[Aboriginal Australia: An Introductory Reader in Aboriginal Studies, Colin Bourke, Eleanor Bourke, William Howell Edwards](#) , 1998, 0702230510, 9780702230516. Aboriginal Australia presents selected themes that relate to indigenous Australians against a background of traditional, colonial and contemporary experiences. Particular facets of the lives of Aboriginal Australians are revealed through an examination of their struggle to maintain a strong identity and heritage while actively participating in Australian society. Reflected throughout the work is how this process enriches the Australian community as a whole. This new, fully revised and corrected edition gives an up-to-date account of recent events of significance for the indigenous people of Australia. It takes account of Mabo, the momentous Native Title decision of the High Court to overturn the concept of terra nullius and recognise pre-colonial occupation of Australia, including property rights.

[Family Man, Volume 1, , Dylan Meconis](#) , 2010, 0982343744, 9780982343746. This graphic novel is set in the 1700s.

Luther Levy is a man weighed down by circumstances in his life and the turmoil of his own psyche.

[Living in Big Tujunga Canyon, Mary Lee Tiernan](#) , 2001, 097023936X, 9780970239365. Early settlers found their way into the canyon bristling with wildlife and dense with woodlands. 50 years later, the Webber family faced the wrath of the river winding down a denuded mountainside.

[Shattered lives: portraits from America's drug war, Mikki Norris, Chris Conrad, Virginia Resner](#) , 2000, 0963975439, 9780963975430. "Shattered Lives: Portraits from America's Drug War" takes an unflinching look at the human rights violations of US drug policy, based on the award-winning photo exhibit, "Human Rights and the Drug War."

[Socioliterary Practice in Late Medieval England, Helen Barr](#) , 2001, 0198112424, 9780198112426. Socioliterary Practice in Late Medieval England bridges the disciplines of literature and history by examining various kinds of literary language as examples of social practice. Readings of both English and Latin texts from the late fourteenth and early fifteenth centuries are grounded in close textual study which reveals the social positioning of these works and the kinds of ideological work they can be seen to perform. Distinctive new readings of texts emerge which challenge received interpretations of literary history and late medieval culture. Canonical authors and texts such as Chaucer, Gower, and Pearl are discussed alongside the less familiar: Clanvowe, anonymous alliterative verse, and Wycliffite prose tracts.

[Introduction to Engineering Drawing: The Foundations of Engineering Design and Computer-Aided Drafting, Warren Jacob Luzadder, Jon M. Duff](#) , 1993, 0134808495, 9780134808499. Written out of the need to develop comprehensive approaches to teaching engineering drawing and modeling concepts with VersaCAD software, this text describes how to make applied use of the software for engineering CAD applications. A complete teaching package with text, exercise disk, and special electronic transparencies disk, it offers a unique look at the integration of both 2D and 3D CAD topics. For those using or teaching VersaCAD software for CAD instruction.

[High Culture Fever: Politics, Aesthetics, and Ideology in Deng's China, Jing Wang](#) , 1996, 0520202953, 9780520202955.

Jing Wang offers the first overview of the feverish decade of the 1980s in China, from early reexaminations of Maoism through the crackdown in Tiananmen Square. Wang's energetic, creative, and highly intelligent take on Chinese culture provides a broad portrait of the post-revolutionary era and a provocative inquiry into the nature of Chinese modernity. In seven linked essays, the author examines the cultural dynamics that have given rise to the epochal discourse. She traces the Chinese Marxists' short debate over "socialist alienation" and examines the various schools of thought--Li Zehou and the Marxist Reconstruction of Confucianism, the neo-Confucian Revivalists, and the Enlightenment School--that came into play in the Culture Fever. She also critiques the controversial mini-series Yellow River Elegy. In mapping out China's post-revolutionary aesthetics, Wang introduces the debate over "pseudo-modernism," refutes the pseudo-proposition of "Chinese postmodernism," and looks at the dawning of popular culture in the 1990s. This book delivers a ten-year intertwined history of Chinese intellectuals, writers, literary critics, and cultural critics that gives us a deeper understanding of the China of the 1980s, the 1990s, and beyond. [Linear Circuit Design Handbook, Analog Devices Inc., Engineeri](#) , 2011, 0080559158, 9780080559155. This book enables design engineers to be more effective in designing discrete and integrated circuits by helping them understand the role of analog devices in their circuit design. Analog elements are at the heart of many important functions in both discrete and integrated circuits, but from a design perspective the analog components are often the most difficult to understand. Examples include operational amplifiers, D/A and A/D converters and active filters. Effective circuit design requires a strong understanding of the operation of these analog devices and how they affect circuit design. TABLE OF CONTENTS CHAPTER 1: THE OP AMP CHAPTER 2: OTHER LINEAR CIRCUITS CHAPTER 3: SENSORS CHAPTER 4 RF/IF CIRCUITS CHAPTER 5: FUNDAMENTALS OF SAMPLED DATA SYSTEMS CHAPTER 6: CONVERTERS CHAPTER 7: DATA CONVERTER SUPPORT CIRCUITS CHAPTER 8 ANALOG FILTERS CHAPTER 9: POWER MANAGEMENT CHAPTER 10: PASSIVE COMPONENTS CHAPTER 11: OVERVOLTAGE EFFECTS ON ANALOG INTEGRATED CIRCUITS CHAPTER 12: PRINTED CIRCUIT BOARD (PCB) DESIGN ISSUES Key Features* comprehensive coverage of analog circuit components for the practicing engineer * market-validated design information for all major types of linear circuits* includes practical advice on how to read op amp data sheets and how to choose off-the-shelf op amps* full chapter covering printed circuit board design issues,

[Mosby's Massage Therapy Review, Sandy Fritz](#) , 2009, 0323075517, 9780323075510. No other massage review book offers such complete exam preparation! Written by massage therapy expert Sandy Fritz, this preparation tool offers more review content and questions than any other massage certification review. It gives you the practice and study tools you need for the NCE and MPLEx certification exams, state exams, and even mid-term or final exams. With complete coverage of the information you need to know to study more effectively and take tests more successfully, it helps you memorize terms, definitions, and key facts, all with an emphasis on critical thinking skills - a key part of any licensure or certification exam. This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. More than 1,300 review questions include the two types of questions on the NCE - factual recall and comprehension. Content review includes a detailed review of body systems and their applications to massage. A new five-step review process lets you identify areas that need more attention as you study and prepare. Tips for studying and test taking; what to memorize; how to apply concepts and think critically help you hone test-taking skills better than ever before. A full-color design features 100 new illustrations showing massage techniques and Anatomy & Physiology.

[Social Psychology: Goals in Interaction, Douglas T. Kenrick, Steven L. Neuberg, Robert B. Cialdini](#) , 2010, 0205725023, 9780205725021. Amazing deeds of heroism and horrific acts of terrorism. Undying love, friendships gone wrong, and inspirational leadership. Social Psychology: Goals in Interaction introduces the student to the fascinating mysteries of social behavior. By revealing the motives behind social behavior why people love, hate, lead, and follow, for example and bridging the person and the social situation, KNC actively engages the students' natural curiosity while providing the only

textbook with a truly integrative, coherent approach. A unique integrated approach to social behavior: What do terrorist bombings, testosterone, one-minute "hurry dates," Facebook, and political smear campaigns have to do with one another? Social Psychology textbooks typically provide a laundry list of interesting, but disconnected facts and theories. This standard approach grabs interest but falls short as a way to learn. Kenrick, Neuberg, and Cialdini instead provide an integrative approach, one that both builds upon traditional lessons learned by the field and pushes those lessons to the cutting-edge. By organizing each chapter around the two broad questions "What are the goals that underlie the behavior in question?" and "What factors in the person and the situation connect to each goal?" the book presents the discipline as a coherent framework for understanding human behavior. Expanding the integrative theme in this edition, KNC highlights social psychology as the ultimate bridge discipline connecting the different findings and theories of social psychology, exploring the field's links to other areas of psychology (e.g., clinical, organizational, and neuroscience), and bridging to other important academic disciplines (e.g., anthropology, biology, economics, medicine, and law). Opening mysteries: Each chapter begins with a mystery, designed not only to grab student interest, but also to organize the ensuing discussion of scientific research: Why did the beautiful and talented artist Frida Kahlo fall for the much older, and much less attractive, Diego Rivera, and then tolerate his numerous extramarital affairs? What psychological forces led the Dalai Lama, the most exalted personage in Tibet, to forge a lifelong friendship with a foreign vagabond openly scorned by Tibetan peasants? Why would a boy falsely confess to murdering his own mother? The authors are each well-known researchers who have contributed cutting edge findings to the field. The latest scholarship, engaging writing, engrossing real-world stories and the authors' strengths as renowned researchers and expert teachers, all come together to make the fifth edition of Social Psychology: Goals in Interaction an accessible and engaging read for students, while providing a modern and cohesive approach for their teachers. Looking for additional resources to help you understand the material and succeed in this course? MyPsychLab contains study tools such as flashcards, self tests, videos, as well as writing resources and a complete ebook. MyPsychLab is available at www.mypsychlab.com.

[Pathway to the Spirit World: A True Account of a Near Death Experience : a Book for All People, Hashi-Hanta](#) , 1995, 0964542153, 9780964542150. Embark on a spiritual pathway to self-discovery and change your life.-- Shows how to create a closer relationship with God, using daily guidelines to live a truly spiritual life, and the power of prayer to influence you and others around you.-- Cope with a life-threatening illness or the death of a loved one.-- Learn how to restore family bonds and strengthen values in our children. Follow the amazing story of Hashi-Hanta, a Choctaw Indian woman, from her painful childhood in a town filled with prejudice to her fun-filled nights on Hollywood's Sunset Strip. As an awkward, young girl, she was shunned by her schoolmates. As a beautiful young woman, she dated famous men ranging from Elvis Presley to a world-renowned bullfighter. She moved in a continuous round of parties and night clubs until an auto accident in the hills of Mexico almost ended her life. Clinically dead for five minutes, Hashi-Hanta traveled to the Spirit World and returned with ancient, spiritual truths (confirmed by Lie Detector Test) that can help people of all faiths. "There were no significant reactions indicating deception noted on the subject's polygrams. In the examiner's opinion the subject has been truthful in regards to this issue". -- Jesse J. Delgado, Security and Personnel Consultant Polygraph Examiner

It reviews the general design process in a concurrent engineering setting and focuses on manufacturability, quality service, and customer criteria and serves as an invaluable source of information critically needed on the job. Chapter topics include The Design Problem, Design Considerations, The Preliminary Design, Component Selection, Printed Circuit Board Design, Power Supply Design, Amplifier Design, Oscillators and Signal Generators, Control Circuits, Discrete Digital Design, Embedded System Design and Digital Signal Processing, and Telecommunications and Fiber Optics. For electrical or electronic design engineers.

