent Baroque seat of the Hapsburgs, Vienna's fortunes swung between survival and expansion. By the late nineteenth century it had become the western capital of the sprawling Austro-Hungarian Monarchy, but the twentieth century saw it degraded to a 'hydrocephalus' cut off from its former economic hinterland. After the inglorious Nazi interlude, Vienna began the long climb back to the prosperous and cultivated city of 1.7 million inhabitants that it is today. Subjected to constant infusions of new, Vienna has both assimilated and resisted cultural influences from outside, creating its own sui generis culture.

[Morgan Grenfell, 1838-1988: The Biography of a Merchant Bank, Kathleen Burk](#) , 1989, 0198283067, 9780198283065.

This is the arresting 150-year story of one of the oldest and most illustrious merchant banks and of the men who made it. Founded in 1838 by an American, George Peabody, Morgan Grenfell quickly became the most important American banking house in London, and by the turn of the century held an unrivalled position as part of the most powerful investment bank in the world. The book chronicles its role in financing the overseas purchases of Britain and her allies during the First World War, in taking the lead amongst the private London bankers in reconstructing Europe during the 1920s, and in pioneering the new field of corporate finance. In the 1980s Morgan Grenfell took off with a substantial rise in profits and an extraordinarily powerful Corporate Finance Department: an epilogue summarises recent events to the end of 1988 when it decided to exit from securities in London and to concentrate on developing its areas of traditional strength. Based on a wide range of original sources, this book is unmatched as a banking history: no other book combines the unrestricted access to the bank's archives afforded to the author with a narrative of events up to the 1980s.

[The Atomic Bomb and the Origins of the Cold War, Campbell Craig, Sergey S Radchenko](#) , 2008, 030014265X,

9780300142655. After a devastating world war, culminating in the obliteration of Hiroshima and Nagasaki, it was clear that the United States and the Soviet Union had to establish a cooperative order if the planet was to escape an atomic World War III. In this provocative study, Campbell Craig and Sergey Radchenko show how the atomic bomb pushed the United States and the Soviet Union not toward cooperation but toward deep bipolar confrontation. Joseph Stalin, sure that the Americans meant to deploy their new weapon against Russia and defeat socialism, would stop at nothing to build his own bomb. Harry Truman, initially willing to consider cooperation, discovered that its pursuit would mean political suicide, especially when news of Soviet atomic spies reached the public. Both superpowers, moreover, discerned a new reality of the atomic age: now, cooperation must be total. The dangers posed by the bomb meant that intermediate measures of international cooperation would protect no one. Yet no two nations in history were less prepared to pursue total cooperation than were the United States and the Soviet Union. The logic of the bomb pointed them toward immediate Cold War.

[Bureaucrats and Politicians in Western Democracies, Joel D. ABERBACH, Robert D. Putnam, Bert A. Rockman, Joel D Aberbach](#) , 2009, 0674020049, 9780674020047. In uneasy partnership at the helm of the modern state stand elected party politicians and professional bureaucrats. This book is the first comprehensive comparison of these two powerful

elites. In seven countries--the United States, Great Britain, France, Germany, Sweden, Italy, and the Netherlands--researchers questioned 700 bureaucrats and 600 politicians in an effort to understand how their aims, attitudes, and ambitions differ within cultural settings. One of the authors' most significant findings is that the worlds of these two elites overlap much more in the United States than in Europe. But throughout the West bureaucrats and politicians each wear special blinders and each have special virtues. In a well-ordered polity, the authors conclude, politicians articulate society's dreams and bureaucrats bring them gingerly to earth.

[The Religion of One \(the Pighne Theory\), Marcas Major](#) , 2005, 0971794790, 9780971794795. The Religion of One (The Pighne Theory) by Marcas Major describes how God can exist with even the most current ideas from Physics, how the existence of life transcends our three dimensional world and how you can use your God given powers to improve your life!

[Mary Emmerling's Beach Cottages: At Home by the Sea, Mary Emmerling](#) , 2008, 0307338223, 9780307338228. beach house. The words alone have the hypnotic associations Henry James once famously ascribed to summer afternoon the two most beautiful words in the English language. Lifelong beach girl Mary Emmerling captures that implicit promise of freedom in her captivating volume celebrating the American beach cottage. Much of the beach houses allure is in its reflection of a simpler way of life, a pared-down existence where the breeze is the housekeeper, the furnishings don't mind a damp swimsuit, and the most precious treasures are seashells and memories. In Mary Emmerling's Beach Cottages, Mary invites us into seventeen coastal retreats that capture that spirit, and introduces us to the people who take joy from them. Join Mary on a warm, intimate tour of unique seaside escapes, including: A pint-sized artists studio in Key West A dramatic black-and-white retreat in Newport Beach, California A shell-lined jewel box in Laguna Beach, California A nautically inspired Cape Cod getaway A haven in Galveston, Texas, with sea-grass rugs and matchstick blinds The homes of designers such as Barclay Butera and Rachel Ashwell Mary's own charming cottage, complete with beach balls, sailfish, and beaded curtains With gorgeously photographed profiles of easy-going seaside homes and innovative design solutions for everyday living, Mary Emmerling's Beach Cottages is both beautiful and inspirational. Like a beloved seaside haven, this is a book to return to again and again.

[Adobe Creative Suite 4 Design Premium Classroom in a Book, Adobe Creative Team](#) , 2010, 0132089130,

9780132089135. This thorough, self-paced guide to Adobe Creative Suite 4 is ideal for users who want to learn the key features of Adobe's stellar collection of professional design tools. Readers are first given a brief program overview of the Design Suite that highlights common features and includes a section on cross-media workflows. Then readers will get up to speed with each software application using step-by-step, project-based lessons, with the lessons in each chapter building upon the reader's growing knowledge of the programs. Projects include designing a logo and creating basic assets, creating a brochure, prototyping a basic Website, creating interactive Flash and PDF documents, communicating through mobile devices, and submitting work for collaborative reviews. Review questions at the end of each chapter wrap up each lesson to help reinforce the skills learned in each chapter. All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for "Where are the lesson files?" Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.

0140137831, 9780140137835. How is it that in an argument both sides are always right? Dr. Edward de Bono bases this book on the Black Cylinder Experiment, with 1,000 participants, from which he derived that debaters fall into four

categories of "rightness": emotional, logical, unique, and recognition rightness. In addition to exploring these four states, de Bono names five levels of understanding and five major mistakes of thinking.

