[Mind, Reason and Imagination: Selected Essays in Philosophy of Mind and Language, ISSN 0950-6306, , Jane Heal](#) , 2003, 0521017165, 9780521017169. In this collection of essays, Jane Heal argues that central to our ability to arrive at views about others' thoughts is not knowledge of some theory of the mind but rather an ability to imagine alternative worlds and how things appear from another person's point of view. She then applies this view to questions of how we represent others' thoughts, the shape of psychological concepts, the nature of rationality and the possibility of first person authority. This book should appeal to students and professionals in philosophy of mind and language.

[Always a Queen, Cynthia White](#) , 2008, 0982099606, 9780982099605. Everyones favorite scandalously self-centered Queen returns! Always a Queen picks up with a very pregnant Queen in Hawaii, trying to make sense of her murderous and salacious past. But when she returns to St. Louis, which of the two men she left hangin will she choose? Queen soon discovers that running away from her problems didnt make them go away, and now more than ever she must step up and reclaim her throne. What was once the cherished kingdom of her father has changed, and she must try to sort through it all before it is too late. She may be shallow, violent and over-sexed, but she is Always A Queen!

[The Cutting, James Hayman](#) , 2009, 1429989203, 9781429989206. From a formidable new voice in suspense fiction comes an edge-of-the-seat story of a homicide detective on the trail of a killer, who slays with exacting precision, and who harbors a terrifying motive Detective Sergeant Michael McCabe moved from New York City to Portland, Maine, to escape a dark past: both the ex-wife whod left him for an investment banker, and the tragic death of his brother, a hero cop gone bad. He sought to raise his young daughter away from the violence of the big city . . . so hes unprepared for the horrific killer he discovers, whose bloody trail may lead to Portlands social elite. Early on a September evening, the mutilated body of a pretty teenaged girl, a high school soccer star, is found dumped in a scrap-metal yard. She had been viciously assaulted, but her heart had been cut out of her chest with surgical precision. The very same day a young businesswoman, also a blonde and an athlete, was abducted as she jogged through the streets of the citys west end. McCabe suspects both crimes are the work of the same man---a killer whos targeting the young---who is clearly well-versed in complex surgical procedures, and who may have struck before. Just as the investigation is beginning, McCabes ex-wife reemerges, suddenly determined to reclaim the daughter she heedlessly abandoned years earlier. With the help of his straight-talking (and, at times, alluring) partner, Maggie Savage, McCabe begins a race against time to rescue the

missing woman and unmask a sadistic killer---before more lives are lost.

[Moby and Family, George Trail](#) , 2009, 0955992702, 9780955992704. Children's fiction, roughly ages 8-11, featuring a cat called Moby as the main character. Moby is a cat who is a pet to a loving family. Being who he is, everything is provided for him. Yet for all the care, protection and affection he receives from his family, he tends to feel a little sad as a result of never being able to understand them, and what they say. Moby's world is a small one, but he has come to realise that he has less and less to gain from it. In fact, it is not long before he ends up caring about everyone around him on a whole new level. A series of vaguely defined events starts to have negative implications on the family's members. The cat senses it - even if they don't. The worried cat vows to do something before it's too late...

[The Moral of the Story with Free Ethics PowerWeb, Nina Rosenstand](#) , 2002, 0072833467, 9780072833461. This popular text uses examples from fiction and film to show how ethical theories can be applied. By linking abstract theory to real life through storytelling and story analysis, Rosenstand offers a remarkably effective way of helping students understand and evaluate moral issues.

[Dialogues Concerning Natural Religion, Issue 2, David Hume](#) , , 0141882514, 9780141882512. Dialogues Concerning Natural Religion is a philosophical work written by the Scottish philosopher David Hume. Through dialogue, three fictional characters named Demea, Philo, and Cleanthes debate the nature of God's existence. While all three agree that a god exists, they differ sharply in opinion on God's nature or attributes and how, or if, humankind can come to knowledge of a deity. In the Dialogues, Hume's characters debate a number of arguments for the existence of God, and arguments whose proponents believe through which we may come to know the nature of God. Such topics debated include the argument from design - for which Hume uses a house - and whether there is more suffering or good in the world (Argument from evil)

[Ollie: The Inspiring Story of a Special Child, Stephen Venables](#) , 2006, 0091800250, 9780091800253. An exceptionally moving story about a courageous autistic boy, and the effect he had on all who knew him, written by his father, a successful mountaineer. Like the swallows, Ollie came in the spring and left in the autumn. Dancing, singing, swooping there was something birdlike about his energy, joy and laughter but also the fleeting, transitory, enigmatic quality of his life. At the age of two he lost the ability to speak, when autism turned his life and ours into a baffling challenge. Then at four he almost died from Leukemia. Chemotherapy worked its magic, but at six he had a relapse. He fought hard and

made a full recovery. Then, just six months from the Official All Clear, a brain tumour was discovered. After a brave struggle, he died very suddenly. His body had gone into meltdown. He was twelve. This is not a story of passive suffering or failure. Ollie had extraordinary courage. Time after time he bounced back, determined to enjoy life. He had astonishing endurance. I would like to explore the journey we made with Ollie and to tell his story. Unlike a mountaineer, pursuing extreme experiences for self-gratification, he had difficulty thrust upon him his courage was real. For me, too, although I did not have to do all the physical pain and suffering, the journey was far more compelling than any expedition.

[Nalda Said, Stuart David](#) , 1999, 188558671X, 9781885586711. So what makes a good pop novelist? Nalda Said is attracting great acclaim, not because it is a book by the bass player of Belle and Sebastian, but because it is a fabulous novel. The story concerns the nameless son of a jewel thief, brought up by his aunt Nalda, who convinces the boy that he carries one of his father's hidden jewels inside his stomach. The fantasy-like narrative details his subsequent terror of and interaction with society, who he fears will discover his secret and steal his jewel.

A girl growing up in Missouri in 1917 writes of her thoughts and experiences over two years as she finds a fictional friend in Jo March of Little Women, attends her first school, a French convent, carries on a correspondence with an I.W.W. organizer, goes to a boarding school, and visits New York.

[Chaco Canyon, R. Gwinn Vivian, Margaret J. Anderson](#) , 2002, 0195142802, 9780195142808. New Mexico, northwestern corner. Here, amidst the greasewood bushes and clouds of dry, sandy soil, are the silent ruins of colossal mud and wooden houses, a mysterious remnant of an ancient civilization. In Chaco Canyon, readers learn about the discovery of these amazing structures and follow generations of archaeologists as they uncover the secrets of the canyon's past. A veritable early Native American detective story, the book includes numerous sidebars on archaeological techniques, timelines, related sites, photographs and illustrations of the sites and artifacts, and a fascinating interview with archaeologist Gwinn Vivian who grew up in the canyon. Series copy: Buried treasure, high adventure, lost civilizations--Join archaeologists as they dig for the past at exciting sites around the world. From the first excitement of the original find to the excavation and scientific breakthrough, these richly illustrated books team professional archaeologists with established science writers to bring the fascinating world of the archaeological process to life.