[United States Code, 2000, Title 42: The Public Health and Welfare, Sections 7701 - End, United States Congress Staff](#) , 2002, 016050712X, 9780160507120. The 2000 edition of the United States Code represents the 75th anniversary of the Code. It is the 13th edition of the Code. This edition is a consolidation and codification of the general and permanent laws of the United States in force on January 1, 2001. It incorporates the legislation enacted subsequent to the 1994 edition and up to the end of the 106th Congress. It may be cited as U.S.C. 2000 ed.

[Daisy Fay and the Miracle Man, Fannie Flagg](#) , 1993, 0099297213, 9780099297215. Fannie Flagg takes us on a journey to a South that only Southerners know, to a time when 'Blue Velvet' was played at the Senior Prom, and into the life of Daisy Fay Harper, a sassy, truth-telling heroine who just can't stay out of trouble. What's more she tells us everything - from what (or who) made her Daddy and Momma split up to what is really stashed in the freezer of the family's malt shop. Daisy Fay is coming of age in the Gulf Coast's Shell Beach, which is The End of the Road of the South, but a dandy place to meet the locals like hard-drinking Jimmy Snow, former debutante Mrs Dot and Daisy's own Daddy. They're all part of the fun that takes us down home, back to the '50s, and into the best story ever written east of Texas...

[A Beginner's Guide to the Universe, Andrew Conway, Rosie Coleman](#) , 2002, 0521806933, 9780521806930. A Beginner's Guide to the Universe is a fascinating introduction to astronomy and the wonders of the night sky. It begins by looking at the universe as a whole, describing what we can see in the night sky. The authors then go on to explore the planets of our solar system, from the hot world of Mercury near the Sun to the distant, frozen world of Pluto. Moons, asteroids, meteoroids and comets are described in detail, and objects outside the solar system are explained. Young readers will learn what stars are, and how they cluster together to form galaxies that allow us to map out the furthest reaches of our Universe. A key feature is a section in which John Brown, Astronomer Royal for Scotland, answers astronomy questions posed by schoolchildren. This guide will also appeal to adults wishing to learn about astronomy for the first time. Andrew Conway is a lecturer in astronomy, based in the Department of Physics and Astronomy at the Open University, UK. He is an active researcher in solar physics, and has given many lecture courses on popular astronomy. He is also a regular guest lecturer at astronomical societies. Rosie Coleman is a primary school teacher in Scotland, UK, and has taught children for almost thirty years. She has given many educational talks, and produced material for use in schools throughout Scotland.

[Mastery of Your Anxiety and Panic \(MAP-3\): Panic Attack Records: Includes 3 Packs of 50 Panic Attack Record Forms, David H. Barlow, Michelle G. Craske](#) , 2004, 0195186990, 9780195186994. David H. Barlow received his Ph.D. from the University of Vermont in 1969 and has published over 400 articles and chapters and over 20 books. His major interests over the past 30 years has been the study of anxiety and its disorders, and developing new psychological procedures for practicesettings. Prior to his current position as Professor and Director of the Center for Anxiety and Related Disorders and Director of Clinical Psychology Programs at Boston University, he founded clinical psychology internships at Brown University and the University of Mississippi Medical Center. He is the recipient of the 2000 American Psychological Association (APA) Distinguished Scientific Award for the Applications of Psychology. Other awards include the Career Contribution Awards from the Massachusetts and California Psychological Associations, and a MERIT award from the National Institute of Mental Health for long-term contributions to the clinical research effort. During the 1997/1998 academic year, he was Fritz Redlich Fellow at the Center for Advanced Study in Behavioral Sciences in Palo Alto, California. He is Past-President of the Society of Clinical Psychology of the American Psychological Association, and the Association for the Advancement of Behavior Therapy. He was also Chair of the American Psychological Association Task Force of Psychological Intervention Guidelines, a member of the DSM-IV Task Force of the American Psychiatric Association, and was Co-Chair of the Work Group for revising the anxiety disorders categories. Michelle G. Craske received her PhD from the University of British Columbia in 1985 and has published over 100 articles and chapters in the areas of anxiety disorders and fear. She recently completed an advanced level text, Anxiety Disorders- Psychological Approaches

to Theory and Treatment. Currently, she is professor of psychology in the department of psychology at the University of California, Los Angeles, and director of the UCLA Anxiety Disorders Behavioral Research Program. She continues to serve on the DSM-IV Anxiety Disorders Workgroup Subcommittee, which is charged with revising the text that accompanies the diagnostic criteria; is a consultant to various national organizations in their efforts to develop and disseminate practice guidelines for panic disorder and other anxiety disorders; and has been awarded NIMH/NIH funds for the study of anxiety disorders. Her research focuses on furthering the understanding of fear and anxiety and in developing more effective treatments for the anxiety disorders.

[NIV Student Bible: New International Version, Lavender, Italian Duo-Tone, Tim Stafford, Philip Yancey](#) , 2011, 0310437261, 9780310437260. This Bible's proven, common-sense approach to studying the Scriptures appeals to high school students and college readers. Its thoughtful, carefully researched features will help overcome common obstacles to reading and understanding the Bible. Written and edited by award-winning authors Philip Yancey and Tim Stafford. Features: * Complete NIV text * Three-track reading plan * Book introductions and overviews * Insights provide background information on key passages * Guided Tours offer a bird's-eye view of the Bible * Highlights present short commentary on specific verses * 100 People You Should Know * Indexes, glossaries, and study helps * Subject guide * Eight pages of maps with index

[Optical Burst Switched Networks, Jason P. Jue, Vinod M. Vokkarane](#) , 2006, 0387237607, 9780387237602. Next-generation high-speed Internet backbone networks will be required to support a broad range of emerging applications which may not only require significant bandwidth, but may also have strict quality of service (QoS) requirements. Furthermore, the traffic from such applications are expected to be highly bursty in nature. For such traffic, the allocation of static fixed-bandwidth circuits may lead to the over-provisioning of bandwidth resources in order to meet QoS requirements. Optical burst switching (OBS) is a promising new technique which attempts to address the problem of efficiently allocating resources for bursty traffic. In OBS, incoming data is assembled into bursts at the edges of the network, and when the burst is ready to be sent, resources in the network are reserved only for the duration of the burst. The reservation of resources is typically made by an out-of-band one-way control message which precedes the burst by some offset time. By reserving resources only for the duration of the burst, a greater degree of utilization may be achieved in the network. This book provides an overview of optical burst switching. Design and research issues involved in the development of OBS networks are discussed, and approaches to providing QoS in OBS networks are presented. Topics include: - Optical burst switching node and network architectures - Burst assembly - Signaling protocols - Contention resolution - Burst scheduling - Quality of service in OBS networks

[Sisomo: The Future on Screen, Kevin Roberts](#) , 2005, 1576872688, 9781576872680. A new word has been introduced into the global language bank, and this stylish book is its debut. A richly nuanced collection of text and imagery, *sisomo: the future on screen* is a book to conquer hearts and set minds spinning with questions. For business, reaching consumers has become a challenge on the scale of climbing Mount Everest. The mass market is splitting like an Arctic ice shelf, the media is fragmenting and brands have taken a big hit. This environment presents an unavoidable conundrum for marketers and advertisers as they struggle to find new ways to work. Television, once the shining knight of emotional messaging, is suffering deeply as networks scramble to retain audiences. A radical shift is also occurring in the relationship between consumers and the media. Where consumers were once passive in the face of the mass market, they are now savvy individuals wired into the greatest information network the world has ever known. Like it or not, says Kevin Roberts, author of the hugely successful *Lovemarks: the future beyond brands*, Creating emotional relationships with the Consumer is the business challenge of the century.

[The Greek Coffin Mystery, Ellery Queen](#) , 2013, 0143125141, 9780143125143. From A to Z, the Penguin Drop Caps series collects 26 unique hardcovers featuring cover art by Jessica Hische. It all begins with a letter. Fall in love with Penguin Drop Caps, a new series of twenty-six collectible and hardcover editions, each with a type cover showcasing a gorgeously illustrated letter of the alphabet. In a design collaboration between Jessica Hische and Penguin Art Director Paul Buckley, the series features unique cover art by Hische, a superstar in the world of type design and illustration, whose work has appeared everywhere from Tiffany & Co. to Wes Anderson's recent film *Moonrise Kingdom* to Penguin's own bestsellers *Committed* and *Rules of Civility*. With exclusive designs that have never before appeared on Hische's hugely popular Daily Drop Cap blog, the Penguin Drop Caps series debuted with an 'A' for Jane Austen's *Pride and Prejudice*, a 'B' for Charlotte Bronte's *Jane Eyre*, and a 'C' for Willa Cather's *My Antonia*. It continues with more perennial classics, perfect to give as elegant gifts or to showcase on your own shelves. Q is for Queen. Ellery Queen is a fictional detective regarded by many as the definitive American detective-hero, rivaling Nero Wolfe as the successor to Sherlock Holmes. "Ellery Queen" also serves as the joint pseudonym for the creators, cousins Frederic Dannay and Manfred Lee. In a successful series of novels and short stories that covered 42 years, Ellery Queen was the best known American fictional detective during the 1930s and 1940s. *The Greek Coffin Mystery* (1932) is considered one of the earliest, most popular, confounding, brilliantly plotted classic whodunit mysteries of the Ellery Queen series, involving a dead and blind

art dealer, a slain forger, a stolen priceless painting and the disappearance of a mysterious will from a New York townhouse full of suspects. During the funeral of famous art dealer Georg Khalkis, the metal box containing his last will and testament had vanished from the library safe. Son of a New York cop, Ellery Queen, a young master of deduction, orders a search of the coffin. To the horror of both detectives and mourners, when the coffin is unearthed, a second corpse, strangled and decaying, is found with the late Georg Khalkis.

[Architecture After Modernism, Diane Yvonne Ghirardo](#) , 1996, 050020294X, 9780500202944. Since the Modern Movement began to be challenged in the late 1960s, architecture has followed a number of widely divergent paths. In this thoughtful and eloquent book, Diane Ghirardo examines the architectural world of the last quarter-century and its theories in the crucial context of social and political issues. Within a survey of a broad range of buildings, she focuses on specific 'megaprojects' as paradigms for discussion. In the realm of public space, she argues, the key questions are raised

by the Disney empire and its amusement parks; in domestic space, by the IBA in Berlin, with projects ranging from new structures to rehabilitation and residents' self-build. When it comes to reconfiguring the urban sphere, the megaproject is London's Docklands, the most ambitious and politically sensitive development in postwar Britain. Her text ranges world-wide, and she considers the work of lesser-known designers and women architects as well as famous international stars.

