We believe that you'll find this collection as deserving. Bonnie was a writer not afraid to use plot in his stories, and he was a writer on a constant lurch for characters. His stories convey a delightful sense of humor wherein the protagonist is often enough hoisted by his or her own petard. These stories combine two out-of-print Canadian collections, Squatter's Rights and Displaced Persons. Fred revised all the stories, which appear in America for the first time in book form.

[Gumoil Photographic Printing, Karl P. Koenig](#) , 1999, 0240803671, 9780240803678. There is renewed interest among art photographers in a number of historic printing techniques because of the remarkable effects they produce. The reader will discover how to create beautifully tinted mono- and polychromatic gum and oil images using the author's version of

this 19th century technique. Step-by-step illustrated instructions with directions for further experimentation provide a perfect source for learning this new, yet old, printing technique. Gumoil printing involves contact-printing a positive transparency onto gum-coated paper. Oil paint is then applied and rubbed into nongummed areas of the print. With bleach etching, mono- and polychromatic variations are possible. A chapter on digital printing combines the new and the historic, making this technique even more accessible for the art photographer. [Caste Today, Christopher John Fuller](#) , 1996, 019563795X, 9780195637953. This work is a collection of papers which describe and analyze the nature and significance of caste in contemporary India. They are based on ethnographic research carried out both in rural and urban areas, in north and south India, and among both Hindus and Muslims. This book shows how caste today is increasingly about cultural separation rather than hierarchical rank, how it can become an idiom for class inequality, and why it can take on different forms between Muslims and Hindus. The work also discusses how the meaning and significance of caste are becoming increasingly ambiguous for the Indians today.

[Object Lessons, Anna Quindlen](#) , 1996, 0099550210, 9780099550211. Young Maggie Scanlan begins to sense that, beneath the calm everyday surface of her peaceful life, everything is going strangely wrong. Her all-powerful grandfather is reduced to a shadow by a stroke, and to Maggie's astonishment this causes her usually unemotional father to burst into tears. Connie, her lushly beautiful mother, whom Maggie could always be sure of finding at home, is now rarely there. And her cousin and her best friend start doing things that leave her confused and frightened about sex and sin. In the sprawling Scanlan family in New York's Westchester County in the '60s, accommodations are made within a culturally mixed marriage and the mundanity of married life is validated by the occasional flare of passion. Maggie observes the powerplay and shifting allegiances operating behind the scenes with the sharp and dispassionate view of a child on the verge of adulthood. A troubling, frightening time, it ultimately becomes one of liberation, an object lesson Maggie will remember for the rest of her life.

[Born along the Color Line: The 1933 Amenia Conference and the Rise of a National Civil Rights Movement, Eben Miller](#) ,

2012, 0199913463, 9780199913466. In August, 1933, dozens of people gathered amid seven large, canvas tents in a field near Amenia, in upstate New York. Joel Spingarn, president of the board of the NAACP, had called a conference to revitalize the flagging civil rights organization. In Amenia, such old lions as the 65 year-old W.E.B. DuBois would mingle with "the coming leaders of Negro thought." It was a fascinating encounter that would transform the civil rights movement. With elegant writing and piercing insight, historian Eben Miller narrates how this little-known conference brought together a remarkable young group of African American activists, capturing through the lives of five

extraordinary participants--youth activist Juanita Jackson, diplomat Ralph Bunche, economist Abram Harris, lawyer Louis Redding, and Harlem organizer Moran Weston--how this generation shaped the ongoing movement for civil rights during the Depression, World War II, and beyond. Miller describes how Jackson, Bunche, Harris, and the others felt that, amidst the global crisis of the 1930s, it was urgent to move beyond the NAACP's legal and political focus to build an economic movement that reached across the racial divide to challenge the capitalist system that had collapsed so devastatingly. They advocated alliances with labor groups, agitated for equal education, and campaigned for anti-lynching legislation and open access to the ballot and employment--spreading their influential ideas through their writings and by mass organizing in African American communities across the country, North and South. In their arguments and individual awakenings, they formed a key bridge between the turn-of-the-century Talented Tenth and the postwar civil rights generation, broadening and advancing the fight for racial equality through the darkest economic times the country has ever faced. In *Born along the Color Line*, Miller vividly captures the emergence of a forgotten generation of African American leaders, a generation that made *Brown v. Board of Education* and all that followed from it possible. It is an illuminating portrait of the "long civil rights movement," not the movement that began in the 1950s, but the one that took on new life at America in 1933

There's the baby Jesus who suddenly pipes up with 'My name is Tammy, are you my Mommy?' and funniest of all, Mary who tells Joseph, 'I'm having a baby - oh and it's not yours'. [The Curse of the Self : Self-Awareness, Egotism, and the Quality of Human Life: Self-Awareness, Egotism, and the Quality of Human Life, Mark R. Leary Professor of Psychology Duke University](#) , 2004, 0198038518, 9780198038511.

