[Sworn Sword: 1066 - The Aftermath, James Aitcheson](#) , 2012, 0099559412, 9780099559412. An ambitious young Norman soldier fights against desperate odds to consolidate the conquest of England in the years after the Battle of Hastings. Brilliant first novel in the mould of Requiem by Robyn Young. January 1069. Less than three years have passed since Hastings and the death of the usurper, Harold Godwinson. In the depths of winter, two thousand Normans march to subdue the troublesome province of Northumbria. Tancred a Dinant, an ambitious and oath-sworn knight and a proud leader of men, is among them, hungry for battle, for silver and for land. But at Durham the Normans are ambushed in the streets by English rebels. In the battle that ensues, their army is slaughtered almost to a man. Badly wounded, Tancred barely escapes with his life. His lord is among those slain. Soon the enemy are on the march, led by the dispossessed prince Eadgar, the last of the ancient Saxon line, who is determined to seize the realm he believes is his. Yet even as Tancred seeks vengeance for his lord's murder, he finds himself caught up in secret dealings between a powerful Norman magnate and a shadow from the past. As the Norman and English armies prepare to clash, Tancred begins to uncover a plot which harks back to the day of Hastings itself. A plot which, if allowed to succeed, threatens to undermine the entire Conquest. The fate of the Kingdom hangs in the balance.

[Between Mountains, Maggie Helwig](#) , 2011, 1448112117, 9781448112111. Maggie Helwig's stunning British debut is an extraordinary war novel, a poignant and gripping story about the ripples that carry on long after the fighting is over, and about two people kept apart by history, ethics and human frailty. Daniel is a war correspondent in Bosnia, a loner and a truth-teller, up to a point, careless with everything except his sources. Lili is an interpreter, based in Paris, careful and meticulous. But when she finds herself working for the war crimes tribunal in The Hague, fails to declare her fragile relationship with Daniel. *Between Mountains* is a compelling novel of immediacy and power, about love and language, truth and lies, war crimes and the weight of history - with a vividly evoked and frighteningly real supporting cast of war criminals, lawyers, refugees and journalists.

[Beyond Bond: Spies in Fiction and Film, Wesley Alan Britton](#) , 2005, 0275985563, 9780275985561. At a time when the methods and purposes of intelligence agencies are under a great deal of scrutiny, author Wesley Britton offers an unprecedented look at their fictional counterparts. In *Beyond Bond: Spies in Film and Fiction*, Britton traces the history of espionage in literature, film, and other media, demonstrating how the spy stories of the 1840s began cementing our popular conceptions of what spies do and how they do it. Considering sources from Graham Greene to Ian Fleming, Alfred Hitchcock to Tom Clancy, *Beyond Bond* looks at the tales that have intrigued readers and viewers over the decades. Included here are the propaganda films of World War II, the James Bond phenomenon, anti-communist spies of the Cold War era, and military espionage in the eighties and nineties. No previous book has considered this subject with such breadth, and Britton intertwines reality and fantasy in ways that illuminate both. He reveals how most themes and devices in the genre were established in the first years of the twentieth century, and also how they have been used quite differently from decade to decade, depending on the political concerns of the time. And he delves into such aspects of the genre as gadgetry, technology, and sexuality-aspects that have changed with the times as much as the politics have. In all, *Beyond Bond* offers a timely and penetrating look at an intriguing world of fiction, one that sometimes, and in ever-

fascinating ways, can seem all too real.

[An Introduction to Nonlinear Partial Differential Equations, J. David Logan](#) , 2010, 0470438584, 9780470438589. Praise for the First Edition: "This book is well conceived and well written. The author has succeeded in producing a text on nonlinear PDEs that is not only quite readable but also accessible to students from diverse backgrounds." SIAM Review A practical introduction to nonlinear PDEs and their real-world applications Now in a Second Edition, this popular book on nonlinear partial differential equations (PDEs) contains expanded coverage on the central topics of applied mathematics in an elementary, highly readable format and is accessible to students and researchers in the field of pure and applied mathematics. This book provides a new focus on the increasing use of mathematical applications in the life sciences, while also addressing key topics such as linear PDEs, first-order nonlinear PDEs, classical and weak solutions, shocks, hyperbolic systems, nonlinear diffusion, and elliptic equations. Unlike comparable books that typically only use formal proofs and theory to demonstrate results, An Introduction to Nonlinear Partial Differential Equations, Second Edition takes a more practical approach to nonlinear PDEs by emphasizing how the results are used, why they are important, and how they are applied to real problems. The intertwining relationship between mathematics and physical phenomena is discovered using detailed examples of applications across various areas such as biology, combustion, traffic flow, heat