[Malaik: A Poetry Collection for Children and Those Who Love Them, Dikeogu Chukwumerije](#), 2012, 0955794099, 9780955794094. MALAIKA is a collection of poems written with children in mind. It is about imagination and the beautiful, limitless world of the mind- especially the mind of the young (in body or at heart). The poems are of varying levels of simplicity, so they can be enjoyed by children of various ages, and by their minders too! They talk of life, and all the weird and wonderful themes that make it so colorful- from changing clouds in a perfect blue sky, to the sweet and sour swing of friendship. Maybe, it's its rhyme and rhythm, maybe it's just the euphonic elegance of its underlying meter, but a poem has a way of holding the truth in ways that never fail to touch the heart.

[Darwin's Cathedral: Evolution, Religion, and the Nature of Society, David Sloan Wilson](#) , 2003, 0226901351,

9780226901350. One of the great intellectual battles of modern times is between evolution and religion. Until now, they have been considered completely irreconcilable theories of origin and existence. David Sloan Wilson's Darwin's Cathedral takes the radical step of joining the two, in the process proposing an evolutionary theory of religion that shakes both evolutionary biology and social theory at their foundations. The key, argues Wilson, is to think of society as an organism, an old idea that has received new life based on recent developments in evolutionary biology. If society is an organism, can we then think of morality and religion as biologically and culturally evolved adaptations that enable human groups to function as single units rather than mere collections of individuals? Wilson brings a variety of evidence to bear on this question, from both the biological and social sciences. From Calvinism in sixteenth-century Geneva to Balinese water temples, from hunter-gatherer societies to urban America, Wilson demonstrates how religions have enabled people to achieve by collective action what they never could do alone. He also includes a chapter considering forgiveness from an evolutionary perspective and concludes by discussing how all social organizations, including science, could benefit by incorporating elements of religion. Religious believers often compare their communities to single organisms and even to insect colonies. Astoundingly, Wilson shows that they might be literally correct. Intended for any educated reader, Darwin's Cathedral will change forever the way we view the relations among evolution, religion, and human society.

[Green Politics, Stephen Rainbow](#) , 1993, 0195582721, 9780195582727. Stephen Rainbow assesses the actual practice of green politics in New Zealand using a political and philosophical framework. He argues that the State should take responsibility for developing policies of sustainable development, and that green activists should be required to adopt achievable and credible strategies for change. Through a critique of current models of development and growth which rely on a narrow conception of economic realities, Rainbow suggests possible directions for the future. He bases his arguments on the common belief that given New Zealand's geographical and social advantages, it is in a unique position to lead the world towards a green future.

[Revolution: The Great Crisis of the British Monarchy, 1685-1720, Tim Harris](#) , 2007, 0141016523, 9780141016528. The definitive account of the last great cataclysm to enfold Britain To an extraordinary extent everyone in Britain still lives under the shadow of the 'Glorious Revolution' of 1688. It was a massive, brutal and terrifying event, which completely changed the governments of England, Scotland and Ireland and which was only achieved through overwhelming violence. Initiated by a large Dutch army marching through southern England and climaxing in a series of the most terrible battles ever fought on Irish soil, the revolution by which William III seized the kingdom of James II could only for a very narrow and exclusively English viewpoint be called 'glorious'. Revolution brilliantly captures this great turning point in Britain's history and shows how severe a price was paid to achieve this.

[Isle of the Saints: Monastic Settlement and Christian Community in Early Ireland, Lisa M. Bitel](#) , 1994, 0801481570, 9780801481574. Isle of the Saints recreates the harsh yet richly spiritual world of medieval Irish monks on the Christian frontier of barbarian Europe. Lisa Bitel draws on accounts of saints' lives written between 800 and 1200 to explain, from the monks' own perspective, the social networks that bound them to one another and to their secular neighbors.

[Forget the Anorak, Michael G. Harvey](#) , 2011, 0752475622, 9780752475622. Michael Harvey's new book brings to its reader the excitement of trainspotting in the 1950s and 60s, the hobby's heyday. It was the advent of the famous Ian Allan ABC Locospotters books that really gave the hobby the impetus, as they gave transpotters all the information they required. Forget the Anorak sets out to provide the reader with a personal account of what the hobby entailed - teenagers roaming the railways of Britain, sleeping on deserted platforms on porters' trolleys, 'bunking' dimly lit depots and eluding capture, travelling hundreds of miles on a platform ticket, and stink bombs on the Underground. You'll be able to smell the steam, soot and unwashed socks, and taste the boiled egg sandwiches, the chips wrapped in newspaper and the hot jam doughnuts, all washed down with warm Tizer. Illustrated with Michael Harvey's own photographs and a selection of maps, Forget the Anorak will appeal to anyone who experienced the golden days of trainspotting, as well as to anyone interested in the social history of Britain after the Second World War.

With endless options for inn-hopping and surfing along the state's southern beaches, Moon Coastal Oregon gives travelers the tools they need to create a more personal and

memorable experience.

[The Wrong Blood, Manuel de Lope](#) , 2011, 0099551853, 9780099551850. 'It was the month of May, or the month of June, in any case summer was near, and within only a few weeks the war would break out...' On the cusp of the Spanish Civil War in a coastal village in the Basque country, three men stop off at Extarri's bar on their way to the wedding of Captain 'chicken thigh' Herr iz to Isabel Cruces. One of the men, the rich man from Vera, disappears to the latrine and fails to return. He has suffered a stroke and this bizarre and undignified event, seemingly so incidental, marks the beginning of a powerful story about two women whose bond u and whose secret u will endure even in death. Abandoned by her parents shortly after the outbreak of war, sixteen-year-old Mar a Antonia Extarri is left at the mercy of the soldiers taking up residence in the bar. Whilst Isabel Cruces enjoys a blissful honeymoon with her Captain in Biarritz, Mar a is raped. Months later, the valiant Captain Herraiz is shot as a traitor. Suddenly both women find themselves violently altered, alone, and pregnant. A crippled young doctor, Castro, is the only witness to the mysterious and silent agreement these two women form in the loneliness and desperation of their mutual suffering. Many years later, Isabel's grandson comes to stay at the big house where Isabel and the Captain were wed. It is kept by an old servant, Mar a Antonia Extarri. Dr Castro still lives next door, and the grandson becomes a reluctant friend to him. Their conversations awaken ghosts haunting Mar a Antonia and Castro. Creepy and compelling, The Wrong Blood is an hypnotic read from a master storyteller.

[The Battle for Lone Pine, David W. Cameron](#) , 2012, 0857961519, 9780857961518. Most Australian have heard of Lone Pine. Too few know why. Over four days in August 1915, Australians and Turks were thrown into some of the fiercest fighting of the war, on a small plateau in Gallipoli known as Lone Pine. Thousands of lives were lost. Seven of Australia's nine Gallipoli VCs were earned during brutal hand-to-hand combat in dark tunnels and in trenches just metres apart, bombarded by terrifying volleys of grenades. The Battle for Lone Pine is the first book devoted to this cornerstone of the Anzac legend, drawing on unforgettable first-hand accounts scratched into diaries and letters home. The stories of the diggers, as well as the engineers, nurses, sappers, commanders and more, provide an invaluable record of the battle and serve as moving testimony to their courage in appalling conditions. Today, pine trees are planted in remembrance around Australia. In Gallipoli, the Lone Pine Cemetery and Memorial attracts large crowds to commemorate Anzac Day. David W. Cameron's absorbing history reveals the fate of those who fought on the ground where they gather. 'David Cameron not only leads the way for the battalions of books on Australia in World War I to come in the next six years, he sets a standard for authors to emulate' Weekend Australian 'A riveting read' Daily Telegraph 'Powerfully written and well-illustrated' Sydney Morning Herald

[The Best Damn Firewall Book Period, Syngress](#) , 2003, 0080476066, 9780080476063. This book is essential reading for anyone wanting to protect Internet-connected computers from unauthorized access. Coverage includes TCP/IP, setting up firewalls, testing and maintaining firewalls, and much more. All of the major important firewall products are covered including Microsoft Internet Security and Acceleration Server (ISA), ISS BlackICE, Symantec Firewall, Check Point NG, and PIX Firewall. Firewall configuration strategies and techniques are covered in depth. The book answers questions about firewalls, from How do I make Web/HTTP work through my firewall? To What is a DMZ, and why do I want one? And What are some common attacks, and how can I protect my system against them? The Internet's explosive growth over the last decade has forced IT professionals to work even harder to secure the private networks connected to it from erecting firewalls that keep out malicious intruders to building virtual private networks (VPNs) that permit protected, fully encrypted communications over the Internet's vulnerable public infrastructure. The Best Damn Firewalls Book Period covers the most popular Firewall products, from Cisco's PIX Firewall to Microsoft's ISA Server to CheckPoint NG, and all the components of an effective firewall set up. Anything needed to protect the perimeter of a network can be found in this book. - This book is all encompassing, covering general Firewall issues and protocols, as well as specific products. - Anyone studying for a security specific certification, such as SANS' GIAC Certified Firewall Analyst (GCFW) will find this book an invaluable resource. - The only book to cover all major firewall products from A to Z: CheckPoint, ISA Server, Symantec, BlackICE, PIX Firewall and Nokia.

[iPad For Dummies, Edward C. Baig, Bob LeVitus](#) , 2012, 111831705X, 9781118317051. Your e-mail, photos, music,

books, and games everything you need is just a touch away with iPad! Part iPod touch, part MacBook, part e-Reader, and all amazing, the iPad combines the best of your favorite gadgets into one ultraportable touch device. From sending e-mail and surfing the web to taking pictures, watching and recording videos, playing games, downloading apps, and so much more, the fun begins right here with this friendly For Dummies guide. Magic touch navigate the multitouch screen, use the onscreen keyboard, and e-mail and surf the web with just the touch of a finger. Picture perfect turn your iPad into a digital picture frame, add cool effects to your photos, and make FaceTime video calls. [Domain Name Law and Practice: An International Handbook, Torsten Bettinger, Allegra Waddell](#) , 2014, 0199663165, 9780199663163. An established authority in the field, this work provides comprehensive analysis of the law and practice relating to internet domain names at an international level, combined with a detailed survey of the 35 most important domain name jurisdictions worldwide, including the US, UK, Germany, France, Italy, Netherlands, Japan, China, Singapore, Russia, Canada, and Australia, and new chapters on Israel, Mexico, South Korea, Brazil, Colombia, Egypt, Portugal, and South Africa. The survey includes extensive country-by-country analysis of how domain names relate to existing trade mark law, and upon the developing case law in the field, as well as the alternative dispute resolution procedures. In its second edition, this work analyses, in depth, key developments in the field including ICANN's new gTLD program. The program, introducing many new top-level domains, will have far-reaching consequences for brand name industries worldwide and for usage of the internet. The complicated application process is considered in detail as well as filing and review procedures, the delegation process, the role and function of the Trademark Clearing House and the Sunrise and Trademark Claims Services, dispute resolution, and new rights protection mechanisms. Other developments covered include new registration processes such as the use of privacy and proxy services, as well as the expansion of the scope of internationalized domain names, including the addition of a number of generic top-level domains such as ".tel" and ".travel". Also considered are developments relating to the Uniform Domain Name Dispute Resolution Policy (UDRP) in terms of the nature of cases seen under the Policy and the number of cases filed, as well as the recent paperless e-

UDRP initiative. The Uniform Rapid Suspension System, working alongside the UDRP in the new gTLD space, is also discussed in a new chapter on this process. Giving detailed information about the registration of domain names at national, regional and international levels, analysis of the dispute resolution processes at each of those levels, and strategic guidance on how to manage domain names as part of an overall brand strategy, this leading work in international domain name law is essential reading for practitioners in the field.

