[Come Sundown, Mike Blakely](#) , 2007, 0812580265, 9780812580266. Reluctant hero, Honore Greenwood, has a knack for embroiling himself in the most violent conflicts of the Southern Plains. Known as Plenty Man to the Comanches, Honore serves as ransom negotiator for captives among the Indians. As if his life wasn't in danger enough, Honore has offered his services to the New Mexico Volunteers in the Civil War. But as Honore's luck would have it, he's in the same unit as Luther Sheffield, a man whose grudge against Greenwood knows no boundaries, even though they are fighting on the same side. Leaving behind his beautiful Arapaho bride, Honore rides out, joining his legendary friend, Kit Carson, as a scout. But he is swept into more action than he bargained for--heavy combat in the battles of Val Verde Ford and Glorieta Pass plus Indian attacks--all the while watching over his shoulder for the ruthless Luther Sheffield. Worried that he may soon be ordered to take up arms against his own adoptive tribe, the Comanches, Honore resigns as Kit's scout to return to his tribe. But Honore's halcyon days among the Indians cannot last forever, and he knows that eventually his old cavalry unit will come to attack his village. Torn between a nation on the rise and his own adoptive culture, Plenty Man is forced to lead the fight for Comanche freedom against his old friend, the great Kit Carson, in a battle at a remote place in the Texas Panhandle called Adobe Walls. But in the end, it becomes difficult to tell enemy from ally, and Plenty Man knows his loyalty to the Indians may cost him everything - his beautiful wife, his freedom to return to white civilization, his friendship with Kit, and even his very life.

[Tales from Shakespeare, Charles Lamb, Mary Lamb](#) , 1988, 0140350888, 9780140350883. Celebrated prose retellings of Shakespeare's plays Charles and Mary Lamb have delighted generations of adults as well as children with their famed prose renderings of Shakespeare's originals. Bringing the plays to life in a form that encourages readers to enjoy and explore, "Tales from Shakespeare" provides an entertaining and informative introduction to the great works while retaining much of Shakespeare's lyricism, phrasing, and rhythm. It is a captivating work of Romantic storytelling as well as the original literary homage to the Bard.

[Reading Reflex: The Foolproof Phono-Graphix Method for Teaching Your Child to Read, Carmen McGuinness, Geoffrey McGuinness](#) , 1999, 0684853671, 9780684853673. HELP YOUR CHILD UNLOCK THE SOUND-PICTURE CODE Reading is the single most important skill for any child to develop. And the key to learning how to read effectively is recognizing the sounds that letters and words represent. With the help of the revolutionary system known as Phono-Graphix, you and your child can discover the sound-picture code that is the foundation of the written English language. An effective and easy-to-understand approach, Phono-Graphix enables you to teach your child to read in one-tenth the time of phonics with a 100 percent success rate. In just eleven weeks, you can bring your kindergartner to first-grade-level reading -- even learning-disabled children can reach grade level or higher in just twelve weeks. Reading Reflex provides you with: * Simple diagnostic tests to determine your child's reading level, and a Literacy Growth Chart so you'll know what goals to establish * Detailed instructions and illustrations to help your child develop strong, consistent reading skills and to correct ineffective reading strategies such as part-word reading and memorizing * Fun and easy-to-follow exercises, hands-on materials, worksheets, stories, and games that you and your child can do together * Enjoyable lessons that are carefully constructed to meet the interests and capabilities of children of all ages

Now that she's 14, she had wanted to stay home in Canada, but instead she is helping her parents set up their clinic and looking forward to hanging out with her Dominican friend Aracely. When fourteen-year-old Aracely makes a shocking announcement she is engaged to be married Dian struggles to accept that Aracely has the right to choose her own destiny, even if it is very different from what Dian would choose for her.

[Paroxysm: Love, Muder and Justice in Post-Civil War Washington, DC, Gerald Otis](#) , 2013, 0983594430, 9780983594437.

