[Tristes tropiques, Claude Lvi-Strauss](#) , 1992, 0140165622, 9780140165623. Tristes Tropiques was an immensely popular bestseller when it was first published in France in 1955. Claude Levi-Strauss's groundbreaking study of the societies of a number of Amazonian peoples is a cornerstone of structural anthropology and an exploration by the author of his own intellectual roots as a professor of philosophy in Brazil before the Second World War, as a Jewish exile from Nazi-occupied Europe, and later as a world-renowned academic (he taught at New York's New School for Social Research and was French cultural attache to the United States). Levi-Strauss's central journey leads from the Amazon basin through the dense upland jungles of Brazil. There, among the Amerindian tribes - the Caduveo, Bororo, Nambikwara, and Tupi-Kawahib - he found "a human society reduced to its most basic expression." Levi-Strauss's discussion of his fieldwork in Tristes Tropiques endures as a milestone of anthropology, but the book is also, in its brilliant diversions on other, more familiar cultures, a great work of literature, a vivid travelogue, and an engaging memoir - a demonstration of the marvelous mental agility of one of the century's most important thinkers. Presented here is the translation by John and Doreen Weightman of the complete text of the revised French edition of 1968, together with the original photographs and illustrations.

[Board, Brad Listi, Justin Benton](#) , 2012, 0982859880, 9780982859889. "Board" is a groundbreaking work of literary collage derived entirely from comment boards at The Nervous Breakdown, an online culture magazine and literary community founded in 2006. It is a unique artifact of the Internet Age and the digital revolution in publishing. It is a cacophony of voices. It is what your computer screen sounds like, only better. It is strangely moving. And painfully honest. And shockingly funny and mean. It is all of these things. And it is essential reading for anyone who spends too much time sitting slack-jawed in front of a computer screen. ..".an unprecedented literary endeavor...beautifully, often poetically written...It s as if the cultural curiosity of a David Markson were being siphoned through the real life followers of his work in an art-imitating-life-imitating-art-imitating-Markson kerfuffle that s quite easy to become both engrossed by, and obsessed with...This is one to buy, study, enjoy..." HTML Giant "Expertly interweaving its leitmotifs technology, dreams, sex food, 'identity politics, ' death Board is a book in conversation with itself about a culture at war with itself. A sharp, funny, and unexpectedly moving take on contemporary America in the digital age." David Shields, author of "Reality Hunger" and "How Literature Saved My Life" "A must-read exhilarating, hypnotic, hilarious, and fun." Jeff Ragsdale, author of "Jeff, One Lonely Guy" "Fascinating, funny, full of enthusiasm and great loneliness a portrait of the web in its own words." Ben Loory, author of "Stories for Nighttime and Some for the Day" "Sweet." Megan Boyle, author of "selected unpublished blog posts of a mexican panda express employee"

9780137379736. This collection of original manuscripts--representing a cross-section of the timeliest scholarship in public personnel administration--explores the theme of problems and prospects in public personnel administration. The contributions are organized into four broad sections: The Setting, The Techniques, The Issues, and Reform and the Future. Section One focuses primarily on the social, political, economic, and legal trends that have served as catalysts in the transformation of public personnel administration. Section Two is composed of selections that summarize developments in the practice of HRM, with special emphasis on emerging personnel techniques and the ways that traditional approaches to the staffing function are being revised. Section Three discusses and suggests responses to some of the most troublesome or pervasive issues in modern personnel management. The final section assesses the probable trends in the field's future, and analyzes the efficacy of recent reform efforts. For human resource personnel looking to broaden their perspective in the field.

[Understanding Renewable Energy Systems: For a Sustainable Future.](#) , 2011, 0987057219, 9780987057211. This book brings together the essential elements needed to gain an understand of the basic principles of, energy, energy auditing, solar energy, wnd energy and micro hydro , energy systems. This resource includes : an understanding of basic electrical systems both AC and DC, safety issues including current regulations regarding design and installation rules, circuit protection and component sizing. In addition the text includes a STEP by STEP guide to effectively designing : Standalone Energy Systems ; Grid Connected Energy Systems ; Mini Grid Systems and Hybrid Energy Systems. Essential elements included cable sizing, de-rating factors, locating solar arrays, wind turbine and micro hydro systems, maximum power point tracking, battery bank sizing and rules of design and a guide to maintaining system performance.

[Before During Or After Rainstorms, Boni Joi](#) , 2011, 0979149533, 9780979149535. Poetry. "Boni Joi's work combines 21st century charm with ancient wisdom. Her work often springs from an idea that she spins out with wit and surprise. She's not afraid to shock and more importantly she's not afraid to be quiet."Joanna Fuhrman""As long as the sun shines I sparkle,' says Boni Joi, and her first collection does just that. The beer bottles that clank in the moonlight sparkle; the forest of lit windows sparkles; Captain Eddie's houseboat, the pasta bugs and the archaic violence of a Greek play sparkle as well. It is the sparkle of ordinary things rendered revelatory by Bon's loving, mindful attention. As we see what she sees, extraordinary time kicks in, and we meet her on 'a fall day at summer's end like other summers ending,' completely lost in her moment, loving our new perdition."Sharon Mesmer"These tabulations of the daily shifts in a city and its skies will turn you on your head as soon as you realize that what was 'pocket-sized, wide apart and cupcake-shaped' are the treads on the poet's tires, 'sharp...as hard candy,' clear-eyed and fast."Eleni Sikelianos

The series features artists' reconstructions of the time as drawn from archaeological evidence, as well as a variety of primary written sources, timelines, maps, and photographs.

[A Trader's First Book on Commodities \(Introduction & Chapter 5\): Choosing a Brokerage Firm, Carley Garner](#) , 2010, 0132485419, 9780132485418. You can make large profits by trading commodities--but youll need significant practical knowledge of the associated risks and market characteristics before you start. A Traders First Book on Commodities is a simple, practical and useful guide for new commodities traders. Author Carley Garner provides specific guidance on accessing commodity markets cost-effectively, avoiding common beginners mistakes, and improving the odds of successful, profitable trades. Drawing on her extensive experience teaching traders, Garner shows how to calculate profit, loss, and risk in commodities, and choose the best brokerage firm, service level, data sources, and market access for your needs. Shell help you: Master the basics of trading commodities painlessly, avoiding beginners mistakes Get what you need, and prevent paying for what you dont need Know what youre buying, what it costs, the returns youre earning and the risk youre taking Predict price, manage risk, and make trades that reflect your analysis Garner demystifies the

industry's colorful language, helps you clearly understand what you're buying and selling, and walks you through the entire trading process. She concludes with a refreshingly new look at topics such as trading plans, handling margin calls, and even maintaining emotional stability as a trader. This book provides the type of information every trader needs to know and the type of information too many traders had to learn the hard and expensive way. Carley offers practical need-to-know, real-world trading tips that are lacking in many books on futures. It will help not only the novice trader, but seasoned veterans as well. This book will serve as a must-have reference in every trader's library. --Phil Flynn, Vice President and Senior Market Analyst at PFG Best Research, and a Fox Business Network contributor Refreshing It's nice to see a broker who has actually been exposed to the professional side of trading and who bridges that chasm between exchange floor trading and customer service. Carley takes the time to explain verbiage, not just throw buzz words around. A good educational read in my opinion. --Don Bright, Director, Bright Trading, LLC This book has the perfect name, the perfect message, and the necessary information for any beginning trader. Take this book home! --Glen Larson, President, Genesis Financial Technologies, Inc. As a 35-year veteran of the CME/CBOT trading floor, I can tell you those who think they can begin trading commodities without knowing the less talked about topics that Carley discusses in *A Trader's First Book on Commodities* are sadly mistaken. Anyone who trades their own account, or would like to, should read this book. --Danny Riley, DT Trading