transfer, fluid mechanics, quantum mechanics, and the chemical reactor theory. New features of the Second Edition also include: Additional intermediate-level exercises that facilitate the development of advanced problem-solving skills New applications in the biological sciences, including age-structure, pattern formation, and the propagation of diseases An expanded bibliography that facilitates further investigation into specialized topics With individual, self-contained chapters and a broad scope of coverage that offers instructors the flexibility to design courses to meet specific objectives, An Introduction to Nonlinear Partial Differential Equations, Second Edition is an ideal text for applied mathematics courses at the upper-undergraduate and graduate levels. It also serves as a valuable resource for researchers and professionals in the fields of mathematics, biology, engineering, and physics who would like to further their knowledge of PDEs.

[Philosophy of Religion: A Guide and Anthology, Brian Davies](#) , 2000, 019875194X, 9780198751946. Is it possible to be both a philosopher and a religious believer? Is philosophy a friend or foe to religious belief? Does talk of God make sense? Does God exist? What is God? Essential for anyone pondering these and similar questions, *Philosophy of Religion: A Guide and Anthology* provides a comprehensive, authoritative, and accessible overview of the subject. Carefully edited by Brian Davies, it contains a wide-ranging selection of 65 of the best classical and contemporary writings on the philosophy of religion, together with substantial commentary, introductory material, discussion questions, and detailed guides to further reading. The editorial material sets the selections in context and guides students through the readings. Part I of the book examines the relation between philosophy and religion; Parts II-IV consider the existence and nature of God; Part V addresses the "problem of evil" that has puzzled thinkers for centuries; and Parts VI and VII are devoted to the relationship between morality and religion and to the question of life after death. An extensive treatment of the major issues that Western philosophers have faced in thinking about religion, *Philosophy of Religion* is an exceptional text. No other book on the market offers this combination of introductory guide along with such a substantial anthology of readings.

[Six-Day Creation: Does It Matter What You Believe?, Robert J. M. Gurney](#) , 2007, 1846250978, 9781846250972. Ever since long-age geology and the theory of evolution became established in the nineteenth century, Christians have been divided over how to respond to the secular view of origins. Among evangelicals there are two main positions. One is to accept the secular view in whole or in part, and to reinterpret the Bible to harmonize it with that view. The other is to reject the secular view, believing it to be incompatible with the Bible and contrary to the evidence. Are both these positions equally valid, or is one right and the other wrong? And does it really matter? This booklet examines some of the biblical, scientific and historical issues, and helps the reader to understand the debate and to make an informed choice.

[The Naive and the Sentimental Novelist: The Charles Eliot Norton Lectures, Orhan Pamuk](#) , 2011, 0857963813, 9780857963819. What happens within us when we read a novel? And how does a novel create its unique effects, so distinct from those of a painting, a film, or a poem? In this inspired, thoughtful, deeply personal book, Orhan Pamuk takes us into the worlds of the writer and the reader, revealing their intimate connections. Pamuk draws on Friedrich Schiller's famous distinction between 'naive' poets - who write spontaneously, serenely, unselfconsciously - and 'sentimental' poets: those who are reflective, emotional, questioning, and alive to the artifice of the written word. Harking back to the beloved novels of his youth and ranging through the work of such writers as Tolstoy, Dostoevsky, Stendhal, Flaubert, Proust, Mann, and Naipaul, he explores the oscillation between the naive and the reflective, and the search for an equilibrium, that lie at the center of the novelist's craft. He ponders the novel's visual and sensual power - its ability to conjure landscapes so vivid they can make the here-and-now fade away. In the course of this exploration, he considers the elements of character, plot, time, and setting that compose the 'sweet illusion' of the fictional world. Anyone who has known the pleasure of becoming immersed in a novel will enjoy, and learn from, this perceptive book by one of the modern masters of the art. 'He writes with an effortless authority, and deeply literate sophistications.' Peter Craven, *The Age*