[Poems, William Blake](#) , 2007, 0099511630, 9780099511632. SELECTED AND INTRODUCED BY PATTI SMITH William Blake is one of Britain's most fascinating writers, who, as well as being a groundbreaking poet, is also well known as a painter, engraver, radical and mystic. Although Blake was dismissed as an eccentric by his contemporaries, his powerful and richly symbolic poetry has been a fertile source of inspiration to the many writers and artists who have followed in his footsteps. In this collection Patti Smith has collected together her personal selection of Blake's poems, including the complete poems from the famous Songs of Innocence and Songs of Experience, to give a singular picture of this unique genius.

[... then he ate my boy entrancers. \(Confessions of Georgia Nicolson, Book 6\), Louise Rennison](#) , 2010, 0007338066, 9780007338061. Hilariously funny Louise Rennison's fabby sixth book of the confessions of crazy but lovable teenager Georgia Nicolson. Guaranteed to have the nation laughing their knickers off! Come on, Jas, you do really want to know my plan, especially as it concerns you, my little hairy pally. Im not hairy. Have it your own way, just dont go near any circuses. Shut up. Go on then, tell me your plan. OK, this is it: when I go to Hamburger-a-gogo land... you come with me! Do you see? We will be like Thelma and Louise! Were not called Thelma and Louise. I know that, Im just saying we will be LIKE THEM! And were not American. And neither of us can drive. Oh dear God. Jas, your spaceship has arrived. Please get in. Laugh your knickers off at Georgias tales from her trip to Hamburger-a-gogo land (the US) and her attempts to entice Masimo, the Italian stallion. Can Georgia become the composed sex-kitten she aspires to be...?

[Shadows on the Rock, Willa Cather](#) , 2011, 0307805263, 9780307805263. "Superbly written, with that sensitivity to sunset and afterglow that has always been Miss Cather's." The New York Times Willa Cather wrote *Shadows on the Rock* immediately after her historical masterpiece, *Death Comes for the Archbishop*. Like its predecessor, this novel of seventeenth-century Quebec is a luminous evocation of North American origins, and of the men and women who struggled to adapt to that new world even as they clung to the artifacts and manners of one they left behind. In 1697, Quebec is an island of French civilization perched on a bare gray rock amid a wilderness of trackless forests. For many of its settlers, Quebec is a place of exile, so remote that an entire winter passes without a word from home. But to twelve-year-old Cécile Auclair, the rock is home, where even the formidable Governor Frontenac entertains children in his palace

and beavers lie beside the lambs in a Christmas crche. As Cather follows this devout and resourceful child over the course of a year, she re-creates the continent as it must have appeared to its first European inhabitants. And she gives us a spellbinding work of historical fiction in which great events occur first as rumors and then as legends and in which even the most intimate domestic scenes are suffused with a sense of wonder. BONUS: The edition includes an excerpt from The Selected Letters of Willa Cather.

Arabic 4 MisrulIslamiah Islamic Egypt. Arabic 5. History of AlAzhar Mosque, Arabic 6. History of the Muslim Dynasties in Spain new and enlarged edition. Arabic Translated from the Second Arabic Edition Preface to the Second Arabic Edition THE original idea of this book is fully represented by its title. It deals with the decisive encounters between East and West, Islam and Christendom. This is one of the most important subjects of Islamic history, indeed perhaps the most important of all. Besides its abundant and eventful episodes, it throws much light on this eternal struggle between the East and West. The encounter of Islam and Christendom in the fields of war or peace, was always decisive and had the most farreaching effects on their destinies. Such is the field which inspired me with the idea of this work and most of its chapters, and from it I chose those decisive encounters which I here present to the reader. They are all united with this common bond, and all are representative of the idea. The book is not, therefore, as it may seem, at the first glance, a collection of miscellaneous studies but, with the exception of a few chapters, is a harmonious unity dealing with one and the same subject I did not, of course, deal with all such decisive events, the subject being so vast and inexhaustive, but have tried to present some of the most important and with most farreaching effects on the course of Islamic history, I have dealt with special care with two of these, namely, the Arab siege of

Constantinople and the battle of Tours Pavement of the Martyrs, the greatest decisive encounters of Islam and Christendom. The failure of the Arabs, under the walls of Constantinople, was a check to the torrent of young Islam from penetrating into Europe from the East, and gave it a new life to the Byzantine Empire, which lasted for some more centuries. The retreat of the Arabs before the Franks, in the plains of Tours, was a check to Islam from penetrating into the nations of the West and the North, the seal of its victory in the West, the field of deliverance for Christendom, and the cradle of resurrection and life for the European nations. Likewise the victory of the Muslims in the plains of Zallaka was not only the victory of Muslim Spain it was the defeat of Christendom by Islam, and the prelude of the Crusades. And the Crusades were nothing but a new phase of this eternal struggle between East and West, and Islam and Christendom. The fall of Andalusia and the Moorish civilization was a blow not only to Islam, but to the greatness of Spain itself. Let us imagine for example that the Muslims conquered Rome instead of their failure under its walls, or that the Crusaders were able to crush Egypt and establish themselves in the East what would have then been the fate of Islam and the Islamic world ? These decisive events and moments in the history of Islam and Christendom, are the data which supplied the subject of these studies. Many of them are very scantily dealt with by the Islamic Chronicles, and are seldom treated in our modern historical research. We are, therefore, obliged to refer for many of their details to Western sources and scholars despite their being often influenced by religious and national motives, which could be eliminated only by a dispassionate and impartial inquiry. Cairo, March 1943

[Stonewall Jim: A Biography of General James A. Walker, C.S.A., Willie Walker Caldwell](#) , 1990, 0961725656, 9780961725655. Biography of General James A. Walker (1832-1901), headstrong, colorful Confederate officer whom Stonewall Jackson on his deathbed named to command the Stonewall Brigade. Written by Walker's daughter, a successful novelist, the manuscript has been available to historians for years but is now published for the first time. Walker was in the thick of almost every Civil War battle in Virginia-Pennsylvania-Maryland from before First Manassas until Appomattox; he was wounded at Spotsylvania. Book describes Walker's relationship with Jackson, dating from student days at Virginia Military Institute where Jackson, as professor, expelled student Walker for insubordination, through Valley Campaign & Jackson's death at Chancellorsville. Also covers Walker's post war political life in Virginia as a Democratic Lieutenant Governor & a Republican Congressman, & a courtroom shooting in which Walker suffered a gunshot wound that led to his death two years later. With an introduction by former Congressman M. Caldwell Butler, great-grandson of the subject. With photographs, bibliographical references & Index.