Despite its obvious advantages, our ability to be self-reflective comes at a high price. Few people realize how profoundly their lives are affected by self-reflection or how frequently inner chatter interferes with their success, pollutes their relationships with others, and undermines their happiness. By allowing people to ruminate about the past or imagine what might happen in the future, self-reflection conjures up a great deal of personal suffering in the form of depression, anxiety, anger, jealousy, and other negative emotions. A great deal of unhappiness, in the form of addictions, overeating, and domestic violence, is due to people's inability to exert control over their thoughts and behavior. Is it possible to direct our self-reflection in a way that will minimize the disadvantages and maximize the advantages? Is there a way to affect the egotistical self through self-reflection? In this volume, Mark Leary explores the personal and social problems that are created by the capacity for self-reflection, and by drawing upon psychology and other behavioral sciences, offers insights into how these problems can be minimized.

[The Far Traveler: Voyages of a Viking Woman, Nancy Marie Brown](#) , 2008, 0547539398, 9780547539393. Five hundred years before Columbus, a Viking woman named Gudrid sailed off the edge of the known world. She landed in the New World and lived there for three years, giving birth to a baby before sailing home. Or so the Icelandic sagas say. Even after archaeologists found a Viking longhouse in Newfoundland, no one believed that the details of Gudrid's story were true. Then, in 2001, a team of scientists discovered what may have been this pioneering woman's last house, buried under a hay field in Iceland, just where the sagas suggested it could be. Joining scientists experimenting with cutting-edge technology and the latest archaeological techniques, and tracing Gudrid's steps on land and in the sagas, Nancy Marie Brown reconstructs a life that spanned and expanded the bounds of the then-known world. She also sheds new light on the society that gave rise to a woman even more extraordinary than legend has painted her and illuminates the reasons for its collapse.

[For the Love of Ireland, Judy Leslie](#) , 2013, 1481258672, 9781481258678. Margaret Sullivan dines with politicians, rebels, and spies. She is an admired journalist with the Chicago Tribune publishing under a male nom de plume.

Her unscrupulous husband is a prominent attorney and power broker with aspirations of his own. They are well-connected members of Chicago's 1880s Irish elite. On her trip to Ireland to do research for a book she is writing, Margaret meets a charming one-armed Irish rebel named Michael and finds herself attracted to him and his ideas for liberating Ireland.

While traveling through the stone-walled back roads of the island, Margaret sees for herself how the poor are treated.

She breaks her vow never to get involved, and soon questions if she can ever go back to her old superficial life in Chicago again. Overcome with her new found emotions and strong desire to help, Margaret finds herself easily convinced by Mrs. Delia Parnell that women can be just as crucial in the fight for Ireland's independence as men. Back home in Chicago Margaret publishes articles hoping to gain support in America for Michael's cause. That is until he is arrested.

Desperate, she turns to her jealous, devious husband for help...but he has a hidden agenda of his own. Torn between her career as a journalist and compassion for those overseas, she finds herself trapped by her own aspirations. Soon things spin out of control both at home and abroad, and Margaret has to decide how much she is willing sacrifice for Micheal and her love for Ireland.

For The Love of Ireland is a historical novel of love and loyalty, deception and honesty. It is about women fighting against traditional roles and gender discrimination during the 1880s. For The Love of Ireland is a work of fiction woven around actual events of the Irish Land League, a Chicago couple and the covert activities of the Clan na Gael.

Whereas many foreign policy volumes neglect the role of Congress, Pastor devotes an entire chapter to explaining how it has shaped policy. Next, he looks at the recurring challenges that have often pulled the United States into the destructive whirlpool how the United States has tried but often failed to manage succession crises, pre-empt or undermine revolutionaries, promote or manipulate elections, and encourage or neglect the regions economic development. Pastor offers a series of far-reaching policy recommendations for exiting the whirlpool and forging a hemispheric community of democracies within a free trade area. The first edition was widely acclaimed. The second is thoroughly updated, offering analyses and recommendations for addressing the contemporary democratic and security challenges facing the hemisphere.

[Fundamentals of Ceramic Powder Processing and Synthesis, Terry A. Ring](#) , 1996, 0125889305, 9780125889308.