[Computer Networks and Internets, Douglas E. Comer](#) , 2011, 0133002101, 9780133002102. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Computer Networks and Internets is appropriate for all introductory-to-intermediate courses in computer networking, the Internet, or Internet applications; readers need no background in networking, operating systems, or advanced mathematics. Leading networking authority Douglas Comer presents a wide-ranging, self-contained tour of the concepts, principles, and technologies that enable today's Internet to support applications ranging from web browsing to telephony and multimedia. This Fifth Edition has been thoroughly reorganized, revised, and updated: it includes extensive new coverage of topics ranging from wireless protocols to network performance, while reducing or eliminating coverage of older protocols and technologies. Comer begins by illuminating the applications and facilities offered by today's Internet. Next, he systematically introduces the underlying network technologies and protocols that make them possible: low-level data communications; packet switching, LAN, and WAN technologies; and Internet protocols such as TCP, IP, UDP, and IPv6. With these concepts and technologies established, he introduces several of the most important contemporary issues faced by network implementers and managers, including quality of service, Internet telephony, multimedia, network security, and network management. Comer has carefully designed this book to support both top-down and bottom-up teaching approaches. Students need no background in operating systems, and no sophisticated math: Comer relies throughout on figures, drawings, examples, and analogies, not mathematical proofs.

[Glimmering, Elizabeth Hand](#) , 2013, 0982663935, 9780982663936. Its 1999 and the world is falling apart at the seams. The sky is afire, the oceans are rising and mankind is to blame. While the spoils of the 20th Century dwindle, Jack Finnegan lives on the fringes in his decaying mansion, struggling to keep his life afloat and his loved ones safe while battling that most modern of diseases AIDS. As the New Millennium approaches, Jack's former lover, a famous photographer reveling in the world's decay, gifts him with a mysterious elixir called Fusax, a medicine rumored to cure the incurable AIDS. But soon, the "side effects" of Fusax become more apparent, and Jack gets mixed up with a bizarre entourage of rock stars, Japanese scientists, corporate executives, AIDS victims, and religious terrorists. While these larger players compete to control mankind's fate in the 21st Century, Jack is forced to choose his own role in the World's End, and how to live with it. Originally published in 1997, Glimmering is a visionary mix of fantasy and science fiction about a world in which humanity struggles to cope with the ever-approaching "End of the End."

[Our Aussie Legends, Julie Haydon](#) , 2011, 019557544X, 9780195575446.

[Descartes: An Analytic and Historical Introduction, Georges Dicker](#) , 2013, 0195380320, 9780195380323. A solid grasp of the main themes and arguments of the seventeenth-century philosopher Ren Descartes is essential for understanding modern thought, and a necessary entre to the work of the Empiricists and Immanuel Kant. It is also crucial to the study of contemporary epistemology, metaphysics, and philosophy of mind. This new edition of Georges Dicker's commentary on Descartes's masterpiece, *Meditations on First Philosophy*, features a new chapter on the Fourth Meditation and improved treatments of the famous cogito ergo sum and the notorious problem of the Cartesian Circle, among numerous other improvements and updates. Clear and accessible, it serves as an introduction to Descartes's ideas for undergraduates and as a sophisticated companion to his *Meditations* for advanced readers. The volume provides a thorough discussion of several basic issues of epistemology and metaphysics elicited from the main themes and arguments of the *Meditations*. It also delves into the work's historical background and critical reception. Dicker offers his own assessments of the Cartesian Doubt, the cogito, the causal and ontological proofs of God's existence, Cartesian freedom and theodicy, Cartesian Dualism, and Descartes's views about the existence and nature of the material world. The commentary also incorporates a wealth of recent Descartes scholarship, and inculcates - but does not presuppose - knowledge of the methods of contemporary analytic philosophy.

[International Religious Networks, ISSN 0143-0459, Jeremy Gregory, Hugh MacLeod](#) , 2012, 0954681002,

9780954681005. The international religious networks explored in this volume range from the cults of early medieval saints to the ecumenical networks and friendships which developed in the twentieth century. The essays reveal the diversity of religious networks over the centuries and engage with enduring questions that transcend national, geographical and sectarian boundaries. Networks could be of ideas or of people but most commonly involved both. They could be supported through formal organizations, institutions and bureaucracies or through more informal personal ties, such as friendships and acquaintances. Some international networks sustained a particular interest group, sect or denomination; others aspired to be ecumenical and all-encompassing. Networks might be created by, or around, a single individual; they could span an entire institutionally organized church; or, potentially, they could hope to include the whole of Christendom or even aim to connect a range of different world religions. Networks might be made up of largely like-minded individuals sharing largely similar perspectives, or they could bring diverse individuals and groups together to focus on a specific religious issue, concern or personality. The book offers answers to the following questions. How far has religion, both in terms of the ideas it creates and in terms of its practitioners and adherents, been especially good at forming international networks? What is it about religion that gives it such leverage and such an ability to transcend national and regional boundaries and divides? These questions have some relevance for our understanding of the networks sustained by different religious faiths at the present time, as well as for understanding the strains in keeping international religious networks intact. Jeremy Gregory is Professor of the History of Christianity at the University of Manchester; Hugh McLeod is Emeritus Professor of Church History at the University of Birmingham.

[Analysis and Geometry of Markov Diffusion Operators, Dominique Bakry, Ivan Gentil, Michel Ledoux](#) , 2013, 3319002260, 9783319002262. The present volume is an extensive monograph on the analytic and geometric aspects of Markov diffusion operators. It focuses on the geometric curvature properties of the underlying structure in order to study convergence to equilibrium, spectral bounds, functional inequalities such as Poincaré, Sobolev or logarithmic Sobolev inequalities, and various bounds on solutions of evolution equations. At the same time, it covers a large class of evolution and partial differential equations. The book is intended to serve as an introduction to the subject and to be accessible for beginning and advanced scientists and non-specialists. Simultaneously, it covers a large body of results and techniques from the early developments in the mid-eighties to the latest achievements. As such, students and researchers interested in the modern aspects of Markov diffusion operators and semigroups and their connections to analytic functional

inequalities, probabilistic convergence to equilibrium and geometric curvature will find it especially useful. Selected chapters can also be used for advanced courses on the topic.

[Fires, Fuel, and the Fate of 3 Billion: The State of the Energy Impoverished, Gautam N. Yadama](#) , 2013, 0199336679, 9780199336678. Inside small homes and huts throughout the developing world, billions of people burn fires in rudimentary stoves to prepare their meals and heat their homes. Besides providing heat, these stoves also release large amounts of dense black soot, which has a staggeringly negative impact on the health, ecosystems, and advancement of the poor in the developing world. Fires, Fuel, and the Fate of 3 Billion examines the complex nexus of issues at play in the developing world's use of crude cookstoves factors such as poverty, energy, environment, and gender inequality. Melding succinct prose, scientific synthesis, and unforgettable images of communities in rural India, this multidisciplinary work aims to prompt new awareness of a wicked problem: how families can depend on, and be plagued by, crude cookstoves. What is clear in this visual and scientific treatise is the fact this is not simply a problem of rudimentary stoves; it is a symptom of energy insecurity. The images, narratives, and illustrated scientific data make this book an urgent call to better understand and address energy poverty and household air pollution around the globe.

[Stories from Our Night Sky, Melanie Drewery, Jennifer Cooper](#) , 2009, 0143503758, 9780143503750. A beautiful collection of stories and poems about our southern skies. From the legends of Matariki and Rona and the Moon through to how tuatara made the stars, Melanie Drewery weaves a special magic through all her stories that will ensure we never look up at the night sky in the same way again. Accompanied by Jenny Cooper's stunning illustrations this will be a book to treasure and read over and over again.

[Now I Am Swimmer, Frances McNeil](#) , 2004, 0952554720, 9780952554721. In the winter of 1903, four people devised a scheme to send poor children from the slums of Leeds for a fortnight's holiday by the sea. The first group of children set off in 1904, and for the past hundred years, Leeds children have continued to enjoy - sometimes endure - holidays at Morecambe Bay. This book will have an immense appeal for the many thousands of people directly affected by the Camp,

and is also a valuable social history. Meticulously researched, and packed with personal recollections and memories, photographs and original reports and statistics (including number of pounds of flesh added to the children!), this book gives a fascinating, endearing portrait of the 'Leeds Poor Children's Holiday Camp' and the experiences of the children who have visited.

