[The Book of Laughter and Forgetting: A Novel](#), [Milan Kundera](#) , 1999, 0060932147, 9780060932145. Rich in its stories, characters, and imaginative range, The Book of Laughter and Forgetting is the novel that brought Milan Kundera his first big international success in the late 1970s. Like all his work, it is valuable for far more than its historical implications. In seven wonderfully integrated parts, different aspects of human existence are magnified and reduced, reordered and emphasized, newly examined, analyzed, and experienced.

[The Congo and the Cameroons, Mary Kingsley](#) , 2007, 0141025514, 9780141025513. Contemptuous of Europe's 'civilising mission' in Africa, Mary Kingsley's (1862-1900) extraordinary journeys through tropical west Africa are a remarkable record, both of a world which has vanished and of a writer and explorer of immense bravery, wit and humanity. Paddling through mangrove swamps, fending off crocodiles, climbing Mount Cameroon, Kingsley is both admirable and funny. Great Journeys allows readers to travel both around the planet and back through the centuries but also back into ideas and worlds frightening, ruthless and cruel in different ways from our own. Few reading experiences can begin to match that of engaging with writers who saw astounding things: Great civilisations, walls of ice, violent and implacable jungles, deserts and mountains, multitudes of birds and flowers new to science. Reading these books is to see the world afresh, to rediscover a time when many cultures were quite strange to each other, where legends and stories were treated as facts and in which so much was still to be discovered.

[The Hand of Ethelberta, Thomas Hardy](#) , 1997, 0140435026, 9780140435023. Adventuress and opportunist, Ethelberta reinvents herself to disguise her humble origins, launching a brilliant career as a society poet in London with her family

acting incognito as her servants. Turning the male-dominated literary world to her advantage, she happily exploits the attentions of four very different suitors. Will she bestow her hand upon the richest of them, or on the man she loves? Ethelberta Petherwin, alias Berta Chickerel, moves with easy grace between her multiple identities, cleverly managing a tissue of lies to aid her meteoric rise. In *The Hand of Ethelberta* (1876), Hardy drew on conventions of popular romances, illustrated weeklies, plays, fashion plates and even his wife's diary in this comic story of a woman in control of her destiny.

[A Stranger in Europe: Britain and the EU from Thatcher to Blair: Britain and the EU from Thatcher to Blair, Stephen Wall](#) , 2008, 0199284555, 9780199284559. For over twenty years, at the heart of Whitehall, Sir Stephen Wall worked for British leaders as they shaped Britain's European policy: Margaret Thatcher fighting to get 'her money back'; John Major at Maastricht where the single European currency was born; Tony Blair negotiating the Amsterdam, Nice and Constitutional Treaties. Stephen Wall draws on his experience to trace a journey from 1982 to the present as successive British governments have wrestled with their relationship with their EU partners. *A Stranger in Europe* goes behind the scenes to tell the story of how Margaret Thatcher and her successors sought to reconcile Britain's national and European interests. Drawing on the documents of the period it gives a unique insight into how Britain's leaders weighed the British national interest and the interests and personalities of their European counterparts. This is the story of Prime Ministers and Foreign Secretaries in intimate discussion with other EU leaders, of how politicians instruct and motivate their top officials to implement their political will and how those officials seek to turn political instruction into negotiating success. Stephen Wall analyses British success, and failure. He shows how, despite differences of declared aim and of personality, Britain's leaders have in practice followed very similar paths. Britain has been an awkward partner, often at odds with her fellow Europeans: a stranger in Europe. But with dogged determination and seriousness of purpose Britain's leaders have done much to shape and reform the modern Europe in which we live today.

[Personal Finance: An Integrated Planning Approach, Bernard J. Winger, Ralph R. Frasca](#) , 2002, 0130661945, 9780130661944. This comprehensive, reader-friendly book is a must-have "how-to" guide on planning for a successful financial future--walking users through the "complexities" of today's financial world, and giving them an accurate and current reflection of the trends affecting their financial present and future. A five-part organization covers the basic framework, liquidity management, buying now and paying later, investing for the future, and protecting your income and wealth. For certified financial planners and chartered financial consultants.

[Metaphysics as a Guide to Morals, Iris Murdoch](#) , 2012, 140904405X, 9781409044055. The decline of religion and ever increasing influence of science pose acute ethical issues for us all. Can we reject the literal truth of the Gospels yet still

retain a Christian morality? Can we defend any 'moral values' against the constant encroachments of technology? Indeed, are we in danger of losing most of the qualities which make us truly human? Here, drawing on a novelist's insight into art, literature and abnormal psychology, Iris Murdoch conducts an ongoing debate with major writers, thinkers and theologians - from Augustine to Wittgenstein, Shakespeare to Sartre, Plato to Derrida - to provide fresh and compelling answers to these crucial questions.

[The Aim of Belief, Timothy Chan](#) , 2014, 019967213X, 9780199672134. What is belief? "Beliefs aim at truth" is the commonly accepted starting point for philosophers who want to give an adequate account of this fundamental state of mind, but it raises as many questions as it answers. For example, in what sense can beliefs be said to have an aim of their own? If belief aims at truth, does it mean that reasons to believe must also be based on truth? Must beliefs be formed on the basis of evidence alone? Is truth the constitutive norm of belief? Does aiming at truth bring in a normative dimension to the nature of belief? How can the aim of truth guide the formation of our beliefs? In what ways do partial beliefs aim at truth? Is truth the aim of epistemic justification? Last but not least, is it knowledge rather than truth which is the fundamental aim of belief? In recent years, pursuing these questions has proved extremely fertile for our understanding of a wide range of current issues in philosophy of mind and action, epistemology, and meta-ethics. The Aim of Belief is the first book to be devoted to this fast-growing topic. It brings together eleven newly commissioned essays by leading authors on the aim of belief. The volume not only reflects the state of the art, but further advances the current debate. It will be key reading for researchers and students of philosophy interested in mind, knowledge and reason.

[Essential Eating Sprouted Baking: With Whole Grain Flours That Digest As Vegetables, Janie Quinn](#) , 2008, 0967984335, 9780967984339. Featuring appetizing baked goods ranging from sunrise pancakes to maple banana muffins and cinnamon animal crackers to brownie pie, this cookbook is full of tasty treats made from sprouted flour. An alternative to traditional flours, the sprouted variety is assimilated into the body as a vegetable rather than a starch and is more easily digested. These easy-to-use recipes using sprouted flour open up an entirely new avenue of cuisine for both those suffering with wheat and other grain sensitivities and those who simply want to eat better.

[Plant Biochemistry, Prakash M. Dey, Jeffrey B. Harborne](#) , 1997, 0127992146, 9780127992143. This book provides students and researchers in plant sciences with a concise general account of plant biochemistry. The edited format allows recognized experts in plant biochemistry to contribute chapters on their special topics. Up-to-date surveys are divided into four sections: the cell, primary metabolism, special metabolism, and the plant and the environment. There is a strong emphasis on plant metabolism as well as enzymological, methodological, molecular, biological, functional, and regulatory aspects of plant biochemistry. Illustrations of metabolic pathways are used extensively, and further reading

lists are also included. Key Features The coverage of the subject is divided into four sections: \* The plant cell-describing both molecular components and function \* Primary metabolism-including the pathways of carbohydrate, lipid, nitrogen, nucleic acid and protein metabolism as well as gene regulation \* Special metabolism-chapters on phenolics, isoprenoids and secondary nitrogen compounds \* The plant and the environment-discussions of pathology, ecology and biotechnology at the molecular level.

[Do It Yourself Shiatsu: How to Perform the Ancient Japanese Art of Acupuncture Without Needles, Wataru Ohashi](#) , 1993, 0140193510, 9780140193510. A large number of Americans are discovering the pleasurable and therapeutic uses of Shiatsu, a Japanese method of finger pressure on the acupuncture points. A Shiatsu treatment can make you feel relaxed, yet energetic; years younger, free of nervous tension, fatigue and stiffness. Or Shiatsu can be used to relieve such varied problems as arthritis pain, headaches, impotence, and hemorrhoids. Best of all, while it invigorates and cures pain and tension, Shiatsu gives you a new way to understand your friends--by touching them. In this book Wataru Ohashi, one of the most knowledgeable and well-known U.S.-based Shiatsu experts, tells how you can learn to perform Shiatsu at home on yourself and your friends. Mr. Ohashi, who has taught and practiced Shiatsu in this country for years, has written specifically for a Western audience, focusing on the common discomforts that bother us here in the West. He has provided clear explanations of all the technical terms and attractive photographs throughout to illustrate the Shiatsu techniques and the exact locations of the pressure points. He also included special "Shiatsu Exercises" designed to keep your energy flowing.

[13th Report of Session 2012-13: Public Service Pensions Bill, Government Response, Stationery Office \(Great Britain\)](#) , 2013, 0108550052, 9780108550058.