[Time-saver standards for landscape architecture: design and construction data, Nicholas T. Dines, Kyle D. Brown](#) , 1998, . The site design and construction reference of the design professions. Newly designed and containing 40 percent completely new content, Time-Saver Standards for Landscape Architecture, Second Edition, continues to be the most complete source of site construction standards and data for the design and planning professions and related academic disciplines. It maintains and enhances its emphasis on promoting environmentally suitable techniques, processes, and materials aimed at mitigating the impact of construction intervention. This essential and comprehensive Second Edition not only covers the major changes that have occurred in the last decade, it also serves as a framework for future trends. It is fully metric, to meet Federal and International requirements, with expanded coverage of handicapped access and human dimensional standards. Time-Saver Standards for Landscape Architecture, Second Edition, features increased coverage of: site storm water best management" practices; new urban tree planting and xeriscape concepts; earth retaining structures and pavement design; land reclamation, including soil and vegetation restoration; metric site layout practices, including recreation facilities; energy and resource conservation; natural processes and site construction procedures; new expanded construction details; simplified construction materials data. In the time honored tradition of Time-Saver Standards, this Second Edition combines the expertise of over 200 design professionals to create a working resource for all who plan, design, manage, and build human landscapes. Over 50 sections provide concise tables, checklists, Key Point" text summaries, and illustrations to provide an invaluable information resource for offices and classrooms throughout the world.

[Indian National Evolution, Amvika Charan Mazumdar](#) , 2007, 1406712108, 9781406712100. PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of

the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

[Cengage Advantage Books: Foundations of the Legal Environment of Business, Marianne Jennings](#) , 2012, 1133187528, 9781133187523. FOUNDATIONS OF THE LEGAL ENVIRONMENT OF BUSINESS, 2E uses an integrated approach to thoroughly explore the intersection of law, business strategy, and ethics. By employing over 200 real-world cases and critical-thinking exercises in its student-friendly writing style, the textbook enables future managers to begin applying business law concepts from the first page. And with its solid theme on ethics, FOUNDATIONS OF THE LEGAL ENVIRONMENT OF BUSINESS, 2E challenges students to define their moral compass within the business world. In addition, the textbook fulfills current curricular and AACSB accrediting standards. [Quick Work Elementary Tb, John Hughes](#) , 2002, 0194572897, 9780194572897. Quick Work is an innovative, flexible, three-level short course in Business English. The course is designed for busy adult professionals and it can be used as a short, intensive one-week course, or for extensive or modular courses spread out over several weeks. Key Features This is a short, pacy course which is practical, flexible, and easily accessible to both students and teachers. It has a distinctive task-centred approach, with the aim of developing key business-related skills and language. The language syllabus is selective - language is addressed on a need-to-know basis in the Student's Book, with a more systematic review of grammar in the Workbook. Each of the five units covers key areas such as dealing with people, participating in meetings, exchanging information, and problem-solving. The principal focus is on developing students' speaking and listening skills. Each unit is divided into five or six sub-sections, which all end with a practical, work-related output task. There is a more substantial output activity at the end of the unit. Learners are encouraged to draw on their existing skills, knowledge, and experience of the workplace to carry out these tasks. Contexts are introduced by up-to-date material from a variety of authentic sources. The content has an international feel, and does not present specifically British or American cultural or linguistic models. There is a strong emphasis on vocabulary development, with key vocabulary lists in each unit. Student's Book Five units, each subdivided into five or six different sections Information files, with additional information for pair work and group work activities Tapescript Glossary of over 150 business-related terms

[Management Information Systems: New Approaches to Organization and Technology, KENNETH C AUTOR LAUDON, JANE PRICE AUTOR LAUDON](#) , 1998, 0138577234, 9780138577230. Designed for the sophomore through MBA level Management Information System, Information Technology, and Information System courses taught in departments of Business, Management Information Systems, Information Systems, Computer Systems, and Management. This best-selling text, through four editions, has prepared students for the ever-changing demands of information systems

management by focusing on the interconnections between technology, the organization, and IS management.

Additionally, the authors track emerging technologies and organizational trends using real business examples to illustrate MIS issues and concepts. The Fifth Edition offers expanded coverage of the Internet and focuses on the way this new resource is transforming the way firms conduct business. Business processes are now introduced in Chapter 3 with a discussion of how they can impact the redesign of an organization to be more competitive. A continuously updated web site supports the new edition by providing on-line exercises with links to interesting URLs that enhance and enrich the material offered in the text. Internet Connection icons with the text margins note when additional web resources are available.

[The City of Gems, Joanna Trollope, Caroline Harvey](#) , 2012, 0552168858, 9780552168854. On the fifteenth of February, 1879, the day on which Queen Supayalat of Mandalay ordered eighty members of of royal family to be clubbed to death, Maria Beresford celebrated her twenty-first birthday. On that day Maria knew nothing of Mandalay, the fairy-tale City of Gems. The selfish, difficult but heart-stoppingly beautiful daughter of a failed tea-planter in India devoted herself to pleasure. But when her father was sent to Burma, and she had to accompany him, she became embroiled in an exotic world of political intrigue. Her friendship with the Queen - a dangerous and unpredictable figure - and her growing closeness to Archie Tennant, a young man who has come east to seek his fortune after the ruin of his family business, brought her both danger and the key to her destiny.

[Blood and Shadows, John Wagner, Ian Edginton](#) , 2001, 1569715211, 9781569715215. Rome had better be ready to rumble! Eli, the man responsible for resurrecting Xena and Gabriella, is a prisoner set to die in the Roman Coliseum. To free Eli and his devoted followers, Xena must travel to the cultural and governmental center of the world and put her life on the line in the chariot race to end all chariot races before all of Rome in the Circus Maximus! But don't think the Romans will make things easy for her. Sparks will fly and heads will roll! Plus, Vikings, mercenaries, witches, monsters, and more!

[Danger at the Sea of Cortez, G. g. Robins](#) , 2006, 0972698159, 9780972698153. Very few tourists ever go to the small, Mexican fishing village on purpose. That was the first surprise. The second was, Harry Tinklepaw is anything but a tourist. The kids had never met anyone like the strange little, old Americanwho knows things he couldn't possibly know, or the odd troop of animals that travel with him in the big, green Winnebago. It's about dangerous diamond smugglers,

had all the ladies--until their bodies, like Solotaroff's, completely shut down. But this isn't the gloom-and-doom addiction one might expect--Solotaroff looks back at even his lowest points with a wicked sense of humor, and he sends up the disco era and its excess with all the kaleidoscopic detail of *Boogie Nights* or *Saturday Night Fever*. Written with candor and sarcasm, *THE BODY SHOP* is a memoir with all the elements of great fiction and dazzlingly displays Paul Solotaroff's celebrated writing talent.

