[Minoan and Mycenaean Art, Reynold Alleyne Higgins](#) , 1997, 0500203032, 9780500203033. The magnificent works of art of ancient Crete, Mycenae and the Cycladic islands are awe-inspiring in their richness, variety and vitality. Frescoes, jewelry, sculpture, gold funeral masks, ivories and countless other beautiful artifacts - all the significant works of art and architecture that are our legacy from those great Aegean civilizations of the third and second millennia BC - are described and illustrated in Dr. Higgins' distinguished and classic survey. What emerges is an impressive picture of flourishing Bronze Age cultures that should be viewed not simply in the shadow of classical Greek art but as major achievements in their own right. This updated edition incorporates greater coverage of the breathtaking frescoes from Akrotiri, on the island of Thera. Other recent discoveries and research are also included, such as the unique ivory figurine from Palaikastro, objects from the palace of Mallia and the intriguing presence of Minoan-style frescoes in Egypt.

The Oxford Literacy Web is an exciting new literacy programme designed to guide schools successfully through the primary years. Fitting the requirements of the National Literacy Strategy, National Curriculum in England and Wales, English Language 5-14 in Scotland, and Common Curriculum in Northern Ireland, the Oxford Literacy Web guides pupils through the core skills associated with learning to read and write with a diverse range of literary styles within the genres of fiction, non-fiction, rhymes, language, and poetry. The "Letters, Sounds, and Rhymes" strand is a unique programme, developing phonological awareness and phonics knowledge throughout the infant years. The Sound Books are 30 alliterative story books, one for each letter of the alphabet plus the four digraphs (ch, sh, th, and wh). These books provide further sound awareness practice after oral work with the Big ABC Book and reinforce the letter sound of the book.

[The Ghost Writer, Philip Roth](#) , 2005, 0099477572, 9780099477570. The Ghost Writer introduces Nathan Zuckerman in the 1950s; a budding writer infatuated with the Great Books, discovering the contradictory claims of literature and experience while an overnight guest in the secluded New England farmhouse of his literary idol, E. I. Lonoff. At Lonoff's,

Zuckerman meets Amy Bellette, a haunting young woman of indeterminate foreign background who turns out to be a former student of Lonoff's and who may also have been his mistress. Zuckerman, with his active, youthful imagination, wonders if she could be the paradigmatic victim of Nazi persecution. If she were, it might change his life...The first volume of the trilogy and epilogue Zuckerman Bound, The Ghost Writer is about the tensions between literature and life, artistic truthfulness and conventional decency - and about those implacable practitioners who live with the consequences of sacrificing one for the other.

[Fundamentals of rotating machinery diagnostics, Donald E. Bently, Charles T. Hatch](#) , 2002, 0971408106, 9780971408104. A practical course in the fundamentals of machinery diagnostics for anyone who works with rotating machinery, from operator to manager, from design engineer to machinery diagnostician. This comprehensive book thoroughly explains and demystifies important concepts needed for effective machinery malfunction diagnosis: (A) Vibration fundamentals: vibration, phase, and vibration vectors. (B) Data plots: timebase, average shaft centerline, polar, Bode, APHT, spectrum, trend XY, and the orbit. (C) Rotor dynamics: the rotor model, dynamic stiffness, modes of vibration, anisotropic (asymmetric) stiffness, stability analysis, torsional and axial vibration, and basic balancing. Modern root locus methods (pioneered by Walter R. Evans) are used throughout this book. (D) Malfunctions: unbalance, rotor bow, high radial loads, misalignment, rub and looseness, fluid-induced instability, and shaft cracks. Hundreds of full-color illustrations explain key concepts, and several detailed case studies show how these concepts were used to solve real machinery problems. A comprehensive glossary of diagnostic terms is included.