[Parthian Karma, Jack Adler](#) , 2007, 0979335817, 9780979335815. 'Parthian Karma' by Jack Adler is the third book in the trilogy of the story of Kyra and Larius, a brother and sister born in First Century AD who are taken from their Parthian home when their parents are killed in battle by a roman soldier and are then made wards of Rome. Because they are of noble birth, they are not made slaves of Rome and they live a comfortable life until a series of events that thrust them into turmoil causing them to flee the Roman Empire. The saga of Kyra and Larius continues as the brother and sister seek home and sanctuary, experiencing the full flavor of new and different cultures in their search. Parthian Karma is a colorful and exciting tale filled with suspense and intrigue. The other two books in this Jack Adler trilogy are 'Parthian Retreat, The Road To Seres', and 'Seres Sanctuary'. All three books are available in both soft cover and hardcover editions and are Ingram listed.

[While You're Here, Doc: Farmyard Adventures of a Maine Veterinarian, Bradford B. Brown](#) , 2006, 0884482790, 9780884482796. Veterinarian Brad Brown never knew what to expect when he was called out to a farm to deal with a sick cow or an injured horse. Invariably the cash-strapped farmer would say, While you're here, Doc and rattle off a list of surprise medical chores that weren't part of the original call. But whether he was trying to geld a spooked stallion in a blizzard or found himself in the middle of an all-out fracas involving a monkey's abscessed tooth and a shotgun, Dr. Brown took it in stride, with great affection for his four-legged patients as well as his two-legged clients. James Herriot, Baxter Black, and E. B. White rolled into one and wearing rubber boots, Brad Brown gives us a wonderful set of stories from the life of a country vet. Bradford B. Brown, DVM, grew up on a farm in Vassalboro, Maine, and like two of his brothers, graduated from the Cornell University College of Veterinary Medicine. He joined his brother Phil's veterinary practice in Belfast, Maine, where they worked together for thirteen years, and then continued on his own for ten more, running a small-animal hospital and making hundreds of farm calls. Retired now and living at the family farm in Vassalboro, he's been remembering the people and animals and the many adventures he enjoyed.

[Journalism: The Democratic Craft, Gordon Stuart Adam, Roy Peter Clark](#) , 2006, 0195182065, 9780195182064. How does an instructor integrate journalism theory and practice in ways that are meaningful to students? G. Stuart Adam and Roy Peter Clark answer this question by combining relevant and engaging readings and practical writing instruction in Journalism: the democratic craft. An anthology and textbook in one, this volume enhances students' critical thinking skills

and overall understanding of their discipline. It begins with inspirational reflections on journalism and democracy, followed by commentary on the journalistic craft. Adam and Clark, seasoned instructors at the Poynter Institute for Media Studies and elsewhere, present published works from a diversity of voices--from George Orwell, V. S. Naipaul, Susan Sontag, and John Hersey, to Seymour Hersh, David Halberstam, and Tom Wolfe. The book's content and organization are designed to strengthen students' practical skills. The authors introduce and promote the development of "The editor's lexicon"--terms that guide the creation of journalistic texts and direct their repair and evaluation. A language that master editors speak in their supervisory roles, this lexicon is also used by reporters when they make news judgments, gather evidence, compose stories, and interpret events. Each section features a concluding study guide and exercises that have been class-tested by the authors. These features provide for the effective use of the book by educators and students alike. Journalism: the democratic craft narrows the gap between the classroom and the profession, providing an all-in-one solution to the long lists of required books for advanced news writing and reporting courses.

[Oxford Junior Thesaurus](#), , 2007, 0199115133, 9780199115136. This new 2007 edition of the Oxford Junior Thesaurus contains entries in alphabetical order, and a broad range of imaginative and adventurous synonyms with supporting example sentences. It also features useful panels focussing on overused words and writing tips. The pages are clear, accessible. A unique feature that will inspire budding writers is the example sentences by well-known children's authors, such as Dick King-Smith, Narinda Dhami, Jacqueline Wilson and Roald Dahl. These show the words actually in use to hook users in to using language effectively themselves. Unique to Oxford, they are a real boost for children writing independently. The full alphabet appears on every page with a coloured tab on the letter of the page - plus the thesaurus quartiles are picked out in a vibrant colour. Together, these are invaluable navigation tools for the child practising their alphabet skills. Guidewords also appear on every page. Extra material at the back is accurately levelled to the curriculum for this age. The Top 10 Tips for Writing Stories are excellent. More help for better writing is given with the tips for spelling success, punctuation, simple grammar, and character and setting vocabulary.

The second editions of these bestselling Twenty First Century Science resources have been developed in partnership with OCR, the University of York Science Education Group and the Nuffield Foundation. The resources have been fully updated to match the new 2011 specifications. The second editions build on the success of this hugely popular suite of resources. Using extensive feedback from schools and teachers, the new suite provides ideal support for the 2011 specifications. There is lots of support for exam preparation and assessment throughout the course

and even more differentiation support to help learning for all abilities. The course is fully customizable using the latest digital support and it's packed with new scientific contexts reflecting the latest research and ideas. The GCSE Separate Science Resources and Planning Pack gives you all the support you need to help make the transition to the new specifications as easy as possible. It contains a wealth of support including lesson plans covering the whole course, homework and cover lessons and activity sheets. Step-by-step guidance is provided every step of the way, including help for the new content and styles of assessment, as well as the new Controlled Assessment.

[Imperialism: The Highest Stage of Capitalism, Vladimir Lenin, Vladimir Ilich Lenin](#) , 2010, 0141192569, 9780141192567.

