[Many Colored Land,](#) , [Julian May](#) , 1981, 0547892470, 9780547892474. In the year 2034, Theo Quderian, a French physicist, made an amusing but impractical discovery: the means to use a one-way, fixed-focus time warp that opened into a place in the Rhone River valley during the idyllic Pliocene Epoch, six million years ago. But, as time went on, a certain usefulness developed. The misfits and mavericks of the future many of them brilliant people began to seek this exit door to a mysterious past. In 2110, a particularly strange and interesting group was preparing to make the journey a starship captain, a girl athlete, a paleontologist, a woman priest, and others who had reason to flee the technological perfection of twenty-second-century life. Thus begins this dazzling fantasy novel that invites comparisons with the work of J.R.R. Tolkien, Arthur C. Clarke, and Ursula Le Quin. It opens up a whole world of wonder, not in far-flung galaxies but in our own distant past on Earth a world that will captivate not only science-fiction and fantasy fans but also those who enjoy literate thrillers. The group that passes through the time-portal finds an unforeseen strangeness on the other side. Far from being uninhabited, Pliocene Europe is the home of two warring races from another planet. There is the knightly race of the Tanu handsome, arrogant, and possessing vast powers of psychokinesis and telepathy. And there is the outcast race of Firvulag dwarfish, malevolent, and gifted with their own supernormal skills. Taken captive by the Tanu and transported through the primordial European landscape, the humans manage to break free, join in an uneasy alliance with the forest-dwelling Firvulag, and, finally, launch an attack against the Tanu city of light on the banks of a river that, eons later, would be called the Rhine. Myth and legend, wit and violence, speculative science and breathtaking imagination mingle in this romantic fantasy, which is the first volume in a series about the exile world. The sequel, titled *The Golden Torc*, will follow soon.

[The black box,](#) , [Michael Connelly](#) , 2012, 1743432445, 9781743432440. May 1992, and after four LAPD officers were acquitted after the savage beating of Rodney King, Los Angeles is ablaze. As looting and burning take over the city, law and order are swept away in a tidal wave of violence. But under threat of their lives, homicide detectives like Harry Bosch are still stubbornly trying to do their job. With no effective police presence on the streets, murder just got a whole lot easier--and investigating them got a whole lot harder. Escorted by national guard soldiers from murder scene to murder scene, Harry and his colleagues are only able to do the bare minimum in terms of collecting evidence. And for Harry that's not enough. When he finds the body of a female journalist executed in an alley, he cannot accept that he will never be able to bring her killer to justice, and her tragedy starts to eat into his soul. But then, twenty years later, Harry finds himself working in the Open Unsolved Unit, and suddenly the past comes back to haunt him once again, in a way he could never have imagined.

[Small Memories, Jos Saramago](#) , 2011, 0151015082, 9780151015085. Jos Saramago was eighteen months old when he moved from the village of Azinhaga with his father and mother to live in Lisbon. But he would return to the village throughout his childhood and adolescence to stay with his maternal grandparents, illiterate peasants in the eyes of the outside world, but a fount of knowledge, affection, and authority to young Jos. Shifting back and forth between childhood and his teenage years, between Azinhaga and Lisbon, this is a mosaic of memories, a simply told, affecting look back into the author's boyhood: the tragic death of his older brother at the age of four; his mother pawning the family's blankets every spring and buying them back in time for winter; his beloved grandparents bringing the weaker piglets into their bed on cold nights; and Saramago's early encounters with literature, from teaching himself to read by deciphering articles in the daily newspaper, to poring over an entertaining dialogue in a Portuguese-French conversation guide, not realizing that he was in fact reading a play by Moliere. Written with Saramago's characteristic wit and honesty, *Small Memories* traces the formation of an artist fascinated by words and stories from an early age and who emerged, against all odds, as one of the world's most respected writers.

[The Year of Faith: A Bible Study Guide for Catholics, Mitch Pacwa](#) , 2012, 1612786235, 9781612786230. Our society is struggling with what Pope Benedict has called "profound crisis of faith that has affected many people." In response, the Holy Father has called us all to a Year of Faith from October 2012 to November 2013. We see the signs all around us: the demand for science to prove everything before we can believe it, the role of media and celebrities who deny the existence of God and denounce the role of the Church, and the ease in which we can all isolate God and faith into only one part of our life. In a follow-up to his best-selling St. Paul Bible Study for Catholics during the year of St. Paul, Fr. Mitch Pacwa once again leads Catholics to a deeper understanding of Pope Benedict's call to action for the year. Perfect for individual or group study, this book is a wonderful guide to experiencing a conversion, growing in faith, and following Jesus Christ more closely.