[Gracianna, Trini Amador](#) , 2013, 1608325709, 9781608325702. Gracianna is inspired by true events in the life of Trini Amador's great-grandmother, Gracianna Lasaga. As an adult, Amador was haunted by the vivid memory of finding a loaded German Luger tucked away in a nightstand while wandering his great-grandmother's home in Southern California. He was only four years old at the time, but the memory remained and he knew he had to explore the story behind the

gun. Decades later, Amador would delve into the remarkable odyssey of his Gracianna's past, a road that led him to an incredible surprise. In Gracianna, Amador weaves fact and fiction to tell his great-grandmother's story Gracianna bravely sets off to Paris in the early 1940s--on her way to America, she hopes--but is soon swept into the escalation of the war and the Nazi occupation of Paris. After chilling life-and-death struggles, she discovers that her missing sister has surfaced as a laborer in Auschwitz. When she finds an opportunity to fight back against the Nazis to try to free her sister, she takes it--even if it means using lethal force. As Amador tells the imagined story of how his great-grandmother risked it all, he delivers richly drawn characters and a heart-wrenching page-turner that readers won't soon forget.

[Handbook of mould, tool and die repair welding, Steve Thompson, Welding Institute](#) , 1999, 185573429X, 9781855734296. This book covers an important and frequently overlooked area of welding - the repair of moulds, tools and dies. Because two rather different trades overlap in this process - welding and toolmaking, the materials and techniques involved have tended to be obscured. For many years, toolmakers and tool users have had to rely on the small number of specialist welders who do understand exactly what welding repair involves and have the skills to carry it out. Understanding the technical side of tool steels is frequently a problem for welders and understanding the practical side of welding can be a problem for machinists. This book has been written so that specialists from both sides can get to grips with the techniques and procedures involved. The Handbook of mould, tool and die repair welding is designed to save companies time and money by: Acting as a training aid so that repairs can be carried out in-house Reducing the need to send work out and the costs involved Reducing the production time lost when repairs are required Providing clear diagrams and a user-friendly style to make the techniques easily understood It is an essential resource for Tool Room Managers and Foremen as well as maintenance and repair welding specialists.

[The Deer Hunter's Almanac, Sid Evans](#) , 1996, 0871136430, 9780871136435. From the Introduction: "There is not a successful deer hunter in the world who has not come up with his own peculiar methods -- some of them secret, some not -- for beating the long odds of killing a deer. The Ojibwa Indians of the Great Lakes figured out they could attract deer by smoking wild aster in a pipe, the smell of which was like the scent of a deer's hooves. Other tribes -- such as the Choctaws and Cherokees in the Southeast -- would carry skinned-out deer heads on their belts, which they could wear over their heads whenever they needed to make a stalk (this is no longer an advisable, or legal, technique). They used decoys and calls, and they knew that banging a pair of antlers together could summon a buck during the rut. In this book we have tried to compile some of the best information and most interesting pieces written about deer in Sports Afield since the magazine was founded in 1887. There were not as many deer to hunt back then, but over the last quarter century deer populations have boomed in nearly every state but Alaska and Hawaii, and so have the articles written

about them. Many of these pieces originally appeared in the Sports Afield Almanac, which was introduced by Editor Ted Kesting in 1972; others appeared as departments or short features. All told, more than 250 deer hunters contributed, making this, we hope, a very unique look at what is now America's favorite game animal. Some of the contributors-like Dwight Schuh and Peter Fiduccia, Tom McIntyre and Ted Kerasote-are what we would call pros. They have hunted, studied and written about deer all their lives. Others are just guys who wanted to share a couple of their best deer-hunting secrets. Do not be surprised if you turn up some contradictory views. There's more than one way to shoot, skin, and cook a deer; but it may be that the best way of all is the one you have to figure out on your own." "This is the finest book on whitetail hunting that I have seen." -- Larry Myhre, Sioux City Journal

"In the BIG Black Lie, Kevin Jackson explains the contradictions of being raised a Democrat, yet realizing that Democrats were the real oppressors of blacks. Discussing the Left's culpability using his real life examples, Jackson showcases the big black lies: Whites. Seeing all the gifts that whites gave to my grandmother, and how they treated my brother and me gave me no reason to have a beef with white people. They seemed to always be willing to help in some way, and were for the most part always generous. The Media. It seem that the media had it out for blacks then, and when they weren't making us criminals, they were making us victims. Black Racism. Blacks can be extremely racist. Though not widely known outside of the black community, blacks have a checkered past in the area of racism - against our own. Insightful, poignant, and a must have in every Conservative's collection, as THE BIG Black Lie cover the institutionalized racism of Democrats and the Left like no other." From back cover.

