The fact that he is a repository of this legacy in no way impairs the modernity of his artistic expression and the freedom in the choice of his themes, which mix noble subjects with familiar ones. But this freedom, which is that of an accomplished artist, is also a reference to the past. Beneath the deliberate simplicity of the lines lies ancient Egypt, which he translates with the same

elegance and same force, whether the images are of pharaohs or of everyday objects; it can also be found under the density of the materials chosen granite, bronze, sandstone, plaster, slate or wood giving the most massive forms the lightness of a bird.

Daddy Rockfish) is a rising star in the emerging field of neurophysics. As a senior neurophysicist at Noetic Laboratories, Inc., Rockfish is on the verge of an earth-shattering breakthrough in limbic brain research -- the study of the mind's gateway to perception. Known as the KOEN PROJECT, Eric endeavors to develop a perception enhancement device for the mentally impaired. During experimentation, a laboratory accident gives birth to a controversial weapons technology -- the savage ability to wantonly impair an enemy's perception & cognition. An epic struggle erupts from three opposing forces. From within, Rockfish & his team passionately strive for the destruction of this horrific technology. From the American Midwest, Noetic Laboratories & federal authorities develop this discovery into a first generation weapon -- the Limbic Inhibitor. From the Far East, Red China's shadow kingdom of TEWU (Chinese Secret Service) receives an edict from her sovereign state: seize the American mind-altering technology at all costs. From the streets of Shanghai ... to the suburbs of Chicago, Illinois ... Eastern warriors confront Midwestern technologists. Heart-pounding. Relentless. Riveting. This volume contains a collection of essays that survey the various religions as they are practiced and represented in the United States, and also the religious world of various ethnic and national populations. Each of 14 chapters is devoted to a religious group or topic and written by a prominent scholar in the field of religious studies. The scholars provide factual data concerning each religion or topic, as well as their personal observations, opinions, and conclusions, giving the student not only a well-informed introduction to religions in America but also a sense that these religions are alive, active, and relevant to one's and the world's well-being. Of special interest are the chapters on religion and its relationship to women, politics, and society in general. Every chapter ends with study questions, essay topics, word explorations, and a further reading list.

[The Oxford Handbook of Stress, Health, and Coping, Susan Folkman](#) , 2010, 0199705070, 9780199705078. Few publications have changed the landscape of contemporary psychology more than Richard Lazarus and Susan Folkman's landmark work, *Stress, Appraisal, and Coping*. Its publication in 1984 set the course for years of research on the dynamic processes of psychological stress and coping in human beings. Now more than a quarter-century later, *The Oxford Handbook of Stress, Health, and Coping* pushes the field even further with a comprehensive overview of the newest and best work in this dynamic subject. Edited by Susan Folkman and comprising chapters by the field's leading scientists, this new volume details the expanded knowledge base that has emerged from extensive research on stress and coping processes over the last several decades. Featuring 22 topic-based chapters -- including two by Folkman -- this volume offers unprecedented coverage of the two primary research topics related to stress and coping: mitigating stress-related harms and sustaining well-being in the face of stress. Both topics are addressed within their relevant contexts, including chronic illness, calamity, bereavement, and social hardship. *The Oxford Handbook of Stress, Health, and Coping* is an essential reference work for students, practitioners, and researchers across the fields of health psychology, medicine, and palliative care.

[Spaces of Conflict, Sounds of Solidarity: Music, Race, and Spatial Entitlement in Los Angeles, Gaye Theresa Johnson](#) , 2013, 0520954858, 9780520954854. In *Spaces of Conflict, Sounds of Solidarity*, Gaye Theresa Johnson examines interracial anti-racist alliances, divisions among aggrieved minority communities, and the cultural expressions and spatial politics that emerge from the mutual struggles of Blacks and Chicanos in Los Angeles from the 1940s to the present. Johnson argues that struggles waged in response to institutional and social repression have created both moments and movements in which Blacks and Chicanos have unmasked power imbalances, sought recognition, and forged solidarities by embracing the strategies, cultures, and politics of each others' experiences. At the center of this study is the theory of spatial entitlement: the spatial strategies and vernaculars utilized by working class youth to resist the demarcations of race and class that emerged in the postwar era. In this important new book, Johnson reveals how racial alliances and antagonisms between Blacks and Chicanos in L.A. had spatial as well as racial dimensions.

From a dazzling array of well-known African American women, short fiction, poems, and personal essays that describe with warmth and humor their experiences as mothers and as daughters. A sparkling anthology devoted to exploring the lives of African American mothers, Rise Up Singing presents the stories and reflections of such beloved and respected artists, journalists, and authors as Alice Walker, Faith Ringgold, Marita Golden, Martha Southgate, Tananarive Due, Maya Angelou, Gwendolyn Brooks, Deborah Roberts, Rita Dove, and others. It features original and previously published writings, organized by editor Cecelie Berry by themesmothering, work, family, children, community, and lovethat illuminate the multiple roles of black mothers at home, in the neighborhood, and in the world as a whole. Rise Up Singing brings together the perspectives of women of different ages, backgrounds, and accomplishments. What shines through in their writings are the hopes shared by all mothers. As Marian Wright Edelman writes in the Foreword: The mothers writing in this anthology speak in a range of voices. They are joyful, stressed, grateful, ambivalent, determined, disappointed, and, in bad ways and good, overwhelmed. But over and over again . . . we see mothers struggling with the push: striving to give their children their best and to make sure the world gives their children its best, hard as that fight may be. [The Healing Power of Prayer: The Surprising Connection between Prayer and Your Health, Chester Tolson, Harold Koenig](#)

