[Cents and Sensibility, Maggie Alderson](#) , 2007, 0143006061, 9780143006060. Stella Fain has a rule for men she likes: Make them wait . . . But the gorgeous Jay proves an exception to the rule when he bowls Stella off her Prada wedges at a press junket on the Cote d'Azur. He might seem to have everything going for him, but Stella is about to realise that while jetset lifestyles can be fabulous, her career as a journalist isn't something she wants to jeopardise for any man, no matter how filthy-rich or gorgeous. And then there's her father a six-times-married prime slice of Alpha Male with a grudge against inherited wealth . . . and Jay. There's no denying money makes the world go round and diamonds are a girl's best friend, but they don't make the path to love any easier to tread with or without the Prada wedges.

[Ghost Gone Wild, , Carolyn Hart](#) , 2013, 0425260755, 9780425260753. Carolyn Hart's ?irresistible cozy sleuth* is back?good-hearted ghost Bailey Ruth Raeburn just can't say no to an earthly rescue, even when maybe she should? Bailey Ruth loves to return to earth as an emissary from Heaven's Department of Good Intentions. Problem is, she's a bit of a loose cannon as far as ghosts go?forgetting to remain invisible, alarming earthly creatures?so she's far from the top of department head Wiggins's go-to list for assignments. That's why she's surprised when the Heaven-sent Rescue Express drops her off at a frame house on the outskirts of her old hometown, Adelaide, Oklahoma, where a young man is playing the drums. What kind of rescuing does he need?drum lessons? But when a window cracks and a rifle barrel is thrust inside, only Bailey Ruth's hasty intervention saves Nick Magruder from taking a bullet. When she materializes to reassure him, she finds she can't go back to vanishing. What gives? It turns out she's been tricked by Nick's late aunt?Delilah Delahunt Duvall?to come to the young man's rescue, which means she isn't back on earth in service of the department. Wiggins has no idea where she is?and now she may be trapped in Adelaide forever. Unless she can help Aunt Dee snare the person who wants her nephew dead? *Publishers Weekly

[A Demon in My View, Ruth Rendell](#) , 2010, 0307555585, 9780307555588. She waits for him in the dark, her mind and body perfect, passive, until one day, when he goes to the cellar, and she is gone . . .In A Demon in My View, Ruth

Rendell creates a character as frightening as he is fascinating. Mild-mannered Arthur Johnson has never known how to talk to women. And his loneliness has perverted his desire for love and respect into a carefully controlled penchant for violence. One floor below him, a scholar finishing his thesis on psychopathic personalities is about to stumble quite literally upon one of Arthur's many secrets. Haunting and intelligent, *A Demon in My View* shows the startling results of this chilling alchemy of two very disparate minds: one pathological and the other obsessed with pathology. [Fantastic Metamorphoses, Other Worlds: Ways of Telling the Self, Marina Warner](#) , 2002, 0191587869, 9780191587863.

Metamorphosis is a dynamic principle of creation, vital to natural processes of generation and evolution, growth and decay, yet it also threatens personal identity if human beings are subject to a continual process of bodily transformation. Shape-shifting also belongs in the landscape of magic, witchcraft, and wonder, and enlivens classical mythology, early modern fairy tales and uncanny fictions of the nineteenth and twentieth centuries. This collection of essays, given as the Clarendon Lectures in English 2001, takes four dominant processes of metamorphosis: Mutating, Hatching, Splitting, and Doubling, and explores their metaphorical power in the evocation of human personality. Marina Warner traces this story against a background of historical encounters with different cultures, especially with the Caribbean. Beginning with Ovid's great poem, *The Metamorphoses*, as the founding text of the metamorphic tradition, she takes us on a journey of exploration, into the fantastic art of Hieronymous Bosch, the legends of the Taino people, the life cycle of the butterfly, the myth of Leda and the Swan, the genealogy of the Zombie, the pantomime of Aladdin, the haunting of doppelgangers, the coming of photography, and the late fiction of Lewis Carroll.

Unless your mom yells at you for using a marker. 3) Disappear. Um, where'd you go? Oh, there you are. There's one other thing you can do: 4) LIVE WITH THEM! Because after all, the things that make you different also make you YOU. From acclaimed actress Julianne Moore

and award-winning illustrator LeUyen Pham comes a delightful story of a little girl who's different ... just like everybody else.

[Hamlet Versus Lear: Cultural Politics and Shakespeare's Art, R. A. Foakes](#) , 2004, 0521607051, 9780521607056. This book focuses on the two plays of Shakespeare that have generally contended for the title of "greatest" among his works. Recent critical theorizing has destabilized the texts and undermined the notion of "greatness" or any consideration of the plays as works of art. Foakes takes issue with such theories and reconsiders textual revisions, in order to argue for the integrity of the plays as reading texts, and to recover a flexible sense of their artistry in relation to meaning.

Art of the Harley-Davidson Motorcycle pulls together the best of Blattels Harley-Davidson portraiture--over 100 stunning machines--resulting in a breathtaking review of Harley-Davidsons greatest hits from the early 1900s to today. Harley-Davidson expert Dain Gingerelli puts each machine in historical and technical context with informed profiles. The result is a handsome, informative overview of Harley-Davidson's 100-plus years of style and innovation.

[NYPD Red, James Patterson](#) , 2013, 0099584816, 9780099584810. Every cop wants to be part of NYPD Red. It is the elite team in New Yorks police department, handling the cases involving the most important and high-profile individuals in the city. Its Detective Zach Jordans dream job, but hes about to step into a nightmare. In the middle of a New York film festival, a maniac begins a very public and very brutal killing spree targeting Hollywoods biggest stars. Zach is assigned a new partner, Detective Kylie MacDonald, who is also his ex-girlfriend. But theyll need to put their history aside to have a chance of stopping this homicidal psychopath before he brings New York City to its knees.

[Opti-Stretch Versus Recurrent Back Pain, Edwin J. Neil, M.D., Jack Neil](#) , 2005, 097427660X, 9780974276601. Back pain , due to reoccurring muscle strain, is a serious problem of epidemic proportions. OPTI-STRETCH is a scientific breakthrough, which now identifies and provides answers to this very complex and age-old problem! A total of 12 new scientific discoveries have been made. Commonly strained muscles have now been identified. Most individuals will completely heal strains. However, those with certain genetically-determined muscle anatomy often develop a "recurrent strain syndrome". Activity levels decrease, and a "weak back" of varying disability can occur if risk factors are not rehabilitated. Now, a simple "Screening Test" allows you and your children to see if risk factors exist. "Therapeutic and Maintenance" programs describe ways to resolve the problems, if detected. In adults, 95% improvement can take up to 6 months of pretty hard work. The great news is that children and young adults can easily correct risk factors in only

weeks. The "Dr. Mom" chapter outlines how to detect risk factors in kids and prevent "recurrent strain syndrome" from even getting started. Have any risk factors? Currently, over 28 physicians have reviewed this book and agree with the principles of Opti-stretch. Achieve your optimum activity potential and a healthy strain-resistant back for life!

The report covers: the Parliamentary Information and Communication Technology service (PICT); library services; information services including Hansard; public information about the House and its work, including outreach; bicameral services, including the parliamentary website, visitor services, education and broadcasting; Parliamentary Archives.

[Looking at Shakespeare: A Visual History of Twentieth-century Performance, Dennis Kennedy](#) , 2001, 0521785480, 9780521785488. Most studies of the performance of Shakespeare's work concentrate on how the text has been played and what meanings have been conveyed through acting and interpretive directing. Dennis Kennedy demonstrates that much of audience response is determined by the visual representation, which is normally more immediate and direct than the aural conveyance of a text. Ranging widely over productions in Britain, Europe, Japan and North America, Kennedy gives a thorough account of the main scenographic movements of the century, investigating how the visual relates to Shakespeare on the stage. The second edition of this acclaimed history includes a new chapter on Shakespeare performance in the 1990s, bringing the story up to date by drawing on examples from a wide international field. There are more than twenty new illustrations, some of them in colour (bringing the total number of illustrations to almost 200), and previous references have been updated.

[Indio Reflections and Visions, Victoria J. Bailey](#) , 2005, . A celebration of the community of Indio, which was published on the occasion of its 75th Anniversary. Provides a glimpse at some of those who saw the city's promise and contributed to its success.

relations from an Asian-American perspective so that many of the models and explanations are drawn from his own experiences.

[A Discourse on the Method, Ren Descartes](#) , 2006, 0191605107, 9780191605109. Descartes's A Discourse on the Method of Correctly Conducting One's Reason and Seeking the Truth in the Sciences marks a watershed in European thought; in it, the author provides an informal intellectual autobiography in the vernacular for a non-specialist readership, sweeps away all previous philosophical traditions, and sets out in brief his radical new philosophy. - ;'I concluded that I was a substance whose whole essence or nature resides only in thinking, and which, in order to exist, has no need of place and is not dependent on any material thing.' Descartes's A Discourse on the Method of Correctly Conducting One's Reason and Seeking Truth in the Sciences marks a watershed in European thought; in it, the author provides an informal intellectual autobiography in the vernacular for a non-specialist readership, sweeps away all previous philosophical traditions, and sets out in brief his radical new philosophy, which begins with a proof of the existence of the self (the famous 'cogito ergo sum'), next deduces from it the existence and nature of God, and ends by offering a radical new account of the physical world and of human and animal nature. This new translation is accompanied by a substantial introductory essay which draws on Descartes's correspondence to examine his motivation and the impact of his great work on his contemporaries. Detailed notes explain his philosophical terminology and ideas. - ;...what sets this edition apart is its substantial introduction...its copious explanatory notes...The translation is clean and clear. Overall the work is to be recommended. - Roger Ariew, Modern Languages Review, vol 102, part 1;'The care and accuracy of Ian Maclean's new translation are immediately apparentThis edition is remarkable for the ample introductory material which will be of great use to beginners and specialists alike[it] displays impeccable erudition and exemplary clarity.' s - ;The challenge for any translator, as Maclean acknowledges, is to make it accessible to a new generation of readers, without anachronism if possible. This objective is achieved admirably in this edition by informed and confident choices in English...and the addition of explanatory notes when necessary. - French Studies

[The Limits of Safety: Organizations, Accidents, and Nuclear Weapons, Scott Douglas Sagan](#) , 1995, 0691021015, 9780691021010. Environmental tragedies such as Chernobyl and the Exxon Valdez remind us that catastrophic accidents are always possible in a world full of hazardous technologies. Yet, the apparently excellent safety record with nuclear weapons has led scholars, policy-makers, and the public alike to believe that nuclear arsenals can serve as a secure deterrent for the foreseeable future. In this provocative book, Scott Sagan challenges such optimism. Sagan's research into formerly classified archives penetrates the veil of safety that has surrounded U.S. nuclear weapons and reveals a hidden history of frightening "close calls" to disaster.