[The Savage My Kinsman,](#) , 2003, 0830734864, 9780830734863. In January of 1956, the world recoiled in shock with the news. Five American missionaries had been speared to death in the Ecuadorian jungles by Auca Indians-reportedly

the most savage tribe on earth. Years later, it became clear that what had seemed to be the tragic ending of those missionaries' dreams was only the first chapter of one of the most breathtaking missionary stories of the twentieth century. "The Savage, My Kinsman" tells the story, in text and pictures, of Elisabeth Elliot's venture into Auca territory three years after the death of her husband, Jim Elliot. Elisabeth and her daughter Valerie, then three years old, returned to the jungle along with Rachel Saint, the sister of one of the other slain men. The linguistic work of these women brought Christ's message of salvation to the tribe that had killed their loved ones.

This book analyzes these developments and develops a theory of change that is consistent with these phenomena, stressing the government's need to develop public policies that will deal with displaced workers.

[36 Arguments for the Existence of God: A Work of Fiction, Rebecca Goldstein](#) , 2011, 0307456714, 9780307456717.

After Cass Seltzer's book becomes a surprise best seller, he's dubbed "the atheist with a soul" and becomes a celebrity. He wins over the stunning Lucinda Mandelbaum, "the goddess of game theory," and loses himself in a spiritually expansive infatuation. A former girlfriend appears: an anthropologist who invites him to join in her quest for immortality through biochemistry. And he is haunted by reminders of the two people who ignited his passion to understand religion: his mentor and professor--a renowned literary scholar with a suspicious obsession with messianism--and an angelic six-year-old mathematical genius who is heir to the leadership of a Hasidic sect. Each encounter reinforces Cass's theory that the religious impulse spills over into life at large. *36 Arguments for the Existence of God* plunges into the great debate of our day: the clash between faith and reason. World events are being shaped by fervent believers at home and abroad, while a new atheism is asserting itself in the public sphere. On purely intellectual grounds the skeptics would seem to have everything on their side. Yet people refuse to accept their seemingly irrefutable arguments and continue to embrace faith in God as their source of meaning, purpose, and comfort. Through the enchantment of fiction, award-winning novelist and MacArthur Fellow Rebecca Newberger Goldstein shows that the tension between religion and doubt cannot be understood through rational argument alone. It also must be explored from the point of view of individual people caught in the raptures and torments of religious experience in all their variety. Using her gifts in fiction and philosophy, Goldstein has produced a true crossover novel, complete with a nail-biting debate ("Resolved: God Exists") and a stand-alone appendix with the thirty-six arguments (and responses) that propelled Seltzer to stardom. Using both small- and medium-format cameras, he obsessively photographed the fireflies that came alive at dusk each evening. Crewdson was drawn to the flickering lights, in part, by the underlying impossibility of capturing their elusive beauty in pictures. This luxurious volume, featuring 61 full-page tritone reproductions, calls to mind many of the hallmarks of Crewdson's oeuvre, from the sense of wonder in the nocturnal landscape, to the focus on light as a narrative event, to the fascination with nature as a psychological mystery. Although consistent in terms of their subject matter, these photographs demonstrate a wide scope of visual expression ranging from almost pure abstraction to more idyllic representations of the natural landscape.