[The future of television, Marc Doyle](#) , 1993, 0844234621, 9780844234625. Few industries have evolved as rapidly as television broadcasting, yet the decade ahead promises more dramatic changes than any previously seen. The Future of Television profiles a television industry on the brink of revolution, not only as an entertainment medium but as a powerful marketing, political, and information tool. Marc Doyle and the National Association of Television Program Executives (NATPE), have assembled this up-to-the-minute analysis of what is about to happen in the world of TV. Programming: Covers factors affecting programming decisions for network, cable, and satellite TV, such as financing, government regulation, mergers and acquisitions. Advertising: Examines how fractionalization of the mass market will impact everything from broadcast and narrowcast advertising, through assessing incomes and expenditures, to the genesis of paid programming. Technology: Provides a critical survey of advanced technologies that are transforming the industry, such as fiber-optics, interactive TV, high-definition television, and direct broadcast satellites. Growth: Commentary from leading television executives from North America, Europe, Australia and Japan as to how they view the advancement of the industry. A remarkable study of issues and trends that are shaping the future of television, this guide is for programmers, executives, marketing and media specialists, students of television, and anyone involved in this dynamic and fast-changing industry.

[A Practical Art Therapy, Susan I. Buchalter](#) , 2004, 1843107694, 9781843107699. It can be difficult to be spontaneous during every art therapy group. It is helpful to have a resource full of creative and inspiring ideas that can be utilized as needed. This broad-ranging collection of projects injects variety into art therapy sessions. A Practical Art Therapy is written in an easy-to-read format that is filled with practical creative experiences for therapists to use with individuals and groups. Chapters cover various media and methods, including murals, collages, sculpture and drawing, making it easily accessible for even the busiest therapist. Susan Buchalter includes practical art projects using everyday objects, and follows them through with a list of materials needed, a procedure plan and aims of the project. The creative exercises draw on situations and ideas that children and adults can relate to - for example, drawing wishes and goals, sculpting their own stress and creating a collage self-portrait. The author suggests ways of expanding art-making activities, such as drawing to music and creating personal logos. This book is suitable for those new to the arts therapies field, practising art therapists, counselors and social workers.

[One More Train to Ride: The Underground World of Modern American Hoboes, Cliff \(Oats\) Williams](#) , 2009, 0253112443, 9780253112446. Drawn from intimate interviews with 14 modern-day "steel rail nomads," One More Train to Ride provides a revealing picture of today's American hobo. Interspersed with their stories are original poems and songs echoing the ancient lyricism and loneliness of life on the road. Their connections with the past make the experiences of these hoboes even more striking, as they ride freight trains and jungle up in hobo camps, light years away from the 21st-century cyberworld -- yet touching the very core of American freedom and individualism. Cliff Williams skillfully elicits details of family background, motives, and clear insights into the daily life and philosophy of the modern hobo. With its evocative link to the past, One More Train to Ride continues a long tradition of books on hobo oral history, including Nels Anderson's *The Hobo* (1923) and Thomas Minehan's *Boy and Girl Tramps of America* (1934).

[The Friars: The Impact of the Mendicant Orders on Medieval Society, C.H. Lawrence](#) , 2013, 1780764677, 9781780764672. The mendicant friars of the Franciscan and Dominican orders played a unique and important role in medieval society. In the early thirteenth century, the Church was being challenged by a confident new secular culture, associated with the growth of towns, the rise of literature and articulate laity, the development of new sciences and the creation of the first universities. The mendicant orders which developed around the charismatic figures of Saint Francis of Assisi (founder of the Franciscans) and Saint Dominic of Osma (founder of the Dominicans) confronted this challenge by encouraging preachers to go out into the world to do God's work, rather than retiring into enclosed monasteries. C.H. Lawrence here analyses the origins and growth of these orders, as well as the impact which they had upon the medieval world in the areas of politics and education as well as religion. His study is essential reading for all scholars and students of medieval history.

Completely updated and revised in this eighth edition, *Leading Issues in Economic Development*, covers the main issues in economic development through professional journal articles by leading scholars. These articles are edited to provide greater accessibility to an undergraduate audience and organized thematically using overview essays along with explanatory notes and comments. This distinctive approach allows for a variety of perspectives while keeping the most important overall themes in sight. This extensive collection of articles and essays is prefaced with an introductory section that covers the measurement of development, recent economic performance of less developed countries, and the discipline of development economics. It also provides historical perspective on how the world divided into rich and poor

countries and treatments of international trade, human resources, investment and finance, urbanization and the informal sector, agriculture, income distribution, political economy, as well as development and the environment.

[Knowledge Assets : Securing Competitive Advantage in the Information Economy: Securing Competitive Advantage in the Information Economy, Max H. Boisot](#) , 1998, 0191589349, 9780191589348. It is now widely recognized that the effective management of knowledge assets is a key requirement for securing competitive advantage in the emerging information economy. Yet the physical and institutional differences between tangible assets and knowledge assets remain poorly understood. In the case of knowledge, the ownership and control of assets are becoming ever more separate, a phenomenon that is actually exacerbated by the phenomenon of learning. If we are to meet the challenges of the information economy, then we need a new approach to property rights based on a deeper theoretical understanding of knowledge assets. Max Boisot writes clearly and in accessible language providing some of the key building blocks which are needed for a theory of knowledge assets. He develops a powerful conceptual framework, the Information-Space or I-Space, for exploring the way knowledge flows within and between organizations. This framework will enable managers and students to explore and understand how knowledge and information assets differ from physical assets, and how to deal with them at a strategic level within their organizations.