, 2003, 1441244107, 9781441244109. Prayer can heal you. It's not just hype or hope or a spiritual cliché. There is actual scientific evidence to support this. Recent medical and psychological studies claim that prayer can relieve stress, improve attitudes, and mend bodies. Prayer generates peace, power, and health—a triple preventative that guards against anxiety and disease. It's a simple act that heals. According to Chet Tolson and Harold Koenig prayer helps people function at their best when life serves them the worst. Even on good days, it enhances the mind-body-soul connection. In *The Healing Power of Prayer*, these authors explain the nature of prayer, what happens when we pray, the restorative benefits of prayer, how to organize prayer, and much more. Their facts and insights will encourage believers to increase, the fainthearted to revive, and skeptics to begin a life of prayer.

[Beyond Pain: Making the Mind-body Connection, Angela Mailis-Gagnon, David Israelson](#) , 2005, 0472030825, 9780472030828. "The range of topics covered in *Beyond Pain* is very wide, and one is likely to find almost any question about pain that one has ever puzzled over explored somewhere in its pages." -From the Foreword by Oliver Sacks With its gripping firsthand stories of patients and their ailments, *Beyond Pain* opens the door to our understanding of the mysteries of pain. *Beyond Pain* delves into the condition of chronic pain to help us better understand its complexities, showing pain to be both a sensory experience and an interaction between mind and body. Based on author Angela Mailis-Gagnon's extensive research and daily practice at a major urban hospital pain clinic, *Beyond Pain* uses case studies drawn from both her own practice and her personal experience. Mailis-Gagnon describes the latest treatments and options for sufferers of chronic pain; techniques used to block pain; the effects of chronic pain; and cultural, gender, and genetic differences in the perception of pain. She shares her cutting-edge findings and observations, describes current treatments and options for sufferers of chronic pain, and examines the effects of chronic pain on the individuals who live with it. Accessibly and engagingly written, the book will appeal to chronic pain sufferers and their families, as well as to health care practitioners who work with patients' pain.

In the attic of their old family palazzo on the Grand Canal, his father had found the love letters of their ancestor Andrea Memmo, one of the last great Venetian statesmen, to a beautiful half-English girl

named Giustiniana Wynne. Some of the letters were written in code, which di Robilant and his father cracked to reveal an illicit passion: Giustiniana was not of the elite ruling class and would never have been considered a suitable match for Andrea. But their acts of devotion were startlingly brazen. As their courtship unfolds, they plot elaborate marriage schemes that offend everyone, arrange secret trysts in borrowed rooms, cause trouble for the servants who must ferry their forbidden correspondence, and even weather an unwanted pregnancy, from which Giustiniana, with her wits and ingenuity and some crucial assistance from the infamous Casanova, emerges unscathed"--Publisher description.

[Hand Forged for Texas Cowboys,](#) , 2001, 0963894773, 9780963894779. This book not only includes a basic local history of the Victoria area of southern Texas, but also a discussion of how Italian emigrants played an important role in building the town & exemplifying the American dream. One such example was Joe Bianchi, who gained national fame as a horse bit & cowboy spur maker after he began his career at the turn of the century in general blacksmithing. Basically biographical, the book chronicles the development of the area & the role that ranching played in the economy with photos & descriptions of famous Texas ranches & ranching families of the area which was the "cradle of the cattle industry" in America because of the establishment & maintenance of the 18th century Spanish missions & their herds originally tended by Indians. Every western town had a blacksmith & the evolution of the trade on the frontier is told through a mixture of cultural & economic examples & the evolutionary relationships between many of the Texas loners are detailed. Chapters are devoted to discussions of the recent surge of interest in western collectibles, Spanish Mexican & European influences, as well as the effects of the Texas Revolution, the Mexican War, the Civil War & later conflicts. A thoroughly scientific approach is used by the anthropologist author, with statistical analyses of types of bits & spurs & the book ends with conclusions based on the debate of whether artisans & craftsmen are of the same type & numbers in modern times. Illustrations, photos, maps, charts & diagrams help the reader understand this important era from times of the Spanish conquest to post World War II. Ranchers, collectors, historians & artists alike will find this an entertaining book.

Elana Johnson, Author of POSSESSION It's been three thousand years since the fall of Azzaziel and the rebirth of evil; three thousand years since the Sentinal Order, an elite group of warrior angels, returned to Celestium. Their job-rid Earth of the dark creatures, the UnHoly. And with luck, end Azza's rule. As if casting out demons isn't hard enough, five-hundred-year-old Nesy has to masquerade as a teenage girl to do it. Nesy is the best of the Sentinals. She never makes mistakes, never hesitates, never gets emotionally involved. Until she meets Aydan. He is evil incarnate; a fallen angel that feeds off the souls of others. Everything Nesy is supposed to hate. But she can't, because he's also the love of her former life as a human girl-a life that ended too soon, tying her to emotions she was never supposed to feel. Now Nesy must choose between doing her duty-damning Aydan to the fiery depths of hell-or saving him, and condemning herself. And her choice may cost her, and Celestium, far more than anyone realizes. How much will she sacrifice for love?