[Indecent Exposure, A. C. Arthur](#) , 2009, 1601621779, 9781601621771. Nola Brentwood is back, and this time she's ready to break down any and all men for the crimes of the heart they've committed against their women. She was hired to do a job - expose Bernard Williamson's infidelities so that his wife will have some peace. But what happens on the shores of beautiful Antigua will set in motion events that will forever change lives. Exposing Bernard's affair was meant to be a simple act, but when one affair turns into two and her job becomes personal, things get twisted and feelings get hurt. Nola doesn't want a relationship, she doesn't want anything permanent, but somebody has other ideas. Her life as she's known it, as she's tried so hard to make it, is about to take a drastic turn. Can Nola handle her own exposure? And will she wise up before it's too late?

[Against All Odds: The Great New York to Paris Automobile Race, Jackie L. Frady, Michael Sion, Cindie Geddes](#) , 2008, 0980070309, 9780980070309. Against All Odds is the story of the 1907 Thomas Flyer, Americas entry in the 1908 New York to Paris Automobile Race and its incredible journey told in a beautifully illustrated hard cover book. The Thomas

Flyer and its hardy team competed in the longest and most difficult race of all time that started from Times Square on February 12, 1908, before a crowd of 250,000. The route the Flyer and its foreign competitors followed had proved dusty, snowy, muddy, and in some cases nonexistent. They'd driven in regions where an automobile had never before been seen. Constantly tinkering with their car to keep it running, making major repairs and changing tires all too often, the Flyers crew endured snowstorms, sandstorms and torrential rain, freezing cold and blistering heat, to make its way across three continents to claim victory and to prove wrong the many doubters who believed an automobile could not manage such an incredible feat. For those in the cars, the race was a tough, jarring, relentless trip that tested the limits of their endurance, health and sanity during the 22,000 mile odyssey. Like the pioneers who'd crossed the North American continent a half-century earlier, they had a great sense of adventure. Six cars left Times Square that cold February morning, but this is largely the story of the 1907 Thomas Flyer and George Schuster, who was at the wheel most of the way and drove the winning car into Paris, and history, in the summer of 1908.

[Index to Volunteer Soldiers in Indian Wars and Disturbances, 1815-1858, Virgil D. White](#) , 1994, 094509924X, 9780945099246. Index to Volunteer Soldiers in Indian Wars and Disturbances, 1815-1858, 2 vols, 8 1/2x11, 1590 pages printed on acid free paper with library quality buckram covers, transcribed by Virgil D. White, price \$160.00 postpaid in Continental USA. ISBN numbers; the number for the set is 0-945099-24-X, number for Vol I, A-K is 0-945099-25-8 and the number for Vol II, L-Z is 0-945099-26-6. The Library of Congress number is 93-86772. Some of the wars mentioned were; Cherokee, Creek, Seminole 1817-1858, Florida Wars, Black Hawk, Winnebago, Sac & Fox, Texas Wars of 1854-5, Kansas War of 1856, Southwest Wars of 1849-51, Northeast Wars of 1838-9, Southeast Wars of 1818 & 1837-8, Washington Territory Wars of 1850-1, Utah Expedition of 1857-8 & others. The index lists the name of the soldier, his rank, his unit & the name of the war or disturbance as well as the general dates served as shown in the National Archives records. There are cross-references for records under more than one spelling or for service in more than one unit, as well as for each tour of duty or conflict served in. There are entries for the "Friendly Indians" who served as volunteers for the US. The surnames are in BOLD CAPITALIZED PRINT.

[How to be Like Mike: Life Lessons about Basketball's Best, Pat Williams](#) , 2001, 1558749462, 9781558749467. Michael Jordan is the greatest basketball player of all time. But his pre-eminence is more than just extraordinary athletic ability: the lessons of his life—such as focus, passion, hard work, perseverance and accountability—have shaped him into one of the most revered celebrities of the 20th century. In this inspiring book Pat Williams, motivational speaker and senior vice president of the NBA's Orlando Magic, reveals Jordan's method for living a life of greatness that we can all incorporate into our lives. Fascinating anecdotes and quotes from those who know Michael best provide a glimpse into a persona as sweeping and immense as any generation has ever witnessed. Peppered with examples from Williams's life and those of other star athletes and celebrities, this uplifting book shows that we are, indeed, all capable of fulfilling our full potential. Readers from all walks of life can appreciate and aspire to living life like a champion.

[Hume's 'Enquiry Concerning Human Understanding': A Reader's Guide, Alan Bailey, Dan O'Brien](#) , 2006, 082648509X, 9780826485090. David Hume is widely considered to be the greatest British philosopher and his *Enquiry Concerning Human Understanding* is the most frequently studied of all his works - a key text in the study of empiricist thought. This is a hugely important and exciting, yet challenging, piece of philosophical writing. In *Hume's Enquiry Concerning Human Understanding: A Reader's Guide*, Allen Bailey and Dan O'Brien explain the philosophical background against which the book was written and the key themes inherent in the text. The book then guides the reader to a clear understanding of the text as a whole, before exploring the reception and influence of this classic philosophical work. This is the ideal companion to study of this most influential and challenging of texts.

[Resetting the clock: 5 anti-aging hormones that are revolutionizing the quality and length of life, Elmer Cranton, Elmer M. Cranton, William Fryer](#) , 1996, 0871318016, 9780871318015. How can that movie star look as young as she did thirty years ago? She gets regular injections of Human Growth Hormone. Why did a sixty-seven-year-old woman say, "I feel like I'm twenty-five again"? She'd been taking DHEA capsules for a few weeks. How did scientists make old mice young and young mice old? By switching their pineal glands, the source of melatonin. What can restore youthful skin, bones, and sex drive to women past menopause? Careful doses of estrogen and progesterone. And what brings back strength and potency to older men? Testosterone. The hormone levels in your body decrease as you age. But if you increase them

again, you can reset your internal clock. Everyone wants to avoid the ravages of age - heart disease, osteoporosis, senility, cancer - and the long, slow decline of strength and health. Now you can join the growing number of people who feel as if they are actually getting younger.

[Stages of Thought : The Co-Evolution of Religious Thought and Science: The Co-Evolution of Religious Thought and Science, Michael Horace Barnes Professor of Religious Studies and Alumni Chair in Humanities University of Dayton](#) , 2000, 0195350839, 9780195350838. In *Stages of Thought*, Michael Barnes examines a pattern of cognitive development that has evolved over thousands of years--a pattern manifest in both science and religion. He describes how the major world cultures built upon our natural human language skills to add literacy, logic, and, now, a highly critical self-awareness. In tracing the histories of both scientific and religious thought, Barnes shows why we think the way that we do today. Although religious and scientific modes of thought are often portrayed as contradictory-one is highly rational while the other appeals to tradition and faith-Barnes argues that they evolved together and are actually complementary. Using the developmental thought of Piaget, he argues that cultures develop like individuals in that both learn easier cognitive skills first and master the harder ones later. This is especially true, says Barnes, because the harder ones often require first the creation of cognitive technology like writing or formal logic as well as the creation of social institutions that teach and sustain those skills. Barnes goes on to delineate the successive stages of the co-evolution of religious and scientific thought in the West, from the preliterate cultures of antiquity up to the present time. Along the way, he covers topics such as the impact of literacy on human modes of thought; the development of formalized logic and philosophical reflections; the emergence of an explicitly rational science; the birth of formal theologies; and, more recently, the growth of modern empirical science. This groundbreaking book offers a thorough and persuasive argument in favor of the development of modes of thought across cultures. It will serve as an invaluable resource for historians of religion, philosophers and historians of science, and anyone interested in the relationship between religion and science.

[Letters From a Dying Town: Bridal Veil, Oregon 1955-1960, Tom Cowling](#) , 2006, 0970870116, 9780970870117. This book is a collection of newsletters representing the final years in the life of the company mill town, Bridal Veil. Its' rich history covered seventy-five years (1886-1960). These newsletters recorded faithfully the five-year struggle of Bridal Veil Lumber and Box Co. to survive in an increasingly difficult business environment.

[Muhammad at Mecca, W. Montgomery Watt](#) , 2012, 0199067163, 9780199067169. First published in 1953, W. Montgomery Watt's *Muhammad at Mecca* was written in response to the need for a fresh perspective on the life of the Holy Prophet (pbuh) set in a fuller historical context. Traditional sources are handled with great care by the author as well as the Qur'an as a principal source. New data and the interpretations of more recent scholars are examined and the importance of socio-political and economic factors are given due consideration. However, it is the author's view that

these factors alone do not determine the course of events, and that a strictly academic approach is not enough. This biography will particularly appeal to the modern reader and to the students of Islam.

[The Sleeping Giant: The Awakening of the Self-Employed Entrepreneur, Ken McElroy](#) , 2011, 0982910800, 9780982910801. The idea behind The Sleeping Giant, Ken's fourth book, is to help inspire people to believe that they can be part of solving the world's economic problems by creating businesses - which in turn create financial freedom, job growth and reduce reliance on other sources. Entrepreneurship and self-empowerment are becoming the new American dream. The Sleeping Giant is awakening! A generation of self-employed entrepreneurs are ditching the corporate ladder and creating their own destiny. They're the new Business Class - an army of self-employed entrepreneurs millions strong living out their passions and changing the world by creating jobs and prosperity. This book brings together 20 entrepreneurs, each sharing their powerful and inspiring stories of how they found success through self-empowerment. Each one started with an idea - and most had no experience and no money. Yet their stories are of lives of freedom, passion and fulfillment.