[Communication by Design: The Politics of Information and Communication Technologies, Robin Mansell, Roger Silverstone](#) , 1996, 019829400X, 9780198294009. The information revolution has been described as 'the biggest technological juggernaut that ever rolled' and every day we hear more about the Global Information Infrastructure. The information and communications technologies (ICTs) of the 1990s enable the electronic production and consumption of increasingly vast quantities of information. They affect business, consumer, education and leisure activity. The consequences of these changes are unpredictable and contradictory, raising issues for governments, business,

organizations and individuals. This book gets to grips with recent developments and offers a new understanding of their likely effect. Because of the pervasive and quite unique characteristics of ICTs as a technology system, the authors argue that it is only through an interdisciplinary approach that we can fully grasp the implications and explore the uncertainties of the inter-relationship between the technical and the socio-economic. Moving from economicsto sociology and political science in its study of information and communication, this book will be essential reading for all those in these disciplines concerned to understand the ICT challenge. Two central concepts of design and capability run through the book, and the authors apply them to developments from the micro (domestic) level to the macro (international) level. Based on work done in the major UK research programme PICT (the Programme on Information and Communication Technologies), the book is probing and reflective; its purpose is to provide tools of analysis rather than a catalogue of developments. Throughout the authors argue that the information age is about people, social organization, adaptation and control and not just technologies.

[Mr. Right Now, Eric Arvin, Alix Bekins, Rhianne Aile](#) , 2008, 098150843X, 9780981508436. Not all erotic encounters are love at first sight or lead to happily ever after. That doesn't mean we don't want to read about them. Snowbound, Lovebound? by Fae Sutherland & Marguerite Labbe When animosity is stripped away, all that's left is desire. Traveling together in snowy New England, Bryan Tam and Jimmy Murphy are at each other's throats long before they lose control of their car. Attraction and tempers collide and the storm raging outside is nothing compared to the one going on in the backseat. Deacon Decides by Eric Arvin Deacon's always been a reserved, quiet man, even 'socially retarded' - according to his friend Carol. But when he meets flight attendant Joel on the plane to Australia, he must decide if the risk is worth the reward. A Screw and A Stud by Sonja Spencer Meeting in the hardware store around screws, studs, and lube, Mark offers to help Tommy hang a picture in his home. Turns out Mark has plenty of experience with that kind of screwing, and Tommy is willing to help him practice the other... Odds Are by Chrissy Munder Returning to an annual conference without his long-time live-in boyfriend, doctor Rick Page discovers his lover had a secret he never suspected. Luckily, Mr. Damn Smoking Hot Jonah is willing to provide sexy therapy. A Thorough Workout by Alix Bekins Ryan had taken to hanging around the gym late, waiting for Marc to approach him for hot, steamy, sticky sex. Ryan wanted Marc - and he knew Marc wanted him. But what was taking Marc so long to make his move? Know When to Spread 'em by Catt Ford In the mood to ditch work and find play, Jay goes looking for a good lunch hookup and finds a hot bodybuilder who occasionally likes to walk the guy side. Their no-strings lunch turns out to be firsts, seconds...and thirds The Proposition by Rhianne Aile & Madeleine Urban Looking for a weekend companion, Marcus chooses Gerard, an uptown, classy young

man who's willing to listen to his proposition. Sparks immediately fly and the weekend speeds by... and they both discover they don't want the proposition to end. *Wanna Ride?* by Sonja Spencer In a dance club where 'anything goes' isn't just a catch phrase, Raul wore black leather pants. Painted on. And nothing else but sweat. He was a vision Cris couldn't and wouldn't ignore, and asking for a dance might lead to a hell of a lot more. *Power Struggle* by Anais Morten Jason and Gero just don't get along, on or off the soccer field. Knowing something had to be done or the team would suffer, they try to work it out. But talking just leads to a fight, and Gero has to take drastic measures to find a compromise. *Special Offer* by Clare London The grocery store on a Saturday night wasn't Mitch's idea of a good time. It got worse when he ran into Will, his neighbor from down the hall. Both beyond annoyed, they work on finishing their shopping, and with each department they discover a growing attraction that cannot be denied.

[Web 2.0: A Strategy Guide: Business thinking and strategies behind successful Web 2.0 implementations., Amy Shuen](#) , 2008, 0596553757, 9780596553753. Web 2.0 makes headlines, but how does it make money? This concise guide explains what's different about Web 2.0 and how those differences can improve your company's bottom line. Whether you're an executive plotting the next move, a small business owner looking to expand, or an entrepreneur planning a startup, *Web 2.0: A Strategy Guide* illustrates through real-life examples how businesses, large and small, are creating new opportunities on today's Web. This book is about strategy. Rather than focus on the technology, the examples concentrate on its effect. You will learn that creating a Web 2.0 business, or integrating Web 2.0 strategies with your existing business, means creating places online where people like to come together to share what they think, see, and do. When people come together over the Web, the result can be much more than the sum of the parts. The customers themselves help build the site, as old-fashioned "word of mouth" becomes hypergrowth. *Web 2.0: A Strategy Guide* demonstrates the power of this new paradigm by examining how: Flickr, a classic user-driven business, created value for itself by helping users create their own value Google made money with a model based on free search, and changed the rules for doing business on the Web-opening opportunities you can take advantage of Social network effects can support a business-ever wonder how FaceBook grew so quickly? Businesses like Amazon tap into the Web as a source of indirect revenue, using creative new approaches to monetize the investments they've made in the Web Written by Amy Shuen, an authority on Silicon Valley business models and innovation economics, *Web 2.0: A Strategy Guide* explains how to transform your business by looking at specific practices for integrating Web 2.0 with what you do. If you're executing

business strategy and want to know how the Web is changing business, this book is for you.

[The Prisoner Society: Power, Adaptation, and Social Life in an English Prison, Ben Crewe](#) , 2009, 019957796X, 9780199577965. While the use of imprisonment continues to rise in developed nations, we have little sociological knowledge of the prison's inner world. Based on extensive fieldwork in a medium-security prison in the UK, HMP Wellingborough, *The Prisoner Society: Power, Adaptation and Social Life in an English Prison* provides an in-depth analysis of the prison's social anatomy. It explains how power is exercised by the institution, individualizing the prisoner community and demanding particular forms of compliance and engagement. Drawing on prisoners' life stories, it shows how different prisoners experience and respond to the new range of penal practices and frustrations. It then explains how the prisoner society - its norms, hierarchy and social relationships - is shaped both by these conditions of confinement and by the different backgrounds, values and identities that prisoners bring into the prison environment. Individual chapters in the book examine the flow of power, social order and governance, social relations and hierarchy, everyday prison culture, politics and economics, and the effects of imprisonment on prisoners. The book also looks at the recent accounts of transformations in penal management and changes in prison policy, and offers comparative content on the quality of prison life by drawing upon quantitative evaluations based on standard UK prison surveys and visits to three other category C prisons.

