[A Book of Prayers for Couples, Stormie Omartian](#) , 2011, 0736946705, 9780736946704. The three books of prayer in this beautiful compilation, based on *The Power of a Praying Wife*, *The Power of a Praying Husband*, and *The Power of Prayer to Change Your Marriage*, have inspired hundreds of thousands of women and men to strive for a deeper faith and prayer life. These heartfelt prayers, accompanied by Scripture verses and lines to jot a note, lead readers straight to the One who can make a difference in their lives and most important relationships. When a husband or wife prays for their spouse, both receive the blessing. Their marriage is strengthened, their commitment renewed, and difficult places made smooth. In this padded hardcover edition with ribbon, *A Book of Prayers for Couples* is the perfect gift for those looking for encouragement, healing, renewal, fruitfulness, and hope in their journey.

[Moondial, Helen Cresswell](#) , 2000, 0194230090, 9780194230094. 'Moondial!' As Minty spoke the word, a cold wind went past her, and her ears were filled with a thousand frightened voices. She shut her eyes and put her hands over her ears - and the voices and the wind went away. Minty opened her eyes . . . and knew that she was in a different morning, not the one she had woken up to. And so Minty's strange adventure begins - a journey through time into the past, where she finds Tom, and Sarah . . . and the evil Miss Vole.

[If Only, Becky Citra](#) , 2013, 1459802861, 9781459802865. Fifteen-year-old Pam is assaulted when she and her twin brother, Danny, are walking home through the woods. Danny is frozen with fear and does nothing; luckily, Pam is rescued by a woman out walking her dog. Pam deals with the trauma by isolating herself while Danny struggles with the shame of not protecting his sister. His shame is compounded by their father's contempt, and Danny decides to redeem himself by finding Pam's attacker. In the process, he discovers a family secret, and Pam connects with new friends who help her regain her confidence.

[The Three-Legged Cat, Margaret Mahy](#) , 1993, 0140549633, 9780140549638. Mrs Gimble's cat would love to prowl, but has only three legs. Mrs Gimble's brother, who prowls the world, comes to visit and mistakes the cat for his hat... A gloriously funny picture book.

[The Handbook of Japanese Verbs, Taeko Kamiya](#) , 2012, 1568364849, 9781568364841. From the very earliest stages of

study until far into the intermediate level, students of the Japanese language are continually scratching their heads over the usage of verbs. It is no wonder that they should feel the need for a solid reference book, one they can continually turn to throughout their studying careers. The Handbook of Japanese Verbs is just that book. The Introduction takes the first step toward comprehension by pointing out the features of Japanese verbs that stand in contrast to their English counterparts, such as tense, politeness level, auxiliaries, and transitive and intransitive forms. Part 1 shows through tables and concise commentary how Japanese verbs are categorized, conjugated, and combined with auxiliaries. Each form is followed by a short exercise, reinforcing the points just made. Part 2 takes up the forms described in the first part and shows how they function in full-fledged sentences. Each discussion is followed by examples and exercises, ensuring that the student has understood the forms under discussion. In the appendices, the student is offered a number of look-up methods, including an English-Japanese verb dictionary. This completes the apparatus necessary for a solid handbook on Japanese verbs, a book students can rely on for many years to come.

[Resource Conservation and Recovery Act Amendments of 1991: Hearings Before the Subcommittee on Environmental Protection of the Committee on Environment and Public Works, United States Senate, One Hundred Second Congress, First Session, on S. 976, , United States. [Quantum Theory of Solids, R. E. Peierls](#) , 1996, 0192670174, 9780192670175. This book develops the subject from the basic principles of quantum mechanics. The emphasis is on a single statement of the ideas underlying the various approximations that have to be used and care is taken to separate sound arguments from conjecture. This book is written for the student of theoretical physics who wants to work in the field of solids and for the experimenter with a knowledge of quantum theory who is not content to take other people's arguments for granted. The treatment covers the electron theory of metals as well as the dynamics of crystals, including the author's work on the thermal conductivity of crystals which has been previously published in English.

[The Cliff Dwellings Speak: Exploring the Ancient Ruins of the Greater American Southwest, BenchMark Publishing of Colorado LLC, Beth Sagstetter, Bill Sagstetter](#) , 2010, 0964582430, 9780964582439. This book is intended as an introduction to Southwestern Archaeology, for casual visitors. The book will guide you around a site in Sherlock Holmes fashion, giving you very real tools for understanding cliff dwellings. The Cliff Dwellings Speak also introduces readers to the descendants of the cliff dwellers -- the Pueblo people of the Southwest who still live there today. The book is highly illustrated with black and white photographs and engravings from rare antique books. Using copious illustrations, Field

Guides in some chapters show the reader what to look for, and what it might mean. The Cliff Dwellings Speak is unique and is very different from any other book regarding understanding the Greater American Southwest (views of Native American, Anasazi, ruins at Mesa Verde, Colorado; landscape images of Colorado).

[Awkward Family Pet Photos, Mike Bender, Doug Chernack](#) , 2011, 0307888126, 9780307888129. The authors of the New York Times bestseller Awkward Family Photos are back with a hilarious tribute to the unbreakable and sometimes uncomfortable bond between people and their pets. There are few things more rewarding than having a pet. They love us unconditionally, shower us with attention, and because of them, we actually live longer. So, what can possibly be awkward about our animal BFFs? Well . . . nothing. In fact, were the awkward ones. We adore our pets, but lets face itsometimes L-O-V-E makes us go a little overboard. Like giving them middle names, throwing them elaborate birthday parties, and making them a Christmas sweater to match with the rest of the family. Truth is, what they cherish most is our companionship. And maybe thats the reason we care about them so muchbecause for such simple pleasures, they allow us to be as awkward as we want.

[The Lady's Maid, Dilly Court](#) , 2012, 0099562561, 9780099562566. In the quiet of a warm summer's evening, two young mothers are forced to give up their babies. Years later, Kate's world is one of servitude and poverty. As the daughter of a baronet, Josie's is one of privilege and luxury. And yet despite the differences in their circumstances the two young women have been friends since childhood. They are the exact opposites in looks, character and upbringing, but the invisible silken cord of their past binds them together in ways those closest to them are determined they must never know. When circumstances compel Kate and Josie to confront the past, the truth threatens to destroy their friendship forever.

Depression glass is still the most popular glass collected today and Gene Florence's Pocket Guide is one of the bestselling books dealing exclusively with this glass. Now completely revised with over 4,000 values being updated and hundreds of listings to reflect the ever-changing market, the guide includes patterns from the '40s and '50s for the first time.

Gorgeous, full-color photos show great detail and make identification simple.

[Communication Systems: An Introduction to Signals and Noise in Electrical Communication, A. Bruce Carlson, Paul B. Crilly](#) , 2010, 0071263322, 9780071263320. This new edition presents an introduction to electrical communication systems, including analysis methods, design principles, and hardware considerations. It has been updated to reflect current technology covering both analog and digital communication in this ever-evolving field.

[Methods for active participation: experiences in rural development from East and Central Africa, Terry D. Bergdall](#) , 1993, 0195727851, 9780195727852. This is a detailed and down-to-earth account of the processes of rural development pioneered by the Method for Active Participation Research and Development Project. The unique features of active participation are the practical techniques that are used for engaging marginal members of a community in the planning and implementation of relevant projects according to local priorities. The single, central message of this study is that rural people can be effective agents of their own development and do not, in all cases, need to wait for the initiatives of outside experts for guidance. To explore the strategies and problems associated with active participation, Terry Bergdall relates case studies of programs using these techniques in Kenya, Tanzania, and Zambia. He then goes on to outline the key aspects and requirements of active participation that will prove to be an invaluable resource for facilitators and all others working in rural development.

[Chasing Romeo, A.J. Byrd](#) , 2009, 1426830998, 9781426830990. Best Friends Forever--that's Anjenai, Kierra and Tyler. Growing up together in an Atlanta housing project, the girls have always been there for each other. But high school is a

whole new world, and the drama is just beginning....Anjenai, Kierra and Tyler believe their bond is strong enough to survive anything. Anything--except maybe Romeo Blackwell, the finest guy and a star athlete in their new high school. What starts out as a small fan club soon becomes a huge competition. And to win, Anjenai, Kierra and Tyler will have to be down for whatever. Things start to get seriously crazy. And with all the drama, can the girls' friendship survive when Romeo finally makes his choice?