Vladimir Lenin created this hugely significant Marxist text to explain fully the inevitable flaws and destructive power of Capitalism: that it would lead unavoidably to imperialism, monopolies and colonialism. He prophesied that those third world countries used merely as capitalist labour would have no choice but to join the Communist revolution in Russia. GREAT IDEAS. Throughout history, some books have changed the world. They have transformed the way we see ourselves and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

[Teachings of Yoga, Georg Feuerstein](#) , 1997, 157062318X, 9781570623189. An introductory anthology to the wide range of knowledge and wisdom of the Yoga tradition edited, with many new translations, by the leading writer on Yoga today. Millions of Americans have taken up the practice of yoga as a way of reducing stress, increasing flexibility, and improving overall health. But Yoga is more than a physical discipline it is a four-thousand-year-old tradition with a rich philosophical and spiritual heritage. The readings in this book offer an inspirational introduction to this vast treasury of literature. Presented here is a wide range of the most accessible writings, including: Teachings on the path of liberation from the ancient Hindu Upanishads Tevotional love songs in praise of Krishna by the celebrated poet Mirabai (14981550) Insights on the attainment of joy from the great Sanskrit epic Mahabharata Inspiring sayings and teachings from contemporary masters like Gandhi, Swami Vivekananda, and Gopi Krishna Notes for each selection are provided, as well as an annotated reading list to guide readers in their further study of the Yoga tradition.

[The House on the Hill, Eileen Dunlop](#) , 1987, 0192715658, 9780192715654. Cousins visiting proud, unfriendly Great-aunt Jane in her spooky Victorian house come upon a fifty-year-old mystery which is frightening in its investigation and which reveals a tragic story in Jane's past.

[Introduction to Numerical Ordinary and Partial Differential Equations Using MATLAB, Alexander Stanoyevitch](#) , 2011, 1118031504, 9781118031506. Learn how to solve complex differential equations using MATLAB Introduction to Numerical Ordinary and Partial Differential Equations Using MATLAB teaches readers how to numerically solve both ordinary and partial differential equations with ease. This innovative publication brings together a skillful treatment of MATLAB and programming alongside theory and modeling. By presenting these topics in tandem, the author enables and encourages readers to perform their own computer experiments, leading them to a more profound understanding of differential equations. The text consists of three parts: Introduction to MATLAB and numerical preliminaries, which introduces readers to the software and its graphical capabilities and shows how to use it to write programs Ordinary Differential Equations Partial Differential Equations All the tools needed to master using MATLAB to solve differential equations are provided and include: "Exercises for the Reader" that range from routine computations to more advanced conceptual and theoretical questions (solutions appendix included) Illustrative examples, provided throughout the text, that demonstrate MATLAB's powerful ability to solve differential equations Explanations that are rigorous, yet written in a very accessible, user-friendly style Access to an FTP site that includes downloadable files of all the programs developed in the text This textbook can be tailored for courses in numerical differential equations and numerical analysis as well as traditional courses in ordinary and/or partial differential equations. All the material has been classroom-tested over the course of many years, with the result that any self-learner with an understanding of basic single-variable calculus can master this topic. Systematic use is made of MATLAB's superb graphical capabilities to display and analyze results. An extensive

chapter on the finite element method covers enough practical aspects (including mesh generation) to enable the reader to numerically solve general elliptic boundary value problems. With its thorough coverage of analytic concepts, geometric concepts, programs and algorithms, and applications, this is an unsurpassed pedagogical tool.

[The Guitar and Its Music: From the Renaissance to the Classical Era, , James Tyler, Paul Sparks](#) , 2002, 019816713X, 9780198167136. More than twenty years ago James Tyler wrote a modest introduction to the history, repertory, and playing techniques of the four- and five-course guitar. Entitled *The Early Guitar: A History and Handbook* (OUP 1980), this work proved valuable and enlightening not only to performers and scholars of Renaissance and Baroque guitar and lute music but also to classical guitarists. This new book, written in collaboration with Paul Sparks (their previous book for OUP, *The Early Mandolin*, appeared in 1989), presents new ideas and research on the history and development of the guitar and its music from the Renaissance to the dawn of the Classical era. Tyler's systematic study of the two main guitar types found between about 1550 and 1750 focuses principally on what the sources of the music (published and manuscript) and the writings of contemporary theorists reveal about the nature of the instruments and their roles in the music making of the period. The annotated lists of primary sources, previously published in *The Early Guitar* but now revised and expanded, constitute the most comprehensive bibliography of Baroque guitar music to date. His appendices of performance practice information should also prove indispensable to performers and scholars alike. Paul Sparks also breaks new ground, offering an extensive study of a period in the guitar's history--notably c.1759-c.1800--which the standard histories usually dismiss in a few short paragraphs. Far from being a dormant instrument at this time, the guitar is shown to have been central to music-making in France, Italy, the Iberian Peninsula, and South America. Sparks provides a wealth of information about players, composers, instruments, and surviving compositions from this neglected but important period, and he examines how the five-course guitar gradually gave way to the six-string instrument, a process that occurred in very different ways (and at different times) in France, Italy, Spain, Germany, and Britain.

[Solved Problems in Geophysics, Agustn Udas Vallina](#) , 2012, 1107602718, 9781107602717. Solving problems is an indispensable exercise for mastering the theory underlying the various branches of geophysics. This book is a collection of nearly 200 problems in geophysics, which are solved in detail showing each step of their solution, the equations used and the assumptions made. Simple figures are also included to help students understand how to reduce a problem to its key elements. The book introduces the equations most commonly used in solving geophysical problems, and presents a series of exercises for the main, classical areas of geophysics - gravity, geomagnetism, seismology, and heat flow and

geochronology. Problems range from simple exercises for the most elementary courses to more complex problems suitable for graduate-level students. This handy book is the ideal adjunct to core course textbooks on geophysical theory. It is a convenient source of additional homework and exam questions for instructors, and provides students with a practice or revision aid.

[Invalid Format: An Anthology of Triple Canopy, Volume 1, , Triple Canopy, Inc](#) , 2012, 0984734600, 9780984734603.

"Invalid Format" is an archive of the widespread publishing activities of Triple Canopy, the editorial collective and online magazine based in New York, Los Angeles and Berlin. The book, designed in collaboration with Project Projects, translates into print work that originally appeared in other forms. This inaugural volume of "Invalid Format" includes artist

projects and literary work published in the first year of Triple Canopy's existence, documentation of public programs, and a sampling of foundational correspondence. In form and content, the book explores how works produced for the screen might be transposed to the codex in a way that recalls that former context while also fully inhabiting the page.