[Waking Up, Alive: The Descent, the Suicide Attempt, and the Return to Life, Richard A. Heckler](#) , 1996, 0345400356, 9780345400352. "Sometimes I feel like crying, but the tears just don't come...." "I had no idea there was a state of mind like this. Everything turned black...." "It was a zombie place where I just couldn't be a part of anything...." These are the words of survivors who have lived through one of the most insidious conditions of our time: the desire to die. Five million Americans have attempted suicide. Every seventeen minutes, one of them succeeds. And the numbers continue to grow. Through fifty startling interviews with suicide survivors of all ages and backgrounds, psychologist Richard A. Heckler takes us into the very heart of despair, documenting the varied paths that lead to that crucial place where one's world seems to stretch, tear, and then break apart. In these intimate accounts we begin to understand the determination and clarity of that fatal choice. But after the failed attempt, healing is possible. For the first time, with great care and penetrating insight, Heckler traces the heroic patterns of recovery. By offering clear, profound portraits of hope, this

extraordinary and unprecedented book attests to the resilience of the human spirit, by bearing witness to those who stood at death's door, and found the courage to live."It's hard to imagine a hopeful or inspiring book on suicide until you begin reading the astonishing *Waking Up, Alive*."--San Francisco Chronicle
"In this sensitive book, Richard Heckler brings compassionate light to a shadowy corner of our psyche."--Ram Dass Author of *Journey of Awakening*
"These moving accounts, written with a great heart of compassion, have a deeply healing effect on the ocean of human tears. This is a wise and ultimately life-affirming work!"--Jack Kornfield, Ph.D. Author of *A Path With Heart*

[Game Control, Lionel Shriver](#) , 2009, 0007301758, 9780007301751. Following the success of *We Need to Talk About Kevin* and *The Post-Birthday World*, *Game Control* is coming back into print after being unavailable for years. Eleanor Merritt, a do-gooding American family-planning worker, was drawn to Kenya to improve the lot of the poor. Unnervingly, she finds herself falling in love with the beguiling Calvin Piper despite, or perhaps because of, his misanthropic theories about population control and the future of the human race. Surely, Calvin whispers seductively in Eleanor's ear, if the poor are a responsibility they are also an imposition. Set against the vivid backdrop of shambolic modern-day Africa a continent now primarily populated with wildlife of the two-legged sort *Lionel Shriver's Game Control* is a wry, grimly comic tale of bad ideas and good intentions. With a deft, droll touch, Shriver highlights the hypocrisy of lofty intellectuals who would save humanity but who don't like people.

[What Women and Men Really Want: Creating Deeper Understanding and Love in Our Relationships, Aaron R. Kipnis, Elizabeth Herron](#) , 1995, 1882591240, 9781882591244. When Kipnis, author of *Knights Without Armor*, and Heron, a veteran leader of women's empowerment groups, took a group of men and women into the wilderness to live together for several days and explore their gender differences, what happened on the trip reads like a fast-paced novel. Amidst a variety of adventures, neat and well-organized sociological insights collapsed, giving way to unexpected, gut-level realities.

[How Proust Can Change Your Life, Alain De Botton](#) , 2013, 0307833496, 9780307833495. Alain de Botton combines two unlikely genres--literary biography and self-help manual--in the hilarious and unexpectedly practical *How Proust Can Change Your Life*. Who would have thought that Marcel Proust, one of the most important writers of our century, could provide us with such a rich source of insight into how best to live life? Proust understood that the essence and value of life was the sum of its everyday parts. As relevant today as they were at the turn of the century, Proust's life and work are transformed here into a no-nonsense guide to, among other things, enjoying your vacation, reviving a relationship, achieving original and unclinchd articulation, being a good host, recognizing love, and understanding why you should never sleep with someone on a first date. It took de Botton to find the inspirational in Proust's essays, letters and fiction and, perhaps even more surprising, to draw out a vivid and clarifying portrait of the master from between the lines of his

work. Here is Proust as we have never seen or read him before: witty, intelligent, pragmatic. He might well change your life.

From the bestselling author of Sister of My Heart comes a spellbinding tale of mothers and daughters, love and cultural identity. Rakhi, a young painter and single mother, is struggling to come to terms with her relationship with ex-husband Sonny, a hip Bay Area DJ, and with her dream-teller mother, who has rarely spoken about her past or her native India. Rakhi has her hands full, juggling a creative dry spell, raising her daughter, and trying to save the Berkeley teahouse she and her best friend Belle own. But greater challenges are to come. When a national tragedy turns her world upside down and Rakhi needs her mothers

strength and wisdom more than ever, she loses her in a freak car accident. But uncovering her mothers dream journals allows Rakhi to discover her mothers long-kept secrets and sacrifices and ultimately to confront her fears, forge a new relationship with her father, and revisit Sonnys place in her heart. From the Trade Paperback edition.

[Visitation Street, Ivy Pochoda](#) , 2013, 1443420433, 9781443420433. A gritty urban drama about the many and sometimes torturous forms of redemption. It is summer in Red Hook, Brooklyn, an isolated blue-collar neighborhood where hipster gourmet supermarkets push against tired housing projects and the East River opens into the bay. Bored and listless, fifteen-year-old June and Val are looking for fun. Forget the boys, the bottles, the coded whistles. Val wants to do something wild and a little crazy: take a raft out onto the bay. But on the water during the humid night, the girls disappear. Only Val returns, washing ashore in the weeds, bruised and unconscious. This shocking event echoes through the lives of Red Hooks diverse residents. Fadi, the Lebanese bodega owner who hopes that his shop is a place to share neighborhood news, trolls for information about Junes disappearance. Cree, just beginning to pull it together after his fathers murder, unwittingly makes himself the chief suspect in the investigation, but an enigmatic and elusive guardian is determined to keep him safe. Val contends with the shadow of her missing friend and a truth shes buried deep inside. Her teacher Jonathan, a Juilliard dropout and barfly, wrestles with dashed dreams and a past riddled with tragic sins. In Visitation Street, Ivy Pochoda combines intensely vivid prose with breathtaking psychological insight to explore a cast of solitary souls, pulled together by family, love, betrayal, and hope, who yearn for a chance to break free.

[Convair Xfy-1 Pogo, Skeets Coleman, Steve Ginter, Billy Jack Long, Bill Chana](#) , 1994, 0942612272, 9780942612271. First published in 1994, the XFY-1 Pogo book tells the story of one of two Navy prototypes contracted as vertical take off turboprop fighters capable of operating from LSTs, Destroyers, cruisers and larger capitol ships. If they had been successful, the Navy in time of war would have been able to equip all ships with a point-of-defence fighter. The other aircraft being tested was the Lockheed XFY-1. The aircraft were called tail sitters and the pogo sat on outrigger wheels mounted on its cruceiform delta fins. The Pogo and Skeets Coleman made the only successful transitions from vertical

take off to level flight and from level flight to vertical landings with the project being cancelled due to engine problems and pilot difficulty (impossibility) during transition.

[Weaving the Past: A History of Latin America's Indigenous Women from the Prehispanic Period to the Present, Susan Kellogg](#) , 2005, 0195123816, 9780195123814. Weaving the Past offers a comprehensive and interdisciplinary history of Latin America's indigenous women. While the book concentrates on native women in Mesoamerica and the Andes, it covers indigenous people in other parts of South and Central America, including lowland peoples in and beyond Brazil, and Afro-indigenous peoples, such as the Garifuna, of Central America. Drawing on primary and secondary sources, it argues that change, not continuity, has been the norm for indigenous peoples whose resilience in the face of complex and long-term patterns of cultural change is due in no small part to the roles, actions, and agency of women. The book provides broad coverage of gender roles in native Latin America over many centuries, drawing upon a range of evidence from archaeology, anthropology, religion, and politics. Primary and secondary sources include chronicles, codices, newspaper articles, and monographic work on specific regions. Arguing that Latin America's indigenous women were the critical force behind the more important events and processes of Latin America's history, Kellogg interweaves the region's history of family, sexual, and labor history with the origins of women's power in prehispanic, colonial, and modern South and Central America. Shying away from interpretations that treat women as house bound and passive, the book instead emphasizes women's long history of performing labor, being politically active, and contributing to, even supporting, family and community well-being.

[The Journey: Teacher's Pack, Cullinan](#) , 1994, .

[The Hand of God in Biblical Christian Faith, Lawrence Bednar](#) , 2006, 0976056372, 9780976056379. The lives of many people have gone off course through the influence of scholar-critics who belittle the scripture. The scholars exalt their opinions above the will of the sovereign God, trying to discredit our one source of knowledge on eternity and the nature of a true church and the way of true righteousness. They influence many since their credentials suggest they possess

knowledge other don't have. But those credentials have been bestowed by predecessors of their kind, and they have no authority beyond that allowed by their audiences. In heeding the critics, many have ceased to pursue the knowledge of God and have become cynical about righteousness and eternity and have fallen into hurtful lifestyles that disrupt order in our society.

[Java Foundations, John Lewis, Peter J. DePasquale, Joseph Chase](#) , 2013, 0133370461, 9780133370461. Inspired by the success of their best-selling introductory programming text, Java Software Solutions, authors Lewis, DePasquale, and Chase now release Java Foundations, Third Edition. This text is a comprehensive resource for instructors who want a two- or three-semester introduction to programming textbook that includes detail on data structures topics. Java Foundations introduces a Software Methodology early on and revisits it throughout to ensure students develop sound program development skills from the beginning. Control structures are covered before writing classes, providing a solid foundation of fundamental concepts and sophisticated topics.

[LEED GA Exam Guide \(3rd Large Format Edition\), Gang Chen](#) , 2011, 0984374132, 9780984374137. Pass the LEED

Green Associate Exam, Get Your Building LEED Certified, Fight Global Warming and Save Money LEED (Leadership in Energy and Environmental Design) is one of the most important trends of development and is revolutionizing the construction industry. It has gained tremendous momentum and has a profound impact on our environment. From this book, you will learn how to: 1.Pass the LEED Green Associate Exam. 2.Use LEED exam preparation strategies, study methods, tips, suggestions, mnemonics, and exam tactics to improve your exam performance. 3.Effectively understand, digest, and retain your LEED knowledge. 4.Understand the process of registering and certifying a building for LEED. 5.Understand the scope, main intent, core concepts and strategies, as well as identify the regulations, recognition, and incentives for each major LEED category. 6.Identify the strategies for case studies. 7.Identify the synergy in case studies. 8.Implement the most important LEED related codes and building standards. 9.Get points for categories not yet clearly defined by the USGBC. There is NO official GBCI book on the LEED Green Associate Exam. This pocket guide fills in the blanks and demystifies LEED. It uncovers the secrets, codes, and jargon for LEED as well as the true meaning of "going green." It provides a solid foundation and fundamental framework for LEED. It covers every major aspect of LEED in plain and concise language, and introduces it to ordinary people. This guide is small and easy to carry around. You can read it whenever you have a few extra minutes. It is an indispensable book for ordinary people, developers, brokers, contractors, administrators, architects, landscape architects, civil, structural, mechanical, electrical and plumbing engineers, interns, drafters, designers and other design professionals. What others are saying about "LEED GA Exam Guide..". "Finally A comprehensive study tool for LEED GA Prep "I took the 1-day Green LEED GA course and walked away with a power point binder printed in very small print-which was missing MUCH of the required information (although I didn't know it at the time). I studied my little heart out and took the test, only to fail it by 1 point. Turns out I did NOT study all the material I needed to in order to pass the test. I found this book, read it, marked it up, retook the test, and passed it with a 95%. Look, we all know the LEED GA exam is new and the resources for study are VERY limited. This one's the VERY best out there right now. I highly recommend it." -ConsultantVA "Complete overview for the LEED GA exam "I studied this book for about 3 days and passed the exam ... if you are truly interested in learning about the LEED system and green building design, this is a great place to start." -K.A. Evans "I just finished taking the LEED GA exam and, thankfully, I passed it on the first try by using this book as my primary study guide...I particularly liked the way the author organized the information within it. " -Lewis Colon