[Medici Money: Banking, Metaphysics, And Art in Fifteenth-century Florence, Tim Parks](#) , 2006, 0393328457, 9780393328455. Their name is a byword for immense wealth and power, but before their renown as art patrons and noblemen, the Medicis built their fortune on banking. Banking in the fifteenth century, even at the height of the Renaissance, meant running afoul of the Catholic Church's prohibition against usury. It required more than merely financial skills to make a profit, and the legendary Medicis--most famously Cosimo and Lorenzo ("the Magnificent")--were masterly at the political, diplomatic, military, and even metaphysical tools that were needed to maintain their family's position. Parks uncovers the intrigues, dodges, and moral qualities that gave the Medicis their edge. Evoking the richness of the Florentine Renaissance and the Medicis' glittering circle, replete with artists, popes, and kings, Medici Money is a look into the origins of modern banking and its troubled relationship with art and religion. --From publisher description.

[Conversational Magic: Key to Poise, Popularity, and Success, Les Donaldson](#) , 1981, 0131721550, 9780131721555.

Shows how to overcome shyness, become more popular, improve one's love life, and manipulate others by learning to converse more effectively

[The throne of bones, Brian McNaughton](#) , 1997, 0965813509, 9780965813501.

[The Orange Mama Laid, Kristen Denney](#) , 2007, 0979219507, 9780979219504. The Orange Mama Laid" is a straightforward guide to the games that have kept generations of kids outdoors until the dinner bell rang and again until bedtime, and to the games that have kept them occupied on long winter days and car rides. With this book as a refresher, you'll be able to lure the kids away from their TV's and computers, break the ice with the newest ones and/or keep the kids active and entertained in any situation that allows for a little fun. Activities include the hand motions to "Itsy Bitsy Spider" and "This Little Piggy"; a variety of ways to decide who's It; the rules to "Capture the Flag," "SPUD," "SPIT," "Crazy Eights" and "Paper Football"; and the answers to all your favorite riddles and knock-knock jokes.

[Oxford Reading Tree: Stage 4: More Stories C More Stories C, Book 3, Roderick Hunt](#) , 2006, 0198456301, 9780198456308. Stage 4 More C stories are six more exciting new titles at Stage 4 of Oxford Reading Tree. Written by Roderick Hunt and illustrated by Alex Brychta. Titles include: A Strange Case, Stuck in the Mud, The Den, The Sale, Tug of War and Look Smart. Each of these stories cover NLS Y1 and Y2 words whilst at the same time engaging the children with interesting storylines and lively illustrations. The 24pp Teaching Notes included in the pack of six stories is the same

format as the pupil books for easy classroom management. Included in the Teaching Notes booklet are a Vocabulary Chart listing Year 1 and 2 high frequency words/context words, and a Curriculum Coverage Chart listing activities and outcomes for England, Scotland, Northern Ireland and Wales. Each story has individual notes and suggested activities for Group and Independent Reading, Speaking and Listening and Writing, with each section showing the relevant NLS objectives covered. Within each section are prompts and suggestions for responding to the story, personal experiences, cross-curricular links, role play and further suggestions on how to observe pupils' progress. All in a helpful and easy-to-use layout.

[Inspired Nurse, Rich Bluni](#) , 2009, 0974998672, 9780974998671. Few other professions afford the opportunity to impact lives on such a profound level, not only physically but emotionally and spiritually as well. Yet the same qualities that make nursing so deeply rewarding can also make it a challenge, over time, to sustain your energy and passion. Inspired Nurse helps us maintain and recapture those elusive qualities.

VIEWS AND VALUES is a thematic collection of 27 short fiction and non-fiction selections from international authors. Though the topics of the readings vary, the theme of "The Human Condition" threads through each of the selections to help students make connections in the different styles of writing.

[On the Boundaries of Occupation: Excavations at Burringham Road, Scunthorpe and Baldwin Avenue, Bottesford, North Lincolnshire, Peter Boyer, Jennifer Proctor, Robin Taylor-Wilson](#) , 2009, 0954293886, 9780954293888. Excavations at two sites in the southern suburbs of the modern industrial town of Scunthorpe, originally a rural landscape with a scatter of villages overlooking the River Trent and its tributary, Bottesford Beck. Finds of flint tools show that humans had been around throughout prehistory; by the late Iron Age the Burringham Road site probably lay at the southern limit of a settlement, and for much of the Roman period there is evidence of various activities, mostly agriculture-related, and including several corn-driers; perhaps there was a villa nearby. The Baldwin Avenue site shows evidence of a Middle Saxon settlement with notable artefacts being three large lead vessels of a type that seems peculiar to the region. The title of the report reflects the fact that these two sites are peripheral to larger complexes, but nevertheless provide good information about them.

[The Criminal Defence Service \(Representation Orders and Consequential Amendments\) Regulations 2006, Great Britain](#) ,

2006, 0110751078, 9780110751078. Enabling power: Access to Justice Act 1999, s. 26, sch. 3, para. 2A, 3A (2). Issued: 19.09.2006. Made: 11.09.2006. Laid: -. Coming into force: 02.10.2006. Guide is divided by state, starting with Maine and moving south to Florida and the Gulf Coast. Each section is color-coded for quick reference and opens with a brief description. The CD program provides help with each part of travel.

[Cell Phones & Sap Buckets: Six Years on Sapsucker Ridge, Neil Campbell](#) , 2010, 0986636606, 9780986636608.

[The Decoration of Houses, Edith Wharton, Ogden Codman, Jr.](#) , 2008, 1605204404, 9781605204406. Individuality in house-furnishing has seldom been more harped upon than at the present time. The cheap originality which finds expression in putting things to uses for which they were not intended is often confounded with individuality; whereas the latter consists not in an attempt to be different from other people at the cost of comfort, but in the desire to be comfortable in one's own way, even though it be the way of a monotonously large majority. It seems easier to most people to arrange a room like some one else's than to analyze and express their own needs. -from Chapter II: "Rooms in General" This classic 1898 manual of interior design is considered a standard reference of the art, and perfectly useful more than a century later. Here, renowned American architect OGDEN CODMAN, JR. (1863-1951) is joined by American author EDITH WHARTON (1862-1937), whose novels, including *The House of Mirth* (1905) and the Pulitzer Prize-winning *The Age of Innocence* (1920), took us into the wealthy-and tasteful-New York society she hailed from. Together, they offer timeless advice on such matters as: [the importance of balance and symmetry [how to avoid the superficial application of ornament [the necessity of adhering to proportion [the proper material for fireplace andirons [the usages of cornices [the decoration of windows [and much, much more.

[Baby Bear's Christmas Kiss, , John Prater](#) , 2005, 0099439638, 9780099439639. It's Christmas Day and all the family have come to visit. Baby Bear and the cousins are so excited they shake and poke and sniff all the presents under the tree. But suddenly Baby Bear realizes - Grandbear doesn't have a present! With a bit of snow and some mistletoe 'berries'

that twinkle like the star on the Christmas tree, Baby Bear creates a special snowberry snow bear for Grandbear. But he soon discovers that a Christmas kiss for Grandbear is worth more than any present! With simple, poignant details, Prater captures all the joy and warmth of family at Christmas time. John Prater studied art in Portsmouth and Brighton and worked as a teacher for many years before turning his attention to children's books. His first book, 'On Friday Something Funny Happened', was shortlisted for the Mother Goose Award in 1982. Prater first got the idea for Baby Bear when he became a granddad. This is the ninth Baby Bear book that he has written and illustrated. John Prater lives in Horndean, Hampshire.

[Keystone Keys Learning Teacher Resource Pkg.](#) , 2010, 0132454017, 9780132454018.

[Drought: Say what You Like, Debra Di Blasi](#) , 1997, 0811213323, 9780811213325. Two novellas. In Drought, a young couple's relationship on a failing cattle ranch is dissected, allowing us to see all the subcutaneous mental and physical violence they endure. Say what you like offers an even more ruthless examination of a couple's deep-seated pain, pared down to short, numbered sections.