[The White Spider, Heinrich Harrer](#) , 2010, 000734757X, 9780007347575. A classic of mountaineering literature, this is

the story of the harrowing first ascent of the North Face of the Eiger, the most legendary and terrifying climb in history. Heinrich Harrer, author of *Seven Years in Tibet* and one of the twentieth century's greatest mountaineers, was part of the team that finally conquered the Eiger's fearsome North Face in 1938. It was a landmark expedition that pitted the explorers against treacherous conditions and the limits of human endurance, and which many have since tried and failed to emulate. Armed with an intimate knowledge that comes only from first-hand experience of climbing the Eiger, Harrer gives a gripping account of physical daring and mental resilience. A new introduction by Joe Simpson, author of *Touching the Void*, confirms the lasting relevance of this true adventure classic.

[The ancient Egyptian "tale of two brothers": a mythological, religious, literary, and historico-political study, Susan Tower Hollis](#) , 2008, 0977409422, 9780977409426. What is the meaning of this story from antiquity, so similar in form to the European folktale? The "Tale of Two Brothers" describes a rite of passage, telling the the nearly universal story of a handsome and chaste young shepherd who rejects seduction by a powerful older woman and, after many adventures, becomes king. The story of this shepherd, Bata, is intertwined with that of his brother Anubis who, deceived at first, is unceasing in his efforts to restore his brother and eventually becomes king himself. The tale also has traits peculiar to ancient Egypt, notably that the main characters are gods as well as kings. Bata and Anubis are both divine figures connected with Egypts mortuary cults, and their story is replete with religious symbols of rebirth. Using comparative analysis, the author makes a major contribution to our understanding of a story that has puzzled folklorists for almost

140 years. At the same time, she constructs a model for examining ancient narratives, neither denying their cultural context nor allowing it to impede understanding. To provide this ancient context, Susan Tower Hollis utilizes a variety of works, including literary, mythological and wisdom texts, cultic materials, historical and political works, and Egyptian paintings, reliefs and sculptures. The second edition of this classic and long out-of-print text takes into account further scholarship on the "Tale of Two Brothers" since its original publication in 1990 and contains a new, updated bibliography.

[Great Beers of the World: And How to Brew Them at Home, Laurie Strachan](#) , 2000, 0743203445, 9780743203449. This book takes you around the world in search of the great beers and provides a fascinating insight into the history of the world's major beer styles and the different brewing methods that created them. Each beer is discussed, the taste is described and, best of all, a recipe provided, chosen to represent a particular style. (For example, Lowenbrau is chosen to represent a Bavarian lager.) The recipes do not try to replicate a particular brand but show you how to brew in the general style of a country or area -- allowing you to learn and experiment until you create a beer to your taste. Beers selected for the book are widely available all over the world and recipes include: German Pilsner North European Pilsner Helles Bock American/Canadian Light American Premium New Zealand Premium Australian Standard English Pale and Dark Bitters Special Bitters Brown Ale English Mild Irish Red Ale Scottish Heavy Pale Ale Stout Australian Sparkling Belgian Trappist Bavarian Weizen Great Beers of the World has the latest information on beer and brewing -- including brewing equipment -- and is a valuable book for both beginners and experienced brewers, with clearly written, easy-to-follow instructions. It is essential reading for all lovers of beer.

[The Courage for Truth: The Letters of Thomas Merton to Writers, , , , Thomas Merton](#) , 1993, 0374130558,

9780374130558. From 1948 (when he first wrote to Evelyn Waugh, who was editing *The Seven Storey Mountain* for publication in England) until his death in 1968, Thomas Merton corresponded with writers around the world, developing an ever-widening circle of friends in Europe, the Soviet Union, South and North America. Merton wrote, and heard from, many prominent writers of the stature of Waugh, Jacques Maritain, Czeslaw Milosz, Boris Pasternak, James Baldwin, Walker Percy, Henry Miller, and Victoria Ocampo. He also corresponded with and encouraged newer writers in Latin America, like Ernesto Cardenal. Merton sensed in these writers a hope for the future of humanity and believed that the courage for truth was their special gift. Writing to Jose Coronel Urtecho, Merton asserted that poets "remain almost the only ones who have anything to say . . . They have the courage to disbelieve what is shouted with the greatest amount of noise from every loudspeaker". Courage rooted in true freedom is evident in Merton's own life. He shared with his literary friends his concerns about war, violence and repression, racism and injustice, and all forms of human aggression. Forbidden to publish on the subject of war by his superiors, he obeyed but continued to circulate his famous "Cold War Letters". He did not hesitate to criticize his church when he saw there was more concern for the institutional structure than there was for people. Merton especially admired those who had the courage to write under oppression, like Pasternak, Milosz, and Cardenal.

This has resulted in a unique architectural ensemble, about which the architectural critic Philip Johnson wrote: "Since the Weissenhofsiedlung in Stuttgart in 1927, there has not been a gathering in a single place of a group of buildings designed by the most distinguished architects in the Western world." The Vitra Campus currently attracts over 330,000 annual visitors. While the VitraHaus by Herzog & de Meuron provides the opportunity to experience furniture classics and

new products from the Vitra Home Collection, the renowned Vitra Design Museum by Frank Gehry presents alternating exhibitions, which are accompanied by numerous events and workshops. Further attractions on the Vitra Campus include a museum shop, a cafe and guided architectural tours of the buildings on the Campus. With roughly 300 illustrations, "Vitra Campus" offers an overview of Vitra architecture, its daily use, the development of the Campus and biographies of the architects. It is ideally suited as a souvenir, as preparation for a visit, as a Campus guide, or simply as interesting reading on some of the most significant architects and buildings of our time.