Ceramic powder synthesis and processing are two of the most important technologies in chemical engineering and the ceramics-related area of materials science. This book covers both the processing and the synthesis of ceramic powders in great depth and is indeed the only up-to-date, comprehensive source on the subject available. The application of modern scientific and engineering methods to the field of ceramic powder synthesis has resulted in much greater control of properties. Fundamentals of Ceramic Powder Processing and Synthesis presents examples of these modern methods as they apply to ceramic powders. The book is organized to describe the natural and synthetic raw materials that comprise contemporary ceramics. It covers the three reactant processes used in synthetic ceramic powder synthesis: solid, liquid, and gas. Ceramic powder processing, as a field of materials processing, is undergoing rapid expansion. The present volume is intended as a complete and useful source on this subject of great current interest. It provides comprehensive coverage from a strong chemistry and chemical engineering perspective and is especially applicable to materials scientists, chemical engineers, and applied chemists. Key Features* The most complete and updated reference source on the subject* Comprehensive coverage from a strong chemical engineering and chemistry perspective* Emphasis on both natural and synthetic raw materials in ceramic powder synthesis* Information on reaction kinetics* Superior, more comprehensive coverage than that in existing texts* Sample problems and exercises* Problems at the end of each chapter which supplement the material

[Behind the veil: an American woman's memoir of the 1979 Iran Hostage Crisis, Debra Johanyak](#) , 2007, 1931968381, 9781931968386. Married to an Iranian, and mother of two young children, Debra Johanyak was a teaching assistant at Iran's Shiraz University when the American Embassy in Tehran was taken over by militants on November 4, 1979. Behind the Veil tells the story of a woman with dual citizenship who loves both the United States and Iran but must choose between them when the embassy takeover triggers an international and personal crisis. Johanyak recounts the events of her life in Iran, drawing on her own journal and family letters, as well as public news sources. Against a background of increasing political and religious tensions, she gives the reader vivid pictures of the world she experienced there, in good times and bad-tribal customs in a village wedding, sandstorms, the warmth of the large Iranian family she married into, the threatening pressure of Islamic fundamentalists. Coming face to face with dramatic changes in Iran's government and society, Johanyak must also confront her own identity. For anyone who has ever wanted to look behind the veil of media imagery and see life in Iran before and after the 1979 revolution, Debra Johanyak's book offers a clear, intimate, and unflinching view of a culture in conflict, as she comes to terms with her religious faith, political views, and feminist values. Behind the Veil chronicles a dangerous time in Iran and America's shared history, and brings us along on the spiritual and intellectual pilgrimage of one Midwestern woman finding her way in a volatile world.

[Monet Paints a Day, Julie Danneberg](#) , 2012, 1607344548, 9781607344544. In November 1885, impressionist painter Claude Monet vacationed in tretat, France, where he spent his days outside, painting scenes of the seaside village. One morning he rose early and carried all of his supplies and half-finished paintings out to the cliffs and rocky beach, finally stopping to paint the arch called Manneporte. Eager to capture the scene before him, and aware that he must work

quickly to catch the light, Monet became so engrossed in his work that he forgot to watch the incoming tide. Based on a true incident, MONET PAINTS A DAY introduces readers to the life and nature of this illustrious impressionist.

Interspersed throughout the story are excerpts from the painters notes and letters, while a second layer of text and back matter includes information about Impressionism as a whole. Lush watercolor illustrations in the Impressionist style give readers a visual for this artistic movement. A bibliography is also included.

[Their Fathers' God, Ole Edvart R?lvaag](#) , 1931, 0803289111, 9780803289116. Susie Doheny, an Irish Catholic, and Peder Holm, a Norwegian Lutheran, fall in love and marry in South Dakota in the 1890s. Soon their marriage is tested by

drought, depression, and family bickering. Susie believes they are being tested by their fathers' God. Peder blames Susie for the timidity of her beliefs; Susie fears Peder's pride and skepticism. When political antagonism grows between the Norwegian and Irish immigrant communities, it threatens to split their marriage. Against a backdrop of hard times, crisscrossed by Populists, antimonopolists, and schemers, Rlvaag brings the struggle of immigrants into the twentieth century. In *Giants in the Earth* the Holm family strained to wrest a homestead from the land. In *Peder Victorious* the American-born children searched for a new national identity, often defying the traditions their parents fought to uphold. In *Their Fathers' God*, Rlvaag's most soul-searching novel, the first-generation americans enter a world of ruthless competition in the midst of scarcity. The University of Nebraska Press also publishes Peder Victorious and Paul Reigstad's *Rlvaag: His Life and Art*.