[Out on a Ledge: Enduring the Lodz Ghetto, Auschwitz, and Beyond, Eva Libitzky, Fred Rosenbaum](#) , 2010, 0978967631, 9780978967635. An account of one woman's uncommon resourcefulness and perseverance, Out on a Ledge uncovers some of the secrets of Jewish suffering and survival in the twentieth century. Related in her plainspoken voice, it will be of considerable interest both to scholars and the general public. This book owes much to a recently opened trove of documents on the Holocaust, 150 million pages that were digitized and made accessible to researchers by the United States Holocaust Memorial Museum. Fred Rosenbaum was among an international team of twelve scholars assembled by the USHMM to examine and analyze the archive in the summer of 2009. It revealed a great deal of information about Eva Libitzky and her times. Original documents, including transport lists, medical records, and identity cards are reproduced in the appendix of this volume.

[The Virtue Of Prosperity: Finding Values In An Age Of Technoaffluence, Dinesh D'Souza](#) , 2002, 0743242068, 9780743242066. In The Virtue of Prosperity, Dinesh D'Souza examines the spiritual and social crisis spawned by the new economy and new technologies of the last ten years. D'Souza questions the basic premise of the American dream that prosperity and "progress" will better the human condition. Anchored in history, rich in anecdote, and supported by state-of-the-art data, The Virtue of Prosperity is a tough-minded critique of our high-tech culture, with a surprising prescription

for doing well and doing good.

[Doing and Being: An Interpretation of Aristotle's Metaphysics Theta, Jonathan Beere](#) , 2012, 019965204X, 9780199652044. Doing and Being confronts the problem of how to understand two central concepts of Aristotle's philosophy: *energeia* and *dunamis*. While these terms seem ambiguous between actuality/potentiality and activity/capacity, Aristotle did not intend them to be so. Through a careful and detailed reading of *Metaphysics Theta*, Beere argues that we can solve the problem by rejecting both "actuality" and "activity" as translations of *energeia*, and by working out an analogical conception of *energeia*. This approach enables Beere to discern a hitherto unnoticed connection between Plato's *Sophist* and Aristotle's *Metaphysics Theta*, and to give satisfying interpretations of the major claims that Aristotle makes in *Metaphysics Theta*, the claim that *energeia* is prior in being to capacity (*Theta 8*) and the claim that any eternal principle must be perfectly good (*Theta 9*).

[Dynamics in Document Design: Creating Text for Readers, Karen A. Schriver](#) , 1997, 0471306363, 9780471306368. From an international leader in document design, research-based insights about writing and visualizing documents that people can use . . . This book is for writers and graphic designers who create the many types of documents people use every day at home or school, in business or government. From high-tech instruction manuals and textbooks to health communications and information graphics, to online information and World Wide Web pages, this book offers one of the first research-based portraits of what readers need from documents and of how document designers can take those needs into account. Drawing on research about how people interpret words and pictures, this book presents a new and more complete image of the reader--a person who is not only trying to understand prose and graphics but who is responding to them aesthetically and emotionally. Written by document design expert Karen A. Schriver, Dynamics in Document Design features: * Case studies of documents before and after revision, showing how people think and feel about them * Analyses of the interplay of text and pictures, revealing how words, space, visuals, and typography can work together * A fascinating and informative timeline of the international evolution of document design from 1900 to the present

[Rural Settlements and Society in Anglo-Saxon England, Helena Hamerow](#) , 2012, 0199203253, 9780199203253. In the course of the fifth century, the farms and villas of lowland Britain were replaced by a new, distinctive form of rural settlement: the settlements of Anglo-Saxon communities. This volume presents the first major synthesis of the evidence - which has expanded enormously in recent years - for such settlements from across England and throughout the Anglo-Saxon period, and what it reveals about the communities who built and lived in them, and whose daily lives went almost wholly unrecorded. Helena Hamerow examines the appearance, 'life-cycles', and function of their buildings; the relationship of Anglo-Saxon settlements to the Romano-British landscape and to later medieval villages; the role of ritual in daily life; what distinguished 'rural' from 'urban' in this early period; and the relationship between farming regimes and settlement forms. A central theme throughout the book is the impact on rural producers of the rise of lordship and markets and how this impact is revealed through the remains of their settlements. Hamerow provides an introduction to the wealth of information yielded by settlement archaeology and to the enormous contribution that it makes to our understanding of Anglo-Saxon society.

[Impunity and Human Rights in International Law and Practice](#), [Naomi Roht-Arriaza Assistant Professor of Law at Hastings College of Law University of California Hastings College of Law](#) , 1995, 0195359712, 9780195359718. As dictatorships topple around the world and transitional regimes emerge from the political rubble, the new governments inherit a legacy of widespread repression against the civilian population. This repression ranges from torture, forced disappearances, and imprisonment to the killings of both real and perceived political opponents. Nonetheless, the official status of the perpetrators shields them from sanction, creating a culture of impunity in which the most inhumane acts can be carried out without fear of repercussions. The new governments wrestle with whether or not to investigate prior wrongdoings by

state officials. They must determine who, if any, of those responsible for the worst crimes should be brought to justice, even if this means annulling a previous amnesty law or risking a violent backlash by military or security forces. Finally, they have to decide how to compensate the victims of this repression, if at all. Beginning with a general consideration of theories of punishment and redress for victims, *Impunity and Human Rights in International Law and Practice* explores how international law provides guidance on these issues of investigation, prosecution, and compensation. It reviews some of the more well-known historical examples of societies grappling with impunity, including those arising from the Second World War and from the fall of the Greek, Spanish, and Portuguese dictatorships in the 1970s. Country studies from around the world look at how the problem of impunity has been dealt with in practice in the last two decades. The work then distills these experiences into a general discussion of what has and hasn't worked. It concludes by considering the role of international law and institutions in the future, especially given renewed interest in international mechanisms to punish wrong-doers. As individuals, governments, and international organizations come to grips with histories of repression and impunity in countries around the world, the need to define legal procedures and criteria for dealing with past abuses of human rights takes on a special importance. *Impunity and Human Rights in International Law and Practice* aims to share their experiences in the hope that lawyers, scholars, and activists in those countries where dealing with the past is only now becoming an imperative may learn from those who have recently confronted similar challenges. This work will be essential reading for lawyers, political and social scientists, historians and journalists, as well as human rights experts concerned with this important issue.

[Dinosaur in Danger, Paul Geraghty](#) , 2004, 0099438658, 9780099438656. The little dinosaur, Talon, has strayed too far from her pack. Suddenly, the ground shudders and with a thunderous blast the great volcano bursts to life. The rest of the pack run for their lives, but Talon is forced to run in the opposite direction and finds herself alone. Outside the safety of the pack Talon is terrified and has little chance of catching any decent food. Before long she is weak with hunger. Then Talon hears a familiar noise, the cries of her own kind. But it is an enemy pack! Tentatively, she watches and then for days follows at a distance. Will they accept her into the fold and ensure her survival? Paul Geraghty worked closely with Dr Norman MacLeod of the Natural History Museum, one of the world's most renowned dinosaur experts, on the crafting of this text. The result is an accurate portrayal of dinosaurs of the lower Cretaceous period combined with an exciting storyline and breathtaking illustrations.

[Mac OS X Panther Edition: The Missing Manual, David Pogue](#) , 2003, 0596006152, 9780596006150. Apple says that Mac OS X 10.3 introduces 150 new features--but that's not really true. In fact, "Panther" includes many more than that. It's faster, more polished, and much more efficient. But it still comes without a manual. With 300,000 copies in print, the first two versions of this book became industry bestsellers. Now David Pogue brings his humor and expertise to this completely rewritten, greatly expanded edition. It covers: Getting started. The early chapters demystify the Dock,

windows, and the unfamiliar Mac OS X folder structure--an ideal introduction. New technologies. Mac OS X 10.3 brings breakthroughs in window management (Expose, the Sidebar); security (File Vault, Secure Empty Trash); and productivity (faxing, Fast User Switching). Bonus software. Panther comes with over 50 free programs--and this book gives you expertise in all of them. This beefed-up edition includes all-new mini-manuals on iMovie, iDVD, iPhoto, iChat AV, and Safari. Basics of Unix. You can completely ignore Panther's Unix core. But if the command line intrigues you, this book offers a gentle introduction. Finding familiar features. Two "Where'd It Go?" Dictionaries make it easy for Mac OS 9 and Windows refugees to look up a traditional feature--and find out where it went in Mac OS X 10.3. As always, Mac OS X: The Missing Manual offers warm, witty writing, and bursts with the shortcuts, surprises, and design touches that make the Mac the most passionately championed computer in the world.