The contributors, an authoritative group of Americans and Europeans, explore the new Europe west and east using intertwining themes of domestic politics, European integration, and European security. The chapters divided into country, institutional, and thematic sections are both student and teacher friendly: clearly written, engaging, and tailored for classroom discussion. Each chapter provides necessary basic information and explanations, enhanced by an accessible and distinctive perspective on concepts and current debates. Now thoroughly revised for 2004, Europe Today is the first European politics text to offer current analysis on the invasion of Iraq, NATO and European security, U.S.-European relations, and enlargement issues. All chapters from the first edition have been comprehensively updated, and completely new chapters have been added on Germany, France, Great Britain, Spain, Poland, monetary union, security, and migration. With its strong international

emphasis and focus on Europe before and after Iraq, professors will be able to use this text to lead students toward a coherent view of intra-European conflicts, Europe and the United States, and Europe's international responsibilities. A new website devoted exclusively to the book, with regularly updated statistics, analysis, and links for each chapter, will provide a rich resource for students seeking additional information and researching classroom assignments.

[Keeper of the Lost Cities, Volume 1, Shannon Messenger](#) , 2013, 1442445947, 9781442445949. In this riveting debut, a telepathic girl must figure out why she is the key to her brand-new world before the wrong person finds the answer

first. Twelve-year-old Sophie has never quite fit into her life. She's skipped multiple grades and doesn't really connect with the older kids at school, but she's not comfortable with her family, either. The reason? Sophie's a Telepath, someone who can read minds. No one knows her secret at least, that's what she thinks... But the day Sophie meets Fitz, a mysterious (and adorable) boy, she learns she's not alone. He's a Telepath too, and it turns out the reason she has never felt at home is that, well...she isn't. Fitz opens Sophie's eyes to a shocking truth, and she is forced to leave behind her family for a new life in a place that is vastly different from what she has ever known. But Sophie still has secrets, and they're buried deep in her memory for good reason: The answers are dangerous and in high-demand. What is her true identity, and why was she hidden among humans? The truth could mean life or death and time is running out.

9781843832898. For most of his career W.G. Stutter (1815-77) was a respected general medical practitioner in the village of Wickhambrook, a small Suffolk backwater. As a younger man, however, he spent some time as House Apothecary and House Surgeon to the Suffolk General Hospital in Bury St Edmunds. Though just a record of a junior doctor in a small provincial hospital, this casebook is actually a surprisingly rare document of its kind and as such is a wonderful record of the medicine and medical profession of the period, in a place far removed from the great teaching hospitals. This is a time before X-rays, antibiotics, scanners and blood tests - in fact even the stethoscope was a relatively recent development. Stutter's casebook throws considerable light on the state of medicine in the early Victorian age and shows that while many of the treatments meted out by the medical profession seem illogical or sometimes even dangerous to modern eyes, they must have made perfect sense to the average doctor of the time.

[Forgotten Dead, Ken Small](#) , 2004, 0747575436, 9780747575436. On April 28, 1944, a rehearsal for the D-Day landings off England's Devon coast went terribly wrong. A series of blunders allowed German E-boats to intercept the convoy of

landing ships, and 946 Americans many of them young and untrained lost their lives. Yet until the publication of *The Forgotten Dead*, the true scale of this tragedy had never before come to light. This is the story of one man and his obsession to honor the memory of the 946 American soldiers who died needlessly that night. In the early 1970s, Ken Small, a hotelier, began beachcombing along Slapton Sands, near his hotel. He soon discovered unexpended bullets, U.S. dollars, and the personal possessions of U.S. servicemen. Gradually, he pieced together the events of that night and began the struggle to erect a memorial to honor the dead soldiers. This is the story of how he fought governments on both sides of the Atlantic to uncover the truth.

This book provides a comprehensive survey of women in Muslim, Jewish and Christian communities in the Middle East during the last two centuries. The authors consider women's defined roles within these religious communities, and explore how women themselves develop and apply their own strategies within religious societies. A wide-ranging account, the essays draw on case studies from Iran, Turkey, Afghanistan, Israel, Jordan, Egypt, Palestine and Lebanon since 1800.

