

PN5-10DA

FIVE CHANNEL AC SOLID STATE RELAY (SPECIAL)

Type meaning

PN5: [Five channels] - **10**: [10A] - **DA**: [DC-AC (DC input-AC output)]

Features

- Rated current: 10Amps
- Rated voltage: 24-480VAC
- Control voltage: 3-32VDC
- Control current: ≤10mA
- Five I/O channels
- "Ultra low" input current
- Low output off-state leakage current
- Low output on-state voltage drop
- Five separate LED output states
- Standard output RC snubber circuit
- Each channel is independent of other channels, and all channels are freely controllable