[The Secret Life of the Earl St. Maur \(1835-1869\): - Was He My Great-Grandfather?, Joe A. A. Silmon-monerri](#) , 2010, 1425161979, 9781425161972. At thirty-one years of age, the warcrazy Earl St. Maur, after two failed courtships with prominent titled ladies and smarting from the recent demise of his younger brother - fatally wounded by a bear in India - was naturally feeling deeply depressed and frustrated. Then, at his lowest ebb, one day he discovered a seventeen year-old so called gypsy kitchen-maid sobbing bitterly after escaping from her oppressive below stairs job in a Park lane mansion. It was a case of mutual rescue. What followed, changed their so far lackluster lives around forever. Whether they married or did not, perhaps we shall never know, but their love - of the truest kind however sadly short lived - produced two fine offspring who officially carried his family surname, and who later produced their own lines. A Dutch waiter was said to have been hired to witness the couple's marriage at a coastal resort in southern Britain. But had there been an earlier secret affair in Morocco, with another mysterious, but local lady, that had produced a little boy of mixed race? Such a boy spent several years in the Earl's company, officially as his "servant." Also born in Morocco, about a decade earlier than the other two children, he was the author's paternal grandfather

[Les liaisons dangereuses, Choderlos de Laclos](#) , 1995, 0192829211, 9780192829214. The complex moral ambiguities of seduction and revenge make Les Liaisons dangereuses (1782) one of the most scandalous and controversial novels in European literature. Its prime movers, the Vicomte de Valmont and the Marquise de Merteuil, gifted, wealthy, and bored, form an unholy alliance and turn seduction into a game - a game which they must win. And they play with such wit and style that it is impossible not to admire them - until they discover that the game has mysterious rules that they cannot understand. In the ensuing vicious battle there can be no victors, and the innocent will suffer with the guilty.

[It Can't Be Done, Nellie Bly!: A Reporter's Race Around the World, Nancy Butcher](#) , 2003, 1561452890, 9781561452897.

This book tells the true story of a courageous woman's famous journey in 1889 that took her all the way around the globe in record time. Nellie Bly was a newspaper reporter for the New York World in the late nineteenth century. But instead of writing about "ladylike" subjects like tea parties and charity balls, Nellie wrote about the social problems of her day: poor job conditions, dilapidated housing, and dishonest politicians. Many people objected to the things she wrote about. But Nellie Bly was unstoppable. If someone told her "It can't be done, Nellie Bly," she went right ahead and did it anyway. But when Nellie read Jules Verne's novel, *Around the World in Eighty Days*, she was inspired to circle the globe even faster herself. Did the plucky young reporter go too far? Young readers will cheer for Nellie as she embarks on her 22,000-mile trip equipped only with one sturdy travel dress, a small satchel, and a pet monkey she picks up in Singapore as her traveling companion. Traveling by ship, train, and foot, she has all kinds of incredible experiences—from surviving a monsoon at sea to visiting a leper colony in China. Here is the true story of a woman with an indomitable spirit and love of adventure whose amazing journey will inspire a new generation of young readers.

[De Anima : Books II and III \(with passages from Book I\): Books II and III \(with passages from Book I\), Aristotle](#) , 1993, 0191591106, 9780191591105. Aristotle's *De Anima* has a claim to be the first systematic treatment of issues in the philosophy of mind, and also to be one of the greatest works on the subject. This volume provides an accurate translation of Books II and III, together with some sections of Book I; particular attention has been given to the translation of difficult terms, to help the student of philosophy who does not know Greek. A brief Introduction discusses Aristotle's approach to his subject, while the Notes provide a continuous philosophical commentary on the text. Since the original publication of this volume, Aristotle's philosophy of mind has been the focus of lively scholarly debate; for this revised edition, Christopher Shields has added a substantial review of this recent work, together with a new bibliography.

[The Savage Father, Pier Paolo Pasolini](#) , 1999, 1550710818, 9781550710816. This is one of Pasolini's least known books,

it is one of his most important challenges to himself and to the world. The book pits assumed Western cultural supremacy against the battle for Africa's freedom and self-assertion. The Savage Father offers a deep analysis of the internal struggles between the coloniser and the colonised, as well as showing us the externalised conditioning to which both are prey.

[Twenty Two Quick Proven Ways to Boost Collections, Prentice Hall PTR](#) , 1990, .