Contributors include Lene Berg, Keren Cytter, Rivka Galchen, Sheila Heti, Adam Helms, Craig Kalpakjian, Jon Kessler, Wayne Koestenbaum, Rachel Mason, Amir Mogharabi, Ed Park & Rachel Aviv, Emily Richardson & Iain Sinclair, Michael Robinson and Diane Williams.

[Ellerker, Melissa Mailer-Yates](#) , 2012, 0957000448, 9780957000445. What is the secret of the ring in the portrait? In 1582 Ralph Ellerker begins a journey which is to take him around the known world, told through the eyes of five different people all with their own story and place in history. The Ellerker chronicle is interwoven with intrigue, coincidence and fact, constructed through compelling stories related from each personal aspect creating a fascinating odyssey. Intensive research by the author imbues this book with a tangible insight into Elizabethan life, through the eyes of English Gentility, Catholic families, Spanish settlers in the New World, and Explorers of the time.

[The Wilder Shores of Gastronomy: Twenty Years of the Best Food Writing from the Journal Petits Propos Culinaires, Alan Davidson](#) , 2002, 1580084176, 9781580084178. In 1979, a remarkable culinary congress took place at Richard Olney's kitchen table in London, where he was entertaining Alan and Jane Davidson. Stumped by an edict from his publishers at Time-Life, Olney was looking for an outlet to print a few recipes for later inclusion in his Good Cook series. The idea of a journal took shape, and with the help of Elizabeth David, a remarkable venture began. Sixty-seven issues later, Petits Propos Culinaires is still directing its critical eye at the obscurer corners of the food world. In addition to the formidable trio of Davidson, Olney, and David, such esteemed food writers as Jane Grigson, Claudia Roden, and Charles Perry became regular contributors, ensuring a spirited, erudite discourse with each issue. THE WILDER SHORES OF GASTRONOMY is the first-ever anthology of writings from this seminal publication. Hand-selected by Mr. Davidson, the anthology reflects the remarkable breadth of the journal. The arcane (An Experiment in Bronze Age Cooking) rubs shoulders with the practical (Photographers' Cheesecake), exotic (Among the Yoruba Mushroom-Eaters), and highly entertaining (The Great Norwegian Porridge Feud). The result is a highly eclectic collection of extraordinary food writing. Spanning 20 years and including work by many of the world's most influential food writers, WILDER SHORES is a concise, thoroughly enjoyable introduction to food criticism, a Norton anthology of gastronomica. Reviews[A] true example of food writing . . . world-class material. . . the best writing about what should be everybody's favorite subject. Saveur "An eclectic feast for food nerds." [Guards! Guards!, Terry Pratchett](#) , 2000, 0575063025, 9780575063020. Some night-time prowler is turning the (mostly) honest citizens of Ankh-Morpork into something resembling small charcoal biscuits. And that's a real problem for Captain Vimes, who must tramp the mean streets of the naked city looking for a 70-foot-long fire-breathing dragon which, he believes, can help him with his enquiries. But there's more - now we get to see Ankh-Morpork in all its glory; illustrations so vibrant you can practically smell and taste the denizens of this delightful city (although with Corporal Nobbs, you might rather wish you didn't have to). All rendered in painstaking detail by Graham Higgins (who feels he now knows altogether far too much about the murky goings on inside Nobbs' head).

[Fish Catches Man and Other Short Stories, Gene Luptak](#) , 2008, 097590051X, 9780975900512. About 50 fiction and non-fiction stories focusing on the human condition are told in "snippets of life" fashion. Many with surprise endings. Celebrities and common folk are interviewed, including Evangelist Billy Graham, the late comic George Burns and Mitsuo Fuchida, the commander who led the Japanese air attack on Pearl Harbor. Travel stories will take you to an Indian tribe living on the bottom of the Grand Canyon; cruises to Alaska and Mexico; journeys to a secluded paradise in Norway, the Sea of Galilee and a soda-water town in Colorado. Read about a satanist who inflicted critical injury on a person she hated, and the love a Mexican peasant had for his people and the hundreds he helped to find God. Figure out how long you will live. The lead-off story tells how a homeless dog bonded with a crushed man to help him overcome his life's biggest hurdle. And, of course, the fish that outsmarts both man and other fish.

[Erotic Anthology: Fantasy Collection, Charlyne Dickerson, Simone Harlow, Caroline Stone](#) , 2004, 1585711136, 9781585711130. A sizzling series of erotic short stories focusing on the pleasures of the sight, sense and sound of the ecstasies of love.

Consisting of twenty-two interviews with a diverse array of Chinatown residents and framed by three essays situating the

interviews in a social and political context, this book focuses on residents' definitions of their own community and neighborhood in terms of people, events, and institutions.

[A Technical Introduction to Digital Video, Charles A. Poynton](#) , 1996, 047112253X, 9780471122531. Using computers and communication systems, it is easy to acquire, process, transmit, and display photographic-quality still color pictures. But the goals of smooth motion and accurate color reproduction are elusive. The technologies of digital video that are necessary to achieve these two important goals have remained inaccessible even to technical professionals-until now. In this unique book, an internationally recognized expert addresses digital video from the perspective of computing and communications. A Technical Introduction to Digital Video is an approachable and definitive reference to the principles, algorithms, standards, and techniques of digital video. If you are a computer system designer, engineer, programmer, or technician, you can use this book to help you learn how to apply digital video to computer systems. If you are a television professional, this book will help you to apply digital video systems, equipment, and techniques to the emerging area of multimedia.

Flying With Broken Wings: A Poetic Journey is an exhilarating book about growing up, healing the pains of the past, accepting the present and embracing the future. The poems take the reader on a dazzling roller coaster ride through universal experiences and emotions that shape all of our lives. Written during the author's depression-filled high school years, Flying With Broken Wings sheds light on the emotions and experiences that are present in the lives of young adults everywhere. It is a journey that offers understanding to any young person struggling to come to terms with the things they have done and the person they are becoming.