[Arboregal: The Lorn Tree, Dumitru Sandru](#) , 2011, 0983669503, 9780983669500. An experiment in a weird book causes four young Americans, Nathan, Perry, Melissa, and Michelle to appear in an incredibly strange and desolate world. Trees as large as mountains, scattered across the land like oases, support all life, safe from the monsters that patrol the night fog on the ground. Races of people living in medieval societies populate the giant trees. Known as the Lorns in this

particular tree, they welcome the four kids into their world-until Hellferata, the evil spirit descendent of Medusa, intrudes upon their beloved tree. Full of vivid imagery and unbridled creativity, D. G. Sandru's debut is as a mystical journey of enchantment, courage and the power of friendship. As the kids search for a way home, Hellferata searches for the prophesized mortal superhero she must battle to the death. Suspecting Michelle for this golden-haired superhero, Hellferata sends her son, Dracu Mort, into the Lorn Tree to kill her. Fearful of the evil spirit the Lorns move to expel the four Americans from their tree. Thinking quickly, the kids devise a plan to avoid the monsters roaming the land and travel to the next tree, where it is rumored there may be a path back home. Will their ingenuity, cunning, and courage help them make it to the Cascade Tree and find a way home, or will Hellferata and Dracu Mort mete out their wrath before they can escape? A dramatic and heroic escape into a world full of excitement and danger, Sandru brings to life a beautiful landscape dramatically different than our own yet living from the same heartbeat. Imparting the inspiring message that fear is but a passing foil and love is the true answer, Arboregal: The Lorn Tree is a spiritual quest of hope and friendship that exposes the inherent power we all share.

Advances in Quantum Chemistry presents surveys of current developments in this rapidly developing field that falls between the historically established areas of mathematics, physics, and chemistry. With invited reviews written by leading international researchers, as well as regular thematic issues, each volume presents new results and provides a single vehicle for following progress in this interdisciplinary area. The intention of this volume, as with the previous volume in this series is to present the latest developments in the field of energy deposition as it is actually viewed by many of the major researchers working in this area. It is not possible to incorporate all of the important players and all of the topics related to energy deposition in the limited space available; however the editors have tried to present the state of the art as it is now.

[Griffith REVIEW 39: Tasmania - The Tipping Point?, Julianne Schultz, Natasha Cica](#) , 2013, 0987313525, 9780987313522. Kathy Marks' essay 'Channelling Mannalargenna', about the survival and sense of self among Tasmania's aboriginal population, won the 2013 Walkley Award for Indigenous Affairs. A ground-breaking and topical edition of Griffith REVIEW that will highlight rapid changes in Tasmania, past and present, by the state's best writers and thinkers. Tasmania, the smallest of Australia's states, has long been on the edge of national conversations about prosperity, equality and identity. In Tasmania: The Tipping Point? Griffith REVIEW serves up strategic slices of Tasmania's past, present and future, prepared by many of the state's best writers. Thinkers and doers from Tasmania and beyond, including members of its diaspora, examine whether the island state has reached a 'tipping point'. Geographic isolation, a distinctive natural environment and small social scale are increasingly seen as blessings, presenting remarkable opportunities. The arrival of David Walsh's block-busting Museum of Old and New Art in Hobart has inspired confidence in championing Tasmania as a cultural, economic, environmental and social test bed - despite some entrenched local resistance. Tasmania: The Tipping Point? challenges how Tasmania is seen by outsiders, and illuminates how Tasmanians see themselves, down home and in the world. (Published with the support of the University of Tasmania.)

[Reisinger](#) , 2012, 0983881820, 9780983881827. Ellis Parker was a detective so successful he was called the American Sherlock Holmes. For over 30 years he solved the most difficult and complex cases all over New Jersey and beyond. When EllisParker got involved in a case, people took notice. So when he conducted his own investigation of the Lindbergh kidnapping and obtained a detailed signed confession, the New Jersey authorities were stunned, especially since they had just tried and convicted someone else! Master Detective tells the whole incredible story in detail for the first time. (This is a revised and updated edition containing new information.)

[Mathematical Modeling and Simulation: Introduction for Scientists and Engineers, Kai Velten](#) , 2009, 3527627618, 9783527627615. This concise and clear introduction to the topic requires only basic knowledge of calculus and linear algebra - all other concepts and ideas are developed in the course of the book. Lucidly written so as to appeal to undergraduates and practitioners alike, it enables readers to set up simple mathematical models on their own and to interpret their results and those of others critically. To achieve this, many examples have been chosen from various fields, such as biology, ecology, economics, medicine, agricultural, chemical, electrical, mechanical and process engineering, which are subsequently discussed in detail. Based on the author`s modeling and simulation experience in science and engineering and as a consultant, the book answers such basic questions as: What is a mathematical model? What types of models do exist? Which model is appropriate for a particular problem? What are simulation, parameter estimation, and validation? The book relies exclusively upon open-source software which is available to everybody free of charge. The entire book software - including 3D CFD and structural mechanics simulation software - can be used based on a free CAELinux-Live-DVD that is available in the Internet (works on most machines and operating systems).

Dr. Ruth Lawrence-a pioneer in the field of human lactation-covers the uses of certain drugs in lactating women, infectious diseases related to lactation, the latest Australian research on anatomy and physiology, and much more.in print and online. Provide thoughtful guidance to the breastfeeding mother according to her circumstances, problems, and lifestyle from integrated coverage of evidence-based data and practical experience. Make appropriate drug recommendations, including approved medications, over-the-counter medications, and herbal remedies. Access the fully searchable text online at www.expertconsult.com. Treat conditions associated with breastfeeding-such as sore nipples, burning pain, or hives-using extensive evidence-based information. Apply the latest understanding of anatomy and physiology through coverage of recent Australian CT and MR studies of the breast and its function. Stay current on new research on infectious diseases germane to lactation and new antibiotics, antivirals, and immunizations available for use during lactation. Effectively manage the use of medications during lactation thanks to an updated discussion of this

difficult subject. The latest research on breastfeeding and evidence-based solutions for treating associated medical problems from the authority in the field, Dr. Ruth Lawrence

↳ . . .