[CBI Series in Practical Strategy, Strategic Market Planning: A Blueprint for Success, Patrick McNamee](#) , 2001, 0471499978, 9780471499978. Strategic Market Planning A Blueprint for Success Patrick McNamee University of Ulster, UK Why is it that there are some firms that are enduringly successful, showing year after year results that are superior to rivals? Why is it that such firms are not confined to certain industries or certain locations or are of a certain size? This book asserts that remarkably successful firms are not so because of luck or exceptional circumstances but rather such firms succeed for two reasons:* the drive and strategic vision of their managers and* they follow strategic rules which confer successThe title of this book reflects its purpose: to persuade managers that enduringly successful firms are those that understand most clearly and then serve most effectively the markets they address. Consequently the book provides managers with a practical step-by-step blueprint which will enable them to develop and implement strategies which will make their firms enduringly successful. The book asserts that successful firms become so, not because of lucky industrial circumstances, but because of the drive and strategic vision of their managers. This is good news for managers as it means that being in a relatively poor industry is not a sentence to a dismal career: informed managerial effort can overcome such problems. Additionally an underlying philosophy of the book is that the most effective strategies for all firms are those which are developed and implemented by the managers themselves and not by outside advisers. Consequently the book provides a blueprint for any manager in any firm to develop and implement a strategic market plan. Strategic Market Planning reflects the experiences which the author has working closely with managers in many industries, ranging from banking to retailing to aircraft manufacturing, in varied European locations. Consequently the book is written in a register of clear language which should appeal to managers and students of business.

[Litter Decomposition: A Guide to Carbon and Nutrient Turnover, ISSN 0065-2504, Bjrn Berg, Ryszard Laskowski](#) , 2006, 0120139383, 9780120139385. Litter Decomposition describes one of the most important processes in the biosphere - the decay of organic matter. It focuses on the decomposition process of foliar litter in the terrestrial systems of boreal and temperate forests due to the greater amount of data from those biomes. The availability of several long-term studies from these forest types allows a more in-depth approach to the later stages of decomposition and humus formation. Differences between the decay of woody matter and foliar litter is discussed in detail and a different pattern for decomposition is introduced. While teachers and students in more general subjects will find the most basic information on decomposition processes in this book, scientists and graduate students working on decomposition processes will be entirely satisfied with the more detailed information and the overview of the latest publications on the topic as well as the methodological chapter where practical information on methods useful in decomposition studies can be found. Abundant data sets will serve as an excellent aid in teaching process and will be also of interest to researchers specializing in this field as no thorough database exists at the moment. * Provides over 60 tables and 90 figures* Offers a conceptual 3-step model describing the different steps of the decomposition process, demonstrating changes in the organic-chemical structure and nutrient contents* Includes a synthesis of the current state of knowledge on foliar litter decomposition in natural systems * Integrates more traditional knowledge on organic matter decomposition with current problems of environmental pollution, global change, etc. * Details contemporary knowledge on organic matter decomposition

[The Psychic in You: Understand and Harness Your Natural Psychic Power, Jeffrey A. Wands](#) , 2005, 0743470001, 9780743470001. When Jeffrey Wands was six years old, he met his great grandmother Mary. She had been dead for twenty-three years. Gifted psychic Jeffrey Wands's connection with his great grandmother was the first step in a remarkable journey that has led to his current status as one of the most acclaimed and successful psychics in the country. Now, in *The Psychic in You*, he traces his development as a psychic and describes what it's like to grow up with such an extraordinary gift. Using a series of compelling and dramatic anecdotes, he illustrates the joys -- and the pain -- that this faculty has brought him. *The Psychic in You* is a book of incredible stories told in the most down-to-earth and readable way. And underpinning this exceptional narrative is Jeffrey Wands's belief that all of us have psychic capabilities, and that all of us can -- and should -- try to develop them. A fascinating read full of dramatic accounts of the paranormal, *The Psychic in You* includes information on: Unleashing your own psychic ability Contacting loved ones who have crossed over Understanding the dead Freeing yourself from pain and negativity Handling fear of the dead Captivating, yet practical, this highly readable book dispels the myths and superstitions that surround psychic phenomena and provides a decidedly down-to-earth look at communicating with the other side. Enlightening and absorbing, *The Psychic in You* is essential reading for anyone seeking a richer, more insightful life.

[Murder From the Grave, Marcus McGee](#) , 2009, 0967312310, 9780967312316. THE GREATEST SERIAL MURDER ARTIST OF ALL TIME? While investigating a murder crime scene, San Francisco police find a letter addressed to one of their detectives, the clever and highly-respected Inspector Deuteronomy Saint Claire, who is at odds with the city's top brass for not sharing information over a career of twelve years. The letter is from a serial killer who tells Saint Claire that, despite being dead and in a grave for the last twelve days, he will murder seven people over the next thirty days. Because the planned murders are interdependent, with each killing setting off the next, the killer dares the secretive detective to either stop him or proclaim his genius to the world. Former Berkeley criminal psychology professor Saint Claire, convinced the letter is from the same killer who murdered his son, cautiously accepts the premise and the challenge. By preventing any one of the planned murders, Saint Claire can interrupt the sequence and save lives, but only if the killer's claim to murder from the grave is true. Using clues from the letter and crime scenes, the detective is determined to defeat the killer, and if his instincts prove true, solve the murder of his son.

[The Zebrafish: Genetics, Genomics and Informatics](#) , 2011, 0080888577, 9780080888576. This volume on genetics, genomics, and informatics, will cover new technologies in forward and reverse genetics, transgenesis, the zebrafish genome and mapping technologies, informatics and comparative genomics, and Infrastructure. This volume of Methods in Cell Biology will prove valuable both to seasoned zebrafish investigators as well as to those who are newly adopting the zebrafish model as part of their research armamentarium.

[Dragon Trouble](#) , 1984, 0812061365, 9780812061369. Peter's birthday gift to his grandfather of two strange-looking eggs begins a series of adventures when the eggs hatch into dragons.

[Ethics in Qualitative Research: Controversies and Contexts, Martyn Hammersley, Anna Traianou](#) , 2012, 0857021400, 9780857021403. Ethics in Qualitative Research explores this field and presents a distinctive perspective; one that is at odds with the assumptions underpinning ethical regulation, but also with the views of many qualitative researchers today. Martyn Hammersley and Anna Traianou emphasize the difficult and controversial character of ethical issues, and examine the philosophical assumptions involved, the social contexts in which key ethical principles arise, and their implications for research practice. The authors argue that the starting point for any discussion of research ethics must be the values

intrinsic to research, above all the commitment to knowledge-production.

[Lancelot Andrewes: Selected Sermons and Lectures, Lancelot Andrewes](#) , 2005, 0198187742, 9780198187745. This is the first annotated critical edition of works of Lancelot Andrewes (1555-1626), a writer recognized by literary critics, historians, and theologians as one of the most important figures in Elizabethan and Jacobean England. Peter McCullough, a leading expert on religious writing in the early modern period, presents fourteen complete sermons and lectures preached by Andrewes across the whole range of his adult career, from Cambridge in the 1580s to the court of James I and VI in the 1620s. Through a radical reassessment of Andrewes's life, influence, and surviving texts, the editor presents Andrewes as his contemporaries saw, heard, and read him, and as scholars are increasingly recognizing him: one of the most subtle, yet radical critics of mainstream Elizabethan Protestantism, and a literary artist of the highest order. The centuries-old influence of William Laud's authorized edition of Andrewes (1629) is here complicated and contextualized by the full use for the first time of the whole range of Andrewes's works printed before and after his lifetime, as well as manuscript sources. The edition also showcases the aesthetic brilliance of Andrewes's remarkable prose, and suggests new ways for scholars to carry forward the modern literary appreciation of Andrewes famously begun by T. S. Eliot. A full introductory essay sets study of Andrewes on a new footing by placing his works in the context of his life and career, surveying the history of responses to his writings, and summarizing the history of the transmission of his texts. The texts here are edited to high modern critical standards. The exhaustive commentary sets each selection in its historical context, documents Andrewes's myriad sources, glosses important and unfamiliar words and allusions, and translates his frequent quotations from the ancient Biblical languages.

[Retribution, Jilliane Hoffman](#) , 2005, 0141925116, 9780141925110. One rainy night in New York City, outstanding law student Chloe Larson wakes from a terrible nightmare. But it's not a nightmare - it's real. Not only is she savagely violated in her own bedroom, Chloe then has to deal with the horror of nobody being brought to justice. Twelve years later a very different Chloe is forging a formidable reputation in the Miami Dade State Attorney's Office, as a vicious serial killer nicknamed Cupid terrorises Florida - tearing out his tortured victim's hearts while they're still conscious. When the police stop a driver on the McArthur Causeway and a mutilated corpse is found in his trunk, it seems the hunt for Cupid is finally over. But as Chloe begins the task of prosecuting the suspect, she soon realises that this case will be anything but

easy. Because her past is about to force itself on her present - and the terror is only just beginning. Sometimes there's a price to be paid for justice. And sometimes that price is awful. Revenge could cost Chloe her sanity. The truth could cost her her life. THE PAST. THE PRESENT. THE TERROR.

[Curdled Skulls: Selected Poems of Bernard Bador, Bernard Bador](#) , 2011, 0984264094, 9780984264094. Internationally known collage artist Bernard Bador has been writing some of the most uniquely surrealist poetry of the modern era. Published primarily in anthologies and sought after limited edition books, Curdled Skulls presents a full overview of his works for the last 30 years. Translated by national Book Award winning poet Clayton Eshleman with the author's help, this is the only survey of his work in the English language.

[Infectious Greed: Restoring Confidence in America's Companies, John R. Nofsinger, Kenneth A. Kim](#) , 2003, 0131406442, 9780131406445. Financial and corporate scandals have led to a fundamental crisis in the American corporate system: one in which investors believe they have been thoroughly betrayed by the managers, boards, accountants, and investment advisors they once trusted. The fundamental challenge is to restore confidence, but how? Tougher laws, while essential, aren't enough: they've already been passed, and investors are as disillusioned as ever. In Infectious Greed, John Nofsinger and Kenneth A. Kim begin with an insightful assessment of what really happened: how executive compensation systems have led to unethical and greedy behavior; and how monitoring systems and regulators failed. Next, they offer systematic solutions that align incentives to promote desirable actions and discourage unethical behavior. Their solutions build on what's best about capitalism, and can truly restore the investor confidence that is essential to the system's long-term success.