[Olivia's Luck, Catherine Alliott](#) , 2012, 0141973420, 9780141973425. From the bestselling author of A Rural Affair and A Crowded Marriage comes Catherine Alliott's brilliantly warm and funny take on taking control of your life, in Olivia's Luck. 'I don't care what colour you paint the sodding hall. I'm leaving.' When her husband Johnny suddenly walks out on ten years of marriage, their ten-year-old daughter and the crumbling house they're up to their eyeballs renovating, Olivia is at first totally devastated. How could he? How could she not have noticed his unhappiness? But she's not one to weep for long. Not when she's got three builders camped in her back garden, a neighbour with a never-ending supply of cast-off men she thinks Olivia would be drawn to and a daughter with her own firm views on . . . well, just about everything. Will Johnny ever come back? And if he doesn't, will Olivia's luck ever change for the better? Step into Alliott country with Olivia's Luck. Praise for Catherine Alliott: 'The writing is both intelligent and sparkling' Marian Keyes 'Alliott's joie de vivre is irresistible' Daily Mail Catherine Alliott is the author of twelve bestselling novels: A Crowded Marriage, A Married Man, Not That Kind of Girl, Going Too Far, The Old-Girl Network, Olivia's Luck, Rosie Meadows Regrets..., The Wedding Day, The Real Thing, The Secret Life of Evie Hamilton, One Day in May, A Rural Affair. She lives with her family in Hertfordshire.

[Gun Tools, Their History and Identification, Volume 2, R. Stephen Dorsey](#) , 1997, 0963120832, 9780963120830. Gun Tools, Their History and Identification, Vol. 2, is the result of the success and acclaim for Volume 1 of the same title and came as an outpouring of previously undocumented or little-known tools in private and public collections in the U.S.,

Great Britain and Europe. Volume 2 of Gun Tools offers the collector, historian, museum and archaeologist over 800 new photos spanning nearly 400 years of gun tools. Volume 2 addresses all of the many categories of gun tools covered in Volume 1 and addresses several new categories such as loading aids, aiming and optical devices, artillery fuze setters and cleaning aids. Many Confederate pieces are also shown for the first time as well as treasures from H.M. Tower of London, Imperial War Museum and Pattern Room Collections. Volume 2 is a major and exciting expansion of our knowledge of the fascinating subject of gun tools and its coverage duplicates none of the tools covered in Volume 1.

[Collaborative Intelligence: Using Teams to Solve Hard Problems, J. Richard Hackman](#) , 2011, 1605099929, 9781605099927. Intelligence professionals are commonly viewed as solo operators. But these days intelligence work is mostly about collaboration. Interdisciplinary and even inter-organizational teams are necessary to solve the really hard problems intelligence professionals face. Tragically, these teams often devolve into wheel-spinning, contentious assemblies that get nothing done. Or members may disengage from a team if they find its work frustrating, trivial, or a waste of their time. Even teams with a spirit of camaraderie may take actions that are flat-out wrong. But there is also good news. This book draws on recent research findings as well as Harvard Professor Richard Hackman's own experience as an intelligence community researcher and advisor to show how leaders can create an environment where teamwork flourishes. Hackman identifies six enabling conditions such as establishing clear norms of conduct and providing well-timed team coaching that increase the likelihood that teams will be effective in any setting or type of organization.. Although written explicitly for intelligence, defense, crisis management, and law enforcement professionals it will also be valuable for improving team success in all kinds of leadership, management, service, and production teams in business, government, and nonprofit enterprises.

[Night and Day, Virginia Woolf](#) , 2000, 0141184698, 9780141184692. Katherine Hilbery, torn between past and present, is a figure reflecting Woolf's own struggle with history. Both have illustrious literary ancestors: in Katherine's case, her poet grandfather, and in Woolf's, her father Leslie Stephen, writer, philosopher, and editor. Both desire to break away from the demands of the previous generation without disowning it altogether. Katherine must decide whether or not she loves the iconoclastic Ralph Denham; Woolf seeks a way of experimenting with the novel for that still allows her to express her affection for the literature of the past. This is the most traditional of Woolf's novels, yet even here we can see her beginning to break free; in this, her second novel, with its strange mixture of comedy and high seriousness, Woolf had already found her own characteristic voice.

[Time to Hunt, Stephen Hunter](#) , 2010, 0307762866, 9780307762863. He is the most dangerous man alive. He only wants to live in peace with his family, and forget the war that nearly killed him... It's not going to happen. Stephen Hunter's epic national bestsellers, Point of Impact and Black Light, introduced millions of readers to Bob Lee Swagger, called "Bob the Nailer," a heroic but flawed Vietnam War veteran forced twice to use his skills as a master sniper to defend his life and his honor. Now, in his grandest, most intensely thrilling adventure yet, Bob the Nailer must face his deadliest foe from Vietnam--and his own demons--to save his wife and daughter. During the latter days of the Vietnam War, deep in country, a young idealistic Marine named Donny Fenn was cut down by a sniper's bullet as he set out on patrol with

Swagger, who himself received a grievous wound. Years later Swagger married Donny's widow, Julie, and together they raise their daughter, Nikki, on a ranch in the isolated Sawtooth Mountains in Idaho. Although he struggles with the painful legacy of Vietnam, Swagger's greatest wish--to leave his violent past behind and live quietly with his family--seems to have come true. Then one idyllic day, a man, a woman, and a girl set out from the ranch on horseback. High on a ridge above a mountain pass, a thousand yards distant, a calm, cold-eyed shooter, one of the world's greatest marksmen, peers through a telescopic sight at the three approaching figures. Out of his tortured past, a mortal enemy has once again found Bob the Nailer. Time to Hunt proves anew why so many consider Stephen Hunter to be our best living thriller writer. With a plot that sweeps from the killing fields of Vietnam to the corridors of power in Washington to the shadowy plots of the new world order, Hunter delivers all the complex, stay-up-all-night action his fans demand in a masterful tale of family heartbreak and international intrigue--and shows why, for Bob Lee Swagger, it's once again time to hunt. From the Hardcover edition.

[Accounting, 5, Volume 3, Charles T. Horngren, W. Morley Lemon, Renaissance Corporate Services](#) , 2002, . The Demo Docs System of instruction replicates the classroom experience by providing more "I get it" moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or "get it") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the "I get it" moments outside of class-keeping both you and the students on track.

[New Mynursinglab with Pearson Etext -- Access Card -- For Medical-Surgical Nursing \(6-Month Access\), Pearson Education, Priscilla LeMone, Karen M. Burke, Gerene Bauldoff](#) , 2012, 0133054330, 9780133054330. Sets the standard for introducing the field of comparative politics This text begins by laying out a proven analytical framework that is accessible for students new to the field. The framework is then consistently implemented in twelve authoritative country

cases, not only to introduce students to what politics and governments are like around the world but to also understand the importance of their similarities and differences. Written by leading comparativists and area study specialists, Comparative Politics Today helps to sort through the world's complexity and to recognize patterns that lead to genuine political insight. MyPoliSciLab is an integral part of the Powell/Dalton/Strom program. Explorer is a hands-on way to develop quantitative literacy and to move students beyond punditry and opinion. Video Series features Pearson authors and top scholars discussing the big ideas in each chapter and applying them to enduring political issues. Simulations are a game-like opportunity to play the role of a political actor and apply course concepts to make realistic political decisions. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

[Materiality and Interior Construction, Jim Postell, Nancy Gesimondo](#) , 2011, 1118019695, 9781118019696. A comprehensive reference of materials for interior designers and architects Choosing the right material for the right purpose is a critical and often overlooked aspect in the larger context of designing buildings and interior spaces. When specified and executed properly, materials support and enhance a project's overall theme, and infuse interior space with a solid foundation that balances visual poetry and functionality. Materiality and Interior Construction imparts essential knowledge on how materials contribute to the construction and fabrication of floors, partitions, ceilings, and millwork, with thorough coverage of the important characteristics and properties of building materials and finishes. Individual coverage of the key characteristics of each material explores the advantages and disadvantages of using specific materials and construction assemblies, while helping readers discover how to make every building element count. In addition, Materiality and Interior Construction: Is highly illustrated throughout to show material properties and building assemblies Supplies rankings and information on the "green" attributes of each material so that designers can make informed decisions for specifications Is organized by application for easy and quick access to information Includes a companion website, featuring an extensive online image bank of materials and assemblies Rather than a typical catalog of materials, Materiality and Interior Construction is efficiently organized so that the reader is guided directly to the options for the location or assembly they are considering. Reliable and easy to use, Materiality and Interior Construction is a one-

stop, comprehensive reference for hundreds of commonly used materials and their integration as building components and an invaluable resource that every interior designer or architect should add to their set of tools.