[The Family That Couldn't Sleep: A Medical Mystery, D. T. Max](#) , 2006, 1588365581, 9781588365583. For two hundred years a noble Venetian family has suffered from an inherited disease that strikes their members in middle age, stealing their sleep, eating holes in their brains, and ending their lives in a matter of months. In Papua New Guinea, a primitive tribe is nearly obliterated by a sickness whose chief symptom is uncontrollable laughter. Across Europe, millions of sheep rub their fleeces raw before collapsing. In England, cows attack their owners in the milking parlors, while in the American West, thousands of deer starve to death in fields full of grass. What these strange conditions including fatal familial insomnia, kuru, scrapie, and mad cow diseases share is their cause: prions. Prions are ordinary proteins that sometimes go wrong, resulting in neurological illnesses that are always fatal. Even more mysterious and frightening, prions are almost impossible to destroy because they are not alive and have no DNA and the diseases they bring are now spreading around the world. In *The Family That Couldn't Sleep*, essayist and journalist D. T. Max tells the spellbinding story of the prions hidden past and deadly future. Through exclusive interviews and original archival research, Max explains this story's connection to human greed and ambition from the Prussian chemist Justus von Liebig, who made cattle meatier by feeding them the flesh of other cows, to New Guinean natives whose custom of eating the brains of the dead nearly wiped them out. The biologists who have investigated these afflictions are just as extraordinary for example, Daniel Carleton Gajdusek, a self-described pedagogic pedophile pediatrician who cracked kuru and won the Nobel Prize, and another Nobel winner, Stanley Prusiner, a driven, feared self-promoter who identified the key protein that revolutionized prion study. With remarkable precision, grace, and sympathy, Max who himself suffers from an inherited neurological illness explores maladies that have tormented humanity for centuries and gives reason to hope that someday cures will be found. And he eloquently demonstrates that in our relationship to nature and these ailments, we have been our own worst enemy.

[Lieutenant nun, Catalina De Erauso](#) , 1996, 0807070726, 9780807070727. Born in 1585, Catalina de Erauso led one of the most wildly fantastic lives of any woman in history. Refusing to be regimented into the quiet habits of a nun's life, she escaped from a Basque convent at age fourteen dressed as a man, and continuing her deception, ventured to Peru and Chile as a soldier in the Spanish army. After mistakenly killing her own brother in a duel, she roamed the Andean highlands, becoming a gambler and a killer, and always just evading the grasp of the law. Distinguished for her fighting skills and cursed with a quick temper, Catalina de Erauso spent much of her life balancing precariously between valor and villainy. One of the earliest known autobiographies by a woman, Lieutenant Nun offers a portrait of a bold young girl who defied her society's gender roles, yet remained committed to its service as a participant in the conquest of the Americas. She is an adored folkloric hero of the Spanish-speaking world, and this delightful translation introduces a new audience to the audacious escapades of Catalina de Erauso, the Lieutenant Nun.

[Financial Innovation \(Collection\), Franklin Allen, Glenn Yago, James R. Barth](#) , 2012, 0133115259, 9780133115253.

Sustainable, responsible financial innovation: lessons from the crisis, and new paths to global prosperity After the global financial crisis, responsible financial innovation is more crucial than ever. However, financial innovation will only succeed if it reflects the true lessons of the past decade. In this collection, three leading global finance researchers share those lessons, offering crucial insights for market participants, policymakers, and other stakeholders. Drawing on their pioneering work, they illuminate new opportunities for sustainable innovation in finance that can help restore housing markets and the overall global economy, while avoiding the failures of predecessors. In *Financing the Future*, Franklin Allen and Glenn Yago carefully discuss the current role of financial innovation in capitalizing businesses, industries, breakthrough technologies, housing solutions, medical treatments, and environmental projects. Allen and Yago explain how sophisticated capital structures can enable companies and individuals to raise funding in larger amounts for longer terms at lower cost, accomplishing tasks that would otherwise be impossible -- and offer a full chapter of essential lessons for using financial innovation to add value, manage risk, and improve the stability of the global economy. Next, in *Fixing the Housing Market*, Allen, Yago, and James R. Barth explain how responsible financial innovation can "reboot" damaged housing markets, improve their efficiency, and make housing more accessible to millions. The authors walk through the history of housing finance, evaluate housing finance systems in mature economies during and after the crisis, highlight benefits and risks associated with each leading mortgage funding structure and product, and assess current housing finance structures in BRIC economies. Building on these comparisons, they show how to create a more stable and sustainable financing system for housing: one that provides better shelter for more people, helps the industry recover, and creates thousands of new jobs. From world-renowned leaders and experts Franklin Allen, Glenn Yago, and James R. Barth

[The Eighth Sea, Nancy Sprowell Geise](#) , 2012, 1468108190, 9781468108194. Have You Found Your Eighth Sea? In the cold, black hold of a sailing ship, a young woman lies dying, tormented that her death will mean nothing. No one will know. No one will care. Only the will to find a purpose for her life keeps breath in her exhausted body. Far away, a soft Carolina breeze touches a mother's face as she peers into the night sky, agonizing over the loss of her infant daughter

nineteen years before. A haunting vision that will not leave her whispers of a living tie, still unbroken, to that baby long ago. Worlds apart and unaware of one another, the mother and daughter fight their lonely battles for survival. Between them a man rising to greatness with the new America will bring them together. The themes of this story are deep and universal: a long journey; separation and return; uncertainty; searching and finding; the search for understanding God's will amidst tragedy; and finally, the realization that people can be bound together forever. The Eighth Sea is a passionate love story involving two unforgettable characters Brenna and Nathan. Their story is our story finding our place in the world, the meaning of our lives, our way home. Brenna's solution is to set sail beyond the only world she has ever known and into her eighth sea. The story is inspirational, and its romance is deep and enduring. Struggling to triumph are three major characters: Brenna determined to find her place in the world yet haunted by the shadows of abandonment and self-doubt; Emily plagued with grief over the loss of her only child and unable to shake a disturbing sense that something is unresolved; and Nathan strong and charismatic, discovering that in his search for Brenna, he has found himself. Their story is a tribute to the human experiences of good overcoming evil, the power of persistence, seeking God, and finally, of love enduring against all odds. The Eighth Sea finding the meaning of our lives, our way home.

What People Are Saying About The Eighth Sea: The Eighth Sea is hard to put down, a deep and enduring romance, a plot filled with unexpected twists and the characters hard to get out of one's mind an inspiring journey into the unknown. A book club must read! The Eighth Sea paints a haunting picture of true anguish, survival, adventure, the will to live against all odds, new life, and the hope that only God can provide. It is a very compelling read.

Sue Mallory, Author of The Equipping Church From the moment we meet a mother and daughter separated by an ocean of longing and despair, we're hooked. Nancy Sprowell Geise weaves an epic tale of love, loss, hope, and determination. Through her unforgettable characters, we discover that no matter what happens in life, we can find our way to our Eighth Sea. With belief, perseverance, and trust, life can show us our way home.

Donna Mazzitelli, Writing With Donna The Eighth Sea pulls and pulls at your heart. Over and over, the golden threads continue to weave a tapestry until the very end. As readers, we never forget stories like The Eighth Sea that give us hope and characters such as Brenna who embody our deepest need to find our place in the world, our way home.