[Special Stories for Disability Awareness: Stories and Activities for Teachers, Parents and Professionals, Mal Leicester](#) , 2006, 1846425778, 9781846425776. 'Children who live and go to school apart from people with disabilities suffer from several distinct disadvantages, including the fact that exposure to stories about disability, however well-intentioned, may make them believe all those with disabilities have the same emotions, needs and attitudes as characters in the story. This set of eight stories has enough accompanying activities and lessons to counter this problem somewhat; Leicester (education emerita, U. of Nottingham) works from experiences she has had with her own daughter, who contributes an autobiography. Topics include common ground, the advantages of having a good caregiver, correct behaviour around those with disabilities, bullying, cultural attitudes toward disability, and the benefits of focusing on abilities rather than disabilities. This book is intended for children aged four to 11 who are not in mainstreamed classrooms, so caregivers should be extremely careful in using this if children with disabilities are part of the regular classroom.' -

www.booknews.com 'Designed to support key stages 1 and 2 of the National Curriculum (England and Wales); this 155 page book is a superb resource or anyone wishing to raise disability awareness among children. Using the medium of storytelling the lives and adventures of eight children with disabilities are individually told. Care has been taken to cover various types of disability, for example sensory impairment, learning difficulties/difference, mobility and emotional and behavioural difficulties. Cultural diversity is also strongly supported with some of the children coming from ethnic minority

groups. Refreshingly unlike many children's stories the heroes of these stories are based on children who have a disability, with a core aim of promoting a positive approach to disability and breaking away from the potential stereotyping that can so easily develop within the everyday lives of children. Supported by walk through instructions on how the book should be used it highlights the key aims and objectives to each story. The building of vocabulary through activity sessions is particularly useful given the complexity of the subject. Clearly illustrated the book is very much a flexible learning resource and can be used independently or within other subjects. In conclusion this book is a must have for anyone tasked with teaching or supporting a child's education.' -The Encephalitis Society 'What I like most about this book is they way it gives so much information and so easily. Even if you don't feel confident about the topic, there is so much included that you will have all the help you need. All the stories are positive and how fabulous to have a book which the main characters are disabled!' - National Child-Minding Association 'If you only buy one book about disability - make it this one!' - National Child-Minding Association 'An imaginative approach to promoting disability awareness among 4 to 11 year olds. Designed to be used by parents and care professionals as well as teachers. Covers a wide range of topics, positive and negative, including fear, feelings, success, bullying, joy and exclusion, with disabled children as the heroes and heroines.' - Current Awareness Service Stories both educate and entertain. We learn from them and the learning is fun. They also stimulate our imagination and creativity. In this collection of short stories, the heroes and heroines are disabled children who defy the stereotypes associated with being disabled: being pitiable, a victim, freakish or a burden. Special Stories for Disability Awareness provides stories that fire the imagination and promote disability awareness and discussion among children aged 4-11 about universal issues such as fear, loss, feeling 'different', bullying, exclusion, joy, success, friendship and emotional growth. The stories provide a safe environment for young children to discuss painful emotions as well as a tool for teachers, parents and professionals to understand the experiences of disabled children. Each chapter features an engaging story, linked discussion and learning materials as well as suggestions for activities and photocopiable handouts. All those who work in early education or support young children will find this an invaluable resource.

[Nature's Body: Gender in the Making of Modern Science, Londa L. Schiebinger](#) , 1993, 081353531X, 9780813535319.

Winner of the Ludwik Fleck Book Prize, Society for Social Studies of Science, 1995"Schiebinger lays bare the cultural narratives that mix so easily with science. They are at the same time hilarious and eerie, silly and profoundly disturbing. Schiebinger is brilliant in showing how tales of gender and race are told in other guises."--Thomas Laqueur, author of Making Sex: Body and Gender from the Greeks to Freud"[Nature's Body] is so wonderfully humorous and is done with such careful attention to detail, the reader cannot help but see the profound implications of the history of science for modern science. Indispensable for all anthropologists, historians, philosophers, and practitioners of science."--Emily Martin, author of The Woman in the BodyEighteenth-century natural historians created a peculiar, and peculiarly durable, vision of nature--one that embodied the sexual and racial tensions of that era. When plants were found to reproduce sexually, eighteenth-century botanists ascribed to them passionate relations, polyandrous marriages, and suicidal incest, and accounts of steamy plant sex began to infiltrate the botanical literature of the day. Naturalists also turned their attention to the great apes just becoming known to eighteenth-century Europeans, clothing the females in silk vestments and training them to sip tea with the modest demeanor of English matrons, while imagining the males of the species fully capable of ravishing women.Written with humor and meticulous detail, Nature's Body draws on these and other examples to uncover the ways in which assumptions about gender, sex, and race have shaped scientific explanations of nature. Schiebinger offers a rich cultural history of science and a timely and passionate argument that science must be restructured in order to get it right.