[Recollections of Sexual Abuse: Treatment Principles and Guidelines, Christine A. Courtois](#) , 2002, 0393703975, 9780393703979. This book has a two-fold purpose: (1) to provide the practicing clinician with information about the controversy surrounding delayed/repressed memory of sexual abuse and (2) to provide treatment principles and guidelines for working with these issues. Since the eruption of the recovered memory controversy in 1992, the treatment of adults who report abuse as children (whether their memory has been relatively continuous or has been recovered) has become a high-risk area, as numerous lawsuits have been filed alleging false memory of abuse due to suggestive therapeutic practices. In this climate, clinicians have become fearful, cautious, and confused about how to practice responsibly with this population. Since a large percentage of those seeking psychotherapy have a history of sexual abuse, all clinicians need a clear articulation of the current evolving standard of care for clients reporting memories of abuse. Drawing together material from many sources, this book provides state-of-the-art principles and guidelines for treatment when memories of past abuse are at issue. It covers available empirical and clinical data on human memory processes for normal and traumatic events and on the treatment of posttraumatic conditions in general and child sexual abuse in particular; the critiques and concerns voiced by cognitive psychologists who investigate memory and suggestibility issues; the recommendations made by a number of professional task forces and advisory committees charged with studying the issues involved in the controversy and making recommendations for practice; and the recommendations of expert clinicians and clinical researchers. Especially useful is Courtois's application of the treatment decision model to a range of clinical scenarios, from continuous, corroborated memory of abuse to suspicions of abuse based on symptomatology. Speaking with authority and empathy, Courtois shows clinicians how to practice responsibly and safely while doing memory work. Her guidance is invaluable.

[The Essential Davidson, Donald Davidson](#) , 2006, 0199288860, 9780199288861. The Essential Davidson compiles the most celebrated papers of one of the twentieth century's greatest philosophers. It distils Donald Davidson's seminal contributions to our understanding of ourselves, from three decades of essays, into one thematically organized collection. A new, specially written introduction by Ernie Lepore and Kirk Ludwig, two of the world's leading authorities on his work,

offers a guide through the ideas and arguments, shows how they interconnect, and reveals the systematic coherence of Davidson's worldview. Davidson's philosophical program is organized around two connected projects. The first is that of understanding the nature of human agency. The second is that of understanding the nature and function of language, and its relation to the world. Accordingly, the first part of the book presents Davidson's investigation of reasons, causes, and intentions, which revolutionized the philosophy of action. This leads to his notable doctrine of anomalous monism, the view that all mental events are physical events, but that the mental cannot be reduced to the physical. The second part of the book presents the famous essays in which Davidson set out his highly original and influential philosophy of language, which founds the theory of meaning on the theory of truth. These fifteen classic essays will be invaluable for anyone interested in the study of mind and language. Fascinating though they are individually, it is only when drawn together that there emerges a compelling picture of man as a rational linguistic animal whose thoughts, though not reducible to the material, are part of the fabric of the world, and whose knowledge of his own mind, the minds of others, and the world around him is as fundamental to his nature as the power of thought and speech itself.

[The Power of Eye Contact, Michael Ellsberg](#) , 2010, 0061991317, 9780061991318. Eye contact can land you a job. It can get you a date. It can deepen your connections with the people you love. It can make or break business relationships. It can help win a fight. It can win over an audience. Simply put, eye contact is one of the most powerful tools in human face-to-face interaction. The Power of Eye Contact is your concise guide to harnessing the potent force of eye contact. Master this force and you will notice three things: You meet more people. Your connections deepen with family, friends, and business prospects. You look, feel, and act more confident. The Power of Eye Contact is your invaluable tool to enhance your relationships in every part of your life.

[The Dog Who Danced, Susan Wilson](#) , 2013, 1250023289, 9781250023285. If theres been a theme in Justine Meades life, its loss. Her mother, her home, even her son. The one bright spot in her loss-filled life, the partner she could always count on, was Mack, her grey and black Sheltie that is, until she is summoned back to her childhood home after more than twenty years away. Ed and Alice Parmalee are mourning a loss of their own. Seven years after their daughter was taken from them, theyre living separate lives together. Dancing around each other, and their unspeakable heartbreak, unable to bridge the chasm left between them. When they find a little black and gray dog by the side of the road, they take him in. Fiercely loyal, acutely perceptive and guided by a herd dogs instinct, Mack has a way of bringing out the best in his humans. Whether its as Justines partner, or just the ebb and flow of a familys rhythms, its as though the little Shetland Sheepdog was born to bring people together. Everyone needs Mack. But to whom does the little dog who danced belong?

On their way to Cape Town, Biggles and his friends are diverted into a search for the Lost Oasis in Egypt, rumoured to hide the lost army of Cambyses. However, one man does not want them to succeed, and takes steps to ensure their failure. The friends are captured by a lost tribe, and Biggles has to sing his way out of trouble.

[Birthday Poems: A Celebration, Jason Shinder](#) , 2002, 1560253452, 9781560253457. Birthday Poems presents an array of more than 100 friendly, wise, affectionate voices including William Carlos Williams, Kay Boyle, Allen Ginsberg, and June Jordan on the subject of birthdays. The birth of a son or daughter, the passionate address to another on the occasion of their birth, memories of birthdays past, birthday parties and rituals, the blessings of being alive and the knowledge of time passing, literary tributes from one writer to another, are some of the catalysts for many of the poems. The ultimate birthday gift, Birthday Poems will include a subject index making it easy to find favorite poems for husbands, wives, sons, daughters, friends or the year being celebrated. It will also include a preface on the history of birthdays and a postscript about the most popular song in the world, "Happy Birthday To You," the everywhere-known lyrics written by two women in Lexington, Kentucky in the late nineteenth century.

[North Toward Home, Willie Morris](#) , 2000, 0375724605, 9780375724602. With his signature style and grace, Willie Morris, arguably one of this country's finest Southern writers, presents us with an unparalleled memoir of a country in transition and a boy coming of age in a period of tumultuous cultural, social, and political change. In North Toward Home, Morris vividly recalls the South of his childhood with all of its cruelty, grace, and foibles intact. He chronicles desegregation and the rise of Lyndon Johnson in Texas in the 50s and 60s, and New York in the 1960s, where he became the controversial editor of Harper's magazine. North Toward Home is the perceptive story of the education of an observant and intelligent young man, and a gifted writer's keen observations of a country in transition. It is, as Walker Percy wrote, "a touching, deeply felt and memorable account of one man's pilgrimage."

[French Tales.](#) , 2008, 0191647535, 9780191647536. French Tales is a collection of twenty-two translated stories associated with the twenty-two regions of France. The book, which includes both well-known and little-known writers, for example Prosper M--eacute--;rim--eacute--;e in the nineteenth century and Anne-Marie Garat in the twenty-first, affords readers a panoramic view of French society and culture, reflecting, as it does, its variety and diversity from Brittany to Corsica. Writers include among others Maupassant, Zola, Annie Saumont, Marcel Aym--eacute--;, Didier Daeninckx and Stephane --Eacute--;mond. The subject-matter ranges from stories about marriage, the First World War and homelessness to house-buying, childhood and honour-killing. Following the model of Paris Tales, also translated by Helen Constantine, each story is illustrated with a striking photograph and there is a map indicating the position of the French regions. There is an introduction and notes to accompany the stories and a selection of Further Reading. The book will appeal to people who love travelling or are armchair travellers, as much as to those who love France and things French.

