Organizers

Latvian Developers Network

It's all about not being locked in a certain platform or company's culture. LDN is a possibility to share own thoughts, experience and passion for software creation among the whole community.

Agile Latvia

Agile Latvia is a community with a goal to spread information about Agile practices amongst Latvian software development professionals and industry newcomers.

Latvian Oracle User Group

LVOUG is the collective "voice" for Oracle users in Latvia. It serves to protect the interests of the Latvian Oracle community and provides an essential source of information for all Oracle professionals.