[Elsewhere, Gabrielle Zevin](#) , 2006, 074757720X, 9780747577201. How do you describe ELSEWHERE? A novel so astoundingly original and carefully crafted that its complexities become common place and the common place resounds with poetry? In this delightful novel death is a beginning, a new start. Liz is killed in a hit a run accident and her 'life' takes a very unexpected turn. At nearly sixteen she knows she will never get married, never have children, and perhaps never

fall in love. But in Elsewhere all things carry on almost as they did on earth except that the inhabitants get younger, dogs and humans can communicate (at last) new relationships are formed and old ones sadly interrupted on earth are renewed. Full of the most ingenious detail and woven around the most touching and charming relationships this is a novel of hope, of redemption and re-birth. It is a novel that tells of sadness with heart-breaking honesty and of love and happiness with uplifting brilliance.

Claire begins to read about witchcraft and natural magic on her own, trying to understand what truth may lie within its ancient lore and wondering if it can help solve the mystery of her mother's disappearance. As she struggles to understand the powers of both good and evil, Claire is drawn towards the past, to the witch trials of the seventeenth century.

[Medea, Christa Wolf](#) , 2012, 0307828700, 9780307828705. Medea is among the most notorious women in the canon of Greek tragedy: a woman scorned who sacrifices her own children to her jealous rage. In her gripping new novel, Christa Wolf explodes this myth, revealing a fiercely independent woman ensnared in a brutal political battle. Medea, driven by her conscience to leave her corrupt homeland, arrives in Corinth with her husband, the hero Jason. He is welcomed, but she is branded the outsider-and then she discovers the appalling secret behind the king's claim to power. Unwilling to ignore the horrifying truth about the state, she becomes a threat to the king and his ruthless advisors; abandoned by Jason and made a public scapegoat, she is reviled as a witch and a murderess. Long a sharp-eyed political observer, Christa Wolf transforms this ancient tale into a startlingly relevant commentary on our times. Possessed of the enduring truths so treasured in the classics, and yet with a thoroughly contemporary spin, her Medea is a stunningly perceptive and probingly honest work of fiction.

[War Wounds: Medicine and the Trauma of Conflict, Elizabeth Stewart](#) , 2011, 1877568880, 9781877568886. The history of warfare and the history of medicine are closely intertwined. War has been an accelerator of advances in medical treatment and surgery. As modern weaponry became more destructive, medicine developed techniques and procedures to deal with the volume and nature of battlefield casualties. Preventative medicine has also increased the effectiveness of fighting forces through improvements in soldiers health and disease resistance. This book is a collection of chapters by historians, medical practitioners and researchers, former and serving military medical officers, surgeons, nurses and veterans, who explore the impact of war, wounds and trauma through the historical record, reported narratives and

personal experiences. The book includes major sections on World War One (including chapters on shell shock and plastic surgery), World War Two (including a chapter on the Nazi death camps), the Vietnam War (including chapters on Agent Orange and sexually transmitted diseases), together with chapters on the Korean War and the current conflict in Afghanistan. In addition, the book includes several personal stories in which veterans describe their experiences of injury and recovery. War Wounds is a truly unique book, which offers considerable insights into an aspect of war that is often mentioned but seldom examined as it is here. Medical professionals, military personnel and the general public will all find it a remarkably revealing read.

[Case Studies in Dental Hygiene, Deborah Blythe Bauman, Deanne Shuman, Esther K. Andrews](#) , 2003, 013018571X, 9780130185716. Educators need case-based learning tools that may be integrated throughout the dental hygiene curriculum. Within the educational environment exists the goal to assist students in linking basic knowledge to dental hygiene care that is evidence-based and client-centered. With the constantly evolving knowledge base and changing technologies, dental hygiene faculty are challenged to incorporate educational technologies that exceed knowledge acquisition and focus on critical decision making. Case Studies in Dental Hygiene is a viable educational tool to help students learn to apply basic knowledge to client care and to prepare them for success on national, regional and state examinations which have a client care focus. Case Studies in Dental Hygiene is designed to guide the development of critical thinking skills and the application of theory to care at all levels of dental hygiene education from beginning to advanced students. Additionally, during the course of their formal education, dental hygiene students can be exposed only to a small spectrum of cases they might encounter in the real world. The diversity of the cases in this text provides an avenue for simulating experiences students might not encounter in their education. This text is designed to cover a broad array of topics, to be adaptable for use in a variety of courses, and to be used across student knowledge and skill levels. This text is designed to be utilized throughout the dental hygiene curriculum. Because the questions and decisions regarding treatment of each case span the dental hygiene sciences and clinical practice protocols, this text will find a place in enhancing each and every course required of dental hygiene students. It is expected that Case Studies in Dental Hygiene would be introduced at the beginning of the student's educational experience and be utilized throughout the