[American Indian History: A Documentary Reader, Camilla Townsend](#) , 2009, 1405159073, 9781405159074. This Reader from the Uncovering the Past series provides a comprehensive introduction to American Indian history. Over 60 primary documents allow the voices of natives to illuminate the American past. Includes samples of native languages just above the full translations of particular texts. Provides comprehensive introductions and headnotes, as well as images, an extensive bibliography, and suggestions for further research. Includes such texts as a decoded Maya inscription, letters written during the French and Indian War on the distribution of small pox blankets, and a diatribe by General George Armstrong Custer shortly before he was killed at the Battle of the Little Big Horn.

[Unloved: The True Story of a Stolen Childhood, Peter Roche](#) , 2007, 014103355X, 9780141033556. This story begins and ends with a photograph taken when I was two years old. Finding it was like discovering that I really did exist after all . It was as if someone was saying No, it wasn't all in your imagination, that childhood really did happen, and it happened to you. Brought up in South London by violent and abusive parents, the Roche children knew only cruelty, neglect, starvation and squalor. As one of ten and regularly beaten, Peter searched dustbins for food and slept rough when he couldn't face going home. It was survival at all costs, every child for itself. Expelled from school at the age of 14, Peter s

life of petty crime landed him in borstal and exposed him to yet more sickening abuse. Then, years later, a chance meeting with a social worker led to his discovery of a photograph - a portrait, taken by Lord Snowdon, of a toddler dressed in rags. It was an image that had shocked the world. The boy in the picture was Peter. Unloved is a harrowing account of a shattered childhood, told by a man who has finally found the courage to speak out. This is his story.

[Myths of Wilderness in Contemporary Narratives: Environmental Postcolonialism in Australia and Canada, Kylie Crane](#) , 2012, 1137000783, 9781137000781. The concept of "wilderness" as a foundational idea for environmentalist thought and writing has become the subject of vigorous debates over the last two decades. This book offers a carefully articulated taxonomy of the forms that wilderness writing has taken in recent Australian and Canadian literature, expanding on this work in unusual ways by re-emphasizing both country's origins as colonies. In its combination of ecocriticism, postcolonialism, and cultural geography, Crane makes an important and original contribution to current ecocritical research.

[Interactive Whiteboard Activities: Phonemic Awareness and Phonics, Shell Education, Teacher Created Materials](#) , 2011, 1425806740, 9781425806743. Now with more activities, these easy to implement activities are perfect for integrating interactive whiteboards into your early childhood instruction! The CD, designed for Grades PreK-2, supports content-area lessons with standards-based phonemic awareness and phonics activities in an engaging, visual, and interactive way designed to reach all learners. Designed to help students recognize the sounds that form familiar words, each activity concentrates on phonemes, the building blocks of language, and lets students practice matching those phonemes to illustrations of recognizable words. Students can manipulate objects as they experiment and simultaneously hear the sounds for those objects. As students see the relationships between the sounds that make up words, they form a better understanding of the spoken language, which leads to better reading comprehension. Activities focus on beginning sounds, rhyming, blending, and letter recognition. This resource supports the Common Core State Standards and supports core concepts of STEM instruction. The pack includes a Resource CD with 16 activities and a User's Guide.

[Cloud Computing Explained, John Rhoton](#) , 2009, 0956355609, 9780956355607. Cloud Computing Explained provides an overview of Cloud Computing in an enterprise environment. There is a tremendous amount of enthusiasm around cloud-based solutions and services as well as the cost-savings and flexibility that they can provide. It is imperative that all senior technologists have a solid understanding of the ramifications of cloud computing since its impact is likely to

permeate the entire IT landscape. However, it is not trivial to introduce a fundamentally different service-delivery paradigm into an existing enterprise architecture. This book describes the benefits and challenges of Cloud Computing and then leads the reader through the process of assessing the suitability of a cloud-based approach for a given situation, calculating and justifying the investment that is required to transform the process or application, and then developing a solid design that considers the implementation as well as the ongoing operations and governance required to maintain the solution in a partially outsourced delivery model.

Rochester, New York: Lawyers Co-operative Publishing, 1921. 259 pp. Reprinted 1992 by The Lawbook Exchange, Ltd. LCCN 92-070809. ISBN 0-9630106-2-X. Cloth. \$50. * A classic account of law books and their authors. Within the pages of this volume will be found the stories of great legal writers, and more-- especially the story of their legal writings, the inception, production, and vicissitudes of works which have become classics of legal literature. Covers the lives and publications of Littleton, Coke, Blackstone, Cowell, Kent, Wheaton and Livingston.

[The First Horseman, John Case](#) , 2008, 1407008951, 9781407008950. In the Book of Revelations, the Four Horsemen herald the arrival of the Apocalypse. When the First Horseman thunders forth, pestilence will spread throughout the land. For the First Horseman is Plague... The Spanish Flu killed thirty million people worldwide in 1918. Now, with history threatening to repeat itself, a scientific expedition speeds toward a remote island in the Arctic Sea to recover strains of the lethal virus preserved under layers of ice. For Washington Post reporter Frank Daly, it is the story of a lifetime. But his plan to join the expedition is ruined by a ferocious storm that delays him. And when he meets up with the ship upon its return to port in Norway, it is clear that something has gone terribly wrong. Fear haunts the faces of the crew. No one will talk. And someone wants Daly to stop asking questions. But if there's a wall around the facts, Daly will batter it down. Persistent and resourceful, he knows how to get answers when none are given. Yet the more he uncovers, the more dangerous the stakes become. Until at last he comes face-to-face with a shocking secret, pitching him into a harrowing race to prevent nothing less than... apocalypse.

[The World Beyond, Sangeeta Bhargava](#) , 2012, 0749040580, 9780749040581. 1855, Lucknow. As tensions simmer in the heat of repressive colonial India, a prince of Avadh and an English woman defy their societies prejudices to fall in love. But in a world where private happiness is at the mercy of wider events, even as Salim and Rachael are drawn closer together, their privileged lives are about to be torn apart. Trouble begins when the British annex Avadh and banish the rightful king. Determined to recover what is rightfully his, Salim seizes the chance to fight back when a small sepoy mutiny flares into bloody rebellion against British rule. As unrest spreads across the subcontinent, the contested ancient city of Lucknow proves one of the most dangerous places to be. Torn between their loyalties to each other, their families and the opposing sides that threaten to raze Lucknow to the ground, can Salim and Rachael's love prove strong enough to rise above the devastation surrounding them, and survive together to a world beyond? For fans of MM Kaye's *The Far Pavilions*, A love story fraught with the tension of the Indian Mutiny.

["Have You Seen . . . ?", David Thomson](#) , 2008, 0307270521, 9780307270528. In 1975, David Thomson published his Biographical Dictionary of Film, and few film books have enjoyed better press or such steady sales. Now, thirty-three

years later, we have the companion volume, a second book of more than 1,000 pages in one voice that of our most provocative contemporary film critic and historian. Juxtaposing the fanciful and the fabulous, the old favorites and the forgotten, this sweeping collection presents the films that Thomson offers in response to the question he gets asked most often: What should I see? This new book is a generous history of film and an enticing critical appraisal written with as much humor and passion as historical knowledge. Not content to choose his own top films (though they are here), Thomson has created a list that will surprise and delight you and send you to your best movie rental service. But he also probes the question: after one hundred years of film, which ones are the best, and why? *Have You Seen . . . ?* suggests a true canon of cinema and one that's almost completely accessible now, thanks to DVDs. This book is a must for anyone who loves the silver screen: the perfect confection to dip into at any point for a taste of controversy, little-known facts, and ideas about what to see. This is a volume you'll want to return to again and again, like a dear but argumentative friend in the dark at the movies. From the Hardcover edition.