[Metropolis, Emrys Jones](#) , 1990, 019282578X, 9780192825780. Past civilizations have always expressed themselves in great cities, immense in size, wealth, and in their contribution to human progress. We are still fascinated by ancient cities in Babylon, Rome, and Constantinople. Today, giant cities abound, but some are pre-eminent. As always, they represent the greatest achievements of different cultures. This book examines the idea of a class of supercities in the past and present, and in both the western and developing worlds. It analyzes their special characteristics; the effect of technology on their form and function; and the problems that come with size--congestion, poverty and inequality, squalor--that are sobering contrasts to the inherent glamour and attraction of great cities throughout time.

All users of XML will have the need to transform the information they have captured using their structured vocabulary into other structured vocabularies or outputs. XSLT and XPath are used to write stylesheets and transformations describing the way their information is translated. For example, anyone converting XML to HTML for use on the web, or anyone converting XML from their vocabulary to a customer's XML vocabulary for use in e-commerce must use XSLT and XPath.-- Part of The Definitive XML Series, edited by Charles F. Goldfarb, the inventor of the technology (markup languages) that gave birth to XML and HTML.-- G. Ken Holman is the world's leading authority on XSLT and XPath, having been involved with the W3C on both technologies.-- Complete coverage of the new W3C specifications on XSLT and XPath.-- Concise, bulleted presentation of the content makes for quick digestion of material.-- The content has been honed as instructor-led instructional material, improving based on student feedback and addressing the needs of the students. The Extensible Stylesheet Language

Transformations (XSLT) and the XML Path Language (XPath) are two essential specifications from the W3C (the Web standards governing body) for the processing of structured information expressed using the Extensible Markup Language (XML). This book sets out the context of using these new specifications and leads the reader through the entire suite of features and facilities in the language. The book is augmented from training material in active use and is designed to teach the reader all of the features of the W3C Recommendations. Covers the latest XML language specifications, including XML Query, XSL, XPath, Xlink, Xpointer, and Topic Maps, including the just-finalized XML Schema Structures and Datatypes specs. [Galileo: The Genius who Faced the Inquisition, Philip Steele](#) , 2005, 1426302959, 9781426302954. Galileo made the first effective use of the refracting telescope to discover important new facts about astronomy. His observations led him to support Copernicus's claim that Earth and the other planets circled the sun. This conflicted with the teachings of the Catholic Church, and brought Galileo before the judges of the Inquisition. He spent his final years under house arrest. Galileo's genius lay in the way he approached scientific problems. He reduced problems to simple terms on the basis of experience and common-sense logic. Then he analyzed and resolved the problems according to simple mathematical descriptions, thus opening the way for the development of modern mathematical physics. [Catholic School General, Ron Costello](#) , 2013, 0988654911, 9780988654914. The Junto is a story about good outwitting evil. The evil prince of this world plans to steal the Liberty Bell to discredit America and show his power. A poor black kid in South Philadelphia takes on the devil and it's a fight to the finish. The prince of evil wants to move the bell to his hidden den, third cave level, and invite his evil friends to snicker at and mock the most famous and regarded ding-dong in the free world. A perfect plan, indeed! One might think foolproof. A strategy so studied and executed by evil that nothing can stop it. But the brilliance of this hateful scheme is the meeting and talking site the prince has selected for his travelers: A place free from CIA or FBI listening devices; a place where meeting and talking in pairs and threes would not draw suspicion; a place where people walk and gawk and animals pace; a place where the last species of many

endangered animals remain: The Philadelphia Zoo. Unbelievable as it may seem, this kid, Jamil Jamil, struggling to survive in a South Philadelphia Catholic School, was born with a 'secret,' a brain-mechanism that allows him to exchange thoughts with animals, which he calls mind memorandums. He dislikes the mind memorandums and thinks they make his life miserable. Only, he doesn't know what misery is until he's contacted by Bette, an elephant at the Philadelphia Zoo, and summoned to the zoo. Sneaking into the zoo through a hole in the fence, he is told-through mind memorandums, or what the animals call 'visions'-about the evil plot to steal the bell. When his school principal, Sister Pat, doesn't believe his story-who would?-he follows the advice of his Grandma Rody: "Boy, use them zoo animals and stop the terrorists. Ain't nobody stealing a bell that's stood so long for freedom." From there it's a race to the Liberty Bell. Hiding animals from the zoo in and around Philadelphia, the poor Catholic, black kid from South Philly tries to save the Liberty Bell. It's a story you don't want to miss. Is it a book that young adults will enjoy? You bet it is. Perfect for grades five through 12. But read the review on the front of this website. Adults love *The Junto*, too. The book makes subtle observations about Philadelphia public and charter schools, Catholic schools-which are on the rise-and crime in the streets. It also takes readers through the neighborhoods and historic sections of the city in a race to the Liberty Bell.

[Best of the 1940s, Anova Books, Good Housekeeping Institute](#) , 2008, 1843404583, 9781843404583. Good Housekeeping was one of very few publications that was printed throughout the war, despite paper shortages and rations. Lovingly selected from Good Housekeepings archive, this nostalgic facsimile reproduction of the food, fashion, fiction and fitness features that formed the backbone of Britains wartime homemaking is sure to delight and inspire. Including stories and adverts, along with the cleaning and craft tips that defined the make do and mend generation, this is empathetic history at its most charming and evocative. With features ranging from managing without milk to how to get on with Americans, this compendium is at once practical, amusing and even moving. With a no-nonsense cloth-bound jacket featuring one of the most memorable magazine covers from the decade, this really is the perfect nostalgic treat.