program of study. As the students' knowledge base develops, the answers to the more complex questions would become apparent. If the text were introduced early in the program, students would realize the link between theory and client care immediately. Once exposed to the cases, students progress through the program with a heightened awareness, a "need to know," as new material is introduced which can be applied to answer case-based questions. Additionally, *Case Studies in Dental Hygiene* makes an excellent review text for graduating dental hygiene students preparing to take the Dental Hygiene National Board Examination. *Case Studies in Dental Hygiene* presents oral health case situations representing a variety of clients that would typically be encountered in clinical settings. There are 10 cases, 2 each representing the following client types: pediatric, adult periodontally involved, geriatric, special needs, and medically compromised. Each case contains a medical history, dental history, vital signs (including blood pressure, pulse, and respiratory rates), radiographs, dental and periodontal charting, intraoral photographs, and photographs of study models, where applicable. Additionally, learning objectives and multiple-choice questions are identified for each case. Questions are subdivided into the following categories: assessing client characteristics, obtaining and interpreting dental radiographs, planning and managing dental hygiene care; performing periodontal procedures, using preventive agents, and providing supportive treatment services. Each question is clearly identified as "basic" or "complex," further guiding educators and students to use each case to maximum benefit. Students will be challenged to seek answers and select appropriate care for the clients in each case scenario. Correct answers and rationales for incorrect responses are provided for all questions. Providing descriptive rationales for incorrect answers further enhances learning. Reflective activities and a section incorporating the Human Needs Conceptual Model to Dental Hygiene Practice guide the instructor in developing additional learning activities for the student. The rapidly increasing, constantly changing knowledge base and technologies associated with clinical practice mandate that dental hygiene professionals be prepared to provide oral care that meets the needs of the whole client. The Human Needs Conceptual Model to Dental Hygiene Practice has been established as a means of linking oral care with the general health of an individual. Although many dental hygiene programs have incorporated the Human Needs Conceptual Model into their curriculum, others are in need of educational tools which assist with this incorporation. *Case Studies in Dental Hygiene* provides educators with a bank of ready-made cases with which to guide students to integrate client needs or deficits with dental hygiene care planning. Each case lists suggestions for creating decision-making opportunities for the students, regarding client care and treatment recommendations that promote oral health and prevent oral diseases. HOW TO USE THIS BOOK Each chapter contains one case scenario, making it a stand-alone module that may be introduced in any order and at any time during the curriculum. While there are a variety of ways in which to utilize the case studies, educators may benefit from the suggestions listed here. Cases C and D, The Periodontally Involved Adult Client, could be used as required reading for the preclinical student to introduce the dental hygiene process of care. Because each case contains questions that are