[Roots Demystified: Change Your Gardening Habits to Help Roots Thrive, Robert Kourik](#) , 2008, 0961584807,

9780961584801. Explains simple solutions about growing healthy roots and, thereby, healthier plants. Explores the subterranean part of every gardener's world, revealing how roots really grow while dispelling myths such as where most gardeners apply water, mulch, and fertilizer or compost. Covers lawns, prairies, shrubs, vegetables, fruit trees, and native and ornamental trees. Includes practical tips for how a gardener might use this new information to create more abundant vegetables, better lawns and sturdier trees and shrubs. Also describes several ways to garden without turning the soil.--From publisher description.

[Polymer Nanocomposites Handbook, Rakesh K. Gupta, Elliot Kennel, Kwang-Jea Kim](#) , 2009, 142000980X,

9781420009804. Reflecting the exceptional growth in the use of nanostructured materials for an increasing range of industrial applications, *Polymer Nanocomposites Handbook* comprehensively covers the synthesis of nanomaterials that act as the building blocks of polymer nanocomposites and polymers that act as matrix materials. From early history to new technologies, the book guides readers through the development of nanocomposites and their broad and rapidly developing applications from flame retardant properties to advances in polymer compounding. Using examples from today's leading academic and industrial research labs, top scientists provide in-depth discussions of the science, processing, and technology that have accompanied nanocomposites' ascension into the world of chemical and materials science. With nineteen chapters authored by world leaders in nanocomposite research, this handbook provides diverse and authoritative coverage on the scientific underpinnings and revolutionary discoveries related to this promising field.

[The Effects of Inflation and Taxation on the Costs of Home Ownership: A Theoretical Analysis, Roslyn K. Anstie,](#)

[Australian National University, Centre for Economic Policy Research](#) , 1981, 0949838330, 9780949838339.

[Practical Education Law, Angela Jackman, Deborah Hay, Pat Wilkins](#) , 2005, 1853288160, 9781853288166. The book will

ensure that the common pitfalls confronting the legal adviser with little or no experience of education law are avoided. It will provide clear explanation and information in relation to appropriate remedies and time limits in the complex and sometimes overlapping statutory appeal framework. It will also identify when judicial review is appropriate and provide clear precedents in respect of the various different statutory appeals, together with judicial review proceedings. The book will aim to ensure that the right solutions for a client's particular problem is readily identified in a step-by-step guide. It will provide a portable but thorough guide to the law, together with practical advice, examples and precedents, enabling the busy practitioner to rapidly identify and grasp the legislative background to education law issues raised by his or her clients.

[The History of Childhood: The Untold Story of Child Abuse, Lloyd DeMause](#) , 1991, 0947792686, 9780947792688.

[Kilts, Confetti and Conspiracy, Bill Shackleton](#) , 2008, 0955496470, 9780955496479. Kilts, Confetti & Conspiracy is in a class of its own in terms of that it could easily be described as a 'comedy thriller'. Does such a category exist? It does now, because the author has weaved an ingenious plot involving the Prime Minister and his bride-to-be into the setting of a closely knit highland community with all the characters (and a few more besides) that you can imagine a place like that could be home to. From beginning to end this book will leave the reader either enthralled by the plot or in fits of laughter at the antics of some of the story's many protagonists all challenging for centre stage.

[135 Tips for Writing Successful Business Documents, Sheryl Lindsell-Roberts](#) , 2006, 0547350295, 9780547350295. The ability to write well is a critical skill for professionals in nearly every field. Good writers provide leadership, influence decisions, and advance their own careers. In this new book, Sheryl Lindsell-Roberts draws from her twenty-plus years of experience as a successful consultant for clients in business, education, and government. In a lively, engaging style, she explains how to write persuasively for virtually any audience. Part 1 addresses the basics of all business writing: understanding the reader, drafting, achieving the right tone, creating visual impact, and editing. Part 2 provides more specific advice on brochures, executive summaries, speeches, PowerPoint presentations, Web site content, and much more. Concrete examples illustrate practical strategies such as how to present a message positively instead of negatively, how to sequence information for different kinds of readers, and how to use charts to highlight key points. Packed with valuable information obtained from actual clients in the field, 135 Tips for Writing Successful Business Documents is guaranteed to help anyone who reads it write to hit the mark.

[Cite Right, Second Edition: A Quick Guide to Citation Styles--MLA, APA, Chicago, the Sciences, Professions, and More,](#)

[Charles Lipson](#) , 2011, 0226484645, 9780226484648. Thousands of students have turned to veteran teacher Charles Lipson for no-nonsense advice on how to cite sources properly and avoid plagiarism when writing their research papers. This new edition of *Cite Right*, the popular overview of all major systems of citation, has been updated to reflect the most current versions of Chicago, MLA, APA, and other styles, and to discuss citation methods in the rapidly changing context of the Internet, digital publishing, and e-books. Best of all, it's very easy to use. Lipson first explains why it is so important to use citations and to present them accurately in research writing. He then outlines the main citation styles students and researchers are likely to encounter in their academic work: Chicago; MLA; APA; AAA (anthropology and ethnography); CSE (biological sciences); AMA (medical sciences); ACS (chemistry); physics, astrophysics, and astronomy; and mathematics, computer science, and engineering. New sections have been added on IEEE and ASCE styles, often used in engineering. Each style is presented simply and clearly with examples drawn from a wide range of source types crossing all disciplines, from the arts and humanities to the sciences and medicine. The second edition has also been updated to include a discussion of the merits and pitfalls of citation software, as well as new examples showing proper citation style for video blogs, instant messages, social networking sites, and other forms of digital media. Based on deep experience in the academic trenches, this thoroughly revised edition is intended to appeal to anyone a student, professional, or academic who needs an efficient, authoritative guide for citing sources across a wide range of disciplines.

[After the Music Stopped: The Financial Crisis, The Response, And The Work Ahead, Alan S. Blinder](#) , 2013, 1594205302, 9781594205309. One of our wisest and most clear-eyed economic thinkers offers a masterful narrative of the crisis and its lessons. Many fine books on the financial crisis were first drafts of history? books written to fill the need for immediate understanding. Alan S. Blinder, esteemed Princeton professor, Wall Street Journal columnist, and former vice chairman of the Federal Reserve Board, held off, taking the time to understand the crisis and to think his way through to a truly comprehensive and coherent narrative of how the worst economic crisis in postwar American history happened, what the government did to fight it, and what we can do from here? mired as we still are in its wreckage. With bracing clarity, Blinder shows us how the U.S. financial system, which had grown far too complex for its own good? and too unregulated for the public good? experienced a perfect storm beginning in 2007. Things started unraveling when the much-chronicled housing bubble burst, but the ensuing implosion of what Blinder calls the ?bond bubble was larger and more devastating.

Some people think of the financial industry as a sideshow with little relevance to the real economy?where the jobs, factories, and shops are. But finance is more like the circulatory system of the economic body: if the blood stops flowing, the body goes into cardiac arrest. When America's financial structure crumbled, the damage proved to be not only deep, but wide. It took the crisis for the world to discover, to its horror, just how truly interconnected?and fragile?the global financial system is. Some observers argue that large global forces were the major culprits of the crisis. Blinder disagrees, arguing that the problem started in the U.S. and was pushed abroad, as complex, opaque, and overrated investment products were exported to a hungry world, which was nearly poisoned by them. The second part of the story explains how American and international government intervention kept us from a total meltdown. Many of the U.S. government's actions, particularly the Fed's, were previously unimaginable. And to an amazing?and certainly misunderstood?extent, they worked. The worst did not happen. Blinder offers clear-eyed answers to the questions still before us, even if some of the choices ahead are as divisive as they are unavoidable. After the Music Stopped is an essential history that we cannot afford to forget, because one thing history teaches is that it will happen again.