John Forssman, English Teacher The Eighth Sea has the dramatic feel of a great movie combined with the depth and emotion of a true epic novel. I couldn't put it down. I found myself reading it through the night. I will think about this story and Nathan and Brenna's romance for years to come.

Sally Robinson, Worksmart USA There is so much to recommend about The Eighth Sea: a unique set-up, a great heroine, a tragic back-story, and great settings. I'm deeply connected to the characters' emotions and motivations and love the historical romance of it all. She rocks the flashbacks.

Nancy Sprowell Geise is the real deal. Trai Cartwright, Craftwrite Since its launch in January 2012, The Eighth Sea has had more than 45,000 e-downloads.

[The Crunching Munching Caterpillar: A Pop-up Story, Sheridan Cain](#) , 2006, 1589257715, 9781589257719. Hungry Caterpillar crunches and munches his way through the blackberry bush; all the while his friends Bumblebee, Sparrow and Butterfly are flying high in the sky soaring and swooping. Caterpillar wishes for nothing more than to fly! Butterfly has a secret and encourages Caterpillar to take a nap. After his long, deep sleep through the winter and his dreams of soaring in the blue sky above the trees and drifting toward the sun--"Caterpillar awakens to find that his dreams have come true! A wonderful pop-up adaptation of this best selling picture book!

[Uniqueness and Non-Uniqueness of Semigroups Generated by Singular Diffusion Operators, Issue 1718, , , Andreas Eberle](#) , 1999, 3540666281, 9783540666288. This book addresses both probabilists working on diffusion processes and analysts interested in linear parabolic partial differential equations with singular coefficients. The central question discussed is whether a given diffusion operator, i.e., a second order linear differential operator without zeroth order term, which is a priori defined on test functions over some (finite or infinite dimensional) state space only, uniquely determines a strongly continuous semigroup on a corresponding weighted L_p space. Particular emphasis is placed on phenomena causing non-uniqueness, as well as on the relation between different notions of uniqueness appearing in analytic and probabilistic contexts.

[Bobby Baker: Redeeming Features of Daily Life, Michle Barrett, Bobby Baker](#) , 2007, 041544411X, 9780415444118.

Bobby Baker is one of most widely acclaimed and popular performance artists working today. Over the course of a thirty-

five-year career she has toured the globe with her wildly stimulating explorations of 'Daily Life' and has been extensively written about and studied. This fully-illustrated book brings together for the first time an account of Baker's career as an artist from her first sculptures at Central St Martins in the early 1970s to her most recent work, 'How to Live' and 'Diary Drawings' with critical commentary by reviewers and academic practitioners. It includes: Bobby Baker's own 'Chronicle' of her work as artist and performer illuminating critical writing about Baker's shows transcripts of Baker's performances and other original materials reproduced here for the first time significant new essays by Michele Barrett and Griselda Pollock a new interview with Bobby Baker by Adrian Heathfield. Under the guiding editorial hand of distinguished cultural theorist Michele Barrett, this volume is an essential text for students interested in performance, gender, and visual culture, and a hugely absorbing and accessible account of Baker's work.

9780131202061. For introductory courses in Advertising, offered in marketing and journalism departments. Everyone has experienced memorable advertising: the ad or jingle that stays in your mind. But memorable advertising may not sell products or build market share it may not be effective advertising. In these days of accountability, clients are asking that advertisers create advertising that meets measurable goals. The challenge with teaching advertising by taking theory and applying it to what is going on in advertising agencies is that companies have always been very guarded about goals and measures. Advertising: Principles and Practice has lifted the veil by focusing on EFFIE-award winners: advertising campaigns that have won awards for their effectiveness from the American Marketing Association of New York. These EFFIE-award winners reveal client goals and how these goals were reached. No other book takes theory and shows students how it is applied today to produce effective advertising advertising that works.

[The Principle of Mutual Recognition in EU Law, Christine Janssens](#) , 2013, 0199673039, 9780199673032. Examining the principle of mutual recognition in the EU legal order, this book takes a cross-policy approach to focus on the principle in the internal market and in the criminal justice area. It asks whether the principle of mutual recognition, as developed in relation to the free movement provisions (internal market), can equally be applied in judicial cooperation in criminal matters (the area of freedom, security, and justice), and if such a cross-policy application is desirable. Divided into three parts, the book first looks at the way this principle functions in the internal market. Part II examines how the principle works in judicial cooperation in criminal matters, with the final part answering the book's central questions. In each part, further related questions are asked: What is the object of the principle of mutual recognition? Who are the main actors involved? How does the mechanism of mutual recognition operate (with an emphasis on the existing limits to mutual recognition)? How does mutual recognition relate to harmonization and to mutual trust? What is the relevance of equivalence requirements and the distribution of competence between the home (issuing) State and the host (executing) State? What are the main characteristics of the principle of mutual recognition? And is it a workable principle? Through an in-depth analysis of the relevant Treaty provisions, EU legislation, EU case law, and EU policy documents, the book comes to the conclusion that a cross-policy application of the principle of mutual recognition is both feasible and desirable.

Opening Doors is appropriate as either a core or supplementary text for courses on teaching young children with diverse and special needs within regular education settings. The text emphasizes real-world experience by encouraging readers to do fieldwork and create portfolios. It also focuses on children's competence and the integrated and ongoing inclusion of children with special needs.

[The Hero's Trail: A Guide for a Heroic Life, T. A. Barron](#) , 2008, 1439512191, 9781439512197. Explores how to lead a heroic life, facing challenges with courage, strength of character, and wisdom, much as a hiker uses those qualities on a challenging trail. Reprint.

[Wealden Hill, Graeme K. Talboys](#) , 2005, 0954053133, 9780954053130. The world is never as it seems, yet the truth is hidden by the distractions we make for ourselves. This is the dilemma that faces Rowland Henty. Has he really touched another reality, or were the wounds he received in the Afghan Wars in his mind as well as his body? As he struggles to come to terms with what is real, everything he learns pushes him ever deeper into uncertainty and the harsh reality that some call madness. Set in the 19th century, this is a tragic novel of love and loss, of the choices we make, of a man who walked between worlds that he could not even be certain existed.

[Jefferson Davis: The Man and His Hour, William C. Davis](#) , 1996, 0807120790, 9780807120798. Drawing on many new sources, distinguished Civil War scholar William C. Davis here delves into the life of one of the most controversial public figures of the nineteenth century. He vividly details Davis' childhood in Mississippi, his military experience at West Point and on the western frontier, his brilliant record in the Mexican War, his stint as a hardworking secretary of war under Franklin Pierce, and his career as an impassioned defender of slavery in the Senate, closely examining the development and expression of Davis' values, attitudes, and personality throughout this time.