knowledge-based as well as complex decision-making questions, the beginning student may be directed to answer the "basic" questions. During theory class, a discussion of these answers may help to increase the incidence of critical thinking skills and can reinforce and facilitate learning in a dynamic, stimulating manner motivating the student to more fully participate in the learning process. Because the questions for each case are subdivided into client assessment, radiographic services, planning and management of care, periodontal procedures, and supplemental services, instructors of basic dental hygiene sciences may easily identify those questions which supplement learning in their disciplines. The radiology instructor may utilize the "basic" questions of all the cases, directing the beginning student to those questions under the subdivision "obtaining and interpreting dental radiographs" while the pharmacology instructor may use Cases I and J, The Medically Compromised Client, to provide a realistic setting to assist students in linking drug interactions which may contraindicate dental hygiene care with planning and managing treatment. Cases A and B, The Pediatric Client, may provide an opportunity for the student to identify eruption patterns, learned in head and neck anatomy or tooth and root morphology courses. Applying theory and knowledge gained in the basic dental hygiene sciences to solve problems encountered through case-based questioning allows the student to become actively involved in the learning process. After all, the challenge of case-based instruction is to maximize students' synthesis of theoretical material and provide a link between science, theory, and clinical practice. Case Studies in Dental Hygiene may compliment and enhance material learned in other texts. For example, students learning instrument design from a theory book may link application of this knowledge when challenged by case photographs and charts to choose an appropriate instrument for scaling a specific area. Radiographic problem solving skills are further enhanced by examination of the case radiographs when the student is challenged not only to identify technique and processing errors, but also to recommend corrective action. In addition to basic questions, each case contains complex questions that challenge advanced students to develop improved clinical reasoning that will assist them in real-world clinical practice. As students progress through the curriculum, the same cases may be revisited through the use of complex questions. Students usually respond favorably to the opportunity to apply knowledge gained in the classroom to fictional cases. The ability to plan treatment and simulate implementation through case study provides the student with a stress-free environment in which to make decisions. Students report increased confidence when faced with treatment planning and implementation decisions regarding clients in the clinical setting. Students also perceive an increase in confidence regarding preparation for national and regional board examinations when they have been given the opportunity to practice decision making. In case-based teaching, a frequent faculty complaint is that students and faculty have difficulty integrating information from various courses within the discipline to the case-based format. Healthcare educators are fully cognizant that effective clinical judgment only comes from experience, since it is the use of real life situations which encourages student analysis and decision making in areas relevant to professional practice. However, most faculty do not consider themselves experts on all dimensions of a

problem, and as a result may be limited in their use of case studies. To overcome the limited use of case studies to specific disciplines, *Case Studies in Dental Hygiene* was written by several authors, each an expert in a specific aspect of dental hygiene care. This multi-author approach to the development of the cases contained in this book, is intended to provide other dental hygiene educators with a ready-made bank of cases upon which to build meaningful learning activities' for the student. Additionally, the authors hope that the format and content of *Case Studies in Dental Hygiene* will provide students with an opportunity to practice critical decision-making skills and reinforce and facilitate learning in a dynamic, stimulating manner, thereby motivating students to more fully participate in the learning process. This book was designed specifically to encourage dental hygiene students to base client care decisions on knowledge gained in theory, thus fostering in students an appreciation of the link between theory and clinical practice.

When Alex Rider crash-lands off the coast of Australia, the Australian Secret Service recruits him to infiltrate one of the ruthless gangs operating across Southeast Asia. Known as snakeheads, the gangs smuggle drugs, weapons, and worst of all, people. Alex accepts the assignment, in part for the chance to work with his godfather and learn more about his parents. What he uncovers, however, is a secret that will make this his darkest and most dangerous mission yet . . . and the knowledge that his old nemesis, Scorpia, is anything but out of his life. [Vision Captured](#), Lorie O'Clare , 2008, 1419917544, 9781419917547. Vision Captured Lorie O'Clare A male leopard shifter runs alone, wild and untamed, until a female decides he's worth her time to train. Which is why Chantelle Drap sees no reason to settle down. She likes her males nasty and dirty, rough and wild. the rougher the better. When rumors fly of an urban legend-gathering all leopards with visions, wanting to collar them, so he can create a stronger race-Chan's world turns upside down. She doesn't know who to trust, or when she will be attacked. No matter where she turns though, Josh Bard is right there. His job is to bring Chan in. But Josh has his own agenda, is determined to keep her by his side, in his bed. She is his match in every way. Her scent thrills him, her aggressiveness spikes his wild side. Josh informs her that in truth it is the male who trains the female to submit and not the other way around. While Josh and Chan fight for control of seduction, they also find themselves fighting for their way of life.