[Nikon D600: From Snapshots to Great Shots, Rob Sylvan](#) , 2012, 0133372774, 9780133372779. Created expressly for the beginning photographer no matter what camera you might be using Peachpit Press's bestselling From Snapshots to Great Shots books teach you the core fundamentals of photography, and show you exactly how to execute those fundamentals with your camera. Now that you've bought the amazing Nikon D600, you need a book that goes beyond a tour of the camera's features to show you exactly how to use the camera to take great pictures. With Nikon D600: From Snapshots to Great Shots, you get the perfect blend of photography instruction and camera reference that will take your images to the next level! Beautifully illustrated with large, vibrant photos, this book covers basic techniques of beginning photography while walking you through the unique functions and characteristics of the D600. Follow along with your friendly and knowledgeable guide, photographer and author Rob Sylvan, and you will: Learn the top ten things you need to know about shooting with the D600 Use the camera's automatic modes to get better shots right away Move on to the professional zone, where you have full control over the look and feel of your images Master the photographic basics of composition, focus, depth of field, and much more Learn all the best tricks and techniques for getting great action shots, landscapes, and portraits Find out how to get great shots in low light Use the HD video capability for recording memorable live action Fully grasp all the concepts and techniques as you go, with assignments at the end of every chapter And once you've got the shot, show it off! Join the book's Flickr group, share your photos, and discuss how you use your D600 to get great shots at flickr.com/groups/d600fromsnapshotstogreatshots.

[Jack: The Early Years of John F. Kennedy, Ilene Cooper](#) , 2013, 0147510317, 9780147510310. We all know him as our 35th president, but who was John F. Kennedy before he took political office? Ilene Cooper effortlessly takes us through the young life of one of our most influential leaders, for a reading experience you'll not soon forget. Drawing on family letters, anecdotes, recollections, and biography, Ilene Cooper has written a riveting account of John F. Kennedy's early years from birth to prep school graduation, all set against the colorful background of the Kennedy family and their wildly successful pursuit of the American dream. Completely reformatted, this paperback edition is the perfect companion to adult biographies on JFK, and just right for young historians looking to discover the boy behind the man.

[Stand By Stand By, Chris Ryan](#) , 2009, 1409066770, 9781409066774. A nerve-shredding Geordie Sharp thriller from author of more than a dozen Sunday Times bestselling novels. Never has there been a more graphic account of the SAS in action, never a thriller so authentically grounded in the twists and turns of undercover warfare. Geordie Sharp, a sergeant in the SAS, is struggling to pick up the threads of his army career. Wounded in the Gulf War, he returns to Hereford to find his home life in tatters. As he trains with Northern Ireland Troop, a murder in his family fires him with personal hatred of the IRA. Posted to Belfast, he discovers that his adversary is Declan Farrell, a leading player in the Provisional IRA. Sharp sets out to stalk and kill his man. Relentlessly exciting and completely unoutdownable, Chris Ryan's Stand By, Stand By is as exciting as the military thriller can be. .

[Portraits in print, Helen Benedict](#) , 1992, 0231521421, 9780231521420. The journalistic profile is one of the most popular, widely read types of magazine feature writing. Helen Benedict, a master of the genre, has collected for "Portraits in Print" nine of her best pieces, and provided a fascinating behind-the-scenes look at the art of portrait journalism. Among the persons profiled here are Joseph Brodsky, Isaac Bashevis Singer, Susan Sontag, Paule Marshall, Bernard Malamud, and Beverly Sills. In a general introduction and in lively discussions after each profile, Helen Benedict describes how she selected the subjects, got them to agree to be interviewed, convinced the magazines' editor's to assign her the pieces, prepared for the interviews, and set about writing each one after the research and interviewing were complete. Benedict also discusses how much confidence to betray, how personal to get, what to leave out, and the writer's power over the profile subject. This is fascinating reading, especially for aspiring writers who hope to learn more about the skills and practices of this popular genre. "Portraits in Print" concludes with an Afterward by the famous muckraker and author of "The American Way of Death," Jessica Mitford. Mitford takes the opposite tack, in an amusing essay about what it is like to be an interviewee.

[Murphy on Evidence, Peter Murphy, Richard Glover](#) , 2011, 0199594678, 9780199594672. Murphy on Evidence is firmly established as a leading text for use on undergraduate law courses and in preparation for professional examinations. Frequently consulted by judges and practitioners, it has come to be regarded as a work of authority throughout the common law world. It bridges the gap between academic and practical treatments of the law of evidence, containing detailed academic analysis of the law alongside a wealth of practical information about how the law is applied in the courtroom. The twelfth edition has been thoroughly updated and deals with many important decisions of the House of Lords and the Court of Appeal since publication of the last edition. As in previous editions, the authors' teaching method is centred around a realistic, though fictitious, criminal case and civil case, presenting challenging evidence issues and questions for discussion at the end of each chapter. Murphy on Evidence first appeared in 1980 under the name A Practical Approach to Evidence, and its success in providing a readable and practical guide to the subject has been widely acknowledged, not only by law teachers and students, but also by the profession. Online Resource Centre This book is accompanied by an Online Resource Centre, which contains: - Regular updates to the text - A list of useful web links - Supporting documents and multimedia resources for the two fictitious cases

[Night of January 16th: A Play, Ayn Rand](#) , 1987, 0452264863, 9780452264861. To the world, he was a startlingly successful international tycoon, head of a vast financial empire. To his beautiful secretary-mistress, he was a god-like hero to be served with her mind, soul and body. To his aristocratic young wife, he was an elemental force of nature to be tamed. To his millionaire father-in-law, he was a giant whose single error could be used to destroy him. What kind of man was Bjorn Faulkner? Only you, the reader, can decide. On one level, Night of January 16th is a totally gripping drama about the rise and destruction of a brilliant and ruthless man. On a deeper level, it is a superb dramatic objectification of Ayn Rand's vision of human strength and weakness. Since its original Broadway success, it has achieved vast worldwide popularity and acclaim.

[Viking: Killing the Young, Michael De Angelo](#) , 2009, 0982496818, 9780982496817. After returning home from years of raiding, the young Viking Gundar and his wife suffer an attack on their home and children that changes their lives forever. While pursuing his journey of vengeance, Gundar comes in contact with early Christianity in Norway. This is the story of a spiritual journey through violence, vengeance, love, and redemption, a riveting adventure story at once moving and profound. An allegory for modern times.

[The Remains of the Day, Kazuo Ishiguro](#) , 1990, 0140144323, 9780140144321. It is the summer of 1956, Stevens' aging butler, has embarked on a rare holiday--a six-day motoring trip through England's lovely west country. His travels are disturbed by the memories of a lifetime.

[King of the Middle Class, Tim Larkin](#) , 2006, 097855860X, 9780978558604. This book shows you how to break the four most common habits that prevent most Americans from becoming rich. This is not a "get rich quick" book, it's a "get rich

slow but sure " book. This book is different because you get not only a step by step system, but you also get real experience and real proof , from a truly rich and real person, namely Henry Larkin, a former King of the middle class.

[Word Translations GMAT Preparation Guide, 3rd Edition, Volume 4, Manhattan GMAT \(Firm\), Manhattan Gmat Prep](#) , 2008, 0981853374, 9780981853376. Description: The Word Translations Guide (176 pages) analyzes the GMATs complex math word problems and provides structured frameworks for attacking each question type. Master the art of translating challenging word problems into organized data. Each chapter builds comprehensive content understanding by providing rules, strategies and in-depth examples of how the GMAT tests a given topic and how you can respond accurately and quickly. The Guide contains a total of 120 "In-Action" problems of increasing difficulty with detailed answer explanations. Special Features: Purchase of this book includes one year of access to ManhattanGMATs online Word Translations Question Bank (accessible by inputting a unique code in the back of each book). Manhattan GMAT has categorized all the Word Translations problems in The Official Guides by question type. These categorized problems have been organized into problem lists that appear in the Word Translations Strategy Guide. Chapter By Chapter: ALGEBRAIC TRANSLATIONS: Translation Techniques, Using Charts, Prices and Quantities, Hidden Constraints 1. RATES & WORK: RTD Charts, Matching Units, Multiple RTD Problems, Average Rate, Basic Work, Working Together, Population, Exponential Growth/Decay (Advanced) 2. RATIOS: Labels, Proportions, Unknown Multipliers, Multiple Ratios 3. COMBINATORICS: Fundamental Counting Principle, Factorials, Anagrams, Multiple Arrangements, Arrangements with Constraints, Combination and Permutation Formulas (Advanced), Disguised Combinatorics (Advanced) 4. PROBABILITY: And vs. Or, 1 - x Shortcut, Domino Effect, Probability Trees, Combinatorics and Probability (Advanced), Combinatorics and Domino Effect (Advanced), Reformulating Difficult Problems (Advanced) 5. STATISTICS: Average Formula, Evenly Spaced Sets, Weighted Averages, Median, Standard Deviation, Shortcuts (Advanced) 6. OVERLAPPING SETS: Double-Set Matrix, Sets & Percents, Sets & Algebraic Representation, Venn Diagrams 7. MINOR PROBLEM TYPES: Optimization, Grouping, Scheduling, Computation, Graphing

[Managing Supply Chains: A Logistics Approach with Student CD,](#) , 2008, 032466267X, 9780324662672. The eighth edition of MANAGING SUPPLY CHAINS: A LOGISTICS APPROACH, 8e International Edition has refined its focus on the supply chain approach, one of the latest developments in logistics management. Its strategic managerial focus blends logistics theory with practical applications and includes updated material on the latest technology, transportation regulations, pricing, and other issues. This market-leading text continues to focus on the integration of the supply chain approach as an important concept in understanding contemporary logistics management. In addition, this text focuses on changes in the way business is being done, with a particular emphasis on technology. Each chapter opens with Supply Chain Profiles, vignettes that introduce you to the chapters topics through familiar real-world companies, people, and

events. For this new edition, the majority of the profiles have been changed. Each chapter also includes new and updated On the Line boxed features, which are applied examples that give you hands-on managerial experience of the chapters topics. Supply Chain Technology boxes appear throughout the text, helping you relate technological developments to supply chain management concepts and logistics practices. Short Cases at the end of each chapter are updated and build on what youve learned in the chapter.