As Washington authorities search for the assassins of President Lincoln, Mary Harris awaits trial for having murdered Adoniram Judson Burroughs, the man who had abandoned her and married another. A clever Irish farm girl from Iowa, Mary capitalizes on the sympathy of many influential visitors to pressure Joseph H. Bradley, a prominent Washington attorney, to take her case. Bradley assembles a distinguished group of lawyers and politicians who defend Mary with great skill and cunning, arguing that the accused suffers from "paroxysmal insanity." At the same time, they imply that she is but the instrument of divine retribution for the deceased's own depravity and the complicity of his famous brother, a minister and university president. The trial receives nationwide attention. Lincoln's wife - herself mentally troubled - sends Mary a bouquet of flowers while she is confined in her jail cell. Lawyers jockey to frame the debate, the defense presenting some of the most eloquent and moving speeches ever heard in an American courtroom while the prosecution presents incisive arguments that cut to the heart of the legal issues. Thinking judgment battles feeling judgment for the minds of the jurors. They return with their verdict after just five minutes of deliberation. But public sentiment reverses course when newspapers and the national psychiatric association criticize the decisions made by the jury, the judge, and the lawyers involved in the case. Defendant and counsel become close companions as she struggles with her affliction while he defends one of the Lincoln conspirators. Based on a true story, many historical facts in the case are uncovered which were not available to the jury or the attorneys involved. The author presents in dramatic form what he believes to be the true story of this amazing crime and the surprising romance which emerged from it.

[Possession and Ownership, Alexandra Y. Aikhenvald, R. M. W. Dixon](#) , 2013, 0199660220, 9780199660223. *Possession and Ownership* brings together linguists and anthropologists in a series of cross-linguistic explorations of expressions used to denote possession and ownership, concepts central to most if not all the varied cultures and ideologies of humankind. Possessive noun phrases can be broadly divided into three categories - ownership of property, whole-part relations (such as body and plant parts), and blood and affinal kinship relations. As Professor Aikhenvald shows in her extensive opening essay, the same possessive noun or pronoun phrase is used in English and in many other Indo-European languages to express possession of all three kinds - as in "Ann and her husband Henry live in the castle Henry's father built with his own hands" - but that this is by no means the case in all languages. In some, for example, the grammar expresses the inalienability of consanguineal kinship and sometimes also of sacred or treasured objects. Furthermore the degree to which possession and ownership are conceived as the same (when possession is 100% of the law) differs from one society to another, and this may be reflected in their linguistic expression. Like others in the series this pioneering book will be welcomed equally by linguists and anthropologists.

[Satan, Cantor, And Infinity And Other Mind-bogglin, Raymond M. Smullyan](#) , 2012, 0307819825, 9780307819826. More than two hundred new and challenging logic puzzles the simplest brainteaser to the most complex paradoxes in contemporary mathematical thinking from our topmost puzzlemaster (the most entertaining logician who ever lived, Martin Gardner has called him). Our guide to the puzzles is the Sorcerer, who resides on the Island of Knights and Knaves, where knights always tell the truth and knaves always lie, and he introduces us to the amazing magic logic that enables to discover which inhabitants are which. Then, in a picaresque adventure in logic, he takes us to the planet Og, to the Island of Partial Silence, and to a land where metallic robots wearing strings of capital letters are noisily duplicating and dismantling themselves and others. The readers job is to figure out how it all works. Finally, we accompany the Sorcerer on an alluring tour of Infinity which includes George Cantors amazing mathematical insights. The tour (and the

book) ends with Satan devising a diabolical puzzle for one of Cantor's prize students who outwits him! In sum: a devilish magician's cornucopia of puzzles a delight for every age and level of ability.

[Electromagnetic Waves, David H. Staelin](#) , 1994, 0132258714, 9780132258715. As educators, David H. Staelin, Ann W. Morgenthaler, and Jin Au Kong saw a need for a book presenting electromagnetic theory and applications in a clear, compact, and "user-friendly" manner relying only on basic physics and mathematics. The result is *Electromagnetic Waves*. This book provides thorough explanations and relevant, modern examples so that students and practicing engineers will find it a useful reference as well as a tool for self-teaching. It emphasizes basic concepts from both a physical and mathematical perspective. Successive chapters move from simple wave propagation in unbounded free space to the complexities of resonator and antenna design, revisiting basic concepts as each new topic is introduced. *Electromagnetic Waves* also makes connections between electromagnetics and simple equivalent circuit models wherever possible. The book exposes its readers to a considerable array of mathematical tools as well, ranging from orthogonal function expansions to perturbation techniques and duality, but physical intuition and approximate problem-solving techniques are also emphasized.