[The Fine Art of Success: How Learning Great Art Can Create Great Business, Jamie Anderson, Jrg Reckhenrich, Martin Kupp](#) , 2011, 1119992532, 9781119992530. You've read about Jack Welch, Lou Gerstner and Steve Jobs - but what can you learn about business from van Gogh and Picasso? *The Fine Art of Success* shows why you should look to pop-stars like Madonna or artists like Damian Hirst for guidance on innovation, competitive advantage, leadership, and a host of other business issues. Managers, marketing professionals, and students will see how these creative artists can help their organizations. Chapters include Madonna - Strategy at the dance floor; Damian Hirst - The shark is dead/How to build yourself a new market; Beuys Understanding creativity, is every manager an artist; Picasso Art lessons for global managers; Koons Made in Heaven produced on earth; and Paik Global Groove, innovation through juxtaposition. With controversial ideas, fascinating facts and memorable examples, *The Fine Art of Success* delivers business lessons that you'll be eager to apply.

[Mobile 3D Graphics: with OpenGL ES and M3G, Kari Pulli, Tomi Aarnio, Ville Miettinen, Kimmo Roimela, Jani Vaarala](#) , 2007, 0080555918, 9780080555911. Graphics and game developers must learn to program for mobility. This book will teach you how. "This book - written by some of the key technical experts...provides a comprehensive but practical and easily understood introduction for any software engineer seeking to delight the consumer with rich 3D interactive experiences on their phone. Like the OpenGL ES and M3G standards it covers, this book is destined to become an enduring standard for many years to come." - Lincoln Wallen, CTO, Electronic Arts, Mobile This book is an escalator, which takes the field to new levels. This is especially true because the text ensures that the topic is easily accessible to everyone with some background in computer science...The foundations of this book are clear, and the authors are extremely knowledgeable about the subject. - Tomas Akenine-Mller, bestselling author and Professor of Computer Science at Lund University "This book is an excellent introduction to M3G. The authors are all experienced M3G users and developers, and they do a great job of conveying that experience, as well as plenty of practical advice that has been proven in the field." - Sean Ellis, Consultant Graphics Engineer, ARM Ltd The exploding popularity of mobile computing is undeniable. From cell phones to portable gaming systems, the global demand for multifunctional mobile devices is driving amazing hardware and software developments. 3D graphics are becoming an integral part of these ubiquitous devices, and as a result, *Mobile 3D Graphics* is arguably the most rapidly advancing area of the computer graphics discipline.

Mobile 3D Graphics is about writing real-time 3D graphics applications for mobile devices. The programming interfaces explained and demonstrated in this must-have reference enable dynamic 3D media on cell phones, GPS systems, portable gaming consoles and media players. The text begins by providing thorough coverage of background essentials, then presents detailed hands-on examples, including extensive working code in both of the dominant mobile APIs, OpenGL ES and M3G. C/C++ and Java Developers, graphic artists, students, and enthusiasts would do well to have a programmable mobile phone on hand to try out the techniques described in this book. The authors, industry experts who helped to develop the OpenGL ES and M3G standards, distill their years of accumulated knowledge within these pages, offering their insights into everything from sound mobile design principles and constraints, to efficient rendering, mixing 2D and 3D, lighting, texture mapping, skinning and morphing. Along the way, readers will benefit from the hundreds of included tips, tricks and caveats.*Written by experts at Nokia whose workshops at industry conferences are blockbusters*The programs used in the examples are featured in thousands of professional courses each year*Extensive working sample code is presented throughout the book and on the companion website

[The Mystery of Imperial Purple Dye, John Edmonds](#) , 2000, 0953413365, 9780953413362. The ancient industry of imperial purple dyeing was eradicated during the sack of Constantinople in 1453 and its secrets, purposefully kept mysterious, were lost with it. This booklet attempts a practical explanation of the micro-biological processes that could transform, as if by magic, the liquid from marine molluscs into an insoluble purple pigment. The methodology is accompanied by ancient and medieval references to the dye which was used to clothe Alexander the Great, Roman emperors and Christian rulers.

[Acoustic Emission in Friction, Victor M. Baranov, Evgeny M. Kudryavtsev, Gennady .A. Sarychev, Vladimir M. Schavelin](#) , 2011, 0080466273, 9780080466279. Acoustic Emission in Friction is devoted to acoustic, mainly ultrasonic, emission that occurs in friction of machine components. Its crucial novelty is in systematizing the advances in its use for monitoring technical systems, especially in the important nuclear power industry. Written by four well-known experts from the main nuclear research university in Russia, this book covers the following areas: * All the sources of acoustic emission in friction. * The theory of acoustic emission. * The effects of surface conditions, load and velocity on acoustic emission. * The equipment for registration and monitoring of acoustic emission. * Unique data from acoustic emission control under various testing conditions in friction units of machinery for nuclear industry machinery. There is much emphasis on the comparatively new and rapidly developing tribology of nuclear power engineering. Although a substantial part of the experimental data relates to this specific field of engineering, the universality of the method is shown and its application is possible wherever the field inspection of friction units is necessary.* Calculation expressions describing main

worldwide. Key Topics: The author examines cross-cultural management, competitive strategy, and current trends in the global arena. Market: For undergraduate and graduate students majoring in international business or general management.

[The King Of Ireland's Son, Padraic Colum](#) , 2004, 1419168193, 9781419168192. And who are you? said the King of Ireland's Son. "Aefa is my name," said she, "I am the eldest and the wisest daughter of the Enchanter of the Black Backlands. My father is preparing a task for you," said she, "and it will be a terrible task, and there will be no one to help you with it, so you will lose your head surely. And what I would advise you to do is to escape out of this country at once."

[Deep Six, Clive Cussler](#) , 2005, 1416516859, 9781416516859. A ghost ship drifts across the northern Pacific.... A Soviet luxury liner burns like a funeral pyre.... And the U.S. President's yacht is heading for disaster.... Somewhere off the coast of Alaska, a sunken cargo poses a threat of unthinkable proportions. Potentially, the lost shipment of chemicals could destroy all life in the ocean -- and perhaps the world -- unless DIRK PITT can find it first. But time is running out for the NUMA agent and his team. Pitt's main target is just one deadly component of a vast international conspiracy fueled by hijacking, bribery, and murder. And at the center of it all is a powerful Korean shipping empire with a chilling political agenda -- to kidnap the President of the United States....

[No Choice But Surrender, Meagan McKinney](#) , 1998, 1568956762, 9781568956763. Meagan McKinney's novels shimmer with emotion and sizzle with sensuality. Now she sweeps us away to a magnificent estate outside London as a stranger arrives to possess it, and the beautiful lady it shelters in No Choice But Surrender. Lady Brienne Morrow returned to Osterley Park, her father's opulent mansion, to discover that he had gambled it away. Penniless and alone, she was ready to succeed to the new owner, Avenel Slane, an American with brooding looks and a hot temper. A pawn in Avenel's plans for revenge, Brienne is held against her will. Soon Avenel's tender kisses open a scorching desire quivering within her for love. As fear melts into trust, she risks her heart and soul for this sensual, masterful man who gave her...No Choice But Surrender.

[Environmental Law: Scientific, Policy and Regulatory Dimensions, Lee Godden, Jacqueline Peel](#) , 2009, 0195558766, 9780195558760. Environmental Law equips readers with the tools to understand environmental law in Australia. Taking an innovative and interdisciplinary approach, it explores the rapid changes that law and policy in this area have gone through: to encompass broader notions of environment and a wider range of environmental actors; to embrace knowledge from other disciplines; to employ diverse and innovative regulatory approaches; to expand coverage to international as well as national and local issues, and to integrate with law and policy in other regulatory fields. The influence of these trends means that environmental law can no longer be understood, researched or practiced as a self-contained disciplinary area focused on the application of traditional legal remedies to discrete environmental problems. Rather, the area now encompasses broader, multiple notions of environment, embraces knowledge from other disciplines, employs a diverse and innovative range of regulatory approaches, covers international as well as national and local issues, and is integrated into the policy and legal landscapes of various regulatory fields, including economic development and trade.