[We Are Here, Kristen Gallagher](#) , 2011, 0984885714, 9780984885718. From the author's note: "This work began years ago when Andrew Levy asked me to write an essay for the special issue of Crayon titled 'On Beauty.' I felt I had nothing to say about beauty and felt averse to a study of Kant or Hegel or formal aesthetics. I also hadn't been writing much, adjuncting at two CUNY schools and feeling more exhausted than inspired. So in the spirit of Gilbert Sorrentino's idea that constraint 'serves to destroy the much-cherished myth of inspiration, and its idiot brother, writer's block,' I decided to do something semi-procedural: I would go to 'beautiful' places with various close friends and audio recording equipment, and then later listen back to recordings of the excursions, transcribe them, and see if anything interesting emerged. After my first three outings, I transcribed for the first time. Within minutes it became clear that on these trips a great deal of time was spent consulting maps and otherwise orienting oneself--and the language of that was not only interesting but often funny. It had that quality of Perec's work that I love, his capacity for capturing those things that are so obvious, so ubiquitous, that we don't notice them. I thought surely this language must be happening all the time. So I decided to keep attending to it and collect incidents of it until I had 99 pages. Mostly this manuscript comes from these types of recorded trips, but sometimes the language just started happening and I would have to later reconstruct a scene relying on either memory or notes taken on my blackberry. Thanks to my fellow travelers: Steve Zultanski, Matvei Yankelevich, Phyllis van Slyck, Joanna Scutts, Laura Tanenbaum, Morgan Puett, Karen Miller, Sadie Levy, Gita Levy, Robert Fitterman, Tony Hightower, David Girves, Eileen Gallagher, Edward Gallagher, Gracie Cox, Ron Alexander, Pam Alexander, Chris Alexander."

[Gandhi, Bhikhu C. Parekh](#) , 2001, 1402768877, 9781402768873. Gandhi (1869-1948) was one of the few men in history to fight simultaneously on moral, religious, political, social, economic, and cultural fronts and to succeed in his struggle. Bhikhu Parekh offers a brief but focused look into Gandhi's life and thought, outlining his major philosophical insights, cosmocentric anthropology, spiritual view of politics, and theories of oppression, nonviolent action, and active citizenship. He also considers how Gandhi's success was limited by his lack of coherent theories of evil and of state and power, and how his hostility to modern civilization impeded his appreciation of its complexity.

[First Family: Abigail and John Adams, Joseph J. Ellis](#) , 2011, 0307389995, 9780307389992. The Pulitzer Prize-winning, best-selling author of *Founding Brothers* and *His Excellency* brings America's preeminent first couple to life in a moving and illuminating narrative that sweeps through the American Revolution and the republic's tenuous early years. John and Abigail Adams left an indelible and remarkably preserved portrait of their lives together in their personal correspondence: both Adamses were prolific letter writers (although John conceded that Abigail was clearly the more gifted of the two), and over the years they exchanged more than twelve hundred letters. Joseph J. Ellis distills this unprecedented and unsurpassed record to give us an account both intimate and panoramic; part biography, part political history, and part love story. Ellis describes the first meeting between the two as inauspicious--John was twenty-four, Abigail just fifteen, and each was entirely unimpressed with the other. But they soon began a passionate correspondence that resulted in their marriage five years later. Over the next decades, the couple were separated nearly as much as they were together. John's political career took him first to Philadelphia, where he became the boldest advocate for the measures that would lead to the Declaration of Independence. Yet in order to attend the Second Continental Congress, he left his wife and children in the middle of the war zone that had by then engulfed Massachusetts. Later he was sent to Paris, where he served as a minister to the court of France alongside Benjamin Franklin. These years apart stressed the Adamses' union almost beyond what it could bear: Abigail grew lonely, while the Adams children suffered from their father's absence. John was elected the nation's first vice president, but by the time of his reelection, Abigail's health prevented her from joining him in Philadelphia, the interim capital. She no doubt had further reservations about moving to the swamp on the Potomac when John became president, although this time he persuaded her. President Adams inherited a weak and bitterly divided country from George Washington. The political situation was perilous at best, and he needed his closest advisor by his side: "I can do nothing," John told Abigail after his election, "without you."

[Starting Up: An Interactive Adventure That Challenges Your Entrepreneurial Skills, David E. Rye](#) , 1997, 0133122409, 9780133122404. You've just made one of the most dramatic decisions of your life. After being "downsized" out of your executive-level position, you've decided to leave the corporate world for good and start your own company. Your mission: find a business venture under \$250,000 that will replace your lost corporate income and provide for your retirement. If you succeed, your new startup could emerge as a huge success where you would stand to gain more job satisfaction than you've ever experienced in your working life. If you fail, your limited personal funds will be exhausted and you may have to go back to a dreaded corporate job - at a fraction of your former pay. Here's the book that challenges your savvy, your judgment, and your nerve. You'll hammer out the sequence of tough decisions that an entrepreneur must make - and face the often unforeseen consequences that each choice triggers. As you assume control of your new company, you meet clients, customers, and business associates who are determined to influence your every

move. You must carefully weigh their advice and arguments. Whatever decisions you make, there will be consequences that demand further analysis and action. You will be required to make tough choices involving finance, the competition, strategic alliances, market share, and your own personal desires. Each decision can take you one step closer to triumphant success - or plunge you and your company into disaster. Whether you succeed or fail in your first attempts as entrepreneur and business owner, the best is yet to come. Starting Up's unique "what if" approach lets you replay your choices to explore different outcomes. In all, you'll find more than 100 decision points and 25 different outcomes, for hour after hour of provocative reading. Part razor-sharp business manual, part adventure novel, this always-entertaining book provides expert insight into the real-world problems and challenges faced by today's entrepreneurs. It gives you a fascinating way to sharpen your practical knowledge while giving you a real-life view into one of today's most exciting opportunities: starting and running your own business.