[A Multi-Component Treatment for Post-Traumatic Stress Disorder: V 1. 2, John A. Carmichael](#) , 2011, 0984608524,

9780984608522. Post Traumatic Stress Disorder (PTSD) is becoming the most prevalent anxiety disorder due to the abundance of currently occurring natural and human-caused disasters. In this book, psychologists, physicians, counselors, and biofeedback and neurofeedback providers alike will find comprehensive assessment and treatment plans for clients and patients suffering from this disorder, as devised by Dr. John Carmichael. The plan can be used in its entirety or parts can be gleaned as relevant to the practitioner's scope of practice. Dr. Carmichael integrates existing clinical and empirical research with his extensive clinical experience into a step-wise format for the treatment of PTSD including neurofeedback, biofeedback, nutrition, stress management, education, and behavioral applications. This book guides the practitioner who works with enforcement and military personnel, as well as clients with personal trauma, through an evidence-informed multi-component treatment plan. About the author: Dr. Carmichael holds membership in a number of professional groups including both the Canadian and American Psychological Association, the International Society for Traumatic Stress Studies, the Association of Applied Psychophysiology and Biofeedback, and the International Society for Neurofeedback and Research. Since 1985, a gradually increasing percentage of Dr. Carmichael's clinical time

has been devoted to the assessment and treatment of PTSD, serving veterans of both police services and military units.

This time now exceeds 90%. Dr. Carmichael lives with his wife Lynne in British Columbia, Canada.

[A Nation of Deadbeats: An Uncommon History of America's Financial Disasters, Scott Reynolds Nelson](#) , 2012, 0307272699, 9780307272690. The story of America is a story of dreamers and defaulters. It is also a story of dramatic financial panics that defined the nation, created its political parties, and forced tens of thousands to escape their creditors to new towns in Texas, Florida, and California. As far back as 1792, these panics boiled down to one simple question: Would Americans pay their debts or were we just a nation of deadbeats? From the merchant William Duer's attempts to speculate on post-Revolutionary War debt, to an ill-conceived 1815 plan to sell English coats to Americans on credit, to the debt-fueled railroad expansion that precipitated the Panic of 1857, Scott Reynolds Nelson offers a crash course in America's worst financial disasters and a concise explanation of the first principles that caused them all. Nelson shows how consumer debt, both at the highest levels of finance and in the everyday lives of citizens, has time and again left us unable to make good. The problem always starts with the chain of banks, brokers, moneylenders, and insurance companies that separate borrowers and lenders. At a certain point lenders cannot tell good loans from bad and when chits are called in, lenders frantically try to unload the debts, hide from their own creditors, go into bankruptcy, and lobby state and federal institutions for relief. With a historian's keen observations and a storyteller's nose for character and incident, Nelson captures the entire sweep of America's financial history in all its utter irrationality: national banks funded by smugglers; fistfights in Congress over the gold standard; and presidential campaigns forged in stinging controversies on the subject of private debt. A Nation of Deadbeats is a fresh, irreverent look at Americans' addiction to debt and how it has made us what we are today.

[What Can You Find -phonics Reader TRS 1: Harcourt School Publishers Signatures, Harcourt Brace, Harcourt School Publishers Staff](#) , 1997, 0153089164, 9780153089169.

[Rights to Light: A Consultation Paper, Stationery Office \(Great Britain\)](#) , 2013, 0108512258, 9780108512254. A "right to light" is an easement that gives landowners the right to receive light through defined apertures in buildings on their land. The owners of land that is burdened by the right cannot substantially interfere with it - for example by erecting a building

in a way that blocks the light - without the consent of the benefiting owner. Rights to light are valuable: they give landowners certainty that natural light will continue to be enjoyed by a property - increasing its utility, value and amenity. The right may enable landowners to prevent construction that would interfere with their rights or, in some circumstances, to have a building demolished. Where a development has taken place, but a court does not order its demolition, the court may award substantial damages. It may not be clear which remedy the court will order and landowners may succeed in preventing development even if they raise their concerns after building has commenced. This project investigates whether the law by which rights to light are acquired and enforced provides an appropriate balance between the important interests of landowners and the need to facilitate the appropriate development of land. It considers the interrelationship of rights to light with the planning system, and examines whether the remedies available to the courts where rights to light are infringed are reasonable, sufficient and proportionate.

[Functional Occlusion: From TMJ to Smile Design, Peter E. Dawson](#) , 2006, 0323078982, 9780323078986. This book uses an interdisciplinary approach to explain the origin of and possible solutions to many different occlusal problems. Dr. Peter E. Dawson guides the reader along the way providing balanced explanations of theory and technique. He also debunks many popular misconceptions through practical discussion of their origins and the deficiencies of the arguments behind them. Different sides of many philosophies are presented while guiding the reader to the most functional and esthetic solution to various occlusal situations. Hundreds of full-color photographs, illustrations, and diagrams show aspects of the masticatory system, the epidemiology of occlusal problems, and procedures for finding the ideal occlusion. Whether the reader is a general dentist or a specialist, they will find this book applicable to their treatment methods and philosophies.

OUTSTANDING FEATURES

- Special atlas sections break down complex information accompanied by descriptive diagrams and photographs to further explain sources of occlusal disorders and related pain.
- Hundreds of full-color photographs and illustrations show problems and procedures.
- Procedure boxes offer step-by-step explanations of specific procedures.
- Important Considerations boxes in the Treatment chapters outline treatment plans and describe what is to be accomplished.
- Programmed treatment planning, a specific process that guides a clinician through every step for solving even the most complex restorative or esthetic challenge.
- The role of TMJs and occlusion in "everyday" dentistry.
- The role of occlusion in orofacial pain and TMD, and in anterior esthetics.
- Simplified occlusal equilibration and how to explain this process to patients.
- The functional matrix concept for exceptional, foolproof smile design.
- The five options for occlusal correction and how to apply them to practice.
- Use and abuse of occlusal splints.
- Coordinating occlusal treatment with specialists for a fully interdisciplinary approach.
- Specific criteria for success and how to test for each.

[Tomorrow's Health for Today's Family: A Groundbreaking Guide to Better Health for You and Your Community in the 21st Century, Douglas J. Ratner](#) , 2006, 0976361701, 9780976361701. Health Care Crisis? Help is on the way . . . Whatever the composition of your family--an individual living independently, a couple, a multi-generational household with children and/or elders--you want good health and a safe home. But what about all the alarming news of hazards in our

environment-in what we eat, drink, breathe, touch? How much control do we really have over our own health and safety? Fortunately, more than you might think. Here, in a commonsense way, "Dr. Doug" Ratner guides you and your family through proactive steps you can take to maximize the well-being of each and every loved one, from the youngest child to the oldest grandparent. He provides easy-to-understand tips and implementation guides so individuals and families can help themselves to the best possible future health. Just some of the topics include: Part One: Introduction and orientation to the material that follows--diagnosis, environmental medicine, scientific studies and how to tell good information from bad. Part Two: A close look at your external world, including how to maintain a healthful and safe home environment. What you need to know about carcinogens and other toxic substances. How to make your home as safe as possible--especially for seniors, children and the disabled. Part Three: A close look at your internal world, including how to maintain a healthy, properly nourished body. What is good food? What's safe? What about herbs and other supplements? Sections B and C form a concise Nutritional Guidebook detailing how nutrients work and what foods can help prevent or ease illnesses. Part Four: A truly innovative look at U.S. health care at present and for the future. Whether we're patients or doctors, we need to be discussing what traditions have become outdated and how we can make the best use of new ideas--like being rewarded for health-minded choices and actions--and of countless new technological developments in the 21st century. This book--lavishly illustrated to both entertain and inform--is not only an invaluable reference to keep in your home, but also the first step into a healthcare program that's been proven to work. It's a whole new approach to managing your own health care, protecting your family from avoidable dangers while shifting your view from "treatment" to "preventive wellness."

[Mathematics for Business, Science, and Technology: With MATLAB and Spreadsheet Applications, EBook, Steven T. Karris](#) , 2003, 0974423904, 9780974423906. Annotation This text is targeted at high school seniors who plan to enter the business, science, and technology related fields, and working professionals seeking to enhance their knowledge. Begins with the basic mathematical operations and ends with advanced and yet practical examples. Contains many real-world

examples on probability and optimization methods supplemented with computer applications. It is ideal for self-study. Contents: This text includes the following chapters and appendices: Numbers and Arithmetic Operations ? Elementary Algebra ? Intermediate Algebra ? Fundamentals of Geometry ? Fundamentals of Plane Trigonometry ? Mathematics of Finance and Economics ? Depreciation, Impairment, and Depletion ? Fundamentals of Calculus ? Introduction to Probability and Statistics ? Random Variables ? Common Probability Distributions and Tests ? Curve Fitting, Regression, and Correlation ? Analysis of Variance (ANOVA)? Introduction to MATLAB ? The Gamma and Beta Functions and their Distributions ? Introduction to Markov Chains Each chapter contains numerous practical applications supplemented with detailed instructions for using Microsoft Excel and MATLAB to obtain quick answers. This revised edition includes two new chapters on the mathematics of finance and economics, depreciation, impairment, and depletion, end-of-chapter summaries for class presentation, and detailed solutions to all end-of-chapter exercises.

