

Environmental Conservation Law 2012

Other Environment and Social safeguard laws e.g. Forest, Wildlife, Investment, Ethnic nationalities, Disability, Labour, Hazardous Waste, Planning

Sectoral Law(s)

Gaps in primary law relevant to sectoral activity

Environmental Conservation Rules 2014 (Art38-39 EQS, Art 51-61 EIA)

Relevant Sectoral Rules, Regulations, By-laws which concern environmental and social safeguards

Sectoral Rules, Regulations, By-laws

Gaps in byelaws and rules relevant to sectoral activity

MOECAF Notification 616/2015 EIA Procedure

Specific Environmental Quality Standards still to be not written and adopted

MOECAF Notification 616/2015 National Environmental Quality (Emission) Guidelines

Relevant notifications, orders, directives & procedures
Could include Zonation Plans, Building Code

Existing Sectoral notifications, orders, directives and procedures (tbd)

Sectoral standards which are lacking and need to be notified/issued as Directives (tbd)

Gaps in tertiary legislation relevant to sectoral activity

Draft ESIA Guidelines (generic) (ADB) To draft greater detail on assessing social impacts

Draft EIA Admin Guidelines (JICA) (to be merged with draft ESIA Guidelines?)

Draft Public Participation Guidelines (MPE/VLS)

Draft Sectoral Guidelines Mining (ADB) O&G (NorEA); Hydro (IFC); Tourism (MCRB)

Existing legislation in the purple outline is applicable to all sectoral projects even if they are not required to do an IEE/EIA. Red boxes are gaps in regulation. For those which do need to do IEE/EIA, these gaps can be partially covered by including specific requirements, in the Guidelines, from the relevant EHS Guidelines in the EMP/ECC. But Myanmar legislation should be put in place in due course to ensure all sizes of project are covered

Relevant aspects of IFC EHS Guidelines for Sector
