## Foreword

### Approval of Level 3 Training.

The BINDT Approval Panel, which reports to MQ&E (Membership, Qualification and Education Committee) routinely accredits training courses at Level 1 and 2. Courses are approved as meeting specific requirements, (generally defined in terms of an examination syllabus) and the object of the exercise is to ensure that all aspects of the syllabus are addressed within the training course at a suitable level and depth.

Most courses that are accredited will be for training prior to PCN examinations but that need not always be the case. For instance if an ATO has a requirement to train candidates to perform a range of well defined tasks, then a training course could be designed, and subsequently accredited by BINDT as meeting those requirements and would be listed under part 2 of the approval list.

The syllabus is well defined, therefore a training course can be designed to cover those areas of learning. This works well for Level 1 and Level 2 training but it does not work at Level 3.

Level 3 courses need to be well versed in a very broad range of knowledge and the candidate should be familiar with Product Technology, the other four main NDT methods, Procedure Writing and so on.

The way that we address this dilemma is to define three main requirements that training centres must meet if they are to be recognised as providers of Level 3 training:

1. The tutors must be Level 3 Certificated.
2. The training school must have available the defined Essential Reading material.
3. There must be a system in place whereby candidates are assessed on arrival, (or beforehand), in order to identify the gaps in their knowledge. The training course must then be specifically designed to address those areas of weakness.

The course content must be designed as a bespoke product, suited to a particular individual. Any training establishment that meets the three requirements set out above may request that BINDT recognises that they are capable of offering Level 3 training courses and once proven at audit can be listed under part 3 of the approval list but **will not** be included on their certificate of approval.

REF	APP-LIST-NDT

**PART I**  
**Accredited Non-Destructive Testing (NDT) Courses Available**

**Note:** Courses validated as suitable pre-approval training for PCN examinations also broadly satisfy the General Theory and Product Technology requirements of employer-based schemes (e.g. NAS 410, EN 4179 and SNT TC 1A).

Any course offered under a company-based certification scheme must also satisfy the requirements of the employer’s written practice and training programme. It is the employer’s responsibility that any necessary company specific training that would fall outside the validated course syllabus and content is adequately addressed. Condition Monitoring courses are in accordance with ISO18436 and CMGEN.

**All courses listed below are approved as suitable preparation for the corresponding PCN examinations.**

**KEY TO CODES TO DEFINE SCOPE OF APPROVAL**

Numbers in bold type indicate the certification level at which the course(s) are aligned.  
Letter(s) indicate the product sector to which each course is aligned.

CODE	PRODUCT SECTOR
G	GENERAL
W	WELDS
C	CASTINGS
F	FORGINGS/WROUGHT PRODUCTS
A	AEROSPACE
R	RAIL
ISI	IN-SERVICE INSPECTION

CODE	NDT METHOD
RT	Radiographic Testing
RI	Radiographic Interpretation
CRT	Computerised Radiographic Testing
UT	Ultrasonic Testing
MT	Magnetic Particle Testing
PT	Penetrant Testing
ET	Eddy Current Testing
VT	Visual Testing
WI	Weld Inspection
ACFM	Alternating Current Field
ISI UT	UT thickness Measurement + Corrosion Monitoring of steel

CODE	SCOPE OF COMPETENCE
a	X-Ray only
b	Dense Metals only
c	Ultrasonic testing of railway axles
d	Ultrasonic testing of railway axles (solid or hollow)
e	Single frequency Eddy Current Testing of Welds
g	Tube testing
r	Rail
TOFD	Time of Flight Diffraction
PA	Phased Array

**PART 3**

Historically, a number of Approved Training Organisations have offered level 3 training courses. By definition, these courses must be tailored to meet the needs of individual candidates. Please refer to the Foreword on page 2.

**Note:** The following organisations have been recognised by BINDT as providers of individually designed level 3 training packages.