[Ethics in the Workplace: Tools and Tactics for Organizational Transformation, Craig E. Johnson](#) , 2007, 1412905389, 9781412905381. 'Blending theory and practice, this innovative interdisciplinary text equips students to act as ethical change agents, who improve the moral performance of their work organizations.'ABSTRACTS OF PUBLIC ADMINISTRATION, DEVELOPMENT, AND ENVIRONMENT'The book maintains its down-to-earth quality throughout -describing theories/concepts, presenting research data, identifying key ongoing relationships with stakeholders where organizations need to respond to changing ethical conditions.' BUSINESS INDIAWritten in a reader-friendly style, the book is structured around levels of organizational behavior. Author Craig E. Johnson examines ethics in not just corporations but all types of workplace organizations, including nonprofit, government, military, and educational entities. Key Features:Presents an interdisciplinary focus: The text draws extensively from ethical research in the social sciences, including business ethics, management, moral psychology, communication, organizational behavior, social psychology, and international relationsProvides contemporary case studies: Most cases are based on recent events, and all of them foster discussion and critical analysisOffers self-assessment and application exercises: These exercises are designed to prompt feedback on personal and organizational ethical performance and encourage further reflection and knowledge transferIncludes instructors resources: This helpful CD includes a test bank with essay, true/false, matching, and multiple choice questions. Intended Audience:This is an ideal core textbook for advanced undergraduate and graduate courses in Business Ethics and for related courses, such as Management Ethics, Workplace Ethics, Organizational Ethics, Ethics in Public Administration, and Communication Ethics.

[Holy Places and Temples in India, John Howley](#) , 1996, 0965385809, 9780965385800. India has a vast array of cultures, religions and interests. But many people miss the real meaning and value of India-the spiritual side. This is not due to a lack of interest, but because it is difficult to find an easily understandable book on this subject. This book is different. It goes deeper into the heart of India-its spiritual side. What yogis and ascetics have been realizing for centuries.

[Symposium on Antenna Technology and Applied Electromagnetics: 2002 Conference Proceedings, University of Manitoba. Department of Electrical and Computer Engineering, ANTEM, Canadian Space Agency](#) , 2002, 0969256388, 9780969256380.

[Catching the Nimbin, Jenny Wagner](#) , 2001, 0140362975, 9780140362978. It's summer holidays again and Philippa is

longing to see Greg and the nimbin. But things aren't turning out how she hoped. First, instead of the usual camping trip to her beloved Bindi they are staying in a big hotel in Noosa. Then her mother doesn't want her to have anything to do with Greg. Nearly perfect Amanda doesn't want Greg to have anything to do with Philippa. The nimbin has a secret that it's trying to tell, and every time it does something wrong, which is all the time, Philippa gets the blame. And then things get worse.

[Your Number Vibrations: Know Yourself Through Your Numbers, Gisela Arenas, Victoria Barna](#) , 2011, 0982854617, 9780982854617.

[The Penguin Anthology of Twentieth-Century American Poetry, Rita Dove](#) , 2013, 0143121480, 9780143121480. In time for the holiday season, a beautiful paperback edition of Penguin's landmark poetry anthology Rita Dove, Pulitzer Prize winner and former Poet Laureate of the United States, introduces readers to the most significant and compelling poems of the past hundred years in The Penguin Anthology of Twentieth-Century American Poetry. Now available in paperback, this indispensable volume represents the full spectrum of aesthetic sensibilities—with varying styles, voices, themes, and cultures—while balancing important poems with vital periods of each poet. Featuring earlier works by Robert Frost, James Weldon Johnson, and Wallace Stevens along with examples from the new generation of critically acclaimed poets, including A. E. Stallings, Terence Hayes, and Poet Laureate Natasha Trethewey, Dove's selections paint a dynamic and cohesive portrait of modern American poetry.

[Handbook for K-8 Arts Integration: Purposeful Planning Across the Curriculum, Nan L. McDonald](#) , 2010, 0136138136, 9780136138136. Book study groups and professional learning communities, save 15% when you order 10 copies of Handbook for K-8 Arts Integration, a \$490 value for \$413. Contact your representative for details. If you are a pre-service or a practicing teacher this is one book you will want in your library. This concise and practical, yet research-based, handbook will show you how to create and use standards-based art activities to teach across the content areas. Written in an engaging and practical format complete with classroom vignettes and examples you will learn see what arts integration looks like in practice. Utilizing a constructive and reflective process (purposeful planning) this handbook empowers teachers to plan, teach, and evaluate their own art-infused lessons linked to what their students will need to know within other content area instruction.

[Religion and Violence: Philosophical Perspectives from Kant to Derrida, Hent de Vries](#) , 2001, 0801867681, 9780801867682. Does violence inevitably shadow our ethico-political engagements and decisions, including our understandings of identity, whether collective or individual? Questions that touch upon ethics and politics can greatly benefit from being rephrased in terms borrowed from the arsenal of religious and theological figures, because the association of such figures with a certain violence keeps moralism, whether in the form of fideism or humanism, at bay. Religion and Violence: Philosophical Perspectives from Kant to Derrida's careful posing of such questions and rearticulations pioneers new modalities for systematic engagement with religion and philosophy alike.

[Thin Again, Arthur Halliday, Arthur W. Halliday, Md.](#) , 1999, 0800786696, 9780800786694. Thin Again goes beyond trendy, short-term weight control plans to treat the root issue of most eating problems: We try to satisfy our souls, as well as our bodies, with food. As the Hallidays explain, we all crave intimacy, security, and acceptance. When these needs are not met, we often turn to substitutes such as food.

Designed as a reference as well as a junior- or senior-level textbook, this book is designed to help physics undergraduates acquire an appreciation of the mathematical basis of physical theories and achieve the expected level of competence in mathematical manipulations. It comprises topics prerequisite to the study of the standard undergraduate courses in physics, and topics for advanced students, including vector calculus, matrices, and Fourier series and transforms.

[Lucifer's Legacy: The Meaning of Asymmetry, F. E. Close](#) , 2000, 0198503806, 9780198503804. For many centuries, scientists have investigated the "fearful symmetry" that seemed to underlie the Universe. But increasingly, it looks as though life is the result of cosmic asymmetry, and scientists are now preparing to uncover the asymmetries at the heart of the Big Bang. As we begin a new millennium, it becomes clearer that true understanding of our Universe will come only from identifying and understanding the asymmetries that surround us. While modern scientific theory describes a uniformly perfect and symmetrical creation, we know that were that so, matter would have been destroyed within an instant of its appearance and nothing that we now know could ever have happened. Not only cosmic life but our own everyday variety is full of other examples of asymmetry, from the human body to the molecules of life. In *Lucifer's Legacy*, physicist Frank Close explores the origins of asymmetry from the molecular level to the Universe at large, and asks whether this multitude of examples can be traced back to a single event that took place at the origin of our Universe. Inspired by a chance encounter with a statue of Lucifer in the Tuilleries gardens in Paris, Close takes the reader on a sweeping tour of asymmetry in the world around us, from the development of human embryos to the mysterious Higgs boson. His tour culminates in the research now underway at CERN to recreate the Big Bang in Switzerland in 2005 and thus to solve this mystery of the original asymmetry. Vividly and engagingly written, *Lucifer's Legacy* reveals that whenever asymmetry occurs in Nature, it points towards deeper truths.

[Descent into Chaos: How the War Against Islamic Extremism is Being Lost in Pakistan, Afghanistan and Central Asia, Ahmed Rashid](#) , 2012, 0141919094, 9780141919096. Since 9/11, the war in Afghanistan and the invasion of Iraq, the West has been fighting a War on Terror, through force and through the building of new societies in the region. In this clear and devastating account, with unparalleled access and intimate knowledge of the political players, *Descent into Chaos* chronicles our failure. Having reported from central Asia for a quarter of a century, Ahmed Rashid shows clearly why the war in Iraq is just a sideshow to the main event. Rather, it is Pakistan, Afghanistan, and the five Central Asian states that make up the crisis zone, for it is here that terrorism and Islamic extremism are growing stronger.