[Auto/biographical Reflections, Or, How who We are Affects what We Know, Gayle Letherby](#) , 2005, 0954066456, 9780954066451.

[A Night in Acadie, Kate Chopin](#) , 2009, 1605018244, 9781605018249. He was a robust young fellow with good, strong features and a somewhat determined expression despite his vacillations in the choice of a wife. He was dressed rather carefully in navy-blue store-clothes that fitted well because anything would have fitted Telegrave;sphore. He had been freshly shaved and trimmed and carried an umbrella. He wore a little tilted over one eye a straw hat in preference to the conventional gray felt; for no other reason than that his uncle Telegrave;sphore would have worn a felt, and a battered one at that. His whole conduct of life had been planned on lines in direct contradistinction to those of his uncle Telegrave;sphore, whom he was thought in youth to greatly resemble. The elder Telegrave;sphore could not read or write, therefore the younger had made it the object of his existence to acquire these accomplishments. The uncle pursued the avocations of hunting, fishing, and moss-picking; employments which the nephew held in detestation. And as for carrying an umbrella, Nonc Telegrave;sphore would have walked the length of the parish in a deluge before he would have so much thought of one. In short, Telegrave;sphore, by advisedly shaping his course in direct opposition to that of his uncle, managed to lead a rather orderly, industrious, and respectable existence. - Excerpted from *A Night in Acadie*

[Times Tables Made Easy, Joe Harris, Hedi Hunter](#) , 2009, 0756652197, 9780756652197. Times Tables Made Easy is not a workbook. It's a full-color reference book, packed with hints, shortcuts, and secret strategies for learning your times tables. It includes time-tested, teacher-approved methods such as doubling (to master the 4x table, just double the answers from the 2x table) and portioning (to figure out 6 x 12, break the 12 into 10 and 2). Illustrated throughout with helpful examples and funky stick-figure helpers, this fantastic guide makes learning times tables easy and fun.

[Managing Human Resources in the Human Services: Supervisory Challenges, Felice Davidson Perlmutter, Darlyne Bailey, F. Ellen Netting](#) , 2001, 0195120272, 9780195120271. Managerial supervisors are those persons who supervise direct service staff, who oversee human service programs, and who perform macro practice tasks in their agencies on a daily

basis. They are not clinical supervisors who oversee the treatment aspects of direct practice; nor are they administrators at the executive level. *Managing Human Resources in the Human Services* is the first book to address the challenges facing the often under-appreciated managerial supervisors who oversee and provide a crucial organizational structure for work that occurs in human service across the country. According to authors Perlmutter, Bailey, and Netting the successful managerial supervisor must be able to create and develop the organizational culture in which client-centered practice can occur, balance the demands of administrative leadership with those of workers who see clients, keep a client-centered focus amid the paradoxes that arise in the process, and maintain a healthy professional presence. *Managing Human Resources in the Human Service* provides valuable guidance to students of administration and to practitioners on the many difficult issues that arise for the managerial supervisor. Special Features DT Identifies the paradoxical nature of today's human service environment DT Provides practical, readable chapters with immediate applications DT Focuses on how to be an effective supervisor and encourages independent thinking DT Includes an extensive reference list for additional reading DT Written by authors with years of experience in multiple settings

[What Do I Do When Teenagers Deal with Death?, , Steven Gerali](#) , 2010, 0310651891, 9780310651895. Nobody can prepare you for all the issues you'll encounter when it comes to teenagers. Whether you work with teens or are trying to parent them, chances are that you've already run into a few things that you felt completely unprepared or ill equipped to deal with. You're not alone! In this hard-hitting series of books, you'll find answers to the difficult questions you face when challenges arise. In *What Do I Do When Teenagers Deal with Death?*, Dr. Steven Gerali will help you: Understand adolescent death, whether accidental, illness-related, homicide or suicide Grasp the stages of grief and what they look like in adolescents Explore how theology informs the issue of death Delve into questions that demand theological consideration, such as, Why does God allow tragedy? or Is the dead person in heaven? Get tips for practical ways to help when a youth group experiences death, including helping the grieving family and the surviving teenagers Deal with your own personal grief in the situation With this practical book, you'll have what you need to offer help and hope to hurting teens and their families, and you'll find plenty of resources for help beyond what you're able to give.