[The twisted sisters sock workbook, Lynne Vogel](#) , 2002, 1931499160, 9781931499163. With simple directions and tips on how to dye, paint, spin, and knit yarn to create authentic socks, this book offers all the information necessary to fashion socks with personality. Included are innovative patterns and tips for knitting socks with customized fiteven for all ten toes. Safe and easy directions are given on dyeing yarn from pour-dyeing methods to dyeing with Kool-Aid. With photos and illustrations of finished examples, sock patterns such as newborn socks and magic genie toe socks, and advice on how to create one-of-a-kind projects, it will appeal to all levels of knitters and spinners.

[Cold Zero: Inside the FBI Hostage Rescue Team, Christopher Whitcomb](#) , 2008, 044655121X, 9780446551212. Only 200 people have ever been in Christopher Whitcomb's elite branch of the F.B.I. The Hostage Rescue Team is its most highly trained and specialized squadron -- equivalent to the Navy's Seals and the Army's Delta Force -- charged with terrorist capture, hostage situations, and other large-scale emergencies in the U.S. and around the world. Whitcomb is the first HRT member ever to write about his experience. With breathtaking immediacy, Whitcomb describes the brutal training, the weapons and tactics, and the unbreakable camaraderie of the HRT. In short order, after joining HRT in 1991, Whitcomb was sent on missions to Ruby Ridge and Waco, and his frank assessment of those missions is must reading for anyone interested in modern law enforcement. Only rarely does a writer this accomplished have a life this dramatic. "Cold Zero" is a book of rare action and emotion, and one that introduces a remarkable new writer to the world.

[Descartes and the Puzzle of Sensory Representation, Raffaella De Rosa](#) , 2010, 0191610062, 9780191610066. While much has been written on Descartes' theory of mind and ideas, no systematic study of his theory of sensory representation and misrepresentation is currently available in the literature. *Descartes and the Puzzle of Sensory Misrepresentation* is an ambitious attempt to fill this gap. It argues against the established view that Cartesian sensations are mere qualia by defending the view that they are representational; it offers a descriptivist-causal account of their representationality that is critical of, and differs from, all other extant accounts (such as, for example, causal, teleofunctional and purely internalist accounts); and it has the advantage of providing an adequate solution to the problem of sensory misrepresentation within Descartes' internalist theory of ideas. In sum, the book offers a novel account of the representationality of Cartesian sensations; provides a panoramic overview, and critical assessment, of the scholarly literature on this issue; and places Descartes' theory of sensation in the central position it deserves among the philosophical and scientific investigations of the workings of the human mind.

Rettig Adjunct Senior Social Scientist RAND Corporation, Virginia, Center for Law Peter D. Jacobson Director, Ethics and Health University of Michigan School of Public Health Ann Arbor, Cynthia M. Farquhar M.D. Postgraduate Professor of Obstetrics and Gynaecology University of Auckland, Wade M. Aubry M.D. Associate Clinical Professor of Medicine UCSF Institute for Health Policy Studies](#) , 2007, 0199748241, 9780199748242. In the late 1980s, a promising new treatment for breast cancer emerged: high-dose chemotherapy with autologous bone marrow transplantation or HDC/ABMT. By the 1990s, it had burst upon the oncology scene and disseminated rapidly before having been carefully

evaluated. By the time published studies showed that the procedure was ineffective, more than 30,000 women had received the treatment, shortening their lives and adding to their suffering. This book tells of the rise and demise of HDC/ABMT for metastatic and early stage breast cancer, and fully explores the story's implications, which go well beyond the immediate procedure, and beyond breast cancer, to how we in the United States evaluate other medical procedures, especially life-saving ones. It details how the factors that drove clinical use--patient demand, physician enthusiasm, media reporting, litigation, economic exploitation, and legislative and administrative mandates--converged to propel the procedure forward despite a lack of proven clinical effectiveness. It also analyzes the limited effect of technology assessments before randomized clinical trials evaluated decisively the procedure and the ramifications of this system on healthcare today. Sections of the book consider the initial conditions surrounding the emergence of the new breast cancer treatment, the drivers of clinical use, and the struggle for evidence-based medicine. A concluding section considers the significance of the story for our healthcare system.

[Ella: princess, saint and martyr, Christopher Warwick](#) , 2006, 047087063X, 9780470870631. Considered to have been the most beautiful princess in Europe, capable of arousing profane passions, Elisabeth of Hesse and by Rhine, or Ella as she was known, was a granddaughter of Queen Victoria and the daughter of Princess Alice of Great Britain and Grand Duke Louis of Hesse. A privileged, happy Victorian childhood was touched by tragedy not only with the early deaths of her youngest brother and sister but also that of her young mother. Close to Queen Victoria, Ella spent some of her happiest times in Britain. At 20, however, much against the wishes of her grandmother, who despised everything Russian, Ella became engaged to Grand Duke Serge Alexandrovich, the authoritarian younger brother of Tsar Alexander III. It was at their wedding that her younger sister, Alix, formed a love match with the future Tsar Nicholas II; an event which not only sealed the fate of both sisters, but that of the Imperial House of Romanov. But for these two marriages, the history of Russia might have been very different. With the assassination of her husband, Ella renounced society and, against considerable opposition, founded the first religious Order of its kind in Russia, working for the poor and destitute of Moscow. Though loved for her charitable works and pioneering achievements, Ella, like Nicholas, Alexandra, and fourteen members of their family, met a brutal death at the hands of the Bolsheviks. At the height of the Russian Revolution, she was taken captive to Siberia where, having been clubbed with rifle butts, she was hurled alive into a disused mineshaft and left to die of her injuries. Later retrieved, her incorrupt body was eventually laid to rest on the Mount of Olives. She was subsequently canonized by the Russian Orthodox Church as the Holy Imperial Martyr Saint Elisabeth Romanova.

[The Bab Ballads, William Schwenck Gilbert, James Ellis](#) , 1980, 0674058011, 9780674058019. W. S. Gilbert, renowned author of the Savoy Operas, was also the creator of the Bab Ballads--"possibly the best comic verse--and surely the best illustrated--in the English language," according to James Ellis. Gilbert published these poems, together with his own, grotesque drawings signed "Bab," a childhood nickname, in Fun and other magazines in the late nineteenth century. In 1898, the older and by then distinguished Gilbert substituted pallid and inoffensive drawings for the originals, which he had come to believe "erred gravely in the direction of unnecessary extravagance." Since then the ballads have been collected and published in various editions, most of which have featured the revised drawings and only a selection of the poems. This is the only book to offer the complete collection of ballads with all original illustrations, a tribute to the comic genius of a writer known as "the most original dramatist of his generation." This collection will delight readers with its irreverence and wit.

[Geography in Practice: Standard 6, Lynn Hurry, John Keith Craig](#) , 1988, 0947437045, 9780947437046.