[Augustine of Hippo: A Life, Henry Chadwick](#) , 2009, 0199568308, 9780199568307. The life and works of Augustine of Hippo (354-430) have shaped the development of the Christian Church, sparking controversy and influencing the ideas of theologians through subsequent centuries. His words are still frequently quoted in devotions throughout the global Church today. His key themes retain a striking contemporary relevance - what is the place of the Church in the world? What is the relation between nature and grace? Augustine's intellectual development is recounted with clarity and warmth in this newly rediscovered biography of Augustine, as interpreted by the acclaimed church historian, the late Professor Henry Chadwick. Augustine's intellectual journey from schoolboy and student to Bishop and champion of Western

Christendom in a period of intense political upheaval, is narrated in Chadwick's characteristically rigorous yet sympathetic style. With a foreword reflecting on Professor Chadwick's distinctive approach to Augustine by Professor Peter Brown.

A thrilling depiction of one of the most famous natural disasters in human history: the explosion of Mount Vesuvius. A sweltering week in late August. Where better to enjoy the last days of summer than on the beautiful Bay of Naples? But even as Rome's richest citizens relax in their villas around Pompeii and Herculaneum, there are ominous warnings that something is going wrong. Wells and springs are failing, a man has disappeared, and now the greatest aqueduct in the world - the mighty Aqua Augusta - has suddenly ceased to flow. Through the eyes of four characters - a young engineer, an adolescent girl, a corrupt millionaire

to an unwed mother on a lifeboat the night of the attack, Paul Pokriefke is a middle-aged journalist trying to piece together the tragic events. While his mother sees her whole existence in terms of that calamitous moment, Paul wishes their life could have been less touched by the past. For his teenage son, who dabbles in the dark, far-right corners of the Internet, the "Gustloff" embodies the denial of Germany's wartime suffering."Scuttling backward to move forward," "Crabwalk" is at once a captivating tale of a tragedy at sea and a fearless examination of the ways different generations of Germans now view their past. Winner of the Nobel Prize

[Saints and Gurus: Perspectives on Spiritual and Social Renaissance in Contemporary India, P. George Victor, S. D. A. Joga Rao](#) , 2002, 8124602034, 9788124602034. The Papers Bring Out The Metaphysical, Religious, Ethical And Social Significance Of The Teachings Of Modern Saints And Gurus. They Reveal The Significance Of Their Understanding Of God, The Nature Of Soul, Spiritual Equality, Concepts Like Karma And Jnana And Importance Of Truth And Non-Violence In The Present Day.

[Melrose and Croc, Emma Chichester Clark](#) , 2005, 0007197292, 9780007197293. An adorable golden labrador and a tiny tiny crocodile make the unlikeliest of friends, but their adventures through everyday experiences will make them an endearing duo for parents and children alike. Ages 2+

[The Complete Corporate Chaplain's Handbook, Lanphier Press, Mark Cress, Chris Hobgood, Dwayne Reece, Corporate Chaplains of Ameria](#) , 2006, 0976215195, 9780976215196. This text exists to fill the procedural and information gap for workplace ministry. The content found on these pages is a culmination of more than 50 years of workplace experience, 26 years of higher level education, and nearly 30 years of ministry experience. As a corporate chaplain, would you really be comfortable helping someone considering a life and death decision? How about the stress of blended families? Knowing when to present the life-changing Good News of Jesus Christ can be a sensitive matter. Do you know how to gain permission to share effectively? Having faced these, and many other issues found in workplace ministry, the authors have compiled the most comprehensive body of work on this subject to date. Pertinent topics include confidentiality,

addictions, suicide, legal matters, relationship issues, and many more. -- from back cover

[Twisted: Tales to Rot Your Brain, Volume 1,](#) , 2011, 0983669902, 9780983669906. Twisted: Tales to Rot Your Brain Vol. 1 collects 28 flash fiction stories in a book that targets anyone who giggles when a tale takes a surprising turn, from middle grade readers through their adult counterparts. The stories in the collection unfold using traditional text and illustrations and even a graphic novel. And all of the stories lean toward the edge of the twisted: told from unexpected perspectives; not about what you thought they were; head off in a direction you weren't counting on. And here's hoping you never see it coming. Blindsided. Time to giggle.

[Object-oriented Programming: Using C++ for Engineering and Technology, Goran Svenk](#) , 2003, 0766838943, 9780766838949. Ideal for intermediate or advanced programmers, Object-Oriented Programming Using C++ for Engineering encourages users to adopt a pure object-oriented approach to problem solving. Introductory chapters of this how-to and reference manual discuss C++ enhancements to procedural programming in C, highlighting similarities and differences between these two languages to minimize the learning curve. Drawing from a rich collection of practical engineering technology examples, the remaining chapters of the book engage readers in an in-depth examination of essential object-oriented programming concepts. Every chapter features many sample programs, end-of-chapter review problems, programming projects, and real-world case studies to promote learning and aid readers in developing new and useful C++ skills. Moreover, all information is based on the latest C++ standards as defined by ANSI/ISO, making this book an indispensable how-to manual, long-lasting reference and handy sourcebook for programmers of all abilities.

[The Motor Vehicles \(Driving Licences\) \(Amendment\) Regulations 2011, Great Britain](#) , 2011, 0111516358, 9780111516355. Enabling power: Road Traffic Act 1988, ss. 92 (2) (4), 105 (1) (2) (a) (3), 108 (1). Issued: 28.10.2011. Made: 19.10.2011. Laid: 24.10.2011. Coming into force: 15.11.2011. Effect: S.I. 1999/2864 amended. Territorial extent & classification: E/W/S. General. These regulations implement the minimum standards of medical fitness required for diabetes mellitus as specified in Directive 2009/112/EC and Directive 2009/113/EC which amend respectively Directive 91/439/EEC and 2006/126/EC

[The Sale of the Late King's Goods: Charles I and His Art Collection, Jerry Brotton](#) , 2007, 0330427091, 9780330427098. Set against the backdrop of war, revolution, and regicide, and moving from London to Venice, Mantua, Madrid, Paris and the Low Countries, Jerry Brotton's colourful and critically acclaimed book explores the formation and dispersal of King Charles I's art collection. Following a remarkable and unprecedented Parliamentary Act for The sale of the late king's goods, Cromwell's republican regime sold off nearly 2,000 paintings, tapestries, statues and drawings in an attempt to settle the dead king's enormous debts and raise money for the Commonwealth's military forces. Brotton recreates the extraordinary circumstances of this sale, in which for the first time ordinary working people were able to handle and own works by the great masters. He also examines the abiding relationship between art and power, revealing how the current

Royal Collection emerged from this turbulent period, and paints its own vivid and dramatic picture of one of the greatest lost collections in English history. 'A rip-roaring slice of seventeenth-century England...Readable history at its best' Kate Mosse, author of Labyrinth

[Caf Gandolfi: Cookbook, Seumas Macinnes](#) , 2009, 0956405002, 9780956405005.

[The Cat on a Hot Thin Groove.](#) , 2013, 1606996177, 9781606996171. On the long road to becoming an Oscar-winning animation director, Gene Deitch became an intense jazz fan. At the age of 21, he discovered The Record Changer magazine, a jazz fan magazine filled with obsessive, scholarly, and purist essays about jazz as well as listings of hard-to-find jazz albums. Every jazz swinger in the '40s was called a cat (as in cool cat), so Gene Deitch created a cartoon feature for Record Changer titled The Cat, which quickly became a fixture of the magazine. He also started drawing the covers, which graced almost every issue from 1945 to 1951 along with The Cat. Deitch's stylistically virtuoso images exquisitely embodied the essence of the 1950s hipster, and was a visual paean to the joy of collecting records and appreciating jazz. The Cat on a Hot Thin Groove collects all of Deitch's Record Changer work in one gorgeous, coffee-table art book, with commentary and reminiscences by Deitch himself. Originally published in 2003 in hardcover and out-of-print for almost a decade, this first-ever paperback edition will delight a new generation of fans.

[Raise Your Hand: Adventures of an American Springsteen Fan in Europe, Caryn Rose](#) , 2012, 0983502927, 9780983502920.

[Risk Management Framework: A Lab-Based Approach to Securing Information Systems, James Broad](#) , 2013, 0124047238, 9780124047235. The RMF allows an organization to develop an organization-wide risk framework that reduces the resources required to authorize a systems operation. Use of the RMF will help organizations maintain compliance with not only FISMA and OMB requirements but can also be tailored to meet other compliance requirements such as Payment Card Industry (PCI) or Sarbanes Oxley (SOX). With the publishing of NIST SP 800-37 in 2010 and the move of the Intelligence Community and Department of Defense to modified versions of this process, clear implementation guidance is needed to help individuals correctly implement this process. No other publication covers this topic in the detail provided in this book or provides hands-on exercises that will enforce the topics. Examples in the book follow a fictitious organization through the RMF, allowing the reader to follow the development of proper compliance measures. Templates provided in the book allow readers to quickly implement the RMF in their organization. The need for this book continues to expand as government and non-governmental organizations build their security programs around the RMF. The companion website provides access to all of the documents, templates and examples needed to not only understand the RMF but also implement this process in the readers own organization. A comprehensive case study from initiation to decommission and disposal Detailed explanations of the complete RMF process and its linkage to the SDLC Hands on exercises to reinforce topics Complete linkage of the RMF to all applicable laws, regulations and

publications as never seen before

[The Important Books: Children's Picture Books as Art and Literature, Joseph Stanton](#) , 2005, 0810851768, 9780810851764. The children's picture book is an important form of literary-visual art. In this volume, Joseph Stanton disposes of some of the assumptions that have tended to obscure this genre's achievements. While focusing on those books that are distinguished by some degree of originality in both word and image, the author points out that the importance of picture books is not primarily pedagogical they are not intended to serve as "dumbed down" versions of young adult or adult novels and the audience for these great books is not solely children. Because the children's picture book is designed to provide the context for an intimate transaction involving the imaginations of both parent and child, there is a social value to the form that lends a special poignancy to the pleasure it provides. The Important Books takes a look at some of the most significant and talked about authors, illustrators, and titles in the genre, including Maurice Sendak, Margaret Wise Brown, William Joyce, and Chris Van Allsburg."

[Games Magazine Presents Riddlers: Puzzles to Tickle Your Mind, Karen Anderson](#) , 1994, 0812923855, 9780812923858. Riddlers are two puzzles in one--solve the puzzle and the answer will help solve a riddle. Featuring the same editor as Games Magazine Presents the Kids' Giant Book of Games--selling over 16,500 copies--this new book is sure to be a hit with kids and adults alike. Illustrated.

[The Rajneesh Story: The Bhagwan's Garden, Dell Murphy](#) , 1986, 0961694203, 9780961694203.