[Semantics Versus Pragmatics, Zoltan Gendler Szabo](#) , 2005, 0199251517, 9780199251513. "Semantics versus Pragmatics offers a stimulating series of original essays on this issue by some of the world's leading specialists, and includes an introduction which outlines the orthodox conception of the distinction (going back to Paul Grice's seminal work) and some of the reasons it has recently come under severe criticism. The volume's ten chapters cut through the terminological confusion which inevitably accompanies debates about disciplinary boundaries and vividly illustrate where the real fault-lines lie. Together, they reveal the conceptual subtlety and empirical richness of this vital issue, considerably advancing our understanding of it."--BOOK JACKET.

[Honest Pretzels: And 64 Other Amazing Recipes for Cooks Ages 8 & Up, , ,](#) , 2009, 1582463050, 9781582463056. Get ready to help with dinner for real! Are you a kid? Then this book was written especially for you. With it, you can become a fantastic cook and amaze your friends with PITA SPIRALS and CREAMY CORN SOUP or CINNAMON SWIRL STICKY BUNS and BEST HOT CHOCOLATE. Or you can fill your lunch bag with a wedge of SPAGHETTI PIE, a serving of MAPLE YOGURT FRUIT DIP, and a handful of HONEST PRETZELS that you made yourself. Are you a grown-up? Then welcome to another very special cookbook by Mollie Katzen. In these pages she speaks directly to children through 65 fully kid-tested, illustrated recipes that require only a little adult assistance. It's not just a cookbook full of yummy recipes--it also gives young cooks, ages eight and up, a chance to practice reading, math, and logic skills. And think of the sense of accomplishment they will feel as they grow into creative, confident chefs.

[Seven metaphysical poets: a structural study of the unchanging self, Robert Ellrodt](#) , 2000, 0198117388, 9780198117384. Robert Ellrodt's study of seven poets--springing from his wide-ranging three-volume work, *Les Poetes metaphysiques anglais*--challenges the postmodernist assumption that no definite or constant self can be traced in the works of a writer. Distinct modes of self-awareness, different emphases in the perception of time and space, and various ways of grasping the sensible and the spiritual, the human and the divine, jointly or separately characterize the minds of Donne and George Herbert, Crashaw and Vaughan, Lord Herbert, Marvell, and Traherne. Fundamental mental structures affect their attitudes to love, death, and God, and dictate their privileged modes of composition and expression. Without

neglecting the relations between these individual traits and the general evolution of thought from classical antiquity to the Renaissance, or the immediate cultural environment in which each poet wrote, this critical study maintains the primacy of individual choice, of the "unchanging self." The book is not based on a theory, but on a close scrutiny of the characteristic interplay of personal modes of thought and sensibility.

[Balance and Re-Balance: Lost and How to Find It, Jason B. a. Manny](#) , 2009, 0956381510, 9780956381514. A good compelling read that flows well. Offers an encompassing perspective of the world we live in and suggests guidance on how we could lead a happier, more productive and peaceful life. Unusually interesting and topical for this kind of book. Exploring many aspects of daily life, from Life Style to Diet, Politics, Religion, Global Warming, International Relations, Addiction, The Justice System and much more. From the perspective of balance, this book proposes possible ways to explain and re-address that lost balance! In a world where conflict is rife, greed is prized, crime is wild, justice is scarce, stress and depression are a norm, a planet is scared, and humanity is a struggle, What is the unifying essence that has gone wrong? Most things involve a state of balance, without it, the likelihood for chaos, destruction and disaster is heightened. A topical book that will give you plenty of food for thought about where we've gone wrong and how we might put it right.

[The Road from Serfdom: The Economic and Political Consequences of the End of Communism, Robert Jacob Alexander Skidelsky](#) , 1996, 0713991224, 9780713991222. The Crisis of Communism at the end of the 1980's was hailed as a triumph for Western capitalism, but initial euphoria soon turned to pessimism as the West failed to react adequately to the momentous changes that were taking place in the "new world order". While the demise of established Cold War structures threatened to unleash worldwide pandemonium, the passing of socialism seemed to leave money-making and ethnic violence as the only competitors for the future. In *The Road from Serfdom* Robert Skidelsky, one of our foremost political economists, reasserts the need for optimism. The collapse of communism, he argues, is the most hopeful event to have happened in the twentieth century, not least by reviving the liberal promise shattered by the First World War. Drawing parallels between the post-World War I political flux and conditions today, Skidelsky links the demise of communism - and its turbulent legacy - to the global failure of this century's most misguided concept: collectivism. Arguing that the ideological void left by the end of communism poses at once a threat and an urgent opportunity, Skidelsky urges the liberal West to reassert its leadership by developing a "constitution of liberty" aimed at entrenching the post-communist world order. In the current proliferation of simplistic blueprints for the future, *The Road from Serfdom* offers an intellectually bold, realistic, and timely prescription for the future in the face of today's economic and

political challenges.

[Sparks Amidst the Ashes : The Spiritual Legacy of Polish Jewry: The Spiritual Legacy of Polish Jewry, Byron L. Sherwin David C. Verson Professor of Jewish Philosophy and Mysticism Spertus Institute of Jewish Studies](#) , 1997, 0195355466,

9780195355468. For hundreds of years, Poland served as the epicenter of Jewish life. As a result of the Holocaust, though, Poland has become a "Jewish Atlantis." Yet, the majority of Jews in the world today have their genealogical roots in the historical lands of Poland. In this book, Sherwin demonstrates how the unprecedented works of intellect and spirit produced during the Jewish "Golden Age" in Poland can provide contemporary Jews with the spiritual and intellectual resources required to ensure Jewish continuity in the present and future. Sherwin introduces us to the vast range of mystical speculation, evocative stories, talmudic dialectics, theological ideas, and social realities that were muted by the destruction of Polish Jewry during the Holocaust. Sherwin critiques the tendency among contemporary Jews to disregard the precious legacy bequeathed by Polish Jewry, and presents a plan for re-creating Jewish life after the Holocaust that draws from the wisdom of the spiritual magnates and from the communal experience that characterized Jewish life in Poland. Sherwin concludes with a controversial proposal for the future of Polish-Jewish relations.

[Looking back, Fleur Adcock](#) , 1997, 0192880683, 9780192880680. In the first part of this book, her first since Time Zones (OUP, 1991), poet Fleur Adcock looks at some of her ancestors, from relatively recent figures struggling with hardship and family tragedies in 19th-century Manchester, through rural lives in Midlands villages, to a few prominent heroes and villains in Elizabethan and medieval times. In the second section she returns to more contemporary subjects, such as sex and dreaming--familiar topics of this unsettled but unsparing poet.

[The Origins of Love,, Kishwar Desai](#) , 2012, 1471101479, 9781471101472. This is a stunning story of the value of life. In Delhi a small baby lies alone and abandoned. The product of IVF and surrogacy, she had been so coveted - until she was born with a fatal illness. No one knows how the infection could have been transferred to the child, but one thing is certain: no one wants her now. Thousands of miles away in London, Kate and Ben are desperate for a baby. But, despite all their efforts, fate seems to be skewed against them. Then, as Kate suffers another miscarriage, she knows something has to change. She has heard of women who are prepared to carry a baby for others, and she knows this might be a way to finally find happiness. But will her desire for a baby stop at nothing? And between the two, feisty social worker Simran Singh is determined to uncover the truth behind the shadowy facade of the multi-million dollar surrogacy industry. Women and children are being exploited, their lives thrown away like so much dust. Is she the only person prepared to stand up for what is right.

[Mechanisms of Organic Reactions, Howard Maskill](#) , 1996, 0198558228, 9780198558224. This concise, authoritative, and up-to-date overview begins with a chapter in which modern terminology, definitions, and concepts of mechanisms and reactivity are introduced. The following chapters provide accounts of the mechanisms of four of the main classes of reactions of aliphatic compounds. Rather than simply presenting the mechanisms to the reader, these chapters begin with experimental evidence and then demonstrate how this leads to the mechanistic deductions. Problems at the end of each chapter and a short bibliography further enhance this volume.

[Handbook of Green Building Design and Construction: LEED, BREEAM, and Green Globes, Sam Kubba](#) , 2012, 0123851297, 9780123851291. Packed with conceptual sketches and photos, real world case studies and green construction details, Handbook of Green Building Design and Construction provides a wealth of practical guidelines and essential insights that will facilitate the design of green buildings. Written in an easy to understand style, the Handbook draws on over 35 years of personal experience across the world, offering vital information and penetrating insights into two major building rating systems such as LEED and BREEAM both used extensively in the United States, Europe, Asia and the Middle East. Develop a project schedule that allows for systems testing and commissioning. Create contract plans and specifications to ensure building performance A step-by-step approach for integrating technologies into the different stages of design and execution.