[The New Bottoming Book, Dossie Easton, Janet W. Hardy](#) , 2001, 1890159352, 9781890159351. Almost a decade ago, the first Bottoming Book taught tens of thousands of people that bottoming - being a submissive, masochist, slave, 'boy' or 'girl, ' or other BDSM recipient -- is as much an art as topping. Since then, the growing popularity of BDSM, and the blossoming of the Internet as a source of information and connection, have created a whole new universe of possibilities for players. Now, the completely updated revised New Bottoming Book gives even more insights and ideas, updated for a new millennium, about how to be a successful, popular bottom!

[Light and Video Microscopy, Randy Wayne](#) , 2009, 012374234X, 9780123742346. Most information about the nature of living cells is discovered through light microscope observation. The image seen through a microscope is not a magnified point-by-point representation of the object, but is an abstract representation of the object that must be interpreted. This interpretation is influenced not only by the actual structure of the object, but the physical characteristics of light and the microscope components, the preparation of the sample, and the microscopist's background. In order to interpret the image correctly and fully, the microscopist must understand the interaction of light with the sample. The purpose of this book is to provide the most comprehensive, easy-to-use, and informative guide on light microscopy. Light and Video Microscopy will prepare the reader for accurate interpretation of an image and understanding of the living cell. With the presentation of geometrical optics, it will assist the reader in understanding image formation and light movement within the microscope. It also provides an explanation of the basic modes of light microscopy and the components of modern electronic imaging systems and guides the reader in determining the physicochemical information of living and developing cells which influence interpretation.\* Brings together mathematics, physics, and biology to provide a broad and deep understanding of the light microscope\* Clearly develops all ideas from historical and logical foundations\*

Laboratory exercises included to assist the reader with practical applications\* Microscope discussions include: bright field microscope, dark field microscope, oblique illumination, phase-contrast microscope, photomicrography, fluorescence microscope, polarization microscope, interference microscope, differential interference microscope, and modulation contrast microscope

[Hidden Crimes, Emma Holly](#) , 2012, 0984916253, 9780984916252. Cats and dogs aren't supposed to fall in love. Like any wolf, RPD detective Nate Rivera knows this. He can't help it if the tigress he's been trading quips with at the supermarket is the most alluring woman he's ever met-sassy too, which suits him down to his designer boots. Evina Mohajit is aware their flirtation can't lead to more. Still, she relishes trading banter with the hot werewolf. This hardworking single mom hasn't felt so female since her twins' baby daddy left to start his new family. Plus, as a station chief in Resurrection's Fire Department, she understands the demands of a dangerous job. Their will-they-or-won't-they tango could go on forever if it weren't for the mortal peril the city's shifter children fall into. To save them, Nate and Evina must team up, a choice that ignites the sparks smoldering between them . . .

[An Unfinished Life: John F. Kennedy, 1917 - 1963, Robert Dallek](#) , 2003, 0759528284, 9780759528284. Everywhere acclaimed for its compelling narrative, its fresh insights, and its dispassionate appraisal of John F. Kennedy's presidency, this #1 national bestseller is the first full-scale single-volume biography of JFK to be written by a historian in nearly four decades. Drawing on previously unavailable material and never-before-opened archives, An Unfinished Life is packed with revelations large and small - about JFK's health, his love affairs, RFK's appointment as Attorney General, what Joseph Kennedy did to help his son win the White House, and the path JFK would have taken in the Vietnam entanglement had he survived. Robert Dallek succeeds as no other biographer has done in striking a critical balance - never shying away from JFK's weaknesses, brilliantly exploring his strengths - as he offers up a vivid portrait of a bold, brave, complex, heroic, human Kennedy.

visa, by unauthorized employment, lacking American credit and employment history, falling victim of fraud, or being arrested"--P. [4] of cover.

[Philosophy of Mind: Classical and Contemporary Readings, David John Chalmers](#) , 2002, 019514581X, 9780195145816.