demystifies MRI examinations of the abdomen and pelvis, giving the essential knowledge required by radiologists in order to develop and select appropriate protocols, assess scan quality and interpret imaging studies. Each chapter describes why each sequence is performed, what to look for, and how the important findings from each sequence lead to a unique diagnosis. Numerous protocols are included, from the more common, such as liver and renal MRI, to more tailored examinations such as rectal and placental MRI. All protocols are richly illustrated with images of body MR pathology. A separate chapter discusses MRA/MRV and an introductory chapter gives a brief, practical introduction to MRI physics and receiver coils. The authors' expertise and practical, concise explanations of both protocols and image interpretation makes this an essential resource for residents, fellows and experienced radiologists using body MRI for the first time.

[Crime Story, Maurice Gee](#) , 2002, . Worlds separate Brent Rosser from Ulla Peet, but a burglary gone wrong brings them into a confrontation that will change their lives - and end one of them, or perhaps both. There are many crimes in this chilling novel - brutal murder, corporate fraud, domestic violence and spiritual bankruptcy. Through the chance meetings of the Peet and Rosser families, CRIME STORY asks questions about the victims and perpetrators of crime, and about the price of greed and personal isolation. It is a haunting portrayal of human frailty but also of human courage. Parr's adaptation is an intelligent and respectful adaptation of Gee's novel. His script makes Leanne Rosser (Brent's sister) the pivot of the story.

[While America Watches: Televising the Holocaust, , Jeffrey Shandler](#) , 1999, 0195119355, 9780195119350. The

Holocaust holds a unique place in American public culture, and, as Jeffrey Shandler argues in *While America Watches*, it is television, more than any other medium, that has brought the Holocaust into our homes, our hearts, and our minds. Much has been written about Holocaust film and literature, and yet the medium that brings the subject to most people--television--has been largely neglected. Now Shandler provides the first account of how television has familiarized the American people with the Holocaust. He starts with wartime newsreels of liberated concentration camps, showing how they set the moral tone for viewing scenes of genocide, and then moves to television to explain how the Holocaust and the Holocaust survivor have gained stature as moral symbols in American culture. From early teleplays to coverage of the Eichmann trial and the Holocaust miniseries, as well as documentaries, popular series such as *All in the Family* and *Star Trek*, and news reports of recent interethnic violence in Bosnia, Shandler offers an enlightening tour of television history. Shandler also examines the many controversies that televised presentations of the Holocaust have sparked, demonstrating how their impact extends well beyond the broadcasts themselves. *While America Watches* is sure to continue this discussion--and possibly the controversies--among many readers.

The Human Story Behind the Divine Book In this New York Times bestseller, leading Bible expert Bart Ehrman skillfully demonstrates that the New Testament is riddled with contradictory views about who Jesus was and the significance of his life. Ehrman reveals that many of the books were written in the names of the apostles by Christians living decades later, and that central Christian doctrines were the inventions of still later theologians. Although this has been the standard and widespread view of scholars for two centuries, most people have never learned of it. Jesus, Interrupted is a clear and compelling account of the central challenges we have when attempting to reconstruct the life and meaning of Jesus.

[Boucher and Chardin: Masters of Modern Manners, Anne Dulau, Wallace Collection \(London, England\)](#) , 2008, 1903470757, 9781903470756. Accompanying an exhibition at the Wallace Collection, this catalog will seek to examine relationships between these two works and their creation, focusing on establishing common threads drawn from contemporary French social and cultural history. When seen together, the two paintings acquire a new resonance, showing the imaginative and Parisian response of two very different painters to a new interest in scenes from everyday life. The paintings are examined in the context of a dozen further works by the artists, and prints, drawings, books and decorative art objects including oriental textiles and porcelain. This provides an opportunity to address undercurrent social history themes, such as the artists' attitudes to fashion, interior decoration, and even the consumption of tea a

pastime borne from the contemporary fashion in eighteenth-century France and Great Britain for anything oriental, influenced by new trade links with China.

In art at school she paints Jerry as a beautiful white horse, but when she is asked if the painting is of Jerry she is embarrassed and hides the painting under her desk. One night Martha dreams that Jerry has turned into a wonderful strong horse with wings, and next day she finds that Jerry has died. She takes her painting of the old horse and pins it to his tree. In the painting Jerry looks as though he is flying."--Provided by publisher.