[The Negro's Civil War: How American Blacks Felt and Acted During the War for the Union, James M. McPherson](#) , 2008, 0307488608, 9780307488602. In this classic study, Pulitzer Prize-winning author James M. McPherson deftly narrates the experience of blacks--former slaves and soldiers, preachers, visionaries, doctors, intellectuals, and common people--during the Civil War. Drawing on contemporary journalism, speeches, books, and letters, he presents an eclectic chronicle of their fears and hopes as well as their essential contributions to their own freedom. Through the words of these extraordinary participants, both Northern and Southern, McPherson captures African-American responses to emancipation, the shifting attitudes toward Lincoln and the life of black soldiers in the Union army. Above all, we are

allowed to witness the dreams of a disenfranchised people eager to embrace the rights and the equality offered to them, finally, as citizens. From the Trade Paperback edition.

[Athens and the Cyclades: Economic Strategies 540-314 BC, Brian Rutishauser](#) , 2012, 019964635X, 9780199646357. In Athens and the Cyclades: Economic Strategies 540-314 BC, Brian Rutishauser examines the history and economy of the island region known as the Cyclades during the late sixth to late fourth centuries BC. While certain aspects of geography in the Cyclades remained constant through ancient Greek history, the islanders were able to adapt to changing conditions and to changing hegemony imposed from outside the region, in order to increase economic prosperity. By the time of the Persian Wars many of these islands had their own naval forces, coinage, and monumental architecture. During the fifth century Athens established a naval hegemony over the region, which put an end to these practices. Until the Peloponnesian War, the Athenians maintained stability but redirected wealth generated from commerce and the export of local island products through the payment of tribute and other forms of taxation. The end of the Peloponnesian War saw a period of Spartan rule, followed by a resurgence of Athenian power and a period of shifting hegemonies. During the second half of the fourth century, many of the Cyclades renewed local monumental construction and the issue of local coinage. The Cyclades may have prospered during this period due to their mutual economic interests with Athens, a symbiotic relationship which persisted after the collapse of the Second Athenian League to the end of Athenian control of the temple of Delian Apollo.

[The Complete Euripides: Volume I: Trojan Women and Other Plays, Peter Burian, Alan Shapiro](#) , 2010, 0199831165, 9780199831166. Based on the conviction that only translators who write poetry themselves can best re-create the celebrated and timeless tragedies of Aeschylus, Sophocles, and Euripides, the Greek Tragedy in New Translations series offers new translations that go beyond the literal meaning of the Greek in order to evoke the poetry of the originals. The tragedies collected here were originally available as single volumes. This new collection retains the informative introductions and explanatory notes of the original editions, with Greek line numbers and a single combined glossary added for easy reference. This volume collects Euripides' Andromache, a play that challenges the concept of tragic character and transforms expectations of tragic structure; Hecuba, a powerful story of the unjustifiable sacrifice of Hecuba's daughter and the consequent destruction of Hecuba's character; Trojan Women, a particularly intense account of human suffering and uncertainty; and Rhesos, the story of a futile quest for knowledge.

[What! Let Our Students Teach?, Stan Doenau](#) , 1985, 0959982051, 9780959982053.

[The Serial Killer's Daughter, Heywood Gould](#) , 2011, 0981957250, 9780981957258. Peter Vogel, a college senior with literary ambitions, has lurid, erotic fantasies about an enigmatic classmate named Hannah Seeley. She favors his overtures with a dismissive smile until one day, out of the blue, she offers him a proposition: if he ghostwrites her papers she'll have sex with him. He agrees and turns her into an A student. She pays promptly, but mechanically. Still, his obsession deepens and when she disappears at the end of the semester he is crushed and tries unsuccessfully to find her. Then, after graduation, she suddenly reappears, bringing a chain of bizarre events. On their first night together they are attacked by home invaders who are later found dead in a dumpster. And a day later they are almost carjacked by two thugs in an Escalade who are then found shot dead on a service road. Now, Hannah confesses. She is the daughter of the Robbinsgate Killer, a church deacon and local official who terrorized her small California town in the '90s, torturing and murdering 11 people, among them her best friend. Someone is stalking her, trying to kill her. It began with e-mails and phone calls, threatening to make her suffer as much as her father's victims. A man tried to grab her in a parking lot. Another was waiting outside her apartment. The police don't believe her; the FBI says it's not unusual for the families of criminals to be harassed. No one sympathizes with the daughter of a serial killer. She admits she seduced Peter out of desperation. She was alone, unprotected. She felt safe when they were together. She used him, but now she's wracked with guilt because she put him in danger. She tells him to forget her and save himself. But Peter cannot let Hannah go. Instead, he resolves to find out who, if anyone is trying to kill her. They embark on a journey of discovery. Every step takes them deeper into a state of paranoid uncertainty in which they don't know what is real or imagined. Are they fighting phantoms or real assassins? The biker comes back into their lives again. They are shadowed by a blond man in steel-rimmed glasses. The Houston detective tells Peter that Hannah is lying and is really a courier for the Mexican cartels. Hannah's pastor is convinced that she is imagining it all as a way to atone for her father's crimes. A man follows them.

They set a trap and Peter accidentally kills him, but then doesn't know if he was an assassin or a DEA agent acting on a tip from the Houston police. They speak to a radical lawyer, who is convinced that her father was the subject of a military experiment gone horribly wrong. Later, that lawyer is murdered and they realize they will be suspects. In search of clues they visit Hannah's bitter, self-pitying father in the isolation block of a maximum-security prison. Amazingly, he sees himself as the victim and his victims' families as his persecutors. Peter becomes a fugitive. A suspected murderer. All in search of an answer that remains elusive to the very end.