[What Is Energy? a Call to the Spiritual Core of Man, Sampson Oke Iruoha](#) , 2011, 0986590622, 9780986590627. This work addresses the primary form of energy which runs through, holds together, furthers and maintains creation or the universe. It alerts the reader or listener to the unique nature of man, which equips him with the ability to direct the flow and intensity of this energy in his material surroundings, as well as makes him responsible for whatever happens in them. In this time, when all happenings and developments are coming together at increasingly quickening rates, he must come to thoroughly understand the true nature of his abilities, so as to be able to make that final decision which must lead him quickly upwards to where he can consciously and infinitely partake in upbuilding activities in creation, or, if he decides differently, have him quickly sink to regions the activities of which must lead to his being forever unable to do so.

[Pilgrimage to the End of the World: The Road to Santiago de Compostela, Conrad Rudolph](#) , 2004, 0226731278, 9780226731278. From Tibetan Buddhists at Jokang to Muslims at Mecca for the hajj, pilgrims across faiths and cultures travel thousands of miles - often by foot - to reach holy sites. Such journeys are considered proof of ultimate devotion, the most important act of an individual's life. The intense mystical and physical aspects of pilgrimages have recently sparked a modern revival, leading travelers in search of spiritual growth and physical challenge to embark on these sacred adventures. Pilgrimage to the End of the World takes the reader, via Conrad Rudolph's able eyes and feet, to the holy site of Santiago de Compostela, believed to be the burial place of the apostle James. Discovered around AD 812, it became one of the most important pilgrimage destinations for Westerners (after Rome and Jerusalem) and has recently received an influx of renewed attention since being named a UNESCO World Heritage Site. Today it is the second most

popular Catholic pilgrimage center, having been visited by Francis of Assisi and Pope John Paul II, among others. one thousand miles along the ancient pilgrimage route from Le Puy, in south-central France, to Santiago, Spain. Offering his perspective as a medieval art historian as well as a veteran traveler, Rudolph melds the ancient and the contemporary, the spiritual and the physical, in a chronicle of his travels to this captivating place. From anecdotes to travel tips for the wise pilgrim (routes to take, physical training required, what to eat, where to stay, what to bring, and even recommendations of other publications), this book is at once travel guide, literary work, historical study, and memoir. Sincerely and engagingly written, it will appeal to travelers, religious scholars, and historians - and will have you wanting to embark for Spain as you close it.

[Reading Like a Writer: A Guide for People Who Love Books and for Those Who Want to Write Them, Francine Prose](#) , 2012, 1908526076, 9781908526076. Long before there were creative-writing workshops and degrees, how did aspiring writers learn to write? By reading the work of their predecessors and contemporaries, says Francine Prose. In "Reading Like a Writer," Prose invites you to sit by her side and take a guided tour of the tools and the tricks of the masters. She reads the work of the very best writers Dostoyevsky, Flaubert, Kafka, Austen, Dickens, Woolf, Chekhov and discovers why their work has endured. She takes pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; she is deeply moved by the brilliant characterization in George Eliot's "Middlemarch." She looks to John Le Carre for a lesson in how to advance plot through dialogue, to Flannery O'Connor for the cunning use of the telling detail, and to James Joyce and Katherine Mansfield for clever examples of how to employ gesture to create character. She cautions readers to slow down and pay attention to words, the raw material out of which literature is crafted. Written with passion, humor, and wisdom, "Reading Like a Writer" will inspire readers to return to literature with a fresh eye and an eager heart.

[Seven Pillars of Wisdom, T.E. Lawrence](#) , 2000, 0141192089, 9780141192086. Although 'continually and bitterly ashamed' that the Arabs had risen in revolt against the Turks as a result of fraudulent British promises of self-rule,

Lawrence led them in a triumphant campaign which revolutionized the art of war. Seven Pillars of Wisdom recreates epic events with extraordinary vividness. In the words of E. M. Forster, 'Round this tent-pole of a military chronicle, T. E. has hung an unexampled fabric of portraits, descriptions, philosophies, emotions, adventures, dreams'. However flawed, Lawrence is one of the twentieth century's most fascinating figures. This is the greatest monument to his character and achievements.

[Imperialistic Politics in Cameroun: Resistance & the Inception of the Restoration of the Statehood of Southern Cameroons, Carlson Anyangwe](#) , 2008, 9956558508, 9789956558506. It always comes as a surprise to many that the British-administered UN Trust Territory of the Southern Cameroons was not granted independence like other colonial territories but was allowed to fall prey to the territorial expansionism of the contiguous state of Cameroun Republic, a former French-administered UN Trust Territory granted independence on 1 January 1960. This book focuses on the unresolved Southern Cameroons colonial predicament, giving insightful accounts of how Cameroun Republic hijacked the Southern Cameroons and is holding its citizens under colonial bondage. The insights include details of the stratagems resorted to by Cameroun Republic to exact submission to its annexation of the Southern Cameroons and to conceal this crime from outside censure. These attempts have met and continue to meet with stiff resistance by the people of the Southern Cameroons. The book is a contribution to the loud and intense conversation on the inevitability of the restoration of the stolen statehood of the former British Southern Cameroons, the restitution of its occupied territory and the reassertion of the dignity and humanity of its people.

[Diagrams for Living: The Bible Unveiled, Emmet Fox](#) , 2010, 0062010409, 9780062010407. A beloved teacher and best-selling author offers diagrams for living to show "how you can come out of limitation and find real happiness." Fox has inspired millions of people over the past forty years through his simple, practical guidelines. In Diagrams for Living he presents valuable keys to living a more fulfilled life drawn from the eloquent spiritual wisdom of the Bible. If we read the

Bible literally, cautions Fox, we miss the eternal power and personal relevance found in its symbols, allegories, and parables. "Whether you realize it or not," he writes, "you are on every page from Genesis to Revelation." Fox shows how to read dramatic biblical stories as symbolic diagrams for living that can "show you how to overcome difficulties and problems, and how to give expression to the deep aspirations that lie hidden in your soul." This power to reveal, inspire, and guide makes the Bible's teachings adaptable to everyone at every stage of spiritual development. Sensible, contemporary, and full of reassurance, *Diagrams for Living* offers sage counsel from a gifted teacher.

[From Hegel to Nietzsche: The Revolution in Nineteenth Century Thought, Karl Lwith](#) , 1991, 0231074999, 9780231074995. Beginning with an examination of the relationship between Hegel and Goethe, Lwith discusses how Hegel's students, particularly Marx and Kierkegaard, interpreted----or reinterpreted----their master's thought, and proceeds with an in-depth assessment of the other important philosophers, from Feuerbach, Stirner, and Schelling to Nietzsche.

[Millimeter Waves and Applicable Interfaces, Chris J. Georgopoulos](#) , 1990, 0944916163, 9780944916162. The TECH EDGE Series is a new generation of handbooks designed for the general electronic community covering a variety of topics & applications. Each book is narrow in scope, yet packed to provide the latest in technological developments &/or solutions to today's engineering problems. Approximately 125 pages of text, illustrations, tables & figures. TECH EDGE books can be bought either individually, as a series, or at group discounts. The first installment of the TECH EDGE Series is a six-book set on RF & Microwaves. Presenting theory while stressing practical aspects & design examples, each book treats pertinent interface problems that most other publications are not concerned with. Nearly 700 pages of text, graphs, figures & tables make up this complete series. Millimeter-wave systems are being developed for many new applications & as higher-performance replacements for lower frequency systems. Written with a minimum of mathematics yet highly illustrated, this easy to assimilate text is aimed at engineers & managers who need to learn about the important aspects & application of this technology.