This book analyzes representative works of African American fiction, film, and music in which interracial desire appears in the context of same sex desire. In close readings of these "texts," Stefanie K. Dunning explores the ways in which the interracial intersects with queerness, blackness, whiteness, class, and black national identity. She shows that representations of interracial desire do not follow the logic of racial exclusion. Instead they are metaphorical and anti-biological. Rather than diluting race, interracial desire makes race visible. By invoking the interracial, black gay and lesbian artists can remake our conception of blackness.

Every day we map. We map how we get from a to b. We map when we're somewhere new, and somewhere we've been many times before. We map ourselves, our days, our thoughts, memories, what we want to mark, save and share. Today it seems, that most of the time, despite all this mapping, we actually don't have a clear sense of where we are. Where We Are, a collection of new work, explores the shift from our classic understanding of map as geography to a more personal, human map. This collection of new writings, photographs, drawings, thinking looks to explode the map as we know it. A book of maps that puts people, not destinations at the centre, hoping to leave readers feeling completely lost. [The Happy Hooker's Guide to Sex: 69 Orgasmic Ways to Pleasure a Woman, Xaviera Hollander](#) , 2008, 1602392404, 9781602392403. Bestselling "sexpert" Xaviera Hollander's first how-to guide--on how to have mind-blowing sex. Xaviera Hollander may not have invented sex, but she is certainly one of its most outspoken proponents. Her book The Happy Hooker has sold more than 16 million copies worldwide and continues to captivate new readers with its humor, its zest for life, and, above all, for its downright honesty. She followed the success of her book with her monthly sex advice column for Penthouse, "Call Me Madam," which helped readers find fulfillment in bed for almost thirty years. The Happy Hooker's Guide to Sex takes hard-earned knowledge and puts it to excellent use, helping couples to experience the same mind-blowing pleasure that Xaviera has received and given for years. With a sense of fun and a knowing yet accessible voice, the Happy Hooker gives readers specific suggestions on how to spice things up in the bedroom. She writes from a woman's perspective, noting that her favorite sexual act has four letters and ends with "k." (Surprise: It's "talk.") Other suggestions include, "Pleasure her with her own toys," "Practice verbal bondage," and "Make home movies." With Xaviera as a muse and guide, this unique playbook promises to be a go-to Saturday night special! 30 b/w illustrations.

[Maximum Ride - The Manga, , James Patterson](#) , 2011, 0099538431, 9780099538431. Fourteen-year-old Maximum Ride, better known as Max, knows what it's like to soar above the world. She and all the members of the 'Flock' - Fang, Iggy, Nudge, Gasman and Angel - are just like ordinary kids - only they have wings and can fly. It may seem like a dream come true to some, but their lives can morph into a living nightmare at any time - like when Angel, the youngest member of the 'Flock', is kidnapped and taken back to the 'School' where she and the others were genetically engineered by

sinister scientists. Her friends brave a journey to blazing hot Death Valley, California, to save Angel, but soon enough, they find themselves in yet another nightmare - this one involving fighting off the half-human, half-wolf 'Erasers' in New York City. Whether in the treetops of Central Park or in the bowels of the Manhattan subway system, Max and her adopted family take the ride of their lives. Along the way Max discovers from her old friend and father-figure Jeb - now her betrayed and greatest enemy - that her purpose is save the world - but can she?

At the Los Angeles School of Global Studies, the freshman class began the school year with a goal - to share their life experiences with the world. To read their work is to live through their struggles: from the traditional tears of teenage heartbreak to poignant tales of estranged families and violent neighborhoods. Above all, you will find a sense of hope, unity, and rejuvenation from the words of these talented young Americans. En la Escuela de Estudios Globales de Los Angeles, los estudiantes del noveno grado comenzaron el año escolar con una meta: compartir las experiencias de sus vidas con el mundo. Leer sus escritos, es vivir sus luchas que van desde las lagrimas tradicionales de los corazones rotos de los adolescentes hasta la exasperadas historias de separacion de las familias y los vecindarios violentos. Sobretudo, encontrara un espiritu de esperanza, unidad, y rejuvenecimiento en las palabras de estos jovenes americanos talentosos.

[Gregor Piatigorsky: The Life and Career of the Virtuoso Cellist, Terry King](#) , 2010, 0786456264, 9780786456260. Forced to provide for his family from the age of 8 and thrown out of his home into a bitter Moscow winter at age 12, cellist Gregor Piatigorsky began his career as an archetypal struggling artist, using secondhand and borrowed instruments. When the October Revolution forced his escape to Warsaw, he enjoyed initial success with the Warsaw Philharmonic. Relocating to Berlin a few months later, he again struggled in poverty before eventually emerging as solo cellist with the Berlin Philharmonic. Settling in the United States during World II, Piatigorsky continued a brilliant career that cemented his place as one of the twentieth century's greatest musicians. This all-embracing chronicle of Piatigorsky's tempestuous life and career finally reveals the full life story of a musical legend.