[Database and Data Communication Network Systems, Three-Volume Set: Techniques and Applications, Cornelius T. Leondes](#) , 2002, 0080530281, 9780080530284. Database and Data Communication Network Systems examines the utilization of the Internet and Local Area/Wide Area Networks in all areas of human endeavor. This three-volume set covers, among other topics, database systems, data compression, database architecture, data acquisition, asynchronous transfer mode (ATM) and the practical application of these technologies. The international collection of contributors was culled from exhaustive research of over 100,000 related archival and technical journals. This reference will be indispensable to engineering and computer science libraries, research libraries, and telecommunications, networking, and computer companies. It covers a diverse array of topics, including:* Techniques in emerging database system architectures* Techniques and applications in data mining* Object-oriented database systems* Data acquisition on the WWW during heavy client/server traffic periods* Information exploration on the WWW* Education and training in multimedia database systems* Data structure techniques in rapid prototyping and manufacturing* Wireless ATM in data networks for mobile systems* Applications in corporate finance* Scientific data visualization* Data compression and information retrieval* Techniques in medical systems, intensive care units

[Patient Care Skills, Minor, Scott Duesterhaus Minor](#) , 2013, 0133055876, 9780133055870. Both an ideal resource for those entering healthcare and an excellent professional reference, Patient Care Skills, Seventh Edition helps readers learn

both specific procedures and general rules of good body mechanics, patient handling, and safety. Extensively updated to reflect the latest best practices in patient care, communication, and documentation, this full-color book delivers clear, accurate, readable information through engaging photographs and simple text. Coverage includes: patient positioning and transfer, vital signs, aseptic techniques, and much more. For each procedure presented, step-by-step illustrations are accompanied by brief written explanations. Since procedures are built around illustrations, less text is required, and students can immediately see if they are performing the correct steps in the correct sequence.

[Oxidation of Amino Acids, Peptides, and Proteins: Kinetics and Mechanism, Virender K. Sharma, Steven E. Rokita](#) , 2012, 111848245X, 9781118482452. Explains the role of reactive intermediates in biological systems as well as in environmental remediation. With its clear and systematic approach, this book examined the broad range of reactive intermediate that can be generated in biological environments, detailing the fundamental properties of each reactive intermediate. Readers gain a contemporary understanding of how these intermediates react with different compounds, with an emphasis on amino acids, peptides, and proteins. The author not only sets forth the basic chemistry and nature of reactive intermediates, he also demonstrates how the properties of the intermediates presented in the book compare with each other. Oxidation of Amino Acids, Peptides, and Proteins begins with a discussion of radical and non-radical reactive species as well as an exploration of the significance of reactive species in the atmosphere, disinfection processes, and environmental remediation. Next, the book covers such topics as: Thermodynamics of amino acids and reactive species and the effect of metal-ligand binding in oxidation chemistry Kinetics and mechanisms of reactive halogen, oxygen, nitrogen, carbon, sulfur and phosphate species as well as reactive high-valent Cr, Mn, and Fe species Reactivity of the species with molecules of biological and environmental importance Generation of reactive species in the laboratory for kinetics studies Oxidation of amino acids, peptides, and proteins by permanganate, ferryl, and ferrate species Application of reactive species in purifying water and treating wastewater With this book as their guide, readers will be able to assess the overall effects of reactive intermediates in biological environments. Moreover, they'll learn how to apply this knowledge for successful water purification and wastewater treatment.

[The Leap Year Book, Barbara Sutton-Smith](#) , 1999, 1550415980, 9781550415988. What is leap year? How many have we had since the calendar was reformed in 1582? If you were born on February 29, 1944, how old would you be? When would you celebrate your golden birthday? Why are leap years dangerous for single men? Find the answers to these questions and more in The Leap Year Book, a collection of leap year trivia and lore. Discover what earth-shattering events occurred on February 29, what famous personalities share this erratic birth-rate, and why the advent of the leap

year sent bachelors everywhere into a tailspin. With full-colour illustrations throughout, The Leap Year Book is the perfect birthday wish for all our leap year sons and daughters.

[Women Have All The Power: Too Bad They Don't Know It!: Secrets Every Man's Daughter Should Know, Michael J.](#)

[Lockwood](#) , 2007, 0615166164, 9780615166162. Women have given up their power and control in relationships by lowering their standards and compromising their values to please men. As a result, men have happily taken advantage of their misfortune by convincing them he is the prize. Most men would prefer I keep these secrets under lock & key, but it's time to take back your rightful position. Here's what you'll learn * Why men live for the Thrill of the Hunt. * The techniques men use to get you in bed and away from the altar. * How to get out of your own way You may be the greatest contributor to your relationship strife. * Ten things to never do on a date * Why many career women can't keep a man. * How to regain your rightful position of power in relationships. * How to keep home-wreckers out of your marriage.

[History of Women Artists for Children, Vivian Sheldon Epstein](#) , 1987, 0960100261, 9780960100262. Brief biographies of important women artists from the sixteenth century to the present are accompanied by examples of each artist's work.

[Extinction: How Life on Earth Nearly Ended 250 Million Years Ago, Douglas H. Erwin](#) , 2006, 0691005249, 9780691005249. Some 250 million years ago, the earth suffered the greatest biological crisis in its history. Around 95% of all living species died out--a global catastrophe far greater than the dinosaurs' demise 65 million years ago. How this happened remains a mystery. But there are many competing theories. Some blame huge volcanic eruptions that covered an area as large as the continental United States; others argue for sudden changes in ocean levels and chemistry, including burps of methane gas; and still others cite the impact of an extraterrestrial object, similar to what caused the dinosaurs' extinction. Extinction is a paleontological mystery story. Here, the world's foremost authority on the subject provides a fascinating overview of the evidence for and against a whole host of hypotheses concerning this cataclysmic event that unfolded at the end of the Permian. After setting the scene, Erwin introduces the suite of possible perpetrators and the types of evidence paleontologists seek. He then unveils the actual evidence--moving from China, where much of the best evidence is found; to a look at extinction in the oceans; to the extraordinary fossil animals of the Karoo Desert of South Africa. Erwin reviews the evidence for each of the hypotheses before presenting his own view of what happened. Although full recovery took tens of millions of years, this most massive of mass extinctions was a powerful creative force, setting the stage for the development of the world as we know it today.

[Food and Mood: Second Edition: The Complete Guide To Eating Well and Feeling Your Best, Elizabeth Somer](#) , 1999, 0805062009, 9780805062007. Why do you feel tired after eating a full meal? Why do you have so much trouble concentrating? Why do you crave chocolate? Can diet affect depression? Is there a natural cure for insomnia? Nutrition expert Elizabeth Somer answers all these questions and more in this completely updated and revised second edition to her nutritional guide Food and Mood. The result of research encompassing thousands of the most up-to-date scientific studies, Somer explains how what we eat has a direct influence on how we feel, think, sleep, look, and act. She addresses specific food-related issues including health conditions, food cravings, diet struggles, stress, PMS, winter blues, energy levels, depression, memory, and sleep patterns, as well as tackling the issue of supplements and providing the real story on those you need and those you don't. Included is Somer's revolutionary Feeling Good Diet, a program that shows you how to take control of your eating habits to benefit mood and mental functioning now.

[Emotional development: recent research advances, Jacqueline Nadel, Darwin Muir](#) , 2005, 0198528833, 9780198528838.

From prenatal life onwards, our emotions play a central role in our development. Exactly how emotions shape our lives is less clear. We know that emotional impairments can have a disastrous effect on development. We know that emotions play a key role in adaptation. We know that traumatic emotional events can scar individuals. The processes through which these emotional changes occur is complex however, and has recently become the subject of considerable interest in the cognitive sciences. In this volume an outstanding group of scientists considers emotional development from fetal life onwards. The book includes views from neuroscience, primatology, robotics, psychopathology, and prenatal development. It also includes studies of emotional development in both normal and clinical populations. The first of its kind, this book will be of major interest to all those studying emotion, from the fields of social, developmental, and clinical psychology, to psychiatry, and neuroscience.

[Bedford Square, Anne Perry](#) , 2010, 0755383133, 9780755383139. When a man is found murdered on the doorstep of a

respectable house in Bedford Square, Victorian England's finest and most controversial policeman, Thomas Pitt, is called immediately to the scene. The only clue to the victim's identity is a silver snuff box found on the body, curiously at odds with the man's dishevelled appearance. Pitt soon discovers that the box, and the house where the body was found, belong to General Balantyne, a man Pitt knows to be a pillar of the community. He is dismayed to learn that Balantyne can barely recall the evening, let alone account for his movements.