[Made In America](#), Bill Bryson , 2010, 140909569X, 9781409095699. Bill Bryson turns away from the highways and

byways of middle America, so hilariously depicted in his bestselling *The Lost Continent*, for a fast, exhilarating ride along the Route 66 of American language and popular culture. In *Made in America*, Bryson de-mythologizes his native land - explaining how a dusty desert hamlet with neither woods nor holly became Hollywood, how the Wild West wasn't won, why Americans say 'lootenant' and 'Toosday', how Americans were eating junk food long before the word itself was cooked up - as well as exposing the true origins of the G-string, the original \$64,000 question and Dr Kellogg of cornflakes fame. [Deserts and Mountains: A Novel, Yilmaz Alimoglu](#) , 2010, 1450227597, 9781450227599. Ali Dogan is an expatriate Turk who has been living and working in Canada for twenty years. Although he loves his children, Emre and Maria, he feels he must leave. His twelve-year marriage to Esther has soured, and his Sufi spiritual counselor has suggested that he seek the knowledge to understand what the heart will tell him. Ali is not sure he will return to Canada, Esther, and his children. He embarks on a journey to settle his mid-life crisis. Ali's first stop is his parents' village in Turkey, where he begins to confront a history of abuse. In Istanbul, he faces the brutality behind the facade of modern Turkey. In Greece, the Acropolis shows him an idealized world. In Africa, humanitarian work aims to change the future. And back in Canada, he finds new understanding of his childhood, as well as his future. Each of these events leads him to ever deeper inquiry, which is reflected in his journal entries. Throughout his physical journey, Ali also travels an inner path to a more profound understanding of the spiritual tradition of Sufism. There may be a richer and more meaningful philosophy shaping Ali's future.

[Beckett and Eros: Death of Humanism, Paul Davies](#) , 2000, 0333681622, 9780333681626. "Beckett and Eros: Death of Humanism" explores Beckett's tragic projection in which spiritual, political, and gender experience are combined, exposing the erroneous operations of Cartesian awareness which become sexualized in the dramatic gender conflict in myth and literature. "Beckett and Eros" is the first book in 25 years to give an answer to the question, "Do we mean love when we say love? ... soul when we say soul?"; Davies' approach offers a startling point for valuable dialogue between radical new age thought and the postmodernism of academe.

[Liszt's Dante Symphony, Rich Disilvio](#) , 2011, 0981762549, 9780981762548. Liszt's Dante Symphony is a thrilling tale of murder and covert spy rings amid the turbulent rise of Bismarck's Prussia, thus leading to Hitler's brutal Third Reich. Following the lives of a student of Liszt's, Angelo Di Purezza, and his son, the reader is taken on a journey of suspense that cascades over two generations. During those years Europe would experience numerous revolutions and witness two World Wars that would feature ghastly chemical weapons, atomic bombs, and deadly poison gas called Zyklon-B. Franz Liszt is joined by a huge cast of historical characters, including Napoleon III, Pope Pius IX, Rossini, Saint-Saens, Gustave Dore, Victor Hugo, Albert Einstein, Adolf Hitler and many others. The tale is an exciting amalgamation of history, politics, religion, music, the fine arts, secret codes, murder, suspense, sacrifices, and yes, even romance.

[Annihilating distance: selected stories, David Vigoda](#) , 2003, 0972825053, 9780972825054. "My writing is like sushi," quips Vigoda, "sophisticated and raw, with subtle flavors." Whether from next door or from history, his characters come right at you. In thirteen thrilling stories, circumstance forces them to decide what they most believe in and how they will behave-and to confront the implications. Deeply imaginative and passionate, the stories combine the excitement and pleasure of popular novels with the subtlety and seriousness of literary fiction. The stories' subjects range widely. In Rebels an enigmatic man abducts a prostitute to the woods, in Outlaws a half-crazed loner is undone by an ecological disaster. Prisoners depicts an old world intellectual revolutionary, while Strangers follows the return of an ostracized poet to his totalitarian nation. Exhalations of the Intellect describes the birth of genetic engineering, Against Us, Tyranny fictionalizes events in the lives of French writers. Finally, Toward the Annihilation of Distance centers on homegrown terrorism.