[Look! Look! Look!, Volume 10, ,](#) , 2006, 0761452826, 9780761452829. Look, look, look what three tiny mice have found. A postcard with a painting entitled "Portrait of Lady Clopton" by Robert Peake on the front. They look, look, look at the painting and see that it has patterns, colors, lines, and shapes. As they keep looking and seeing, they experiment

with paper, scissors, and markers, experiencing the excitement that comes with creative thinking and doing. Children will be inspired by this introduction to art and observation, illustrated with Nancy Elizabeth Wallaces signature paper-cut artwork. A glossary and postcard activity reinforces lessons learned throughout the book.

[Women on the Verge of a Nervous Breakthrough, Ruth Pennebaker](#) , 2011, 1101478489, 9781101478486. Joanie's ex-husband is having a baby with his new girlfriend. Joanie won't be having more babies, since she's decided never to have sex again. But she still has her teenaged daughter Caroline to care for. And thanks to the recession, her elderly mother Ivy as well. Her daughter can't seem to exist without texting, and her mother brags about "goggling,"-while Joanie, back in the workforce, is still trying to figure out her office computer. And how to fend off the advances of her coworker Bruce. Joanie, Caroline, and Ivy are stuck under the same roof, and it isn't easy. But sometimes they surprise each other-and themselves. And through their differences they learn that it is possible to undo the mistakes of the past.

[Selling Water by the River: A Book about the Life Jesus Promised and the Religion That Gets in the Way, Shane Hipps](#) , 2012, 1455522074, 9781455522071. Work, sex, ice cream, religion-they all promise fulfillment. But what they deliver is fleeting. Jesus knew about this quest. He came to show us that peace is possible in this life, not just the next one. Yet Christianity, the very religion that claims Jesus as its own, has often built the biggest barriers to him and the life he promised. Celebrated speaker and pastor Shane Hipps revives the faith with a fresh and persuasive understanding of the message of Jesus. The shocking truth is that Jesus proclaimed "eternal life" as a present reality that dwells within each of us. A transformative breakthrough, this book goes beyond "religion" or "spirituality" and cuts to the heart of our humanity and existence. It's about realizing that we already possess what we are searching for, and that the Heaven we long for isn't just a gift when we die, but a gift while we live.

[The Phonology of English: A Prosodic Optimality-Theoretic Approach, Michael Hammond](#) , 1999, 0198237979, 9780198237976. The Phonology of English offers a new approach to English phonology. It focuses on the prosody of the language, i.e. syllable and foot structure, and does so from an optimality-theoretic (OT) perspective. The book is thus intended as a detailed presentation of novel empirical results about the sound system of English, along with important

theoretical results about phonological theory.

[Pirelli World Rallying 29, Martin Holmes](#) , 2006, 0954543335, 9780954543334. Martin Holmes' World Rallying annuals, for the 19th time with the support of Pirelli, are recognised as the leading books on international rallying in the world. Previous editions have established this annual as the leading reference book of the sport, used by the industry, journalists and rally fans all over the world. Although centred on the 2006 World Rally Championships, there is also coverage of the Asia-Pacific, Middle East and African regional championships, and many national championships around the world, all of which are illustrated comprehensively, primarily by Maurice Selden's photography. The book also gives a unique appendix of results of all the major national rally championships round the world. Pirelli World Rallying 29 will carry various features relating to the people and subjects which become topical as the season progresses. Other contents include the regular features concerning car developments and specifications, top drivers' records, the World Championships roll of honour and a diary of the most significant features of the year.

[The Original Tarot and You, Richard Roberts](#) , 1987, 0942380061, 9780942380064. This classic book on tarot, in print since 1971, was the first to provide transcriptions of actual tarot readings recorded by the author. Through them, Richard Roberts shows you how to read tarot cards using his interactive method of free association and feedback flowing between the reader and the client, allowing the cards to be accessed directly, free from occult or assigned meaning. Roberts uses 7 different tarot spreads: 5-card Yes-No spread, The Magic Seven spread, The 21-card Pyramid, The Three Sevens spread, The 64-card Astrological spread, The Grand Experiment, The 22-card Jungian spread, Roberts' unique creation, which he uses in a reading given for legendary mythologist Joseph Campbell. Book jacket.

[Handbook of North American Indians: Languages, , William C. Sturtevant, Ives Goddard](#) , 1996, 0160487749, 9780160487743. 10th volume to be published in a planned 20 volume set. William C. Sturtevant, general editor. Ives Goddard is the editor of this volume. Provides a basic reference work on the Native languages of North America, their characteristics and uses, their historical relationships, and the history of research on these languages. Contains copyrighted material.

[Let's Learn about Recycling, Matthew Ingram](#) , 2013, . Recycling is fun, and a great way to look after the environment. By learning how to recycle at school and at home we can all make a difference. The planet needs our help, so lets all learn how to recycle.

[Franz Kafka's The Metamorphosis, Harold Bloom](#) , 2008, 0791098273, 9780791098271. Franz Kafka's The Metamorphosis climaxes in the very first line-the protagonist has indeed been transformed. The critical questions lie in the interpretation of the change. Kafka has been said to have offered everything from a psychological parable of the Oedipal struggle to a caricature of psychological readings. In this collection of new critical essays, one of the enduring classics of twentieth-century world literature is once again examined in all its complexity and resonance. Book jacket.

[The Call of the Wild, Jack London](#) , 1987, .

[A World That Works: Building Blocks for a Just and Sustainable Society, Trent Schroyer](#) , 1997, 0942850386, 9780942850383. Animated by the proposition that an economics constrained by respect for the natural world and human dignity is possible, this volume offers a rich menu of alternative ideas and experiences that are moving us toward a more just and sustainable future. It also helped to set the stage for the June 1997 TOES (The Other Economic Summit) in Denver. Many of the ideas and experiences discussed in the book were debated there as alternatives to the official agenda being addressed by the government leaders at the Group of 7 Economic Summit occurring simultaneously. The ideas and experiences presented in this book are grouped around several themes, such as what works to create real wealth, to democratize science and technology, to link sustainability with justice in the real world, and to build sustainable livelihoods and sustainable communities. Must reading for all who believe in and are willing to work for a better

[Emerson Among the Eccentrics: A Group Portrait, Carlos Baker](#) , 1997, 0140260293, 9780140260298. Ralph Waldo Emerson's circle included many of the most brilliant and original minds of his day: Henry David Thoreau, Nathaniel Hawthorne, Amos Bronson Alcott, and Margaret Fuller. Together this eccentric group helped establish Concord, Massachusetts, as a mecca for progressive thinking, including women's rights and religious tolerance. Carlos Baker's indefatigable research included reviewing the journals and correspondence of all the central characters to reconstruct, minutely, entire days. The result is a vivid and textured mosaic not just of the group's interactions but of their daily lives -- what they ate, wore, discussed, read, and cared about. All of this brings Emerson vividly to life in his quotidian relationships -- as young man and old; father, husband, and son; preacher, lecturer, and editor; farmer, guest, and friend. It is by far the most intimate portrait we have of the Sage of Concord and his remarkable entourage.