[Number Theory for Computing, Song Y. Yan](#) , 2002, 3540430725, 9783540430728. Modern cryptography depends heavily on number theory, with primality testing, factoring, discrete logarithms (indices), and elliptic curves being perhaps the most prominent subject areas. Since my own graduate study had emphasized probability theory, statistics, and real analysis, when I started working in cryptography around 1970, I found myself swimming in an unknown, murky sea. I thus know from personal experience how inaccessible number theory can be to the uninitiated. Thank you for your efforts to ease the transition for a new generation of cryptographers. Thank you also for helping Ralph Merkle receive the credit he deserves. Diffie, Rivest, Shamir, Adleman and I had the good luck to get expedited review of our papers, so that they appeared before Merkle's seminal contribution. Your noting his early submission date and referring to what has come to be called "Diffie-Hellman key exchange" as it should, "Diffie-Hellman-Merkle key exchange", is greatly appreciated. It has been gratifying to see how cryptography and number theory have helped each other over the last twenty-five years. :-)-Number theory has been the source of numerous clever ideas for implementing cryptographic systems and protocols while cryptography has been helpful in getting funding for this area which has sometimes been called "the queen of mathematics" because of its seeming lack of real world applications. Little did they know! Stanford,

30 July 2001 Martin E. Hellman Preface to the Second Edition Number theory is an experimental science.

[The Diamond in the Onion Suit, Mickey Michaels](#) , 2013, 0964476169, 9780964476165. The Diamond in the Onion Suit is an allegory - a story where the characters are not human, but they represent human nature. Sort of like Jonathan Livingston Seagull, but these characters are onions rather than seagulls. Parents do the best they can to protect us as kids. Further down the road, we do the best we can to protect and help ourselves. But we're all on the wrong path! What we think is protecting and helping is actually stifling us. How does this happen? What can we do to stop it? How can we release our hidden strength and power? Perhaps the answer has been within you all along.

[Understanding Health, Health Care, and Health Policy in Canada: Sociological Perspectives, Neena L. Chappell, M. Penning](#) , 2008, 019542476X, 9780195424768. Series: a href="http://www.oupcanada.com/tcs/"Themes in Canadian Sociology/a Understanding Health, Health Care, and Health Policy in Canada is a brief introduction to the sociology of health and health care. This accessible text emphasizes health (promotion, maintenance, and prevention) as well as illness (treatment, cure, and care), offering a broad and balanced treatment of the sociological debates within the field. The first half of the text introduces three important themes in the study of the sociology of health: (1) the importance of approaching health issues from a lifespan perspective; (2) the need to attend to both the public and the private, the micro and the macro, and the individual and the structural; and (3) issues of inequality as they intersect with health, health care, and health policy. The second half of the text focuses on Self, Formal, and Informal Care, along with Canada's health care policy. Discussion on topical issues such as obesity, smoking, homelessness, AIDS, stress, and mental illness can be found throughout the book, ensuring that the subject matter is relevant to students' experiences of health and health care in Canada.

[Why You Should CARE: What Happens When You Do, Michael Phelan](#) , 2011, 0983162565, 9780983162568. A JOURNEY OF (YOUR) SELF DISCOVERY Imagine a spiritual journey to the Center of the Universe. You Allow its infinite power to flow through your mind, body and spirit. As you Relax completely, you begin to discover and Express your true and natural self-empowerment experience. YOU WILL DISCOVER Your unrealized human possibilities How to achieve your highest human excellence How to open and strengthen your healing abilities Increased confidence and self-awareness in all fields of endeavor The Path to embracing the transition to Unity Consciousness The dynamic power of partnering with the infinite Universe. Providing the tools for complete life transformation, Why You Should CARE: What Happens When You Do offers the opportunity for sustainable personal growth, so necessary in these stressful times. A life of exploring world religions and ancient wisdom, combined with unique personal experiences led Michael Phelan to the discovery and revelation of the simple secrets to understanding and utilizing the infinite power of the Universe. Why You Should CARE offers keys and paths to old wisdom and new ideas for individuals to gain mastery of both their internal and external lives. Complete with illustrations, this is a book that is created as a completely user-friendly journey in which Michael not only tells but shows how to gain confidence and success in a short amount of time. Why You Should CARE inspires a shift in the reader's beliefs and attitudes that is so total it enables a positive, life changing experience that becomes an experiential prerequisite for that transformation. Through illustration and experimentation, the reader immediately and intimately begins to realize the many benefits of coordinating and partnering with universal forces. Here are a few examples from the book. How to experience wholeness and also oneness of being. How to identify and eliminate

blockages to life force energies. How to cleanse emotional and other distortions from observational filters. How to transition to Unity Consciousness. More than mere information or intent, Why You Should CARE embodies and imparts the empowerment of experience within its Four CARE Principles: Center Allow Relax Express Michael Phelan has written a book with instructions for going deeper into the process of understanding the Universe at its most basic and personal. The ways to touch all creation including humanity. How to feel free and safe in your own skin. How to get in touch and transform the life force that is given equally, How to open your senses, feel your strength and clarity and gain your own healing wisdom powers. EXPERIENCE IT FOR YOURSELF Why You Should CARE takes it to the next level. Similar books don't go as deeply or intimately as Why You Should CARE. Self-empowerment is essentially the Key to everything. Within these pages you will find that Key. This journey of self-discovery is more than mere words, but rather the immediate experience of a true partner/ relationship with the Universe. Utilizing tangible experimentation within the anagram CARE we find our true, natural and dynamic potential. Beyond limitations we discover our true self. WHAT THE CRITICS ARE SAYING "It is educational, inspiring, insightful, helpful and fun. In his very readable and humor-laced style, Michael offers us information, exercises, new perspectives and personal stories. How fortunate we are to have Michael with us on the planet at this time." Avis A. Burnett, Ph.D. Author and Founder of A Place of One-ness

[Anthropology, Michael Herzfeld](#) , 2001, 0631206582, 9780631206583. Not a textbook in the ordinary sense, this work offers a vision of how anthropology - a discipline that operates through intimate knowledge of local societies - can offer vastly increased understanding of society and culture even in this age of mass communication. In its examination of topics ranging as far afield as the mass media, environmental and development issues, kinship and suffering in transnational settings, the politics of both the nation-state and the local community, the arts, cosmologies of science as well as religion, and the relationship between social life and history, this book is not just about an academic discipline; it is about the theoretical as well as ethical commitments that have enabled anthropologists to play a leading role in the critique of racism and other forms of intolerance.

[Cord, Patrick Welch](#) , 2008, 1897559852, 9781897559857. Jonathan Cord is a serial killer, or is he? The police and FBI think so and are trying everything in their power to find and stop him. Why is he killing? Is it because he's insane or there's something or someone else involved? Only Cord knows the demons which drive him to kill. Will the team of FBI profilers learn what those demons are in time to stop more killings, or will they become victims themselves?