[The Lie: Evolution \(25th Anniversary Edition: Revised and Expanded, Ken Ham](#) , 2012, 0890516863, 9780890516867. In 1987 Ken Ham wrote what would become a prophetic warning to the Church about the destructive effects of compromise with evolutionary ideas, and how this compromise undermines Scriptural authority and erodes Christian confidence in the infallibility of God's Word. Today we have Christians not only confused when it comes to Genesis and age of the earth, but even the reality of Hell, Adam as a real person, and Christ's own words about creation, marriage and more are being debated in the pulpits across the world. In this special revised and updated edition, Ken Ham again takes the lead in pointing out the looming precipice the Church is rushing towards, how evolution and/or millions of years, is driving away young people of the faith, and the biblical solution that can change it!

[To Hell and Back, Audie Murphy](#) , 2002, 0805070869, 9780805070866. The classic bestselling war memoir by the most decorated American soldier in World War II, back in print in a trade paperbackOriginally published in 1949, To Hell and Back was a smash bestseller for fourteen weeks and later became a major motion picture starring Audie Murphy as himself. More than fifty years later, this classic wartime memoir is just as gripping as it was then. Desperate to see action but rejected by both the marines and paratroopers because he was too short, Murphy eventually found a home with the infantry. He fought through campaigns in Sicily, Italy, France, and Germany. Although still under twenty-one years old on V-E Day, he was credited with having killed, captured, or wounded 240 Germans. He emerged from the war as America's most decorated soldier, having received twenty-one medals, including our highest military decoration, the Congressional Medal of Honor. To Hell and Back is a powerfully real portrayal of American GI's at war.

[Handbags and Gladrags, Maggie Alderson](#) , 2004, 0141009047, 9780141009049. Emily Pointer would rather jog naked through Harvey Nichols' beauty hall than be seen with last seasons handbag. A fashion stylist with Chic magazine, Emily is a natural blonde, a effortless size 10, travels the world for work and gets 30% discount at Prada. As far as she's concerned, life is perfect. So surely a night of wild sex with a hunky Australian photographer during the fashion show season in Milan will be just another fabulous experience to add to the package? Instead, Emily starts to discover that life can be messy- and the designer clothes in your closet can be squeezed out by the skeletons lurking in there too. From the bestselling author of Pants on Fire and a former magazine editor herself, comes the delicious tale of a woman who was kidding herself that another Birkin bag was all she needed to achieve fulfilment.

[The Sacred Paths: Understanding the Religions of the World, Theodore M. Ludwig](#) , 1996, . This book combines study of the dynamic historical development of each religious tradition with a comparative thematic structure. In this way, the book helps readers to explore each of the major religions as a unique and integral system of meaning and life. At the same time, readers are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions. Covering the religions arising from India, China, Japan, and the Mediterranean world, this book introduces the key dimensions of religious experience, outlining the basic human concerns that give rise to religious experience, such as origin and identity, ultimate reality, human nature, and the good life. For anyone interested in exploring the origins and development of the diverse religions of the world.

[Understanding IBM SOA Foundation Suite: Learning Visually with Examples, Jane Fung, Laura Chan, Vivian Mak](#) , 2009, 0138150400, 9780138150402. Understanding IBM SOA Foundation Suite Learning Visually with Examples Master the IBM SOA Foundation Through 26 Hands-On, Start-to-Finish Tutorials The IBM SOA Foundation Suite is an integrated, open-standards-based set of software, best practices, and patterns that help you systematically maximize the business value of SOA. Understanding IBM SOA Foundation Suite brings together 26 hands-on tutorials that will help you master IBM SOA Foundation and apply it successfully in your organization. Four of IBM's SOA practitioners identify core IBM SOA