[A Student's Guide to Coding and Information Theory, Stefan M. Moser, Po-Ning Chen](#) , 2012, 1107015839, 9781107015838. This easy-to-read guide provides a concise introduction to the engineering background of modern communication systems, from mobile phones to data compression and storage. Background mathematics and specific engineering techniques are kept to a minimum so that only a basic knowledge of high-school mathematics is needed to understand the material covered. The authors begin with many practical applications in coding, including the repetition code, the Hamming code and the Huffman code. They then explain the corresponding information theory, from entropy and mutual information to channel capacity and the information transmission theorem. Finally, they provide insights into the connections between coding theory and other fields. Many worked examples are given throughout the book, using

practical applications to illustrate theoretical definitions. Exercises are also included, enabling readers to double-check what they have learned and gain glimpses into more advanced topics, making this perfect for anyone who needs a quick introduction to the subject.

[Last Chance in Texas: The Redemption of Criminal Youth, John Hubner](#) , 2008, 1588361632, 9781588361639. A powerful, bracing and deeply spiritual look at intensely, troubled youth, Last Chance in Texas gives a stirring account of the way one remarkable prison rehabilitates its inmates. While reporting on the juvenile court system, journalist John Hubner kept hearing about a facility in Texas that ran the most aggressive and one of the most successful treatment programs for violent young offenders in America. How was it possible, he wondered, that a state like Texas, famed for its

hardcore attitude toward crime and punishment, could be leading the way in the rehabilitation of violent and troubled youth? Now Hubner shares the surprising answers he found over months of unprecedented access to the Giddings State School, home to the worst of the worst: four hundred teenage lawbreakers convicted of crimes ranging from aggravated assault to murder. Hubner follows two of these youths a boy and a girl through harrowing group therapy sessions in which they, along with their fellow inmates, recount their crimes and the abuse they suffered as children. The key moment comes when the young offenders reenact these soul-shattering moments with other group members in cathartic outpourings of suffering and anger that lead, incredibly, to genuine remorse and the beginnings of true empathy . . . the first steps on the long road to redemption. Cutting through the political platitudes surrounding the controversial issue of juvenile justice, Hubner lays bare the complex ties between abuse and violence. By turns wrenching and uplifting, Last Chance in Texas tells a profoundly moving story about the children who grow up to inflict on others the violence that they themselves have suffered. It is a story of horror and heartbreak, yet ultimately full of hope.

Since the Ney legend started way back in 1820 in North Carolina, it has been a mystery up till now. It was repetitious. Marshal Ney going on trial in the Chamber of Peers. Found guilty of treason, execution by firing squad. But the saying is that the firing squad execution was a fake. His supposed body was taken to the Hospic, where he donned a disguise & slipped out of France on a ship to America. But little details. But with new evidence & proof of what happened, the mystery of Michel Ney & Peter Stuart Ney has been solved. With new evidence & a lot of hard research, I can tell you what did happen. From the Waterloo Battle to the time he set foot in America, where he became Peter Stuart Ney the school teacher, & even beyond up to his death on 15 November 1846, 31 years after his execution. He died at the age of 77. I'll explain how the U. S. was involved & why. Field Marshal Duke of "Ellington" was the go between, not the main conspirator, but did take part. How the Mine Sisters, a Masonic Lodge was paid a debt by the American government, from a deed 38 years earlier. This is the Ney Legend. Now after reading the book You may or may not agree. But the evidence is there. There are foot notes you can check. All foot notes explain where the information comes from. Dates are important. This is not a new twist to the story of Ney, but the actual facts. I won't lie to the public. If I haven't convinced you of what took place & why, I failed somehow, for this 169 year old mystery has come to an end.

On October 4, 1957, as Leave It to Beaver premiered on American television, the Soviet Union launched the space age. Sputnik, all of 184 pounds with only a radio transmitter inside its highly polished shell, became the first man-made object in space; while it immediately shocked the world, its long-term impact was even greater, for it profoundly changed the shape of the twentieth century. In Sputnik, Paul Dickson chronicles the dramatic events and developments leading up to and emanating from Sputnik's launch. Supported by groundbreaking, original research and many recently declassified documents, Sputnik offers a fascinating profile of the early American and Soviet space programs and a strikingly revised picture of the politics and personalities behind the facade of America's fledgling efforts to get into space.

[Cry My Beloved Zimbabwe, K. Nyamayaro Mufuka](#) , 2002, 0966677757, 9780966677751. As always K. Nyamayaro Mufuka is a courageous writer. In this book he asks the question, do the kleptomaniac rulers of post independent Zimbabwe have a conscience? Mufuka's merciless pen spares no one. He does not spare even his own family. Here is Zimbabwe's renowned author at his best. This is a damaging satire on the politics of greed in Zimbabwe, under the new postcolonial government of Mugabe Mugabe. In 1980 when Zimbabwe achieved its independence, it was regarded as a jewel in Africa. Twenty-years later, a vicious one-party dictatorship under the leadership of Mugabe Mugabe almost destroyed this dream. In this collection of short stories, the author takes the subject of conscience as his theme. His main

character, Dr. Bogozo is an extremely gifted man. Bogozo, a founding father of the Revolutionary Party is forced to watch as his dream of a prosperous and free Zimbabwe self-aborts and turns into a nightmare. His conscience troubles him, as he is torn between his political party, loyalty, and his beloved country. K. Nyamayaro Mufuka is a gifted storyteller. His characters come alive, while the readers experience flashes of pain and sorrow. A Zimbabwean reviewer once said: "this is not fiction. We can figure out the people whom he is talking about." Therefore, readers are left with the feeling that the events narrated in these pages are not fictional...