[Mental Health Services: A Public Health Perspective, Bruce Lubotsky Levin, Kevin D. Hennessy, John Petrila](#) , 2010, 0199780153, 9780199780150. This revised and expanded third edition text utilizes a public health framework and the latest epidemiological, treatment, and service systems research to promote a comprehensive understanding of the organization, financing, and delivery of mental health and substance abuse services in the United States. Written by national experts in the field, this timely work will provide policymakers, administrators, clinicians, and public health and behavioral health graduate students with the knowledge base needed to manage and transform mental health service systems, both nationally and locally. The book is unique in providing a public health framework of the most significant issues facing mental health policy makers, administrators, planners, and practitioners. It combines issues (e.g., evaluation; law; ethnicity) that extend across different age groups, treatment settings, and disorders, with issues that are

population and disorder specific. The publication of this book is timely for those involved with the debate over national health care reform legislation, and provides important and timely information (on populations at-risk for mental disorders, services, and systems issues) for those responsible for implementing policies and programs resulting from this reform effort.

[The Princess Curse, Merrie Haskell](#) , 2011, 006209341X, 9780062093417. Merrie Haskell's middle-grade fantasy novel *Princess Curse* is an imaginative retelling of the fairy tales *The Twelve Dancing Princesses* and *Beauty and the Beast*. In the fifteenth-century kingdom of Sylvania, the prince offers a fabulous reward to anyone who cures the curse that forces the princesses to spend each night dancing to the point of exhaustion. Everyone who tries disappears or falls into an enchanted sleep. Thirteen-year-old Reveka, a smart, courageous herbalist's apprentice, decides to attempt to break the curse despite the danger. Unravelling the mystery behind the curse leads Reveka to the Underworld, and to save the princesses, Reveka will have to risk her soul. *Princess Curse* combines magic, suspense, humor, and adventure into a story perfect for fans of Gail Carson Levine.

[Memes of Translation: The spread of ideas in translation theory, Andrew Chesterman](#) , 1997, 9027283095, 9789027283092. *Memes of Translation* is a search for coherence in translation theory based on the notion of Memes: ideas that spread, develop and replicate, like genes. The author explores a wide range of ideas on translation, mapping the meme pool of translation theory with chapters on translation history, norms, strategies, assessment, ethics, and translator training. The aim of the book is to search for a perspective from which the immense variety of ideas about translation can be related. The unifying thread is the philosophy of Karl Popper. The book proposes the beginnings of a Popperian theory of translation, based on the fundamental concepts of norms, strategies, and values. A key idea is that a translation itself is a theory or hypothesis concerning the source text. This hypothesis is then subjected to testing, refinement, and perhaps even rejection, just like any other hypothesis.

[Combating Ignorance: Inside and Outside the Classroom, Scott Barzilla](#) , 2009, 1606938908, 9781606938904. Jack Sutherland has taught for ten years. When he first began his career, he was a very optimistic teacher, but that optimism waned as he continued through. In *Combating Ignorance*, Sutherland takes on the challenges of dealing with administration, counselors, fellow teachers, students and parents as a classroom teacher. He discusses the many programs and trends, good and bad, he has seen throughout his ten years of teaching.

[Soccer Song, Patricia Reilly Giff](#) , 2008, 0152065717, 9780152065713. Jill's friends know that she has strong arms and hands and so when she is learning to play soccer, they help her to find a position in which she can excel.

[Occupational Health and Safety On-board Aircraft: Guidance on Good Practice, Civil Aviation Authority](#) , 2012, 0117926388, 9780117926387. This document provides guidance to aircraft operators and others involved in the operation of aircraft on good practice that may be applied in order to meet the health and safety obligations of the Civil Aviation (Working Time) Regulations 2004. The guidance contained in this document is not mandatory; however, employers have an obligation to comply with the Regulations. This document may be seen as providing a means of compliance with the Regulations and aircraft operators that observe its provisions will be following good practice and will normally find that this satisfies the requirements of the law. Employers are free to adopt alternative methods if they believe that these will achieve compliance with the Regulations. The guidance is directed toward specific occupational hazards that exist on-board aircraft. It suggests control measures and good practice that might be adopted to manage these risks. The guidance offered may also be relevant to related activities such as ground handling operations and other activities closely associated with the operation of the aircraft. Operators should consider developing comprehensive health and safety systems that protect all persons involved in the operation of their aircraft. Many of the hazards faced by crew members also pose a risk to others on-board the aircraft (e.g. passengers and, while the aircraft is on the ground, ground staff) and these should be encompassed within a comprehensive system.

[The Jacket, Andrew Clements](#) , 2002, 0689848307, 9780689848308. Phil is on a mission. His absentminded little brother forgot his lunch money. All kinds of thoughts are running through Phil's mind as he searches for Jimmy in the throngs of fourth and fifth graders crowding the school hallway:...if I'm late for math today, then I might not be allowed to take the test -- and then I could flunk math! I might even flunk sixth grade and get left back! Then Phil spots Jimmy's one-of-a-kind jacket and rushes to the corner of the hallway. Except the person wearing it isn't his brother; it's some black kid Phil's never seen before -- wearing Jimmy's jacket! Phil makes an accusation, tempers flare, and both kids wind up in the

principal's office. How will Phil react when he finds out how Daniel came to be the owner of this unique jacket? Will Daniel be able to forgive Phil for an accusation that was based on racial prejudice? What will each boy learn about the other, and most important, about himself?

[The Third Child, Marge Piercy](#) , 2009, 0061970069, 9780061970061. Under her mother's constant scrutiny and lost in the shadow of her famous senator father, Melissa is the third child in the politically prominent Dickenson family, where ambition comes first and Melissa often comes last. In college, she meets Blake, a man of mixed race and apparently unknown parentage. His adoptive parents are lawyers whose defense of death-row cases in the past brought them head-to-head with Melissa's father when he was the governor of Pennsylvania. While Melissa and Blake's attraction is immediate and fiery, a dangerous secret lurks beneath their relationship -- one that could destroy them ... and their families. Provocative and beautifully written, and dealing with themes of love, honesty, identity, and the consequences of ambition, *The Third Child* is a remarkable page-turner.

[Rumo & His Miraculous Adventures, Walter Moers](#) , 2007, 1585679364, 9781585679362. The author of *The 13 1/2 Lives of Captain Bluebear* presents the tale of a heroic little Wolperting, who with his trusty talking sword fights his way across the very different realms of Overworld and Netherworld while encountering such characters as a death-courting female Wolperting, a weather-sensitive swordsman, and a guardian of a talking animal forest. Reprint.