[Cobweb Bride, Vera Nazarian](#) , 2013, 1607621126, 9781607621126. Many are called... She alone can save the world and become Death's bride. COBWEB BRIDE (Cobweb Bride Trilogy, Book One) is a history-flavored fantasy novel with romantic elements of the Persephone myth, about Death's ultimatum to the world. What if you killed someone and then fell in love with them? In an alternate Renaissance world , somewhere in an imaginary "pocket" of Europe called the Kingdom of Lethe, Death comes, in the form of a grim Spaniard, to claim his Bride . Until she is found, in a single time-stopping moment all dying stops . There is no relief for the mortally wounded and the terminally ill.... Covered in white cobwebs of a thousand snow spiders she lies in the darkness... Her skin is cold as snow... Her eyes, frozen... Her gaze, fiercely alive... While kings and emperors send expeditions to search for a suitable Bride for Death, armies of the undead wage an endless war... A black knight roams the forest at the command of his undead father... Spies and political treacheries abound at the imperial Silver Court.... Murdered lovers find themselves locked in the realm of the living... Look closer -- through the cobweb filaments of her hair and along each strand shine stars... And one small village girl, Percy -- an unwanted, ungainly middle daughter -- is faced with the responsibility of granting her dying grandmother the desperate release she needs. As a result, Percy joins the crowds of other young women of the land in a desperate quest to Death's own mysterious holding in the deepest forests of the North... And everyone is trying to stop her. "... Nazarian writes clean and true prose ..." -- Publishers Weekly

[The History of Pendennis: His Fortunes And Misfortunes, His Friends And His Greatest Enemy, J. Stewart, William Thackeray](#) , 1986, 0141958812, 9780141958811. Written immediately after Vanity Fair, Pendennis has a similar atmosphere of brooding disillusion, tempered by the most jovial of wits. But here Thackeray plunders his own past to create the character of Pendennis and the world in which he lives: from miserable schoolboy to striving journalist, from carefree Oxbridge to the high (and low) life of London. The result is a superbly panoramic blend of people, action and background. The true ebb and flow of life is caught and the credibility of Pen, his worldly uncle, the Major, and many of the other characters, extends far beyond the pages of the novel. Held together by Thackeray's flowing, confident prose, with its conversational ease of tone, Pendennis is as rich a portrait of England in the 1830s and 40s as it is a thorough and thoroughly entertaining self-portrait.

[Things Forgotten, Thomas N. Tabback](#) , 2008, 0976974002, 9780976974000. After a traumatic experience, Bronx Police Officer Paul Kelly awakens in a hospital with no memory. His life and loved ones are all lost to him, but a specter from the past awakens him to an identity more than 3200 years ago. In a time when the heavens still touched the earth and man witnessed the might of God with plain eyes, there lived Nahar, son of Nahath, son of Reuel. Through Nahar's eyes,

Paul is about to recall events that would forever change the world, for he dwelt in the Jordan Valley of Canaan, as a chosen people prepared to cross the river into their Promised Land. Prepare for an incredible journey as Nahar sweeps you into the historical events of the Israelite Conquest of Canaan, and discover the mystery of Nahar's connection with Paul.

[A Course in Commutative Algebra, Gregor Kemper](#) , 2010, 3642035450, 9783642035456. This textbook offers a thorough, modern introduction into commutative algebra. It is intended mainly to serve as a guide for a course of one or two semesters, or for self-study. The carefully selected subject matter concentrates on the concepts and results at the center of the field. The book maintains a constant view on the natural geometric context, enabling the reader to gain a deeper understanding of the material. Although it emphasizes theory, three chapters are devoted to computational aspects. Many illustrative examples and exercises enrich the text.

[Cursing the Christians?: A History of the Birkat HaMinim, Ruth Langer](#) , 2012, 0199783179, 9780199783175. Ruth Langer offers an in-depth study of the birkat haminim, a Jewish prayer for the removal of those categories of human being who prevent the messianic redemption and the society envisioned for it. In its earliest form, the prayer cursed Christians, apostates to Christianity, sectarians, and enemies of Israel. Drawing on the shifting liturgical texts, polemics, and apologetics concerning the prayer, Langer traces the transformation of the birkat haminim from what functioned without question in the medieval world as a Jewish curse of Christians, through its early modern censorship by Christians, to its modern transformation within the Jewish world into a general petition that God remove evil from the world. Christian censorship played a crucial role in this transformation of the prayer; however, Langer argues that the truest

transformation in meaning resulted from Jewish integration into Western culture. Eventually, the prayer shed its references to any specific category of human being and lost its function as a curse. Reconciliation between Jews and Christians today requires both communities to confront a long history of prejudice. Ruth Langer shows through the birkat haminin how the history of one liturgical text chronicled Jewish thinking about Christians over hundreds of years.

[U. S. Army War College Guide to National Security Issues: Theory of War and Strategy, J. Boone Bartholomees](#) , 2008, 1441469338, 9781441469335. Volume I of this edition corresponds to one of the two core courses that the Department of National Security and Strategy (DNSS) teaches: "Theory of War and Strategy" and "National Security Policy and Strategy." Like its predecessors, the complete edition is largely an expansion of the existing materials, although over 40 percent is new, and the previously published chapters have been updated as necessary. This is the third edition; its 21 essays are divided among three sections: Strategic Theory, Elements of Power, and Strategic Issues.

[Understanding Nonprofit Organizations: Governance, Leadership, and Management, J. Steven Ott, Lisa A. Dicke](#) , 2011, 0813344689, 9780813344683. Understanding Nonprofit Organizations features insightful classic and recent articles on managing nonprofit organizations in the United States. Selected writings from scholars, consultants, and practicing executives focus on governing, leading, and managing nonprofit organizations and how nonprofits differ from the public and private sectors. Completely revised with twenty new readings, the second edition speaks to the most crucial issues facing today's leaders and managers of nonprofit organizations. Each part opens with a framing essay that identifies central issues and summarizes the contribution that each reading has made to the field. With topics covering legal frameworks, fundraising, managing volunteers, accountability, and much more, Understanding Nonprofit Organizations remains the most essential and up-to-date compendium of essays on the nonprofit sector.

[The Teen Weight-Loss Solution: The Safe and Effective Path to Health and Self-Confidence, Erika Schwartz](#) , 2004, 0060739320, 9780060739324. Dr. Erika Schwartz provides parents with insight into the hormonal challenges that fuel teens' battles with weight and outlines her plan for protection from the perilous side effects of obesity in The Teen Weight-Loss Solution. This inspirational and scientifically sound book reveals how teens can lose weight by understanding their changing bodies and addressing their health needs from the inside out. The Teen Weight-Loss Solution offers the

stories of real teens coping with the heartbreaking physical and emotional consequences of obesity. Dr. Schwartz reveals that the trigger for budding weight problems in teens can often be traced to the beginning of puberty, when their bodies are overloaded with hormones that impact mood, energy, motivation, and weight gain. Teens feel condemned to exist in their fuller figures and cannot understand the hormonal correlation between their emotional havoc and their expanding bodies. Dr. Schwartz's weight-loss solution teaches parents that they must look beyond the notion of managing their teen's weight problem with an old-fashioned forced diet and address not only body weight, but the whole individual. Parents must make the hormonal connection to obesity for their teen and help their doctor devise a plan that will help their child manage his or her health by monitoring diet, exercise, and lifestyle choices. Dr. Schwartz also reveals a revolutionary step-by-step, dose-by-dose plan for how natural hormones and supplements can be used to help achieve optimal balance of a teen's raging hormones for improved mood, energy level, and weight loss. The Teen Weight-Loss Solution offers new hope and a tried-and-proven plan that parents can implement today to start teens on the path to both a brighter future and a lifetime of health and self-confidence.

[NMS Medicine Casebook, Tilak Shah](#) , 2008, 0781784689, 9780781784689. Organized by subspecialty, this case-based review covers all the information students are expected to learn during their internal medicine clerkship. Each topic begins with a brief patient history and a question about the most likely diagnosis or next step in management followed by a discussion of alternative diagnoses and management strategies. The user-friendly approach includes numerous algorithms, images, mnemonics, and tables. A companion Website will offer the fully searchable text.

[Sexuality in Greek and Roman Literature and Society: A Sourcebook, Marguerite Johnson, Terry Ryan](#) , 2004, 1134689462, 9781134689460. This Sourcebook contains numerous original translations of ancient poetry, inscriptions and documents, all of which illuminate the multifaceted nature of sexuality in antiquity. The detailed introduction provides full social and historical context for the sources, and guides students on how to use the material most effectively. Themes such as marriage, prostitution and same-sex attraction are presented comparatively, with material from the Greek and Roman worlds shown side by side. This approach allows readers to interpret the written records with a full awareness of the different context of these separate but related societies. Commentaries are provided throughout, focusing on vocabulary and social and historical context. This is the first major sourcebook on ancient sexuality; it will be of particular use on related courses in classics, ancient history and gender studies.

This book compiles state-of-the-art information on the behavior, analysis, and design of concrete beams containing transverse openings. Discussions include the need, effects, and classification of openings as well as the general requirements for fulfilling design pure bending, combined bending, and shear - illustrated with numerical examples torsion alone or in combination with bending and shear large rectangular openings as well as opening size and location on beam behavior methods for analyzing ultimate strength and serviceability requirements effects of torsion in beams large openings in continuous beams and their effects on possible redistribution of internal forces as well as guidelines and procedures for the design of such beams effect of prestressing on the serviceability and strength of beams with web openings design against cracking at openings and ultimate loads Concrete Beams with Openings serves as an invaluable source of information for designers and practicing engineers, especially useful since little or no provision or guidelines are currently available in most building codes.

[Sons and Lovers, D. H. Lawrence](#) , 2012, 0141974109, 9780141974101. "She was a brazen hussy." "She wasn't. - And she was pretty, wasn't she?" "I didn't look ... And tell your girls, my son, that when they're running after you, they're not to come and ask your mother for you - tell them that - brazen baggages you meet at dancing classes" The marriage of Gertrude and Walter Morel has become a battleground. Repelled by her uneducated and sometimes violent husband, delicate Gertrude devotes her life to her children, especially to her sons, William and Paul - determined they will not follow their father into working down the coal mines. But conflict is evitable when Paul seeks to escape his mother's suffocating grasp through relationships with women his own age. Set in Lawrence's native Nottinghamshire, Sons and Lovers is a highly autobiographical and compelling portrayal of childhood, adolescence and the clash of generations. The Penguin English Library - 100 editions of the best fiction in English, from the eighteenth century and the very first novels to the beginning of the First World War.