[Letters from Abu Ghraib, Joshua Casteel](#) , 2008, 097911893X, 9780979118937. Cultural Writing. Biography and Memoir. LETTERS FROM ABU GHRAIB, a collection of e-mail messages sent by Joshua Casteel to his friends and family during his service as a US Army interrogator and Arabic linguist in the 202nd Military Intelligence Battalion, is the raw and intimate record of a soldier in moral conflict with his duties. Once a cadet at the US Military Academy at West Point and raised in an Evangelical Christian home, Casteel found himself stationed at Abu Ghraib prison in the wake of the prisoner abuse scandal. He was troubled by what he was asked to do there, although it was, as he writes, "miles within the bounds of what CNN and the BBC care about." Forced to confront the nature of fundamentalism, both religious and political, Casteel asks himself a fundamental question: "How should I then live?"

[The Oxford Handbook of Health Economics, Sherry Glied, Peter C. Smith](#) , 2013, 0199675406, 9780199675401. The Oxford Handbook of Health Economics provides an accessible and authoritative guide to health economics, intended for scholars and students in the field, as well as those in adjacent disciplines including health policy and clinical medicine. The chapters stress the direct impact of health economics reasoning on policy and practice, offering readers an introduction to the potential reach of the discipline. Contributions come from internationally-recognized leaders in health economics and reflect the worldwide reach of the discipline. Authoritative, but non-technical, the chapters place great emphasis on the connections between theory and policy-making, and develop the contributions of health economics to problems arising in a variety of institutional contexts, from primary care to the operations of health insurers. The volume addresses policy concerns relevant to health systems in both developed and developing countries. It takes a broad perspective, with relevance to systems with single or multi-payer health insurance arrangements, and to those relying predominantly on user charges; contributions are also included that focus both on medical care and on non-medical factors that affect health. Each chapter provides a succinct summary of the current state of economic thinking in a given area, as well as the author's unique perspective on issues that remain open to debate. The volume presents a view of health economics as a vibrant and continually advancing field, highlighting ongoing challenges and pointing to new directions for further progress.

[Native Born: The Songs of Neil Murray, Neil Murray](#) , 2009, 0980564395, 9780980564396. Neil Murray was born in Ararat in 1956 and grew up on a farm near Lake Bolac in the western district of Victoria. He studied Art in Ballarat and Melbourne and by 1976 he was writing songs and poems. After teaching briefly in Robinvale, he moved to the Northern Territory in 1980 to become an outstation worker at Papunya - an Aboriginal community in Central Australia and it was there the Warumpi Band was formed. The Warumpi Band toured widely over two decades and released three albums: Big Name No Blankets (1985), Go Bush (1987) and Too Much Humbug (1996) and were outstanding pioneers of contemporary indigenous music. Known for their exciting and powerful live performances, they were among the first to use indigenous language in rock music. Neil Murray launched his solo career in 1989 and has subsequently released 8 albums: Calm & Crystal Clear (1989), These Hands (1993), Dust (1996), The Wondering Kind (2000), Going The Distance (2003), About Time (2005), Spoken (2006) and Overnighter (2007). In 1995 he received the APRA song of the year award for his composition 'My Island Home'. 'Jailanguru Pakarnu' - co written with Sammy Butcher, and recorded by the Warumpi Band, was included on the inaugural National Film and Sound Archive's 'Sounds of Australia' collection in 2007. He is an active environmentalist and in 2005 he received an individual award by the Glenelg Hopkins Catchment Management Authority for his efforts in instigating an overland 'Healing Walk' along watercourses in the region as well as being the inspiration behind the establishment of the annual Lake Bolac Eel festival. As well as living in the outback he has lived in Sydney, Melbourne and Darwin. He maintains a residence in his native 'Tjapwurrung Country' in western Victoria and is a frequent visitor to the Northern Territory. He performs regularly at music festivals around the nation and overseas.

[Just Send Me Word: A True Story of Love and Survival in the Gulag, Orlando Figes](#) , 2012, 1846144884, 9781846144882.

From Orlando Figes, international bestselling author of A People's Tragedy, Just Send Me Word is the moving true story of two young Russians whose love survived Stalin's Gulag. Lev and Svetlana, kept apart for fourteen years by the Second World War and the Gulag, stayed true to each other and exchanged thousands of secret letters as Lev battled to survive in Stalin's camps. Using this remarkable cache of smuggled correspondence, Orlando Figes tells the tale of two incredible people who, swept along in the very worst of times, kept their devotion alive. Orlando Figes was granted exclusive access