A classic collection of eight idyllic rural scenes for cross stitchers to enjoy from a selection of favorite designers. Each design encapsulates a moment of rustic tranquillity, from a charming cottage brimming with summer flowers, to a bluebell carpet blanketing a woodland scene. Choose from a selection of smaller designs, ideal for making decorative gifts and embellishments for the home, including drawstring bags, cards, coasters and pot lid designs. With clear color charts, photographs and easy-to-follow stitching instructions it's easy to pick up your needle and threads and escape into the peace and beauty of the countryside.

[Strategic Management: Cases, Fred R. David](#) , 2002, 0130497959, 9780130497956. @COURSE = For undergraduate courses in Strategic Management, Strategy, and Business Policy. Designed in functional four-color, this book offers a popular practitioner-oriented perspective, focuses on skill-building in all major areas of strategy formation, implementation, and evaluation, and weaves three very contemporary themes throughout each chapter: globalization, the natural environment, and e-commerce. Forty-one cases are included. Coverage includes corporate and organizational structure, marketing concepts, financial tools and techniques, strategy implementation issues, as well as extensive integration of global issues and concerns and how global issues and idiosyncrasies relate to specific concepts. For anyone interested in the fields of Strategic Management, Strategy, and Business Policy.

["King Lear", "Macbeth": Indefinition, and Tragedy, Stephen Booth](#) , 2002, 1877275514, 9781877275517. In this provocative book, first published in 1983, Stephen Booth speculates on the essence of tragedy. He argues that the literary works we call tragedies have their value as enabling actions: dramatic tragedies can render us capable, temporarily, of enduring practical, personal experience of the fact of infinity.

[The winds of change: the evolution of the contemporary American wind band/ensemble and its conductor, Frank L. Battisti](#), , 2002, 0634045229, 9780634045226. This expansion on Battisti's The Twentieth Century American Wind Band/Ensemble includes discussions on the contribution of important wind band/ensemble personalities and organizations, and provides important information on hundreds of compositions for this medium. Challenges facing the 21st century wind band/ensemble conductor including training and development are also discussed.

[The Written word: literacy in transition, Gerd Baumann](#), , 1986, 0198750684, 9780198750680. At a time when new information technologies are beginning to challenge our typographic culture with a transition toward a new "secondary" orality, the impact of the written word on our daily lives, our individual perceptions, and our culture has become a matter of intense debate. This collection employs an interdisciplinary approach in its examination of the social and cultural implications of literacy. The contributors discuss, among other issues, the interdependence of the spoken and written word, the cultural and political ramifications of spreading mass literacy, and the consequences of the new electronic technologies, both in publishing and in the visual media, that challenge the supremacy of the written word.

[Far Cry, John Harvey](#), , 2010, 0099505630, 9780099505631. The stunning new title from the Cartier Diamond Dagger winner and Sunday Times bestselling author, John Harvey. Ruth and Simon Grahams rare romantic break is shattered by devastating news: their daughter, Heather, on holiday in Cornwall with a friends family, has disappeared. The loss is more than they or their marriage can bear. But time does heal, and slowly Ruth builds a new life for herself, a new husband, Andrew, even a second daughter, Beatrice. The chances that history should repeat itself are next-to-impossible

that is until, years later, a desperate phone call launches D.I. Will Grayson and his partner, D.S. Helen Walker, into an investigation which will test their professional and emotional resources to the very limit. Yet as Grayson becomes increasingly obsessed with a recently-released child abuser and Helen is drawn deeper into a destructive love affair with a married colleague, there is a real danger that their most testing investigation yet will slip fatefully through their hands. From the Trade Paperback edition.

[Living with Life-Threatening Illness: A Guide for Patients, Their Families, and Caregivers, Kenneth J. Doka](#) , 1998, 0787940488, 9780787940485. A hands-on guide for patients, families, and caregivers on how to live an affirming existence while facing the physical and spiritual traumas of life-threatening illness. Every page of this book reveals the author's keen awareness of the challenges faced by patients, families, and caregivers dealing with life threatening illnesses. In page after page readers will discover clear, practical, and wise suggestions that are well grounded in personal experience. Don't we all know somebody who needs this book now?--Robert Kastenbaum, Ph.D., Editor, Omega Journal of Death and Dying

[Francesco Clemente: Mandala for Crusoe, Francesco Clemente](#) , 2012, 0956990460, 9780956990464. This title explores Clemente's newest body of work from 2012. The recent series brings together 14 paintings which continue the artist's singular pictorial language, gathering together myriad cultural references and merging timeless symbols, iconic imagery and philosophies.

[Stalin's Last Generation: Soviet Post-War Youth and the Emergence of Mature Socialism, Juliane Frst](#) , 2010, 0199575061, 9780199575060. 'Stalin's last generation' was the last generation to come of age under Stalin, yet it was also the first generation to be socialized in the post-war period. Its young members grew up in a world that still carried many of the hallmarks of the Soviet Union's revolutionary period, yet their surroundings already showed the first signs of decay, stagnation, and disintegration. Stalin's last generation still knew how to speak 'Bolshevik', still believed in the power of Soviet heroes and still wished to construct socialism, yet they also liked to dance and dress in Western styles, they knew how to evade boring lectures and lessons in Marxism-Leninism, and they were keen to forge identities that were more individual than those offered by the state. In this book, Juliane Frst creates a detailed picture of late Stalinist youth and youth culture, looking at young people from a variety of perspectives: as children of the war, as recipients and creators of propaganda, as perpetrators of crime, as representatives of fledgling subcultures, as believers, as critics, and as drop-outs. In the process, she illuminates not only the complex relationship between the Soviet state and its youth, but also provides a new interpretative framework for understanding late Stalinism - the impact of which on Soviet society's subsequent development has hitherto been underestimated, including its role in the ultimate demise of the USSR.

[Arabella, Georgette Heyer](#) , 2011, 1446456528, 9781446456521. A dashing and thrilling romance from one of our best-known and most beloved historical novelists. An enchanting debutante and the eldest daughter of an impoverished country parson, Arabella embarks on her first London season. Armed with beauty, virtue and a benevolent godmother (as well as a notoriously impetuous temper) she quickly runs afoul of Robert Beaumaris, the most eligible Nonpareil of the day. When he accuses her of being yet another pretty female after his wealth, Arabella allows herself to be provoked - into a deceitful charade that might have quite unexpected consequences... Arabelle is a tale of Regency romance from the creator - and still the best writer - of this beloved genre.

[The Marvelous Journals of Miss Virginia Pettingill, Gilbert Mansergh](#) , 2012, 0981915329, 9780981915326. Set in the fishing town of Gloucester, Massachusetts during the 1921-1922 school year, The Marvelous Journals of Miss Virginia Pettingill features the private writings of a short, bespectacled, precocious seventh grader who has the ability of Sight which she must keep secret from everyone except her best friend. Encouraged to be a tomboy by her sportsman doctor father, and a proper young lady by her suffragette mother, she writes about her life, her town, her times, and the things she foresees.