[Medical Saints: Cosmas and Damian in a Postmodern World, Jacalyn Duffin](#) , 2013, 0199910952, 9780199910953. Cosmas and Damian were martyred around the year 300 A.D. in what is now Syria. Called the Anargyroi ("without silver") because they charged no fees, they became patrons of medicine, surgery, and pharmacy and the focus of cults ranging across Europe. They were popular in Byzantine and Orthodox traditions and their shrines are numerous in Eastern Europe, southern Italy, and Sicily. The Medici family of Florence viewed the "santi medici" as patrons, and their deeds were illustrated by great Renaissance artists. In medical literature they are now revered as patrons of transplantation. Jacalyn Duffin offers a profound exploration of illness and healing experiences in contemporary society through the veneration of the twin doctors Saints Cosmas and Damian. She also relates a personal journey, from her role as a

hematologist who unexpectedly came to serve as an expert witness in the Church's evaluation of a miracle to her research as a historian on the origins, meaning, and functions of saints. Duffin's research, which includes interviews with devotees in both North America and Europe, focuses on how people have taken the saints with them as they moved both within Italy and beyond. She shows that veneration of Cosmas and Damian has spread beyond immigrant traditions to fill important functions in healthcare and healing. Duffin's conclusions provide essential insights into medical history, sociology, anthropology, and popular religion, as well as the current medical debate over spiritual healing. *Medical Saints* draws on medical history and Roman Catholic traditions, but extends to universal observations about the behaviors of sick people and the formal responses to individual illness from collectivities in religion, medicine, and history.

Designed for both in-depth study as well as quick reference, *Neuroradiology Cases* covers the field of brain imaging through 192 concise and clinically relevant cases. Part of the *Cases in Radiology* series, this book follows the easy-to-learn case format of question and answer, complete with concise summaries and a generous amount of top-quality images. Following the format of the American Board of Radiology examinations, cases are grouped into three sections: Brain, Spine, and Ear, Nose, and Throat. Within each section, cases are randomly ordered and include challenging examples of common diseases as well as typical examples of less common ones. This collection of cases is ideal for the resident preparing for the boards, the fellow for the CAQ exam, or the radiologist in need of a quick review.

[The Book of General Ignorance, John Mitchinson, John Lloyd](#) , 2007, 0307405516, 9780307405517. Think Magellan was the first man to circumnavigate the globe, baseball was invented in America, Henry VIII had six wives, Mount Everest is the tallest mountain? Wrong, wrong, wrong, and wrong again. Misconceptions, misunderstandings, and flawed facts finally get the heave-ho in this humorous, downright humiliating book of reeducation based on the phenomenal British bestseller. Challenging what most of us assume to be verifiable truths in areas like history, literature, science, nature, and more, *The Book of General Ignorance* is a witty gotcha compendium of how little we actually know about anything. It'll have you scratching your head wondering why we even bother to go to school. Revealing the truth behind all the things we think we know but don't, this book leaves you dumbfounded about all the misinformation you've managed to collect

during your life, and sets you up to win big should you ever be a contestant on Jeopardy! or Who Wants to Be a Millionaire. Besides righting the record on common (but wrong) myths like Captain Cook discovering Australia or Alexander Graham Bell inventing the telephone, *The Book of General Ignorance* also gives us the skinny on silly slipups to trot out at dinner parties (Cinderella wore fur, not glass, slippers and chicken tikka masala was invented in Scotland, not India). Thomas Edison said that we know less than one millionth of one percent about anything: this book makes us wonder if we know even that much. You'll be surprised at how much you don't know! Check out *THE BOOK OF GENERAL IGNORANCE* for more fun entries and complete answers to the following: How long can a chicken live without its head? About two years. What do chameleons do? They don't change color to match the background. Never have; never will. Complete myth. Utter fabrication. Total Lie. They change color as a result of different emotional states. Who invented champagne? Not the French. How many legs does a centipede have? Not a hundred. How many toes has a two-toed sloth? It's either six or eight. How many penises does a European earwig have? a) Fourteen b) None at all c) Two (one for special occasions) d) Mind your own business Which animals are the best-endowed of all? Barnacles. These unassuming modest beasts have the longest penis relative to their size of any creature. They can be seven times longer than their body. What is a rhino's horn made from? A rhinoceros horn is not, as some people think, made out of hair. Who was the first American president? Peyton Randolph. What were George Washington's false teeth made from? Mostly hippopotamus. What was James Bond's favorite drink? Not the vodka martini. From the Hardcover edition.

[Visiting the Tooth Doctor, Steven L. Haase](#) , 1998, 0963144960, 9780963144966. *VISITING THE TOOTH DOCTOR*, written by Dr. Steven L. Haase, is a first-of-its kind children's book detailing & fully explaining a child's visit to the dentist. With ten years experience of treating children in a fun & educational environment, Dr. Haase produced a fun & informative book for children as well as for their parents. The book with 48 full color pages of pictures, diagrams, x-rays & a lively print, discusses topics ranging from toothbugs & toothbug removers to movie star pictures (x-rays), feelings, medicines & more. The book introduces all of the dental procedures a child will encounter & explains, using narration & photographs, the need for protective wear such as gloves, masks & safety glasses. Also included are descriptions & photographs of the various staff members a child can expect to meet, such as the Dental Hygienist, Dental Assistants & the Doctor. Most importantly, is the last section of the book, the PARENT SECTION. This area identifies the mistakes most frequently made by parents. Very often, a parent's fears & phobias will transfer to the child unconsciously, thereby creating another generation of DENTAL PHOBICS. *VISITING THE TOOTH DOCTOR* is a MUST READ for every parent & child!

[Sermon Notes for Kids: A Variety of Note Taking Activities Designed to Engage Kids in Worship, Jill Connelly](#) , 2013, 098598760X, 9780985987602. Engaging children in a church worship service can often be difficult. How can a parent, grandparent, or church leader help a child enjoy listening to and learning from the sermon? Sermon Notes for Kids provides the much needed direction that many have been looking for. It contains 7 various note-taking activities designed for kids ages 6-11. There are 4 bonus sections included: Missionary Moments, Prayer Meeting, Communion, and a Guest Speaker Log. Each activity contains instructions as well as additional tips and challenges. Sermon Notes for Kids was born as a result of creator Jill Connelly's years of sitting alongside her 4 children during Sunday worship services. All the activities in this book have been kid tested and approved! Parents, grandparents, and church leaders will all find this book to be a valuable tool. But be warned! This note-taking journal has the potential to quickly become a keepsake you will treasure forever as you look back at your child's notes and see how much he has grown in his ability to listen and comprehend even seemingly difficult sermons.

[Harvesting the Wind: 1000 Years of Windmills, Carrie Barefoot Dickerson, Patricia Dickerson Lemon](#) , 2006, 0977949001, 9780977949007. Eleven-year-old cousins Steve and Anna arrived at school early the first day of fall term 2005, carrying their scrapbooks to show their teacher their summer project. Mrs. Wood was very impressed. I'm sure the rest of your

class would enjoy hearing how you spent your summer vacation. Lets set aside some time for you to tell us what you learned. So begins the book, in which two Oklahoma Cherokee/Kaw children report on their research into the history of windmills and electricity-generating wind turbines that now light our homes and cities. Their story includes stops for local color in countries worldwide and for important technical developments. Written for young people and lavishly illustrated, its readable narrative offers practical information resources for individuals of any age who are interested in safe, low cost, non-polluting powerpower that can free countries from dependence on other nations and families from dependence on the grid!

[Perception, Hallucination, and Illusion, William Fish](#) , 2009, 0199888736, 9780199888733. The idea of a disjunctive theory of visual experiences first found expression in J.M. Hinton's pioneering 1973 book Experiences. In the first monograph in this exciting area since then, William Fish develops a comprehensive disjunctive theory, incorporating detailed accounts of the three core kinds of visual experience--perception, hallucination, and illusion--and an explanation of how perception and hallucination could be indiscriminable from one another without having anything in common. In the veridical case, Fish contends that the perception of a particular state of affairs involves the subject's being acquainted with that state of affairs, and that it is the subject's standing in this acquaintance relation that makes the experience

possess a phenomenal character. Fish argues that when we hallucinate, we are having an experience that, while lacking phenomenal character, is mistakenly supposed by the subject to possess it. Fish then shows how this approach to visual experience is compatible with empirical research into the workings of the brain and concludes by extending this treatment to cover the many different types of illusion that we can be subject to.

[The Aesthetics of Resistance, Volume 1: A Novel, , Peter Weiss](#) , 2005, 0822386941, 9780822386940. DIVA major literary event, the publication of this masterly translation makes one of the towering works of twentieth-century German literature available to English-speaking readers for the first time. The three-volume novel *The Aesthetics of Resistance* is the crowning achievement of Peter Weiss, the internationally renowned dramatist best known for his play *Marat/Sade*. The first volume, presented here, was initially published in Germany in 1975; the third and final volume appeared in 1981, just six months before Weiss's death. Spanning the period from the late 1930s to World War II, this historical novel dramatizes anti-fascist resistance and the rise and fall of proletarian political parties in Europe. Living in Berlin in 1937, the unnamed narrator and his peers—sixteen- and seventeen-year-old working-class students—seek ways to express their hatred for the Nazi regime. They meet in museums and galleries, and in their discussions they explore the affinity between political resistance and art, the connection at the heart of Weiss's novel. Weiss suggests that meaning lies in embracing resistance, no matter how intense the oppression, and that we must look to art for new models of political action and social understanding. The novel includes extended meditations on paintings, sculpture, and literature. Moving from the Berlin underground to the front lines of the Spanish Civil War and on to other parts of Europe, the story teems with characters, almost all of whom are based on historical figures. *The Aesthetics of Resistance* is one of the truly great works of postwar German literature and an essential resource for understanding twentieth-century German history./div

[Science and Reason, Henry Ely Kyburg](#) , 1990, 0195062531, 9780195062533. In this work Henry Kyburg presents his views on a wide range of philosophical problems associated with the study and practice of science and mathematics. The main structure of the book consists of a presentation of Kyburg's notions of epistemic probability and its use in the scientific enterprise i.e., the effort to modify previously adopted beliefs in the light of experience. Intended for cognitive scientists and people in artificial intelligence as well as for technically oriented philosophers, the book also provides a general overview of the philosophy of science for the non-philosopher by one of the leading authorities in the field.