to the thousands of letters between Lev and Sveta that form the foundation of Just Send Me Word, and he was able to interview the couple in person, then in their nineties. These real-time and largely uncensored letters form the largest cache of Gulag letters ever found. Reviews: 'One is overcome with admiration for the kindness, bravery and generosity of people in terrible peril ... It is impossible to read without shedding tears' Simon Sebag Montefiore, Financial Times 'This powerful narrative by a distinguished historian will take its place not just in history but in literature' Robert Massie 'Electrifying, passionate, devoted, despairing, exhilarating ... a tale of hope, resilience, grit and love' The Times 'Moving ... a remarkable discovery' Max Hastings, Sunday Times 'The gulag story lacks individuals for us to sympathise with: a Primo Levi, an Anne Frank or even an Oskar Schindler. Just Send Me Word may well be the book to change that' Oliver Bullough, Independent 'Immensely touching ... [a] heartening gem of a book' Anna Reid, Literary Review 'The remarkable true story of a love affair between two Soviet citizens ... as much a literary challenge as a historical one: the book can be read as a non-fiction novel' Telegraph 'Remarkable ... Figes, selecting and then interpreting this mass of letters, makes them tell two kinds of story. The first is a uniquely detailed narrative of the gulag, of the callous, slatternly universe which consumed millions of lives ... The second is about two people determined not to lose each other' Neal Ascherson, Guardian 'A quiet, moving and memorable account of life in a totalitarian state ... The book often reads like a novel ... captivating' Evening Standard 'Orlando Figes has wrought something beautiful from dark times' Ian Thomson, Observer 'A heart-rending record of extraordinary human endurance' Kirkus Reviews '[A] remarkable tale of love and devotion during the worst years of the USSR ... [Figes's] fine narrative pacing enhances this moving, memorable story' Publishers Weekly About the author: Orlando Figes is Professor of History at Birkbeck College, University of London. He is the author of Peasant Russia, Civil War, A People's Tragedy, Natasha's Dance, The Whisperers and Crimea. He lives in Cambridge and London. His books have been translated into over twenty languages.

[Lessons in Life \(Webster's Korean Thesaurus Edition\), Timothy Titcomb](#) , 2008, 0546516831, 9780546516838. Webster's paperbacks take advantage of the fact that classics are frequently assigned readings in English courses. By using a running English-to-Korean thesaurus at the bottom of each page, this edition of Lessons in Life by Timothy Titcomb was edited for three audiences. The first includes Korean-speaking students enrolled in an English Language Program (ELP), an English as a Foreign Language (EFL) program, an English as a Second Language Program (ESL), or in a TOEFL or TOEIC preparation program. The second audience includes English-speaking students enrolled in bilingual education programs or Korean speakers enrolled in English-speaking schools. The third audience consists of students who are actively building their vocabularies in Korean in order to take foreign service, translation certification, Advanced Placement (AP) or similar examinations. By using the Webster's Korean Thesaurus Edition when assigned for an English course, the reader can enrich their vocabulary in anticipation of an examination in Korean or English. Rare or idiosyncratic words and expressions are given lower priority compared to difficult, yet commonly used words. Rather than supply a single translation, many words are translated for a variety of meanings in Korean, allowing readers to better grasp the ambiguity of English, and avoid them using the notes as a pure translation crutch. Having the reader decipher a word's meaning within context serves to improve vocabulary retention and understanding. Each page covers words not already highlighted on previous pages. [In the Fullness of Time, Vincent Nicolosi](#) , 2010, 0692004645, 9780692004647. On Monday, November 25, 1963, President John F. Kennedy was buried in Arlington. During the stillness of this momentous day, Tristan Tecumseh Hamilton begins a long look back at his life and times, and at the life and times of his neighbor and fellow townsman, President Warren G. Harding, who died mysteriously in San Francisco forty years before. Throughout this final week of November 1963, the assassination and burial of President Kennedy becomes the mirror through which the now aging Tristan views the storied and long-buried past as it rises all around him. Power and love, ambition and loyalty, war and the devotion to homethese universal themes weave through the rich and intricate tapestry of this magisterial American epic that encompasses the world from the vantage of home.

In this book the author, who is both a feminist and a Muslim, aims to shed light on the status of women in Islam by examining and reassessing the literary sources as far back as seventh-century Islam. She portrays how, far from being the oppressor of women that his detractors have claimed, the Prophet upheld the equality of all true believers. Sifting through the mass of literature surrounding the life, works and teachings of Muhammad, some surprising facts emerge such as descriptions of how the wives of the Prophet discussed politics with him, and even went to war. Later restrictions and impositions on women such as the veil were never, she finds, the intention of the Prophet.

[The EU's Role in Global Governance: The Legal Dimension, Bart Van Vooren, Steven Blockmans, Jan Wouters](#) , 2013, 0199659656, 9780199659654. For years the European Union has been looked on as a potential model for cosmopolitan governance, and enjoyed considerable influence on the global stage. The EU has a uniquely strong and legally binding mission statement to pursue international relations on a multilateral basis, founded on the progressive development of international law. The political vision was for the EU to export its values of the rule of law and sophisticated governance mechanisms to the international sphere. Globalization and the financial crisis have starkly illustrated the limits of this vision, and the EU's dependence on global forces partially beyond the control of traditional provinces of law. This book takes stock of the EU's role in global governance. It asks: to what extent can and does the EU shape and influence the on-going re-ordering of legal processes, principles, and institutions of global governance, in line with its optimistic mission statement? With this ambitious remit it covers the legal-institutional and substantive aspects of global security, trade, environmental, financial, and social governance. Across these topics 23 contributors have taken the central question of the extent of the EU's influence on global governance, providing a broad view across the key areas as well as a detailed analysis of each. Through comparison and direct engagement with each other, the different chapters provide a distinctive contribution to legal scholarship on global governance, from a European perspective.