[Muslim Youth: Tensions and Transitions in Tajikistan, Colette Harris](#) , 2009, 0786737131, 9780786737130. Since the breakup of the Soviet Union, the peoples of Central Asia (Tajikistan, Kazakhstan, Kyrgyzstan, Turkmenistan, and Uzbekistan) have been exposed to new, Western influences that stress individualism at the expense Central Asian traditions of family and communalism. Young men in particular are exposed to new ideas and lifestyles as they travel in large numbers outside their native republics for the first time, even as contemporary Islam exerts itself as a potent force for cultural conservatism, especially for women. As a result, young Central Asians today confront a complex mixture of the old and the new that strains personal relations, especially within the family, between generations, and between spouses. Relying on the authors extensive fieldwork, Muslim Youth devotes separate chapters to family life, education, dating, and marriage and the family in Dushanbe, the capital of Tajikistan. Throughout the book, emblematic life stories vividly portray the hopes and concerns of Tajiks, teasing out the complexity of modernity versus tradition and individualism versus collectivism.

[The Moonstone, Wilkie Collins](#) , 2008, 0199536724, 9780199536726. 'the first and greatest of English detective novels' T.S.Eliot A fabulous yellow diamond becomes the dangerous inheritance of Rachel Verinder. Outside her Yorkshire country house watch the Hindu priests who have waited for many years to reclaim their ancient talisman, looted from the holy city of Somnauth. When the Moonstone disappears the case looks simple, but in mid-Victorian England no one is what they seem, and nothing can be taken for granted. Witnesses, suspects, and detectives take up the story in turn. The bemused butler, the love-stricken housemaid, the enigmatic detective Sergeant Cuff, the drug-addicted scientist, each speculate on the mystery as Collins weaves their narratives into a masterpiece of construction and suspense. But The Moonstone is more than just a detective novel or a murder mystery and this new edition features a fascinating introduction by John Sutherland which discusses the themes of Imperialism, Sensationalism and Mesmerism and the way in which they operate in the novel and within its cultural context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. [21st Century Solicitor: How to Make a Real Impact As a Junior Commercial Lawyer, Steve Weiner](#) , 2011, 1841133558, 9781841133553. This candid, no-nonsense guide to excelling as a commercial lawyer offers a frank and forthright look at the modern solicitors' profession. The book advises those who seek to make a career out of commercial lawyering, and it goes far beyond the common-sense guidance found in other current texts. This is an honest and up-to-the-minute look at how to succeed early on in the profession, written by a UK lawyer who offers a unique combination of experience as a practitioner, trainer, and law firm voyeur. 21st-Century Solicitor takes into account the vast changes that the profession has undergone during the past few years. No longer is success in the law dependent on technical aptitude alone. While good solicitors undoubtedly have to be able to understand and apply the law, to achieve success they must also master a range of what used to be called 'soft skills.' Taking this into account, the book explores every facet of what makes a modern, successful solicitor, concentrating in particular on personal branding and recognizing the importance of self-awareness when working in a law firm. Combining humor with pragmatism, it surfs lightly through theory, concentrating on practical and easily accessible hints and tips for young solicitors wanting to make a positive lasting impression from day one.

[In Over Our Heads: The Mental Demands of Modern Life, Robert Kegan](#) , 1995, 0674445880, 9780674445888. If

contemporary culture were a school, with all the tasks and expectations meted out by modern life as its curriculum, would anyone graduate? In the spirit of a sympathetic teacher, Robert Kegan guides us through this tricky curriculum, assessing the fit between its complex demands and our mental capacities, and showing what happens when we find ourselves, as we so often do, in over our heads. In this dazzling intellectual tour, he completely reintroduces us to the psychological landscape of our private and public lives. A decade ago in *The Evolving Self*, Kegan presented a dynamic view of the development of human consciousness. Here he applies this widely acclaimed theory to the mental complexity of adulthood. As parents and partners, employees and bosses, citizens and leaders, we constantly confront a bewildering array of expectations, prescriptions, claims, and demands, as well as an equally confusing assortment of expert opinions that tell us what each of these roles entails. Surveying the disparate expert "literatures," which normally take no account of each other, Kegan brings them together to reveal, for the first time, what these many demands have in common. Our frequent frustration in trying to meet these complex and often conflicting claims results, he shows us, from a mismatch between the way we ordinarily know the world and the way we are unwittingly expected to understand it. *In Over Our Heads* provides us entirely fresh perspectives on a number of cultural controversies—the "abstinence vs. safe sex" debate, the diversity movement, communication across genders, the meaning of postmodernism. What emerges in these pages is a theory of evolving ways of knowing that allows us to view adult development much as we view child development, as an open-ended process born of the dynamic interaction of cultural demands and emerging mental capabilities. If our culture is to be a good "school," as Kegan suggests, it must offer, along with a challenging curriculum, the guidance and support that we clearly need to master this course—a need that this lucid and richly argued book begins to meet.