Documenting with precision how intimately linked Pakistan is with the Taliban and other extremist movements, while remaining the US's main ally in the region, Rashid brings into focus the role of many regional issues in supporting extremism, from nuclear programmes to local rivalries, ineffectual peace-keeping to tyrannical rulers. For Rashid, at the

heart of the failure in Iraq is the USs refusal to accept the need to build nations. Ambitious and urgent, analyzing events, policies and personalities across the largest landmass in the world, Descent into Chaos chronicles with chilling accuracy why Islamic extremism is now stronger than ever.

[Letters from an Alien Schoolboy, Ros Asquith](#) , 2013, 1620875365, 9781620875360. When Flowkwee goes to planet Earth on a mission, he has to stay disguised as a small Earthling called Nigel, with only one head and four appendages! But that's not all: His personal mission is to go to a school every day to collect Earthlings to "improve." Nigel knows he has to act dumb around the Earthlings, so in math class he pretends he only knows his times table up until two million and six times nine, and in literacy class he pretends to read like a newborn Faathing baby. A lot of Earthling life is totally weird to Nigel the odd removable skins Earthlings wear called "clothes" and the funny paint on his mom's face called "makeup" but in some ways Earth is even better than planet Faa. Earth is full of cool sounds made up of all different pitches and noises called "music," and Earthlings get gifts every year on their birthdays, just for being alive! But while Nigel starts to embrace his Earthling self, in the background lurks a coming invasion that his dad keeps talking about. And why are they so interested in a substance called "spinach"? Letters from an Alien Schoolboy is sure to delight even the most reluctant readers as Earthling kids giggle their way through Nigel's gaffes and escapades. This is a fantastic gift for girls and boys eight and up!

[Stories of Scottsboro, James E. Goodman](#) , 1994, 0679407790, 9780679407799. In 1931, outside the town of Scottsboro, Alabama, nine black youths were charged with the rape of two white women. The case became a cause celebre that shocked America, reawakened the struggle for racial equality, and led finally to two landmark Supreme Court decisions. In this powerful retelling of the Scottsboro case, James Goodman, an assistant professor of history at Harvard, sets out to answer the question "what happened?" by moving from one point of view to another - the defendants, the two white women, the Communist Party who would shoulder the costs of the black youths' legal representation,

Northerners, Southerners, blacks and whites - detailing not only what they saw and heard, but also how their memories, ideas, and past experiences shaped their perceptions of the case. Goodman shows how people were able to present their stories of Scottsboro as the true "Story of Scottsboro," discounting other accounts in the process. Using trial transcripts, countless newspaper and magazine articles and editorials, reports of private investigators, diaries, memories, oral histories, and autobiographies, *Stories of Scottsboro* is an engrossing exploration of the way in which history takes shape in people's minds through the stories they choose to relate.

[Food on Wheels: The Complete Guide to Starting a Food Truck, Food Cart, Or Other Mobile Food Business, Jennifer Lewis](#), 2011, 0615533663, 9780615533667. Food trucks are hitting the streets from Miami to Maui but greasy reheated tacos and soggy burgers are a thing of the past. Today's mobile eateries have foodies flocking for gourmet bacon jam burgers, delicious Parisian-style crepes, and decadent handcrafted organic ice cream cones just to name a few. A less expensive alternative to opening a brick-and-mortar restaurant, food trucks, food trailers, food carts, and even food bicycles can be started by anyone whether you're a trained chef or an amateur baker. If you've ever dreamed of jumping on the food truck bandwagon this book will provide you with all the information necessary to get you on the road. Highlights include: \* Understanding all the startup costs and sources for purchasing or leasing your kitchen on wheels; \* Building a business plan that will guide decision making and set you up for success; \* Scouting locations for optimal visibility and sales; \* Calculating your true product costs and how to price your menu in a way that will be profitable; \* Connecting with customers inexpensively by using traditional marketing tools and social media to keep them coming back for more; and \* Appendices containing detailed worksheets that clearly walk you through the financial side of the business and comprehensive lists of resources and business licensing offices broken down by state and territory.

[Weapons File, , Antarctic Press](#), 2006, 0976804336, 9780976804338. The best collection of gun reference available, this book is ideal for illustrators and 3-D digital artists. Hundreds of reference photos of the most popular and visually interesting firearms photographed from 360 degrees and three different points of view, worms eye, eye level, and birds-eye view. This guide will enhance any artists work, providing an easy to use guide for creating realistic depictions of widely used firearms.

[Mastering ArcGIS, Maribeth Hughett Price](#), 2012, 0073369322, 9780073369327. Mastering ArcGIS is an introductory GIS text that is designed to offer everything you need to master the basic elements of GIS. The author's step-by-step approach helps students negotiate the challenging tasks involved in learning sophisticated GIS software. The fifth edition is updated to follow the new software release of ArcGIS 10. An innovative and unique feature of Mastering ArcGIS is its accompanying CD-ROM with narrated video clips that show students exactly how to perform chapter tutorials before attempting an exercise on their own.

[Sham: Social Change Through Contrived Crises, Bernadine Haag](#) , 1994, 0963544500, 9780963544506. SHAM addresses the social confusion people are experiencing today because of the rapidly changing tenor of their lives. Spiraling crime rates, abusive drugs in grade school, gun-toting students, escalating incidence of suicides by the young, porous borders that accommodate millions of illegal aliens & a possible jail term for developing one's own property are problems that seem to defy solution. Power-hungry individuals have discovered that, "A crisis situation emphasizes the need for an innovation & speeds its rate of adoption." Therefore, crises are being deliberately created through subterfuge & SHAM by elements within the federal government. To insure total social control, values need to be changed. One way to change values is to change language. Change language & you can change behavior. Undermine family values & you unravel the very fabric of the country. Choke businesses with massive government environmental regulations, & you deliver staggering blows to this nation's economy. SHAM exposes the blatant tactics being employed by government to wrest total control over its citizens from the womb to the tomb. SHAM covers a period of 30 years of social change, & warns of future trends.

[Learn to Play Bass Guitar, Phil Capone](#) , 2009, 0785824804, 9780785824800. This hardcover book with internal wire-o binding is 6.5in x 8in is a perfect size for readers to keep handy and reference often. The stylish design of the book, along with the interior photographs, illustrations and diagrams, make the learning process simple and fun for beginners. The book also includes an audio CD for examples and accompaniment. Learn to Play Bass Guitar starts with the basics like how to hold the bass, how to tune it up and start playing, and take the student to a playing level with sufficient skills to join a band. The book contains a library of scales and arpeggios giving a wider range of bass notes to play for any given chord, and a buyer's guide which lists the essential beginner accessories and equipment to get you started. If you're owing to teach yourself, you'll need an engaging, easy-to-understand tutor, and that's exactly what you'll find in the Learn to Play: A Beginners Guide series by Phil Capone.

[The 72 Hour Rule: A Do-It-Yourself Couples Therapy Book!, Margot Brown](#) , 2011, 0692013113, 9780692013113. The 72

Hour Rule focuses on helping adult individuals and couples to communicate more effectively. This book helps the reader identify their own thoughts, feelings, and behaviors. Then, the reader is guided through a series of topics, and real-time stories and exercises that will help them achieve successful communication with their partner. This book provides easy-to-use step-by-step exercises to help couples improve their relationship. This book examines substance abuse, violence, mental illness, unemployment, family dynamics, and affairs as topics of discussion, and is a breakthrough for all partners who avoid couples therapy or who have had a previous negative counseling experience. This book is based on both research and experience. Read this book as a couple together; integrate new communication tools into your relationship. The 72 Hour Rule is a simple and effective guideline to a more caring and connected partnership.