[Governance Challenges and Innovations: Financial and Fiscal Governance, The Hertie School of Governance,, Helmut K. Anheier](#) , 2013, 0199674930, 9780199674930. Few would doubt that the conditions of governance have changed-and continue to change-as the early 21st century seems to enter a period of profound uncertainty. Yet, at the same time, the world seems alive with a cacophony of approaches-old and new-on how to improve governance and, ultimately, policy outcomes. This collection-the first in a series of annual editions-seeks to address the implications of the current state of the world in terms of "good governance", i.e. the effective, efficient, and reliable set of legitimate institutions and actors dedicated to dealing with matters of public concern, be it in the field of financial markets (the focus of this edition), health care, security, or migration, and across local, national and international levels. Researchers at The Hertie School of Governance (Berlin, Germany) and other experts examine the current state of governance challenges and innovations from a variety of inter-disciplinary perspectives. This edition features a special set of chapters on the challenges of financial and fiscal governance, the tradeoffs faced by governance actors, and the new arrangements that have emerged or are required to not only address the ongoing crisis but also ensure greater stability into the future. This special section is complemented by chapters introducing basic concepts and models; exploring other global challenges and the reasons behind seemingly lackluster responses to them and highlighting the need for responsible sovereignty; conceptualizing governance innovation and introducing key examples; and assessing existing indicators of governance, while proposing a

new framework for collecting, interpreting and applying governance-related information.

[Industrial Gases Processing, Heinz-Wolfgang Hring, Christine Ahner](#) , 2008, 352731685X, 9783527316854. Almost every modern manufacturing process relies on industrial gases, and sales of such gases are expected to rise by around 45% over the next five years. Here, experienced and authoritative experts from one of the two world's largest producers of industrial gases impart their knowledge on atmospheric, noble and synthesized gases, carbon dioxide, LNG, acetylene and other fuel gases, as well as special and medical gases. Modern applications, e.g., the use of hydrogen in fuel cells, are included as well. This practical text is rounded off by a section on logistics.

[By What Authority?, Robert Hugh Benson](#) , 2005, 0972982116, 9780972982115. BY WHAT AUTHORITY? is Robert Hugh Benson's (1871-1914) first published historical novel. In it he portrays the story of the English Reformation in Elizabethan times from the Catholic point of view. This he achieved without the use of the stereotypes that characterized virtually all such productions in his day to the detriment of both sides of the question.

[The Manambu Language of East Sepik, Papua New Guinea, Alexandra Y. Aikhenvald](#) , 2010, 0199588236, 9780199588237. This book is the first comprehensive description of the Manambu language of Papua New Guinea and is based entirely on the author's immersion fieldwork. Manambu belongs to the Ndu language family, and is spoken by about 2,500 people in five villages: Avatip, Yawabak, Malu, Apa:n, and Yambon (Yuanab) in East Sepik Province, Ambunti district. Manambu can be considered an endangered language. The Manambu language has many unusual properties. Every noun is considered masculine or feminine. Feminine gender - which is unmarked - is associated with small size and round shape, and masculine gender with elongated shape, large size, and importance. The Manambu culture is centered on ownership of personal names, and is similar to that of the Iatmul, described by Gregory Bateson. After an introductory account of the language and its speakers, Professor Aikhenvald devotes chapters to phonology, grammatical relations, word classes, gender, semantics, number, case, possession, derivation and compounding, pronouns, morphology, verbs, mood and modality, negation, clause structure, pragmatics, discourse, semantics, the lexicon, current directions of change, and genetic relationship to other languages. The description is presented in a clear style in a framework that will be comprehensible to all linguists and linguistically oriented anthropologists.

[The Gilded Age & Progressive Era: A Student Companion, Elisabeth Israels Perry, Karen Manners Smith](#) , 2006, 0195156706, 9780195156706. This Companion is an alphabetical encyclopedia of the Gilded Age & Progressive Era (GAPE) in the United States, beginning in 1877 with the end of Reconstruction and extending to 1919-20, the end of World War I and the beginning of the Harding administration. Combining materials from traditional political history with newer materials from social, ethnic, and cultural history, the book reflects historiographic trends that have influenced the writing of Gilded Age and Progressive Era histories in recent years. These include revisiting major events with gender and race at the center; asking new questions about the role of economic change and social movements; using literary and critical race theories to read traditional evidence, such as court records and military and diplomatic reports, in new ways; understanding the growing connections in this period of the United States with other parts of the world (globalism); and emphasizing the connection between labor and economic trends and social and political movements. The Gilded Age and Progressive Era: A Student Companion includes articles on overall trends (immigration, education, music, sports), social movements (anarchism, child labor movement, consumer movement, conservation movement), terms (armistice, chain store, chautauqua), organizations (American Expeditionary Force, Knights of Labor, Republican party), issues (gender relations, race relations), events (Haymarket Square massacre, Palmer raids, Pullman strike), legal cases (Lochner v. New York), laws (Chinese Exclusion Act, Meat Inspection Act, Selective Service Act), ethnic groups (Mexicans, Chinese), economic issues (trusts, scientific management), and biographies. The articles are cross-referenced and have sources for specific further reading. Backmatter consists of chronology, general further reading and websites, and index. Black-and-white illustrations--including photographs, maps, fine arts, and graphics--complement the text.

[Learn to Draw a Graffiti Master-Piece: Your Essential Guide to Tags, Bubble Letters, Wildstyle, Layout and Piecing.](#) , 2012, 0988777282, 9780988777286. This book is a user-friendly, instructional guide for students, teachers and everyone else who wants to learn to draw graffiti art. There are hundreds of step-by-step instructional drawings and examples with easy-to-follow, explanatory text. It is designed to be used as a manual to de-mystify the graffiti making process. This book is for beginners who need detailed direction and a place to start.

[Life Force: Experience Paradise in Your Lifetime, Dan Emmons, Michelle Sabathn , 2003, 0966821963, 9780966821963.](#) Part I of 'Life Force' chronicles one man's spiritual journey from his sick bed to his breakthrough discovery of how to increase life force. Life force reverses the need to struggle for survival and moves you into the promise of paradise soon. Throughout his search, author Dan Emmons has many adventures, develops healing abilities, and communicates with a higher spiritual consciousness that guides him from day to day and shares great truths about life. In Part II of this book, you are shown the method of how to build your life force energy, thereby improving your individual concerns while bringing about a new level of existence for all. Have you ever wanted to somehow tap into life's wisdom so you could know what you should do next? Part III gives you access to your own direct communication with life. Discover the simple way to ask questions and receive answers. Within your lifetime, phenomenal changes can occur on this planet. As hard as it may be to believe such a breakthrough could happen at this time, the fact is, it is happening, and each of you can be a part of it. The book reveals how you can: Receive insights, inspiration, and knowings at will; Live without suffering; Move into complete consciousness; Carry on a dialogue with life; Experience paradise in your lifetime.