[Cattle Plague: A History, Clive A. Spinage](#) , 2003, 0306477890, 9780306477898. Cattle Plague: A History is the most comprehensive general study of the history of cattle plague or rinderpest yet attempted, of which there has not been a book in English since 1866. With its stranglehold on the economy of Europe until the later 19th century, rinderpest has been the most neglected study in history. The most virulent and dreaded animal disease to affect Europe and Asia from ancient times with up to 95 percent mortality of affected cattle; in the 18th century it is estimated to have carried off more than 200 million head of cattle in Europe, exclusive of Siberia and Tartary. Germany alone lost 28 million between

1711 and 1865, 3 in every 4 animals dying. Following its introduction into Britain in 1745, the losses in 1745-57 were estimated at in excess of half a million head. Its introduction in 1865 with a dozen oxen led to the death, including those which were slaughtered, of 278,943 animals, some estimates putting the loss as high as 420,000, representing 7 per cent of the national herd; according to some affecting livestock farming and the meat trade for the next 25 years. It was responsible for a major panzootic in Africa at the turn of the 19th century, devastating domestic and wild animals alike and affecting the ecology of Africa to the present. Confined today to one known remaining focus in Africa, the Food and Agricultural Organisation of the United Nations hopes to eradicate this disease entirely by 2010, which if successful will be the first animal disease to be eradicated from the world (and the second disease after smallpox) and would be one of the greatest achievements ever in veterinary science. Cattle Plague: A History is divided into five sections, dealing with the nature of the virus, followed by a chronological history of its occurrence in Europe from the Roman Empire to the final 20th century outbreaks; then administrative control measures through legislation, the principal players from the 18th century, followed by an analysis of some effects, political, economic and social. Then follows attempts at cure from earliest times encompassing superstition and witchcraft, largely Roman methods persisting until the 19th century; the search for a cure through inoculation and the final breakthrough in Africa at the end of the 19th century. The last section covers the disease in Asia and Africa. Appendices cover regulations now in force to control the disease as well as historical instructions, decrees and statutes dating from 1745-1878.

Big Brother is ascendant, aided by technology. Everyone is watched. Liberty has been traded for safety and both are lost. Personal privacy has been stolen and must be recovered. Young scientist WILLIAM GILES fights for freedom. He and his dad, IRON JOHN, a retired Special Ops Colonel, establish Cybertech. It sells security protection for private citizens. When John is abducted and presumed dead, Cybertech is attacked from all sides. Will stands alone, tortured by remorse and falsely accused. With all he loves at risk, he runs for safety, fleeing wrongful charges, and relentlessly pursued by UN paramilitary forces. A former student REBECCA RIDER is sent to get him to shelter. She rescues him in the high mountains. Their main allies are the Yakuza and her friends, an ancient cult that possesses advanced science. Both groups seek Cybertech's technology. How can either be trusted? Can Will find redemption? Can he and Becky save Cybertech and prevent his technology from being stolen? Can liberty survive? That's the story, a Hero's Journey framed

against a background of exotic locations, edgy science, societal challenges, and Global Governance.

[An Essay on Belief and Acceptance, L. Jonathan Cohen](#) , 1995, 0198236042, 9780198236047. In this incisive new monograph one of Britain's most eminent philosophers explores the often overlooked tension between voluntariness and involuntariness in human cognition. He seeks to counter the widespread tendency for analytic epistemology to be dominated by the concept of belief. Is scientific knowledge properly conceived as being embodied, at its best, in a passive feeling of belief or in an active policy of acceptance? Should a jury's verdict declare what its members involuntarily believe or what they voluntarily accept? And should statements and assertions be presumed to express what their authors believe or what they accept? Does such a distinction between belief and acceptance help to resolve the paradoxes of self-deception and akrasia? Must people be taken to believe everything entailed by what they believe, or merely to accept everything entailed by what they accept? Through a systematic examination of these problems, the author sheds new light on issues of crucial importance in contemporary epistemology, philosophy of mind, and cognitive science.

9780333688977. The first new biography of Oliver Cromwell in several years, this rounded account does equal justice to his public and private life, to his political career, his military abilities and his passionate religiosity. Ian Gentles synthesizes much recent research including Cromwell's activity as a lay preacher, his patronage of the arts and his promotion of horsebreeding. Gentles also provides fresh findings on Cromwell's pay as a soldier, his personal enrichment as general and lord protector, his little-known erotic side, and his astonishing generosity in the cause of international Protestantism. At the same time, this approachable study provides a new assessment of Cromwell's genius as a soldier and sheds light on the suspenseful drama surrounding parliament's offer of the crown in 1657. Ideal for students and general readers alike, this is an essential and stimulating introduction to all aspects of the life of a key figure in British history.

Celebrated by The Times as one of the 50 Greatest Crime Writers, Donna Leon brings Venice to life in the twenty-second Brunetti novel of this bestselling series, where our detective must uncover the mystery surrounding a mute man's murder. When making routine enquiries into a possible bribery case that could embarrass the mayor - a humiliation Vice-Questore Patta is very keen to avoid - Commissario Brunetti receives a call from his wife, Paola, who is evidently very upset. The middle-aged deaf mute with the mental age of a child who helped out at the Brunetti's dry cleaners has been found dead - an 'accidental' overdose of his mother's sleeping pills - and Paola is distraught by the news. To the neighbourhood he was just the 'boy' who helped out, but nobody knew much about him - not even his name. That a soul could have lived such a joyless life is too much for Paola to bear, and she asks Guido if he can find out what happened. It is a surprise to Brunetti just how little was known about this man-child - there are no official records to show he even existed. The man's mother is angry and contradictory when questioned about his death, and Brunetti senses that there much more to the story than she is willing to tell. With the help of Inspector Vianello and the ever-resourceful Signorina Elettra, perhaps Brunetti can get to the truth and find some measure of solace.