[The Great Wave: Price Revolutions and the Rhythm of History, David Hackett Fischer](#) , 1996, 0199741069, 9780199741069. David Hackett Fischer, one of our most prominent historians, has garnered a reputation for making history come alive--even stories as familiar as Paul Revere's ride, or as complicated as the assimilation of British culture in North America. Now, in *The Great Wave*, Fischer has done it again, marshaling an astonishing array of historical facts in lucid and compelling prose to outline a history of prices--"the history of change," as Fischer puts it--covering the dazzling sweep of Western history from the medieval glory of Chartres to the modern day. Going far beyond the economic data, Fischer writes a powerful history of the people of the Western world: the economic patterns they lived in, and the politics, culture, and society that they created as a result. As he did in *Albion's Seed* and *Paul Revere's Ride*, two of the most talked-about history books in recent years, Fischer combines extensive research and meticulous scholarship with wonderfully evocative writing to create a book for scholars and general readers alike. Records of prices are more abundant than any other quantifiable data, and span the entire range of history, from tables of medieval grain prices to the overabundance of modern statistics. Fischer studies this wealth of data, creating a narrative that encompasses all of Western culture. He describes four waves of price revolutions, each beginning in a period of equilibrium: the High Middle Ages, the Renaissance, the Enlightenment, and finally the Victorian Age. Each revolution is marked by continuing inflation, a widening gap between rich and poor, increasing instability, and finally a crisis at the crest of the wave that is characterized by demographic contraction, social and political upheaval, and economic collapse. The most violent of these climaxes was the catastrophic fourteenth century, in which war, famine, and the Black Death devastated the continent--the only time in Europe's history that the population actually declined. Fischer also brilliantly illuminates how

these long economic waves are closely intertwined with social and political events, affecting the very mindset of the people caught in them. The long periods of equilibrium are marked by cultural and intellectual movements--such as the Renaissance, the Enlightenment, and the Victorian Age-- based on a belief in order and harmony and in the triumph of progress and reason. By contrast, the years of price revolution created a melancholy culture of despair. Fischer suggests that we are living now in the last stages of a price revolution that has been building since the turn of the century. The destabilizing price surges and declines and the diminished expectations the United States has suffered in recent years--and the famines and wars of other areas of the globe--are typical of the crest of a price revolution. He does not attempt to predict what will happen, noting that "uncertainty about the future is an inexorable fact of our condition." Rather, he ends with a brilliant analysis of where we might go from here and what our choices are now. This book is essential reading for anyone concerned about the state of the world today.

[The Languages of Logic: An Introduction to Formal Logic, Samuel Guttenplan](#) , 1997, 155786988X, 9781557869883.

Logic is, and has always been, an essential part of philosophy. It employs concepts which are crucial for understanding thought and language, and demands a mastery of procedures and techniques. With the same intellectual goals as the first edition, this innovative introductory logic textbook explores the relationship between natural language and logic, motivating the student to acquire skills and techniques of formal logic. This new and revised edition includes substantial additions which make the text even more useful to students and instructors alike. Central to these changes is an Appendix, 'How to Learn Logic', which takes the student through fourteen compact and sharply directed lessons with exercises and answers. Other new material includes a discussion of the truth tree method for both Sentential and Predicate logics, an account of alternative notations, and the provision of answers to selected exercises that figure in the main body of the book.

[Decipher, Stel Pavlou](#) , 2007, 1429907797, 9781429907798. MANKIND HAS HAD 12,000 YEARS TO DECIPHER THE MESSAGE, WE HAVE ONE WEEK LEFT.... There is a signal emanating from deep within the ice of Antarctica. Atlantis has awoken. Ancient monuments all over the world from the Pyramids of Giza, to Mexico to the ancient sites of China are reacting... to a brewing crisis not of this earth, but somewhere out in the solar system. Connecting to each other through the oceans. Using low frequency sound waves to create an ancient network. The earth is thrown into panic stations. For it seems that the signals emanating from Atlantis are a prelude to something much greater. Could it be that the entire city is in fact one giant ancient machine? And to what end? For what purpose? It is the year 2012, the same year Mayan belief prophesied the end of the world. Two armies, American and Chinese stand on the brink of war for the control of the most potent force ever known to man. The secrets of Atlantis. Secrets which are encoded in crystal shards retrieved from the sunken city. Secrets which Mankind has had twelve thousand years to decipher... but which will now destroy it within one week.

[Winging It: A Memoir of Caring for a Vengeful Parrot Who's Det, Jenny Gardiner](#) , 2010, 1439168997, 9781439168998. A gift from an overseas relative, Graycie, an African Gray parrot, arrives in the Gardiner home not long after the birth of their first child, adding the responsibilities of parrot-hood to their newfound parenthood. Jenny Gardiner and her husband were hoping for a docile, beautifully plumed, Polly-want-a-cracker type of companion but patchily feathered, scrawny, ill-tempered Graycie was the furthest thing from what they envisioned.. In *Winging It* , Gardiner shares in vivid and hilarious detail the many hazards of parrot ownership, from endless avian latrine duty to discovering the multiple ways a beak can

pierce human flesh. Whether shes swearing at the dog, mimicking the sound of the smoke alarm, or bobbing to the beat of the kids clapping for her amusement, she brings the family joy, laughter, and, sometimes, tears. So why would the Gardiners subject themselves to the crazy behavior of this parrot for so long? Well, because, as the Gardiners realize, Graycie is a part of the family, and just like in any relationship between living creatures, things do not always go according to plan..A mix of hilarious pet hijinks and a poignant story of family commitment, Winging It is a reminder of the importance of patience, loyalty, and humor when it comes to dealing with even the most temperamental members of the family..

[Presidential Decisions for War: Korea, Vietnam, the Persian Gulf, and Iraq, Gary R. Hess](#) , 2009, 0801891248, 9780801891243. Following World War II, Americans expected that the United States would wage another major war against a superpower. Instead, the nation has fought limited wars against much weaker states, such as North Korea, North Vietnam, and Iraq. This revised and updated edition of Presidential Decisions for War analyzes the means by which four presidents have taken the nation to war and assesses the effectiveness of each president's leadership during those conflicts. Gary Hess recreates the unfolding crises in Korea, Vietnam, and Iraq to probe the reasons why Presidents Truman, Johnson, George H. W. Bush, and George W. Bush and their advisors decided in favor of war. He compares the performance of the commanders-in-chief and evaluates how effectively each understood U.S. interests, explored alternatives to war, adhered to constitutional processes, and built congressional, popular, and international support. A new conclusion points out, that unlike the administrations of Truman, Johnson, and the elder Bush, George W. Bush's White House actively sought to change the international order through preemptive war and aggressive democracy building. Fully revised and featuring an examination of how each of the presidents learned from history and juggled the demands on diplomacy, this comparative study of presidential war-making elucidates how effective executive leadershipor its absencedirectly affects the outcome of wars.

[Love with a Chance of Drowning, Torre DeRoche](#) , 2013, 0857970410, 9780857970411. Love can make a person do crazy things. . . A city girl with a morbid fear of deep water, Torre DeRoche is not someone you would ordinarily find adrift in the middle of the stormy Pacific aboard a leaky sailboat &- total crew of two &- struggling to keep an old boat, a new relationship and her floundering sanity afloat. But when she meets Ivan, a handsome Argentinean man with a humble sailboat and a dream to set off exploring the world, Torre has to face a hard decision: watch the man she's in love with sail away forever, or head off on the watery journey with him. Suddenly the choice seems simple. She gives up her sophisticated city life, faces her fear of water (and tendency towards seasickness) and joins her lover on a year-long voyage across the Pacific. Set against a backdrop of the world's most beautiful and remote destinations, Love with a Chance of Drowning is a sometimes hilarious, often moving and always breathtakingly brave memoir that proves there are some risks worth taking.

[There's a New Shuffle in Lilliput: The Story of Arthur C. Gulliver's Travels, Joseph Martin Cunningham](#) , 2010, 0982742002, 9780982742006. Obsessed from his childhood with Jonathan Swift's story of Lemuel Gulliver's travels, Arthur C. Gulliver is committed to an asylum for his pestiferous soliciting to raise funds for an insane voyage to the fictitious land of Lilliput. But, with the aid of two other inmates, he manages to realize his dream and sail to Lilliput. The Lilliput Arthur finds in the mid 1930s is much different than Lemuel Gulliver's. The monarchy is gone. Lilliputians zoom across land and sea in spheres of transparent steel. Spanking is the Lilliputian method of formal greeting. Drunkenness is required by law. Skyscrapers hang gracefully suspended in mid-air. Politicians pay voters directly and openly for their votes. The military wields a fantastic paralytic ray. Nights in the city are lit by small artificial suns created by great beams of light. And, a mysterious third chamber in the tricameral legislature dominates Lilliputian government. In the mid-1930s, Joseph Martin Cunningham wrote this sequel to Gulliver's Travels. Intended as a political satire about the follies of America during the Great Depression, it seems surprisingly topical today. The comical parodies of Wall Street's financial scandals, the influence of lobbyists, the Congressional reconciliation process, earmarks, and political financing seem to be drawn out of today's headlines.

[Teaching Primary Mathematics, Booker Bond Sparrow, Swan](#) , 2009, 144250563X, 9781442505636. The fourth edition of TEACHING PRIMARY MATHEMATICS has been significantly revised and updated for the current educational environment and has been written with a greater emphasis on how students learn mathematics. It provides teachers and students with a sound framework for the successful teaching of mathematics to primary students. TEACHING PRIMARY MATHEMATICS is suitable both as a core text for primary student teachers and as an indispensable reference for practicing primary teachers seeking to update their knowledge.

[Helping Children Learn to Read: Creating a Classroom Literacy Environment, Lyndon W. Searfoss, John E. Readence, Marla H. Mallette](#) , 2001, 0205270190, 9780205270194. This K-8 methods book shows how to implement a balanced classroom literacy program that is child-centered and print rich with reading at the core. Helping Children Learn to Read presents, in a clear, readable style, the current theories and techniques for creating a literacy program in elementary grades. There is strong coverage of the role of the basal reader and how to modify its use; the whole language perspective and an integrated language arts curriculum; a teaching-strategies orientation to decoding, vocabulary, comprehension, studying, and writing; plus extensive discussion of emergent literacy, multicultural literature, metacognition, and holistic assessment. For anyone interested in elementary reading methods.