[How to Get a Job in 45 Days, Muriel Tempero, Warren Tempero](#) , 1994, 0972682902, 9780972682909. Muriel Mabry Tempero is a pioneer in the field of Career Counseling and Career Coaching. She authored her first book ?A Woman?s Key To The Executive Washroom? in 1976 when the concept of women advancing to executive corporate positions was in its infancy. She dedicated her career to assisting women break through the ?Glass Ceiling? and reach salary parity with men in similar positions. ?How to Get a Job in 45 Days? guides the reader into self-examination, goal setting, and teaches a combination of sophisticated, state of the art job search strategies and strong sales techniques. Special emphasis is placed on a detailed blueprint of successfully penetrating the Hidden Job Market, a concept she pioneered in its early stage that has opened the door for countless women as they advance up the corporate ladder. It gives the reader detailed instructions on how to penetrate this market, a market that flourishes, even when the economy or employment market languishes. It provides you with step-by-step instructions, complete with scripts that are easy to use and proven to work. In the Hidden Job Market you decide on the company or industry in which you want to work. You

work directly with the highest tier of executives, name your own title and set your own salary, all without competition. The Hidden Job Market exists in every company regardless of size. Every company has a certain amount of problems, and if you can convince the decision-makers that you can solve the problems, a position is made for you. Learning these techniques and putting them into practice traditionally is accomplished in 45 days or less. If you are a woman who has the dream or desire to match or exceed the success level of your male counterpart, this book, "How to Get a Job in 45 Days?" is essential.

[Harry the Hypno-potamus: More Metaphorical Tales for Children, Volume 2, Linda Thomson](#) , 2009, 1845901177, 9781845901172. This second book of metaphors for children will entertain and delight while the therapeutic message, cleverly embedded in the story, slips into the unconscious mind of the child. The tales enhance empowerment by exposing children to new possibilities, new perspectives and differing philosophies. For the clinician, the metaphors offer a treasure trove of techniques and hypnotic language that can be adapted for a variety of situations and problems. Harry, a hippopotamus who is very good at using his imagination to help himself with his problems along with Dr. Dan, the Ashland Zoo's veterinarian, help the animals in the zoo by teaching them about hypnosis and the power of their imagination. Each metaphor is about a different animal with a unique problem common to children. The tales expose children to new possibilities, new perspectives and differing philosophies enhancing empowerment. The book also includes a section for the clinician about metaphors and contains suggestions for using the stories with children.

[Choosing to Survive: Seeds of Hope for Abused Children of All Ages, Janice L. Barrett](#) , 2007, 0975911627, 9780975911624. Choosing to survive, Seeds of Hope For Abused Children of All Ages by Janice L. Barrett is not only a touching story of the life of abused children and the roles they assume, but also a non-overwhelming yet helpful guide for those in and around abusive situations. In this well researched book, Janice does an excellent job of identifying the roles abused children assume. But more than identifying them, she offers insight into their situation. Through identifying resources as well as offering useful and doable tips, Janice shows how the cycle can be broken and offers light to those in pain. In Choosing to survive, Janice intentionally addressed people of many ages and different circumstance: children, adults who carry a hurting child inside, and those who have never experienced abuse. Everyone needs to be aware of child and domestic abuse. It has lifetime ramifications that affect everyone, not just the abused. The problem is not

limited to any race or social or economic status. Positive changes can be made if we are all educated regarding this issue and are willing to work together.

[Small Business Handbook ePub, Steve Parks](#) , 2012, 0273747851, 9780273747857. Getting a business off the ground is only part of the challenge. What every entrepreneur needs is a handbook to guide them through every stage of actually running their business, from finance to marketing, from sales to hiring and managing people. The Small Business Handbook is THE essential reference for anybody who is starting a business. It provides vital advice and guidance on all the day-to-day aspects of running your enterprise and also helps you plan your growth and exit strategy, so that whatever happens you'll be ready to tackle it, informed and prepared. The accompanying CD contains a whole range of useful templates and essential documents for use in running your business, and also features audio clips of successful entrepreneurs offering their tips and techniques for making your business really successful. Unlike many small business guides, Steve Parks is an entrepreneur with his own small but fast growing business. It's clear from every page of the handbook that he knows exactly what it's like to be in the reader's position, and he shares everything he wishes he had had during his early years of running his own business. The book is endorsed by the Institute of Entrepreneurs, and by a

wide range of entrepreneurs who have been there and done it.

[Sweet Corn Spectacular, Marie Porter](#) , 2013, 0873518926, 9780873518925. The height of summer brings with it the bounty of fresh sweet corn. Grilled or boiled, slathered in butter and sprinkled with salt, corn on the cob is a mainstay of cook-out menus. But this vegetable can grace your plate in so many other ways. In fact, author and baker Marie Porter once devised an entire day's worth of corn-based dishes to celebrate her corn freak husband's birthday. Sweet Corn Spectacular displays Porter's creative and flavor-filled approach to this North American original, making tasty use of corn kernels in the categories of appetizers, condiments, main dishes, beverages, and, of course, dessert. She shares tips for preparing fresh corn, from boiling to steaming to grilling to smoking, and then the fun begins. Follow her detailed instructions to find sweet and savory success with Corn Souffl, Roasted Corn and Potato Salad, Midwest Goes Southwest Hotdish, Sweet Corn Risotto, Sweet Corn Liqueur, and White Chocolate Sweet Corn Fudge. The recipes will inspire year-round use of this versatile ingredient and tasty experimenting in your own kitchen. As Porter reminds home cooks, the possibilities are endless! Sweet Corn Spectacular is the third book in the Northern Plate series, celebrating the bounty of the Upper Midwest by focusing on a single ingredient, exploring its historical uses as well as culinary applications across a range of dishes. Rhubarb Renaissance by Kim Ode and Modern Maple by Teresa Marrone are other books in the series. Marie Porter is an award-winning cake artist based in the Twin Cities. She has published books on an assortment of topics, including The Spirited Baker, Evil Cake Overlord, Twisted: A Minneapolis Tornado Memoir, and Sewing for Skaters.

[Population and the environment: the Linacre Lectures 1993-4, Bryan Cartledge \(Sir.\)](#) , 1995, 0198548427,

9780198548423. This thought-provoking book opens up a subject that often goes unmentioned: human population growth as a pressing environmental issue. The diverse viewpoints expressed here arise out of social concern, scientific investigation, and religious belief, and they explore various aspects of population growth into the twenty-first century. Topics include women as a factor in sustainable development, the role of genetic engineering, the potential effects of climate change on food, differing views on birth control, and environmental crises in the former Soviet Union.

[Theoretical Ecosystem Ecology: Understanding Element Cycles, Goran I. Agren, Ernesto Bosatta](#) , 1998, 0521646510, 9780521646512. The cycling of elements such as carbon and nitrogen is of central importance in ecology, particularly when humans are causing changes to nutrient cycles on a global scale. This book develops a rigorous mathematical framework to illustrate how nutrient cycles operate and interact in plants and soils, forming the foundations of a new ecosystem theory. Powerful predictions can be generated covering a wide range of ecological phenomena related to nutrient cycling from a few basic equations. These predictions are tested extensively against field and laboratory studies of agricultural and forest ecosystems.

[Centrelink Prosecutions at the Employment/Benefit Nexus: A Case Study of Wollongong, Freda Hui, Social Accounting & Accountability Research Centre, Lee Moerman, Kathy Rudkin](#) , 2011, 0987196707, 9780987196705. "This report examines financial and social issues pertaining to Centrelink prosecutions for overpayments of unemployment-related social security benefits. Specifically, it examines the circumstances of prosecutions of those returning to work, and those in precarious casual employment. A sample of overpayment prosecutions in the Wollongong area of New South Wales from July 2008 to June 2010 is profiled and analysed. From the perspective of Westminster public accountability, this report makes recommendations for policy change to achieve a reduction in overpayment of social security benefits, arguing the inadequacy of the current technical approach reliance on fraud prevention strategies. It counters the public discourse of reductionism and financialisation that surrounds this wicked social problem." -- Foreword.