[Passport to life: autobiographical reflections on the Holocaust, Emanuel Tanay](#) , 2004, 0976026309, 9780976026303.

Described as a "script for a movie", Passport to Life: Autobiographical Reflections on the Holocaust, is a novel-like tale of adventure woven with a meditative element; making our protagonist part Indiana Jones, part Sigmund Freud. As a Jewish boy in Poland and Hungary during World War II, Emanuel Tanay struggled daily to stay alive and against all odds, succeeded. Sixty years later, Tanay looks back on a wonderful life in America, as an internationally known forensic psychiatrist and expert on homicide. Passport to Life is the written documentation of this journey. Part memoir, part history, and part social commentary, it is a successful hybrid, much like Tanay's life. Passport to Life is far, far more than an autobiographical memoir. It is more than a record of Holocaust atrocities. It is quite literally the embodiment of its

title, an indispensable contribution to Holocaust literature shelves and psychology shelves, and bears the absolute highest recommendation to school libraries, public libraries, Holocaust literature collections, scholars and lay readers alike. Do not pass up this book. The Midwest Book Review

[Civilization: A New History of the Western World, Roger Osborne](#) , 2008, 0099526069, 9780099526063. On 21

September 2001 George W. Bush told Congress 'This is civilization's fight.' A month later he said 'I'm not moving on because we're in a fight for civilization itself.' European leaders described the 11 September attacks as 'a declaration of war against the entire civilized world' by a force 'dedicated to the destruction of civilization'. But what do we mean by civilization? We have a vague belief in a Western tradition of openness and freedom that has produced a good life for its citizens and a culture of enormous depth and creative power. But the history of our civilization is also filled with unspeakable brutality. For every Leonardo there is a Torquemada, for every Beethoven symphony a concentration camp, for every Chrysler Building a My Lai massacre. How can we come to the defence of a civilization whose benefits seem so questionable? In this ambitious and important book Roger Osborne shows that we can only understand and take comfort in our civilization by re-examining and confronting our past. The barbarity in Western history can no longer be explained away as base human brutality breaking through the restraining bonds of civilization. Instead we need to see that civilization is itself a hazardous enterprise, creating enormous challenges to humans as moral social beings -andshy; challenges that we sometimes fail. ICivilization/I tells the story of the Western world from its origins to the present. Sweeping in its scope and comprehensive in its coverage, ICivilization/I covers everything from the siege of Troy to the Gettysburg address, from Charlemagne to the European Union and from Aristotle to John Rawls. Filled with the voices of the past - including Herodotus, Pericles, Cicero, St Paul, Plotinus, St Augustine, Boccaccio, Machiavelli,Cervantes, Locke, Voltaire, Jefferson, Gibbon, Darwin, Marx, Weber, Roosevelt and Arendt, to name just a few - the book ends with an assessment of the present state of Western civilization in the light of its past andshy;and an indication of how it might go about the urgent task of renewing itself. At such a dangerous time in the world's history this remarkable and compelling book is required reading.

[Principles of Sustainable Energy, Frank Kreith, Susan Krumdieck, Jan F. Kreider](#) , 2010, 1439814074, 9781439814079. A transition from a fossil fuelbased economy to one that uses renewable energy has become inevitable; this transition will not only be an engineering challenge, but will also be an economic and environmental one. Offering an interdisciplinary, quantitative approach, Principles of Sustainable Energy presents a comprehensive overview of the major renewable energy technologies currently available, including biomass and biofuels, solar thermal conversion, photovoltaics, and wind energy conversion. Written by renowned expert Frank Kreith, the book emphasizes economics as well as energy return on investment analyses for each technology and integrates the need for energy conservation with the overall aspects of building a sustainable energy system with renewable sources. The author covers energy storage in depth, because it is considered one of the most important, and problematic, requirements for building a sustainable renewable energy system. Treatments of the economics of nuclear power and options for transportation systems are also included. The book contains worked-out example problems illustrating engineering analyses from a systems perspective and problem sets to reinforce concepts and applications. Examples and exercises relating to solar energy systems cover latitudes in the Northern and Southern Hemispheres and use current worldwide solar radiation data. But this text is not merely academic: its clearheaded look at the energy picture from the ground up, and the environmental, economic, and sustainability benefits that renewable energy systems can provide, make it a resource for government and industry as well as a text for engineering students.

James Elkins has shaped the discussion about how we see artists, as art historians, or as outsiders view art. He has not only revolutionized our thinking about the purpose of teaching art, but has also blazed trails in creating a means of communication between scientists, artists, and humanities scholars. In Six Stories from the End of Representation, Elkins weaves stories about recent images from painting, photography, physics, astrophysics, and microscopy. These images, regardless of origin, all fail as representations: they are blurry, dark, pixelated, or otherwise unclear. In these opaque images, Elkins finds an opportunity to create stories that speak simultaneously to artists and to scientists, and to open both those fields to those of us who have little purchase in either. Regarding each image through the lens of the discipline that produced it, Elkins simultaneously affirms the unique structure of each way of viewing the world and brings those views together into a vibrant conversation.