Foundation components and usage scenarios, and walk you step-by-step through implementing them in real-world environments. This book's self-contained tutorials are presented both in print and through video on the accompanying CD-ROM, showing you the results of every action immediately, whether you're running the software or not. Using these tutorials, technical professionals can quickly move up the learning curve, discovering how each product works, and how they fit together. You'll gain the big picture overview you need to make intelligent up-front decisions, and all the hands-on practice you need to prototype working solutions. Coverage includes Designing services with UML, sharing designs via HTML files, and transforming designs to and from Java with IBM Rational Software Architect Creating services with IBM Rational Application Developer, and deploying them with IBM WebSphere Application Server Implementing effective service governance with IBM WebSphere Service Registry and Repository Integrating existing services into new business processes with IBM WebSphere Integration Developer and IBM WebSphere Process Server Connecting services with IBM WebSphere Message Broker Developing, testing, deploying, and managing portlets with IBM WebSphere Portlet Factory and IBM WebSphere Portal Systematically securing services with IBM Tivoli Federated Identity Manager

The story begins in the year 1889 where lovely Andrea Marsh lives on a plantation with her father in Savannah, Georgia. A stormy night sends Andrea on a whirlwind ride over 100 years into the future. Unfamiliar with her surroundings, Andrea finds herself in the arms of a man who bears a striking resemblance to the very man whom she has fled. Andrea's trip to the future sends her on a journey to a world full of fascination and wonder. What she finds there exceeds even her wildest dreams. Her new surroundings catapult her into a surprising friendship with a young, vibrant girl and into a relationship that blossoms into a timeless love.

[Zero Dark Thirty: The Shooting Script, Mark Boal](#) , 2013, 0062276344, 9780062276346. The hunt for Osama bin Laden preoccupied the world and two American presidential administrations for more than a decade. But in the end, it took a small, dedicated team of CIA operatives to track him down. Every aspect of their mission was shrouded in secrecy. Though some of the details have since been made public, many of the most significant parts of the intelligence operation including the central role played by that team are brought to the screen for the first time in a nuanced and gripping new film by the Oscar-winning creative duo of Kathryn Bigelow and Mark Boal, starring Jessica Chastain, Jason Clarke, Joel Edgerton, Jennifer Ehle, Mark Strong, Kyle Chandler, and Edgar Ramirez. The Newmarket Shooting Script Book includes: Introduction by Kathryn Bigelow Complete shooting script Q&A with Mark Boal by Rob Feld Production notes Storyboards Complete cast and crew credits

[The Insomnia Answer: A Personalized Program for Identifying and Overcoming the Three Types of Insomnia, Paul Glovinsky, Art Spielman](#) , 2006, 1440678022, 9781440678028. The 50 million Americans who suffer from insomnia need - and want - this answer now. There is no "one size fits all" solution to insomnia because, as this revolutionary book illustrates, there are three types that affect those who suffer from it: difficulty falling asleep, difficulty staying asleep, and broken sleep. And each of them requires a specialized treatment program. Now, leading experts in the evaluation and treatment of insomnia deliver personalized programs that provide relief for solve such persistent sleep problems as: Sunday night insomnia Anxiety caused by the "dread of bedtime" Waking before the alarm Awakening with a sudden start or jolt Scattered sleep patterns Based on cutting-edge knowledge of circadian rhythms developed in research labs for decades, this is the first sleep program that helps readers to self-diagnose and treat their particular type of insomnia.

[An Introduction to LTE: LTE, LTE-Advanced, SAE and 4G Mobile Communications, Christopher Cox](#) , 2012, 1119942810, 9781119942818. An Introduction to LTE explains the technology used by 3GPP Long Term Evolution. The book covers the whole of LTE, both the techniques used for radio communication between the base station and the mobile phone, and the techniques used for signalling communication and data transport in the evolved packet core. It avoids unnecessary detail, focussing instead on conveying a sound understanding of the entire system. The book is aimed at mobile telecommunication professionals, who want to understand what LTE is and how it works. It is invaluable for engineers who are working on LTE, notably those who are transferring from other technologies such as UMTS and cdma2000, those who are experts in one part of LTE but who want to understand the system as a whole, and those who are new to mobile telecommunications altogether. It is also relevant to those working in non technical roles, such as project managers, marketing executives and intellectual property consultants. On completing the book, the reader will have a clear understanding of LTE, and will be able to tackle the more specialised books and the 3GPP specifications with confidence. Key features -Covers the latest developments in release 10 of the 3GPP specifications, including the new capabilities of LTE-Advanced Includes references to individual sections of the 3GPP specifications, to help readers understand the principles of each topic before going to the specifications for more detailed information Requires no previous knowledge of mobile telecommunications, or of the mathematical techniques that LTE uses for radio transmission and reception