[Mind the Gap: Own your past, know your generation, choose your future, Graeme Codrington, Sue Grant-Marshall](#) , 2012, 0143529110, 9780143529118. The way you parent, the clothes you buy, your relationships with your boss and your daughter, your attitude to money and sex, are, to an extraordinary extent, defined by the era into which you were born. Parents, the church, teachers and employers think they understand youngsters because they, too, were young once. But adults no longer live in the world that existed when they were teenagers. We may occupy the same space, home, classroom or office but we live in different worlds. And these worlds often collide. We've moved in one century from a 'built to last' to a 'throwaway' society. No wonder age differences are so vast. In this book you will discover your

generation and those of the people who make up your life. Once you understand what makes them, and you, tick, the 'gen gap' begins to shrink. Fasten your seatbelt for a generational roller coaster ride - you may never think the same way again! In this book you'll understand why: your boss insists on endless meetings and conferences; your 20-something student doesn't want a 50-something computer teacher; you're in your 40s but still trying to prove yourself to Mom and Dad; your teacher should be learning from you.

[My Greatest Accomplishment, Paul Sweeney](#) , 2001, 0970592302, 9780970592309.

[Reinventing the Future: Conversations with the World's Leading Scientists, Thomas A. Bass](#) , 1994, 020162642X, 9780201626421. The scientists in this collection of interviews are explorers. They have changed the rules of the game - altered our perception of reality and the language used to describe it. "There are two kinds of scientists, " says Luc Montagnier, interviewed in this volume, "the explorers who set out to discover new territories - either an island or an entire continent - and those who occupy these territories and build structures on them." This book is full of newly discovered continents. In eleven lively interviews, Thomas Bass's Reinventing the Future takes us on a tour through a breathtaking array of ideas. It opens vistas into molecular and cell biology, genetics, chaos theory, new drug research, and other disciplines in the process of shaping - reinventing - the future. The interview format is a marvelous way to learn about scientific research. It puts the passion back into ideas. It highlights the questions and doubts that often precede great discoveries. Thomas Bass's success in emboldening these scientists to discuss their lives and work makes for dramatic reading. As Norman Packard, another interviewee explains it, "Information equals surprise, and the more information you have, the more surprised you are." This is a book full of surprises.

[Ballad of the Confessor, William Zink](#) , 2004, 0970070209, 9780970070203. Ballad of the Confessor is a visceral account of one man's struggle against the humiliating elements of physical and emotional distress. Set in the shadows of Charleston's pastel mansions, it's a story about the here and now -- the daily reality for a motley group of outcasts, drifters, and dreamers, whose lives are forever bound by the thread of mutual hope.

[Where the Buffaloes Begin, Olaf Baker](#) , 2007, 1435208919, 9781435208919. After hearing the legend retold by the tribe's oldest member, Little Wolf hopes to someday witness the beginning of the buffaloes at the sacred lake.

[Developing Countries and the Multilateral Trade Regime: The Failure and Promise of the Wto's Development Mission, Donatella Alessandrini](#) , 2010, 1849460302, 9781849460309. This book explores the way in which 'development' has functioned within the multilateral trade regime since de-colonization. In particular, it investigates the shift from early approaches to development under the General Agreement on Tariffs and Trade (GATT) to current approaches to

[Conjugate Heat and Mass Transfer in Heat Mass Exchanger Ducts, Li-Zhi Zhang](#) , 2013, 012407782X, 9780124077829.

Conjugate Heat and Mass Transfer in Heat Exchanger Ducts bridges the gap between fundamentals and recent discoveries, making it a valuable tool for anyone looking to expand their knowledge of heat exchangers. The first book on the market to cover conjugate heat and mass transfer in heat exchangers, author Li-Zhi Zhang goes beyond the basics to cover recent advancements in equipment for energy use and environmental control (such as heat and moisture recovery ventilators, hollow fiber membrane modules for humidification/dehumidification, membrane modules for air purification, desiccant wheels for air dehumidification and energy recovery, and honeycomb desiccant beds for heat and moisture control). Explaining the data behind and the applications of conjugated heat and mass transfer allows for the design, analysis, and optimization of heat and mass exchangers. Combining this recently discovered data into one source makes it an invaluable reference for professionals, academics, and other interested parties. A research-based approach emphasizing numerical methods in heat mass transfer Introduces basic data for exchangers' design (such as friction factors and the Nusselt/Sherwood numbers), methods to solve conjugated problems, the modeling of various heat and mass exchangers, and more The first book to include recently discovered advancements of mass transfer and fluid flow in channels comprised of new materials Includes illustrations to visually depict the book's key concepts

[New Designs in Raised Embroidery, Barbara Hirst, Roy Hirst](#) , 1997, 1853915785, 9781853915789.

[Geochemistry of Hydrothermal Ore Deposits, Volume 1, , Hubert Lloyd Barnes](#) , 1997, 047157144X, 9780471571445.

This new edition reflects the great progress made over the past seventeen years, such as the discovery of dramatic undersea hydrothermal vents. It provides users with a solid theoretical understanding of the geochemistry of hydrothermal ore deposits. Describes a key process in the generation of ore deposits.-- Incorporates most recent research findings.-- Includes a disk containing data on the chemical and physical properties of hydrothermal fluids.

[The Other World: Issues and Politics of the Developing World, Joseph N. Weatherby](#) , 2005, .

[Writing Guidelines for Applied Science Students, Lisa Emerson, John Hampton](#) , 2005, . How do I write a report to a grower? What does plagiarism mean? What should a research report look like? Where do I start looking for information? All these questions and more will become important to you when you are studying science and applied sciences. Whether you are at university or polytechnic, this book will guide you through the assignment writing process. This revised edition updates APA referencing (fifth edition), extends the chapters on presenting data and accessing information, and offers additional tips on how to avoid plagiarism and use secondary sources effectively. Writing Guidelines for Science and Applied Science Students is an invaluable resource for students and teachers alike. It is essential reading for all who write or design assignments in science courses as well as agriculture, horticulture and related fields of study.

[Sphaika, Volume 1, , Lakshmdhara Mlavya](#) , 2007, . Selected works of a Hindi author.

[Creative Research: The Theory and Practice of Research for the Creative Industries, Hilary Collins](#) , 2010, 2940411085,

9782940411085. The book begins with an overview of the field of research within the context of the creative industries, and then goes into detail on the stages involved in undertaking a research project within this field. You will be introduced to a range of philosophical assumptions upon which your research can be based and the implications of these assumptions on the method or methods that you choose. In addition to this, techniques and procedures for collecting and analyzing different types of data are examined and analyzed in detail. Each topic is accompanied by a main text with visuals outlining the key issues and debates. The topics are accompanied by key word definitions and explanations, plus references to key texts for further reading. Questions are also identified to get the reader thinking about the issues raised, to confront expectations and to make informed choices. Interviews with leading practitioners and academics give insight on current debates on research practice. The skills necessary to promote the effectiveness and validity of research within the creative industries are highlighted in case studies, all of which also demonstrate what a well-designed research project can achieve.

[Venice Rediscovered, John Pemble](#) , 1996, 0192853287, 9780192853288. Venice, the city of the soul. In the two centuries since its political extinction, this shabby relic of a despised tyranny has become one of our greatest modern icons. As American consul Edmund Flagg wrote in 1853, in words that hold true today, "To one weary of the world...there is not a spot in all Italy--in all the world perhaps--as beautiful as Venice." In *Venice Rediscovered*, historian John Pemble traces the development of our modern passion for the city of canals, charting its evolution from a forgotten oddity in the 18th century to a celebrated center for the arts, a city that saw its glory in the years before World War I as home for a great expatriate community and host to a golden age in literature. He begins his history in 1797, when Venice, still accessible only by sea, ceased to be a sovereign republic and saw its captains and the kings depart. A viaduct across the lagoon would not be opened until a half century later, and in 1857 a railway was completed to Milan. For the first time, Venice was within reach of the travelling public of Europe and the United States. By 1881, Henry James could write of tour guides "leading their helpless captives through churches and galleries in dense, irresponsible groups," but Pemble maintains that it was the development of the Lido beach resort that finally put Venice on the map for the chic international clientele. The combination of architectural wonder, literary associations, and seaside sophistication built a scene that led Ezra Pound to wryly remark in 1913 that Venice "seemed yesterday like one large Carlton Hotel." Drawing on an international range of published and unpublished sources, Pemble links this transfiguration of Venice to the larger current of social and intellectual changes sweeping Europe and North America. Evoking the enduring appeal of Venice to novelists, historians, and other apostles of culture--Pound, James, Ruskin, Proust, Mann, and Nietzsche among them--Pemble explains how their perceptions of the city gradually changed, and how they created the language and the imagery that shaped one of the most potent paradoxes of modern culture--Venice as a paragon of a timeless but fading elegance, constantly worshipped yet forever dying, sinking daily into the canals that define it. Though the famed literary

center has given way to museum tours and moonlit gondoliers, Venice remains a destination of distinction for travellers from around the world. A searching exploration of our eternal fascination with a city that continues to inspire artists, writers, and lovers alike, Venice Rediscovered is an important contribution to our understanding of modern culture and will captivate anyone who has ever visited--or dreamed of visiting--Venice itself.

[Trkiye'de Ordu ve nsan Haklar hlalleri, Study Center on Turkey](#) , , 0987936654, 9780987936653. Aslında bir kitaptan ok bir rapor, bir derleme olan bu almay, Hollandada bulunan Study Center on Turkey adlı organizasyonun saladık lekli bir finansal destekle sevgili arkadaşım Ayegül Kuru ile birlikte hazırladık. Her ikimiz de zmir Savaş Kartlar Derneğinin (SKD) aktif üyeleriydik. Antimilitarist bir yaklaşımla ve haklı haksız ayrımı yapmadan tüm savalara karşı kanlıların bir araya geldiği bu dernekte vicdani ret, iddet kartlı (iddetten arınmış politik eylem), Kırt sorunu ve Trk - Yunan sorunu balca alma konularını oluşturmaktaydık. Vicdani reddin, savaa karşı bireysel bir direniş olmasının yanı sıra, eer politik/kitlesele bir boyut kazanırsa savanın son bulmasını sağlayacak balca etkenlerden biri olabileceğini düşünüyorduk. Bunun için yapmamız gereken pek çok şeyden biri de zorunlu askerlik ile srmekte olan savanın karlı etkileiminde bireylerde ve toplumda yol atar tahribat ve travmayı önlemek olacaktır. Bunu en iyi şekilde savaa katılan askerlerin, hatta imkan olursa gerillaların, yaadıkları acı ve travmatik deneyimleri anlatmalarını sağlayarak yapabileceğimizi düşünüyoruz.