[Judgment Misguided : Intuition and Error in Public Decision Making: Intuition and Error in Public Decision Making,](#)

[Jonathan Baron Professor of Psychology University of Pennsylvania](#) , 1998, 0195354907, 9780195354904. People often follow intuitive principles of decision making, ranging from group loyalty to the belief that nature is benign. But instead of using these principles as rules of thumb, we often treat them as absolutes and ignore the consequences of following them blindly. In *Judgment Misguided*, Jonathan Baron explores our well-meant and deeply felt personal intuitions about what is right and wrong, and how they affect the public domain. Baron argues that when these intuitions are valued in their own right, rather than as a means to another end, they often prevent us from achieving the results we want. Focusing on cases where our intuitive principles take over public decision making, the book examines some of our most common intuitions and the ways they can be misused. According to Baron, we can avoid these problems by paying more attention to the effects of our decisions. Written in an accessible style, the book is filled with compelling case studies, such as abortion, nuclear power, immigration, and the decline of the Atlantic fishery, among others, which illustrate a range of intuitions and how they impede the public's best interests. *Judgment Misguided* will be important reading for those involved in public decision making, and researchers and students in psychology and the social sciences, as well as everyone looking for insight into the decisions that affect us all.

[The Poker Tournament Formula, Volume 1, Arnold Snyder](#) , 2006, 1580422039, 9781580422031. This is the first book to provide winning strategies for the small buy-in (\$100 or less) no-limit hold'em tournaments that have exploded in poker rooms all over the country-and on the Internet. The strategies for small buy-in no-limit hold'em tournaments are similar to the big-money games, but the important factors-hand value, position, aggression and others, and speed of play-cause a radical change of strategy. Snyder recounts his own experience with these methods at a win rate of almost 300% and gives readers specific strategies for winning the big money available in prizes at the hundreds of small buy-in no-limit hold'em tournaments taking place weekly around the country and on the Internet.

[Eating Right for Life, Renee A. Gurley](#) , 2012, 0988629305, 9780988629301. Book Description Eating Right for Life is a tailored collection of over 140 recipes that were put together and updated in order to meet the healthy nutritional guidelines of a weight loss surgery (WLS) individual by being low in sugar, calories, fat and carbohydrates while still high in protein. These recipes satisfy the requirements of a WLS patient while still being delicious, easy to prepare, cost efficient and appealing to an entire family--including young children. The recipes in this cookbook are well rounded to

provide a diverse collection for breakfast, simple sides, a variety of meat courses, not so sinful desserts as well as a whole chapter on how to creatively improve your protein drinks. This collection offers options for all stages in the bariatric journey, both pre and postoperatively, as well as by patients in different eating programs for gastric bypass, Lap-Band and Biliopancreatic Diversional Duodenal Switch (BPD-DS) patients. About the Author Renee Gurley is a bariatric success story, having WLS surgery in 2010. She has lost and maintained over 185 pounds of weight loss--starting at a size 28 down to a healthy size 8. Having a family with little kids requires her bariatric cooking be both inexpensive, quick and easy with simple ingredients. A lifelong foodie, Renee loves using her skill of adapting traditional recipes into a more health conscience and bariatric friendly cooking style. Weight loss surgery individuals can still enjoy cooking and eating; it's all in learning to make substitutions for certain ingredients to improve the overall nutritional content of your recipes. Renee is the blogger for The Gobbling Gurley; she also is a guest culinary columnist for the bariatric e-publication "Silhouette." Renee speaks at multiple bariatric centers of excellence, specializing in providing nutrition and support groups with information on ways to incorporate healthy cooking and improved lifestyle choices for a long term weight loss surgery success.

[International Comparison of Guarded Hot Plate Apparatus Using National and Regional Reference Materials, Robert R. Zarr, James J. Filliben](#) , 2002, 0160673550, 9780160673559. As part of an international comparison of guarded-hot-plate apparatus, thermal conductivity measurements of four different thermal insulation materials are presented. The test program evaluates four national reference materials using a two-part experimental plan: five independent replicate measurements at fixed temperature (297.15 K) and single-point measurements from 280?K to 320 K. The analysis of the replicate data provides rankings for the primary factors laboratory and material based on descriptive statistics. The major finding of the replicate analysis reveals a laboratory-material interaction. In other words, there are changes in both location and variation in the data from material-to-material. Further analyses attempt to determine the sources (i.e., underlying causes) for the variability in the replicate data. Secondary laboratory factors are investigated both individually following a cause-and-effect chart, and collectively using correlation analysis and analysis of variance. The major finding of the multi-temperature (280 K to 320 K) data confirm the laboratory-material interaction finding of the fixed-temperature replicate data. The data reveal increasing scatter as the temperature departs from laboratory ambient conditions of 297.15 K.

[Silbury Hill: The Largest Prehistoric Mound in Europe, David Field, Gill Campbell](#) , 2013, 1848020457, 9781848020450. Silbury Hill is an enormous earthen mound that is situated in the heart of the Marlborough Downs, and set today within the Avebury World Heritage Site. This academic monograph will provide a full account of the recent archaeological investigations. (English Heritage 2013)

[Florida Crime and Justice, James J. Vardalis, Debbie J. Goodman](#) , 2003, 0131132113, 9780131132115. Appropriate for

courses in Law Enforcement in Police Academies as well as a supplementary text for Criminal Justice courses. This textbook presents a comprehensive overview of how all functions within the Florida justice system operate. It fully explains the interaction among the correctional system, the courts, and law enforcement. It chronicles the history of Florida law enforcement and discusses issues pertaining to crime victims and privatization, and emphasizes how the three cornerstones of the justice system function, operate, and interact.

[A Blue Beyond Reach, Gaar Scott](#) , 2004, 0971361509, 9780971361508.

[A Primer for Mathematics Competitions, Alexander Zawaira, Gavin Hitchcock](#) , 2008, 0191561703, 9780191561702. The importance of mathematics competitions has been widely recognised for three reasons: they help to develop imaginative capacity and thinking skills whose value far transcends mathematics; they constitute the most effective way of discovering and nurturing mathematical talent; and they provide a means to combat the prevalent false image of mathematics held by high school students, as either a fearsomely difficult or a dull and uncreative subject. This book provides a comprehensive training resource for competitions from local and provincial to national Olympiad level, containing hundreds of diagrams, and graced by many light-hearted cartoons. It features a large collection of what mathematicians call "beautiful" problems - non-routine, provocative, fascinating, and challenging problems, often with elegant solutions. It features careful, systematic exposition of a selection of the most important topics encountered in mathematics competitions, assuming little prior knowledge. Geometry, trigonometry, mathematical induction, inequalities, Diophantine equations, number theory, sequences and series, the binomial theorem, and combinatorics - are all developed in a gentle but lively manner, liberally illustrated with examples, and consistently motivated by attractive "appetiser" problems, whose solution appears after the relevant theory has been expounded. Each chapter is presented as a "toolchest" of instruments designed for cracking the problems collected at the end of the chapter. Other topics, such as algebra, co-ordinate geometry, functional equations and probability, are introduced and elucidated in the posing and solving of the large collection of miscellaneous problems in the final toolchest. An unusual feature of this book is the attention paid throughout to the history of mathematics - the origins of the ideas, the terminology and some of the problems, and the celebration of mathematics as a multicultural, cooperative human achievement. As a bonus the aspiring "mathlete" may encounter, in the most enjoyable way possible, many of the topics that form the core of the standard school curriculum.
