Contemporary Trends in Biological and Pharmaceutical Research (CTBPR -2011) March 12-13, 2011

Organized by:

Department of Biological Sciences
&
Department of Pharmacy
Birla Institute of Technology & Science (BITS),
Pilani - 333 031, Rajasthan, India

BITS, PILANI

The Birla Institute of Technology & Science (BITS), Pilani is an all-India Institute for higher education. Since its establishment in 1964, the primary motive of BITS is to "train young men and women able and eager to create and put into action such ideas, methods, techniques and information". Over the years, BITS has provided the highest quality technical education to students from all over India admitted on the basis of merit. BITS symbolize the maturing of Indian technical ability and "can-do" entrepreneurial spirit, especially as derived from the private sector. BITS, Pilani has also campuses at Goa, Hyderabad and Dubai.

DEPARTMENT OF BIOLOGICAL SCIENCES

Department of Biological Sciences of the BITS Pilani was formed by merging the existing Botany and Zoology Department in the year 1969. Since then the Department is engaged in providing the quality education to the selected students and contributing to the field of modern biology by the adequate research input. The department has research facilities in areas like Cell & Molecular Biology, Genetic Engineering, Bioprocess Technology, Plant Biotechnology, Molecular Immunology, Microbial Biotechnology, Molecular Modeling and all interrelated fields.

DEPARTMENT OF PHARMACY

Department of Pharmacy of BITS, Pilani is one of the few early schools of Pharmacy in India established in 1950. It blossomed into one of the most sought after Schools of Pharmacy in India due to its broad-based education system and university-industry linkages, which is the hallmark of BITS, Pilani. The Group lays special emphasis on research work in various areas like Drug Design, Novel Drug Delivery Systems, Pharmacokinetics, Pharmacology and all interrelated fields.

CLIMATE

Weather in Pilani in the mid of March is very pleasant with average temperature ranging between 15°C (Night) to 30°C (Day).

OBJECTIVES

In present era, research in both Biological Sciences and Pharmacy have overlapped and become very important in health sciences. Plenty of biologically developed products have become medicine. Thus, it has been decided to have a joint conference on Biological Sciences and Pharmacy to cover newly emphasized area. Major objective of this conference is to promote research and developmental activities in all inter-related areas of Biological Sciences and Pharmacy. Event is likely to provide an ideal platform to share views, experiences and ideas in a multi-disciplinary oriented approach from all related areas. Conference will include lectures by eminent scientists and brain storming discussions on increasingly multi-disciplinary research in the modern fields of Biology and Pharmacy.

CONFERENCE TOPICS

Animal Biotechnology
Microbial and Biochemical Technology
Bioremediation and Biodegradation
Cell and Molecular Biology
Environmental Biotechnology
Bioinformatics and Biomolecular Modeling
Biosensors and Bioelectronics
Environmental Biotechnology
Clinical and Cellular Immunology
Medical Biotechnology and Biomedical Engineering
Tissue Culture and Tissue Engineering
Nanoscience and Nanotechnology
Drug Discovery and Drug Design
Pharmacology and Clinical Research
Novel Drug Delivery Systems

BEST POSTER AWARD

To encourage students and young scientists, in the field of modern biology and pharmacy, abstracts are invited for poster presentation related to conference topics. The best poster(s) will be selected for the award.

IMPORTANT DATES

Submission of abstract : 5th March, 2011
Conference dates : 12th-13th March, 2011