[Quran: A Monotheist Translation, The Monotheist Group](#) , 2011, 0979671523, 9780979671524. Over the course of centuries, Islam has undergone a process of sub-categorization into numerous denominations. As such, nearly all translators have belonged to one school of thought or another, allowing the influence of such denomination(s) to come across in their interpretation of specific words or verses, and how they choose to translate them. The Qur'an: A Monotheist Translation is an attempt to be free from the influences of sectarianism, and gives the reader a genuine and honest viewpoint of Monotheism's Holy Book by translating it the way it always deserved to be translated. The Qur'an: A Monotheist Translation is the result of a group effort by people who do not belong to any denomination, and for the first time in many centuries, are simply proud to call themselves 'Muslims' as God had named us centuries ago. The Qur'an: A Monotheist Translation is unique in the fact that it uses neither footnotes nor author comments, letting the text speak for itself and delivering to the reader as close a rendition of the pure message of the Qur'an as physically possible.

[Bobby Fischer Goes to War: How the Soviets Lost the Most Extraordinary Chess Match of All Time, David Edmonds, John Eidinow](#) , 2011, 0062039245, 9780062039248. In the summer of 1972, with a presidential crisis stirring in the United States and the cold war at a pivotal point, two menthe Soviet world chess champion Boris Spassky and his American challenger Bobby Fischermet in the most notorious chess match of all time. Their showdown in Reykjavik, Iceland, held the world spellbound for two months with reports of psychological warfare, ultimatums, political intrigue, cliffhangers, and farce to rival a Marx Brothers film. Thirty years later, David Edmonds and John Eidinow, authors of the national bestseller Wittgensteins Poker, have set out to reexamine the story we recollect as the quintessential cold war clash between a lone American star and the Soviet chess machinea machine that had delivered the world title to the Kremlin

for decades. Drawing upon unpublished Soviet and U.S. records, the authors reconstruct the full and incredible saga, one far more poignant and layered than hitherto believed. Against the backdrop of superpower politics, the authors recount the careers and personalities of Boris Spassky, the product of Stalins imperium, and Bobby Fischer, a child of post-World War II America, an era of economic boom at home and communist containment abroad. The two men had nothing in common but their gift for chess, and the disparity of their outlook and values conditioned the struggle over the board. Then there was the match itself, which produced both creative masterpieces and some of the most improbable gaffes in chess history. And finally, there was the dramatic and protracted off-the-board battle in corridors and foyers, in back rooms and hotel suites, in Moscow offices and in the White House. The authors chronicle how Fischer, a manipulative, dysfunctional genius, risked all to seize control of the contest as the organizers maneuvered frantically to save it under the eyes of the worlds press. They can now tell the inside story of Moscows response, and the bitter tensions within the Soviet camp as the anxious and frustrated apparatchiks strove to prop up Boris Spassky, the most un-Soviet of their champions fun-loving, sensitive, and a free spirit. Edmonds and Eidinow follow this careering, behind-the-scenes confrontation to its climax: a clash that displayed the cultural differences between the dynamic, media-savvy representatives of the West and the baffled, impotent Soviets. Try as they might, even the KGB couldnt help. A mesmerizing narrative of brilliance and triumph, hubris and despair, *Bobby Fischer Goes to War* is a biting deconstruction of the Bobby Fischer myth, a nuanced study on the art of brinkmanship, and a revelatory cold war tragicomedy.

[A World Torn Asunder: The Life and Triumph of Constantin C. Giurescu, Marina Giurescu](#) , 2013, 1936332760, 9781936332762. Constantin C. Giurescu was Romania's leading historian and author of the seminal *The History of the Romanian People*. His granddaughter's fascinating story of this remarkable man and his family follows their struggles in war-torn Romania from 1900 to the fall of the Soviet Union. An enlightened society is dismantled with the 1946 Communist takeover of Romania, and Constantin is confined to the notorious Sighet penitentiary. Drawing on her grandfather's prison diary (which was put in a glass jar, buried in a yard, then smuggled out of the country by Dr. Paul E. Michelson who does the FOREWORD for this book), private letters and her own research, Dr. Giurescu writes of the legacy from the turn of the century to the fall of Communism. We see the rise of modern Romania, the misery of World War I, the blossoming of its culture between the wars, and then the sellout of Eastern Europe to Russia after World War II. In this sweeping account, we see not only its effects socially and culturally, but the triumph in its wake: a man and his people who reclaim better lives for themselves, and in the process, teach us a lesson in endurance, patience, and will not only to survive, but to thrive.

[Under the Shadow, Gilbert Sorrentino](#) , 1993, 0916583937, 9780916583934. Under the Shadow takes the form of fifty-nine brief sketches with simple nouns as titles. These exquisite vignettes take place on a plane at once surreal, abstract, and ominous, describing a set of people and incidents derived largely from fragments of conversation and gossip gathered here and there. They are reminiscent of Raymond Roussel's characters amid his inimitable ersatz pastorals, with tableaux both innocent and grotesque. There is something ambiguous about these passages, something deliberately closed and dreamlike. Many of them read like primal scenes of private pathologies; others are memories that, many years later, retain their power to haunt.