[The Spirit Level: Why Equality is Better for Everyone, Richard G. Wilkinson, Richard Wilkinson, Kate Pickett](#) , 2010, 0241954290, 9780241954294. It is common knowledge that in rich societies the poor have shorter lives and suffer more from almost every social problem. Large inequalities of income are likewise often regarded as divisive and corrosive. This groundbreaking book, based on thirty years research, goes an important stage beyond either of these ideas: it demonstrates that more unequal societies are bad for almost everyone within them the well-off as well as the poor. The remarkable data the book lays out and the measures it uses are like a spirit level which we can hold up to compare the conditions of different societies. The differences revealed, even between rich market democracies, are striking. Almost every modern social and environmental problem ill-health, lack of community life, violence, drugs, obesity, mental illness, long working hours, big prison populations is more likely to occur in a less equal society. The Spirit Level goes to the heart of the apparent contrast between the material success and social failings of many modern societies, but it does not simply provide a key to diagnosing our ills. It tells us how to shift the balance from self-interested consumerism to a friendlier and more collaborative society. It shows a way out of the social and environmental problems which beset us and opens up a major new approach to improving the real quality of life, not just for the poor but for everyone. It is, in its conclusion, an optimistic book, which should revitalise politics and provide a new way of thinking about how we organise human communities.

[Country Of My Skull, Antjie Krog](#) , 2010, 1407063510, 9781407063515. The first free elections in South Africa's history were held in 1994. Within a year legislation was drafted to create a Truth and Reconciliation Commission to establish a picture of the gross human rights violations committed between 1960 and 1993. It was to seek the truth and make it known to the public and to prevent these brutal events ever happening again. From 1996 and over the following two years South Africans were exposed almost daily to revelations about their traumatic past. Antjie Krog's full account of the Commission's work using the testimonies of the oppressed and oppressors alike is a harrowing and haunting book in which the voices of ordinary people shape the course of history. WINNER OF SOUTH AFRICA'S SUNDAY TIMES ALAN PATON AWARD

[Back and Forth, Fon James](#) , 2007, 0979957109, 9780979957109. Faith Walker, Gavin Roberts, Chrissy Jackson and Remi Aguilar are all seniors who attend historically Black, Jackson State University, where the four are members of the school's well-known marching band. It's their last year in college and as the fall semester begins, the lives of these four friends take an unexpected turn when two of the friends accidentally sleep together. While temptations of sex and alcohol are as common as textbooks and pencils for these college students, this little sex incident rocks the core of their friendship bond and slowly begins to unravel the once tightly-woven group. Will the friendship between these four outlast the outcome of this one-night stand? MEANWHILE ON THE CAMPUS YARD. Faith has once-again renewed her celibate lifestyle. For the last three years she's been going back and forth on her commitment to no sex, all in the name of keeping her man satisfied and happy. Even though she's been down this "commitment to no sex" road before after enduring a life changing incident freshman year, she's not letting anything further compromise her promise to God and to herself. But as the fall semester begins, her renewed celibacy goal gets abruptly interrupted when she experiences an unexpected betrayal that makes her question if she's really doing the right thing by not giving up the goods anymore. To make matters worse, a big family secret is revealed that leaves Faith clinging to the only stable thing in her life. her faith in God. STEP INTO THE LIVES OF FAITH, GAVIN, CHRISSEY, AND REMI TO SEE HOW TEMPTATION, BETRAYAL, FAITH AND FORGIVENESS ALL PLAY AN INTEGRAL ROLE IN THE JOURNEY TO GROWING CLOSER TO GOD.

[On the Take : How Medicine's Complicity with Big Business Can Endanger Your Health: How Medicine's Complicity with Big Business Can Endanger Your Health, Jerome P. Kassirer M.D. Distinguished Professor Tufts University School of Medicine](#) , 2004, 0198039298, 9780198039297. We all know that doctors accept gifts from drug companies, ranging from pens and coffee mugs to free vacations at luxurious resorts. But as the former Editor-in-Chief of The New England Journal of Medicine reveals in this shocking expose, these innocuous-seeming gifts are just the tip of an iceberg that is distorting the practice of medicine and jeopardizing the health of millions of Americans today. In On the Take, Dr. Jerome Kassirer offers an unsettling look at the pervasive payoffs that physicians take from big drug companies and other medical suppliers, arguing that the billion-dollar onslaught of industry money has deflected many physicians' moral compasses and directly impacted the everyday care we receive from the doctors and institutions we trust most. Underscored by countless chilling untold stories, the book illuminates the financial connections between the wealthy companies that make drugs and the doctors who prescribe them. Kassirer details the shocking extent of these financial enticements and explains how they encourage bias, promote dangerously misleading medical information, raise the cost of medical care, and breed distrust. Among the questionable practices he describes are: the disturbing number of senior academic physicians who have financial arrangements with drug companies; the unregulated "front" organizations that advocate certain drugs; the creation of biased medical education materials by the drug companies themselves; and the use of financially conflicted physicians to write clinical practice guidelines or to testify before the FDA in support of a

particular drug. A brilliant diagnosis of an epidemic of greed, *On the Take* offers insight into how we can cure the medical profession and restore our trust in doctors and hospitals.

[Agile Analytics: A Value-Driven Approach to Business Intelligence and Data Warehousing, Ken W. Collier](#) , 2011, 0321669541, 9780321669544. Using Agile methods, you can bring far greater innovation, value, and quality to any data warehousing (DW), business intelligence (BI), or analytics project. However, conventional Agile methods must be carefully adapted to address the unique characteristics of DW/BI projects. In *Agile Analytics*, Agile pioneer Ken Collier shows how to do just that. Collier introduces platform-agnostic Agile solutions for integrating infrastructures consisting of diverse operational, legacy, and specialty systems that mix commercial and custom code. Using working examples, he shows how to manage analytics development teams with widely diverse skill sets and how to support enormous and fast-growing data volumes. Colliers techniques offer optimal value whether your projects involve back-end data management, front-end business analysis, or both. Part I focuses on Agile project management techniques and delivery team coordination, introducing core practices that shape the way your Agile DW/BI project community can collaborate toward success Part II presents technical methods for enabling continuous delivery of business value at production-quality levels, including evolving superior designs; test-driven DW development; version control; and project automation Collier brings together proven solutions you can apply right now whether youre an IT decision-maker, data warehouse professional, database administrator, business intelligence specialist, or database developer. With his help, you can mitigate project risk, improve business alignment, achieve better results and have fun along the way.

[The Ancient Alien Question: A New Inquiry Into the Existence, Evidence, and Influence of Ancient Visitors, Philip Coppens](#) , 2011, 1601631987, 9781601631985. "an important and outstanding contribution." --Erich von Daniken, best-selling

author of *Twilight of the Gods* "The Ancient Alien Question provides a captivating adventure around the world and sheds an interesting perspective on the Ancient Astronaut Theory. It raises questions that culminate in well-thought-out, and sometimes downright startling, conclusions. A must-read for anyone who wants to expand their knowledge horizon in this kick-ass field." --Giorgio A. Tsoukalos, author, *Gods or Ancient Aliens?* producer, *Ancient Aliens: The Series* "In The Ancient Alien Question Coppens breaks the intellectual sound barrier and offers his readers a well-researched and well-written book that challenges this last taboo of the human adventure. Definitely a not-to-be-missed book!" --Robert Bauval, author of *The Orion Mystery* "Philip Coppens covers all the bases on this controversial topic. His research is thorough and he addresses each topic with a balanced overview that cuts through the jungle of confusion with a very sharp machete of reason." --David Hatcher Childress, author of *Technology of the Gods* Have we been visited by extraterrestrial beings? Did these "ancient aliens" contribute to the birth of human civilization? Do our ancient monuments contain evidence of their presence? The Ancient Alien Question reveals an array of astonishing truths, including: A radically different understanding of the pyramids and how they were constructed The origins of crystal skulls and how they were found The extraordinary stories behind monuments such as the Nazca lines and Puma Punku, and who built them How extraterrestrials came to our planet and the evidence that supports this Analyzing the historical and archaeological evidence, Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than currently accepted, and that certain cultures interacted with non-human intelligences. Our ancestors were clearly not alone. Forty years after Erich von Dniken posed these questions in *Chariots of the Gods*, Coppens provides clear and concise answers to the great historical enigmas in a most accessible and readable format. Your view of human history will never be the same again!

Written by a prolific, well-respected author, this book teaches how to observe, document, and assess children's development and progress emphasizing how powerful ethical, responsible observation can be in a teacher's professional life. Focusing on observations as an intrinsic part of authentic assessment, the author advocates a protective, respectful attitude toward it. Provides an overview of various informal and formal observation and assessment strategies, as well as instruction in how to embed observation into the daily routine of the early childhood classroom. Explores ways to prevent problems, ways to solve problems, and ways to work cooperatively with parents. Included is coverage of the ethics of observation and the pros and cons of standardized testing as it relates to observation and assessment. For early childhood teachers.