[High Society: The Life of Grace Kelly, Donald Spoto](#) , 2009, 0307395626, 9780307395627. Drawing on his unprecedented access to Grace Kelly, bestselling biographer Donald Spoto at last offers an intimate, honest, and authoritative portrait of one of Hollywood's legendary actresses. In just seven years from 1950 through 1956 Grace Kelly embarked on a whirlwind career that included roles in eleven movies. From the principled Amy Fowler Kane in *High Noon* to the thrill-seeking Frances Stevens of *To Catch a Thief*, Grace established herself as one of Hollywood's most talented actresses and iconic beauties. Her astonishing career lasted until her retirement at age twenty-six, when she withdrew from stage and screen to marry a European monarch and became a modern, working princess and mother. Based on never-before-published or quoted interviews with Grace and those conducted over many years with her friends and colleagues from costars James Stewart and Cary Grant to director Alfred Hitchcock as well as many documents disclosed by her children for the first time, acclaimed biographer Donald Spoto explores the transformation of a convent schoolgirl to New York model, successful television actress, Oscar-winning movie star, and beloved royal. As the princess requested, Spoto waited twenty-five years after her death to write this biography. Now, with honesty and insight, *High Society* reveals the truth of Grace Kelly's personal life, the men she loved, the men she didn't, and what lay behind the facade of her fairy-tale life. [The Bungalow: The Production of a Global Culture, Anthony D. King](#) , 1984, 0195095235, 9780195095234. I just got off the sunset train I'm from the Angel Town The Golden West Los Angeles Where the sun shines all year round I left a girlie back there She's the sweetest girl I know She said 'Goodbye' I'll wait for you In the Land of the Bungalow from *In the Land of the Bungalow* by George F. Devereux (1929) The bungalow, in all its various forms, has existed since the early seventeenth century--from its origin as a Bengalese hut, or "banggolo," made of mud, cow dung, thatch, and bamboo, to later developments as a one-story, square structure surrounded by a colonnaded veranda, and the subtle permutations exhibited in designs such as the Frank Lloyd Wright style "prairie House." Originally created as a peasant dwelling in rural India, and later an accommodation for European travellers and expansive permanent residences for the colonial ruling class who served there, the bungalow has become one of the most frequently adopted house forms throughout the world and the most popular home style in the United States. Architects the world over have extolled the bungalow's merits in their interpretations of its modest style and economy, while romantic notions of this humble abode have been conveyed through poetry and song by both temporary sojourners and permanent residents, rejoicing in its simplistic luxury. It is, in fact, the only dwelling which, in both name and form, exists on every continent (the word bungalow has entered eighteen languages). The first work of its kind, this richly illustrated volume takes readers on an engaging tour of the history of the bungalow, explaining the evolution of this architectural wonder, from its inception as a practical dwelling place to its present day incarnation as a suburban home looked upon with affection and pride. Here, Anthony D. King

explores the historical forces, which in producing the bungalow, also shaped the modern world: colonialism and industrialization, capitalism and socialism, urbanization and suburbanization. He argues that a global culture of architectural style can be identified with the bungalow, one which accords with the development of our international, capitalistic, and urban culture, and that the bungalow "was one of, if not the first, common house types of this culture." Every type of bungalow is discussed, including the American Craftsman and Arts and Crafts cottage styles, the Spanish Colonial and California bungalows that became the basis for suburban sprawl throughout Los Angeles, and the Japanese teahouse style that dominates the Florida landscape. Offering the definitive history of America's most popular house form, this fascinating work provides an engaging look at the charming structure of the bungalow. Indeed, as this unique book shows, one might expect to hear a happy bungalow owner (whether from a bohemian summer bungalow in the woods of Vancouver or a family home in the suburbs of Jacksonville, Florida) singing a bungalow tune: "Far from the city, Somehow it seems, We're sitting pretty in, Our bungalow, Of dreams."

[Oral presentations for technical communication, Laura J. Gurak](#) , 2000, 0205294154, 9780205294152. Oral Presentations for Technical Communication provides what most technical communication books lack: clear, accessible instruction on speaking. This book helps professionals master public speaking in a technical or scientific environment, whether it be through traditional presentations with whiteboards and flipcharts or presentations with computer software such as PowerPoint. Unlike most general speech texts, which include examples from various disciplines, Oral Presentations uses specific examples from the fields of science and technology and shows how skilled technical communicators make complex information accessible to non-technical audiences. The first three parts of the book focus on basic skills and concepts, including four basic types of presentations relevant to technical communication. The last two parts introduce more advanced topics, such as legal, privacy, and censorship issues, and the changing nature of presentations in the digital age. Oral Presentations thus brings together the best, most current instruction from three fields: technical communication/rhetoric, speech communication, and computer and information technology. For professionals in public speaking, oral presentations, and technical communication.