[The kindness of strangers: a Skip Langdon novel, Julie Smith](#) , 1996, 0449909379, 9780449909379. Julie Smith's New Orleans is not a city, it's a world--exotic, sweetly perverse, dangerously seductive. Nowhere else does politics make stranger bedfellows; and the approaching mayoral election is stranger than most, pitting the usual thugs and vipers against a seeming breath of fresh air--Errol Jacomine, a liberal-minded, civic-spirited preacher. The only problem is, in the opinion of Police Detective Skip Langdon, Jacomine is a psychopath and dangerous as hell. On leave of absence from the police force, Skip becomes obsessed with exposing the frightening figure beneath Jacomine's good-guy image. Immediately, an anonymous army of spies and hatchet men go to work on her, and Skip begins to understand that in

opposing Jacomine, she is risking not only her livelihood but her sanity and possibly the lives of people she loves. Skip's instincts seem confirmed when the only witness to Jacomine's crimes turns up dead. Skip thinks there are more bodies buried in Jacomine's past, but it's the present she's worried about. And protecting one of her own against the preacher's evil sends Skip to the dark center of bayou country, where even the elements are her enemy. A deadly chase through the swamp during a fierce hurricane forces Skip to rely not on the kindness of strangers but on her own inner strength to survive. No other novelist so brilliantly sustains the mood of ominous tension or raises the heat index as Julie Smith does in her Skip Langdon novels. Of them all, *The Kindness of Strangers* tears most fiercely at the heart.

[The exotic garden: designing with tropical plants in any climate, Richard R. Iversen](#) , 1999, 1561582328, 9781561582327. The idea of mixing tropical plants with perennials and hardy annuals has been around since Victorian times. It is now enjoying a newfound popularity because tropical plants are more widely available. Gardeners who want to bring the lush beauty of tropics to an existing garden, or who want to create an authentic vintage garden, will delight in *The Exotic Garden*. Although tropics are novelties in temperate climates, they can successfully be grown anywhere. Iversen shows how tropics can easily be used as annuals to perk up a garden with color during non-blooming seasons. The author's expert advice shows how to grow tropics in beds, borders, and containers, select and combine plants, and use the tools of color, texture, and form. Plus, there are special overwintering tips and a full color glossary of more than 100 plants.

[Listening Through the Noise: The Aesthetics of Experimental Electronic Music, Joanna Demers](#) , 2010, 0195387651, 9780195387650. Contemporary electronic music has splintered into a dizzying assortment of genres and subgenres, communities and subcultures. Given the ideological differences among academic, popular and avant-garde electronic musicians, is it possible to derive an aesthetic theory that accounts for this variety? And is there even a place for aesthetics in twenty-first-century culture? Listening through the Noise explores genres ranging from techno to electroacoustic music, from glitch to drone music, and from dub to drones, and maintains that culturally and historically informed aesthetic theory is not only possible but indispensable for understanding electronic music. The abilities of electronic music to use preexisting sounds and to create new sounds are widely known. Author Joanna Demers proceeds from this starting point to consider how electronic music is changing the way we listen not only to music, but to sound itself. The common trait among all variants of recent experimental electronic music is a concern with whether sound, in itself, bears meaning. The use in recent works of previously undesirable materials like noise, field recordings, and extremely quiet sounds has contributed to electronic music's destruction of the "musical frame," the conventions that

used to set apart music from the outside world. In the void created by the disappearance of the musical frame, different philosophies for listening have emerged. Some electronic music genres insist upon the inscrutability and abstraction of sound. Others maintain that sound functions as a sign pointing to concepts or places beyond the work. But all share an approach towards listening that departs fundamentally from the expectations that have governed music listening in the West for the previous five centuries.