[Behind the Backlash: Muslim Americans After 9/11, Lori Peek , 2011, 1592139841, 9781592139842.](#) As the nation tried to absorb the shock of the 9/11 attacks, Muslim Americans were caught up in an unprecedented wave of backlash violence. Public discussion revealed that widespread misunderstanding and misrepresentation of Islam persisted, despite the striking diversity of the Muslim community. Letting the voices of 140 ordinary Muslim American men and women describe their experiences, Lori Peek's path-breaking book, Behind the Backlash presents moving accounts of prejudice and exclusion. Muslims speak of being subjected to harassment before the attacks, and recount the discrimination they encountered afterwards. Peek also explains the struggles of young Muslim adults to solidify their community and define their identity during a time of national crisis. Behind the Backlash seeks to explain why blame and scapegoating occur after a catastrophe. Peek sets the twenty-first century experience of Muslim Americans, who were vilified and victimized, in the context of larger sociological and psychological processes. Peek's book will be of interest to those in disaster research studies, sociology of religion, and race and ethnic relations.

[Catch Up: Developing Countries in the World Economy, Deepak Nayyar](#) , 2013, 0199652988, 9780199652983. Catch Up analyzes the evolution of developing countries in the world economy from a long-term historical perspective, from the onset of the second millennium but with a focus on the second half of the twentieth century and the first decade of the twenty-first century. It is perhaps among the first to address this theme on such a wide canvas that spans both time and space. In doing so, it highlights the dominance of what are now developing countries and it traces their decline and fall from 1820 to 1950. The six decades since 1950 have witnessed an increase in the share of developing countries not only in world population and world income, but also in international trade, international investment, industrial production, and manufactured exports which gathered momentum after 1980. This book explores the factors underlying this fall and rise, to discuss the on-going catch up in the world economy driven by industrialization and economic growth. Their impressive performance, disaggregated analysis shows, is characterized by uneven development. There is an exclusion of countries and people from the process. The catch up is concentrated in a few countries. Growth has often not been transformed into meaningful development that improves the wellbeing of people. Yet, the beginnings of a shift in the balance of power in the world economy are discernible. But developing countries can sustain this rise only if they can transform themselves into inclusive societies where economic growth, human development, and social progress move in tandem. Their past could then be a pointer to their future.

Power Math offers students strategies for developing their basic math skills. Basic math concepts are presented in the context of everyday workplace and life skills. Power Math is perfect for developing the critical-thinking, problem-solving and basic computational skills of your low-level adult learner.

[Organic Chemistry, Paula Yurkanis Bruice](#) , 2004, 0131407481, 9780131407480. This innovative book from acclaimed educator Paula Bruice is organized in a way that discourages rote memorization. The author's writing has been praised for anticipating readers' questions, and appeals to their need to learn visually and by solving problems. Emphasizing that

learners should reason their way to solutions rather than memorize facts, Bruce encourages them to think about what they have learned previously and apply that knowledge in a new setting. KEY TOPICS The book balances coverage of traditional topics with bioorganic chemistry, highlights mechanistic similarities, and ties synthesis and reactivity together teaching the reactivity of a functional group and the synthesis of compounds obtained as a result of that reactivity. For the study of organic chemistry.

[Wear Clean Underwear: Business Wisdom From Mom, Rhonda Abrams](#) , 2000, 0440509076, 9780440509073. Find out how successful companies like Disney, Nordstrom, and Kinko's have triumphed by heeding Mom's timeless advice. Mom. She's the quintessential leader. She not only manages, but she teaches, nurtures, sustains, and guides. She patiently taught us right from wrong as well as how to think, to care, and to be decent human beings. In this eye-opening guide, a leading business writer and consultant shows us how great companies have excelled by embracing timeless values--and how, in an age of increasing cynicism, the time is right for thinking like Mom. Filled with sage advice from top business leaders and based on in-depth research and personal interviews, Wear Clean Underwear illustrates how successful businesses--including Disney, Kinko's, and 3M--have triumphed by heeding Mom's advice: Southwest Airlines bucked industry trends and succeeded--by listening to Mom's If All Your Friends Jumped off a Bridge, Would You Jump off One Too? When outdoor clothing manufacturer Patagonia began to outgrow its own values, character, and style, its CEO made an extraordinary decision, taking a lesson from Mom: Don't Get Too Big for Your Britches. Nordstrom is virtually unmatched in its reputation for customer service. How do they do it? In part from following Mom's great adage: I Don't Care Who Made This Mess, Just Clean It Up!"If all your friends jumped off a bridge, would you jump off one too?" Southwest Airlines bucked the industry trend of keeping wages and benefits low while competing on the basis of price--and is now one of the ten most admired companies in the country and one of the few consistently profitable airlines."Don't judge a book by its cover." A severely dyslexic man realized he'd never get a good job, so he opened his own business, which was built on mutual trust and communication with his employees--a company called Kinko's, now with more than 900 locations nationwide. Filled with sage advice from top business leaders based on in-depth research and personal interviews, WEAR CLEAN UNDERWEAR illustrates how successful businesses, including Disney, Nordstrom, and 3M, have triumphed by heeding Mom's advice. -->

[Maigret's Christmas, Georges Simenon](#) , 1992, 0156551322, 9780156551328. A holiday feast for fans of Georges

Simenon's most famous creation, Inspector Jules Maigret. This collection, containing nine of Simenon's best short stories, begins with a Christmas mystery: an otherwise sensible little girl insists that she has seen Father Christmas, a statement alarming to her neighbors, Monsieur and Madame Maigret. Indeed, the stories contain quite a number of observant and resourceful children, frightened yet resolute. A choirboy helps Maigret solve a crime while the Inspector lies in bed with a cold; another youngster, pursued by a criminal, ingeniously leaves a trail that keeps Maigret in touch with him. No fewer than four of the stories have youthful heroes who bring out the paternal streak in Maigret and help give a delightful freshness to this collection - a cornucopia for Maigret fans.

[Modern Control Technology: Components And Systems, Christopher T. Kilian](#) , 2006, 1401858066, 9781401858063. This book makes use of ample illustrations and clear, no-nonsense explanations to provide a fundamental understanding of modern automatic control systems and industrial electronics. It is logically organized, taking readers on a virtual journey through a typical control system, starting with an introduction, then moving on to discuss basic components, sensors, wiring, motors, motor control circuits, and mechanical parts. At the conclusion, these functional parts are "put together" by discussing control strategies and controller types, including Programmable Logic Controllers. The text is both contemporary and comprehensive in scope, with supplemental information on various basic applied physics and mechanical concepts, such as linear and rotational motion, springs, friction, gears, levers, heat transfer, and energy transfer not found in other books in its class. Digital controllers and concepts are introduced early and referenced throughout the book. Analog concepts are also included. This edition features new material on digital panel mount controllers, differential gears, the Insulated Gate Bipolar Transistor (IGBT), ultrasonic proximity sensors, inductive proximity sensors, ultrasonic flow sensors, and cascade control. Information has also been added to better address such topics as AC variable frequency motor drives, PID control, and the AS-I sensor factory network.