Each title in the series begins with a retelling of the original tale and includes pictures from the movie. Next, each book tells of the making of the movie, revealing secrets, stories, and little-known facts, The author of each book also explores the journey each monster took to arrive on the silver screen. Some were born of legend and others from literature, but each monster profiled in this series is a classic creature who holds a special place in the American collective. This book introduces the reader to the American version of

[Manchet & Trencher, Gillian Goodwin](#) , 1983, 0950652938, 9780950652931.

[Empire: A Very Short Introduction, Stephen Howe](#) , 2002, 0191604445, 9780191604447. A great deal of the world's history is the history of empires. Indeed it could be said that all history is colonial history, if one takes a broad enough definition and goes far enough back. And although the great historic imperial systems, the land-based Russian one as well as the seaborne empires of western European powers, have collapsed during the past half century, their legacies shape almost every aspect of life on a global scale. Meanwhile there is fierce argument, and much speculation, about what has replaced the old territorial empires in world politics. Do the United States and its allies, transnational companies, financial and media institutions, or more broadly the forces of 'globalization', constitute a new imperial system? Stephen Howe interprets the meaning of the idea of 'empire' through the ages, disentangling the multiple uses and abuses of the labels 'empire', 'colonialism', etc., and examines the aftermath of imperialism on the contemporary world.

Through engaging essays, powerful photos, and compelling facts, Ocean Planet explores the role that the vast and beautiful seas play in our lives. Published on the 25th anniversary of Earth Day, this book will change the way readers think about the sea around them. 115 illustrations, 86 in color.

[Heidegger, Aristotle and the Work of Art, Mark Sinclair](#) , 2006, 1403989788, 9781403989789. The book shows that Heidegger's Aristotle interpretation of the 1920s is integral to his thinking as an attempt to lead metaphysics back to its

own presuppositions, and that his reflection on art in the 1930s necessitates a revision of this interpretation itself. It argues that it is only in tracing this movement of Heidegger's Aristotle interpretation that we can adequately engage with the historical significance of his thinking, and with the fate of metaphysics and aesthetics in the present age.

[A History of Aspen, Sally Barlow-Perez](#) , 1990, 0962004669, 9780962004667. A History of Aspen utilizes a narrative style and 82 historic photos to recount the saga of Aspen and the role of its leading citizens as Aspen roller-coasted from a thriving mining town and Colorado's third largest city, through a period of quiet, to its current place in the sun as a famous resort town. The book's chapters follow the progression from the mining era of the late 1800s and the quiet era that followed, through the early ski period and building of a strong cultural base, to the boom of the sixties and the growth and politics that followed into a new century.

[Re-visioning Indian Cities: The Urban Renewal Mission, K C Sivaramakrishnan](#) , 2011, 813210689X, 9788132106890. Re-visioning Indian Cities probes the Jawaharlal Nehru National Urban Renewal Mission (JNNURM) right from its inception to its present-day avatar. The book significantly adds to the knowledge base on the urban history of India. Commencing with a historical background of the JNNURM, the book traces the evolution of public policy in India on urban growth. In the process it provides an understanding of the complex urban issues and examines whether the JNNURM is a project response or a policy response to these problems.

[The Shipwrecked Men, Alvar Nez Cabeza de Vaca](#) , 2007, 0141025360, 9780141025360. The original disaster narrative, The Shipwrecked Men by Alvar Nunez Cabeza de Vaca (c.1492-c.1560) tells how a confident, well-equipped Spanish expedition to explore the Florida mainland came utterly to grief through arrogance, storms and bad luck, leaving a handful of survivors to stagger to Mexico City some years later. Great Journeys allows readers to travel both around the planet and back through the centuries but also back into ideas and worlds frightening, ruthless and cruel in different ways from our own. Few reading experiences can begin to match that of engaging with writers who saw astounding

things: Great civilisations, walls of ice, violent and implacable jungles, deserts and mountains, multitudes of birds and flowers new to science. Reading these books is to see the world afresh, to rediscover a time when many cultures were quite strange to each other, where legends and stories were treated as facts and in which so much was still to be discovered.

[Old Hiram: And Other Memories from the Hills of West Virginia, Vivian Boston Smith](#) , 1990, 0964227606, 9780964227606. OLD HIRAM... recites poetry of our Appalachian heritage. Numerous photos enhance many of the poems which depict yesteryear in the hills of the mountain state.

[Virginia Woolf \(Authors in Context\), Michael H. Whitworth](#) , 2005, 0191516562, 9780191516566. Political and social change during Woolf's lifetime led her to address the role of the state and the individual. Michael H. Whitworth shows how ideas and images from contemporary novelists, philosophers, theorists, and scientists fuelled her writing, and how critics, film-makers, and novelists have reinterpreted her work for later generations. - ;During Virginia Woolf's lifetime Britain's position in the world changed, and so did the outlook of its people. The Boer War and the First World War forced politicians and citizens alike to ask how far the power of the state extended into the lives of individuals; the rise of fascism provided one menacing answer. Woolf's experiments in fiction, and her unique position in the publishing world, allowed her to address such intersections of the public and the private. Michael H. Whitworth shows how ideas and images from contemporary novelists, philosophers, theorists, and scientists fuelled her writing, and how critics, film-makers, and novelists have reinterpreted her work for later generations. The book includes a chronology of Virginia Woolf's life and times, suggestions for further reading, websites, illustrations, and a comprehensive index. - ;this fine study...produces a fresh portrait of Woolf and her multi-faceted contributions to English letters. The book's presentation of modern British literary and cultural history makes it a rich resource for Woolf scholars and an illuminating introduction for students - Woolf Studies Annual, Volume 12 d

[Free Prize Inside!: How to Make a Purple Cow, Seth Godin](#) , 2007, 1591841674, 9781591841678. How to find the ?soft innovation? that will make your product, service, school, church, or career worth talking about We live in an era of too much noise, too much clutter, too many choices, and too much spam. And as Seth Godin?s 200,000-copy bestsellerPurple Cowtaught the business world, the old ways of marketing simply don?t work anymore. The best way to sell anything these days is through word of mouth?and the only real way to get word of mouth is to create something remarkable. Free Prize Inside, the sequel toPurple Cow, explains how to do just that. It?s jammed with practical ideas you can use right now to make your product or service remarkable, so that it will virtually sell itself. Remember when cereal came with a free prize inside? Even if you already liked the cereal, it was the little plastic toy that made it irresistible. Godin explains how you can think of a bonus that will make your customers feel just as excited, no matter what business you?re in. Consider these free prizes: ??The Tupperware party, which turned buying plastic bowls into a

social event ??Flintstones vitamins, which turned a serious product into something fun ??The free change-counting machine at every Commerce Bank branch ??The little blue box from Tiffany, which makes people happy before they even open it This book offers a way to create free prizes quickly, cheaply, and reliably?and persuade others in your organization to help you bring them to life.

[Corrections Today: 21st Century Challenges, Jeanne B. Stinchcomb](#) , 2002, 0131101013, 9780131101012. Balancing pros and cons, and marked by an optimism that is not generally characteristic of corrections, this book tackles controversial issues and takes on the 21st century challenges transforming the field today. Comprehensive coverage includes the need for custody as well as treatment; the emergence of restorative as well as retributive justice; the importance of jails as well as prisons; the development of private as well as public correctional facilities; the use of community-based alternatives as well as custodial confinement; and the rights as well as restrictions of those behind bars. Controversial issues such as capital punishment, inmate amenities, truth-in sentencing, speculative prisons, electronic monitoring, boot camps, home furloughs, substance abuse interventions, and the use of condoms behind bars, will familiarize readers with the hot topics of the field. For anyone with an interest in correctional facilities and their administration.

[The World's Simplest Photography Book, Jerry Curtis Hughes](#) , 1992, 0963434810, 9780963434814. See new 5th edition (0-9634348-6-1) The World's Best & Easiest Photography Book. The fastest, easiest way to learn to take great photographs that will amaze your friends & family. Learn visually from over 380 "how to" photographs & 72 sketches. Large print makes it easier for children & senior citizens to read. A time-saver, people can learn at home how to prevent redevye, stop cropping off heads, how a camera works, what camera & film to by, working with a lab, etc. Anyone can become creative using the new C.A.L.L. (tm) creative method (Composition, Angle, Lighting, Lens) to see more artistically. A quick reference book, it's easy to use as a refresher course for vacations, special events, etc. A fancy camera isn't needed. This new creative approach works with disposable point-&-shoot cameras, adjustable SLR cameras & even camcorders. Used as a textbook in universities, high schools & even grade schools. "It takes complex photography concepts & makes them simple to understand."--Richard Carson, Adjunct professor, photojournalism,

University of Houston; Staff photographer, HOUSTON CHRONICLE. The American Library Association's BOOKLIST Review recommended THE WORLD'S SIMPLEST PHOTOGRAPHY BOOK for both adults & young adults. Great for children interested in photography. The number one hobby in America with millions of photographs taken every day. A book everyone can enjoy & makes a great gift.