What is the mind? Is consciousness a process in the brain? How do our minds represent the world? Philosophy of Mind: Classical and Contemporary Readings is a grand tour of writings on these and other perplexing questions about the nature of the mind. The most comprehensive collection of its kind, the book includes sixty-three selections that range from the classical contributions of Descartes to the leading edge of contemporary debates. Extensive sections cover foundational issues, the nature of consciousness, and the nature of mental content. Three of the selections are published here for the first time, while many other articles have been revised especially for this volume. Each section opens with an introduction by the editor. Philosophy of Mind is suitable for students at all levels and also for general readers.

try to escape the pastHolland Shepard is a responsible teenager who spends her life trying to keep her feelings inside. Her sister Geneva is the oppositea bundle of nerves who dreads sentimentality, but suffers so acutely from nervous disorders that a ride in an elevator is enough to send her into a fit. The girls are like summer and fallclose, yet utterly distinctbut in their parents house, they are growing up almost as ghosts. Because this home belongs to John, Kevin, and ElizabethHolland and Genevas siblings, who died before the girls were born.Burdened by grief, their parents cannot bond with the daughters who replaced their original family, and so it is left to Holland to look out for herself and her sister. When a mysterious artist comes to paint a mural in their house, the girls get a glimpse into their familys past and a chance to find themselves a place in its future.This ebook features a personal history by Adele Griffin including rare images and never-before-seen documents from the authors own collection.

[Sacred Mirror: Nondual Wisdom and Psychotherapy, Peter Fenner, Sheila Krystal](#) , 2003, 1557788243, 9781557788245.

How is modern psychotherapy impacted when it is approached from the presence and understanding of the unconditioned mind? What happens when therapists are able to function as a sacred mirror for their clients' essential nature, reflecting back not only the contents of awarenessthoughts, feelings and sensationsbut awareness itself? Informed by their direct experience as well as by nondual teachings from both eastern and western wisdom traditions, the authors take a fresh look at what psychotherapy can be. These seminal essays will challenge and inspire readers to approach psychotherapy in a new wayas a potential portal for experiencing their deepest nature as free and joyful beings.Seasoned clinicians, Dan Berkow, Stephan Bodian, Dorothy Hunt, Sheila Krystal, Lynn Marie Lumiere, Richard Miller, John Prendergast, John Welwood, Jennifer Welwood and Bryan Wittine, and innovative western spiritual teachers, Adyashanti and Peter Fenner, explore critical issues at the interface of psychology and spirituality from a nondual perspective.

[What I Wish I Knew When I Was 20: A Crash Course on Making Your Place in the World, Tina Seelig , 2010, 0062047418, 9780062047410.](#) Major life transitions such as leaving the protected environment of school or starting a new career can be daunting. It is scary to face a wall of choices, knowing that no one is going to tell us if we make the right decision. There is no clearly delineated path or recipe for success. Even figuring out how and where to start can be a challenge. As head of the Stanford Technology Ventures Program, Tina Seelig's job is to guide her students as they make the difficult transition from the academic environment to the professional world-providing tangible skills and insights that will last a lifetime. Seelig is an entrepreneur, neuroscientist, and wildly popular professor and in What I Wish I Knew When I Was 20 she shares with us what she offers her students -provocative stories, inspiring advice, and a big dose of humility and humor. These pages are filled with incredible examples, from the classroom to the boardroom, of individuals defying expectations, challenging assumptions, and achieving unprecedented success. Seelig throws out the old rules and provides a new model for reaching our potential. We discover how to have a healthy disregard for the impossible; that we don't have to be right all the time; and that most problems are remarkable opportunities in disguise. Part Maria Shriver's Just Who Will You Be and part Randy Pausch's The Last Lecture, this book is for everyone looking to make their mark in the world.

[The Princess Knight, Cornelia Funke](#) , 2003, 1904442145, 9781904442141. Violetta is a little princess who wants to be as strong and brave as her brothers. And what she lacks in size, she makes up for i determination. At night she slips out into the woods and secretly teaches herself to become the cleverest, most nimble knight in the land. Soon she will be ready for the greatest battle of all - the battle for herself.

[The Road So Far, Joseph Fonseca](#) , 2011, 0983409021, 9780983409021. Enter the world of Joseph Fonseca of the 10 Cities/10 Years Project. Joseph's world is rife with poems of grey concrete, corroding broken bricks and a dirty sky that litters the brain with strained street realism and caution. Within the realism of the road are companions who are as authentic as the friends we dutifully remember and casually forget. We find the lonely, the indigent and the dejected and, by close association and examination, we find ourselves feeling something of their damage. Our companions are bruised and injured by a life they can not escape; they groan and whimper through their awkward lives and then grow silent while we watch helplessly. And as we finally end our journey on Joseph Fonseca's road, we have discovered that our companions are representative of the familiar people of our lives: our friends, families, and neighbors. These are the people we love and the people we can't love, the people we fear and the people we manipulate, the people we will never see again and the people with whom we share ourselves. And ultimately, at the end of the road, we discover we are these people.