[Death by Suicidal Means: The Killing of Wardell Burge, Walter P. Henderson](#) , 1994, 0963808605, 9780963808608.

DEATH BY SUICIDAL MEANS focuses on the barbaric use of North Carolina's infamous outlawry statute. The law, born of racism, allowed a sheriff's posse in 1965 to lynch a mentally deranged black man. Based on fact, the book reveals how Wardell Burge died when the house where he lived with his elderly mother burned to the ground in a confrontation with four white lawmen. The sheriff hand picked a coroner's jury which returned a verdict of DEATH BY SUICIDAL MEANS. The cover displays in vibrant color a computer enhanced image of Wardell Burge preaching to his church congregation while brandishing gun & Bible. DEATH BY SUICIDAL MEANS is filled with the political intrigue of corrupt public officials who commit adultery, embezzle public funds & otherwise abuse their public trust to gain greater power. Subsequent to the tragic death of Wardell Burge, outlawry was declared unconstitutional. DEATH BY SUICIDAL MEANS has signaled a call for repeal of outlawry, which remains law. This book is ideal for use in colleges & high schools to illuminate the injustice of racism, police brutality, bigotry, & the barbarity of outlawry. It is recommended & well suited for public, high school, & college libraries. To order, call-fax 919- 448-1113 or write to: Inheritance Press, 101 Henderson La., Trenton, NC 28585. Also available from: Baker & Taylor, & Brodart.

[The Savage Altar, Asa Larsson](#) , 2008, 0141024712, 9780141024714. Innocence will be sacrificed... On the floor of a church in northern Sweden, the body of a man lies ritually mutilated and defiled and in the night sky, the aurora borealis dances as the snow begins to fall. Rebecka Martinsson is heading home to Kiruna, the small town she'd left in disgrace years before. A Stockholm tax lawyer, Rebecka has a good reason to return: her friend Sanna, whose brother has been horrifically murdered in the church of the cult he helped create. Beautiful and fragile, Sanna needs someone like Rebecka to remove the shadow of guilt that is engulfing her, to forestall an ambitious prosecutor, and to confront the rumours circulating in a closed and frightened community. But to help her friend, and to find the real killer of a man she once adored and is now not sure she ever knew, Rebecka must relive the darkness she left behind in Kiruna, delve into a sordid conspiracy of deceit, and confront a killer whose motives are dark and impossible to guess...

[In the Beginning Was the Deed: Realism and Moralism in Political Argument, Bernard Williams](#) , 2009, 140082673X, 9781400826735. Bernard Williams is remembered as one of the most brilliant and original philosophers of the past fifty years. Widely respected as a moral philosopher, Williams began to write about politics in a sustained way in the early 1980s. There followed a stream of articles, lectures, and other major contributions to issues of public concern--all complemented by his many works on ethics, which have important implications for political theory. This new collection of essays, most of them previously unpublished, addresses many of the core subjects of political philosophy: justice, liberty, and equality; the nature and meaning of liberalism; toleration; power and the fear of power; democracy; and the nature of political philosophy itself. A central theme throughout is that political philosophers need to engage more directly with the realities of political life, not simply with the theories of other philosophers. Williams makes this argument in part through a searching examination of where political thinking should originate, to whom it might be addressed, and what it should deliver. Williams had intended to weave these essays into a connected narrative on political philosophy with reflections on his own experience of postwar politics. Sadly he did not live to complete it, but this book brings together many of its components. Geoffrey Hawthorn has arranged the material to resemble as closely as possible Williams's original design and vision. He has provided both an introduction to Williams's political philosophy and a bibliography of his formal and informal writings on politics. Those who know the work of Bernard Williams will find here the familiar hallmarks of his writing--originality, clarity, erudition, and wit. Those who are unfamiliar with, or unconvinced by, a philosophical approach to politics, will find this an engaging introduction. Both will encounter a thoroughly original voice in modern political theory and a searching approach to the shape and direction of liberal political thought in the past thirty-five years.