[Jubilee on Wall Street: An Optimistic Look at the Global Financial Crash, David Knox Barker](#) , 2009, 0982528310, 9780982528310. David Knox Barker's Jubilee on Wall Street accurately predicted the events that have led to our current global financial and economic crisis—the deflationary debt collapse, crashing stock markets, the international banking disaster, political trends, and the crisis of capitalism. With his latest edition, Jubilee on Wall Street: An Optimistic Look at the Global Financial Crash, Barker provides an examination of economic and financial history and proves that the long wave theory, and its inherent seasons, is the most accurate forecaster we have—the roots of which date as far back as the insightful laws of Leviticus and the Year of Jubilee. Barker shows how we have the opportunity to create a better future for all, not based on global socialism or the creation of a redistributive world empire where the middle class bears all the burdens, but The Great Republic from which can rise a new form of genuine and lasting international free-market capitalism.

[Stability of Structures: Elastic, Inelastic, Fracture and Damage Theories, Z. P. Baant, Luigi Cedolin](#) , 2010, 9814317039, 9789814317030. A crucial element of structural and continuum mechanics, stability theory has limitless applications in civil, mechanical, aerospace, naval and nuclear engineering. This text of unparalleled scope presents a comprehensive exposition of the principles and applications of stability analysis. It has been proven as a text for introductory courses and various advanced courses for graduate students. It is also prized as an exhaustive reference for engineers and researchers. The authors' focus on understanding of the basic principles rather than excessive detailed solutions, and their treatment of each subject proceed from simple examples to general concepts and rigorous formulations. All the results are derived using as simple mathematics as possible. Numerous examples are given and 700 exercise problems help in attaining a firm grasp of this central aspect of solid mechanics. The book is an unabridged republication of the 1991 edition by Oxford University Press and the 2003 edition by Dover, updated with 18 pages of end notes.

[A Nuisance of Cats: The Curious Collective, H. C. Fargot](#) , 2010, 0982515014, 9780982515013. Curiosity didn't kill the cats, it only made them stronger - at least, so it appears in HC Fargot's A Nuisance of Cats, a brilliantly illustrated A-to-Z view of the curious nature of felines. Whether confronted by christmas trees, wheels of brie, an under-sized box or koo-koo clocks, HC Fargot's fur-loined friends manage to navigate an alphabetic gamut of curiosities with the utmost purrfection. Illustrating The Curious Collective and HC Fargot's view, self-confessed cat-lover Wrolf Bronesby provides a highly colorful and amusing cats' eyeview on feline sense and sensibility - or lack thereof. The term 'nuisance of cats' dates back several centuries, to an age when cats in number were viewed less than favorably. Other unfavorable feline groupings of that time include: a destruction of wild cats, a clutter or pounce of house cats, and the most reviled, a litter of kittens. In contrast to that historical view, A Nuisance of Cats places a positive and colorful spin on the collectively curious nature of cats, and so sets free the inner kitten in all of us.

[The Philosophy of Enchantment: Studies in Folktale, Cultural Criticism, and Anthropology, R. G. Collingwood](#) , 2005, 0199262535, 9780199262533. This is the long-awaited publication of a set of writings by the British philosopher, historian, and archaeologist R.G. Collingwood on critical, anthropological, and cultural themes only hinted at in his previously available work. At the centre of the book are six chapters of a study of folktale and magic, composed by Collingwood in the mid-1930s and intended for development into a book. Here Collingwood applies the principles of his philosophy of history to problems in the long-term evolution of human society and culture. This is preceded, in Part I, by a

range of contextualizing material on such topics as the relations between music and poetry, the nature of language, the value of Jane Austen's novels, the philosophy of art, and the relations between aesthetic theory and artistic practice. Part III of the volume consists of two essays, one on the relationship between art and mechanized civilization, and the second, written in 1931, on the collapse of human values and civilization leading up to the catastrophe of armed conflict. These offer a devastating analysis of the consequences that attend the desertion of liberal principles, indeed of all politics as such, in the ultimate self-annihilation of military conquest. The volume opens with three substantial introductory essays by the editors, authorities in the fields of critical and literary history, social and cultural anthropology, and the philosophy of history and the history of ideas; they provide their explanatory and contextual notes to guide the reader through the texts. The Philosophy of Enchantment brings hitherto unrecognized areas of Collingwood's achievement to light, and demonstrates the broad range of Collingwood's intellectual engagements, their integration, and their relevance to current areas of debate in the fields of philosophy, cultural studies, social and literary history, and anthropology.

[En Route Vers la Francophonie, Irene Bernard](#) , 2005, 0195419723, 9780195419726. This unit serves as a means for students to explore various aspects of Francophone cultures. To demonstrate the diversity that exists in the Francophone world, countries have been chosen from five different continents. Students examine various cultural realities by using authentic documents, such as French rail tickets. Students discover the variety of festivals, markets, celebrities, linguistic variations, and elements of daily life from specific countries. Students are encouraged to reflect upon the similarities and differences between life in other countries and life in Canada. Final Task: Groups of six students participate in a board game that features Francophone countries around the world. Teams of two will make their way around the board by correctly answering a question on Francophone culture on each space. These questions are developed by the students themselves and will focus on the many cultural elements found in each country. Age appropriate, full-colour and motivating themes, containing opportunities for speaking, listening, reading, and writing, presented in a variety of formats. Also included are models of final tasks, video clips, learning strategy boxes, and examination of grammar in Quete-language boxes. A mini reference hand-book "Mini-guide", located at the back of the student book, includes literacy strategies, additional information related to the theme, and a summary of all language structures presented in the unit.