[The Many Worlds of Logic, Paul Herrick](#) , 1999, 0155067532, 9780155067530. With clear explanations and many examples drawn right out of day-to-day life, Paul Herrick untangles the complexities of logical theory in The Many Worlds of Logic. This new edition adds new chapters on informal logic and critical thinking. It also breaks out longer chapters from the previous edition into shorter, more focused chapters. Herrick has added many new explanations and examples; in each chapter, he covers the fundamentals completely before moving on to more challenging areas. Features\* Difficult terms are highlighted and explained carefully \* End-of-chapter glossaries help students remember important terms \* Hundreds of examples demonstrate the application of concepts \* Hundreds of exercises help students learn logic by actually doing it \* Truth-trees in an appendix help students go beyond the basics

[Code Reading: The Open Source Perspective, Volume 1, , Diomidis Spinellis](#) , 2003, 0201799405, 9780201799408.

You've got a day to add a new feature in a 34,000-line program: Where do you start? How can you understand and simplify an inscrutable piece of code? Where do you start when disentangling a complicated build process? How do you comprehend code that appears to be doing five things in parallel? You may read code because you have to, to fix it, inspect it, or improve it. You may read code the way an engineer examines a machine, to discover what makes it tick. Or you may read code because you are scavenging, looking for material to reuse. Code-reading requires its own set of skills, and the ability to determine which technique you use when is crucial. In this book, Diomidis Spinellis uses more than 600 real-world examples to show you how to identify good (and bad) code: how to read it, what to look for, and how to use this knowledge to improve your own code.

['What Do You Care What Other People Think?': Further Adventures of a Curious Character, Richard P Feynman](#) , 2007, 0141937580, 9780141937588. Richard Feynman Nobel Laureate, teacher, icon and genius possessed an unquenchable thirst for adventure and an unparalleled gift for telling the extraordinary stories of his life. In this collection of short pieces and reminiscences he describes everything from his love of beauty to college pranks to how his father taught him to think. He takes us behind the scenes of the space shuttle Challenger investigation, where he dramatically revealed the cause of the disaster with a simple experiment. And he tells us of how he met his beloved first wife Arlene, and their brief time together before her death. Sometimes intensely moving, sometimes funny, these writings are infused with Feynmans curiosity and passion for life.

[In Quiet Light: Poems on Vermeer's Women, Marilyn Chandler McEntyre](#) , 2000, 0802838790, 9780802838797. Although the paintings of Jan Vermeer continue to be celebrated, very little is known about the painter himself -- and still less about the women he painted. Who were they? What were their lives like? What thoughts, dreams, and desires might they yield up if we take the time to truly look at them? In this elegant volume Marilyn Chandler McEntyre asks these very questions, and she teases out intriguing possibilities in twenty poems arranged side by side with color reproductions of the paintings that inspired them. McEntyre has chosen eighteen of Vermeer's famous women -- including The Lacemaker, The Milkmaid, Girl with a Pearl Earring, and The Girl with a Red Hat -- to wonder about. Rich with imagined detail, these

poems each invite the reader to take a closer look at Vermeer's portraits, to celebrate not only Vermeer's artistry but also the significance of the women themselves. McEntyre thoughtfully imagines the personal lives of these women and attempts to capture what Vermeer himself saw in them -- a contemplative exercise that illuminates the presence of grace in the ordinary moments of life. A wonderful blend of art and poetry, this volume offers a unique aesthetic experience for personal reflection.

[I'll See You in the Morning, Mike Jolley](#) , 2008, 0811865436, 9780811865432. Now available in board book, this dreamy little book is like a hug and a kiss goodnight. Reassuring and loving, it's sure to become a favorite part of every child's bedtime ritual.

[The Collected Stories of Katherine Mansfield, Katherine Mansfield](#) , 2007, 0141904852, 9780141904856. Katherine Mansfield's clear, sparkling and perceptive short stories revolutionized the genre, and this collection represents the whole range of her writing. Moving, resonant, full of light and colour, they range from short sharp studies to longer, richer tales, encompassing her three major volumes Bliss, The Garden Party and In a German Pension, and fifteen tantalizing fragments of unfinished stories published after her tragic death, including 'Honesty', an intriguing tale of two bachelors, and 'The Doves' Nest', an exquisite story of a widowed mother and her daughter in the Riviera who receive a mysterious gentleman caller. Graceful, delicate and quietly devastating, they observe apparently trivial incidents to create sensitive, often painful revelations of her characters' inner lives.