[Unicorn School: The Treasure Hunt, Linda Chapman](#) , 2008, 0141322497, 9780141322490. Follow little Willow and her new unicorn friends as they settle into life at Unicorn School. The fun continues in this third adventure when Willow and her best friends go on a treasure hunt. Troy becomes very bossy and Willow gets cross, but the team all pull together when one of the clues leads them to a most unusual find, and, suddenly, winning doesn't seem quite as important any more.

[The Language of Literature, Adrian Beard](#) , 2003, 0203697049, 9780203697047. Routledge A Level English Guides equip AS and A2 Level students with the skills they need to explore, evaluate, and enjoy English. Books in the series are built around the various skills specified in the assessment objectives (AOs) for all AS and A2 Level English courses. Focusing on the AOs most relevant to their topic, the books help students to develop their knowledge and abilities through analysis of lively texts and contemporary data. Each book in the series covers a different area of language and literary study, and offers accessible explanations, examples, exercises, summaries, a glossary of key terms, and suggested answers. The Language of Literature: *looks at how writers use language to create literary texts* explores a wide variety of literary texts from Shakespeare to Helen Fielding, via Alexander Pope, William Blake, Mary Shelley, Charles Dickens, Oscar Wilde, Julian Barnes and Martin Amis *covers the key skills and topics, including structure, shapes and patterns, genre and sub-genre, narrative and narrators, representing talk, metaphor, allegory and intertextuality* offers a step-by-step guide to approaching literary texts and structuring a response *can be used as both a course stimulus and a revision tool. Written by an experienced teacher, author and AS and A2 Level examiner, The Language of Literature is an essential resource for all students of AS and A2 Level English Language, English Literature, and English Language and Literature.

[The Essential First Year, Penelope Leach](#) , 2010, 0756663318, 9780756663315. As many of us become parents at a later stage, when our adult lives are well established, the arrival of a baby brings an unpredictability that can be hard to cope with. Those who are used to managing their time in the workplace can be tempted to try to manage their infant in the same way. So-called "controlled crying" has been recommended by many recent childcare guides, but parents should be

aware of the high cost of such methods to their baby. In *The Essential First Year* Penelope Leach shows parents how they can reach a harmonious balance between their baby's needs and their own. While babies and their needs have not changed, our lifestyles have, and Penelope Leach has written the perfect manual for busy 21st century parents, which spans from pregnancy to the child's first birthday. The book is a gentle, but timely reminder that the fundamental purpose of having children is to share happiness. The happier a baby is, the more parents will enjoy being with him or her; being responsive to one's baby does not mean that it has to be at personal expense - the happiness of parents and baby is inextricably intertwined. *The Essential First Year* is not just full of sensible, practical advice, it is backed by more than ten years of new research into infant development, especially in brain growth, which now confirms, for instance, just how much fathers matter to their infant's progress, how girls' and boys' brains are different at birth (and develop differently) and how helping a baby to be calm, contented, amused, and interested leads to optimum development of body and brain. Using such information, Penelope Leach shows parents how to deal with problems as well as how to prevent them. Every parent wants to do the best for their baby and for the child that the baby will become. *The Essential First Year* gives parents the knowledge and the tools to nurture and care for every aspect of their infant's life - to meet the baby's physical needs, to stimulate their intellectual development and ensure their emotional well-being - and most importantly, *The Essential First Year* helps parents to simply enjoy being parents.

[Principles of Biodynamic Spray And Compost Preparations, Manfred Klett](#) , 2006, 0863155421, 9780863155420. A renowned biodynamic expert, Klett provides a fascinating overview of the history of agriculture, then goes on to discuss the practicalities of spray and compost preparations and the philosophy behind them. This is essential reading for any biodynamic gardener or farmer who wants to understand the background to core biodynamic techniques. Based on keynote talks given by Manfred Klett at Biodynamic Agricultural Association conferences.

[Magic Carpet Flying: The Ride of Your Life, Pamela Ryan](#) , 2009, 0978498259, 9780978498252. Magic Carpet Flying traces psychologist Pamela Ryan's journey through her life's adventures, from the rapture of achievement to the personal anguish of loss. Drawing on childhood lessons in rural Australia and later work in the Australian outback, Africa, Asia, and other parts of the world where she travelled to help others tackle the darkness of mental illness, suicide, and large-scale tragedy arising from terrorist attacks and natural disasters, Ryan reveals how she not only survived trauma but turned her journey into a "magic carpet ride." Exploring what it is to "live truth," to "make ourselves up as we go along," to aim for the stars, and to become the "pilot in command" of our own destiny, Pamela Ryan's unforgettable journey in Magic Carpet Flying reveals what it means to be fully alive.

[How to Open & Operate a Financially Successful Private Investigation Business, Michael Cavallaro](#) , 2010, 1601383312, 9781601383310. If you spent your childhood reading detective novels and thinking how amazing it would be to start your own, or if you just decided it is time to retire from your current job in the police, military, or other investigative agency and start your own company, the concept of owning and operating your own Private Investigation Business is probably very enticing. With a massive upside and potential for growth, the industry has been booming for years. With all self-employment opportunities up and private investigation in particular up by more than 16% according to the IRS statistics on small businesses, now is the time to get into the industry. This book was written for anyone who has looked at the idea of private investigation and decided that it would be ideal for them. You will learn everything you need to know about working in the private investigation field, starting with the basics of what you can expect and what preconceptions you may have that are just Hollywood fancy. You will learn how to choose a niche of investigation and how to start thinking in the abstract, questioning everything but recognizing facts for what they are. You will learn the key differences between a private investigator and a police officer and why those who want to be the latter should consider all their options before getting into private work. You will learn how to investigate a case and how to perform all of your necessary actions legally. Whether you will be operating out of your home or you are looking to buy or rent office space,

this book can help you with a wealth of start-up information, from how to form and name your business to deciding if this will be a joint venture or if you would rather work solo. Valuable information on forming a Partnership, LLC, Corporation, or becoming a Sole Proprietor, the four types of business formations, is included, and also the legal implications of each. This complete manual will arm you with everything you need, including sample business forms; contracts; worksheets and checklists for planning, opening, and running day-to-day operations; lists; plans and layouts; and dozens of other valuable, timesaving tools of the trade that no business owner should be without. While providing detailed instruction and examples, the author leads you through every detail that will bring success. You will learn how to draw up a winning business plan (the companion CD-ROM has the actual business plan you can use in Microsoft Word) and about basic cost control systems, copyright and trademark issues, branding, management, legal concerns, sales and marketing techniques, and pricing formulas. You will learn how to hire and keep a qualified professional staff, meet IRS requirements, manage and train employees, generate high profile public relations and publicity, and implement low cost internal marketing ideas. You will learn how to build your business by using low and no cost ways to satisfy customers, and also ways to increase sales, have customers refer others to you, and thousands of excellent tips and useful guidelines. You will learn how to hire contractors to help you and which licenses and liability insurance you will need. You will learn which contracts and forms, including privacy agreements, you must have on hand and which business structure is best for you. You will learn how to find clients and what tools you need, including the right camera and lenses. You will learn how modern computer equipment can accent your investigations and how to start using internet searches through public records, private databases and courthouse records to speed up the process. Learn how to perform background investigations, interviews, and surveillance and what the basics of each kind of investigation entails. The companion CD-ROM is included with the print version of this book; however is not available for download with the electronic version. It may be obtained separately by contacting Atlantic Publishing Group at sales@atlantic-pub.com Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. Founded over twenty years ago in the company president's garage, Atlantic Publishing has grown to become a renowned resource for non-fiction books. Today, over 450 titles are in print covering subjects such as small business, healthy living, management, finance, careers, and real estate. Atlantic Publishing prides itself on producing award winning, high-quality manuals that give readers up-to-date, pertinent information, real-world examples, and case studies with expert advice. Every book has resources, contact information, and web sites of the products or companies discussed.

[Understanding Maths: Basic Mathematics Explained, Graham Lawler](#) , 2011, 1842852655, 9781842852651. Written by an experienced maths teacher, this book will help you master number and data handling. Whether you are just starting at college or university, or a mature student, it explains all you need to know.

[Jackson Hole: On a Grand Scale, David Gonzales](#) , 2002, 0971774862, 9780971774865. Jackson Hole features the

greatest vertical drop of any ski resort in the United States, and has extremely varied terrain. Gonzales tells the whole story, past and present, of this daunting but irresistible mountain. He covers the geography, geology, and history of the area, and devotes a full chapter to its development by pioneer Paul McCollister.

[How to adopt internationally: a guide for agency-directed and independent adoptions, Jean Nelson-Erichsen, Heino R. Erichsen](#) , 2003, 094035215X, 9780940352155. How to Adopt Internationally is organized around 23 easy-to-follow steps that lead readers through every phase of the international adoption process from finding an agency and organizing a home study to choosing a country to adopt from, working through emigration and immigration, traveling abroad, and adjusting to a new life with a child. The book includes detailed instructions for estimating the cost of an international adoption and also provides samples of almost all forms and documents parents will be required to fill out or provide including sample guidelines used to conduct a home study. The last half of the book provides up-to-date and in-depth information on the adoption laws and requirements for 68 child-placing countries including Russia, Romania,Ukraine, Bulgaria, China, Korea, Guatemala, Chile, Mexico, and Colombia. This latest edition also includes Internet addresses for finding important updates regarding international adoption on the World Wide Web including sites for downloading INS forms, contacting Embassies and agencies overseas, finding country-specific adoptive parent support groups, up-to-date travel information, and much more.

[Social Research Methods, Alan Bryman](#) , 2001, 0198742045, 9780198742043. This book provides a comprehensive introduction to the study and implementation of social research methods. It gives students an assessment of the contexts within which different methods can be used, explaining how social research is carried out and offering advice for independent socialresearch study. All the major research methods and designs are covered, with theoretical discussions illustrated by practical examples to aid understanding.Both quantitative and qualitative research are explored in depth,

with an assessment of how these are distinguished alongside discussions of the ways in which these two research strategies can be usefully combined. This balanced approach encourages an appreciation of the variety inherent in social research methods, and offers students a diversity of transferable skills. Illustrated throughout with a wide range of examples, this book provides a practical approach and is the essential introduction to social research methods for all students of this subject. ACCOMPANY WEB SITE: A web site to work alongside the book, featuring powerpoint slides providing an entire lecture course (can be used in any order), revision questions, additional examples, and lecturer material.