[Bel-ami, Guy Maupassant](#) , 1975, 0140443150, 9780140443158. Young, attractive and very ambitious, George Duroy, known to his friends as Bel-Ami, is offered a job as a journalist on La Vie française and soon makes a great success of his new career. But he also comes face to face with the realities of the corrupt society in which he lives - the sleazy colleagues, the manipulative mistresses and wily financiers - and swiftly learns to become an arch-seducer, blackmailer and social climber in a world where love is only a means to an end. Written when Maupassant was at the height of his powers, Bel-Ami is a novel of great frankness and cynicism, but it is also infused with the sheer joy of life - depicting the scenes and characters of Paris in the belle époque with wit, sensitivity and humanity.

Accessible, Active, and Applied with a focus on different learning styles Designed to make the Introductory Psychology course an engaging, relevant, and interactive experience, the authors of the new seventh edition of Psychology offer multiple decades of combined teaching experience to create an accessible textbook that encourages applied and active learning. Through this book's accessible, active, and applied approach, users determine whether their learning style strengths are verbal/linguistic, logical/mathematical, visual/spatial, or interpersonal. By encouraging them to study according to their own personal learning style, Psychology helps students become more effective and efficient learners. The seventh edition can now be packaged with Pearson's MyPsychLab providing students with an interactive eText, personalized study plans, and automatically graded assignments giving them an even more engaging experience! A better teaching and learning experience This program will provide a better teaching and learning experience for you and your students. Here's how: Personalize Learning The new MyPsychLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking Features such as Myth or Science, Check Your Progress, and Psychological Detective teach students to connect theory and concepts with real life. Engage Students The authors continue a seamless narrative that keeps students engaged. Explore Research This new edition features new and updated research in almost every chapter. Support Instructors This book is supported by Pearson's unrivaled instructor resources for introductory psychology, including the new 17 episode MyPsychLab video series, an expansive class-tested Test Bank, interactive PowerPoints, an easy to use Instructor's Manual, Clicker questions and support for a broad range of learning management systems. All of these materials may be packaged with the text upon request. Note: MyPsychLab does not come automatically packaged with this text. To purchase MyPsychLab, please visit [www.mypsychlab.com](http://www.mypsychlab.com) or you can purchase a ValuePack of the text + MyPsychLab (at no additional cost). [Everything Your Fifth Grader Needs to Know, Kathleen Ermitage](#) , 2003, 0764124811, 9780764124815. This brand-new and important workbook gives parents easy-to-apply methods for educating their fifth-grade children, whether as home schoolers with parents taking full control of their child's studies, or as parents cooperating with their child's teachers in standard classroom settings. The book gives parents guiding principles for teaching reading, writing, math, social studies, and science. Pages are perforated for multipurpose use, which can include independent learning by children or shared learning when kids and parents work together. Four curriculum sections are designed to guide teaching parents: Promoting literacyreading, writing, listening, and speaking . . . Mathnumber patterns, problem solving, and other math-related concepts . . . Sciencelife, earth, and physical sciences . . . and Social Studiesshistory, geography, economics, and culture. Each section outlines subject matter for children to learn, preceded by planning and implementation strategies for parents. Parents get advice on ways to enhance the child's learning experience. They include Teaching Tips, or ways to explain difficult concepts to children, and ways to assess a child's success in grasping the given material. There is also advice on integrating the Arts, with suggestions for interactive learning in music and art; and activities and Games to promote hands-on learning experiences that relate to specific subject content. In each subject section a special feature titled In Your Community describes ways to explore the community where the family lives, taking advantage of local cultural affairs, business activities, environmental concerns, and government functions. Though the book is written primarily for parents, fifth-grade classroom teachers looking for new ideas and methods will also find inspiration. This book is one of three titles that introduce teaching methods and offer practical curriculum guides for different grade levels: grades three, five, and six. Additional titles for other K6 grades are currently in preparation. All books feature maps, photos, and illustrations, many in color.

[The luckiest girl in the world, Steven Levenkron](#) , 1998, 0140266259, 9780140266252. Just looking at Katie Roskova, you'd think she had it all: she was pretty, popular, an A-student at an exclusive private school, and on her way to becoming a champion figure skater. But there was another Katie -- the one she hid from the world -- who was having trouble dealing with the mounting pressures of her young life. And it was this Katie who, with no other means of expression available to her, reacted to her overbearing mother, her absent father, her unforgiving schedule, and her oblivious classmates by turning her self-doubt into self-hatred. And into self-mutilation. In his previous novel, *The Best Little Girl in the World*, Steven Levenkron brought insight, expertise, and sensitivity to the painful subject of anorexia nervosa. Now he applies these same talents to demystifying a condition that is just as heartbreaking, and becoming more common everyday. Through his depiction of Katie's self-mutilating behavior -- she is called "a cutter" by her peers -- and her triumphant road to recovery, he offers a compelling profile of a young girl in trouble, and much-needed hope to the growing numbers who suffer from this shocking syndrome.

[Standards: Trumpet, Hal Leonard Publishing Corporation](#) , 2009, 1423458842, 9781423458845. (Big Band Play-Along).

[Lost: A Novel, Gregory Maguire](#) , 2010, 0061960578, 9780061960574. Winifred Rudge, a writer struggling to get beyond the runaway success of her mass-market astrology book, travels to London to jump-start her new novel about a woman who is being haunted by the ghost of Jack the Ripper. Upon her arrival, she finds that her step-cousin and old friend John Comestor has disappeared, and a ghostly presence seems to have taken over his home. Is the spirit Winnie's great-great-grandfather, who, family legend claims, was Charles Dickens's childhood inspiration for Ebenezer Scrooge? Could it be the ghostly remains of Jack the Ripper? Or a phantasm derived from a more arcane and insidious origin? Winnie begins to investigate and finds herself the unwilling audience for a drama of specters and shadesome from her family's

peculiar history and some from her own unvanquished past.

[Paradise for Sale: Florida's Booms and Busts, Nick Wynne, Richard Moorhead](#) , 2010, 1596298448, 9781596298446.

Internationally publicized as the happiest place on earth decades before Disney arrived, the Sunshine State experienced a brief and wondrous economic boom in the mid-1920s. Entrepreneurs and real estate developers became overnight millionaires as they created luxury seaside resorts, golfing communities and country clubs. Greats, near greats, the famous, the infamous, movie stars, politicians, athletes, neer-do-wells, preachers, foreign royalty, con artists, educators, labor leaders, union membersevery element of American and world society flocked to the Pleasure Paradise of the World. Florida was a perpetual motion machinedestined to go on forever. But in 1926, small bank failures led to panic, the new federal income tax law led to bankruptcy and a series of hurricanes decimated the tourist trade. Floridas great boom had gone bust, not to recover until World War II. However, Floridians remained optimistic that the sun of prosperity would rise again.

[Cobra Trap, Peter O'Donnell](#) , 2006, 0285637665, 9780285637665. Each short story in this final installment of the Modesty Blaise series details a different, thrilling tale of international intrigue starring Modesty and her loyal deputy, Willie Garvin. From Modestys early days running The Network to her later work with Sir Gerald Tarrant in British Intelligence, each escapade is more rousing than the next, including the title story that brings Modesty face to face with the toughest assignment of her careerthe daring rescue of her friends from the clutches of rebels in the jungles of Central America.

[Eminent Indians: dancers, M. L. Ahuja](#) , 2006, 8129110148, 9788129110145. Dance or abhinaya, the means to cultural communion, is considered to be the benevolence of the gods to mankind. Described as the language by which a dancer holds a conversation with the audience primarily through the use of the head, neck and the whole body, Natya Shastra, the first codified version of this performing art, is believed to have been revealed to sage Bharata Muni by the gods.

[Animated 'worlds', Suzanne Buchan](#) , 2006, 0861966619, 9780861966615. What do we mean by the term "animation" when we are discussing film? Is it a technique? A style? A way of seeing or experiencing "a world" that has little relation to our own lived experience of "the world"? In Animated Worlds, contributors reveal the astonishing variety of "worlds" animation confronts us with. Essays range from close film analyses to phenomenological and cognitive approaches,

spectatorship, performance, literary theory, and digital aesthetics. Authors include Vivian Sobchack, Richard Weihe, Thomas Lamarre, Paul Wells, and Karin Wehn.

[Exploring Microsoft Office 2010 Brief, Mary Anne Poatsy, Hulett, Cynthia Krebs, Keith Mulbery, Lynn Hogan, Keith Mast](#) , 2010, 0131367404, 9780131367401. For introductory computer courses on Microsoft Office 2010 or courses in computer concepts with a lab component for Microsoft Office 2010 applications. The goal of the Exploring series has been to move students beyond the point and click, helping them understand the why and how behind each skill. The Exploring series for Office 2010 also enables students to extend the learning beyond the classroom. Students go to college now with a different set of skills than they did five years ago. With this in mind, the Exploring series seeks to move students beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that everybody needs to know. A lot of learning takes place outside of the classroom, and the Exploring series provides learning tools that students can access anytime, anywhere. The goal of the Exploring series has been to move students beyond the point and click, helping them understand the why and how behind each skill.