[Foam Sclerotherapy: A Textbook, John J. Bergan, Van Le Cheng](#) , 2008, 1853157716, 9781853157714. The advent of

foam sclerotherapy has been one of the most important developments in the field of phlebology. Just as surgery has evolved into more minimal invasion, so has the treatment of varicose veins. Foam sclerotherapy is quick, efficient, easy to use and inexpensive, and is widely believed to become the dominant form of therapy for varicose veins. Foam Sclerotherapy: A Textbook explores the key role of foam in the treatment of venous insufficiency, provides authoritative and comprehensive information and examines the advantages and drawbacks of this method in detail. Written by experts from four continents, the book is divided into three sections: Theory, Practice, and Special Considerations, and includes chapters on: The history of sclerosant foams Legal guidelines Ultrasound guidance Studies on safety Treatment of venous malformations Foam Sclerotherapy: A Textbook is an essential textbook for all phlebologists, general surgeons, vascular surgeons, dermatologists, family physicians and gynaecologists who treat varicose veins, either full time or occasionally.

[The Sun King, Nancy Mitford](#) , 2011, 0099528886, 9780099528883. WITH AN INTRODUCTION BY STELLA

TILLYARD During his reign Louis XIV was the most powerful king in Europe. He presided over a golden age of military and artistic achievement in France, and deployed his charm and talents for spin and intrigue to hold his court and country within his absolute control. The Sun King's universe centred on Versailles, a glittering palace from where Louis conducted his government and complex love affairs. Nancy Mitford describes the daily life of this splendid court in sumptuous detail, recreating the past in vivid colour.

[Criminological controversies, Richard D. Knudten](#) , 1968, 013193581X, 9780131935815.

[Gothic Tales, Elizabeth Gaskell](#) , 2003, . "'The curse-the curse!' I looked up in terror. In the great mirror opposite I saw myself, and right behind, another wicked, fearful self' An encounter with the supernatural in an everyday setting accentuates its strangeness; a truth used to eerie effect in Gaskell's Gothic tales. A portrait turned to the wall, a hidden manuscript, a mysterious child that lives on the freezing moors, a doppelganger formed by a woman's bitter curse: all of these things hint at male tyranny and woman as avenging angel-or devil. Gaskell was fascinated by the dualities in women's lives and the way in which fact and fiction merge. 'Disappearances', a mix of gossip, legend and fact, relates stories of mysterious vanishings, 'Lois the Witch', based on an account of the Salem witch hunts, shows how sexual desire and jealousy lead to communal hysteria and persecution, while 'The Grey Woman' explores a common Gothic theme, the way in which the ghosts of the past always return to haunt us. This edition includes an introduction, chronology, explanatory notes and an appendix giving a reader's response to 'Disappearances'.

[Indian Legends of the Pacific Northwest, Ella Elizabeth Clark](#) , 2003, 0520239261, 9780520239265. This collection of more than one hundred tribal tales, culled from the oral tradition of the Indians of Washington and Oregon, presents the Indians' own stories, told for generations around their fires, of the mountains, lakes, and rivers, and of the creation of the world and the heavens above. Each group of stories is prefaced by a brief factual account of Indian beliefs and of

storytelling customs. Indian Legends of the Pacific Northwest is a treasure, still in print after fifty years.

[The Adventures of Lady: The Big Storm, Iris Pearson, Mike Merrill](#) , 2007, 0978998421, 9780978998424. "The Adventures of Lady: The Big Storm by Iris Pearson and Mike Merrill, winner of the 2007 New York Book Festival Best Children's Book Award, illustrated by former Disney Animators, explores children's fears of being left alone and inspires the understanding that even in the darkest of times, something wonderful is often just around the bend. This is the story of a scared and lost little squirrel named Lady who lands in a strange backyard. Rescued by a kind person with the Wildlife Center, Lady is cared for and soon grows strong enough to return to the wild. Gorgeously illustrated and brimming with color, the book is written in warm conversational prose which is perfect for beginning readers. Emotions such as loneliness and loss, friendship and the joy of family are explained through Lady and her story. A perfect bedtime story, "The Adventures of Lady: The Big Storm" is sure to be a cherished addition to any child's home library for years to come. Please also consider purchasing "The Adventures of Lady: The Big Storm COLORING BOOK a perfect compliment to this book.