[Winning Doubles, Scott Perlstein](#) , 1995, 1558213309, 9781558213302. Singles tennis may take the spotlight at center court, but for the 25 million tennis players in America, doubles is the game they play. Veteran tennis coach Scott Perlstein presents a clear and detailed analysis of the strategies, techniques and shot sequences that make for a great doubles game. Photos.

[La gestin de la calidad total: un texto introductorio, Paul T. J. James](#) , 1996, 0132071193, 9780132071192. The book is structured to parallel the development of general management theory with TQM theory, before discussing in depth the five functions of total quality management in organizations: planning, organizing, leading, staffing and controlling. Student-oriented learning features include: cases, problems, learning outcomes and objectives, definitions and a quality glossary. @@Fully comprehensive, providing theoretical concepts - including all key quality writers - before coverage of practical implementation and techniques. Provides a familiar learning environment for students by integrating all concepts taught in the general management curriculum with the quality management agenda.

[Toward a Nonkilling Paradigm, Jom Evans Pim](#) , 2009, 0982298315, 9780982298312. The present volume brings together 24 authors and 14 disciplines (including anthropology, arts, biology, economics, engineering, geography, health sciences, history, linguistics, mathematics, philosophy, physics, psychology and sociology) to seriously consider the prospects for the realization of nonkilling societies and to challenge each discipline's role in the necessary social and scientific transformation toward a killing-free world--Pub.

[The Nuremberg Military Tribunals and the Origins of International Criminal Law, Kevin Jon Heller](#) , 2011, 0191652865, 9780191652868. This book provides the first comprehensive legal analysis of the twelve war crimes trials held in the American zone of occupation between 1946 and 1949, collectively known as the Nuremberg Military Tribunals (NMTs). The judgments the NMTs produced have played a critical role in the development of international criminal law, particularly in terms of how courts currently understand war crimes, crimes against humanity, and the crime of aggression. The trials are also of tremendous historical importance, because they provide a far more comprehensive picture of Nazi atrocities than their more famous predecessor, the International Military Tribunal at Nuremberg (IMT). The IMT focused exclusively on the 'major war criminals'-the Goerings, the Hesses, the Speers. The NMTs, by contrast, prosecuted doctors, lawyers, judges, industrialists, bankers-the private citizens and lower-level functionaries whose

willingness to take part in the destruction of millions of innocents manifested what Hannah Arendt famously called 'the banality of evil'. The book is divided into five sections. The first section traces the evolution of the twelve NMT trials. The second section discusses the law, procedure, and rules of evidence applied by the tribunals, with a focus on the important differences between Law No. 10 and the Nuremberg Charter. The third section, the heart of the book, provides a systematic analysis of the tribunals' jurisprudence. It covers Law No. 10's core crimes-crimes against peace, war crimes, and crimes against humanity-as well as the crimes of conspiracy and membership in a criminal organization. The fourth section then examines the modes of participation and defenses that the tribunals recognized. The final section deals with sentencing, the aftermath of the trials, and their historical legacy.

[Summarization in Any Subject: 50 Techniques to Improve Student Learning, Rick Wormeli](#) , 2005, 1416600191, 9781416600190. Educators agree that the ability to summarize--to identify salient information and structure it for meaning, long-term retention, and successful application--is an essential academic skill. Research affirms summarization's reputation as a highly effective way to boost comprehension and achievement. We know summarization works. But isn't it, well, just a little dull? It doesn't have to be. Rick Wormeli, a teacher certified by the National Board for Professional Teaching Standards, makes the case that summarization is not only one of the most effective ways to improve student learning, it's also one of the most flexible, responsive, and engaging. Here, you'll find a classroom-tested collection of written, spoken, artistic, and kinesthetic summarization techniques for both individual assignments and group activities across the content areas. Suitable for students in grades 3-12, these techniques are easily adjustable to any curriculum and presented with ample directions and vivid, multidisciplinary examples. They are valuable additions to every teacher's repertoire. Wormeli also clarifies the process of teaching students how to summarize and includes a special section on the key skill of paraphrasing. The book concludes with an assortment of original text excerpts and activity prompts--a great starting place for teachers ready to use summarization in their own classrooms.

[The Humiliation of Hannah, Lizbeth Dusseau](#) , 2007, 1934349305, 9781934349304. In a time when women are expected to know their place, this tale of desire and surrender is steeped in the sweet romance and the ruthless brutality of an uncivilized time. With her parents gone, Hannah Crowe feels responsible for her post-adolescent siblings. Life would be much easier if her brother Beau and sister Jolie were not always getting into trouble, causing conflict between Hannah and husband, Daniel. His prescription for these misdemeanors is a turn in the woodshed, strap in hand. In the latest scuffle, Daniel gives the reckless Jolie over to Judge Boone, whose courthouse discipline sees the young maid half stripped before an audience and punished with a tawse. But when Hannah attempts to rescue Beau - against Daniel's

wishes - it's Hannah who's off to the woodshed, later serving time naked in the yard, tethered to a post. Extreme? Maybe. But the infuriated Daniel refuses to back down. When Beau's bad debts to a unscrupulous swindler, Jarrett Cain, mount, it's Hannah being harassed. She cringes at his sleazy insinuations, but she doesn't dare tell Daniel. Jarrett and his boys soon show up at the farmhouse while Daniel's away, with plans to take their payment in sex from both Hannah and Jolie. When Hannah resists, both women are forced against the kitchen table and soundly whipped; then while Jolie watches in horror, her sister is anally raped. Believing she has betrayed her husband, Hannah is shamed beyond belief and again refuses to tell her husband. She makes Jolie swear to keep the awful secret. Days later, Hannah is kidnapped and taken to Cain's ranch, where she's displayed, tormented and humiliated in the pony ring, then is the victim of a gang rape by Jarrett and his men. Though deploring the vile things these men do, a strange sexual satisfaction brews in her when she's so unmercifully used. Could it be she finds a depraved satisfaction in these obscene sexual acts? Finally freed, Hannah can't go home and face Daniel. She thus serves penance at Miss Mamie's Whorehouse, cooking, cleaning and spreading her legs for Jarrett whenever he's there to use her. Hannah knows this is her fate, even as a determined Daniel intends to find her and bring her home.

[Reiki at Hand, Teresa Collins](#) , 1998, 1898256403, 9781898256403. Reiki, a Japanese word which means "life energy" is an ancient healing system using the universal life energy to heal. It has grown in popularity since the 1970's, and is currently taught by trained instructors through initiations and workshops. Teresa Collins, a trained physiotherapist, qualified for Reiki in 1984 and has given over 60 workshops and 10,000 Reiki treatments and is a "Master's Level" instructor. As such, Reiki at Hand is the first instruction book to cover all three levels of Reiki, with step-by-step instructions for practicing and teaching the system. Using hands-on healing and distance treatment, Reiki works at both a physical and spiritual/emotional level. The usual effects of a treatment include not just alleviation of a particular ailment/problem, but also relaxation and inner peace. Collins includes all the guidelines and contra indications for using Reiki. Workshop programs for all three levels are also included. Written in a clear, straight-forward manner, Reiki at Hand makes all aspects of Reiki, including its history and philosophy accessible to all levels of readers. Includes an original cover design by the noted illustrator, Charles Frizzell, and over 40 hand position diagrams.

[Risk Management in Port Operations, Logistics and Supply Chain Security, Khalid Bichou, Michael G. H. Bell, Andrew Evans](#) , 2007, 1843116553, 9781843116554. "The 9/11 attacks and other subsequent events have fostered further dimensions to port, maritime and supply chain security with a raft of compulsory and voluntary measures being put in place at both domestic and global levels. Risk Management in Port Operations is the first insight into the complex world of port and supply chain security. It combines selected peer-reviewed contributions from an international line-up of academic and professional experts in the field. In particular, the book addresses operational and management challenges that port, international logistics and supply chain operators face today in view of the new security regulations and the

requirements of increased visibility throughout the supply chain. The book also offers a rare blend of academic and practitioner contributions covering a wide collection of security models and applications ranging from operational and functional subjects to management and policy issues; the first insight into the complex world of port

[Germans Are Funny, Too!: Stories of My Cuckoo Kraut Family, Barbara Steingas](#) , 2010, 0975579789, 9780975579787.

As noted on the blurb on the back cover, per Glaister Kerr, formerly of Miramax, "The biggest strength of this book is that each story is told in a way that makes it easy for a reader to relate to, regardless of background (German or non-German). It also illuminates the thousand different ways that one's family, culture and history can impact one's day to day life. The comfortable, easy-going tone of the author gives the reader the sense of hearing a friend sharing treasured memories, and is one of the best aspects of the story."

[International Differences in Well-Being, Ed Diener, Daniel Kahneman, John Helliwell](#) , 2010, 0199741484,

9780199741489. This book draws together the latest work from scholars around the world using subjective well-being data to understand and compare well-being across countries and cultures. Starting from many different vantage points, the authors reached a consensus that many measures of subjective well-being, ranging from life evaluations through emotional states, based on memories and current evaluations, merit broader collection and analysis. Using data from the Gallup World Poll, the World Values Survey, and other internationally comparable surveys, the authors document wide divergences among countries in all measures of subjective well-being, The international differences are greater for life evaluations than for emotions. Despite the well-documented differences in the ways in which subjective evaluations change through time and across cultures, the bulk of the very large international differences in life evaluations are due to differences in life circumstances rather than differences in the way these differences are evaluated.
